HI-JACKERS ROB DAIRY MANAGER

Borger Night Policeman Is Shot Down While On Beat

TWO SUSPECTS HELD; A THIRD LIKELY KNOWN

Coke Buchanan Killed Accosting Four Men

FORMER CONVICT IS IMPLICATED

Officer Neal Badly Beaten Before The Shooting

(Special to The News.)

BORGER, March 19.—J. H. Walker and Ed Bailey are confined in the Stinnett jail tonight charged with murder in connection with the slaying early Saturday morning of Patrolman Coke Buchanan.

The two men were arraigned this morning before Justice of the Peace S. M. Spencer and released on \$3,500 bond. Later, however, new evidence was found and the pair's arrest was ordered.

Officers are seeking Ray Terrill and Matthew Kimes, notorious Oklahoma convicts, who are believed to have been the two men who escaped after the shooting. They also expect to arrest "Whitey" Walker, but no charge has been placed against him.

(By The Associated Press.)

BORGER, March 19.—Patrolman Coke Buchanan was shot to death on Main street here early today and another policeman was severely beaten in an attempted arrest of four men riding in a large automobile. Buchanan was shot six times as he walked across the street toward the automobile which had been halted by Policeman Neal, who had seen the men handling fire arms. Neal, after being beaten, had gone to a telephone when Buchanan accosted the men.

TWO SUSPECTS HELD

PAMPA PROSPERITY IS REFLECTED BY THE ADS

During the first week of its history the Pampa Daily News has been distinctive because of the large number of full page or double-page advertisements it has published.

The advertisers who used such large amounts of advertising are among the outstanding organizations in the Panhandle, and the placing of the advertising was no experiment with them. The full-page ad has become a common sight in the business world, and its appearance in the Daily News shows the alertness of local merchants. One firm used four pages at one time.

Other merchants used large ads and repeated with follow-up copy which carried over and emphasized their business news. Business men who advertise freely have a greater turn-over in their stores and are able to give especially good values.

Read the Daily News for its business news in addition to local, state, and national stories. Ads in the News constitute a reliable business directory. Patronize the home merchants, who are building Pampa.

COMING EVENTS

MONDAY—Spring; a general meeting at the Chamber of Commerce to welcome W. S. Barcus, new secretary, and discuss fire truck, roads, and railways; important meeting of city council; junior declamations will be held at the high school auditorium.

TUESDAY—Senior declamation try-outs at high school auditorium at 8 p. m.

WEDNESDAY—The 30-piece band from Canyon Teachers college will play an hour's concert at the high school auditorium at 8 p. m.; President J. A. Hill of the college will meet with Boy Scout committee at 4 p. m. at C. of C. rooms.

THURSDAY—Fine social meeting at Chamber of Commerce at 8 p. m.

FRIDAY—Debate try-outs at high school auditorium.

SATURDAY—Last day to submit name for Pampa baseball team to Ed Gober or sports editor of the Pampa Daily News.

PAMPA TO GET TRUCK BRANCH

Indiana Company Will Locate Here; Trailer Company Also

M. F. Peel, representative of the Indiana Truck company of Marion, Ind., was here this week and announced that it is practically assured that a direct factory branch will be established by his company in Pampa within the next 60 days. The Indiana company is one of the oldest truck manufacturers in the United States and the branch that they will put here will be a permanent proposition. A complete stock of parts and a fully equipped service station will be maintained. Scores of Indiana trucks are being used in the oil fields and a big fleet of the trucks with special dump bodies is being used in the construction of the new Fort Worth & Denver South Plains railroad.

Mr. Peel said that before definitely deciding upon Pampa as the logical place for the branch to be established a thorough survey of conditions here and of the trucking situation within a radius of 50 miles was made. He is greatly impressed with Pampa and the spirit of its citizens and Chamber of Commerce. He complimented the business firms for their progressiveness and for the fact that the town is being built along permanent and substantial lines. He was pleased with the fact that Pampa is soon to have paved streets, and freely predicted that Pampa would be the best town in the oil field section. The fact that it is located on the main line of a trunk railroad and that it is in the very heart of the oil field are advantages that can not be overlooked by a distributor or wholesaler, he said.

A. Voight, of Superior, Wis., representing the High-Way Trailer company, accompanied Mr. Peel and stated that he will establish a branch here for his company at the same time that the Indiana company locates.

T. D. Hobart Is Made Vice-President Of Cattle Raisers

T. D. Hobart of Pampa, who attended the convention of the Texas Cattle Raisers association in El Paso this week, was honored with the office of vice-president.

Mr. Hobart is manager of the J-A Ranch and is one of the pioneer cattle men of this county. He is also president of the West Texas Historical society.

TORNADOES IN ARKANSAS ARE TAKING LIVES

Death Total Now Is 26; Wires Are Down

WIND AND HAIL ARE DESTRUCTIVE

Missouri and Oklahoma Also Torn By Twisters

(By The Associated Press.)

LITTLE ROCK, March 19.—Successive tornadoes left much suffering in Southwest and Central Arkansas, in one Northwestern border county, and in several towns beyond the Missouri state line. At least 26, and probably more persons, have been killed.

The latest disaster occurred last night when a twister curved through Green Forest, Ark., like a boomerang from the North. Visitors leaving the sector today had heard of 15 bodies being found and from 50 to 75 being injured.

Neighboring settlements reported buildings destroyed and lives lost. Near Marshfield, Mo., two persons were injured, buildings were damaged, and losses caused by hail and wind.

Thursday night's tornadoes left two persons seriously injured. The storms struck around parts of Southwestern counties of Arkansas, then skipped 45 miles to bring death to eleven persons in Saline county. Nearly 50 persons were hurt in half a dozen small communities. Another death occurred at Conway when a man was struck by lightning.

PAWHUSKA, Okla., March 19.—(AP)—Vague reports of a tornado at Burbank, near here, which last night is said to have killed nine persons.

Wires are down and the report cannot be verified.

C. of C. Meeting Monday to Be A Busy Session

A special meeting for all members of the Chamber of Commerce will be held Monday evening at 8 o'clock. The orchestra likely will be present to play a short concert.

This meeting will mark the end of the service of M. A. Turner, secretary and builder of the Chamber of Commerce organization, and will constitute a reception for the new secretary, W. S. Barcus of Sweetwater. Mr. Barcus will probably arrive today.

Important committee meetings will be held at the same time. The road bond committee will lay plans to open its campaign for the passage of the election of March 30, and the railroad committee will discuss its steps to interest another trunk line railroad to build through Pampa.

Also to be discussed at the session is the proposal to raise \$5,000 by popular subscription to make the first payment on a new fire truck.

Chinese Flee As Nationalists Near City of Nanking

SHANGHAI, March 19.—Hordes of panic stricken Chinese continued today to pour into Shanghai from Nanking.

The Nationalists are very close to Suchow. Labor unrest here continues, but no general response has been made to the call for a strike in all trades.

New Ambassador and Daughter

Ambassador Paul Claudel, new envoy from France to the United States, declares the American Legion convention in Paris this year will do much to prove that the French-American unity is unbroken. The ambassador is pictured here with his daughter, Reine.

PUBLIC IMPROVEMENTS TO COST ABOUT \$50,000 MAY BE ORDERED ON MONDAY EVENING BY COUNCIL

Dr. Cook Will Remain In Prison Pending a Test

(By The Associated Press.)

WASHINGTON, March 19.—Dr. Frederick Cook will be kept in the federal penitentiary at Leavenworth until a test has been made of the right of a federal judge to release a prisoner on probation after a sentence has begun, it was said at the department of justice today.

The former oil operator was sentenced to 14 years imprisonment for using the mails to defraud, and was ordered released Thursday by Federal Judge Wilson, Fort Worth.

Campaign For Pampa Hospital Halted By Cold

The campaign to raise \$5,000 for Pampa Hospital, Inc., was discontinued Saturday on account of the cold weather which arrived Friday night.

More than \$1,200 was raised Friday afternoon during the first half day of the drive.

A generous response to the call for funds to help open the new Pampa institution was reported by the solicitors.

Peonage Convicts Will Serve Time

RAYMONDVILLE, March 19.—Defendants convicted in the Willacy county peonage cases will accept sentence, according to former Sheriff Raymond Teller, who faces a prison term of 18 months and a fine of \$2,000.

FOUR MEN GET \$115 AND CAR FRIDAY NIGHT

Manager of Taylor Farm Held Up Near Pampa

ROAD BLOCKED WITH 2 CARS

Robbery First Here Since Oil Was Found

In the first big hold-up near Pampa since oil was discovered nearby, hi-jackers Friday night blocked the Miami road with two cars, halted a Taylor dairy delivery car, took \$115 from George Benson, and then drove eastward, taking the dairy vehicle with them.

Mr. Benson, manager of the dairy and an employe who was with him, walked 2 miles to a telephone and notified local officers, but a search by officers of this section had brought no results Saturday evening.

Benson had completed his collections on part of his route and about 9:30 was driving toward the dairy, which is located 7 miles east of Pampa. At the foot of Wilson hill 4 miles east of this city he saw two cars stopped parallel so as to block the road, and two men were apparently changing a tire. He brought his Ford delivery car—a roadster model—to a stop near the parked cars.

As the dairy car halted, two men who had been hiding in a ditch walked from behind it.

"Shove 'em up," was the short command.

The dairymen were searched by two hi-jackers who held automatics on their victims. Quick work was made of the search, then the only robber remembered well—a tall man wearing a large hat—covered his victims while his companions drove off with the two large cars and took possession of the delivery car. The quartet in the three cars disappeared quickly, going rapidly toward Miami.

Identification of the hi-jackers would be difficult, Mr. Benson said today, because the hold-up was in darkness. No disguises were worn. The parked cars were not burning the lamps, and one of the first orders given Mr. Benson was to turn out the lights in his dairy car.

One of the cars used to block the road was a Buick touring car, but the make of the other was not learned.

Optimistic ball fan—The sun is going to be shining so the ball team can have a practice Sunday afternoon.

Daily Mail Route To Mobeetie Is Asked For Fourth Time By Pampa

A fourth attempt to obtain a daily mail route between Pampa and Mobeetie is being made by the local post office and Mayor F. P. Reid.

In a letter to H. H. Belaney, fourth assistant postmaster general, Mr. Reid has pointed out that since the last effort was made Pampa's population has increased from 1,200 to 10,000. The Mobeetie vicinity is enjoying rapid growth also and the oil field mail traffic has increased to an extent that makes a daily route highly desirable.

Moreover, farmers along the route are eager for daily service. One factor is the fact that the Pampa Daily News just started has a big circulation among the farm-

ers who wish the paper daily. It is believed that M. B. Johnson, inspector for this postal district, will heartily recommend the daily service, since he is familiar with the emergency condition.

The Mobeetie route is No. 2, a star route with tri-weekly delivery. Previous requests have been denied with promises of the daily service when the demand became slightly greater, but since that time the population to be served has increased a dozen fold.

It is believed that the post office department will now grant the service on the basis of the tremendous oil development, which has raised the postal receipts in the Pampa office from a few thousand dollars a year to \$150 a day.

Tributes Paid To Life of District Judge Templeton

WELLINGTON, March 19.—Many tributes have been paid here this week to R. L. Templeton, judge of the 100th judicial district, who died here Monday following an operation for appendicitis.

Chronic appendicitis trouble was aggravated by a recent auto accident which took place as Judge Templeton was going to Memphis last week to attend court there, his car turning over with him. It was thought at first that his injuries were not serious but complications later set in. The funeral services were held Tuesday afternoon at the Methodist church in Wellington at 2:30 o'clock, conducted by Rev. B. J. Osborne, pastor, in which church Judge Templeton was a prominent lay leader.

Judge R. L. Templeton was the son of R. H. and Fanny Walker Templeton and was born in Shady Grove, Lincoln county, Texas, Aug. 28, 1884. A self-educated farm boy, he taught school to defray his expenses through his university career, which included a number of years at the University of Kentucky and later at the University of Texas, from which institution he received his LL. D. degree in 1916.

He began the practice of law in Wellington in June, 1910 and on July 15, 1912 was united in marriage to Miss Cleo Small, a sister of Judge Clint C. Small, prominent citizen of Wellington.

He served his people as county attorney for a number of years, was legislative representative from his district for six years and in 1923 was appointed district judge of the 100th district, following its formation from two other districts.

Judge Templeton is survived by his widow and two daughters, Mary Francis, aged 11, and Olivia, aged 7. He is also survived by his father, R. H. Templeton, of Flint Hill, Tenn.; three brothers, W. E. Templeton of Flint Hill; J. D. Templeton of Hope, Ark., and County Judge R. H. Templeton of Wellington, and one sister, Mrs. Laura Benson, of Comanche, Okla.

In the death of Judge Templeton, admired and loved throughout the section which he served well, Wellington and the other cities of the 100th judicial district, have lost a man whose every thought was for the up-building of the law and for the promotion of high ideals of citizenship.

Business men, professional men, farmers and men in all walks of life were numbered among his friends; and especially among the members of the bar will his cheerful, philosophical and fair-minded attributes, which served him so well in the court room, and on the streets, be sincerely missed.

County court which was in session in Clarendon the fore part of this week was called off and the entire membership of the bar attended the funeral services of Judge Templeton in Wellington Tuesday. District court was to have started its work here on Monday of next week and plans are going forward for the start with another judge on the bench.

DEEPENING HARBOR

SAN BENITO.—(AP)—Work on the harbor at Holly Beach and dredging of the 1,800 foot channel has been started under plans of the Texas Coast company. Work on the nine-mile canal from the Los Fresnos resaca was completed recently. The Holly Beach harbor will be entirely land locked, 100 feet wide and six feet deep. The channel will go into 6 and 7 foot water of Laguna Madre when completed.

OIL SHIPMENTS DECREASE

BEAUMONT.—(AP)—Shipment of refined oil from the Beaumont refinery of the Magnolia Petroleum company in February totalled 32,792, 030 gallons as compared with 37,467,750 gallons in January. Crude shipments were 631,543 barrels in February and 493,055 in January.

Farmers Are Urged To Keep Reliable Data On Methods

(EDITOR'S NOTE: The following article is contributed by Prof. J. L. Lester of the high school faculty. Prof. Lester is chairman of the Chamber of Commerce agricultural committee.)

The plant really eats. And it should be remembered that all plant food materials must be in solution before they can be utilized as food for the plant. Even when the tiny seed absorbs moisture, the solution in the seed becomes stronger than the solution in the soil. Hence by the process known as "osmosis" the solution is drawn from the soil into the seed and in return the leaves of the plants transpire; that is the moisture is thrown off through the leaves, at the same time depositing the plant food in the form of growth.

Soil moisture occurs under three conditions: First, that which fills the space between the soil grains and is found in such quantities as to move by gravitation, called "gravitational water." Second, that which adheres to the surface of soil grains and roots of plants and is called "capillary water." Third, that which is retained by soil grains after they become air dry. This is known as "hygroscopic water."

In the treatment of this phase of my subject, I may neglect hygroscopic moisture entirely. Gravitational water is beneficial in that it replenishes capillary water when this becomes too limited for plant growth, and is beneficial in washing out alkali and other materials that may have accumulated and become injurious to crops.

Excessive gravitational water may be injurious by washing out the soluble plant food, by excluding the air, and by injuring the texture of the soil.

Capillary moisture is the source by which the plant obtains its supply of moisture, and in which most of the plant food is held in solution.

When a soil is in proper tith, each small particle of soil is surrounded by capillary water, the conditions are just right for maximum plant development.

Throughout the greater portion of our state the limiting factor in crop production is soil (capillary) moisture. Therefore the water holding capacity of a soil is of the utmost importance to the farmer. And this depends largely upon two things: the texture of the soil and the fineness of the soil grains.

Humus is decayed organic matter mixed thoroughly with the soil. This substance is also one of the factors assisting the soil to hold the moisture so very necessary for the life of the plant.

Many parts of our state have an excessive moisture supply at almost all times. But throughout the Panhandle section of Texas one, at least, of the great problems is to keep in the soil a supply of moisture sufficient to support the plant until it develops and matures. This is easiest and best done by conserving the moisture that falls during the fall, winter and early spring. In doing this, the best methods to adopt, where possible, are: dust mulch and wind breaks.

To maintain a dust mulch here in the wheat section, if we would crop our land and every year, would require cultivation of the soil through the spring and summer. To undertake to keep an efficient mulch in the spring and early summer while wheat is growing, de-

veloping and maturing would certainly do more harm than good. Therefore the only means at the wheat grower's command along this line is to summer fallow. I am told by some wheat farmers, in and around Pampa, that summer fallow does not pay. By others, I am told that this practice does pay. So, as we would naturally expect in a new section like the Texas Panhandle, there would be a difference of opinion on this point. For in the absence of reliable experimentation, there is little or, at least, not sufficient data available at this time to make it possible to decide this disputed question with any degree of certainty.

In passing, I would say that the Pampa wheat grower would be

helping himself and rendering good service to his neighbor and to other interested persons of this section of the state, to try this out, on a small scale, perhaps, for several years, keeping accurate and reliable data from year to year. For records of one or two years are not of sufficient time to reach any reliable conclusion on this very important question. But if we had ten or, better still, 20 year records to base our practices upon, we would have a volume of information that would be dependable, and one that could be relied upon with a reasonable degree of accuracy.

To acquire this valuable store of information would neither be burdensome nor impracticable. It would require only a small portion of the wheat farmers' time and just a little more care on their part. The farmers would not only gain valuable information for themselves and their neighbors, information that could not be had in any other way, but from the very beginning their interest would be aroused and intensified. Therefore real, genuine pleasure would result.

The British ministry asks approximately \$77,500,000 for the yearly building plan of the air service.

The state of Wisconsin recently collected an inheritance tax of \$1,015,000 from the estate of one millionaire.

Webb Colony Planned

AUSTIN.—(AP)—Chicago and Detroit men plan to meet Texas men early in April to complete plans for colonization of a large tract in Webb county. A ranch of 80,000 acres is under process of purchase at an approximate cost of \$780,000, and the plans are to spend \$1,000,000 in improvements. The ranch will probably be divided into 1,500 farms.

SAN ANTONIO.—(AP)—Dates for the Citizens Military Training Camps for this year have been announced as follows: Ft. Sam Houston, San Antonio, June 15-July 14. Camp Stephen D. Little, Nogales, Ariz., Aug. 2-31. Ft. Logan, Denver, June 21-July 20. Ft. Sill, Lawton, Okla., July 2-Aug. 4. Ft. Bliss, El Paso, July 21-August 19. Ft. Crockett, Galveston, June 15-July 14. A campaign to obtain attendance of 4,000 young men is under way.

CABBAGE PRICE SET

HARLINGEN.—Cabbage growers in this district have decided to ask a minimum of \$10 a ton. The cabbage situation on the whole was regarded by the growers' committee as very satisfactory.

As fire swept through a Wellesley College laboratory, students saved collections valued at \$200,000.

Oil City Is Well Located

Oil City Rapidly Becoming Important Rock Island Stop

The Rock Island railroad is grading up its right-of-way and making preparations for the immediate construction of a railroad station in the new townsite of Oil City, which is located just north of the Canadian river bridge on the new Rock Island line between Amarillo and Liberal.

Gas and water lines have already been laid throughout the new town, the Panhandle Power & Light company is planning an immediate installation of electrical facilities, and the Southwestern Bell Telephone company expects to have service in Oil City in the near future.

In this new town, which opened several weeks ago, a score of new buildings many of them of a substantial character, are under construction. Numerous oil supply houses are putting in warehouses.

The location of the town, just north of the river at the bottle neck of traffic which will converge on this point, assures a large transient business for merchants. Also within a short time the new railroad which is now running trains to within a few miles of Oil City will be in a position to provide passenger and freight service. It is the closest shipping point for western Moore County, northeastern Potter county, north of the river.

The oil city pool is being drilled out rapidly, with scores of new locations being made. The Prairie and Marland-merchant wells are located adjacent to the town, and three wells are producing better than two thousand barrels a day.

SALAD FILLINGS FOR LUNCHES SUGGESTED

"Lunch time and tea time call for new and tasty sandwich creations," reports Miss Agnes D. Grabel, nutrition specialist of the National Dairy Council's Pittsburg unit.

Miss Grabel has these suggestions for sandwich fillings in the school-girl's lunch or the fappers noon-day "bite". They may even catch the alert eye of the afternoon hostess who is seeking a morsel that will create comment from her tea guests.

- (1) Chopped dates, nuts and cream cheese mixed with a little cream. Spread between thin slices of buttered bread. Use whole wheat bread just as often as possible.
- (2) Philadelphia cream cheese, a very small amount of ground onion, and pepper, is very tasty.
- (3) Peanut butter, mixed with salad dressing, is very wholesome. Whole peanuts can be ground and used. To make a change, celery and olives also peppers can be added.
- (4) Cottage cheese makes a satisfactory basis for sandwich filling—either alone or varied with nuts, olives, celery or caraway seeds.
- (5) Canned salmon or tuna fish, minced and combined with celery, ground pickle, hard-cooked egg and salad dressing is a change.
- (6) Wherever possible use vegetables, such as lettuce, watercress, and tomatoes in sandwiches.
- (7) An unusual sandwich filling is made by grinding crisp broiled bacon, celery, olives or pickles and combining with salad dressing.
- (8) Of course, fruit must not be neglected and, either raw or cooked, should find a corner in the lunch.

A tournament to decide the checker championship of the world is being held in New York.

HELPS FOR THE HOUSEWIFE

If Top of Salt or Pepper Shaker Sticks
If the top of salt or pepper shaker refuses to budge, use a nutcracker as a wrench, as it is small and easy to handle and is likely to be near at hand when needed.

Index Your Various Dishes.
Keep an index of various dishes usually prepared, each under its proper heading of Breads, Soups, etc. When puzzled over what to prepare for a meal a glance at the family favorites will often suggest a dish that has been almost forgotten.

To Clean Fine Mesh Strainer
A milk or other fine mesh strainer should have soap rubbed on it to push the dirt through the wires pour boiling water over the soap to carry it away and the strainer will be better cleaned than with a brush.

Try These Meat Cakes
The next time you make Hamburger Meat Cakes, add 2 level teaspoons of Calumet Baking Powder to each pound and see how much lighter and tastier they will be. Neither do they become heavy or hard upon cooling.

When Beating Eggs Separately
When beating eggs separately, beat the whites first and add a little to put with the yolks. They will get light much more quickly and not stick to the whips as when beaten up alone.

Using the Old Ledger.
An old ledger with alphabetical index is a great help in keeping and

using receipts. Paste receipts for apples, asparagus, etc., on the "A" page, and so on.

Patching an Old Apron.
New patches on old aprons are generally too conspicuous. Make the apron strings longer than needed so that when a patch is wanted it can be cut from the strings that have faded along with the apron.

CITY ENGINEER EMPLOYED BY WHITE DEER

WHITE DEER, March 19.—At a meeting of the city council Monday night it was voted to give J. S. Harrison of Panhandle a year's contract to supervise all engineering in the city with the exception of the water works, which had already been let.

Mr. Harrison will oversee the grading and drainage of the streets and under his directions the town can look forward to a drainage system which will adequately take care of such rains as we witnessed Friday night when the business houses from the Water & Perkins Cash grocery to the Everly and Henderson furniture store had to build dikes to keep the water from running into the stores.

Negroes are assets to the culture of the United States, a report of the interracial committee of Campaign and Urbana, Ill., says.

"Tell it to the Marines"

The absorbing story of a professional man who left his beautiful wife in the care of three of his best friends and who nearly had cause to regret his course, for what is friendship when a beautiful woman is concerned? An absorbing, alluring, dramatic, tenseful picture production, "For Wives Only." See it at the—

C. F. BUCKLER, Secretary.

TEXAS NOTES

Big Lake—Royal welcome was extended to C. F. Drake, newly elected full-time secretary of the Big Lake Chamber of Commerce, at a banquet tendered him recently. Drake came to Big Lake from the editorial staff of the San Angelo Standard.

Eden—An average of \$1,196 worth of poultry, eggs, and cream is being shipped out of Eden weekly according to statistics kept by a local authority. The town shipped out 12 cars of dressed turkeys the past season, and is becoming widely known for the quality of all its products.

Stamford—One hundred and twenty-five sacks of pure bred black hull kafir are finding their way through the mails to West Texas farmers this week. The seed being distributed by the West Texas Chamber of Commerce for the cost of mailing. More than twice as many calls for the grain were received than could be accommodated.

Spearman—Initiating Texas, official "Capon Day", Spearman celebrated her lead in the state's new of Spearman's position as leader in the capon field, the town furnished capon for the annual exhibitors and directors banquet at the Fort Worth Fat Stock show. The banquet was put on by the West Texas Chamber of Commerce and gave much publicity to all West Texas through serving of a "West Texas Menu" in which products were listed coming from various sections.

Rotan—Considerable diversification will be carried on in this region during the coming year. One of the biggest extensions will be that of

Wealthy at 12

At 12 years of age, Alice Grotte is the chief heir to an estate of \$125,000 left by her father, Charles Grotte, Omaha real estate man. Alice lives with her mother in Milwaukee.

during the spring and early summer. Removal of the fencing around the court house grounds was recently made here to improve the civic attractiveness of the place.

Fort Worth—The Panhandle-Plains exhibit put on by the West Texas Chamber of Commerce came in for second place award at the Fat Stock show, being lead by Southeast Texas exhibit by less than one per cent. The exhibit of all West Texas products, not sufficient to fill a competitive exhibit and not following a score card, placed fifth for the West Texas Chamber of Commerce territory. Three agricultural judges from A. & M. college judged the displays.

An aviator who flew too low in performing stunts for his sweetheart, an inmate in a girl's seminary, was recently arrested in France.

Vice-president Dawes will launch his second crusade against filibustering in the United States Senate in a speaking tour beginning next month.

LAST SPANISH KING?

King Alfonso of Spain is seriously ill.

The Prince of Asturias, the heir apparent, is not as apparent as the circumstances might indicate.

There is a famous sepulchre in Madrid where Spain puts away her kings. And there is but one tomb remaining. When Alfonso dies his form will fill the last of the kingly resting places.

The next ruler cannot be favored by tradition, but will have to begin some of his own. He likely will. There has long been a feeling among students of the Spanish government that Alfonso will be the last Spanish monarch; that a bloodless revolution will establish constitutional government and add another nation to the list of republics.

Alfonso has been a popular sovereign, and a democratic one. The literary tirades of Blasco Ibanez and the scheming of political radicals have made little impression upon the warm spirited Spaniards.

But the Prince of Asturias, that dapper young man to whom the crown should pass, is expected to receive little support if a movement for constitutional government gets under way. It is known that King Alfonso is favorable, or once was, to the idea that he would be the last king. He even was reported to have considered abdicating in order to help form the proposed new government.

Probably no country in the world is more likely to pass from monarchical to constitutional government with as little friction as Spain. It will be interesting to note the events which follow Alfonso's death. Even if the prince should be crowned, his abdication and possible election as president would be probable.

PRESS FORUM

Tulia Herald: While we may not be able to say that Tulia has a building boom on, we certainly can truthfully say that gradual and healthy development is taking place in this splendid building program that is under way, and which promises to continue. A steady healthy growth is far better than a boom that overdoes things, and leaves depression in its wake.

Miami Chief: The first issue of the Pampa Daily News which came off the press Thursday, was received by the Chief. The Pampa daily is far above the average of the small city daily and its success is already assured. Olin E. Hinkle is the editor. He was editor of the college publication of the West Texas Teachers college at Canyon. Mr. Hinkle is a brilliant editorial writer and the Nunn-Warren company is fortunate in securing his services. The Chief is glad to welcome the "baby" daily of the Panhandle and expects to see it grow and prosper with our neighboring city, which now claims a population of better than 10,000 citizens. The Pampa Daily News will in all likelihood secure a large list of readers in Roberts county.

Canyon News: The new libel law of Texas will give the

These Two Boys Can Stand Lots of Heat

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON.—Into the jaws of death sails Senator Hiram K. Bingham, the bravest man in the Senate.

Blithely he left us and, assuming that he escapes alive, he will return with the same unruffled mien which he has somehow always managed to retain in those more or less august precincts of the upper house.

Even as the cables provided the final figures on the death toll of the latest Japanese earthquake. Senator Bingham was headed for the land of Nippon.

As the Chinese war grows hotter, Senator Bingham is also on his way toward Shanghai by way of Peking.

And if the earthquakes or the coolies don't get him, the Moro head-hunters will have their chance, for the senator subsequently plans to spend three weeks in the Philippines.

We who have been privileged to observe Senator Bingham in action—if his calm, measured movements and utterances may be called action—can easily visualize the scene in case he meets grave menace from any of the sources of peril which lie along his path.

Should an earthquake begin to swallow him up in the terrestrial bowels, it is doubtful whether even a scowl of displeasure would be permitted to darken his shining countenance. If he made any effort to escape, there certainly would be nothing undignified about it. He might, indeed, speak. Judging from past performances under fire, he probably would address himself to Jehovah—or perhaps the native deity, Buddah, for Senator Bingham was never impolite—somewhat as follows:

"My Dear Sir, the sovereign state of Connecticut seems about to be deprived of an able and conscientious representative. A fairly good constitutional lawyer, an authority on the Spanish language and the Latin-American countries, the Monroe doctrine and commercial aviation, seems to be slipping into goodness knows what. If allowed to proceed on his contemplated journey,

newspapers the right to print what the politicians say during the campaigns without danger of libel suits. It is expected that the politicians will be a little more careful in the future as to the charges they make.

he would return to his country an expert on the Chinese situation, the Japanese situation and upon the military and territorial affairs of the Philippines and Hawaii—and earthquakes. My Dear Sir, in the light of these facts, I suggest that you think it over."

Even if he knew things were happening so rapidly that he couldn't finish a third of this speech, Senator Bingham would not speed up nor would he slur his words. This would be no excited prayer for success.

And in the face of a Chinese firing squad or a murderous tribesman, Senator Bingham would say virtually the same thing in exactly the same manner. That's Bingham.

Tall, spare, white-haired and possessed of the most scholarly appearance in Congress, he goes through life with the attitude of a pedagogue who knows that no smart student is ever going to trip him up.

It is thus that he speaks to the Senate in a colorless monotone which never deviates in pitch. It is said that he can empty the galleries more rapidly than almost anyone else—he never plays to them. Generally, too, he arises in the wake of a powerful speech by someone like Borah or Reed and the contrast is too much for the sensation-seeking crowds.

TWINKLES

A hick town is one in which night is a prolongation of the day.

Pampa wants an athletic club, and Amarillo did before they decided to call it a university.

By the way, do the classical old professors have to drive their students to suicide to prove that culture is not dead?

Borger is that West Texas city whose press agents go crazy from idleness.

Formerly the cow trail led from nowhere to nowhere, but paved highways in Gray county will build "somewhere" along its limits.

Straw votes are being started, so the politicians can now begin their wind storms. Straw polls show where to blow the hardest.

Fun 'er nothin': Watching these newcomers try to make big evils out of sights as harmless as the dr. ak. of day.

COACH MADE MANAGER OF CLARENDON C. OF C.

CLARENDON, March 19.—The directors of the Chamber of Commerce have elected Lester Boykin to the place of secretary-manager of the organization. The place will be taken immediately after the close of the school here in May. Until that time the office will be occupied and the correspondence will be attended by the Board and some assistant that will be selected by the board.

Mr. Boykin has been a popular coach of athletics in the Clarendon High School for the past three years and has made friends at all places he has been. His training has especially prepared him for the work of the Clarendon Chamber of Commerce.

Discs of Jade

Jade, combined with tiny pearls, finds favor for spring. Four discs of jade are held in place in this necklace with loops of two strands of pearls.

Did It Ever Occur to You?

—that the Drug Store stands out among business houses as the one rendering the greatest variety of real service to you?

No other store approaches it in point of courtesy, service and variety of merchandise. That's why we say the Drug Store is more than a place to buy drugs; it is a public institution—a civic center. When the Drug Store is closed the town is closed.

Is it any wonder that people have learned to "Try the Drug Store First?"

The purpose of this ad is not to boast of the things we do but to call to mind in a friendly way that we can probably serve you in many ways that you never thought of, and to invite you to make greater use of our facilities. We measure our success in terms of service to you.

In keeping with our policy to offer only the best in all lines, we are featuring Jacobs famous "Made Last Night" Candies—properly iced, always fresh and delicious.

CITY COUNCIL MAY VOTE WATER EXTENSIONS

(CONTINUED FROM FIRST PAGE)

\$50,000 to \$75,000 worth of warrants was made in a special session of the city council Saturday afternoon. The council will use part of the funds to pay back accounts, which total nearly \$20,000.

Each of the councilmen was present except J. P. Bradford, who is ill.

The city paving work which started March 4, has to this time been confined largely to tearing out of the curbs and moving of obstructions. Repairs are being made on the excavating machine, which Monday will start digging the trenches for the new curbs. The contractor has 100 working days in which to pave the 10 1-2 blocks, but he believes the work will be done in not more than half of that time, deducting days in which weather prevents work.

City Engineer A. H. Doucette is working on plans for needed public improvements under an order issued by the city council a few weeks ago. He has completed a map of the area for the proposed city carrier service, and the drawing has been forwarded to the post office department at Washington. This area includes approximately four blocks in each direction from the intersection of Cuyler street and Foster street, or a zone eight blocks square.

PRYOR, Okla., March 19.—(AP)—Ben Schuh of Varina, Iowa, was found guilty here today of the slaying of Leonard Greer, Spavinaw merchant. He was sentenced to life imprisonment.

Mrs. and Mrs. E. C. Beville, Los Angeles have moved to Pampa where Mr. Beville is connected with Lavender and Lavender real estate.

BORGER PATROLMAN IS SHOT ON BEAT

(CONTINUED FROM FIRST PAGE)

cal men, were placed in the city jail this morning for investigation following the shooting at 1 a. m. of Patrolman Coke Buchanan. It is believed one of the other two men implicated may be an escaped convict, Terrill, from the Oklahoma penitentiary. A picture of him has been identified by Policeman Neal, who was beaten by two men.

Buchanan had been walking his night beat on Dixon Creek street, and about 1 o'clock he and Neal met and sat down for a few minutes in an automobile. They then parted, and Neal soon met "Whitey" Walker and a stranger. The latter was seen to shove a pistol in his belt. Neal ordered the man to remove it, and reached for the gun. Walker covered Neal with a pistol, ordering the latter to throw up his hands. The stranger took Neal's gun, then the pair took Neal around the corner of the Dunway Drug store and pistol-whipped him.

Hugh Walker came up and stopped the assault, and Neal went into a drug store to telephone police headquarters. A man said to have been Ed Bailey joined the group.

Neal a few minutes later heard a pistol volley and on running outside saw Buchanan fall to the ground. It is believed that Buchanan had been part of the affair in which Neal was beaten and had sought to arrest the men.

Buchanan, the second policeman to be killed in Borger, leaves relatives in Waco. Captain Irl Rigney was shot and killed here early in December.

A missing society girl of Buffalo, N. Y., was found working as a domestic in order to portray the life of her favorite heroine.

Special Census Being Taken For Supt. S. M. N. Marrs

In expectation of getting a small emergency appropriation for the benefit of the local school system, the Pampa board is having a special census made.

This census, with other data, will be sent to the state superintendent requesting a part of the \$30,000 recently appropriated for distribution among schools whose enrollments have increased as much as 100 per cent since the last census.

The appropriation bill is now on Governor Moody's desk and it is believed that he will sign it. Borger is now taking a census of her scholastic population, which likely will total 1,200.

Several other cities, including White Deer, may share the \$30,000. Pampa's share is not known, but next to Borger's will be the largest. The first schools to make application, however, will receive aid toward current running expenses.

Borger has been especially hard hit by enrollment increases, since her valuations have not been assessed in proportion to the size of the scholastic total.

A Detroit association of barbers has protested to the commissioner that firemen are cutting one another's hair without licenses.

Baseball Weather Leaves—Name For Pampa Team Wanted

Have you sent in your suggestion of a name for the Pampa baseball team?

All names must be received by Manager Gober by Saturday noon, March 26. The names will be numbered as they are received and if several names of the one chosen are received, the first one received will get the \$5.

Practice tomorrow will be postponed unless the weather changes. Baseball weather arrived this week, but left Saturday. Manager Gober received telegrams from Harold Harrington, formerly of Pampa, who wants to come back to the old town to play ball; also E. L. Seely, a big Indian pitcher from the Oklahoma league. Both of these men

Street Car Tokens Exchanged by Various Companies Regularly

(By The Associated Press.) HOUSTON, March 19.—The street car token has become a medium of exchange almost as universal as legal tender itself.

Along with nickles, dimes and pennies, street car boxes in almost every city yield tokens from many other cities. About 800 of these little coins from Dallas are collected in Houston every month, having been dropped in the fare boxes either by visiting Dallasites or by travelers who have obtained them in Dallas.

The also come from Fort Worth, St. Louis, Kansas City, Galveston, Tulsa, Council Bluffs, Iowa, Oklahoma City, Washington and many other points. One Houston token found its way to Honolulu within two weeks after it had been placed in circulation here.

The manner of returning these metal bits to the company issuing them and balancing accounts between various companies has developed into a considerable activity.

Each street car company re-purchases its own tokens at the price at which it sold them. For a Houston token collected in Fort Worth, The North Texas Traction company receives only six and one fourth cents, though the fare in Fort Worth is 8 and one third cents. It was sold here at the rate of four for 25 cents. But a Fort Worth token collected in Houston is redeemed for 8 and one-third.

Each month the little metals from other cities are mailed to the companies issuing them and each month Houston receives a quota from many parts of the United States.

The public has made the coins a universal medium of street car transportation. Some companies use pewter tokens while others use brass, which makes it comparatively easy for Chinese coins to be dropped into the fare box without detection.

IN MEMORIAM

MRS. C. V. GOTT

Crystal Williams was born April 24, 1885, at Free Water, Mo., and lived here the greater part of her girlhood until the family moved to Western Nebraska. A few years later the family moved to Lewisburg, Mo., where she grew to womanhood.

Miss Williams was united in marriage to C. V. Gott in Lewisburg, July, 1903, and went with him to their home on the farm near Red Top, Mo. Two years later they moved to Cherokee, Okla., and made that place their home until coming to Pampa in April of 1916.

Their home has been blessed with four daughters, Miss Theota, who is in training in the Baptist sanitarium in Dallas, who came to her mother's bedside last Wednesday; Miss Leota, a student in the Tyler Business College at Tyler, Texas, who came home a few weeks ago; Miss Thelma, a School and Winifred. A son, Carrie, sophomore in the Pampa High passed away in early infancy in June of 1906.

Mrs. Gott became a Christian some years ago in Cherokee, Okla., and united with the Christian church of that city. Those who have known her during the years she has made her home in Pampa have known the Christian spirit that dominated her every-day life. She knew the Scriptures and loved to quote them and especially the Psalms, while about her daily tasks, as well as the old church hymns. She was not seen much in public, devoting herself entirely to the association with Mr. Gott in the White Rose Cafe, and in the motherly devotion to her daughters.

Nearly a year ago her health began to fail her, and she was compelled to cease active work in the business with her husband. Last fall she went for a while to Hot Springs, New Mexico, returned home, and in the early part of this year went to Phoenix, Ariz., but failing to regain her strength necessary to a recovery of her health, returned again to her home in Pampa, Tuesday of last week. She passed away Monday morning at 11:45 o'clock, leaving with her husband and four daughters, her mother, Mrs. S. E. Williams of Oklahoma City; and two sisters, Mrs. Luther Moore of Oklahoma City, who is critically ill in the Santa Fe hospital in Topeka, Kansas; and Mrs. W. B. Fanning of Portland, Ore.

The funeral service was conducted at the Christian church Tuesday afternoon at 3 o'clock by the minister, James Todd, Jr. The pallbearers were B. E. Finley, Charles Barrett, Elmer Barrett, Geo. Faulkner, W. A. Taylor, A. Holmes.

Burial was in Fairview Cemetery.

Prof. E. J. Cooley of Fordham University in a lengthy study says that there is no single cause for crime, nor is there a distinct criminal type.

At 37, She's Mother of 18

"A big family keeps you young," says Mrs. Harry Horsley, 37, of Indianapolis, Ind., mother of 18 children, 13 of whom are living. Mrs. Horsley is shown holding twin girls, the latest additions to her family. They're Margery (left) and Mildred. Mrs. Horsley married at 14.

Chinese Believe Strongly In Ultimate Victory Of Canton Forces, Says Returned Methodist

NASHVILLE, Tenn., March 19.—Victory of the Cantonese in China is considered inevitable, and Chinese both old and young, are supporters of the faction, the Rev. Sidney R. Anderson of Rising Star, Texas, missionary of the Southern Methodist church, said here when he returned from China on furlough. He has been in missionary work in China since 1914, and is pastor of the Moore Memorial church at Shanghai.

Speaking of conditions in China at the time of his departure a few weeks ago, the Rev. Mr. Anderson said:

"If I could have chosen the time and place where my life would have been spent, I would have chosen today in China. I left China at an extremely interesting time, for although it is a time of uncertainty, it is also a time of great hope. Never before have the Chinese been so hopeful and so enthusiastic over the prospects of national autonomy. They are supporting the Cantonese with enthusiasm, believing that it is through this channel that the new government will come."

American missionaries, said Rev. Anderson, are in no danger except uchases would naturally befall people living in a war zone, and their perils cannot be compared with those of thousands of Chinese who will probably be struck down, in the conflict.

Rev. Anderson spoke of the necessity of adjustments in missionary work and along other lines to meet the new conditions in China, declaring that such an adjustment must be brought about by the nations as well as the denominations as rapidly as possible.

"America," he declared, "can hardly realize the extreme rapidity with which events are taking place in China. We are to face the most significant movement that has ever swept China, and it is evident that in mission work will go on to a more splendid conquest, while our work seems to oppose the movement for national autonomy it will be regarded as an enemy to China's highest interest."

He believes that Britain's change in policy made in January came too late to have any effect since the Chinese feel it came because of pressure and not because it was China's due.

He told of the recent campaign undertaken by the Chinese Christians of Shanghai to raise money for the erection of a new Moore Memorial Church. While the roar of the Nationalist guns could be heard in the distance, the army of christian workers in Shanghai, collected within a few weeks the sum of \$50,000.

Junior Play Is Well Received By White Deer Group

About 300 people attended the presentation of "The Arrival of Kitty" by the junior class of the Pampa high school at White Deer Friday evening.

Many Pampa people accompanied the students, and reported that the play was well given. It was presented here Tuesday evening.

After the return from White Deer, Miss Bernice Whiteley entertained the cast and the junior class at a lunch at Master's cafe.

The Rev. John Haynes Holmes calls H. L. Mencken "a prophet in an age that has no faith."

WHY BOYS LEAVE FARMS

"Why did you leave the farm my lad?
Why did you bolt and quit your dad?
Why did you beat it off to town
And turn your poor old daddy down.
Thinkers of platform, pulpit, press,
Are wallowing in deep distress,
They seek to know the hidden cause
Why farmer boys desert their pa's.
Some say you long to get a taste
Of faster life and social waste;
Some say you silly little chumps
Mistake your suit cards for your trumps,
In waging fresh and germless air
Against the smoky thoroughfare,
We're all agreed, the farm's the place.
So free your mind and state your case".

"Well, stranger, since you've been so frank
I'll roll aside the hazy bank,
The misty clouds of theories,
And show you where the trouble lies.
I left my dad, his farm, his plow,
Because my calf became his cow,
I left my dad; 'twas wrong of course,
Because my colt became his horse.

I left my dad to sow and reap
Because my lamb became his sheep.
I dropped my hoe and stuck my fork
Because my pig became his pork.
The garden truck that I made grow,
'Twas his to sell but mine to hoe.
It's not the smoke in the atmosphere
Nor the taste of life that brought me here.
Please tell the platform, pulpit, press,
No fear of toll or love of dress,
Is driving off the farmers' lads,
But just the methods of their dads.
—Selected.

L. T. HILL COMPANY OPENS BUSINESS HERE

The L. T. Hill company, which is located in the new Brunow building at the intersection of Cuyler and Foster avenues, is one of the several large firms locating.

The company is part of a chain organization and has tremendous purchasing facilities. Mr. Hill recently bought the interests of the C. R. Anthony company in this region, and has combined the assets of the two concerns.

International Sunday School Lesson

BY DR. J. E. NUNN

General Topic—The Christian's Hope.

Scripture Lesson—John 14: 1-3. 2 Corinthians 5: 1-10; 1 John 3: 2, 3.

John 14: 1. Let not your heart be troubled: believe in God, believe also in me.

2. In my Father's house are many mansions; if it were not so, I would have told you; for I go to prepare a place for you.

3. And if I go and prepare a place for you, I come again, and will receive you unto myself; that where I am, there ye may be also.

II Cor. 5: 1. For we know that if the earthly house of our tabernacle be dissolved, we have a building from God, a house not made with hands, eternal, in the heavens.

2. For verily in this we groan, longing to be clothed upon with our habitation which is free from heaven.

3. If so that being clothed we shall not be found naked.

4. For indeed we that are in this tabernacle do groan, being burdened; not for that we would be unclothed, but that we would be clothed upon, that what is mortal may be swallowed up of life.

5. Now that he wrought us for this very thing is God, who gave unto us the earnest of the Spirit.

6. Being therefore always of good courage, and knowing that, whilst we are at home in the body, we are absent from the Lord.

7. (For we walk by faith, not by sight):

8. We are of good courage, I say, and are willing rather to be absent from the body, and to be at home with the Lord.

9. Wherefore also we make it our aim, whether at home or absent, to be well pleasing unto him.

10. For we must all be made manifest before the judgment-seat of Christ; that each one may receive the things done in the body, according to what he hath done, whether it be good or bad.

I John 3: 2. Beloved, now are we children of God, and it is not yet made manifest what we shall be. We know that, if he shall be manifested, we shall be like him; for we shall see him even as he is.

3. And everyone that hath this hope set on him purifieth himself, even as he is pure.

Time

The words from John's Gospel were spoken by our Lord in connection with the Last Supper, on the evening of Thursday, April 6, A. D. 30. Paul's second letter to the Corinthians was written probably in A. D. 57. John's First Epistle was probably written probably about A. D. 90, near the close of the apostle's long life.

Places

The upper room in Jerusalem. Perhaps at Thessalonica in Macedonia. Probably John wrote this Epistle in Ephesus, where he was pastor of the church.

Golden Text

In my Father's house are many mansions; if it were not so, I would have told you; for I go to prepare a place for you.

John 14: 2.

Introduction

After eating the Last Supper with his disciples, our Lord addressed to them the most wonderful of his discourses, recorded by John in Chap-

ters, 14, 15 and 1 of his gospel, followed by the marvelous prayer, chapter 17. It was natural that, faced with crucifixion, and his departure from this earth life, the Savior should have much to say about heaven, and should give many tender and revealing glimpses of that happy realm. It is hardly too much to say that we learn more about the next life from those four chapters than from any other part of the Bible.

Heaven A Home; v. 2.

Half the dread of the death change comes from the fact that we worry about what's going to become of us there. The instinctiveness of this apprehension is shown in the fact that savages or simpler religionists are always anxious about the housing of their spirits after death. Jesus' answer: There's a home for you. I have looked after that; have made it all ready for your arrival. The word "mansions" of our Authorized Version was rather disconcerting; for the most of us do not care about living in mansions; so all the newer versions give "abodes," or even "rooms," which is cozier. The word means, literally, "dwelling." To be merged into the All—"a glistening pearl drop in the shining sea"—into Nirvana, of pantheism and Buddhism, is no salvation, a poor sort of heaven. No, I want a home there; and Christ assures me that I shall have it.

Christ's Second Coming v. 3

"And if I go and prepare a place for you, I come again." The "if" does not imply a doubt, because Christ has just said that he would go and prepare places for all his disciples. Just as surely as that will happen, so certainly will he return again to this world. The second advent is taught too plainly in the New Testament to be doubted by any Christian. It is one of the world's most delightful hopes and anticipations. "And will receive you unto myself." Christ had already chosen them out of the world and received them into the body of his disciples; he would receive them at his second coming into eternal communion with himself, into the endless lot of the blessed.

The Celestial Body. 2 Cor. 5, 1

We shudder at the expression "disembodied spirit." The demon of the Gadarenes preferred swine, even to disembodiment. Here in II Corinthians Paul compares death to the taking down of a tent. When that has taken place there comes to the tent-dweller a feeling of homelessness; like when you "move" and your goods are in transit. This physical body of ours is just a tent (tabernacle) home. Notice the significance of that; not even a substantial house! And one day it's going to be folded up (rather than "dissolved"). But, Paul assures us, when that happens to you—your real self, spirit-

ual—will not be a disembodied spirit; you will inhabit a body heavenly; one so perfect and pure and free from all the things that mar and debase our bodies here in this world, that when it is yours and you, you will never again "groan in deep trouble." Cherishing such a faith and hope, is it any wonder that Paul looks forward with longing to the time when he'll be clothed upon with that celestial body?

The Supreme Aim of Life. v. 9

"Wherefore also we make it our aim, whether at home or absent." Whether in the body and absent from God or out of the body and present with God. "To be well-pleasing unto him." This is the one object of life, to please God. Happiness or sorrow, success or failure, wealth or poverty, fame or obscurity, health or sickness, friends or loneliness—what difference does it all make provided we hear at the end the Father's "Well done, good and faithful servant."?

The Judgment Seat of Christ v. 10

"For we must all be made manifest before the judgment seat of Christ." This is the most obvious reason for desiring the approval of Christ; we seek his favor because he is some day to pass judgment upon all the deeds done in the body, and assign us to eternal life or eternal death. The judgment seat is the lofty platform occupied by the judge, from which he can be seen by all in the judgment hall. Seated on that exalted throne the heavenly Judge will look into every face and read the secrets of every heart with absolute fullness and clearness. Who can stand in that tribunal? Who will not need there an Advocate, a redeemer? No one can know himself and his past life, and realize the awful issues of eternity and the un-failing justice of God, without perceiving that the atonement is the necessary heart of religion, the one hope and confidence of the human race.

Our Life in Heaven.

"There must be different degrees of glory, reward, and blessedness in the heavenly life. There is a lower and a higher, with innumerable gradations between. Heaven will have room for many conditions with varying powers, attainments, activities, and satisfactions continually increasing as by the Spirit of the Lord. We may be certain, too, that the heavenly life will be full of noble ministries, of elevated work that never ceases and yet never tires. This Work will be unending joy, as to do the Father's will was meat and drink to Christ. The true and honest friendships which we have formed on earth will be continued with unabated nay with increased and purer affection in the upper sphere. We shall know God, whom we have so often mistrusted, and with the perfect image of his beauty we shall be forever satisfied. We shall know our own poor hearts, of which we have been so ignorant, and understand the full meaning of our life's strange story. We shall know each other, and we shall understand what the perfect love means, which has no torment of suspicion or fear."

Special Lesson

"Not to be earnest about heaven—here is a crime of great magnitude, eternal in fatal consequences. Through all the way till the heavenly gates are entered there can be no slackening of diligence."

Brownsville Building Program Is Large

BROWNSVILLE. — Estimated value of the new building program in Brownsville is almost two and a quarter million dollars, figures compiled by the Brownsville Herald show. Business improvements completed since the first of the year total \$254,500; under actual construction or contract \$1,019,000; contemplated \$885,000 and almost \$400,000 in residence property.

Mexican Railway Plans Are Watched

BROWNSVILLE.—Plans of the Mexican National railway to improve facilities at Matamoros and make that point one of the more important ones on the lines are being watched with interest in Texas, especially in view of recently announced steps to handle through freight to or from the United States.

Shipments By Gulf Increase In 1927

(By The Associated Press.)

PORT ARTHUR.—The Gulf Refining company shipped in February from its Port Arthur refinery 2,563,584 barrels of refined oil for coastwise movement and exported 35,596 barrels of crude as compar-

ed with 2,577,368 and 32,245 barrels respectively in January.

Texas company figures from Port Arthur plan were 1,322,611 barrels of refined for coastwise movement and exports of 401,408 barrels February as compared with 1,052,695 barrels the previous month.

District Attorney Issues Statement To Public On Law Enforcement Policy

Curtis Douglas, district attorney of the newly created 84th judicial district, has issued the following statement to the people of his jurisdiction:

"There has been brought to my attention that in certain portions of the newly created 84th judicial district there are now and have been, many flagrant violations of the Penal laws of the State of Texas. As district attorney, it is incumbent upon me to use every lawful effort to stamp out this condition of lawlessness.

"Even though we may be in the midst of a fast growing community, it would be well to remember that the penal laws of this State apply to our section as well as to the other sections of the state. In assuming the duties incumbent upon me as district attorney of this newly created district, I appeal to the citizens of the district and their officers to join hands with me in the enforcement of the law. I am your servant and I stand ready at any hour of the day or night to serve with every honest effort I may possess. I cannot help but feel, that if the citizens of this district will join hands with me and the other officers of the law in a program of law enforcement, it will only be a short time until law violations will be reduced to a minimum. Realizing full well the responsibilities I must shoulder, I now give to the people of this district whatever ability I may possess to the end that the law will be strictly and rigidly enforced and the 84th judicial district be made a better place in which to live.

PANHANDLE WOMAN IS ILL AFTER COLLAPSE

Mrs. J. A. Whiteside of Panhandle is very ill following her collapse two days ago, her friends here have learned. She collapsed from a stroke of paralysis while working in her garden.

FORMER WARDEN DIES

BRYAN, March 19.—(AP)—Captain R. F. Coleman, 72 years old, who resigned as warden of the state penitentiary rather than become the State's official executioner, dropped dead when at the breakfast table here today.

WHITE DEER STREETS ARE BEING GRADED

WHITE DEER, March 19.—The chug-chug of the Mogul tractor has been music in the ears of White Deer citizens this week as it ironed out the ruts and filled in the center of Andrew avenue clear across town. Albert Matheson in charge of the Mogul and Julian Evans mastering the grader are putting our streets in passable condition and now that the good work has started it is hoped they will stay on the job until the streets are all put in shape.

Main street yielded to the force of the grader blade last night and now has lost its "permanent wave" and will not be so long remembered by those who have daily been thrown against the car top before they could slow down to five miles per hour after reaching Main street. One thing sure, White Deer has not been bothered with speeding through town.

Plans have been laid by the Chamber of Commerce and City Council to grade the streets and maintain them, and as soon as advisable give Main street some kind of paving.

BAPTIST CLASS GIVES PARTY FOR THE PASTOR

The Azor class of the First Baptist church met this week with Mr. and Mrs. S. L. Anderson in a social honoring the pastor and Mrs. F. A. Tippen.

The party took the form of an old-time "district skule". The class members were uniquely dressed, and some very amusing stories and recitations were presented. Prizes of peanut dolls were given Mrs. Jones and Orville Davis for the most appropriate costumes. Spelling was from an old Blue Back speller. Refreshments were served.

The class will meet Sunday in the L. O. O. F. building opposite the church. All young married people are invited to join the class. The regular business and social meeting will be held on the second Friday night in April.

Local Track Squad To Be Chosen Soon

Pampa high and public school athletes are busy preparing for the interscholastic field and track meet to be held at McLean April 1 and 2. The elimination races will be held some time this week and the teams chosen will get down to a few days of final training.

Coach Dickey has some promising material among the boys, and Prof. Lester has a promising girls' volleyball team.

Lots of Shade

A wide brimmed hat of natural leghorn, for resort wear, is trimmed with coral grosgrain and a fat cabochon of pink seashells.

Sand Below Sea Level Producing In Wheeler County Now

The first well in the field of Wheeler county to find oil below sea level is the Texas company No. 2 Smith, offsetting its No. 1, in section 40, block 24, H. & G. railway survey. The sand, which was found at 2,400 feet, is 38 feet below sea level. Other wells in this area are producing from a depth of 2,200 to 2,300 feet.

After penetrating the sand 12 feet, 400 feet of oil rose in the hole, and drillers were unable to lower the oil with balling below 75 feet.

In the same field two big gassers have been completed, the Lone Star Gas company getting one in section 93, block 17, on the Coates land, which found the sand at 1,902 feet and had an initial production of 75,000,000 feet daily.

The second gasser was drilled by Angus and associates, which is their No. 1 Burcham, in section 91, block 17, this well coming in making 70,000,000 feet.

The Wheeler county field has 10 producers which have a daily total output of around 2,000 barrels, which will no doubt be increased materially with the drilling in of 12 tests which are nearing the sand.

The Magnolia Petroleum company is developing its holdings on the Johnson farm in section 40, block 24, and has three tests drilling offsetting Johnson No. 1, one of the largest wells of the field. No. 2 Johnson has reached a depth of 2,055 feet with a show of oil at that depth; No. 3 is being drilled at 360 feet, and a depth of 1,350 feet has been reached in No. 4. Magnolia No. 1 Laycock, in section 9, block 27, is drilling at 1,300 feet. This company is also spudding a test on Worley land, section 39, block 24, in semi-proven territory.

THREE CANDIDATES IN FIELD FOR MAYOR

CANADIAN, March 19.—J. F. Harbert announced this week he will be a candidate for mayor of Canadian, at the city election to be held here April 5. This makes three candidates who have announced themselves for the job. Albert Knollenberg, present incumbent, Clay W. Allen and Mr. Harbert. There are four in the field for positions as commissioners: A. N. Davie, E. H. Brainard, present incumbents; L. A. McAdams and H. S. Wilbur.

MALONE PURCHASES A NEW MODEL AMBULANCE

A new ambulance has been added to the equipment of the Malone Furniture and undertaking company. This machine is of the very latest and is for exclusive use as an ambulance—never a hearse. The company expects to occupy a new funeral home by May 1.

Nunn-Warren Company Purchases the Panhandle News

Announcement has been made of the purchase of the Panhandle News and print shop from W. J. Miller by the Nunn-Warren Publishing company, publishers of the Panhandle-Herald.

Mr. Miller moved to Panhandle more than a year ago and established a job shop, later starting the Panhandle News. He is now joining the Herald staff as advertising manager and also becoming a stockholder in the company, which is soon to be incorporated. He is taking the place of Neal D. Norris, who is being transferred to the Berger Daily Herald, another Nunn-Warren publication.

C. C. Small Is Named Judge of The 100th District

PANHANDLE, March 19.—More than 2,000 people are expected to attend the formal breaking ground, Sunday afternoon for the new 40-room Baptist church which is to be erected at Park avenue and seventh streets.

Dr. G. L. Yates, pastor of the First Baptist Church of Amarillo, will be the principal speaker. The services will be held at 3 o'clock in the afternoon and pastors and laymen from Amarillo, Claude, Clarendon, Groom, White Deer, Pampa, Berger and Canadian will attend.

"I Am An American" May Not Be Heard So Often This Year

In preparation for the county Inter-Scholastic League meet in McLean April 1 and 2, Pampa schools will hold many elimination contests next week to select local representatives.

Monday evening the junior declamation trials will be held, Tuesday the Seniors will have try-outs, and on Friday evening the debate trials will be held—all in the high school auditorium.

The elimination contest in music memory has already been held. Pampa will be represented by Pauline Barnard, Francis Finley, and Virginia Post.

The annual district meet will be held April 24 and 25 at the Teachers college in Canyon. New contests will be held in girls' volley ball, typewriting, and the rural pentathlon. The pentathlon will consist of 100-yard dash; running high jump; 12-pound shot put; standing hop, step and jump; and running broad jump.

Relative to the declamation contests, W. E. Lockhart, director general of district 1, says: "Please, please make new selections. I have heard 'I am an American' so often I almost wish I were a Chinaman; and 'The full moon has risen over Mt. Blanc' quite often enough."

Colder Weather Is General Today Over The State

(By The Associated Press.) DALLAS, March 19.—Colder weather for Texas Sunday was predicted by the weather bureau here today.

Freezing weather will prevail over West Texas. East Texas will experience a drop of 30 degrees.
