PAMPA, GRAY COUNTY, TEXAS, SUNDAY MORNING, MAY 29, 1927.

PRICE FIVE CENTS.

GRAY COUNTY GETS NEW WELLS

State Grants Fort Elliott Highway Designation

KIMES' GANG MEMBERS UNDER ARREST

LOCAL JAIL IS USED TO KEEP TWO OF MEN

Much Money Found In An Examination Held

WOMAN AMONG THOSE CHARGED

Rangers Take Suspects to Unknown Place For Keeping

(By The Associated Press.)

OKMULGEE, Okla., May 28.—Five men and a woman are under arrest and charged with murder in connection with operations of the Kimes-Terrell robber gang, Sheriff John Russell revealed today.

Three of the six are alleged to have participated in the holding up of the two banks at Beggs, Okla., May 18, when a chief of police was shot to death and \$18,000 was taken.

Two of the three were arrested yesterday near Borger by Texas Rangers. Deputies have been dispatched to Borger to bring the men here for trial.

Were Guarded Here

The two men mentioned in the Oklahoma dispatch were brought here from Borger and placed in the local jail, where they were kept under guard of armed deputies at night. They were arrested in an Oil City dive while, it is said, they were engaged in a poker game in which thousands of dollars passed.

While here they were searched. With the fat rolls were El Paso and Beggs bank money wrappers, many gold pieces, and other evidence which led the officers to believe they had the right men. One man had on a bloody six-shooter when arrested.

Yesterday they were taken to Panhandle, where Beggs bankers were to have attempted identification, but could not arrive in time. Rangers took the accused men to a place kept secret, and further proceedings will begin Monday.

The men gave their names as B. L. Henson and Roy Wilson. They are said to use Jarrett and Whitehead as aliases. Whitehead resembles the "Whitey" who stood within the front door during the Pampa bank robbery, but identification has not been positively made.

Cuyler Street to Be Open Tuesday

Cuyler street is to be open for through traffic Tuesday evening according to Earle Stuckey of the Stuckey Construction company. Bricks have been laid as far as the tracks on the south side which leaves the intersection at Cuyler and Acheson streets to be completed.

THAT HOUSE YOU WANT

If it is to rent or to buy it can be found through a small Classified Ad in the News. There are values placed on the market every day.

Built the Plane

While the world cheers Capt. Charles A. Lindbergh for his hop across the Atlantic, an unsung hero in Los Angeles is having more of a thrill out of it than most of us. He is William H. Bowlius, who designed and built the Ryan monoplane that carried Lindbergh across. This picture was taken when Bowlius was told Lindbergh had made it.

HIGHWAY PLANS NEARLY READY

Chamber of Commerce Will Decide Routes Thursday

Plans for hard-surfacing about 42 miles of highway in the Pampa special road district are expected to be placed before the county commissioners soon after next Thursday, when the Chamber of Commerce will hear a definite report from its highway committee.

The highway group is working under instructions to place before the next meeting a schedule of roads to be hard-surfaced, and after being adopted will be incorporated in the election call.

Members of the local commercial group discussed the proposed election Thursday evening and decided to take the last official action next week. A tentative lay-out for the roads already has been approved by the body. C. of C. members also adopted a constitution and by-laws for the organization. Under this document the secretary becomes manager in terminology.

Standing committees are as follows: Membership, highway, agriculture, education, publicity, new industry. (See HIGHWAY—page 8, col. 2)

Wife Deserter Kills Young Woman Who Was Not Faithful

(By The Associated Press.) CHICAGO, May 28.—The body of a young woman who had been shot through the head and believed by police to have been the "devil with the baby face" mentioned in a note left by Werner Martin, who committed suicide in a Milwaukee hotel, was found here today in an apartment.

Martin, who committed suicide in Milwaukee two days ago, left note saying he killed the girl in Chicago because she had proved faithless after he had deserted his wife for her.

IMPROVEMENTS MUST BE MET FIRST THOUGH

Wider Right-of-Way And Bridge Are Necessary

WHEELER COUNTY TO MEET REQUEST

To Complete Highway Program Within Texas Limits

State designation, with maintenance thereafter, of the Fort Elliott highway from Wheeler to Oklahoma state line, a distance of about 14 miles, will be made as soon as the road is improved along lines suggested by the division engineer.

Correspondence of the last few days carries news of progress made by F. P. Reid, president of the highway association, and others who have been seeking the designation. Mr. Reid recently made a trip to Austin in behalf of the proposal.

R. A. Thompson, state highway engineer, wrote to A. C. Wood, county judge of Wheeler county, that the commission "has directed me to advise you that when your county improves Highway No. 33 and contracts same in accordance with the suggestions of our division engineer, W. A. French, the commission will take over for maintenance this highway from Wheeler east to the Oklahoma state line. Upon compliance with the terms mentioned in this report, and advice from Mr. French that the same has been complied with, he will be directed to take over the maintenance of the highway referred to. Please advise if this matter has now been disposed of satisfactorily."

The recommendations referred to include the following:

1. The right-of-way should be not less than 80 feet wide. In fact, (See FORT ELLIOTT—pg. 8, col. 2)

Brother of Campbell Dies In Comanche

J. P. Campbell, 74 years old, the oldest brother of R. C. Campbell, died at Comanche Friday.

Mr. Campbell of Pampa left at once for Comanche and will go from there to get Christine, his daughter, who is enrolled in the University of Texas.

The two will return to Pampa about June 10.

Movie Queen Is a Princess Now

Here are Pola Negri and her boy friend Serge Mdivani, the Georgian prince, on wedding "location." Pola keeps her best movie composure, but the camera seems to intrigue the prince. The picture was taken at Pola's Parisian chateau at Seraincourt, near Paris, just after the wedding. With the couple is the bridegroom's father, Prince Gregory, said to be a former general in czar's army. Others of the prince's family, including Prince David, husband of Mae Murray, were unable to be present. At the reception at the chateau, cameramen and reporters predominated. Pola wore an ermine cloak and many costly jewels—pearls, diamond rings and diamond and emerald bracelet.

Moody Grants Requisition From Kansas Governor for Local Man Wanted On Charge of Kidnaping

(By The Associated Press.)

AUSTIN, May 28.—Governor Moody today granted the requisition of the governor of Kansas for extradition of Willard E. Taylor, wanted at Wichita, Kans., on a kidnaping charge.

Taylor is in Pampa, Texas.

Taylor is proprietor of the boiler works bearing his name and with his attorney, W. M. Lewright, is understood to have been in Austin Saturday to fight the proceedings.

He seeks to retain the custody of

his 6-year-old daughter, a child by his first wife, who died soon after the birth of the girl. The child has been for several years, it is said, with a second wife, from whom Mr. Taylor is divorced. He has married again.

About three weeks ago he went to Wichita, and brought the daughter back with him. His former wife has now brought a charge of kidnaping, claiming the child because of having cared for it for some time and having become attached to it.

Mr. Taylor has a large shop here, and is well known in the community.

Salvation Army Raises \$320 Here

Cadet P. Ryan of the Texas, Panhandle and Oklahoma division of the Salvation Army, assisted by committees of Chamber of Commerce members completed the campaign for funds last evening. A total of \$320 was obtained.

This money is to be used for the upkeep of the several Army homes and institutions. An army corps may be established in Pampa at a later date. On account of so many men being in the flood area the division is short of funds and workers.

McIlroy Well On Fire; 2 Men Badly Burned

BORGER, May 28.—Two men were burned severely tonight when the McIlroy No. 2 well, south of Borger, caught fire following an explosion. Flames are sweeping the camp, have already burned several buildings, and the 55,000-barrel storage tanks are in the path of the fire.

Lee Taylor was probably fatally burned, and E. C. Jackson, superintendent is dangerously hurt.

The control head is off, making the well very dangerous.

The burning well could be plainly seen from Pampa last night.

PAMPA FIELD IN LIMELIGHT OF OPERATIONS

No. 1 Mark Huselby Spraying Heavily in Block 25.

PURE COMPANY HAS 2 WELLS

Bayshore Gasser Will Be Drilled Deeper At Once

Of the score of new Gray county locations made or drilling operations started, one is the resumption of work on the huge gasser, G. W. Bradford No. 1, southwest of Pampa. The Bayshore Oil company has been refinanced, according to Harry Griswold, president, and will deepen the test at once.

Drilled to 2,605 feet, the well made 100,000,000 feet of gas and killed two men before brought under control. It is logging with the Bowers wildcat producer.

No. 1 Mark Huselby, extending the proven territory in the vicinity of Travis Brothers Block No. 1, is spraying 75 barrels a day, with the sand barely touched. Drillers were drawing the bit when oil flowed. No storage is available and the well cannot yet be drilled in.

With several new producers and more than a dozen locations standing as high points of the week, the Pampa south oil field retains its place as the most active area of the Panhandle region.

A development of much importance came about yesterday morning when the Rensaul Petroleum company's No. 1 Mark Huselby (formerly Salsbury and Reynolds) struck oil at 2,407 feet. This well, in the center

Wichita Falls Man Kills Self, Punching Shotgun Trigger

(By The Associated Press.)

WICHITA FALLS, May 28.—W. A. Soule, local painter, killed himself at his home here today when he tied a shotgun to a fence with a leather belt and after stepping in front of the gun, punched the trigger with a stick.

Justice of the Peace Gibbs returned a coroner's verdict of suicide by gunshot.

Bargain Days Are Popular

Scores of people are taking advantage of the Pampa Daily News bargain rates—both new and old subscribers.

More than two dozen persons joined the News family of readers Saturday. Many others will do so between now and June 15, when the bargain days will end. The following rates afford great savings.

Daily News one year, by mail \$3, in advance.

Daily News one year, by carrier in Pampa \$4, in advance.

And the weekly Pampa News, carrying all the local news, community items, and special farm and home features, will be sent or delivered with the Daily News for \$1 extra. Use the subscription blank found elsewhere in this paper.

Giants' College Boy Leads Nation in Hitting Average

Pirates Replace New York Team In Batting—"Bing" Miller Still Class of American League Stars

(By The Associated Press.) CHICAGO, May 28.—Eddie Farrell, boy shortstop with the New York Giants, has climbed to the front as the leading batter of the National league.

The sensational young collegian, by consistent hitting since the start of the season, today finds himself looking down on some well established sluggers, including the renowned Rogers Hornsby. Farrell has a mark of .412 attained in 32 games in which he made 49 hits for a total of 67 bases, having three homers and nine doubles.

Within a week, Farrell raised his average from .393 as the result of getting seven hits in six games. The figures are based on games including Wednesday and are of players who participated in 25 or more games.

On the heels of the New Yorker is "Pie" Traynor of Pittsburgh, who boosted his average 51 points from .340 to .391 and is ranking next to Farrell. Hornsby, who dropped down a week ago, boosted his mark a point during the week and has .377 for fourth place. George Harper, also of the Giants, is third with .379.

The veteran "Cy" Williams of the Phillies, by clouting three homers, moved to the front as the leading home run hitter with a total of nine. "Hack" Wilson and Earl Webb of the Cubs, with Hornsby, are tied with seven each.

Cuyler Is Fleet
Hazen Cuyler, fleet foot fly chaser of the Pirates is setting a merry pace among the base stealers with 14, a gain of four since a week ago. Frankie Frisch of the Cardinals is his closest rival with 10 thefts.

The Pirates replaced the Giants in team batting with an average of .306, the Giants having dropped to second place with .300, while the Phillies continue to hold down third place with .289.

Other leading batters; P. Waner, Pittsburgh, .360; High, Boston, .343; Wright, Pittsburgh, .341; Frisch, St. Louis, .339; Hafey, St. Louis, .339; Burrus, Boston, .338; Lindstrom, New York, .333; Southworth, St. Louis, .333.

Miller Is Hitting
Miller has performed in 32 games, been at bat 96 times and made 40 hits to compile his hefty average. Lou Gehrig, star first baseman with the Yankees, who was leading a week ago, with .425, dropped down to third place with .408. "Goose" Goslin of the Senators returning to the game after a spell of illness, nosed ahead of Gehrig with .411, giving him fourth place among the leading swatters of the league.

Gehrig is forcing "Babe" Ruth to step a spirited pace to keep out in front in home run hitting. Ruth, by connecting with a pair, has a total of 11, with Gehrig next with ten.

Luzerne "Little Boy" Blue, swiped one base, and tied Goslin and Al Simmons of the Athletics, who failed to add to their totals. The trio is deadlocked with seven apiece.

Ruth Improving
Ruth is making it hot for Gehrig and his teammate, Earl Coombs, to keep pace with him in crossing the plate. The "Big Boy" has scored 36 times, while his two rivals have both crossed the plate 34 times.

There was no change in position among the three leading clubs in team hitting although each suffered a filling off. New York tops the list with .305, Philadelphia is next with .302 and St. Louis third with .299.

Other leading batters: Simmons, Philadelphia, .395; Meusel, New York, .394; Fathergill, Detroit, .391; Williams, St. Louis, .380; McCurdy, Chicago, .372; L. Sewell, Cleveland, .360; Clancy, Chicago, .355; Sisler, St. Louis, .350; Ruth, New York, .331; Speaker, Washington, .328; Collins, Philadelphia, .309.

A Heavy Hitter
"Bevo" Lebourveau of Toledo, despite a drop of two points during the week remains on top of the pack in the American Association with a mark of .463. In addition "Bevo" is leading in total bases with 93. His 56 blows include 10 doubles, 9 triples and 3 homers.

McMillan, St. Paul second baseman, is the Toledo star's closest rival for batting honors with an average of .367. Grimes, another Mud Hen, is trailing third with .362.

Wambnass of Kansas City is in a tight spot for the honors as best run getter. He has tallied 37 times and is being pushed by his teammate, Hauser, who registered 36 runs.

Earl Smith, long distance hitter of the Millers, smashed out a brace of home runs and is showing the way to the circuit trip boys with seven.

Sammy Bohne, another Miller, failed to increase his stolen base total, but his nine thefts are sufficient to retain the lead among other base stealers.

Other leading batters: Strohm, Milwaukee, .355; Hauser, Kansas City, .352; Grigsby, Kansas City, .348; Ricoonda, Milwaukee, .342; Luce, Milwaukee, .341; Loftus, Minneapolis, .338; Maguire, Toledo, .338.

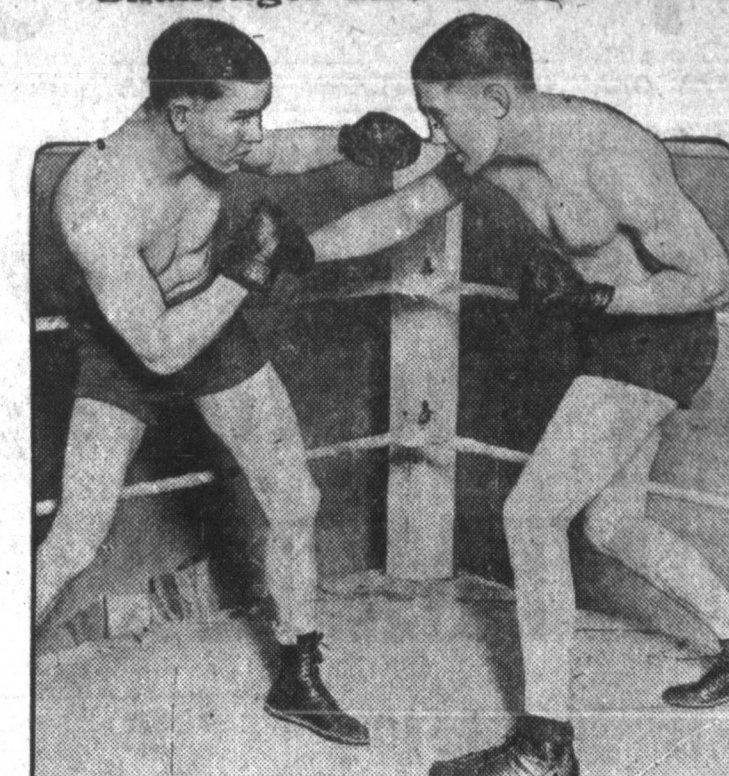

Munson Leads Western
Banging out ten hits landed Munson of Tulsa at the head of the Western League hitters with an average of .420. Bennett, a teammate, who was near the top suffered a slight setback, but is runner up with a mark of .418. While Compton of Omaha, fell to .405 for third place.

Munson is showing the way to the home run sluggers with thirteen. He also is leading in total bases with 115. His 63 hits, in addition to the homers, include eleven doubles and a triple.

Joe Rabbitt, of Omaha, by swiping two bases, continues to blaze the trail with eighteen thefts, five in front of Sturdy of Tulsa.

Tulsa is leading in team hitting with .351, with Denver next with

Challenger and Titalist

Will Spug Myers, left, make good his boast of grabbing the junior welterweight crown from Mushy Callahan, right, when the two meet in their title bout soon? Myers defeated Callahan during the winter and says he will repeat the victory in their next bout. Both fighters will weigh in at 140 pounds when they meet at Chicago soon.

SPORT TALK

The Grays are in Lubbock for games today and tomorrow, and the Oilers will go to Claude today. Tomorrow they will meet the White Deer nine. Manager Horace Oakley of the Oilers will put a fast team in the field tomorrow.

"Os" Eckhardt reports that he is in fine condition for today's game in Lubbock. Eckhardt will pitch today and Newton tomorrow. Lubbock is all set to receive the Grays and expect a hard battle.

Word was received from Claude that a regular celebration would be staged today when the Oilers meet the home team. The town band will be at the game and several Pampa fans are expected to make the trip.

Bob Clarke seems to be the tough luck pitcher of the Texans. He goes into a game after it is lost, then brings the Texans into the lead and finally loses the game through errors. The Grays could do better than that behind the big pitcher.

CARD OF THANKS

We wish to thank our many friends for their help and kindness during the sickness and death of our beloved wife and mother. So many have befriended us in this time of sorrow that space will not permit mentioning their names, but your kindness will always be remembered.

THOMAS H. SMITH, And sons, Thomas Howard and Bobby Jean.

.310 and Amarillo trailing third with .308.

Other leading batters: Davis, Omaha, .405; Sturdy, Tulsa, .390; Landford, Des Moines, .389; Casey, Tulsa, .385; Comoresky, Wichita, .377; Reagan, Denver, .375.

Claude Will Have Celebration At Game With Oilers Today

A band, a big crowd and a regular celebration will be the setting for the Oilers ball game in Claude this afternoon. Claude has a new ball park and a fast club and will open the park with the locals as their opponents.

Manager Horace Oakley has strengthened his team for the battle and expects to give the Claude team a race for the long end of the purse.

Monday afternoon at 3 o'clock the Oilers will bump up against the White Deer nine here, and will line-up with Fahning, Neil, Hust, Hlsky, Ray, Nichols, Sherdon, Holmark, Hoare, Oakley, Thompson, Gjerum and Furnice ready for duty.

Boxers For Tuesday Evening are Veterans

"Rusty" Cahill, veteran of many boxing bouts, will be a headliner on the benefit bout at the new Pampa dancing club Tuesday evening at 8 o'clock. The event is being sponsored by the American legion and the proceeds will be given to the Flood Relief campaign.

Cahill's record includes knockouts over Jimmie Bibbs, Jimmie Guest, and Benny Clarke. He has boxed to a draw with such noted ring artists as Dago Rhyne, Jack Dutton, Dick Bowers, Dummy Mahone and Hamp Brown.

"Hook" Shaw is no slouch with the gloves and will give Paul Pone a real battle. "Dutch" Hust has done considerable boxing and is in the ring to win.

Corn that has been cooked on the cob, cut off, dried and kept for weeks or months is just as good for fritters, soups, corn pudding or any other use as the best canned corn.

Clarke Loses On Error After 3 1-2 Innings, One Hit

OKLAHOMA CITY, May 28.—Two walks, a hit batter and an error by Handley lost a game here yesterday for Bob Clarke, after the latter had held the Indians to one hit in 3 1/2 innings.

Oklahoma City hit four offerings, winning 7 to 6 in ten innings. The Indians used three pitchers.

Clarke was among the many who got two-base hits.

Texans Will Have Important Place In Rotary Convention

CHICAGO, June 2.—Four Texans will play important parts in the convention of Rotary International which opens in Ostend, Belgium, next Monday morning. Harry H. Rogers, a San Antonio cotton manufacturer who is president of the organization, will preside at all sessions. Walter D. Cline, a Wichita Falls oil man, is chairman of the committee which has the program of the conclave in charge. Herbert J. Hayes, secretary of the Texas Title and Guaranty company of San Antonio, is sergeant-at-arms of the session, and Samuel Losh of Fort Worth, is the song leader.

Mr. Rogers will make the principal address of the convention, giving account of his stewardship of Rotary affairs throughout the world at the Monday morning session. His presidential address will be delivered just preceding the arrival of Albert, king of the Belgians, who will come from Brussels to Ostend to welcome the 8,000 Rotarians and their families from all over the world to his kingdom.

President Rogers will bid him welcome to the convention and at the end of the King's speech the session will convene for luncheon tendered the King by officers of the organization.

The program, including the entertainment features, is the work of Mr. Cline and his committee. It includes speakers from Scotland, Mexico, Belgium, Denmark, Holland, Switzerland, Canada, Italy, England and the United States.

Mr. Hayes was appointed to the position of sergeant-at-arms for the gathering because of his broad acquaintance with Rotarians all over the world and his understanding of Rotary procedure.

Woman Motorist Wins From Men

LONDON—A woman, Mrs. W. Scott, won a race against several male rivals at Brooklands, the British motor racing track, traveling at a speed sometimes exceeding 100 miles an hour. Her fastest lap was at 97.2 miles an hour and the total distance was 11 miles.

Mrs. Malcolm Campbell, wife of the racing motorist, who hopes to beat Major Seagraves 200 mile an hour record, also made her first appearance at the wheel at this race meeting. She finished fourth. Captain Campbell accompanied his wife as mechanic.

Postal Clerks To Have Convention In Abilene July 4-5

(By The Associated Press.) FORT WORTH, May 29.—About 1,200 delegates are expected to attend the postal convention in Abilene July 4 and 5. W. C. Lipford, state organizer for Texas branch of the United States National association of Post Office Clerks, said here in announcing the completed program for the event.

Texas branches of the Postoffice Clerks' association, the National League of district postmasters, The Rural Letter Carriers' association, and probably the Texas branch of the National association of postal supervisors will be at the Abilene meeting, according to Lipford.

The first day will be taken up in routine business by the different groups meeting singly, and the joint meeting will take place on the second day. On the latter occasion, Earl Slater, president of the Rural Letter Carriers' association will preside, and after a short introductory program Mayor Thomas E. Haydon and Postmaster L. C. Payton, Abilene, will deliver welcoming addresses.

Other speakers on the program are: C. R. Porterfield, president of the Postmasters league, W. D. Luna, Dallas, R. L. Jones, Celeste, J. W. Phillip, Dallas, B. Wallas, Waco, executive of the Texas State branch of the United National Association of Post Office Clerks; A. Geus; J. C. Lindland, Austin, inspector in charge.

RANDALL COUNTY HAS NEW COUNTY AGENT

CANYON, May 28.—W. H. Upchurch, for several years agricultural agent for Hartley county, has been employed by Randall county for the same type of work. He will assume his new duties June 1.

Upchurch is one of the best known and most successful fair exhibitors in the state. He succeeds J. W. Jennings who recently resigned.

Center of Indiana's Dry Law Controversy

Mrs. Aruthr L. Gilliom, wife of Indiana's attorney general, poses with her children for whose sake her husband broke Indiana's dry law so they might have whiskey as a medicine to combat typhoid. In a letter to Governor Ed Jackson, Gilliom urged the medicinal whiskey ban be wiped off the statute books. He reminded the governor that during the recent illness of Mrs. Jackson, which almost cost her life, physicians prescribed whiskey and Gilliom procured some. The children shown above are Dickie, 5, seated beside Mrs. Gilliom, and (left to right) Luther, 10; Elbert, 14 and Aruthr, 8. A closeup of Mrs. Gilliom is also shown.

International Sunday School Lesson

BY DR. J. E. NUNN

General Topic: Peter Undaunted by persecution.

Scripture Lesson: Acts 5:27-35, 38-42.

27. And when they had brought them, they set them before the council. And the high priest asked them, Saying, We strictly charged you not to teach in his name; and behold, ye have filled Jerusalem with your teaching, and intend to bring this man's blood upon us.

29. But Peter and the apostles answered and said, We obey God, rather than men.

30. The God of our fathers raised up Jesus, whom ye slew, hanging him on a tree.

31. Him did God exalt with his right hand to be a Prince and a Savior, to give repentance to Israel, and remission of sins.

32. And we are witnesses of these things; and so is the Holy Spirit, whom god hath given to them that obey him.

33. But they, when they heard this were cut to the heart, and were minded to slay them.

34. But there stood up one in the council, a Pharisee, named Gamaliel, a doctor of the law, had in honor of all the people, and commanded to put the man forth a little while.

35. And he said unto them, Ye men of Israel take heed to yourselves as touching these men, what ye are about to do.

38. And now say I unto you, Refrain from these men, and let them alone: for if this counsel or this work be of men, it will be overthrown:

39. But if it is of God, ye will not be able to overthrow them; lest haply ye be found even to be fighting against God.

40. And to him they agreed; and when they had called the apostles unto them, they beat them and charged them not to speak in the name of Jesus, and let them go.

41. They therefore departed from the presence of the council, rejoicing that they were counted worthy to suffer dishonor for the Name.

42. And every day, in the temple and at home, they ceased not to teach and preach Jesus as the Christ.

Time: The apostles were imprisoned perhaps in the year A. D. 34.

Place: Some prison in Jerusalem, the courts at the temple, the council chamber of the Sanhedrin.

Golden Text: "We must obey God rather than men."—Acts 5:17-42.

Introduction

The community of goods practiced by the Christians led to the lies of Ananias and his wife Sapphira, which were punished by their miraculous death. The people in general held the church in high honor, it was enlarged by numerous accessions, many sick

folks were miraculously healed, and the new religion seemed likely to sweep all before it. This popularity of the Christians aroused the jealousy and bitter antagonism of the Jewish rulers, led by the high priest and his family and other influential Sadducees. They were highly indignant that the apostles should charge them with having crucified the Messiah and they were alarmed at the prospect of losing their influence and power. Therefore they arrested the apostles and threw them into prison for the night, intending to bring them to trial the next day.

The Apostles and the Sanhedrin We are told that an angel opened the prison doors, led the apostles forth, and bade them go to the temple and continue preaching Christ and the resurrection of the dead.

As the morning advanced, the high priest went to the council chamber, and the seventy other members of the council, the Sanhedrin, came in hastily, for they had been summoned on what was regarded as an urgent matter. So they sent to the prison after the apostles, that they might put them under a strict examination and extort damaging admissions from them. But to their dismay, the officers returned from the prison and reported another marvel. They had found all the prison doors duly shut, and the guards standing before the doors totally unconscious that their prisoners had flown, but they had found the dungeons entirely empty. While the Sanhedrin was debating this strange news, it was promptly followed by the additional information that the apostles, so mysteriously released, were back in the temple, boldly preaching as before. There was nothing for the Sanhedrin to do but to summon the apostles before them.

Effect of the Apostles Preaching v 28 "Ye have filled Jerusalem with your teaching." The high priest himself gives a testimonial to the apostles, that they are a faithful, zealous, and remarkably efficient. Whence, he might well have asked himself, had these three unlettered peasants such oratorical power? "And intend to bring this man's blood upon us." Doubtless the members of the Sanhedrin remembered clearly the horrible cry of the people when they insisted upon the crucifixion of Jesus, though Pilate had pronounced him innocent: "His blood

be upon us, and on our children" (Matt. 27:25).

The Sure Penalty of Sin "Know ye not the ancient tradition that the earth refuses to drink in the blood of the innocent? that there it lies eternally like a ghastly stain upon its shuddering breast, forever crying for vengeance? Judas dies in the horror of an unavailing remorse, a loathsome suicide. Calaphas is stripped of his titles, deposed from his office, made an outcast where he had swayed, a supplicant where he had ruled. Herod Antipas, his privileges torn from him, goes into comos in degradation, banishment and suicide. The princely house of Annas is razed by a mob, his son scourged and beaten through the streets to the place of his murder."

"Obey God Rather Than Men." v 29 "We must obey God rather than men."

men." Peter and John, when first brought before the rulers, had said substantially the same thing. (Acts 4:19). Whenever human officers and laws conflict with God and his laws, we can have no choice in the matter; human laws are to be defied, human government is to be resisted.

"The God of Our Fathers." v 30 "The God of our fathers raised up Jesus." In this sentence the apostles sought to assure the Sanhedrin that they had not departed from the ancient religion of their race. It was the God of Abraham, Isaac, and Jacob who had sent Jesus Christ his Son, worked wonders through him, taught through him, and finally raised him from the grave.

Jesus "A Prince and a Savior" v 31 "Him did God exalt with his right hand to be a Prince and a Savior." The right hand, with most men, is the strong and skilful hand, so that the expression, "with his right hand", means "with his power." Christ was to be the world's Ruler as well as the world's Deliverer, Ruler by right of being Deliverer, Ruler in order that he may the more effectively deliver men from their sins and miseries.

Repentance and Remission of Sins v 31 "To give repentance to Israel and remission of sins." Repentance is a gift from Christ, it is no born of our sinful hearts. "Remission" means "sending away". Christ sends us away from the penalty of sin, and as much of sin's consequences as is best for us and for the world. God in Christ forgets the sins of the penitent believer, and so far as he is concerned it is as if they had never been committed. Only God could do this, as the Jews well understood, and to say that Christ could do it was tantamount to asserting his deity.

Christian Witness-Bearing "The agents employed for spreading the gospel are men, and not angels. Surely the angel who brought the apostles out of the prison was quite able to go and proclaim the gospel; but no, it must not be. Those redeemed by the blood of Christ are men, and their redemption from sin by power is to be instrumentally accomplished by men. What a vocation is ours! What can be more honorable? What more responsible?"

Gamaliel, vs. 34-39 "But there stood up one in the council, a Pharisee named Gamaliel." The Gamaliel here mentioned was the teacher of Paul, and Paul was proud to name himself as his pupil. He was famous for his learning and for the purity of his character, and was one of the seven Jewish doctors honored with the supreme title of Rabban. Though a Pharisee, he was liberal, allowing his pupils to study Greek literature, and bidding them on feast days to give a holiday greeting even to pagans. "Refrain from these men, and let them alone." Gamaliel, as a Pharisee, would be inclined to favor the Christians more than the Sadducees, who were the most prominent Jewish office holders, because, while the Sadducees denied human immortality, the Pharisees believed in the resurrection from the dead the teaching which the Christians so stoutly emphasized. "For if this counsel or this work be of men, it will be overthrown." Gamaliel does not mean that all human enterprise will be overthrown." Gamaliel does not mean proves what is said and done will come to naught.

The Apostles Beaten. v 40 "And when they had called the apostles unto them, they beat them." It was a cruel beating, we may be sure, taking them as near death as the councilors dared. It was the penalty for venturing to disobey and defy the Sanhedrin. "And charged them not to speak in the name of Jesus." They knew perfectly well by this time that the charge would have no effect, even with the beating to reinforce it; but their outraged dignity required this reassertion of their authority.

The Apostles Triumphant v 41 "The therefore departed from the presence of the council, rejoicing that they were counted worthy to suffer dishonor for the Name." That Name which they were forbidden to utter before the people, declaring that it was the Messiah's, and that it, as Peter had emphatically said (Acts 4:12), was the only name bringing salvation to men.

"Truth, crushed to earth, shall rise again; The eternal years of God are hers; But Error, wounded, writhes in pain And dies among his worshippers." —William Cullen Bryant.

men." Peter and John, when first brought before the rulers, had said substantially the same thing. (Acts 4:19). Whenever human officers and laws conflict with God and his laws, we can have no choice in the matter; human laws are to be defied, human government is to be resisted.

"The God of Our Fathers." v 30 "The God of our fathers raised up Jesus." In this sentence the apostles sought to assure the Sanhedrin that they had not departed from the ancient religion of their race. It was the God of Abraham, Isaac, and Jacob who had sent Jesus Christ his Son, worked wonders through him, taught through him, and finally raised him from the grave.

Jesus "A Prince and a Savior" v 31 "Him did God exalt with his right hand to be a Prince and a Savior." The right hand, with most men, is the strong and skilful hand, so that the expression, "with his right hand", means "with his power." Christ was to be the world's Ruler as well as the world's Deliverer, Ruler by right of being Deliverer, Ruler in order that he may the more effectively deliver men from their sins and miseries.

Repentance and Remission of Sins v 31 "To give repentance to Israel and remission of sins." Repentance is a gift from Christ, it is no born of our sinful hearts. "Remission" means "sending away". Christ sends us away from the penalty of sin, and as much of sin's consequences as is best for us and for the world. God in Christ forgets the sins of the penitent believer, and so far as he is concerned it is as if they had never been committed. MANY PROFIT FROM PAMPA GAS FIELD

While Pampa, by reason of her central position in the world's greatest gas field, profits most from the immense natural resources underlying his vicinity, many other communities soon will enjoy great enhancement of their property values and will have better prospects for development through extension of gas lines.

Gas as a home commodity is highly desirable, and the Plains people are very fortunate in having it. While the eastern critics may find fault with the weather and the distance from population centers, these claims are not justified and oil development has made the Panhandle the envy of the country.

SUGAR PRODUCTION AGAIN VERY SHORT

Only 47,000 short tons of sugar were made from the 1926 cane crop of Louisiana, and the present flood, overrunning the "sugar bowl" area will still further cut down the supply.

For last year, an important factor was the use of the cane crop for molasses, although the total acreage was slightly reduced. There also were low yields per acre and a poor quality of cane.

The flood cannot but greatly affect this year's crop, and the market will reflect the shortage. Nearly 192,000 acres, or 97 per cent of the sugar cane grown in Louisiana in 1926, was in the sugar belt which lies in the low delta of the Mississippi below the mouth of the Red river.

A writer says there's no law against saving money. There's that little law of necessity. The Rochester Times-Union.

Our Most Successful Diplomat

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON. — Congressional mail is fascinating material for exploration, but congressional visitors are almost a menace.

The only reason congressmen retain such mental faculties as they have is that there are secretaries to protect the congressmen and sometimes even stenographers to protect the secretaries.

But the worst pest or the most pronounced psychopathic case at times has such a plausible exterior that he gets into the inner sanctum and then it's the devil's own job getting rid of him.

These cranks include those who come in to ask the great man to indorse a check. If he isn't there to put his name on the check himself, why his secretary will do very nicely. Often it's not good politics to refuse and the boys on the hill are not hard-hearted when someone from the home state badly needs the money, but it is no rarity for these checks to come back.

The late Senator Ladd once lost \$400 that way. The leader of an American legion band is said to have cashed the check after obtaining Ladd's endorsement. Most members of Congress, however, will balk at taking a chance on such a large sum.

One senatorial secretary recently cashed a check for \$65 for a young man from out near his home. Back came the check. It subsequently developed that the youth had spent \$45 of the money talking over the telephone to a girl friend in the west that same evening. His mother finally made good.

Congressman Sol Bloom of New York has blossomed out as the government's super-salesman.

About March 15, Uncle Sam modestly put on sale one of the most important volumes published by the government printing office for a long time. This was the code of laws of the United States of America, an indexed, complete compilation produced by act of Congress after many years of labor and research.

One lawyer says that this massive tome costs some \$200 as available in annotated form from private publishers, but the government only charged the modest sum of \$4.

Nevertheless, sales were sluggish until Congressman Sol grabbed hold of the promotion work.

PRESS FORUM

Excited fluctuation of the wheat market at Winnipeg attests the unsettled crop prospect in Canada, which is one of the world's chief sources of bread supply. Weather conditions have delayed planting in the Dominion and with the approach of the extreme limit of time when wheat may be planted with expectation of satisfactory maturity, new rains have set in over most of the wheat lands.

Canadian traders fear that the Dominion's crop will be extraordinarily short, and one movement at Winnipeg carried prices as much as 15c a bushel higher. The Canadian situation has a direct significance in West Texas. Whatever cuts down the prospects of world supply makes wheat all the more a better bet against cotton for the farmer. A great Canadian crop can be kept out of competition with American wheat in American markets by application of the tariff differential.

It is this very "world control" factor which makes wheat an attractive medium for the West Texas farmer through which to escape the domination of cotton. Since only world conditions can determine wheat prices, local conditions can have little effect. However much wheat West Texas may raise, the price will not be the lower for large production here.—Star-Telegram.

TWINKLES

Clarendon voted, 305 to 301, to buy the Clarendon college property. Those people haven't got the college, but they still have more of it than any other city.

Balloon racing may be fine, but anyone desiring to stay in the Panhandle these days will limit himself to some sport that will "take" these winds successfully.

An American killed a Nicaraguan Liberal general, ostensibly in self defense. Wars have been started by less than that, but the U. S. forces are down there to war on war, if necessary.

It is too bad that recurring mine disasters afford publicity of such little value.

Panhandle are bright folks, but most of them find

it hard to understand why the Mississippi hasn't run dry several times before now.

Looks like a good way to travel cheaply would be to buy a railroad ticket to some point across the flood area.

Lindbergh won't drink, won't talk, won't act, won't try another long flight, and generally is breaking a lot of hearts, including those who would like to be in his shoes for a month or so.

Presbyterian Assembly Report Says Sabbath Has Become "Amusement Day" Through Efforts of Commercial Men

SAN FRANCISCO, May 28.—Loss of the American Christian Sabbath is seriously threatened, declares the annual report of the Presbyterian Board of Christian Education to be presented to the General Assembly Monday morning.

Church people, rebuked for their listlessness, are challenged to awaken to the peril and combat the movement to commercialize Sunday into "Amusement day". The board reports that its representatives have appeared during the past year before legislative committees where the Sabbath question was pending.

Special attention was given to the bill before congress to secure a Sabbath law for the District of Columbia. Communication was sent to Presbyterian pastors and co-workers in states where legislation regarding the Sabbath day was pending, urging upon them the importance of making their wishes regarding these bills known to the legislators or congressmen.

"As a result," says the board, "much legislation that would have been passed in favor of commercialized amusement was effectively and completely killed. While the bill before congress to secure a Sunday law for the District of Columbia did not pass, the sub-judiciary of the committee on the District of Columbia

which conducted hearings on the bill reported it for favorable consideration by a vote of 4 to 1.

"The Legislative work of the board's bureau is important for maintaining and strengthening the legal safe guards of the Sabbath; also the legislative issues are the vehicle whereby the educational work in behalf of the Sabbath day can be carried forward effectively. This bureau has cooperated with existing organizations laboring in behalf of Sabbath observance, especially with the Lord's Day Alliance.

"Although the work of the past year has greatly exceeded that of the preceding year," the board admits, "It has come far short of measuring up to the demands of the situation. Powerful and well organized forces interested are ceaselessly active in the efforts to break down our Sabbath laws and the sentiment against Sunday amusements that they may make the Lord's day, "Amusement day" in America.

"Many of our church people are becoming more careless in their attitude toward the day, and many church leaders seem to be unaware of the peril we are facing from an are in the field today to destroy the Sabbath. The commercialized amusement increasing Sabbath desecration."

The Water's Fine!

—just warm enough for a cool, invigorating plunge. To thoroughly enjoy your swim you must have a comfortable bathing suit—one which will conform to the body, yet give with each movement.

We have the proper kinds to make your plunge an enjoyable one.

W. T. C. C. Motorcade Will be Greeted By Residents Along the Route, and Much Entertainment Will Be Provided by Them

Information about the W. T. C. C. motor trip to be made early in July is contained in a letter from Homer D. Wade to Scott Barcus, manager of the Pampa Chamber of Commerce.

The letter follows: "You have probably seen news stories concerning the vacation motorcade to the resort section of the Davis mountains and Eastern New Mexico, which the West Texas Chamber of Commerce will sponsor during the first ten days of July. There is not a more delightful trip which can be taken than this one, nor a trip which will be more educational or more economical. The various cities which we will visit will all stage entertainments and social functions, and those who make the trip will meet the most delightful people in the section traversed. In many instances, the motorcade will be entertained with luncheons and banquets, and will be guests of the towns visited. Every effort will be made to hold expenses down to a minimum, and advance arrangements will be made to provide for entertainments at all points.

"As tentatively planned, the motorcade will assemble at some convention point and will proceed via Fort Stockton to Alpine for our district convention on July 4th. Thence by easy stages, will proceed to Marfa and Fort Davis, at which point we will be a mile high and in a delightfully cool climate. We shall pass down thru the Lympia Canyon via Balmorhea to El Paso, where a day and two nights will be spent. Thence via Alamogordo to Cloudcroft for our New Mexico district convention. At Cloudcroft, we will be at an altitude of nearly ten thousand feet, and amidst a beautiful pine forest. From Cloudcroft, we will go to the Mesquero Indian Reservation; through the Lincoln National Forest; down the valley of the Ruidoso River in the White mountains, to Roswell. From Roswell, we will go to Carlsbad Cavern, termed as the eighth wonder of the world.

"We want as many towns as possible to be represented in this motorcade. Won't you kindly give this publicity thru your local paper and also send us a list of the people in your town whom you think would be interested in this trip. We shall be glad to have you, personally, accompany us. Special arrangements will be made for unaccompanied ladies and girls. The trip will be personally supervised by the president and two past presidents of the West Texas Chamber of Commerce with their wives."

Young Woman Dies Here Friday

The funeral service for Mrs. Mitchell Cannon Smith who died here Thursday, was held Friday from the First Christian church by the Rev. James Todd Jr.

Mitchell Cannon Smith was born at Campbell, Hunt county, Texas, December 5, 1904, the daughter of Mr. and Mrs. T. B. Cannon. She grew to young womanhood in Campbell, and on January 21, 1922, was united in marriage to Thomas Howard Smith. To this union were born two sons, Thomas Howard Jr., and Bobbie Gene.

Three years ago Mr. and Mrs. Smith moved to the Pampa oil field, locating first upon the Combes-Worley lease. Mr. Smith assisted in bringing in the second of the Pampa oil field wells. They later moved to the Prairie Merten lease where they have since made their home.

Though Mrs. Smith did not enjoy the best of health, she was always ready to neglect herself in behalf of her family, and give herself in true friendship to those about her.

On December 27 she became ill, and while confined to her bed their little son, Bobbie Gene, was taken ill, January 6. Devoted motherhood conquered physical weakness, at least for awhile, and she left her bed to become attentive to the needs of her little son. On March 21 she went with him to Dallas for treatment and an operation. Through it all she exerted herself and manifested such fortitude of mind and body that all who knew her marveled at her strength and bravery. Returning home the early part of May, the strain and anxiety proved too much for her weakening body, and she again took her bed. In an attempt to save her life her husband gave of his blood, and for awhile she rallied, but again a change for the worse developed, and she was brought to the emergency hospital where every possible effort was made to save her life. Shortly after entering the hospital a devoted friend to the family and close associate of Mr. Smith in the oil field gave of his blood for the second transfusion, and left his work that the second transfusion might be made, but her condition proved that it would be useless. Thursday morning, May 26, at 1:15 o'clock she passed away.

Mrs. Smith made a confession of her Christian faith in early youth and was a worker in the Christian church in Campbell, and attended the church services in Pampa as the duties of her home and her physical condition permitted.

She leaves to honor her memory her husband, T. H. Smith, and two young sons, Thomas Howard Jr., and Bobbie Gene; her father and mother, Mr. and Mrs. T. B. Cannon, of Pampa; a brother, Curtis Cannon, of Pampa; two sisters, Mrs. E. F. Allen, of Greenville, and Mrs. J. M. Cason, of Dallas and Greenville; three grand-parents, seven uncles, four aunts, two nieces and many friends, both in Campbell and Pampa.

The funeral service was conducted Friday afternoon at 3 o'clock from the Christian church, the minister, Rev. James Todd Jr., officiating, amid many beautiful floral offerings.

The pall-bearers were G. D. Sterling, J. L. Miller, Dave Gale, J. L. Robertson, E. E. Reynolds, Lawrence Lonsdale.

Let a want ad work for you.

Ice Cream Men Organize to Better Their Products

SAN ANTONIO, May 28.—The consumption of ice cream in Texas has brought ice cream manufacturers of this state into league with fellow manufacturers of other states to protect the public and the industry.

The Research council of the Ice Cream industry, a national organization, has been formed by the leading manufacturers of this frozen food, for the purpose of insuring a pure, wholesome and healthful product.

A. J. White of San Antonio, president of the Texas association of Ice Cream manufacturers, who is a director in the national association, has been an important factor in developing the work of the research council.

"Fifteen ice cream manufacturers in Texas," said Mr. White, "are members of the research council of our industry. They recognize that the discriminating people of our state require and deserve every possible assurance that the ice cream for sale here is manufactured under strict health regulations.

"Every member of the research council obligates himself and his firm not only to the public but to the collective membership of the research council, to produce only pure and wholesome ice cream in plants that are always kept clean and sanitary.

There is a strong movement among doctors, health experts, and others to increase the use of dairy products in Texas, and since ice cream is a dairy product, being made of cream, milk, sugar and flavoring, it is logical that any increase in the consumption of ice cream would increase the general use of dairy products.

"In 1925 the average consumption of ice cream in the United States was 2.9 gallons for every person, and Texans ate their share. At the present rate of increase, the consumption of ice cream in Texas will double in five years."

Roscoe Arbuckle, screen comedian, expects to return to the legitimate stage on Broadway next month.

Panhandle Folks In Rotary Group Enroute to Ostend

DALLAS, May 28.—More than 100 Texans were aboard the ship that sailed a few days ago for Ostend, Belgium, where the Rotary International convention is to be held from June 5 to June 10.

The names of those from Texas who have gone on the trip, as supplied by the Rotary organization, follow:

Abilene: Rev. H. Knuffer. Amarillo: Mr. and Mrs. Fred Bone; Mr. and Mrs. Tom Nabors. Belton: Milton P. McElhannon and daughter.

Canadian: Mr. and Mrs. J. W. Sanders.

Cisco: Carlton T. Roberts and Bruce C. Boney.

Denton: William C. Edwards; Mr. and Mrs. H. M. Russell.

Electra: Mr. and Mrs. Conrad P. Engleking.

Fort Worth: Mr. and Mrs. Sam Ross McElreath; Mr. and Mrs. Lewis D. Fox; Mr. Max Mehl; Mr. and Mrs. J. B. Baker; Mr. and Mrs. Sam S. Losh; Mr. and Mrs. A. L. Shuman; Miss Elizabeth Nelson; Mr. Steve Donald; Mr. Ed. Hamble.

Post: Mr. and Mrs. W. R. Greaber and one lady guest.

Stamford: A. J. Swenson.

Waco: Mr. and Mrs. Wm. F. Barnett; Mr. and Mrs. A. C. Patton.

Wichita Falls: Mr. and Mrs. Walter D. Cline.

SEEN About New York

NEW YORK.—The gay metropolis now has shock absorbers for plate glass windows, but they are not on Broadway.

On Eighth avenue, where there is considerable blasting for subway excavation, crossed sticks pressed against the windows are attached by wires from the intersection to edges of the glass to take up vibration.

New Yorkers who "go in" for futuristic entertainments sometimes profess curiosity as to the inspiration of the artists who produce the glaringly colored canvases or the musicians who compose the unfamiliar sounds of ultra-modern symphonies.

One New Yorker, at least, believes she has an answer. At the lower end of Greenwich Avenue laborers are working on the new subway. The roads are torn up, the streets are boarded and the heavy derricks and drilling machines make endless noise. Two of the muses were represented at the scene Saturday.

A bobbed haired girl in a smock was sitting at an easel on the street a short distance off, trying to get the "subway of the future" in oils, while resting against the frame of one of the temporary crossings a young man with an open pad, on which music staves were lined, was marking notes.

Tinted candy Venuses have entered into competition with candy brides and grooms for places of honor on elaborate wedding cakes.

The ancient goddess of love is displayed in this sweet guise in the windows of an expensive confectionery shop, along with candy dogs, cats, cupids and automobiles labeled "just married."

The police of one precinct are taking a leaf from Bre'h Rabbit and the Tar Baby, although the opportunity came uninvited.

Anyone found in a certain neighborhood with tar on his shoes is quite likely to be put in the cooler without a chance to explain. The explanation is that two cops were chasing a much wanted fugitive, who fled over a roof newly covered with tar. It retarded progress of the police, and the fugitive escaped.

Millicent Rogers Saim, recently divorced, has announced that she will marry an Argentine.

Ten Thousand See Thornton Put Out Blazing Gas Well

(By The Associated Press.)

SANFORD, May 28.—Ten thousand persons last night watched Tex Thornton, well shooter, blow out with TNT the burning gas well that took eight lives and injured five other men when it exploded Thursday.

Two charges were necessary to snuff out the 200-foot flame that roared for more than 40 hours.

DEAN OF BALLOONISTS TRAINS DAUGHTER TO CARRY ON IN CLOUDS

MRS. RUFUS C. DAWES

ST. LOUIS, May 28. (AP)—Edna Honeywell takes after her father, even when his course leads through the skies.

At the age of 55, Capt. Harry E. Honeywell, dean of American balloonists, is ready to retire, with more flights to his credit than any other man.

When he steps from the basket for the last time, possibly this summer, his 25-year-old daughter will be waiting to carry on the family name.

Two flights already are set down to Edna's credit, under her father's tutelage. She is bent upon making five more, one of them alone, to win a pilot's license.

The balloon ascensions of Captain Honeywell totalled 564 when he arose at Akron on Memorial Day in the national elimination race. He holds the American distance record with a 930-mile flight from Kansas City to Mannassas, Va., in 1921, and the water record of 350 miles which has stood since 1908. He commanded the aeronautic section of the Missouri national guard in the world war.

Edna aspires to no better fortune than her father has had in three decades of ballooning. Never has he had to land in water, and never was he injured, although at Brussels in 1923 lightning which struck his bag killed five men.

DEFINITIONS IN COOKERY

Suppose that English were the only language a person knew, and suppose that the greater part of his dining had been done at home—or in homes of others. Could there be anything but a vast incomprehension and an embarrassing situation when the waiter in a restaurant handed him a menu every page completely covered with French words and phrases.

A menu might just as well be a blank white page as far as many fine persons are concerned. As there seems to be no possibility of chefs and owners changing the custom, everyone should acquaint himself with at least these phrases, unless of course, he wants a truly "surprise" meal and just order at random with not the slightest idea of what he is going to get.

These definitions may help a little:

- Puree—Thick vegetable soup or a sauce.
- Salade a la Russe—Tomato stuffed with chicken.
- Sale—Salted.
- Saute—Quickly fried in grease.
- Soufflee—A puff, puffed.
- A, au, aux and a la, mean, "in the manner of" or "in the style of."
- A la Maryland, for example means Maryland style—as they do it in Maryland.
- Au jus—In its own meat juice.
- Biscuit Tortoni—Rich ice cream made with macaroons.
- Bisque—Thick, rich soup.
- De maniere—In home style.
- Filet—An undercut, as the inside of the skirt.
- Glace—Chilled or frosted or glazed.
- Hollandaise—Dutch.
- Jardiniere—Means "garden fashion." Implies that vegetables are served with a meat dish with which it is connected.
- Marine—Pickled or soured.
- Mousse—Whipped or frothed cream.
- Pate—Pastry.
- Potage—Soup.

COCKTAIL DRESSING

For oysters, shrimp, tuna fish or salmon, make a dressing in the following proportions: teaspoon vinegar, tablespoon catsup, chili sauce or horse-radish, teaspoon lemon or grapefruit juice; a few drops of tobacco sauce and a pinch of salt. Put the fish into sherbet glasses, pour the dressing over it, and let stand in the ice-box to chill and blend before serving.

BATTER AND FRUIT COMBINATIONS

The housewife who is seeking new cooking ideas is the one who is going to be more skilled along the lines of cookery.

Perhaps not many of you have thought of combining fruits and batters in making a dessert which will replace the old one. Fruit may also be added to fritter batter, and the fritters be served in place of the meat dish for luncheon or supper. These fritters will be sufficiently substantial on account of their being fried in deep fat.

When fresh fruits are in season, such as strawberries, cherries or raspberries, they may be added to the batter and this either steamed or baked and served with whipped cream or a hard sauce. When fresh fruits are not available the canned ones may be used as satisfactorily, be careful to drain off all the juice, and this can be used in place of the liquid called for in the recipe.

By making a regular fritter batter fruit may be dipped into it, fried in deep fat and served with syrup or powdered sugar.

Many people prefer to add the crushed fruit to a thick fritter batter and fry in deep fat. Sliced apples crushed peaches, bananas or any desired fruit may be used. Then drop by spoonfuls in deep hot fat. They will require about three minutes for cooking and may also be turned often. Great care must be taken to have the fat of the proper temperature. If too cool they will absorb fat, and if too hot they will cook so quick that they will not be well done on the inside.

Upholstered furniture may be given a beating indoors if covered with a cloth which has been dipped in water and wrung as dry as possible. Use a flat beater. The damp cloth takes up the dust.

A nine-inch allowance for hems, headings and shrinkage is usually made in cutting either glass curtains or side draperies. A valance, when finished, should be one-sixth the length of the side draperies.

Experiments have shown that slow milking may reduce the percentage of butterfat in the milk.

Starch clothes wrong side out. Leave them wrong side out until they are sprinkled.

CHURCHES

Methodist Church

If you are not already a member of some class, you are invited to come and study with us.

There will be preaching at both hours by the pastor, Tom W. Abraham.

The morning theme will be "The Unfinished Task of the World War,"—a memorial service. The evening subject will be "How a Prophet of God Brought in a Gusher."

We are interested in great producers. We want more and bigger wells. Sunday night at the Methodist church you will learn how to find the proper location for a real gusher.

All oil operators and oil field workers are especially invited.

You will hear great singing, Gospel preaching, and receive a wonderful welcome.

Church Advertising Gets Sure Results, Churchmen Told

(By The Associated Press.)

SAN FRANCISCO, May 27.—Increasing use of paid advertising in newspapers on the part of Presbyterian churches throughout the country was reported this morning to the Presbyterian general assembly by Dr. Lewis Semour Mudge, stated clerk, presenting the annual report of the publicity department.

"Ministers who wisely use display ads in home papers," said the report, "find that advertising is an investment that yields sure results. By prudent advertising, religion extends its field and multiplies its usefulness to the community, its helpfulness to mankind. Printer's ink is a great auxiliary to the pulpit, a powerful medium for the Gospel. Advertising has persuaded millions into smoking, motoring, golfing, stock market and motion picture habits. Wise in its generation will be the united church who through advertising fully persuades the people to devote more thought, time, talent, to the Christian religion."

The department reported that it continued to find editors "sympathetic towards the purpose of the church, and just as willing to print religious news as to print any other class of news, provided always that it is of genuine and general interest. The newspaper editors are particularly keen for news of the church as related to current events; as for example, in connection with recent disturbances in China."

Woman Gets Offer Of Two State Jobs

OKLAHOMA CITY, Okla., May 28.—Most state jobs are eagerly sought after, but the situation is reversed in the case of Una Lee Roberts, Oklahoma's first woman assistant secretary of state. She is the only person to be reappointed for two consecutive terms and to have two assistant state offices offered to her in the same year.

Besides attending to her official duties Miss Roberts is an active Democrat and is recognized as one of the leading women politicians in the state.

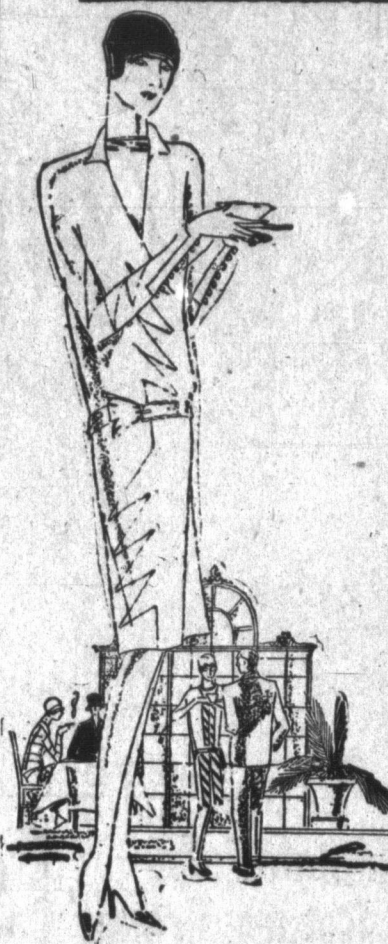

Turkish Women Praise Baby Station Doctor

CONSTANTINOPLE, May 28.—The feminism of Turkish women was demonstrated recently here when several hundred mothers carrying babies on their arms agitated for the ousting of a male physician from the directorship of the "Drop of Milk," the nation's pioneer baby health station, and the return of their favorite baby specialist, Dr. Safie Ali, Turkey's first woman doctor.

Doctor Safie Ali founded the "Drop of Milk" for babies of the poor, but had gained the resentment of men doctors because of her public activities and her success in a large private practice. When she had to resign her patients and followers paraded the streets of Istanbul and angrily besieged the chief newspaper offices and the "Drop of Milk" building.

When buying sheets it is well to make sure that they are from 24 to 36 inches wider and longer than the mattress, so that the ends and sides can be well tucked to hold the sheet in place. This also allows for a generous turnover on the top sheet, to protect blankets or other covers.

Modes of the Moment!

Reverse sides of black crepe satin are used by Doucet for a modern afternoon dress. The right side of the costume is shiny satin and the left, dull crepe.

Lady Burgomaster Is Practical Farmer

HUYSSSE, Belgium—A Lady of the Queen's House, Baroness Agnes de la Faille d'Huyssse, is burgomaster of this town and the seventh Belgian woman to assume the duties of a burgomaster in Belgium. She has full police power and as presiding officer of the chancellors and alderman she is largely responsible for financial and social welfare in the community.

The position has been held by the male members of the Baroness' family for many generations. A practical farmer, she is president of the Committee of Women Farmers Clubs. Women in Belgium obtained the right to hold positions as burgomasters only in 1921.

Harry Ward of Panhandle spent Saturday here on business.

SOCIAL NEWS {Phone 72 Mornings}

Mr. and Mrs. P. O. Sanders spent Sunday in Wheeler.

Mrs. Bertha Turner, who underwent an operation in a local hospital, Friday is doing nicely.

T. W. Barns of Kingsmill spent Saturday here on business.

Dr. and Mrs. Archie Cole spent the week-end in Mobeetie.

Mr. and Mrs. M. H. January of White Deer spent Friday here.

J. E. Jones was a visitor in McLean Friday.

Harry Griswald of the Bayshore Petroleum company was in Pampa Saturday.

Tom Hughston of Dallas spent Saturday here on business.

Miss Bernice Chapman has gone to Dallas to visit a few days.

Mrs. W. P. Masters and Mrs. Leonard Seither are leaving Sunday for Colorado Springs to spend several weeks.

Mrs. Floyd Glaze left Friday for Chickasha, Okla., to visit.

Mrs. O. K. Baker left Saturday for Woodward, Okla.

The Presbyterian auxiliary will meet with Mrs. Horace Oakley Wednesday afternoon at 3 o'clock at her home at the Ed Carson place on Francis street.

Seeks Key To Three Children's Diseases

ST. LOUIS—The cure for heart disease, rheumatism and St. Vitus dance among children may lie in one of the scores of test tubes in the laboratory of Dr. Edith Ervine-Jones who is first Catlin research fellow at the St. Louis Children's Hospital.

She is studying the possibility that the diseases are caused by poisons given off by the throat and sinus infections. This may lead, she believes, to disclosures about other puzzling infections of children. Dr. Ervine-Jones was once on the faculty of the University of California, was born in Scotland. She is a graduate of the University of Edinburgh.

Duchess Plays Chess With French Experts

PARIS—Although she did not enroll as a player, the Duchess d'Uzes, the "grand old lady" of the French aristocracy, added a feature to the women's chess championship tournament recently when she beat Mile. Erigard, last year's champion.

The tournament was played at the Lyceum club, which the Duchess d'Uzes helped to found. The Duchess recently rode to her own pack of hounds, although she has passed her 80th year.

One Woman Deputy Sits In Dail Eireann

DUBLIN, Irish Free State, May 28.—The only woman member in the Dail Eireann, Mrs. Margaret Collins-O'Driscoll, is one of its hardest working members. She has never missed a sitting since her election in August, 1923. Her motto, "Stop talking and get on with the work," was that of her brother, the late General Michael Collins.

She is also the only woman on the standing committee of Cumann Naon Gaedheal, the government party organization. Mrs. Collins-O'Driscoll was married in 1901 to Patrick O'Driscoll, a newspaper editor, who is now one of the official reporters to the Oireachtas.

College Girl Wins State Music Test

HIGH POINT, N. C., May 28.—The champion pianist of North Carolina is Miss Lillian Caldwell, of Salisbury, N. C., a graduate of the State College for Women.

Miss Caldwell has just won this honor in a contest sponsored by the North Carolina Federation of Music clubs by playing Beethoven's Sonata in B major.

Three-Sport Star DePauw's Greatest

GREENCASTLE, Ind., May 28.—Dick Sturtridge of Gary, Ind., will graduate from DePauw university in June acclaimed as the greatest athlete the school has had in years.

Sturtridge crowned his career by placing second in the decathlon at the Penn Relays, setting a new record of 16 seconds for the 110-meter hurdle. He has won nine letters at DePauw—as a halfback in football, a center and guard in basketball and a 10-second man, a star hurdler and a weight thrower of ability on track and field.

JAPANESE WOMAN SUICIDE PREVENTER

TOKYO, May 28. (AP)—Hundreds of girls, despondent over love affairs or other misfortunes, commit suicide every year by drowning in Lake Suwa in northern Japan. Recently Mrs. Takeyo Takanama, a social worker in Suwa Village, placed large sign boards at various spots around the lake shore, bearing large letters: "Wait a minute! If you are overburdened with perplexities, come to me. There is always a way out."

Mrs. Takanama's name and address are given. Already a number of girls who went to the lake to end their lives have read the signs and reconsidered. They have gone to Mrs. Takanama, who renewed in them the desire to live.

Mrs. George Gill Entertains Club

Mrs. George Gill entertained with a bridge party Friday afternoon when she had the Friday 13 club.

Three tables were artistically arranged throughout the house and the high score prize, a mayonnaise bowl was won by Miss Mable Davis. The low prize, a bridge indicator went to Mrs. Horace Oakley.

Mrs. E. E. Fisher bade the club farewell, as she is soon to leave on a three-months' visit in Canada.

Delicious ice cream and cake were served to 12 members and guests.

Laughed From Minors, Lands In Big League

CINCINNATI, May 28.—A youngster who was kidded into the major leagues is on the Cincinnati Reds' roster this season.

Ray Kolp, pitcher, got his start when Akron had an international league team. Harry Smith, former Giant, was Akron's catcher. He prided himself on having caught Cristy Mathewson and used to tell how he "bawled Cristy out."

Smith panned Kolp continually, and the youth never won a game with Smith catching. Finally he had to be let out, whereupon the St. Louis Browns grabbed him. He played with them three years, went to St. Paul a season, and now is "up again" with the Reds.

Fish should be included in all spring diets because of its iodine content which tends to prevent goiter.

New linoleum, if varnished before stepped on, will have its life prolonged and will be easier to keep clean.

A new orange table and chair for your kitchen or a coat of gay green paint on your old one, will bring spring indoors and make your work easier.

IOWA WOMEN'S CLUBS GROW AS WELL AS CORN

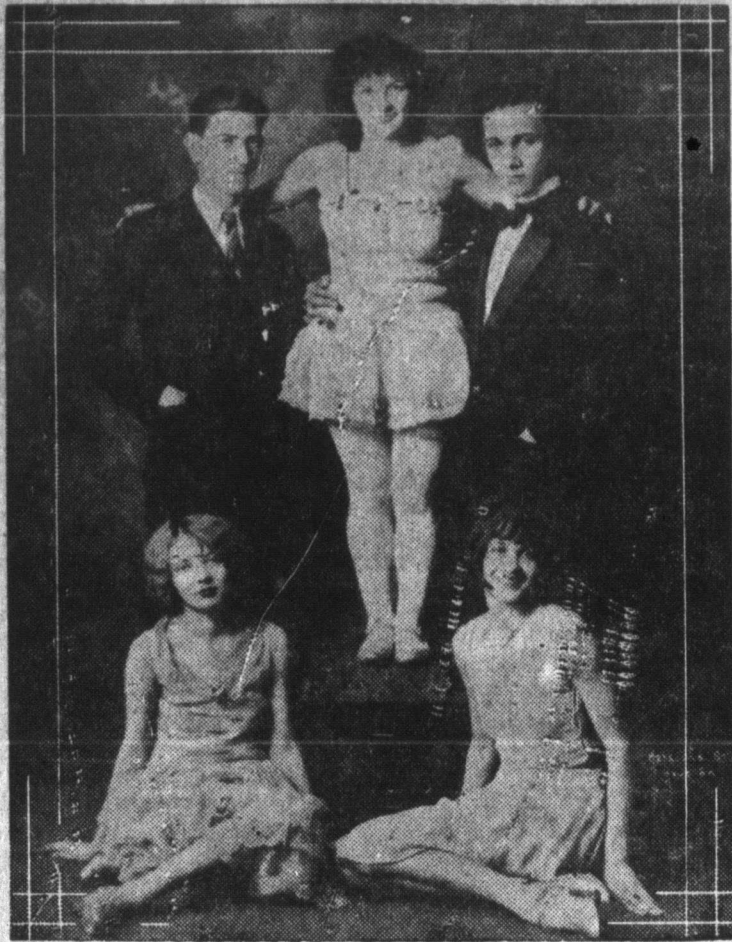

MRS. HENRY C. TAYLOR

BLOOMFIELD, Iowa, May 28. (AP)—Iowa women seem to be just as much interested in increasing the number of clubs as they are in the growing of tall corn.

Mrs. Henry C. Taylor of Bloomfield, director of the general Federation of Women's clubs, has just reported that her state leads the nation in the number of federated clubs, the total being 900 with an aggregate membership of 30,000.

London Dancer and Singer Coming to Crescent Theatre

All attendance records are expected to be broken at the Crescent theatre here Monday and Tuesday at the vaudeville show of Rica and her London Revue, according to present indications in the hands of H. A. Gilliland, theatre manager.

"Rica" is said to be one of the cleverest lady dancers and singers in vaudeville. This show has played to particularly large audiences everywhere, and anticipate new attendance records at this theatre when it shows here," he said.

Rica is an English girl and one of the few English vaudeville stars who ever played before the King and Queen of England in their own theater. She reached great heights of popularity in England and then came to America. Here she has been a favorite of Broadway and has played in the principal cities of the United

States in Big Time vaudeville. She came to Texas recently on personal business and found it would take a few months to complete it and that details still pending would force her to remain near Houston. She expressed a desire to keep in trim in her acting and at the same time to see more of the big state she had heard so much about.

Through special arrangements with Billy Truehart, Houston producer, she formed the present vaudeville show and booked it in the leading cities of Texas and the western part of Louisiana.

Besides Rica the show is composed of Doris O'Dare and Lari Buquor in a new "double Apache" dance recently introduced on Paris stages; Anna Belle, who is an acrobatic dancer and clog dancer and Bert Ferguson, "pianologist" and "silver voiced baritone."

Texas Commerce Shows Effect of Slowing Down Movement in Orient And Japan Faces Financial Crisis

HOUSTON, May 27.—Ripples in finance, even as far away as Japan, leave an unmistakable effect in many corners of the world.

In Houston they are reflected in slowing down cotton movements to the Far East.

Japan, it appears, has faced a considerable financial crisis. Ernest L. Tutt, district manager of the southwest branch of the commerce department, tracing its cause believes that "although it is attributed largely to consequences of the 1923 earthquake and post war economic depression, the effects are still felt by the Japanese industries and commercial concerns, may be held primarily responsible."

"Southwest exporters," Tutt continued, "will remember that signs of Japan's present financial crisis first appeared in March when several banks in Tokyo and vicinity suspended payments and runs were made, on others. The instant assistance rendered by the Bank of Japan, the central bank of the country, and by a group of leading private banks probably averted a general panic at that time. The immediate cause of the difficulty was the delay in the passage of legislation to extend the "earthquake bills." These bills were bank loans that were made uncollectable by the great earthquake in September, 1923. Through an arrangement with the bank of Japan at that time the government came to the relief of the banks holding such paper by authorizing the Bank of Japan to discount it. However, the parliamentary debates alluding to the difficulties in forcing the legislation caused a run on certain banks."

CITATION BY PUBLICATION THE STATE OF TEXAS.

To the Sheriff or any Constable of Gray County—GREETING:

YOU ARE HEREBY COMMANDED to summon Harold DeVoe by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 84th Judicial District; to appear at the next regular term of the 84th District Court of Gray County, Texas, to be held at the Court House thereof, in LeFors on the first Monday in June A. D. 1927 the same being the 6th day of June A. D. 1927, then and there to answer a petition filed in said Court on the 13th day of May A. D. 1927, in a suit numbered on the docket of said Court, No. 105, wherein Lorna DeVoe is Plaintiff and Harold DeVoe is Defendant and the cause of action being alleged as follows:

Plaintiff and defendant married in Council Bluffs, Iowa, August 14th 1923, separated in Long Beach California, August 15th, 1926. That plaintiff has resided in Gray County, Texas, for more than one year. That defendant was extremely jealous and often falsely accused plaintiff of wrongdoing until plaintiff suffered nervous breakdown and great mental anguish. That defendant circulated false reports accusing plaintiff of drinking intoxicants and becoming intoxicated, which renders further living together as wholly insupportable. Plaintiff prays for citation, for costs of suit and for divorce.

Herein fail not, but have you before said Court, on said first day of the next term thereof, this Writ with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in LeFors, Texas, this 13th day of May, A. D. 1927.

CHARLIE THUT, Clerk District Court, Gray County, Texas.

(SEAL) (7)

Then in April, is was recited, one of the foremost firms of importers and exporters of Japan failed, carrying with it the bank of Taiwan, a semi-government institution. At first it was felt that the Japanese government would come to the rescue.

Discussion of the question brought changes in the government and the net result was a three week domestic moratorium beginning April 22. It did not, however, affect foreign commercial paper, Tutt pointed out.

Moreover, Tutt said, Japanese industries have been affected by the war in China and declines in the prices of raw silk, due somewhat, Tutt thought, to competition of rayon, "but perhaps more to conditions in the industry itself."

Meanwhile, according to Tutt's information, the government is moving to weed out many small banks in Japan whose solvency has been in doubt and to increase the capitalization of those that remain.

Tutt added that Japanese public finances are in no way involved in the crisis. "Their soundness," he said, "remain unchanged," because, "the budgets of Japan are conservatively estimated and a large surplus is the rule rather than the exception.

Thus, Tutt thinks, Japan is building on a sound foundation for the financial and commercial rehabilitation of the country whose trade is regarded as extremely important to the United States and to Texas as well.

Dairy Breeds Vary According To Purpose of Production—Jersey Is Ideal City Cow, But Small Producer

(Editor's note: The following article is by Prof. J. L. Lester, vocational agriculture teacher at Pampa high school, and is intended to answer some of the questions being asked by farmers in this vicinity.)

In the last few days, I have often been asked the question: "Which breed of dairy cattle is the best?"

In answering this question I will say that dairy cattle are for convenience divided into two great classes: the minor dairy breeds and the major dairy breeds.

The minor dairy breeds are the following: Dutch Belted, Polled Jersey, Kerry, and the French Canadian. These breeds, though of the dairy type, have not established a record for dairy purposes equal to the breeds classed as the major breeds. So in our choice of a dairy breed of cattle we will dismiss the minor breeds without further comment.

The major breeds of dairy cattle are: the Jersey, the Guernsey, Ayrshire, and Holstein-Friesian, usually referred to by the name of Holsteins.

Jersey Characteristics

The Jersey cow possesses the following characteristics: she is the smallest of the major dairy breeds. She has been pure bred for about 150 years. The milk from this breed has the highest average butter fat test of any dairy breed. She ranks first in dairy type, conforming very closely to the true ideal. Jerseys are easy keepers, but like all dairy animals, need good pastures, and liberal feeding for good returns. As producers of whole milk, the Jersey ranks lowest. The Jerseys are good breeders and are very propent. As a city man's cow, the Jersey ranks first. As a cow suitable to the dairyman, it all depends upon the product to be sold. The Jersey is a very pretty cow when selected and bred with the proper ideals in mind.

The Guernsey cow ranks third in the amount and second in richness of her milk. She has been pure bred for about 100 years. This cow ranks second in size among four major dairy breeds. This breed of cattle has won its popularity by the excellent system of yearly records that it has established. This breed is not quite so true to the ideal type as the Jersey. It is generally conceded that the Guernsey cow can withstand the extremes of climate better than the Jersey.

Ayrshire Is Hardy

The Ayrshire is a native of Scotland; therefore can stand extremes of climate well. She is an excellent rustler and feeds well on sparse pasturage.

This bred ranks third in size and richness of milk. She ranks second in the amount of milk produced.

This breed has been true to type and has had a record kept of its breeding ever since 1863.

She has a most excellent udder development. The Ayrshire is noted rather for a good uniform production than for remarkable records. These cows have not yet made the enormous records of fat and milk production that have been made by the Holsteins, Jerseys and Guernseys; but their average production as a breed is probably equal to that of any other.

The Holstein-Friesian is the largest of the dairy breeds. She is, because of this, a fairly good beef animal and at the same time a most excellent dairy animal.

A Quantity Producer

The Holstein holds the world's record in both milk and butter production. The Holstein's milk ranks lowest in butter fat content, but, due to her very high yields, she makes up for low percentage content.

The Holstein is very docile and does best when pasturage is abundant. She stands the climatic changes quite well, indeed.

Now summerizing: The Jersey is small in size, true to type, gives the richest of milk, is a good grazer, needs to be protected from the extremes of weather, is an ideal cow for the city dweller, and a most excellent breeder.

The Guernsey is second in size, second in richness of milk produced, third in the amount of milk produced, can stand the changes of climate better than the Jersey, but not so well as the Ayrshire or Holstein; is an ideal dairy cow for general purpose dairying.

Is Beefy Animal.

The Holstein gives more milk but poorer milk in butter fat content. She is an ideal cow where the idea is to produce and sell whole milk by the quart or gallon or when the chief aim is cheese making. She stands changes of climate and weather quite well. Her size makes of her a fairly good beef animal. She is very docile and not so nervous as is the Jersey or Guernsey.

The Ayrshire ranks second in the amount of milk produced and third in the richness of her milk. She is rather beefy, therefore does not conform very closely to the dairy type. This cow has an ideally formed and placed udder. She is a good cow for short pasturage, rough physiography, and where the idea is to produce and sell whole milk by the quart or gallon.

Just one other thing ought to be said, perhaps, in selecting a dairy breed: this we may call popularity. The progeny of a popular breed will always outsell the progeny of an unknown or unpopular breed. And the farmer-dairyman would desire to keep, raise and sometimes, at least, sell some of young, undeveloped herd to others around him. The breed that is best and well known will always outsell the breed that is not so well known or that has no established reputation in the farmer-dairyman's community. And it is well known that it takes time and expense to establish the reputation of any breed or type of animals. It would take more time and expense, perhaps, than the average community could afford.

Let me illustrate by concrete example, just what I am trying to tell in the above paragraph. I know the facts that I am about to relate to be true and correct. Here are the facts: In a certain community in Texas, a certain breeder was breeding Jerseys, Holstein and Ayrshire cattle. The merits and demerits of the Jerseys and Holsteins were known, but the merits and demerits of the Ayrshires were not well understood. From this herd a Jersey calf sold for \$300 at three days of age, a Holstein calf eight months old sold for \$800. As good an individual as either of these of the Ayrshire breed was unsalable as a breeding animal and could be sold only for the value of a beef steer.

dant. She stands the climatic changes quite well, indeed.

Now summerizing: The Jersey is small in size, true to type, gives the richest of milk, is a good grazer, needs to be protected from the extremes of weather, is an ideal cow for the city dweller, and a most excellent breeder.

The Guernsey is second in size, second in richness of milk produced, third in the amount of milk produced, can stand the changes of climate better than the Jersey, but not so well as the Ayrshire or Holstein; is an ideal dairy cow for general purpose dairying.

Is Beefy Animal.

The Holstein gives more milk but poorer milk in butter fat content. She is an ideal cow where the idea is to produce and sell whole milk by the quart or gallon or when the chief aim is cheese making. She stands changes of climate and weather quite well. Her size makes of her a fairly good beef animal. She is very docile and not so nervous as is the Jersey or Guernsey.

The Ayrshire ranks second in the amount of milk produced and third in the richness of her milk. She is rather beefy, therefore does not conform very closely to the dairy type. This cow has an ideally formed and placed udder. She is a good cow for short pasturage, rough physiography, and where the idea is to produce and sell whole milk by the quart or gallon.

Just one other thing ought to be said, perhaps, in selecting a dairy breed: this we may call popularity. The progeny of a popular breed will always outsell the progeny of an unknown or unpopular breed. And the farmer-dairyman would desire to keep, raise and sometimes, at least, sell some of young, undeveloped herd to others around him. The breed that is best and well known will always outsell the breed that is not so well known or that has no established reputation in the farmer-dairyman's community. And it is well known that it takes time and expense to establish the reputation of any breed or type of animals. It would take more time and expense, perhaps, than the average community could afford.

Let me illustrate by concrete example, just what I am trying to tell in the above paragraph. I know the facts that I am about to relate to be true and correct. Here are the facts: In a certain community in Texas, a certain breeder was breeding Jerseys, Holstein and Ayrshire cattle. The merits and demerits of the Jerseys and Holsteins were known, but the merits and demerits of the Ayrshires were not well understood. From this herd a Jersey calf sold for \$300 at three days of age, a Holstein calf eight months old sold for \$800. As good an individual as either of these of the Ayrshire breed was unsalable as a breeding animal and could be sold only for the value of a beef steer.

**Preparations On
To Have Passenger
Service On Atlantic**

BOSTON, May 28.—The Boston Traveler in a copyrighted article published today, says it has learned that preparations which have been going on over a long period for regular trans-Atlantic airplane service, with giant planes carrying at least 100 passengers.

The Holstein holds the world's record in both milk and butter production. The Holstein's milk ranks lowest in butter fat content, but, due to her very high yields, she makes up for low percentage content.

The Holstein is very docile and does best when pasturage is abundant. She stands the climatic changes quite well, indeed.

Now summerizing: The Jersey is small in size, true to type, gives the richest of milk, is a good grazer, needs to be protected from the extremes of weather, is an ideal cow for the city dweller, and a most excellent breeder.

The Guernsey is second in size, second in richness of milk produced, third in the amount of milk produced, can stand the changes of climate better than the Jersey, but not so well as the Ayrshire or Holstein; is an ideal dairy cow for general purpose dairying.

Amusements

"MATINEE LADIES"

"Matinee Ladies," a Warner production, with lovely May McAvoy as the star is the attraction at the Rex today. And it is an attraction! In support of Miss McAvoy is the popular Malcolm McGregor, who is cast as a young law student who turns dancing-man to raise funds to pay his way through college. At the roadhouse he meets Sallie, the cigarette girl, and the two manage to steer clear of entanglements overly serious, with lackadaisical matinee ladies who would ensnare the youth, and pot-bellied rounders who would inveigle Sallie from the straight and narrow path. Astory of force, beauty and humanness and at the same time of the utmost modernity is the result of Graham Baker's adaption of the work of Albert S. Howson and Sidney R. Fuchman. Others in the cast are Hedda Hopper, Margaret Seddon, Richard Tucker, Jean Laferty, Cissy Fitzgerald and William Demarest. Byron Haskins directed. No one should miss the pleasure of seeing "Matinee Ladies."

One-Man Team Has Record As Swimmer

ATLANTA—Georgia Tech has a record breaking "one-man" swimming team!

He is Dave Young, who recently added to his tank records a new world mark at one minute and 44 seconds for the 150-yard back stroke in the national collegiate swimming meet at Iowa City, Iowa.

Young's speed cut four and one-tenth seconds from the old record. He was nosed out in the 220 free style, but the points he earned gave Tech fourth place in the meet, beating several eastern universities with whole teams entered.

The young star, who also holds the Southern conference records in the 150-yard back stroke, 100 and 220-yard free style events, will try for the Olympic team.

Spring ennui can be overcome by regular day-time naps taken either just before or just after luncheons.

The success of painting furniture depends on removing the old finish before applying the new and letting the first coat thoroughly dry before putting on the second.

Young Corbett First To Use Psychology

CHICAGO — Old timers credit "Young Corbett," who died suddenly a few weeks ago, with having been the first to use "psychology" in the ring.

Corbett employed it to beat "Terrible Terry" McGovern for the featherweight title in Hartford, Conn., in 1901.

Terry, sitting in his dressing room before the match, heard a pounding on the door and heard Corbett shout, "Hey, come out and take your licking now. Come on and get your head knocked off."

McGovern entered the ring so angry that the cool Corbett flattened him in less than two rounds.

Corbett's real name was William Rothwell.

A McCoy Calls a Hatfield "Pal"

The bitter feud that raged a generation ago between the Hatfields and McCoy's, in which 35 men and one woman were killed in the Kentucky and West Virginia mountains, has ended. Here are Bob McCoy (left), of Wyoming county, W. Va., and Joe Hatfield of Mingo county, W. Va. They are fellow students at Marshall College, Huntington, fraternity brothers and regular pals.

PAMPA FIELD—

of the SE of the NE of the NE of section 55, block 25, is two miles from the now famous Back producer, and has picked up the pay 225 feet above the expected depth.

Another peculiar feature about the well is the fact that the Ritz Drilling company was still using 8-1/4 inch pipe. There was 8,000,000 feet of gas when oil was first reached.

The Pure Oil company's No. 5 H. M. Davis, section 86, block 3, was swabbing 200 barrels a day yesterday and the same company's No. 6, in the same section, came in Friday for 300 barrels at a depth of 3,079 feet. The company was pulling the bit when the oil followed unexpectedly, and is now flowing steadily.

Two new locations have been made at LeFors during the week. The newly organized LeFors Petroleum company has commenced erecting a derrick five blocks north of the court house on the old Travis Leech survey, now owned by that company.

The Prairie Oil and Gas company made a location on the Henry Thut property on the Thut survey about a half-mile north of the LeFors Petroleum company's location.

In all there have been about twenty new locations made in the East Pampa field during the past week and increased development is looked for in the immediate future, according to several oil men now in the city.

HIGHWAY—

dustries, public health, civic and municipal affairs, finance, transportation, entertainment. The purpose of the organization is defined to be "for the purpose of advancing the commercial, agricultural, industrial, and civic interests of the Pampa territory, to promote integrity and good faith through equitable principles in business; to encourage uniformity in commercial usages; and to acquire, preserve, and distribute industrial, commercial, and civic statistics and information of value; to discover and correct abuses; to have a part as representing our city in the consideration and decision of state and national affairs."

Under "Limitation of Methods" division, it is stated that "This Chamber of Commerce in its activities shall not be partisan and shall take no part in or lend any influence to the election or appointment of any candidate for state, county, or city office."

FORT ELLIOTT—

the U. S. Bureau of Public roads is now requiring 100-foot right-of-way for all federal designations.

2. Bridges and culverts appear to need very substantial repair and replacement.

3. The roadbed should be graded up to a standard width of 26 feet, and adequate drainage ditches provided.

4. The curves and sharp turns should be cut down to not more than eight degrees.

Engineer French has called attention to poor gradings, four cuts too narrow, drainage structures that are too small, too narrow right-of-way in places, need for some fills, and desirability of a bridge over Sweetwater creek near Mobeetie.

The improvements suggested by the state engineer are not considered unreasonable, and it is believed they will be met without delay.

LINDBERGH IS GIVEN MEDALS

Young American Is Greeted by Belgian King

(By The Associated Press.)
WASHINGTON, May 28. — Award of the distinguished flying cross to Captain Charles Lindbergh was approved today by President Coolidge.

PARIS, May 28. (AP)—Feted and honored by France for the last week, Captain Charles Lindbergh hopped off today for Brussels, where King Albert and his subjects waited to pay him tribute.

Flying the "Spirit of Saint Louis," the plane which he used in making his non-stop journey from New York to Paris, the young American aviator departed from a great crowd which roared its well-wishes.

BRUSSELS, May 28. (AP)—Captain Charles Lindbergh landed here this afternoon.

His monoplane descended amid a great storm of cheers. It was escorted from France to the Belgian border by two Belgian army planes.

Trailing him were several other planes which had acted as his escort from Paris.

BRUSSELS, May 28. (AP)—King Albert received Captain Lindbergh at the Royal palace today soon after his arrival from Paris.

It was a meeting of the flying king with the king of fliers, the sovereign having spent many hours in the air.

Lindbergh also was introduced to Queen Elizabeth and all other members of the royal household.

BRUSSELS, May 28.—A royal welcome awaited Lindbergh, who flew to this city today. Within two hours after he had brought the Spirit of St. Louis down upon Belgian soil, King Albert had received him at the palace.

Congratulations were showered upon him for his conquest of the Atlantic, and pinned upon his coat was the insignia of the Knightly Order of Leopold.

Then in the afternoon he was presented with the highly coveted gold medal of the royal Aero club, an honor that only five other airmen—all Belgian citizens—have received.

Only nineteen of the 740 members of Princeton's graduating class are engaged to be married.

The full name of the prince of Wales is Edward Albert Christian George Andrew Patrick David Windsor.

Curry, \$1; S. W. Public Service, \$1; Gordon Store, \$5; Alex Schneider, \$5; R. S. McConnell, \$5; E. E. Reynolds, \$10; Texas Company employees, \$75—total \$429.50.

Fourth Victim Of Clubber Is Dead

(By The Associated Press.)
TAMPA, Fla., May 28.—Mildred Merrell, 5 years old, died today from wounds inflicted by the clubber who invaded the Merrell residence yesterday.

The child's death brought the fatalities from the attack to four, her father and two brothers being the other victims.

Police announced the arrest of E. H. Levine and Leonard Thompson, in connection with the crime. Levine with the crime, asserting that both had been drinking and that Thompson committed the murders out of revenge.

TO NAME RUSSIANS NOT ASKED TO LEAVE

LONDON, May 28.—(AP)—What probably will be the final official British communication to the Soviet mission in London will be delivered at Chesham House early next week.

It will be a list of names of those Russians who will be permitted to remain in London.

Fire Truck to Arrive Friday

Pampa's new fire truck will be here next week.

The following letter has been received from the American LaFrance Fire Engine company:

"Referring further to our letter of the 24th, we are pleased to advise you that we have received word from the factory to the effect that your fire engine should arrive in Pampa June 3.

"We hope it will reach there in due time, and we know it will be everything that you expect it to be, as we have good reports of its performance at the factory."

The letter is from the Dallas branch of the company.

Telephone Service Between U. S. and Mexico Is Planned

(By The Associated Press.)

DALLAS, May 28.—Telephone service between the United States and Mexico through Laredo, Texas, is expected to be inaugurated about June 15. A. Bravo, in charge of the local consulate, said he had been informed.

The Mexican official said he had received word from Mexico that the Mexican Telegraph and Telephone company is rapidly completing its lines between Mexico City and Nuevo Laredo. Once extended to the border arrangements have been made for connections with the Southwestern Bell Telephone company on international service. At the present time all cable and telegraphic communications between the two countries is handled via Vera Cruz by marine cable.

Hunters near Troitker-Chersk in the Kimi region have rescued a Russian balloon crew which landed April 30 and had been given up for lost.

Youthful Car Thief Is Arraigned on Local Charge

Charles Deés, 19-year-old youth who is said to have stolen a Buick roadster from in front of the post office here last week, was arraigned here yesterday on the charge and then taken away by Rangers.

He was arrested Sunday in Borger when halted by a hail of bullets as he attempted to elude arrest. He furnished \$1,500 bail, but was re-arrested on the local charge.

Officers believe he is a member of an auto theft gang of wide-rang operations. He is said to have stolen scores of cars, evidently after the manner of a kleptomaniac. His family is said to be prominent in an Oklahoma community, and people who know him say that his activities recently are the only ones known to be criminal.
