Pampa Schools Open New Term With All Rooms Full

BOARD MEETS TO CARE FOR EMERGENCIES

Baker Building Has A Fine Group Of Pupils

FORMAL OPENING AT HIGH SCHOOL

Local Citizens Express Interest In Students And Work

Pampa schools opened today with indications that many of the rooms will be much crowded until the addition to the Central high school plant is completed.

From the Baker school came the early word that from 40 to 60 pupils had already arrived for each room. The school board and school officials held a called meeting to solve the problems arising. Teachers were in their places and it is expected that recitations will be going smoothly within a short time.

The Central high school held a formal opening, with its students, many parents, and several out-of-town visitors present.

Principal R. B. Fisher, chairman of the program, called upon a number of speakers for short talks. Olin E. Hinkle, editor of the Pampa Daily News, stressed the interest of the community in the schools, and expressed the belief that the large number of pupils, coming from many states, would soon know each other and have a fine year under the guidance of a highly trained faculty.

The Rev. James Todd, Jr., emphasized the worth of the church, the school, and the home in community life, and declared that local ministers are anxious to be of service to the pupils and teachers.

The Rev. D. H. Truhitte, Baptist pastor, highly complimented Pampa and community upon the strength of public institutions. He said the ministers will be at all of the student programs, and will be among the first to boost the teams. Several others on the program were absent.

Supt. R. C. Campbell spoke of new courses, particularly chemistry, book-

Belgian Balloon Is Leading In Reports

(By The Associated Press.)
DETROIT, Sept. 12.—The balloon Belgica, Belgian entry in the Gordon Bennett International balloon race, had the greatest distance of any of the eight balloons so far reporting. The Belgica landed at Syracuse, S. C. Seven of the balloons which took off Saturday have not been heard from.

Meet Your Friends Here On Trade Day

In this issue of the Daily News is the list of specials for Wednesday, the Trade Day in Pampa for the month of September.

This list contains exceptional bargains provided for people of the Pampa trade territory. Special features are being planned to make each of the stores represented very attractive to the shopper.

Save this issue of the News, for it is worth real money. Pampa is out to show the people of this territory that it is the ideal shopping center, and every courtesy will be offered both home and out-of-town guests on that day.

Remember Trade Day—Wednesday—and make the round of the stores. Meet your friends in Pampa every Trade Day.

Old Morgue Houses Pupils In Michigan Town

In the shadows of the ruined walls of the dynamited school house at Bath, Mich., where 44 were killed, children play at recess. Classes are being held in a nearby building that was used as a morgue after the explosion last May which was set off by Andrew Kohoe, demented farmer. No attempt has been made to demolish the wrecked school. Miss Thelma Ewing, whose brother died in the explosion, is shown welcoming the pupils.

BRABHAM WILL TAKE VACATION

A Successful Revival Ends At Methodist Church

The revival which has been in progress at the Methodist church came to a close last night. Results were beyond the expectations of many.

Great crowds gathered from time to time to hear the quartet sing and to hear the sermons by the Rev. Tom W. Brabham, local pastor.

Great singing was enjoyed throughout the campaign under the direction of the male quartet from Moody Bible Institute of Chicago. Great preaching featured every service. There were about 75 conversions and reclamations. About one hundred joined the church.

The singers were given a nice purse, consisting of \$100 for each of the young men, in appreciation of the services rendered.

The quartet, composed of Edwin Guber, George Weppeler, George Chenot and Ivan Allbut, have gone back to their college work. They were given an extension of their vacation in order to finish the meeting here.

Rev. Brabham has been given a vacation by the board and will leave today for the mountains, accompanied by Mrs. Brabham's father, A. M. Vining of Rusk; J. G. Noel, one of the church officials, and the Rev. U. S. Bird, pastor of the Methodist church at Panhandle. The party will be gone 10 or 12 days, and will travel overland to Colorado Springs, Denver, Salt Lake City and back through Arizona, to El Paso, Old Mexico and the Carlsbad Cavern.

This will be Rev. Brabham's first vacation in a seven-year period. During his absence services will continue as usual.—Contributed.

Coolidge Told That Special Session Is Entirely Unnecessary

(By The Associated Press.)
WASHINGTON, Sept. 12.—Returning to his desk in the White House after a summer vacation, President Coolidge today was greeted with the opposition of Republican leaders of the Senate and House to the special of congress.

Senator Curtis, Kansas, and Representative Tilson were emphatic in their declarations that there was no necessity for a special session.

Four Hundred Men Busy Here Completing Extensive System Of Trackage Within The City

Pollard Well Has Exceptionally High Grade Oil

Pollard Oil company's No. 1 Bowers in section 119, block B-2, which was shot with 550 quarts Saturday afternoon, bridged last night after making about 900 barrels. The well was drilled to 3,280 feet, but was plugged back to 3,140 feet. The shot was placed from 3,020 to 3,140 feet with a bridge placed at the top of the shot. When cleaned out, a gusher is looked for. The oil from the Pollard well is reported to be of the highest grade yet found in the Panhandle, testing about .44.

The Blackwell-McGee No. 6, in section 93, block B-2, completed a fishing job yesterday and set the casing. It is expected to be drilled in today. The well has been swabbing about 500 barrels a day at 3,090 feet.

The Roxana Petroleum company's four wells on the Coombs-Worley property in section 39, block 3, have all been drilled in for small wells, natural flow. Well No. 1 is being put on the pump. Well No. 2 is swabbing 100 barrels while No. 3 is making 110 barrels a day and No. 4, 200 barrels.

The John T. Willis et al No. 1 S. B. Barrett estate in section 111, block 5, Carson county, spudded in and commenced drilling operations last night. The drilling is under the supervision of John T. Willis, local man.

The Gulf Production company's No. 1 Bowers, in section 92, block B-2, made 167 barrels natural flow the first 24 hours at 2,954 feet. The company is cleaning out with a 5 1/2 inch mud scow and plans to drill the well in tomorrow.

Commander Sills To Prepare Chicken For Legion Dinner

Chicken, cooked under the personal supervision of Commander Leslie Sills, will be served at the American Legion hall tomorrow night, and all members of the American Legion whether here or any other post are invited to attend. Also the commander invites all ex-soldiers to attend the social gathering at the Legion hall.

After the social activities the regular meeting of the Legion will be held. The meeting was postponed from last week on account of the carnival.

More than 400 men are at work in the Santa Fe yard here completing the work of the double track and the necessary switches. When completed there will be 28 switches within the city limits, and all will be on the block system.

The block signal system is being installed from Pampa to Canadian, as well as on the double line. This automatic system flashes the signals from a train to a train following, and in that way no train can travel closer than one mile to the train in front.

The two main line tracks from Canyon to Pampa have been designated as high speed or no limit lines by the railway officials and large sign boards have been erected at the Cuyler street crossing as a warning to motorists and pedestrians. Also, a new crossing has been installed on Cuyler street, and in place of the ruts there is smooth travelling.

In all, there is 15 miles of rails within the city limits; that is, counting the two through lines and the 28 switches. That amount of track will accommodate traffic and siding room for a city of 25,000 population.

The shipping from Pampa has shown very little decrease, L. W. Klein, local agent, says. The oil companies are still shipping large quantities of oil and considerable material for building is being received. Some of the drilling companies have shipped their tools to the West Texas field, where they expect to drill several wells.

The continuation of the White Way across the Santa Fe tracks is under consideration by the railway board at Chicago, and a decision is expected in a few days. Street lights close to a railway track are avoided as much as possible as it hinders the sight of the engineer.

Judge Refuses To Stop Big Fight

(By The Associated Press.)
CHICAGO, Sept. 12.—Judge Otton Kerner in the circuit court today refused to stop the Dempsey-Tunney fight here September 22.

He denied the injunction to restrain Jack Dempsey from boxing Tunney carried out his alleged contract with the Coliseum club of Chicago to fight Harry Wills, negro heavyweight.

Mrs. Bert Isbell and children returned yesterday from Durham, Okla.

Gray County Booth Attractive and Well Placed At Fair

The Gray county exhibit at the Tri-State fair in Amarillo was completed yesterday and looks very attractive. Mayor F. P. Reid telephoned the News this morning.

W. R. Campbell, Mayor F. P. Reid and Professor J. L. Lester are the Pampa men working on the exhibit. Representatives from McLean, Alarred and LeFors have also done great work in making the Gray county exhibit a success.

The county commissioners donated \$250 towards decorating the booth and the exhibits have been donated by farmers and those interested in the fair. The potatoes, corn, and vegetables are especially good, Professor Lester says.

Tomorrow is Pampa day at the fair and it is expected that a large crowd from here will attend. Col. H. H. Haines of the Board of City Development at Amarillo sent 1,000 school children's tickets to Pampa which will enable the school children to gain free entrance to the fair.

Thursday is American Legion day at the fair and a large delegation from Pampa will attend in a body. The local corps expects to send a contingent of nearly 100 men.

Gray county representatives were exceedingly fortunate in getting their booth next to the main entrance of the Agricultural building. Besides the county exhibit, I. W. Cole of Pampa has an excellent exhibit of poultry. He has two pens of five fowls, one pen of 21 fowls, and ten individual exhibits.

C. H. Harbison of McLean has in individual farm products exhibit that ranks with the best, and Miss Harbison has an exhibit of sewing and candy.

Mr. Harbison is in charge of the Gray county booth.

Many High School Graduates Select Their Colleges

Most of the pupils of last year's graduating class at the Pampa high school have decided what college they will attend. Some of the students have already left for college, and others will leave soon.

Those who have not yet decided where they will be this year are Ruth Henry, Beula Wiseman, Jennie Blackwood, Eva Clements, Rose Baggerman, Macie Lester, and Rector Roberts.

Eight of the girl graduates and six boys have decided to attend the following schools: West Texas State Teachers college at Canyon, Clara Brown and Lillian Mullinax; Texas Tech at Lubbock, Frankie Barnhart, Theida Mickie, Ina Mickie, and Ward Hicks; University of Minnesota, Geo. Walstad and George Purviance, who graduated in 1926; Trinity University at Waco, Minnie V. Haynes and Elizabeth Corson; Oklahoma A. and M., Albert Lewter; Texas University, Wilford Johns; Randolph College at Cicero, Hallie Gantz; Hockaday school for girls at Dallas, Margaret Buckler.

Italian Vice-Consul Is Shot At Paris

(By The Associated Press.)
PARIS, Sept. 12.—Count Carlo Nardini, Italian vice-consul here, was shot and killed by an unidentified assailant today.

The slayer is believed to be an Italian, and is being sought. The count was in his room at the consulate when the assailant, without warning him shot three times.

Later a suspect was arrested, but he refused to give his name or a motive for the crime.

W. J. Hinkle and Dr. C. E. Donnell of Canyon were visitors here today.

IMPROVEMENT IN CROPS NOW CAUSING DROP

Better Weather Causes Reaction In Main Markets

DECEMBER PRICE RALLIES, HOWEVER

Condition Is General Readjustment To New Reports

(By The Associated Press.)
CHICAGO, Sept. 12.—Waves of selling orders overwhelmed the corn market today and smashed the prices down in some cases nearly six cents a bushel.

The reports showed a decided improvement in the corn crop outlook of late, which brought about the general unloading on the part of traders who had been counting on the chances of a crop failure.

NEW YORK, Sept. 12. (AP)—The price of cotton dropped \$4 a bale on the New York cotton exchange today, increasing to \$13 a bale net the decline from the high level reached last Thursday upon publication of the government crop report.

NEW ORLEANS, Sept. 12. (AP)—Heavy liquidation and better weather brought losses of more than \$4 a bale to cotton on the market today, while December cotton rallied to within seven points of the level at which they stood when the government report was made public Thursday.

Some of this recovery was lost in later trading.

Dr. Cook Requests Test of Probation Act In His Case

(By The Associated Press.)
WASHINGTON, Sept. 12.—Dr. Frederick Cook, arctic explorer, today petitioned the supreme court to decide whether the Federal district court for North Texas in which he was convicted of using the mails to defraud had the authority to place him on probation.

He was sentenced in 1923 to serve 14 years at Leavenworth.

Cook recently asked the district attorney to place him on probation under the law providing for such clemency, but which was enacted after he commenced serving his sentence. The district court granted his request over the objection of the government, which contended the act was unconstitutional and that the court had lost control of the matter after Cook had commenced serving his sentence.

The circuit court of appeals reversed the decision to the district court.

Brock Expects To Fly To America

(By The Associated Press.)
OMURO, Japan, Sept. 12.—Edward Schlee and William Brock, co-pilots of the round-the-world monoplane, told the Associated Press here today that they firmly expected to fly from Japan to Midway Island, then to Honolulu, and on to San Francisco, soon.

TOKYO, Sept. 12. (AP)—Forced back to Amura on the Southwestern coast of the Japanese Archipelago, the American round-the-world fliers, William Brock and Edward Schlee, plan to attempt the 800-mile flight to Tokyo tomorrow.

Telephone 100, all departments

SCHOOL AGAIN - Fifty school teachers today took over much of the time of youthful Pampa.

Their purpose and their duty are concerned with the development of well rounded citizenship. This does not mean that they are giving a course of preparation for living, for that theory has not withstood the test of time. The children are a very real part of present day life; they have definite relations to public and business life; they have many responsibilities to themselves and to people in general. They are too important to consider as future citizens—they are already of civic importance. Through their church activities, Boy Scout work, and in the use of their leisure time they are taking an important part in Pampa life.

Modern teaching takes these facts into consideration, and it strives constantly to keep the student in touch with the world in which his duties constantly are growing. It has not always been so. Germany is the seat of much of educational progress. But in Germany at one time children were considered as merely "little men and women," little duplicates of their elders who should act stiffly and think like adults. It is not far from the time of Pestalozzi, one of the earliest of scientific teachers, who became scientific by throwing away many of the customs of the time and giving his charges more freedom. He saw that the child is first of all an animal, and should be free to romp and grow and learn through directed activities rather than through repression and by imitating older people.

The history of education is not a simple one. Teaching is worthy of the name of profession. The instructor in reading, for example, must accept the best of a number of theories and base his classroom exercises and material selection upon them. The results in each case are not alike. Spelling can be taught or it can be mis-taught. Modern teaching is psychological, and it is not guess work. It entails thorough preparation. To understand the psychology of teaching each subject, and to have a grasp of the moods and feelings of children of various ages requires much more training than an understanding of the subject itself. Many of the great scientists are utterly unable to pass on their know-

Waiting At The Church

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON. — There seems to be some confusion as to just what was done to repair the White House at public expense of \$375,000. The fact is that not only has the White House been given a handsome new roof, but it also has acquired a new floor. In other words, instead of being a two-story building as in the past, it is now a three-story building. Furthermore, the new roof is so designed as to leave a large area on which the president can promenade or entertain.

These are the principal changes in the White House and it becomes obvious that the facilities and occupiable portions of the presidential mansion have been greatly expanded. Whether or not this expansion was as important an aim of the "repair work" as any is a question, but the roof structure and its supporting wooden trusses more than 100 years old have been understood to be in poor condition for the last 50 years.

The new third floor of the White House contains a number of comfortable bedrooms and bathrooms which will now be available for an overflow of guests. It also provides rooms for servants, linen rooms and storage rooms. All this, of course, and everything including the ceiling of the second floor and upwards is brand new. That's where most of the \$375,000 went.

The second floor provides the living quarters for Mr. and Mrs. Coolidge. Even while Mr. and Mrs. Coolidge are away, and all their possessions and furniture are removed, visitors are not permitted above the first or main floors. Indeed, only the most privileged have been permitted

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

within 100 yards of the White House this summer. It was suggested to the Coolidges at Rapid City that this might be a good time to allow some people who were anxious about it to inspect the second floor and the roof, but word came from Rapid City that this was not desirable. The exclusiveness of the upper White House is officially explained with the theory that the portion above the main floor is not public property and that it is the only retreat the presidential families have from the glaring limelight which always beats upon them. Mrs. Coolidge, for similar reasons, has objected also to photographs of the little gardens off the south portico in which she and the president enjoy walking in intimate privacy.

When the builders went to work on the White House last

spring the space above the second floor was attic space. There were a few cubby-hole rooms for servants, but very small in between the trusses. But the up-and-down space occupied by the new floor was principally taken up by several feet of space between the second story ceiling and the floor of the attic.

This space was devoted to nothing more than a drainage system for the room. With that system, considerable incline was necessary as the drainage was carried inside through the attic to downspouts in hollowed wooden troughs.

By utilizing all this space the treasury's supervising architects were able to retain virtually the original appearance of the White House and the renovated White House is less than a foot higher than before.

The so-called "roof garden" atop the building is a large flat area paved with tile which can be used for anything from dances to open-air sleeping. It commands a splendid view of the White House grounds, the beautiful Potomac park system and the Potomac river. The contour of the roof is almost the same, except that it has more dormer space. But it is a much better and safer roof and also much more attractive.

GROWING TEXAS — The Boston Herald predicts that the time is not very far distant when Texas will lead all the states in population.

New York, of course, will have to be surpassed, and that is no little accomplishment. But the Herald bases its prediction upon a comparison of New York and Texas growth since the two states came into the Union.

During the first decade after the admission of Texas, this state had four congressmen and New York had 34; in 1860 Texas had four congressmen and New York 31. Now Texas has 18, as compared with 43 for New York.

The progression has been more rapid in recent years, since Texas, at first predominantly agricultural, has become an important industrial state. Moreover, the west and southwest becoming known for the good living conditions and personal opportunities, and population is definitely coming this way.

The Panhandle, big as many states and as fertile as could be desired, is able to support a

TWINKLES

Chicago has surpassed Reno as a divorce mill. And the former, with her machine gun widows, ought to be a real center of personal liberty.

Still, we read occasionally of some Texas editor who is bragging about the marriages.

It takes all kinds of people to make up a wonderful world. Lindy is but one of the many geniuses who neglect romance, but too much genius of that kind would be detrimental.

One of McLean's Joneses was the first to deliver a new bale of cotton. We knew it would be either a Jones or a Smith, and the Smiths are a little uncertain this year, to judge by Al, one of the best of them.

Great is civic pride. Oklahomans are congratulating Fairfax for having won the Ponca City terrapin derby two years in a row.

A Carthage man is being congratulated for having "come to life" the second time. An accident nearly finished him the second time. Some citizens need an accident to wake them up occasionally.

The school bell isn't very loud these days, but it still gets results.

All is not gold that glitters, but the golden rule has never yet been found to be brass.

million more people with ease. These, of course, will come gradually, but steadily. The movement should be encouraged. People mean prosperity because of the home markets provided. Prosperity means better schools, churches, homes, businesses, and the flower of civilization. The west can grow immensely without suffering from the effects of overpopulation. New peoples should be welcomed.

Bible Explains Marked Changes In New Football Regulations

Last week in a meeting held in Dallas the officials of the Southwest heard Dana X. Bible, coach of the Texas Aggies and the Southwest's representative on the national football rules committee, make explanations of the various sections of the rules and the new rules that were made in last winter's meeting.

Here are the interpretations placed on the new 1927 rules by the Southwest board and adopted by the meeting of coaches and officials.

Rule 6, Sec. 15, page 14, third paragraph; Sec. 16, page 15; Rule 8, Sec. 8, page 23: A player of the attacking side touches the ball in the opponent's end zone, the ball then going out of bounds between the goal lines shall be ruled the same as if it had gone out of bounds back of the goal line. That is a touchback.

Rule 9, page 17, Sec. 1, last paragraph: "One yard back of the line" means behind a vertical plane that is one yard in back of the line of scrimmage.

Substitutions Restricted

Rule 14, Sec. 4, page 25: "During the last two minutes of either half, substitutions made by the team in possession of the ball shall not be taken as time out." This is interpreted to mean that time shall not be taken out for substitutions made by the team in possession of the ball, if that team is behind in score; or, in other words, during the last two minutes of play in either half time shall be taken out for substitutions made by the team in possession of the ball, if that team is ahead in the score.

Rule 15, Sec. 5, page 26: After a fair catch has actually been made, no run shall be allowed by virtue of touching the ball to the ground or touching to an opponent, but the ball must be put into play, as specified by the rule.

Rule 17, Sec. 1, subdivision B, page 30: With reference to the ball being dead and belonging to the passing side where it struck the grounds or went out of bounds means that it has reference only to such an occurrence within the field of play and not in the end zone.

Rule 18, Sec. 5, page 24: This applies to the ball recovered behind the line of scrimmage as well as a kick than has crossed the line of scrimmage.

Coach Bible stated before the body of officials that "The new rules make the game more open. They are well balanced and I am sure the officials everywhere will like the rules when they have become familiar with them and with the effect of the game."

SPORT TALK

Now comes the world series and then baseball will be forgotten for another season and all eyes will be turned to football. Pampa has a promising team in the high school Harvesters, who will play the first home game Friday against Quanah.

Oklahoma City sent the Amarillo Texans down into sixth place in the league standing in a weird game of ball yesterday, which was the last of the season. Errors, loose pitching, and no hitting was the cause of the Texans taking the lowly position.

Don't forget the big boxing card at the Pampa Athletic club on West Foster avenue tonight. One of the best cards of the season has been scheduled. Granite and Bowers will meet in 12 rounds. Farrell and Gonzales will go 10 rounds and Battling Walker will also be on the card. The preliminary starts at 8 o'clock.

Babe Ruth hit his 50th home run yesterday, but the team lost. Yesterday's win was the first the Browns have taken from the Yankees this season. The New York nine ran up 21 straight wins from St. Louis.

Pittsburgh was idle yesterday and the Giants lost to Chicago, while St.

Texans Lose To Indians In Poorest Game of Year

AMARILLO, Sept. 12.—The Texans ended the season here Sunday by making one of the poorest exhibitions of the season.

Shupe took the mound in place of Sanders, who was ill, and made little headway against the Oklahoma City sluggers. Start at third, really a pitcher, could not handle many of the hot one that came his way.

A second game was little more than a farce. Talk of many new changes on the team were heard as the season closed.

The box scores:

First Game

Pampa City Players Defeat Picked Team At Berger Sunday

Once more Pampa trampled on Berger, but this time it was a picked team of City league players who defeated the champions of the Berger city league, 13 to 12 at Berger Sunday.

Although the score was big, the game was full of action and it was not until the last man was out in the ninth inning that the game was decided.

Mills went into the box for the Pampa team, with Narrein behind the bat. He proved to be the downfall of Lefty Fuller and his mates. Gober and Narrein wielded the heavy bat for the locals. As usual the manager of the Grays found the short right-field fence to his liking and proceeded to put two over it. He also had one inside the fence. Narrein collected three singles, while Munns and

Stockman had two apiece. Lanfingham and Land were the only men on the Berger team that could get to Mills' delivery. Errors nearly lost the game for the local pitcher, but the hitting of the Pampa team brought them through to the pennant.

Batteries: Pampa—Mills and Narrein. Berger—Fuller and Wood.

Wichita Falls ended the season yesterday with 102 wins and Tulsa landed on top with 101 wins. Wichita Falls' nearest rival was 13 games behind, and Tulsa's nearest was ten games in the rear.

BILLY EVANS Says

Heilmann Due to Top Hitters

This is Harry Heilmann's year to lead the American league in batting if he runs true to form. It has been every other year for Harry since 1921.

During that year, he copped his first American league batting crown with the very prosperous mark of .394. George Sisler's impressive average of .420 the following season killed Heilmann's hopes of repeating.

In 1923, Heilmann came back to win the swat title for the second time. It took the fat mark of .403 to turn the trick. The following year, Babe Ruth, despite his many previous home run records, finished in front in the batting averages for the first time in his career.

It was Harry Heilmann, champion batsman of the American league once more in 1925, only to have Heinie Manush, fellow teammate, steal his stuff in 1926.

By all the dope, Heilmann should show the way to the rest of the American league batters in 1927, on the every other year theory.

Improved After New Start

Usually slow to start in the spring, Heilmann was far more backward than usual in the manner of base hits this year. Injuries and illness so handicapped his work that for a time he was out of the line-up because of a batting slump.

It is hard to imagine a three-time batting champion not being in the game because he wasn't hitting, yet Heilmann, for several weeks this spring experienced that rather unusual happening.

Starting around July first to hit his stride, Heilmann began to make

up for lost time. His batting average, then slightly below the .300 figure, soon became much healthier.

During the winning streak of 13 straight games by Detroit, the bat of Heilmann was a potent factor. By the close of August, with a mark only a few points shy of the .400 figure, he finally topped the league.

It is just possible that considerable argument will result at the close of the American league season as to who is best entitled to the batting honors.

Lou Gehrig Threat to Leaders

Al Simmons of the Athletics had an average of .393, when an injury, suffered in sliding into the plate, put him out of the running. It is doubtful if he will play any more this year.

Should some player, who has participated in the entire schedule of 154 games, finish the season with a mark a few points less than that of Simmons, there would be an immediate argument as to who should be labeled champion.

Simmons, with 89 games, has only a little better than half season's play to his credit. It would seem that some other player, having played in almost twice as many games and finished only a point or two below Simmons, should have turned in a more creditable performance.

It has been a major league precedent that the player who has played throughout the season should get the benefit of any doubt, if there is but little to choose between the two.

At present, the biggest menace to Heilmann's hopes of winning his fourth batting championship is Lou Gehrig of the Yankees, who has been among the first five swatters practically all season.

PERSONAL & LOCAL

Mr. and Mrs. Ben White and son, Clayton, and Mr. and Mrs. Ollie White were visitors in Clarendon Sunday.

Miss Margaret Renshaw and Misses Esther and Rachel Stalder returned to their homes in Hennessy, Okla., today.

Mr. and Mrs. W. P. Masters are visitors in Amarillo today.

Mr. and Mrs. Jim Williams are visiting their son, John Williams, in Perryton.

Andy McNamere and Miss Eleanor Zahn were in Shamrock Sunday.

Mrs. Thelma White of Shamrock visited in Pampa Saturday.

Tom Durham of Amarillo was in Pampa Sunday.

Mrs. W. L. Wilson and family left Sunday for their home in Sweetwater. They have been the guests of Miss Ruth Hill.

Mrs. J. J. Williams of Elk City, Okla., has been the guest of her daughter, Miss Ruth Williams.

Mr. and Mrs. Wade Duncan were visitors in Amarillo Sunday.

Mr. and Mrs. E. G. Behringer were the dinner guests of Mr. and Mrs. Harry M. Wilson Sunday.

Miss Peggy Stephens of Groom was the guest of Miss Marjory Buckler Friday night.

Hayden Balthrop visited friends in Reed, Okla., over the week-end.

Mr. and Mrs. C. M. Boatman will return to their home in Lubbock today.

Mr. and Mrs. Jack Stevens of Groom were visitors in Pampa Saturday.

Eulis and Ortis Cobb left Saturday for Stillwater, Okla., where they will enter Oklahoma A. and M.

Alfred Gilliland left Sunday for Norman, Okla., where he will resume his work as student in the University of Oklahoma.

Menus for the Family

By Sister Mary
BREAKFAST — Pears, cereal, cream, creamed ham on toast, granam toast, marmalade, milk, coffee.
Luncheon — Cream of celery soup, croutons, stuffed peppers, brown bread, apple and rice pudding, tea.
DINNER — Broiled pork chops, scalloped potatoes, swiss chard with mock Hollandaise sauce, chow chow, peach shortcake, milk, coffee.

If you make your own orange marmalade it can be as bitter or mild as you prefer by the simple method of soaking the skins for a long or short time. Many changes of water during the parboiling will remove the bitter taste so objectionable to many persons.

Mock Hollandaise sauce is so good with many of the fall vegetables that the rule follows. The "mock" variety is chosen because it is cheaper and easier to make.

Mock Hollandaise Sauce
 One cup boiling water, 1 tablespoon flour, 3 tablespoons butter, 1 tablespoon lemon juice or vinegar, 1 teaspoon salt, 2 eggs (yolks), 1/2 teaspoon pepper.

Melt 1 tablespoon butter and stir in flour. When bubbling slowly, add water, stirring constantly. Bring to the boiling point and boil five minutes. Remove from fire and let stand while beating yolks of eggs with salt, pepper and lemon juice. Slowly add egg mixture to sauce, beating constantly. Beat in remaining butter bit by bit keeping mixture hot over water. Serve at once.

Hospital Notes

Mrs. Theresa Keehn, who has been in the hospital recovering from injuries received in an automobile accident some time ago, was able to leave this morning but is still under doctor's care.

E. Finley, who was operated on Friday, is doing nicely in the hospital.

Mrs. W. H. Chase of Mobeetie underwent an operation at the Pampa hospital yesterday and is doing nicely.

Frank Peters, the 12-year-old boy who was kicked in the face by a mule on his father's farm near White Deer Friday morning, is out of danger at the local hospital. He lost all his upper set of teeth and his face was badly lacerated.

MOVIE STARS TAKE TO CRUISING, FIND PRIVACY ON BOUNDING MAIN

The high seas are great open spaces for many motion picture actors seeking recreation and rest, and many a star is also a tar on his own vessel. John Barrymore has a 100-foot schooner "The Mariner" (left center) on which he is shown, at the left, lending a hand with the ropes. Al Christie (center) cruises in an R-boat (right center). Another ardent cinema sailor is Douglas McLean (upper right).

HOLLYWOOD, Sept. 12. (AP)—Hollywood's most exclusive playground is the sea. Screen celebrities have found on the bounding main unlimited room for recreation and a delightful freedom from the over-attentive crowd.

The Pacific Ocean is full of fish, but they do not ask for autographs, and even the most luxuriously-appointed yacht is not expected to carry a telephone.

Prominent among the mariners of the movies is John Barrymore, who would have it understood, however, that he is no yachtsman. He is a schooner-master, who can skipper his own craft in storm or calm and frequently gets his hands dirty doing it. His 106-foot Gloucester schooner, the "Mariner," is

the boat which won the race from Santa Barbara to Honolulu in 1923 and last year took third place in a Honolulu cruise.

A sister ship to the "Mariner" is Cecil B. DeMille's "Seaward," which was badly damaged by fire some weeks ago but is being repaired. The producer meanwhile is using the 128-foot power cruiser "Black Swan," which he chartered for the summer.

The "Wanderlust," an 86-foot schooner yacht formerly owned by Thomas Ince, is the property now of Corinne Griffith, who hopes some day to sail it to the South Seas. Another stout sea-going craft is the "Cojo," which Colleen Moore and her husband, John McCormick, bought on the east coast recently.

John Gilbert's 90-foot yacht, "The Temptress," is rated one of the speediest on the west coast. Conrad Nagel owns the 75-foot, motor-driven "Tiburon," and Raymond Griffith's sporty little Star boat, the "Donna Bertha," has won him a collection of racing cups.

Other screen colony sea-farers include King Vidor, Lewis Stone and Harry Carey, who own schooners; Reginald Denny, Mack Sennett, Douglas MacLean and Al Christie.

Christie, the comedy producer, goes in for racing craft. He has an R-class sloop and a hydroplane. He recently sold his 45-foot twin-screw motor cruiser to Frank Borzage, the director.

For Job Printing—Call the News.

RECORD SET FRIDAY BY DAILY NEWS ADS

Friday's issue of the Pampa Daily News carried the largest number of inches of grocery advertising in the history of Gray county journalism.

Many people came to the office to obtain extra copies, and they effected a real savings by using the ads as a shopping guide. A number called to inquire about the location of certain stores.

Many families live here whose husbands work in the oil fields some distance away. The Daily News advertising is causing many of the men to use the ads when they have time off, and in their absence members of their families find the news of local business valuable.

Out-of-town people who read the Daily News every day are coming to know Pampa by the ads, and they are finding this city the ideal shopping center.

First Cavalry To Use New Methods In Next Maneuvers

(By The Associated Press.)

MARFA, The Commanding general, Eighth Corps area, has designated September 19 as the date of assembly of the units of the First Cavalry division for the maneuvers that are to be held in the vicinity of Marfa, September 20 to October 3, both dates inclusive. In order to arrive in Marfa by this date, the First Cavalry Division (less the First Cavalry Brigade), commanded by Brigadier General Edwin B. Wiggins, will leave Fort Bliss, by marching, September 10. The First Cavalry Brigade, (less the First Cavalry), Brigadier General LeRoy Eltinge, commanding, will leave Fort Clark, September 4, for the overland march to the assembly point, where it will be joined by the First Cavalry now stationed at Marfa.

The following military observers have been ordered to report to the commanding general, First Cavalry Division, at Camp Marfa, on September 15, to represent the War Department and the Service Schools during the maneuvers:

Major General Herbert B. Crosby, Office Chief of Cavalry, Washington, D.C.

Colonel E. I. Brown, Corps of Engineers, Headquarters Eighth Corps Area, Fort Sam Houston.

Lieutenant-Colonel James Houston, Cavalry, Field Artillery School, Fort Sill, Okla.

Lieutenant-Colonel Albert Phillips, Cavalry, Quartermasters Intermediate Depot, Jeffersonville, Ind.

Major James J. O'Hara, the Cavalry Board, Fort Riley, Kans.

Major John B. Richardson, General Staff, Washington, D. C.

Major Henry R. Smally, Quartermaster Corps, office of the Quartermaster General, Washington, D. C.

Major Bernard R. Peyton, Field Artillery, Field Artillery School, Fort Sill, Okla.

Major Leigh F. J. Zerbeam, Chemical Warfare Service, Ridgewood Arsenal, Maryland.

Major William S. Grimes, Cavalry School, Fort Riley, Kans.

To date, the following foreign military attaches on duty in Washington have accepted the War Department's invitation to attend the maneuvers. Brigadier General Augusto Villa, Italian Military Attache.

Major Angel M. Zuloaga, Argentine Military Attache.

The War Department feels that important results will be achieved through these maneuvers, the first of the Cavalry division since 1923, in making the division a more efficient combat team, and in the practical instruction of officers and enlisted men in the field. In addition, the maneuvers will serve as an exhaustive test for many new articles in the field. Included in the list with which the Cavalry Division will be equipped, for the first time in divisional maneuvers, will be the machine rifle, the cooking pack, the demolition pack, the picket line pack, and the machine gun and machine gun ammunition packs, all of which are carried on the Phillips pack saddle.

Cooperation of the Cavalry with the Air Corps in functions of reconnaissance, communication, observation, and combat will be an important feature of the exercises.

In these maneuvers, the War Department also hopes to experiment in the use of portee artillery (artillery transported by trucks), tanks, and motorized trains with the Cavalry division. This is in keeping with the announced policy of including in all major tactical exercises such as problems will test the capabilities and limitations of motor transportation, both with mounted and dismounted commands, and, wherever possible the relative merits of motor propelled and animal drawn vehicles over various classes of terrain.

ST. LOUIS, Sept. 10. (AP)—CABE war broke out again here yesterday with the killing of Alphonse Palazolo, notorious Italian gunman and the wounding of a 14-year-old boy who was a bystander.

Third Coleman On Razorback Eleven

FAYETTEVILLE, Ark. (AP)—Grid-iron honors will be even among three brothers when Eusel Coleman of Strons, Ark., leads the University of Arkansas football players in the first 1927 practice session here September 10. Eusel is the third Coleman brother to be chosen captain of the Razorback eleven.

James W. Coleman, first of the trio to pilot the Razorbacks, was captain of the team in 1919. He is

now coaching at Williamsburg, Pa. Sam Coleman, second of the brothers to captain the Arkansas grid-ers, was pilot of the squad in 1924. He is coach at the Camden, Ark. High School this year.

Eusel has made two letters playing end on the Arkansas team. He was a stellar player on the Strong High School squad and received three letters before beginning his university career.

British Flyers' Fall Thrills Tiny Village

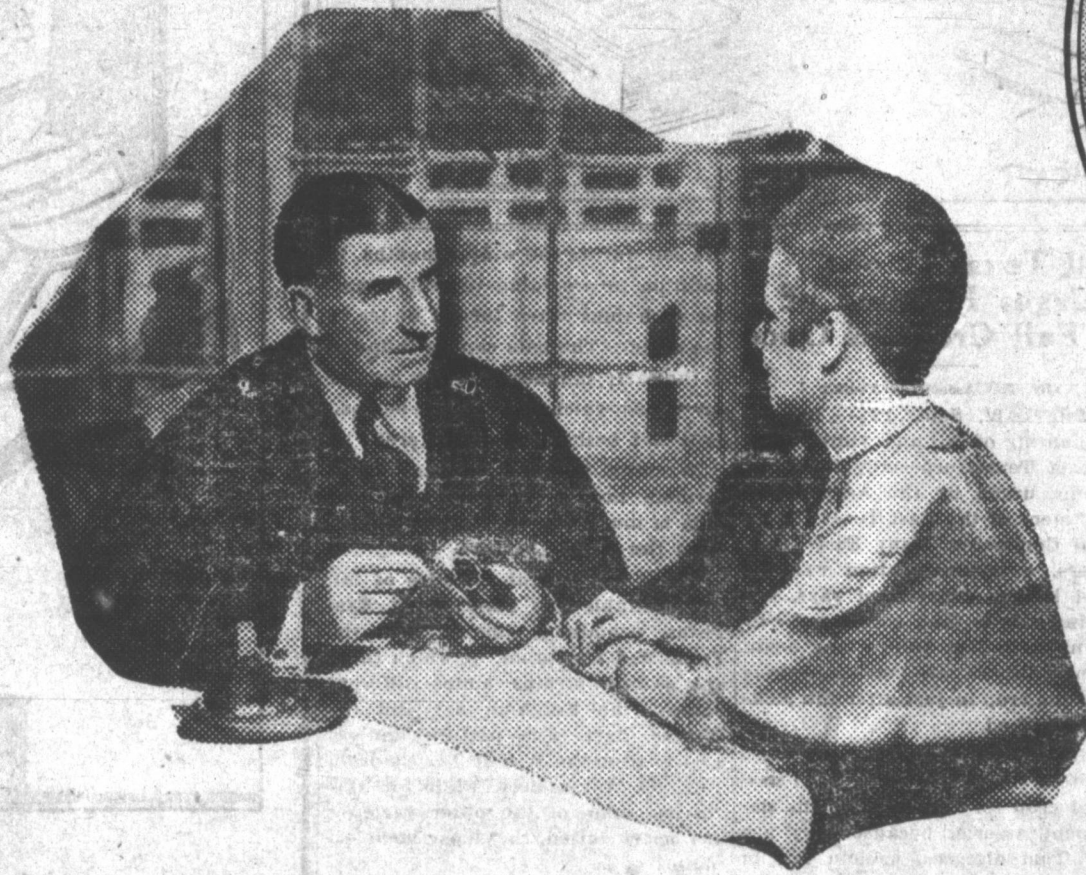

(By The Associated Press.)
COMMERBURG, Upper Austria. Aviation provides thrills for hamlets which are out of touch with the world of dare-and-do. The same kind of a surprise that came to Ver-Sur-Mer, French fishing village, when Commander Bryd and his crew landed there after their trans-Atlantic flight, came to Sommerberg when the British Hawker-Horley bomber bound for British India in a non-stop

flight stopped into the Danube recently. Nobody in the village had the slightest knowledge that an airplane was in the vicinity. Villagers rose to the occasion and fished the badly injured Flight Lieutenant E. A. Dearth and his companion, Lieut. C. R. Carr, out of the water. Then the village declared a fete.

ALPINE COLLEGE PROSPECTS ARE EXCEPTIONALLY BRIGHT
ALPINE, Sept. 10. (AP)—Prospect for the largest enrollment in its history for the fall term of the State Teachers college are very bright according to information received from the president's office.
More cottages have been rented than ever before, and more reservations of rooms have been received than have ever been received at this time of the year. The fall term opens September 21.

James J. Corbett says, "Faversham's advice decided me on Luckies"

Famous former heavyweight champion, with Mrs. Corbett after breakfast at their home at Bayside, L. I., recommends Lucky Strikes.

William Faversham, The Popular Actor, writes:

"For years I have been a Lucky Strike enthusiast, in fact, I never smoke any other cigarette. In all this time I have never been troubled with throat irritations. In addition to the enjoyment that I get from the superior quality of Lucky Strikes, it is wonderful to know that my voice will never be affected by smoking."

William Faversham

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation - No Cough.

SCHOOLS

keeping, third year Spanish, and third year Latin. Many of these credits, he said, are much needed when a high school graduate goes to a college or university. He said that he has information that Pampa high school will likely soon be honored by being placed on the All-Southern list of accredited schools.

In introducing the faculty of fourteen high school teachers, Mr. Campbell called attention to the training and ability of each. He urged the instructors to take part in the important community affairs. He complimented the school board, and said that policies of the schools will be determined by joint conferences of board and teachers.

Prof. Fisher, who comes from Cherokee, Okla., to take the principalship of Central high, reserved most of his remarks for the special meeting of teachers and students. He said that the joy of service is one of the biggest factors in school teaching, and that he and his staff intend to make every effort to build a great school this year.

Much appreciated entertainment was provided by Prof. Otto Schick, violinist, and Mrs. Morton, reader. The P.-T. A. reception for teachers, to be held at the I. B. Hughey residence Friday evening, was announced.

Second grade pupils of North Pampa will be accommodated without transporting them to the cottages in South Pampa, the school board decided late this morning. The Baker school is already crowded, and the trustees will meet again at 4 p. m. today to look over the enrollment figures and work out some way to house the North Pampa second grade children at the central campus.

Old Turtle Takes Regular Vacation

PITTSFIELD, Mass. (AP)—"Joe Turtle is up the mountains for the summer," they say around the Malcolm Porter farmhouse.

"Joe" is a land turtle, and has passed the Malcolm farmhouse twice a year for 21 years and never stopped to visit.

Back in 1906 Malcolm Porter marked the turtle's shell and since that time the Porter family has watched for "Joe" the last week in June and the last week in September. He goes regularly to his mountain resort for the summer and with the turning of the first leaf in September goes back to his winter home in a swamp.

The round trip is four miles. Attempts have been made to make "Joe" lose his way, but he surmounts all obstacles and chicanery to reach his goal.

East Texas C. of C. Urges Planting of Fall Crops at Once

(By The Associated Press.)

LONGVIEW, Sept. 12.—Immediate planting of fall and winter crops for East Texas, especially fall oats, is being urged by the Agricultural department of the East Texas Chamber of Commerce. Many East Texas farmers, a communication recently issued by the department says, are planting oats in their cotton and cultivating it in just before they begin picking. Others are making plans to get the crop in just after the picking is finished.

Fall oats are considered the most satisfactory and the safest feed and cover crop for this section, the department asserts, because they are freer from diseases, seldom fail in production, and mature earlier than spring sown oats.

Oats planted now will not only furnish early feed crops for next year, but will afford valuable winter grazing and will serve as a cover crop to prevent washing and leaching of

the soil during the winter months, in addition to providing vegetable matter or humus when turned under in the spring. The oats can be followed in the early summer with cow peas or soy beans which in turn can be used as a soil builder or a feed crop.

Warning is issued to East Texas farmers not to delay planting too long is much value is to be obtained from the winter pasture.

There are several varieties of fall oats suitable for planting in East Texas, prominent among them the Texas Red Rustproof, of which there are several strains under different names; the Fulghum oat and the Winter Turf. For pasture and as a cover crop the Winter Turf is probably the best variety, while for harvesting some of the other varieties are better suited, the department explains.

East Texas in the past has bought a great amount of feed annually, a practice which the department condemns as "ruinous and inexcusable," declaring that "this system must be abandoned if farming is to be made profitable in this region."

Trade Day Vistors

Stop at the Daily News office Wednesday and get a free copy of the Daily News. There will be advertising and news of interest to you in Wednesday's issue.

It's our gift to you without any strings. Just come in, say you are a Trade Day visitor, and get a copy.

Remember Wednesday is the day. In this issue there are thirty-two merchants of Pampa co-operating in offering the largest group of bargains ever offered in the Panhandle. See the double-page ad in this issue.

New Russian Game Resembles Chess

LENIGRAD (AP)—A new game intended to resemble chess has been launched by the International Society of Red Prisoners Relief, in an effort to raise funds.

The game is played on a hexagonal board with a prison in the upper part and fascist headquarters in the lower. The center of the board is the Soviet Union, whether a prisoner tries to escape. The prisoner is assisted by six workers and pursued by the same number of fascists headed by a pawn representing Mussolini. Moves are patterned somewhat after those in chess.
