THE NEW PAMPA Fastest Growing City in Texas—Panhandle Oil and Wheat Center

Every now and then something new about the Lindbergh kidnaping case bobs into the public prints...

The letter was written to Mrs. Roy Hallman of Pampa, who first appeared in the case nearly two years ago when she asserted that she had nursed a man whom she believed to be Isador Fisch...

At that time, Gov. Harold G. Hoffman of New Jersey, sent investigators to Pampa to check the clues furnished by Mrs. Hallman...

But, getting back to the letter just received here by Mrs. Hallman. Although he is dead, it reveals Mrs. Hauptmann's confidence in Bruno's innocence of the Lindbergh murder...

The letter, written by Mrs. Hauptmann to Mrs. Hallman, was mailed in New York on Dec. 28. It reads:

"Having been occupied with my numerous troubles since the death of my husband, this is the first opportunity I have had to express to you my thanks for your kind communication and your well wishes.

"Convinced, by my intimate knowledge, of the innocence of my departed husband, and strengthened by a fresh resolve to clear his name and remove the shadows that might impede the path of my son through life, I am continuing the investigation into certain phases of the Lindbergh kidnaping hitherto never touched.

"This has drained my resources to a point where, unless my friends come to my aid, all further progress toward a final solution of the case must cease and the labor of many months must necessarily be lost.

"I am therefore asking such of my friends who still remain, to aid me in every way possible and any contribution towards a worthy cause to which I have set my mind and heart will be appreciated by me."

The letter is signed by Mrs. Hauptmann and gives her present address in Bronx, N. Y., as 2505 Loveland Place. Mrs. Hallman said today she knew anyone who believes with Mrs. Hauptmann that Bruno was not the Lindbergh baby killer and wishes to contribute to Mrs. Hauptmann's fund to further the investigation of the case, may send the money directly to Mrs. Hauptmann in New York...

Mrs. Hallman also received yesterday from Irving Beach, Calif., further information about the mysterious patient whom she nursed in Colorado a few months after the Lindbergh kidnaping.

This letter is from a man who was in Estes at the same time and who had occasion to meet and to know Mrs. Hallman's patient. This letter reads:

"In answer to your questions: This man was getting mail from Concord, N. H., and money, too. He also received money through a bank in Cheyenne, Wyo. Just before I left he told me he was supposed to get \$40,000 which he said was his from an estate. I don't know who he went after this, but I learned later that he received the money the after I left him in Butte, Mont., and I am pretty sure the money came in a package, from the way he talked about it to me."

This letter also states that it is all the writer "knew" except that "this fellow had at one time a small arsenal." Just what all this means, if anything, remains to be seen. Mrs. Hallman also is in letter communication with Joseph W. Pelltreau, a private investigator for Gov. Hoffman, who at one time came here to discuss various angles of the case with the Pampa woman.

"I am still interested in the case from Mrs. Hauptmann's viewpoint," Mrs. Hallman says. "If there are any who feel as I do that she is entitled to further consideration, I hope they will do what they can to help her."

I Heard...

Dr. H. E. Turner trying to get up a bunch to go fishing. He was adjudged insane without a hearing. Now he'll have to wait until Frank Hunt gets home from California.

John Keeler and Bill Holt agreeing that they were pretty good fellows—their birthday is on the same day.

WAGERING ON DOGS IS NOT LAW VIOLATION

AUSTIN, Jan. 6 (AP)—The Supreme Court today refused to reconsider its recent ruling that wagering on dog racing was not prohibited by law.

It refused a motion for rehearing filed by the state in a case from Bexar county against the All Texas Racing association and others.

The action made the ruling final.

The court declined to accept the state's view that the term "gambling," prohibited by the penal code, should be given a general meaning to include betting on anything involving an element of chance and should not be confined to matters specifically banned by law. It stated the Court of Criminal Appeals, last arbiter in criminal law, had reasoned differently.

"We therefore hold the premises sought to be declared a nuisance in this action was not constituted a nuisance because people resorted thereto for betting on dog races," the opinion said, "in view of the fact the legislature has not defined betting on dog races as gambling and affixed a penalty for doing so."

ZUCK FUNERAL WILL BE CONDUCTED THURSDAY

Funeral services for E. E. Zuck, 46, will be conducted at 2 o'clock tomorrow afternoon in First Christian church with the pastor, Rev. John Mullen, officiating. Burial will follow in Fairview cemetery under direction of Charlie Duenkel Funeral home.

Mr. Zuck, a driller here for more than five years, died yesterday morning in a local hospital. He came here from California.

Fallbearers will be John Hankins, E. A. Elyvins, Henry Turner, Ray Hobbs, Cecil Noel, J. W. Branscum.

Valencia Protests To League Against Italy, Germany

GENEVA, Jan. 6 (AP)—The Spanish Valencia government lodged a double protest with the League of Nations today against alleged violation of her sovereignty by Italy and Germany.

The government asked league action on the German fleet's seizure of Spanish merchant ships and the sending of additional Italian volunteers to aid the Spanish insurgent attack on Madrid.

Officials immediately set league machinery in motion to act on the protest and announced the note would be delivered to all member nations and the text published this afternoon.

The Spanish protest thrust a new complication into international efforts to keep the Spanish civil war confined to the peninsula.

The Valencia authorities enumerated the seizure of two Spanish freighters by German warships and the continued flow of volunteers to Spain to aid fascist insurgents.

The capture of the steamers was labeled a violation of international law by the Spanish government and the fresh sending of volunteers was protested as a violation of the London non-intervention agreement.

Crime Detection Methods Studied By Texas Rangers

ALBANY, N. Y., Jan. 6 (AP)—Top horsemanship and the ability to draw fast and shoot straight—with two guns—are still the primary qualifications for membership in the Texas Rangers, their chief said today.

Col. Horace H. Carmichael, director of Public Safety in the Lone Star State, explained in an interview "all our men have to know is how to ride and ride hard, how to carry two guns and use them both. That's traditional."

Carmichael and Manuel T. Gonzales, chief of the bureau of investigation and scientific crime detection laboratories of the Texas division, are making a two-months

According to the Book of Holidays, by Harry Spencer Stiff, p. 65, Russia and Greece still maintain the Julian Calendar—and thus, January First falls on our January Thirteenth.

AMERICA'S OPTIMISM SURVIVES DEPRESSION

The American always was a hopeful cuss. He still is, even after taking the awful beating that the new-economic-era boys in Wall street wished on him back in 1929.

Fortune Magazine set out recently to find out just how much hope he has left. It undertook one of those cross-section surveys, presenting to a wide range of people the question whether it still is possible for any young man with thrift, ability, and ambition to go up in the world, own his own home, and enjoy an income of at least \$5000 a year.

The answers it got are interesting. An unhesitating "yes" came from 39.6 per cent of the people questioned. Eighteen per cent said, "Yes, if he's lucky."

Assuming that the group questioned gives a fair reflection of national sentiment—and Fortune's surveys have a good reputation for that sort of thing—it must be said that a nation which feels that way is a long way from being disheartened.

What it amounts to is just that about one-third of the populace believes that opportunity is dead. Everyone else—barring a small group that can't make up its mind—feels that a bright young fellow who gets a reasonable share of the breaks can go just as high as a man needs to go in this country of ours.

If you have been worrying about the prospects of a revolution, and have been looking anxiously under the bed for lurking Communist or Fascist plotters, those figures ought to set your mind at rest.

For revolution, whether it goes to the right or to the left, is the product of complete, nation-wide disillusionment and discouragement. Men throw democracy overboard, scrap their accustomed way of doing business, and entrust their affairs to a Hitler or a Stalin only when they are utterly fed up with the way their system of society has been working.

The percentages listed in this survey aren't static, of course. If those questions had been asked four years ago, we might have got a vastly different set of answers; if they were asked four years hence, we might see another change.

But the significant thing is that the replies do seem to reflect that public state of mind pretty accurately today, as the country emerges from its worst depression. And they show that the traditional optimism of the American spirit is far from ended.

STILL LONG WAY AHEAD

Although American industrial production indices are rising at a gratifying rate, it is well to note that they still have quite a way to go if the country is to get back to the 1929 level.

Figures released by the National Industrial Conference Board reveal that while actual output in many industries is up to or over the 1929 level, per capita production is still about 19 per cent below the 1929 figures.

The catch in it, of course, lies in the fact that our population has increased considerably since 1929. We just naturally have more workers now than we had then.

If we get things moving on a 1929 basis, with per capita production equal to the 1929 scale, we shall actually be producing a total output considerably in excess of that of the last boom year.

For that reason we can't be too complacent over progress to date. Recovery has come up substantially—but it still has quite a way to go.

GOVERNMENT LENDING

News dispatches reveal that it is proposed to introduce a bill to have the Federal Government take over the Federal Reserve Banks and have complete control of all credit, financing and lending.

When one recalls that the Federal Government loaned to the nations of Europe about \$10,000,000,000 which we have never received and probably never will receive, it is hard to become enthusiastic about credit being controlled by the politicians. They certainly have not shown good judgment with regard to whom to extend credit in the past.

Japan is rapidly becoming civilized. A new law prohibits small children from being forced to work between 11 p. m. and 5 a. m.

Astronomers have just discovered a substance known as ionic titanium in the cosmic clouds. Europe is disinterested—it cannot be utilized in an explosive.

Washington Letter

By RODNEY DUTCHER

WASHINGTON.—Senator Royal S. Copeland of New York has said that he would be glad to bury the hatchet with the administration, election results apparently having suggested to him that the New Deal enjoys a certain popularity.

The administration will be glad to bury the hatchet, too. The burial rites, if possible, will be performed in the region of the senator's neck.

Copeland, somewhat after the manner of Holt, took a walk in the last campaign, though he didn't walk as far as Al Smith. After a few hard slams at the Philadelphia convention, he took himself off to the Holy Land. Subsequently he endeared himself to the State Department by demanding that it protest the way Great Britain was handling affairs in Palestine.

Mrs. Copeland made at least one Republican speech, promising that several members of her family would vote Republican—without mentioning her husband.

The senator is chairman of the Senate Commerce Committee, which handles merchant marine legislation, but there's some doubt whether he will be as vocal in the shipping field as in the past. A few newspapers recently published excerpts from correspondence indicating that the senator had asked for free passes on a steamship line to Bermuda.

WELL, WE'RE GLAD TO KNOW THAT

MAN ABOUT MANHATTAN

BY GEORGE TUCKER. NEW YORK—Greenwich Village, that once bizarre section of New York where Bohemianism and love of gaudy attracted visitors from all over the world, has now reverted to a staid little place where they pull in the sidewalks at nine o'clock and everyone takes it easy.

Repeat, they say, is the cause. Where once two dozen night clubs flourished behind closed doors and the police, never anxious to enforce the prohibition law, sympathetically failed to act, only two hot spots exist.

Just Place To Live. One by one the colorful characters have disappeared. Even the place where John Masfield, now poet laureate of England, used to be a porter is closed. For years Johnny O'Connor, the proprietor, used to tell of Masfield and how he worked for \$12 a week plus his board.

Legally Spoiled Fun. Now the trend is uptown, principally to the 50's where most of the after-dunk entertainment is to be found. The "Howdy" club and Jimmy Kelly's on Sullivan street are the two remaining places still able to attract the stay-out-late trade.

HOW'S your HEALTH. Edited by DR. IAQO GALDSTON. THE GASTROINTESTINAL TRACT. The gastrointestinal tract may be described as "a long suffering gut," 23 feet long. The length is fixed; the suffering is optional.

But even the length varies in different adults. The longest may reach 31 feet, the shortest 15. In a study of 100 individuals, the average length of the small intestine in adult males was found to be 22 feet 6 inches. The female average was 10 inches longer.

The abuses to which the gastrointestinal tract is exposed are numerous. Scalding hot foods, frozen drinks and desserts, condiments, roughage, concentrated alcohol and drugs are but a few of the substances gulped, swallowed and poked into it.

Unfortunately the stomach and the intestines are "voiceless." They are without the sensory nerves which we find so widely distributed in the rest of the body, and therefore are prone to long, without eliciting much complaint in the form of pain.

What, how and when you eat are three conditions which deeply affect your welfare. They influence the health and functions of your gastrointestinal tract, and also the well being of your body.

The nature of the fuel is most important. A diet poor or lacking in proteins, mineral salts or vitamins, means in time a body lacking in many respects. Coffee and doughnuts for breakfast, a sandwich and cup of coffee for lunch, and a full course dinner in the evening, with some vegetables served but not eaten, will not enable one to build or maintain good bone, muscle or blood.

The HOLIDAY MYSTERY

Chapter XIX. When the dinner hour arrived Bob went to Professor Shaw's room to call him. There was no response to his knock, so Bob opened the door and found the room empty. Another person missing! Feeling terror, he returned to the living room and told Pearl John that the professor was not in his room. The others had all gone to the dining room.

For an instant Pearl John's face paled. Then he laid a hand on Bob's arm. "Not a word of this to the others until we're sure he is not on the place somewhere. Was there anything out of place in his room?" He asked the last question because Bob's face showed that he still had something on his mind.

"No," Bob answered, "but since so much has happened, I think I ought to tell you what I saw the night before Pearl Pierre's death." He related in detail the scene in the hall outside his door between Pearl Pierre and Angeliqne and told how the girl had trailed Pearl Pierre to the door with the lion's head knocker.

"Ah, now we're getting somewhere!" de Forest exclaimed. "Leave this to me, Bob." Bob looked at him a moment in perplexity, half wishing he had held his tongue. De Forest had certainly been hard as flint with the Indian.

Pearl John walked toward the dining room. To the others in the dining room he explained, "Professor Shaw does not care for lunch. Angeliqne, perhaps you would take me on for a game of billiards after dinner. I feel as though I needed to have my mind distracted."

"I'd love to, Pearl John," she replied with her flashing smile. Bob felt a twinge of conscience as he looked at the pretty little flirt. Ramon cast a quick glance at de Forest but soon was talking again with Betty, who sat on his side.

Later the click of the billiard balls could be heard as Ramon paused a moment outside the billiard room. Satisfied, he walked away down the corridor. But when the game was over and Angeliqne had claimed victory over her opponent, Pearl John put the cues away, drawing her to a seat beside him, asked suddenly, "What were you and my brother doing in the hallway the night before his death? You told us that you had not seen him again after we all said good night in the living room?"

"Why—why, what do you mean?" she gasped, surprised into the answer. "Just what I said," he answered. Chicago has a subway system for transporting merchandise but not passengers.

Q. A vessel named the Cyclops is now mentioned in the newspapers. Did it take the place of the Cyclops which disappeared with all on board? A. M. S. A. The vessel called the Cyclops which mysteriously disappeared in 1918 was an American vessel. There is in the British Navy at the present time a vessel by the same name which is a depot ship.

Q. Where was McGuffey of school-reader fame buried? D. W. A. Dr. McGuffey was buried in the university cemetery at Charlottesville, Virginia. Q. What ten unions form the Committee for Industrial Organization? E. B.

A. They are: Coal Miners' Union; Typographical Union; Amalgamated Clothing Workers' Union; Ladies Garment Workers' Union; Textile Workers' Union; Oil Field and Gas Workers' Union; Cap and Millinery Workers' Union; Mining, Milling and Smelting Workers' Union; United Electrical and Radio Workers' of America; and Industrial Union of Marine and Shipyard Workers of America.

Q. Can phonograph records for the blind be put on any talking machine? F. E. S. A. They cannot be used on the regular talking machines. Machines for playing them are specially devised. Q. Are there more newspapers in Russia now than there were before the World War? F. T.

A. In 1934 there were nearly 10,000 newspapers in U. S. S. R., with a total circulation of 36,500,000. In 1913 there were 800 newspapers; circulation, 2,500,000. Q. "Come on, said de Forest, rising. 'I'd hate not to put your minds at rest.' He added sarcastically. As they went down the hall, Ramon came from his room. "We're going down into the basement," Pearl John told him. "Better come along too."

"You want me to come?" asked Vasquez. Then, as the other nodded, he joined them. They went down the long flight of stairs silently and, at the bottom, stopped suddenly. On the floor before them lay Professor Shaw. (To Be Continued)

PAMPA OF YESTERYEAR

FIVE YEARS AGO TODAY. Bob Brashear was elected president of the Junior Chamber of Commerce to succeed Browne Akers.

Jess Wynne was ill, and at his physician's orders but against his will, remained in bed for the first time in many years.

ONE YEAR AGO TODAY. A report for the preceding year from the county clerk's office showed 219 marriage licenses issued in Gray county.

Judge W. R. Ewing attacked gambling and other evils in the community as the grand jury convened for the winter court term.

"Mutiny on the Bounty" was the current headlined theater attraction.

HARVESTERS NOSE OUT WHITTENBURG 20-17 IN BASKETBALL THRILLER

DUNCAN WILL BRING VETERAN TURKS FOR ANOTHER BATTLE WITH HARVESTERS ON FRIDAY

TURKEY HAS WON 6 OUT OF 7 GAMES WITH 2 STARTERS FROM LAST YEAR'S GREAT TEAM IN LINEUP

Al Duncan, former Pampian, will bring his "Terrible Turks" to Pampa on Friday night for a big basketball tussle with the Harvesters. Game time will be 7:30 o'clock with admission 10 and 25 cents.

With two lettermen back, one of them a four-year forward, the Turks are doped to be Pampa's stiffest competition so far this season. Young is Turkey's ace forward. Another letterman, of three letters, will be Harbrough.

Last season the Harvesters and Turks divided their games with scores close. While Turkey has won six out of seven games so far this season, the Harvesters have a record of four victories against six defeats. The team started off slowly with a green outfit but the last week it has been gaining momentum.

Saturday night the Harvesters will also be at home, meeting the fast Borger Bulldogs, another strong contender. Last night Borger nosed out White Deer. The Bucks held a victory over the Harvesters. That game points to a Borger victory. The Harvesters, however, have shown remarkable improvement since their clash with White Deer.

EVEN AT 21° BELOW... "ZERONE" ANTI-FREEZE PROTECTS

Seven words that tell you whole columns about anti-freeze protection. Ask your "Zerone" dealer to tell you the story. Let him show you how little "Zerone" you need for complete protection in the coldest weather. The rate of evaporation loss is very low. Use "Zerone" and get complete anti-freeze, anti-rust, radiator protection; power and economy.

PROSPERITY OF MINOR LOOPS PLEASES PRESIDENT HARRIDGE

Turns Striker

(Note: This is the third of a series of stories written for the Associated Press by outstanding sports leaders. They deal with 1936 developments and 1937 prospects.)

BY WILL HARRIDGE, President, the American League.

CHICAGO, Jan. 6 (AP)—Baseball shared in the prosperity of 1936. I would not say, "baseball has come back" for the reason it never went away. During the depression it suffered, of course, for the fans had to economize and amusements found no place in their budgets.

Twenty-six minor leagues started the 1936 season and 26 not only finished, but went on to participate in post-season series. That feat probably is a record. Even in the banner years, when we had from 40 to 50 minor leagues, not all weathered the storms and played out schedules. To me, the fact that the minor leagues enjoyed prosperity in '36 was the biggest event in baseball for the year. For, where would the major leagues be if it were not for minor circuits through which the players are developed?

The raw rookie of today down in the Evangeline, or up in the Northern league, may be the boy who draws the plaudits from the fans and the headlines in the papers because of his skill or prowess displayed in a world series contest two or three years from now.

Naturally, the American league has reason to be happy as a result of the events of 1936. True, our circuit lost the all-star game but, to make up for that, we won the world and Chicago city series.

Players in our league were not backlogged when it came to shattering records, some of which had stood for many years. In fact, they broke 26 new and tying 11 American league records.

As for making any predictions in regard to the 1937 campaign, I really should be content with resting on my laurels as a prophet a year ago when I said that New York would make trouble for Detroit and that Chicago and Washington would show marked improvement. Who will win? I don't know. Your guess is as good as mine!

Returning to New York after more than 16 months in Nazi jails in Germany for disseminating seditious literature, Lawrence E. Simpson, American sailor, joined the seamen's strike as soon as he landed. He's shown above wearing the striker's badge.

his ability Pampa could annihilate such teams as Whiteburg.

The Harvesters were handicapped last night by the loss of James Dewey, leading scorer of the team. In practice Monday afternoon, Dewey caught a ball by a protruding piece of metal that cut his finger almost to the bone. The gash severed two stitches. He may be available for the game with Turkey Friday night.

Albert Ayer led the scoring for the Harvesters with 8 points, and played a great defensive game, doing his job well and helping the others out with theirs. He hooked several beautiful long-distance baskets.

Fowler, Ayer Lead

Fowler was Phillips' leading scorer. He looped three field goals and one free shot. Two of his field goals were made from near center. Redus, center, ranked second in the Whittensburg offensive with five points. Other points were made as follows: Huth f. 2; Boulter g. 3. Coach "Dumb" Newman used a flock of substitutes—Miller, Dunstone, Umphries, all of whom played on the second string. The Phillips boys seemed even more interested in the game than the Harvesters who missed 75 per cent of their set-ups.

The Pampa points were made as follows: Enloe f. 1; Cox f. 5; Noblitt c. 0; Cox f. 0; Ayer g. 8; Heiskell g. 6; Reynolds, Cox, Noblitt, Ayer all scored even more points. The Harvesters missed five free shots, made four; Phillips missed seven and made three. Castleberry was the referee.

One of the greatest difficulties of the Harvesters was in working the ball down the floor. They lost the leather several times before they got past the center line. Then they passed into enemy hands. Heiskell led in throwing the ball away, although he performed beautifully in pivoting, dribbling and eluding guards.

Team Improves Rapidly

All in all, the team is improving rapidly and should win the district tournament if their improvement continues. They started from scratch; they knew nothing about basketball when they began practicing all expect Ayer. They didn't even know the fundamentals of handling the ball, and in less than a month they have defeated the team, Phillips, that beat Wheeler 25 to 15, was nosed out by only one point by Quail in the Wheeler tournament. They have also defeated Spearman. The Blackhaws are rated as one of the strongest teams in the district. It is entirely possible that this year's team, if all goes well and all will go well, will go even further than last year's. Cox is developing rapidly. Ayer is getting better all the time and he is already good.

Heiskell seems to be a basketball natural, and Noblitt can be expected to come through. He always has been confident in his spirit. Dewey is one of the best goal-shooting prospects seen here in years. When he recovers from his injury, he will again give his guards particular fits. Reynolds will learn to shoot goals and when he does he will be ready to step into the shoes of anybody on the court.

It appeared at the beginning of the season that Pampa would not go far in basketball. Now after three weeks, it looks as if they'll mop up if they continue to improve.

MEL OTT MAY BE AT THIRD TERRY THINKS

GIANT LINEUP TO BE UNRECOGNIZABLE NEXT YEAR

BY SID FEDER.

NEW YORK, Jan. 6 (AP)—The old Giants may be scarcely recognizable when they take the field for the 1937 National League season. From what Manager Bill Terry says, Mel Ott may even be at third base for the league champions, instead of his long time right field patrol.

Hank Leiber, who was somewhat in the doghouse last season, will be the white haired boy in center field. Jim Ripple, who held down center for much of '36, isn't placed yet, but may wind up at Ott's post in right.

Terry realizes finally his ailing leg has wound up his playing career. He will go on the voluntary retirement list and on first base in his place will be an importation from Newark of the Interpational League, Jack McCarthy, which leaves the other first baseman, Sam Leslie, still warming the bench.

Another rookie from the International will be Pitcher Cliff McEwen, from Baltimore. Terry holds "high hopes" that this right-hander, who won 23, lost 16 and pitched only 16 complete games for Baltimore last season, will do a lot toward helping Carl Hubbell bear the pitching burden.

Terry still is casting about for an experienced catcher to aid Mancuso, and another infielder.

As plans now stand, the team will line up with McCarthy on first, the ex-Phillies performer, Lou Chiozza, on third in place of Travis Jackson, who will manage the Jersey City farm, and with Leiber at centerfield and Ott in right.

Sports Roundup

BY EDDIE BRIETZ.

NEW YORK, Jan. 6 (AP)—Vines is 8 to 5 over Perry tonight—and are the tennis writers c'ring out for that well known limb... You can laugh all you want to, but if the Newark night stick ever hits Joe Bonomo, who stay down for keeps when he and Bill Terry moves into the Grand front office, Travis Jackson will be No. 1 on the list of managerial prospects if he makes good at Jersey City... The Tony Cannonieri are looking for a bundle the last of the month... Tony's comeback plans are held up pending the arrival.

Louis-Rosenbloom Fight Is Talked

LOS ANGELES, Jan. 6 (AP)—Talk of a Joe Louis-Rosenbloom bout here next month was revived today after the ex-light heavyweight champion's easy 10-round decision over awkward King Levinsky.

A near capacity crowd of 10,000 at the Olympic auditorium last night saw the veteran Rosenbloom slip, cuff and bang his way to a referee's verdict over the one-time terror of Chicago fish markets.

Last night's encounter, billed as a match for the Jewish heavyweight championship of the world—which

LOU AMBERS TO FIGHT VENTURI FRIDAY NIGHT

NEW YORK, Jan. 6 (AP)—Lightweight Champion Lou Ambers and potential challenger, Enrico Venturi, clash in a 10-round non-title tilt in Madison Square Garden Friday night.

Since he won the title from Tony Cannonieri several months ago, Ambers has been defeated twice in important starts—by Philadelphia's Eddie Cool and by Jimmy McLarin.

Venturi, flashy Italian fighter who would be a lightweight crack, has an altogether different record: He hasn't lost a fight in the United States and he's had several.

Despite his recent setbacks, Ambers rules a 7 to 5 shot.

Diving Champion Likes Pro Money

CHICAGO, Jan. 6 (AP)—Dorothy Peyton Hill, women's Olympic diving champion, decided today "the man on the flying trapeze" must have been a professional.

"He's the fellow who floated thru the air with the greatest of ease," she laughed, "and until I turned professional a few weeks ago I never did really know just how easily he staged his act."

Mrs. Hill competed in three Olympic games and won two consecutive Olympic diving titles for the United States.

"It's fun to be diving for money instead of medals," the pretty Hollywood, Calif., star said. "I was an amateur so long that it seems good to get away from the strain of training and fast competition and just dive."

"As a professional I'm diving better than I ever did as an amateur. Of course, I have to be in good form to win big meets and the Olympic championships, but now, without the constant thought of knowing someone always is trying to surpass you, I've been free and relaxed everytime I've left the board. And the more relaxed a diver is—the better the dive."

Dutch Clark Signed To Coach Detroit

LOS ANGELES, Jan. 6 (AP)—Dutch Clark, acclaimed one of the greatest backfield stars in football history, will coach the professional grid team he helped make famous—the Detroit Lions.

President George Richards of the Lions announced the signing of Clark for the 1937 season after receiving a wire from Earl "Patsy" Clark, erstwhile Detroit mentor, advising he had signed to coach the Brooklyn Dodgers next fall. Patsy Clark's contract with the Lions expired Jan. 1.

Dutch Clark's salary was not revealed.

Clark was high point scorer in the National Pro League in 1936 and was voted all-league quarterback for the past five seasons.

SAFETY DRIVE TO BE LAUNCHED BY ALLRED

AUSTIN, Jan. 6 (AP)—Gov. Allred today called upon Texas to organize against "heedless squandering of lives and destruction of property" through traffic accidents.

He named a committee of 100, including members of the public safety commission and other civic and governmental leaders, to plan a safety drive, and announced a state-wide meeting likely would be called late this month.

"The time for action has come," Allred said. "Our streets and highways must be made safe for travel. Despite the commendable progress made in Texas safety work, there exists the definite need for state wide action in the barest minimum the number of street and highway tragedies."

He said U. S. Department of Commerce figures showed Texas auto deaths in 11 months of 1936 totaled 1,852, with 35,708 for the entire country.

Statistics of the department of public safety revealed that death struck in traffic accidents throughout Texas during the past year on an average of one for each four hours and 48 minutes.

He said he believed the solution lay in a traffic safety committee with members selected for their known interest in safety work.

NOBLESSE OBLIGE

HAMILTON, O (AP)—Charles Moon, dairy truck driver, lost a pocketbook containing \$8 a month ago. It was found and returned to Moon by a woman whose name was not disclosed. The same woman reported her pocket book and \$60 lost Wednesday. Moon found and returned it.

VINES FAVORED TO WIN MATCH THIS EVENING

PERRY WILL RECEIVE LARGEST SUM—\$15,000

NEW YORK, Jan. 6 (AP)—Fred Perry, who developed a lot of sales resistance in the past few years by turning down one fabulous offer after another to become a tennis professional, is expected to cash in on his amateur fame to the extent of about \$15,000 tonight.

The British star, who refused to give up his amateur status until there was no doubt he was the world's best amateur player, faces Elsworth Vines, rated the world's best pro, at Madison Square Garden in the first match of a long series.

Lured by the first public meeting between the ranking stars since 1922, a capacity crowd of 16,000 fans is expected to pour around \$3,000 into the pockets of the players and Promoters Frank Hunter S. Howard Voshell. The ticket price scales ranges from \$1.10 to \$9.90.

Although the experts are almost unanimous in predicting Vines will win the opening encounter easily, Perry will get the larger share of the "gate." It is understood he is to get 37 1/2 per cent of the net receipts while Vines, whose income fell off last year because of lack of opposition, will take 12 1/2 per cent. The other players, Big Bill Tilden, making a one-night stand, and Bruce Barnes and George Lott, members of the touring troupe, will receive flat salaries.

WHEN WE STOP GREASY INDIGESTION WE FEEL JUST FINE

Our stomach can't digest grease. Neither can our bowels. Only our pancreatic juice, working with our bile juice, can digest grease.

When we get bad taste, headache and that nagging eye-sight specialist from greasy indigestion, take 1 Carter's Little Liver Pills before each meal and 1 after.

Carter's Little Liver Pills bring a large flow of our pancreatic juice and bile juice into our bowels. The large flow of these juices digests the grease we have eaten. Then we bust into life and into our work like a joyous skyrocket.

If you want this glorious relief from greasy indigestion, ask your druggist for Carter's Little Liver Pills by name and stubbornly refuse to buy anything else. 25c.

THIS WAS The Study Lamp of the Age of Whiskers...

Get one of the NEW STUDY LAMPS

The Study Lamp of the gay Nineties, like its bewhiskered men, was as much the result of necessity as of fashion.

Today science has developed a radically new lamp for study and reading. American foremost eyeglass specialists and lighting engineers wrote the specifications. It provides the wealth of glareless light that eyes need when studying or doing other visual tasks for prolonged periods.

It gives several times as much light as ordinary lamps. No eye-straining glare. Uses 100-watt Mazda lamp.

Every study table should have one of these new lamps. No other lamp can give you all of its benefits.

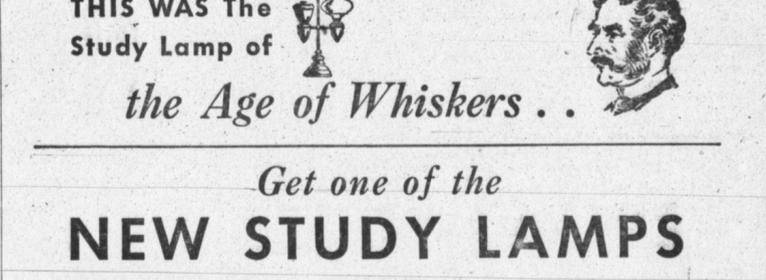

Specifications by: The Illuminating Engineering Society—country-wide organization of lighting experts.

Certified by: The Electrical Testing Laboratories—keen, impartial engineering organization of New York City.

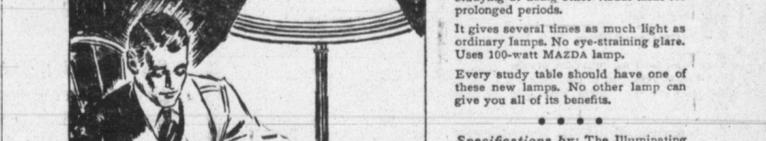

Endorsed by: The Lighting Committee of the Edison Electric Institute; also by the National Better Light-Better Sight Bureau.

This Tag Identifies It

Because some models of this new lamp look little different from ordinary lamps, the tag shown at the right was developed. It certifies that the Electrical Testing Laboratories, famous engineering organization in New York, has made exacting tests and found that the lamp bearing it conforms to the new light-saving specifications. Let this tag guide you to the new lamp designed to save eyes.

Ask for one of our representatives check your lighting with a Sight Meter. This service is free.

COME OF AGE SAYS GRIFFITH

OPEN GAME AND LINE BUCKS BOTH ARE FAVORED

Note: This is the second of a series of stories written for the Associated Press by outstanding sports leaders. They deal with 1936 developments and 1937 prospects.

By JOHN L. GRIFFITH (President, National Collegiate Athletic Association; commissioner of athletics for the western conference.)

CHICAGO, Jan. 6 (AP)—At the close of each year it is customary for those who are interested in any sport or group of sports to prophesy that the next year will be better than the year that has just passed.

This is because we all indulge in wishful thinking. It is safe to say, however, that 1936 saw the attendance at college games considerably improved over 1935.

When we think of attendance we usually think of football, so may be pertinent to call attention to the large crowds that, generally speaking, attended the college football games last season. There is no other game that attracts so many spectators as does college football each autumn Saturday.

There have been many arguments this year between those who favor the open game and those who believe that runs and bucks constitute fully 80 per cent of offensive football. The majority of teams that might rightfully be named among the best in the country use both the passing and running attack, but most of the coaches employ passes and tricks as a means of making the running attack work.

Football has come of age. We need not expect startling innovations each year in the future. Football coaching technique has been improved, thus making the work of the officials more difficult.

There is no disposition on the part of the colleges to enter the field of professional athletics. A man who insists all college athletes are subsidized is the same man, generally who believes all bankers and business men are crooks and there is no honesty in government.

Basketball is now looked upon as a major college sport in most sections of the United States.

College baseball held its own and in some sections reports indicate there was increased interest in this fine game. Since many high schools do not promote baseball and since town lot baseball has not flourished in recent years, the quality of college baseball has not improved as baseball enthusiasts have wished.

The Olympic games gave track, wrestling and swimming in the college an impetus last year and colleges responded by supplying the American teams with outstanding stars. It is significant that in the Olympic games we do well in the sports that are to be found on the school and college programs and do not do so well in the other sports. In other words, America is an athletic nation and the educational institutions are responsible for athletic success.

All in all, 1936 was a good year so far as college athletics were concerned and the prospects for 1937 are indeed encouraging.

FLASHES OF LIFE

(By The Associated Press.)

NEW YORK—Miss Eva Wey, who claims to be a former San Francisco resident and a United States citizen, wants to come back from the sand-pit village of Beira, Portuguese East Africa, where she has lived 21 years. So she sent a 5-foot crocodile, Joek, to the New Staten Island zoo in the hope of interesting the state department in her case.

The radio operator of the S. S. City of New York, who chaperoned Joek across the Atlantic, said Miss Wey's passport and other identification papers were destroyed by a fire in 1920.

CHICAGO—Mrs. Lillian Weideman, 19, testified in her suit for divorce her husband, John, 21, tickled her feet until she became hysterical. She got the divorce.

BEAUMONT, Texas—In an open letter to a burglar who broke into St. Mark's Episcopal church recently, Rev. George F. Cameron offered \$5 for advance notice of the burglar's next visit.

The rector wrote that since no money ever is left in the church, everybody would profit by the offer. The \$5 "is ordinarily required to repair the damage you do," the letter stated, "and also will leave you opportunity for happier pursuits."

MARSHALL RECOGNIZED CHICAGO, Jan. 6 (AP)—Everett Marshall of La Junta, Colo., held recognition in Illinois today as the world's heavyweight wrestling champion. Marshall threw Jim McMillen, Antioch, Ill., last night after slightly more than 71 minutes of grappling in a 90-minute time limit bout witnessed by 6,000 spectators. With a back body drop Marshall ended the bout recognized as a world championship affair.

The mineral wealth of the department of La Paz, Bolivia, includes gold, silver, tin, tungsten, copper and bismuth.

John Brown's body is buried on a farm he owned two miles east of Lake Placid, N. Y.

New Senator

South Dakota's political tangle, which followed the death of Senator Peter Norbeck, Republican, was cleared with appointment of Herbert E. Hitchcock above, state Democratic chairman, to the vacant U. S. Senate post. It was rumored that retiring Gov. Tom Berry would seek Norbeck's place, but Berry eliminated himself when Lieut. Gov. Robert Peterson, under an embezzlement indictment, refused to resign.

CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, Jan. 4 (AP)—Gov. Allred spent a large part of Christmas Day playing with a toy train which Santa Claus brought, his three-year-old son, David.

"It's hard to tell who enjoyed that train most, David or I," he said.

The governor received a big assortment of gifts from members of his family and friends, including books, cigars, articles of clothing, groceries, and a cane made of cattle horns.

The day after Christmas press correspondents wandered into the gubernatorial suite for the daily check-up and were met at the door by the governor's secretary, Miss Alma Mullins.

There were questions as to the governor's Christmas activities, gifts and who like, and Miss Mullins finally said:

"Why don't you ask me what presents I received?"

"All right," said a correspondent, "what did you get?"

"A husband," she said.

She was married Christmas Eve to Hardee M. Albert of Taylor, a farmer and stockman. She will continue as Allred's secretary, a position she has filled several years.

Soon after Christmas Day members of the legislature began straggling into Austin for the regular session of the legislature convening Jan. 12.

Rep. Bob Calvert of Hillsboro, candidate for speaker of the House of Representatives, set up headquarters, giving early arrivals a place to loaf and talk.

Other candidates are Homer Leonard of McAllen, Emmett Morse of Houston, and Albert Walker of Vernon.

The tide of legislators will swell rapidly until opening day of the four months session when the 150 representatives and 31 senators take the oath of office. About 70 representatives and eight senators will be new members.

Louise Snow Phinney of Raymondville, chief clerk of the House for 10 years, also was on the ground early, seeking support for candidacy for re-election. She is opposed by Johnnie Mae Watson of Dallas, calendar clerk.

Employees of the old age assistance administration had the shortest holidays of any state workers.

They were so busy re-investigating cases of pensioners on the rolls and trying to catch up with original applications they were given only three days off. Some departments gave ten, from Christmas Eve until Jan. 4.

By HOWARD C. MARSHALL Austin, Jan. 6 (AP)—Rep. W. E. Pope of Corpus Christi will be the dean of the new House of Representatives in years of service.

He served in the 35th, 36th and 37th legislatures, was out four years and then returned in the 41st, 42nd, 43rd and 44th.

Rep. C. E. Nicholson of Port Neches has the longest record of continuous service, being elected without break from the 39th to the 44th legislature.

Several members have served four and five terms.

Senator T. J. Holbrook of Galveston has been a member of the upper chamber since its 38th general session. Senator Clint Small of Amarillo is the only other senator who served three terms.

Gov. Allred said the other day he believed the upcoming session of the

44th Legislature would be harmonious.

"I don't know what will happen, but there is nothing in sight which should cause trouble," he said.

Under the law, the legislature could adjourn before expiration of the authorized four-months session, but no one thinks it will.

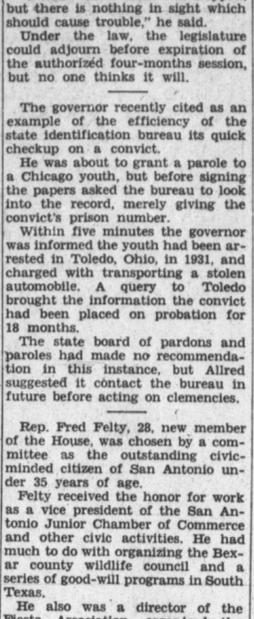

The governor recently cited as an example of the efficiency of the state identification bureau its quick checkup on a convict.

He was about to grant a parole to a Chicago youth, but before signing the papers asked the bureau to look into the record, merely giving the convict's prison number.

Within five minutes the governor was informed the youth had been arrested in Toledo, Ohio, in 1931, and charged with transporting a stolen automobile. A query to Toledo brought the information the convict had been placed on probation for 18 months.

The state board of pardons and paroles had made no recommendation in this instance, but Allred suggested it contact the bureau in future before acting on clemencies.

Striking Bowling Beauties

They're beautiful daughters of several of America's men of millions. When they organized a lawn bowling team in San Diego, Calif., where they are wintering, they called themselves the "Blue Blood Bowlers." They're all set to roll a few strikes.

CHILDREN REFUSE TO SALUTE FLAG EXPELLED

BRAZORIA, Jan. 6 (AP)—Trustees of the Brazoria Independent school district stuck by their guns today when they refused to salute the American flag.

The children, Flora Mae Shinn, 8, and Billy Lee Shinn, 6, have not been admitted since they were sent home Nov. 4 for failure to participate in the flag ceremony. The girl had been sent home twice previously.

They are the children of Mr. and Mrs. L. D. Shinn, members of Jehovah's Witnesses, a religious sect. The parents hold that to salute the flag is to worship it and thus a violation of the Biblical injunction: "Thou shalt have no other God before me."

W. A. Combs, Houston attorney who represented the family at a hearing last night under direction of the American Civil Liberties Union, asked the board to make a final decision within 10 days. If it is unfavorable he said he would take the case to court.

PRODUCTION OF CRUDE OIL SHOWS DECREASE

TULSA, Okla., Jan. 6 (AP)—A decrease of 11,104 barrels daily in the national production of crude oil brought the total daily production to 3,114,509 barrels for the week ending Jan. 2, the Oil and Gas Journal reported today.

Oklahoma production decreased 15,700 barrels daily to 579,900, East Texas was up 189 barrels daily to 451,100 and the total state of Texas as increased 11,489 barrels daily to 1,228,338.

Louisiana's production rose 1,875 barrels daily to 242,210. California was up 3,000 barrels to 583,000 and Kansas production declined 10,300 barrels daily to 165,850.

A decrease of 2,013 barrels daily to a total of 140,586 was shown in eastern fields including Michigan while in the Rocky Mountain states there was an increase of 2,230 barrels daily to 64,460.

Edward Johnson, manager of the Metropolitan Opera company, made his operatic debut at Padua in 1911. He was born in Guelph, Ontario.

BLACKFACE VAUDEVILLE STAR TAKEN BY DEATH

HOUSTON, Jan. 6 (AP)—Death in a small, back street hotel had ended today the comeback efforts of Ollie DeBrow.

The 46-year old comedian, once at the top of the blackface vaudeville field on Broadway, died in poverty of heart disease. Formerly a star on leading vaudeville circuits, he was able to obtain only bit parts in small-time shows in recent years.

DeBrow began his career as a high school boy in San Antonio. He married Jessie Reed, formerly with the Pollies. They later were divorced.

A daughter, Ann DeBrow, who lives in San Antonio, survives.

The Loacon group of the Vatican was sculptured between 40 and 20 B. C.

AROUND HOLLYWOOD

BY ROBBIN COONS.

HOLLYWOOD—Film factory touring:

"History is Made at Night," the title declares, and Jean Arthur and Charles Boyer are surrounded by a group of Hollywood's finest "dress extras" for a sequence of a fashionable evening gathering.

Frank Borzage, the director, volunteers between scenes the opinion that movie "dress extras" such as he has commanded are the best dressed men in the world—not excepting the Beau Brummels of London, New York, Paris.

The exaggeration, if such it is, is slight. These men on the set today are decked in formal raiment, with never a flaw in a white tie, and never a moth hole in flowing tails.

"Millionaire" Wardrobes. The dress extra has to have a wardrobe fit for a millionaire, must keep it up to date, and have a flair for wearing it. The successful dress extras, who get the most calls to work, know exactly what to wear without being told. The responsibility rests with them—and that is one of the reasons they draw \$15 a day (or \$25 for speaking lines) when the ordinary extra gets \$7.50.

After long preparation, the Marx brothers are actually shooting "A Day at the Races." Harpo and Chico are working on a scene, a simple scene in a hospital corridor.

Silent Harpo is following a tip-toeing Chico who continually enjoints silence. Chico finally tells Harpo to take off his shoes because they squeak. (The squeak will be added later.) Harpo obeys, revealing tattered socks, and underneath these a pair of spats.

One of the reasons they take the scene again is that the spats, mouse-colored, don't look like spats to the camera. A prop man applies make-up to the buttons, which remedies that.

But the reason they take the scene half a dozen times after that is timing. In comedy timing is all-important. An assistant director

behind the camera presses a button which signals to extras beyond the window, in the background, to start moving.

Sam Wood, the director, pressed another which flashes a blond nurse cue to enter from a cross corridor and be pursued by Harpo.

After seven takes everything seems to be timed correctly. But Wood wears a harassed expression. The director on a Marx picture is always wearing that look. The Marxes are wearing—just wearing.

Timing Hitches Again. Timing is the hitch on "Call It a Day" set, too. Frieda Inescort, propped up in bed, is scanning the desultory conversation with off-stage Ian Hunter.

She sees that somebody has had a baby, she feels a draught, she wishes Daughter Bonita Granville would not address her father by his first name, she wonders why they put out a newspaper with simply nothing in it, etc.

But Frieda's remarks have to be interpolated—timed—between the cracklings of the paper as she turns the pages, and the pages will not cooperate until the fourth take.

RECKLESS SPEED, CARELESSNESS, INTOXICATION ARE BIG FACTORS IN CAUSE OF '36 CAR ACCIDENTS

CHICAGO, Jan. 6—The National Safety Council today branded "reckless speed, carelessness, and intoxication" as major factors in the cause of 1936's automobile traffic accidents.

The indictment was made by the organization's executive committee at its late December meeting in New York.

The official pronouncement named both pedestrians and motorists as guilty of carelessness and intoxication during 1936 "that threaten to set for the year a new all-time high of persons killed and injured in traffic accidents that will eclipse even the 1935 record of 37,000 dead and 1,265,000 injured."

With the second year of the five-year campaign it is sponsoring to reduce motor vehicle accident deaths 35 per cent by the end of 1940 now under way, the Council expressed chief concern about the "human element" in the accident problem.

"While we recognize the urgent need for improvement of our highway systems and our traffic law enforcement programs, we know that greater carelessness on the parts of drivers and pedestrians would promptly and drastically reduce the traffic toll."

The executive committee said, "Even though there has been a marked jump in automobile mileage and a resultant increase in accident exposure, we recognize no excuse for circumstances that produce an ever-increasing toll of lives."

Nearly complete reports show that auto accident deaths reached a slightly higher level for 1936 than in 1935. However, Council officers said they were encouraged by the increased emphasis placed on intelligent safety work during 1936. Their consensus was that when the saturation point in automobile mileage is reached, death rates could be expected to drop fast.

In 1936 the Council's field representatives, backed by the organization's engineering, educational, editorial and statistical facilities and services, assisted safety organizations in all 48 states and in hundreds of cities.

The committee's resolution urged intensification and expansion of every effort already undertaken to accomplish greater street and highway safety.

W. H. Cameron, managing director, affirmed the resolution and said control of reckless speed would be a major objective in 1937. "Motorists," he said, "will be urged to adapt their driving to road and traffic conditions—to slow down for safety. Although other phases of the

traffic safety program by no means will be neglected, we shall give isolated emphasis to the importance of sensible speeds and invite country-wide cooperation in a "watch-your-speed" program.

"Reckless speed is regarded by many as the principal single cause of death and injury on streets and highways. Drivers must learn to slow down when conditions demand it.

"Records show that at 20 miles per hour one injury in 61 proves fatal; between 20 and 29 miles per hour, one in 42 is fatal; that above 50 miles, one injury in every 11 results in death."

Curator Asked to Identify Bones of 3 Found in Alamo

SAN ANTONIO, Jan. 6 (AP)—Dr. J. E. Pearce, curator of the museum of the University of Texas, was asked to come here today to try to identify bones of three adults and a child unearthed yesterday in the Alamo chapel.

The bones were believed to have been the remains of persons who died during or shortly before the battle of the Alamo 100 years ago.

Mrs. Leita Small, Alamo custodian, said she had asked local health officers also to assist in the identification.

Successive invasions of India, beginning with that of Alexander the Great, have passed through Kabul, capital of Afghanistan.

The Dalai lamas have lived in the great palace of Potala at Lhasa, capital of Tibet, for centuries.

The average automobile consumes approximately 691 gallons of gasoline a year.

TEACHERS RETIREMENT PLAN TO BE STUDIED

FORT WORTH, Jan. 6 (AP)—A Texas State Teachers association committee will meet here tomorrow to consider a teacher retirement plan for presentation to the legislature at its forthcoming session.

The association's executive board will take up the problem at meetings here Friday and Saturday.

The board will draft recommendations for a bill in compliance with the constitutional amendment approved last fall.

O. A. Tarleton, local member, said the board had agreed tentatively that the retirement age should be 63, that payments should be five per cent of the teacher's salary, the sum to be matched by the state, and that teachers who left the profession should receive with interest the amount they had paid.

The island of Singapore was ceded to the East India company in 1819 by the Sultan of Johore.

In 1832, when leech farming was a profitable industry, 57,500,000 leeches were imported into France.

Calotabs Help Nature To Throw Off a Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fourth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs are one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxins.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the blood. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

The helpful idea we're talking about will give you extra protection against a freeze-up in your car's gasoline system. The smart thing to do first is to have your carburetor drained—a quick, simple operation for whoever takes care of your car. He will also empty the little glass filter bowl, or "trap." And if you want to be real careful, you will have a certain amount drained from the bottom of the gasoline tank. This you get rid of any water that might freeze on the first cold day.

This water was not in the gasoline originally, if you are careful where you buy. But you know that the air

always contains more or less moisture, which can gradually form water in your gasoline system. There is less chance of this when you keep too much air out of your gasoline tank, by having it filled close to the top. It is still just as important as ever to get a gasoline that always fires away lickety-split in any cold . . . not dripping and flooding wastefully . . . not draining your battery by a lot of "false starts" . . . not thinning your oil by needless chocking. The most helpful thing you can do for yourself right there is to keep your tank full of sure-firing Special Winter Blend Conoco Bronze. Continental Oil Company

LET'S KNOW TEXAS AND TEXANS
 BY WILL H. MAYES.

Is this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. Did the final demarcation in 1854 of the boundary between the United States and Mexico have any bearing on the present Texas-Mexico boundary? R. F. M.

A. The Rio Grande had already been definitely accepted as the Texas-Mexico boundary in the peace treaty of Feb. 2, 1848, signed at Guadalupe Hidalgo near Mexico City.

Q. What was Vice-President de Zavalla's record prior to the Texas revolution? R. F. M.

A. He was born in Merida, Yucatan, in 1781, where he was educated and served as secretary of city council, physician, deputy to Cortez, deputy of congress of Mexico, senator. He also served as governor of the state of Mexico, minister of finance, president of the general congress, and of the senate and minister to France, a position he resigned in 1835, to come to Texas. He opposed the dictatorial policies of Santa Anna and sought to establish a home in Texas.

Q. What is the first known reference to Texas pecans? I. D. S.

A. Cabeza de Vaca mentioned them in a letter to the king of Spain, stating that he found the nuts, which he called "walnuts," on all

Centennial Song Book
 In the homes, in the schools, in public gatherings of all kinds, Texans are singing the best known typical songs of Texas—songs of the range, songs of the Texas home, patriotic songs—songs every Texan should know and delight in singing. Twenty-eight of the best songs ever in Texas have been carefully selected by competent musicians, set to music, and published in a 36 page, 6 by 9, booklet on heavy coated paper with covers in color.

The booklet will be mailed postpaid for 25 cents. Send all orders to Will H. Mayes, Austin, Texas.

THE FINANCIAL WHIRLIGIG

By LOUIS SCHNEIDER

UNCERTAINTY.
 There's a saying in financial markets that it isn't wise to sell holdings because of strike news. But there is labor tension in the air which accounts for the recent sluggish action of security prices.

Experienced traders are worried that labor disturbances in the motor accessory industry will stop output of automobile plants. It is also believed that when automobile production stops, steel buying will fall. Curtailment of production in these three major industries would throw a damper on the recovery movement.

The belief is that only action on the part of the administration will save the day. Yet it is doubted whether President Roosevelt will step into the picture. With the uncertainty overhanging, old timers have assumed a sideline position.

RISK.
 The determination of South American republics to insure peace has inspired a speculative demand for the bonds of those countries. Two-fold benefits are expected as a result of the pact. One is that economic restoration will be hastened. The other is that bondholders will benefit from the improved budget positions with the passing of strife threats.

Bond interests dealing in foreign securities are urging clients to be cautious in making commitments. It is shown that only about one-fifth of all South American countries are paying interest in full. Of the remaining number half are in default and the other half only make part payments. That is why one should be "informed" before making purchases.

WAIT.
 It may be officially told that Zonite Products will substantially increase its advertising appropriation for 1937. Since the corporation thrives on the amount of advertising it does insiders see 1937 resulting in favorable sales figures. Your copy respondent noticed on the Securities Exchange commission reports that an official of the corporation recently purchased an additional block of the stock. But officials must wait for results. They always do.

WHEAT.
 Secretary of Agriculture Wallace intimated that a 1,000,000,000 bushel winter wheat crop is a possibility. Those who know the trade's statistics agree. Winter crop sowings of 57,187,000 acres are reported. Records show that when 51,391,000 acres were planted in 1919 the final yield was 750,000,000 bushels.

From a 45 cents per bushel price in 1933 wheat has carried an advance to where it is currently priced around \$1.40 a bushel. These rising prices always follow a depression.

Richest Bird Dog Meet Will Open On Next Monday

PALESTINE, Jan. 6 (AP)—The Southwest's richest bird dog meet—the annual South Texas field trials—opens at Bethel, 20 miles northwest of here, next Monday.

Many well known handlers have arrived to get their entries acclimated to hunting conditions on the vast Milze J. Derden plantation, scene of the trials. The Texas club is offering cash prizes totaling approximately \$2,000 and trophies of almost equal value. J. Sewel Lawson, club secretary, has been assured of entries from several states and Canada. Al Bade, veteran Portland, Ore. handler, was the first to arrive. He drove here with Whipple Creek Jerry, noted west coast champion. The championship stake carries an award of \$1,000 and a leg on Sid's Peris Joe memorial trophy.

ROOSEVELT ASKED TO INTERFERE IN STRIKE

SAN FRANCISCO, Jan. 6 (AP)—Representatives of city and state governments joined with private groups today in a growing plea for presidential intervention to end the 69-day Pacific coast maritime strike. Peace negotiations took an optimistic turn on one front involving U.S. Coast Guard officers but disagreement met the first efforts of shipowners and longshoremen to discuss terms. Employers and radio telegraphists arranged to resume conferences today. Mayor Angelo Rossi of San Francisco urged a coastwise appeal urging the President to intervene as the only means of a speedy end to the conflict. Addressing the nation by radio last night, Rossi blamed the "personal ambitions" of two strike leaders, Harry Bridges of San Francisco, and Joseph Curran of New York, for prolonging the deadlock. Gov. Frank Merriam of California telegraphed the President asking his "personal intervention in behalf of a speedy and equitable restoration of shipping operations." The California legislature had before it a resolution of State Senator Walter McGovern to memorialize President Roosevelt to use his good offices in bringing about a settlement. Rossi said last night he was advised "a few days of honest negotiation" would bring peaceful solution of existing questions "in all human likelihood."

ELAINE BARRIE ASKS ADVICE OF ATTORNEY

HOLLYWOOD, Jan. 6 (AP)—Elaine Barrie, who wants "to do the right thing by John as well as by myself," weighed an attorney's advice today and denied a divorce court may end her career as Mrs. Barrymore. The 21-year-old New York theatrical aspirant was still separated from John Barrymore, her 54-year-old bridegroom, but she indicated he had sent a request for a reconciliation meeting. Barrymore, meanwhile, was plunged into a new difficulty when his salary and property were attached to satisfy a \$867.88 judgment for legal services given by lawyer Stanley Arndit. A Virgin Islands corporation, backed by U. S. government funds, manufactures rum, bay rum, and sugar.

GERMANY DETERMINED

BERLIN, Jan. 6 (AP)—Germany has no intention of abandoning her patrol of Spanish waters, it was indicated today, although she has marked the Spanish socialist government's seizure of the freighter Palos a closed incident. The pocket battleship Admiral Scheer and the cruiser Nurnberg were prepared to sail from Kiel, it was learned, to relieve two of the warships now in the Bay of Biscay to prevent "acts of piracy" on German merchantmen.

STEAMER HALTED

GIBRALTAR, Jan. 6 (AP)—The Russian steamer Belomorcan, en route from Rotterdam to the Island of Elba, was halted today in the Straits of Gibraltar by an armed Spanish insurgent trawler and conducted to Ceuta, Spanish Morocco. An unconfirmed report broadcast by the insurgent radio station at Seville also declared a fascist warship seized a government vessel loaded with 500 tons of potatoes bound for Bilbao. The body of the celebrated Portuguese explorer, Cabrillo, is said by historians to lie in an unidentified grave on one of the Santa Barbara islands, off the coast of California.

TOP SALARIES PAID CAPTAINS OF INDUSTRY

FILM STARS ALSO GET SOME OF BIGGEST PAY CHECKS

WASHINGTON, Jan. 6 (AP)—A peek into the pay envelopes of some of the nation's big men and women, accorded by a treasury department report to Congress, showed today that top salaries went to movie stars and captains of industry. The voluminous document, made public by the House ways and means committee, answered at least some of the questions concerning what "the other fellow" made in 1935. Salaries of more than \$15,000 were listed.

William Randolph Hearst, the publisher, maintained his position as the country's leading wage earner with pay checks of \$500,000. Mae West, the throaty-voiced siren of the screen, ran him a close second with earnings of \$480,833. She topped all film stars, including Janet Gaynor, last year's highest paid actress, whose 1935 income totaled \$180,750. Charlie Chaplin's salary was listed at \$260,000. The late Will Rogers earned \$258,000. Fred Astaire received \$127,875; Ginger Rogers \$75,483; Katharine Hepburn \$121,572; Bing Crosby \$318,907; Marlene Dietrich \$308,000 and Joe E. Brown \$173,438. Nickles and dimes poured into the cash registers of the F. W. Woolworth company, gave its president, B. D. Miller, an annual compensation of \$309,880.

General Motors corporation paid Alfred P. Sloan, Jr., \$375,505 and William S. Knudsen, director and ten other officials drew more than \$200,000.

Edsel Ford got \$100,376 as president of the Ford Motor company. Walter P. Chrysler, Chrysler corporation chairman, received \$185,543. One of the highest paid women executives listed was Blanche Crohn, president of the Spencer Corset Company, Inc., of New Haven, Conn., who received \$87,629.

Seymour Weiss, one time treasurer of the late Huey Long's political organization, drew \$92,396 as vice-president of the Win or Lose corporation, a Louisiana oil concern. Former Governor James A. Noe of Louisiana received a similar sum as president.

157 CCC WORKERS ARE SNOWBOUND IN ARIZONA

KINGMAN, Ariz., Jan. 6 (AP)—A county highway tractor, dragging a sled loaded with coal and food, struggled against eight-foot drifts today to reach 157 Civilian Conservation Corps enrollees, snowbound in the Huapalapai mountains 20 miles southeast of here. The rescue party reported good progress and it was expected the camp would be reached sometime today. The CCC youths, recruited in Oklahoma and Texas, have been quarantined for several days since one of the most severe blizzards in years swept across northern Arizona.

Lieut. William Ringold, commander of the Huapalapai camp, made his way here on snowshoes to urge haste in reaching the camp. He said the coal supply was running low. Food supplies, however, are sufficient for 29 more days, he said. Ringold said there was no cause for apprehension over the enrollees' condition.

Farmers in Clay county, Kas., could not take advantage of a recent rise in egg prices because their crop of feed had reduced egg supplies so that they had none to sell.

A federal laboratory at Winter Haven, Fla., is studying possible by-products of the state's citrus industry, including oils, wines and syrups, for carbonated drinks.

Quints Investigate A Hat---And Find It A Big Field

Nothing is more fun than a hat, especially if you're having the fun with someone else's. Emilie takes off Dr. Dufoe's headgear for a closer inspection, while Yvonne (standing) and Cecile laugh in high glee at the doctor's discomfiture.

But it's Marie who tries on the hat and presents herself for the amused inspection of the doctor. Even over her own hat, it's still too big by several sizes. "How'm I doin'?" asks Marie, in perfect French and with a perfect grin on that impish little face.

Hat jokes are always likely to be tough on the hat, and here Annette and Yvonne bend all their strength on a thorough exploration of what's left of this one. Never mind, doctor, let's hope that you got a new one for Christmas, anyway!

ARMS EMBARGO ACT IS PUSHED AT WASHINGTON

Neutrality Task Will Carry Into Week-End

WASHINGTON, Jan. 6 (AP)—Congress pushed action today on a Spanish arms embargo but turned aside first to hear an optimistic report by President Roosevelt on the state of the union. Differences over spending, monetary and other policies were forgotten in a general desire to speed the ban after the state department reluctantly issued two permits to export \$7,284,000 in munitions to bleeding Spain. Since the neutrality task will carry into the week end, the democratic majorities gave enthusiasm the ascendancy for a final, ceremonious celebration of the November landslide.

The counting of the electoral vote before the Senate and House in joint session at noon central standard time provided the opportunity. While carpenters hammered away from the capitol to the White House on stands for the inauguration January 20, the formal ballots told the well known story—523 to 8 for Roosevelt and Garner. The President chose to make the message one of the shortest on record, leaving his detailed program to the budget message later in the week's inaugural address and periodic recommendations thereafter.

His appearance at 1 p. m. in central standard time—the sixth time he has addressed Congress—marked a transition from his first to his second administration, with the message both reviewing the last year and looking ahead to the next. The leaders already knew his mind on neutrality.

How much money the administration will seek to carry relief through June remained a question. If the pace of the last six months is to be maintained, at least \$700,000,000 will be needed.

Liberia has a coast line of 350 miles, though its greatest depth is 170 miles.

The Jesuits' order was founded in 1539.

Captive in Play, Then in Reality

Prophetic was this pose of Charles Mattson, 10, kidnaped Tacoma, Wash., last showing him as a captive during a frolic with a playmate on Christmas Day, 48 hours before he was seized from his home by an abductor. With a cowboy rope given to his companion as a holiday gift, Charles had allowed his friend to tie him to a tree. Fears for the boy's life grew, as effort was made to establish contact with his kidnaper and pay the \$28,000 ransom demanded.

SOLONS RACE TO STOP ARMS SHIPMENT ACT

TWO LICENSES ISSUED TO EXPORT PLANES, MUNITIONS

WASHINGTON, Jan. 6 (AP)—Congress raced today to block the shipment of more than \$7,000,000 of munitions to the Spanish loyalist government.

Granting a second license for the exportation of planes and other equipment caused Chairman Pittman (D., Nev.), to call the Senate foreign relations committee into session this afternoon to consider an emergency embargo against munitions for either side in Spain's civil war.

He hoped to get swift approval of the resolution and put it thru the Senate tomorrow so the House can act by the end of the week. Even with this unprecedented parliamentary haste it looked as if Congress might win only a draw in its race to maintain neutrality in the Spanish crisis.

Robert Cuse, whose license to export \$2,770,000 of airplanes and engines inspired the legislative drive, loaded part of his shipment on a Spanish vessel in New York harbor. The work was halted late last night, but if the should should depart before the resolution is passed, Congress could do nothing about it.

The state department last night reluctantly gave the second license to Richard L. Dineley of San Francisco for a \$4,597,000 shipment of planes, rifles, machine guns and ammunition.

Dineley said his entire contract called for about \$9,000,000 worth of goods, including gas masks.

"What right does anyone have to call me unpatriotic?" he asked. "We got this business away from foreign nations into this country where there is need for it."

Dineley declared his company was a "dummy" for several munitions firms, but added it has no connection with Cuse.

Pittman forecast the embargo measure would be rushed through both houses without debate but there were evidences he was somewhat too optimistic.

Some Senators were reported to feel that while the embargo probably was necessary, it demonstrated the necessity for mandatory neutrality legislation fixing the rules of the game ahead of the need for action.

WINTER CONCENTRATES BLASTS ON FAR WEST

CHICAGO, Jan. 6 (AP)—Winter concentrated its severest blasts in the far west today after giving the middle west a taste of sub zero weather, coldest of the season.

Blizzards and rain swept the Pacific coast, Arizona and Utah, blocking roads, marooning 250 persons in eight scattered camps, and killing at least one person.

Continued cold was predicted in the storm ridden area. In the middle west snow and moderating temperatures were in prospect for some states but the

Narrow Escape For 3 Boys

A pilotless army observation plane plummeted earthward at Belmore, L. I., and struck the home of Louis Seltman. Luckily for the lives of Seltman's three sons, the heavy motor and cockpit broke off when the craft hit the roof. Only

the wing and the fuselage (protruding crazily above) crashed into the room where the boys slept. None was seriously hurt. Lieut. T. F. Moorman, on the weather study flight, bailed out when the plane caught fire. A severe cold wave was forecast

HOLY FATHER SUFFERS FROM SINKING SPELLS

VATICAN CITY, Jan. 6 (AP)—Sinking spells in which Pope Pius XI frequently drifted to the borderline of unconsciousness were reported today to have hampered his recovery for the last 48 hours.

Informed sources said the Holy Father's medical attendants were recalled repeatedly to rally him from the attacks.

Dr. Aminta Milani, the chief physician, was reported to have spent all of last night in the papal apartments within call for an emergency.

The cardinals heading congregations, or executive departments, of the church have been asked not to leave Rome because of the Pontiff's illness, reliable sources said.

The Jesuits' order was founded in 1539.

SEVEN OF 56 ACTIVE ADMIRALS IN U. S. NAVY ARE FROM TEXAS

CANYON, Jan. 6.—A rear admiral of the United States navy was a speaker at the West Texas State Teachers college today, and it was the first time that an officer of that rank has spoken here.

He was Rear-Admiral J. O. Richardson, a native of Texas, and a brother of Miss M. Richardson, member of the local college faculty.

Admiral Richardson is proud of the record of Texas in connection with the navy. Said he, "Of 58 active admirals in the United States navy, seven are from Texas. This is twice as many as from any other two states of the union."

The enlisted men of our navy are superior to those of any other navy of the world and the equal of any group of the same size in the United States today, according to Admiral Richardson, who closed his address by saying, "This is the first time I have ever spoken to a civilian audience like this; I am accustomed to speaking to naval officers, but I should like to give a bit of advice from my long experience; first, learn to get along with people; listen to arguments, but do not argue and say good things or nothing, and praise people for the things they can do. Second, never permit anybody to treat you unjustly without telling them about it, but at the same time make up your mind that you will accept a certain amount of injustice as inevitable in life; in this way you will keep your self-respect, and at the same time never become sorry for yourself."

Admiral Richardson was on his way to Washington, D. C., to work on a committee which selects officers for promotion.

PARLIAMENT TO DECIDE JAP STAND ON FASCISM

TOKYO, Jan. 6 (AP)—The Japanese parliament, recovering Jan. 21, may be forced to decide whether Japan is to become a fascist state under military rule, political observers predicted today.

If the army holds the upper hand, these sources said, a military oligarchy—rule by a small group—appeared more probably than complete dictatorship.

On the other hand, the army may be ejected from the dominant role it has played for the last five

years in determining the empire's policies.

Foreign Minister Hachiro Arita, however, in a nationwide broadcast last night, declared emphatically Japan has no intention of embracing fascism.

Almost his entire speech was devoted to a defense of his severely criticized anti-communism pact with Germany.

Japan, he said, is seriously threatened by China's tendency to Bolshevism "which may even excite China to declare war on Japan."

The foreign minister asserted Japan needed international cooperation "to defeat communism" but emphasized there was no relationship between the German pact and any fascist form of government.

BEDTIME STORY

OKLAHOMA CITY (AP)—A special session of the state legislature adjourned at 1:07 a. m. one day this week. At noon the following day the legislature returned to open its regular session. In the interim, virtually all the legislators went no where except to bed in local hotels and homes. One of the first official acts of the state senate in regular session was to vote "mileage" for "trips" back home between assemblies.

At the age of 103 Frederick Jackson of Sidcup, England, is thinking of having his tombstone engraved and laid in the local cemetery. But he is also making plans for his 104th birthday next June.
