

# OLYMPIC ISSUE IS DEBATED BY AAU OFFICIALS

## MOTION TO TABLE IS BEATEN BY SMALL MARGIN

NEW YORK, Dec. 7. (AP)—The Amateur Athletic union, storm-center of a bitterly-waged, nationwide controversy over American participation in the 1936 Olympic games at Berlin, postponed until tomorrow its final decision after a five-hour battle on the floor of the 47th annual convention today.

In the throes of perhaps the hottest fight of its long, embattled history, the A. A. U. adjourned at 7 p. m. After all efforts to reach a compromise on the Olympic issue apparently had failed, beaten by a narrow margin of votes on the first test of strength, boycott leaders under President Jeremiah T. Mahoney of New York tonight asserted they were gaining fresh support and predicted the A. A. U. would go on record tomorrow flatly in opposition to participation in the Olympics under German Nazi auspices. The convention is due to re-convene at 9 a. m.

NEW YORK, Dec. 7. (AP)—After voting to table a sweeping Olympic boycott resolution by a narrow margin, the Amateur Athletic Union's annual convention was precipitated into wide open debate on the controversy late today by attempts to put through a substitute motion, toned down to support American participation in the games but still protect Nazi athletic policies.

The convention was split wide open on the whole issue as a direct consequence of the earlier tactical victory gained by proponents of American participation, led by Avery Brundage of Chicago, the president of the American Olympic committee.

This vote to table the original boycott resolution, offered by Louis de Benedicto of New Orleans, was announced as 61 to 55, minus fractions which led to some sub-

sequent dispute among tabulators of the balloting.

Charging they had been the victims of "double dealing" boycott advocates, led by Jeremiah T. Mahoney, president of the A. A. U., quickly seized their parliamentary opportunity to re-open their fight when a substitute motion was offered by Gustavus T. Kirby of New York.

Kirby's motion in effect was designed to put the A. A. U. on record as favoring full American participation but simultaneously demanding vigilance by international athletic authorities against racial or religious discrimination in Germany. The motion also included a denunciation of Nazi policies.

Kirby's motion, after several amendments designed to put "teeth" into it, was promptly followed by a substitute motion flatly asking the A. A. U. to oppose participation in the Olympics if they are held in Germany. This motion was put before the convention by Charles L. Ornstein of New York who charged Brundage with violating pre-convention pledges and demanded that the entire Olympic issue be fully debated.

Mahoney stepped down from the presiding chair to continue the attack and insist that there be no further side-stepping of the main issue, specifically Germany's adherence or non-adherence to Olympic pledges of fair play.

The session was adjourned shortly after seven o'clock, thus putting the final decision on the entire matter over to the final session of the convention tomorrow.

Brundage closed the debate for the day with a speech in which he cited numerous records and evidence to back his contention that Germany was adhering to its Olympic pledges. He again sounded the note of warning that the A. A. U. was in danger of wrecking itself if it insisted upon opposing participation in the Olympic games.

**LABOR SHORTAGE**

DALLAS, Dec. 7. (AP)—Works Progress administration officials reported a labor shortage today on jobs in the Dallas district, as well as workers urged a relaxation of federal regulations to permit the employment of a larger quota of indigent non-relief workers on WPA projects. Figures released by the office of Gus W. Thomason, district WPA director, showed 14,622 workers had been requisitioned for jobs in this district and that only 11,030 persons have responded.

# GOLD BUGS TIE TEXAS TECH AS PARTISANS BOO REFEREE

OKLAHOMA CITY, Dec. 7. (AP)—The Gold Bugs of Oklahoma City University turned in their most impressive performance of this football season today to tie Texas Tech's Red Raiders, 7 to 7, on a heavy field. A field goal try by the Texans in the closing minute of play was so close it left partisans of each side happy for the moment, and Referee Ralph West's decision of "no goal" drew objection from the visitors.

Oklahoma City took the lead with a touchdown in the second period, but the Matadors tied it with a running and passing outburst early in the third. Gaines Davis kicking the placement for the tying point.

As the time keeper fondled his pistol for the final shot, when Texas Tech had the ball on O. C. U.'s

# HIGH SCHOOL TEAMS GO INTO QUARTER-FINALS OF RACE

(By The Associated Press.)

Seven class A high school teams battled through bi-district competition Saturday to go into the quarter-finals of the Texas inter-scholastic football race.

The other bi-district race was settled Friday when Corpus Christi took the title in districts 16 and 16 by defeating Brackenridge of San Antonio. The game was awarded on 20-yard line penetrations after the teams fought to a 13-13 deadlock.

Headed in the direction of another state championship, the Golden Sandies of Amarillo won the title in districts 1 and 2 Saturday by trouncing Breckenridge, 13 to 0. Three times Breckenridge was in striking distance, but the Sandies managed to ward off the drives.

The San Angelo Bobcats climaxed a 50-yard drive early in the first quarter with a touchdown to defeat the El Paso Tigers and take possession of the race in districts 3 and 4.

Wichita Falls defeated Sherman, 6 to 0 to set the pace in districts 5 and 6. Captain Kenneth Whitlow, Wichita Falls center, took a fumble in the air from M. C. Everheart, Sherman back, and ran 70 yards for a touchdown in the third period.

The Dallas Tech Wolves, out-

played for almost three periods, unleashed an aerial attack that gave them a 13 to 0 victory over Mesquite Home of Fort Worth and the title in districts 7 and 8. The scrap was waged on a wet field.

The strong Greenville eleven, semi-finalist last year, was nosed out of the race on line penetrations after battling Tyler to a 9-9 tie score for the title in districts 9 and 10. Tyler made four 20-yard line penetrations to one by Greenville. Port Arthur, taking advantage of a blocked punt in the second period, ousted San Jacinto of Houston out of the districts 13 and 14 race, 6 to 0.

# Mexia Flashes Air Circus to Trounce Temple

WACO, Dec. 7. (AP)—The Mexia high Blackcats flashed a spectacular aerial attack here today to upset the Temple Wildcats, 16 to 12, and win the Class A schoolboy football title in districts 11 and 12.

Mexia scored in the opening quarter after Ernest Lain tossed a short pass to McKnight, who lateraled to Bowers. Bowers raced 51 yards to Temple's 14 before being pulled down. Five plays later, Bowers plowed over for the touchdown.

Fred Rodgers of Temple tied the score a few minutes later on a 28-yard gallop to pay dirt.

Jodie Marek put the Wildcats in the lead near the close of the period with a 70-yard touchdown dash.

Mexia got a safety in the second quarter when the Blackcats blocked a punt and Moeller recovered behind the goal. The Blackcats scored another safety in the final period when a bad pass got away from Marek and he was forced to cover behind his goal.

Lain heaved a pass to McKnight near the end of the game for Mexia's final counter.

# LeFors Pirates Lose, Girls Win At Whittenburg

LeFors basketball teams divided games in Whittenburg last night, the LeFors Pirates losing a 28 to 22 game to Coach "Dumb" Newman's boys.

Whittenburg's boys showed a smooth passing attack and a surprising ability to find the basket for so early in the season. Despite lack of practice the Pirates showed much ability and promise to be strong before the close of the season.

Whittenburg's teams will play return games in LeFors Tuesday night, beginning at 7:45 o'clock.

The LeFors Faculty team stepped into too strong competition on Thursday night and lost a 35 to 10 game to the Skelly Oilers in Skellytown. Skellytown presented one of the smoothest quintets seen in this section in many years.

# PAMPA FFA CAGERS GO INTO FINALS OF CLARENDON MEET

Playing an outstanding passing and shooting game, the Pampa high school FFA (Future Farmers of America) basketball team yesterday went into the finals in the association's tournament staged at Clarendon. The Pampa quintet will meet Samnorwood in the final game, probably Saturday night in the local gymnasium.

Because of the large number of entries in the tournament, it was impossible to complete play in the single day and playing of the final game had to be postponed. Since the district FFA meeting is scheduled to be held in Pampa Saturday, it is believed the playoff game can be arranged for a night attraction.

Pampa's team won its first game from Miami, 48 to 24, and went into the finals by downing Estelline, 28 to 11. Albert Webber was high-point scorer. In the opening game, the Pampa first string ran up 42 points in the first half. Substitutes played the rest of the game.

The F. F. A. team is coached by J. L. Lester and A. E. Frasier, vocational agricultural teachers. They have worked long and hard with the boys until they now have a team ready for stiff competition.

Members of the squad playing in yesterday's games were Ed Hassell, James Herring, Wilbur Irving, E. Vanderberg, Albert Webber, Ed Haner, Ira Poe, Frank Duff, Earl Riley, Farrington Lewis, Hugh Anderson, Freeman Sullivan, E. W. Hogan Jr. and LeRoy Johnson accompanied the coaches and boys.

Scores of games were: Clarendon 26, McLean 6. Samnorwood 30, Quail 7. Pampa 48, Miami 24. Estelline 22, Perryton 19. Samnorwood 32, Clarendon 13. Pampa 28, Estelline 11.

of playoff to decide a county champion to enter the district tournament in Pampa February 14-15.

Many coaches have expressed a desire to decide the county representative through a tournament played in the new Wheeler gymnasium on February 7 and 8. Competition in the county is expected to be keen.

The Mobeetie Hornets, high school team, are looking for competition. Anyone desiring a game should get in touch with Coach "Lefty" Fowler.

**HI-Y CONFERENCE**

WICHITA FALLS, Dec. 7. (AP)—Hi-Y boys from the northwest and north central districts of Texas held a joint "get together" with the Girl Reserves of the Wichita Falls high school here Saturday night. A buffet dinner was served in honor of the older boys conference delegates, and high school and junior college students entertained formally and informally for the visitors.

### Texas Pioneer Press Agent To Be Paid Honor

AUSTIN, Dec. 7. (AP)—Texas will honor tomorrow the memory of Jacob de Cordova, pioneer "press agent" a century ago of the republic and founder of the L. O. O. F. in Texas, by interment of his remains in the state cemetery.

Remains of De Cordova and his wife, Rebecca Sterling De Cordova, were brought here from Kimball on the Brazos in Bosque county for reburial in the cemetery reserved for the state's distinguished men and women. Services will be under auspices of the Daughters of the Republic of Texas.

De Cordova, Spanish immigrant from Jamaica, was credited with securing a charter for the first Odd Fellows lodge in Texas, at Houston, in 1838. Later he was elected grand sire of the order and his portrait hangs in many lodges.

He dealt extensively in land and through advertising induced thousands of people to settle in Texas. His visits to various sections of the United States and England heralded resources of the then republic.

Two books, "Texas, Her Resources and Her Public Men," and "The Texas Immigrant and Traveler's Guide," of which he was author, attracted many settlers.

### Hollywood Sights And Sounds

**BY ROBBIN COONS.**

**HOLLYWOOD**—Unreal parade: Lily Pons is getting applause here as a natural comedienne as well as soprano since the preview of "I Dream Too Much"—Henry Fonda clicks too.

In "Ah, Wilderness!" one of the funnier sequences is that of the high school commencement, class of '06, in the little New England town. Various graduates show off their skill in music and recitation. Unlisted in the billing, the girl who plays the clarinet with such hilarious effect is Kathleen McGee, a local high school girl thus given her first visit to a studio. And her last, she hopes, because she takes her music seriously and has no ambitions as a comedienne.

**Coffee Bath.** Rin Tin Tin Jr., son of the departed dog star, is a canine Anna Held. Anna may not have bathed in milk for her complexion, but Rinty Jr. bathes in coffee. That is, he gets a daily brushing of it, black, for the sake of his coat's sheen.

More dog talk: the "fight of the century" may be anticipated in "The Country Beyond." . . . Buck the St. Bernard and Prince the Great Dane, movie rivals from the same kennels, are cast as hero and villain, respectively.

And baby talk: Young Dickie Moore was the first child actor to

### Mountaineer to Hang for Death Of U. S. Agent

INDIANAPOLIS, Dec. 7. (AP)—The first man to receive the death penalty under the new federal law, George W. Barrett, 50 year old crippled Kentucky mountaineer, today was found guilty of first degree murder by a federal court jury for the slaying of a federal officer.

The verdict carries a mandatory sentence of death by hanging.

He was convicted by a jury in 50 minutes for the killing of Nelson B. Klein, government agent, at College Corner, Ind., last August 16. Klein was shot down as he and another federal operative attempt to arrest Barrett on a charge of stealing automobiles.

Agnes deMille, who disagreed with Uncle C. B. and gave up her dancing job in his "Choppatz" is dancing directing on "Romeo and Juliet." . . . Fay Wray will be all set for film-town's costume parties. . . . She collected various peasant outfits on a Swedish "costume tour."

### 'Bread Racket' Is Investigated

NEW YORK, Dec. 7. (AP)—The "bread racket" which Special Prosecutor Thomas E. Dewey believes federal operative attempt to arrest Barrett on a charge of stealing automobiles.

Inspired by their success against loan sharks of whom 15 already have been convicted, the Dewey

### Richetti Juror Commits Suicide

KANSAS CITY, Dec. 7. (AP)—Out of the shadowy gangland of his own fears and fancies, death came today for Dr. Robert J. Fowlston, one of the 12 jurors who condemned Adam Richetti to die for the famous Union Station assassinations of four officers and their prisoner here June 17, 1933.

Dr. Fowlston was found shot to death in his home with a pistol and shotgun by his side.

The vivid picture of gangster assassination had never left him since he served on the Richetti jury last June, his brother, George, said.

Fearful of vengeance, he secluded himself in his home, watching nightly with his guns for assassins who never came. Shadows in the streets shook him into panic. Noises of the night roused terror.

George Fowlston found the body in the tightly locked and shady home today.

"I can't go on," said a note in his brother's hand.

### 87-Year Resident Of Texas Is Dead

AMARILLO, Dec. 7. (AP)—Mrs. F. J. Trigg, who had lived in Texas 87 years, died here today.

Born in Illinois, Mrs. Trigg was brought to Texas when she was only two years old, the family settling first in Dallas county. At that time only one log cabin was located at the present site of Dallas.

In 1889 Mrs. Trigg came to the Panhandle, settling on a ranch between Amarillo and Canyon with her husband, who aided in the organization of Randall county.

A son, Howard Trigg of Amarillo, and four daughters survive her. The daughters are Mrs. Margaret Chestnut and Mrs. Davis Tudor, both of Amarillo; Mrs. W. D. Twitchell of San Angelo and Mrs. B. W. Owens of Fort Worth.

Funeral services will be held here Monday.

India now has approximately 40 motion picture producing studios.

### O'NEAL DIES

AUSTIN, Dec. 7. (AP)—The state flag was lowered to half-mast today on orders of Governor Allred in tribute to Judge Howard F. O'Neal, former member of the legislature, who died yesterday in Atlanta.

**SUDDEN DEATH**  
VICTORIA, Dec. 7. (AP)—G. H. Hensley, 58, Victoria insurance man, died at a Houston hospital late today of injuries received when an automobile in which he was riding and a creamery truck collided 17 miles west of Houston. Mrs. Hensley also was seriously injured. The couple was en route to Houston to visit a daughter, Mrs. O. D. Feland.

### SUPREME COURT TO HEAR CASES ARGUED MONDAY

#### Defense Presented By Government Attorneys

WASHINGTON, Dec. 7 (AP)—A 171-page defense of the Bankhead Cotton Control act was presented to the supreme court by the government today as it prepared to battle next week for the life of the administration's farm relief program.

The nine justices who unanimously upset NRA will hear arguments Monday on the validity of the AA processing taxes, in the Hoosac Mills case, and the following day on the Bankhead act. Both were intended to boost the income of the American farmer.

Solicitor General Stanley Reed, who will argue both cases for the government, contended in his Bankhead brief that the cotton act involved no improper delegation of legislative power and that it directly affected interstate commerce. Those were the grounds upon which the court held NRA invalid.

The justices, who are expected to decide the farm act's validity in the Hoosac Mills case, were told in two briefs that the legislation should be outlawed, and in a third that it was essential for national welfare.

The immediate and long-time economic and social interests of the people depend substantially upon the inclusion of agriculture in the general protective system which has been adopted by the United States, the Farmers National Grain corporation contended.

Representing a number of packing companies which process hogs, William A. Bodine, a Philadelphia attorney, told the court that to "levy the processing tax on packers" would pay for the building of bathhouses at a rate measured by their costs.

The contention that the processing tax "limits the buying power of the country as a whole by increasing the price of agricultural commodities to consumers" was made by the Farmers' Independent council of America.

### Good Samaritan Is Doublecrossed By a Policeman

YONKERS, N. Y., Dec. 7 (AP)—Patrolman Paul Both found himself in a rather delicate position today, but he saw his duty and he did it.

Patrolman Both was shivering on a street corner when a passing motorist, Donald Welch, offered him a lift. In front of the police station the patrolman debarked and then he noticed the license number of the car.

He felt compelled to invite Welch into the police station because they had all been seeking Welch for some time on a non-support warrant.

To make it worse Welch didn't have his driver's license with him so Patrolman Both had to book him on that charge as well.

NEW ORLEANS COTTON NEW ORLEANS, Dec. 7 (AP)—Pre-bureau evening up operations accounted for most of the dealings on the cotton market in today's short session and at the close active positions were from 1 to 2 points higher.

Liquidation of long accounts and covering in short positions were about evenly balanced and there was little important activity on either side of the market. The trade took most of the contracts offered at levels corresponding to Friday's close, and speculative support was almost lacking.

Dec. closed at 11.90, March at 11.58, May at 11.50, July at 11.42 and Oct. at 11.25. In the spot market the average price of middling at ten designated markets held below twelve cents, with a figure of 11.95 quoted for today's sales.

More private crop estimates were issued today, indicating that the trade was looking for a figure much below the 11,141,000 bales reported a month ago by the crop reporting board. As this will be the final crop estimates of the year it has attracted considerable attention.

BUILDING PERMITS DALLAS, Dec. 7 (AP)—Houston topped the list of Texas cities again this week in volume of new construction, with building permits totalling \$190,560. This boosted the port city's yearling figure to \$6,494,471.

Cities Reporting Week Year Houston \$190,560 \$6,494,471 Dallas 46,136 3,872,225 Galveston 21,725 640,409 Austin 16,542 5,089,483 Tyler 13,880 1,360,092 San Antonio 12,802 4,185,659 Fort Worth 8,000 3,079,725 Beaumont 4,466 551,855 Wichita Falls 2,300 310,645 Corpus Christi 1,500 533,505 Corsicana 1,200 120,021 Lubbock 995 203,407 Shreveport, La. 27,178 1,219,986

The News' Want-Ads bring results.

### Seven Tie for U. S. 'Healthiest'

Even the judges gave up when they tried to pick America's healthiest boy and girl from this group, so they decided to award blue ribbons to all seven. The robust septet were winners in the 4-H club contest held annually at the international livestock show in Chicago and they're celebrating with deep draughts from their favorite beverage, milk. Left to right are Howard Cobb, 18, Greene, N. Y.; Eloise Garrett, 15, Uriah, Ala.; Fred Abel, 20, Gadsden, Ala.; Marion McLaughlin, 15, Treney, Mich.; J. Alton Ruffe, 20, Pleasant Hill, Mo.; June Castine, 15, Ridgeway, S. C.; and Charles Jordan, 17, Beloit, Kan.

### Scanning New Books

Painstaking research has characterized the work of Mary Jourdan Atkinson, former University of Texas student, which was a prelude to the writing of her book, "The Texas Indians," according to J. E. Pearce, professor of anthropology at the university.

"The writer of this book on the Texas Indians has taken practically all of the sources offered in the anthropology department of The University of Texas," Professor Pearce said, "and doubtless her interest in Indians comes largely from her anthropological study. However, Mrs. Atkinson has done a feature writing for newspapers and has acquired a vivid, picturesque, reportorial style."

"For many long months Mrs. Atkinson has ransacked the archives of the University of Texas and other available sources for evidences of the early Texas tribes and of their manner of life. She has ransacked, also, the works of Lafitau, Du Pratz, Swanton and others on the Lower Mississippi tribes for light on the manners and customs of the Mound Builders in order to get detailed information and for interpreting the culture of the Caddoes and Assinai of East Texas who were the western fringe of the Mound Builder peoples. As a

consequence, her book is chock full of interesting and illuminating information upon all of the Texas tribes put together in a manner and written in a style that are always vivid and that should appeal to the average intelligent person interested in man's past but not too critical as to the technical interpretation of tedious detailed facts.

"This is the only book to date devoted exclusively to Texas Indians and, as a Centennial publication on the hundredth birthday of Texas independence, it has unique value. So well documented is the book that it may well serve as a guide to teachers and students who would like to go to sources for knowledge of the Comanches, Caddoes, Assinai, Karankawa and other Texas tribes. No more interesting primitive peoples existed anywhere in the world than the Texas Indians and Mrs. Atkinson puts them before us in this book in a vivid imaginative way not easily forgotten. I predict for it a wide popular sale."

Well, after more than a century General Armand de Caulaincourt's "With Napoleon in Russia" (Morrow) is out.

It is the most important addition to Napoleonic literature in many years, and although a little heavy

for subway consumption it is certainly the most readable historical memoir this department has clamored through recently. In fact there are places where you can't stop, no matter how late the hour.

The general was Napoleon's master of horse. He was also one of the men who told his imperial master the truth on occasion. He had been Napoleon's ambassador to Russia as well, so that he was invaluable when Bonaparte began his Russian campaign. Caulaincourt repaid his master by giving him sound advice, which his master ignored almost entirely.

Caulaincourt was at the left side of Napoleon on the march to Moscow. He survived the costly "victory" of Borodino, the disaster in Moscow, and the retreat to the place where Napoleon began his long, lonely drive back to Paris. And the man chosen for the trip was Caulaincourt.

For two weeks these two were together day and night—and alone. Perhaps to take his mind off the Russian disaster, Napoleon spent the two weeks talking. He discussed everything and everybody from himself and Josephine to the "Tear of Russia" from his plan to whip England into a jelly to his wish that in the future he might spend four months a year travelling about France, learning the land from the ground up, literally.

Caulaincourt put down his priceless record each night while he watched over the sleeping Emperor. Later he made two copies thereof, sent one to Paris, corrected the other and kept it at his chateau. It is this version which, after a long and romantic history, has been edited for the edition in English.

Thumbnail Reviews "The Street I Know," by Harold Stearns (Furman): a well known professional expatriate in the old pre-war days. Mr. Stearns has returned, recounted and recounted. "The Gay Reformer," by Mauritz A. Hallgren (Knopf): a shrewd estimate of Franklin D. Roosevelt; the portrait faces the left, but is not too far off balance.

"The Middle-Aged Man on the Flying Trapezoid," by James Thurber (Harpers): a collection of Thurber's most cock-eyed passages, some not very funny, some 100 per cent funny; the best is "If Grant Had Been Drinking at Appomattox."

"Woodrow Wilson: Life and Letters," by Ray Stannard Baker (Doubleday, Doran): the fifth volume of Mr. Baker's long, long work, covering 1914-15, and justifying Wilson at the expense of several of Wilson's fellow workers.

"Cat-Calls," by Peggy Bacon (McBride): collection of this writer's rather brittle verse, illustrated by her frisky pen.

"Fish on the Steeple," by Ed Bell (Farrar & Rinehart): a corking Tennessee novel, a little confused at times but authentically in the soil; Mr. Bell probably won't please the intelligentsia like Caldwell and Faulkner, because he has a sense of humor.

"Beaumarchais," by Paul Frischauer (Viking): the life story of the perfect opportunist, a blackmailer playwright, adventurer—and many more things; "The Barber of Seville" and "Marriage of Figaro" are his plays, of course.

**WILL IGNORE PARTY LINES IN CAMPAIGN**

**ECONOMIC PRINCIPLES ARE EMPHASIZED, NOT PARTISAN**

BY EDWARD J. DUFFY, Associated Press Staff Writer.

WASHINGTON, Dec. 7 (AP)—The on-coming presidential campaign presents possibilities of even more spectacular display of party lines than in 1932.

Although political organization planning proceeds in much the usual manner, portents of extraordinary efforts and divisions were plain this week. Omens of good and ill for both major parties multiplied.

There was an increasing tendency to emphasize economic and governmental more than partisan principles. It could be seen in the speeches here tonight by Senator Borah of Idaho and in Topeka by Governor Landon of Kansas, potential rivals for the republican nomination.

One effect has been to spur speculation on whether the campaign will be argued as much on liberal and conservative bases as any other. Consider several recent developments. Antagonism or organized business leadership crystallized in an open declaration of war against the new deal, powerful legal forces aligned for conflict of the AAA opening in the supreme court Monday, the American Federation of Labor was judged by its president ready to abandon non-partisanship next year if imperative to its interests.

Democratic and republican labels had second, if any, place in all of it. Wearers of both were among the industrialists who spoke out in New York.

On the 1938 choice as projected by the administration—the new deal or the old order—they vehemently upheld the latter. Increased participation in politics was sought, not only against Roosevelt policies but against liberal or radical republican elements.

Democratic leaders professed no surprise or chagrin. Word passed quickly that the president would not turn back.

Rather, it was said at Warm Springs, he hopes the supreme court can rule on measures under attack in time to have congress at this session reconsider any invalidated. This practical challenge may be elaborated by Mr. Roosevelt in his address to the American Farm Bureau Federation at Chicago Monday.

President Roosevelt from the first has depicted the new deal as above parties as such. Indications are he will continue to do so.

Republican leaders now drill a similar theme, but in reverse. Borah and Landon insisted constitutional democracy itself is the issue, the decision being "far deeper" than one between parties.

**Old Georgia Law Voided in Negro Communist Case**

ATLANTA, Dec. 7 (AP)—Georgia's insurrection law enacted in 1866 was held unconstitutional today in the case of the negro communist, Angelo Herndon, and the prospect developed for a test of the statute in the United States supreme court.

Superior Court Judge Hugh M. Dorsey found the law invalid because it was "too vague and indefinite." Herndon was convicted under the statute in 1932 after he had organized 1,000 families, 600 of them white, in an appeal for relief, and his punishment was fixed at 18 to 20 years on the chain gang.

Following today's decision Herndon was released under \$5,000 bond which will continue in force for 20 days during which the state may appeal. If the state fails to do so, he will go free.

Fred Thompson, lieutenant governor of this Kiwanis district, and W. V. Jarratt, new president of the Pampa club, left yesterday for Dallas to attend the mid-winter conference of lieutenant governors and newly-elected presidents today and tomorrow.

Dispatches from Comorandel in the interior hillside of Minas Gernes state, Brazil, say a diamond unearthed there weighing 141 carats was sold to Joaquim Aguiar, industrialist, for 495 contos (about \$30,000) and is valued at 1,200 contos (about \$72,000). Other large stones are the Orloff diamond, 194 carats; Pitt diamond, 197 carats, and Koh-i-nur diamond, slightly over 100 carats.

Mr. and Mrs. Vern Savage and daughter Melba, and Mrs. J. W. Powell and son, B. W. Powell, have returned home after visiting friends and relatives at Arkansas City, Kan., Sedan, Kan., Pawhuska and Ponca City, Okla., over the holiday.

# Rex Theater Toy Matinee Is Tomorrow

## JAMES CAGNEY HERE NOW IN "FRISCO KID"

STIRRING YARN BASIS  
OF NEW WARNER  
FILM

"Frisco Kid," Warner Bros.' dramatic pietization of the thrilling pioneer days of old San Francisco when the Barbary Coast seethed with activity and life within its borders was the wildest adventure, is scheduled as the feature attraction at La Nora theater today.

The all star cast is headed by James Cagney, who is supported by Margaret Lindsay, Ricardo Cortez and Lili Damita, more than forty persons in the principal roles and thousands in the gigantic mob scenes.

The story, by Warren Duff and Seton I. Miller, who also wrote the screen play, centers about the terrific conflict between the denizens of the waterfront and the better class of citizens at a time when there was no effective law except that laid down by the dread hand of the vigilantes.

Barbary Coast, at the time, swarmed with every sort of adventurer, including miners going or returning from the gold fields, pickpockets and fugitive criminals from the penal colonies of Australia, gamblers, dive keepers and women of the underworld from every part of the country.

Murder, arson, crimping, white slavery and every other known vice, flourished openly in the shadow of the law whose officers waxed rich from the spoils of their underworld henchmen. It was under these conditions that the famed vigilantes were organized to hang murderers, miscreants and burn dives that got out of hand.

These flaming events constitute the stirring action of the picture, and it is in this setting that there blossoms a most unusual romance, that of a leader of the city's desperadoes and a beautiful girl, tenderly reared in the luxury and refinement of the highest society.

Cagney has the role of a rough and rugged sailor, who becomes

## In Barbary Coast Story

Shown above are James Cagney, Lili Damita, and Fred Kohler, featured players in the new Warner film, "Frisco Kid," a story of the Barbary Coast now told on the screen of La Nora theater.

king of the underworld and controls his henchmen with an iron hand. Margaret Lindsay is the girl who saves him from the noose of the vigilantes.

Ricardo Cortez is the proprietor of Morra's resort, a historical gambling palace. His common law wife, a famous beauty of the time, is portrayed by the exotic Lili Damita.

Donald Woods is the militant editor of the Tribune, shot down in cold blood by Joseph King as the political boss, who is hanged for the murder by the vigilantes. George E. Stone is Solomon Green, proprietor of a second hand store, a character made immortal in song.

Barton MacLane has the role of a resort keeper and leader of a gang of shanghai artists which include Joseph Sawyer and Fred Kohler, the latter slain with his own iron hook arm by Cagney, after a terrific hand to hand battle.

The shanghaiing of sailors, cold blooded killings, the quick trials and the resultant hangings by the vigilantes, terrific battles among the underworld characters and with the vigilantes, and finally the burn-

Ahoy, parents and children! The Rex theater will admit every child under 15 years of age to an interesting movie tomorrow afternoon—Monday—at 4 o'clock, who presents a good new or used toy.

It is a toy matinee, with the toys to be distributed to the needy children at Christmas. Toys which need rejuvenating will be repaired by the Pampa fire department.

Just take a toy to the Rex theater tomorrow afternoon at 4 o'clock and see an interesting show. The featured picture will be a Zane Grey western, "Wanderer of the Wasteland."

Laid against the picturesque desert country of the West in the days when bands of outlaws roamed the desert wastes, preying on gold prospectors, "Wanderer of the Wasteland" enters its story about Dean Jagger, young Easterner who on his way to the bad lands, meets and falls in love with Gail Patrick also traveling to the gold country with her parents.

Upon his arrival, his ne'er-do-well brother is accidentally shot in a crooked card game and Jagger, unjustly accused of the crime, flees into the desert. Edward Ellis, a kindly old prospector, finds him half dead from exposure and thirst, and becomes his friend. Doomed to wander the wastelands, a fugitive from justice, unable to return to civilization, Jagger becomes a member of a gang of renegades, headed by Larry "Bulker" Crabbe. Finally rebelling against their unscrupulous tactics on innocent prospectors, he revenges himself on them in a thrilling gun battle, when they attack his benefactor, Ellis, and hold Miss Patrick captive.

## OUTSTANDING MINISTERS WILL BE HEARD IN BIG CONFERENCE HELD AT TEACHERS COLLEGE

CANYON, Dec. 7.—All is in readiness at the West Texas State Teachers college for the regional religious conference which will be held here on December 12.

Representatives of all denominations, public officers and leaders of all kinds have indicated their intention to attend the conference.

The opening address of the program will be given by Dr. R. Thomsen, pastor of the Central Presbyterian church, Amarillo. The morning session will begin at ten and the afternoon session at 2 p. m.

Following is the complete program:  
Morning Session 10:00-12:00  
Rev. C. S. Marsh, First Christian church, Canyon, presiding.

Music, West Texas State Teachers college organizations.  
Welcome address and formal opening of conference, Dr. J. A. Hill, Canyon.

"The Church and War," Dr. R. Thomsen, pastor Central Presbyterian church, Amarillo.  
"The Outlook for Christianity in Present Day Europe," The Most Reverend Bishop Robert E. Lucas, Catholic diocese of Amarillo.

"Our Economic Structure in the Light of Christ's Teachings," Dr. C. C. Grimes, pastor Park Street Methodist church, Amarillo.  
Forum, Rev. J. A. Quattlebaum, Methodist church, Canyon, leading.

Afternoon Session 2:00-4:00  
Rev. J. E. Hicks, Baptist church, Canyon, presiding.  
Music, West Texas State Teachers college organizations.

"The Spiritual Value of Scouting and the Need for Intelligent Leadership," Miss Margaret Chessmore, Regional Director of Girl Scouts, Panhandle area, Amarillo.

"The Christian Home and Modern Life," The Right Reverend E. Cecil Seaman, Bishop Northwest Texas district, Protestant Episcopal church.

"The Need for New Testament Discipleship in the New Age," Dr. G. L. Yates, Pastor First Baptist church, Amarillo.  
Forum, Miss Ocie Sanders, department of Bible, West Texas State Teachers college, Canyon, leading.

## 'Chute Jumper to Give Exhibition This Afternoon

Percy Miller, one-legged parachute jumper, will give an exhibition at the Rex theater this afternoon. He sides a delayed jump, there will be stunts and stunts. The show will begin at 2 o'clock.

Miller will make a high delayed jump, carrying a sack of flour to indicate his drop. If enough spectators are present, the drop from high altitude is estimated at a speed of 120 miles per hour.

Miller will be making jump number 1391 this afternoon. He will drop from the wing of George Christophers's ship.

The Polynesian word "kanaka" literally "man" used by the Polynesians to describe themselves.

## Dignified? Well-Combed? Not in Play!

Two members of the cast of "Fingers," four-act play with a cast of 18 boys and three men to be presented at the city auditorium, Wednesday evening, Dec. 18, by the American Legion, are Aubrey C. (Fooy) Green Jr., left, and James Evans, right, son of Mr. and Mrs. S. C. (Tex) Evans. They are dressed up mighty fine in these pictures and their dignity is stupendous, but in the play (most of the time, otherwise) you'd not find their hair combed so meticulously. "Fooy," 13, plays the role of Skeeter, a mischief-maker, and James, also 13, is the stage manager and plays popular selections on the piano in the play. "Fooy" won the declamation contest last year and was a tackle on the 1935 Peewe football team. James, two years older now than when this picture was taken, is quite famous for his piano-playing.

in it, but there are some tears in it. It is the story of Ralph Moore, a boy crook, later called "Fingers," who joins a boys club. The plot details the experiences of Fingers and his pals. Members of the cast are rather talented for a group. Each does several things well, including playing football, besides making good grades. All of them belong to the same local Sunday school and most of them to the same Scout troop. All of them have won honors in the local school in speaking and declamation. They have been practicing on the play for six weeks, and have worked hard to make it a success. Members of the cast include the following: Bill Coons, Wayne Coffee, Doyle Auld, Aubrey C. (Fooy) Green, James Archer, James Evans, Jack Crou, Jack Hessey, Jack Stroupe, G. V. (Pat) Patterson, John Edwin McConnell, Edward Wilkins, Joe Crisler, Ray Boyles, Harding Duke, Herbert Maynard, all boys and Ely Fonville, and L. N. Brashers, adults.

**GOAT IN JAIL**  
DENVER, Dec. 7 (AP)—A goat with an appetite for underwear was in the city jail today—and Patrolman Lasso. Exactly one hour, Dady spent in fruitless attempts to rope the goat after North Denver residents complained their underwear was being eaten right off of the clothes line. One wise housewife lured the goat into a shed with cheese for bait. To jail went the goat in a patrol wagon.

## 'BEST PLAY EVER WRITTEN FOR BOYS' TO BE PRESENTED WITH A CAST OF 21 BY PAMPA LEGION

Cast of Play Given; Boys Ready to Stage Drama

"Fingers," four-act play to be presented by the American Legion, Wednesday evening, Dec. 18, at 8 o'clock at the city auditorium, has been described by many critics as "the best play ever written for boys." P. credits will be used to help finance the 18th district convention of the Legion here next spring.

### San Angelo To Play Amarillo On Butler Turf

ABILENE, Dec. 7. (AP)—Football teams of San Angelo and Amarillo high schools will meet in Amarillo Saturday at 2:30 p. m. in their quarter final game of the interscholastic league championship race. It was announced following a conference here tonight between officials of the two schools.

Captain Harry Taylor of San Angelo played center and Coach Blair Cherry of Amarillo called the turn to decide the game site.

Lubbock officials had made a bid to have the game played there.

### OFFICIALS

(Continued From Page 1)

and if it takes place.

This statement directed that only a limited number of witnesses be present and the execution be carried out "with the dignity and the solemnity of the occasion warrants."

The day brought other developments.

Governor Hoffman emphasized Parker's activity did not mean he had reopened the case; denied the new investigation had brought arrests; refused to assay the value of the information he has received from the detective; declined to discuss his own opinions in the case, and said his interest was not "a publicity stunt."

Parker, in the statement issued at Mt. Holly, threw no light on his sole investigation or the results it may have achieved. "The case is on review before the United States supreme court and perhaps will come up before the board of pardons. It would be unethical for me to speak at this time," he said.

Col. Charles A. Lindbergh, father of the murdered child, the New York Post said in a copyrighted article, does not take the Parker theory seriously because it is unsupported by tangible evidence. Lindbergh is "morally certain" Hauptmann did a one-man job," the newspaper said.

WASHINGTON, Dec. 7. (AP)—The supreme court was generally presumed to have reached a decision late today on whether to grant Bruno Richard Hauptmann's request for review of his conviction of kidnaping and murdering the Lindbergh baby. Whatever action was decided upon, if any, will not be announced until the court meets at noon Monday after a two weeks' recess. Usually petitions for review are decided with a one-word statement, either "granted" or "denied."

### TEACHERS SUCCEUMBS

Pampa friends of Miss Irma Campbell, English professor at Hardin-Simmons university, Abilene, yesterday learned of her death Friday morning. The funeral was held at Abilene yesterday afternoon. Several of her former pupils are living in Pampa.

Mr. and Mrs. Jack Baker announce the birth of a daughter, Janice Marie, on Friday. Mrs. Baker and baby expect to leave Worley hospital today for their home, 809 E. Craven.

### PARADE

(Continued From Page 1)

impossible job. There were hundreds of children, at least 500, exclusive of bands of which there were seven; there were scores of dogs, rabbits, kittens, a pig, a coon, a goat, a duck (Joe Ferner's), all kinds of dolls, doll buggies, carts, wagons, and practically every child was costumed. The most elaborate costumes were seen in the Baker school entry. These were authentic, colorful, well-made, and the children wearing them were made up well.

The parade "went off" exactly as it was planned. The children marched three abreast in the doll pet, and hobby divisions, and according to the city, rural and independent school classes. Judges spent an hour before the parade scrutinizing, peering at, comparing the entries; then, they did it all over again.

### Schools Given Credit

The Jaycees, which sponsored Santa Day felt that they could take very little credit for the parade. They cheerfully gave it to the head of the school system. Supt. R. B. Fisher, the county school superintendent, W. B. Weathered, the school principals, Aaron Meek, independent schools, A. L. Patrick, Mrs. Annie Daniels, Principal J. H. Duncan of LeFors, R. A. Selby, and to the teachers most of all.

The importance of the public school system to the Pampa community was realized once again yesterday. There seems to be no task which the local school and county school system cannot and will not do. The schools created the parade at the suggestion of the Jaycees, and then the Jaycees arranged it for marching. That last sentence tells the whole story.

Pampans and visitors from out of town were amazed at the parade. It was phenomenal and unprecedented here. True it did not have the magnificence of the Pre-Centennial parades, but it had that touching, vital, poignant, wonderful quality which people call human interest for want of a better term.

Santa Also Stars Yesterday morning, the school principals told how much fun the children got out of the parade. They enjoyed it to an intense degree. One of the highlights of the parade, furnished by the Jaycees was the Santa Claus float, decorated with red and white paper by those veteran and experienced builders, the Jaycees.

Santa Claus rode in the cockpit of a red airplane mounted on a truck. Behind him moved a pickup loaded with 350 pounds of candy, part of which was saved for the children in the parade, including the bands. The candy was of a better quality than ever dispensed at Santa's orders here. Next year plans will be made to make certain that all small children get their share of the sweets.

The order of the parade was as follows: the colors, borne by the American Legion and Veterans of Foreign Wars; high school band, pep squad, rural school entries, LeFors drum corps which created the usual sensation, the Independent school division, the Horace Mann band, the Pampa schools, the Woodrow Wilson band, the Sam Houston band, the Junior high band, Santa Claus float, and the B. & P. W. float which included a truck pulling a wrecked car with the warning, "don't kill a child." The candy truck was last.

Veteran parade observers estimated that fully 25,000 people were

amassed on Cuyler for the parade. Traffic on that main business artery was suspended during the parade. Literally hundreds came from nearby counties and towns. General chairman of Santa day was Jim Collins and other chairmen included, Dick Hughes, Santa Claus; parade, Bob Watson; candy and judges, Archer Fullingim; escorts, Clarence Kennedy and Bill Fraser; premiere, Carl Benefield.

### DOCK STRIKE

(Continued From Page 1)

had conferred with Mayor Oscar F. Holcombe relative to union men returning to work here Monday. "The mayor said he talked with Port Director Wait, and that Mr. Wait assured him the special guards on the docks would not interfere with our men," Fite said.

District I. L. A. leaders said that the agreement with the coastwise interests would result in "five or six hundred" men resuming. "Almost that many more will be back to work when Lykes Brothers sign the new contract, they said.

Coastwise steamship companies which obtained injunctions against I. L. A. strike activities in Lake Charles, Port Arthur, and other ports said they would see dissolution of the court orders.

The I. L. A. struck in an effort to bring about re-inclusion of Lake Charles in the new contract for this district, recognition of affiliated organizations of warehousemen, clerks and checkers, and recognition of the I. L. A. at New Orleans. It is now willing to submit the New Orleans situation to the federal mediation board appointed by Secretary of Labor Frances Perkins.

### BORAH

(Continued From Page 1)

stitutions in many ways are hindrances to prosperity and embarrass or retard our nation in its struggle for power. "When we dispense or discredit the power of democratic government to deal with our present problems we are rejecting nothing less and nothing more than the part which the people are to have in modern government."

TOPEKA, Kan., Dec. 7. (AP)—Gov. Alf M. Landon declared tonight the 1936 election will determine whether the American people want "to strengthen democratic institutions" or "accept more centralization of power."

The Kansas budget-balancer, mentioned for the republican presidential nomination, told young Kansas republicans and visitors from a dozen states that voters will face a decision "far deeper" than a choice between parties.

"Returns will show clearly," he

said, "whether the American people want to strengthen democratic institutions—whether they are determined to maintain parliamentary government—or if they wish to accept more centralization of power."

That choice "will make the 1936 election one of the most important and historically significant we have ever known," he added.

"When you propose to wipe out state sovereignty you are not proposing mere change in our form of government but you are proposing to destroy it. There can be no such thing as a great federal union without great commonwealths upon which it may rest.

"When it is proposed to curtail or limit the rights of the citizen and control his judgment as to how he shall direct his business you are not changing our form of government—you are destroying it. Once the dike of constitutional restraint is opened and the sea of arbitrary rights and personal liberty will ultimately be full and complete.

"We should strengthen the dike at every point."

### METHODIST

(Continued from page 1)

At the conclusion of their meeting, the college of bishops announced that their final action was adoption of a brief setting forth their views on the liquor traffic and its effect on the nation. The report was turned over to Bishop James Cannon Jr. of Blackstone, Va., for release tomorrow afternoon.

Members of the body would not intimate as to what the report contained other than to describe it as "a good one."

They accepted the invitation of Dr. Harvey W. Cox, president of Emory university at Atlanta, Ga., to hold their fall session there in 1936. The meeting will be held Dec. 11-13.

### Badgers Battle Marshall to Tie

MARSHALL, Dec. 7. (AP)—The College of Marshall Tigers and the Amarillo College Badgers battled in the mud to a tie all the way around today in a Texas Junior Athletic association bi-district gridiron clash.

The game ended: College of Marshall 13, Amarillo college 13.

First downs—10 and 10. Twenty-yard line penetrations—2 and 2. After the battle, no one knew which team would meet Schreiner Institute of Kerville for the Texas Junior college championship.

Marshall got away to a lead with touchdown in the first and second quarters and remained in front, 13 to 0, at the half.

### China Lies in Hands of Chiang

NANKING, Dec. 7. (AP)—China's government became a virtual one-man affair today. The political destiny of more than four hundred million persons lay in the hands of Generalissimo Chiang Kai-Shek.

Three more powerful jobs were given the 47-year-old Chiang, already a semi-dictator. The central Chinese government executive committee elected him chairman of the executive Yuan, a job which is the equivalent of premier.

Chiang was also made vice-chairman of the Kuomintang (nationalist party) organ, a standing committee which controls the nation when the full group is not in session, and was given the vice chairmanship of the central political council.

He continues to be chairman of the military affairs commission, which gives him control of the army.

Thus squarely into Chiang's lap is thrust the grave problem of the northern autonomy movement. Only yesterday a government spokesman said the crisis, growing from demands for the separation of North China from Nanking, had grown worse.

### FLOODS

(Continued from page 1)

closed since Friday night. Streams in central Texas still were bank-full. Orchardists reported a large loss in pecans, beaten from the trees by the rain and washed downstream.

Longview reported 3.16 inches of rain, and "still raining." Three inches fell at El Campo Friday night.

### AGENTS WANTED

In West Texas

Old-line Legal Security Company wants experienced field insurance agents in West Texas, covering entire family.

A reliable Texas firm, licensed by and operating under supervision of Board of Insurance Commissioners of State of Texas, offers new field of dependable low-cost insurance and bring you real profit.

Agents must state age, experience, length of residence in community, whether licensed by Board of Insurance Commissioners and, if so, number of license. Box No. 2955, Pampa News.

### Tarrant County Votes Liquor In

FORT WORTH, Dec. 7. (AP)—Tarrant county in its local option election today voted for legalizing the sale of all liquors, judging from reports received from 79 out of 106 boxes. The precincts so far gave the following totals.

For legalization of the sale of all liquors, 4,701; against, 3,060. This gives a majority of 1,641 for repeal of the local option ban and

accounts for 7,761 votes. There probably were 12,000 votes cast and those familiar with the election do not believe that the outstanding ballots will alter the result but

will on the other hand increase the lead given liquor.

**FINDING THE RIGHT WAY:** Seek ye the Lord while he may be found, call ye upon him while he is near: let the wicked forsake his way, and the unrighteous man his thoughts: and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon.—Isaiah 55:6, 7.

### That Census of Business

Business men sometimes are rightly suspicious of statistical surveys, but there appears to be no grounds for fear in the census to be started January 2 by the U. S. department of commerce.

Basically, it is a "white collar" project to provide employment. While the value of business censuses to merchants generally is small, there is a distinct value to newspapers, chambers of commerce, and everyone wishing to show the latent possibilities in an area. Similarly, investors need such a group of facts upon which to base sales campaigns and location of plants or branches.

Locally, it is to be expected that most of those who do the work will be local residents. There has been too much of a tendency to send in men and women to do work of a sort which Pampa's unemployed could do.

The census will require most of 1936. The fields to be covered are retail trade, wholesale trade, hotels, amusements, insurance, real estate, manufacturers' sales, trucking and warehousing, banking and finance, bus transportation, business services, non-residential building activities, broadcasting, and other business activities. Data to be obtained will be the kind of business, type of operation, volume of business in 1935, operating expenses, number of persons employed, payrolls, and specialized trade statistics.

Only sworn employees of the census bureau will examine the individual returns. No access to them is permitted under the law, not even to other governmental agencies. Preliminary reports by states will be released as rapidly as compiled, beginning about July 1, next, followed by county and city reports and kind-of-business reports.

Under these conditions, business men should give full cooperation in furnishing the data.

## THE NEW DEAL IN WASHINGTON

BY RODNEY DUTCHER  
NEA Service Staff Correspondent

WASHINGTON.—Senator William E. Borah of Idaho is a busy man.

Few get in to see him except those with more or less mysterious missions bearing on Republican political problems.

One of these visitors is former Senator Smith W. Brookhart of Iowa. He and Borah are working on a substitute farm program, something which may be offered whether or not the supreme court upholds AAA.

Conservative Republicans and administrationists who have heard about it suggest the Borah-Brookhart plan may prove to be a bit on the wild side.

Addressing the mayors in conference here, Harry Hopkins said, "I feel somewhat like the landlord in the Bronx, whose tenants decided to picket the place. You know since relief has been going on everybody knows how to picket. And they have picketed you fellows, I imagine. And they carry these big banners and cards.

"Most of these tenants who were on relief were picketing this Bronx landlord, demanding everything under the sun. Finally he caved in and got them all together and said:

"All right, I will reduce the rent 15 per cent; I will put running water in every flat; I will move the toilets from the backyard and put a bathroom on each floor. But how the hell can I free Tom Mooney?"

Acting under orders from on high, a certain federal office is concocting a far-reaching plan for reorganization of the federal government. Most of the very few who know about it understand Roosevelt will spring the plan on the next Congress as one of his major economy gestures in advance of the presidential campaign.

Old-timers have seen so many reorganization plans killed off in the last dozen years that they wouldn't advise you to take this too seriously until you actually observe tangible developments.

Nevertheless, there's a strong feeling within the administration that the emergency agencies must soon be cut down and merged with the regular departments if they're not to become permanent. The reorganization planners of 1935 are taking the precaution of consulting key members of Congress, with the hope that the plan won't be promptly pulled to pieces when—if ever—it is sent to Capitol Hill.

The plan hasn't been submitted to top men in the administration for approval and dissection yet, but in its sketchy outline it would, among other things:

1.—Change the Interior Department into a Department of Federal Works, merging under it all public works and construction activities, including the housing activities, the Procurement division of the Treasury, and work-relief activities.

2.—Transfer public lands and national parks and definitely merge AAA into the Department of Agriculture.

3.—Build the Labor Department of Labor and Welfare which would include the public health service, Office of Education, and consumer and similar agencies.

There's a lot more to it which hasn't leaked out from the planners yet. One thing that's being taken into account, however, is that this administration looks forward to a big future in housing.

"Nova Herculis separates after flashing into prominence." All that's lacking now is the announcement that the couple parted the best of friends.

The season's lopsided football scores seem to have a rival in the recent Italo-Ethiopian tally: 2000 natives to one Italian hit in the oil tank.

Judging by the way it resists Italy's attempts to civilize it, Ethiopia evidently can't take a yoke.

Ickes moves to halt further oil shipments to Italy. For all of us, those waters can go on being troubled.

In these days of lofty meat prices, an armoured car is necessary to bring home the bacon.

## Bishops Gather At Fort Worth

FORT WORTH, Dec. 7. (AP)—Fort Worth became the capital of Methodism Friday when 10 members of the College of Bishops of the Methodist Episcopal Church, South, began a two-day conference here on churchwide problems.

The session was called to order by Bishop E. D. Mouson, Charlotte, N. C., senior member of the body. Bishop Arthur J. Moore of San Antonio, who is on a tour of his episcopal area in the Orient, was the only absent member.

Progress of the movement for unification of the southern and northern branches of Methodism and the Methodist Protestant group, as well as denominational questions were expected to come up for discussion by the bishops. Bishop Mouson is a member of the committee of three working out the unification plans.

Others here are Bishop John M. Moore, Dallas; Bishop W. N. Ainsworth, Macon, Ga.; Bishop U. V. W. Darlington, Huntington, W. Va.; Bishop James Cannon Jr., Los Angeles, Calif.; Bishop Sam R. Hay, Birmingham, Ala.; Bishop Hoyt M. Dobbs, Shreveport, La.; Bishop Hiram A. Boaz, Fort Worth; Bishop Paul B. Kern, Greensboro, N. C., and Bishop Frank A. Smith, Houston.

## White Deer Man Given Position

CANYON, Dec. 7.—Supt. George A. Heath of the White Deer public schools was recently named first vice president of the Associated Ex-students of Texas State Teachers colleges.

The organization has a membership of approximately 200,000. At the meeting of the executive committee when Supt. Heath was elected to office, Supt. J. B. Speer of the Morse public schools, retired as third vice president of the organization.

Mr. Heath is serving his first year in the White Deer public schools. He is a graduate of the West Texas State Teachers college.

"NOT A DEMOCRAT"  
NEW YORK, Dec. 7. (AP)—Governor Eugene Talmadge of Georgia today denounced the new deal as a "combination of the worst elements of communism and socialism." "President Franklin D. Roosevelt is not a democrat," Talmadge charged, citing his Atlanta address just a week ago, as his bid for re-election.

# LIQUOR ISSUE FIGURES IN NEWS OF COUNTIES IN THIS AREA

## CARSON COURT CONFUSED BY LIQUOR LAWS

### WEST TEXAS COUNTIES ARE INVITED TO CENTENNIAL

The liquor question and proposed local option elections figured in news over this section last week. Some counties, including Gray, have ordered elections held. Others have decided they do not have the power to call elections. There is a general confusion in the minds of local authorities regarding the calling of local option elections.

Last week, all counties in the Panhandle were offered free space in the Texas Centennial exposition at Dallas through the West Texas chamber of commerce.

A Solomon is wanted to decide whether Carson county is wet or dry.

Liquor elections, called for Panhandle, Groom, and Skellytown last Saturday, were rescinded this week by order of the commissioners' court.

Some doubt has been expressed whether a county which was regarded as dry, could hold a precinct election. Judge J. C. Jackson wired the attorney general, who refused to answer, stating that it was not included in the list of court problems he was required to handle.

County Attorney Frank A. Murray then wired the Texas Liquor Board as to the status of the county. A reply at the request of the liquor board was then sent by the attorney general's department. This reply held that a dry county could not vote by precinct on a proposal for the return of liquor.

It is useless to return an indictment against alleged liquor violators, prior to the passage of the liquor control act, passed by the legislature at its recent special session, Judge E. J. Pickens told grand jurors of the 84th district court in Hemphill county, Monday morning when the jurors convened at the court house.

The court of criminal appeals has declared all offenses, prior to the liquor control act to be wiped out, the judge said.

Through its affiliation with the West Texas chamber of commerce in the membership of several local men, including R. H. Forrester of Wheeler, who is a director in the West Texas body, Wheeler is offered valuable publicity. In a letter received this week by Forrester from President Ray H. Nichols, appears this statement:

"In accordance with the enclosed regulations we plan to give to your town space at the Texas Centennial in which to have a 6-months exhibit depicting the resources and possibilities of your town. This gift is equivalent to approximately \$100 and affords your town an opportunity to have a permanent display to be witnessed by the estimated 10 million visitors to the Texas Centennial."

Collingsworth county will have an individual exhibit at the Texas Centennial exposition next year, according to John Bonner, chairman of the County Board of Development, today. Mr. Bonner stated that the invitation has been received here, and that a committee will be announced for making arrangements in the next issue of The Wellington Leader.

Cash prizes aggregating \$15 will be awarded by the Shamrock Junior chamber of commerce for the most beautiful Christmas decorations in two divisions, residences and business houses, it was decided at a meeting of the directors in the office of the chamber of commerce Wednesday night.

The Panhandle will send their basketball teams to Clarendon to enter the district F. F. A. basketball tournament Saturday, Dec. 7. Teams having already entered the tournament are Perryton, Miami, Pampa, McLean, Quail, Semnorswood, Estelline, and Clarendon.

"The Liquor Control Law as it applies to Donley county will be strictly enforced," stated Sheriff Guy Pierce in speaking of the provisions of the new law relative to Donley county being a "dry county."

According to word received at Shamrock from W. T. S. T. C. Canyon, Miss Fern Knutson won the college beauty contest which has been held there the past month.

Next week will find two hundred boys and girls from all over this

area gathered in Perryton to participate in Perryton's annual pre-season basketball tournament to be held on Friday and Saturday, Dec. 13-14.

Teams are entering daily in both the boys' and girls' divisions and an extra large attendance is expected. There will be three sessions daily, morning, afternoon, and night.

Ochiltree County Agent J. T. Stovall reports that AAA wheat acceptances have been received for payments totaling \$487,167.74 last week. These acceptances cover 105 contracts. Approximately 200 contracts are still pending and acceptance sheets on them are expected daily.

Officers and members of West Post No. 138 American Legion, Wheeler, returned Sunday from the district meeting at Borger much elated at their success in winning the \$25 attendance award given the post with the largest percentage of its membership registered at the convention. Only a very narrow margin prevailed between Wheeler and the runner-up.

Abandoning all hope for a showing, the Marella Test well No. 1 near Wellington was closed Monday, and drillers began pulling casing preparatory to abandoning the test, which they branded as a "dry hole."

West 2,830 Feet.

Smith Bros., drillers, last week treated the well with 2,000 gallons of acid in hopes for a possible showing of oil. The well was drilled to a depth of 2,830 feet by the contractors who had only agreed to go 2,000 feet. The acid test, a final resort, was said by drillers not to have shown any signs of oil within a radius of 300 yards on each side of the well, according to reports.

The test well was located on the W. M. Bourland ranch, 5 miles north, one and one-half miles west of Quail.

Wellington's public schools will close on Feb. 1 unless taxes are paid by that date. This startling announcement was made by the trustees of the Wellington Independent school district after their regular meeting Monday, Dec. 2.

A survey completed Wednesday afternoon by the Wellington Leader showed the county to have ginned a total of 13,882 bales of cotton this season.

The Wellington gins headed the list with a total of 5,511, while Doddsonville reported 3,213 bales, and the remaining gins in that county showed a combined total of 5,158 bales.

Within the next few days the application for charter for the Perryton Sons of the Legion Squadron will go forward to Austin asking that a charter be issued. A committee consisting of H. Shindler, W. P. Ballew, Tom Denman, and Sibley Jones is now assembling the membership credentials for boys eligible to join the organization.

Nine directors for the Canadian chamber of commerce in 1936, will be elected next Tuesday night, at the regular monthly meeting of the organization to be held at the city hall.

Twelve men have been nominated for the directorate, from which the membership will select nine by ballot. Ballots are being mailed this week to the members by S. E. Allison, secretary.

These names were placed as candidates for the 1936 board of directors: Nacoo Abraham, S. E. Allison, John Caylor, L. O. Records, F. N. Sawyer, O. C. Pinson, K. M. Young, C. A. Studer, H. M. Cantrell, G. K. Engle, J. C. Dingwell, and J. B. Lindley.

The nominating committee was composed of Judge W. L. Helton, chairman; C. W. Callaway and T. D. Wiggins.

Marble machines and punch boards in Hemphill county are a violation of the state law and the sheriff of this county has been instructed upon a report by the grand jury to exert all efforts at his command to end the operation of such devices in the county.

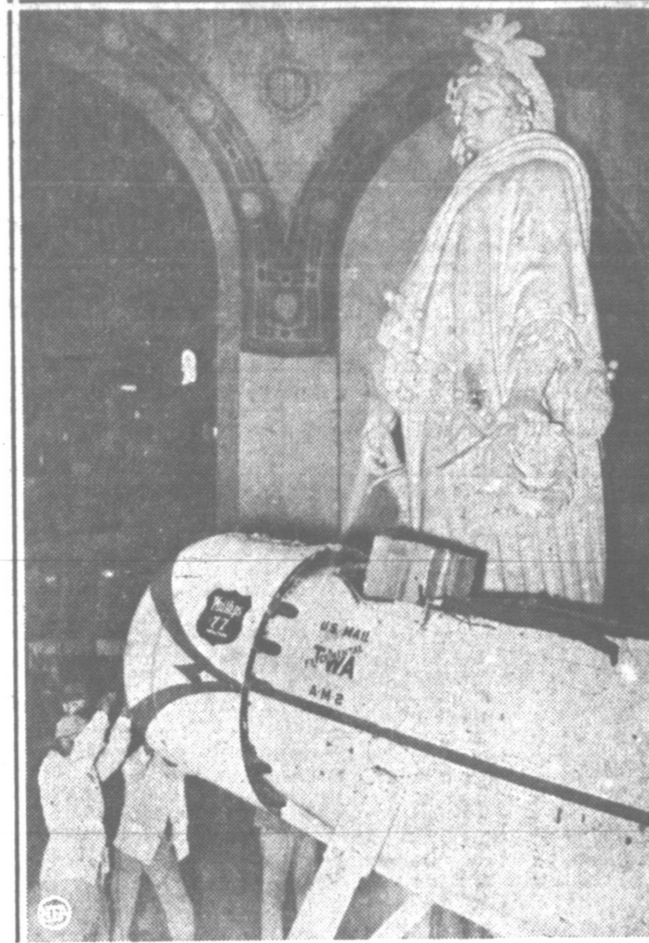

## Conservation of Soil Is Begun

CANYON, Dec. 7.—B. A. Zorn has arrived in Canyon, and soil conservation work in Randall county has begun. Mr. Zorn, who is a graduate of A. & M. college, came to Canyon from Collingsworth county. Special attention will be given to contour work.

Another event of interest to Randall county farmers is the coming of Guion Gregg, regional specialist for farm debt adjustment, who will speak here Monday, December 9, at 2 o'clock p. m.

Red river, which separates Oklahoma from Texas on the south, got its name through being fed in part by the waters of Red creek, Mud creek, Muddy Boggy creek and Deep Red run.

## "Winnie Mae" in Museum "Hangar"

Staunch "Winnie Mae", speedy monoplane in which the late Wiley Post set the round-the-world flight record several years ago, is shown as it was being moved to its final resting place in Smithsonian Institute at Washington, D. C. Towering above it is the counterpart of the statue of Freedom that surmounts the National Capitol, and nearby hangs Colonel Lindbergh's "Spirit of St. Louis".

## GUESTS

(Continued from page 9.)

Little Moon offering and week of prayer.

Mrs. A. Black and Mrs. George Allen reported on the recent district meeting of the W. M. S. Five new members, Mmes. G. Allen, W. W. Hughes, Bulls, L. Studebaker, and Gilliam, were welcomed into the society.

Refreshments were served to the new members and Mmes. Herbert Campbell, L. E. Lewis, C. Tiffany, Lawson, Allen, Black, Richter, and the hostess.

Plan Christmas Party

Mrs. M. R. Church entertained Bid-Em-Up club at her home in Shell camp Tuesday. Christmas decorations were used. The club planned its Christmas party at the home of Mrs. Frank Fisher on Dec. 17, when gifts will be exchanged.

Mrs. John McCutchin made high score for guests in the contract games. Mrs. Agnes Croft high for club members, and Mrs. Frank Fisher second high.

A salad course was served to five guests, Mmes. C. J. Stern, McCutchin, Bennie Keeling, K. A. Sorenson, and Mrs. Al Schnauer of Pampa; and to Mmes. Harry Sherrill, Croft, Fisher, T. B. Parker, Max Hause, Cecil Hicks, Bill Lovin, and Miss Yarnell.

Personals

Mr. and Mrs. Lucian Bryant had as guests last week Mr. and Mrs. Roy Thompson and Mrs. Heiskell Tompson of Ardmore, Okla., and

## EMPLOYMENT CHANGED LITTLE IN LAST TWO YEARS, FIGURES SHOW

WASHINGTON, Dec. 7. (AP)—Unemployment estimates widely used in government departments indicate that progress in cutting down the jobless rolls has been comparatively slow during the past two years, after a sensational spurt early in the administration.

The figures, assembled originally for President Roosevelt's committee on economic security, estimate that unemployment decreased almost 4,000,000 during the first seven months of the new deal, but changed little in the subsequent two years.

Despite their use by government agencies the figures have been closely guarded since they were assembled by the security committee's consultant, Robert R. Nathan.

They place the peak of unemployment at 15,071,000 in March, 1933, and estimate that by October, 1935, it had fallen to 11,743,000. Since then the figures show sharp fluctuations, with a net decrease of 261,000 from October, 1933, to September, 1935.

September's total of 10,915,000 was

## T-Anchor Ranch To Be Improved

CANYON, Dec. 7.—A modern water system, adequate sewerage disposal, electric refrigerator, and a beautification program are new activities underway at the old T-Anchor ranch headquarters, now the farm of the West Texas State Teachers college.

High and low tanks holding 20,000 gallons will soon furnish water to the college dairy and four residences occupied by 40 college boys and provide moisture for shrubs and trees.

An electric refrigerator and aerator will bring down the bacteria count of the college milk supply.

The west line of the state owned a farm which is the east side of the state highway 33 will be planted with a border of 12 to 14 feet of Chinese elm trees. These were supplied through the interest of Col. R. P. Smyth of Plainview.

Prof. T. M. Moore states that great numbers of salt cedar trees are being planted for screening and borders. The original log T-Anchor house will be surrounded by lawn and shrubbery.

Of the 40 men who live on the college farm the following are from

higher than the new deal low of 10,743,000 in June, 1934. Although the final figure for October has not been determined, preliminary calculations indicate it will be materially less than the September total.

Nathan assembled the figures through March, 1934, for the economic security committee. Since then he has made the computations unofficially. His estimates include totals not only of the unemployed but of the employed.

Here is how unemployment has swung back and forth under the new deal, according to Nathan's estimates:

March, 1933:	15,071,000
October, 1933:	11,743,000
January, 1934:	12,599,000
June, 1934:	10,743,000
January, 1935:	12,561,000
September, 1935:	10,915,000

Here are the figures for the corresponding months in the three years:

September, 1933:	11,448,000
September, 1934:	11,908,000
September, 1935:	10,915,000

NEW Ford V-8 FOR 1936

THE EVIDENCE IS IN FAVOR OF THE V-8

EVERY ONE who drives a car has witnessed the outstanding performance of the Ford V-8. More than two million cars on the road have proved its reliability and economy. There is convincing testimony that V-8 stands for something distinctly better in power, acceleration, smoothness and motoring enjoyment.

The V-type engine is the modern engine and it is worth having in your 1936 car. It means a great deal to you... it is an important reason why the Ford is in a class by itself in value and satisfaction. There is no other low-price car like it.

Here is further evidence in favor of the fine-car quality of the Ford V-8... It needs no breaking in. You can drive it 60 miles an hour the day you buy it. Unusual accuracy in the manufacture of moving parts insures better performance, greater operating economy, freedom from repairs and longer life.

You'll find the 1936 Ford V-8 a most unusual motor car—the finest, safest, most dependable Ford ever built.

FEATURES OF THE NEW FORD V-8

Distinctive Lines—Modern V-8 Engine—Genuine Steel Body—Super-Safety Brakes—Safety Glass Throughout at No Extra Cost—Center-Poise Riding—Big-Car Roominess.

F. O. B. Detroit. Standard accessory group, including bumpers and spare tire, extra. All Ford V-8 cars have Safety Glass throughout at no additional cost. Convenient, economical terms through the Authorized Ford Finance Plans of the Universal Credit Company.

OIL NEWS - From Panhandle and Other Southwest Fields

THE NEW TESTS GIVE FIELD AN INCREASE OF 5,087 BARRELS DURING WEEK

TEMPORARY ALLOWABLES ASSIGNED TO OTHER WELLS

Railroad commission 24-hour tests of 9 new wells gave the Panhandle oil field an increase of 5,087 barrels during the last week in daily potential production.

OIL BREVITIES

Conflicting news accounts continue to be received concerning oil and the Italian situation. The U. S. state department apparently is not disposed to invoke an embargo, although President Roosevelt has given strong indication of where his sympathies lie in the Ethiopian "invasion."

GRAY COUNTY: Skelly Oil company No. 31 E. Schafer, section 172, block 3, H&GN survey, 1,066 barrels. The pay was shot with 720 quarts from 3,231-3,325 feet. Total depth was 3,225 feet.

HUTCHINSON COUNTY: Texas company No. 8 Lewis, section 18, block L, ELRR survey, 450 barrels. Pay at 2,913-3,000 feet was shot with 400 quarts. Total depth was 2,868 feet.

WHEELER COUNTY: Skelly Oil company No. 27 Lewis, section 8, block 25, B&F survey, 563 barrels. Pay at 2,082-2,982 feet was shot with 540 quarts. Total depth was 2,985 feet.

GRAY COUNTY: Danciger No. 2 McLaughlin, 250 barrels; Danciger No. 9 Morse, 300 barrels; Bradshaw Oil & Gas company No. 10 Harrah, 300 barrels; Stanolind No. 3 Holmes, 300 barrels; Empire No. 8 Bender, 700 barrels; Empire No. 9 Culler, 500 barrels.

MARKET BRIEFS

NEW YORK, Dec. 7. (AP)—In somewhat faster trading, the stock market, led by merchandise and metal shares, pushed up for gains of fractions to 2 or more points today.

SAFETY DRIVE WILL LAST 5 YEARS IN PLAN

Council Thinks Campaign Can Save 38,000 Lives During This Period.

CHICAGO, Dec. 7.—A five-year country-wide campaign to reduce motor vehicle deaths at least 35 per cent by the end of 1941, looking toward the saving of at least 38,000 lives, has just been announced by the National Safety Council.

The drive will start January 1, to continue with growing intensity and momentum throughout the five-year period. It will be localized for each state and for practically each city where closest cooperation will be maintained with public officials, traffic safety leaders, safety groups, educational heads, civic organizations and interested individuals.

It is planned to coordinate much of the existing safety effort, to centralize and standardize the work through application of tested methods proved by successful experience. Close cooperation with federal department is assured.

The campaign, largely educational, will include a broad program of engineering and enforcement activities. Spasmodic safety drives, the council feels, have not in the past brought the desired permanent results. The seriousness of the problem demands a much broader program than has ever before been attempted.

New ways of appealing to the individual motorist, to arouse a sense of responsibility and sportsmanship, will be sought. A definite state-wide school program will be recommended for each state, together with the organization of state safety councils and localized safety organizations in towns and cities.

The adoption of uniform laws, including standard drivers' license legislation, will be urged together with adequate administration of traffic laws, including state highway patrols. The standardization of accident reports will also be undertaken, as well as provisions for more complete accident statistics and their interpretation and application. The detailed engineering, enforcement and educational technique of the states and cities now doing outstanding work will be made available to the country at large, as one of the initial steps in the big program.

The formal resolution, passed unanimously by the executive committee at its November meeting in Chicago, "pledges the council's whole-hearted assistance and the active efforts of thousands of its members in all parts of the country and invites the cooperation of all interested organizations and agencies to the end that during this five-year program at least 38,000 lives shall be saved and the killing and maiming of little children and all other people shall cease upon our highways."

The time is particularly propitious, since the 1935 toll of death and injury promises to approximate the tragic experience of 1934 when 36,000 people were killed, and a million and a quarter others injured—of whom 150,000 will be crippled for the rest of their days. The resolution sets forth that this situation "presents the most serious challenge to all who believe in a well-ordered society and the sanctity of human life."

Certain states and cities through their fine programs during recent years have clearly demonstrated that such an achievement is possible. Their experience shows that motor vehicle tragedies can be not only controlled, but actually reduced. Striking examples are the work of state-wide organizations in Minnesota, Massachusetts, and elsewhere. Twenty-three states have reported fewer deaths for the first months of 1935 than for the corresponding period of last year, including Rhode Island with a 31 per cent decrease; Oregon, 16 per cent; Massachusetts, 14 per cent; and Minnesota, with an 11 per cent reduction. Likewise, many cities and towns through their efforts are realizing big reductions so far this year.

The council already has a huge functioning organization ready to proceed with increased vigor under the impetus of this larger and more intensive program. The fourth year

TEXAS' IMPORTANCE AS GAS PRODUCING STATE DEVELOPS RAPIDLY IN RECENT PERIOD

FUEL IS AMONG MOST IMPORTANT OF RAW MATERIALS

By Elmer H. Johnson, Regional Economist, U. of T. Bureau of Business Research.

The peak year of marketed natural gas production in the United States was 1930. Marketed natural gas production receded considerably from the 1930 level during 1931, 1932, and 1933. In 1934, however, there occurred an increase of 14 per cent over the output of 1933.

This gain in consumption was mainly accounted for in the substantial increase of consumption of natural gas for industrial purposes. Interstate and export movement of natural gas increase 19 per cent in 1934 over that for 1933.

Great variations occur in the process of production of natural gas as well as in the costs of natural gas to consumers. In 1934 the average value of natural gas at the wells was six cents per thousand cubic feet; producers in some states such as New York, Pennsylvania, and Indiana receive more than 20 cents. The average value at the wells in Texas was 2.2 cents; in California, second in rank as a producer, 7 cents; in Oklahoma and Louisiana, more than 3 cents; and in West Virginia, which ranks fifty in production, 7.6 cents. Illinois leads in average value at point of consumption, with 69.1 cents per thousand cubic feet; other Middle West and Middle Atlantic states rank comparatively high in this regard.

Of the distribution by consuming groups of total natural gas used in the United States in 1934, that taken for field purposes, that is, drilling, etc., accounted for 31 per cent; 16 per cent was used for domestic purposes; 13 per cent was consumed in the manufacture of carbon black; 7 per cent at electric utility power plants; 5 per cent at petroleum refineries, and 2 per cent at cement plants, thus leaving 21 per cent which was used for "other" industrial purposes.

By far the chief producer of natural gas in Texas, which in 1934 furnished nearly 35 per cent of the total marketed natural gas of the nation. The Gulf Southwestern states, including Kansas, furnished nearly two-thirds of the total for the United States. California furnished 15 per cent in 1934, the Middle Atlantic group 11.4 per cent and the Middle West 5 per cent.

Leading consuming regions of natural gas for domestic purposes are not the producing states—excepting California—but the north-east with the Middle West—east of the Mississippi—accounting for 25.3 per cent of the national total and the Middle Atlantic group of states for another 24 per cent. The southeastern states are remarkably low, using less than 3 per cent of the total, while the Gulf Southwest uses about 25 per cent.

The producing states of the Gulf Southwest and California account for "other" industrial purposes—21 per cent of the total—that this fuel has its widest geographic distribution. Leading regions include the Gulf Southwest, the Middle West, the Middle Atlantic group and the Pacific Coast states.

Texas has become the major producer of natural gas only in the past few years. Prior to 1929 Oklahoma had been for a number of years the leading producer. Texas in 1934 shipped to markets outside its limits nearly 25 per cent of its marketed natural gas production.

The economic structure of Texas is characterized by its dependence upon outside markets as major outlet of the National Traffic Safety Council, now under way, shows that 36 states and more than 800 cities are entered.

API BANQUET THURSDAY TO BE COLORFUL

No "Heavy" Program Being Planned—Will Be Held at Herring Hotel.

Panhandle oil men will journey to the more ample hotel facilities at Amarillo next Thursday evening for the annual session of the Panhandle chapter of the American Petroleum Institute.

The event will begin at 7:30 o'clock in the Herring hotel with Gene Howe, Amarillo editor, as toastmaster.

It will be a "light," informal occasion with much entertainment and speeches limited to 2 minutes, according to the program committee. It was understood here yesterday that the 250 members would pay no dinner charge.

Principal speakers will be J. C. Johnston of Hobbs, N. M., recent chairman of the chapter, and G. A. Daniels of Borger, successor as chairman.

The annual election will be held in connection with the banquet.

GRAY COUNTY TAKES LEAD FOR NEW ACTIVITY IN FIELD WITH 6 OF 8 FIRST ANNOUNCEMENTS

HUTCHINSON HAS ONE AND CARSON ONE FOR WEEK

Gray county led the Panhandle field in evidence of new activity during the last week when six first announcements were filed with the Railroad commission office here.

The only two other locations of the week were in Hutchinson and Carson counties.

Intentions to drill were filed as follows: Heze and McGill, E. Cooper "B" No. 3, 330 feet from the south and east lines of north 60 acres of E4, NE 1-4, section 3, block 9, I&GN survey, Carson county.

Gulf Production company, H. C. Pletcher at No. 4, 330 feet from the north and west lines of NW 1-4 of section 19, block M-21, TCRR survey, Hutchinson county.

Danciger Oil & Refineries Inc. Morse No. 10, 900 feet from the north and east lines of SW 1-4 section 2, block 28, H&GN survey, Gray county.

Empire Gas & Fuel company, I. E. Cunningham No. 3, 330 feet from the south and east lines of SE 1-4 section 128, block 3, I&GN survey, Gray county.

The Kewanee Oil & Gas company, Ralph Arnold No. 7, 900 feet from the north line and 330 feet from the east line of SE 1-4 of section 149, block 3, I&GN survey, Gray county.

Empire Gas & Fuel company, I. B. Hughey B2, 330 feet from the north line and 1,320 feet from the east line of section 129, block 3, I&GN survey, Gray county.

Empire Gas & Fuel company, A. J. Culler No. 10, 330 feet from the north line and 330 feet from the east line of E4, NW 1-4 of section 135, block 3, I&GN survey, Gray county.

Bradshaw Oil & Gas company E. Sullivan No. 1, 330 feet from the north line and 330 feet from the east line of E4, NW 1-4 of section 135, block 3, I&GN survey, Gray county.

Empire Gas & Fuel company, I. B. Hughey B2, 330 feet from the north line and 1,320 feet from the east line of section 129, block 3, I&GN survey, Gray county.

INCREASE IN OIL PRICE IS FORECAST

By E. O. Thompson

DALLAS, Dec. 7. (AP)—Ernest O. Thompson, chairman of the Texas Railroad commission, said here that an advance of as much as 59 cents per barrel in the price of crude oil is "likely and warranted."

"Rumors of an immediate advance in crude oil prices have repeatedly come to me recently," Thompson said, "and I am inclined to believe they have firm foundation."

Thompson said he had no definite information about companies planning price advances but he felt the rumored changes "would be in keeping with current conditions in the southwestern oil industry."

"The oil industry, especially in East Texas, is in fine shape," he added. "Hot oil refining is minimized to the point where it is no more prevalent than dishonesty in other types of business."

OIL CALENDAR

- DECEMBER: 10—Mid-Continent Oil & Gas association, Tulsa, Okla. (Date tentative); 19-21—American Association of Petroleum Geologists, Tulsa, Oklahoma; 11-13—Petroleum Industry Electrical association, Tulsa, Okla.; 13-17—American Chemical Society, Petroleum Division, Kansas City, Mo.; 16-18—National Petroleum association, Cleveland, Ohio; 20-25—Oil Equipment & Engineering Exposition, Houston, Texas; MAY: 13-15—Natural Gasoline Association of America, Tulsa, Okla.; 16-23—International Petroleum Exposition and Congress, Tulsa, Okla.

CHICAGO GRAIN

CHICAGO, Dec. 7. (AP)—Surprising curtailment of trade estimates of this season's Argentine exportable wheat surplus led late today to price rallies here that more than offset early losses.

The new estimates or Argentina's wheat available for shipment overseas were construed in Chicago as indicating that only 18,000,000 bushels from Argentina would be obtained for Europe, the smallest amount in many years.

Wheat in Chicago closed irregular, 1/2 cents off to 1/4 up compared with yesterday's finish, May 95 1/2-3/4, corn unchanged to 1/4 higher, May 59 1/4-3/4, oats 1 1/2-3/4 advanced, and provisions exactly unchanged.

KANSAS CITY LIVESTOCK

KANSAS CITY, Dec. 7. (AP)—(USDA)—Midwestern markets received approximately 51,000 more cattle than a week ago and around 25,000 in excess of a year ago. In Chicago prime heavy steers realized 15.00, light yearlings 13.00 and heifer yearlings 12.00. Bulk of fed steers around the circuit turned at 7.75-11.50. Good heavy kind at 7.00 and above in odd lots. Choice light steers at 8.50-9.00.

Fat lambs ruled 15-35 lower. Bulk of lambs brought 10.50-11.40 with the extreme top at midweek in Chicago of 11.65. Clipped lambs sold up to 10.00, yearlings 9.65, ewes 5.60 and best feeding lambs reached 10.50.

Lower prices for fresh port cuts in consuming centers of the midweek made for decline of 5-25 in the live trade, spots more. St. Louis had a late top of 9.80.

and efficient fuels in large quantities, with its wide range of readily accessible raw materials in sufficient amounts for future progress, with its growing home market, and its accessibility to outside markets, one would indeed be blind and utterly lacking in perception not to be impressed with the wide range of substantial possibilities of the "Empire of the Southwest."
