PAMPA TOPIC OF OUR CITY

For the benefit of newcomers, the Panhandle wishes to announce that the little blow yesterday afternoon was not a pedregreed "blue norther".

Those who think they have had enough of Hoover and his era should not hesitate to work a little for Roosevelt and Garner.

All over Texas on October 8 democratic chairmen and assistants will place the medallions on sale.

MT. EVEREST'S CHALLENGE

The world's tallest mountain is going to be assailed once more.

Early next year a party of Englishmen will leave for Tibet in an attempt to climb to the top of Mount Everest.

This is a job that has never been done, for Mount Everest rises more than 29,000 feet above sea level and puts almost insuperable obstacles in the way of climbers. Some men have lost their lives trying to get to the top. All who have tried it have suffered to the limit of physical endurance.

And climbing Mount Everest, or any other mountain is from the utilitarian standpoint about the most completely useless thing a man can try to do. There is nothing up there except a lot of bare rock and ice and a perpetual snowstorm. The race will be neither richer, happier nor wiser if someone gets to the top. The fortunate man himself won't make any money out of it.

Why, then, should people try it? And why should the attempt be, for the rest of us, not merely exciting to read about but actually uplifting, and knightly, and glamorous?

The answer, of course, is that Mount Everest is challenge to the human spirit. A mountain climber, some years ago, who was asked why he was going to make the attempt, replied in candid surprise, "Why—because it's there."

And that, after all, is the explanation—"because it's there." It rises bleak and threatening, a God-given creation to test a man's courage and skill and endurance to the very utmost. And the human soul, having a seed of immortality hidden somewhere within it, cannot willingly let such a test go untried.

Mountain-climbing is perhaps the purest form of sport there is. In it a man contests with his own body. He tosses his courage and his physical hardihood into the scales to see whether he is the man he hopes he is. The very uselessness of his effort proves its worth. He is contending for an inner satisfaction which is the greatest prize any sport can possibly offer.

WAGNER SEES BETTER TIMES

There are many who will say that Labor Day gave labor very little to rejoice about, but we have the word of Senator Robert F. Wagner of New York, who has certainly been one of labor's champion—whether you agree with his policies or not—that Labor Day will mark one of the most encouraging periods in the history of organized labor.

Senator Wagner believes that the \$3,800,000,000 federal relief bill will put 2,000,000 men back to work by the beginning of the winter. The addition of this buying power will give jobs to another 2,000,000 within a few months, he believes.

But the thing that gives Senator Wagner the most pleasure, and the most hope for the future, is his belief that the times have given labor a definite program and have shown the people that the government must take care of labor in periods of depression just as it takes care of railroads and banks.

"The day is not far off when the right to work will be considered as inalienable as the right to life," he says.

These are, indeed, words of encouragement and good cheer for every man without a job. Senator Wagner has not been a man to build castles in the air.

The Gray county grand jury will convene November 14, unless postponed. Mr. and Mrs. D. A. Bartlett have returned from a vacation trip to points in Kansas.

We close with this editorial extract from the Baltimore Sun: "One views in something akin to pop-eyed amazement the decision of the reconstruction finance corporation with reference to the interest charge on loans for agricultural purposes, to be made by the ten regional farm credit establishments which it is launching with a capital of \$3,000,000 apiece. The interest charge, it is announced, will be 7 per cent. in contrast to a rate of five and one-half per cent on loans to banks and 6 per cent on loans to railroads. . . . This partakes of positive genius in 'stringing up the animals.'"

RUN-OFF ELECTIONS WILL BE HELD TOMORROW; CANDIDATES NUMBER TWO FOR EACH OFFICE

Elections were held last Thursday in the main hall of the high school building for the purpose of electing a president, vice-president, and a secretary-treasurer for each class. Only two candidates won majorities; so a run-off will be held tomorrow (Wednesday). With the number of candidates for each office reduced to two, class spirit is running high and campaigns are becoming heated.

In the senior class there will be a run-off for each of the offices. The candidates are, for president, Jim Poole and Charles Frost; for vice-president, Bertou Doucette and H. L. Ledrick; for secretary-treasurer, Robert Woodward and Clinton Evans.

In the junior class there will also be a run-off for each of the offices. The candidates for president are Warren Finley and Lorraine Noel; for vice-president, Harold Gregory and Elye Compton; for secretary-treasurer, Leo Woodward and Eleanor Frey.

In the sophomore class it will be necessary to have run-offs only for president and vice-president. The candidates for president are Otto Rice and Harry Barnett. Phyllis Smith and Mayse Nash will seek the vice-presidency. Onelia Frasher was elected secretary-treasurer.

In the freshman class Scott Muljins was elected president. It will be necessary to have a run-off for the office of vice-president. The candidates are Earl Watts and Norman Carr. Owing to a mistake on the ballot, the twelve freshman candidates for secretary-treasurer will have to be voted on again.

Sergeant Leonard Speaks Tomorrow

Tomorrow morning at ten o'clock, Sergeant Leonard will speak at chapel on "Peace." Sergeant Leonard is an ex-soldier and is traveling through the country lecturing on Peace.

Other items on the program will include music by the orchestra and a special number by the pep squad. The public is cordially invited to attend chapel exercises.

Judge Willis Is Chapel Speaker

Last Wednesday in chapel, Judge Newton Willis, representing Kiwanis club, spoke to the students on the importance of safety measures and explained the plan of the Kiwanis club to place junior police on duty at the different schools to insure the safety of students.

Other numbers on the program included two violin selections by Eleanor Frey and a humorous musical reading by Mrs. A. N. Dilley. Judge Willis not only urged precaution on the part of every student but asked the cooperation of citizens in routing the traffic on streets other than those near schools at time when large numbers of students are crossing streets.

First Football Rally Is Success

Pep ran high in Pampa high last Thursday night when the first football pep rally of the year was held at the gym on the eve of the Clowis game. Music from the forty-five piece high school band, yells from the Green Jacket Pep Squad—more than a hundred strong, and talks by Coach Mitchell and Captain Poole all contributed to the high spirits of the meeting and made every one determined to beat those Wildcats as the Harvesters did Friday afternoon!

Little Harvester To Be Written By Pupils In Journalism Club

Students interested in work on The Little Harvester this year are asked to meet in room 405 Thursday afternoon at four o'clock to organize a journalism club.

Last year The Little Harvester was published by the Student Council. This year it is to be put out by students who are particularly interested in learning something about newspaper work. Each member of the club will be given definite weekly assignments for the paper. The club will elect officers and will meet regularly. Miss May will sponsor the organization. It is possible that a plan may be worked out for earning half a credit in journalism.

Pep Squad and Band Will Make Trip to Borger

Pampa Harvesters will play their first conference game of the season Friday, Oct. 7, at Borger. The game is scheduled to begin at eight o'clock.

The team will be accompanied by the entire pep squad and band. School buses will be used to carry these groups, and only those in uniform will be taken. It is expected that a large number of students and fans will also attend, particularly since it is to be a night game.

Each team has played one game previous to this, but the Bulldogs will have a slight advantage, having worked out under the floodlights. While the Harvesters have had no practice of this sort. The Harvesters, however, will go to Borger Wednesday in order to get in some night practice before the game. Last week Borger tied Spearman with a score of 0 to 0, while Pampa defeated Clowis, N. M., 26 to 0.

This will not be the first time that the Harvesters and Bulldogs have met. In 1929 Pampa won a game by a score of 40 to 0. Since then, however, Borger has advanced into Class A football, and the Bulldogs are expected to put up some strong opposition.

Girls of Volley Ball Team Will Start Practice

Practice will start this week for girls' volley ball, according to J. L. Lester, coach. Last year's team has returned almost intact, with only two girls lost. Eleven of the twenty girls out for practice are veterans. With so many experienced players and practice starting early, prospects look good for a third district and a seventh county championship. The Pampa girls have not failed to win the county championship during the six years that Mr. Lester has coached them.

Library Club Is Organized By The Assistants

Student assistants in the library met on Sept. 28, under the supervision of Miss Siddons, high school librarian, for the purpose of organizing a library club.

Officers were elected and plans were outlined for the work of the club during the year. The two projects to be undertaken this year are the working up of a local history scrap book and a school scrap book. Members of the club will receive instruction in the care and mending of books, the classification of books and their proper arrangement on the shelves, the making of a clipping file, the use of the reference books and how to assist others in using them, the essential qualities of good books, and various other things of significance to students interested in library work.

The club officers are Harry Rockwell, president; Sylvia Goodwin, vice-president; and Virginia Mason, secretary and treasurer.

Zelma Cannon was appointed chairman of the committee responsible for plans concerning the local history and the school scrap books. She will be assisted by Garnet Pool, Lois Maness, Josephine Lane, Ruth Reynolds, Muriel Kitchens, and Thelma Sartain.

The club will meet on the first and third Saturdays of each month in the high school library at 10 a. m.

Charles Frost Has Statement on Race

(Editor's Note: All students were given the same opportunity to contribute articles about candidates for class office for publication in the Little Harvester.)

Seniors, when you vote for your president, remember that the office is one of responsibility, one that requires much time and hard work, and one that has many duties. Vote for one who is responsible, one who has the time, and who is willing to carry out the many duties of the office.

Charles Frost has all of these qualifications, and he proved his executive ability as president of the junior class last year. When you vote for Charles Frost, you vote for ability, efficiency, and experience. Vote for Charles Frost, and feel assured of a year of senior activities that you will be proud of.

By a friend of Charles Frost.

Gorilla Prospects Appearing Better

Gorilla football has been progressing rapidly after a series of hard drills and scrimmages. In spite of daily practices, Coach Moore has made no indications yet as to the probable first string, choosing rather to concentrate on fundamentals.

According to Coach Moore, blocking is to be stressed in the future. The Gorillas have been working hard on passing, and several promising punters are also being drilled. Timing of plays is being given considerable attention. The Gorillas are being taught the Rockne system.

Games with Miami and Perryton for the last week were postponed on account of the mud but will be played in the near future. Plans are being made to battle several powerful Class B. teams of this section before the season closes.

Will Show Calves At Kansas City

Four Gray county calves will be entered in the 4-H club livestock show at Kansas City November 11.

The heretofore baby beebes belong to Jim Farley, 13 years old, and Betty Farley, 17 years old, of Groom, and Billie Wilson, 11 years old, and Wilbur Lee Wilson, 13 years old, of McLean.

Jim and his father, P. B. Farley, will take the calves to Kansas City as the first entries of the kind from this county. It is possible that they will be accompanied by the Wilson boys.

George Muller is buying produce in Spearman, Perryton, and Western Kansas today.

The Campaign Puzzle

Study Past State-by-State Votes in Making Your Forecasts

Editor's Note: This is the second of a series of 16 articles showing how states voted in the 1928 presidential election and pointing out developments since.

Illinois' vote for president in 1928:

Hoover, 1,769,141.
Smith, 1,313,817.

Illinois, with 29 electoral votes, has not gone democratic in a presidential election since 1912. When the progressive split gave the state's electoral votes to Woodrow Wilson, in 1920 and 1924 Illinois went republican by more than two to one.

Chicago's presidential vote usually is more heavily democratic than that of statewide Illinois. In 1928, 1932, and 1936, the majority vote for the Democratic Party in Cook county was more than 100,000.

In the general election of 1930, Gov. Hiram Lewis (D) was elected United States senator with 1,432,216 votes, against 687,469 for Ruth Hanna McCormick.

In the Chicago election the following spring, Anton J. Cermak (D) was elected mayor with a vote of 761,189 against 479,932 for William Hale Thompson (R.).

Republican leaders, however, point to the votes cast in the party primaries last spring.

In these primaries, the total vote for all republican gubernatorial candidates was 1,315,245. The total vote for all democratic gubernatorial candidates was 876,733.

The most widely debated issues in the current presidential campaign have been prohibition, government expenditures, farm relief and federal taxation.

Louisiana vote for president in 1928:

Smith, 164,615.
Hoover, 51,160.

Louisiana, with 10 electoral votes, has voted consistently democratic since reconstruction days.

Hoover, in 1928, received the largest popular vote ever cast in Louisiana for a republican candidate. When, however, several states of the "solid South" upset precedent by casting their electoral votes for Hoover, Louisiana remained democratic by more than three to one.

Observers generally agree that no major change in the status of the two parties has been indicated in the last four years.

The latest report of the secretary of state, dated March 19, 1932, gives the following figures on the total state registration: democrats, 464,151; republicans, 4,976; others, 106.

The registration figures on October 6, 1928, were given as follows: democrats, 373,555; republicans, 4,564; others, 369.

The republican party has not placed a state ticket in the field this year. Democratic nominees to state offices therefore will be elected automatically.

Louisiana is the home state of Senator Huey P. Long, who repeatedly has demonstrated his influence with the voters of the state. Long

has been ardent in his support of Governor Roosevelt.

Vermont's vote for president in 1928:

Hoover, 90,440.
Smith, 44,440.

Vermont, with three electoral votes, always has voted republican in presidential elections, usually by large majorities.

In 1912, with the republican party split between Taft and Roosevelt, each of them received a substantial plurality over Wilson.

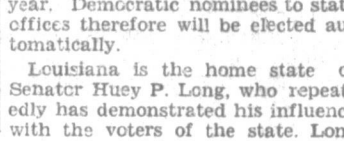

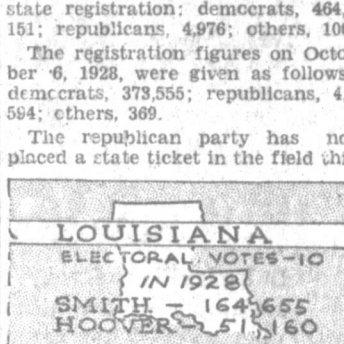

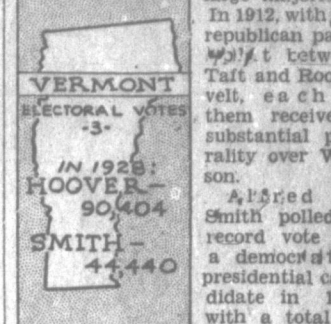

Alfred E. Smith polled a record vote for a democratic presidential candidate in 1928 with a total of 44,440. John W. Davis in 1924 had received but 18,124 votes.

The prohibition issue was warmly debated in the 1928 campaign. Smith's stand was credited by non-partisan observers with gaining for him many votes in the larger centers. Smith's personal popularity also was considered to have contributed largely to his showing.

Warren R. Austin (R.) defeated Stephen M. Driscoll (D) with 27,001 votes against 15,360 in a special election for the United States senatorship in 1931.

The prohibition issue is receiving much attention in campaign speeches and discussion this year. The plans of the opposing parties for dealing with the business depression form another major issue.

Local issues concerning milk prices and highways enter into the campaign for the governorship.

'Grand Hotel' Has Five-Star Cast

Five stars instead of one shine in "Grand Hotel" spectacular picturization of the celebrated Vicki Baum novel and play, which will open at the La Nora theater Sunday.

Probably no film in recent years has attracted as much advance attention as this unusual screen drama which is described as a symbolical study of human nature in startling realism. The play ran in New York for more than a year with similar success accorded its presentation in other American cities as well as the capitals of Europe.

In bringing it to the screen Metro-Goldwyn-Mayer placed five of its major stars in the central characterization and engaged Edmund Gwinn, director of "Devil's Holiday" and "The Trespasser," to handle the ambitious assignment.

The remarkable cast is headed by Greta Garbo with John Barrymore, Jean Crawford, Wallace Beery and Lionel Barrymore playing outstanding roles. Lewis Stone and Jean Hersholt are featured in the large supporting cast.

The story, which takes place entirely within the confines of a fashionable Berlin hotel, entwines the lives of a varied group of persons, including an exotic Russian dancer

whose romantic interlude with a reckless baron saves her from suicide but results in her lover's murder. Involved in the drama are a scheming business man, a seductive stenographer, a consumptive clerk spending his savings on one last fling in life, a shell-shocked doctor and the hotel's head porter. How these people are all brought together and how their various intrigues and adventures change the course of their entire lives forms the theme of the plot.

Edward F. Voltmer, one of two University of Iowa athletes winning Ph. D. degrees in physical education, has been added to the faculty in that department. He won baseball and basketball letters a decade ago.

Sister MARY'S KITCHEN

By SISTER MARY NEA Service Writer

Celery is one of the most popular autumn vegetables. All through the fall and winter months this vegetable remains crisp and appetizing. As an uncooked vegetable it makes an inviting relish that adds zest to any meal.

But what becomes of the coarse outer stalks of a head of celery? Do you consign them to the garbage can as worthless? Too often this does happen and their possibilities as an excellent cooked vegetable are completely overlooked.

Cream of celery soup is flavory and suitable for luncheon or dinner. Celery sticks are a fritter-like concoction that appeals when the meat course is light. Creamed celery no toast with crisp broiled bacon or grilled tomatoes is acceptable for breakfast or luncheon. The English make a scalloped dish of celery, a little onion, macaroni and a white sauce that is piquant and unusual. There is a celery loaf made with nuts and bread crumbs that is novel and delicious.

In order not to break the rules of meal planning and repeat flavors, do not serve a cooked celery dish in the same meal in which celery is used as a relish or in the salad.

While care should be taken that the pieces used for cooking are quite crisp, there is no objection to cooking the green, unbleached stalks. These unbleached pieces are usually discarded, but they are richer in vitamins than the white bleached blades.

When celery is wanted for flavoring soups and sauces the leaves are as satisfactory as the stalks. Carefully washed and coarsely chopped, they impart a strong celery flavor.

These suggestions will effect a worthwhile economy. A delicious, wholesome vegetable develops from the usual waste included in a bunch of celery and the original purchase adds zest to any meal.

inches long. Let stand in cold water to which vinegar has been added for half an hour. Drain and parboil in slightly boiling water for 15 minutes. Drain and chill. Melt butter, stir in flour and slowly add milk, stirring constantly. Bring to the boiling point and add salt, pepper and egg slightly beaten. Set aside until cold. Dip each piece of celery into the sauce to completely mask it. Roll in crumbs, dip in slightly beaten egg and roll again in crumbs. Fry in deep hot fat. The fat should be hot enough to brown an inch cube of bread in 30 seconds or register 365 degrees F. on a fat thermometer. Drain on crumpled paper and serve.

TESTIMONY BEGINS
LITBROCK, Oct. 4. (P)—Testimony was in order today at the trial of Hugh Walker on a charge of murder for the slaying of F. V. Brown, a ranchman, at Woodrow May 30. A jury was completed yesterday. Walker was the third man to face trial in the case. Jess Covington received an eight year sentence and E. L. Richardson, one of 20 years on the same charge.

Talkative Juror Must Pay Fine Or Go To Jail

NEW YORK, Oct. 4 (P)—Henry J. Moore, the juror who caused a mistrial in the case of United States Senator James J. Davis, who was charged with violation of federal lottery laws, was sentenced today to pay a fine of \$100 within 24 hours or go to jail for five days. His name also was stricken from the jury list.

Moore, who caused the mistrial by approaching defense counsel after the trial had run two weeks and was nearing conclusion, threw himself on the mercy of the court today, coming to the hearing into his case without counsel although he had been informed he was entitled to such representation.

"Nature in the Raw is seldom MILD"

—and raw tobaccos have no place in cigarettes

They are *not* present in Luckies... the *mildest* cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted"

"If a man write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, he will build his house in the woods, the world will make a beaten path to his door."—RALPH WALDO EMERSON.

Does not this explain the world-wide acceptance and approval of Lucky Strike?

DRILL TO STOP BULLDOGS' AIR CIRCUS FRIDAY

HARVESTERS ALSO RUN SIGNALS DURING WINDY DAY

The Harvesters ran plays yesterday afternoon until they were nearly dizzy. Line Coach Argus Fox put the boys through more than two hours of steady work before sending them in for the day. Coach Mitchell was in Plainview looking over the Bulldogs, who will be the Harvesters' opposition October 15.

A pass defense also came in for considerable attention during the workout. The Berger Bulldogs have a fast shifty team with a dangerous aerial attack. The game will be played under the lights Friday night at Alamo stadium in Berger. Clovis Green, big center, was in uniform again yesterday afternoon but was not used much. Clovis has been out for the last two weeks with a broken wrist which he is still favoring. The big fellow weighs 201 pounds and is a valuable weight in the line when in condition. He may be able to get into the Berger game, but it is doubtful. Coaches are anxious to let the wrist get completely better before letting him in the game.

Dick Sullins will also be out of the game, having failed to make the necessary grades to keep him scholastically eligible for football. He will be the only Harvester affected this week, but others will have to watch their step in the future, the faculty announced. Ernest McDuffie will probably get the call to start in place of Sullins. Bert Stevens will be on hand, but coaches are letting his broken jaw mend completely before they use him. Bill Kelley is also working as Sullins' position this week. The boys are hoping that a dry field will greet them in Berger. They are anxious to test their speed against the fast Bulldogs. They may be handicapped by the lights under any condition.

Several Cubs Due for Release By Next Season

CHICAGO, Oct. 4 (AP)—Already well scattered by the end of the year, Chicago's Cubs today dispersed for the year, followed by rumors that several of them would be elsewhere next season.

Most of the vanquished athletes were on their way home or headed for hunting trips, to which many baseball players are addicted during the off season.

Reports, which lacked anything like official verification, said Young Leitch Grimes, Bob Smith and Johnny Moore, veterans, and young Stanley Hack, probably would move. They may be used as trading material in moves to obtain a starting lefthanded pitcher, and a batsman capable of hitting them frequently and long.

Neither Grimes nor Smith were much help at pitchers' and Moore's hitting was steady. Hack showed promise and rates as good trading timber.

Checks for their shares of the spoils will be mailed out in a day or two by Commissioner Kenesaw Mountain Landis, who must first decide if Rogers Hornsby should be cut in.

The haste in which the Yankees won the world championship was the reason for continued other unhappy business in the Cub offices. The clerical force today started giving back around \$200,000 in refunds for fifth game tickets.

WRESTLING LAST NIGHT

Crude Production Declines Despite Increase in Texas

TULSA, Oct. 4 (AP)—Decreases in California and scattered other areas accounted for an 8,541-barrel decline in the daily average crude oil production of the United States last week, the Oil and Gas Journal says.

Total production was 2,160,700, as compared with a previous average of 2,169,241 barrels. California production dropped 6,000 to 475,000 barrels daily.

Texas crude increased in volume, from 913,012 to 915,387 barrels a day, reductions elsewhere largely offsetting an increase from 371,483 to 79,208 barrels in East Texas.

Oklahoma output dropped from 385,945 to 386,120 barrels daily. Kansas lowered its output from 100,820 to 99,915 barrels daily. Eastern production held steady at 114,000 barrels. The Rocky Mountain fields decreased their output, from 73,294 to 72,197 barrels a day.

MARKET OPENS STRONG

Three baseball players—\$150,000! And the first sale of the fall baseball season finds the ex-world champion Athletics richer by a reported 150 grand, and the lowly Chicago White Sox richer by three of Connie Mack's star players, Al Simmons, Jimmie Dykes and Mule Haas. Here are the three players involved in the breakup of the Athletics' championship aggregation and the strengthening of the Sox. Above is Simmons, lower left, Haas, and right, Dykes.

HOOKS and SLIDES by WILLIAM BRAUCHER

He Packs Them In. It has been a little more than a year since James Joy Johnston, who came to America as an iron molder from Liverpool, moved into Tex Rickard's old office in Madison Square Garden to become match-maker.

There was much speculation as to whether the Boy Bandit, as Broadway knows him, would click. But it was definitely known that Johnston knew his cauliflower trade and knew it well.

Made 'Em Like It. Fighting is in the doldrums—for everybody but Mr. Johnston. During the year before, Madison Square Garden had leased both the Polo Grounds and Yankee Stadium in an effort to corner the market on outdoor fights. The Boy Bandit had gone over to Ebbets Field and proposed one success after another, including the Carnera-Redmond fight that spotted the night's sleep of 40,000 people.

His accomplishments at an out-of-the-way ball field brought the millionaires of Madison Square Garden to his terms, which, by the way, included 10,000 shares of stock.

Laughs at Depression. There is no longer any reasonable room for speculation about the Boy Bandit clicking. In the very slough of an economic depression, he prevailed upon the Garden to build an arena at Long Island City for the promotion of the Schmelzing-Scharkey championship affair. And 70,000 people paid \$500,000 for the honor of sitting in on the somewhat disappointing pugilistic christening of the big saucer.

He followed right up with the slam-bang Schmelzing-Walker battle which brought nearly \$200,000 more into the box office. Clicking? Why the old Boy Bandit is clicking like a Big Bertha.

Kid from Liverpool. Who is James J. Johnston? He is a British-born citizen, 57 years old, with black hair and piercing black eyes to match. He is the father of 11 children, the eldest 37 years old.

As a lad of 11 he took steamer from Liverpool. At 14 he was toiling in a foundry for a stipend of something like \$1.75 a day. The Boy Bandit was a success at the foundry trade, too, raising his status to foremanship at \$4 a day before he was 20.

He fought a little at 104 pounds. His fight career ended when they wanted to match him with Terry McGovern at \$25 for the evening. Mr. Johnston already had \$25, and figured that even eight days of foundry work were more pleasant than half an hour in the same ring with Terry.

Gypsies and Chinks. So he decided to become a manager, arranging for somebody else to take it on the chin. That he was a great manager you don't have to be told. He had a way of rigging his robots in romantic robes.

Gypsy Daniels was no gypsy, but Johnston sent out to a 10-cent store for a bandana and earrings and made Daniels wear 'em.

George Cuno was one of Mr. Johnston's Chinese fighters, born in Italy, and Johnston sold him to all Chinatown as "Ah Wong, the Canton Killer." He had some great fighters, too. Among these were Harry Greb, Ted "Kid" Lewis and Johnny Dundee.

Trying to find a man to fight Dempsey he advertised in the New York newspapers for "young heavyweight champion of the world—experience unnecessary." Some 5,000

Wagner Scores Hoover's Attitude Toward Tariff

ALBANY, Oct. 4 (AP)—United States Senator Robert F. Wagner, democratic state convention keynote, declared in his address to day that President Hoover's "record shows that he is willing to use the tariff laws of the United States to pay the political debts of the republican party without regard to the havoc he plays with the livelihood of the American family."

Wagner, a Tammany man, asserted, as the packed convention hall roared its approval: "We pledge ourselves and the nominees of this convention to continue the fight we have waged behind a leader to whom government is not a mechanical process, but a system of co-operation to further the advancement of humanity."

Wagner added "that quality of leadership we shall have when Franklin D. Roosevelt is elected president of the United States."

The days conferences were considered to have eased the tension of the race between Lieutenant Governor Herbert H. Lehman, supported by Governor Roosevelt and Mayor John Boyd Thacher of Albany or the gubernatorial nomination.

Former Governor Alfred E. Smith remained at his hotel during the afternoon session.

Roosevelt is understood to have advised Tammany he is prepared to take the floor vigorously to fight for Lehman's nomination.

replied to the ads, and the Boy Bandit set them to slugging one another in scores of Gotham gyms.

His greatest mistakes have been the turning down of Jess Willard, who wanted to fight for him, and the management of Phil Scott. But he even had the folks believing for a time that Scott was somebody.

Game Dates May Be Changed for City Ball League

Games in the City Playground league scheduled for this afternoon will probably be postponed and reset at a meeting of team managers and league officials in the chamber of commerce rooms at 8 o'clock tonight. Several team managers announced this morning that it was too cold and windy to play ball.

It will be suggested at the meeting tonight that the rest of the schedule be played on Saturday and Sunday afternoons instead of Tuesday and Thursday nights. Even starting games at 5:30 o'clock sharp does not allow time to play a full seven innings before dark and, as President C. E. Roff says, "there are several seventh inning teams in the league."

Four scheduled games and several postponed games remain to be played in the second half of the schedule.

Rob Roy Slips Holds on City Officials—Yes!

Rob Roy, local wrestler, spent yesterday afternoon with City-Manager C. L. Stine, Chief of Police Jno. V. Andrews and members of the city police force, showing them various holds used in handling prisoners without endangering themselves and without manhandling the prisoner. Rob had studied methods used and will instruct the police force from time to time. "Yesterday afternoon the local boy showed the officers (he front) wrist lock used to disarm a man of gun or knife, the two-finger strangle, and the wrist lock. After instructing the officers, Rob had them use the hold on him and then on one another. They practiced for some time and readily learned the various holds. The city manager also took the course, "just for exercise," he said.

The wrist lock and finger strangle are used extensively in handling drunken prisoners who get stubborn.

Tokyo Now Third City In World

NEW YORK, Oct. 4 (AP)—The official and unofficial standings in the population race of the world's great cities were upset in the last week by new totals announced from New York and Tokyo.

New York's unofficial metropolitan population reached the huge figure of 12,655,187; while Tokyo, on the other side of the world, came up from the ruck officially to third place by announcing its population as 8,312,000, jumping ahead of Berlin, Chicago, Paris and Moscow.

Officially, New York, with a population of 6,981,915 in its five boroughs, plays second fiddle to metropolitan London with 8,202,818; but the Merrhams' association of the American metropolises announced there are more than 12,000,000 human beings in the city proper and 23 adjoining counties of New York's trade territory.

Tokyo, which had counted its population at 2,500,000 and its area as 31 square miles, went on an annexation spree, absorbed 82 villages and towns increasing its square mileage to 233, and its population to more than 5,000,000.

The official standings now are: Greater London 8,202,818 New York City 6,981,915 Tokyo 5,312,000 Berlin 4,296,000 Chicago 3,376,438 Paris (within walls) 2,871,039 Moscow 2,745,000 Counting New York's metropolitan territory, approximately 40,000,000 persons live in the seven largest cities in the world.

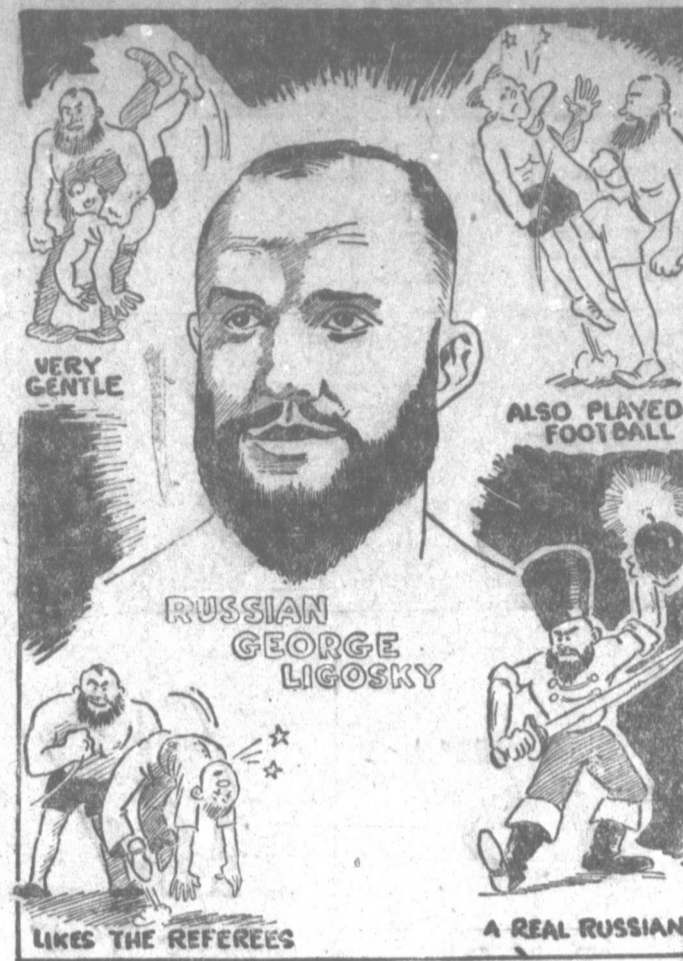

Deciding Game of Little Series Today

MINNEAPOLIS, Oct. 4 (AP)—All Newark and Minneapolis trooped back to Nicolet park today to break their deadlock in the fifth game of the Little World series.

Both hoped for a bit of luck and a brace of consecutive wins to wind up the double "A" engagement.

A 41-year-old veteran, gray-haired Jess Petty, was today's pitching entry for the Millers. Big Jim Weaver was considered the most likely starter for Newark.

WHAT A MAP—WHAT A PAN

Here he is, ladies and gentlemen, Gentle George "Whiskers" Ligosky, the world's greatest whiskered wrestler. George will meet Rob Roy, local mat wonder, at the Pla-Mor auditorium Wednesday night in a finish match and it should be the finish of one or the other. Ligosky is known from coast to coast as one of the roughest and toughest light-heavyweights in the game today. His whiskers are a temptation to the opposition and when his opponent starts pulling whiskers Ligosky starts to wrestle. A good semi-final and preliminary will support the main event.

TODAY'S HARVESTER.

Siler Faulkner, known better as "Roughness," is an ex-Gorilla who is making an able Harvester substitute this year, his first with the green and gold. Siler plays end and is one of the most dependable pass receivers on the team. He is the son of Mr. and Mrs. Siler Faulkner Sr., and is a real Pampa, having been born in Gray county. Siler is 18 years old and weighs 145 pounds. He played on the Gorilla team, both backfield and line, last year, which was his first local football experience. He speed on his feet allows him to get away from opposing players. Siler is also a member of the basketball and track teams.

Is this football weather? I ask you. The Harvesters got on the west side of the grandstand yesterday afternoon and worked with a vim but the wind whistled around once in a while and sand hid them from one another for a while. Oh, yes, that was when the wind was out of the northeast for a while. It started out of the west, shifted north, then northeast and from then on I don't know where. Coach Argus Fox sure put the boys thru a tough afternoon.

Card Wednesday Night Will Feature Three Class A Matches.

Three of the best matches of the season will be on the program at the Pla-Mor auditorium tomorrow night. The main event will bring Rob Roy, local favorite, and Russian George Ligosky of Russia, together in the main event. Red Michael, local boy, will meet Kid Thomas of Berger. Both have lost matches to Henry Clausen and they will decide which is the better tomorrow night. J. T. Watt, Pampa flash, will tangle with Joe Short of Berger.

Watt and Short have yet to be eaten but one of them will likely go under tonight. They both weigh about 110 pounds and are fast and heady. This Thomas fellow has been making a name for himself in Berger recently. He lost to Clausen in the same time it took the House of David man to throw Michael and with the same hold. The redhead has improved until he is a strong contender for headline matches.

Roy will give the big Russian 10 pounds when he enters the ring with him. Rob will weigh 167 and the Russian 177 pounds. The whiskered wonder has been sidestepping the local boy for several weeks but has at last been cornered. He will bring his bride to Pampa with him tomorrow night.
