## MANY PERSONS INJURED AS PASSENGER HITS FREIGHT

### BIG FIRE WIPES OUT MERCURY, TEXAS BUSINESS SECTION

#### TWO BUILDINGS ARE SAVED BY SMALL TOWN

Buglars Are Blamed for Starting of Blaze  
POST OFFICE NOW IN RUINS  
Conflagration Starts Early Today in Drug Store

BRADY, Sept. 3. (P)—Fire believed to have been started by burglars early today destroyed seven buildings at Mercury, 25 miles north of here. The buildings, comprising virtually the entire business district housed the postoffice, a drug store, a barber shop, three filling stations and the Masonic hall. The blaze was discovered in the drug store. Only two buildings, a bank and the Sawyer Mercantile store were saved. The Brady chemical fire truck in answering the alarm turned over twice on a sharp turn, injuring a fireman.

#### Lease Renewal Is Outlined Today in Official Notice

WASHINGTON, Sept. 3. (P)—Solicitor Finney of the interior department announced today that where individuals holding permits to prospect for oil in New Mexico can show the area covered by their permit had been geologically by the Texas company or the Marland oil company the permits would be renewed. Solicitor Finney said renewals would be made under the condition no drilling would be done for two years. The ruling was the result of the Texas company having appealed from a previous decision which in effect did not allow the renewal of permits where group operation had been resorted to in the development of certain areas in New Mexico thought to be oil lands. The decision will close two cases brought up under President Hoover's order shutting off prospecting on oil lands which have been the source of considerable discussion between the two oil companies and the interior department. The Texas company already had discovered oil when the order closing down prospecting was issued and had obtained 78 permits. The Marland company had obtained control of areas covered by 69 permits.

**Shuttle Forced Down**  
SALT LAKE CITY, Utah, Sept. 3. (P)—Boeing air-transport offices received a report that the Shuttle was forced down 16 miles east of here today. The plane passed over here at 6:25 a. m., heading for Cheyenne.

#### THE WEATHER VANE

West Texas: Partly cloudy to unsettled tonight and Wednesday. Thunderstorms and cooler in the Panhandle Wednesday.  
Oklahoma: Partly cloudy tonight and Wednesday. Probably thunder-showers in northwest portion.

**AND A SMILE**  
OSSININGO, N. Y. (P)—The pole vault has been abolished in track athletics at Sing Sing. You're right. Of course the reason must have been that some one of the state's guests would be prompted to scale the walls of their residence.

#### They Had to Shoot It to Kill It!

This 605-pound jewfish was captured in Florida waters near Jacksonville by J. T. Faulkner, right, ex-cowboy from Texas, who landed it after a battle of one hour and 40 minutes. A rifle shot thru the head killed the fish after it had been dragged ashore. At left is Nelson Sprock, who was fishing with Faulkner when the catch was made.

#### PAINTERS' UNION MAKES GIFT OF MINIATURE HOUSE TO CITY FOR PLACING IN PUBLIC PARK

Pampa's public park of the future, funds for the development of which were provided in the recent bond election, yesterday received its first gift—a playhouse for the kiddies who some day will find the park a pleasant summer playground. It was presented to the city by the Painters' union, local No. 434, which built and painted it especially for the Labor day parade. When a site for the park has been selected, the union will move the little house there and place it on a concrete foundation. The members will keep it freshly painted. The presentation was made shortly before the parade formed by Frank Van Gordon, president of the local union, and John W. Crout, secretary. City Manager F. M. Gwin accepted on behalf of the city. At the conclusion of the parade, the union placed the house in the center of Albert Square, where all during the holiday and today it received the admiration of grown folk and children alike. Mr. Gwin said today he values the gift not alone for the intrinsic worth of the small building, but for precedent the union set in giving it. Many other organizations, he believes, will follow the example.

#### Business Over C. & O. W. Line Has Justified Construction of Road

Tonnage over the Clinton and Oklahoma Western railroad has increased fifty per cent since the first freight train went over the new road from Cheyenne to Pampa last May, according to L. W. Klein, station agent. The new road, 81 miles in length, has more than justified the contentions of its builders that it would "pay," and its tonnage record since opening compares favorably with the 68-mile stretch from Cheyenne to Clinton. The road from Cheyenne to Clinton is being rebuilt, practically. For the past six months workmen have been replacing 90-pound (to the yard) steel. Fifty-four old bridges, over a distance of 42 miles, have been replaced. All cross ties are new and a new grade has been erected in many places. The improvements will be completed within a month, Mr. Klein says. The road from Clinton to Pampa is now rated as an A-1 railroad. The string of small towns that grew up with the coming of the railroad are growing fast, Mr. Klein says. Building activity is still a thing to keep the lumber yards busy in Mobeetie, Allison, Briscoe (formerly Conrad), Butler, and Reydon. Strong City has also been growing since the extension alongside to Pampa. All Santa Fe buildings are standard size and were erected with ten years' growth of the towns in mind.

#### TWO VICTIMS BADLY HURT IN MISHAP TODAY

Cotton Belt Trains Crash at Dexter Missouri  
BLOCK SIGNAL NOT ADEQUATE  
Caboose Telescoped By Impact of Collision

DEXTER, Mo., Sept. 3. (P)—A score of persons were injured, two seriously, when Cotton Belt passenger train No. 2, southbound from St. Louis, ploughed into the rear end of a freight train about 4 miles north of Dexter at 4 a. m. today. James Cox of Jonesboro, Ark., engineer of the passenger train, and his fireman, whose name was not learned, were seriously injured, and were taken to a hospital in Poplar Bluff. The others injured, passengers on the passenger train, were treated for minor injuries at the offices of local physicians. The freight train, railroad men said, had been stopped by a block signal and had not had time to send a flagman to the rear end when the passenger train, traveling about 50 miles an hour, rounded a curve and crashed into the caboose. The caboose was telescoped and several freight cars were overturned. None of the passenger cars were overturned. A wrecking crew arrived at 8 a. m., but it was expected to be at least eight hours before the tracks could be cleared.

#### Zeppelin Will Soon Be Back in Her Home Hangar

By the Associated Press  
Pursuing a silent course hope since she wireless her position at 3 a. m., E. S. T., at 315 miles due west of Lisbon, the Graf Zeppelin was this morning presumably nearing Bordeaux over the Bay of Biscay on a new route to Friedrichshafen, where she should be safely berthed this afternoon (E. S. T.). The big dirigible hoping to break her world record from Lakehurst to Lakehurst by still better time from Friedrichshafen to Friedrichshafen, was then roughly 1,300 miles from her home hangar. At a speed of 70 miles an hour, she would need a little more than 18 hours to cover this distance. This would bring her to Friedrichshafen about 9 p. m., E. S. T. To break her record, Atlantic crossing, however, she must have reached Friedrichshafen by before 2:42 p. m., E. S. T.

#### Veterans Honored at Nacogdoches

NACOGDOCHES, Sept. 3. (P)—A faltering band, scarred by battle and marked with age, met here today for the 37th annual three-day convention of the Texas Confederate veterans. It was a brave and pathetic remnant of a proud army, and this town, understanding, prepared to do it fitting honor. President Seale of the Chamber of Commerce announced to the Dallas Confederate organizations the sentiment felt toward all visitors. "Their money," he said, "will be as worthless as in reconstruction days, and nothing will be spared to show the boys the time of their lives."

Horse racing is on a comeback in Montana as a result of a 1929 legislative act permitting pari-mutuel betting. Butte this summer held its first meet since 1914.

#### Two Ambassadors of Good Will

"So you're going to Washington in October? Well, tell all the folks 'hello'..." That might have been what Ambassador Charles G. Dawes, right, was saying to Premier Ramsey MacDonald when this excellent picture was snapped. You see the celebrated pair as they attended ceremonies at MacDonald's home town of Elgin, Scotland. Unannounced plans had been made for the Premier's good will visit to the United States.

#### WALKER REFUSES TO TELL HOW HE OBTAINED PISTOL—ASSERTS HE MAY TELL SHERIFF LATER

BORGER, Sept. 3. (P)—The explanation of how William J. (Whitey) Walker got the pistol which he carried strapped to his leg on a lonely night automobile trip in the custody of officers from Colorado Springs, Colo., to Stinnett, near here, still remained with the alleged desperado today, but he had promised to give to Sheriff Joe Ownbey. Ownbey found the weapon when he put Walker in jail at Stinnett Sunday. Walker said he had meant to try shooting it out before submitting to extradition to Oklahoma where he is sought on an aggravated robbery charge. Oklahoma and Texas both demanded the prisoner in a hearing at Denver last Saturday, and this state won. Walker, escaped during his murder trial in Stinnett in 1927. He is under indictment for the slaying of three Hutchinson county peace officers. Newspapermen tried to get him to explain the source of the pistol, but he parried queries banteringly and said:

#### Britain and U. S. Will Not Compete

GENEVA, Sept. 3. (P)—The British government "declines absolutely to build against the United States" declared Prime Minister Ramsay MacDonald in his disarmament speech before the League of Nations assembly today. "That is not only the word of a labor government; I think I can say it is that of a conservative government." The labor premier announced Great Britain had decided to sign the optional clauses for adherence to the world court. He believed all units of the British commonwealth would do likewise.

#### JOHN WOOD IS LAST SEEN AT ARIZONA CITY

Kingman Residents See Plane Traveling Very Fast  
FLIER HAS NOT YET APPEARED  
Fears Held When He Is Lost Over Full Day

BULLETIN  
LOS ANGELES, Calif., Sept. 3. (P)—A telegram was received here today from Ward Miller, mechanic flying in the airplane of Major John Wood, indicating the ship crashed and that a hunt was on for the pilot. Miller telegraphed he saved himself by jumping with a parachute after the plane went into a tail spin near Needles, Calif. The telegram said: "I'm in Needles, Calif. Ship went into a tail spin. I jumped and was saved with parachute. Trying to find Johnny and plane." The telegram was received by the Lockheed Aircraft company, builders of Wood's plane, and employers of Miller. A fast Lockheed ship immediately was dispatched to Needles.

CLEVELAND, Sept. 3. (P)—John T. Wood, veteran pilot and president of the Northwest Airways company, and Russell Ward, his mechanic, were missing more than 24 hours today after leaving Los Angeles in a second attempt to complete the non-stop derby to Cleveland for \$7,500 in prizes offered at the national air races.

Wood took off at 4 a. m. (E. S. T.) yesterday. Inquiry at major airports on the route failed to discover any trace of him. He was flying a cabin model Lockheed-Vega monoplane capable of a speed of 190 miles an hour. The plane's identification number was 7894. Cleveland airport officials expressed concern for the safety of the pair and used radio broadcasting stations in pressing a search for them. Henry Brown, air mail pilot, won first prize of \$5,000 landing Sunday in 13 hours and 18 minutes.

#### Temporary Jail Is Now in Use

Three prisoners confined in the new all at the rear of the courthouse last night were its first inmates. The new jail was completed Monday. Only temporary guests are being kept in it. Sheriff E. S. Graves believes certain prisoners being held by the county might find the building an easy escape to freedom. Yesterday, four of the long-time prisoners were moved to the Pottet county jail at Amarillo, one from Pampa, and three from Panhandle. The new jail was erected primarily to be used for week-end emergencies.

#### Cisco Bank Robber Is Denied His Plea for Rehearing of Sanity Trial

EASTLAND, Sept. 3. (P)—A motion for a hearing on a new sanity trial for Henry Helms, sentenced to be executed September 6 for his participation in the famous Cisco bank robbery of 1927, was overruled today by Judge George L. Davenport. In overruling the motion, the judge said: "The motion for a new trial in this case was not filed until after the defendant had been returned by the sheriff of Eastland county to the penitentiary at Huntsville, and as this court finds there is no merit to the motion as filed, and as the statutes of this state does not provide for such proceedings, the court does not feel justified in requiring that the defendant be returned from the penitentiary to be present at a hearing on this motion. It is therefore the opinion of the court that the motion is not entitled to further consideration, and it is so ordered."

**THIS WEEK FINDS PAMPA HANDLE** editors urging the young idea to go back to school.

Says J. M. Noble in the Canadian News: "The older people, friends of the younger generation, should hold out every possible encouragement to those of school age. They should advise them to go back to school, and if possible, try to help them plan for the future."

The Clarendon News agrees and adds: "As the teaching staff of our city schools assemble for the year's work, the community has an opportunity to extend a welcome hand and a warm handclasp indicative of a neighborly attitude which will find response from those who are to instruct in our schools for the coming months."

"The opening of school is an opportune time," thinks the Tulsa Herald, "to emphasize the school's importance to the community, and to urge you to exhibit greater interest in its work. Visit the schools occasionally, and come to an understanding of the problems they are meeting and the great work they are doing."

The Old Battleaxe in the Floyd County Hesperian takes a crack at opponents of paved roads, thus: "Next week the local institutions of learning start their annual grind to pound some sense into young 'uns heads. Sure hope they teach them the value of paved roads, so that within about 15 or 20 years Floyd county will not be the only county in the great plains area that does not have pavement."

And the Slaton Slatonite sums it up: "Institutions, committees, commissions, and leagues may influence legislation and have some effect upon the surface of life. But they cannot get down to fundamentals, for the character of our civilization tomorrow is determined now by the character of the children of today. And today's children are largely the product of home and school environment."

"If the patrons are ambitious, there are any number of ways in which they may expend their time, money, and energy for the betterment of their school," suggests the "West Plainsman." "Every school should have a piano and every school should have playground equipment. Most teachers are willing to do their share and more in getting up entertainments for raising funds to meet various needs, but it will be done with more enthusiasm if the attitude of the patron, as exemplified by the appearance of the school house on opening day, shows interest, encouragement, and a desire for improvement."

The Plainview News speaks a word to the poor boys and girls who wish an education:

"Occasionally a young fellow has an idea that he can't go to school. The chances are 100 to 1 that he wouldn't if he had an abundance of that essential thing—money... lack of money is no handicap, particularly to a red-blooded boy or girl, in acquiring an education. They may have to prolong the effort, due to the necessity of work to provide for themselves, but that extra time never hurts any young person. It builds a ruggedness of character that enables the young person to forge quickly ahead when school is ended."

"Necessity is the mother of invention," quotes the Berger Herald. "And the present, modern educational system is the outgrowth of demands of the modern world. We cannot deny ourselves the use of such a system—it is essential that education starts from the cradle. Time was when a man could get by and do well without ever going to a school building. He didn't have to be learned to toll on and on and make his bread. But the old gives way to the new—and today the man with the desire to reach the top is the man who has ground out his knowledge from pages of the books that are every man's to use as he wishes—and offered to him in America's greatest institution, the public school."

Pampa's eighty-five teachers are one of her greatest assets, both in service in the school room and in guidance of the young in their daily examples. The modern teacher is tending to be more permanently a citizen. Let's build up a faculty of efficient teachers who will remain for several years. And let's welcome them as citizens, not as transient employees.

**TWINKLES**  
 The pleasure with which Pampa school children anticipate the opening of school indicates that vacations that are certainly not what they used to be. Parents seem to believe vacations are best if the youngsters are kept busy, although the lads and lassies are pretty shrewd in avoiding too strenuous employment.

The Arabs seem to think the best place for the Jews is in American department stores—at least they object greatly to the British plan of making Palestine the Biblical national home for the race. The Arabs, incidentally speaking, are more numerous than generally believed—sixty millions of them could cause plenty of trouble for even John Bull, international policeman.

Prohibition may not be a howling success, but it is our observation that tourists no longer consider a drink an essential part of their journey's

program. The stay-at-home crowd does not always do as well, observations show.

Too little was said yesterday, it seems to Twink, about the late Samuel Gompers, father of the American Federation of Labor. Twink once was required to write 30,000 words about Gompers and the A. F. of L., and in doing so he obtained a profound appreciation for the work of the labor leader in guiding his organization away from partisan politics, rabid socialism, and violence. His was a monumental accomplishment.

The campaign promise that politicians faithfully keep is to "pass a law." But solving the problem is often a different matter. Too many of our laws do not "stick."

Another term of district court is near. This is an ideal time for our officers, prosecuting attorneys—county and district—and judge to hitch up their belts and deal some misery to Gray county's habitual offenders. Continuations of cases have, of necessity in some cases, been too numerous.

It is high time to raise the speed limit on our highways. To keep an inadequate law while everyone breaks it is to breed disrespect for state statutes. Accidents continue numerous, but few of them are

caused by driving somewhat faster than the law now allows. Slow driving may cause accidents, especially those resulting as the hares pass the tortoises, so to speak.

It is a clever stunt to offer prizes for wild cow milking—we never saw a cowboy coaxing the fluid from a cow at any other time, and all the real punchers we have known had distinct aversion to the act.

"Whitey" Walker's name is such a publicity getter that the Beard of City Development ought to sponsor some plan to get him over here. Some people seem to think that gun was planted on him at Berger for publicity purposes. Probably—no officer who likes to live is going to let Whitey have a gun any other way, and if it was loaded the slugs were likely drawn with extreme care.

Plainview has set her city tax rate at \$1.75. Plainview is growing rapidly. She is willing to raise her taxes somewhat for public improvements. Pampa's tax rate will not reach Plainview's, however, even after the levy is made for the recently voted improvements.

We never live; we are always in the expectation of living—Voltaire.

Men have sight; women insight—Victor Hugo.

## Social Calendar

**WEDNESDAY:**  
Circle 1 of the Baptist W. M. U. will meet at 2 o'clock at the church.

**THURSDAY:**  
The Young Women's Auxiliary of the Baptist church will meet at 8 o'clock in the home of Miss Ellen Nabers.

**TUESDAY:**  
The Order of the Rainbow will hold a regular meeting at 7:45 in the Masonic hall. All Masons and members of the Order of the Eastern Star are cordially invited to attend.

**FRIDAY:**  
The Azar class of the First Baptist Sunday school will have a social meeting in the church parlors, beginning at 2:30 o'clock.

## Birthday Party Is Pleasant Event of Yesterday

Mrs. J. G. Gantz was honoree of a delightful birthday party given last evening by Mr. Gantz. Music and various games were enjoyed, and dainty refreshments were served. Enjoying the occasion with Mr. and Mrs. Gantz and their children, Madeline, Josephine, and Harry, were the following guests: Mr. and Mrs. Homer Kees and daughter, Bondell; Mr. and Mrs. J. H. Jones and daughters, Lou and Anna Mae; Dr. and Mrs. George Wallace, Mr. and Mrs. S. S. Gantz, E. P. Thomas, Frank Crockett, and Sam Thomas.

## Bentley Heads McLean Red Cross

McLEAN, Sept. 3. (P)—(Special)—M. D. Bentley recently was elected chairman of the McLean chapter of the American Red Cross. T. J. Coffey was elected vice-chairman; Mrs. W. E. Bogan, secretary, and C. C. Bogan, treasurer. At a public meeting next Friday evening, members of the chapter will have the opportunity of discussing the advisability of employing a Red Cross nurse for the public schools.

## August Wedding Is Announced

Announcement was made today of the marriage of Miss Liliana Force and H. R. Forhan, which took place Aug. 6, in Elk City, Okla. The bride is the daughter of Mr. and Mrs. Ed Force of Welsberg, W. Va., who were in Pampa for a few months before the wedding. Mr. Forhan formerly was with the Santa Fe offices here.

## Prison Group to Determine Next Legislative Term

AUSTIN, Sept. 3. (P)—Approximate date of the special session of the legislature may be decided this week, following a meeting here Friday of the penitentiary centralization committee. Bob Parker of Fort Worth, executive secretary of the committee, arrived today to make arrangements for the meeting. The committee returned Sunday from a three weeks' trip of inspection to many state prisons and will discuss the nature of its report and recommendations to the legislature. Should it decide on relocation and centralization on a site other than lands now owned, the committee will make a trip of inspection to proposed sites in Texas.

## Mr. and Mrs. Nance Give Bridge Party

Mr. and Mrs. J. L. Nance entertained at bridge last evening, with five tables in the play. Mr. and Mrs. W. M. Murphy of Borger won combined high score. Consolation was given Mr. and Mrs. A. D. McNamara for low. Other guests included: Dr. and Mrs. W. C. Mitchell, Mr. and Mrs. L. M. Williams, Mr. and Mrs. E. H. Hamlett, Mr. and Mrs. J. H. Lutz, Mr. and Mrs. C. S. Boston, Mr. and Mrs. R. S. McConnell, Mr. and Mrs. A. B. Zahn. Dainty refreshments were served at the close of the game.

Mr. and Mrs. George W. Briggs and son, Burnham, returned Sunday afternoon from a vacation trip in New Mexico. They visited many of the historic spots, and the B. C. D. manager claims to be something of an authority on New Mexico mountain roads since his experiences with difficult trails some of them little traveled.

Mrs. Odus Mitchell and infant son, Shields, visited relatives in Childress while Mr. Mitchell attended the Rockne-Warner coaching school in Dallas. They returned home Sunday with Mr. Mitchell.

Dr. and Mrs. R. A. Webb, Roy, Jr., and Mrs. Webb's sister, Miss Margaret Cornell of McAlister, Okla., have returned from a vacation visit to Carlsbad and various other points of interest in Colorado.

**Matinee Party is Event of Holiday**  
Mr. and Mrs. Frank Shaw entertained yesterday with a matinee party. Their guests were: Mr. and Mrs. George Porter and children, Miss Ethel Fardus, and Charles Perry.

**Mrs. Shaw Solo**  
Mrs. Frank Shaw made her solo flight in her husband's American Eagle plane yesterday. With her rode, King, the Shaw's German police dog. Mrs. Shaw has been a flying student for about four months.

## McClory and Party Making Air Trip

Dr. A. McClory, president of the Pampa Refining company, took off in his Ryan monoplane early this morning on a business trip to Tulsa. His passengers were his father, who has been here for a visit, Mr. and Mrs. Hal Peck, and Mr. Long of Shamrock. Boyd Kennedy piloted the plane.

## Palestine Feeling Is Still Tense

JERUSALEM, Sept. 3. (P)—Fear was felt here today for the safety of Jews in Tiberias, the only center of great anxiety in Palestine today. Telephone communication with Tiberias was interrupted, and there was no information regarding what had occurred there. Reports from other points indicated the country generally was quiet. Tension existed in Jerusalem, however, because of reports Moslems were arranging a meeting at the Mosque of Omar to protest against the high commissioner's policies.

Mr. and Mrs. Earl Noel and little daughter, Shirley Hazel, have returned from a two-week visit in Cortez, Colo., where they were guests of Mr. and Mrs. R. C. Rouse, former residents of Pampa.

## Steamer Is Reported Lost in Typhoon

MANILA, P. I., Sept. 3. (P)—The steamer Mayon, owned by the Manila railroad, was reported to have foundered in a typhoon yesterday afternoon off the Pasacao Bagay gulf. Of the thirty-seven passengers aboard the steamer, only nine were reported to have been saved. No mention of members of the crew was contained in brief dispatches.

## Rodeo Completed Despite Wind of Concluding Day

A high wind and a dust storm did not keep 2,500 rodeo fans from seeing the final contests of the American Legion's second annual rodeo yesterday afternoon. Johnnie Williams of Fort Worth, Texas, riding the hell-bent Razzle Dazzle, won first in bronc riding. Don Nesbitt was second, Wiley Eliot, third, and Jonas De Arman and Back Keys tied for fourth.

The rodeo was a financial success, according to Legion officials, although expenses were heavier this year. The broncs, steers and other livestock were

ideal rodeo animals. The cost of bringing them here was more than last year. The rodeo was under the direction of Lon Blansett.

Winners in the calf roping contests were Buddy Elison, first; Jonas De Arman, second; Six Harrison, third; Mont Churchill, fourth. Winners in the bulldogging finals were: First, Gene Rose; second, Jim Erwin; third, Bill Wright; fourth, Jonas De Arman. Clyde Henson won first in the steer riding, Jonas De Arman, second, and Jim Erwin, third. Miss Ruth Roach won first in the girls' bronc riding contest.

## "Shake-Down" Ring Bared by Legger

LOS ANGELES, Sept. 3. (P)—Possible grand jury action was expected here today upon two reports, one by the federal prohibition office and another by a confessed bootlegger, naming a large number of Los Angeles policemen as members of a "shakedown ring" exacting tribute from the illicit liquor trade. The federal prohibition office reported that 12 policemen of the metropolitan area, ranging from captains down, had been named by federal investigators as members of the ring.

## Hunters Having Varied Success in Chicken Shooting

Pampans, with their dogs and guns, have been having a feathery, gory time with prairie chickens up in Hemphill and Lipscomb counties during the past three days. Some, those who killed their quota, say the chickens are plentiful, while others, those who did not, say fowl is scarce, vegetation scorched, and hunting disagreeable.

Tomorrow is the last day of the chicken hunting season, but even at that the record brought back by W. B. Rose, Harry Cornelius, and Roy Sewell appears beyond touch. That trio left Pampa Saturday night, drove to the Washita in Hemphill county, and by 8 o'clock the next morning they had killed their quota, about 10 apiece.

On the Lockhart ranch, in Hemphill county, last Sunday, Baker Salsbury, Pete West, J. M. McDonald, Roy Showers, Bob Lynn and Jude Byrns also killed several birds, but they did not find the chickens to be plentiful. In the afternoon, they were joined by Mr. Campbell and Bryson of Wichita

Falls. A prairie fire, blazing over five sections, broke up their hunting party and they fought the fire for about two hours.

Kenneth Simmons, Billings, was Montana state singles tennis champion until this summer when Johnny Lewis, Billings youth, snatched the crown from him.

University of Montana has won only one Pacific coast conference football game since joining the organization in 1924.

The strip of paving which was recently completed on Francis street was accepted by the city commissioners at their regular meeting last night. It was ordered thrown open to traffic immediately.

# Announcing--

## The Opening of

# GILBERT'S DRY CLEANERS

We are glad to announce our opening with a complete line of new equipment, and delivery cars and with the most experienced help obtainable. The new equipment is the latest and most modern on the market and has been developed thru years of study and experiment and found to be the BEST.

Mr. R. E. Gilbert, formerly proprietor and manager of the Pampa Cleaners until recently, has just returned from Washington D. C., where he studied for ten weeks with the National Dry Cleaners Association in all its departments. Adding to his already thorough knowledge of dry cleaning this training assures you of the best that is possible.

Regardless of the delicacy of the material you need cleaned you take no chances if it is sent here. If it can be cleaned we can clean it and most all fabrics can be cleaned without ruining or shrinkage.

## SPECIAL SERVICE ON FURS

Through a special study of Fur Cleaning made by Mr. Gilbert in Washington, he is now able to give the best and proper treatment to furs of all kinds. Furs can now be cleaned without drying out or can be restored to their natural texture thru a special re-oiling process. Your Furs are Safe if you send them to us.

MRS. GILMORE IS BACK IN PAMPA

**FORFEIT MAY COST SPUDS THEIR CROWN**

By GAYLE TALBOT, JR. Associated Press Sports Writer In the opinion of Umpire Cecil Griggs, the Spudders were guilty of playing something less than their best just before the shades of night fell at Fort Worth yesterday. His opinion was important. It might cost the north countrymen the Texas league crown.

Having satisfied himself that the men of Galloway were loafing, supposedly in order that darkness might fall before the requisite four and one-half innings and spare their defeat, Umpire Griggs forfeited the second game of the Labor day doubleheader at Fort Worth, 9 to 0. As Houston was snatching a pair of Exporters, 6 to 0 and 4 to 1, the forfeiture cost the Oilers a full game and reduced their lead over the Buffs to one and a half contests. Skipper Galloway has protested.

The arbiter's pronouncement likewise set the stage properly for some fireworks at Dallas today and tomorrow, when three games are scheduled between the leaders and the Steers, a doubleheader tomorrow. It may be recalled the Mavericks bowled over Galloway's stalwarts three straight at the outset of their present tour. The Buffs, meanwhile, were to spend two afternoons at Stuart stadium before starting their final northern trek.

The Spudders prevented Labor day being a total loss by taking the cats, 8 to 4, in their opener. They scored four in the ninth, shelling Lil Stoner from the hill. George Payne pitched the final frame for the Spuds and, by the peculiar twist of scoring rules, was credited with his twenty-seventh triumph. The teams were tied, 8 to 8, when the Kittens went to bat in the last of the fourth of the nightcap. The Cats started on a scoring spree, and then it was that Grigg halted hostilities.

Jim Lindsey hurled his 21st victory and ninth shut out at the Bison's stoppage of the Shippers, 6 to 0, in their first. He permitted only six hits. Rhem and Brown gave up only four in the nightcap, which the Balleymen won 4 to 1. Smarting from three straight rebuffs at Beaumont, the Steers had a measure of revenge by nipping the Shreveporters, 6 to 2, in their first game and holding them to a 1-1 tie in the second. The result was a blow to Sport flag hopes.

Waco's holiday crowd saw the Cubs sweep both ends of their bill with San Antonio, 14 to 5 and 9 to 8.

**SPORT SLANTS**  
Alan J. Gould

Babe Ruth has set up a few marks for world's series clouting that will take a little time and quite a little slugging to remove from the books.

For instance, the big fellow has on two occasions smacked three home runs in a single game, with the outer reaches of Sportsman's Park, St. Louis, as his target each time.

Nevertheless two of the hardest and longest hitters in the game, Jimmy Foxx and Hack Wilson, if all goes well, will have a chance to start tackling the Babe's record this October at Shibe Park and Wrigley Field.

Al Simmons and Rogers Hornsby may be the most valuable all-around hitters the most consistent in the lineups of the prospective pennant winners but there is little question that Foxx and Wilson hit 'em farther, on the average I have that, at least, on the word of two observers who happen to know considerable about it—Connie Mack and Joe McCarthy.

"Foxy gets astonishing distance," Mack told me. "Naturally possessed of a good, easy swing, he seems to get more into his drives than any player on the team. When he gets hold of one squarely, it continues to rise long after you expect it to drop. Some of our players hit just as hard without clearing any barriers but when Foxy rides one, the first thing you know its out of the park."

The answer is that Foxx gets "over-spin" on the ball to produce extra distance. That is one reason why Wilson's drives usually out-carry those of Hornsby and Stephenson, in the opinion of Joe McCarthy, the Cub boss.

"All are terrific hitters," said Joe, "but Hack clears fences that none of the others reach. The over-spin adds to the carry. Wilson's hardest drives continue to rise when balls hit just as hard by other batters drop into some outfielder's hands."

Wilson got his nickname from resemblance to the former "Russian Lion" Hackenschmidt, puts plenty of weight into his clouts. Hack is built closer to the ground than Ox, a rangy youth with the sort of shoulders a football fullback would envy.

Luis Angel Firpo quite frankly spent his spare time figuring up earnings; looking over the "house before entering the ring. Now, his successor in quest of heavyweight boxing honors, Victorio Maria Campolo, insists money is not his main object. Campolo, son of a wealthy cattleman, prefers poetry. He translated Shelley's Ode to the Skylark for a diary he keeps for the benefit of his mother.

**West Texans in Tournament Tie**

COLEMAN, Sept. 3. (AP)—The scene of battle in the West Texas league championship shifted here today with Midland and Coleman tied at two victories apiece.

Both teams drummed out base hits freely yesterday at Midland, but the Midland total was 21 hits for 23 runs. Coleman made 13 runs out of 15 base blows.

Six pitchers, three on each side, worked.

**ATHLETICS GET DOUBLE GAIN ON LABOR DAY**

By HERBERT W. BARKER Associated Press Sports Writer If there existed any reasonable doubts about either major league pennant race, the Labor day double-header baseball feast dispelled them.

Victory in both ends of yesterday's double bill with the Yankees enabled the Philadelphia Athletics to lengthen their American league advantage to 13 1-2 games. Simultaneously the Chicago Cubs widened the gap separating them from the second place Pittsburgh to 12 1-2 games by trouncing St. Louis twice.

The A's beat the Yankees 10 to 3 and 6 to 5. Old Jack Quinn kept 11 Yankee hits well scattered in the opener. The Yankees appeared to have the second game won, 5-4, until the ninth when three hits and Larry's error gave the A's two runs and the game.

Cleveland moved into third place by downing the previous holders, St. Louis, 2 to 1 and 9 to 5.

Six runs in the last two innings gave Detroit a 10-8 victory over Chicago in the first game of a double bill, but the White Sox easily took the nightcap, 8 to 2, behind Lyon's pitching.

Washington and Boston split even. Washington taking the first game, 10 to 7, and Boston the second, 7 to 2. The Cubs won two slugging affairs with the Cardinals, 11-7, and 12-10. The Cubs pounded five Cardinal pitchers for 36 hits. The Cards were not far behind with 32 hits. Hornsby hit for the circuit in each game to bring his season's total to 32. Hack Wilson got his 35th homer in the opener. Pittsburgh dropped the first game to Cincinnati, 7 to 5, but won the second in 13 innings, 9 to 8.

The Giants swamped the Phillies, 11 to 4, in the first game but were nosed out, 4 to 3, in the nightcap. The first game was decided as early as the fourth inning when the Giants drove Claude Willoughby out of the box. In the second game, Don Hurst's single in the 12th sent Klein home with the winning run.

Ray Moss and William Watson Clark gave the Boston Braves only ten hits in two games, and Brooklyn took both ends of a bargain bill, 6 to 2 and 10-0.

Mr. and Mrs. Willie Seitz of Spearman spent the week-end with friends and relatives here.

Archie L. Woods is a visitor in Borger today.

No motorist need drive a car on which the body or fenders have been damaged through accident or made unsightly as the result of rust and corrosion. Whenever you require work of this kind you will save money by letting us serve you.

**GREEN SQUAD OF HARVESTERS NOW TRAINING**

Ten Harvester lettermen, a dozen or so new-comers and a gang of ambitious youngsters—40 in all, were given gridiron uniforms and their first workout yesterday afternoon by Coach Odus Mitchell at the football field.

Coach Mitchell says he has one big immediate job before him: to grind some semblance of a team out of the motley collection by Sept. 13 (Friday) when the Harvesters are scheduled to play their initial game of the season with Estelline here.

The football crew is working out each morning at 9 and each afternoon at 4—an hour each time. Frankly, Coach Mitchell is discouraged by his present prospects and by the showing they made yesterday. But at least, they seem to be willing, he says.

Besides Seitz, Saulsbury, Lard, Ayres, Saltzman and Chastain—remnants of last year's first team, half a dozen lettermen from other schools reported for practice yesterday and this morning. Miami's half-back last year, Kitchen; Wink's half-back, Largin, a passer, punter and ball-carrier of ability; and Pafford, a 1928 Claude guard, all were issued Moieskins yesterday. Pafford weighs about 200, Largin about 165. A 1928 Borger letterman also reported for the initial practice.

Noticeably missing yesterday were John Willis, last year's tackle and Bob Mullen. The latter has been in Oklahoma and is due home today or tomorrow, and Willis is expected to report soon.

Mitchell and Assistant Coach A. M. Fox are bearing in mind that Estelline had the third best basket ball team in the state last season. That fact alone would indicate just how much the Harvesters must learn to do between now and the 13th. One thing is certain: Friday the 13th is going to be a black Friday for one team or the other.

Coach Mitchell is due in Canyon today or tomorrow to assist in arranging the Harvester schedule.

**Spudders Ace May Break Old Record**

WICHITA FALLS, Sept. 3. (AP)—There is an outside chance that George Payne, a Spudder slab ace, will better the existing Texas league record of 30 victories in one season, held jointly by "Red" Reynolds and Joe Pate.

Reynolds turned the trick for Waco in 1914, and Pate did it twice for Fort Worth, in 1922 and 1924, exclusive of the Dixie series.

With 26 triumphs to his credit, the Spud star has 15 games in which to attain his goal. He has scored all but 10 of his victories in the second half.

**East Suddenly Wins Over Favored Tennis Leaders**

NEW YORK, Sept. 3. (AP)—Right on the heels of the surprising reverse suffered in this country by the American Davis Cup doubles combination of John Van Ryn and Wilmer Allison has come the downfall of the new national championship team of George Lott and John Doe.

Just two days after they won the title at Brookline, Mass. Lott, the Chincagoan, and Doe, from Santa Monica, Calif., caught a couple of tartars yesterday in the annual East vs. West series and as a result the West was beaten instead of having a fighting chance to come from behind and win.

Battling for the East, Johnny Van Ryn of East Orange and Gregory Mangin of Newark, hammered out victory, 6-1, 3-6, 6-2.

The Texan, Berkeley Bell, beat Fritz Mercer, Mangin downed Lewis N. Whit, another Texan; and Mercer and J. Gilbert Hall, South Orange, N. J., national clay court doubles winners, disposed of White and Bell.

Mr. and Mrs. W. M. Murphy of Borger, former residents of Pampa, are visiting friends in the city.

**Fight Results**

By The Associated Press  
MACON, Ga.—W. L. (Young) Cooke of Australia, 6, stopped George Cooke of Australia, 6.

NEON CITY, Okla.—Babe Hunt, Oklahoma City, outpointed Jack DeMaye, Hoboken, N. J., 10.

**Neon Signs Are Growing Popular**

Two more Neon electric signs have been erected in Pampa recently by the Southern Display company. Those of the McGarrity Motor company and the Frey Hotel, both in large red Neon letters, were sold and placed last week.

"We are doing our best to make Pampa a city of beauty" at night through the use of Neon signs," says W. T. Jesse, manager of the Southern Display company.

Carlton Nance and B. J. Strickland spent the week-end and Labor day in Hobart, Okla.

**Gilbert Opening Cleaning Plant on North Ballard**

R. E. Gilbert, who opened and operated the Pampa Cleaners plant here until recently, is announcing the opening of a new cleaning plant at 1 North Ballard street. Mr. Gilbert returned from Washington, D. C., where he studied for ten weeks with the National Dry Cleaners association.

"We are glad to get back in the business in Pampa and feel that we are better able to serve than ever before with the increased knowledge of business and the newer equipment said Mr. Gilbert in discussing the opening.

The firm has added three new delivery cars and will emphasize quick deliveries along with "Master Clean service."

Mr. and Mrs. J. Tate of Graham are guests in the home of their daughter Mrs. W. E. Davis.

Texas Woman Was Near Breakdown

"Recently I spent fifty-four dollars in a clinic getting x-rayed for what I was told was chronic gall bladder and intestinal trouble, but I am now convinced that Sargon was all I needed. If I had known what I could have saved lots of money and suffering."

"About two years ago I began to decline into a general weak and run-down condition that steadily grew worse. My stomach was upset and I had awful pains in my back in the region of my kidneys and gall bladder. My appetite was poor and it seemed I couldn't eat anything without pain afterwards. I lost strength and energy and was very much discouraged."

Young Heftin Arrested. PHENIX CITY, Ala., Sept. 3. (P)—J. Thomas Heftin Jr., son of the senior United States senator from Alabama, was in jail here today on charges of drunkenness and violating the state prohibition law.

Big Number of Huskies Report at Wayland College Football Training

PLAINVIEW, Sept. 3. (Special)—Thirty-six sturdy athletes trotted out on the Wayland college football field to greet Coach Kimbrough at the opening of the fall grid training period which will continue through September 7.

They were a fine looking group of young men and it was difficult to keep them from overdoing, so enthusiastically did they enter into the work. Coach Kimbrough confined their activities to callisthenics and a short session of passing and kicking. This work on the field was augmented by two long sessions in the lecture room.

The following players have reported for the training camp: Klein, Don, Plainview, weight 155, half; Halsey, L., Plainview, weight 160, end; Close, O., Shamrock, weight 168, quarter; Visor, G. Plainview, weight 150, quarter; Smith, Fritz, Snyder, weight 170, quarter; Caudle, Chas., Snyder, weight 172, half; Alexander, Jack, Jayton, weight 185, guard; Henley, Wayne, Plainview, weight 154, half; Turner, L. Claude, weight 172, tackle; Salzer, Tib, Lamesa, weight 200, tackle; Kendrick, C., Big Springs, weight 175, guard; Berry, Bill, Sudan, weight 178, guard; Hines, Clay, Quitaque, weight 170, half; Legs, Payton, Spur, weight 185, center; Stephens, Bill, Knox City, weight 180, end; Turner, S. Claude, weight 180, tackle; Stephens, Grady, Plainview, weight 206, center; Close, E., captain, Shamrock, weight 150, half; Kirkpatrick, K., co-captain, Huskell, weight 188, tackle; Cross, R., Plainview, weight 185, center; Morgan, E., Lockney, weight 185, center; Sanderson, E., Paducah, weight 184, guard; Mobley, W., Quitaque, weight 185, end; Floyd, E., Floydada, weight 173, tackle; Mobley, S., Quitaque, weight 165, end; Stroup, C., Quitaque, weight 165, guard; Draper, G., Quitaque, weight 145, half; Lewis, J., Jayton, weight 155, half; Watson, V., Wellington, weight 190, guard; Randall, R., Lamesa, weight 188, tackle; Jackson, E., Anton, weight 173, full; Setzler, B., Shamrock, weight 185, full; Davis, R., Plainhandle, weight 190, end; Cook, C., Sunnet, weight 140, half; Scott, H., Anson, weight 172, full; Smith, K., Anson, weight 165, guard; Wilbanks, Obed, Plainview, weight 170, end; Stephens, Jim, Knox City, weight 200, tackle.

MRS. PANTAGES FACING CHARGE OF MURDER. LOS ANGELES, Sept. 3. (P)—Mrs. Lois Pantages, 42-year-old wife of Alexander Pantages, theatre magnate, was summoned to trial today on a murder charge growing out of the death of Joe Rokumoto on June 16.

RITA DEAD, it read. 'IN SISTER DURING CONSCIOUSNESS THAT YOU BE NOTIFIED IMMEDIATELY. HOR'.

There is a boat for the States? Signorina did not know, but soon the concierge was busy with calling Italy and Steamship tickets. The Conte Grande was sailing from Naples on Thursday. He would arrange immediately for reservation.

Molly dictated a message of sympathy to Bob. It was good to have someone to be thinking for her.

Bob's answer was delivered the next day—the day of Rita's funeral. Whatever Rita desired, he said, should be done. Molly was very kind, he would meet her in New York, and they should talk things over. Thank God, he added, little Rita was too young for anything.

Jack called too. Bob had told him that Molly knew of Rita's death, and that she had offered to take the baby. He sent her sympathy, and commended her for her generosity. But that was not a word of love, Bob had explained that he might see her in New York when Molly read it, she practically decided to give the baby girl to Red Bryan.

Red had been wonderful about writing. Molly fancied that, between the lines, she could read a great many loving expressions. But the letters themselves were charity and gossip. She should commiserate her friends, he advised another play perhaps. To a week she should be making the same smart remarks. She was still the child-souder of Broadway. The innocent pudgy face of the baby girl, who could walk the tricks any day.

They're eating out of your hand—the dear public was led, but they're fed on a diet of women's Reeps' and, while you do not seem and ride on for a flock of moukies. Check you dish up another order of 'Crump with a little sex on the side. And give it to me hot, dear. Hot and medium raw. And make 'em love it."

"Reading a letter from Red was like talking to him. He had good ideas too. His insistence upon holding the public when she had the show. Now was the time, she knew, to keep her place in the sun. She had a reputation, and she must keep it. Before very long she would be forgotten. And after that she would have to start all over again.

Mr. Durbin had written, urging that she begin work on another play. "The Death of Delphine Darrows" had proved the sustained bill of the season. It seemed willing to take a chance on almost anything Molly might write.

"But don't turn sweetie-pie on me," he warned. "The public has you tagged as a girl who knows her crime. You can't pull any love how the daisies star on them."

Molly had torn up his letter impatiently. She did not want to be tagged as a flirt who knew her crime. Better love among the daisies than a single girl murder!

Now, crushed with grief by Rita's death, confronted with the prospect of a long and uneventful lonely voyage, she decided to devote the entire trip to the task of writing another play. For some time she had reviled in her mind the dramatic possibilities of a tragedy of young life—the dramatic, the story of a modern thrill-seeker.

Life had furnished all the characters. The tragedy had taken place while Molly was in college. In real life, the insidious love had been murdered.

For the purposes of a play, she would have him commit suicide—

Tacks Fail to Appear—Races Held at Labor Outing

After waiting at the baseball field for two hours for Bled Allen and his Tacks, the local labor unions and the Pampa 'Grays' were making each other at 6 o'clock last night what a promise means to the Amarilloites.

For Bled Allen had given his promise that he and his Tacks would be on hand for the game scheduled to begin yesterday afternoon at 4 o'clock, and the Grays were waiting for them.

However, the unions did not let the absence of the Tacks spoil their picnic. Six races, which were to precede the baseball game were held between 3 and 5 o'clock. Winners were as follows: Boys' races, first: Junior McKay; second, Paul Harrell; older boys' races, first: Norvell Stevens; second, Finley Vandiver; older girls' races, first: Theda Bara McFarland; second, Irene Poffenberger; first, Lucille Hutchins; second, Dorothy Whitson; first, Willie Mae Aereage; ladies' race, first, Mrs. H. H. High; second, Mrs. Harvey Poffenberger.

Duce Again Father. FORLI, Italy, Sept. 3. (P)—The Duce is a father for the fifth time. A daughter, who will be named Anna Maria, was born to Signora Mussolini here today, and both mother and baby were reported to be doing well.

Veteran Human Fly Will Climb Here

The Human Fly, otherwise known as "Dare-Devil" Roland, will climb the Schindler hotel at 3:30 Thursday evening under the auspices of the American Legion. Roland has been scaling walls, dancing on the edge of bricks, standing on his head on window ledges for 45 years. He has fallen only once during that time. Then a pigeon flew in his face. He fell 50 feet and was in the hospital a year. He descended from a family of wire walkers and trapeze artists.

He has climbed some of the tallest buildings in America, including the L. O. Smith building, Seattle, Wash. He climbed the 18 stories of the Mayo hotel in Tulsa last Tuesday. He was born and reared in Texas.

**CLASSMATE OF LOCAL MEN IN BOW PICTURE**

INSIDE—CLASSMATE OF—14—CUT  
Two members of The News Staff viewed "Dangerous Curves," current Rex theatre offering, with considerable interest—one of the actors was a former classmate of theirs in the University of Missouri.

The newspaper men are Phillip R. Pond and Olin E. Hinkle, and the actor is David Newell.  
Newell was leading man in Missouri U. dramatic productions when the local men were students in the university. After his graduation he swam and boxed under the colors of the Kansas City athletic club. His going to Hollywood was due to two factors—his childhood acquaintance with Joan Crawford and the encouragement of his father, who is president of the Fort Pierce, Fla. Rotary club, and a movie fan.  
The youthful stage actor and athlete quickly won a trial in Hollywood. He was selected as leading man in a talking movie, "The Hole in the Wall." Then he became a featured player and was given an important role in Clara Bow's picture, "Dangerous Curves." It is said he was due for the lead in this movie, but his 6 feet 2 inch height was too much for the diminutive Clara. Dick Arlen got the main role, with Newell in a "second lead" as a sort of unvillainous heavy.  
Newell was nearly broke when he was persuaded to try for the movies before New York producers. He was more interested in the legitimate stage, and gave himself one month to make the talkies or quit trying. With only five days to go in that month, he got the break that gave him his first contract and sent him to California movie lots.

**Markets**

**Kansas City Livestock**  
KANSAS CITY, Sept. 3. (AP)—Hogs: 6,000; slow; top \$11.15 on 190 to 210 pounds; packing sows 7.75 to 9.15.  
Cattle: 12,000; calves: 1,500; common to medium grass steers lower; other classes steady; slaughter steers, good and choice 1300-1500 pounds 12.25 to 16.25; 1100-1300 pounds 12.00 to 16.25; 950-1100 pounds 12.00 to 16.25; fed yearlings, good-choice 750-950 pounds 6.75 to 9.00; cows, good and choice 7.50 to 10.75; vealers (milk-fed) medium to choice 9.00 to 14.50; stocker and feeder steers good and choice (all weights) 10.00 to 13.00.  
Sheep: 8,000; lambs steady to 15c lower; sheep steady; lambs 12.50 to 13.50; ewes 4.25 to 5.65.

**Chicago Grain**  
CHICAGO, Sept. 3. (AP)—Wheat: No. 1 hard 1.32 to 1-2; No. 3 hard 1.30 1-4. Corn: No. 1 mixed 1.02 1-2; No. 1 yellow 1.02 3-4 to 1.03 1-2. Oats: No. 2 white 47 to 1-2. Wheat closed easy, unchanged to 1c lower, and corn strong, 1-2 to 1 1-2c higher, oats firm, 3-8 to 1 1-8c up and provisions steady, 7c lower to 10c higher.

**WHEAT FUTURES ACTIVE**  
CHICAGO, Sept. 3. (AP)—Wheat futures were strong and active at the opening of the market today, helped upward by higher Liverpool quotations. Southern hemisphere crop news was disheartening, the drought remaining unbroken in Australia and Argentina. Other grains were firm too, in expectation of bullish private crop estimates.  
Wheat was unchanged to 1 1-2c higher at the opening, and corn started 3-4c to 2 5-8c higher, oats 1-8c to 1c up and provisions unchanged, to 7c higher.

**About New York**

By RICHARD MASSOCK  
NEW YORK—Thomas Edison once accepted an invitation to a convention banquet on condition that the entertainment include an animal act.  
The Wizard of Orange, it seems, is especially fond of the dumber type of entertainers. So his hosts hired a trained crow and an equally gifted seal for the particular delight of their distinguished guest.  
Yet the inventor's preference is hardly as singular as it seems. It is only an indication of reported changes generally in the diversion provided for good-will parties—an important aid to big business, by the way.

**GOOD WILL PARTIES**  
It used to be that barefoot hip-twisters, or other lerolets of song and dance, were demanded when the National Association of Button Hole Engineers got together. The Super Steel Pipe corporation, at its annual dinner for purchasing agents would depend upon a shimmy artist to shake the orders out of the guests.  
And there still are stag parties and private apartment orgies where the hot cha-cha type of entertainment prevails.  
But, says Frances Rockefeller King a relative of the oil man, who supplies talent for such purposes, the favorites now are circus acts, mind readers and monologists—artists less stimulating, perhaps, but more amusing.

**ROWDY PAST**  
Miss King herself has endeavored to bring about reform.  
In former years the parties were inclined to be rowdy. One organization that met annually in the Waldorf-Astoria was notoriously obnoxious, its discussions usually winding up in the

**He'll Climb Schneider Hotel**

Another human fly is coming to Pampa Thursday, under the auspices of the American Legion. He is Henry Roland, who is shown here at the end of a jaunt up the walls of an Allentown, Pa., 17-story structure. He makes it look easy, but

airing of personal grievances, followed by a brawl.  
The year Miss King took charge she booked a couple of high-class vaudeville acts for the banquet. But nevertheless the Waldorf management erected a fence in the ballroom, with barbed wire along the top, to keep the guests from climbing over into the entertainers' section. The hotel wasn't taking chances, but under the spell of refined amusement there was no disorder that night.  
Miss King's greatest success, however, was at the annual party John McEntee Bowman gave other hotel men at the Commodore in 1923. A complete circus excepting for elephants, was laid out in the lobby and ballroom, only the pachyderms being barred because the floor was not considered strong enough to hold them. The ringmaster was John Ringling.

**NEW YORK**—A few things most New Yorkers don't know:  
A clock John Wesley imported from England more than 130 years ago still keeps accurate time in the John Street Methodist church.  
One of America's ace aviators who was decorated several times in the war is out of a job. He worked until recently in a department store.  
The city has a pair of floating bath houses anchored off the Aquarium, where the public can bathe free.  
Every musical show opening in New York must have a certain number of musicians in the orchestra whether or not the producer likes it.  
Arthur Brisbane, whose new Fifth avenue penthouse is to have "unique features" no longer owns the Ritz Tower, Park avenue landmark, which nevertheless is still pointed out as the house Brisbane built.

**Mountains Off Broadway**  
Mountains are visible from Broadway on a clear day—the Orange mountains in New Jersey, seen from the Paramount Building. And an average of 3,000 sightseers visit the Woolworth  
Professional artists also play for parties in private homes, and although no host since Harry Lehr has been known to have a monkey as a guest, an inspiring young man not long ago tried to hire an elephant to make his entrance at a Providence, R. I., garden fete.  
Usually, the apartment host engages singers, mind readers and the like. He doesn't need dancers, for nowadays, with almost every debutante mastering tap routines, there's plenty of hoofing talent among the guests.  
A frequent party entertainer is Alex Morrison, the golfer, who shows the guests at their host's expense how to improve their game. Thus is amusement made instructive as well.

lower daily, paying 50 cents each for a 25-mile view of the city.  
Rookie policemen are paid \$33 a week for the first three years.  
Fulton Cursler, author and playwright, is the husband of Grace Perkins, novelist, who is the sister of Bobbie Perkins, musical comedy dancer, and Ray Perkins, theme song composer, who is a brother-in-law of Bert Green, magazine cover cartoonist.

**Oklahoma City Pool Increases by 11,035 Barrels**

TULSA, Okla., Sept. 3. (AP)—With Oklahoma City's pool adding 11,035 barrels to an already large production record but falling to replace losses in other fields, the estimated total daily average production of light and heavy crude oil in the United States during the week ending August 31 stood at 2,970,164 barrels, 5271 barrels below the mark set during the week ending August 24, according to the Oil and Gas Journal here.  
Of the total decrease, 4345 barrels was in light oil, the remainder in heavy. The drop followed nominal increases reported through three weeks preceding. The total estimated production during the week ending August 24, was 2,975,435 barrels.  
The Oklahoma City pool, which operators propose closing in completely for one 30-day period, produced a total of 47,615 barrels daily during the past week ending August 24. Despite slight drops in the northern miscellaneous pools, Oklahoma's total production increased 3,305 barrels.

West Texas, on the other hand, decreased approximately 2,000 barrels and the total Mid-Continent area increased approximately 8,000 in light oil. Heavy

oil was virtually constant.  
The Gulf Coast crude area fell off slightly while the southwest Texas area gained.  
California's Santa Fe Springs deep drilling area receded 10,500 barrels a long with other areas, making a drop of 13,600 barrels in the state.  
Kansas production was 127,920 as compared to 128,340 for the previous week.

**B. C. D. Has Plans For Many Projects**

Now that the Board of City Development has done about all it can do for several months toward securing a railroad from Childress to Pampa, the development body this fall will work for other things needed in Pampa and Gray county, according to Geo. W. Briggs, manager.  
Chief among the things needed is a disentanglement of the road situation in Gray county, he says. The greatest highway need in the county now is a road from Pampa to McLean and more specifically, a road from LeFors to McLean, Mr. Briggs believes. The highway committee will meet tomorrow.

**CONOCO**

A FRIEND YOU'RE GLAD TO MEET the CONOCO RED TRIANGLE

**"I was glad to see your sign as I rounded that curve . . . it's a STOP sign with me!"**

**TOURING!** Many are its petty annoyances—but many its pleasures! Much depends upon the way your car performs. If your motor hums along softly, smoothly, sweetly—all is well! And that depends mostly on your oil. That's the reason so many motorists greet the Conoco Red Triangle as a real friend.

They know it is a sure guide to oil that they can trust—Conoco Motor Oil! This motor oil has saved motor trouble in so many emergencies where the average oil simply would not stand the gaff. Motorists who know, always feel safer with Conoco Motor Oil. Seek the sign of the Conoco Red Triangle—and be sure.
