INCREASE IN EMPLOYMENT PREDICTED

Birds Of A Feather, Perched In House Gallery

Birds of a feather flock together, even at the opening of Congress. Pictured as they gathered to take seats in the gallery of the house of representatives are the wives and widows of past and present presiding officers; left to right, Mrs. John N. Garner, whose husband presides over the Senate; Mrs. Nicholas Longworth, widow of the late speaker of the house; Mrs. Frederick H. Gillette, wife of another former speaker; Mrs. William B. Bankhead, wife of the present speaker.

Texas' Great Friend, Andrew Jackson, To Be Honored Tomorrow

3 SENTENCES ASSESSED MEN

STOVE EXPLODES AND IGNITES GIRL'S HAIR

Tragedy was probably frustrated this morning at the J. B. Forman home at 1023 East Fisher where the cook stove "blew up" in the kitchen. An accumulation of gas was blamed.

INDIANAPOLIS, Jan. 7 (AP)—A slip of the lip cost Henry Blunk, 37, second-degree burns and a trip to the hospital.

Blunk forgot he had a lighted cigar in his mouth and yawned. The cigar fell inside his open shirt collar and set fire to the hair on his chest.

LIGHTED CIGARET AND HAIR ON CHEST DO NOT MIX

INDIANAPOLIS, Jan. 7 (AP)—A slip of the lip cost Henry Blunk, 37, second-degree burns and a trip to the hospital. Blunk forgot he had a lighted cigar in his mouth and yawned. The cigar fell inside his open shirt collar and set fire to the hair on his chest.

Another group of workers started out this morning to help raise Pampa's deficit in the 1937 Boy Scout quota. Committees already at work had not reported so progress of the drive to raise \$600 had not been learned today.

COBB HOUSE BURGLARIZED

HUGO, Okla., Jan. 7 (AP)—Satan chose the hindmost in this case. Mrs. F. O. Deatherage, 50 Mrs. Deatherage said she would appeal Justice L. W. Oakes' order awarding Satan to Johnny Bennett.

MOVIE STAR INJURED IN FIGHT WITH COOK

HOLLYWOOD, Jan. 7 (AP)—Fay Wray, actress-wife of film writer John M. Saunders, was recovering today from bruises while her former cook, Mrs. Raymonde Duval, 57, was held in jail on drunk charges.

Temperatures In Pampa

Table with 4 columns: Time, Temperature (°F), and other weather data for Pampa.

Residential Building Enjoyed Boom In 1937

Pampa's building permits for 1937 totaled \$308,850 according to a report filed by City Inspector Sam Thomas. The amount is considerably less than last year but nevertheless is considered favorable considering the fact that most of the permits were for small buildings while the 1936 figures included several major projects.

ANOTHER PLEA FOR SCOUTING FUNDS ISSUED

Another group of workers started out this morning to help raise Pampa's deficit in the 1937 Boy Scout quota. Committees already at work had not reported so progress of the drive to raise \$600 had not been learned today.

SOONERS FUSS ABOUT "SATAN'S" OWNERSHIP

HUGO, Okla., Jan. 7 (AP)—Satan chose the hindmost in this case. Mrs. F. O. Deatherage, 50 Mrs. Deatherage said she would appeal Justice L. W. Oakes' order awarding Satan to Johnny Bennett.

59 Dams Completed In Gray County In 1937

Fifty-nine dams containing approximately 86,000 yards were completed in Gray county in 1937, according to the annual report of County Agent Ralph Thomas submitted to the State Extension Service and the U. S. Department of Agriculture. It is estimated that these dams when filled to capacity will hold more than 100 acre-feet of water.

VILLAGERS FRIGHTENED WHEN STREETS CRACK

BRADENVILLE, Pa., Jan. 7 (AP)—Frightened residents of this mining village, some of whom fled their homes, watched with anxiety today a number of fissures in the center of the community.

SNOWPLOW SENT SPAIN, MAYORS RESIGN POSTS

MARSEILLE, France, Jan. 7 (AP)—Fourteen mayors quit today because the county's snowplow may be on its way to government Spain. They appeared willing to resign as soon as the snowplow was brought back.

Ladies Will Dress Like Babies

CHICAGO, Jan. 7 (AP)—Grown-up ladies will dress a bit like babies this spring, with fashion's approval, and tie their bonnets under the chin.

THREE OFF FOR WASHINGTON TO FIGHT FOR LAKE

Three Pampans left for Washington early this morning to confer with Rep. Marvin Jones and other government agency officials in an effort to get action on Gray county's proposed lake at the Beaver Dam site on McClellan Creek.

NEW BRITISH ENVOY NAMED

WASHINGTON, Jan. 7 (AP)—President Roosevelt named Joseph P. Kennedy, chairman of the Federal Maritime Commission, today to be ambassador to Great Britain. He will succeed the late Robert W. Bingham of Kentucky.

GRAND JURY NO-BILLS LINSEY IN SHOOTING

O. T. Lindsey, former Gray county deputy sheriff, was no-billed Thursday afternoon by a 31st district court grand jury of a murder charge, in connection with the death of James E. Simmons Jr., 21, on November 22, resulting from gunshot wounds received November 2.

NAVAL FLEET SEARCHES FOR MISSING BOMBER

SAN PEDRO, Calif., Jan. 7 (AP)—Sixty thousand square miles of ocean, island and coastal areas in the Southern California Pacific ocean region were searched today by the full air force of the United States fleet for the giant new navy bombing patrol plane missing since Wednesday evening with its complement of seven.

It Took Cow Three Days To Learn How To Kick Over Lantern In Movie

NEW YORK, Jan. 7 (AP)—The sensational data which your correspondent is in a position to offer you today is that it took Mrs. O'Leary's cow three days and one mile of film to kick over the lantern that starts the fire "in Old Chicago."

INDIANAPOLIS, Jan. 7 (AP)—A slip of the lip cost Henry Blunk, 37, second-degree burns and a trip to the hospital.

1,000 CHILDREN EXPECTED TO ATTEND CONCERT WEDNESDAY

COLORED FILM OF SALZBURG TO BE SHOWN

Hundreds of children and many adults today were planning to attend Esther Johnson's Mozart concert next Wednesday afternoon at 2 o'clock in the High school auditorium.

ESTHER JOHNSON

Today pupils in the various schools began the study of the life and music of Mozart, under the direction of Miss Helen Martin music supervisor for the local schools. The compositions to be played by Miss Johnson will be studied in the classes. Students will also be familiarized with the story of the composer.

Tonight Miss Johnson will give her concert before 5,000 children in Oklahoma City where she will give her program under the auspices of the Children's Opera company of New York. She played in Tulsa several weeks ago. Music to be played by Miss Johnson on the new Mason and Hamlin piano, a high school stage includes music by Mozart composed on his concert tours. When he was only seven and was playing for the court of France, he composed six sonatas which were engraved.

Other compositions to be played in the concert include a sonata by John Christian Bach, a sonata by Hayden, variations by Mozart and music by Chuck. Miss Johnson will talk to the audience through a public address system.

The colored movies to be shown depict Mozart and members of his family before Empress Maria Theresa, the Princess Marie Antoinette. Mozart began to compose at the age of four. He and his sister began their concert when the boy was six. They made a tour of European capitals that lasted three years. Mozart died a pauper at an early age of 35. Today, the works of Mozart are played twice as much as those of any other composer.

The concert is being sponsored by the American Legion and Sons of the Legion. Tickets for adults will go on sale tomorrow.

International Sunday School Lesson

A LIFE OF SERVICE. Text: Mark 1:1-13. By WM. E. GILROY, D. D., Editor of Advance. The Gospel of Mark is supposed to be the earliest of our gospels in time, though it is second among the books as published in the New Testament. Notable is the Gospel of Mark for the simplicity and directness of its record. It has been called the "Gospel of Deeds." It is full of action, with little reference to speculative matters or to incidents that do not bear upon the main story. There is no reference to the birth or childhood of Jesus, and we come immediately into the story of John the Baptist preparing the way, and of Jesus coming from Nazareth to be baptized in the Jordan. The word "straightway" applied to the coming of Jesus out of the waters of baptism is typical of this Gospel of Mark. But this gospel of action ends, in this first lesson, with the gospel of preparation. Jesus does not come from His baptism immediately into the full activities of life and service. We see Him, rather, going into the wilderness, and there undergoing the temptation that was to try Him and prepare Him for His life work. Service is not merely a matter of good purpose and intention. Not everyone is fit for service. If the Master had to have a period of preparation, it is rapidly, in His life with the disciples and among

the pastor preaching on "The Responsibility of the Man Outside the Church." 6:30 p. m. Baptist Training union. 7:30 p. m. Evening sermon. 7:30 p. m. Tuesday, Brotherhood meeting. 7:30 p. m. Wednesday, mid-week meeting. The public is invited to the church with a warm welcome.

DELEGATES TO TEXAS TEACHERS CONVENTIONS ARE SUGGESTED Gray county teachers have been informed of a suggested change in the organization of the Texas State Teachers association, whereby delegates to the state convention would be elected by districts, instead of coming direct from local units to the state meeting. Advantages of the plan, as outlined by R. H. Brister, president, and B. B. Cobb, secretary, of the Texas State Teachers association, are three-fold: The delegate system gives each member of the state association a voice, through his representative, in determining policies, whether or not he attends the annual convention. Member of each district through their duly elected delegates select those who are to represent them on the executive committee. In other states, reorganization on the delegate plan has been followed by a rapid increase in membership in the state association. Organization of local affiliated units is urged. Local units will be permitted to elect delegates to the district house of delegates in the ratio of one for every 25 members of the Texas State Teachers association or fraction thereof.

In the CHURCHES

Presbyterian Church. Bro. Wm. E. Gilroy, Minister. 10 a. m. The church school. 11 a. m. Communion worship. 6:30 p. m. Intermediate Christian Endeavor. 7:30 p. m. The evening service. A nursery is conducted every Sunday morning at the worship hour for small children and babies in charge that parents may attend church. The Fellowship dinner will be Wednesday evening at seven o'clock. Bring your family and a covered dish and enjoy this fellowship. First Baptist Church. C. Gordon Bayless, pastor. 9:45 a. m. Sunday school. 10 a. m. Everyman's Bible class in the city hall. 10:30 a. m. Morning worship. The baptismal service will be followed with the sermon by the pastor on "The Purpose and Method of Baptism." 6:30 p. m. Baptist Training union. The primary department will have charge of the assembly and will give a play, "The Bible Talks." 7:30 p. m. Evening worship. The song service and baptismal service will be followed with the sermon by the pastor on "What An Invitation!" Central Baptist Church. John O. Scott, pastor. 9:45 a. m. Sunday school. 11 a. m. Morning worship with the sermon, "The Tragedy of Uselessness," by the pastor. 6:30 p. m. Baptist Training union. 7:30 p. m. Evening worship with the pastor preaching on "The Three Fires." Christian Science Services. 907 N. Frost Street. "Sacrament" is the subject of the Lesson-Sermon, which will be held in all Churches of Christ, Scientist, on Sunday January 9. The Golden Text is: "The cup of blessing which we bless, it is not the communion of the blood of Christ? The bread which we break, it is not the communion of the body of Christ?" (1 Corinthians 10:16). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Great peace

HOPELESS TASK. NEW YORK, Jan. 7 (AP)—Dr William E. Dodd, back in America after quitting his post as ambassador to Germany, said today he found it "a hopeless task" to represent this country in Berlin and asserted he despaired of the prospects for world peace. He said a world war was the "logical outcome" of vast war preparations.

BCD HEADS TO TAKE OFFICE TUESDAY NOON

New officers of the Pampa Board of City Development will be installed at the regular monthly meeting of the BCD, chamber of commerce and Junior chamber of commerce Tuesday noon in the basement of First Methodist church. Reservations should be made immediately by calling 394. Tickets will be 50 cents.

Reno Stinson will take over the presidency of the BCD. He was elected by directors Monday night. Other new officers are Farris Oden, first vice president; H. P. Lusby, second vice president; Fred Thompson, finance director.

Installation of the new officers will be in charge of James Collins, retiring president.

Reports of accomplishments during 1937 will be presented. They will be brief and concise. Status of projects not completed will also be discussed. Suggestions for 1938 activities will be asked.

Retiring President Dick Hughes will introduce President-elect C. H. Schulky and other officers of the Pampa Junior chamber of commerce.

FALL THINKS HE HAS NOT LONG TO LIVE

EL PASO, Jan. 7 (AP)—Albert B. Fall, gaunt of face and hair bleached a snowy white, gazed upon the new year today with a bitter resignation toward life.

"I'll never get out of bed—I have not long to live," he said in one of his rare interviews at the William Reesumant-General hospital.

A lot of water has gone under the bridge since the October day of 1924 when the United States Supreme Court, setting aside his lease of the Teapot Dome Naval oil reserve to Harry F. Sinclair, branded him "a faithless public servant."

Since then there have been prison, illness and trouble.

The former secretary of the interior enters 1938 actually in better health than he has experienced in several years.

Yet the fire of the once lusty political leader has long since died out—only the black cigars, which distinguished him in the United States Senate, remain as a reminder of other days.

He is 76, yet looks far older.

Fall still clings bitterly to his assertion that the \$100,000 paid him in the Teapot Dome case was a loan, not a bribe.

"I've paid my debt to society. I owe it nothing now."

ACTRESS AND MANAGER DISAPPEAR IN JAPAN

TOYO, Jan. 7 (AP)—The foreign office today instructed the Japanese consul at Alexandrovsk, North-Siberia, to learn what had become of a famous actress and her stage-manager lover who were reported to have disappeared dramatically into Russian territory.

Dispatches to Tokyo newspapers told of how Yoshiko Okada, 38 years old, long a favorite actress of the Japanese stage, and Yoshimasa Yoshida, 32, were sleighing near the line dividing the Japanese and Russian sections of the far northern island of Sakhalin.

Suddenly Yoshida flourished a pistol and compelled the sleigh driver to take them across the border. "Testing Japan forever," one dispatch said. Tokyo papers said the couple were suspected of being pro-Communist.

NO. 3—Continued From Page One

"You've got the touch! He whispered. 'The Hollywood touch!'"

"Well, anyway," went on Darryl, "I must tell you about the big fire scene."

Asbestos Chicago

"In pictures, you know, you can't just touch a match to the buildings and say 'there goes Chicago.' You've got to shoot and re-shoot, closeups and long shots. It takes weeks. So do you know what we did? We made Chicago out of asbestos. Slick eh?"

"You should have been born earlier," your correspondent murmured.

"The cinema," cried Mr. Zanuck, "is practically in its infancy."

"A lot of people will agree with you on that, Mr. Zanuck," the correspondent said.

The producer glared. He catches on quick.

PIONEER CATTLEMAN OF AMARILLO DIES

AMARILLO, Jan. 7 (AP)—R. A. Haley, pioneer cattleman and resident of West Texas, was killed instantly here today when his automobile was struck by a passenger train. Haley was 74 and an active part in the cattle-raising industry for more than 60 years. He was serving his third term as hide and animal inspector.

He is survived by his widow, Mrs. Adeline Haley; two daughters, Mrs. E. G. Owens of Plainview, and Mrs. W. E. Brittain of Akron, Ohio; one son, Arthur C. Haley of Sillman, Ariz., and a niece, Miss Clara Mae Thompson of Amarillo.

BIGGEST PENSION TO BE PAID BY COLORADO

DENVER, Jan. 7 (AP)—Colorado prepared today to pay the "biggest pension in the world" to its needy aged, but the record payment brought little cheer to harassed officers confronted with the necessity of balancing the state's budget.

Earl M. Kouns, state welfare director, reported a year-end bonus, required under Colorado's \$45-a-month old age pension amendment, would boost January payments to the state's 34,804 pensioners to an average of \$67.36.

While Kouns made ready to distribute the \$2,344,000 pension payment, Gov. Teller Ammons held over the heads of other state departments, bureaus and institutions a threat of suspension unless their expenditures this year can be brought within anticipated revenues.

Confronted with a possible general fund deficit estimated as high as \$4,000,000, the governor had already suspended the state tax commission and threatened to wield the same power against many other agencies unless they slash their 1938 budgets.

The old age pension program, most generous in the United States, was primarily responsible for the financial predicament of the rest of the state's functions, state officials agreed.

RULING ANNOUNCED ON WPA RELIEF WORKERS

WASHINGTON, Jan. 7 (AP)—The Works Progress administration announced today WPA workers receiving compensation would be ineligible for relief employment until jobless insurance benefits are exhausted.

Aubrey Williams, acting WPA administrator, announcing the WPA policy for beneficiaries of jobless insurance, said that only 25,000 or 30,000 WPA workers in the 22 states where unemployment compensation is being paid, would be affected by the ruling.

Williams said WPA workers would be regarded as "employed" if they remained on WPA rolls while endeavoring to collect unemployment compensation benefits.

Persons separated from WPA rolls under the jobless insurance policy, will be subject to reemployment when they have exhausted their compensation benefits, estimated to cover from 14 to 16 weeks.

Unemployment compensation benefits range from \$5 to \$15 a week for a limited period as compared with an average WPA security wage of about \$52 per month.

PIPELINE PROBE DUE, IGC OFFICIAL CLAIMS

WASHINGTON, Jan. 7 (AP)—Ernest I. Lewis, valuation director of the interstate commerce commission, told a house appropriations subcommittee a controversy over oil pipe line rates "is getting into a nice muddle and ripe for hearings."

The record of the subcommittee's hearings disclosed today his testimony in support of proposed appropriations for his division.

An oil pipe line valuation and rate inquiry, Lewis said, is "a very important matter right now."

For years, he said, pipe lines did not play an important part in the matter of rates, but now pipe line rates are "under fire" and the commission has instructed its valuation bureau "to get ready for these complications."

They are involved in a big rate proceeding and we are called on to appear, probably in Texas, some time early after the first of the year," Lewis testified.

NEW INVENTION MAKES PISTOL MACHINE GUN

NEW YORK, Jan. 7 (AP)—Clifford "Jack" Dows, whose father used to be a Colorado sheriff, can take an ordinary automatic pistol, tinker with it a few minutes, and hand over the nearest little murdering machine gun you ever saw in your life.

Dows is in New York now, giving demonstrations to representatives of foreign governments, and negotiating for the sale on a royalty basis of the tiny device he invented which makes a deadly gun deadlier.

"I wish it was only the United States that was ever going to get to use my invention," said Dows today. "I'm an American and my family before me for generations has been American—but the war department doesn't want my invention."

The principle of the device, he explained, is based on gas ejection overcoming recoil and acting as a cooling process.

ITALY'S NAVAL PLANS EXCITE FRENCH FEARS

PARIS, Jan. 7 (AP)—Premier Mussolini's announcement of Italy's new naval program today caused French officials to declare France must increase her warship building to meet it.

Gratien Candace, reporter for the navy budget in the chamber of deputies, said the chamber's naval committee would confer immediately with Cesar Campinchi, minister of the navy, and with the naval general staff.

The mallard duck is the wild ancestor of most of our domesticated ducks.

MANY ATTEND FUNERAL HERE

Friends from over the entire Panhandle this morning joined Pampans in paying last tribute to Mrs. Lina Schneider, 74, who died Wednesday morning. She was the wife of the late Alex Schneider, pioneer resident and noted hotelman.

"We are here to pay our last respects to a woman whose life was one of service," Bishop E. C. Seaman of Amarillo said. "Mrs. Schneider's life was a beautiful one. She was a mother first. Then she thought of her public and service was her motto."

Bishop Seaman spoke of her love of beautiful things, especially her flowers which she tended until becoming bedfast a few weeks ago, and of her service to mankind.

Bishop Seaman was assisted by the Rev. R. J. Snell, pastor of St. Mathews Episcopal mission, and the Rev. Robert Boshen, pastor of First Presbyterian church. Following services, the body was interred by the side of her husband in Fairview cemetery under direction of Duaneke-Carmichael Funeral home.

The front of the church was banked with beautiful floral offerings. A choir sang the hymns Mrs. Schneider loved.

Surviving Mrs. Schneider are two daughters, Mrs. George Rainour, Pampa, and Mrs. Charles Westfall, New York, a son, Alex Schneider, Pampa, a sister, Mrs. Emma LeFors, Pampa, four grandchildren and a great-grandson.

Mrs. Schneider moved to the Panhandle with her husband in 1886, settling at Mobeetie. She came to Pampa in 1911 and the Schneider hotel became famous as a meeting place and for its home-cooked meals.

JOHN LEWIS READY TO TRY 'SOMETHING ELSE'

TUCSON, Ariz., Jan. 7 (AP)—John L. Lewis, "vacationing on borrowed time," as he put it, has found he can not escape work, even at a luxurious desert resort.

The head of the Committee for Industrial Organization, who came here a week ago and announced he would see nobody while taking a brief rest, said today it didn't work out exactly that way.

In an interview he declared "capital and industry have made a pretty poor business showing," and suggested "perhaps it is time something else is tried."

After asserting "democracy is on trial today in this country as it is over the world," he added "I can not say what may happen, but I do know that some people have found they could live happily, successfully in a communal form in which the whole and not just a few were given consideration."

17 KILLED, 64 HURT ON 'DEATH CORRIDOR'

AUSTIN, Jan. 7 (AP)—In an attempt to curb fatalities on "Death Corridor," a 50-mile strip of highway between Georgetown and the McLennan county line, the highway patrol has asked the highway department to erect 45-mile-an-hour state speed limit signs.

Chief L. G. Phares of the patrol, recently returned from a survey of the road, also asked the commission to fill out blanks in the center stripes.

The signs will be the first of their kind, if erected.

The thoroughfare last year claimed 17 lives, sent 64 to hospitals and caused inestimable property damage. Phares said it was the state's heaviest travelled section of road.

AIRLINER CRASHES BUT NONE OF FIVE KILLED

NEWARK, N. J., Jan. 7 (AP)—A transport airliner carrying five men passengers and a crew of three squashed down in the mud and water of a treacherous swamp today when its pilot undershot Newark airport during the storm-swept early morning hours.

The (American Airlines) plane came down shortly after 3 a. m. (E. S. T.) Until dawn the passengers stayed inside the protecting cabin waiting for help. Pilot Usher Rousch of Chicago plunged through the marsh in the dark to the airport three miles away, led a rescue party back to return the passengers to safety.

Rousch suffered a cut over one eye in the bumpy landing but none of the others, the airline said, was injured.

FARM ATTORNEY WILL BE SENT TO AMARILLO

WASHINGTON, Jan. 7 (AP)—The agriculture department notified Senator Connally (D. Tex.) today it would transfer the three attorneys in Houston office to Amarillo and Dallas.

Two will be sent to Amarillo to handle submarginal-land purchases and the other to the regional headquarters of the farm security administration in Dallas.

The senator received the notice when he protested after receiving a report the attorneys would be sent to Louisiana. He said he was unable to learn definitely whether the Houston office would be closed.

Fat Girl Laughs and Grows Slim

Without Starvation Diets, or Back-Breaking, Bending and Rolling Exercises.

Here's a way to get rid of ugly fat that works hand in hand with Nature. Millions of people are losing millions of pounds of lumpy flesh and getting back slender figures, without the need of starvation diets or back-breaking exercises.

Medical science has discovered that one of the causes of too much fat lies in a little gland. Doctors correct this condition by feeding this little gland the substance it lacks—and Marmola Prescription Tablets are based on this same method. Millions are using them with success. They are prepared by a famous medical laboratory. Their formula is published in every package so you know what you are taking.

So don't waste time and money with starvation diets or back-breaking exercises. Go to your drugist today and get a box of Marmola. Try this simple, easy way to get rid of excess fat.

HALF-MILLION GAIN SHOWN IN BANK DEPOSITS

You'll have to read to the end of this story to get the point.

Nobody knows when it's going to happen, least of all the bankers themselves, but every so often the comptroller of the currency in Washington, D. C., calls for the condition of national banks on such and such a date.

The comptroller ("controller" to you) generally issues about four bank calls a year, one for every quarter, but sometimes he doesn't and there's no telling at what date during the quarter he will issue the call.

Thus, the banks have to be ready all the time. It's like wearing your Sunday-go-to-meeting clothes all the time. Or a small boy washing his cars every morning. The comptroller does that so nobody can pull any funny stuff with deposits, loans, assets, etc.

So the other day when the call came, the First National bank of Pampa was ready as usual. Pampa's only bank is not housed in a particularly imposing structure, but it deceives its looks.

For instance, the oil companies, the oil field workers, store clerks, mechanics, teachers, preachers, and all the other workers including laborers, "white collars," and executives, last year made at least \$37,048.86 more than they did the year before, for that was the amount of increase in deposits over last year at the same time. On Dec. 31, 1937, a total of \$3,706,570.31 was on deposit, compared with 3,169,521.45 one year ago.

Yesterday, a headline in The NEWS incorrectly stated that the bank had a half million dollars on deposit. The headline on this story is correct.

FARM ATTORNEY WILL BE SENT TO AMARILLO

WASHINGTON, Jan. 7 (AP)—The agriculture department notified Senator Connally (D. Tex.) today it would transfer the three attorneys in Houston office to Amarillo and Dallas.

Two will be sent to Amarillo to handle submarginal-land purchases and the other to the regional headquarters of the farm security administration in Dallas.

The senator received the notice when he protested after receiving a report the attorneys would be sent to Louisiana. He said he was unable to learn definitely whether the Houston office would be closed.

ZEAL IN NEW ZEALAND annually wins for four yoking farmers a free trip to the Royal show in Australia. Here's the stock judging contest at Palmerston North, New Zealand, where competition in the judging events is unusually keen. Palmerston is near Dunedin on the south island.

NO ONE SLEEPS IN THIS LECTURE on basketball being given by Coach Dave McMillan of the University of Minnesota to players he hopes will give Gophers an undisputed Big Ten championship. Minnesota and Illinois tied last year. Left to right, players are: Gordon Addington, Paul Naki, John Kunda, Martin Bolek, Bob Manly.

METERS SHOW GAINS IN '37

Pampa's business outlook for 1938 was forecast in rosy colors today when a final check was completed on meter and telephone installations at the close of the year.

Installation of new telephones led the way with 309 over the same date last year. In meters, the Southwestern Public Service company was tops with an increase of 282.

Comparison of figures between January 1, 1938, and the same date in 1937 follows:

- Southwestern Public Service Co.: January 1, 1938, 3,212 meters; January 1, 1937, 2,930 meters. Increase, 282. Central States Power & Light Company: January 1, 1938, 2,941 meters; January 1, 1937, 2,768 meters. Increase, 173. City water department: January 1, 1938, 2,456 meters; January 1, 1937, 2,264 meters. Increase, 192. Southwestern Bell Telephone Co.: January 1, 1938, 2,376 connections; January 1, 1937, 2,097 connections. Increase, 279.

NO. 1-- Continued From Page One

ham's 12,000 seasoned troops, with the loss of 13 killed and wounded as against a loss of 2,000 by the British, is school-book history.

This battle, fought after England and the United States had signed a peace treaty, sent Pakenham back to England, a corpse in a rum cask, and for Jackson, fired the popular imagination which elevated him to the Presidency.

But, like Zachary Taylor and Ulysses S. Grant, Jackson is remembered more for his military exploits than for his administration as chief executive. In 1813 he broke the power of the Creek Indians at Horseshoe Bend, Ala. In 1814 he took Pensacola, which had been occupied by the British. In 1818 he embarrassed the administration by re-taking Pensacola while negotiations were under way with Spain for purchase of the Florida territory.

Jackson-day after-dinner speakers may mention his "kitchen incident," a sort of "brain trust," but they probably will not be concerned with the consequences of the episode in western Florida, or in South Carolina, or whether Jackson was born in North Carolina or in South Carolina, or whether his wife, Rachel Jackson, was an illiterate frump or an elegant lady. Either side of these and other questions can be championed with evidence.

NO. 2-- Continued From Page One

and oilfield people at the actual cost of material and labor, in addition to that mixed for the farmers.

-\$186,486.36 Paid Farmers A total of \$186,486.36 was paid the farmers in Gray county in 1937 for complying with the 1936 Agricultural Conservation program. This money was paid in the spring of 1937, and according to bankers in the cotton growing area and the representative of the Farm Credit Administration, these payments were made at a time which caused the farmers to make the smallest number of loans both of the local banks and the Farm Credit Administration that had been made in several years. The payments for compliance with the 1937 Agricultural Conservation Program will probably be made in the latter part of February.

39 In Range Program The range program which was the first agricultural conservation program that benefited ranchers, participated in by 39 ranchers, was considered by the county agent as one of the most constructive of the agricultural conservation programs. The building of dams in the small streams will probably save the county thousands of dollars in the controlling of floods and the prevention of destruction of bridges and roads. These dams will also cause a better distribution of grazing over the ranches and the natural restoration of pastures will be increased. Deferred grazing which is causing the grass to re-seed, will do much to retard the run-off.

52 Join 4-H Fifty-two boys were enrolled in the 4-H club of the county in 1937. The club activities during the year included the showing of their crops in the Tri-State fair at Amarillo and the Amarillo Community fair, and the participation in the 4-H Club parade during the Amarillo Fat Stock show, in which the Gray county delegation won second prize in the parade with representative counties from over the Panhandle competing.

Twenty-three 4-H Club boys were furnished grain sorghum seed by the Pampa Chamber of Commerce, the only obligation being that the boys in accepting the seed were agreeing to plant and cultivate it in accordance with recommendations of the county agent, to keep records on the demonstration, and to show the heads at the club fairs.

The Pampa Chamber of Commerce has given out seed in this manner for six years, a total of 4700 pounds having been given out during these six years. Increased yields of 25 to 30 percent over ordinary seed has been shown by these demonstrations.

ELECTROCUTED. OSMING, N. Y., Jan. 7 (AP)—Fugly Salvatore Ossido stalked woodenly to Sims Gray prison's electric chair last night and paid the penalty for the fatal attack on 9-year-old Elmer Sporrer in Brooklyn last March.

Movie Scrapbook

GLORIA and BARBARA BREWSTER FAVORITE SPORT IS SWIMMING.

Gloria Brewster Barbara Brewster

With such lovely, dark, wide-set eyes, pert little nose, and sweet mouth, no wonder Elizabeth D. Clark is one of the season's most popular debutantes. She made her debut before the first Junior Assembly. It is always a feather in a girl's cap when she is invited to be one of this select group. Miss Clark is very busy with debutante activities and is the daughter of Mr. and Mrs. Henry Austin Clark.

Market Briefs

KANSAS CITY LIVESTOCK KANSAS CITY, Jan. 7. (AP)—(USDA)—186-280 lbs. 8.00-8.15; cows 6.40-6.70. Cattle: 800, calves 3.00; beef steers or yearlings of consequence offered; small lots common to medium butcher cows 4.75-5.35; most vendors of quality to sell down from 10.00; stocker and feeder classes unchanged, with fairly broad wheat-end clearance. Sheep: 1,000; two loads 84-90 lb. wheat-fed lambs 8.10; natives down from 8.00; choice fed clipped lambs 7.85.

NEW ORLEANS COTTON NEW ORLEANS, Jan. 7. (AP)—Occasional flurries of realising by recent buyers shaded the initial gains in the second hour but offerings were small and prices managed to keep above the previous close. Near mid-season March contracts traded at 8.64, May 8.70, July 8.76 and Oct. 8.79, or 2 to 3 points net higher. The market remained steady throughout the morning partly because of lack of selling pressure and partly due to private Washington advice saying the administration would strive to limit cotton production this year to around 10,500,000 bales.

CHICAGO PRODUCE CHICAGO, Jan. 7. (AP)—Poultry, live: 21 turkeys, easy; hens 4 1/2 lbs. up 22%; springs, less than 4 lbs. Plymouth and white rock 23; other prices unchanged. Dressed, market steady, prices unchanged. Butter: 649,974 pounds, easy; creamery—specials (95 score) 33-33 1/2; extras (92) 32 1/2; extra firms (90-91) 32-32 1/2; other prices unchanged. Eggs: 6,700, unsettled; fresh graded, extra firsts local 22 1/2, case 23 1/2; refrigerator standards 20 1/2, firsts 20; other prices unchanged.

OKLAHOMA CITY LIVESTOCK OKLAHOMA CITY, Jan. 7. (AP)—(USDA)—Cattle: 1,200, calves 7.00; good 6 1/2 lb. short fed heifers 6.75; plain weaned yearling steers 5.50; common beef cows 3.25-4.50; few upward to 5.00; bulls largely 3.00-4.25; winter top 10.00; good 550 lb. heifer calves to 7.25; bulk plain and medium calves 4.50-5.00; odd lots feeders and yearlings 4.25-5.75. Hens: 1,000, including 242 direct packer top 8.00; small killers paying up to 8.10; good and choice 190-200 lbs. 7.75-8.00; packing sows strong to 25 higher at 6.00-6.40. Sheep: 100; not enough lambs offered to test values; market quoted nominally 15 higher or up to 7.65 on choice natives.

THREE OVER EASY DENVER, (AP)—A. H. Spencer offered "three dinosaur eggs in the original nest" for sale today. He said in a classified advertisement he had staked the eggs out where he found them in the Utah desert. He said they tallied with pictures of dinosaur eggs he had seen.

RELATED NEW BRITAIN, Conn.—A resident asked town clerk Harry F. Schuyler to refund \$1 which he paid for a marriage license—12 years ago. Explaining he could use the money, the claimant said the wedding failed to materialize because "my girl ran out on me." Schuyler said he could not return the fee.

3 WEEKS LEFT TO PAY 1938 POLL TAXES

With the new year less than a week old, politics is already showing signs of life in Pampa. Although the first primary election does not come until July 23, two candidates have already announced their intentions of running for office.

A rush of Gray county citizens to pay poll taxes is expected to occur near the end of month, as only 450 Gray county citizens have obtained poll tax receipts to date. The total number of voters in the county is approximately 6,000.

January 31 is the last day to pay poll taxes. The last day upon which state office and district office candidates may file applications to have their names listed on the Democratic primary ballot is June 6.

Other dates on the political calendar: June 12—State Democratic executive committee meets to prepare for primary election, and designate state Democratic convention meeting place. The state convention will occur in September.

June 18—Last day upon which county and precinct office candidates may file applications to have their names listed on the primary election ballot.

June 20—County democratic executive committee meets to determine, by lot, the order of names listed on the ballot; to estimate costs of the primary election; to assess costs against candidates.

July 23—First primary election day. In Gray county, polls open from 8 a. m. to 7 p. m.

July 28—Democratic county executive committee canvasses results of first primary.

August 27—Second primary election day.

September 6 (September 13)—Meeting of State Democratic Convention to adopt a platform of principles, to declare nominations for state offices, to elect State Chairman and new State Democratic Executive Committee of 31 men and 31 women.

Note:—Because of an error in a bill enacted by the 45th Legislature, the convention date was fixed for one week in advance of the time when the State Democratic Executive Committee can meet to canvass election returns. Unless this date is changed, the convention, presumably, will be unable to announce official nominations for state offices. Probably, the State Convention should meet on September 13th.

September 12—State Democratic Executive Committee holds session in the city selected for the meeting of the State Democratic Convention, canvasses returns of the Second Primary Election; prescribes the order of business for the Convention, and prepares list of convention delegates.

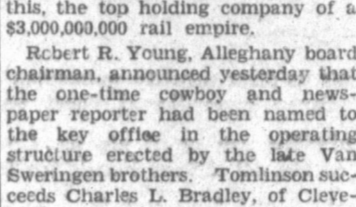

November 8—General Election day.

TOMLINSON TO HEAD ALLEGHANY COMPANY

CLEVELAND, Jan. 7 (AP)—At 72 years of age, amiable, gray-haired George A. Tomlinson—Great Lakes shipping magnate who started from scratch—today headed the Allegheny Corporation as president and executive committee chairman of this, the top holding company of a \$3,000,000,000 rail empire.

Robert R. Young, Allegheny board chairman, announced yesterday that the one-time cowboy and newspaper reporter had been named to the key office in the operating structure erected by the late Van Sweringen brothers. Tomlinson succeeds Charles L. Bradley, of Cleveland.

Pampa Daily News

Published every evening, except Saturday, and Sunday morning by the Pampa Daily News, 522 West Foster Avenue, Pampa, Texas.

Entered as second class matter March 15, at the post-office at Pampa, Texas, under the act of March 3, 1879.

Subscription Rates—By carrier in Pampa, 18c per week. By mail, payable in advance, in Gray and adjoining counties, \$7.00 per year, \$7.50 per 6 months; 15c per month. Outside Gray and adjoining counties per year, \$9.00, \$4.50 per six months, 75c per month. Price per single copy, 5c. No mail orders accepted in localities served by carrier delivery.

An independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting its editorial columns by the principles which it believes to be right and opposing those which it believes to be wrong, regardless of party politics.

TODAY'S SERMONETTE

Man never sinks so deep in sin, but what God will hear his cry for forgiveness, therefore the Psalmist said, "Let Israel hope in the Lord; for with the Lord there is mercy and with Him plenteous redemption." —Chivers.

TWENTY YEARS HAVE DONE THESE THINGS

Let's take a glimpse at what Americans were thinking about in January of 1918. These things, 20 years have done:

JANUARY, 1918: Bitter criticism leveled at War Department for failure of American arms program. After eight months of war, American arms not yet available to American soldiers. Secretary Baker savagely arraigned as a wobbling incompetent, almost a traitor.

JANUARY, 1938: Secretary Baker, just buried, is widely hailed not only as the greatest secretary of war the country ever had, but as a really great man.

JANUARY, 1918: General complaisance and expectation that the move will be permanent greets the recent taking over of the country's railroads by the government for the war emergency.

JANUARY, 1918: With many railroads bankrupt and nearly all of them beneficiaries of costly government assistance, government taking over of the railroads is again discussed, but is greeted with cries of "Socialism!"

JANUARY, 1918: Coal shortage actually causes five-day shutdown in eastern factories. "Save every unnecessary shovelful" is the war cry, as heatless days are projected. It is even proposed to close the churches to save coal.

JANUARY, 1938: Coal industry sick from lack of demand, and government price-fixing has to come to its rescue while whole communities of miners lie idle on relief or engage in "bootleg mining."

JANUARY, 1918: British rejoice at completing the conquest of German East Africa after a stubborn three-year resistance. Papers express scorn at the idea of ever giving it back under any kind of peace.

JANUARY, 1938: Lord Halifax is just back from Germany where he discussed a proposal to give back some colonies. Most popular German children's game at Christmas is a sort of parcheesi-variant called "Race for the African Colonies."

JANUARY, 1918: German peace offer indignantly rejected as a snare and a delusion.

JANUARY, 1938: German talk of peaceful intentions widely set down throughout the world as baloney.

JANUARY, 1918: "Another step toward the talking movie!"

JANUARY, 1938: "Another step toward television!"

Time marches on, all right, put that is not the interesting thing. The interesting thing is: "Whither does it march?"

Washington Letter

By RODNEY DUTCHER

WASHINGTON, Jan. 7.—The secret New Deal program for dealing with the monopoly problem curbing great concentrations of financial-economic power calls for action along these lines:

1. Rewriting the anti-trust laws in the light of Supreme Court decisions which have made those laws unenforceable.
2. Revision of the Federal Trade Commission statutes in such manner that the Supreme Court will be compelled by law to respect the FTC's findings of fact in monopoly cases.
3. Disqualification of all identical bids by companies seeking government business.
4. A tax program which will ease or remove the corporation surplus profits tax as it applies to small corporations, but keep it operative for big corporations.
5. A general policy of heavy taxation of "over-sized" corporations, possibly with the aim of making it impossible for holding companies to operate in interstate commerce.
6. Requirement that individual corporations doing interstate business be required to have a certain number of competitors. A large industrial corporation, for instance, might be prohibited from doing more than 25 per cent, or some other arbitrary percentage, of the business in its industry.

So there it is. You will notice that the program gets more radical with each point.

Roosevelt is in sympathy with and may fight for part or all of this formula. It is espoused by Assistant Attorney General Robert H. Jackson, Secretary of the Interior Ickes, and other officials on the inside group—for which Jackson has been talking in his recent speeches.

The administration's past sins of omission

Tex's Topics

What appears to be one of the smartest moves Pampans have made in the direction of getting a Gray county lake—taking for granted that we do want a lake—was launched today when the Chamber of Commerce and the county sent three men to Washington to see what can be done about getting some action on the preliminary steps which would mean beginning of work on the Gray county lake project at the Beaver Dam site on McClellan Creek.

These three men will "get around" in Washington, and one ventures to say if there is any possibility at all of getting a lake for Gray county, they will get the job done. . . . If that fails, and I don't believe it will, all of us back home will at least have the satisfaction of knowing that Pampa and Gray county did everything possible and left no stones unturned. . . . If we hadn't sent somebody to Washington, and the thing failed, we would have kicked ourselves blue in the pants for not having sent a delegation, and lake officials and backers would have been criticized from Friday to January for not having done something about it.

Two weeks ago I would have bet dollars to doughnuts that Gray county wouldn't get the lake. . . . But, now you'll have to give me odds if I am to take that end of the bet. . . . I felt that way about it, because Gray county was leaving the battle up to somebody else. . . . And somebody else can never be more than luke-warm to the other fellow's proposition. . . . It always works that way, whether it's lakes or chewing gum you're after. . . . Nothing ever is handed to anybody on a silver platter, individually or collectively. . . . If you want it, bad enough, and you are willing to get in there and fight for it, your chances of victory are ten to one better.

But, the picture has changed now. . . . Gray county and Pampa are down in Washington to fight for something they have been promised.

They are not down there to ask for a single thing that they aren't supposed to get. . . . It can be done. . . . However, Gray county has got to show a lot of we-want-it-iveness in order to swing the deal and get the lake project back under Farm Security Administration supervision—back where it originally was when Gray was included in one of the four major lake projects promised to the Panhandle. . . . With C. H. Walker, president of the Gray county Lake Association and a director of the Panhandle Water Conservation Authority; Garnet Reeves, manager of the Pampa Board of City Development, and Sherman White, Gray county judge, on the scene of combat in Washington, one feels pretty safe in predicting that something is going to be done about getting a start on the Gray county lake. . . . Fellows who hold the whip-hand in Washington are bound to know, now, that the folk in Gray county really want a lake. . . . Knowing that, they are very likely to do something about it, or I miss my guess.

Yesteryear in Pampa

TEN YEARS AGO TODAY

In order to give the car owners of Pampa another chance to secure license for 1928, the books from LeFors were moved to Pampa for four days.

FIVE YEARS AGO TODAY

Directors of the Pampa Lions club set the evenings of March 2 and 3 for presentation of the organization's 1938 Minstrel Show and Musical Revue for the underprivileged.

Work of the federal relief committee was further complicated with receipt of information that the allotment of \$5,775 from the reconstruction finance corporation had to be extended to the McLean area.

and commission as to monopoly suggest the possibly that the President may not go thru with the program, although there is a strong political incentive to do so, and the recent Jackson-Ickes speeches were made in full awareness of their political value.

Furthermore, Congress has lately shown a disposition to ditch anything Roosevelt wants badly. And, finally, there's no assurance that the program, even if passed in full, would be any more effective than previous anti-trust statutes.

Summing up motives behind the current official outcry against "big business," you have: First—Obvious 1938 and 1940 political potentialities of a trust-busting crusade, coupled with efforts to show that business—not government—caused the depression;

Second—Roosevelt's belief that government must regulate business and not let business control government, plus his belief that business cannot run itself—into anything except disaster;

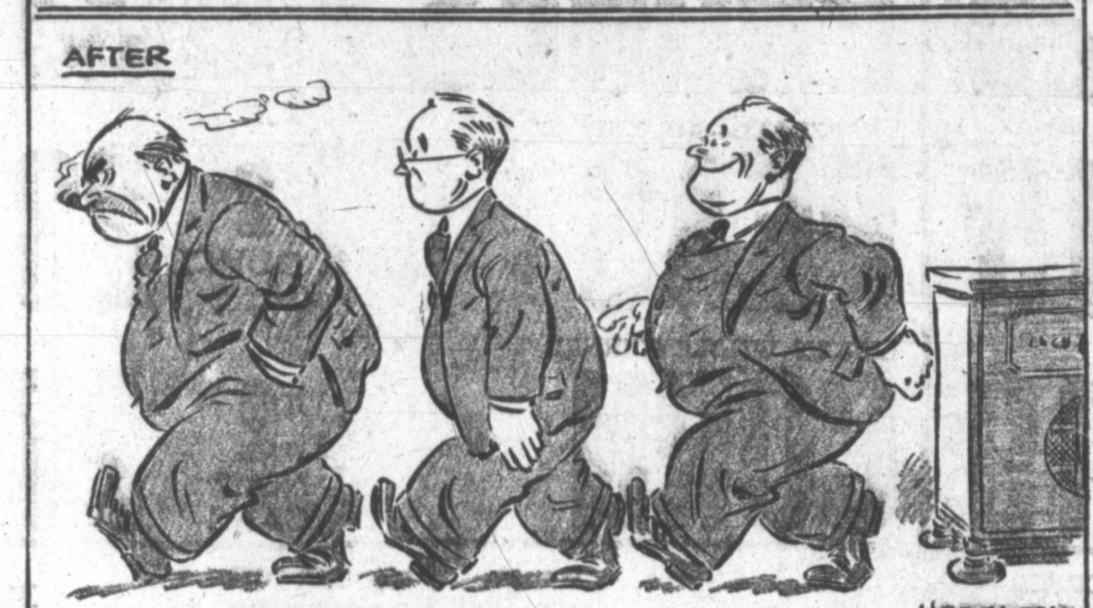

Third—Hope that public ballyhoo against high prices will drive high prices down. Inventories move faster if prices go down, this theory holds. Lower prices for building materials are essential to any building boom. And a building boom, in turn, is considered by many as the only alternative to more federal spending.

Although critics hark back to NRA and its encouragement of monopolistic practices, current administration attitude completely repudiates the old NRA theory that industry could regulate itself from within. NRA broke down. Anti-trust laws broke down long before the Supreme Court took to itself the function of deciding in individual cases whether combinations in restraint of trade were "reasonable."

The FTC's function was to find the facts on which the court must base its decisions, but the court refused to respect its findings.

It now takes four or five years to prosecute an anti-trust case through the Supreme Court, and the government usually starts out without much hope of winning. That's why it sometimes has been willing to accept "consent decrees" under which defendants agree to abandon certain monopolistic practices.

A Speech By The President--1938

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Fragmentary talk and snatches of conversation quoted after a day of knocking about the sidewalks of New York. "Of all the towns in the world you should avoid on Christmas day, London comes first. I was caught there once while living in Paris and it was like a morgue. Shops, theaters, restaurants—all were closed. I finally wound up in Westminster Abbey, but the only people there were dead ones. In desperation I fled to the railroad station, and while I did see a little animation there, it gave me such a distaste for them that to this day I cannot enter a station without shuddering." —William Keighly, movie director.

"I was playing in the Persian room and a fellow at a nearby table beckoned to me, and when I joined him he said: "Mother asked me to ask you if you would come down to the White House and play for my engagement party." It was John Roosevelt, and I can tell you that I was so excited I accepted in a hurry. I didn't want to give him a chance to change his mind."—Eddy Duchin, orchestra leader.

"I do not believe in propaganda, nor am I in favor of boycotts. But I am an ex-sailor, and after the Japanese outrage of the Panay I will give any guest a prize who comes into Leon and Eddie's wearing cotton stockings—or not stockings at all. I will never spend another quarter on Japanese silk as long as I live."—Leon, night club impresario.

"I would like to be like Garbo or Katharine Cornell. The only stage experience I've had was a bit as a bridesmaid in 'Abie's Irish Rose.' Maybe I'll be lucky and get a screen test. I am 16 years old and my father meets me every morning at 2 a. m. and takes me home."—Hope Chandler, Paradise show girl whose picture occupied most of the cover of Life Magazine, December 17.

"Ladies and Gentlemen, the name of our little play tonight is 'Dog-gone the Wind.' But don't be misled, it has nothing to do with Margaret Mitchell's novel. The heroine's name is Scarlett O'Hara, the villain is Rhett Butler, the hero is Ashley Wilkes, and the action takes place on a plantation named Tara, in Georgia. The time is 1861. So you see, it is nothing at all like 'Gone with the Wind.'"—Sly Eddie Davis, ex-waiter who now owns and entertains in night clubs.

"When I signed my movie contract I specified three things—one, that the Tazfan stuff is taboo; two, that there will be no baseball scenes; and three, that I be cast in a role secondary to the star. I'm not good enough for a star role yet."—Loud Gehrig, first baseman of the World Champion New York Yankees.

"When I told Billy Rose that he had signed two Shaws for his show, Oscar and Winnie, he cried, 'Now get us George Bernard and we'll be all set.'"—Paul Small, manager and booker of theatrical talent.

People You Know

By ARCHER FULLINGER

Here is heartfelt sympathy for the Shamrock Texan which was late the other day because of "Pl," but not the kind you eat. Here's the way Albert Cooper or Percy Bonis told it in the Texan: "The Greeks had a word for it—pi, which has come to mean, according to Webster, 'type confusedly mixed or disarranged.' Printers have a word for it, too—or rather any number of words, none of them fit to print. The reason your Texan is late today is because the printers 'pied' a complete page while in the act of putting the forms on the press. The whole works just come out and fell to the floor. The job of unscrambling the mess and getting the page back in order was—well, something. To 'p' a page is one of the major calamities that can befall in a print shop."

Well, the Pampa NEWS is knocking on wood but we haven't "pied" a page in this office in seven years. One page has been "pied" since the NEWS became a daily. But the Texan should not feel so badly. It happens in the best of families.

Why not two weeks of the biggest paper in the Panhandle, the Amarillo NEWS, "pied" a want ad page, and it took one of the boys two days to reset it on the linotype.

Around Hollywood

By ROBBIN COONS

HOLLYWOOD—It's getting so the movie studios keep their jail sets standing. Movie iron bars do not a prison make, but they take up a lot of real-estate.

Carole Lombard looked through them in "True Confession," Gladys George in "Madame X," Phyllis Brooks in "City Girl," Edward G. Robinson in "The Last Gangster," Robert Taylor and Victor McLaglen served three-reel sentences in "This Is My Affair," which probably was a record penalty outside of "San Quentin" and "Alcatraz Island," which were entirely about prison life.

In "Wise Girl," Miriam Hopkins gets Ray Milland judged to make him work as an artist, and in "Happy Landings," Ethel Merman for similarly romantic reasons sends Don Ameche to the hoosegow. "The Prisoner of Zenda" offered a more romantic type of jail, and "Love Is News" and "Second Honeymoon" both had prison stuff for laughs.

Even good old Charlie Chan went to jail for his Monte Carlo screen adventure, and half of George Sanders' dual role in "Lancer Spy" was confined throughout the film. This would beat the Taylor-McLaglen record except that half a role can't surpass two, and then McLaglen did another stint in "Nancy Steele Is Missing."

There's no well-defined reason for the popularity of jail sets, unless it's that jail is pretty dramatic, representing a serious "obstacle," or pretty funny—if the inmate is someone else.

How's Your Health?

By IAGO GALDSTON, M.D.

A chick will begin to scratch gravel soon after it is hatched. Most other animals have little difficulty in learning to eat. Some nurse for a while, are weaned and promptly learn to eat the staples of their diet. The only feeding problem among animals is getting enough.

But with the human animal it's much more complicated. In learning to eat, the child usually passes through a number of stages and acquires one behavior pattern after another. The human diet contains many different items of varying tastes and textures, each calling for special handling.

Unlike the lower animals, man does not eat solely to live. For man, eating is a ceremonious as well as vital practice. Many emotions become connected with foods and eating.

No wonder many a youngster has a hard time learning to eat, with a task like this ahead of him. His difficulties are greater when his parents become too exacting or impatient.

The child is first breast fed on bottle fed. If breast fed, he receives much pleasurable attention. Then comes a time when he is weaned. Now he is bottle fed. The food is still warm and liquid, but he has been deprived of those pleasing associations of position, warmth of embrace and the benevolent nearness of his mother's face. Many youngsters resent being weaned.

Knowing this, pediatricists insist on having every breast-fed child served from a bottle at one or more feeding periods to accustom him to the bottle.

The same conditioning plan is advisable for each new item and practice in teaching the child to eat. For liquids must yield some time to semi-solid and solid foods. The nipple and bottle are to be discarded for cups, spoons, saucers

AUSTIN, Jan. 7 (AP)—Losses from fires in Texas are dropping, says the State Fire Insurance department.

For 1937 they total about \$6,500,000, or approximately \$1,000,000 less than for the previous year.

The reasons are interesting. First, economic conditions are better than they have been for several years, and as a result the incentive to destroy property for the insurance is not as great.

Second, there has been a decided improvement in fire investigation. From 1931 to 1936 inclusive, there were 635 indictments for arson and 204 convictions.

Still another cause for the drop is the improvement in firefighting, specifically, in equipment, manpower, training and methods.

The state is said to be growing more conscious that losses ultimately are paid by the public and merely are borne temporarily by insurance companies. In other words, education in ways and means of holding down losses is making progress.

The decline has been progressive since the depression years, when at one time losses amounted to between \$15,000,000 and \$17,000,000.

The loss in 1936 was \$7,724,224.

The fire loss ratio, based on premiums as well as losses, also has declined. In 1931 it was 76 per cent; in 1935, 27 per cent; in 1936, 35 per cent; and in 1937 will also be about 35 per cent.

The insurance department expects the total of premiums to show a slight drop from last year.

The chief causes of fires continue to be matches and smoking, and defective wiring, that is, where causes are determined. About 55 per cent of the losses are from fires of unknown origin.

During the depression 75 per cent of the losses were from fires of questionable origin. In 1931, more than 1,000 vacant dwellings burned, but in 1934 this number had declined to about 120.

Night is the busy period for firemen, reports from more than 450 fire marshals show. Between 75 and 80 per cent of fires occur before 11 p. m. The deadliest of all hours are between 1 and 3 a. m.

In case of a war involving the United States an Austin Post of the American Legion favors drafting only men 40 years of age or older.

With tongues in cheek, the Legionnaires recently adopted a resolution to this effect and ordered copies sent to Vice President John N. Garner, U. S. Senators and Representatives from Texas and National Legion headquarters.

The resolution observed members of the post mostly were over 40 years old and observed: "The U. S. Government has no use for the able-bodied man past 45, as he is barred from civil service examinations."

Private industry has no use for the man past 40, regardless of qualifications and willingness to work.

The youth of the nation, particularly between the ages of 18 and 39, should be conserved so they may man the wheels of industry.

It concludes that by setting the minimum draft age at 40 years the United States "would be able to call men to the colors who are more experienced in the art of warfare than would be the flower of America's youth, which the government is determined to conserve at all costs, and incidentally eliminate for all time the man, who already has served his country in time of war and is of no further use to his country or industry and who presents an apparent unsolvable problem to his country."

B. J. Rupert, former post commander now vice chairman of the re-employment committee for the department of Texas, who offered the resolution, estimated 15,000 former service men in Texas were able and willing to work but could find neither employment nor that "life begins at 40."

"The average World War veteran is now at least 40, which gives us 4,000,000 veterans 40 or over in the United States," he said.

"The government and private industry, although welcoming younger men, have no place for the unemployed man who once served his country.

"It's a sorry situation, particularly so when you consider the fact that a man at 40 is supposed to be at his steepest and most productive age."

So They Say

Joe Louis will beat Schmeling next June. Tell you why? If you walk down a dark street sometime and fall in a hole, well, the next time you walk down, you're careful. —TOMMY FARR, English heavyweight.

If the propaganda against the President's program continues, Mr. Roosevelt will be forced to be a candidate for a third term. —U. S. SENATOR GEORGE NORRIS, Nebraska.

The American people want peace, but they want peace that will enable us to maintain the respect of other nations. —ALF. M. LANDON.

There is no magic solution to the condition of the railroads. —U. S. SENATOR HARRY S. TRUMAN, Missouri.

It is now for the Japanese government to show that it is not unmindful of the rights and interests of foreigners and that its assurances and apologies mean something more than words. —BRITAIN'S FOREIGN SECRETARY, ANTHONY EDEN.

GEORGE WASHINGTON WAS EXPERT FARMER

George Washington, whose 260th birthday anniversary will be observed next month, was not only "first in war, first in peace, and first in the hearts of his countrymen," but also first in farming.

Washington's farming was remarkable in that he did many things advocated by agriculturists today. He worked to conserve his soil and check its erosion, diversified his crops, and pioneered in using new machinery, so that Mount Vernon became a veritable experimental farm.

This is one of the stories contained in "Washington, Jefferson, Lincoln and Agriculture," a book issued by the United States Department of Agriculture in November, and reviewed last month in the Extension Service Farm News, published at the A. & M. College of Texas.

Roosevelt Club Elects Officers

SKELLYTQWN, Jan. 6.—The following were elected to offices for next year, when members of the Eleanor Roosevelt Study club met recently at the home of Mrs. K. A. Sorenson, in regular session.

Mrs. E. J. Haslam, president; Mrs. K. A. Sorenson, vice president; Mrs. S. C. Dickey, secretary and treasurer; Mrs. Chester Strickland, corresponding secretary and reporter; Mrs. Earl J. New, parliamentarian; Mrs. T. B. Barron, librarian.

A message from Mrs. Walker, which was taken from the Federated News, was read by Mrs. Geo. L. Stanley. Mrs. Chester Strickland gave a reading, "Spreading the News."

A parliamentary drill was conducted by Mrs. E. J. Haslam, and games were played under the direction of Mrs. T. B. Barron.

A refreshment plate was served to the following: Mesdames Geo. L. Stanley, J. C. Jarvis, E. J. New, T. B. Barron, Chester Strickland, S. C. Dickey, J. A. Wood, J. M. Haise, H. W. Sherrieb, E. J. Haslam, H. J. Johnson, Olen Station and the hostesses.

find neither employment nor that "life begins at 40."

"The average World War veteran is now at least 40, which gives us 4,000,000 veterans 40 or over in the United States," he said.

"The government and private industry, although welcoming younger men, have no place for the unemployed man who once served his country.

"It's a sorry situation, particularly so when you consider the fact that a man at 40 is supposed to be at his steepest and most productive age."

"Now, leave me alone—it was my wife's idea to hire a butler!"

RANGERS TO TRY FOR COMEBACK TONIGHT AFTER LOSING FIRST GAME

PAMPANS WIN 36-26 TUSSELE FROM CHAMPS

Perryton's Rangers, 1937 district champions, stinging under their worst defeat in two years, are expected to stage a devastating comeback tonight in their second game with the Harvesters on the local court. The game begins at 7:30. They lost the first game played last night before a large crowd to the Pampa lads 36 to 26. The Harvesters led from 12 to 15 points from the middle of the second quarter to a minute or two before the game ended. Perryton rallied in the last quarter after Cunningham, playing center for Pampa in the absence of Norman Cox, regular center, left the game on personal fouls.

Reimer, tall Perryton center, eluded A. C. Miller who replaced Cunningham, and hit the bull's eye four times under the basket. Perryton made only one field goal in the first half. The Rangers were doped to be better than they were last night, and tonight they should give the Harvesters a real battle. Everything they did was wrong last night; they couldn't hit the basket; they passed to the man who was covered up and not to the one who was loose, and they seemed capable of playing faster ball than they did.

Perryton, coached by Odus Burke, is considered one of the best teams in the district despite the drubbing they took last night. It is likely that Burke's boys will come back with a rush tonight in an attempt to split the series. McWilliams, Ranger guard, and Lilly, Ranger forward, shone for Perryton. McWilliams is one of the fastest passers ever seen on the local court. If he boys get going in the style they have carried them to victory over many teams in the Panhandle they may be hard to beat.

Pampa Looks Potent
However, the Harvesters looked like champions last night, and the team that could have beaten them hasn't showed up in the Panhandle this year. The Pampa boys showed speed and precision in handling the ball. Heiskell and Andis, particularly, shone in passing and in intercepting the ball. Reynolds, Foster and Dunaway gave the opposition nothing. They played pretty near faultless, defensively. Andis was on a scoring rampage. He slipped in and out of Perryton's zone defense for a big batch of baskets. Heiskell dazzled with one-handed shots and in floor-work. In fact the Harvesters came near wrecking the Ranger zone defense.

Cunningham looked better than he ever has. He turned in such a good job most of the time that the crowd forgot that Cox, the regular center, was absent. However, just like every other player on the team he does not look good all the time, and that is not to be expected. At any rate, Cunningham let nobody down last night. He opened the scoring by making a basket and a free shot.

Reserves Win
Dunaway and Reynolds started the game at the guard positions, and Reynolds played until the half. Then Coach Mitchell sent in Foster for Reynolds. Foster played until the middle of the fourth quarter when he left the game on personal fouls. The reserves won their game 24 to 14 with Omer Harrel leading the scoring with 10 points. Grover Lee Heiskell and Dull scored four points each. "Little" Heiskell substituted for Miller in the A game for a few minutes. He played at forward during all of the B game. Harrell was in the public's eyes with his uncanny shooting from court corners and oblique angles. In this game, Perryton was leading Pampa 10 to 9 at the half, but as soon as the third period opened the Harvesters reserves began to hit the basket.

GOLDEN GLOVE ENTRY BLANK

Golden Gloves Editor: Care Sports Dept., Daily News, Pampa, Texas
Please enter me in the class checked below:
Flyweight 112 Pounds
Bantamweight 118 Pounds
Featherweight 126 Pounds
Lightweight 135 Pounds
Welterweight 147 Pounds
Middleweight 160 Pounds
Light-Heavyweight 175 Pounds
Heavyweight Over 175 Pounds

In consideration of your accepting this entry, I hereby, for myself, my heirs, executors and administrators waive and release any and all right and claim for damages I may have against The Pampa Daily News or the Southwestern Association of the A. A. U., their agents, representatives and assigns for any and all injuries suffered by me at said boxing tournament to be held in Pampa.

Name (print) _____
Address _____
City _____
Age _____ Month, day and year of birth.
(Must be 16 years old or older)
I hereby consent that the above named _____
participate in said boxing tournament, and join with him in the above waiver and release.
(Parent or Guardian.)

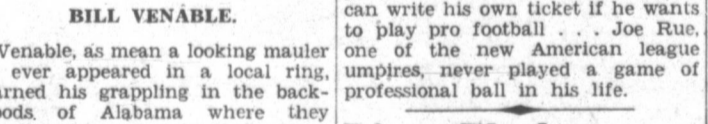

MORAN-VENABLE SEMI-FINAL SHOULD BE TOPS IN ROUGHING

A lumberjack and a sailor will get together in what promises to be the outstanding rough and tumble wrestling match in recent years when Sailor Jack Moran of Bald Knob, Ark., and Bill Venable of Tuscaloosa, Ala., meet in the semi-final of 'Promoter Cliff B. Chambers' wrestling card Monday night.

The headline attraction will be a "natural" with little Teutao Higami, Japanese nerve artist, stacked up against Jack Mandell, Kangaroo Man, who uses his feet even better than his hands.

Opening the card at 8 o'clock sharp will be Otto Von Ludwig, mean German, and Cyclone Mackie, veteran. Admission will be 65 cents reserve, tax paid, and 40 cents general admission.

Moran, the sailor, has appeared here often enough to be well liked. He is a roughster who banks on heart punches to weaken his victim before he puts on the pin. Venable will be making his first appearance on the Pampa mat.

BILL VENABLE.
Venable, as mean a looking mauler as ever appeared in a local ring, learned his grappling in the backwoods of Alabama where they wrestle with spikes in their shoes.

He learned so quickly that he decided to take up wrestling as a profession and he has made a real success of his venture. It will be a Mut and Jeff act when Mandell and Higami take the mat. Mandell is six feet tall, or taller, while Higami rises all of five feet above the canvas. Both, however, will weigh in at about 160 pounds.

Mandell will have considerable trouble working holds on the little Jap who will be in position to use nerve holds on Mandell's legs and back because of his smallness. The question is which will give out first.

Mackie has asked to meet Ludwig to give him one good beating before sending him back to Hitler. He thinks he can do it in less than 20 minutes so the preliminary was set aside for that purpose.

CHRISTIANS TO PLAY TEXAS IN LEAGUE DEBUT

By FELIX R. MCKNIGHT (Associated Press Sports Writer)
Three years in the Southwest Conference cellar, or anybody's cellar, constitutes considerable hiding out, believes Texas Christian's basketball team.
So, without much fanfare, they are readying for a huge coming out party.

Modest Coach Mike Brumbelew, taking over the fortunes of the Horned Frog basketball for the first season, believes his charges will have a much better year than the 1936 cagers. They won one game last year. Coach Brumbelew is predicting at least three wins this year. Despite a last-minute blow that removed sophomore Ben Abney, and their leading scorer, from the lineup, T. C. U. is ready to take off against the University of Texas at Austin Saturday night in its league debut.

Brumbelew plans to shift Clifton Cowan into injured Abney's forward post, pairing up with Woodrow Duckworth, a sophomore who hits the basket.
At center will be rangy Ed Mabry, a deliberate shooter who has shown vast improvement. Guarding Texas' fleet basketball rangers will be two veterans, Capt. Jay Smith, two letter senior and Brad Snodgrass, junior letterman.

The Christians will have as their first foes another determined outfit, a Texas team that has sacrificed height with the elimination of the center tipoff, for speed. Coach Jack Gray plans to sprinkle two sophomore finds, Tom Nels and Bob Moore, in with veterans Warren Osborn, Willie Tate and Don White.

Official opening of the league will be held Friday night at College Station, when Arkansas' lanky Razorbacks start a two game series with a Texas Aggie team that started assuming proportions of strength after a dull start.
Jim Benton, one of the Arkansas regulars of the 36-37 season at a guard post, will be missing. He just finished his football duties in the East-West game at San Francisco on New Year's day.

Capt. Don Lockart, an icy shooter who paced the loop's scorers last season, will pair with Harold Brady at the forwards. Ray Hamilton will be back at his old center stand and Jack Robbins, the grid hero who found time to score 72 points from his running guard slot last season, and Lenon Chambers, will be at guards.
The Aggies, at 500 per cent in four practice games, will send out Capt. Virgil and Everett Clark, two high scorers, as forwards; Louie Freiberger, center and Sammy Dwyer and Walter Robert, guards.

Plowboys Jittery On Eve of Game

STEPHEENVILLE, Jan. 7 (AP)—Seventy-eight straight victories beaming them, John Tarleton's Plowboys start their effort at a fifth undefeated basketball season here tonight against San Angelo Junior College.
Many veterans gone, the green Tarleton team had the jittery for its first year. It was in 1933 that this same San Angelo Junior College five gave them their last defeat. The Plowboys had whipped 13 straight foes and were headed for an undefeated season until they bumped into San Angelo in their final game.

At half-time the Plowboys held a 27-18 lead. At the end of a wild game, San Angelo was on top, 43-42.
Coach W. J. Wisdom complained today that not a starter of the dazzling 1936-37 team would be in the starting lineup tonight. They are gone—most of them to the University of Texas.
Cooke disposed of George Parks of Miami, 6-3, 6-3, in the quarter-finals yesterday while Grant turned back Gardner Mulloy, University of Miami tennis captain, 6-2, 6-2, without extending himself.

Riggs Blocks Grant's March

CORAL GABLES, Fla., Jan. 7 (AP)—Bryan "Bity" Grant of Atlanta found Elwood Cooke, Portland, Ore., blocking his march today toward a meeting with Bobby Riggs of Chicago in the Miami Biltmore tennis tournament final.

H-S Schedules Nine Grid Games

ABILENE, Jan. 7 (AP)—Unbeaten in 1937, but tied once, Hardin-Simmons' football team today peered at a nine-game schedule for 1938. Graduate manager G. B. Sandfer said a tenth game may be added to the schedule.
The slate for 1938 read: Sept. 24, Kentucky State at Paducah, Ky.; Oct. 1, Centenary at Abilene, Tex.; Oct. 8, Ouachita at Arkadelphia, Ark.; Oct. 14, West Texas State at Abilene; Oct. 22, open date; Oct. 29, East Texas State at Abilene; Nov. 5, Texas College of Mines at Odessa; Nov. 12, open date; Nov. 19, Loyola of Los Angeles; Nov. 24, Oklahoma City at Oklahoma City; Dec. 3, Howard Payne at Brownwood.

DIMAGGIO TO LIKELY SIGN FOR \$25,000

By GAYLE TALBOT
NEW YORK, Jan. 7 (AP)—That Joe DiMaggio will sign for about \$25,000 this season and eventually, say, in three more years, reach a peak salary of \$50,000 from the Yankees is the consensus of some of the smartest baseball minds around town.
The speculation was born of a report in a local paper that the famous San Francisco spaghetti bender already had signed a contract for 1938 at a stipend of \$25,000, or \$10,000 above the figure he received for smiting 46 home runs last year.
DiMaggio denied it promptly, and so did Ed Barrow, secretary of the club.
Joe, says Barrow, will receive his initial offer very shortly, along with the other players.

There seems to be no doubt in anybody's mind that DiMaggio is destined eventually to become the second highest paid player in the history of the game. If Joe talks them out of \$25,000 for the coming season (and it seems likely, for he's going to "demand" \$30,000) it will be a record for a third-year man. Likewise, the news that Joe is going after that kind of money should read a record crop of headaches for the Yankee front office. The others, including Lou Gehrig, who now is tops at \$36,000, are certain to growl for a proportionate hike in pay. Gehrig, it is recalled, held out stubbornly for \$40,000 last season.

International Track Meet For Summer Planned

By DAN FERRIS
NEW YORK, Jan. 7 (AP)—Spurred on by prospects of heavy foreign competition, America's track and field athletes may set an even faster pace in 1938 than they did a year ago when famous Olympic holders of the University of Texas, lost no time in writing new marks into the winter record. In Coral Gables, Fla., carnival, Kiefer captured the one backstroke record which had eluded him by negotiating 100 meters over a 20-yard course in 1 minute, 7.7 seconds. The previous mark of 1:11.4 was held by William H. Mackey of Yale. Flanagan established new national records for the 200, 220, and 250-yard sprints also over a 20-yard course.

Among the international meets for American athletes definitely are fixed and others are tentatively planned.

Charles Paddock Trying to Drive Out Racketeering

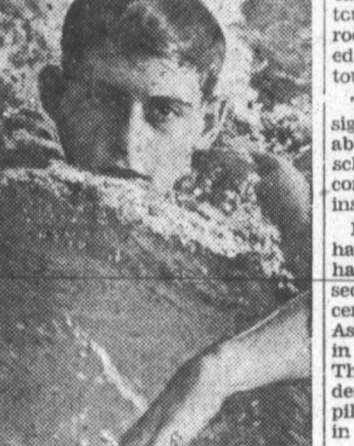

LONG BEACH, Calif., Jan. 7 (AP)—Charles Paddock, once the fastest man in Southern California, has turned to the task of chasing racketeering.
Now business manager of the Long Beach Press Telegram and Sun, daily newspapers here, the former holder of most of the world's sprint records leaves tonight for New York City where he will confer with Thomas Dewey, district attorney.
Paddock will represent "the committee of ten thousand," designed to "prevent and drive out of the city organized racketeering."
"We have a very real problem here," said Paddock before he left. "Since Dewey clamped the lid down in New York, Southern California has become the stopping place of many of the undesirables he chased out. We want to find out who they are."
"We also want to know the best method of getting rid of them."

Mechanical Ump Out of Question Claims McGowan

WASHINGTON, Jan. 7 (AP)—Umpire Bill McGowan waved away today and talk of a mechanical baseball umpire.
"Science," said the American league veteran of 13 seasons, "may make a mechanical man, but it never will turn out an umpire."
People, he added, are beginning to talk about putting a robot behind the plate to eliminate possibility of human error.
He admits a light-beam apparatus could be rigged up that would call balls and strikes insofar as they passed over the plate.
"But," he explained, "what about those technical things like the half swing, the tip that barely grazes the bat and the catcher that tips the bat? It takes human eye, the ear, plus judgment and experience to call them."

Group Of Boxers Begin Training For Tourney

The Pampa Athletic arena resounded to the thud of leather on flesh, the staccato reports of fists on punching bags and the whirl of skipping ropes yesterday evening as the first group of entrants in the Pampa Daily News Golden Glove tournament got under way. Daily workouts, between 5 and 7 p. m., or at times to suit participants, will be in order under direction of Tournament Director Cliff B. Chambers.
All boys interested in entering the tournament, open to amateurs 16 years or over, are urged to report at the arena at 5 o'clock this afternoon or any afternoon. The earlier the entrant starts training the better shape they will be in for the big event, February 2, 3 and 4.
Tourney officials today began a tour of the Panhandle advertising the Golden Gloves tournament and inviting boys from other Panhandle towns and cities to enter the big event. Entries have already been received from many nearby towns.
Winners to Fort Worth.
A winner in each division, eight in all, will be eligible to participate in the State Golden Gloves tournament at Fort Worth, Feb. 17 to 22. Transportation to and from Fort Worth will be furnished each class winner by the local tournament committee. Board and room in Fort Worth will be furnished as long as a participant is in the tourney.
There is still plenty of time to sign up. Out-of-town boys will be able to train in their local high school gymnasiums or they can come to Pampa any time to receive instructions or train.
Director Chambers is arranging to have experienced instructors on hand to assist the boys. He has secured the assistance of City Officer W. C. Dillman, Ed Johnson, Lee Asher and others to train the boys in the many art of self defense. The men will instruct the boys in defense, offense and the system of piling up points which win decisions in amateur boxing matches.
Amateur boxing is a form of physical training and conditioning for other sports. Large gloves are worn at all times and the boys reap untold benefits from boxing.
Many Entered.
The tournament here will be open to any amateur in the southwest, the Pampa Daily News having been admitted to membership in the Southwestern A. A. U. Now is the time to fill out the entry blank and training.

Adolph Kiefer, above, and Ralph Flanagan, below, famous Olympic swimmers and world record holders of the University of Texas, lost no time in writing new marks into the winter record. In Coral Gables, Fla., carnival, Kiefer captured the one backstroke record which had eluded him by negotiating 100 meters over a 20-yard course in 1 minute, 7.7 seconds.

Among the entries already out for workouts are LeRoy Regan, James Brown, Freeman Sullivan, Raymond Elkins, Frank Brown, Edward Asher, formerly of Wheeler, Ray Norman, former Wheeler champion, but now a resident of Pampa, Allen B. Cumberland of LeFors, Bob Gaiser of Borger, J. P. Mathews, Harvester football star, Harry McMahan, another Harvester gridiron figure, Bill Stiles, still another Harvester, Elvis Mathis of LeFors, and Shamrock, Wheeler, McLean and Alanrock boys whose entries have not reached yet.

Fans Beef About Non-Title Fight

NEW YORK, Jan. 7 (AP)—There's been much fuss over tonight's non-title match between middleweight champion Freddie Steele and former challenger Fred Apostoli.
The thing about it is that a lot of the talk about tonight's 12-round tuss in Madison Square Garden was anything but complimentary.
The "experts" and fans, alike, can't see why two such ranking belters as the Seattle champ and the San Francisco hopeful can't go to work on each other over the 15-round route, with the title at stake. They can't figure out why the fight should be one of those "what's the use" or "ho, hum" affairs. The fight promoters involved are generally regarded as hoping tonight's tangle is somewhere near close, so that the buildup can start for a title go this summer. Into the affair has been injected the "grudge" angle, along with a lot of high-powered blather, that Apostoli is a dead-eyed cinch to make it a lot closer than when he was belted out by this same Steele a couple of years ago.

Steele, who took the title from Babe Risko in July 1936, goes into the ring at odds somewhere close to 5 to 8. He has defended the crown successfully against Gorilla Jones (last January), Risko (February), and Ken Overlin (September).

Los Angeles Open Begins With 275 Seeking \$5,000

LOS ANGELES, Jan. 7 (AP)—The nation's wandering professional golfers made their 1938 bow here today as the 13th annual Los Angeles open got underway for a purse of \$5,000.

The field of approximately 275 was divided, part playing their initial round of 18 holes over the Woodrow Wilson course, the rest shooting over the Warren G. Harding course.

Par for the Wilson course is 71, for the Harding, 72. Eighteen holes will be played each day, including the championship final round Monday over the Wilson course.

Harry Cooper, leading money winner of the pro brigade in 1937, took the Wilson course apart in the last Los Angeles open, and remained a favorite to repeat this year.

Virtually every ranking pro was entered, however, and the favorite's spot was precarious.
Sole woman entered was Babe Didrikson.

BARNYARD REVIEW

CHICAGO, (AP)—Casey Jones, 67, was hailed into court along with his four educated chickens, on charges of disorderly conduct and cruelty to animals.
"Your Honor, I raised these chickens myself, and I love them and am kind to them. I taught them all their tricks," Jones said.
Whereupon one hen danced the big apple and trucked and strutted before the court while the others hopped over bars and through hoops to the rhythm of Jones' harmonica. Judge Samuel Heller dismissed the charges.

Now... 3 YEARS OLD

In ancient times men looked to knighthood as the symbol of high quality. Today more and more lovers of fine whiskey look to Century Club, now three years old, for a whiskey of luxurious richness and mature mellowness.

Let your own taste tell you

Century Club
A GENTLEMAN'S STANDARD

Richest Girl in the World

BY ADELAIDE HUMPHRIES

Copyright, 1938, NEA Service, Inc.

CAST OF CHARACTERS
CONSTANCE CORBY—heroine; richest girl in the world.
BRET HARDESTY—hero; bridge builder.
RODNEY BRANDON—Connie's fiancé.
KATIE BLYN—Connie's "double."

Yesterday, Constance Corby, on the eve of her announcement party, is in the richest girl in the world but certainly not the happiest. She reflects on this as she whirls out on the dance floor with her fiancé, Rodney Brandon.

CHAPTER II
"AND now that everyone has drunk a toast to our happiness and you've danced until your pretty silver slippers must be worn through, when are you going to marry me?" Rodney asked. He had persuaded Connie to slip away to the little summer house that had often served as a rendezvous when they wanted a few moments alone.
"When?" Connie murmured.
"When?" Rodney repeated. "You can't expect me to want to wait much longer, darling. In fact I can't see any reason now for waiting at all."
Connie tilted her head to one side, regarding him. "You manage to sound like an impatient lover, Rodney—almost. Somehow, you don't make it quite convincing. For my part I can't see any reason to hurry."

voice said, "Hold it!" A man had slipped up the stairs toward them.
"How did you get in here?" Connie asked sharply. She pushed Rodney away; her blue eyes smoldered.
The man laughed. "I scaled the wall. Quite a feat, let me assure you, Miss Corby. But it was worth it."
"Rodney!" Connie whirled on him. "Aren't you going to do something?"
"What can I do?" Rodney gave her his slow smile.
"Throw him out! Break his old camera..."
"Oh, come now! You wouldn't have him do that, Miss Corby." Nevertheless the cameraman began to edge away.
"Wouldn't it Nothing would give me more pleasure. We posed a dozen or more times, gave out interviews so you'd let us alone.... Can't a person have any privacy at any time anywhere?"
"Not when she's the richest girl in the world, Miss Corby." The cameraman laughed again, said he was sorry. He put his hand on the wall. He could hoist himself over it, manage the sheer drop to the beach; but how he ever had scouted it especially keeping his camera intact, remained a puzzle.
"Aren't you going to do some-

Suddenly there was a flash of blinding light. A voice said, "Hold it!" A man had slipped up the stairs toward them.

thing?" Connie demanded of Rodney once more.
HE did not seem to resent the intrusion. "Oh, let the fellow have the picture. He's earned it. Though—you'd better get going now," Rodney addressed the photographer, "or I'll have to summon the guards."
"That won't be necessary," the man returned. He tipped his hat to Connie, said, "Thanks!" again

INDIAN CLANS IN TEXAS SEE GLOOMY YEAR

INDIAN VILLAGE, Polk County, Texas, Jan. 7 (AP)—Another lean year year faces Texas' Indian tribe—a blend of the once warlike Alabama and Coushatta clans.

Chief Tai-Ki-Shek, who some of the Indians say is not the tribe's real chief, despite his "coronation" Jan. 1, 1935, summed up the Indians' plight shortly before he put on his head dress.

"When the Indians first came here there was plenty buffalo and bear. Now they are lucky to catch squirrel or rabbit."

The village is more or less quiet, except for one thing. Politics has caused an internecine squabble among the Red men over who is going to be head man.

Tai-Ki-Shek got the toga two years ago in a ceremony at which the acting governor of Texas and about 5,000 white persons were present.

But friends of Clinson Sylestine, the chief's cousin, say that ceremony didn't count. Clinson Sylestine is the big chief.

Clinson is the foreman of the WPA project.

Richest Girl in the World

BY ADELAIDE HUMPHRIES Copyright, 1938, NEA Service, Inc.

before he disappeared over the side of the wall. "I hope he breaks his neck," Connie said, fiercely. Her hands were clenching at her sides.

"Rodney did not," Connie said, though. He did call after her, shook his head, still smiling. One never knew what Connie would do next. Melt in his arms one moment, run from him the next.

But she would run back. She had always come back. The only thing to do was to humor her. Give her time.

But that was where he made his mistake. Paradoxical as it might seem, he did not want her to see that she was never wanted to see him again.

Connie was tired of being humored, of having her own way. She was tired of everything in her glamorous golden world. Sick to the soul of it, as she had suddenly discovered earlier that same evening, as she had discovered anew now, flung across her magnificent four-poster bed, with its silk hangings and hand-made lace spread, that had belonged to the lovely and mad Marie Antoinette, shaking with sob that tore through her whole body, that came from anger or sorrow, temper or pity, she did not know which.

She only knew that she would not marry Rodney Brandon now if he were the last man on earth. She had meant it when she said that she had never wanted to see him again.

Paradoxical as it might seem, he did not want her to see that she was never wanted to see him again. (To Be Continued)

DALHART TREE PROJECT BEST IN DUST BOWL

WASHINGTON, Jan. 7 (AP)—The soil conservation service described its forestry project at Dalhart, as one of the most successful of all its tree planting programs inaugurated in the "dust bowl" to curb wind erosion.

John F. Preston, official of the forestry division of the conservation service, said about 80 per cent of the trees planted there are living and some have reached a height of 10 to 12 feet.

Commenting on the work there and at similar projects in Channing, Vega, and Hereford, Tex., Liberal, Kas.; Guymon, Okla.; Clayton, N. M., and Clovis, N. M., Preston said:

"Tree planting in the dust bowl still is on an experimental basis. The number of places where the trees can be planted still is very limited. I do not believe trees can be used widely because of lack of moisture."

Preston said 2,500,000 trees have been planted in the dust bowl and that another 500,000 would be set out next spring. He said many of the first trees planted died, but that more careful cultivation of later plantings was practiced and that about 60 to 70 per cent of the entire lot are thriving.

The program was started about two years ago and is not progressing far enough to determine results accurately, he said, and it is believed trees will affect the wind for a distance of 20 times the height of a windbreak.

Chinese elms, hackberry, a few cottonwoods, a limited amount of osage, honey locust, desert willow, green ash, Russian mulberry and various shrubs are planted along gullies, ditches and roads where rainfall will drain.

Conservation officials estimated that about 12 per cent of the dust bowl project area has been returned to grass lands to provide a covering against blowing next spring.

East of the dust bowl the forest service is conducting its shelter-belt program, which one official said was expected to retard any eastward advance of the dust area.

The service plans to plant 30,000,000 trees next year in an area comprising parts of West Texas, Oklahoma, Kansas, Nebraska, North Dakota, and South Dakota. Of the 44,000,000 trees planted by the service, survival was found to range from 94.8 per cent on honey locusts in Nebraska to 22.5 per cent on walnuts in Texas. The average survival of all trees planted was 70.1 per cent.

Forester Gerald Cook said the trees, properly set, would conserve soil moisture, prevent wind erosion and temper winds on crops and livestock.

PNEUMONIA DANGERS OUTLINED BY DOCTOR

AUSTIN, Jan. 6.—Warnings against the danger of pneumonia, which ranks second as a cause of death in Texas, were issued today by George W. Cox, state health officer. In 1932, almost 6,000 persons died of this disease.

Mortality is greatly increased during wet, cold weather. Pneumonia is more prevalent and serious in towns where contacts with people are more common.

First symptoms are usually severe chill and fever, loss of appetite, rapid breathing, and heavy sensation in the chest. Sometimes, coughing brings up blood from inflamed lungs.

The rules of prevention of other respiratory diseases apply to pneumonia. Persons should avoid care-less coughers and sneezers, get plenty of fresh air day and night, exercise and eat in moderation, wear suitable clothing, and keep hands, pencils, money and other such articles away from the mouth and nose, Dr. Cox advises.

Alabama Gives Relics to Museum

CANYON, Jan. 7.—Gifts extending over most of the history of the Panhandle-Plains Historical Society, received from W. S. Mabry of Selma, Ala., have made him one of the most consistent contributors to the museum here.

Recent contributions include most of the copies of the Frontier Times from 1928 to 1936. This paper, which contains highly valuable articles by longtime residents of Texas, is published at Bandera. Mr. Mabry obtained from Washington, D. C., photostatic copies of maps showing the Texas-New Mexico boundary. He also gave letters forming correspondence between himself and the late Sheriff Jim East of Tascosa.

In sending material to Prof. L. F. Shaffy, head of the history department of West Texas State, Mr. Mabry included an autographed copy of his memoirs, written in 1927. These chiefly concern his work.

AIR-MINDED

CLOVER, S. C. (AP)—The captain of the York county police force says he has a hen that insists on laying eggs in a nest built, like a bird's, in a tree.

The nest is in a thick growth of limbs branching from a broken-off trunk and every day the hen flies up to the nest to lay an egg.

The name of the hen's owner is George W. Sparrow.

Out of every 100 clergymen in England, 34 are more than 80 years old.

79 DAMS BUILT IN DONLEY IN SOIL CONSERVATION PROGRAM

CLARENDON, Jan. 7 (AP)—Range building practices have improved grazing conditions in Donley county and otherwise benefited ranch lands, says County Agent H. M. Breedlove. Seventy-nine dams built will impound 4,822,303 acre-feet of water. Dams scattered over 300,000 acres of grazing land were staked off so that watering places would more evenly distribute grazing regions and thus conserve pasture grass.

Labor employed in constructing dams removed 158,000 cubic yards

of earth and tank projects on various ranches include large dams built by W. J. Lewis, C. T. McMurry, P. A. Finch, and McMurry & Chamberlain and stock farmers have cooperated with smaller reservoirs.

Pasture riding is being generally practiced and 131,353 feet has been completed. Grass is spreading across pasture contours and a storage of moisture is assured. In cooperation with soil conservators cattlemen have thrown up protective terraces guarding agricultural lands

and controlling erosion on farms, and compliance figures show 31,200 feet of spreader terraces and spreader dams completed.

Range fences totaling 1,172 rods were constructed where it was necessary to carry out deferred grazing, and 7,991 acres were reseeded under the program. More than 1,200 acres of fine grazing land were recovered from prickly pear, cactus and mesquite.

Rodent eradication with benefit payment has progressed and prairie dogs, kangaroo rats exterminated from 2,165 acres.

Practically every rancher in Donley county cooperated in the range improvement program under the agricultural conservation act and

stockmen face the new year with better ranges.

Compliance forms on approximately 90 per cent of all range land in the county are in the hands of the state board and cattle raisers are looking forward to better grazing conditions.

CARLOADINGS.

Santa Fe Railway system carloadings for the week ending Jan. 1, were 16,018 compared with 15,534 for the same week last year. Received from connections 3,783 cars compared with 5,073 for the same week last year. Total cars moved were 19,801 compared with 20,607 for the same week in 1937. The Santa Fe handled a total of 22,416 cars in the preceding week this year.

DUST BOWL ON UPGRADE SAYS AAA OFFICIAL

WASHINGTON, Jan. 7 (AP)—Geo. E. Farrell, chief of the western division of the Agricultural Adjustment administration, renewed conservation work in the "dust bowl" and decided the area is "getting smaller every year—swinging back."

"Farmers in the dust bowl have learned more about listing and utilizing crops to prevent soil blowing," he said. "In some places they have bucket listed, dug wide ditches with check dams, and the moisture has penetrated the subsoil two to four feet. In other sections the moisture is only six to eight inches."

Agricultural experts say two to three feet of moisture should be in the subsoil by Nov. 1 to give the farmer more than one chance in eight of making a crop. Farrell estimated 25,000,000 acres are in the dust bowl area, and that between 3,000,000 and 5,000,000 acres are in "some stage of restoration." He said thousands of acres are being retired and cover crops now growing on them. The soil conservation forestry division has

planted about 2,500,000 trees and will plant another 500,000 in selected spots next year as wind breaks.

"The government is offering to help restore 3,000,000 acres to grass by allowing 50 cents an acre for retirement," he added. "The farmers are aiding by delaying vigorously with the land explorer thru local control that is making for a better plains region."

LEVINE'S BUYERS' MISTAKES OF 1937

STARTS SATURDAY, JANUARY 8th PROMPTLY AT 8 A. M.

THEY'RE HERE AGAIN—THOSE GLARING MISTAKES OF PAST YEAR!

Our buyers overbought on this and that... too many of the wrong colors or styles... or perhaps the wrong sizes... accumulated short lots—odds and ends... All go under the ax in this Ruthless Price Slaughter. Come and get them Saturday... We're tired looking at 'em.

36" CORDUROY and VELVETEEN
We have 100 yards of these materials carried over from fall—that made the buyer sit-up nights. Values to 98c yard.
Yard **39c**

80 SQUARE PRINTS
On the square, this is a knock-out value. A high quality print—but our buyers bought too many—
Yard **12c**

156 PAIR LADIES SHOES
