VOL. 1, No. 44.

(AP) Features and Comics

PAMPA, GRAY COUNTY, TEXAS, SUNDAY MORNING, AUGUST 2, 1931.

(Full AP Leased Wire)

PRICE FIVE CENTS

FIVE KILLED AS TRAIN HITS CAR

LINDY ON WAY TO MOOSE FACTORY WELLS RUN WILD BEFORE SHUTDOWN

EXPECT ORDER TO CLOSE ALL WELLS MONDAY

UKASE REMINDS STATE PURCHASERS PRICE MUST GO HIGHER

AUGUST CURB BEGINS

PRODUCERS GET CRUDE WHILE GETTING IS GOOD SATURDAY

OKLAHOMA CITY, Aug. 1. (AP)—Governor "Bud" Murray again threw down the gauntlet today, this time for a shutdown in his fight to force the major oil purchasing companies to increase the price of "crude" to \$1 a barrel.

At the crack of dawn, as the time neared for an expected order from the fiery chief executive closing in all wells in prorated areas of the state, great valves were turned on in a score of oil fields and a frantic race between throbbing pipeline currents and time was on.

Today was the beginning of a new monthly period for the taking of allowable flows under the existing prorotation rules of the state corporation commission and Murray's executive charter carrying the shutdown order was seen on the horizon.

"Get some oil while the getting is good," was the slogan, for no operator knew when the shutdown order would close the vast caverns from which 13,000 wells are able to produce.

At noon, Governor Murray reiterated that the shutdown order would come if oil prices were not increased by tonight. Moreover, the ukase reminded the oil men that the order would be backed by use of the national guard if necessary.

Oil men still were in the dark tonight as to when the order itself might come. The governor said the delay was caused by necessity for re-drafting the edict.

RAILROAD BODY MEETS MONDAY TO RAISE CASH

Members of the right-of-way committee of the B. C. D. and the 22 Pampa men who guaranteed the money to purchase right-of-way for the Fort Worth and Denver line through Gray county and terminal facilities here will meet at 3 o'clock tomorrow afternoon in the B. C. D. rooms.

Pledges already made will be received at the B. C. D. rooms and business hours will be asked to send in their pledges so that the committee can start purchasing right-of-way immediately, according to Mr. Davis. He said it would be a great saving of time and labor if those who have pledged money would mail their checks immediately.

The sooner the money is received and the right-of-way purchased construction can be started. Bids for the entire line will be opened Aug. 11. Pampa citizens have not raised the total amount necessary for the right-of-way and it will be the work of the committee and the 22 men to raise the balance of the amount. Plans will be discussed at tomorrow's meeting.

Commission Lets Road Contracts

Contracts for more paving in the Panhandle were let by the Texas State Highway commission yesterday, according to the Associated Press. The Interstate Construction company of Lubbock was awarded a contract for 16.3 miles of concrete paving on highway 75 from the Gray county line to Shamrock. The price was \$280,713. Previous contracts had been let for paving of the same highway through parts of Gray, Carson, and Potter counties.

Earl W. Baker and company of Oklahoma City received a contract for 64 miles of grading and drainage and concrete paving from Amarillo creek to Canadian river on highway 5. The bid was \$10,902.

Irwin Builds Own Plane

PAMPA FLIER PLANS SECOND TEST FLIGHT FOR SHIP AT LOCAL AIRPORT THIS AFTERNOON

If flying weather prevails this afternoon, Gus Irvin will take up his new airplane in a second test-flight at the local airport.

The make of Pampa's newest ship has not been determined by Mr. Irvin yet because he made it himself in the last two and one-half months. It has a 65-horsepower Velle motor in it. The tail section and top wings of the American Eagle (formerly owned by the Pampa Flying club, were repaired and used by Mr. Irvin in construction of his plane. The club's ship was almost totally destroyed in a crash here last year.

Mr. Irvin made the fuselage. The ship is a low-wing type and has a wing-spread of 32 feet and 9 inches. It is braced with stream-line wires. Mr. Irvin has just put a red and white paint job on it.

First test flight was made last week. Mr. Irvin was more than satisfied with the plane's initial performance. He said it would take off easily in 150 yards and sits down unusually slow. The Velle motor was taken from a Monocoupe which Mr. Irvin acquired in March of this year. He was not satisfied with it, so not having the money to buy the kind of plane he wanted he decided to build one for himself. About two years ago, Mr. Irvin built a plane but it cracked up in the first test. He was not at the controls.

Mr. Irvin has about 200 hours of flying and has held a limited commercial license for the last nine months. He has had enough hours for a transport license and is now waiting for the inspector to visit Pampa to take an examination for it. Inspector H. C. L. Delaney of the department of commerce visits Pampa regularly to give various tests for aviators.

The plane was built at the local airport and is in the second hangar from the south. The low-wings and the red and white paint job are reminiscent of a Lockheed—however, Mr. Irvin has not decided upon a name for the plane. The ship has one place in the cockpit for a pilot and one for passengers.

Since the smash-up of the Flying club's plane, Mr. Irvin has been flying Art Pavey's American Eagle regularly and has added several hours to his total. He believes his new ship will perform admirably on its second flight. Last week he took it up about 500 feet before he painted it. He said everything worked smoothly.

SOLONS STUDY OIL MEASURES

MARKETS HOLD CENTER OF PARLEY IN LEGISLATURE

AUSTIN, Aug. 1. (AP)—Deep in committee work on the general subject of oil conservation, the Texas legislature rounded out today its seventeenth working day.

Today, committees from both branches of the house as a whole and the senate state affairs committee, went over in detail the major pieces of legislation proposed.

In the senate, the Texas oil emergency committee's bill occupied most of the discussion, proponents defending a provision permitting the commission supervising oil matters to consider market demand in preparing and issuing its orders for the prevention of physical waste in production, transportation, storage and use of oil and gas.

The house, working on the Wagstaff bill the administration approves, heard an attack on the bill by Representative T. H. McGrew of Austin, who will offer a substitute.

The Wagstaff program, "brother" to that of Senator Walter Woodward in the senate, would set up a new conservation commission and give it broad powers to prevent waste, to leave his school last year and the previous year was a teacher at McLean. She moved to McLean from Lubbock. Mr. Thurman is connected with the Miller-Lybrand Motor company here. He is active in Legion and 40 and 8 activities.

Thurman Is Wed to Miss Lorraine Reed

The marriage of Miss Lorraine Reed and Mr. D. W. Thurman which took place in Sayre, Okla., June 28, was announced last night. Mrs. Thurman is the daughter of Mr. John B. Reed of McLean, resident of this county for the past three years.

Mr. Thurman taught in the LeFors high school last year and the previous year was a teacher at McLean. She moved to McLean from Lubbock. Mr. Thurman is connected with the Miller-Lybrand Motor company here. He is active in Legion and 40 and 8 activities.

The couple will make their home in Pampa.

HESSEY AND PARTY BACK FROM TRIP TO YELLOWSTONE

Mr. and Mrs. J. B. Hesse and children returned Friday from a trip to Yellowstone National park. They were accompanied by Mrs. J. B. Hesse Sr., Mr. Hesse's mother.

The party was much impressed by the beauties of the park, particularly by the geysers. The children, and grownups too, were amused and delighted to stop cars and then sought eagerly to find foodstuffs.

Mr. Edwin Vicars underwent a major operation at Pampa hospital yesterday morning. She is improving satisfactorily, hospital attendants said.

Mr. and Mrs. Clyde Wyont and children of Phoenix, Ariz., are visiting relatives here. Mr. Wyont is the brother of Mrs. Tom Jackson. Mrs. Thad Johnson and Clarence Wyont.

Abundance of Local News Makes NEWS-POST Dominant in Pampa

Readers of The NEWS-POST, The POST, and The NEWS get what they buy—a LOCAL newspaper.

To a great extent, the value, interest, and service of any small daily newspaper are in its LOCAL NEWS. During the last week, readers of The NEWS-POST combination were given a total of 340 LOCAL ITEMS. Another daily newspaper here carried during the same period about two dozen local articles.

Last Sunday's NEWS-POST had 55 local items, including 17 general articles, 31 society page stories, and personals. The five POSTS of the week carried 126 LOCAL items, while the same number of copies of The NEWS contained 167 LOCAL items.

This newspaper carried 140 general local stories during the week, compared to about a dozen in the other publication, and 113 society stories, compared to about a dozen. Personals in NEWS-POST papers totaled 85, compared to the other paper's five or six.

The NEWS-POST is dominant in Pampa because people WANT THE LOCAL NEWS and get it in this newspaper. The NEWS-POST pays a great sum for day and night Associated Press leased wires, picture and feature services, and territorial news, but its VALUES LOCAL NEWS MOST. Local news is what makes everyone wish this newspaper above the big dailies sent here from distant cities. Local news is a commodity in which it can have no outside competition.

Twice daily, NEWS-POST papers carry LOCAL NEWS to local readers, together with about 20,000 words of state, national, and international news. Note the readable type, set close together to conserve space. Compare the number of words per column-inch and note the superiority of this newspaper. News is the life blood of a newspaper, for it determines circulation. And an abundance of every kind of news makes this paper "FIRST IN PAMPA"

PAMPAN GATHERS SUGGESTIONS ON LEAVING IN RAIN

To leave or not to leave—that was the question which the Pampans, asked certain habitual travelers and advice dispensers yesterday while the rain fell in torrents. The destination was Denver and other points in Colorado and Northern New Mexico.

Ben Reno, 34 man, unloaded a series of stories about rains and snows and ventured the opinion that one day was as good as another—one would have plenty of trouble anyway, he said.

C. H. Walker was more optimistic but he advised delay, thinking that the rains might be general and that postponement should be like a flier's take-off—based on the best outlook possible.

"Why wait," asked Judge J. H. Elythe. "Rain won't stop an enthusiastic traveler and one should try to enjoy it. There is rain in all mountains, you know—you just expect it."

Mrs. Chas. I. Hughes, who recently returned from Colorado's mountains and lakes, advised caution in tackling a detour north of Amarillo. She thinks good roads necessary to best enjoyment of vacations.

But George Briggs recommended an immediate take-off. "He would," said Mrs. Hughes, assistant in the See PAMPAN, Page 8

Pampa Lions Club Hold Mid-Summer Dinner Party Soon

The mid-summer ladies night dinner party of the Pampa Lions club will be at 7:30 o'clock Thursday night in the basement of the First Baptist church. There will be no noon luncheon.

The affair has been arranged by the committee on special arrangements in honor of its outgoing and incoming presidents. During the program W. A. Bratton will be presented with the past president's pin by Dr. George W. Wallace and the new president, C. H. Walker, will be formally installed by Ivy Duncan, a past president.

The principal speaker of the evening will be Senator Wallace Hughes, red-haired Irishman and past district governor of Lions in Oklahoma. He is a well known speaker, famed for his wit and humor which intersperse his addresses.

A mixed quartet composed of Mrs. W. A. Bratton, Miss Lorene Bastain and DeLa Vicars and John Sturgeon will sing.

All Lions are expected to notify Carson Loftus, secretary, not later than 10 o'clock Wednesday morning of the number of tickets for guests needed.

Albert Baer left yesterday for a short visit in Oklahoma City.

RADIO SILENT DURING LAST PART OF DAY

FLYING CONDITIONS IN CANADA ARE GOOD ALL THE WAY

WORLD AGES DELAYED

PANGBORN, HERNDON IN SIBERIA FLYING TO IRKUTSK

NEW YORK, Aug. 1. (AP)—Word was lacking tonight from Col. and Mrs. Charles A. Lindbergh on the last stages of a 461-mile flight from Ottawa to Moose Factory in Canada, but friends recalled their repeated statements that no definite schedule would be maintained on the holiday jaunt toward the Orient.

The perfect flying conditions were reported over their route and numerous intermediate lakes and rivers offered landing places for the couple.

The radio of the Lindberghs' last monoplane had not been audible since 1:15 p. m. (E.S.T.) when Mrs. Lindbergh messaged the station of the department of national defense at Ottawa that they still were "traveling north." No position was given. In this connection, it also was recalled that the Lindberghs experienced trouble with their radio during the earlier stages of the flight.

The Lindberghs took off from Ottawa at 9:40 a. m. (E.S.T.) today and left for Chita three hours and fifteen minutes later, reports to the Tass agency here said.

MOSCOW, Aug. 1. (AP)—The American round-the-world fliers, Hugh Herndon Jr. and Clyde Pangborn, arrived at Omsk, Siberia, at 2 p. m. (4 a. m. E.S.T.) today and left for Chita three hours and fifteen minutes later, reports to the Tass agency here said.

All fortune dogged the flight east. See RADIO SILENT, Page 8

EDISON PULLS THRU COLLAPSE

AGED INVENTOR TAKES SUDDENLY ILL AT N. J. RESIDENCE

WEST ORANGE, N. J., Aug. 1.—Thomas A. Edison, who has been falling in health since his return from Florida six weeks ago, suffered a sudden collapse late today but recovered, and was said to be resting quietly shortly afterward.

The condition of the aged inventor, who is in his 85th year, was such that one of his physicians, Dr. Hubert S. Howe, who had been swimming at Sands Point, Long Island, hurriedly chartered an amphibian plane and flew from Manhasset Island airport to Newark, N. J., where an automobile and a police escort speeded him to the Edison home to join two other doctors.

After a consultation the following statement was issued by the physicians:

"Mr. Edison has been falling in health since his return from Florida six weeks ago. He is suffering from chronic nephritis and diabetes. The diabetic condition is now under control and the kidney trouble seems improved as compared with a week ago."

"This afternoon he suffered from a sudden collapse, but at present he has recovered from this and is resting quietly."

"FAVORITE SON" IS WRONG MOVE

Siler Faulkner, Democratic county chairman, finds nothing to commend in the "favorite son" moves in the various states.

Not alone antagonistic to Governor Ross Sterling as a party standard bearer, Mr. Faulkner believes that such voting for favorite sons makes it impossible to bestow proper credit and confidence upon the party's nominee. Nominations preferably would be on the first or second ballots, but state rivalry often makes this impossible.

The trend toward Governor Roosevelt is regarded as gaining momentum rapidly, although many things could happen between now and the next party convention.

STRIKING STUDY OF LLOYD GEORGE

David Lloyd George, Great Britain's war-time premier who has been seriously ill, is shown in this striking character sketch. He played a leading part at the Versailles peace conference with President Wilson of the United States, Premier Clemenceau of France and Premier Orlando of Italy.

SCOUTS GIVEN MERIT BADGES

COURT OF HONOR HELD BY LOCAL COUNCIL; TWO RANK EAGLE

Fifteen Pampa Scouts received 50 merit badges at a Court of Honor in the First Presbyterian church Friday night. Berton Doucette and Wilks Chapman attained the rank of Eagle Scouts. They are the first boys in Pampa to reach that rank.

The court was under the direction of the Rev. A. A. Hyde, with Norvell Stevens, Pampa Scout, acting as master of ceremonies. An interesting program preceded the presenting of the merit badges by local men, members of the Scouters club. The court was the last before the summer camp at Red river which opens Aug. 17.

Rain Stops Work On Borger Road

The Stucky Construction company run 2,028 feet of concrete on the Borger road Thursday and Friday before work was stopped by rain. The company was given the contract to pave the remaining four and one-half miles between Pampa and the Carson county line two weeks ago.

Pouring of the concrete is under supervision of County Engineer A. H. Doucette and is assistant engineer, J. P. Werung. The pavement is of the Bates type 9-6-9 inches. A move has been started to create a special road district around Skellytown so that bonds can be voted to continue the paving through that section of the county, and meet the supervision of County Engineer county would then be asked to pave a short strip to make continuous paving from Pampa to Borger.

Pearson Awarded Building Contract

J. O. Pearson, owner of the Plains Construction company here, has been awarded the contract to erect the Las Vegas, Nev., federal building, according to word received here yesterday from the treasury department. The price was \$237,000.

Mr. Pearson says he will probably start construction of the building late in August.

The following were discharged from Pampa hospital yesterday: F. Long, Mrs. B. L. Adams and infant daughter, Mrs. W. H. Potter and Mrs. S. F. Dorman.

3 DAUGHTERS ARE CRUSHED IN BACK SEAT

AGED FATHER AND SON THROWN FROM CAR BY IMPACT

FIREMAN SEES WRECK

AUTO STOPPED BEFORE LURCHING FORWARD, MARLEY SAYS

FORT WORTH, Aug. 1. (AP)—Five persons were killed Saturday afternoon when their automobile was hit by a southbound Fort Worth and Denver City passenger train about 25 miles northwest of Fort Worth.

The dead: J. W. Keene, 49, Burlington. His three daughters, Evetta, 17; Lewellen, 15, and Marie, 10, all of Burlington.

John Keene, Rhome, father of J. W. Keene.

Mrs. J. W. Keene, who was at the home of her father-in-law at the time of the crash, is in Baptist hospital here suffering with shock. The Keene residence, at Rhome, is approximately three miles north of the crossing where the accident took place. She ran from the house along the railroad right-of-way to the wreck.

The occupants of the car had gone for an automobile ride shortly before the crash. Witnesses said they were driving down hill, while the train was starting up a grade.

The crash victims had been visiting relatives who lived a quarter of a mile from the scene of the wreck. They had just left the place when the accident occurred.

The two men were thrown out of the car. The bodies of the children were tightly pressed in the back seat. Witnesses said the youngest girl lived a few minutes after the crash. The others apparently were killed instantly.

Wreckage of the car was strewn for a quarter of a mile along the railroad right-of-way. The locomotive's cow-catcher was broken. The train, which left Denver, Colo., Friday afternoon, was due in Fort Worth at 4 p. m. Saturday. Members of the crew are Engineer J. E. Collins, Fireman Oscar Marley and Conductor R. McHam, all of Dallas.

Marley, who was riding on the left side of the cab, was the only member of the crew who saw the car before the crash.

"It was a light sedan and was traveling east, apparently to get onto the main Fort Worth-Denver highway," he said.

"When we were a short distance from the crossing the car stopped and I thought it would wait until my train had passed. An instant later it lurched directly into our path."

Marley said the train was traveling about 50 miles an hour at the time.

Rites for Accident Victim Are Today

Funeral services for Tolle Ash, 18-year-old son of Mrs. B. F. Ash, who died Friday night of a fracture at the base of his skull, will be held this afternoon at 3 o'clock at the Church of Christ, under the direction of G. C. Malone funeral home, with the Rev. Luke Preba in charge.

The youth was injured at noon Friday when he was riding in a trailer which broke loose from a car, and was hurled to the pavement in South Pampa.

Pallbearers will include John Crowl, Herman Kreiger, Other Hawkins, Melvin Wade, and Walton Heard.

He is survived by his mother, three sisters, Mrs. Alice Rollin, Fleming; Mrs. Eunice Moore, Dumas; Mrs. D. Howry, Crane; four brothers, E. B. of Pampa; D. C. of O'Donnell; E. E. of Kilgore, and W. F. of Taos, N. M.

PROMOTING AVIATION

The Legion, through its posts that extend over the nation to every habitable corner of the country, has painted the names of hundreds of towns on high roofs of buildings, for the guidance of aviators. Excepting fog, any aviator can find his way, if lost, by flying over almost any good sized town in the United States. In 1929, alone, 4,000 posts engaged in this activity.

THE WEATHER

WEST TEXAS: Mostly cloudy, thunder showers in west portion Sunday; Monday partly cloudy, probably thunder showers in south-west portion.

EAST TEXAS: Partly cloudy Sunday; Monday, somewhat unsettled. Light to moderate southeast to south winds on the coast.

OKLAHOMA: Partly cloudy, continued warm Sunday and Monday.

PITTSBURGH CHALKS UP THIRD SHUTOUT GAME IN ROW

REDS ARE HELD SCORELESS FOR ANOTHER GAME

TRAYNOR MAKES ONLY RUN DURING TILT ON HOME FIELD

PITTSBURGH, Aug. 1. (AP)—Pittsburgh's Pirates of the National league chalked up their third shut-out in as many days today, Glenn Spenser winning a 1-0 victory over the Cincinnati Reds. Pirate pitchers ran their string of consecutive scoreless innings to 31.

GIANTS WHITEWASH BOSTON BEAVES
NEW YORK, Aug. 1. (AP)—Carl Hubbell shut out the Boston Braves with five hits today to give the Giants a 2 to 0 victory and square the series at one game each. Ben Cantwell, Hubbell's opponent in a second five pitching duel, had only one bad inning, the second, in which the Giants scored both their runs on three of their five hits.

OTIS DEFEATS MAN FROM CALIFORNIA

Wrestling fans at Flagstaff, Ariz., saw plenty of action Friday night when Sailor Otis Clingman of Pampa and Captain Joe Carter of California met. After almost two hours of furious mauling Clingman took the odd fall with one of his famous drop toe holds. Clingman won the first fall and Carter won the second.

Red Michaels, Clingman's protege, lost his first match of the tour to Carter's kid brother, Frank Carter. It was a 30-minute time limit which Carter won in 28 minutes after a snappy bout.

The two Pampa wrestlers have been on a tour of New Mexico and Arizona which has lasted two months. They have a tempting offer to go to the Pacific coast but had not definitely decided whether to make the trip last night, according to a message to Mrs. Clingman.

CUBS NOSE OUT ST. LOUIS CARDS

CHICAGO, Aug. 1. (AP)—Doubles by Blair and English and a hard single by Cuyler, after two were out in the eighth inning, brought a victory to Fat Malone and the Chicago Cubs this afternoon in the third game of the series with St. Louis. Sylvester Johnson and Malone were about even in their pitching duel, Johnson holding the Braves to fewer hits, but they were bunched.

BRUSHING UP ON SPORTS

RED MAY MANAGE SOX

By Laufer

RED HAS BEEN WITH THE SAME CLUB FOR ... 17 YEARS—THE CHICAGO WHITE SOX—
THE SOX, ON THE VERGE OF GAINING FABER AFTER HIS DEBUT IN 1914, LOANED HIM TO THE NEW YORK GIANTS ON THE WHITE SOX-GIANTS WORLD TOUR—FABER BEAT THE SOX 4 IN A ROW ON THE TRIP AND THE SOX MANAGEMENT NEVER HAD ANOTHER THOUGHT OF GETTING HIM—
"HIS BEST YEAR WAS 1921—25 VICTORIES—"
"WON 3 WORLD SERIES GAMES IN 1917—"
"ATTENDED HIS ONLY SERIAL OF A BASE IN THE 517 SERIES—"
"OF COURSE THAT BASE HAD ... TO BE OCCUPIED—"

CHICAGO WINS SHUTOUT FROM DETROIT CATS

CHICAGO, Aug. 1. (AP)—Victor Frasier pitched the Chicago White Sox to a 6 to 0 victory over Detroit today in a series opener which saw only one Detroit player reach third base.

BROWNS MOVE UP FROM CELLAR
ST. LOUIS, Aug. 1. (AP)—The St. Louis Browns, occupants of the American league cellar a few weeks ago, advanced to within a game and a half of first division here today by taking the first game of a series of five with Cleveland 7 to 5, 11 to 1.

Bill Killefer's men hopped on Clint Brown for four runs on as many hits in the fourth inning to get the lead, which they maintained in spite of late threats by the Indians.

SPUDDERS WIN RUBBER GAME WITH GALVESTON

WICHITA FALLS, Aug. 1. (AP)—The Spudders won the rubber game of their series with the Galveston Pirates by tearing into the offerings of Andy Bednar in the early innings for a lead that resulted in a 7 to 1 decision. Alvin Hill pitched the Sox well in hand all the way, double by Molesworth and Ratliff accounting for the only run in the eighth.

PAMPA HOSTESSES GIVE MORNING AND AFTERNOON PARTIES

Gray County Folk to Return Today After Short Course

GIRL SCOUTS WILL BE ORGANIZED HERE MONDAY

FEMININE FANCIES

By Hollyce Sellers Hinkle

How's your health?
Mother: "The heat's about to get me down."
Daughter: "Oh, my headache."
Son: "What a sunburn!"
Father: "I guess maybe I'll live."

Yet what do they do about it? Work all the harder in the heat, eat more chocolates, get more mid-day sunshine, but little constructive exercise.

Poor health can turn a vacation into misery—a profession into drudgery. Health should receive first consideration throughout the year.

Schools are coming more and more to recognize the importance of physical well-being. The University of Texas has just completed a new \$400,000 building to house the physical education department for women. The building is second to none of its kind in the south.

A new course for freshmen will include rhythmic taught under the direction of the head of the dancing division, and fundamentals required in the playing of such sports as speed ball, hockey, soccer, baseball, basketball, and swimming.

Intramural sports are to be stressed. Upperclass students are given their choice of individual sports, such as tennis, golf, riding, swimming, archery, and dapping; the latter including interpretative, clog, tap, and folk dancing, and fundamental rhythmic, team sports such as basketball, baseball, or hockey; individual sports such as tumbling; or recreational sports in the nature of aerial dart or tennis.

"To help women get more fun out of living and to remedy physical imperfections is the aim of the physical education department of the American Woman's association in New York, which includes two gymnasiums and a swimming pool, all open to the public.

One woman said of the gymnasium: "Besides the regular work and games, large classes in tap dancing signify the general trend towards rhythm, while for excess avoirdupois, underweight, or the correction of physical defects, there are special exercises for individual gymnastics.

On the North Plains, Physical Culture clubs are proving popular, with hiking, swimming, and weiner roasts the principal diversions.

Health is so important in the modern life that the larger corporations are giving health rules to their employes and requiring that they obtain correct food, rest, and exercise. We are predicting that this practice will be carried even further, and that gymnasiums in connection with business concerns, even in times of depression, will not be unusual.

Steps toward health are, at present, largely the responsibility of the individual. There is good food to be eaten, but it must be selected in proper proportions by the individual. There are sports—golf, tennis, baseball, swimming, and hiking—but it remains for the individual to choose it and enjoy them. There are cool, comfortable clothes to be worn, but the individual must choose or reject them.

Clothes—they are as much required for health as anything else. We wonder how a man can stand the summer heat and wear several pounds of woolen clothing at the same time. We wonder how women can stand the heat with their heels three inches higher than their toes. Nature just has to have a little cooperation in this business of keeping the individual well and happy.

Anyone can let the weather "get him down" but it takes a dose of common sense to keep well.

Ruth Binford Is on Month's Trip

Miss Ruth Binford left early Saturday morning for Dallas, where she will visit relatives before going to Mesquite, Houston, Corpus Christi, and other points to spend the month of August. In September, she is to enter Baylor college at Belton.

Miss Binford made the trip to Dallas with Mrs. May Robinson of Los Angeles, who has been visiting a nephew, M. P. Downs, here.

Glovers Are Home Following Visit

Mr. and Mrs. John Glover and daughters, Mary Virginia and Betty Louise, have returned after a three-week visit to Los Angeles and San Francisco, as well as other points of interest in other western states. They were accompanied by Mrs. Glover's mother, Mrs. Murphy of Clarksville.

George H. Glover, who has been attending army encampment in San Antonio, was to have returned to Pampa last week.

GROUP IS FOR ANY GIRLS OF AGES 10 TO 18

ORGANIZATION TO BE SIMILAR TO BOY SCOUTS

An organization of Girl Scouts will be undertaken in Pampa Monday evening at 7:30 o'clock at the Methodist church. All girls (in the city between the ages of 10 and 18, as well as their mothers, are invited to attend and to ask any questions they wish regarding the new group.

Mrs. John I. Bradley, Mrs. Annie Daniels, and Mrs. E. A. Hampton will assist Mrs. Catherine Wilkerson in directing the group.

All of the women have had considerable experience in working with young people. Mrs. Bradley is historian for the Sam Houston Parent-Teacher association, and Mrs. Wilkerson is vice-president of the Woodrow Wilson Parent-Teacher association.

The Girl Scouts will be similar to the Boy Scouts, although home-making, child care, sewing, and meal planning and cooking also will be stressed. Healthful recreations will be encouraged, rather than artificial amusements. There will be meals served in the open, hikes, and other sports.

Dues will be 50 cents a year. Paul D. Hill, president of the Kiwanis club, will assist with the organization.

COMPLIMENT RECENT BRIDE AT GAY EVENT

"CHARIVARI" IS HELD IN TOWN; GIFTS GIVEN HONOREE

The home of Miss Sylvia Husak was the scene of a delightful party given in honor of Mrs. John Collins, a recent bride. Friday evening, Mrs. Collins was formerly Miss LaVaca Moore.

A basket in the shape of a large pink rose filled with many useful gifts was presented to the honor guest.

Refreshments were served, and at 10 o'clock a number of young men arrived and the couple was taken to town, where a "charivari" followed. The guests were then invited to the home of Mrs. Bert Moore, mother of the bride, where the guests were treated.

Those present were Mr. and Mrs. John J. Collins, Mrs. Letha Harris, Josephine Wooten, Florence Ward, Inez Mitchell, Louise Pearce, Viola Haggard, Oletha Jones, Etha Jones, Josephine Lewis, Eva Mae Moore, Louise Embody, Marie Husak, Sylvia Husak, LaVonda Jo Galvin, Beulah Lee Robertson, Messrs. Joe Gravelle, Mitchell Harvey, Paul Jones, Kenneth Wyatt, Don Sausbury, Dick Benton; Mesdames Bert Moore, F. C. Fischer, Eva Arend, and John J. Husak.

New Schedule Is Declared Success

The new schedule of services at the First Christian church started a few weeks ago is very successful, according to the Rev. F. W. O'Malley, minister, yesterday. Within the first two or three services, attendance was increased about 50 per cent.

Preaching services begin at 10:15 o'clock each Sunday morning, and the Bible school follows. The crowd is dismissed before 12 o'clock.

Mme. Worth Chooses Brown and Beige

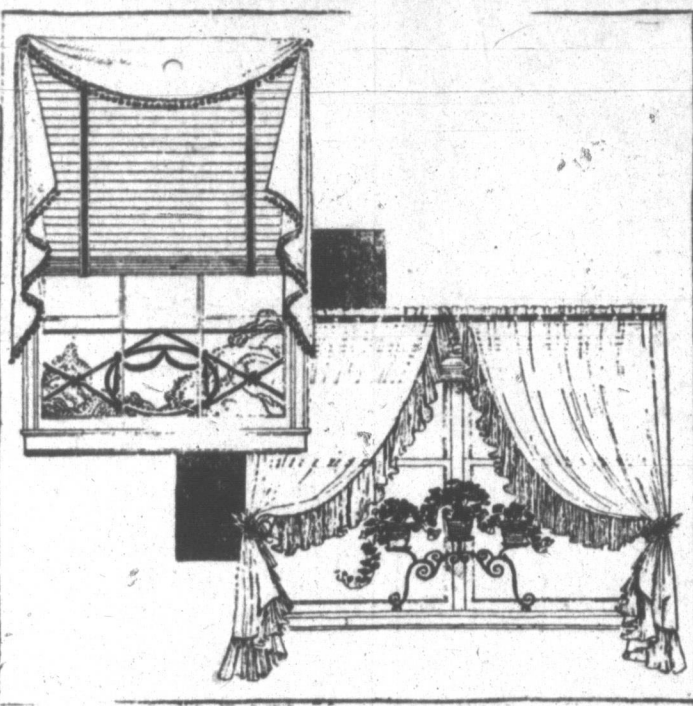

PARIS, Aug. 1. (AP)—Mme. Jean Charles Worth is among blonde Parisians who have sponsored the vogue for brown and beige.

Mme. Worth appeared at the recent races at Auteuil in a beige malleco sports frock designed with insertions of tucks on the blouse and skirt and worn with a three-quarter coat finished with a brown scarf. With the costume she wore a small brown hat and accessories in the same shade.

Mrs. Potter Palmer Chooses Shantung

PARIS, Aug. 1. (AP)—Mrs. Potter Palmer of Chicago, who is spending the summer in Europe, has appeared at recent sports events in a costume of a blue and white shantung. The costume is designed with a navy blue skirt and hipbone jacket accompanied by a white pull-over blouse, trimmed with a wide horizontal band of dark blue.

BALL FRINGE COMES BACK

Curtain styles a hundred years old are new today.

By MARGERY TAYLOR
Interior Decoration Editor, McCall's Magazine. Written for Pampa News-Post

Summer windows this year are going back a hundred years for style. But those to whom the words "Empire" and "Director" conjure up pictures of elaborate and more-than-heavy draperies will be surprised at how gay and summery curtains can be and still be obviously inspired by these periods.

Blue Is Popular
For instance, a window in the new manner would have light, turquoise-blue Venetian blinds, a festoon of soft peach chintz, with swags hanging down two-thirds of the window length on each side—and all finished off with a blue ball fringe.

And there you have all three of the leading features of the new window—Venetian blinds, festoon valances and ball fringe.

Venetian blinds for windows of almost any size or shape and in almost any color are now available. And the adjustable slats add utility to beauty by giving the room maximum light and air.

The ball fringe has been given as heard a welcome as so many other nineteenth century things by those who would resent being called "nineteenth century."

Suddenly it has become quite appropriate for almost any window drapery—edging on scrim or marquette, instead of ruffles, or on chintz.

Wooden Drops Used
And two and one-half inch gold-covered wooden mold drops on a See BALL FRINGE, Page 5

LADIES NIGHT IS PLANNED BY LIONS OF CITY

STUNTS WILL COMPRISE LARGE PART OF PROGRAM

A program of unusual interest will be provided for ladies' night next Thursday by Pampa Lions. The principal speaker will be Senator Wallace Hughes of Guymon, Okla., who is deputy district governor of Lions clubs in Western Oklahoma. He is regarded as a very able speaker and an authority on civic club work.

Stunts will comprise a part of the program. One will be presentation of a \$10 check to ladies of the First Baptist church, who will prepare the meal. This check will be so worded that it cannot be cashed at the bank until it has 25 endorsements in payment of debts or in making purchases. The purpose of the stunt is to illustrate how payment of a debt makes possible discharging of many obligations.

Capital Society Dons Gay Colors For Beach Days

WASHINGTON, Aug. 1. (AP)—Gay colors will run rampant on beach umbrellas and broad-brimmed straw hats as smart members of capital society flock the beaches.

While cabinet members' wives may forego the gaudy bathing suits, they plan to avail themselves of the cooling shade of almost fool-wide hat brims.

The swing-back from no brims to all brims is already meeting with favor for almost every occasion from luncheons to garden parties, and plan to avail themselves of the cooling shade of almost fool-wide hat brims.

Most of them are decorated with designs ranging from flowers to diving mauls. Sometimes, however, a flapping broad brim is very plain and has enough style for a garden party.

COTTON TOGS ARE APPROVED BY DELEGATES

CONTEST PRIZES ARE AWARDED ON FRIDAY

A number of Gray county residents are expected to return today from College Station, where they attended the farmers short course at Texas Agricultural and Mechanical college all last week.

Those attending the course were County Agent and Mrs. Ralph R. Thomas, who made the trip by automobile, and the following who went by train: Pampa—Miss Myrtle Miller, county home demonstration agent, and Mrs. H. H. Isbell, delegate from Wayside club; McLean—Mrs. R. S. Saunders, Mrs. Norman Johnson, Mrs. E. J. Gething, and Mr. Roby; Alameda—Mrs. A. B. Word; Eldridge—Joe Iva Clemmons; Bluebonnet—Mrs. Gus Davis; Grandview—Mrs. Joe Looper, Jewel Fay McCormick, Ruby Lee Jones, Clarence Tidwell, and Dolan Jones; Farrington—Mrs. J. R. Spearman.

The delegation was unusually large, considering that only 11 persons attended from this county last year.

COLLEGE STATION, Aug. 1. (AP) A display of 45 models of cotton dresses for women and girls was met with expressions of feminine approval at the Texas A. and M. college short course here yesterday.

The style show was a special feature of the program for home demonstration club women and girls' clubs. It was directed by Miss Catherine Cleveland, of the Cotton Textile Institute of New York.

Approximately 1,400 women and girls witnessed the display. Speakers included J. Taber, master nation grange, of Columbus, O., who discussed organization and progress; E. F. Staffleme, of Dallas, who spoke about a system of cotton standardization, and E. F. Creekmore, vice-president and general manager of the American Cotton Cooperative association, of New Orleans.

The short course program closed Friday night with an open air entertainment on the college drill field when prizes for various state contests were awarded.

Gold medal awards were made to 25 4-H club girls for outstanding work in Texas.

The miniature exhibit contest for county and home demonstration agents was won by Knox Farr and Made Wagner of Garza county, C. B. Martin, of Swisher county, was second, and Minnie Eldridge, of Fannin county, third. Montague county won the county banner in the tractor contest. The individual tractor contest was won by Haskell Day, of Uphur county.

DELEGATE FOR CONVENTION IS TO BE CHOSEN
A program of unusual interest has been outlined for the meeting of the American Legion auxiliary to be held Thursday evening at 8 o'clock in the legion hall.

Featuring the business session will be election of a delegate and an alternate to attend the state convention of the organization Aug. 22-24 in El Paso. Several Pampans are expected to attend.

A side program will be given under the direction of Mrs. S. A. Burns and another period of the evening will be devoted to numbers, honoring two gold star mothers, Mrs. S. H. Crossman and Mrs. Stella Pollard.

Refreshments will be served.

WEDDING ALSO IS ON CALENDAR FOR WEDNESDAY

The coming week will be an interesting one for Pampa society, with much variety shown in the calendar for the week. Church organization meetings, club gatherings, private parties, and a wedding all will have their places.

SUNDAY
Mrs. I. A. Freeman will entertain with a buffet supper honoring Mrs. August A. Gordon who is leaving Thursday for Wichita, Kans., to make her home.

MONDAY
Girl Scouts will be organized at the Methodist church at 7:30. Parents also invited to attend.

TUESDAY
The Twentieth Century Culture club will meet at 3:30 o'clock in the home of Mrs. Carl Boston.

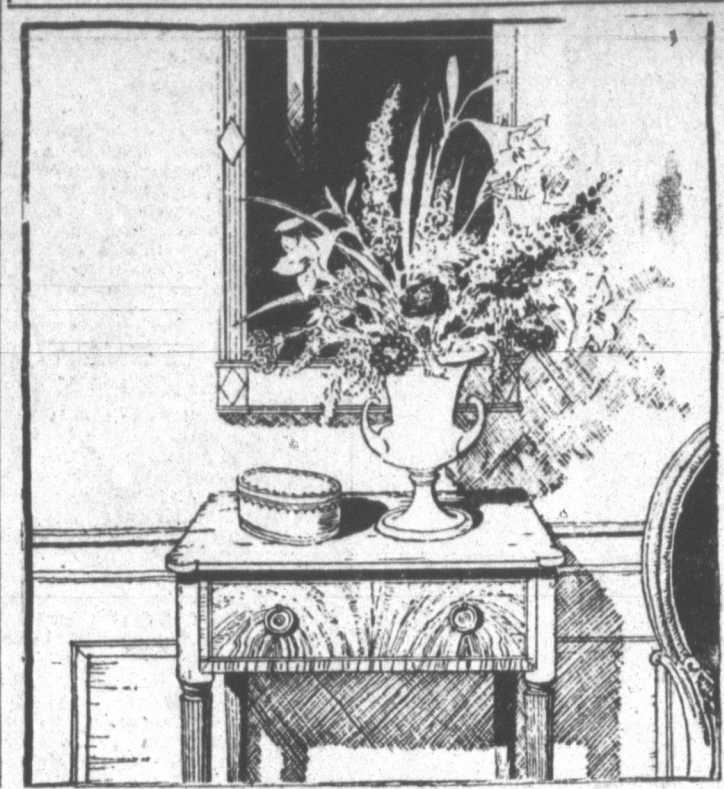

WEDNESDAY
Women of the Mooseheart Legion will meet at 8 o'clock at Locust Grove club.

THURSDAY
The Woman's Missionary Council of the First Christian church will meet at 2:30 o'clock at the church. Mrs. Lee Ledrick's division will direct the program.

Jolly 12 club will be entertained at 8:30 o'clock in the home of Mr. and Mrs. J. H. Lutz.

A double wedding ceremony will be read at 5 a. m. in the home of

FRENCH STYLE IS POPULAR

Today's decorator may be lavish in arranging blooms.

By MARGERY TAYLOR
Interior Decoration Editor, McCall's Magazine. Written for Pampa News-Post

The French style of flower arrangement will probably be more popular this season than the Japanese. But, regardless of the style followed, the flowers must be in the spirit of the room, their colors harmonizing with the color scheme and the container in keeping with the furniture.

That is why the restraint of the Japanese flower arrangement seems right for the more formal and severe room settings. Somehow it seems at home in the modernistic room.

Strange how one of the charming arts of an ancient people should be so appropriate in manner and spirit in a setting of the day after tomorrow.

Must Be in Season
One of the very strict rules governing the Japanese arrangement is that only one variety of bloom should be used—and it must be in season.

Nor should the flowers be in clusters. Only two to five stalks are considered correct and three are preferable. The stems are graded in length, and, as is so frequent with ancient arts, the three-stalk arrangement is symbolic of various trifles, such as father, mother and child or heaven, earth and man.

The French flower scheme is suited to the more ornate of the period rooms or to the freer atmosphere of the room which has been artfully "unplanned."

May Be Lavish
Flowering it, the decorator may be lavish and gay in arranging the flowers and even daring. Large masses of blooms, perhaps as many as 10 different varieties, may be grouped.

Appropriate containers for such an arrangement are urn-shaped vases in white alabaster, porcelain or glass—in fact, any type of eighteenth century French style.

The perfect touch is achieved when the size of the flower mass is in exact proportion to that of the container.

For a vase or urn, the highest flower or stem should be one and a half times the height of the vase. In a low bowl, the flower mass should be one and a half times the diameter of the bowl.

Contrast in combining colors is very effective—a little blue in a yellow bouquet, one yellow rose in a bowl of pink ones, a stalk of yellow snapdragon with blue delphiniums.

Trip by Air Made by Miss Williams

Miss Jonnie Ruth Williams, daughter of Mrs. Olivette Williams, left Amarillo by Western Air Express at 7 o'clock yesterday morning to visit in Oklahoma City and Guthrie, Okla. She is expected home this evening.

Wrist "Hankies" Popular in Paris

PARIS, Aug. 1. (AP)—Milady ties her handkerchief around her wrist these evenings.

Many smart Parisians are wearing large chiffon handkerchiefs matching the plain or printed fabric of their gowns, knotted once about their wrists.

The handkerchiefs are so large that they almost touch the hems of the gowns.

Red Is Favored For Sports Outfit

PARIS, Aug. 1. (AP)—Mrs. Reginald Fellows is among smart women sponsoring red as a summertime color.

She appears these days in a simple white shantung frock designed with a touch of red on the collar and worn with a short jacket of red sinelle which is made with short cape sleeves. A red sports hat completes her costume.

Mr. and Mrs. T. M. Gillham have as their guest this week-end Mrs. Gillham's mother, Mrs. Etta Gillham of Happy.

THREE CLUBS ENTERTAINED HERE FRIDAY

HOME-GROWN FLOWERS ARE POPULAR FOR DECORATIONS

Home-grown flowers were attractively employed as decorations when parties were given for three clubs here Friday. Bridge was the diversion at each gathering, and refreshments were served at the close of the games.

Two hours of bridge were enjoyed by members of Club Mayfair and several guests Friday morning in the home of Mrs. W. M. Lewright. At the close of the games, played in rooms attractive with garden flowers, luncheon was served.

Members attending were Miss Ruth Anne Mitchell and Mesdames Lynn Boyd, Clyde Fatheree, W. J. Smith, Arthur Teed, and Virginia Duerr.

Special guests were Mrs. Hutchinson of Arkansas City and Mesdames John Studer, Bert Curry, Clarence Barrett, Wade Duncan, and Elmer Blair.

MRS. BRALY FABORS CONTRACT CLUB

Lovely clusters of flowers were used in the entertaining rooms of the Clifford Braly home when Mrs. Braly was hostess Friday afternoon to the Contract Bridge club.

Punch and an ice course was served during the afternoon. The following women attended: Mesdames Charlie Thut, Phillip R. Pond, Senter, John Sturgeon, A. B. Zahn, Siler Faulkner, Jim Lybrand, Charles W. Winstead, Tom Ross, Henry Charles, R. W. Mitchell, and T. J. Conside.

MRS. SHOWERS IS CLUB HOSTESS

Mrs. Roy Showers was hostess to the Golf Bridge club. A pleasant afternoon was spent in playing bridge, and an ice course was served at the close of the games.

Mrs. H. P. Sharpe was favored for high score and Mrs. W. Wilkes for low.

Guests were Miss Florence Pard, Miss Betty McCall and Mrs. Johnnie Collins, while members attending were Mesdames F. C. Fischer, W. Wilkes, Roy Showers, Dewey Volges, Jones, Clyde Peede, C. F. Naylor, J. E. McCall, and B. L. Moore.

MISS STANARD IS TO RETURN AUGUST-FIFTH

Miss Cleora Stanard, daughter of Mrs. Alia Stanard, will return Aug. 5 to spend the remainder of the summer with her family. She has been attending Texas State College for Women, Denton, during the summer.

Miss Stanard will spend a short time in the home of a college friend, Miss Carrie Marie Townsend of Happy, before reaching Pampa.

In September she will return to college as a senior student. She is majoring in English and has completed two minors, education and the biological sciences. Her sister, Miss Floy Stanard, who was graduated at the Pampa high school last May, will return to the college with her.

Orchids Retain Mrs. Wilson's Favor

WASHINGTON, Aug. 1. (AP)—Mrs. Woodrow Wilson still shows a fondness for orchids.

The flowers were invariably part of her costumes when she was first lady of the land. She appeared at a recent luncheon wearing black chiffon over cream lace, and with the draped neck held on one shoulder by a bunch of her favorite flowers.

With this she wore a wide brimmed hat of black horsehair.

Guests Visiting in Martin Home

Dr. and Mrs. T. R. Martin have as their guests Mrs. Martin's mother, Mrs. G. E. Gustavus, and sister, Miss Alice Gustavus, of Dallas.

After leaving Pampa, the guests will go to Chicago, where they will visit Mrs. Martin's sister.

Mrs. G. C. Malone Getting Better

Mrs. G. C. Malone has as her guest her mother, Mrs. I. J. Tolleson, of Amarillo. The visitor will remain here for several days.

Mrs. Malone, who was injured in an automobile accident recently, is able to be up but is still suffering some from neck injuries.

Jeweled Bands For Coiffures

PARIS, Aug. 1. (AP)—A vogue for evening headress is predicted for the coming winter season. Most of them are simple in design, consisting of jeweled bands or pins worn at the back of the coiffure.

Leopard Boleros Shown for Street

PARIS, Aug. 1. (AP)—Short boleros made of leopard skins are a new wrap for street wear on cool days. The boleros, designed with wide velvet and closely fitted waistlines, are generally worn with dark brown or beige frocks reflecting the tints of the fur.

CHURCHES

FIRST CHRISTIAN CHURCH
500 East Kingsmill Avenue
F. W. O'MALLEY, Minister
The combined morning service is most satisfactory. We begin at 10:15 promptly, and close before 12. Young and old can hear sermons and attend communion and have Bible lesson. The very young are cared for in nursery; from juniors upward, all attend the general morning worship.

Christian Endeavor, senior, intermediate, and junior, at 7:30. Fine meetings, instructive, and inspirational, under capable leadership are a real blessing to those who attend. Gospel preaching, with best music, and fine fellowship at 8:15. Visitors and strangers specially invited, but all members also should attend. Invite everybody.

CENTRAL BAPTIST CHURCH
Central Baptist Sunday school

meets at 9:45 o'clock.
Morning worship, 11 o'clock.
Mission Sunday school, 2:30 o'clock.
Mission sermon, 3:30.
Baptism at Saunders Lake at 4 o'clock.
Mission Prayer meeting, 7 o'clock.
Training service, 7:30.
Evening worship, 8:30.
Special music at both services. At the morning service John Black, Coburn will sing "Leave It There." At the evening service Mr. John Black will sing "Nothing Between."
Mr. Black lives at Raton, New Mexico, and is visiting his sister, Mrs. E. V. Davis, of this city.

Junior Choir Is to Have Practice

The Junior choir of the First Methodist church, which was organized about a month ago by Mrs. Ray N. Johnson, will rehearse Wednesday afternoon at 4 o'clock at the church.

Boys Visiting in Colorado Springs

Clifford Braly II and T. P. Duncan Jr. left Thursday for a visit at the summer home of Mr. Duncan's parents in Colorado Springs. The young men are considering entering a golf tournament in Colorado.

Unlined Coats Smart for August

PARIS, Aug. 1. (AP)—Unlined coat are the smartest wrap for August wear. Many Parisian couturiers display silk crepe or featherweight wool wraps, without even the suggestion of a lining, to wear with hot weather frocks. Where linings are necessary in order to retain the line of a coat, they are made of finest georgette.

COMING EVENTS IN SOCIETY

Continued from page 4

The girls' auxiliary of the First Baptist church will meet in the home of Mrs. W. D. Benton to work on a quilt for Buckner's orphan home. Each girl is to bring her thumb.

American Legion auxiliary will hear an interesting program at a meeting at 8 o'clock at the Legion hut.

FRIDAY
Order of the Eastern Star will hold a regular meeting and initiation at 8 o'clock at the Masonic hall.

Mrs. John Glover will be hostess to the Queen of Clubs at 3 o'clock in her home, 1019 East Francis.

BALL FRINGE—

Continued from page 4

white moire curtain make a window drapery which is both unusual and strikingly handsome.

Another example of the new-old effect, for a wide window, would be chalk-blue Venetian blinds and white tarleton curtains, edged with eight-inch pleated blue chintz ruffles.

The curtains would be looped back from the center just below the line of the window sill and held gracefully with the new metal hold-back in the form of leaves.

Across the curtain top, below the tow and one-half inch heading would be a blue braid, two inches wide, decorated with silver leaves.

If you are not feeling particularly ingenious in planning your summer curtains, you will find the drapery-trimming department a fascinating

NOTICE CEMENT AND PAVING CONTRACTORS

Sealed proposals will be received by the City Commission of the City of Pampa, Texas, until 2:30 p. m. Tuesday, August 11th for the construction of concrete curb and gutter on Hobart Street in the City of Pampa from its intersection of the North property line of Foster Avenue to its intersection with the South property line of Ripley Street.

Approximate quantities are as follows:
1182 lineal feet concrete curb
1247 lineal feet concrete gutter.
Necessary excavation to install such curb and gutter will be done as a part of the big price but the contractor will not be required to remove the dirt so excavated from the street.

Detailed plans and specifications may be obtained at the office of C. L. Stine, engineer, City Hall, Pampa, Texas. Bids should be accompanied by a certified check, or its equivalent, in the amount of 5 per cent of bid and should be addressed to the City Manager of the City of Pampa, Texas.

D. W. OSBORNE, Mayor.
F. M. GWIN, City Mgr.

BAKAL KILLED
DALLAS, Aug. 1. (AP)—Two men who allegedly threatened the life of a roomer at the house where Sam Bakal, 26, was slain late last night as he went over plans of remarriage with his former wife were being sought by Dallas detectives tonight for questioning.
Officers held to the theory that Bakal died a victim not mistaken identity.

GIVES VERDICT
DALLAS, Aug. 1. (AP)—Justice John Baldwin held today in a verdict that Miss Ethel Bittner, 16, of San Angelo, died of cerebral paralysis brought about by a brain tumor. Miss Bittner died here early yesterday.

GALLUP, N. M., Aug. 1. (AP)—Three Navajo Indians were drowned and amag estimated at \$200,000 resulted to crops, stock and buildings in the Ganado irrigation district from a cyclonic storm followed by hail last night.

inspiration.
The most commonplace looking fabrics and edgings can be combined into very original effects—for instance, theatrical gauze with wool fringes grading through lively colors, and unbraced muslin with a border of colored cotton fringe.

WOMAN KILLED AFTER PARTY

CHICKASHA, Okla., Aug. 1. (AP)—A pistol shot ended the life of Mrs. May Jones here early today as a party of merry-makers was broken up and brought to homicide charge against W. M. Smith, Mayville.
Jim Campbell, Chickasha lease broker, was seriously wounded. The shooting occurred on a downtown street, following a party at a hotel, when Smith and May Jones, the slain woman's husband, overtook an automobile in which Mrs. Jones and Mrs. Jackie Richle, Oklahoma.

City. Officers said they believed the shot was directed at Parnell, who Smith claimed, threatened him during a quarrel at the hotel.

MAY SELL WHEAT
BERLIN, Aug. 1. (AP)—The suggestion from the United States that Germany might buy wheat and cotton there on liberal credit terms has attracted wide attention, as would any business proposition which might be construed as in the nature of a long term credit.

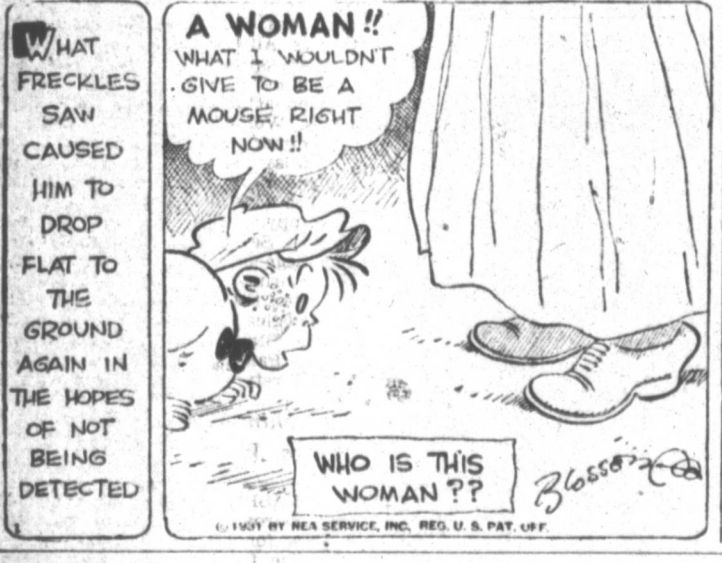

YOUNG GIRL DIES
PUEBLO, Colo., Aug. 1. (AP)—Hazel Knady, 15, of Dimmitt, Tex., died today on a train at Pueblo from a heart attack. She was en route from Delta to Dimmitt. The body will be shipped to Dimmitt.

Announcing Change Of Ownership of the Courthouse Cafe

I have purchased the Courthouse Cafe from Mr. and Mrs. Six Owens, and I take this means of inviting the continued patronage of all who have so liberally patronized the Courthouse Cafe heretofore and urge those of you who have not been accustomed to dining here to try our service and delectable cooking.

Mrs. Carol and I have had several years experience in the cafe business, having established the Tulsa Cafe, which was one of the first business houses in Borger, and which we operated until we sold it to the Empire Cafe management a few months ago. We had several years experience in the business in Oklahoma before coming to Borger, so we believe we know how to give you the kind of service and serve the kind of food you really like.

We Will Feature the Following:

QUICK SERVICE **GOOD COOKING**
GOOD COFFEE **POPULAR PRICES**

ABOUT NEW-YORK

(By William Gaines) NEW YORK—Earl Carroll, in striving to make his new theater the most comfortable in the world for those who work in it, from stage hands to chorines, is putting a sound theory of social science into practice—for profit. He readily admits that not all the conveniences and luxuries he is installing for the people back-stage are inspired by purely humanitarian ideals.

Carroll is ambitious to shame rival producers by having the finest playhouse in New York bear his name. But if that were all, he could convince the public by displaying grandeur only where the public could see it.

He says he realizes that a theater, no matter what a temple it may be, will not lure the crowds and cash for long if the entertainment fare it holds is lacking in quality. To put on "the most elaborate, beautiful and clever musical revues," he must not only obtain but hold the best talent available, he says.

To do this, the Earl naturally is offering high salaries. Other producers might match or top him in this respect. All right, then will, in addition to good pay, offer working conditions no other producer is equipped to provide.

Sociologists might be interested to learn that Carroll even has supplied a card room for stage hands, as well as a lounge, shower baths and other comforts. "They are always playing cards, anyway, wherever they can," Carroll explains. "I must have the best stage hands in New York and keep them good humored if I am to succeed."

Stupid or ill-tempered hands could play havoc with startling scenic innovations of the Earl Carroll theater stage. Much already has been written of Carroll's satisfying his esthetic whims to provide an orchid (club) room for chorus girls, as well as a green room for principals; to give the beauties their own showers, "the most practical, spacious and exquisite dressing and wardrobe quarters," and a maid to wait on each six of them.

No one of the Carrollorelei will have to walk more than one short flight of stairs to the stage. Elevators will convey the principals to and from luxurious dressing rooms.

Washington Daybook

WASHINGTON—News of the death of Mrs. John B. Henderson, the "grand dame" of the national capital, must have stirred the memory of an old statesman now in retirement way down in Mississippi. He is John Sharp Williams, former United States senator, now 77 years old and living almost in seclusion on his plantation—"The Cedars"—near Yazoo City.

Williams generally is credited with having shattered one of Mrs. Henderson's fondest dreams while he was in the senate. Sixteenth street—that wide thoroughfare stretching from the White House, past Mrs. Henderson's "purple castle," and thence through embassy row at the crest of the hill—had, largely through Mrs. Henderson's efforts, been named "Avenue of the Presidents."

She had developed upper Sixteenth street and made of it a spot of swank. She constructed most of the embassies and legations located there. Meridian park in the same section was her idea.

John Sharp Williams, too, lived on Sixteenth street. But, unlike Mrs. Henderson, he resented its having the name "Avenue of the Presidents."

Famous for his sarcasm and wit, the Mississippian characterized the change as due to the influence of "society," and he chose to spell the word "sassyety."

"It is snobbishness with which I have no patience," he shouted one day in the senate when the subject was up for consideration.

His senate speech, which is generally credited with restoring the street to its original name, still is remembered in Washington. It was John Sharp at his best.

"For a while they suggested 'Executive avenue,'" he said, "but that looked as if the inhabitants and residents upon it might be executed."

"Then they thought of 'Avenue of the Allies' because it ran from Jackson Square, where stand the monuments of Lafayette, Rochambeau, von Steuben—and Andy Jackson, I suppose."

PAMPA TOPICS OF OUR CITY

Citizens of Texas no doubt are getting impatient at the delay in the legislature's oil program. All the scenes have done so far is to familiarize themselves with their subject. And having done that, they show signs of wandering off into other investigations.

The legislature would not lack for subjects should it continue in session six months. It is necessary to confine its work to the most vital issues. It was called and exhorted to do something to help the oil industry. With about a week left to the actual legislation, the lawmakers face the prospect of forcing a second special session—an occurrence highly distasteful.

The legislative picture should discourage those who are continually clamoring for the government to take charge of business. Men gathered from every walk of life and from all sections certainly are not likely to think alike on any problem. They are too provincial, too local in outlook to manage the state as a whole. It is enough for them to pass on principles and regulations.

Oil Stocks Drop Despite East Texas and importing, stocks of oil dropped 3,592,000 barrels in the United States during June. Regulation of the industry would be easy were not selfish interests, large and small, seeking their own good and letting this industry and nation as a whole "go hang."

In reporting a huge deficit for this year compared to a profit of four millions last year, the Phillips Petroleum company has pointed out that ceasing of the hunt for new pools has started a noticeable trend toward balancing of supply and demand. Many companies have huge unrealized profits which will show up on the books when normal production profits are available. Careful observers cannot fail to see handsome profits for the industry as a whole.

Hulen Real General General John A. Hulen, vice-president and general manager of the Fort Worth & Denver railroad, is a real general. Just now he is commander of the 36th division, Texas National Guard, and is at Camp Hulen at Palacios. He has charge of more than 7,000 men. The general is well known here, having been in Pampa often in connection with the railroad drive.

Here is a bit of verse inspired by the oil market, written by Mrs. A. J. Edwards, mother of Mrs. J. E. Morgan of this city.

When Oil Goes Down Disconsolate, blue, and dejected, weary of life and its woes, Back to his home at night fall, the unhappy oil man goes. Now life in the oil field changes, sometimes rosy and bright, And then a gloom steers over, like shadows of the night. This man, with luck or judgment, when oil was selling high, Made deals that were successful, had known just what to buy. But luck or judgment, failed him, fortune seemed to frown. With every cent invested, the price of oil went down! And oft as this has happened, he was caught unprepared As creatures of the woodland in cruel traps are snared. Too late he now regretted, the money idly spent, He'd moved into a stylish house, and paid a lot for rent. He'd spent his money freely, bought cars and radio— 'Twas "Easy to come" up, yes, truly, and equally, "Easy to go!" All that goes up is sure to come down," is another old saying quite true. Why don't we remember, there's always December, the June skies are smiling and blue.

The offer of New York Legionnaires to bear arms in defense of innocent people against gangsters may be a significant one. Certainly this powerful nation, with millions of trained fighters and a strong army, navy, and air force, should not long permit outrages by gangs of lawless men.

New Killer Types The Jesse James type is gone, but a worse killer tribe is with us. Fortified by liquor and vice profits and hired lawyers, the modern offender is able to outwit or out-trade the law in thousands of instances. Clever, un-American, and heartless, the gang killers plan their outrages with the intention of evading the penalties prescribed by the law.

In the old days, outraged citizens hunted down the outlaws and left them dangling from trees. Today it is different, and only organized opposition is able to stop the racketeer. Literally billions of dollars is being exacted from an unwilling but fearful public. No more proof than listing of the names of gang leaders is necessary to show that the criminals are un-American. The sancer of lawless preying upon business, together with its many pernicious evils, must be plucked out.

Note from Dalhart: "Dalhart is nearer capitals of five other states and Chihuahua, Mexico, than it is to Austin. Map measurements prove it. The U. S. capitals are Santa Fe, Denver, Topeka, Oklahoma City, and Cheyenne. NO WONDER THEY SAY 'AUSTIN DOES NOT KNOW THERE IS A PANHANDLE.'"

ON BUYING TRIP G. C. Malone of the Malone Furniture company, is due to arrive home today from a buying trip to Dallas and Wichita, Kans.

WHAT OTHER EDITORS THINK

THE MILITARY CAMPS Activities at the summer military training camps in various parts of the country serve to emphasize the clever way in which army leaders have been able to combine business with pleasure, so to speak, in the matter of preparedness.

Being in the army is not always looked upon as fun. Infantry drill under a hot summer sun is no cinch; and the other concomitants of a buck private's life range all the way from arduous early-morning setting-up exercises to the hated "K. P." detail.

But thousands of young Americans are spending their vacations at military camps this summer, and they are having a perfectly swell time.

Somehow the war department has been able to fix things so that a fortnight of military training takes on all the aspects of a good time. It was a highly ingenious move. The nation gets something in the way of preparedness, thousands of young men get some wholesome training and recreation, and everybody is happy.—Plainview Herald.

USE MORE COTTON One of the problems of the cotton industry is that use of cotton in clothing has declined during the past few years. The rising popularity of silks and rayons has been cutting in on the cotton totals at an alarming rate. Even in the districts depending upon cotton for their livelihood cotton, as wearing apparel, is not popular.

This shows that we are partly to blame for our own troubles. The low price of cotton, while naturally influenced by world conditions of finance, is also partially due to overproduction. Why don't we wear more cotton garments? Why not help absorb the surplus in the crop we grow?

Silk comes from the orient. We are not interested in keeping the Chinese and Japanese prosperous at the expense of our own cotton farmers and millers surely.

Fashion is what determines the popularity of a cloth material. Cotton is frowned on by many because it is not popular as a standard wearing material. Silk is the favored thing—and rayon, because it looks like silk, is getting a big play.

But, if enough cotton were worn it would become just as popular as any form of material. Dame Fashion follows where she is led by the greatest number of people. She follows the crowd.

If they want to help their own industry we suggest that the people of Texas use more cotton. A wide campaign for this purpose is being conducted and we hope it will bear some fruit.—Childress Index.

UNCONVINCING There has been apparent lately a tendency on the part of some American business leaders to suggest that the distressing plight of the unemployed workers is at least partly the result of the workers' own improvidence.

Since the depression has brought such proposals as unemployment insurance to the fore, this suggestion has been voiced quite frequently. We have been assured that no such "paternalistic" scheme an ever take the place of individual thrift and self-reliance.

A sample is given in a recent statement by a leading banker. After pointing out that industrial executives must exercise a better brand of economic foresight than they have displayed in the past, he adds:

"It is the duty of the individual to make every effort to take care of himself and provide for himself. Neither government nor industry can do that. They can give him the opportunity to succeed but they can't succeed for him. He must out of his own initiative and effort earn and create his own means and defenses against the requirements and contingencies of life."

This is all perfectly true, but it begs the question.

If any industrious and conscientious citizen could always hold a job as long as he deserved it, there would be no sense in talking about unemployment insurance. It is precisely because millions of men in the last two years have lost their jobs through no fault of their own that unemployment insurance is a live issue today.

When depressions are done with forever, and every citizen can stay on the job as long as he delivers the goods—then it will be time enough to talk about the individual's duty to take care of himself. Just now that kind of talk is not very convincing.—Lubbock Journal.

What France and Germany seem to fear most in burying the hatchet is that one of them will catch it in the neck.

A dyed-in-the-wool politician, says the office sage, never shrinks from publicity.

The telephone is said to have opened a new era in diplomacy. But you can't tell that to the young man using it in an attempt to make up to his girl friend.

Another evil born in this age of crime is the tendency of a good many to waste, lose, and kill Time.

Whatever has become of the season for channel swims? Famous last words: "So I bid seven no trumps."

Oil Drilling Is Compulsory

STATE LAWS GUIDE OWNER

CONSERVATION OFTEN IS DIFFICULT IN INDUSTRY

Oil conservation gets home to the motorist—to the user of petroleum products. The objective being the conservation of petroleum is the reduction of waste not only by the producer but by the user—so that the oil underlying our soil be rendered as useful as possible for this and future generations.

Law Forces Rapid Drilling An underground oil reservoir is not limited to property lines. Oil pools may stretch out covering many square miles, or they may be limited to a very small area. On the surface above the ordinary oil pool there is often a veritable checkerboard ownership.

What happens when a discovery well is drilled can easily be pictured. Landowners, royalty owners, and lessees with property believed to be above the pool must hasten to get wells drilled in order to obtain their share of the oil. Under this system of competitive drilling the oil resources of this country have been, and are being developed.

Unrestrained Development Competitive drilling sometimes results in too many wells—often closely spaced. Inefficient utilization of gas in any individual well affects to a greater or lesser degree the ultimate recovery from the entire reservoir. It is desirable, therefore, that there be a uniform method of operation, so that the maximum utilization of gas energy in each of the wells in the reservoir.

Thus, unrestrained competitive development—wherein every well is not subject to pressure control—is believed contrary to scientific development. Competitive drilling, however, phase bearing upon conservation. Irrespective of market conditions—whether there be an adequate market for the essential products of petroleum—the development of a pool rushes forward. Oil is taken from its natural storage in the ground; steel and other storage has to be provided; there are deterioration and evaporation of storage oil, and petroleum and its products are diverted to inferior uses.

Competitive drilling, then, not only causes overproduction, but it renders the prevention of overproduction very difficult, if not impossible, and overproduction, of course, is contrary to conservation. To meet the uneconomic features of competitive drilling the necessity for cooperation among producers is apparent, for the prevention of overproduction has been effectively employed in Oklahoma, Texas, and California.

The federal government has curtailed development in government oil lands. (Copyright American Petroleum Institute, N. Y.)

HERE FROM ORANGEFIELD Mr. and Mrs. Barney Bradley of Orangefield are oil producers in the homes of Mr. and Mrs. T. W. Barnes and Mr. and Mrs. A. J. McAllister. Mrs. Bradley is a cousin of Mr. Barnes and a sister of Mrs. McAllister.

PUBLIC INTEREST IN OIL

STAFF WRITER FINDS MANY BEAUTIFUL SPOTS IN RESIDENTIAL AREA

Because of flowers, grass and other growing things, here are some beauty spots, hastily glimpsed, in Pampa: A bed of many-colored zinnias extending the length of the yard at the residence of Mr. and Mrs. Sam McCullough, 207 North Gray.

A flaming stretch of zinnias at 805 North Gray, the residence of Mr. and Mrs. R. S. Bourland. A clump of leafy catalpas, a large circle of blossoming zinnias, a bank of daisies in bloom, and tall sprays of pink phlox at the residence of Mrs. L. H. Greene, 510 North Somerville.

A burning mass of dahlias at the front of the house of Mr. and Mrs. J. B. Bourland at 609 North Somerville. These are the first dahlias that turned out well seen in Pampa this year. Most dahlias bloom best in August and September.

The lawn and garden of H. E. Saunders, 1025 Christine street. Grounds surrounding this home are among the best-landscaped in the city. Just now, the most colorful blooms on the scene are balls of pink hardy phlox. Unusually deep-red zinnias furnish a contrast. The lawn of Mr. and Mrs. Clyde Fatheree. Luxuriant shrubbery around the Fatheree home makes it pleasing without flowers at the front. Mrs. Fatheree's flowers grow in a garden at the rear.

Zinnias provide color at the front side of the home of Mr. and Mrs. E. B. Fisher, 806 North Somerville; while tall canna lilies flaunt yellow, red and orange at the rear.

HELEN WILLS MOODY IS TENNIS CHAMPION

SEABRIGHT, N. J., Aug. 1. (P)—Mrs. Helen Wills Moody, playing her second tournament of the year, required just 12 games and 30 minutes to prove she has no serious rivals in the United States as a tennis player.

In that length of time she defeated Helen Jacobs, her California neighbor, in the finals of the Seabright invitation tennis tournament, 6-0, 6-0. Mrs. Moody merely gained her first leg on the big silver bowl which Miss Jacobs was attempting to put out of circulation.

Staying on her base line most of the time, Mrs. Moody chased Miss Jacobs from one corner of Seabright's center court to the other, driving back at the latter with stunning speed the soft shots Miss Jacobs attempted to use to break up Queen Helen's game.

NEW BLEACHERS ARE PLANNED FOR HARVESTER GRIDIRON SOON

PRE-SEASON TRAINING CAMP WILL OPEN AUGUST 20

New bleachers to hold 1,000 people will be erected at the Harvester football field before the pigskin season opens in Pampa, the school board announced yesterday. Ample space will be left for addition of another unit.

However, subsequent construction of bleachers will depend upon attendance at the first games. The school board believes that more seats will be needed if first games indicate that Pampa will have a winning team. Cost of the new seats will be about \$1 each.

The new bleachers will be built on the east side of the field, and the present seats will be moved near the south end of the field. Extensive repairs will be made on them. When

the new seats are completed, the field will be equipped with two new strings of bleachers. Arrangement of the new seats will be similar to the ones built last fall.

The Harvesters' pre-season training camp will open Aug. 20. Their first game will be with Oklahoma City, Sept. 18. On the following two week-ends, they will meet Memphis and Wichita, Kans., respectively. Their first conference game will be against the conference champs and the Harvesters' bitterest and most-dreaded rivals, the Amarillo Golden Sandstorm, Oct. 17.

NEW YORK STOCK LETTER

By JOHN L. COOLEY
Associated Press Financial Writer,
NEW YORK, Aug. 1. (AP)—The credit to the Bank of England, the rise in the Reichsbank's discount rate and the proposal to sell surplus wheat and cotton to Germany provided the leading developments of financial interest today.

Shares on the stock exchange firmed after some early easiness, and European bonds reflected a more favorable attitude toward conditions across the Atlantic. Grains were steady, although cotton sagged under the influence of selling from Europe. On the whole, however, it was a dull day in all directions.

The turnover in stocks amounted to 398,650 shares, not much larger than the volume for that dull Saturday three weeks ago.

Net gains were modest, hardly exceeding a point in principal issues. The \$250,000,000 credit to the Bank of England, extended by the two principal gold-holding central banks, came somewhat as a surprise, but Wall street in no sense inferred that its establishment indicated an emergency at London. Rather, the arrangement was seen and a move to fortify the British bank's own efforts to build up its gold reserves and the pound sterling.

The jump in the Reichsbank rate to 15 per cent from 10, while imposing some hardships on German business, is nevertheless considered as a constructive step, since it will attract foreign capital back to Germany.

Sterling's rise to \$1.86 for cables featured the foreign currencies, which were mostly firm.

CORN RIDES HIGHER

By JOHN P. BOUGHAN
Associated Press Market Editor,
CHICAGO, Aug. 1. (AP)—A jump of almost 4 cents in the corn market today gave evidence that believers in lower prices had a rough road ahead. Speculators were quickly stampeded who dared to sell corn short despite knowledge that the bulk of readily available supplies for delivery on September contracts were in the hands of the men who captured control in the month just

ended. A buying rush that followed early selling, based on news of rains in drought districts, found offerings scarce, and corn closed buoyant at the day's top figures.

Corn finished active at 1-8 to 33-4 cents advance. Wheat was sluggish, sagging under the all-time bottom price record for September contracts, but rallied by corn closed 1-4 to 1-2 higher, with oats 3-8 to 5-8 up, and provisions unchanged to a rise of 12 cents.

Corn bears were in hot water constantly except for a brief time 'at the start.

Reports from Washington and Berlin about negotiations for sale of government financed wheat abroad had but little market effect, as similar reports had been current for some time. Chicago receipts of wheat were heavy, 596 cars, as much wheat is being moved down the lakes. Oats, like wheat, rallied with corn. Oats crop news was bullish. Provisions were responsive to corn strength, despite weakness of hog value.

CATTLE TRADE FIRM

KANSAS CITY, Aug. 1.—Cattle trade around the 11 market circuit this week was featured by a broad demand for strictly grain-fed offerings at prices firm to as much as 50 higher. Country demand for stockers and feeders was very narrow at most markets with moderate declines on the better grades and off quality kinds at several points showing losses of 50 or more. Aggregate receipts were around 203,000 as compared with 173,874 last week.

Hogs after selling on a higher price basis the first four days of the week closed very dull at values unevenly steady to 75 lower with a week ago, most markets showing losses of 15-50. Total offerings were around 347,000, an increase of 8,500 over last week.

The supply of sheep approximated 275,000 against 263,995 last week. Fat lambs were up 25-75 early in the week but closed with most of the gain erased. Matured killing classes of sheep at most centers finished the week steady to 25 higher.

COTTON FAIR

NEW ORLEANS, Aug. 1. (AP)—The cotton market today was fairly active for a short week-end session and was influenced largely by the annual statistics of Secretary Hester and the prospects for fair weather which caused prices to ease off. Secretary Hester made the carry over 9,130,000 bales of which 420,000 bales were linters and the world consumption of American 11,856,000 of which 811,000 were linters. The market closed steady showing net losses for the day of 10 to 15 points.

As Liverpool was closed the market was without incentive from that source. October traded down to 8.25 and December to 8.40 and closed at

No. 7-B Morse, section 2, block 26, pay 2,554-2,666 feet; shot 320 quarts 2,54-2,666; completed for a daily production of 350 barrels.

Production of the various counties compared with the previous week follow:
Carson—243 wells, producing 5,293 barrels, a loss of 173 barrels.
Gray—766 wells, producing 37,385 barrels, a decline of 2,024 barrels.
Hutchinson—901 wells, producing 9,756 barrels, a decrease of 4 barrels.
Moore—22 wells, producing 1,592 barrels, an increase of 635 barrels.
Wheeler—43 wells, producing 207 barrels, a loss of 116 barrels.
Total—1,964 wells, producing 54,333 barrels, a decline of 1,328 barrels.

RADIO SILENT

(Continued from page 1)

ward from Moscow across the spaces of Siberia.

Civil aviation authorities were advised that the fliers had made a forced landing at Jietegiari, about 150 miles from Kustanlak in the Cossack Autonomous republic, earlier in the day. Jietegiari is about 1,700 miles short of Irkutsk, which was the goal the fliers had set when they took off from here.

Omsk is more than 500 miles northeast of Jietegiari, but still more than 1,000 miles short of Irkutsk.

They landed at Jietegiari at 8:30 a. m. Moscow time (12:30 a. m. E. S. T.), the message said.

The forced landing at Jietegiari subsequent messages said, was due to bad weather.

The fliers were approximately 10 hours behind the time of the record holding round-the-world aviators, Wiley Post and Harold Gatty, when they left Moscow.

Pampa awoke to the tune of steady rainfall, there were intermittent hard showers up to near noon. With characteristic suddenness, the sunshine, broke through the moving clouds in the afternoon and the sun rapidly cleared. The NEWS-POST columnist and "Mrs. Pampan" left for a week's vacation journey in the mountains.

Prices showing net losses for the day of 12 points on the former month and 10 points on the latter. March developed the most weakness closing at 8.79 down, 15 points net. Late months generally showed the greatest declines.

Port receipts 1,436; last season 6,697. Exports 4,199; last season 1,579. Port stocks 2,780,309, last year 1,557,620. Combined shipboard stock at New Orleans, Galveston and Houston 26,833, last year 28,593. Spot sales at southern markets 2,132, last year no report.

FT. WORTH GRAIN

FORT WORTH, Aug. 1. (AP)—Cash grain demand, weak.

Bids on milling wheat basis carloads delivered Texas common points and Galveston according to billing ranged as follows:

Number 1 ordinary hard 46-49.
No. 1 hard 14 per cent protein 46 1-2 to 47 1-2, 15 per cent 47-48 1-2, 16 per cent 48-50 1-2.

Quotations on coarse grains were as follows, basis carloads delivered Texas common points, freight paid:

Corn: No. 2 mixed 63-66; No. 2 white 66-68, No. 2 yellow 67-69.
Oats: No. 2 red 25-26.
Barley: No. 2, 34-35.
Sorghums: No. 2 milo per 100 pounds, nominally 1.00-1.02, No. 2 kaffir nominally 95-97.

PAMPAN GATHERS

(Continued from page 1)

B. C. D. office. "When he wants to start anywhere, he starts."

Traveler John Hessey saw no bad omen in a rain here. John used to be a Reg river enthusiast, but since seeing Yellowstone he looks with disdain upon those who stop at the fishing grounds. Miss Mabel Davis, county treasurer, thought it better to wait a bit, but she was glad to see the rain. In fact, most of those interviewed showed an annoying enthusiasm about the downpour. Charlie Thut advised postponement for several days in order to enjoy the downpour of the present.

C. B. "Brownie" Akers, who perhaps goes to Denver more often than any other local man, predicted trouble as far as Dalhart or Clayton and good roads thereafter. Many of those interviewed praised New Mexico's road system and the gasoline tax by which it is financed.

F. Smalling, former New Mexican, was certain that no difficulty would be found after the state line was reached. He is an enthusiastic booster of New Mexico's roads. But he predicted much delay if mud were found around Channing.

The Amarillo Auto club-reported scattering showers as far as Tucumanari, and south and southeast of Amarillo, where the precipitation was heavy in spots. Amarillo saw a little sunshine early in the day, but it clouded heavily toward noon with some showers in the vicinity in the afternoon.

Pampa awoke to the tune of steady rainfall, there were intermittent hard showers up to near noon. With characteristic suddenness, the sunshine, broke through the moving clouds in the afternoon and the sun rapidly cleared. The NEWS-POST columnist and "Mrs. Pampan" left for a week's vacation journey in the mountains.

SCHOOL TEACHERS ARE NAMED FOR NEXT TERM, NO SALARIES SLASHED

Gray county is a popular place in which to teach school. The fact that salaries are better here has much to do with it.

County Superintendent John B. Hessey had more than four hundred applications—and 15 open jobs, a few weeks ago. He has his staff picked now, and the minimum salary will be \$100. The remuneration ranges from \$100 upward, depending upon the size of the school and the position of the teacher. No reduction is in sight in the salary scale of this year or next.

Supt. Hessey yesterday was sending notices to his 75 instructors to be at the Canyon Teachers institute promptly. The consolidated institute will be held from September 3 to 5. The first assembly of Gray county teachers will be on the morning of September 3, at 11 o'clock. County schools will open September 7.

More than two hundred applications for positions have been received by Joe Smith, business manager of the Pampa Independent

school district. No new teachers are being employed, however, the trustees and officials of the system preferring to wait until the needs are more clearly defined. On account of smaller oil valuations, strict economy will be necessary. The teaching force will be at least 10 less than last year, it is indicated, and salary cuts averaging 10 per cent will be put into effect. Grade teachers will get from \$100 to \$115, averaging about \$105 per month. City schools will open September

Romance Of A Glorious Girl Who Betrayed Her Faith—But Could Not Deceive Her Love!

LAUREL-HARDY COMEDY
PARAMOUNT NEWS

The Nail Keg

A column of news and views for Pampa people and our former friends.

Chicago ain't what it used to be. It's all shot now.

Once more harvest is over. There was plenty of stuff raised, but thru no fault of ours the price has been altogether disappointing. To farmers less resourceful than ours, it would create a situation that was hopeless. With our citizenship, we predict a quick recovery, for we have a class of farmers who won't stay down, even tho they are fouled. One of the bright spots in the "sunny side" of this situation is that we have learned more about the accepted fact that we have the best folks in all the world. In times that try the best, they will come up with a smile.

When a girl ends a letter "sincerely," you know she means what she says; but when it ends with "love," you never can tell!

We have been buying a little wheat this week. We delivered O. H. Ingram a new 22-36 McCormick-Deering Tractor, and are taking half of it in wheat for which we are giving him 50c per bushel. Here's hoping we make money on the deal. And by the way, we are willing to take on some more business on this same basis. Call and see us about it.

May: What does she look like?
Belle: She's got a face that looks as if a plastic surgeon started to lift it but was interrupted.

Seasonal effusion: The violet has a sweet perfume, the rose is also game; the dandelion has no smell at all—but it gets there just the same.

Clem Davis is the winner of the prize we gave for the best fish brought to our store this season. He gets his choice of a Montague fly rod or a Martin automatic reel. And strange as it may seem, it was for a fish caught not many miles from Pampa.

Harry: I love to kiss Jane in the summer.
Harold: How come?
Harry: I feel so cool when I stop.

Customer: Is it true that this clock will go for 14 days without winding?
Jeweler: Sure.
Customer: Then, how long will it go if it is wound?

We want to call your attention to our complete stock of canner's supplies. Pressure cookers, Sealers, Sanitary cans, Glass jars and glasses and all manner of tops, caps, etc.

Love—the tenth word in a telegram.

Grandmother: Now, Mary, when I was a girl, nice girls did not hold hands.
Grandchild: But Grandmother, to be nice now you have to.

We are offering for the next two weeks some exceptional values in the old reliable Crosley radios. We have some demonstrators, in perfect shape, we will sell for half price. Call and see them.

College student: I think I'll open up an office when I graduate.
Pal: Probably I'll turn out to be a janitor myself.

Drivers of sixes never want less
because it takes six cylinders to give the smooth, silent power that makes driving really enjoyable

Drivers of sixes are spoiled for anything less. Drivers of sixes are "sold" on multiple cylinders. They would no more think of giving up "six" performance than any other real advancement of motoring.

Drive a Chevrolet Six, and you'll know why these drivers feel as they do. Step on the starter, let the motor idle—and notice its silence. Throw in the clutch, shift into "low"—and feel that smoothness. Change into "second," hit a faster clip, slip into "high," sweep along at top speed—then throttle down to a crawl. The smoothness and flexibility you always get are six-cylinder smoothness, six-cylinder flexibility. Annoying vibration is gone!

Over two million owners have proved this six-cylinder Chevrolet engine. They have found that it costs less for gas and oil than any other. They have found that it actually reduces upkeep costs, by holding vibration to a minimum. They know a six is better in every way—and they would never be satisfied with less!

Twenty beautiful models, at prices ranging from... **\$475 to \$675**

All prices f. o. b. Flint, Michigan, special equipment extra. Low delivered prices and easy C. M. A. C. terms.

NEW BLEACHERS ARE PLANNED FOR HARVESTER GRIDIRON SOON

PRE-SEASON TRAINING CAMP WILL OPEN AUGUST 20

New bleachers to hold 1,000 people will be erected at the Harvester football field before the piskin season opens in Pampa, the school board announced yesterday. Ample space will be left for addition of another unit.

However, subsequent construction of bleachers will depend upon attendance at the first games. The school board believes that more seats will be needed if first games indicate that Pampa will have a winning team. Cost of the new seats will be about \$1 each.

The new bleachers will be built on the east side of the field, and the present seats will be moved near the south end of the field. Extensive repairs will be made on them. When

the new seats are completed, the field will be equipped with two new strings of bleachers. Arrangement of the new seats will be similar to the ones built last fall.

The Harvesters' pre-season training camp will open Aug. 20. Their first game will be with Oklahoma City, Sept. 18. On the following two week-ends they will meet Memphis and Wichita, Kans., respectively. Their first conference game will be against the conference champs and the Harvesters' bitterest and most-dreaded rivals, the Amarillo Golden Sandstorm, Oct. 17.

Markets

NEW YORK STOCK LETTER

JOHN L. COOLEY, Financial Writer, NEW YORK, Aug. 1 (AP)—The credit to the Bank of England, the rise in the Reichsbank's discount rate and the proposal to sell surplus wheat and cotton to Germany provided the leading developments of financial interest today.

Shares on the stock exchange firmed after some early easiness, and European bonds reflected a more favorable attitude toward conditions across the Atlantic. Grains were steady, although cotton sagged under the influence of selling from Europe. On the whole, however, it was a dull day in all directions.

The turnover in stocks amounted to 398,650 shares, not much larger than the volume for that dull Saturday three weeks ago. Net gains were modest, hardly exceeding a point in principal issues. The \$250,000,000 credit to the Bank of England, extended by two principal gold-holding central banks, came somewhat as a surprise. But Wall Street in no sense inferred that its establishment indicated an emergency at London. Rather, the arrangement was seen and a move to fortify the British bank's own efforts to build up its credit reserves and the pound sterling.

The jump in the Reichsbank rate to 15 per cent from 10, while imposing some hardships on German business, is nevertheless considered as a constructive step, since it will attract foreign capital back to Germany.

Sterling's rise to \$4.88 for cables featured the foreign currencies, which were mostly firm.

CORN RIDES HIGHER

By JOHN P. BOUGHAN, Associated Press Market Editor, CHICAGO, Aug. 1 (AP)—A jump of almost 4 cents in the corn market today gave evidence that believers in lower prices had a rough road ahead. Speculators were quickly stampeded who dared to sell corn short despite knowledge that the bulk of readily available supplies for delivery on September contracts were in the hands of the men who captured control in the month just

ended. A buying rush that followed early selling, based on news of rains in drought districts, found offerings scarce, and corn closed buoyant at the day's top figures.

Corn finished active at 1-8 to 33-4 cents advance. Wheat was sluggish, sagging under the all-time bottom price record for September contracts, but rallied by corn closed 1-4 to 1-2 higher, with oats 3-8 to 5-8 up, and provisions unchanged to a rise of 12 cents.

Corn bears were in hot water constantly except for a brief time at the start.

Reports from Washington and Berlin about negotiations for sale of government financed wheat abroad had but little market effect, as similar reports had been current for some time. Chicago receipts of wheat were heavy, 596 cars, as much wheat is being moved down the lake. Oats, like wheat, rallied with corn. Oats crop news was bullish. Provisions were responsive to corn strength, despite weakness of hog values.

Drivers of sixes are spoiled for anything less. Drivers of sixes are "sold" on multiple cylinders. They would no more think of giving up "six" performance than any other real advancement of motoring.

Drive a Chevrolet Six, and you'll know why these drivers feel as they do. Step on the starter, let the motor idle—and notice its silence. Throw in the clutch, shift into "low"—and feel that smoothness. Change into "second," hit a faster clip, slip into "high," sweep along at top

speed—then throttle down to a crawl. The smoothness and flexibility you always get are six-cylinder smoothness, six-cylinder flexibility. Annoying vibration is gone!

Over two million owners have proved this six-cylinder Chevrolet engine. They have found that it costs less for gas and oil than any other. They have found that it actually reduces upkeep costs, by holding vibration to a minimum. They know a six is better in every way—and they would never be satisfied with less!

Twenty beautiful models, at prices ranging from... **\$475 to \$675**

All prices f. o. b. Flint, Michigan, special equipment extra. Low delivered prices and easy C. M. A. C. terms.
