### ROCKEFELLER TO SEEK OUSTING OF COL. STEWART

### SENATE BILL REPEALS LAWS ON UNIVERSITY LAND LEASING

#### SOLONS AGREE QUICKLY WHEN VOTE IS MADE

Second Measure Would Place Power in Regents

#### BETTER MARKET PLAN IS DRAWN

Closer Regulation for Utilities Is Asked

AUSTIN, Jan. 10. (P)—A bill authorizing withdrawal of oil and gas leases of university land from the market and repealing the present leasing law was passed today by the state senate. The measure received the unanimous endorsement of the score of senators present.

Shortly before the bill was passed a measure was introduced placing the power to lease the University of Texas lands with the board of regents. Under the 1925 law, the land commissioner has that power. The measure received passage in the senate since it was signed by 17 of the 30 members of that body.

The bill provides that one-eighth royalty, the maximum which can be paid to the university permanent fund at present, be made the minimum in the future and that no maximum amount be fixed. It would give the regents power to reject any and all bids.

The measure further asked for the resurveying, dividing and marketing of the lands, some of which are said to be in such large blocks that only the major oil companies can bid for the mineral rights on them and the board of regents also would be empowered to hire one or more persons to obtain information concerning the university lands, these employees to be paid from the fund.

To enact the repeal bill as quickly as possible, the senate rules were suspended.

About 53,000 acres of the lands were kept from the market January 2, only through an injunction against J. T. Robinson, land commissioner, and other sales had been scheduled for the latter part of this month, starting January 16.

#### UTILITY COMMISSION FLAN ADVOCATED

AUSTIN, Jan. 10. (P)—A constitutional amendment creating a public utilities commission of from five to seven members, with power to regulate all enterprises upon which the public is dependent for service, will be proposed in the house by Representative A. P. C. Petch of Fredericksburg.

Under his proposal the new commission would absorb the railroad commission as at present constituted and would have the power to regulate all transportation, including airships, carrying passengers and freight, cotton gins, ice factories, electric light and power plants, motor buses, and other forms of utilities.

#### FOWL THEFTERY INCREASES

AUSTIN, Jan. 10. (P)—Asserting that something needs to be done to combat the wave of domestic fowl theftery which has enveloped the state, Senator John W. Hornsby of Austin has introduced a bill making such thefts a felony instead of a misdemeanor.

#### THE WEATHER VANE

WEST TEXAS: Fair, with somewhat colder in extreme southeast portion tonight; Friday fair.

#### AND A SMILE

CORK, Irish Free State—A status of liberty in Cork Harbor welcoming Irishmen back to the homeland is suggested in a measure under consideration by the harbor board.

#### Campaign Launched to Provide City With Sidewalks Necessary to Obtain Free Mail Delivery in Certain Zones

#### Many Console Mrs. Rickard

Hundreds of telegrams and messages of sympathy have been received by Mrs. Maxine Hodges Rickard, widow of the late Tex Rickard, sports promoter who died at Miami Beach, Fla. They were married in 1926 and have one small daughter.

#### FLU EPIDEMIC IS LIGHTER IN CITY SURVEY REVEALS

The flu epidemic in Pampa, which last week reached 154 reported cases, appears somewhat lessened this week, according to Dr. T. J. Worrell, assistant city health officer.

There were three new cases of smallpox last week. Scarlet fever apparently is disappearing.

The flu locally is not virulent, but has been followed by pneumonia in several instances.

WASHINGTON, Jan. 10. (P)—Physicians and health officers gathered here today for a national conference to devise methods of control for influenza. It met at a time when an outbreak of the disease had extended practically all over the United States, this outbreak being a factor in the calling of the conference by Surgeon General Cummings.

Public health service officials declared that influenza is thought to be a German disease but that the bacillus causing it had never been isolated and that it was not known whether the malady resulted from one or several germs.

Reports made to the census bureau for the week ending January 5 showed an increase in the death rate from influenza and pneumonia. In 67 cities, 1,316 persons died from influenza during the week, as compared with 968 deaths in the same cities during the previous week. The death rate from pneumonia in the cities reporting was 2,282 for the week as compared to 1,817 the week before.

#### LOCATION ANNOUNCED

The Delmar Oil company has made a location to drill in the southeast corner of the northwest quarter of the southeast corner of section 198, block 3, Carson county. The well will be on the J. L. Noel lease, two miles west of the Gray county line.

Mrs. Roy Siner and J. D. Siner of Elk City are here today.

Now that Pampa's postoffice has become first-class, the postmaster, and board of city development will push plans for free city delivery. But before delivery can be obtained, more sidewalks must be built, for the post-office department will not put in delivery where there is neither sidewalks nor paving. Therefore, if the people of Pampa desire free delivery, a connected system of sidewalks must be built, they assert.

According to the postoffice department, free delivery will cover the following streets, providing these streets have the proper sidewalk connection:

Beginning with the city limits on the north, Cook avenue, between West and Grace; Finch avenue, Texas avenue, Montague avenue, Buckler avenue, Browning avenue, from Ward to Warren street; Francis avenue from Purviance to Warren street; Kingsmill west to Warren street, Foster avenue and Atchison avenue.

Beginning with Ward street on the west, from Browning to Foster; west from Cook to Atchison; Gray, Somerville, Frost and Grace.

Cuyler to Brown avenue on the south side.

The postoffice inspector has recommended that delivery take in the first four blocks on the south side.

Ballard street from Sunset Drive to Atchison avenue; Crest, Gillispie, Park, Hill, Houston, Yager, Starkweather, south half of Carr street, Wynne and Warren street.

The above named streets are the streets recommended by postoffice inspector of Amarillo, and when these streets have proper sidewalk connections, free delivery will be installed.

If the people within this district will make the necessary connections, it is expected that free delivery will be started within a few months.

#### Special Concession to Oil Men Is Made by Graves

In order to accommodate car owners working in the oil fields of Gray county, the tax collector's office in the courthouse will remain open until 9 o'clock Saturday night, Sheriff E. S. Graves announced this morning. January 15 is the last day to purchase 1929 motor licenses.

After that date Sheriff Graves says the penalty of one-fourth the cost, will be assessed. According to last year's statistics, less than half the car owners in Gray county have taken out licenses.

"We have been lenient up to this time, but we cannot permit car owners to go on violating the law," Sheriff Graves says. "The same conditions existed last year and many penalties were assessed," he says.

#### City Fines Total More Than \$6,453 for Last Year

City police court fines added \$6,453.83 to the city's coffers during 1928, according to Recorder C. O. Busby's books. Chief J. I. Downs says that the last year has been exceedingly quiet, with a minimum number of arrests for the population.

Other sources of revenue to the city included \$569.20 in pound fees and \$473 in dog tax.

The auditor's report is expected soon, F. M. Gwin, city manager, says.

#### SHOOTING VICTIM DIES

SAN ANTONIO, Jan. 10. (P)—Joe H. H. Graham, 38, former Bexar assistant district attorney, is dead after a shooting at his home near Boerne yesterday. Jimmie Bunn, 25, stepson of Graham, surrendered to Sheriff Ed Bierschwaile. The shooting is said to have followed an argument at the Graham home.

#### ASKS PROXIES OF DIRECTORS FOR PURPOSE

Says Company Can Do Without Stormy Chairman

#### OTHER CHANGES NOT DESIRABLE

Standard Official Has Assurance of Support

NEW YORK, Jan. 10. (P)—John D. Rockefeller, Jr., has sent letters to stockholders of the Standard Oil company of Indiana seeking their proxies for the annual meeting of the company in March to oppose the re-election of Col. Robert W. Stewart as chairman of the company, it was learned today.

Mr. Rockefeller requested the resignation of Mr. Stewart after he was charged with perjury in connection with his statements to the senate Teapot Dome committee. Mr. Stewart declined to resign, and was acquitted of the charge on November 20.

In his letter to stockholders, Mr. Rockefeller, who is a large stockholder in the Standard of Indiana, outlines his letter to Colonel Stewart which sought his resignation last year, and adds "definite assurances have already been given me by stockholders representing a substantial amount of stock of the company that they are opposed to Colonel Stewart's re-election."

"If this is your position," the letter continues, "please send the enclosed proxy to John D. Rockefeller, Jr., R. W. Aldrich or William Roberts."

Mr. Rockefeller indicated that he did not seek other changes in the management of the company.

#### County Health Unit Discussed at Rotary Meeting

A discussion by F. M. Gwin of the 34th resolution of Rotary International, that the individual Rotarians apply the objects of Rotary in his personal, business and community life, formed the principal part of the program at the weekly meeting at the Methodist church yesterday.

Dr. W. Furviance and Dr. A. Cole discussed the proposed establishment of a county health unit and a county hospital in Gray county.

Visitors included Roston Phillips, Don Conley, Clarence Barrett, J. A. Alexander, Rotarian of Garland, and Dave Walton.

#### Bowers Gusher Is Flowing 60 Barrels an Hour Today

The Gulf Production company's No. A-6 Bowers, in the northeast corner of the west half of section 89, block B-2, was put on the swab again this morning after being shut in yesterday, and made 60 barrels an hour the first four hours.

Oil was picked up suddenly Tuesday night at 3,055 feet in a red shale formation. It made 780 barrels the first sixteen hours and was shut in until pipe line connections could be made.

This is the first producer in the Bowers-McGee pool in some time and is of more importance as pay was encountered below the usual granite wash pay formation.

The well is being swabbed in an effort to bring back 25,000,000 feet of gas which had been cut off when a meller head was installed.

Mrs. Ralph Trimble and infant son, Ralph, Jr., will arrive this evening from Sayre, Okla.

#### Work Greeted Returning Hoovers

When the Hoovers arrived in Washington after their trip from Old Point Comfort, Va., where they landed from the U. S. S. Utah, they were greeted by Dr. Hubert Work, chairman of the National Republican Committee, who headed the welcoming committee. Here they are shown, with Dr. Work at the left, in the railroad station in Washington.

#### LIONS WILL BROADCAST FROM 9 TO 10 O'CLOCK—BANQUET IS SCHEDULED TO BEGIN AT 8 P. M.

#### BULLETINS

PORT ST. JOE, La., Jan. 10. (P)—Completing a voyage from Lakehurst, N. J., during which she was delayed nearly 12 hours by adverse winds and fog over Western Florida, the Los Angeles, giant navy dirigible, was moored to the tender Patoka in St. Joseph's bay at 12:45 p. m., today.

RIVERSIDE, Calif., Jan. 10. (P)—Trial of Gordon Stewart Northcott for the murder of Walter Collins today was continued to February 7 by Superior Judge O. K. Morton.

LAREDO, Jan. 10. (P)—The Brennan-Corrigan garage and 28 automobiles were destroyed by fire here today with an estimated loss of \$90,000. Only two cars were saved because of high winds and intermittent explosions. T. O. O'Connor, owner of the garage, said the loss was partially covered by insurance.

LITTLE ROCK, Ark., Jan. 10. (P)—Miss Florence Lee Newsom, 29, former dancing instructor here, was found dead today with two bullet wounds in her head and one in her body in the rear of the home of her divorced husband, Robert W. Baker.

TALLAPOOSA, Ga., Jan. 10. (P)—Mrs. Julius Pitts, 60, died today of burns received on a funeral pyre of rubbish she said she arranged and ignited for herself in her bedroom.

SAN ANTONIO, Jan. 10. (P)—A motion to quash the indictment charging Judge Augustus J. McCloskey, congressman-elect from the fourteenth Texas district, with altering returns, was overruled by Judge W. W. McCrory here today. There was some doubt, however, that the trial would be held here as Judge McCrory indicated to a representative of the San Antonio Light that he would order a change of venue on his own motion which probably would send the case to Austin.

#### MANY SPECIES OF FOWL SEEN THIS MORNING

Coops of Birds Are Shown in Old News Office

#### MANY PERSONS ARE ATTENDING

Displays Will Remain Tomorrow and Saturday

Success marked the opening of the Pampa Poultry Breeders' association's poultry show this morning. With entries still arriving at noon, practically every coop in the building was occupied.

Practically every standard breed of poultry is represented and rabbits, geese ducks and pigeons are added features. The crowing of roosters, cackling of hens, the cooing of pigeons, the honking of geese, and the quacks of ducks are drawing many people to the building formerly occupied by the Pampa Daily News, on West Foster avenue.

White leghorns and barred rocks lead the entries with Wyandottes, Buff leghorns, and other breeds numerous. Several pens of game birds have been received.

Dr. W. H. Duke of Amarillo will act as judge. He will arrive here tomorrow morning and is expected to have the awards completed by mid-afternoon, R. B. Galloway of Amarillo, poultry expert of the Panhandle Lumber company is already here.

Besides poultry, rabbits, and pigeons C. C. Dodd has a display of poultry farm equipment and Superior poultry feed. Stark and McMillen Grain and Elevator company is displaying Merit feed; Pampa Grain company is showing Purina feeds; Irvin Cole is displaying Reliable feed and the Panhandle Sash and Door Mill of Amarillo has a display of houses.

The exhibitors include: G. F. Groat, Panhandle—Barred Rocks, J. N. Dean, Pampa—Pitt game birds, Robert May, Pampa—Barred Rocks, C. T. Hubert, Pampa—White Wyandottes, T. D. Gunsaulius, Pampa—Chinchilla rabbits G. C. Frasier, Pampa—Black Langshans, M. E. Hodges, White Deer—Rhode Island Reds.

Marvin Etapleton, Pampa—Dark Cornish, C. W. Masters, Pampa—White Leghorns, Irvin Cole, Pampa—White Leghorns, J. G. Christy, Pampa—White Wyandottes, Leghorns, Wild Ducks and Geese, Japanese Silkies, rabbits and pigeons, Skeet Sherrod, Pampa—White Leghorns, A. M. Burleson, Pampa—Buff Leghorns.

Paul Gaylor, Pampa—Buff Minorcas, and Buff Leghorns, Noah Kite, Pampa—Rhode Island Reds, E. W. Hogan, Pampa—Rhode Island Whites and Buff Minorcas, E. W. Hogan, Jr., Jersey Black Giants, Chris. Baer, Pampa—Turk-hen, White Pekin ducks and Blue Andalusian Hens, W. A. Mills, Kingsmill—White Leghorns, Rhode Island Reds and Barred Rocks, C. C. Dodd, Pampa—Rose Comb Reds, Single Comb Reds and White Leghorns.

Egg displays have been entered by Irvin Cole, Pampa; W. A. Mills, Kingsmill; D. W. Cary, Pampa; and G. W. Groat, Panhandle.

#### Santa Fe Springs Oil Gushers Afire

WHITTIER, Calif., Jan. 10. (P)—Pillars of flame 180 feet high marking the location of two new oil wells here, endangered millions of dollars worth of property in the Santa Fe Springs field today.

The wells caught fire yesterday after "blowing in." The first was well No. 1450 of the General Petroleum company. Shortly afterward a well known as Getty No. 20, 200 feet away, was brought in and caught fire, presumably from the other gusher.

Pampa Daily News

Published every evening except Saturday, and on Sunday morning by the Nunn-Warren Publishing Company, Inc., corner of West Foster and Somerville.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

"It's Like This"

DEBATING is an art that is decaying in some sections and thriving in others. The open forum is gaining in favor, although it has the disadvantage of not giving the same answer to the question, "who won", as the three-judge or critic judge method.

The Interscholastic League is trying to maintain interest in debating by picking subjects that are under current discussion. The chairman for District 1, of which Pampa is a part, is Prof. C. W. Batchelder of Canyon Teachers college.

CHURCH activities, as they relate to the public welfare, are topics for discussion by both churchmen and social scientists. Those who recognize in the church a very necessary influence for good are concerned when that influence appears lessened.

"Intelligence is the first and foremost of three church needs—intelligence, cooperation and devotion. The appalling ignorance concerning the Scriptures among young people cannot but lead to disaster if left uncorrected.

"The second need—cooperation—is needed in carrying on the social work of the community, in order to prevent wasteful effort in the duplication of services. It is the further task of the church to devote herself to such truths and ethical teaching as set forth by Christ.

"If the church is to meet these needs we must have the conviction that our cause is holy and that it is going to accomplish something—devotion."

OVER PRODUCTION in the oil industry may not be alarming, since the market demand is strong, but the fact that all production records were broken last week should be remembered. Daily average flow in Texas amounted to 739,000 barrels in December, a new high record.

fortunate if these stores of oil were quickly exhausted during a period of over-production. Conservation of our resources applies to the market conditions as much as to mere waste in handling.

With stocks of crude in Texas, Oklahoma, and Arkansas estimated at 123,000,000 barrels January 1, it is apparent that continued pro-ration is highly desirable.

AN ASPECT of the highway bond proposals and the gasoline tax is that change in the status of the latter is apt to affect the financial support of the public schools. The present gasoline tax is collected under the guise of an occupation tax, and the public schools receive one-fourth of the taxes.

WASHINGTON LETTER

BY ALLENE SUMNER WASHINGTON—One of those silly but none the less true things is the alternate joy and alarm which Washington officialdom reads into Herbert Hoover's collar.

It's the same kind of collar which he has worn for nearly a quarter of a century. He discovered it in England. He ordered them by the gross and carton ever since. It's a collar as is a collar—the sort that utterly obliterates the great open spaces twixt the chin and the collar top.

Because of the unwavering constancy of that collar, the conservatives rejoice. Here, say they, is a man who will never yield by one jot nor tittle those established tenets of the party. Custom, tradition, the thing that has always been done, will prevail in the White House for the next four years.

Because of that collar, the progressives and liberals go about with sober mien. It may really mean nothing; they may be over symbolizing, they admit. Still—one style collar for 25 years, and that such a collar as no other man or horse ever wore!

Have you heard "Cheerio" on the radio? That little Pollyannish geezer who, at the unholy hour of 8:30 a. m., reminds you how good it is to be alive and get up out of a nice warm bed and prance off to work in this great, big bustling

happy world? Cheerio, you may be interested in knowing, whether you like him or whether you could slay him, is the creation of Herbert Hoover, next president of the United States.

The story goes that when Mr. Hoover had his office in New York a business neighbor used to stick his head inside the door each morning and yelp, "Cheerio, old thing".

Hoover himself, story has it, had the "cheerio" habit as a souvenir of his "dear ole Lulu" life. When he became secretary of commerce with certain official radio duties he suggested that "Cheerio" be put on the air. The real identity of Cheerio is not known.

Pauline Longworth, small daughter of Speaker Nick, arrived from Cincinnati about two weeks after her famous parents had returned to Washington for the session. The original plan was to keep her away from Washington's city smoke and grime and out in the country of fresh air and sunshine.

Mrs. Nicholas Longworth met the 70-pound doll wife of the new Japanese minister the other day. "I've seen you before", said the Japanese lady. "I was just a little girl when you came to our country in the Taft party years ago, and my husband was aide to your husband on several shore trips. I was thrilled to death to see you. You were the first American girl I had ever seen, and you were the president's daughter. I cut all your pictures out of the papers and tacked them up in my room".

Today the wife of Nick Longworth's aide on the famous Taft trip outranks "Princess Alice", the wife of the speaker of the House, for the aide is Japan's envoy extraordinary.

Just to be up to date, let's pass a city ordinance or two concerning use of the air over this city. That is one traffic lane we presume we can designate as we choose.

Land Commissioner Robison has always been considered honest and conscientious. But now those qualities are bringing him no small amount of criticism.

TWINKLES

A German scientist is trying to measure the amount of blue in the sky. Wonder if he is romantic, or just bored with ordinary pursuits. Some of our cynical scientists probably will announce that the sky isn't blue, anyway.

Head-phones have gone out of style, and ears are reported to be showing more conspicuously in photos.

Life size dolls were never better dressed, since alterations of mama's dresses for the purpose have become unnecessary.

There are 145 women in legislatures now assembling. If you can think of anything pertinent to say about the fact, don't let us stop you.

One of the things we can't understand is why most fire departments make more speed coming from a blaze than going to one.

The Pampa Daily News

Favorable Trend of Business Seen in 1928 Review

AUSTIN, 10.—As a whole, the year 1928 was favorable for business in Texas, in spite of the fact that a downward trend has been noted throughout the year in the number of charters granted to new corporations in the State, according to Bervard Nichols, editor of the Texas Business Review issued monthly by the bureau of business research at the University of Texas.

"Further decline in the number of new corporations organized was reported in December," Mr. Nichols said. "During December, 123 corporations capitalized at \$64,413,000 received charters from the Secretary of State, the smallest for any December since 1924. This compares with 176 companies, with capital stock of \$16,040,000, in November and 161 corporations having a capitalization of \$33,288,000 in December a year ago. Two building and loan associations capitalized at \$50,000,000 and \$10,000,000 respectively and a railroad at \$1,000,000 were among the larger corporations chartered. Twenty-three organizations increased their capitalization by \$581,000 and permits were granted to 35 outside corporations."

"During the year, 2,488 companies capitalized at \$390,388,000 were organized. This is a high new record for both the number of new corporations and the amount of capital involved. It is interesting to note that the average company was capitalized at \$157,000, while in 1927 the capitalization per company averaged \$122,000 and in 1926 only \$74,000.

"The decrease in the number of new oil companies in 1928 reflects the rather poor conditions obtaining in the industry over the year, and the smaller number of real estate and building firms indicates a slowing-up in the real estate developments. On the other hand, sharp gain in public service corporations shows the enormous growth in electric power production.

"Large gain in new manufacturing concerns is an encouraging development and emphasizes the importance of Texas as an industrial state. Banking and financial institutions were slightly increased as might be expected in a year of well sustained business activity. The many air ports and companies organized during the year indicate the growth of air transportation in the State."

TO THE STOCKHOLDERS OF CLINTON - OKLAHOMA - WESTERN RAILROAD COMPANY OF TEXAS:

You are hereby notified that the Board of Directors have called a meeting of the stockholders to be held in the City of Wichita Falls, County of Wichita, State of Texas, at the principal office of the Company, on the 15th day of March, 1929, between the hours of 2 o'clock p. m. and 8 o'clock p. m., to consider and act upon a proposition to authorize the execution by the Company of a mortgage on all of its railroad properties now owned or hereafter acquired, to secure bonds to be hereafter issued in series, so much of such bonds as may be necessary, not exceeding Two Million Four Hundred Thousand Dollars, to be used in paying or exchange for the present indebtedness of the Company, other bonds to be issued to be used for the acquisition, construction or extension of railroads, additions and betterments to such railroads and properties now or hereafter owned, and for other lawful corporate purposes; each series of bonds to be issued to mature at such time and provide for the payment of such lawful rate of interest, to be taxfree or not taxfree, to be convertible or not convertible into shares of capital stock, as may be determined by the Board of Directors, and to contain such other terms and conditions as may be determined or prescribed by said Board; and such mortgage to contain such terms and conditions as may be prescribed or authorized by the stockholders at said proposed meeting.

O. B. WOMACK, Secretary. 3-15

"Further decline in the number of new corporations organized was reported in December," Mr. Nichols said. "During December, 123 corporations capitalized at \$64,413,000 received charters from the Secretary of State, the smallest for any December since 1924. This compares with 176 companies, with capital stock of \$16,040,000, in November and 161 corporations having a capitalization of \$33,288,000 in December a year ago. Two building and loan associations capitalized at \$50,000,000 and \$10,000,000 respectively and a railroad at \$1,000,000 were among the larger corporations chartered. Twenty-three organizations increased their capitalization by \$581,000 and permits were granted to 35 outside corporations."

"During the year, 2,488 companies capitalized at \$390,388,000 were organized. This is a high new record for both the number of new corporations and the amount of capital involved. It is interesting to note that the average company was capitalized at \$157,000, while in 1927 the capitalization per company averaged \$122,000 and in 1926 only \$74,000.

Orechid by ELEANOR EARLY CHAPTER XXIII THE doctor's unruffled demeanor had vanished. And he seemed curiously shaken. "I couldn't keep her," he said, and there was a tremor behind his brusque tones. "The woman was brave! She suffered terribly—and went out smiling. And—can you believe it, captain?—there was a prayer on her lips. She asked me to pray for her soul!" The doctor mopped his forehead with the handkerchief he rolled between his palms. "Yes sir—Mona de Musset believed in God, and she wasn't afraid to die."

## Draw to Have Any Players to Left Team From

IAN BELL, Press Sports Writer. Jan. 10. (P)—John J. will have to go into with himself and his s, Ray Schalk and Bert ore he decides on the per- personnel of his 1929 outfit.

second base, the outfield and pitch- staff will give the veteran manager for much thought.

Three-fourths of the 1928 infield cast will remain. Bill Terry at first base, Travis Jackson, short, and Fred Lindstrom at third. Second is uncertain. will play the bag but whether Reese or Cohen remains to No matter which Andy is assignment the other will call.

thinks the outfield problem develop into riches. He added a performer when he procured the as of Fred Leach by trade from Phillies and Ed Roush, Melvin Ott Jim Welch are brought over from year. If he should decide to have outfielders he has Tony Kaufman, former pitcher; Art Veltman and k Fullis to complete the talent.

other player who may make a for himself as a utility man is Crawford, who did great work at base for Toledo last year.

pitching staff may be built Larry Benton, Virgil Barnes, s, Joe Genevich, Bill her. Jim Paulkner with half a on of v. s. men purchased in the minors. Two of the new- ers, Kelly, late of Memphis, and den from Buffalo, won 21 games ch last year, while losing only 10.

The catching trio of Hogan, O'Far- ell and Cummings may grow to a quartet by the addition of Schalk, for- White Sox manager, who will be coach and assistant to McGraw but still an able and smart receiver. Bert Nichoff, who once before was the Giant payroll and played with Phillies in a world's series, is the r new coach.

## RAZORBACKS ALMOST INTACT AFTER 3 SOUTHWEST TITLES

Presence of Tom Pickell leading scorer, and other 1928 stars make Arkansas a favorite to win its fourth consecutive title. S. M. U. offers its powerful guard, Captain Albo Brown, in the drive to stop the rampaging Razorbacks, coached by Francis A. Schmidt.

## By HAROLD BANKS (Associated Press Sports Writer)

DALLAS, Texas (P)—Unless other Southwest conference basketball squads exhibit stancher defenses and improve their shooting surprisingly, the University of Arkansas will remain king of the hardwood court.

During the last three seasons the crimson-clad giants from the Ozarks have held undisputed supremacy in this sport, winning 31 of 34 conference contests. They did it by combining accuracy in hitting the hoop from all ranges with the smooth teamwork that shattered every defense.

Glen Rose, Arkansas guard and the greatest defensive player in the conference last season, has finished school, but Coach Francis A. Schmidt has three veterans around whom he hopes to mold another array of expert hoopers. Chief of this trio is Tom Pickell, center and high point scorer of the conference in 1928.

The burden of the defense will fall on the shoulders of Eugene Lambert, a guard, who also won all-conference recognition. The third ace is Wear Schoonover, star end in football and a deadly marksman on the court.

Enough men for four quintets give Coach Schmidt an ample reserve for the 12 scheduled battles. Ranks of other schools have been thinned by graduation. The material at Texas university is considered perhaps the most promising, for Holly Brock, crack forward, is one of the best scorers in the Southwest, and the other Longhorns are almost his equals in target work.

Coach Jimmy St. Clair of Southern Methodist has uncovered a "find" in Bill Skeeters, a football man. Captain Albo Brown also is expected to perform creditably. Brown failed to make a high school team, but developed into a star guard after he entered college.

Texas Christian university is listed among the big four schools which overshadow Texas A. & M., Rice Institute and Baylor university at the beginning of the season.

OLDTIMERS WERE MEMBERS OF HISTORICAL SOCIETY CANYON, Jan. 10. (Special)—Judge William Boyce of Amarillo, who died January 4, and Vastine Stickley of Canadian who died January 3 were members and staunch supporters of the Panhandle-Plains Historical society. Both men had played prominent parts in the development of the vast Panhandle region.

## Moose to Meet Miami Team in Neighbor City

With one victory apiece, the Moose lodge basketeers will go to Miami tonight where they will break the tie with the Miami town team. The local team lost the first encounter in Miami, but won the return game here.

With D. B. Jameson back in the line-up, Captain Dobson of the Moose five is confident that his sharpshooters can tame the Miami boys on their own floor tonight at 8 o'clock. The local boys have been handicapped by lack of practice but have been playing snappy basketball.

A number of lodge members and local citizens plan to accompany the team to Miami tonight.

## Racing Mechanic to Be Restored at Indianapolis

NEW YORK, Jan. 10. (P)—He's coming back, the picturesque old racing mechanic of a decade ago.

Perhaps the new mechanic at first will lack the color of the old fashioned "second" of racers, who could pump oil with one hand, pump air and fuel with the other and signal to his riding mate and the pits with his grease-smeared head. But he will prove his worth in the field of high powered speed events.

A victory for manufacturers was this week which to them amounts to the restoration of a vast laboratory for the wible automobile world. The cars have been refined until they are superb racing machines but of less value to the engineering fraternity, the contest board of the American Automobile association stated in its announcement yesterday that the two-man car would be restored to the Indianapolis 500-mile race, effective in 1930.

CHICAGO, Jan. 10. (P)—An open break between the Amateur Athletic Union appeared imminent today.

Refusal of the A. A. U. to sanction a swimming meet between Northwestern university and the Chicago Athletic association last night has rekindled the dispute between the organizations.

The A. A. U. refused to sanction the meet on grounds that several Northwestern swimmers had become ineligible by competing in the American Amateur Federation meets last summer and warned the C. A. A. that it team would be liable for suspension if the meet was held.

Northwestern, through Kenneth L. (Tug) Wilson, director of athletics countered by announcing it would hereafter schedule athletic contests with teams "not under control of the A. A. U."

## Basketball Scores

NEW JERSEY BOY Leads Preliminary Golf Tourney LOS ANGELES, Jan. 10. (P)—Survivors of the 36 holes qualifying play in the Los Angeles \$10,000 open golf tournament rested today preparatory to the 72-hole grind starting tomorrow which will bring about 130 of the country's leading club wielders into action.

## Baskets and Bankboards

By FORREST (PHOG) ALLEN (President, National Basketball Coaches Association.)

Dr. James Naismith, originator of the game of basketball estimates that at the present time, there are eighteen million people playing this indoor game.

The reason why basketball has spread so uniformly to all the nations of the globe is undoubtedly due to the incidents of its inception. In 1891, when young Naismith originated the game he was a teacher at the Springfield Massachusetts, Y. M. C. A. International Training School.

Naturally the secretaries sent out from this school, carried the knowledge of the court game, along with their other work, into all the world and taught the principles of basketball to all peoples.

I believe that this is the reason why more people are playing basketball than any other game—and the end is not yet.

Practically every foreign country has rules patterned after our American game. They look to us as the mother country, and have a right to expect guidance from us in formulating rules and in shaping sportsmanship.

Dr. Naismith tells me that he had received recent copies of the rules from Greece and Turkey. Also, in Germany and France the game is flourishing. The congested areas of Europe make large play space prohibitive. Basketball fits admirably into such a scheme and also into the temperaments of these central European peoples. Foreigners take their games seriously.

Ernest C. Quigley, the National League umpire and major sports official writes me from Japan, that basketball had taken an unusual hold upon the Orientals. Great throngs attend all of their games.

King Basketball is appealing. The close up of the game—the open play—the kaleidoscopic changes from offense to defense—the simplicity of the rules—the contact and combat—the dribble

## Many Tributes Paid Rickard in Funeral Service

NEW YORK, Jan. 10. (P)—With a last big crowd to bid him farewell, Tex Rickard has gone to his rest in Woodlawn cemetery. For three hours yesterday a long line of mourners passed through Madison Square Garden to pay a tribute to the promoter and 10,000 of them remained in the black-draped arena for simple funeral services.

The Rev. George Caleb Moore, pastor of the Madison Avenue Baptist church, pronounced the final benediction, saying of Rickard: "He was a man without a meanness, a counselor without conceit."

Many others added their tributes, spoken and silent, to this. The Rev. Cranston Brenton of the Episcopal cathedral of St. John the Divine, for which Rickard had helped to raise funds, represented Bishop William Manning, who could not attend because of illness. His brief eulogy ended: "He fought a good fight and gave happiness and pleasure to thousands."

Dudley Field Malone, added, "In the hearts of millions will be found his memorial." The silent crowd filling the great building gave proof of this by its presence.

Today the black and purple draperies have been taken down, and Madison Square Garden has been changed again into the huge sports arena Rickard built.

CARD OF THANKS We wish to thank our friends in sympathy for your kind expressions of sympathy in the loss of our beloved Earline.

Mr. and Mrs. Earl Stuckey

EAT AT PASTOR'S EXPENSE BRIDGEWATER, Va. (P)—Members of the Methodist church here have suggested a feast at the pastor's expense rather than in his honor. The Rev. E. A. Wilcher bagged four quail in Turkey hunts this season. They aggregated 49 pounds.

## "Pass me a Lucky - I pass up the sweets."

*Johnny Farrell*

**Johnny Farrell,  
National Open Golf  
Champion, 1928**

**Reach for a Lucky instead of a sweet.**

**WHEN fattening sweets tempt and you dread extra weight, light a Lucky instead. No discomfort, no trouble—just a common sense method of retaining a slender figure.**

**The finest tobaccos are skillfully blended to make Lucky Strike. Then, "It's Toasted." This secret process brings out every essence in the tobaccos and produces a flavor which makes Lucky Strike a delightful alternative when you crave fattening sweets—there is no interference with a natural appetite for healthful foods. That's why folks say: "It's good to smoke Luckies."**

**At the same time toasting removes impurities. That's why 20,679 physicians are on record that Lucky Strike is less irritating than other cigarettes. That's why prominent athletes have testified that Luckies steady their nerves and do not impair their physical condition. No wonder that this was discovered long ago by many men, who pride themselves on keeping trim and fit, who love the "pep" that comes with health and vigor.**

**A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake we say—**

**"REACH FOR A LUCKY INSTEAD OF A SWEET."**

## "It's toasted"

**No Throat Irritation—No Cough.**

### Social Calendar

#### THURSDAY

Mrs. W. A. Gray will entertain the Ace High Bridge club at the home of Mrs. W. H. Lang. The party is announced for 2:15 o'clock.

The Lone Star Bridge club will meet in the home of Mrs. Robert Gührer.

#### FRIDAY

Mrs. J. J. Cassidy will entertain members of the Just We bridge club at her home at 2 o'clock.

#### SATURDAY

The Young Women's Auxiliary of the Baptist church will meet with the sponsor, Mrs. J. P. Wehrung, at her new home on North Somerville. The meeting is announced for 3 o'clock.

#### FRIDAY

The Order of the Rainbow for Girls will meet at 7 o'clock.

The Child Study club will meet at 2:30 o'clock in the home of Mrs. James Todd, Jr., instead of at Mrs. Joe Smith's home, as was first announced. Mrs. Raymond Harrah will conduct the program.

### Mrs. F. McConnell Hostess to Club Tuesday Afternoon

Members of the Kongential Kard Klub were guests Tuesday afternoon of Mrs. Floyd McConnell, who entertained with four tables of bridge. Tables and score pads were decorated in pastel shades with pink and green predominating. Paper cups, fashioned as pink rosebuds and filled with nuts were passed with the refreshment plates at the close of the game.

The following club members and guests were players: Mrs. A. B. Zahn, Mrs. J. H. Lutz, Mrs. Roger McConnell, Mrs. G. C. Malone, Mrs. F. M. Culbertson and her guest, Mrs. W. H. Nichols of Rankin, Mrs. R. A. Webb, Mrs. W. H. Lang, Mrs. Robert Chafin, Mrs. Jesse Stalls, Mrs. Henry Thut, Jr., Mrs. Lloyd Bennett, Mrs. C. L. Craig, Mrs. A. P. Clark, Mrs. John Bradley, and Mrs. C. S. Boston.

High scores were made by Mrs. Bennett and Mrs. Nicholas. Each received a pretty favor, and Mrs. Lang was consoled for low score.

R. B. Galloway of Amarillo is a business visitor in the city today.

THE NEW "cocktail" glove of white kid has a wide, aring cuff with insert of gold which can be reversed into a cuff model showing the brocaded side.

### Three Circles of Baptist W. M. U. Met Yesterday

Three circles of the Baptist Women's Missionary Union held meetings yesterday afternoon. During a business meeting of Circle No. 1, the members completed the final draft of their yearbook and selected as their new mission study the book, "Pioneer Women." Mrs. T. B. Solomon conducted a lesson in "Today's Supreme Challenge to America." The devotional was led by Mrs. E. F. Brake. Mrs. Marvin Lewis was hostess for the meeting.

Nine members of Circle No. 2 attended the meeting in the home of Mrs. G. C. Stark. The devotional for which Mrs. John McKamy was leader, was followed by a short business meeting. Plans were made for a special gathering, at which the members will make quilts.

The meeting of Circle No. 3 was attended by 13 members and one visitor. Mrs. L. H. Anderson conducted the devotional, reading the 91st and 112th Psalms. A chapter from "The Life of Jesus as Told by His Four Friends" was studied, with Mrs. S. L. Anderson leading and other members taking part in the discussion. The meeting was held in the home of Mrs. W. F. Adams.

### Spring Meeting of Eighth District Parent-Teacher Associations to be Held in Pampa, April 3, 4 and 5

Selection of Pampa as the 1929 convention city of the Parent-Teacher associations of the Eighth district was announced yesterday by the executive board of the Texas Congress of Mothers and Parent-Teacher associations, following a meeting in Austin, Jan. 3 and 4. The district meeting will be held here April 3, 4, and 5.

Tentative plans for the three-day program will be made next week at a meeting of the Eighth district executive board in Amarillo. Mrs. J. M. Crain of Claude, district president says in a letter to Mrs. Clyde Atteberry, president of the Lamar association. Within a few days after the board meeting, Mrs. Crain and other district officers will be in Pampa to confer with Mrs. Atteberry and Mrs. W. A. Gray, presidents of the local associations, on arrangements for the spring convention.

The decision to hold the district meeting here was in response to a cordial invitation issued by the Pampa associations shortly after the state convention in Amarillo last fall. Civic organizations, men's service clubs, and women's study clubs, joined the Parent-Teacher associations in urging the district to convene here and will assist in arranging programs and entertainment for the several hundred parents and teachers who are expected to attend.

### Circle No. 3 of Methodist W. M. S. Has First Meeting

Organization of the newly formed Circle No. 3 of the Methodist Women's Missionary society was perfected yesterday at a meeting of the members in the home of the temporary chairman, Mrs. H. F. Barnhart. Mrs. R. W. Lane was elected temporary secretary and Mrs. Lee Harrah, "Missionary Voice" agent.

A short program, consisting of piano solos by Miss Josephine Lane and Miss Mary Catherine Clark, a reading by Mrs. Raymond Harrah, and a vocal solo by Mrs. Frank Elliott, was enjoyed. During a social hour following the program, the hostess served a dainty salad course. Seven members attended the meeting.

The great amount of illness among members of the society prevented the other circles' meeting.

T. D. Hobart is in Austin attending a meeting of the executive board of the Texas Cattle Raisers' association

### Guiding Your Child

By MRS. AGNES LYNE  
"I TOLD YOU SO"  
Children share with adults the dis-

like of having their mistakes rubbed in. Never, if you would be popular with children, say, "I told you so," nor utter the priggish, "Ah, you see now, mother always knows best."

The child knows perfectly well that he is in all things inferior to the grown up about him. It is unfair and in no way helpful to take occasion to point out that you are always right and he is always wrong.

Michael was prevailed upon to try some raisin cake which he protested he knew he wouldn't like. After the first piece he asked for more. Whereupon his mother said: "See dear, mother knows what you like better than you do yourself. Always do as mother says."

"Well, I don't think I do like it now," answered Michael, and refused to take another bite.

It is enough to develop antagonism in anyone, little or big, to be thus patronized. There is probably no surer way of making the child the direct opposite of what is desired of him. This attitude begun in little things is easily carried over into the more important aspects of life where it is vital for him to be sympathetic to the suggestions of adult wisdom.

It should be our aim to bring about a state of mind which makes the child accept our opinion in matters of importance to his well being, and to make him come to us of his own accord when he feels his own inadequacy. He will only do this if from his earliest years we have treated him with the tact and courtesy we would accord to an equal in a controversy in which it turned out that we were right and the other fellow wrong.

Scott Barcus is in Panhandle today

H. G. Twiford was called to Casper, Wyo., a few days ago by the sudden death of his brother Ernest.

News of the death of Mrs. J. J. Smith of Miami, Okla., sister of C. T. Hunkapillar, reached here last night, shortly after Mr. Hunkapillar had started to Miami. Pneumonia was the cause of the death.

## Modes of the Moment

PARIS.

A short jacket swung from the shoulder and bordered with a good sized band of gray fox provides the chic of a London Trades suit of pistachio green wool crepe. The dress adds the finish to the coat with its loose collar which ties in the back, outside the jacket. The skirt has box pleats front and back, stitched flat part of the way and overlapped by the stitched front point of the corsage, an effect repeated in back and at the hips. There are hints of stitching on the jacket, also, and pointed appliques of material on the sleeves. The belt is the same material as the dress.

### Helen Carter Is Honored on Her Seventh Birthday

Mrs. Van Carter gave a delightful children's party yesterday afternoon, observing the seventh birthday of her little daughter, Helen. The young honoree and her friends were entertained with a variety of games, and the

inspection of many charming gifts added to the enjoyment of the occasion. Seven pink candles topped the white birthday cake, which centered a prettily decorated refreshment table.

The children who attended the party were Emma Boone Todd, Irene Fearn, June Stevens, Anabelle Holloway, Hazel and Virginia Newcomb, Ruby Sackett, Winnie Pearson, Robert Lee Fletcher and Floyd Hatcher.

### Missionary Topic Studied by Young Matrons' Society

The Young Matrons' society of the First Christian church met yesterday afternoon at the church, with Mrs. W. F. Taylor hostess. A program on "The Isles Await," a study in missionary work in Japan and the West Indies, was conducted by Mrs. Paul Kasiske. Interesting topics of the day were: "Porto Rico and Jamaica," presented by Mrs. Ivy Duncan; "Our Work in Japan," on which Mrs. Homer Kees spoke, and "Our Church in the Philippines," by Mrs. W. D. Kinser.

Six members and one visitor enjoyed the discussions and a social hour following the program. Daily refreshments were served by the hostess, Mrs. Paul Kasiske will be hostess at the next meeting of the society, with the members meeting in her home. Mrs. Ivy Duncan will conduct the program.

### PUBLIC FORUM

(Telegram)

Dallas, Texas.

Editor, Pampa Daily News: I notice by your January 8 issue that the Pampa post office is to go first-class. This gives me pleasure, indeed, as I have been a booster for Pampa some 20 years. East, west, north and south, I tell them about the coming metropolis of the Plains. Accept my heartiest congratulations. MRS. CHAS. S. RILEY.

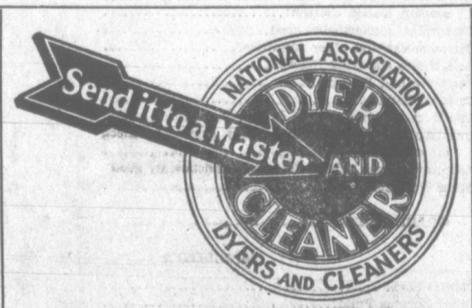

### WORK EXPLAINS WHY HE REQUESTED "STAY"

WASHINGTON, Jan. 10. (AP)—Hubert Work, former secretary of the Interior, told the senate Indian affairs committee today he asked Attorney-General Sargent to "stay" a grand jury investigation of Commissioner Burke of the Indian bureau in Oklahoma last summer to permit a review of the case by disinterested parties.

The investigation was directed at Burke's administration of the case of Jackson Barnet, wealthy Indian, and Mr. Work told the committee he appealed to Attorney-General Sargent after Commissioner Burke had charged to him the inquiry was the outgrowth of a political feud.

## GRAIN PRICES BREAK

CHICAGO, Jan. 10. (P)—Wheat prices underwent an early setback today and corn also declined.

Opening unchanged to 1c higher. Chicago wheat soon declined all around. Corn started unchanged to 5-8 off, and subsequently showed a moderate general drop. Oats were firm. Provisions also tended to advance.

## STOCKS SHOW GAINS

NEW YORK, Jan. 10. (P)—Recovery in stock prices which set in yesterday, was resumed at the opening of today's market under leadership of Radio, which showed an initial gain of 9 points. Wright Aeronautical advanced 3 3/4 points on the first sale, Curtiss Aeroplane 2 and Johns Manville, Kennecott and Consolidated Gas a point or more. Stewart-Warner touched a new high record on buying influenced by rumors of a 2-for-1 stock split-up. Safeway Stores fell back 2 3/4 points and Goodyear rubber 1.

## HEAVY STEEL DEMAND

NEW YORK, Jan. 10. (P)—Unfilled tonnage of the United States Steel Corporation on Dec. 31 increased to 3,976,712 tons from 3,673,000 tons on November 30. The gain was 303,712 tons.

## KANSAS CITY LIVESTOCK

KANSAS CITY, Jan. 10. (P)—Hogs: 5,500; steady; top \$8.95 on 160-240lb; butchers, medium to choice 250-350lb 8.45@8.85; 200-250lb 8.60@8.95; 160-200 lb 8.60@8.95; 130-160lb 8.20@8.90.

Cattle: 2,500; calves: 200; slow; steady; slaughter steers, good and choice 1300-1500lb 12.00@15.75; 1100-1300lb 12.00@16.00; 950-1100lb 12.25@16.50; fed yearlings, good choice 750-950 lb 12.25@16.25; heifers, good and choice 850lb down 11.00@14.25; cows, good and choice 8.25@10.50.

Sheep: 5,000; steady; lambs 15.00@16.50; ewes, medium to choice (150lb down) 6.75@9.00.

## CHICAGO GRAIN

CHICAGO, Jan. 10. (P)—Wheat: No. 2 hard \$1.19; No. 3 mixed \$1.12.

Corn: No. 4 mixed 86 1-4@87 1-2c; No. 3 yellow 89@1-2c.

Oats: No. 2 white 50 1-2c; sample grade 44 1-2c.

Mrs. J. C. Phillips, son, Jim, Jr., and infant daughter, Ruth Courtney, arrived home yesterday from Amarillo. They were accompanied by Mrs. D. M. Warren, who had spent a few days in Amarillo with her parents.

## Round the World Non-Stop Flight Plans Are Begun

WICHITA, Kans., Jan. 10. (P)—The most daring project of aviation—an attempted non-stop flight around the world—which heretofore had been regarded as beyond possibility, today appeared near realization.

From a sick bed here where he is recovering from a severe illness Col. Arthur C. Goebel, noted distance and speed pilot, announced he intended to take the air in an effort to girdle the globe without a stop. He tentatively set August or September for the flight, which he said would be west-to-east from Wichita to Wichita.

Almost simultaneously it was revealed in Paris that the latest project of the Fokker aviation firm was a non-stop flight in the same direction from Paris to Paris, possibly in June.

Both projects call for refueling planes at intervals along the 24,000-mile route. Goebel made no announcement of where attendant planes would be stationed, but a fairly definite idea of the route of the projected Fokker flight was contained in announcements that attendant ships would be located at Aleppo in Syria, Karachi, and Calcutta in India, Hongkong in China, Vladivostok, Petroplovsk, and Kamchatka in Siberia, and if a northern route across North America is selected at Prince Rupert or Vancouver, Winnipeg and St. Johns, N. F. If the southern route is preferred, stations will be at Chicago and New York, it was said.

Goebel's crew would consist of two pilots and two radio operators. His tentative plans are for a specially built plane.

## Honesty of Most Value Say College Students in Poll

CANYON, Jan. 10. (Special)—More than 300 girls from the student body of the West Texas State Teachers' college were asked to name the traits they demanded in young men.

Honesty received high rank with 283 places, and respect, neatness, courtesy and ambition each appeared more than 200 times. Four girls demanded that their boy friends be brunets and two insisted that blondness was a desired trait. Many gave money as a necessary possession and 14 wanted economical friends. Fourteen would not consider any but musical boys and eleven wanted optimism as a dominant trait. Eighty-five different traits were named.

The young men of the college who answered the question of traits desired in young women ranked intelligence first, with poise, neatness, honesty, cleanliness, friendliness and personality following close behind. Ten men demanded "looks", though what kind was not stated; four wanted their girl friends to be independent. Two men chose wit for their ideal young woman, but three of them chose that she be a good dancer.

With young men and women uniting in a demand for honesty, intelligence and courtesy, it looks as if the younger generation might not be so bad after all.

## Good Will Trains to Inauguration Are Announced

DALLAS, Jan. 10. (P)—Plans for the Texas good-will special train to the inauguration of President-elect Herbert Hoover at Washington on March 4 have been completed, states Fred L. Hasket, who will manage the train out of Dallas on February 28.

The train will be run over the Texas & Pacific to New Orleans, where several hours will be spent. During the stay in New Orleans a boat trip will be made down the Mississippi river followed by a luncheon and then a motor trip over the city.

From New Orleans the train will proceed to Atlanta, where a stop of five hours will be made to visit Stone Mountain to view the great monument to the Confederacy. Arrival in Washington will be on the morning of March 3. The train will be parked in the capitol city until the evening of March 7, returning to Dallas that date.

It is planned to run two or three special trains out of Dallas with a thousand passengers.

## Byrnes to Go to Chair Tonight

HUNTSVILLE, Jan. 10. (P)—Barring a last-minute reprieve, deemed unlikely, Floyd Newton Byrnes, San Angelo hatchet slayer, will go to the electric chair in the penitentiary here shortly after midnight tonight.

Governor Moody said he had no intention of interfering with the execution of the man who confessed to the murder of three female members of a family by whom he was employed as chauffeur. Byrnes was indicted for the murder of Myrna Juergens, her mother, Mrs. W. J. Juergens, and her grandmother, Mrs. Rosa Schirra, but was tried only for the girl's death. His defense was that he was under the influence of liquor when he killed the women and mutilated them with a hatchet.

## Turns Roosters into Hens but No Eggs Are Then Produced

CHICAGO, Jan. 10. (P)—Dr. A. V. Domm of the University of Chicago announces that he has found a way to change roosters into hens but that he has been unable thus far to make them lay eggs.

Transplanting of gland effected the transformation, Dr. Domm explained in his report of the experiments to the American Society of Zoologists.

Dr. Domm said his experiments not only change roosters to hens but vice versa as well. The transformed become to all external appearances roosters, developing comb plumage and spurs.

Operations were performed on 172 female chicks during the first thirty days after hatching. When they reached maturity, however the male plumage disappeared and the customary female plumage reappeared. Otherwise, the transformation remained complete.

In the second series of experiments the roosters lost their ability to crow several weeks after the operation developed combs typical of hens and exhibited all the characteristics of hens save that of laying eggs. This function of the hen may yet be developed in the transformed rooster, said Dr. Domm.

## "Pow Wow" Doctor Gets Life Ticket

YORK, Pa., Jan. 10. (P)—John H. Blymyer, "pow-wow" doctor, faced life imprisonment today, and the first of a series of "witchcraft" murder trials was at an end.

The jury last night found Blymyer guilty of murder in the first degree, and held that an obsession of being bewitched did not justify the slaying of Nelson D. Rehmyer, recluse farmer "to break a spell." The verdict carried with it the sentence of life imprisonment.

Two youths, Wilbert G. Hess and John Curry, charged with having aided Blymyer in beating Rehmyer to death on the night of November 22 when he resisted their attempts to obtain a lock of hair, were in jail today awaiting trial.

## Train Wrecking Fails Attempt

GREENVILLE, Jan. 10. (P)—An attempt to wreck the fast "Lone Star" St. Louis & Southwestern passenger train from Fort Worth to Memphis near the interlocking tower on the outskirts of Greenville last night was under investigation today.

When the train approached the tower last night, Towerman I. E. Gross tried to throw the switch, giving the "Lone Star" the right-of-way for a crossing over the Missouri-Kansas-Texas tracks. The switch could not be thrown.

## OIL LAND SOLD

WICHITA FALLS, Jan. 10. (P)—Quoting R. Ogarrio of New York, vice-president of the Texas company, the Record-News said today negotiations practically had been completed for purchase of half interest in 50,000 acres of Oklahoma wildcat oil land by the Texas company from the Phillips Petroleum company. The land is in Cleveland and McClain counties and is about 50 miles from the Seminole field.

## Primitive New Mexico Indians Show Traces of Asiatic Origin

WASHINGTON, (P)—The great Aztec civilization has perished, but a contemporary culture resembling it in many ways and at the same time showing clear traces of extremely remote Asiatic ancestry has been preserved throughout the modern development of America by the proud, handsome, conservative tribe of Indians that has lived for countless generations in the Taos pueblos in New Mexico.

J. P. Harrington of the bureau of American ethnology, who studied the Taos Indians this summer in the course of an effort to record the languages, cultures and histories of the southwestern tribes before the aged members carry with them to the grave their vanishing lore of the past, found that they have retained their primitive culture in much purer form than any of the other pueblo groups.

"Most of the Pueblos," he observes, "are getting to follow the white way, and such Indians are looked down upon by the Taos. They are the most northern of all the Pueblo Indians and are the largest, tallest and finest looking. They keep themselves and their houses and town very clean and are a handsome group of people."

The town, which attracts artists and tourists as well as scientists from all parts of the world, is 60 miles north of Santa Fe in the heart of the Rockies and has a population of about 900 Indians, who still observe the customs of their ancestors most rigidly, wearing white blankets, leggings and long hair.

They have two communal dwellings of adobe, separated by a beautiful, clear creek spanned by primitive bridges of foot-logs hewn with old Indian axes.

The houses are relatively new, having been constructed after a fire destroyed a similar group early in the seventeenth century.

## Local Man Is Hurt in Accident Near Canadian

Clifford Taylor, part owner of the Pampa Auto Laundry, is in the Canadian hospital suffering from a broken leg and minor cuts sustained last night when the car in which he was riding ran into an embankment. Ed Foster, local man and driver of the car, received severe cuts about the head and face.

Faulty brakes are thought to have caused the accident. The two men were returning from Perryton last night about 10 o'clock when the accident occurred.

According to Mr. Foster, they approached a curve in the road while driving west about ten miles from Miami. He applied the breaks but apparently only one of the four brakes gripped. The car was flung into the embankment but did not turn over.

He cannot understand how Mr. Taylor's leg was broken. The two men were helped by a passing motorist and rushed to Canadian.

The front of the car was badly damaged.

## Cameras Click As Detroit Man Shoots Assailant

DETROIT, Jan. 10. (P)—A crime that cameras captured was committed in suburban Wyandotte last night when a gunman was slain and an officer critically wounded during a spectacular, but unsuccessful, attempt to assassinate Ralph A. Wood, head of the Wood Construction company.

Newspapermen and photographers, armed with police that an effort was to be made upon Wood's life, were hidden with officers about the construction company chief's office when the attempted assault took place. They saw a man advance upon Wood with upraised blackjack, and they saw Wood and one of the officers fire at most simultaneously, dropping the attacker.

Less than an hour later Wood's estranged wife, Grace, 48 years old, was arrested. She was found ill in bed at her home and was taken to the city hospital.

Early today Taylor Pierce and William Thompson, each 22 years old, were arrested as the two who escaped during the gun battle between police and the Wood's assailants. Shortly afterward their automobile was found, marked with many bullet holes.

## Waits 15 Years to Eat Fried Onions

"After 15 years I eat anything I want—even fried onions. Adierka ended gas and sourness, and I enjoy life now"—Mrs. L. Branton.

Just ONE spoonful Adierka relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adierka will surprise you. Pampa Drug Co.

## With the Texas Lawmakers

THURSDAY  
Senate meets at 10 a. m.; house meets at 2 p. m.

Concurrent resolution asking investigation of land commissioner prepared for introduction.

Speaker of house to announce committee appointments.

WEDNESDAY  
Senate committee on public lands reports favorably bill withdrawing university land oil leases from market.

Governor Moody delivered annual message to joint session.

Four-cent gasoline tax bill introduced in house.

Claimed bloc in house to forestall passage of appropriation bills during regular session.

Senate bill fixes policy in establishing priority in water rights.

Senator McParlane puts in bill which would curb activities lobbyists.

Senator Love would simplify matter of independent candidates getting places on official ballots.

Oil Boom Revives Drought-Hit Area  
LOVINGTON, N. M., Jan. 10. (P)—Land that has been worth almost nothing for grazing since a drought destroyed almost all its vegetation 14 years ago, now has a buoyant value because of the hope that the vast barren area may become an oil and gas field.

The boom is expected to bring the first railroad to Lea county, which is in the southeastern corner of New Mexico. Both the Atchison, Topeka & Santa Fe and the Texas & New Mexico have petitioned the interstate commerce commission for permission to extend their lines to this county since a test well resulted in the discovery of an oil sand producing 600 barrels daily.

Gas has been found in three places and its presence causes geologists to believe that oil of more than 600-barrel output will be found below the gas. Potash also is believed to be present in great quantities throughout this region.

Lea county again has a bank because of the prospecting for mineral wealth. There had been two banks in the county, but both went out of business after the drought of 1915 brought financial ruin to cattle men. Lovington, the county seat, is a rejuvenated city and it boasts that the jail is the only building in town which cannot be leased for a long term.

The most productive oil field in New Mexico is in San Juan county, in the northwest corner of the state, diagonally opposite Lea county.

Mrs. Grace Higgins and her brother, Clyde Stuckey, returned last night from Wichita Falls, where they were called a few days ago by the death of their niece, Miss Earline Stuckey.

## General Booth Will Be Asked to Resign Office

SUNBURY-ON-THAMES, Eng., Jan. 10. (P)—The high council of the Salvation Army today adopted a resolution asking General Bramwell Booth, leader of the army for the past 16 years, to retire because of ill health.

At the same time it was made clear that he would retain his title of general and continue to enjoy the dignities attached to it.

The resolution was adopted after the council had considered a letter dated January 6 which had been received from the head of the army. The text of this letter was not given out, but it is understood the general asked the high council to appoint a commission to act for him until his recovery.

The council's reply was a rejection of this proposal, saying it was improbable that at his age he would recover sufficiently to resume the labors under which he had broken down. A deputation was named by the council to visit the general at his seaside retreat to put the retirement suggestion before him.

## POSSES CHASE BANDITS

OWENSBORO, Ky., Jan. 10. (P)—Posses are searching for a machine gun bandit and his partner, thought to be a woman, who robbed the Farmers' bank at West Louisville of \$1,000 yesterday, spraying the streets with bullets as they made their getaway. Mays Bratcher, 40, farmer, is in a serious condition from the shots.

**WANTED**

Used Furniture of all kinds, gas stoves and floor coverings.
