'TWOULD MAKE GOOD CARTOON

Just what happened in tre wee smail hours of that morning in Reno isn't exactly clear, but Cornelius Vanderbilt Jr. lower right, through his attorney, says he became so incensed when he saw Mrs. Vanderbilt, upper right, and Peter Arno, left divoce-seeking cartoonist alight from an auto in front of the Vanderbilt, hame that he obtained a gun and started after the artist. Arno, whom Vanderbilt accuses of paying "persistent attentions" to his wife, lives nearby and started walking toward his own home. Half way over to the Arno residence, Vanderbilt says he came to his senses and returned home. Then he discovered that the gun wasn't loaded! Arno denies knowledge of the event, but Reno's police chief says the artist complained that he had been threatened with bodily harm by Vanderbilt.

FORMER SECRETARY FOR GOVERNMENT

EL PASO, June 30. (A)-White in terior, entered a government hos-pital here late today for an examination that will probably determine whether he will go to prison for

year.
In compliance with government instructions, he drove to William Beaumont general hospital, accompanied by members of his family, to be examined by army physicians for several days. The latter will report their observations directly to surgeon general in Washington, and information on their findings will be made public in El Paso un-

til after the formal report. The government insisted that the examination be made in the army hospital after four private physicians had concurred in a statement that Fall was suffering from chronic pleurisy with tendencies to contraction of acute bronchial pneumonia

Shortly before 4 p. m., Dr. H. T. Safford of El Paso, Mr. Fall's personal physician, arrived at the Fall residence, where the former secre-tary has been staying for several state of collapse, but after treatment by Dr. Safford assisted in the last preparations for her husband's

First Wheat of New Crop From Hopkins Area

First wheat of the new crop was delivered to the Great Wes elevator Saturday morning by Jack Bird of the Hopkins community, about 17 miles south

Coming from a field of 550 acres, it tested 58 pounds damp with a potential of 60 pounds dry. Mr. Bird told the NEWS POST that the field was averag ing about 25-30 bushel. The general average in that com munity will be above 20 bushels in his opinion. Summer fallow ed land will produce more.

A. Tieman, manager of the elevator, paid 40 cents per bushel, premium of 8 cents above the 32-cent market

The scale ticket showed: No. 2 wheat, gross 8320, tare 3660, net 4660, bushels 772-3, test 58, price 40 cents. The wheat was cu Friday afternoon with a 3-yearold combine. It was clean and the grains were plump.

TYLER, June 20. (AP)-Thirteen buildings which had hastily been Refuse Motion constructed in the oil boom town of Arp, 18 miles east of Tyler, since the Smith county discovery oil well was brought in several months ago almost as quickly were reduced to ashes early today when fire swept a business block.

The fire originated at 2:45 a.m. in a domino hall when a defective gasoline stove exploded. When the flames were brought under control six hours later, only a filling station, a cafe, a jewelry store and a barber shop remained in the block. Lack of water hindered the work

No cascualties were reported as a result of the fire. Rescuers renoved a sick man on a cot from hotel. Another man jumped hrough the second-story window through the second-story window Mr. of a hotel, in escaping, but was not Cisco, seriously hurt. Many persons rushed from their homes in night cloth-

BRIEF BATTLE OF THE GIANTS

It was a look of complete disdain that Primo Carnera, sauntering to a neutral corner, cast at Pat Redmond the other night at Ebbets Field, Brooklyn. Quite obliviour, however, was the Irish fighter, who in exactly 2 minutes and 24 seconds of cumbersome cavorting with Carnera already had made one trip to the canvas. Under a clumsy left hook from the Italian giant, appearing in a New York ring for the first time in more than a year, Redmond went down again for a full count by Referee McPartland.

Quinn, who joined Brooklyn this year after being released by the Athletics, entered the contest in the eighth as a relief pitcher.

"Pierre, if I have been too keer urging you to help me get in right on a really big thing and at the same time more than double your money for you, it's been on Ann's account. I don't mind for myself, pinching along like we have to on my measly bank-clerk salary, but it hurts to see Ann slaving without even a woman to wash and iron for her. I don't want Ann to work herself to death like so many of these Orchard Hill women do. If she didn't love beautiful things like she does or if she wasn't the kind who could really appreciate such things it wouldn't matter so much you know how fine Ann is. I'd like

Ton for ton mile for mile Chevrolet six-cylinder trucks cost less to operate

CHEVROLET To place your hauling on a minimum-cost basis-and keep it there-put Chevrolet six-cylinder trucks to work. Leading firms everywhere are practicing this sound economy. They are finding, by experience, that Chevrolet trucks give a lower transportation cost than any other trucks of equal capacity.

Take fuel consumption. Chevrolet has definitely disproved the old theory that a six uses more gasoline than a four. Because of modern, efficient engine design, Chevrolet sedan deliveries are frequently giving 20 miles to the gallon or better; and Chevrolet 11/2-ton trucks are making records that are relatively just as high. Then there is the matter of upkeep. On account of the

ruggedness of Cheyrolet bodies and chassis, service

expense is held to the absolute minimum, "20,000 miles without opening the engine for service," "Always on the job," "It just goes and goes and goes" are typical remarks of Chevrolet six-cylinder truck operators. And from the standpoint of long life, many a Chevrolet speedometer reads 50,000 miles or more, yet the truck is still giving reliable service at low cost.

In picking out a motor truck, it's wise to buy as big fleet operators are buying-choose six-cylinder Chevrolets. A wide variety of Chevrolet-built bodies is now available. And delivered prices of Chevrolet trucks, complete and ready for work, are based on low chassis-cost and low body-cost, plus only reasonable charges for handling and financing.

WASHINGTON-Melvin Joseph Maas, that husky ember of congress from Minnesota, is an ex-marine.

And he is displaying at the present those charactersties that have made that branch of the service famous as

fighters. His target is the lease policy of the postoffice department and Postmaster General Brown.

Vibrant voiced and blunt of speech, Maas says that Brown heads about the worst administration the postoffice the property. Since suits for recover the property since suits for recover the property must be placed in lepartment ever has had.

Long ago he was convinced that he had found the nigot through which part of the huge postal deficit dribpled away. He asked for a sweeping inquiry into the cirdumstances of postoffice leases of privately owned buildings all over the country.

A senate committee, headed by Senator Blaine of Wisconsin, is engaged in this task now.

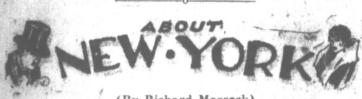

Representative Maas became aroused over the situaion when he was informed that in his own city of St. Paul, Uncle Sam contracted to pay \$120,000 a year as rental for postoffice "commercial station" on a property appraised \$317,000 by a commission appointed by a federal court. Minced No Words

He minced no words when he brought the subject up on the floor of the house. Nor did he confine his attentions to the St. Paul case. He took in Los Angeles, Chicago and other points west where he alleged postoffice leases should be investigated.

An investigation was ordered. Brown, in a radio speech recently, claimed that no evidence of fraud or irregularity had been disclosed by Blaine's committee.

"Devildog" Maas promptly delivered himself of some sarcastic and scathing observations on Postmaster General Brown and his department generally. It was a direct frontal attack in regular marine fashion.

RECORD IN THE PANHANDLE

In conversation the past week with a representative of a large farm and ranch loan concern operating in the Panhandle, the writer was surprised to learn that in sixty counties in this section there was not one penny of past due interest on several millions of such loans.

We submit that this record which is not equalled in any other section of the nation in that particular company's districts, is something that should be recognized as substantial proof of the morale and character of the Pan- CRUDE APPARATUS OF handle country. Of course, the concern in question is very careful of the sort of loans it makes, but exercising the same care in other parts of the nation has not produced same care in other parts of the nation has not produced such a record, and it is no wonder that it is looking for more business in this country,

the American public has been educated into eating all kinds of substitutes for the old fashioned, substantial foods of our forefathers.

Instead of eating more of the "Staff of Life" the public has been sold substitutes that are much more expensive and less nourishing. As a result the doctors and dentists have been working overtime in correcting ills occasioned by some of these so-called foods. One of Calvin Coolidge's favorite breakfast dishes is boiled whole wheat. This and many other highly palatable dishes can be prepared cheaply from wheat, cracket wheat, or wheat flour.

For the sake of your health and your purse, try eating more wheat products. Spearman Reporter.

> It is true that the prices of farm products are on the rocks but they will not be that way long. They always come back just as everything else does. However, low crop prices have hurt the farmers of this section less than in any other region because their cost of production is less in every phase of farming.

> Try to feature the pretty mess the midwest farmer is in who pays two, three or four times more for his land than the farmer in the Panhandle. The same farmer also pays more taxes and is out more for cultivation. He has more winter weather, fewer days in which to harvest and more overhead as a result of unfavorable weather and climatic conditions. His Panhandle friend is certainly in much- better shape to weather the economic storm which brings about low commodity prices.

MARRIAGE BUSINESS

What is the matter with the marriage business? That is what everybody would like to know. Today there are several western states which have gone in on the divorce issue as a commercial line of business. They have made the obtaining of a divorce an easy matter, and the expense is not so high. What is the reason for all this? Is it because there are so many movie actresses living in the west who marry on the experimental plan, and in a few weeks or a few months at best, are anxious to get rid of their supposed-to-be life partners, and enjoy the freedom of single life again, or who want some one a little more attractive than the first, second or third trial? There is no doubt but that the whole world has changed. Old things have passed away, and a new day reigns. There are but few of the conventions left. If a person advocates any of the things such as marriage is sacred; it is wrong for women to smoke cigarets; married men and women should not Dog in the Manger.

When the Phillips company asked for 5,000 barrels of additional oil and the allowable was raised, who put in a competitive demand for this crude? You're right—the major purchasers. These majors did not wish the oil until someone else asked for it, then they suddenly developed a demand themselves. Selto the point of science, and self-indulgence is the ruling passion of the world-in a business, social or political ense The conventions have been passed up and the guidng force with many in this age is the new code of "letting one's conscience be their guide." In simple words it is all right to do anything if the conscience business says there is no harm in it. What a travesty on life-real life. The bootlegger, the gambler, the desecrator of the marriage vow-they all pin their faith to the conscience story. And how plastic is one's conscience when they set their head to do a certain thing: Conscience is one of the most accommodating forces known to humanity. Its motto is "I strive

Each One of Four Riversides Gave This Service!

Mr. C. A. Puariea, of Portland, Oregon, below, purchased a set of Riverside" 30x5.25 Balloon Cords in 1927, when those RIVERSIDES were guaranteed for 12,000 miles. In his frequent crosscountry trips, he has run his tires over 42,000 miles of good and bad roads at all seasons of the year, and they

And still good for more! Mr. R. H. Easter of Elma, Washington, purchased a RIVERSIDE Truck Tire in October, 1923, for a school bus which he operates. This tire was in continual service for six years without ever having been removed from the rim, or having had a puncture. It traveled a minimum of fifty-two miles each day during the school year, carrying a full load of 50 passengers. When it was recently removed because of a bent fender the tire was examined and found to be in good condition for further service.

WARD'S RIVERSIDES ARE TURNING IN AMAZING MILEAGE RECORDS ALL OVER AMERICA!.

Here are just three examples: 42,000, 68,000, 86,000 miles!

AFTER all, you buy a tire for just one thing—and that's MILEAGE. And you do get MILEAGE when you buy a Riverside. The three examples shown above are but typical of the scores of letters and reports we are constantly receiving on Riverside performance. These three testimonials came to us unsolicited—they were not bought at a price!

No wonder jealous tire makers and dealers are becoming alarmed over the tremendous swing of tire buyers to Riversides. The most unfair and bitter tactics ever known in the tire industry are being used today to fight Ward's Riversides. Advertising has appeared all over the country in which mail order tires are referred to as "mongrels." Unfair comparison charts are being published and displayed by competitors. Second line tires are being offered under nationally known tire names at the same prices as first quality Riversides - BUT THEY CAN'T BEAT RIVERSIDE PERFORMANCE, AND THAT'S WHAT COUNTS, and that's what the customer wants.

We'll Match Riversides . . . on the Road . . . Against ANY Tire Made and We'll Beat it in Price!

Riverside tires are one of the best known in America. They have been sold for 19 years. They are made by one of the largest tire companies in the world. They are built to the most rigid specifications known. They are the finest quality it is possible to produce. They are backed by a guarantee that is without limit as to time or mileage. AND THEY SELL FOR LESS THAN ANY FIRST QUALITY NATIONALLY ADVERTISED TIRE ON THE MARKET! These sound like sensational claims. But they're FACTS. Montgomery Ward & Co., one of the largest merchan-

dising institutions in the world, now in its 59th year in business, stands back of every claim made in its advertisements. Note this -the nationally advertised tires offered you at the same prices as Riversides are NOT the first quality tires of the manufacturers who make them - but their second quality tires - put on the market to meet Riverside prices. So, always compare qualities as well as prices. The table at the right lists some of the best known first quality tires that DO compare with Riversides in quality-YOU COMPARE THE PRICES!
