Good Evening

There are innumerable souls that would resent the charge of the fool's atheism, yet daily deny God in every deed.

NAZIS MAKE BOLD GRAB FOR RUMANIA OIL

Farm Forces Say They'll Halt Slash

Sentiment Switch Claimed by Sooner Representative... WASHINGTON, Feb. 2 (AP)—Farm members took a growing confidence today into the critical stages of their House fight to avert a 31 per cent cut in agriculture department funds.

Livestock Show To Be Held In March

A Gray county Junior Livestock show will be held at Recreational Park March 2, the agriculture committee of the Pampa Chamber of Commerce decided at a meeting yesterday.

GROUNDHOG DAY AS SURREALIST SEES IT (WINTER'S OVER! HA! HA!)

Groundhog day has gone modern. Final refuge of things as they were, one remaining link of a tradition that carries the past into the future, last stronghold of solid old stock that elected Coolidge, for instance, the humble groundhog has fallen afoul of the surrealists.

Reds Send Armored Sleds Against Finns

HELSINKI, Feb. 2.—Russian planes were reported by the Finnish high command today to have dropped "many" patrols by parachute over Finnish soil but defense troops captured or killed the invaders.

War Flashes

LONDON, Feb. 2 (AP)—Great Britain was reliably reported today to be planning to cut export of goods in Rumania as a weapon in her struggle with Germany for Rumanian oil—prized war fuel.

Late News

HYDE PARK, N. Y., Feb. 2 (AP)—President Roosevelt told reporters in firm tones today he was standing on his budget and a \$900,000,000 agricultural appropriation for the year beginning July 1.

Hitler Puts Pressure On Small Nation

BERLIN, Feb. 2 (AP)—German pressure on Rumania to obtain acceptance of a sweeping plan to make her industries, petroleum production and agriculture adjuncts of the reich's economic structure was reported by informed persons today at the meeting of the Balkan entente opened here.

Postal Receipts Show Increase Here

Pampa postal receipts for January of this year showed an increase of more than eight per cent over the same month in 1939.

Hauptmann's Son Awarded Damages

NEW YORK, Feb. 2 (AP)—The six-year-old son of Bruno Richard Hauptmann, executed kidnaper of the Lindbergh baby, has been awarded \$25,000 damages against Frank Moser, a cartoonist for allegedly permanent leg injuries suffered when he was struck by Moser's car.

Chuck Can't See Shadow In Panhandle

QUARRYVILLE, Pa., Feb. 2 (AP)—Disciples of the groundhog as a weather prophet could take in Texas, especially in the Panhandle, where the groundhog is supposed to see its shadow on Feb. 2.

Borger Minister And Wife Injured In Car Collision

The Rev. and Mrs. J. A. Thomas of Borger suffered minor injuries late last night when their car was in collision with another driven by Ed Eddy, Pampa oilfield worker, on slippery Pampa.

Fog Lingers For Second Day Over Panhandle Area

For the second consecutive day Pampa and the Plains area were covered by a "fog-out," extending far east as Oklahoma City, south to Port Worth, blanketing East Texas, and southwest to Big Spring.

British Air Force Expected To Reply To German Bombs

LONDON, Feb. 2 (AP)—The royal air force is prepared to reply in kind to large scale German bombing in the spring, authoritative sources asserted today.

U. S. Guards Against Espionage From Air

WASHINGTON, Feb. 2 (AP)—Because any foreign spy can send Trans-Atlantic messages with a radio built from dime-store parts, Uncle Sam is increasing his precautions against use of the air for espionage.

New Patrolmen Examines Drivers

For the first time J. B. Wilkinson and G. C. Reese were the Gray county examiners for the regular weekly drivers license examinations, held at the court house yesterday.

Benefield Candidate For Commissioner

J. E. (Joe) Benefield of Lefors today authorized The Pampa News to announce his candidacy for county commissioner of precinct 1, subject to the action of the Democratic primary of July 27.

Ellis County Needs District Attorney

NORMAN, Okla., Feb. 2 (AP)—Ellis county needs a prosecutor so badly it's begging for one.

Telephones Used In Bank Robbery

SPRINGFIELD, Mo., Feb. 2 (AP)—Robbers used telephones instead of guns in Springfield's slickest bank raid and walked away with \$4,000 before Union National Bank employees even became suspicious.

Emotions May Cause 'Common Cold' In Some Individuals

CHICAGO, Feb. 2 (AP)—Emotional disturbances may precipitate the "common cold" in some individuals, a Chicago psychoanalyst said today.

Pampans To Be Offered Advice On Income Tax

Ralph Kenniston, deputy collector, treasury department, internal revenue service, will be in Pampa February 23, 24, 26, and 27 for the purpose of assisting citizens in filing their income tax returns.

Haley Invited To Play Accordion At Perryton Banquet

Bill Haley and his accordion made such a hit with Perryton Rotarians at their recent charter banquet that the Perryton Chamber of Commerce has invited Bill to play at their annual banquet the night of February 8.

Texas Governmental Machinery Obsolete, Says Auditor King

AUSTIN, Feb. 2 (AP)—Texas' governmental machinery is "obsolete, inadequate and loaded beyond its capacity" and Texas is faced with the "most serious fiscal crisis since the days of the republic," in the opinion of state auditor Tom C. King.

Light Rain Falls Throughout Texas

DALLAS, Feb. 2 (AP)—Light rain doused nearly all of Texas today, skipping only the Rio Grande valley, and the Port Arthur and Amarillo areas.

Power to Spare

A new airplane gasoline has been developed to increase the power of airplane engines 50%. This is reported equivalent to adding a third engine to two-motored airplanes.

I Heard...

The owner of a local wholesale business remarking that despite favorable weather last month, his receipts totaled several thousand dollars more than for January of 1939.

Kaiser In Favor Of Immediate Peace

NEW YORK, Feb. 2 (AP)—The man who led Germany into a world war in 1914—Kaiser Wilhelm—thinks Germany and the allies should declare peace immediately, then join Finland to "rid the world of Bolshevism."

Temperatures In Pampa

Table showing temperatures in Pampa for Thursday, Friday, and Saturday.

Bound To Be A Catch

COLUMBIA, Mo., Feb. 2 (AP)—Breton Berry, associate professor of sociology at the University of Missouri, frowns on class sleepers.

Royalty Owners Meeting Postponed

The meeting of directors of the Panhandle Producers and Royalty Owners association scheduled for tonight in Amarillo has been postponed until 8 o'clock the night of February 3.

I Saw...

Mrs. Frances Alexander, high school science teacher, speak a single word to sum up the reaction of scientists to the groundhog theory. "Nuts!" said she.

Shepic's Quintet To Play At Gym Tonight

The Roving Reporter and Business Manager Bill Anderson of the Harvesters will present a new attraction at the Harvesters-Westerner basketball doubleheader tonight at the high school gym.

New High In Poll Taxes Predicted

A new high in the total number of qualified voters in Gray county was foreseen today by County Tax Assessor Collector F. E. Leech.

Royalty Owners Meeting Postponed

The meeting of directors of the Panhandle Producers and Royalty Owners association scheduled for tonight in Amarillo has been postponed until 8 o'clock the night of February 3.

I Saw...

Mrs. Frances Alexander, high school science teacher, speak a single word to sum up the reaction of scientists to the groundhog theory. "Nuts!" said she.

Sub Debs Will Fete Social Clubs With Reception

Plans for a reception to be given Saturday afternoon in the city club rooms by the Sigma Delta chapter of Sub Debs for members of all high school girls' social clubs were completed at a meeting of the club this week in the home of Miss Meribelle Haskard.

New officers of the Sub Deb club will be installed at the reception also.

Miss Harriett Price was leader of the round table discussion on dating at the meeting. Activities of the organization were outlined also.

Refreshments of Coca-Cola and cookies were served to Misses Paley Gaut, Charibel Jones, Jerry Smith, Jeanne Lively, Jackie Hurst, Iris Williams, Betty Jean McAfee, Frankie Foster, Dorothy Miskimins, Harriett Price, Betty Jean Tennant, Betty Plank, Faye Redman, Bonnie Lea Rose, the hostess, and sponsor, Miss Evelyn Gregory.

NO ACTING

Constance Bennett

Anita Louise

No movie hero dashed out of the night to save Constance Bennett, upper, and Anita Louise from Chicago thugs, and as yet no Philo Vance or Charlie Chan has appeared to solve the great gem mystery that cost the actresses \$35,000 in rings and bracelets. The two screen stars weren't acting when they reported hold up just outside of Chicago's loop district while returning from a charity ball.

Most efficient of all the world's light-makers is the firefly. Only about 10 per cent of the rays from an electric lamp can be seen, but the glow of the firefly is almost 100 per cent light.

WHAT! THEY'VE MADE MAXWELL HOUSE EVEN BETTER?

YES! IT'S BEEN IMPROVED LATELY IN TWO IMPORTANT WAYS!

2 DEFINITE REASONS why Maxwell House is now even richer, more delicious!

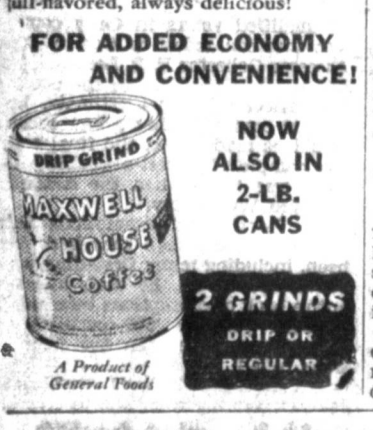

1. New Enriched Blend. Yes! The famous Maxwell House blend has actually been improved... made richer, smoother, even more delicious and full-flavored than ever!
2. Improved Roasting Method! And this magnificent new blend is now roasted by a new method called Radiant Roast. A method that roasts each bean evenly...

THIS IS NO TIME TO TAKE CHANCES WITH COLDS

With Contagious Colds Increasing Take These Precautions For Your Family's Sake and Your Own

Keep out of crowds as much as possible. Get plenty of rest and sleep. Eat simple food. Drink plenty of water. Keep elimination regular. Don't take needless chances. Don't experiment with untried medications. And be sure to have these two time-tested home-approved treatments on hand, ready to use.

At the First Sign of a Cold

Be ready to help prevent many colds from developing. At the first warning sneeze, sniffle, or irritated feeling in your nose—use Vicks VapoRub. Just a few drops up each nostril. Right away you can feel VapoRub stimulating Nature's own cold-fighting defenses. It actually helps to keep many colds from developing—or to throw them off in the early stages.

Also use VapoRub for swift relief from the suffocating stuffiness and congestion of a head cold.

Now Be Prepared—Get a bottle of Vicks VapoRub and a jar of Vicks Vaporub today and take the above precautions. They may save you a lot of sickness and worry.

If a Cold Develops

Thoroughly massage throat, chest, and back with Vicks VapoRub, then spread on a thick layer of VapoRub, cover with a warm cloth, and go to bed. VapoRub brings wonderful relief and invites restful sleep. Then hour after hour it keeps working—stimulating the skin like a warming poultice, while its medicinal vapors are breathed into the cold-irritated air passages of nose, throat and chest. Often when morning comes, most of the cold's discomforts are gone.

Try This Amazing New Way to Relief!

CONFIDENTIAL

Practically no two feet are alike—no wooden ordinary standardized shoe ever fit to give comfort. But now you can have shoes actually made to your individual foot contour, to help correct cause of trouble. For men and women.

GLORIFYING YOURSELF

By ALICIA HART

Cleanliness is one of the sound principles on which true attractiveness is based. No fastidious woman, determined to appear at her best day in and day out, underestimates for a moment the importance of a daily bath or of hair which looks, smells and is clean.

She might bathe in the morning or at night before going to bed or just before dinner. She may prefer a shower to a tub. She may like bath oils and after-bath lotions or she may not. Her preferences in these matters are not so very important. What is important is the fact that she does take a bath every single day.

With the blunt end of an orange stick or with a little brush, she cleans her nails every day. She knows that dark polish conceals dirt under the nails, but she won't stand for any covering-up business. Her nails are clean, polish or no.

FREQUENT SHAMPOOS

So are her ears. That male society columnist who complained that women no longer wash their ears doesn'tirk her even a trifle. She knows that her ears, and the area behind them, too, are always clean. She has, or gives herself, a shampoo once a week. At least three nights, between shampoos, she brushes her hair with a clean brush and remembers to wipe the brush on a towel after every ten or fifteen strokes. Besides stimulating the scalp and being good for the hair, the brushing removes the day's accumulation of dust and grime.

Long's Latest Promise

MINDEN, La., Feb. 2 (AP)—Governor Earl K. Long, engaged in a heated campaign to succeed himself, promised to make every laborer, farmer and small business man in Louisiana a Colonel.

"It only costs three cents to print one of those certificates which make you a Colonel," he said in a campaign speech yesterday.

Order of Rainbow for Girls study club will meet at 4 o'clock in the Mauney hall.

Sunshine Home Demonstration club will meet in the home of Mrs. Jake Leggett.

Theta Kappa Gamma sorority will have a Valentine dance in the Schneider Hotel.

Shaven Mice Protect Milady's Skin As Rainbow Rodents Try Cosmetics

Whether internal or external, new beauty preparations or medicines are tried on white rats or mice to make sure the preparations are safe for human use. Food and Drug-administration chemists are photographed here from under a glass shelf administering vitamin D to rodent subjects.

WASHINGTON, Feb. 2—Six floors and a basement in one wing of the huge department of agriculture building is "home" to a small army of skilled laboratory technicians ceaselessly busy doing things like testing eyelash dye and painting shaving mice in rainbow hues.

This is the behind-the-scenes staff of the Food and Drug administration. Its job is to see that new products are safe when they go on the market, and that they stay that way.

Since June, 1938, when most of the provisions of the new pure food, drug and cosmetics law went into effect, the administration has been after the manufacturers of dangerous cosmetics.

NO COSMETIC LAW IN EARLY DAYS

When the first food and drug act was passed, in 1906, the cosmetics that of the time were sold without the law left the government powerless to do anything about cosmetics.

But by 1938 it had become tragically apparent that protection was needed. The outstanding case was that of the eyelash dye.

Some eyelash dyes had appeared containing a drug which could, and in certain cases, did cause blindness. Not every user of the dyes suffered blindness, of course.

When the dye was applied carefully, so that none touched the eyeball, there might be no bad effects. Also, the sensitivity of different persons to the drug varied greatly. Some might use the dye with impunity; some might not.

These dyes became the first objective of the Food and Drug administration under the new law. Since they have sent into effect, the administration has made 65 seizures of eyelash dyes, involving several different brands. Criminal prosecutions followed.

MOST OFFENDERS PLEAD GUILTY

One of the most common cases went to trial. The others resulted either in pleas of guilty or in pleas of nolo contendere.

Fines or suspended prison terms were imposed, the prison terms being suspended because these were the first prosecutions under a new law.

At the moment, the administration is confident that dangerous eyelash dyes have been driven out of interstate commerce. It suspects, however, that in certain cases the offending manufacturer may be beating the law by establishing state agencies, each of which would distribute the product within only one state.

The eyelash dye was not the only type of cosmetic against which the administration took action. It moved against a bleaching cream, popular with colored women, which contained an overcharging mercury compound that could and sometimes did take the skin off.

It purged markets of lipsticks containing poisonous metallic drugs. It took action against a certain remover which contained nitric and acetic acids. This preparation undeniably removed moles but unfortunately removed a good part of the adjacent skin as well.

AGENTS HUNT HARMFUL COSMETICS

Proceedings against a preparation of this kind is not a simple job. The agent must first find a specific shipment of the preparation, and must get the records by which he can prove that it actually moved in interstate commerce.

The shipment must be seized, and samples analyzed. After that, the administration must compile convincing proof that the ingredient complained of is actually dangerous to the user.

Some of the tests made are a little bizarre. There was, for instance, the time recently when one laboratory contained a large number of once-white mice carefully painted in every conceivable color from bright red and Christmas green to glaring yellow and modest violet.

The mice were painted because of a section of the law which became effective Jan. 1. This provides that any food, drug or cosmetic containing coal-tar coloring must have government certification that the coloring matter is harmless.

Valentine Party To Entertain Two Lodges Thursday

At the weekly meeting of Rebekah lodge held Thursday night in the I. O. O. F. hall with noble grand, Leona Burrows, presiding, plans were completed for the Valentine party to be given for all Rebekah and Odd-fellow lodge members next Thursday evening at 7:30 o'clock in the hall.

Team work practice began last night and two members, Mae Phillips and Pearl Castka, inside and outside guardians, were installed by Tressa Hall, district deputy.

Hattie Day and Reginal Brown were reported ill.

Attending were Leona Burrows, Mae Forsythe, Ethel Mae Clay, Ellen Kretzschmar, Helen Langley, Lois King, Etta Orleat, Vesta Palmer, Tressa Hall, Dorothy Toyler, Eva Howard, Ruby Wylie, Pearl Castka, Arlene Neighbors, Mae Phillips, Ila Gant, Pearl Stephens, Ruth Johnson, Elsie Goe, Lillye Noblitt, John T. Smith, Pearl Castka, Jess Clay, and Ned Langley.

Miss Branom Hostess At Meeting Of Young Women's Auxiliary

Ten members of the Young Women's auxiliary of First Presbyterian church met Thursday night in the home of Miss Christine Branom, 721 North Somerville street, for a program on China.

After roll call was answered with interesting slides on China, topics prepared by Mrs. Gene Fathers, Miss Dorothy Muller, and Miss Lema Lane Butcher were given to continue the study on the book, "Woman and the Way."

Year books were presented to those attending.

Present were Miss Dorothy Muller, Miss Helen Massengale, Miss Bernice Larsh, Mrs. Bob Smellege, Mrs. James McCune, Mrs. John Wells, Mrs. Roy Kay, Mrs. L. E. Wills, and Mrs. Robert Boshen.

The auxiliary will meet on February 15 with Miss Helen Massengale.

Monthly Meeting Of Council Of Clubs Conducted

At the regular meeting of the Council of Clubs Thursday morning in the city club rooms, Mrs. Hoyt Allen and Mrs. W. C. deCordova were received as representatives for the American Legion auxiliary and Mrs. J. D. White as representative for the Delta Kappa Gamma sorority.

Mrs. O. R. Humphrey will succeed Mrs. W. B. Pearce as representative of the Delphian club. Mrs. Pearce recently moved to Lubbock.

Mrs. Luther Pierson, Mrs. A. J. Cole, and Miss Johnnie Hodge were appointed to serve on the nominating committee for the officers of 1940 and 1941. Mrs. Pool urged attending delegates to have their clubs submit names of delegates to the council for next year as soon as possible.

Mrs. Pool stressed to all club members the importance of visits to the sewing room and housekeeping aid projects. Mrs. Pool told the club that the recreation project will be re-open again soon and she asked the cooperation of each club.

Attending the council meeting were Misses Fred Roberts, A. J. Cole, J. H. Dehnert, Horace Mcbee, J. G. Cayle, Frank Lard, Ed Fowler, Raymond Harrah, H. B. Lander, J. D. White, Frank Perry, Robert Boshen, Roger McConnell, C. E. High, L. McCool, Hoyt Allen, W. C. deCordova, and Glen Pool.

Pomanders, used in grandmother's time to scent linens and clothes closets, are back in style. To make one, stick cloves as close together as possible in a large thin-skinned orange. Sprinkle with 2 tablespoons of cinnamon mixed with 1/2 tablespoon of orris root. Wrap carefully for two weeks in a covered box. Shake off and the Pomander is ready for use.

Recital Will Be Given At Catholic School Sunday

Holy Souls Catholic school will present piano students of the school in a recital Sunday evening, February 4, at 8 o'clock in the auditorium.

Taking part in the musicale will be Kathryn Doyle, Norma Jeanne Manatt, Darrell Husted, Ina Louise Jensen, Isaac Huval, Etta Frances Haley, Joan Sawyer, Zita Ann Kennedy, Judith Wade Smith, Carroll Smith, Robert Sawyer, Carroll Toy Curry, Helen Ann Kiser, Martha Bissett, Patricia O'Rourke, Margery Dixon, and Mary Bellamy.

In addition to the piano solos and duets will be group singing.

The public is invited to attend.

Badges Awarded At Meeting Of Girl Scout Troop Eight

Troop eight Girl Scouts met Thursday afternoon for a session opened with the flag ceremony.

Mrs. J. A. Pravis conducted a course in home nursing for the girls after which the following members received second class badges: Doris Shackelford, Peggy Eckert, Vera Slusher, Betty Reynolds, Lois Yoder, Lucille Erwin, Helen Haggerty, and Margaret Jones.

Those receiving perfect attendance badges were Doris Shackelford, Peggy Eckert, Vera Slusher, and Margaret Jones.

Members attending the meeting were Margaret and Marjorie Wilson, Vera Slusher, Doris Shackelford, Peggy Eckert, Helen Haggerty, Lucille Erwin, Lois Yoder, Betty Reynolds, Elverna Miller, Lula Anderson, Margaret Jones, Mrs. Hupp Clark, and Mrs. Winchester. A visitor was Mrs. J. A. Pravis.

Price per single copy 5 cents. No mail orders accepted in localities served by carrier delivery.

An independent Democratic newspaper, publishing the news fairly and impartially at all times and supporting in its editorial columns the principles which it believes to be right and opposing those questions which it believes to be wrong, regardless of party politics.

Why Ape The Dictators?

The proposal, made by a high Federal official, that the President be given sweeping dictatorial powers in time of "war emergency" has met with the opposition of a large number of America's newspapers, Republican and Democratic alike.

The Portland Oregonian made a typical comment when it said: "It is an unexplainable phenomenon that there are free-born Americans in important positions who would have us prepare for war by adopting the theories of government that are responsible for the present war—theories which have not yet proved an asset in the winning of a war, but which in Russia have produced an amazing and disastrous military incompetence."

One wonders just what grounds any official has for talking about an imminent emergency. The recent polls show that the American people are as determined to keep neutral as they were when hostilities abroad began. The pronouncement of most officials, including the President, indicate a deep determination to keep out of foreign war, and to never again send an A.E.F. to other lands.

To give any executive of government the power to commandeer factories, ships, supplies, and to take those other steps which we so properly associate with dictators, not democracy, is to give hostages to the enemy. It would fasten upon our own land those ruthless shackles which so cruelly bind millions of people in lands where all liberties have been destroyed by the State. Call this socialism, communism, or what you will—irrespective of the name employed, the extension of the power of unrestrained officialdom over the individual must inevitably mean the death of democracy and freedom of our Constitutional form of government.

Perhaps the most vital quality the American people must possess today is calmness—the ability to rationally and coolly think things through. If we give way to hysteria and to the bland arguments of those who cry "emergency" whenever opposition to their plans appears, our future as a nation and as a free people will be dark. The job of all Americans is to really keep democracy alive at home.

Behind The News

WASHINGTON, Feb. 2—The story that Martin Dies was going to resign from the famous Dies committee and give the chairmanship to Joe Starnes of Alabama was a "plant," according to members of the committee, started by someone who wanted to slip the skids under the turbulent Texan.

As a matter of fact, Dies will be back here in a few days ready to take the helm again.

As another matter of fact, even if the change did take place it would not make much difference. Starnes has been Dies' right-hand man on the committee, sees pretty much eye-to-eye with him, and ran things last fall during Dies' absence. A Starnes committee would go in the same direction as a Dies committee and would get there in much the same style.

HERE'S CONGRESSMAN WHO ADMITS MISTAKES

Starnes himself is a slim, friendly chap of 40-odd who believes devoutly in the value of the committee's work but is quite willing to admit the committee has made mistakes.

"We're not the smartest guys in Congress, or a bunch of supermen," he says. "I do say, though, that we made fewer mistakes last year than the year before."

He lacks the bull-in-a-china-shop brusqueness of Dies but has a good share of combativeness. (He served in the AEF.)

Fritz Kuhn barked back at him, while testifying, and Starnes offered to erase the Bund leader then and there with bare hands. That tickled his constituents; a number of them tried to send him brass knuckles in token of their appreciation, but couldn't get 'em through the mails. One mountaineer carved a set out of hardwood and sent it in; Starnes uses it as a paperweight in his office.

Among other things, Starnes serves as a sort of liaison man between Dies and Jerry Voorhis, the committee's lonely left-winger. Dies finds it hard to pally with a man he disagrees with; Starnes doesn't and is friendly with Voorhis despite frequent clashes.

AMBASSADOR TO BERLIN REPORTED PLANNED

There may have been extra significance behind the speed with which Majority Leader Sam Rayburn took the House floor to combat Hamilton Fish's assertion that the nation ought not to have an ambassador in Berlin. The report is that FDR will presently appoint a new ambassador to Germany, and that he wants one there in order to lay the groundwork for a peace move.

EVEN HAWAII GETS SHIVERS

Delegate Sam King of Hawaii looked out a capitol window at the nine-inch snowfall that had Washington all muscle-bound.

"The people back in my district are kicking about the cold, too," he said. "They say it's quite unprecedented. The temperature's down to 65."

SPRING FLOODS NOT INEVITABLE

The unusually heavy snowfall now blanketing most of the country does not necessarily mean heavy floods next spring.

Weather Bureau experts point out that floods are caused, not by the amount of snow on the ground, but by what happens when it melts. A "normal" spring will turn the snow to water at a rate the ground can absorb. Only if there are very heavy rains when the thaw starts, or if the ground is ice-encrusted to soak it up, is the run-off likely to cause a flood.

A hard winter does carry one other flood-threat. If river ice is unusually thick, it is likely to form heavy cakes that will jam, hold the water back, and cause local floods when it goes out in the spring.

Sharing The Comforts Of Life

By R. C. Hoiles

THE FAILURE OF THE CHURCH

The Christian Century reproduced Fortune's article on, "The Failure of the Church." They comment on it, contending that the failure of the church is not due to the inertia, either physical or spiritual, to the leaders of the church. The Century says:

"It could easily be shown that the Christian forces are more active today than ever before. Certainly a more anxiously active clergy the church never before possessed. It would be God's blessing to the church if its leading laymen could hear and understand in its meetings of ministers and hear them talk and pray in the intimacy of their professional fellowship. These men are wrestling inwardly with responsibility which they carry."

If the editors of the Christian Century really knew how hard it is to get most preachers to answer questions about the teachings of Jesus or read any of the great thinkers of the ages, who attempted to put into practice Jesus' teachings, the editors might have a little different conception of whether there is inertia among the preachers. Evidently, the Christian Century editors believe, as most preachers seem to believe, that there is some easy, magical or mystical way by which preachers, without disciplining their minds and their wills by study, by work, by reading, by thinking, by questioning, by living a consistent, rational life they can understand the Kingdom of Heaven. In short, they seem not to understand that the Kingdom of Heaven is within and is not found by any mysticism but, as Shakespeare put it:

"To thine own self be true. And it must follow as the night the day, Thou canst not then be false to any man."

The leaders of the church do not seem to understand the naturalness and immutability of the laws of the Divine Architect. They seem to want to substitute their mutable will for God's laws.

If the Christian Century editors really knew how smug and satisfied with themselves and their wisdom and their virtue many of the preachers really are, then they might have a different conception as to the causes of the failure of the church.

At any rate, the article and the editorial in the Christian Century are interesting because they focus attention on something that needs very careful analysis and a frank and fearless examination. There is a very definite cause for the failure of the church.

It certainly would be interesting to hear how the Christian Century and/or the preachers would explain why such men as Thomas Jefferson, Benjamin Franklin, Abraham Lincoln, Walt Whitman, Ralph Waldo Emerson, Luther Burbank and men of this type, who lived very much in harmony with the teachings of Jesus and did much for humanity, did not seem to feel that the church really interpreted the teachings of Jesus with enough reality to cause them to join the church.

And when so many men of this type do not associate themselves with the church, it is mighty strong evidence that the preachers in the church are not preaching or practicing the teachings of Jesus. Probably this is the reason the church has not accomplished more.

DANGER OF GOVERNMENT

"It is the government's national mission was to protect liberty and property; and here you have it violating liberty and property. All just notions and principles are, thus, effaced from man's mind. The moment you admit that Oppression and Spoilation are legitimate, provided they are legal—provided they interfere only by means of the law or public force, you find by degrees each class of citizens demanding that the interests of every other class shall be sacrificed to it."

This is what Frederic Bastiat pointed out in the latter part of 1848 when there was a revolution in February of that year.

The above is exactly what the people of the United States are doing now—each group is demanding that the interests of every other class shall be sacrificed. It all comes from the belief that the government has some magical way of doing things for people without taking the comforts of life from others. History seems to constantly repeat.

The Nation's Press

COAL TRUCKMEN'S STRIKE

The delivery of coal varies closely upon a public utility, particularly in winter weather. Therefore a dispute which calls out some hundreds of drivers of coal trucks in this city and is accompanied according to union leaders, by "lockouts" involving others, must be closely watched.

The strike involves no question of jurisdiction, no inter-union differences. It appears to be a straight wage dispute. The truckmen ask an increase to \$1.20 an hour from the present wage of \$1 an hour. This would give them the same pay for a forty-hour week that they now earn for a forty-eight-hour week. They say it should raise the cost of coal no more than three cents a ton, an amount which could be absorbed readily in the 50-cent increase already announced this season. The operating companies, insist, that all the demands, including a co-pilot at \$1 an hour on each truck, would increase labor costs by 140 per cent, a condition manifestly impossible for them to meet.

MUSSOLINI'S EYES ON AFRICA

To Italy Peace Means Mainly Settlement of Tunisian Problem

(H. V. Kaltenborn in Scribner's Commentator)

The secret clause of the 1915 treaty which brought Italy into the World War on the side of the Allies, promised her compensation in Africa. If France and Britain acquired any German territory there.

A look at the map shows what happened. All Italy received was an extension of the arid sections of Libya. "Do you think I am a collector of deserts?" Mussolini asked, shortly before invading Ethiopia, he took the trouble to explain to his repeated efforts to come to an understanding with the emperor of Ethiopia. Twice he nearly succeeded, only to be blocked by French and British diplomatic intervention.

Mussolini is too intelligent a realist to help Hitler. He has his war, but he will never cooperate in consolidating peace until there has been a settlement of outstanding problems in Tunisia, French Somaliland (which includes Djibouti, ocean terminal of Ethiopia's only railroad), and the Suez canal.

HIDE AND SEEK

By R. C. Hoiles

People You Know

By Archer Fullingim

The mystery of the Autograph Scandal, perpetrated on the back of my basketball score book when the Harvesters played the Eagles at Canyon is still unsolved (unless of course a boy whose initials spell "ace" or another they call "golch-eye," want to confess). Well, just to pass away the time, I asked the Harvesters to autograph the book, and following the signature of Clevis Mitchell, forward, nephew of Coach Mitchell, reserve forward, and brother of Harold Lee Mitchell, team manager, one of the boys penned this slanderous libel: "Third String suction."

Well, everyone knows that the worst 1940 insult one high school student can hurl at another is to call him "suction." Well coming back from Canyon on the bus we had a trial to determine the guilty penman. Thomas Dewey, lovingly called "Big Ears" by A. C. Enloe was my lawyer, and he immediately accused Billy Anderson, business manager, who accused Junior Frasier, who accused Billy Mounis who sided in with Mr. Anderson. Pete Dunaway was judge and sitting on the "bench" with him was Ed Terrell who talked more to the judge. Coach Mitchell quailed as a hand-writing expert and accused Thomas, and was seconded by A. C. and Earl. My witnesses were Tom Cox and Belton Bearden, and they know who "dunnit" but they ain't gonna tell (they'd better not tell). The trial lasted for 30 minutes and then the boys got side-tracked and devoted themselves exclusively to the task of laughing at Tomas Dewey who who pitches the team into his-seys of laughter every time he opens his mouth. They all depend on him for laughs, and it's not exactly what he says but the way he says it and the way he looks that's funny. Maybe it's his eyes. He's always got a quick anger. So congratulations Coach Mitchell on having the best-natured, most democratic team you have ever coached.

They have more fun than any bunch of boys I ever saw. They have the best sense of humor; they can laugh at something besides dirty stories, and they get along like a gang of woo-pitching sophomores. They are a great gang.

COOK DECIDES TO TAKE UP OPTION

From Marjorie Gatsion by way of Irving Hoffman comes the story of a cook who went Hollywood. The servant entered the room where the actress was breakfasting for her, she peeped and said seriously: "Miss Gatsion, I'm taking up my option on you. I'll stay another six months."

Along with a yarn sent in by a Paramount agent to his superior went this memo: "Although this is a good story, it is also the truth."

Mexican Tourist Trade Expected To Increase

MEXICO CITY, Feb. 2 (AP)—An increase in tourist trade from the United States is expected by the Mexican Tourist Association as a result of President Roosevelt's proclamation declaring 1940 "Pan American Tourist Year."

In a statement today the Association said Mexico will obtain great benefits from Americans visiting the country during the present year.

News Clearing House

Feb. 1, 1940

Editor: I have just read Ivy Duncan's letter about municipal ownership of light plants in which he tries to prove that municipal ownership makes small towns grow into big cities.

If he is right in all this, why is it that Canadian and Tulsa have not become large cities? Also Clayton and Raton, New Mexico.

Then, too, how did Dallas, Fort Worth, Houston, Oklahoma City, Denver, and all the other large cities in the Southwest become big thriving cities without the keep of municipal ownership?

Mr. Duncan speaks of the growth of Lubbock. Everyone who knows anything about Lubbock knows that its growth in recent years is mainly due to the new oil fields brought in near there. Texas Tech college has also contributed to Lubbock's growth. While true on the subject, our own Pampa is now about 12 or 15 times as large as it was 15 years ago. Everyone knows the reason for this growth and that municipal ownership did not have anything to do with it. In fact Pampa grew in spite of municipal ownership of the water system, which has given us about the highest water rates in Texas for towns of this size.

I have talked with hundreds of people about municipal ownership of the Power and Light plant and find that nearly all of them are opposed to it. Municipal ownership does not appeal to the people of Pampa who have to work for a living.

In closing I want to say that I am for the Texas Tax League. "Less taxes, more jobs" from investment of private capital.

Yours truly,
(Signed) M. C. Hill,
Owner of Mitchell's Grocery and Market

The Family Doctor

Dr. Morris Fishbein

Among the thousands of drugs, serums, antitoxins, vaccines, vitamins and other preparations used in the prevention and treatment of disease, there are some which are so certain in their action, so positive in their effects, so valuable in their results, as to deserve the name of Magic Medical Bullets.

The term seems to have been coined first at the time Paul Ehrlich, distinguished German-Jewish investigator, discovered "606," later called salvarsan and arsphenamine. When the first discovered this drug, it was characterized by a Latin phrase, "therapia sterilis magna"—the great sterilizing treatment—because it was believed that the injection of this drug into the blood would cause all germs to disappear from the body.

It did not take long for scientists to discover that such a claim was unwarranted. But the value of the treatment was unquestioned, and today salvarsan or arsphenamine is recognized to be one of medicine's most important Magic Medical Bullets.

From time to time, I have been asked to select to medical preparations which might be considered the outstanding discoveries in the treatment of disease. The choice is an extremely difficult one, because of the vast number of preparations that are available, and because one is limited to treatment rather than to prevention. There were great medical discoveries both for prevention and treatment before Ehrlich's famous announcement.

Perhaps, first on the list, chronologically, at least, would be the treatment of malaria with quinine; (2) use of digitalis in the treatment of heart disease; (3) ether and chloroform as anesthetics; (4) diptheria antitoxin; (5) insulin for diabetes; (6) liver extract for pernicious anemia; (7) blood transfusion; (8) vitamin D for rickets; (9) nicotinic acid for pellagra; (10) sulfanilamide and sulfapyridine.

Yesteryear In The News

Ten Years Ago Today
A regular weekly practice of the Pampa Choral club was to be held in the music cottage on Central High school campus.

Four cars were damaged and three men were jailed when a car careened into a row of cars parked on the street.

Five Years Ago Today
Pampa's \$10,000 federal grants in the \$4,000,000 Federal PWA program, was placed before U. S. authorities at Ft. Worth by City Manager C. L. Stone.

New and renewed projects directed by the local relief office were approved to assure steady activities during the coming months, Mrs. W. H. Davis, administrator, said.

A BID FOR A SMILE

Missionary—Now in Africa there are miles and miles without a single school. Why ought we to save our pennies?
Billy—To pay our fare to Africa.—Capper's Weekly.

RETOUR COURTESIE

It was during a big sale and tempers were getting frayed.
"If I were trying to match you, I'd have a big job to find it," said a lady customer, glaring at the assistant.
"Really, madam," replied the girl. "Let me see your sample, please."—Exchange.

So They Say

OUR going to war would be more likely to destroy American democracy than to destroy German dictatorship.
—SENATOR ROBERT A. TAFT (Rep., Ohio).

"WOMEN will carry on" is the present motto in France.
—Mlle. EVE CURIE, director, Women's War Work for the French government.

THERE'S only one technique in handling actors, whether they be 4 or 40—humor them.
—DIRECTOR FRANK R. STRAYER of Hollywood.

IF we had prayed for everything that you could think of, there is nothing we could ask for that we haven't got in terms of resources. We have all that is needed to build a decent, secure standard of life.
—PHILIP P. LAPOLLETTE, ex-governor of Wisconsin.

OUR battle is 50 against one.
—FIELD MARSHAL BARON GUSTO MANNERHEIM of Finland.

HIS MASTER'S VOICE

Secretary Edison's bid for totalitarian power has gone in the wastebasket for the time being. Even New Dealers sensed that it was too raw. Senator Minton, whose earliest and perhaps chief claim to fame is "you can't eat the Constitution," could see Hoosier citizens gag over it in a week, when he has to ask for their votes. So the Senator rushed to rescue the Constitution from a secretary who can't eat it but would destroy it. And Senator Borah, whose steady resistance to arbitrary power will leave a bright page in the record of these troubled times, too Mr. Edison's proposal to shreds.

But was it Mr. Edison's proposal? Is he just an amateur-bungler, a constitutional illiterate? It is possible. Many things are possible today. It is possible that Mr. Edison ever laid eyes on his secretary, the Hitler of the Potomac. But is it probable? Here he was. His name had just been sent to the Senate to be Secretary of the Navy. It was awaiting confirmation. At that critical moment in his career, as his very first official act as secretary-designate, he asks Congress to give the President no less power over American industry than Hitler today exercises in Germany. Would he have done this on his own?

Mr. Edison spent four years at the Massachusetts Institute of Technology. From this deduce that he can read and write. So it is difficult to believe that he did not know what he was asking. Nor that several of his subordinates did not also know what was in his letter to Speaker Bingham. So far, so good.

The next question whether he kept his stupendous program deep secret from the gentleman in the White House who has just nominated him to be a member of his cabinet. Well, there are only two alternatives on that. President Roosevelt either knew about it or he didn't know about it. If he didn't know about it, it would seem that he would waste no time in withdrawing the nomination of a man who had proven himself to be at least a dunce, if not, in fact, a beetle-headed ninny-hammer. If the President did know about it, then the country ought to know that he knew. If Mr. Edison was repeating his master's voice then that fact becomes pertinent to the third term disease which afflicts the nation today.

I now turn Mr. Edison over to Senator Borah. The Secretary's proposal he said, "if enacted, would confer power, not seek to confer power in time of peace; factories, ships, and other materials, to cancel or modify contracts and agreements, and to interfere with the personal rights of the citizen and his personal liberty—all this to be done in time of peace before a declaration of war upon the part of this Government. . . ."

"If we can do what is provided in this bill because of an emergency, unless that emergency is one which brings the Congress within the powers of the Government, then we could also provide, in case of an emergency, for the suspension of the Bill of Rights. We could prohibit free speech, free press, and the right of trial by jury. . . . It tends to show how far we have traveled, or are traveling, in the exercise of purely arbitrary powers. . . ."

"Such legislation as now proposed and the seizure of every opportunity to discredit democracy and democratic processes, hastening at all times to advertise the inefficiency and the necessity of arbitrary powers, are discrediting democratic principles. Under the cry of emergency we strike down the rights of the citizens and thus advertise to the world again and again that democracy cannot cope with modern exigencies as against the competition of centralized power. With marvelous magnificence the little democracy of Finland has demonstrated to the world the falsity of this cowardly lie. . . ."

"Measures introduced and upon which are themselves impeachments of the whole scheme of democracy do infinitely more harm than a thousand Communists chattering on the street corners. . . . So long as the Bill of Rights stands and is preserved in its integrity, so long as we live up to its terms and conditions, there can be no denial of free speech, no religious persecution, no arbitrary government, no concentration camps, no breaking into homes, no unlawful arrests, no denial of personal liberty. When so-called emergency legislation strikes at this sacred document in any particular it should be stricken down without hesitation. . . . If human liberty is sacred, this document is sacred. . . . And here endeth an essay of love of power "and appetite, an universal wolf" whose "will still wills it show none spare that come within his power."

Gable And His Wife Caught In Storm

HOLLYWOOD, Feb. 2 (AP)—Clark Gable and his actress wife, Carole Lombard, apparently got caught in a storm in Baja California and spent the night in their station wagon, but none of their friends here worried about their safety.

"Those Mexican roads south of Ensenada can get awfully muddy in no time at all, with the heavy rains we've been having," said Dean Dorn, M-G-M studio publicity man, "and it's likely their car got stuck."

Mr. and Mrs. Gable, who left here Jan. 26 for a three-week vacation at the Hatlie Hamilton Rancho (15 miles south of Ensenada), were believed to have set out by motor yesterday to drive to a girl club near Ensenada to meet friends.

Meanwhile Eddie Albert, stage and screen leading man who has been missing since he failed to return from a Mexican cruise several weeks ago, was reported safe at Ensenada.

STORIES IN STAMPS

UNITED STATES honored the 100th anniversary of the birth of Abraham Lincoln with the issue of a single U. S. 2-cent stamp, above released for sale on Feb. 12, 1940. The head of Augustus Saint-Gaudens' statue of Lincoln in the Lincoln Memorial at Chicago was used for the design. The dates of Lincoln's birth and the anniversary, "1809—Feb. 12—1909," are inscribed on a ribbon beneath the profile.

Japan has honored the national Red Cross Society with an issue of two designs and four values. The 4-cent and 20-cent show Taira-no-Sane, philanthropist, who sponsored the Red Cross movement in Japan in 1877; the 2-cent and 10-cent depict a decorative symbolism of the society. The Japanese Red Cross operates 26 hospitals and 15 infirmaries.

Japan is the sixth government to issue stamps in honor of the 75th anniversary of the Conference of Geneva, when 12 nations signed the International Red Cross treaty. Today 87 countries are included in the agreement.

'Pelley' Letters Accusing Dies Still On Record

WASHINGTON, Feb. 2 (AP)—Instead of settling the Dies committee controversy over the "Pelley" letters—called forgeries in secret testimony—a turbulent house debate left unanswered today the question of whether they should be stricken from the congressional record.

Daughter Elected Rotary Secretary

Walter Daugherty, manager of the Pampa Credit association, was elected secretary-treasurer of the Pampa Rotary club, at a board of directors meeting following the regular weekly luncheon of the club at noon Wednesday at the First Methodist church.

Pampa Must Win Tonight To Stay In Race

Tall Lubbock Quintet Will Invade City

By beating Lubbock's West-erner basketball team tonight, Coach Odu Mitchell's Harvesters can reasonably figure on a tie in the Big Five championship race, but if the Pampans lose they can virtually count themselves out of the race.

The Harvesters have lost one game in the Big Five—to Lubbock by three points last week. They firmly believe that they can and will win tonight, despite the fact that Lubbock's players are the tallest, the Pampans have faced this year, and are the same boys who won the district 3 championship at Lubbock last February. They got practically all the rebounds in their first game with the Pampans.

The referee tonight will be Coach Vannoy of Plemmons who has officiated in the regional tournament at Canyon for the last several years. Vannoy can be as strict as Joe Ley, Pampa's favorite referee, when he wants to be and it is not likely that he will let Lubbock get by with all the rough stuff they pulled against the Harvesters in Lubbock last week.

The first game will start at 7 o'clock with the Harvesters "tame" pants out to take the measure of the Cowhounds, Lubbock second team, again. The Pampa reserves beat the Cowhounds by two points in a close game at Lubbock and another thrilling affair is promised for tonight.

The second game will start at 8 o'clock. In the Lubbock lineup will be such 1939 gridiron greats as Stearns, Tyson, Jackson, Cawthon, all of whom played on the state championship football team.

Fans tonight will be able to determine whether Lubbock is as good as they claim to be. Last week before they had played a single game they boasted that they would win the state championship—a large order. Since then they have beat Amarillo by 10 points and are undefeated. Of course, Lubbock stands a chance to lose at Amarillo Saturday night and to lose their game at Plainview, and if they do the Harvesters would win the title if they take the game tonight, but if they lose tonight and Lubbock loses the next two games (which isn't likely), the Harvesters could tie for the title.

Quail Quint Quits Game In A Huff
Special To The News
McLEAN, Feb. 2.—McLean was leading 17 to 6, with four minutes of the second half gone, when the Quail coach, after some suggestion had arisen over a foul, forfeited the game, and took his boys home.

McLean's girls eked out a 16-15 victory over the Quail sextette in the other game of the evening, which was completed.

Doolen, McLean forward, was high scorer for the boys with five to his credit. Leading the girls' scoring in the other game of the evening was Opal Tedder, Tigerette forward, with seven points.

Bonnie Bell Bailey of McLean, and Grigsby, of Quail, were second high scorers of the girls with six points each to their credit.

An exhibition tilt between the McLean and Quail second teams opened the festivities with the hosts coming out on the long end of a 14 to 7 score. John Kelly Lee, McLean forward, led the attack for the second stringers.

Sophs And Reapers Play Again Today
The Pampa Sophomores and the Pampa Reapers, basketball teams entered in the Panhandle Junior High basketball league, will meet for the second time this week at 4:15 o'clock this afternoon in the high school gymnasium.

On Tuesday afternoon the Sophomores beat the Reapers from Junior High. The schedule calls for another game this afternoon to open the second round of play. Coaches Oscar Hinger of the Sophomores and C. P. McWright of the Reapers at first thought of changing the date but later decided to play the game as scheduled.

The Sophomores are leading the league and stand a good chance of coming out on top of the heap at the close of the season. Central of Amarillo is also rated high.

LeFors Boxers Planning Sweet Revenge Tonight

Harvester Boxers To Fight Tough Pirates Next Friday

The Pampa high school boxing team will get its first baptism under fire one week from tonight when the class LeFors Pirate mitt-artist comes to Pampa. At least 10 bouts will be presented in the high school auditorium beginning at 7:30 o'clock.

Coach Oscar Hinger of the local amateurs is working his boys at top speed to get them ready. He has selected the most promising boys out of nearly 100 who reported for boxing early in the season but so far he has not named a full starting team.

New boxing equipment including beautiful green and gold robes and green and gold trunk have arrived and will be worn by the boys. A new mat has been ordered but it hasn't arrived.

Coach Hinger is badly in need of a 65-pound youngster and also a 155-pounder and a 165-pounder. A heavyweight is also being sought.

Tobey Waggoner, coach of the LeFors Pirates, has a classy team that has won two out of three tournaments already. His team will meet Stinnett tonight for the second time.

Boys having the inside track for starting berths on the Pampa team are:

- 75 pounds—Harold Mitchell and Johnny Campbell.
- 85 pounds—Murry McPherson and Charles Brethauer.
- 95 pounds—Curly Cambern and Billy Gurke.
- 105 pounds—Everett Sparks.
- 115 pounds—Richard Stephens.
- 125 pounds—Douglas Loveless and L. V. McDonald.
- 135 pounds—Roy Ray.
- 145 pounds—Lery Pendleton.
- 175 pounds—Junior Chessner.

Phillips Cagers Trounce Borgans

BORGER, Feb. 2—Hearts beat Phillips today at Phillips.

No one does a school and its patrons see all three of its basketball teams win in the same evening and against an opponent accustomed to running off with the honors.

Phillips cagers scored a clean sweep of their set of games at the Phillips gym last night. The "B" team of Coach "Cherry" Walker set the scenery for the fireworks later with an 18-12 victory over Coach Selmer Johnson's "B" stringers in a 6 p. m. game.

Big Train Seeks Seat in Congress

Walter Johnson feeds chickens on his farm near Germantown while announcing candidacy for Republican nomination from Maryland's Sixth district for a seat in Congress. The immortal pitcher was elected a commissioner of Montgomery county.

Cole, classy forward, paced the LeFors scoring attack with five brilliant field goals and a free shot for 11 points. Harrook, guard, with three field goals, did the rest of the scoring for LeFors.

Extra! Coach Turns Away All-State Backfield Man

LUBBOCK, Feb. 2 (AP)—Can you picture a college football coach discouraging an all-state prep school quarterback from joining his squad? It's hard to believe, but it happened down this way a few days ago.

Pete Cawthon, Sr., of Texas Tech was the coach. Pete Cawthon, Jr., was the interscholastic star.

Several of the country's older gridiron mentors have faced the problem of whether their sons should play football under them or under some other tutor.

Tuss McLaughry of Brown permitted his son to play on his club and John was one of the east's best backs last fall. But Ray Morrison wouldn't allow his son, Jack, to enroll at Southern Methodist while Ray was coaching there. Jack went to Vanderbilt and a year later when Morrison became coach at

Class A Grid District Has Rules Session

Special To The News
WHITE DEER, Feb. 2—Actions and recommendations of the executive committee of district 2-A, Interscholastic League football, which met in White Deer last week, were announced Wednesday by George A. Heath, chairman.

Mr. Heath was named chairman and B. E. McCollum secretary of the committee for the fifth consecutive year. Other members are A. Burgess, superintendent, Perryton; and J. M. Carpenter, superintendent, Canadian.

The committee voted that all schools in the district should make the same financial arrangements for their football games. Tickets will be the same price in all towns.

Until Thursday noon preceding each game, they will be 35 cents; from Thursday, noon until game time, they will be 50 cents. Money will not be refunded on tickets and tickets will not be transferable.

The committee recommended that the district make an effort to have play in the regional meet completed by Nov. 25. This will be impossible unless other districts are willing to play at earlier dates than in previous years. It was recommended also that teams in class A in the Panhandle be allowed to start practice before Sept. 1.

In making these recommendations, Mr. Heath stated that it was the opinion of most of the superintendents present that the interscholastic league rules did not seem to work to the best advantage of the students.

Present at the meeting were R. A. Burgess and Otis Burke, Perryton; R. E. Vaughn and Chester Walker, Phillips; Jack Adams, Pampa; W. R. Finley and Coach Washington, Spearman; and George Heath and B. E. McCollum, White Deer.

Reapers Down Letors Junior High 38-17

Coach C. P. McWright's Junior High Reapers ran over the Letors Junior High team yesterday afternoon in LeFors 38 to 17 with Proper leading the scoring parade with 11 points.

Twelve Reapers saw service during the game with Arthur following Proper in scoring, with nine points, Thompson and Tibbets next with eight points.

Cole, classy forward, paced the LeFors scoring attack with five brilliant field goals and a free shot for 11 points. Harrook, guard, with three field goals, did the rest of the scoring for LeFors.

REAPERS
Arthur, f . . . 4 1 2 9
Tibbets, f . . . 4 0 1 8
Thompson, c . . . 3 2 0 8

TOTALS . . . 7 3 6 17

Mule Haas Named White Sox Coach

CHICAGO, Feb. 2 (AP)—George (Mule) Haas' primary duty as a newly-appointed Chicago White Sox coach will be to coach at third base—but that isn't all.

Haas, reputedly one of baseball's sharpest wits and jokesters, will be out there to aid Manager Jimmy Popham, who puts the finger on the umpires.

"I want Haas around," Dykes said in a brief stopover here, "to take some of the heat off of me. Every time an umpire hears something is wrong, he puts the finger on me. Now maybe I'll escape once or twice while Haas takes the blame."

Dykes was ejected by umpires six times last season.

He headed westward today to begin preparing for spring training activities at Pasadena, Calif., Feb. 28. Dykes has a surprise for the umpires, too.

"In addition to holding a firm resolution to be shown out of net more than four games next season," Dykes said, "I'm now in possession of a very valuable document. Whenever an umpire comes charging up to me I'll just throw up one hand, wiggle his fingers, and say, 'That's a fair call, mister.'"

The card attests that James J. Dykes is an honorary member in good standing of the Professional Umpires association of Southern California.

Class A Grid District Has Rules Session

Special To The News
WHITE DEER, Feb. 2—Actions and recommendations of the executive committee of district 2-A, Interscholastic League football, which met in White Deer last week, were announced Wednesday by George A. Heath, chairman.

Mr. Heath was named chairman and B. E. McCollum secretary of the committee for the fifth consecutive year. Other members are A. Burgess, superintendent, Perryton; and J. M. Carpenter, superintendent, Canadian.

The committee voted that all schools in the district should make the same financial arrangements for their football games. Tickets will be the same price in all towns.

Until Thursday noon preceding each game, they will be 35 cents; from Thursday, noon until game time, they will be 50 cents. Money will not be refunded on tickets and tickets will not be transferable.

The committee recommended that the district make an effort to have play in the regional meet completed by Nov. 25. This will be impossible unless other districts are willing to play at earlier dates than in previous years. It was recommended also that teams in class A in the Panhandle be allowed to start practice before Sept. 1.

In making these recommendations, Mr. Heath stated that it was the opinion of most of the superintendents present that the interscholastic league rules did not seem to work to the best advantage of the students.

Present at the meeting were R. A. Burgess and Otis Burke, Perryton; R. E. Vaughn and Chester Walker, Phillips; Jack Adams, Pampa; W. R. Finley and Coach Washington, Spearman; and George Heath and B. E. McCollum, White Deer.

MacPhail Voices Blast At Landis

BOSTON, Feb. 2 (AP)—The present farm situation in baseball, in the opinion of President Larry MacPhail of the Brooklyn Dodgers, is one of seemingly hopeless confusion.

"And if something isn't done about it in a hurry," he said in a blast at Kensaw Mountain Landis, the game's high commissioner, during a speech at the Boston Evening Ball Writers' dinner last night, "the minor mts may be injured and years required to repair the damage."

MacPhail declared he had received telegrams from the president of 15 farm states that indicate that there is grave doubt whether they can operate unless the commissioner's recent bulletin is modified.

In a nutshell, it is the commissioner's plan to abolish all farm systems, working agreements and options, set up a universal draft and prevent all clubs from acquiring players beyond their immediate needs, thereby making the supply as easily available to the Browns as to the Yankees," the Dodger chief said.

"From the very beginning," he added, Landis has regarded baseball's farm system as evil.

"In the matter of Judge Landis vs. the farm system, he sits as prosecutor, judge and jury, and there is no appeal. Either he is deposed or justice or he is engaging in a 'witch hunt' in which the innocent will burn along with the guilty."

Seabiscuit Beats Kayak In Practice
LOS ANGELES, Feb. 2 (AP)—Working a mile in a driving rain, the once mighty Seabiscuit soundly defeated the currently famous Seabiscuit, Kayak II, in a training dual in preparation for the \$100,000 Santa Anita handicap.

This happened yesterday. Today, Owner Charles S. Howard was all smiles. While Howard owns them both, the "Biscuit" is his sentimental favorite, and his cup of joy would be filled if the horse staged a comeback after a year's layoff and won the Gallop 'n' Trot.

A Seabiscuit victory would establish the horse as the greatest winner of all time on the American turf. The "Biscuit" stepped the Santa Anita oval, ankle deep in slush, in 1:42 and in so doing he went around the "dogs"—wooden sawhorses placed along the rail top protect the strip for the regular races.

The record for the mile at Santa Anita is held at 1:35 by the horse Today. Today set it in beating Seabiscuit, February 14, 1939. That was the day Seabiscuit broke down. He has not been in a race since.

Yesterday's performance doesn't establish the "Biscuit" as a 1-2-3 horse, for the big handicap, but it indicates he's surely on the road back. Kayak continues as the heavy winter book favorite to repeat the victory he won last March.

Memphis Noses Out McLean Tigers 30-29
Special To The News
McLEAN, Feb. 2.—Forging ahead in the last few minutes of play, Memphis defeated the McLean Tigers 30 to 29 at Memphis Wednesday night.

McLean, however, carried off individual scoring honors as Clint Doolen, Tiger forward, made 15 points.

Friday night both the McLean boys and girls teams journey to Samnorwood for games. In a prior meeting, McLean won the series here as McLean.

WT-NM Baseball League A Boon To Youngsters

Phelps Never Played, But Gets Medal For Grid, Cage Coaching

George W. Phelps never played football, basketball, but gets gold medal for noteworthy coaching.

Robert C. Zupke of Illinois, one of the more celebrated coaches, was too light to play varsity football for Wisconsin.

Andrew Kerr of Colgate scrimmaged with Dickinson college squads but failed to make one for the same reason.

Frank J. Murray, who switched from Marquette to Virginia, never played a game of football.

Neither did Arthur Sampson, who coached Tufts and assisted Lou Little at Columbia.

They simply became interested in the game . . . learned it might well from the outside.

Successful football coaches who were not active combatants are rare, however.

So when a chap who never played football turns out lightweight high school football teams which are unbeaten in three campaigns while winning games and tying one, and without ever having played on a basketball team produces combinations that capture 104 engagements while dropping only one and tying another, he certainly rates a story.

NOTEWORTHY COACHING OVER 10-YEAR STRETCH
Then, when on top of all that, he drills a baseball team which bags 47 consecutive victories, he deserves a medal, which is precisely what he has awarded. George W. Phelps, lightweight football and varsity basketball coach of Colton (Calif.) Union High school.

Phelps was presented with a gold medal by the Helms Athletic Foundation at Los Angeles when his gridiron gladiators swept to a Southern California record.

The presentation was based on noteworthy coaching throughout a 10-year period. A year ago Foundation awards went to the outstanding junior college and high school football coaches of Southern California.

Coaching basketball over the same 10-year stretch, George Phelps' team copped 17 out of a possible 24 championships. As student coach of El Monte Union high in Class D basketball, his clubs walked off with a half dozen San Gabriel Valley league and four Southern California titles.

That group established a state record by winning 69 straight battles.

PHELPS ALSO TEACHES TENNIS WITH SUCCESS
It was while he was at El Monte that his outfits won 104 times while losing and being tied only once. At the same time he tutored two junior varsity baseball teams which placed second in the San Gabriel Valley league. This was before he was graduated from high school and while he was in college.

In the good-looking Phelps' first year at Colton, his teams won the Class A basketball leadership, the Class B boys' tennis title and the junior varsity baseball championship. In his second year, they captured the Class B football and junior baseball titles and finished third in Class A basketball.

In Phelps' third year at Colton, his team won the Class B football championship and placed second in Class A basketball and junior baseball, the latter after only a half game out of the lead.

Phelps' boys started off with a bang in the current school year by capturing the Class B football flag.

In the three years Phelps coached the Class B boys' tennis title and the 18th district championship and was runner-up for the Southern California title.

A church night baseball team guided by Phelps holds a state record with the aforementioned 47 consecutive victories.

Lack of playing experience has been no handicap to George W. Phelps.

Moe Berg Will Be Missing From Reds

BOSTON, Feb. 2 (AP)—The linguist Moe Berg, who has mastered all the finer arts except hitting, will be missing from the baseball box scores this coming season for the first time in 17 years.

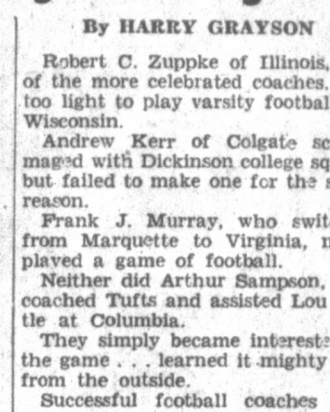

That most erudite of baseball players has been stricken from the Red Sox' active list and appears destined to end his long major league career as a bull pen catcher. He has served as the Boston club's third-string backstop since 1933 but that berth probably will be assigned to George Lacy, up from Minneapolis.

A capable fielding catcher, Berg never was a consistent hitter.

During the past two seasons, he appeared in only 26 games, but Manager Joe Cronin rates him as invaluable.

Japan Faces Catastrophe In Oil Crisis

By DEWITT MACKENZIE: Joseph's coat of many colors didn't exceed in diversity the possible developments of moment in the far east.

Should that blow fall, the wise men of Tokyo would be called upon to provide a solution.

That is to say, they must be able to locate sources or other to pull from the hat alternative markets.

No wonder the solons of Nippon are worried as the matter of the embargo is discussed in Washington.

Combat Absurd: It is no exaggeration to say that the orient might see strange and jarring history grow out of the present situation.

Before going further into this discussion it will be well to say there is no indication that even if an embargo is imposed Japan is going to let the matter rest.

That would be absurd. The American-Japanese quarrel, by the way, revolves basically about Japan's policy of seizing politico-economic control of eastern China.

Powerful interests in Japan have gone further and insisted that this domination be to the exclusion of western powers.

Americans Endangered: In any event, development of Japan's policy involving the conquest of China has resulted in many grave incidents.

Not if Japan is cut off from our products by an embargo, she either (1) will grant all our demands.

I believe we can take it for granted that, while Japan might be willing to make concessions.

That presumably leaves the alternative of finding somewhere else the vital supplies.

Another possibility might be an agreement with Russia under which Japan and the Soviet union would divide China between them.

One can figure out other combinations but the essential point is that Japan undoubtedly will test every possible avenue of escape.

The club was organized in 1932 with a membership of 30 representative business and professional men.

At that time the membership was restricted to 30 members with provision for new members only on the resignation of one of the active members.

This club performs all the functions of a national service club with the exception of the exchange of attendance or make-up in other clubs.

It is active in the civic life of Shamrock and some of the best ideas for civic uplift have originated in the club.

Day celebration, which is attracting national-wide attention to this small Irish city, was originated by a member of this club and is sponsored by the club.

Atlanta Fisherman Pickles Catches

Having scientific interest in fish, Jeff McCord of Atlanta pickles catches in formaldehyde. He's fished in every Georgia county one, found 353 species and sub-species and aims to write a book on the subject.

enveloped Council funds. But, strangely, Scouting expanded. At the close of 1938, the Boy Scout registration showed \$19,701.

Scouting advanced with its years, but not without financial pain to its sponsors and officers.

Scout registration figures for the next year passed the 900,000 mark for the first time.

"Take Fat Meat," Says Beef Expert: SAN ANTONIO, Feb. 2 (AP)—"Take the fat meat," says an expert on beef grading at the San Antonio stockyards.

Bright meat indicates young beef, but as the animal grows older the meat becomes darker.

Color is an important factor in the selection of meat, the expert says, since even the color of the fat is a guidepost.

The Great Profile Entreated For 24 Hours Of Bliss By Airy Ariel

NEW YORK, Feb. 1 (AP)—A fervid plea for "24 hours of bliss" was whispered by Elaine Barrymore in the pre-dawn hours of a night club.

"I cannot go on with you. I do not want you back for keeps. All I want is 24 hours of bliss. Look at me, John."

The Great Profile dutifully looked at Elaine, attractive in a low-cut, gold lame evening gown.

"You are like the breath of spring," he murmured.

Southwest Gray Cattle Herds To Be Tested Monday: Special To The News: McLEAN, Feb. 2—Announcement was made at the meeting of the Lions club Tuesday that M. A. Molholm, would be in McLean next Monday, Feb. 5, to inspect and test local herds of cattle for tuberculosis.

Valley Has Embargo On Frozen Fruit: HURLINGEN, Feb. 2 (AP)—They worked throughout the Rio Grande valley today to gain back, by replanting, the loss of vegetables from the recent wintering.

There was a voluntary embargo on frozen citrus fruit. Texas has no organization with authority similar to that of the Florida citrus commission to place an embargo on shipment of such fruit.

THE CAPTAIN'S DAUGHTER

BY HELEN WORDEN

YESTERDAY Modeling a gown for Lynda's gown. When she looks into the mirror, she sees her engagement ring. She pleads illness. Later, when Dan calls, she refuses to talk to him. At noon she meets Tommy. She urges him to take the afternoon off, celebrating with his friends. She says nothing that Dan means anything to her.

CHAPTER XI

DAN had put in the most miserable night of his life after he and his father came home from the West Side club. In vain he had tried to tell Mike that Lynda Martin meant nothing to him. "You can't go back on a poor girl like that, Dan," Mike had said firmly, as they walked in the front door. Ling's enthusiastic greeting had prevented Dan from answering at the time, but as soon as they reached the upstairs living room he had told his father quite emphatically that he was not going to marry Lynda Martin, not if she were the last girl in the world.

ferred to once or twice this evening by that prefix. "Mike snorted. "A common canal boatman for your father-in-law! As if any child of his could be good enough for a son of mine." Dan laughed. "That's very funny, Dad. As a matter of fact, Bat La Porte doesn't think I'm good enough for his daughter. He's as much as said so tonight." "Where does this illustrious family live?" "On the barge Molly, down at Pier 6." Mike threw himself heavily into a chair. "Have ye no pride left?" After that he refused to talk with Dan any more. His big body sagged forward, suddenly old. In vain Dan and Ling tried to coax him to eat a sandwich or have a drink. He simply shook his head and continued to sit by the fire. He was still sitting there when Dan went to bed.

ONCE in bed, Dan began to realize how sore and bruised he really was from the fight. Every bone in his body ached separately. His head throbbed and his eye pained him. Harder to bear than the physical pain, however, and even his father's anger, was his uncertainty about Marie. He loved her so much that he didn't see how she could possibly not love him, and yet, that night very easily he had a jealous fear clutched his heart as he thought that tonight, when she ran so frantically out on the pier, her concern was not for him, but Tommy Ryan. Thinking of this, he wondered how he could live till morning to talk to Marie and find out for himself about her feelings for him.

Early on it was when Dan arose, Mike had already dressed and breakfasted. As they met in the hall, Mike put an affectionate arm about his son's shoulder. His tone was kind. "We'll forget last night, laddie. If ye want to marry the girl, I'll not oppose ye, though I still claim the right to stick to my own opinion." His rough voice trembled a little. "She ye know, ye're me only boy."

Dan didn't speak for a moment. He couldn't. He just pressed his father's hand. Finally he said, "Where are you going so early, Dad?" Mike's voice became gruff again. "I've a little matter of my own I want to settle. I'm one to clean up business as I go. I like to be certain of me ground. I'll be telling ye about it in detail later."

With that he was gone. Half an hour later he was asking a stranger leaning against a pile head on Pier 6 where the barge Molly might be.

"Yonder," replied the man, pointing. "You can spot it easy enough. It's the only barge down here that's got a fresh coat of paint. See its white sides and green shutters?" He leveled an index finger. "And there's Bat La Porte himself, on deck."

MRS. LA PORTE, hearing the racket, had hurried up on deck. Desperately she caught Bat by the coat tails. "Will you never stop fighting?" she cried, pulling him back toward the hatchway. "Your daughter danced up and down with rage. 'Your girl has no social standing,' he yelled. 'She lives on a barge.'"

With superhuman effort, Mrs. La Porte had dragged Bat to the hatchway. "My girl danced good enough for anybody," Bat shouted. His conversation was abruptly cut off. Mrs. La Porte had yanked him in. The hatchway was banged shut. Mike gave a derisive laugh and stamped off the pier. Five minutes later he was calling Dan. "I take back all I said this mornin'," he roared into the phone. "Ye'll not marry that blithering bargeman's girl if I kin live to prevent it!"

Galveston Quads Have Birthday, Get Middle Name

GALVESTON, Feb. 2 (AP)—Texas' youngest quadruplets had a sniffling good time on their first birthday yesterday.

A siege of colds prevented the Badgett quads—Joan, Jeraldine, Jeannette and Joyce—from having a party but no one hardly noticed it. They were "at home" to the public as usual during the regular visiting hours and each got a birthday cake.

Each had her name lengthened, received a scholarship to Baylor university and the fund being raised here to build them as special home came within \$100 of the amount needed.

The four little girls, with a combined birth weight of less than 16 pounds are normal and healthy in every respect. Jeraldine is the largest, tipping the beams at 14. She is also the friendliest to visitors who call at the home to look at the babies through the large window provided for the purpose.

The other three weigh 18 pounds each and are almost identical in appearance—so near alike that only their parents, Mr. and Mrs. W. Ellis Badgett and a few relatives can tell them apart.

Henceforth each of the quads will have the middle name "Baylor" because their birthday falls on the same day as Baylor university's. Quite a difference in age, however, Baylor is knocking along toward 100—98 to be exact.

President Pat Neff of the university presented scholarships to the babies and suggested they all be given the added name.

Normal 1940 Wheat Crop Unlikely Says Santa Fe Official

TOPEKA, Kas., Feb. 2 (AP)—C. W. Lane, Santa Fe railroad representative, asserted today "the odds are against" a normal 1940 wheat crop but added the "probable production" is largely a matter of speculation because of the ice and snow covering.

"It appears that about half the winter wheat acreage in Kansas, Oklahoma, Texas, Colorado and New Mexico has a fair stand," said Lane's monthly report, "and with additional moisture and favorable weather from now on can make a normal crop. The other half is doubtful."

Babson Scores President's Pay-As-You-Go Defense Taxes

By ROGER W. BABSON
BABSON PARK, Mass., Feb. 2.—It is going full blast again! The familiar words of the year economy, budget-balancing, pay-as-you-go talk are being used. As usual, the June harvest will be a big deficit, no real economies, another attempt to persecute business. This year's economy talk makes me sadder than ever. The sheer hypocrisy, the brazen chicanery on budgetary and fiscal matters shocks me. How simple it is to hoodwink the public on finances—and it has been done shamelessly for eight years.

The New Deal rode into Washington on an economy platform. "I ask you very simply to assign to me the task of reducing the annual operating expenses of your government. . . . It is my pledge and promise that 'right' government economy shall be enforced by a stern and unremitting government policy of living within our income." Thus spoke Candidate Roosevelt in 1932. No promises could have been more completely shattered than these. President Roosevelt promptly doubled spending. As his eighth consecutive budget deficit went to Congress last month, his "rigid economy" had succeeded in doubling the nation's debt.

Economy Hopes Fade
Every January there has been much talk of economy, drastic parsimony of expenses, cutting appropriations to the bone. Each January there is talk behind the scenes about the need for new taxes. Then late each session a huge deficit bill is railroaded through. Late each session heat is put on the tax committee to prevent any increase in taxes except on big corporations and mill-maers. Each year the national debt gets bigger. Each year there is less and less hope the budget will ever be balanced, that "right economy" can ever be practiced in public places.

Worst of all, however, is 1940. This is an election year. No one ever expects Congress to be economy-minded in an election year. Congress was economy-minded last year, but the Administration was tooth and nail against economy. Now, what does the Administration do? The President, knowing Congress will oppose direct economy and will fight new taxes, harks on economy, cries about the need to put defense on a pay-as-you-go basis, brings out the familiar—but still effective—bromides about balancing the budget.

Why The Sudden Concern?
It is not necessary to discuss this demand of the President for economy. Most everybody sees through that. But this pay-as-you-go defense is another matter. (A recent Gallup Poll showed that 58

per cent of the voters favored such policy.) It seems ridiculous to me that the voters should suddenly become concerned about saddling the best of a billion-dollar defense program on future generations when they have cheerfully allowed the Administration to borrow unbridled billions to squander on plowing up cotton, raking leaves, and destroying little pigs.

The point that bothers me is that the Administration, it backed by popular approval, may try to force new taxes on Congress this year. Nearly five hundred Congressmen must be reelected this year. Few of them will vote for the right kind of a tax in election year. They will not hand their opponents a ready-made, bang-up, vote-getting issue on a silver platter. Under great pressure (which I am not forecasting will be brought to bear, they might well enact a new tax but it will be the wrong kind of a tax—another tax to discourage new employers and to force existing employers out of business.

Good Taxes And Bad Taxes
The right kind of a tax would encourage everyone to work harder, to produce more, to earn more. Such a tax means a broadening of the income tax base. Every voter would then know that when he cast his ballot for a spendthrift, Congressman his vote would hit his own pocket-book—not just Henry Ford's, J. P. Morgan's, Alfred Sloan's. Putting this kind of tax bill through in 1940, however, would be politically impossible. Instead, the discussion is centering around a "super-tax" on those who already pay income taxes. Ten to fifteen per cent is the figure talked about. How many new projects will this super-tax squelch? How many expansion plans will it

Army Air Corps Needs More Men

WASHINGTON, Feb. 2 (AP)—The rapidly growing army air corps is experiencing momentary trouble in finding the future pilots to fly the 6,000 planes authorized under last year's \$300,000,000 expansion program.

Emphasizing that the difficulty was only seasonal, officials said today that despite appeals by secretary Woodring the requisite 306 qualified young men were obtained with difficulty for the group to start training this month.

Scores more are needed to fill the two classes to follow at six-week intervals. Beginning in June, however, no further difficulty is anticipated because, months in advance, 250 already have qualified for that group.

The principal trouble is that the future army fliers are recruited largely from colleges, and students will not be free from their studies until early summer.

Another difficulty is that rigid physical tests weed out two-thirds or more of those who have the necessary two years of college training or its equivalent.

Another difficulty is that rigid physical tests weed out two-thirds or more of those who have the necessary two years of college training or its equivalent.

The experiment of using civilian schools for the first third of the pilots' training was said by Brigadier General Barton K. Young, assistant air corps chief, to have "exceeded our highest expectations."

Nearly 2,000 men between 20 and 27 have started the training but some 40 per cent, as anticipated, have failed to complete the elementary three-month course.

Most of the successful ones have been promoted to the second three-month stage of basic training at Randolph Field, Texas. Those remaining in the first class, which started the grind last July 1, will finish the final intensive training as fledglings at Kelly Field, Texas, on March 23.

They will be given their wings, commissioned as second lieutenants in the air corps reserve, and assigned to operating squadrons, but their schooling will continue even further. There will be three months of post-graduate experience as pursuit, bombardment or observation pilots.

It takes two years to make a really capable military flier, by the estimate of Major General Henry H. Arnold, air corps chief.

Out of a total of 4,556 undertaking the special training by the time the air corps settles back to its normal routine next Sept. 28, only 2,288 will graduate, officials have figured.

They are expected to increase the number of regular army and reserve pilots to the 4,965 which the air corps estimates will be needed when all the new planes are in service by mid-1941.

LIQUID TABLETS—SALVE—NOSE DROPS

in the churches?
How many jobs will it nip in the bud?
This "super-tax" would raise havoc with our current upswing. Big income taxes have hurt the country and the unemployed more than they have ever helped them. Here is an interesting tabulation:

Year	National Income	Peak Tax Rate
1921	\$58,200,000,000	73
1922	61,100,000,000	58
1923	69,200,000,000	58
1924	71,600,000,000	45
1925	78,500,000,000	25
1929	70,000,000,000	79

Is it merely coincidence that national income (which after all is mainly workers' income) soared from 1921 to 1925, while the peak tax dropped from 73 to 25 per cent?
Bisks Too Great
Today's top rate is back to 70 per cent. And there are state and inheritance taxes to boot! Maybe that is why national income can't buck through the \$70,000,000,000 figure, why government receipts are far below government expenses. In effect, the government's tax policies mean that a wealthy business man can no longer afford to take business chances. A \$200,000 loss this year, for instance, can be recovered only after four successive years of \$200,000 profits! Voters must learn that the cards are not only stacked against the big business man but also against the jobless workers whom he might employ. Let us be honest and recognize the facts!

Oil Men Make Study Of State Lease Land

AUSTIN, Feb. 2 (AP)—Oil men today studied possibilities of 5,748 acres of state land offered as oil and gas development leases by the state school land board with bids to be opened March 5.

The board which made public its decision to lease the acreage yesterday, stated 3,336 acres were surveyed school land in 12 tracts located in Duval, Pecos, Starr, Upshur and Yoakum counties; 2,252 acres in eight tracts were submerged areas in the north-central portion of the state. One river bed tract of 80 acres was on the Big Wichita river in Clay county and another of 80 acres on the Brazos river in Fort Bend county.

The riverbed and tidewater tracts carried fixed cash bonuses of \$3,000 to \$40,000 each with leases to be awarded in the board's discretion, to high royalty bidders.

FRANCIS AVENUE CHURCH OF CHRIST
D. W. Nichol, minister, will speak, 9:45 a. m. Sunday School, 10:45 a.

Ford Attacked By CIO Leader

WASHINGTON, Feb. 2 (AP)—A CIO union leader testified today that except for "that incorrigible union-basher, Henry Ford," automobile manufacturers were no longer among the open critics of the Wagner labor act.

The unionist, R. J. Thomas, made the statement in an appearance before the House labor committee as it resumed hearings on proposed amendments to the act.

As he spoke, chairman J. Warren Madden was testifying elsewhere in the capital before a special investigating committee. Madden said the board seemed to have fared better before the supreme court than any other government agency.

Thomas asserted that the automobile industry "might have been thrown into chaos" in 1939, but for the machinery provided in the Wagner act for collective bargaining elections.

Taking the stand for the second day in the House investigation of the Wagner act and the board which administers it, Madden testified that the supreme tribunal had handed down 22 final decisions concerning the board.

Madden compared this with the interstate commerce commission's record during its first ten years of supreme court litigation, 1892-1901, when he said all ten of the cases involving ICC orders which reached the supreme court were set aside.

Madden compared the board's litigation record with the board's litigation figures on those of the board of tax appeals and the Federal Trade commission.

St. Johns Hearing Set For February 8
NEW YORK, Feb. 2 (AP)—Triple charges of pre-dawn traffic violations against Adela Rogers St. Johns, the writer, were continued for a hearing Feb. 8 by Magistrate Frank Giorgino in Queens felony court today.

The magistrate postponed the case when Fred Curran, a reporter for Hearst newspapers, presented a letter signed by Dr. John Martin Gibbons of Great Neck, Long Island, saying that he had examined Miss St. Johns and that she was "ill and confined to bed and not in physical condition to appear in court."

Miss St. Johns' bail of \$700 was continued. She was charged with driving without an operator's license, passing "several" red lights and driving while intoxicated.

California Crude Oil Price Reduced
SAN FRANCISCO, Feb. 2 (AP)—Standard Oil company of California today announced a cut in crude oil prices, which may mean about \$22,000,000 a year less income for the mammoth industry.

The new schedule of prices reduced Signal Hill 14 gravity crude, to 65 cents a barrel from 80 cents, 20 gravity to 73 from 85, and 30 gravity to \$1.14 from \$1.21.

Standard has traditionally been the pace-setter in the state's crude oil market, and it was assumed other buyers would likely follow.

"This reduction is made," the company said, "because of a substantial weakening in the fuel oil prices at the beginning of the year, and the new crude prices reflect this to the extent of the fuel oil content of the various gravities of the crude."
