VOL. 1. NO. 67.

PAMPA, GRAY COUNTY, TEXAS, THURSDAY EVENING, MAY 26, 1927.

PRICE FIVE CENTS.

## MAN DIES IN BORGER BLAST

### BOARD ASKS HIGH SCHOOL ADDITION BIDS

Twelve Rooms Are To Cost Approximately \$75,000

### SUMMER TERM TO START SOON

1,742 Pupils Will Be Eligible Next Fall—Census Shows

A 12-room addition to the northeast corner of the central high school building, to cost about \$75,000, will be built before the opening of the fall term, it has been decided by the school trustees. Bids on the work have been called for and plans are nearly complete.

Gray brick will be used to conform with the architecture of the present building. There will be three stories, counting the basement type part. This project, with the south ward school contract, will, with the equipment, require all of the \$150,000 bond issue voted a few months ago.

The expansion of the Pampa school plant will partly relieve the congestion keenly felt this year. There are now on the school rolls 1,659 pupils, of whom 274 are in the high school department. The census taken recently, which includes those who will enter school for the first time next September, shows 1,742 eligibles.

Summer school, which will give students an opportunity for review work and profitable summer study, will open June 2 under the supervision of Supt. R. C. Campbell. Verde Dickie and Miss VeLora Reed will have charge of high school work, Mrs. J. W. Morris and Miss Mellie Bird Ritchie will have the intermediate pupils, and Miss Ellen Smith and Mrs. W. M. Edwards will teach the primary grades.

### Britain Issues Statement Alleging Soviet Activities

LONDON, May 26.—Sixteen documents, including a list of addresses of many persons in the United States and Canada and South American countries were found in a raid on the Soviet house.

This statement was issued by the British government today, as a white paper to illustrate the hostile activities of the Soviet government and the third international against Great Britain.

LONDON, May 26. (AP)—Speaking for Laborites, J. B. Clynes told the House of Commons today that Soviet Russia must not be condemned without trial.

Jack DeGraffenreid, Texas Ranger, has bought the W. P. Peters residence here, according to Wisdom and McKnight, who handled the transaction. Mr. Peters has moved to Stamford.

### District Road Bonds On Program Here; McLean Calls for Issue Hearing

Special road district bond issues will be the principal matter to be discussed tonight at the regular meeting of the Chamber of Commerce. Final details for the calling of a bond issue in this district, No. 2, will be decided.

Following creation of the special district a few weeks ago, instruments for calling a hearing and the election have been prepared, and lack only the entering of information on undecided points, including the exact location of the road-building.

The commissioners must be asked to call a hearing on the proposed election, then the election must be advertised 30 days.

The McLean district, the only other to be created, presented Monday a petition asking the hearing on a proposed \$250,000 issue for Precinct 4. Bridge-building has been the principal contention in that part of the county, and much of the issue would be used to span the treacherous streams, McLellan creek, North Fork, and Beaver creek.

The expenditures would be made as follows:

Ten thousand dollars per mile, or \$160,000, on Federal Highway No. 66, otherwise known as the "Main Street of America."

Twenty-five thousand dollars on McLellan Creek bridge north of McLean and just south of the famous Travis-Back oil well.

Twenty-two thousand five hundred for a bridge two miles northeast of Alaureed on Beaver dam.

Six thousand on McLellan creek northwest of Alanreed at Palmer's crossing.

Ten thousand is to be spent for modern road building machinery, and \$26,500 is to be spent on lateral roads.

The commissioner's court has set Monday, June 13, for hearings on this petition, and it is expected that an election will be ordered to be held thirty days from the hearing. Sentiment for the proposition is practically unanimous.

### Paving Critic Says Local Contract Is Unusually Good

Pampa has a very good paving contract, excellent brick is being used, and the work will be rushed to completion, according to R. H. Williams of the Western Paving Brick Manufacturing association, who was in the city yesterday.

Canceled of a sub-contract and taking over of the work by the Stuckey construction company is expected to speed up operations. Work likely will begin on Foster avenue Tuesday.

Much brick was discarded soon after the laying began, but different brick, of the best type obtainable, are being laid on the remainder of the contract.

Pampa is getting a thicker base and a heavier brick for less money than Panhandle contracted for in her new project this week, according to the association inspector, Mr. Williams made a thorough inspection of the local work. It is through his courtesy that "Indian Jim" Brown was sent here.

### Accident Victims Are Believed Out Of Danger Today

The condition of Miss Della Todd who was injured in the automobile accident here yesterday morning, was described as unchanged today. It is believed she will recover.

L. G. Lunsford, formerly of Shamrock, is suffering from many bruises, a split thumb and broken arm. He is weak from loss of blood. His father, G. W. Lunsford, is proprietor of a machine shop three miles south of Pampa, and he recently bought an interest in the business.

Leo Parker, who was the least hurt in the accident, has been working at the shop.

### LINDBERGH IS FRENCH IDOL

Youth of Flier Gets Comment From Foch Today

(By The Associated Press.)

PARIS, May 26.—Captain Charles Lindbergh was paraded before the eyes of the populace of Paris today to such cheers as no man has heard in this city since Woodrow Wilson made his triumphant entry into the French capital in 1919.

Tens of thousands of Frenchmen had their first sight of the American this afternoon as he was escorted from his country's embassy to the Hotel Deville.

PARIS, May 26.—(AP)—Captain Lindbergh was an honored guest today of two famous marshals of France, Foch and Joffre. He also found time to make a trip to a hotel to greet a delegation of Belgian war wounded who have been visiting in Paris.

"Your effort was a great one," Marshal Foch told the flier, "because it shows what a young man can do when he is well-prepared for his attempt and has the courage to see it through."

### Wildcats Started In Vicinity of City

The Pampa Oil and Gas company's W. R. Campbell No. 1 in the northwest corner of section 90, block 3, and within the city limits, is being drilled at about 700 feet. Spurr-Mack Drilling company had difficulty getting through the quick sand, but are now in a clay shale. Drilling operations had been suspended for some time, but the company has been re-organized and is going ahead with their contract.

The water has been shut off, the pipe set, and drilling operations have commenced on the Pampa Production company's Mary Leopold No. 1 in the southeast corner of section 141, block 3, Gray county. Drilling is at 3,475 feet.

A new location has been made and the cellar now being dug by the Donley-Gray Oil company in the northwest corner of the southwest one-fourth of section 79, block 3, situated in wildcat territory about a mile east of the Pampa Oil and Gas company's W. R. Campbell, No. 1.

### Young Woman Dies After Long Illness

Mrs. Tom Smith, 23 years old, died last evening at a local sanitarium after an illness of several months.

Mrs. Smith moved to Pampa with her husband two years ago and lived on the Merton lease, where Mr. Smith one of the pioneer oil workers in the Pampa field, was employed. Her mother and father have been with her during her long illness. She is also survived by two small children.

The funeral will be from the Christian church, where she was a great worker, tomorrow afternoon at 2:30. Burial will be in Fairview cemetery.

### Salvation Army To Ask Funds Here

Cadet Ryan of the Oklahoma and Texas Panhandle division of the Salvation Army, is in the city and will direct a campaign for funds tomorrow. The workers will breakfast at the Adams Hotel coffee shop.

The Salvation Army has done great work in the flooded area, having many workers on the ground. The organization has spent all their funds in that work and need more to carry on.

### America's Proudest Mother

Mrs. Evangeline Lodge Lindbergh, mother of Captain Charles A. Lindbergh and widow of a former Minnesota congressman, is the proudest mother in America. When told her son had reached Paris safely after his trans-Atlantic flight she said she "hoped they would let him get some sleep right away." Mrs. Lindbergh is a chemistry teacher in Detroit and continued her classes while the boy was crossing the ocean.

### Rangers to Probe Alleged Cruelties To Prison Inmates

(By The Associated Press.)

AUSTIN, May 26.—Texas Rangers will be sent to Huntsville to help conduct an investigation to be ordered by Governor Moody in connection with cruelties to prisoners.

The charge has been made by Leonard Smith, a prisoner recently released through habeas corpus proceedings.

This information came from the governor's office today.

(By The Associated Press.)

AUSTIN, May 26.—Federal authorities are investigating reports that federal prisoners are being discriminated against and are not being allowed earned overtime in the Texas penitentiary.

Mrs. W. A. King, chairman of the prison supervisory board, said it is likely that all federal prisoners in the Texas penitentiary system will be moved.

### GIRL RETURNED TO HOME

Marie Hires, held here as a juvenile delinquent, has been taken to her home in an Oklahoma city by an acquaintance, who paid her fine and arranged transportation.

Local officers made a thorough investigation of the case, and found the source of the doled liquor the girl received. The drink was found to be highly potent, capable of dazing a person for several days.

The young man taken in the case is doing road work to pay his fine.

### WISH CHARITY FUND

I. E. Duncan and Bonnie Rose were appointed by the Lions club today to confer with the school trustees regarding the advisability of sodding the high school grounds with Bermuda grass.

The club also discussed the need for a community chest, and will take action on the question later.

M. A. Turner, a member of the club, organized the first community chest formed in Texas.

The next meeting of the club will be held at the Adams hotel coffee shop.

### Action On Big Education Bill Is Postponed Today

(By The Associated Press.)

AUSTIN, May 26.—Responding to the plea of Representative Poage, leader of the so-called economy bloc, the House today deferred consideration of its largest appropriation measure, the educational bill, until this afternoon.

Poage said members had not had time to study the bill, which was printed last night and which carries more than \$16,000,000.

### HOTEL CHANGES HANDS

A. A. Wisdom and J. N. Wisdom, real estate and hardware dealers, respectively, have taken over the Gray Pampa hotel, buying the fixtures, and leasing the building from G. T. Oliver of Amarillo, who has bought it.

The Wisdom brothers will continue their old lines in addition to operating the hotel.

### ARREST CHECK ARTIST

Sheriff E. S. Graves received word from the police in Fort Worth this morning that they had apprehended G. W. McKenzie, alias O. B. West, wanted here on a charge of issuing "dry" checks.

He was employed at a garage here when the checks were issued. McKenzie will probably be brought to Pampa for trial.

The equalization board has upheld the increases in taxation on the majority of complaints received up to this time. Several property owners were able to prove to the board that their property had been rated in excess, and these cases were adjusted.

### ACTING SECRETARY OF COMMERCE RESIGNS

WASHINGTON, May 26.—(AP)—Stephen Davis acting secretary of commerce in the absence of Secretary Hoover, has resigned.

His resignation will take place June 1, President Coolidge has accepted the arrangement.

### LATE BASEBALL

National league: Boston at Philadelphia, rain. Cincinnati at Chicago cloudy.

Western league: No games scheduled.

### FOUR OTHERS WILL DIE OF DEEP BURNS

Big Gasser Explodes As Crew Runs Casing Today

SEVERAL MEN ARE MISSING

Tex Thornton Enters Cellar—To Shoot Tomorrow

BORGER, May 26.—McMillan Company's No. 1, near Sanford, took a heavy toll early today and this afternoon is a roaring monster, menacing buildings for a great distance and shaking the ground for miles as the 60,000,000 cubic feet of burning gas shoots 200 feet high.

Frank Daniels is dead and E. L. Stillwagon, Lester Nelson, Elmer Richards and G. C. Petty are believed fatally injured.

Less seriously burned are Grady Hardin, Paddy Ryan, Fred Harris, Ben Bracken, Ralph Cannon, Claude Daniels, Jim Bailey and Eddie Evans.

Two other men are believed to be dead in the cellar, but Tex Thornton, who went into the pit in a fire-proof suit, could not locate them. He is planning to shoot the well tonight or tomorrow.

Buildings about the well which have not been destroyed are being moved back. The well exploded about 8 o'clock this morning while a drilling crew of 15 men was running casing preparatory to drilling deeper.

(By The Associated Press.)

BORGER, May 26.—One man is known dead, four are missing, seven are in a local hospital—two of them probably fatally hurt—as a result of an explosion and fire at McMillan Oil company's well near Sanford, 15 miles from here today.

Three ambulances from Borger, aided by Borger police and citizens, are bringing the injured here as fast as they can be located.

No names of the injured or dead are available.

The origin of the explosion has not been determined.

BORGER, May 26. (P) — Roy Bishop, rig builder, badly burned at his home here yesterday, died today in a local hospital.

He had washed grease from his body with gasoline, when he noticed a gas stove blazing high. He went to turn it off, and his body was ignited.

### LIVE LABOR RACE

WICHITA FALLS, May 26.—(AP)—Politics held the attention of delegates to the thirtieth annual convention of the Texas Federation of Labor today.

Interest centered in the race for president between the present officer, Herman Kachel of Denison, and George Wilson of Houston and Ed Harrell of Waco.

### Phones In Church So Deaf Can Hear

ARKANSAS CITY, Kans., May 26. (AP)—Special head phones have been placed in the pews in the First Presbyterian church of Arkansas City to enable deaf persons to hear the sermons.

The device consists of a transmitter attached to the pulpit with a connection to eight phones in the pews. Church officials announced more phones would be added if needed.

The greatest time and money saver to be had.

TRANS-OCEAN TRAVEL CAN BE MADE COMMON AS LAND FLIGHTS

Captain Lindbergh, who with lots of nerve, a scientific mind, and a dependable plane crossed the Atlantic without landing, may head, in name at least, a company to make inter-continental flying as practicable as land flights.

Islands of the sea are not lined up right for landing places, and fields are not available at present. Non-stop flying is not adaptable to commercial use, because accidents will happen and planes cannot carry both fuel for non-stop trips and a profitable amount of merchandise or other matter.

Claims are being made that a floating landing field has been invented and successfully demonstrated. No doubt such contrivances soon will be put into use, along with service vessels having fuel and other supplies for sale. Subject of course to weather conditions, trans-ocean flying should become common and profitable. Europe will be but 24 hours away for passenger service, and not more than twice that distance for freight traffic.

European travel will be so cheapened that it will no longer be fashionable for the elite and a costly necessity for hard working school teachers.

The ocean hazard will be removed by well-spaced landing fields, rescue ships, wireless and the other wonders of navigation. "See America First" will have to be still more strongly emphasized as a slogan.

UNEASINESS IS MARKED AS LABOR DEMANDS CUT BY MACHINES

Organized labor predicts six hour days and five-day weeks, not that anyone is going to grant this ideal schedule voluntarily, but that machinery is so speeding up production that further work will be unnecessary.

The situation is apt to give trouble. Machine efficiency, while it increases demands for products by lowering production costs, may develop in inverse ratio to increasing labor supplies. Labor, of course, does not wish less wages, and as an alternative advocates short hours and short weeks to give work for all.

To a certain extent the plan will work, but industry must pay the bill and will fight economically unnecessary expense. Unions, which have done much for the working man, must not go too far with their demands, for their existence is conditioned upon monopoly control.

In the hard-coal district of the east, a bitter war is on between unions and mining companies. Its spread to other industries is probable if the labor supply becomes plentiful.

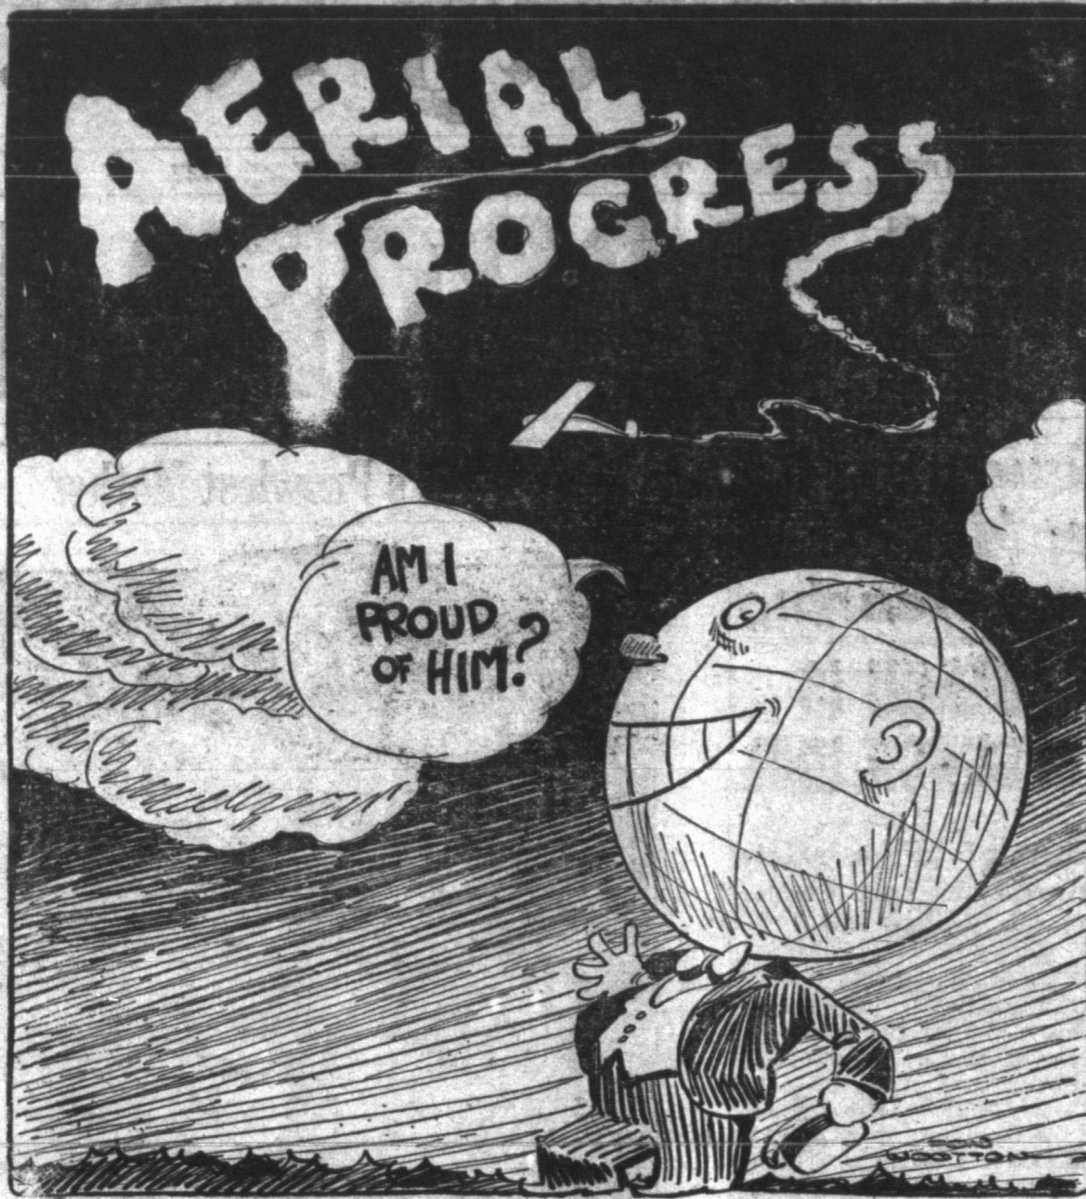

TWINKLES

Even timid Lindbergh found the "bright lights" of Paris very welcome.

And he has a great mother—she does not attribute any of his greatness to his ancestors.

"Miss New York" is now "Miss United States"—but that is nothing; that city has tried to make the country think along that line all the while.

The Writing In The Sky

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON.—The capital of your country got a new kind of thrill last week at the exhibits and side-shows put on for the delegates to the American Medical association convention, in session here.

Only medical men and their friends were supposed to be in the convention hall, but others slipped in, of course.

The biggest drawing card in the convention hall—as well as probably the most valuable to physicians—was the "Fresh Pathology Exhibit." Three counters were covered by trays and filled with sections of the human interior taken from persons who had died within the previous 24 hours.

It appeared just like a butcher shop, with its refrigerator in the rear, but the crowds which congregated about it soon learned differently as the white-clad surgeons picked up the specimens and launched into lengthy discourse on what had been the matter with them.

The surgeons handled the specimens freely, stretching them, carving them with knives and otherwise emphasizing their lectures. It was all very matter of fact and at first surprising to the lay brother, though its benefits were easy enough to understand as two or three men brandished brains or livers on different sides at the same time.

"Unfortunately we haven't got the other kidney and we haven't got the blood vessel, but—"

An entire floor was given over to the Scientific Exhibit. There was a collection of hundreds of articles swallowed by children, huge cases of kidneys, lungs and other organs preserved in alcohol, sections devoted to latest research in this or that disease, long vistas of charts and small movie machines constantly in operation, exposing the most intimate details of anatomy. It was probably the most instructive exhibit of its kind ever gathered under one roof.

Kansas seems as anxious to get rid of her tornado reputation as West Texas is of her mere wind.

A professor is studying monkeys' reactions to moving pictures. Their criticisms may be enlightening.

It is our opinion that an "amicable divorce" usually allows a merely amiable marriage.

PRESS FORUM

More than the average state, Oklahoma has reason for being interested in the opinion of the United States Supreme court upholding the constitutionality of the anti-syndicalism statutes of California and Kansas, for Oklahoma has had a similar statute for the past eight years. In some respects the Oklahoma statute differs from those of California and Kansas, but in the essentials the three are very much alike.

By the Oklahoma statute, enacted in 1919, a ban is placed on the advocacy or affirmative suggestion of reform by violence. Any citizen of Oklahoma may, with perfect impunity, in so far as the law is concerned, urge all citizens to assemble at the polls and support any political measure of any nature whatsoever. He can appeal to the voters to elect an administration as red as the reddest that ever appeared in Russia. But he cannot advocate reform by violence. He cannot suggest to his compatriots that they change officials by dynamiting public buildings and shooting public officials.

Nor is the restless spirit permitted to urge his sympathizers to slow down production by practicing sabotage. With safety, he may suggest to laboring men that they limit production by loafing on the job; he is not permitted to suggest that they limit production by wrecking machinery.

In a word, the Oklahoma statute merely penalizes advocacy of violence for political or economic ends. It studiously avoids imposing any restrictions on free speech or free public expression. It merely calls a halt to the advocacy of sabotage and murder. And the principle of the statute has been upheld as constitutional by the highest court in the land.—Daily Oklahoman.

NEWS JABS

An extra session of congress is likely as a result of the Mississippi floods. It never rains, but it pours. — Miami News-Record.

If he thinks it necessary to say he is captain of his soul, he isn't very sure about it. — Muskogee Phoenix.

Poteau is reaping rich returns in advertising as a result of its entertainment of the state press association this month. — Shawnee News.

As to big business, it could not love a third term so much if it didn't love Mellon more. — Muskogee Phoenix.

HINTS FOR FARM AND HOME BY THE DEPARTMENT OF AGRICULTURE

Do not peel rhubarb before it is cooked. The red skin gives an attractive color to the cooked fruit.

Buy new rubber rings every year for home canning.

A fine flavor is given to creamed potatoes if, instead of making a white sauce and putting the potatoes in it the housewife dices cooked potatoes, puts them in a double boiler or heavy skillet, pours cream around them, adds a few drops of onion juice, dots with butter and cooks very slowly for a half hour, or until the potatoes absorb most of the cream. They should be turned into a warmed serving dish and sprinkle the top with chopped parsley or give them a dash of paprika.

When a recipe calls for buttered crumbs, or is a bread crumb stuffing is made in which butter is used, melt the butter and mix the crumbs thoroughly with it to distribute the flavor and richness.

Old rugs and carpets can be woven into rugs if there is a weaver in your vicinity. These rugs are heavy and soft, alike on both sides, and quite durable. As they have no definite design, they fit in well with almost any color scheme.

The taste of a food is no guide to its value in diet, but a pleasing flavor aids in getting properly selected foods eaten by everybody. Have plenty of each kind of food, well seasoned and carefully cooked, but not too many kinds. Point out that on succeeding days there will be new combinations so that the menus will never be monotonous.

There's one sure way to tell whether a fabric will wash. Take a sample home and wash it under real laundering conditions.

Tomatoes, fresh, raw or canned are a good source of vitamins A, B and C. This is the reason tomato juice often is recommended for young children and even babies. It is a good plan to include tomatoes in the menu frequently in one form or another. They may be eaten raw, stewed, baked, fried, broiled or scalloped. Tomato sauces are good on meat, fish, boiled rice, and other dishes. Almost every kind of meat soup or stew or gravy is improved by the addition of a little tomato juice.

As warm days increase, household insect pests come out to annoy the housekeeper. "Eternal vigilance" is the price of freedom from these pests. Many feed on crumbs, scraps and other exposed food. Keep all supplies in tight metal or glass containers and clean up promptly all crumbs. Never leave food uncovered. Keep the garbage pail closed and empty it regularly. Rinse it out and line it with paper each time it is emptied.

AN ORDINANCE To provide for the construction, regulation, maintenance, inspection, and operation of privies in the City of Pampa, Texas, and area of Police Jurisdiction thereof; and to provide a penalty for the violation of said Ordinance, or any Section thereof.

Be it ordained by the City Council of the City of Pampa, Texas, as follows:

SECTION 1. That on and after May 16, 1927, it shall be unlawful for any person, firm or corporation, to own, maintain, or operate in the City of Pampa, Texas, or in the area of police jurisdiction thereof, a privy or dry closet for the reception of human excreta, unless said closet is built, rebuilt, or constructed as hereinafter provided.

SECTION 2. It shall be unlawful for any person, firm, or corporation to permit a privy or dry closet of any kind or description for the reception of human excreta, to be maintained or exist on any property in the City of Pampa, Texas, or in the area of police jurisdiction thereof, where any of said property is within 200 (Two Hundred) feet of the public sewer system of said city, and provided connection is physically possible.

SECTION 3. It shall be unlawful for any person, firm, or corporation to throw out, deposit, or bury within the City of Pampa, Texas, or in the area of police jurisdiction thereof, any excreta from human bodies, solid or liquid, or to dispose of such excreta in any manner than into a properly sewered water closet or a properly constructed improved privy.

SECTION 4. It shall be unlawful for any person, firm or corporation to construct, maintain or permit a privy to exist on any property or properties under their control where sewer connection has not been made, unless said privy is of an improved type constructed as hereinafter provided.

SECTION 5. Minimum requirements for an improved privy are that it shall be constructed, built, or rebuilt so that:

(a) The excreta deposited therein shall not fall upon the surface of the ground, but enter into a compartment or excavation in the ground.

(b) The contents of said compartment or excavation shall be inaccessible to flies, fowls, or small animals at all times.

(c) The compartment shall consist of an excavated chamber conforming to the following dimensions: Minimum width inside curbing, 3 feet; Minimum length inside curbing, 4 feet; Minimum depth from ground surface, 5 feet.

(d) There shall be constructed about said compartment or excavation an embankment of dirt at least six (6) inches high and at least 24 (Twenty-four) inches wide about said compartment or excavation and closet so constructed as to prevent the access of surface waters into said pit unless the same shall be of a depth of more than 6 (six) inches over the general level of the surface of the surrounding ground.

(e) Over the pit shall be placed a fly-tight seat box with hinged lid or cover which shall be ventilated by a wooden flue of 1x6 material extending from the pit to eight (8) inches above the roof of the building and screened at the top with 16-mesh screen wire.

SECTION 6. Proper sizes and methods of construction shall conform to the following sizes which will render this ordinance effective: Pit shall be at least five (5) feet deep, three (3) feet wide, sloping to a width of two (2) feet eight (8) inches at the bottom, with a length of at least four (4) feet.

SECTION 7. All sanitary privies in the said City of Pampa, Texas, and area of police jurisdiction thereof, shall be kept in a clean condition at all times, and the lids closed at all times when not in use, and so used that all the excreta deposited therein shall fall in the pit provided. Such pit shall be used only for the purpose of a privy and no wash water, garbage or other refuse matter other than human excreta shall be deposited therein.

SECTION 8. Two pounds of lime shall be put into each pit once each week to prevent an acid condition of the contents and attendant odors.

SECTION 9. In case the pit should cave at any time it shall be repaired promptly. All repairs necessary to make the pit fly-proof shall be made whenever needed.

SECTION 10. All privies existing or maintained in the City of Pampa, Texas, or the area of police jurisdiction thereof, after the date on which this ordinance takes effect, which do not conform to the requirements of this ordinance shall be, and are hereby declared a nuisance, dangerous to public health, and the City of Pampa, Texas, shall proceed to abate said nuisance in accordance with the law, in accordance with the ordinance of said City of Pampa, Texas.

SECTION 11. The local health or sanitary officer of the City of Pampa, Texas, or his duly authorized agent, shall personally inspect all of the privies in the City of Pampa, Texas and area of police jurisdiction thereof. The health officer or his duly authorized assistant is hereby empowered to enter all premises in the discharge of his duty at any reasonable hour during daylight. Upon finding an unsanitary condition he shall notify the tenant or owner, in writing, and unless such condition is immediately remedied within twenty-four (24) hours the City of Pampa, Texas, shall proceed against said tenant or owner or occupant for maintaining a nuisance.

SECTION 12. It shall be unlawful for any person, firm, or corporation within the City of Pampa, Texas, or area of police jurisdiction thereof, to maintain a pit, cesspool, or unapproved privy within 150 (one hundred and fifty) feet of a water well. It shall be unlawful to maintain or operate a privy or closet other than the concrete vault or chemical type or a type where the deposits may not come in contact with the soil in a location being within 150 (one hundred and fifty) feet of a water well.

SECTION 13. Any person, firm or corporation who violates, or refuses, or fails to comply with any of the provisions of this ordinance in the City of Pampa, Texas, and area of police jurisdiction thereof, shall be punished by a fine not exceeding \$100.00. (One hundred dollars). It is herein provided that each day any person, firm or corporation permits an unsanitary condition of a dry closet, or violates, or refuses, or fails to comply with any of the provisions of this ordinance, shall be guilty of a separate offense, and shall be punished upon conviction in any sum not exceeding \$100.00. (One hundred dollars).

SECTION 14. All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Morgan Pitches Tight Ball For Another Win

AMARILLO, May 26.—Four hits and three runs were allowed Des Moines by Dick Morgan yesterday, while the Texans played brilliantly in spots to win the fourth consecutive game of the series, 4 to 3.

Connelly won the game, as it turned out, by hitting a long fly with two on bases. Griffin dropped the ball, and Connelly, getting to third, was caught trying to steal home. That was the last of the scoring, even though it was just the fourth inning.

The team now goes to Oklahoma City for a series, then will return to open with Wichita on Decoration Day.

Box score table for Des Moines vs Amarillo. Columns: Player, AB, R, H, PO, A, E. Rows include Des Moines players (Gleason, Brausen, Knothe, Griffin, Langford, Collins, Sprins, Siver, Davenport) and Amarillo players (Amarello, Swanson, Connelly, Kelly, Gunther, Smith, Himsley, Wells, Adams, Morgan).

Score by innings: Des Moines 300 000-7, Amarillo 420 200 000-4. Stolen bases: Kelly, Saenger, Langford, Brausen, Adams, Davenport. Two-base hits: Brausen, Adams, Handley. Three-base hits: Collins. Double plays: Wells to Swanson. Struck out by Morgan 3, Davenport 3. Base on balls: off Morgan 2, Davenport 1. Left on bases: Amarillo 8, Des Moines 6. Time of game: 1:45. Umpires Green and Kolla.

Room for 100,000 At Outdoor Boxing

CHICAGO — Boxing promoters who get Comiskey Park, enlarged home of the Chicago White Sox for their outdoor fistic shows will be able to accommodate almost 100,000 persons.

The stands and bleachers contain room for 70,000 with all space used, and engineers estimate that close to 20,000 seats could be placed around the ring inside the playing field. Fans hope the arena will entice some major matches to Chicago.

Athens Would Revive Real Olympic Games

ATHENS—Revival of the classical Olympic games in Athens in 1930 and every fourth year thereafter under the name "Pan-Athenaia" is a proposal under consideration here.

The games would be supplementary to the regular Olympic event now held regularly every four years under the International Olympic Committee's jurisdiction and would comprise only the ancient Greek sports.

London has a "baby" restaurant where meals are served for a penny to children under 5.

SPORT TALK

With the Grays in Lubbock, our new ball team will give the fans a treat Monday, when they will play the fast White Deer nine at the Grays' home lot. The Ollers have a well balanced team and should give a good account of themselves.

The Grays have secured the services of J. Newton to pitch for them in Lubbock for the Holiday attraction. "Oo" Eckhardt will do the hurling Sunday.

Thirty rounds of fast boxing will be featured here Tuesday night at the new Pampa Dancing club on the Clarendon road. The bout is being sponsored by the American Legion and the proceeds will go to flood relief.

Bob Clarke is sporting a car around Amarillo these days and since winning his last game has a hard time keeping the fair sex off the running board. It is rumored that our local infielders has an idea of trying the same thing.

Tennis is being played by members of the Tennis club on the new courts, corner West and Francis streets. A few more members will be accepted for the next week when an election of officers will be held.

If any baseball fan is the city in-ends making the trip to Lubbock and has room in his car for a player, call Ed Gober at 43.

NORTHWEST POOL FLOW HAS GROWN FAST SINCE FIELD FIRST DISCOVERED

In September, 1918, material, machinery, etc., were unloaded in Panhandle by the Gulf production company, to be used in drilling an oil well in what is now the Northwest pool of the Pampa field.

A location had been made in block 5, on the S. B. Burnett ranch, to which place the equipment was transported and preparations made toward spudding in.

The drilling of this well was a most difficult undertaking, due to the wildest nature of the proposition, there being, of course, no log of information, etc., to follow, as at present.

As oil was expected to lie at considerable depth, preparations were made to carry down as large a hole as possible, thus making it possible to meet such obstacles as water and caves, poor wells, gas, etc., any of which when in considerable proportions can only be overcome by running a smaller string of casing and setting it past these obstacles. The first string of casing was 20-inch and known as surface casing; the largest size being used anywhere in the southwest.

The drilling of this well showed that the Gulf had planned wisely in preparing to drill deep for oil, as the oil sand is now known to lie around 3,100 feet.

This well, however, proved to be a disappointment as an oil well, as no oil in paying quantities was to be found. But gas in such enormous quantity as to be almost incomprehensible, to the human mind, was encountered, making more or less futile any attempts to drill the well deeper and it was finally shut in with a gas production of approximately 220 million cubic feet of gas per day—the largest gas well in the world!

In the meantime the Humble Oil and Refining company, which was destined to be the second company to enter the Carson county field, had made a location in section 36, block 5 of the same ranch, and started drilling their first well, which also proved to be a gasser, though not nearly so large as the Gulf No. 1.

Lack of transportation facilities and cold weather gradually cut down production through the winter. It was thought that the field would reach a new peak with the coming of the pipelines and the warm weather of spring. Just as drilling was becoming more active, the sudden development of the Seminole pools in Oklahoma and the subsequent

Tuesday Boxing To Feature Cahill and Shaw of Grays

Featuring "Rusty" Cahill in the final bout and "Hook" Shaw in the semi-final, the American Legion will sponsor a fast boxing bout for the benefit of the flood relief, Tuesday evening at the new Pampa Dance club on the Clarendon road.

There will be two newsboy bouts as preliminaries, followed by a six-round go between two fast colored gents of the ring. The semi-final will see one of our favorite baseball players in action, when "Hook" Shaw meets Paul Poner, Oklahoma City, in a fast eight-round exhibition. Shaw is an old hand with the gloves, having boxed in Fort Worth and other cities.

The final bout features Pampa's favorite, "Rusty" Cahill, who will go ten rounds with Walter Herndon of Roxana, a fast, hard-hitting boy. The price of admission will be 75c, \$1, and \$1.50. All proceeds go to flood relief.

Golfer in Winter, Gardens in Summer

PINEHURST, N. C.—Although experts believe she could be developed into one of the best women golfers in the country, Mrs. John D. Chapman, of Greenwich, Conn., refuses to play during the summer months, preferring her garden to the links at that season. Within a period of a little more than a year, she has won six golf championships in the Pinehurst courses.

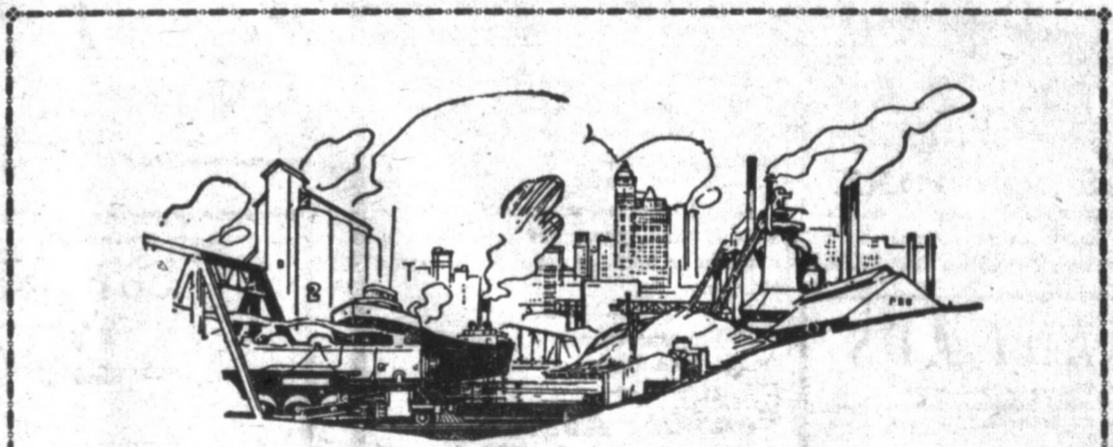

"In winter I catch the golfing spirit," says Mrs. Chapman, "but I like to spend my summer days at home working on my garden."

over-production forced down the price of crude.

It is the general belief that Hutchinson county is the only one that has reached anything like its capacity production.

While production has declined from 164,000 barrels a day to 124,968 for the entire Panhandle field, Carson county is slowly climbing upward. An increase of over 2,000 barrels a day has been made in the last six weeks. The Roxana-Bryan and Noel-Parks-McConnell pools are steadily being extended.

**Organize "Open Door" For Women's Equality**

LONDON—The "Open Door" an organization seeking equality in industry and the professions between men and women as well as equal franchise, has been founded by Mrs. Elizabeth Abbott, British suffragist, who plans to develop it into an international movement.

"Many are alarmed at the tendency to legislate with a view to improving the lot of women workers," Mrs. Abbott says. "But the imposition of special legislative restrictions on women leaving men free to make and vary their conditions opens the way to grave abuse."

Many eminent men are members of the "Open Door." Lord Balfour, of Burghley, acts as treasurer.

Mrs. Abbott is secretary and editor of the International Woman Suffrage Alliance.

Miss Marjorie Parker left for Stillwater, Okla., yesterday to enter the summer school at the A. and M. college.

F. W. Warren drove to Blackwell, Okla., Wednesday on business.

**Feminine Anglers Outdo Male Waltons**

EVANSVILLE, Wis.—Fly fishing is essentially a feminine sport, in spite of its appeal to legions of men, believes O. W. Smith, naturalist, author and minister. In accuracy and delicacy of throw, women have the best of it he observes, although men can cast for greater distances. He says that at the Wisconsin lakes where he spends many months of each year women anglers are increasing, and that they become more adept at casting and do so more quickly than men.

**Woman Analyzes Troubles of India**

NEW YORK—Physical and not political causes are at the base of the woes of India and the Indian people, according to Katherine Mayo, who, in her book, "Mother India," published recently, says:

"The whole pyramid of the Indian's woes, material and spiritual, rests upon a rock-bottom physical base. This base is, simply, his manner of getting into the world, and his sex-life thenceforward."

"Mother India" does not deal with the political situation, but attempts a comprehensive study of social and sanitary conditions of that country. Miss Mayo visited hospitals and harems; talked with princes and politicians, as well as religious leaders, missionaries and British administrators. The author says the western world would be shocked by the revelations of the religious and social customs in India which destroy the health of its women and children.

Gitanillo, famous matador, died recently in Madrid after being gored by a bull.

**Packs 25,488 Oranges in a Unique Contest**

ANAHEIM, Cal.—Wrapping and packing oranges at an average rate of one every two seconds was the speed displayed by Miss Constance Estrada in qualifying for a packing contest said to be unique in this town.

In eight hours Miss Estrada wrapped and placed in position in their boxes 25,488 oranges which is more than the ordinary city population of 25,000 would consume in a day.

**Historic Prison At El Paso Razed**

(By The Associate Press.)

EL PASO—Once the scene of history making and tragedy, and for the past ten years occupied by a garage, the old city jail of El Paso now is being demolished to make room for a more modern structure.

For many years the old red brick building was the home of the El Paso city police and fire departments, the city jail and recorder's office.

During the Mexican revolution of 1916, the carelessness of one of its prisoners brought death to 35 of his companions and himself.

During a threatened epidemic of typhus fever prison officials were conducting a general fumigation. The entire building was being fumigated and prisoners bathed with alcohol. A thoughtless prisoner struck a match and in addition to the 36 fatalities, more than a score were scarred or maimed for life in the fire which followed. The exact date of the erection of the building is not known.

**Named Bishop**

Rev. George J. Finnegan, provincial supervisor of the Congregation of the Holy Cross, Notre Dame, Ind., has been designated by Pope Pius as bishop of Helena, Mont.

**Amusements**

With strange China elephants, jade-encrusted josses from the Orient and brilliant ornaments of a far-off land, a Chinese garden and a section of a Chinese city were constructed in one of the most elaborate scenic undertakings in the history of a screen studio, for "Mr. Wu," Lon Chaney's new starring vehicle, coming to the Rex theatre Friday.

The scene, representing the palace gardens of Wu, the uncanny mandarin played by Chaney, is an exact duplicate of a Chinese palace garden, from magic walls designed to keep out the evil spirits to the glittering pagodas of Cathay.

Flowers and plants imported from China vied with domestic plants duplicating Chinese agriculture. Stat-

ues, ornaments and other details were authentic, many of great value and many imported from China for the production. Bronze cranes, gold fish, imported Chinese lilies and many other difficult settings marked the work.

Walker Whiteside played the story on the stage, and the screen version, directed by William Nigh, has a cast that includes Renee Adoree, Ralph Forbes, Gertrude Olmsted, Claude King, Anna May Wong, Holmes Herbert and others of note.

"THE FIRE BRIGADE"

Charles Ray simply can't keep from playing poor boys!

Ray graduated about a year ago from country bumpkin roles, and in two of his recent releases, "The Auction Block," and "Paris," he has been seen as a young millionaire.

In "The Fire Brigade" which Hunt Stromberg produced, and which is now playing at the Crescent theatre, he plays the part of a poor, but honest fireman, the hero of the story.

Ray declares it is a relief to get back into clothes that don't have to be pressed every ten minutes and brushed oftener.

May McAvoy plays opposite Ray as "Helen Corwin," and William Nigh directed the production. The cast includes Holmes Herbert, Tom O'Brien, Eugenie Besserer and others.

**CHURCH WORKER IS DEAD**

NEWTON, Mass., May 26.—(AP)—Doctor Francis Clarke, 75 years old, founder and president of the Worlds Christian Endeavor society, died at his home here today. He had been ill for three weeks.

**BARBLESS BARLEY**

ST. PAUL, Minn.—Barley with a barbless beard, developed by the Minnesota experiment station, is proving so popular with farmers of nearby states that they are going in for heavier barley production.

**Drug Stores Under New Ownership**

Barndt and Rendle, owners of the City Drug store in Amarillo, have purchased the Ledbetter Drug stores in Pampa and Amarillo. There are three stores in Amarillo and one here.

Mr. Barndt is at present manager of the City Drug store in Amarillo, and Mr. Rendle is a druggist formerly of Rawlins, Wyo.

It was decided to call the former Ledbetter Drug store in Pampa the City Drug but as there is already a store of that name in the city it is not known what the new store will be named. The staff for the store has not been named.

Ben T. Ledbetter, former owner of the Ledbetter Stores, will remain in Amarillo, although he has no definite plans for re-entering business.

**DIRECTION FINDER BUILT**

LONDON—A mobile direction finding station has been constructed for use by the British Post Office Engineering Department in tracking down wireless oscillators.

**NEW IT ALREADY**

LONDON—An inquisitive stranger stopped Bernard Shaw in the Strand recently remarking, "I am almost sure you are Bernard Shaw."

"I am positive of it," replied the Irish sage hurrying on as he smiled through his white whiskers.
