Good Morning

One may live as a conqueror, a king, or a magistrate; but he must die a man.

Britons Angrily Demand Explanation Of Chamberlain's Cabinet Shakeup

Army Clique 'Gets' Job Of Hore-Belisha

Prime Minister Criticized By General Press

By J. C. STARK LONDON, Jan. 6 (AP)—Dismissal of hard-drivin Leslie Hore-Belisha as war secretary shook to the foundations today the national unity behind Neville Chamberlain's wartime premiership.

From all parties came demands that Chamberlain "tell all" about the departure from his war cabinet of one of his most vigorous and popular ministers and why he did not, at the same time rid his government of some so-called "dead wood."

The Star, voting general press demands for a fuller explanation of Hore-Belisha's retirement, declared:

"There is no satisfactory reason adduced for shifting a man who had the public confidence and was doing a fine job."

"If it is shown that Mr. Hore-Belisha was thrown overboard to satisfy a clique of generals who disliked him on social grounds or because he was pressing the pace of democracy in the army too strongly, then public resentment will be wide, deep and lasting."

Stanley Is Successful In the cabinet shake-up, Oliver Stanley succeeded Hore-Belisha and Stanley's portfolio as president of the board of trade went to a newcomer, Sir Andrew Rae Duncan.

The only other change found Lord MacMillan replaced as minister of information by another newcomer, Sir John Reith.

The parliamentary recess spared the 70-year-old Prime Minister from immediate attacks in the House of Commons but he will have a chance to answer his critics in a mansion house speech Tuesday night when he will start a series of ministerial addresses to stir the war spirit of the people.

Should Chamberlain ignore the controversy, he would wait until parliament reconvenes Jan. 16.

Demands for a full explanation of Hore-Belisha's "resignation" were foreshadowed in parliament by both opposition party members and conservatives.

May Keep Silent Hore-Belisha, a national liberal, then will be on the back bench and will have the chance to tell why he quit.

But there were some doubts whether he would do this. He sent a message to his constituents today, "I am sure, I have no doubt, that I shall perform with vigor but I have no thought at the present moment but that of winning the war."

He noted pointedly that the army now is "a democracy" and that which "will acquit itself with valor and distinction if and when the occasion comes."

British newspapers were almost as in crediting Chamberlain and displayed prominently German press comment that there was sharp discussion within the British government's ranks.

(Authoritative Germans in Berlin said the cabinet shake-up indicated the death of any hopes for an early peace.)

All Of Oklahoma Covered By Snow

OKLAHOMA CITY, Jan. 6 (AP)—One of the most severe snow storms in recent years blanketed Oklahoma during the weekend, making highways virtually impassable, halting air travel, interrupting bus schedules and, on the other hand, relieving the State's severe drought.

By nightfall, snow measured from 12 inches deep in the northwest to 3 inches in the extreme southeast. The state highway patrol repeated its warning against any unnecessary travel in any part of the State and announced "we consider highways impassable to ordinary traffic."

Scores of cars had to be pulled out of ditches. East-West roads throughout the northwest were reported drifted full from fence-line to fence-line.

Several bus companies cancelled schedules to the north and northwest last night out of Oklahoma city.

Train schedules were being maintained without difficulty late today. Railroad officials said snow had not drifted into cuts deeply enough to hamper progress as trains cut out their way through a foot to a foot and a half of snow.

I Heard . . .

Coach Odus Mitchell of the Pampa Harvesters admitting that he reads "I Heard" and "I Saw" before turning to the sports page. "Still hasn't found anyone with a pair of spowshoes to go with the moccasins offered by R. G. Allen."

18 DIE AS FIRE SWEEPS HOTEL

Trapped in an icy inferno, 18 persons died as flames raced up stairways and through halls of Marlborough apartment-hotel in Minneapolis after early morning basement explosion. Fireman on ladder, hampered by sub-zero weather, carries body of victim from ice-crusted ruins.

Jerry Sadler Favors Third Term For FDR

By WILLIAM T. RIVES

BOSTON, Jan. 6 (AP)—Six hundred rebel yelling Texas Democrats, full of fealty and a \$2 "plain folks" dinner, pledged allegiance anew tonight and lustily cheered every mention of Andrew Jackson, Franklin D. Roosevelt, John Garner and the Democratic party.

Jerry Sadler, fiery member of the state railroad commission, placed the third term issue squarely before the Old Hickory dinner attendees.

The audience clapped and cheered when he picked Mr. Roosevelt as a successor to Andrew Jackson, and said "we have nothing to fear so long as our nation's guidance is in the firm hand of x x x Franklin Delano Roosevelt."

The applause could not be plumed, however, for the true feeling of the crowd, enthusiasm was unrestrained throughout the evening, and cheers for John Nance Garner, native son and vice-president who is bidding for the presidency, and Jesse Jones of Houston were just as loud as those for the president.

In Sadler's speech, some listeners thought they detected a bid for the governorship. Near the close of his address he said "I want to do something for Texas—I want to render it a service and in a small way."

Mother Brutally Slain In Aberdeen Labor Troubles

ABERDEEN, Wash., Jan. 6 (AP)—Mysterious bloodstains on a sidewalk and a reported street fight between two women and a man were regarded by authorities tonight as important clues in the brutal slaying last night of Mrs. Dick Law, 24-year-old blonde mother and wife of a union official.

Acting Chief of Police Robert Schmidt said he was considering the possibility the killing resulted from labor troubles, recalling that less than a month ago Law asked police protection for his family.

Law, executive board member of the CIO International Woodworkers' association, made the appeal shortly after a riot in which a mob wrecked a workers' hall a few blocks from his home.

The body was found by Mrs. Law's mother, Mrs. Nestor Louma, after the latter returned to the Law home from a theater. The body was slumped against aavenport with the head split open, apparently by an axe. Minor wounds in the chest probably were inflicted by a large fork, Chief Schmidt said.

Law was attending a union meeting at the time of the killing. Close out sale on Federal Tires 5 months to pay. Motor Inn, Dist.

Bank Deposits Here Increase \$268,109

Deposits at the First National bank here reached a record total of \$2,884,184.59 on December 30 according to the final statement of the year.

The deposits increased \$268,109.26 during 1939 the report of December 30, 1938, showing deposits to be \$3,616,075.33.

Bank loans during the past year also showed a large increase, loans for the year totaling \$1,115,690.94 against \$878,345.13 in 1938 for an increase of \$237,345.81.

Police Left Holding Bag In North Carolina

EDENTON, N. C., Jan. 6 (AP)—Police picked up a suspect in a \$500 tire robbery and fingerprinted him. The prints together with specimens found at the scene of the robbery were sent to the federal bureau of investigation at Washington.

Meanwhile the suspect convinced the officers he had an air-tight alibi and was released.

Came the FBI report: The fingerprints were alike.

C-C Officers To Be Installed Tuesday

Fred Thompson Drafted For Kiwanis Post

Pampa In Race For Governor of Texas-Oklahoma District

The Pampa Kiwanis Club tossed a huge hat into the ring of Texas and Oklahoma district Kiwanis politics Friday when President W. B. Weathered announced the Pampa club will actively support Fred Thompson, a past president of the Pampa club and a former lieutenant-governor of this division, for the post of Governor of the Texas-Oklahoma district at the annual convention in Oklahoma City next October.

Weathered made the announcement following a two-hour school of instruction for members of the Pampa club, which was conducted under direction of President-elect Tex DeWees, who will be installed at a ladies' night banquet next Thursday evening with Tom Collins, editor of the Kansas City Journal, as principal speaker, and Divisional Lieutenant-Governor W. G. McMillan of Lubbock officiating.

Delegates to the Los Angeles convention of Kiwanis International year before last decided to draft Thompson for the post. Weathered said considerable contact work in Division 6 already has been done with a very satisfactory response, and the Pampa club with the help of other clubs in this division, will go about the job of acquiring the clubs of the Texas-Oklahoma District with the merits and qualifications of the Pampa candidate, Weathered declared.

Delegates to the 1939 Texas-Oklahoma District convention at Wichita Falls last October in the Division 6 meeting voted unanimously to support Mr. Thompson as the next lieutenant-governor.

Four speakers appeared on this school of instruction program in Hotel Schneider Friday afternoon, including President-elect DeWees, who discussed the international objects and the district objectives of the Kiwanis Club.

President Weathered discussed the duties of officers and directors. Fred Thompson, retiring secretary, discussed the Membership and Classification committees and committee members. Past President J. B. Massa discussed Kiwanis education.

East Texas Fall Heaviest In 10 Years

Telephone And Power Lines Snap Around Plainview

(By The Associated Press) Sleet, snow and rain accompanied by temperatures ranging from below freezing to around the 50-degree mark, was the weather dish served up for Texans last (Saturday) night.

In the Panhandle and extending as far south as central Texas, snow and sleet blanketed the state. Further south temperatures moderated and welcome rains fell. The precipitation extended all the way to Brownsville in the lower tip of the State.

Telephone and power lines were down around Plainview with the temperature 18 degrees while airplane travel was at a standstill out of Dallas. Three Braniff planes and two American Airlines ships were unable to leave Love Field.

Sub-freezing temperatures were common in north Texas but rose to 48 at Houston and 45 at Beaumont and Galveston. Just to add to the confused weather picture, a 33-mile an hour wind whipped the rain at Galveston. More precipitation and slightly warmer was the forecast there, as it was at Houston.

Sleet turned to snow at Texarkana, causing minor traffic accidents. Clarksville reported a two-inch snow, heaviest in ten years. The snow and sleet in East Texas extended as far south as Palestine with four inches at Van Alstyne, Malakoff, Longview, and Paris all reported snow and sleet. Ice was forming on telephone and telegraph wires, and one overpass at Tyler was closed to traffic.

The temperature dropped to 24 at Wichita Falls after a day which brought a two-inch snow.

The white-blanketed covered Amarillo in the Panhandle, Lubbock in the Plains county and extended to the New Mexico line.

Snow and sleet fell intermittently throughout the day in Dallas. Ice formed on the streets and made traffic hazardous.

Temperatures included: 32 at Temple with rain; 43 at San Antonio with rain; 25 at Van Alstyne, 28 at Longview, 31 at Tyler.

J. E. McDonald, Texas commissioner of Agriculture, said the moisture would fill a needed want throughout the state but others expressed fears for livestock.

An overnight snow resulted in a 10-inch fall at Borger and Perryton, and 11 inches at Spearman. Eleven degrees was the low temperature in that section. Stockmen were feeding cattle but expressed no fears of loss unless strong winds developed.

A three and a half inch snow was reported at Bonham, while Denison was blanketed by a five inch fall, heaviest of recent years. The temperature was 28 degrees.

Tyler's snowfall was an inch and a half. Ice forming on the wings forced a private plane down there.

Freezing temperatures accompanied the snow and sleet at Mineral Wells. Fort Worth had a half inch of snow with more expected. But temperatures were scheduled to rise Sunday.

Generally cloudy with local showers and rising temperatures was the forecast at Corpus Christi.

Bob Watson Will Name Birthday Ball Advisory Members

Appointment of an advisory committee of five members to serve in the planning and execution of the President's Birthday Ball in Pampa will be made tomorrow by R. R. Watson, local chairman.

Mr. Watson received his appointment in a letter from George Waverly Briggs, vice-chairman of the Texas State Committee for the celebration of the President's Birthday. Texas headquarters are in 1509 Santa Fe building, Dallas. W. L. Clayton is chairman of the state committee.

Under the plan used over the nation this year for the President's Birthday Ball celebrations, to be held Tuesday, January 30, one-half of the proceeds from the local dance will go to the national foundation, and the remaining half to the permanent chapter of the national foundation that embraces this county, for treatment of infantile paralysis cases.

Abilene Women Killed

ABILENE, Jan. 6 (AP)—Mrs. Mae Gray, 41, died today of injuries received Friday when a car in which she was riding crashed into a parked truck on an Abilene street.

The driver of the car said his windshield wiper was not working and that there was a heavy mist when he hit the truck.

See BASKETBALL, Page 4.

Snowplow Clears Roads, Mercury Drops To 2 Below

Before Pampans could recover from the chilling blasts of Friday, the second coldest day of the year, with the thermometer reading 17, old man winter put on a "lightning war" to send the temperature here rushing downward to 2 degrees below zero, and cover this area with an 8-inch mantle of snow and it was still snowing.

The two-below temperature was the lowest recorded thus far this season in Pampa. The previous low was 15 degrees on January 1. Maximum overnight temperature in Pampa was 12 degrees at 12:30 a. m. Saturday.

A crew of 25 men of the Texas Highway department worked all yesterday clearing highways over the county, using a snowplow, tractor, and two graders.

Rising to 8 degrees at 6 o'clock yesterday morning, the temperature dropped back to 7 for a three-hour stretch, climbed to 11 degrees at 2

Sidelights On The Snow

Eric Light Seen Friday night about 8:30 o'clock the city was suddenly illuminated by an eerie light from the south. Pedestrians and motorists were at a loss to know the cause. But yesterday it was revealed that one of the high voltage fuses on the Southwestern Public Service company's line to the oilfield had blown on when the line parted causing the sudden light. The fuses are safety measures on the line.

Many Pampans awakened about 4:30 a. m. by a strange whistle that wasn't that of a locomotive. Some thought a Santa Fe Chief had been routed through here but it was learned later that the noise was the horn on a new Diesel-powered freight engine making its first run out of Chicago. The powerful engine has greater speed and greater power and they may be used on the line.

East Trains Late Passenger trains from the west were running nearly on schedule but those from the east were late. The Fort Worth and Denver reported lighter snow south, with about three inches at Wellington and less at Childress.

Little Suffering Capt. Herman Lambrecht, of the Salvation Army, reported little suffering from the cold and snow. He said the Army's food bill has climbed during the past week or so in order to take care of additional WPA families because work projects have been closed down.

Week-end traffic was unusually light due to the fact many persons did not even venture out of doors in the deep snow. Practically all oilfield work was at a standstill. Drilling was halted and roads to some wells were impassable.

Taxicabs Do Big Business Downtown stores sold out their supplies of overcoats, auto chains, defrosters and most any kind of

Frost Nips Fields Of North Florida

(By The Associated Press) Winter winds whistled across the United States yesterday (Saturday) depositing ice and snow from Utah to the Atlantic Coast.

The western snowstorm, sweeping over nine states, left an eight inch blanket in northwestern Oklahoma and six inches in sections of Wyoming and Colorado.

There was ice skating at Beattyville, Ky., and frost nipped the fields of northwestern Florida.

Three and a half inches of snow fell in the valleys of Utah, while in the mountains five inches more was deposited to bring the total to 32.

The sub-zero weather which iced most of the middle west Friday was moving southward last night. Rain and possibly snow was forecast for Atlanta today. The freezing weather extended nearly to the gulf, with temperatures reported as low as nine above at Nashville, 18 above at Birmingham, 26 above at Macon, Ga., and 33 at Pensacola.

Deaths attributed to the cold in the last two days rose to eight.

Barnsdall Gasoline Plant At Earsboro Destroyed By Fire

EARLSBORO, Okla., Dec. 6 (AP)—Fire swept through the three-acre Barnsdall gasoline plant tonight after an explosion destroyed the engine room and shook the countryside for two miles around.

No one was killed or injured. Plant Superintendent J. O. Green would not estimate the damage, stating only that "it was not a complete loss."

Firemen from Seminole were hampered by freezing temperatures in their hour-long battle to bring the flames under control.

I Saw . . .

Local food store trucks, working hours behind schedule, delivering groceries at 11 o'clock last night. Drivers said that practically everybody had the same notion yesterday—that of ordering their groceries instead of going after them. Well, the stars were shining at midnight, anyway.

Sharing The Comforts Of Life --- By R. C. Hoiles
WHAT HE PRODUCES
Most every individual will say that he believes each man should receive what he produces, but in most cases he who has not made a careful study of personal liberty and freedom will want to be the judge himself of what each individual produces.

ANNIVERSARY

News Clearing House
Pampa, Texas January 5, 1940
Editor, Pampa News:
I wish to emphasize what Reno Stinson said in his letter relative to the power situation. The purpose of a newspaper, as I understand it, and I have been connected with newspapers, is to give the facts on both sides of a question. And then it has the right to express its opinion.

Tex's Topics By Tex DeWeese
It was so cold and slippery Saturday that Western Union messenger boys were traveling in pairs. As one messenger explained it, "one of us goes along to pick the other one up!"... Lovers of snow just about have their fill by now. And to change the subject to something else besides municipal plants, one fellow expressed the wish yesterday that somebody would shovel the snow off the municipal-owned sidewalks around City Hall. There is a shortage on snow shovels, by the way.

Will 1940 Be The Peace Year?
There has been a lot of talk about European peace during the past few weeks, and there will probably be a lot more in the days to come. It is a strange thing to talk of peace so early in the conflict, but it is an encouraging sign.
Thomas Mann, German refugee author now in the United States, recently ventured the prediction that Europe's struggles would end before 1941. At various times, others have forecast an early peace.

ONLY THREE THEORIES OF RAISING WAGE LEVELS
I have heard but three theories advocated whereby wage levels can be raised. They are:
1. Better tools, including freer exchanges.
2. Collective bargaining that arbitrarily agrees that no man dare work an X period for less than an X reward.
3. A combination of better tools and free exchanges and collective bargaining.

Around Hollywood

HOLLYWOOD, Jan. 6.—When you mention the name of John Carroll in Hollywood, people say, "Oh, yeah—the crazy actor. Did you hear about the time—?"
Carroll is the sort of guy about whom anecdotes and gossipy legends seem to cluster.
By "crazy," Hollywood doesn't mean "demented," exactly. Just non-conventional. Carroll maintains a what-the-hell, hang-on-to-your-hats-boys attitude, together with the aura of an adventurous past.

People You Know

By Archer Fullingim
Yesterday, The Boy, rapt-eyed, and I did not listen beyond the "bell song" of Lily Pons' "Lakmé."
We went to the canyon beyond the town to find again the beauty that is the white and soundless music of the snow. We walked through glowing light away from the sound of machines and people talking, into that stillness that is half the sky's and half the quiet magic of the ground. We came upon the wide levels of winter, lovely as the dawn, the muted stretches of a countryside, half silence, half music, where dusk was snow and snow the dusk that fell. White stillness above, white stillness below. There were no paths. No wind blew. Silent we walked. Only our hearts, relentless, beat loud in our breasts. The world appeared enchanted. It was the day of undiscovered wonder. The day whose beauty was the white and soundless music of the snow. . . . And The Boy kept turning around to look at the perfect pattern of his tracks, and once he said, "We could walk on and on and never feel any different, could we? And if we found a place big enough we could stay a long time under the snow, like the rabbits and the coyotes, couldn't we?"

The Family Doctor

Dr. Morris Fishbein
With the coming of the motor car, there has been a tendency gradually to modify the costume worn throughout the winter season.
People used to put on long, red flannel underwear, thick woolen high boots, flannel shirts and sweaters, and fur caps with ear muffs to go for a stroll or to shovel snow. Now they disregard the winter blasts and pay little attention to the effects of weather on health.

Behind The News

WASHINGTON, Jan. 6.—The fight in this winter's Congress over the Hull reciprocal trade agreements will be a stem-winder.
In one sense, this will be merely an old-fashioned tariff fight among the same opposing forces that have always worked for a high or low tariff. In another sense, not only the immediate trade policy, but the whole recent foreign policy of the United States is at stake.
Secretary Hull has from the start "sold" his trade agreements as helpful to normal trade relations which in turn aid peace.

The Nation's Press

TWO WARS OF ONE? (New York Times)
Though the official communiqué is silent on the point, there is every reason to credit the report that the defense of Finland was discussed yesterday by the A-13 Staff Supreme Council in Paris. To be sure, Britain and France are not at war with Russia and do not wish to be. They have taken the position that Russian aggression is a by-product of the example set by Germany, and they have not wished to jeopardize their chances of checking what they believe to be the primary force of evil by widening the area of conflict. Such guarantees as they gave to the smaller nations of Europe were guarantees against German aggression and not against aggression by a Russia whose support they had hoped to enlist on the side of law and order, and this was clearly understood by the nations to whom these guarantees were given.

Pettengill

Eight Years Democratic Congressman From INDIANA
The Next Senate
You need not wait until November to know one election result. The next senate will be Democratic. There is no chance for the Republicans to have a senate majority until January 1943; and that chance then is nothing to bet the family heirlooms on. In fact, it is probable that the senate will continue Democratic throughout the whole of the next presidential term, even if the Republicans elect the president and a majority of the house next November.
Consider what the G. O. P. is up against. In the 1938 landslide which surprised the high command, the Republicans gained eight seats. They now have 23. A clear majority of the senate is 49. That leaves the Grand Old Party 26 shy, or three times as many more seats to gain as it won in 1938.

4 Texas Company Wells Gauge 2,332 Barrels

Drilling Is Curtailed By Cold Weather

The Texas company gave the Panhandle oilfield an additional 2,332 barrels potential when four wells were drilled last week. Nine tests in all were tested, giving the field a total open flow potential of 3,523 barrels of new oil. One gas well was drilled for 11,701,000 cubic feet.

New locations dropped to five during the week, chiefly due to unfavorable weather conditions. Gray county had four of the five new locations.

Drilling operations were slowed down considerably because of the winter weather. Six of the new wells were in Hutchinson county.

The Phillips Petroleum company was reported getting ready to start in a wildcat test for oil on the south edge of the gas basin in Moore county at a point several miles south of Dumas.

Completions by counties follow:

In Carson County
The Texas Co., No. 14 Boney, section 89, block 4, I&GN survey, gauged 436 barrels with flow formation between 2,975 and 3,110 feet.

The Texas Co., No. 15 Boney, section 89, block 3, I&GN survey, tested 677 barrels. Pay was from 3,038 to 3,080 feet in line.

In Hutchinson County
Stanford Oil and Gas Co., No. 24 Terry, section 72, block 3, HE&WT survey, gauged 262 barrels with pay from 2,995 to 3,012 feet in line.

The same company's No. A-15 Wares, section 124, block 4, I&GN survey, gauged 182 barrels. Line pay was between 3,052 and 3,175 feet.

The same company's No. A-16 Wares, in the same section, was tested for 223 barrels with pay in line from 3,030 to 3,153 feet.

The same company's No. 13-A Pitcher, section 19, block M-21, TORR survey, tested 276 barrels. Pay was from 3,080 to 3,181 feet in line.

The Texas Co., No. 9 C. R. Gumper "A," section 20, block M-21, TORR survey, gauged 554 barrels. Pay was in line between 2,950 and 3,050 feet.

The same company's No. 15 Pond, section 1, block M-21, TORR survey, was given a potential of 693 barrels with pay from 3,020 to 3,030 feet in line.

In Wheeler County
Christie-Hickman No. 3 Perkins-Cullum, section 54, block 24, I&GN survey, tested 221 barrels with granitic wash pay from 2,435 to 2,475 feet.

In Moore County
Texoma Natural Gas Co., No. 1 W. L. Lea, section 47, block 47, HE&TC survey, gauged 11,701,000 cubic feet.

Intentions to drill:

Navy Cool To Idea Of Super-Warships

WASHINGTON, Jan. 6 (AP)—The Navy's High Command was described by some members of the house naval appropriations subcommittee today as cool to the idea of super-battleships of 65,000 tons or more but in favor of ships substantially bigger than 45,000 tons.

Committee members said they gained that impression from testimony by Admiral Harold R. Stark, chief of naval operations. The committee recently asked the Navy department to prepare data on the cost of 65,000-tonners. Congress already has authorized construction of two 45,000-ton ships.

Stark told the committee, it was learned that even a 65,000-ton ship would not be big enough to permit inclusion of all the characteristics experts would like to see incorporated in the battleships. Despite the advantages such a warship would possess, he was quoted as explaining, it would also have disadvantages.

Proponents of bigger capital ships contended they would so far outmatch those of other sea powers in speed, range, gun power and armament that this country would be invulnerable to naval attacks.

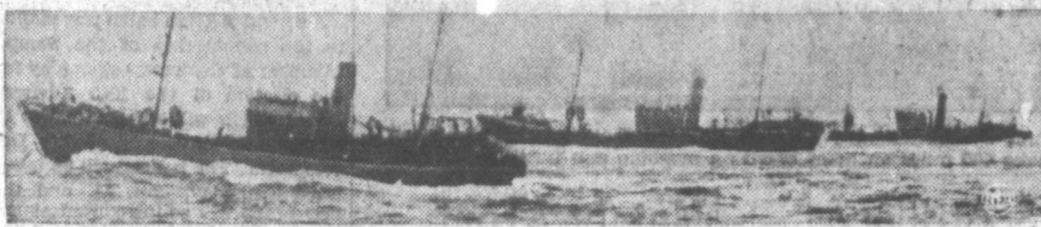

It was understood the navy took the position that existing naval harbors and repair facilities were inadequate to accommodate such huge craft.

Kellerville HD Club Meets With Mrs. A. Farren

KELLERVILLE, Jan. 6.—The Kellerville Home Demonstration club met Thursday in the home of Mrs. Archie Farren. Cocoa and cake were served to the 11 members attending. Next meeting of the club will be on January 18 in the home of Mrs. Morris.

Mine Sweepers Hunt Bulbs of Death in North Sea

Churning through the war waters of the North Sea, these Nazi mine sweepers are on the lookout for bulbs of TNT that may have floated into or been sown in German lanes.

'Scandals' Drops John L. Lewis Skit

Here is scene deleted from "George White's Scandals" in Chicago on demand of James Petrillo, A. F. of L. musicians' union head. It shows Eugene and Willie Howard impersonating John L. Lewis and a C. I. O. organizer. Comics Olsen and Johnson threatened to put a Petrillo skit in their "Hellzapoppin," which opens in Chicago soon. If they had to take Lewis out.

New Archbishop for Chicago

The Most Reverend Samuel A. Stritch, above, has been named Archbishop of Chicago, succeeding the late George Cardinal Mundelein. Archbishop Stritch had been in charge of the Milwaukee archdiocese, where he will be succeeded by Bishop Moses E. Kiley of Trenton.

Dams, Terraces, 4-H Work, Grasshoppers, AAA Program Kept County Agent Busy

There were 91 earthen dams or reservoirs surveyed and constructed in Gray county on 81 farms and ranches according to the annual report of Ralph R. Thomas, county agent of the Extension service, Texas A. & M. college. A copy of the report has been submitted to state headquarters and another copy is to be placed on file with the Gray county commissioners court.

The work of the agent for 1939 included agricultural engineering work with the agricultural conservation program, grasshopper control, game management, and boys 4-H club work.

Carr Assists Agent
Dams built during the past year contained a total yardage of 135,353, and it is estimated that the capacity of these reservoirs will be around 200 acre feet of water. Ed S. Carr, county range supervisor, worked with the County Agent in the surveying of these dams. Most of the assistance was paid for under the A. A. A. program, but the records show that there were many individual cases where only a small part of the yardage was actually paid for, the operator contributing the balance.

Game Preserves
Forty-eight Gray county ranchmen and farmers had a total of 143,955 acres of land in game management demonstrations in cooperation with the extension service at the end of 1939 according to these reports. At the end of 1938 there were 76,182 acres of land in these demonstrations, or an increase during 1939 of 67,773 acres. The demonstrations have placed 470 steel metal Extension Service Game Preserve Demonstration markers around their property. There were more than 143 Gray county at the close of 1939 than there has been since the oil boom started in 1928 according to information given to the County Agent by the demonstrators. The reason for the increase at this time according to these opinions were given as mainly due to the fact that hunting was restricted on the demonstration area both in 1938 and 1939. Another cause for the increase was due to more feed and better cover due to the large amount in deferred grazing under the A. A. A. program.

4-H Club Work
There were 45 boys enrolled in the Gray County 4-H club in 1939. Of these, 32 different boys completed their demonstrations. Seven boys completed demonstrations in beef cattle with a total of 96 cattle. Three boys completed demonstrations in cotton and 25 in grain sorghums and a total of 4 in poultry. There was one each who completed demonstrations in swine and production of wheat. The Pampa Chamber of Commerce furnished certified 100% disease resistant milo seed in the amount of 6 pounds each to 20 boys and state certified Black-Hull leaf-fir to 10 boys. The 100% disease resistant milo made an average yield of three-fourths the ton of heads to the acre. The average production

for the county in the areas where the demonstrations were conducted was estimated at approximately half ton to the acre. Club activities included a trip to the Amarillo Pat Stock Show by 34 boys of the Alameda and Grandview clubs at which time these boys participated in a parade and several attractions were visited. Four boys attended the district encampment at Lake Marvin, and 3 boys attended the educational encampment at Dallas in October. The expenses being paid by the Pampa Chamber of Commerce.

431 Farm Visits
The statistical report shows that the County Agent made 431 farm visits in conducting Extension work during 1939 and that there were 6,042 visits to the County Agent's office with a total of 1,235 telephone calls. 1,236 bulletins were distributed during the year and 17 radio talks were broadcast or prepared by the County Agent.

It was pointed out in this report that the success of the work during the year was for a large part due to the close cooperation with the Forest Service, the Farm Credit Administration, the vocational teachers at Pampa and McLean, the Pampa Chamber of Commerce, the three newspapers in the county, and radio station KPDM.

The 1939 report gave a history of Extension work in the county. This history shows that the first county agricultural agent was R. O. Dunkle, who began his work in the later part of 1921 and served until November, 1924. P. E. McMeans followed Mr. Dunkle and served until November of 1926 when the work was discontinued in the county until 1930 when Ralph R. Thomas took up his duties as county agent in the county.

Model Plane Found By Neal Near Pampa

Who has lost a model airplane? A gasoline motor-powered high wing monoplane with orange wings, small inflated rubber tire wheels, blue rudder and orange struts, has been found recently four miles south of Pampa, according to information received by Joe Neal, Pampa model airplane fan.

The plane was found by a pipeline worker whose name was not given to Mr. Neal. He asks that anyone having any information on the plane, telephone 1586.

Family Friend Identified In Kidnap Trial

BEAUMONT, Jan. 6 (AP)—A jury today heard the mother of a kidnaped child identify a family friend as the man who at gun point took her 11-year-old son Irwin and demanded \$15,000 ransom for his safe return.

Mrs. Fred Mingle said she recognized Dr. William C. Welch, Port Arthur chiropractor, as the kidnaper "by his voice and by his form."

It was the second time the jury had heard the chiropractor identified by his voice. Mrs. Mingle's husband earlier testifying to the same effect.

"I pleaded with the kidnaper not to take my son," she told the jury. "I told him to leave my boy and I would gladly get the money for him and give it to him that night."

Mrs. Mingle testified the kidnaper, replying in a "Mexican dialect," said:

"Me fake boy. You get money. Give me money. I give you boy. Tell policeman, me shoot boy. Have \$15,000 by 6 o'clock tomorrow night."

Mrs. Mingle told how the kidnaper appeared in their home the night of December 7, last, drew a gun and bound her and her husband. She said she worked the gag free and tearfully pleaded with the man.

Under cross examination, Mrs. Mingle said she could not tell whether the dark complexion of the kidnaper was natural or artificial. The state contends Dr. Welch

Bankhead Wields House Gavel Again

Thumping sound of Speaker William Bankhead's gavel once more echoes through the huge House chamber in Washington as the Alabama representative stands in his rostrum, above, and keeps the nation's biggest legislative body in order.

disguised himself as a Mexican. He is on trial for kidnaping for ransom. He also is under charges of armed robbery.

The Mingle child freed himself from his bonds and his calls for help resulted in his release from an attic to which he had been taken.

E. B. Germany Will Attend Demo Meeting

That the Democratic jamboree to be held in Pampa January 23 is an 18th district affair and is not exclusively for Pampa was stressed today by H. C. Coffee, chairman of the Gray County Democratic Executive committee. Mr. Coffee and W. J. Smith, local attorney, are arranging the program for the celebration.

E. B. Germany of Dallas, state democratic chairman, and Price Daniels, president of the Texas Young Democrats, have each said they would be here for the jamboree. Gerald B. Mann, Texas attorney general, and Col. E. O. Thompson, chairman of the inter-state compact commission, have also been invited to attend, but have not yet responded.

"This is to be a Democratic gathering of all Democrats in the entire 18th congressional district," Mr. Coffee said, "and we want to hear now from persons who plan to attend. In order to prepare for them and make reservations we must have this information."

Tickets to the banquet are \$1.50 a plate. Reservations may be made with either Mr. Coffee, or with John Ketter, secretary of the county committee. Mr. Ketter is with the Cabot company, 500 West Brown, Pampa.

Russia Faces No. 1 Disasier Of All Time

By KIRK L. SIMPSON
Associated Press Staff Writer

Five weeks of Russian Red army hammering at little Finland's "Waistline" defense on the lake Kianta front have only added to the topsy-turvy war picture in Europe.

Against every rule or reason in view of the fantastic odds against her, it is Finland which is ripping at a Russian "waistline," or at least impairing circulation seriously of the life-blood of the Red army's northern attack.

Neutral observers report Finnish planes at the Leningrad-Murmansk railroad have reached their target east of lake Kianta in half a dozen spots by dazzlingly swift ski raids. It seems doubtful that such light, fast-moving forces could be equipped to do more than tear up rails, burn ties and bridges, dynamite trestles, perhaps send rock and snow slides down to block railroad cuts. It would take heavy charges to smash the line so extensively that weeks of repair work would be needed to reopen it.

Yet every hour of traffic lost to the Russians through these raids is a grave matter for the Red army operating abroad in a winter-bound region of little daylight and no forage or shelter possibilities.

In Great Peril

Those Russian troops are in peril of a greater disaster than befall the Red division, trapped and cut to pieces by the Finns.

Russian retreats in the north began weeks ago, before any Finnish unit had made a counter dash across tanks and motor trucks in sub-zero temperatures were cited then as the cause.

A much more probable explanation is that the Russian command finally realized it has outpaced its ability to supply the troops over the Murmansk railroad. With that road now harried by Finn air and ski raiders, the Moscow high command is confronted by a possibility of one of the great disasters of military history.

What such a blow would mean to Russian prestige among her other little neighbor countries is easily imaginable. What it might mean to Stalin and the Moscow Government's dominating faction in a political way is not so easy to foresee. Yet despite every precaution Moscow can take to keep the facts of the failure in Finland from becoming

known throughout Russia, sooner or later the story will become Russian public knowledge.

Students of the political scene of the New Russia, maintain that at no time since he stepped into Lenin's shoes has Stalin been in fact nearly as all-powerful a dictator as Hitler or Mussolini.

There are nearly a dozen Soviet republics in the U. S. S. R. within them are two-score political subdivisions that, because of racial lines or for other reasons, have demanded and received a degree of autonomy.

It is at least possible, if not probable, that these autonomous or semi-autonomous Russian subdivisions exercise some measure of control over how and when troops composed of citizens of such areas are to be used on order of Moscow.

Unrest Extensive

That there has been much more political unrest within Russia in the recent years than Moscow would admit has been obvious to any close observer of the Russian scene. Undoubtedly that unrest has been more extensive than was indicated by even such incidents as Stalin's purge of the Red army command the exiling of Trotsky.

The grants of autonomy to 40 or so of political subdivisions of the U. S. S. R. are in themselves a clear indication of the disharmony.

Top off that unsettled condition at home with a failure of Russian might in Finland and something of the increasing gravity of the situation for Stalin can be discerned.

Neutral observers report Finnish planes at the Leningrad-Murmansk railroad have reached their target east of lake Kianta in half a dozen spots by dazzlingly swift ski raids. It seems doubtful that such light, fast-moving forces could be equipped to do more than tear up rails, burn ties and bridges, dynamite trestles, perhaps send rock and snow slides down to block railroad cuts. It would take heavy charges to smash the line so extensively that weeks of repair work would be needed to reopen it.

Yet every hour of traffic lost to the Russians through these raids is a grave matter for the Red army operating abroad in a winter-bound region of little daylight and no forage or shelter possibilities.

Questions Census Taker Will Ask You

WASHINGTON, Jan. 6 (AP)—Have you a bathtub or shower in your home, and who uses it?

How much did you make last year and what rent do you pay?

How far along in school did you get?

Have you a telephone?

How much spinach did you raise last year and how much, if anything, were you paid for it?

Thus will 120,000 census-takers query whoever answers the door at 40,000,000 farm and city dwellings next April.

Secretary of Commerce Hopkins made public today some of the questions through which the census bureau expects to gather the most complete data ever assembled about some 132,000,000 persons, their homes and their farms.

Farmers in particular will be asked for a wide variety of information. More than 6,000 proposed questions were submitted to the census bureau for inclusion in the farm survey. These were sifted down to about 250 during conferences with farm leaders, market analysts and statisticians.

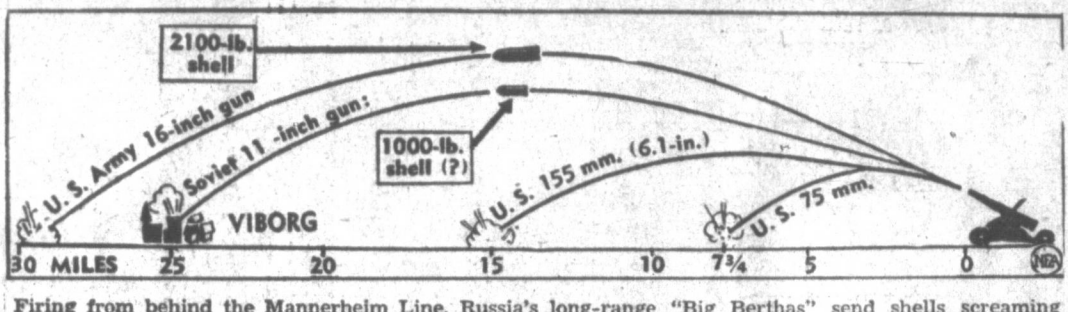

New questions to be asked in the population census this year deal with education, mass migration, employment, occupation and income.

Army Officials Watch New Giant Bomber Land After Test Flight

Giant bomber glides to earth at San Diego airport under watchful eyes of high ranking army officials who observed its initial flight. Built by Consolidated Aircraft Co., the four-motored plane can make 400 miles an hour, carries a machine gun turret in the tail.

How Soviet Guns Stack Up With U. S. Artillery

Firing from behind the Mannerheim Line, Russia's long-range "Big Berthas" send shells screaming through the air five miles above the Karelian Isthmus to land 25 miles away in the heart of Viborg, Finland's second city. Diagram shows how Soviet guns compare with heavy U. S. Army artillery.

SADLER

(Continued From Page 1)

way recompense the great Lone Star state for the home it has given me."

In an interview today, Sadler asserted he would "either be a candidate for governor myself next summer or I will support someone with a program beneficial to those least able to pay."

He rapped Governor O'Daniel in the talk with newspapermen and said "the governor's office is in a hell of a mess."

The dinner was scheduled tonight so it would not interfere with the official \$25 a plate Jackson Day dinner in Dallas Monday night. The dinners are arranged to help finance the Democratic party.

In his speech tonight, there was no mistaking Sadler's feelings regarding a third term, although he did not specifically ask the president's re-election. In interviews, he has asserted he favored a third term.

"In these trying times to whom shall we turn?" he asked, and then answered the question himself with a eulogy of Mr. Roosevelt, whom he called "one of the greatest Democrats of all time."

Several hundred persons attended the dinner, sponsored by the Andrew Jackson Democrats of Texas and one of several such functions. The \$2-a-plate dinner was scheduled tonight so it would not interfere with the official Jackson Day dinner in Dallas Monday.

Sadler compared Roosevelt to Jackson, saying both of them "kicked the devil out of a moss-bound, dying political order."

"There was but one Andrew Jackson. There will be but one Franklin Delano Roosevelt," he said.

"Prize Sucker State"

Turning his attention to state problems, Sadler said he sometimes thought Texas was "the prize sucker state" because it permitted "its best wealth and profits to be taken out to enrich other sections."

Outsiders own 60 per cent of the state's wealth and "hold mortgages on a good share of the rest," he asserted.

He blasted the sales tax as a burden on those least able to pay. Texas needs leadership of the Jackson type, he said, to solve its many problems. Some of these he listed as caring for the insane, benefiting crippled children, the lack of state regulation of telephone and light companies, providing opportunity for the young folks as well as pensions for the aged, and general finances.

Killed In Wreck

KAUFMAN, Jan. 6 (AP)—Claude Hopper, 48, of Bowie, was killed and five other persons were injured, one seriously, when their car and a timber-laden trailer crashed two miles from here today.

Jeanne Hopper, 12, suffered a broken leg and other injuries. The others hurt also were members of the Hopper family.

Flanked by Favorites

A proud handful on either side of him, Charles S. Howard, owner of Seabiscuit, left, and Kayak II, was on hand to watch his two thoroughbreds in early morning workouts as they prepared for the racing season at Santa Anita, Calif.

Candidates Predict Louisiana Victories

NEW ORLEANS, Jan. 6 (AP)—Contrasting claims of victory came tonight from Louisiana's gubernatorial candidates preparing for the final full week of campaigning before a primary which observers say will determine the fate of "Longism" after an 11-year sway.

Cop. Earl K. Long, brother of the late Huey P. Long, headed toward New Orleans from north Louisiana with the prediction that on the primary day, Jan. 16, he would carry the city by 75,000 votes and all but ten of the 63 outer parishes.

Sam H. Jones, Lake Charles attorney, running on a "reform" platform and with a promise to purify state politics and office-holding, expressed confidence of victory as he too turned toward New Orleans, where 166,000 voters usually cast about a third of the total vote.

First votes were cast today in the form of "absentee" ballots.

Jones is conceded by politicians the best chance of unseating the younger brother of "Kingfish" Huey P. Long, but three other candidates continued active campaigning, with at least two asserted confident of victory.

These were State Senator James A. Noe of Monroe and James H. Morrison, Hammond attorney. Vincent Moseley, Opelousas attorney, and fifth candidate hasn't claimed victory.

WEATHER

(Continued From Page 1)

and that mostly trucks. Snowfall at McLean was estimated at 5-inches. Electric power was uninterupted by a telegraph line to Amarillo was out early Saturday morning.

The Southwestern Public Service company in Pampa had only minor trouble with its lines and power here was unaffected.

Long Distance Re-Routed

Long distance calls on the telephone line were being made by Borger to Amarillo through Pampa Saturday morning and there was also difficulty on calls to Oklahoma City, Tulsa, and Dallas. Only a few telephones here, however, were out of operation.

School Buses To Run

Unless the wind rises and blizzard conditions prevail, buses of the Pampa Independent School district will run as usual Monday morning, Supt. L. L. Sone said last night.

Although the wind increased somewhat in downtown Pampa during the day, the velocity early Saturday morning was only nine miles an hour and the wind direction was east northeast.

BASKETBALL

(Continued From Page 1)

you should watch them working out in the dressing rooms of the gym each afternoon after school. Some of the boys who fought on the Pampa schoolboy boxing team are back this year and everybody knows that some of the best fighters seen here last year were those between school boys.

Harvesters Pepped Up

So, You'll not only want to see those fights but you'll want to see the "glamor boys" of the Harvester squad, the reserves, play the Children's reserves at 7 o'clock, and the Harvester first string play the Bobcat regulars at 8 o'clock.

The Harvesters are pepped up over Friday night's crowd, and they are "talking it up," and you can bet on it that as long as they have the fans behind them as they did Friday night they're not going to let anybody down. The boys had stage fright for a while, not being used to playing before more than 50 people, but they got inspired and came from behind to win.

Xmas For Russians

MOSCOW, Jan. 6 (AP)—Tonight was "Christmas eve" for thousands of members of the Greek Orthodox church of Russia who celebrate Christmas tomorrow in accordance with the old Russian calendar.

Services were held in the remaining Orthodox churches in Moscow and elsewhere. Many homes had Christmas trees.

The Russian government does not recognize religious holidays.

GOOD FURNITURE AGES BEAUTIFULLY

Good furniture becomes more beautiful with age if cared for lovingly. Daily dusting with a clean, soft cloth and occasional polishing deepens and enriches the natural beauty of the grain. To polish, dust carefully. Then—wring a soft-cloth (cheesecloth is good) out of clear, hot water and let cool. Then spray evenly on the cloth a good furniture polish and apply. Then polish with a clean, dry cloth, rubbing with the grain of the wood until the surface is entirely dry and has attained a beautiful luster.

Speaker Discusses Farmers' Plight

DALLAS, Jan. 6 (AP)—Problems of low-income farmers did not come out of the depression but represent the accumulated troubles of many years," Dr. Will W. Alexander of Washington, D. C., national head of the Farm Security Administration, said here today.

"For this reason," he said, "a return of industry to normal will not solve the farm problem."

"It might pay us to study the economy of the Scandinavian countries," he said. "Democracy has brought the more abundant life, liberty and security in these small countries, despite a thin soil and an unfavorable climate."

Dr. Alexander, who has been traveling unannounced in Texas, said he made the trip in this fashion to get first hand information.

The Sabine farms at Wichita Falls, the negro project at Marshall and numerous individual FSA clients in North Texas have been visited. Dr. Alexander said he was greatly interested in the camps being built in the lower Rio Grand Valley and other South Texas districts for migratory farm laborers.

Romeo, Juliet Return

NEW YORK, Jan. 6 (AP)—George (Romeo) Lowther and his bride of a day, Ellen (Juliet) Herrick, returned late today from New Hampshire, but the expected attempt at reconciliation with the girl's parents still was something for the future.

They flew from north Conway, N. H., where they were married yesterday after an aerial elopement.

Mrs. Walter Herrick, the girl's mother, said she had not heard from her daughter.

Only three American colleges—William and Mary, Harvard, Yale—are older than the University of Havana.

Ballots For C-C Advisory Board Mailed

A second election ballot was mailed to the membership of the Pampa Chamber of Commerce yesterday for the election of the 1940 Advisory Board which will serve with the 15 members of the Board of City Development. The ballots will be tabulated Thursday, Jan. 11, and the new board will be introduced at the membership luncheon Friday noon.

The election committee, composed of M. A. Graham, chairman, J. M. Collins and J. E. Murfee tabulated ballots on which 106 citizens were nominated. The ten who received the highest number of ballots were listed upon the second election ballot from which the five receiving the largest number of votes in the second election will be declared elected.

On the back of the ballot is space for suggestions and President John V. Osborne and other members of the Board of City Development are anxious that every member fill out the back side of the ballot with suggestions for the board to consider in drafting the 1940 program.

The 1939 Advisory Board which will be succeeded by the citizens elected in the new ballot are: Mel B. Davis, Tex DeWeese, E. J. Dun-

gn, Wm. T. Fraser and DeLes Vicars.

Members of the 1940 BCD board follow: John V. Osborne, president; Fred Thompson, vice-president; Roger McConnell, second vice-president; Frank Cuberson, finance director; and W. A. Bratton; Geo. Berlin, J. M. Collins, Frank Dial, Ivy E. Duncan, Wm. T. Fraser, M. A. Graham, Ray J. Hagan, J. E. Murfee, Glen Mordy, Farris C. Oden.

Mexican Revolt Blamed On Indians

HERMOSILLO, Sonora, Mex., Jan. 6 (AP)—The recent revolt in Sonora state was said by Federal officials today to have been instigated by a small group of Mayo Indians who were "misinformed of the Mexican government's attitude toward the church."

General Alfredo Hernandez Lamont, who flew here from Mexico City at the request of President Lazaro Cardenas, said after an investigation that "not more than 50 Mayos" were involved.

Only one skirmish occurred between troops under General Jesus Gutierrez Cazares, chief of the Fourth Military zone, and the rebels. Three of the Mayos were slain. The rest were dispersed.

General Lamont found amazing ignorance among the Mayos, some of whom believe that General Plutarco Elias Calles still was in power. Except for a handful of the Mayo prisoners, all were allowed to return to their homes.

Mainly About People

Pampa Townsend club will meet at 7:30 o'clock tomorrow night in the district court room.

Regular meeting of the county commissioners will be held tomorrow.

Second week of the January term of 3rd district court will open Monday. The first petit jurors of the term are to report. The week is civil-jury and District Judge W. R. Ewing is to call all cases now pending on the civil docket. Among cases set for trial this week are Bert M. Densmore vs. Panhandle & Santa Fe Railway company; Ivy E. Duncan vs. H. B. Lovitt; and State of Texas vs. Jim Hodges.

A newcomer to Pampa this week is Mrs. Blanche Drescher of Dallas, the parents of a son born Friday at Baylor hospital in Dallas and has for the past few years been employed in the laboratory of Dr. Charles F. Carter, Medical Arts Building, Dallas.

Mr. and Mrs. Lee McConnell have returned from Dallas and Mineral Wells.

The condition of Mrs. Roy W. Nowlin of Hobbs, New Mexico, who underwent a major operation in a local hospital, is much improved.

J. J. Ralback of McLeak was brought to Pampa-Jarratt hospital Friday night for treatment of a back injury received when he fell on the ice.

Mr. and Mrs. J. N. Vickerson are the parents of a son born Friday at Pampa-Jarratt hospital. He has been named Earl Hudson.

Johanne Maye Daur, daughter of Mr. and Mrs. R. E. Daur of White Deer, was dismissed from Pampa-Jarratt hospital Saturday.

Toby Waggoner of LeFors was a Pampa visitor Saturday afternoon.

Charlie Draper of Vernon has been added to the sheriff's department as fingerprint expert.

STOP YOUR CHILD FROM READING LIKE THIS

WITH A STUDY LAMP LIKE THIS

Nature made our eyes for seeing in outdoor light—hundreds of times brighter than the light we use for close work indoors. No wonder 40% have eye trouble before they are old enough to vote!

But the scientists have found out ways to combat the appalling high percentage of defective eyes.

They have proved these two things:

1. If eyes (young and old) are examined regularly and defects, if any, are corrected, more people will enjoy better sight.
2. Proper lighting—adequate, shadowless lighting—will materially reduce the number of weary eyes now suffering from eye strain.

Give your child's eyes—and your own—the chance they deserve. Get one of the new I.E.S. Better Sight lamps! These new lamps are scientifically designed to help prevent eyestrain—make reading, studying and sewing easier. And you'll find them moderate in price—displayed and sold by all the better lamp shops. Look for the I.E.S. approval tag on the lamp you buy.

Here is a free service you may have for the asking. Just phone us and say "I would like to have the lighting in my home checked by an expert." We will gladly send one of our trained home lighting specialists without charge or obligation.

Moonshine Liquor Remains Problem Even With Prohibition Days Over

By RAY NEUMANN
Associated Press Staff

Moonshine liquor — associated mainly with prohibition days — still worries enforcement agents but the officers say it ought to give more worry to those who drink it.

The picked squad of state inspectors, who don't hesitate to expose themselves to possible gunfire from moonshiners in the brush thickets of East Texas, refuse to drink it.

In fact, they have testified in court that it was not drinkable, and M. L. (Mac) Eilers, leader of the still squad, is proud of the record that no man under him has been shot during a raid.

"Although the industry gradually is declining due, no doubt, to continuous discouragement by state and federal enforcement agencies, its activities are great enough to keep officers working constantly.

In contrast to Tennessee and Kentucky where moonshiners' lairs are found in mountainous country, Texas' illicit distillers are located mainly in the comparatively flat or rolling country of the eastern portion of the state.

When raiding in the pine wood belt, Eilers and his men wear their guns in plain sight and some carry rifles so there will be no doubt of their identity as officers, and so no moonshiner ever would be able to testify in court that he did not know they were officers.

Testimony of moonshiners that they had shot only at men they be-

lieved were trespassers would damage a case from the viewpoint of enforcement officials.

Eilers says his squad has never shot a man, although they've shot to stop them. One of two bullets kicking up brush or dust to the right or left of a fleeing moonshiner, it seems, usually halts him.

In some sections the raiders always investigate a still site for weapons and often find a rifle cached nearby.

One man always stays with the officers' automobile because moonshiners have been known to slip around and set it afire if left unguarded. Tires have been slashed, sugar poured into the gasoline tank and other things have happened.

Often the raiders lie in the woods several nights in succession waiting for moonshiners to come to their pot and start firing it. They could seize the unfired pots, but refrain when they don't have to because they know the moonshiners always can get another pot.

When the moonshiner himself is arrested, there's less chance of any cooking taking place in the vicinity for some time.

Curbing of moonshiners' activities in Texas is aptly illustrated by the following:

In 1937, inspectors seized 732 stills with a capacity of 51,194 gallons, 194,733 gallons of mash and 5,137 gallons of illicit liquor representing \$841,905 in potential federal and state tax evasion.

In 1938, the number of stills was

East Meets West When Senators Get Heads Together

Talking things over in the Senate subway are Senators William E. Borah, Idaho; Lister Hill, Ala.; Millard Tydings, Md.; Ernest Lundeen, Minn.; and John Bankhead, Ala., brother of the speaker.

nearly identical but gallons were reduced and the tax evasion figure cut to \$698,933.

In 1939, through October, captured stills numbered 432 and potential tax evasion \$465,855. Altogether, in the three years, destroyed stills, mash and liquor represented nearly \$2,000,000 in taxes which would not have been paid.

In May and August of 1937, tax evasion for each month was more than \$100,000 while in September and October of this year the figures were \$30,000 and \$39,000, respectively.

Among counties in which large numbers of illicit stills were seized the three years were Harrison with 252, Titus 112, Harris 109, Wood 90, Bexar 49, Bowie 67, Fayette 44, Houston 46, Jefferson 43, Madison 43, Rusk 41, Smith 47, and Somervell 47.

Hitler's Friend Comes Home

Reported suffering from a gunshot wound, possibly self inflicted, Unity Freeman-Mitford, blond British friend of Adolf Hitler, is shown arriving home in England where she was met by her father, Lord Redesdale, left.

Texas Today

Seventeen new senators may be chosen. The seven-year term would be to the place of Senator Clay Coffey of Palestine, who is not up regularly but may resign. Cotten has been appointed director of the gas utilities division of the railroad commission but has not resigned as senator and has not qualified for the commission position. He has been ill.

If there is no special session of the legislature, it is improbable that Gov. O'Daniel would call a special election to choose a successor to Cotten, even if Cotten resigned. The election probably would be at the time of the July primary, this to save the expense of a special one.

Since 1924, only one of Houston's legislative delegation of six has been defeated. Senator Moore further commented.

In other words, it seems that Houston is one of the safest places from which a member of the legislature can be elected.

Turnover of the legislature may be heavy in many districts, but Houston sends its legislators right back, or has a record for doing so in the past 15 years.

There are various probable reasons, according to Moore. One is that in large cities the "ins" have a considerable advantage over opponents. Their names are better known and it is more difficult for the "outs" to become known. Personal contacts between candidates and voters is not as easy in populous centers as elsewhere. It is impossible for most voters to know any of the candidates personally and they are likely to cast their ballots for names with which they are familiar.

Rumors that he would not run for state treasurer are unfounded. Harry L. McKee of Port Arthur said here. "I am in the race to a finish and believe I will win," said McKee who was a representative in the forty-third, forty-fourth, and forty-fifth legislatures.

In 1938 McKee attempted to unseat Senator Allan Shivers, also of Port Arthur, and failed.

Another who has indicated he will go gunning for Treasurer Charley Lockhart is Rep. Lon E. Alsop of Carthage, chairman of the house committee on contingent expenses and one of the veterans in the legislature's lower branch.

Lockhart is now serving his fifth consecutive term of two years each.

Quenches Fires on Mound, Too

Alex Pitko, Burlington, N. J., volunteer fireman, will forsake smoke-eating role for diamond in spring. A pitcher, he has been signed by Washington Nationals.

Livestock Sales Company To Open Here January 17

Opening of the Pampa Livestock Sales Company, located at Recreation park, east of Pampa on U. S. Highway 60, will occur on Wednesday, January 17, Thomas Cox, owner, said today. Sales are to be held on Wednesday of each week.

The sales barn, stock pens and stables, are leased to Mr. Cox, owner of the Harvester Feed Company, from the city and a forfeit has been posted guaranteeing operation of the plant as a weekly livestock auction until all costs of construction are paid for out of rentals.

Cattle pens are sufficient for 500 or more head and there are individual stables for fine cattle and horses, a spacious enclosed arena for cattle, seating capacity for 400 persons, and scales for weighing.

While the plant is under lease to an individual, Mr. Cox said he viewed it as belonging in a larger sense to the city of Pampa and invited the public to visit the pavilion and inspect it.

The management hopes the plant will become the permanent home of the annual calf club sale, and of the annual poultry show, should the latter be revived, according to Mr. Cox. Breeders of pure-bred Herefords are also urged to use the pavilion for their pure bred sales on days of the week other than Wednesday.

Surplus materials accumulated from the rebuilding of the grandstand at Recreation park last winter were utilized in constructing the livestock sales plant, of which Leonard Green of Mobeetie is auctioneer and Dave Davis of Pampa, manager.

45-Car Train Of Molasses Shipped

CHICAGO, Jan. 6 (AP)—Forty-five tank cars of black-strap molasses was made up today at New Orleans as the first shipment in the history of American railroads under the new train-load rate.

F. H. Law, vice-president in charge of traffic for the Illinois Central railroad, said permission to try the train-load rate as a step toward meeting large competition was granted under an order of the Interstate Commerce Commission.

The train-load rate, he said, applied only to black-strap molasses. The first shipment included 45 tank cars loaded under the new rate of 15 cents a hundred pounds for 38 1/2 carloads or more in a single shipment from New Orleans to a Peoria solvent distilling plant.

Why Place Your Savings Where Your Earnings Are Less?

5 REASONS

Why You Should Place Your Savings In The Security Federal Savings and Loan Assn.

- Your account is fully insured against loss up to \$5,000 by an agency of the United States Government.
- As an additional protection for your savings, loans are made by the Association only to take up first mortgages on improved Real Estate, or to our members on their pledged Certificates.
- No expense is placed on you to open or close your account. We return to you every dollar you have paid in, plus all Dividends that have been credited to your account.
- You may withdraw your savings any time you need the money, or secure a loan on your account by pledging your certificate to the Association, which does not disturb your dividends.
- You do not obligate yourself to pay a stipulated sum each month. You may add to your account whenever you wish. If your payment is received by the 10th of any month, it will start drawing dividends as of the first of the month. Payments made after the 10th day of the month will start drawing dividends from the first day of the following month.

NOW IS THE TIME TO ACT!

Transfer Your Savings to this Association Now! So you will receive A full 6 months dividend on June 30th.

Call 604 or write us tomorrow or come to our office and give us the opportunity of answering any questions you may have about our Insured Savings Plan.

WE HAVE ALL 3 FOR YOUR SAVINGS

Joe Tyson Man Of Year On All-State Team

Westerners Place 2 Men On No. 1 Team

By HAROLD V. RATLIFF
DALLAS, Jan. 6 (AP)—Joe Tyson, the human battering ram from the Plains country, is the man of the year in Texas schoolboy football.

Tyson, main spring of the Lubbock team that smashed its way to the championship, led all other players in the selection of the Associated Press' All-State team.

Sport writers and coaches from every section of Texas cast ballots in the annual poll, with Waco, the runner-up, and Lubbock each placing two players on the first team and with Breckenridge, Austin

The Derwood Mumford who was named center of the Texas All State High school football team is a former Pampa boy. He is the son of Mr. and Mrs. E. H. Mumford and played on the Pampa Junior High school team. Mr. Mumford was a former coach here.

Pampa's Pete Dunaway, one of the top backfield men in the state, received mention for the team. The Harvesters failed to get out of the district and as a result Dunaway's great playing was unknown to most of the writers and coaches. Gill, Amarillo guard, was the only other District I player mentioned other than the Lubbock Westerners stars.

(Houston), Sweetwater, Sulphur Springs, Tyler, Woodrow Wilson (Dallas) and Austin high each getting one.

Tyson polled 23 votes, 18 of them for fullback where he was far ahead, one for quarterback and four for halfback. Next in line was that punting, plunging ace of Woodrow Wilson—Howard (Red) Maley, who drew in 18 votes and landed the quarterback slot.

The next three high men were Jack (Sleepy) Harris of Breckenridge, who was placed at end; Lloyd Myers of Breckenridge, tackle, and James Wright, Sulphur Springs, giant guard. Each got 14 votes. Derwood Mumford, Tyler's mighty center, was next with 13.

Pairing with Harris at end is Harold Stockbridge, the brilliant Austin (Houston) youngster, while Pat Harris, Lubbock's crushing tackle, plays opposite Myers. Harris barely nosed out his teammate, L. A. Storrs.

Gill Makes Guard Working at the guard positions with Wright is Audrey Gill, the 175-pound defensive wonder from Sweetwater.

Jack Harris, Breckenridge tackle, and James Wright, Sulphur Springs, giant guard. Each got 14 votes. Derwood Mumford, Tyler's mighty center, was next with 13.

Pairing with Harris at end is Harold Stockbridge, the brilliant Austin (Houston) youngster, while Pat Harris, Lubbock's crushing tackle, plays opposite Myers. Harris barely nosed out his teammate, L. A. Storrs.

Gill Makes Guard Working at the guard positions with Wright is Audrey Gill, the 175-pound defensive wonder from Sweetwater.

Season's Largest Crowd Sees Pampa Teams Win

beat Francis out by several votes. Lettie Jackson of Lubbock was close to Francis in the battle for the half-back position.

Other backs who scored high were Harold Collins of Breckenridge, Walter Roberts of Tyler and Leverett Bowen of Waco.

Clifford Hill of Lubbock and Orville Post of Waco were far ahead for places on the second team at end. J. W. Green of Gainesville was close to Storrs for a tackle position.

Jack Schaefer of Electra gathered votes both at guard and center, landing at guard, with Arrel Roberts of North Side (Fort Worth), on the second team, while Harry Gardner of Waco was runnerup to Mumford at center.

20,000 Played Many others received votes. Undoubtedly numerous stars were overlooked, because there were some 20,000 boys playing football in Texas this season, but the first team is considered by this writer as about the best balanced ever selected by the Associated Press.

It has great runners, passers, punters, blockers and a line that not only showed up on defense but was a marvel at offense.

Those receiving votes in addition to the ones previously mentioned were:

Ends—Coulter, Masonic Home; Salem, Austin (El Paso); May, Sweetwater; Coltharp, Austin; Fursey, Sulphur Springs; Smith, Electra; A. Roach, Masonic Home; Haliday, Woodrow Wilson; Zavaleta, Brownsville.

Tackles—Johnson, Sweetwater; Alvarez, Bowie (El Paso); Nichols, Laredo; Rodriguez, Brownsville; Brinsidine, Woodrow Wilson; Huffman, San Jacinto (Houston); Vogel, Waco.

Guards—Davis, Austin (El Paso); Moore, Breckenridge (San Antonio); Gill, Amarillo; Hawkins, Austin (Houston); Merriam, Lubbock; Newman, Austin (Houston); Sprowl, Waco; Botkins, Vernon; Pruitt, Childress; Griffin, Austin; Wilkins, Odessa; Land, Masonic Home.

Centers—Bomback, Bowie (El Paso); Spartman, Lubbock; Baldwin, Gladewater; Garrett, Poly (Fort Worth).

Backs—Holder, Wichita Falls; Freese, Sweetwater; Cawthon, Lubbock; End Bryan; McCollum, Waco; G. Rouch, Masonic Home; Alford, Lubbock; Green, Gainesville; Torres, Masonic Home; Purcell, Gainesville; Hendrick, Sweetwater; Butchsky, Yalita; Eley, Electra; Spencer, Comstock; Bryan, Sherman; Wilson, El Paso High; Snipes, Breckenridge (San Antonio); Dunaway, Pampa; Kourek, Austin (Houston); Smalley, Lufkin; Bethel, Big Spring.

Player and School Position Weight
Harold Stockbridge, Austin (Houston) End 164
Jack Harris, Breckenridge Tackle 171
Pat Harris, Lubbock Tackle 171
Lloyd Myers, Waco Tackle 190
Audrey Gill, Sweetwater Guard 174
James Wright, Sulphur Springs Guard 195
Derwood Mumford, Tyler Center 177
Howard Maley, Woodrow Wilson (Dallas) Quarterback 175
Travis Raven, Austin Halfback 181
Francis Pulatite, Waco Halfback 194
Joe Tyson, Lubbock Fullback 163

Player and School Position Weight
Clifford Hill, Lubbock End 170
L. A. Storrs, Lubbock Tackle 166

Harry Gardner, Waco Center 169
Walter Roberts, Tyler Tackle 168
Big Francis, Midland Back 169
Lettie Jackson, Lubbock Back 164
Harold Collins, Breckenridge Back 175

'Goobar' Keyes Named Head Coach Of Westerners

LUBBOCK, Jan. 6 (AP)—J. G. (Goobar) Keyes was named head coach and Walker Nichols line coach of the Lubbock High School Westerners, State Interscholastic football champions of 1939, by unanimous vote of the school's board of trustees Friday.

Keyes, former Abilene Christian College backfield star, served as chief assistant to the late Weldon B. Chapman and Nichols, former "watch charm" guard and captain at Texas Tech, was coach of the Lubbock High "B" squad until Chapman's death Nov. 11. At that time Keyes was named acting head coach and Nichols was moved up to coach the line.

Under their direction the Westerners won the state championship, defeating Waco, 20-14, at Dallas. Keyes came to Lubbock as Chapman's assistant in the fall of 1935 after coaching successfully at Cross Plains and Albany, Nichols, a Texas Tech graduate of 1936, joined the high school coaching staff the following Autumn.

The school board considered no other applications, although it had a list on file, and voted salary increases for Keyes and Nichols, effective immediately. Their contracts will extend through 1940.

A basketball player is not supposed to ever think about the ones he missed, but the "Goobar" Keyes missed 23 shots under the basket in the first half. Red Boardman fouled out, as did Crowell for Green. Black was high-point man for Green. The score was tied several times during the game.

Two Changes Made In Grid Rule Book
CHICAGO, Jan. 6 (AP)—The National Interscholastic Football Rules committee wrote two more changes into the 1940 book today.

In their action, added to yesterday's alterations, represented a total of four changes in the high school game during the committee's two-day meeting. Several other proposals were rejected to permit further study and experimentation.

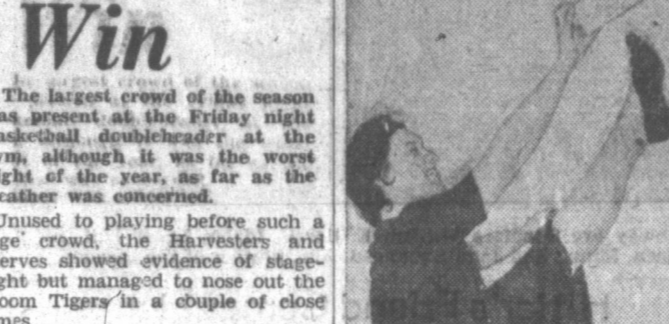

Today's changes:
1. The referee will be instructed to whistle the ball dead as soon as he observes an illegal shift. Thus there can be no declination of a penalty for this foul. The change is designed to eliminate waste action.

2. The penalty for any foul which occurs on a rushing play will be enforced either from the spot of the foul or where the ball is dead, the offended team having the option of choosing the spot. The only exception will be when the foul occurred in advance of where the ball is dead, in which case the penalty will be enforced from that spot.

The two rules changes yesterday were designed to clarify forward pass regulations.

The committee made it legal for two eligible receivers of the offensive team to touch an aerial before a defensive player had touched it. The other change ruled that any penalty on a forward pass into the end zone is always invoked from the spot of the previous down on the first three downs.

GRID COACH

That the Bradford, Pa., High school football team hasn't lost a game in the two seasons she has coached the backfield, will be credited to Miriam Kreinson, dancing instructor, who taught the huskies ballet steps. Above, she demonstrates kicking technique during a recent visit to New York.

Oil Belt league teams rolled Thursday night with the Texas company taking three straight from Gunn-Hinerman and the Kiwanis club winning two out of three from Dr. Pepper.

DRIVE AWAY IN A NEW CAR

Leave Trouble Behind!

First games in the Panhandle Junior High basketball league will be played here on Friday afternoon beginning at 4 o'clock. The league is composed of two Pampa school teams, the Junior High Reapers and the Sophomores, and three Amarillo Junior High schools.

Each team will play eight games, home and home with each of the other teams in the league.

The Pampa Reapers, coached by C. P. McWright, have been practicing for nearly two months. Although the coach hasn't definitely named a starting five, his first string will probably be Arthur and Castleberry, forwards; Thompson, center; Proper and Dunham or Laird, guards.

The Sophomores, coached by Oscar Hinger, have been working nearly as long. The Sophomore starters will probably be Berge and Shaw, forwards; Flanagan, center; Hatter and Allan or Cox, guards.

Schedule for the two Pampa teams follows:

January 12
Horace Mann vs. Pampa Reapers, here.

January 13
Sam Houston vs. Pampa Sophomores, here.

January 14
Pampa Reapers vs. Central, at Amarillo.

January 15
Pampa Sophomores vs. Horace Mann, at Amarillo.

January 16
Pampa Reapers vs. Pampa Sophomores, here.

February 2
Pampa Sophomores vs. Pampa Reapers, here.

February 9
Horace Mann vs. Pampa Reapers, here.

February 13
Sam Houston vs. Pampa Sophomores, there.

February 13
Pampa Reapers vs. Sam Houston, there.

February 16
Pampa Sophomores vs. Central, here.

February 16
Pampa Juniors vs. Central, here.

February 16
Pampa Sophomores vs. Horace Mann, here.

February 23
Pampa Juniors vs. Sam Houston, there.

February 23
Pampa Sophomores vs. Central, there.

Yankees Will Not Release Gehrig

NEW YORK, Jan. 6 (AP)—The New York Yankees gave another bow today to Lou Gehrig, the great first baseman who was forced to retire last season because of a form of infantile paralysis.

President Edward G. Barrow announced that Gehrig would not be given an unconditional release, but his name would be placed on the voluntarily retired list.

Furthermore, Barrow said Gehrig's uniform number—a big four—never will be allotted to any other Yankee player and that his locker over by the window in a corner of the clubhouse will not be used by any other player. Gehrig's name will remain on the door and it will always be available for his personal use.

Gehrig became a member of New York City's prison parole board January 1.

DALLAS, Jan. 6 (AP)—Lew Jenkins of Sweetwater, the National Boxing Association's No. 4 challenger for Lou Ambers' lightweight crown, will meet either Lew Feldman of Brooklyn or Chico Alvarez here late this month, promoter Dick Griffin announced today.

Griffin said the bout would be in ten rounds and would be held either Jan. 19 or Jan. 22.

NEW YORK, Jan. 6 (AP)—1940 championship dates and sites approved at today's meeting of the United States Golf Association:

National open—June 6-8 at Canterbury golf club, Warrenville, O.; entries close May 14; sectional qualifying rounds May 17.

National amateurs—Sept. 9-14 at Winged Foot golf club, Mamaroneck, N. Y.; entries close Aug. 13; sectional qualifying rounds Aug. 27.

National Public Links—July 22-27 at Rackham golf course, Detroit; sectional qualifying dates to be announced.

National Women's—Sept. 23-28 at Del Monte (Calif.) golf and country club; entries close Sept. 6.

Walker Cup Match—Scheduled for Aug. 30-31 at town and country club; St. Paul; invitation has been extended to royal and ancient golf club of St. Andrew's, golf's ruling body in Great Britain, but latter to date neither has accepted nor declined; little likelihood it will be played.

PHILADELPHIA, Jan. 6—In his first week at the sport, Berling, Philadelphia's former all-around star, broke 48 out of 50 targets trapshooting.

EVANSTON, Jan. 6—This was the first year in Lynn O. Waldorf's 15 as a football coach that the Northwestern mentor lost more games than he won.

NEW YORK, Jan. 6—Fordham picked the entire right side of Tulane's line in its all-opponent team. Selected were Tommy O'Boyle, guard; Harley McCollum, tackle, and Ralph Wenzel, end.

Dizzy Dean Vows He'll Never Pitch For \$10,000

By FELIX R. MCKNIGHT
DALLAS, Jan. 6 (AP)—Dizzy Dean, a changed man, retired with his \$155,000 lame arm today and quietly said he would decay in the fiery of his Dallas mansion before accepting \$10,000 to pitch for the Chicago Cubs.

Milder, and fully aware that he is walking into the evening of one of baseball's greatest careers, Dean stressed he had no quarrel with Phil Wrigley and the Cubs but "just figured that a 50 per cent cut is a little too much."

"Gee, that's no cut, it's a major operation," grinned Dizzy. "There's no finer man in baseball than Mr. Wrigley. I don't think he intended to cut my salary \$10,000. I expected a cut, knew I deserved it after struggling around with a bad arm last year, but I honestly believe I'm worth \$15,000 to the club."

"The last two years have been hard for me. I haven't had my stuff and I know it. Really, I'd sooner

quit baseball than sit on the bench and watch my heart broken."

The new Dean, a hulking country boy who loves to throw baseballs, kept on talking. He was dead serious.

"I've talked a lot in my day, but quite me right on this, will you? My back and this is my last chance in baseball. If I don't make it this time, I'm through forever. I've got a farm near Dallas and that's where I'll go if I don't make it with Gaby and the boys this season."

"Why if I didn't think there was a chance for me, I would have sent that contract back if it had carried a \$10,000 raise instead of a cut. Baseball has been good to me. I've given it my best. Now I want this last chance."

Next Wednesday Dizzy goes to a dentist to have an impacted wisdom tooth extracted.

Tooth May Be To Blame He believes, as do several dentists,

that the tooth might be bothering the nerve in his shoulder, that wrecked one of the finest pitching arms baseball has ever known. X-ray pictures showed the tooth to be badly impacted.

Should the extraction return that big right arm to normal, Dean said he believed he still had ten years of baseball left.

Snow flattered outside and Dean worked his pitching arm high over his head.

"One year ago, in this kind of weather, I couldn't even do this. I couldn't hold anything heavy in my hand. My arm feels great now, but of course I don't know whether I can pitch. I'll know in the spring."

Dean didn't seek this holdout publicity. His telephone is unlisted and it almost takes an act of Congress to get inside his home. Days ago he returned his unsigned contract. The word seeped out of Chicago, not from Dean.

"So you see," Dizzy concluded, "I'm trying hard. My heart is in this game. Remember that 1938 world series when Frankie Crosetti ruined my game that day with his home run in the eighth inning on a 3 and 2 ball? I didn't have anything that day—just my nerve and my heart."

"When Crosetti started circling the bases I trotted along behind him. I believed to him: 'Frankie, you ruined my best game, but you never would have hit that homer off me three years ago. I would have breezed three straight past you.'"

"Frankie looked back over his shoulder and said: 'I know it, Dizzy.'"

Havana stood as a city fully 100 years before the first houses were built in what was to become New York.

Nazi Seamen Keep War Waters Safe for German Ships

Keeping the North Sea clear of mines laid to trap German warships or submarines is the risky job assigned these Nazi seamen. All members of the crew wear life preservers, since at any moment they may be forced to leave the vessel if it strikes an enemy mine.

BEN LINDSEY SITS IN JURORLESS CALIFORNIA COURT

Judge Ben B. Lindsey: Sits in California's new Children's Court of Conciliation.

By BILL PORTER
NEA Service Staff Correspondent
LOS ANGELES, Jan. 6—A strange new type of divorce court—where embittered parents sit around a table with the judge and fight it out—is passing its experimental stage here in California, where nothing is strange.

It's a court without a bench, jury, bailiff or sworn witnesses. It does have a judge, Ben B. Lindsey, who made himself famous by sitting in Denver juvenile court and by writing books like the "Beast in the Jungle" and bringing out such schemes as companionate marriage.

The new division, Children's Court of Conciliation, was created by the last legislature at Judge Lindsey's request, and two months ago he assumed the bench. It is designed to bring divorce-bound parents back into peaceful matrimony if possible, otherwise to protect their children.

TWO ROADS TO DIVORCE

Since the new court was created, there are two methods for parents to go about a divorce:

1. Divorce action may be filed in the Domestic Relations Court. It will be calendared and there will follow the usual haggling over separate maintenance, custody of children, attorney fees and other details.

2. Either of the two people may file a pre-divorce notice in the Children's Court of Conciliation. There will be a hearing and it will be 30 days before either party may file for actual divorce in Domestic Relations Court.

Even if the first action is taken, the case first will be sent to the Children's Court so that child problems may be settled before the case is taken into Domestic Relations Court.

Then Judge Lindsey calls a hearing. The couple reports to the judge and all sit around a table with him, smoke a cigar and generally let down their back hair on the matter of a divorce.

Judge Lindsey said, "Lots of couples think they want divorce when they don't. Still, once they start the action they have too much false pride to back out."

CHANCE TO AIR GRIEVANCES

"This court gives such parents a chance to air their troubles, to put all their grief on the table in front of the judge. In that way we hope to be able to put our finger on the trouble and remedy it."

The principals at these hearings have the right to bring lawyers, witnesses, and all the documents and data they wish, but they are not necessary. If the principals wish, they may have separate conferences and then a final meeting with both of them present.

The records of these cases are secret and may not be used against either party in Domestic Relations Court.

In these hearings there is no oath to be sworn. "That would make the Children's Court just another cog in the divorce mill," said Judge Lindsey. "This will be a court of friendliness even if the respondents won't be friends."

The court has the power to enter divorce decrees in cases of default or where a domestic relations court would have similar authority. Cases that can't be settled in the Children's Court will be sent to other courts for regular hearing and disposal. But so far, 30 per cent of the cases have been reconciled.

Here is a sample of how Judge Lindsey runs the court:
A couple married eight or nine

years, with two children five and eight years old were having trouble. The husband went to his lawyer about a divorce. The wife went to Judge Lindsey.

At the court's call, husband and wife conferred with the judge for 40 minutes.

At the end of that time, Judge Lindsey entered this order:
"Sept. 29, 1939. Couple reconciled. Wife to get pay check each week. Couple to live on a budget. Husband must go to church with wife on Sunday night at least occasionally. Family to be taken to beach week-ends. Husband agrees to plant garden and all will work it."

Three File For Carson Offices

PANHANDLE, Jan. 6—Only three candidates have officially announced for office, however as far as can be learned at the present time all of the present incumbents will seek reelection. Mrs. Eva E. Craig, present county treasurer has announced for reelection, Parker McCollough, county clerk will run again, and C. H. Huff has announced he will be a candidate for the office of Sheriff, tax assessor and collector.

The present officials are Sheriff, T. B. Harris; Commissioners, George Cressman, Precinct 1; A. D. Bender, Precinct 2; J. E. Witten, Precinct 3; and Dick Dickens, Precinct 4. District Attorney, W. L. McConnell; County Attorney, Frank Murray; County Treasurer, Eva E. Craig; County Judge, J. C. Jackson; Justices of the Peace, Panhandle, Fred Reiner, Skellytown, A. J. McBee, White Deer, J. W. Wells, Groom, W. J. Williams; Constables, Panhandle, Leon Pingleton, Skellytown, Lem Wall, White Deer, O. H. Rector, and Groom, B. E. Steward.

Here's Looking at Senator Taft

Here's a Republican's eye view of Ohio's Senator Robert Taft who is one of the party's favored sons for the role of presidential candidate this fall. He has just finished a campaign swing around the country.

Great Britain Indifferent To U. S. Protests

By ANDRUE BERDING
WASHINGTON, Jan. 6 (AP)—The administration, heartily sympathizing with Great Britain in her fight with Germany, finds itself in the uncomfortable position of emphatically asserting American rights in the face of British belligerent activities.

During the opening months of the European war, it appeared that there would be no recurrence of the acrimonious debate with England, engendered by the world war, but now a period of strong assertion of American rights is unfolding.

Officials had hoped relations with Britain would go along smoothly, and are frankly disappointed that they have not.

Already three notes have had to be dispatched to London complaining against infringement of American rights by British belligerent activities, and there is every likelihood that there will be more.

The United States objected to Britain's blockade of German exports to this country, to Britain's interference with American mails and to Britain's taking American ships into her control ports through the combat area which they are forbidden by American law to enter.

The British ministry of economic warfare promised that "in very exceptional circumstances" German exports to the United States would be permitted to come through. But none of the three notes has been answered.

Nor have answers come to notes dispatched, on behalf of the United States and other American republics, by the President of Panama, announcing the creation of the western hemisphere neutrality zone and protesting violations of the zone.

Homer Rankin Wins Flight To Miami

MIAMI, Jan. 6 (AP)—Strreaking along at 234,097 miles an hour on a non-stop dash from St. Louis, Homer Rankin of Wichita, Kas., today won the Bernat MacFadden cross-country trophy sprint, feature event of the All American air races.

Flying a twin-engine Beechcraft monoplane, Rankin required only 4 hours 37 minutes 50 seconds to complete the 1,084-mile flight and win top prize of \$3,000 over a field of eight other pilots entered from St. Louis, New York City and Houston.

Russell Holderman of Rochester, who started his flight from New York, won second prize of \$2,000 and William Cason of San Antonio, who started from Houston, placed third to win \$1,500.

Holderman, who flew a twin-engine Lockheed, covered the 1,168 miles from New York in 5 hours 36 minutes 1 second for an average speed of 206.561 miles an hour. Cason flew 1,143 miles from Houston in 5 hours 52 minutes 35 seconds for a speed of 194.507 miles an hour.

Winners of the race, open to strictly stock model craft with advertised minimum cruising speeds of 150 miles an hour or more, were determined on the basis of elapsed time.

Dollars Work Magic...

PAMPA'S DOLLAR DAY TOMORROW...

Your favorite stores all over town are out to make this Dollar Day sale the best of them all. Judge Young Hearing Gas Case In Trial

Justice of the Peace E. F. Young will likely have his third day on the bench of District Judge W. R. Ewing tomorrow, unless the opening of the second week of the current term of district court prevents hearing a case started Friday.

Not that Justice Young has superseded Judge Ewing—it's only because the justice has a case that requires a six-man jury and eight lawyers. The justice's office on the first floor is not equipped for such a trial; hence, the district court room is in use. The county court room could not be used, as painters were at work there Friday.

Styied Melissa Bradford, individually and as independent executrix and sole devisee and legate of the estate of C. W. Bradford, deceased, vs. Phillips Petroleum company, the action technically for a debt of \$1.39, according to the entry in the justice court docket.

Claims Eighth Interest.

The \$1.39 however, represents the difference between the 49 cents per thousand cubic feet of gas and the 6 cents per thousand cubic feet of gas allegedly due the plaintiff, according to plaintiff's attorneys.

Under an oil and gas mineral lease it is claimed that plaintiff is entitled to a one-eighth interest from the sale of gas taken from the northeast quarter of the northwest quarter of section 148, block B-2, Sec. 35, T. 10N., R. 10E., Gray county. The oil and gas lease, held by the Phillips Petroleum company was executed by Mr. and Mrs. C. W. Bradford to H. T. McGee on March 16, 1926, insofar as it applies to the land above described, according to papers filed in the case.

Production, the Question.

Gas Production in September, 1939, is the question involved in the matter.

A cross action filed by the defense alleges that plaintiff was overpaid \$191 some time ago.

Testimony thus far in the case has included that of Bill Barrett, Phillips superintendent, the plaintiff, and the Phillips company auditor from Bartlesville.

There has been much questioning by the plaintiff's attorneys as to production methods, reports, meters, the location of various pipelines and plants, and technical definitions of kinds of gas.

Jurors hearing the case are H. C. Cottrell, Harold Wright, who is also a member of the present grand jury, L. R. Gise, Jim Hatfield, C. C. Spencer, and Edgar L. Anderson.

Attorneys for the plaintiff are John F. Studer of Pampa, Walter J. Loftis, Vance Huff, and H. E. Vineyard, all of Amarillo, for the defense, Sturgeon & Sturgeon of Pampa, E. H. Foster and Warren Sparks of Amarillo.

Pay Cash For U. S. Defense, Rayburn Says In Maryland

BALTIMORE, Jan. 6 (AP)—House Majority Leader Rayburn (D-Tex.) said tonight he was convinced the American people "would rather pay cash for additional security against any possible aggression than to have such security by deficit-financing or by increasing the national debt."

Rayburn expressed his views in an address prepared for delivery at the Concord club where a "Jackson Day dinner" was held two days in advance of a nation-wide series of such Democratic party gatherings.

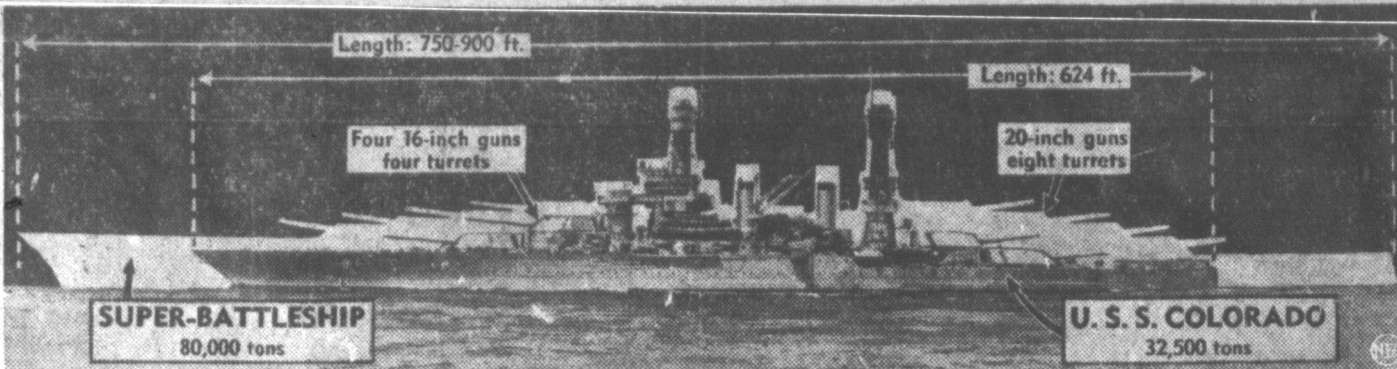

"If we are going to make other nations who purchase the means of their national defense from us pay cash," Rayburn said, "we ought to be willing to pay cash for our own national defense."

Asserting the administration's revised neutrality law had "exceeded the hopes of all in its successful operation," Rayburn declared that statute had changed the public's attitude toward the question of the United States' involvement in the European war "from one of fatalism to one of hopefulness."

"We are going to stay out of foreign wars," he added, "we are going to remain at home; we are going to try to solve our own problems, and we are going to fulfill our own destiny."

After reviewing the accomplishments of the Roosevelt administration, which he said restored the morale of the people, Rayburn said: "Naturally, the Democratic ad-

Proposed 80,000-Ton Battleships Would Make U. S. Coasts Invincible

Here is how the 80,000-ton super-battleship proposed by Representative Melvin J. Maas (Rep., Minn.) would outclass one of the U. S. Navy's largest modern battleships, the 32,500-ton Colorado. Representative Maas suggested the U. S. forget "small" war vessels of the Colorado's size and build enough of the gigantic battleships to make both American coasts invincible.

Bride, Wedding Party, Walk With Death

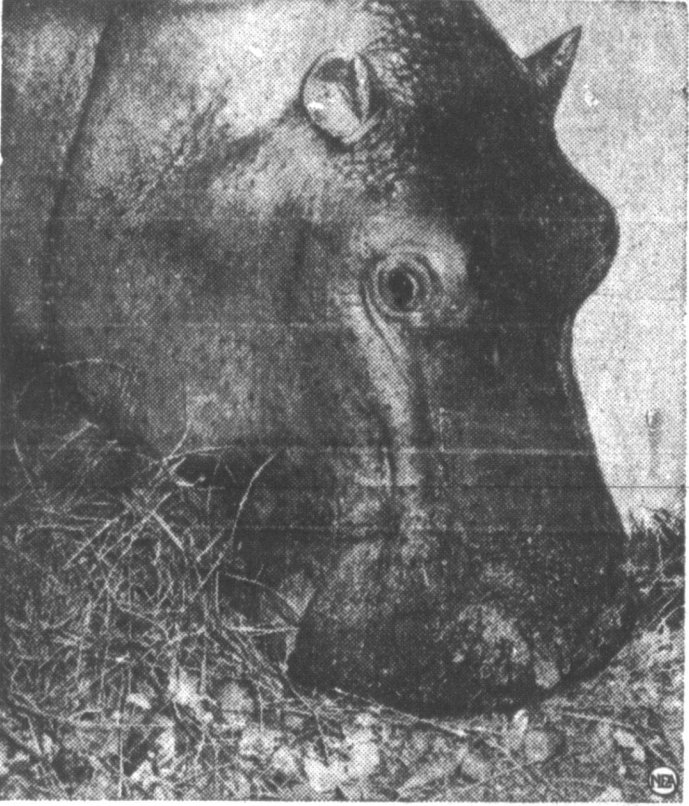

A white-clad "bride" with a corsage of roses, followed by train bearers, "bridesmaids" and "ushers," followed the casket of Albert Horvath who was buried at Pittsburgh, Pa. The "bride," Irene Gerber, who was to have married Horvath, complied with his dying request to "Please carry out the wedding at my funeral." The strange "wedding" party, above, walked to the tune of a dirge by Gipsy musicians with one vacant place in their ranks—Horvath's. He was stricken with pneumonia while planning for the wedding.

Bride Is Victim in Mystery Death

Lying dead or unconscious across tracks of an interurban electric line, near South Bend, Ind., Mrs. Irene Smith, 26, bride of six weeks, was run over when motorman failed to see her in time. Marks found near scene led police to believe she had been dragged onto tracks and murdered.

Diet Over, Cleo's Figure Is Doomed

It looks like Cleo will lose her figure after all. Now back on regular rations, this Kansas City hippopotamus is rapidly regaining the five pounds she lost in 10 days of dieting. Zoo officials tried to cut her to two bushels of vegetables and a half bale of hay daily, but found their temperamental hippo quite content to keep her 4500 pounds.

Superstitious Bidder On Land Encloses Button

By WILLIAM E. KEYS

AUSTIN, Jan. 6 (AP)—Now that employes have emerged from a sea of more than 10,000 sealed bids for 205,000 acres of surveyed school lands, biggest general sale in years, some interesting facts of the state's real estate business turn up.

There was the bidder, evidently a superstitious one, who cut a button from his overcoat and sent it with his bid—as "a good luck bonus." Land Commissioner Bascom Giles carries it now as a lucky piece.

A second bidder enclosed a buffalo nickel, along with his check, to make his offer "lucky."

Consider another prospective—and cautious—purchaser who asked the state school land board to award him a tract. If it suited him, he explained, he would then make the required 1-40th down payment. But the law requires a part payment accompany the bid.

Bid opening began Jan. 3 at 10 a. m. and ended Jan. 5 at 11 a. m. A relay of employes read aloud for 16 hours and 15 minutes on regular offers—and 45 minutes on those not meeting the law's requirements in one way or another.

The top offer for land in any one of the 107 counties involved, a parcel in Lubbock county, was \$41 an acre. But it had to be withdrawn because the present owner who had defaulted payments reinstated his purchase.

Cash offers for \$29,000 and \$10,616 for tracts in Pecos county were received. Numerous bids of \$5, \$10 and \$25 turned up.

Some samples: \$16.40 an acre in Abilene county; \$25 in Bell county; \$6 in Dallas county; \$11.05 in Dimmitt county; \$21 in Duval county; \$3.12 in Cochran county; \$12.76 in Crane county; \$8 in Culbertson county; \$10 in Hale county; \$3.35 in Hartley county; \$25.11 in Lamb county; \$16.40 in Jefferson county; and \$11.11 in Travis county.

Workers are still tabulating the bids and awards cannot be announced for three or perhaps four weeks.

Gulf Lease House Destroyed By Fire

Fire, believed to have originated in wiring of the house above the bathroom, destroyed the house occupied by Howard Hoover and family on the Gulf Oil company's Saunderson lease five miles east of town at 1:30 o'clock yesterday morning.

Hoover, a roustabout, had come home early Saturday morning. He discovered the blaze, but the fire was too far advanced and as there were no lights, the fire could not successfully be fought. Some of the furniture in the house was saved, however.

No one was injured in the fire, the second the family has experienced within the past few years.

London Publisher 'Explains' War Debt

NEW YORK, Jan. 6 (AP)—Lord Beaverbrook, London newspaper publisher, asserted today the United States forced Great Britain off the gold standard in 1931.

He also declared that when this country dropped the gold standard, British citizens who held American bonds were forced to accept paper dollars, worth 40 per cent less than the gold guaranteed, when the bonds were redeemed.

Beaverbrook made the statements in a 3,000-word article published in "The London Daily Express," and cabled to his representative in New York, who made it public.

The article was Beaverbrook's version of the history of the war debt controversy between Britain and the United States. In it, he said he hoped his views would "modify criticism" of Great Britain in this country.

The publisher said former Prime Minister Stanley Baldwin, now Lord Baldwin, had defied his superior, Prime Minister Bonar Law, in making "impossible" agreement to pay America gold in 1923, when Baldwin was chancellor of the exchequer and head of the government's debt commission to Washington.

The payment of \$2,000,000,000 in gold virtually emptied Britain's treasury, Beaverbrook said, and precipitated the financial crisis which forced England to abandon the gold standard.

Rumanians 'Ready To Die' To Defend Borders, Says Carol

BUCHAREST, Jan. 6 (AP)—King Carol declared that all Rumanians "are ready to die together to defend their borders" in a stirring speech today interpreted throughout the Balkans as a warning to both Russia and Hungary.

He spoke only 12 miles from the Russian frontier at Chisinau (Kishinev), capital of Bessarabia, the province that was Russian until 1918. Russia and Hungary have been insistent in demands for return of territories they lost to Rumania in the world war settlement.

The occasion was a big review of land and air forces. The King reiterated his government's refusal to consider any change in the national frontiers, by peace or war.

After leaders of Bessarabia's Russian, Ukrainian and German minorities publicly declared allegiance to Rumania, the King declared the province "will always remain Rumanian by the force of our arms."

The speech also was interpreted as a reply to Hungarian efforts, encouraged by Italy, to regain Transylvania by negotiation.

A declaration along similar lines was made by Premier George Tatarescu Jan. 1 at Constanta, Black Sea port. He mentioned Bucovina, formerly Austrian, as well as Bessarabia.

Country United.

"The whole country is united as one man," insisted General George Argeanu of the third army corps in a speech welcoming Carol. "It will not be difficult to defend our fatherland from the Dniester to the Tisza rivers."

The reference to the Dniester river, which forms the Russian-Rumanian frontier, underlined Carol's warning to the Soviets. The Tisza helps mark the boundary with Hungary.

The King's speech, coming at a moment when the Italian Foreign Minister, Count Galeazzo Ciano and the Hungarian Foreign Minister, Count Istvan Csaky, were conferring at Venice, coincided with reports in well-informed quarters here that Hungary, backed by Italy, had offered help to defend Rumania against any Soviet Russian invasion. In return for this help, these circles had it, Hungary would receive about 70 per cent of Transylvania.

Should Carol refuse such an arrangement—and today's speech was interpreted as a refusal—Rumania would be left to oppose Soviet Russia alone.

Soil Plan Menaced

AMARILLO, Jan. 6 (AP)—H. H. Fennell, regional soil conservator, said today reduced Federal appropriations for soil conservation work recommended by President Roosevelt means that "dust bowl" farmers will need to coordinate and expand local efforts if gains of recent years in checking soil erosion are to be maintained.

MODERN MENUS

By MRS. GAYNOR MADDOX
Sandwiches are nice, but a hot meat or sea food is nicer. Try this year's curry with dishes of condiments to add interest.

Veal Curry with Molasses
Two and one-half pounds cooked veal, sliced; 1 teaspoon salt, 3 medium sized onions, minced; 6 stalks celery, minced; 2 apples, minced; 1/4 cup curry powder, 1/2 teaspoon pepper, 1/2 teaspoon ginger, 1 pound rice, 1/2 teaspoon tabasco sauce, 1 tablespoon Worcestershire sauce, 1/2 cup cold water, 2 egg yolks, well beaten; 2 tablespoons butter, 1/2 cup New Orleans molasses, 2 cups meat stock.

Saute veal, onions, celery and apples in frying pan or sauce pan. Pour in meat stock and stir in curry powder and simmer for 5 minutes. Add molasses and other seasonings and meat, and cook for 20 minutes. Pour in the water and cook for 5 minutes, stirring until thickened. When ready to serve, add egg yolk and heat to boiling, stirring constantly. Serve in hot rice ring.

Condiments: Serve curry with chutney, shredded fresh coconut, chopped peanuts, chopped hard-boiled egg yolks, chopped cooked egg whites and sliced crisp bacon. Bevilad Eggs in Southern Cream Pie

Here's another hot dish, easy to make, and a good beginning for the new year.
Two cups whole kernel corn, 2 tablespoons chopped deviled ham,

1 tablespoon sugar, salt and pepper to taste, 1 green pimiento, chopped; 2 cups milk, 3 eggs, 1/2 cup shredded coconut.
Beat eggs slightly. Combine with all other ingredients except coconut. Turn into deep baking dish. Sprinkle lightly with powdered sugar and shredded coconut. Bake in moderate oven (350 degrees F.) until firm. Serve piping hot with corn muffins or baking powder biscuits.

Federated Women's Club Board To Have Meeting In Austin

AUSTIN, Jan. 6—Members of the Board of Directors of Texas Federated Women's clubs will attend the mid-winter state board meeting of the organization in Austin January 8 and 9. The meeting will be held at the \$250,000 club building, which was recently freed from debt.

Members of the executive committee, which is made up of the state's elective officers and two members appointed by the president; the finance committee; the board of trustees; and presidents of the eight districts of Texas will attend a dinner and business meeting at the building Monday night, January 8, at 7 o'clock.

Tuesday morning the Board of Directors, which includes the above officers and members of the standing committees and nine departments of work, will have a business meeting, which will be followed by a luncheon at 1 o'clock.

Stuffed tomatoes with left-over macaroni in cheese sauce. Sprinkle with crumbs, dot with butter and a little paprika and bake until tomato is tender and crumbs nicely browned.

Legless Beauty Selects Trousseau

Jessie Simpson (right), Teaneck, N. J., beauty who lost her legs in a railroad accident, is pictured in New York selecting a trousseau for her marriage on January 19, to James Steward of Hackensack, N. J. Above, at a private fashion show in the Hotel New Yorker, she inspects a bridal outfit worn by Florence Drew. At left, Monie Meincke models a bridesmaid's gown.

Rally By French Designers Averts War Style Eclipse

NEW YORK, Jan. 6—You've seen Mrs. Simpson's trousseau, which looked like death to inspiration and fashion progress, reopened their war-closed salons to show midseason collections on schedule.

The most optimistic launched springtime clothes while others stressed the use of heavier woollens and furs for a practical wartime winter. Throughout the collections, silhouettes avoided extremes, trimmings were muted and colors were softened.

Military influences inspired silhouettes and designs. The leading coat mod' followed the lines of an officer's coat characterized by loosely belted waist and high closed neck with a small turnover collar. It carried military insignia in gold embroidery and its sleeves showed service stripes in silver braid. Other military accents included aviator's wings spangled on evening dresses and silver anchors embroidered on afternoon frocks.

Hoods for Raid Outfits
More peaceful in inspiration were long caps copied from nurses' uniforms. These made ensembles with matching frocks for sportswomen and afternoon. Many capes were hooded and some were lined with fur. Hoods were also used widely on coats. Hooded costumes, specially designed for night raids, were either long woolen robes buttoned down front or covered one-piece suits in mechanician style.

While some houses borrowed boldly from army and navy sources, others made a point of avoiding all military references. These emphasized a feminine note in silhouettes having long molded bodies with the bustline well defined and short full skirts. Day skirts were generally short with knees scarcely concealed. They were often flared by means of a circular cut or pleating. Some featured pronounced front fullness with flat back. Feminine styles had tight waists without belts. Some had waists dropped low in back. Necks were high. Dress sleeves were long and tight or designed in full bishop style.

Corset Silhouette Dropped
One of the new silhouettes abandoned the tight-corsetted figure in favor of free lines of the revival of the one-piece Chinese dress, easy to pack for car or clipper travel. Folding hats are another practical wartime travel item.

Besides belted, fitted coats, many swaggy styles were shown. Some had wide loose jackets, but most of them had fitted hip-length jackets, or brief boleros. Collections showed loose beaver coats and fitted models in astrakhan and shaved lamb. Some silver and blue fox was used for collars.

New wartime trend for evening featured short-skirted ensembles for restaurant or cinema with long-skirted evening styles for private dining or hostess wear. Dinner models had slim silhouettes, high necks, severely tight long sleeves, and waistlines were usually draped instead of belted. "Washer-woman" dresses had skirts that could be shortened to day length or dropped to "nuptials." Nailhead and palette embroidery were principal evening trimming. Hoods for evening were often part of dress drapery. Some houses designed more elaborate models with wide skirts, designed for export trade only—chiefly America.

Fabrics and Colors
Fabrics included angora, jerseys, rough tweeds, smooth wools, flannels, plaids, checks, twills and printed silks, plain and self-figured crepes. Evening fabrics were black wools, heavy dull crepes, wool-and-silk jerseys, satin and lace. Principal day colors were "guardsman red, horizon blue, trench brown, grays, light and dark navy blue, olive and almond greens, soft purples, wine reds, sand color, black. Evening colors are black, white, purple and gray.

Since the turn of the century the average life span of the white boy baby has increased 12 and 1/2 years.

'Past-40' Model Tells How To Shed 'Past-40' Flaws

By BETTY CLARKE

PARIS, Jan. 6—French dressmaker photograph everywhere—as an over-forty woman giving her married daughter advice about baking powder, as a well-roomed middle-aged hostess, as a model in countless fashion pictures.

She's Edna Blue, top-notch older woman model for John Powers. I've known Miss Blue (she's a Mrs. in private life) since 1938. The first time I saw her I was checking over possible models for older women's bathing suits. Miss Blue was willing to pose in bathing suits—although she did wear a size 18 or 20. And I liked her as a person. So we did a little extra-careful selection among the bathing suits and picked out two that were particularly good at camouflage.

The next time I ran across Miss Blue she was seriously at work in a beauty culture class—learning how to reduce to stand to walk, to use make-up to the greatest advantage. Exercises Seriously

Today, Miss Blue, who is nearly 47, is a size 12. She is in constant demand as a model. And she is glad about the whole business. "My husband thinks it's grand," he remarks happily. "He encourages me to keep up my exercises."

"And my youngest daughter, Virginia, says she can't wait until she's 40 to make herself over."

What does she think most older women need to correct in their personal appearance? "Posture comes first."

"A lot of older women have sway-back posture and round shoulders," she says. "I had them myself. The correct exercises will straighten that out."

Reducing is equally important. "But they just don't do anything about it."

"I think any older woman with the will power can get herself down. The first week is the hardest. After that it's simple. When you begin to get into smaller dresses, when you really see the results, then nothing can stop you."

Double chins are a by-product of both overweight and bad posture. They come next.

Bad makeup rates fourth place. "Women don't know anything much about make-up," she says. "They just dab it on—when they use it. And they use either too little or too much."

"They don't take care of their skins, either," she concludes. "You know an older woman's skin is apt to be dry, so she ought to use a cream."

"But she doesn't know anything about creams. So she lets it go—or else she uses way too much cream."

ATTRACTIVE OPAQUE SHADES
Washable window shades in attractive light colors such as tan, corn-cob, and cream, that are completely opaque and day-light-proof are now on the market. Impregnated with a recently-discovered chemical substance, these new shades are waterproof and sunproof, as well as shadow-proof to inside artificial light. To clean, simply scrub with soap and water.

One of the world's greatest copper deposits is located in Africa, in Cape Province, Northern Transvaal and on the Northern Rhodesia-Belgian Congo border.

It won't do any good for you to explain that even the most scientific books don't take into account all the interruptions and demands made on the women of the home.

And you won't get anywhere by arguing that common sense is a better guide to managing a home than any expert's advice.

Just hide the book. A little knowledge of household management is a dangerous thing for a husband.

French experts, under the supervision of the Academy of Agriculture, are experimenting in the use of gases obtained from coal and wood for tractors and other farm machinery.

Retiring President Of Happy Hour Sewing Class Gives Party

Special To The NEWS
SKEELLYTOWN, Jan. 6—Mrs. Everett Quinn, retiring president of the Happy Hour Sewing club, entertained in her home this week.

New officers who were elected for the coming year are: Mrs. Paul Thurmond, president; Mrs. Charlie Milligan, vice-president; Mrs. Mae Pierce, secretary and treasurer; and Mrs. J. B. Mitchell, club reporter. After the usual business was discussed, a salad course was served to Mmes. Paul Thurmond, Charlie Milligan, Mae Pierce, Lucian Bryant, Nora Pinkham, Mack Covy, and J. B. Mitchell.

The first contest prize was won by Mrs. Charlie Milligan; second contest, Mrs. Paul Thurmond; and club prize, Mrs. J. B. Mitchell.

The next meeting will be with Mrs. Horton on January 9.

Art Exhibit Held At Shamrock School

Special To The NEWS
SHAMROCK, Jan. 6—The Thursday Fine Arts club is sponsoring an Art Exhibit in the study hall of the Junior High school, lasting thru Tuesday. Among the exhibits shown are 116 reproductions of old masterpieces. The reproductions are excellent and lovers of art have praised the exhibit as one of the best they have ever seen.

Among the many reproductions are favorites of the old masters, such as Raphael's "Madonna Della

Shamrock Club Hears Helium Plant Chief

Special To The NEWS
SHAMROCK, Jan. 6—The Shamrock Rotary club was entertained Friday with an interesting program given by Dr. C. W. Seibel, superintendent of the Bureau of Mines Helium Plant of Amarillo. Dr. Seibel carried out some very interesting experiments with liquid air, showing the club members and guests a few of the things that can be done with liquid air. His talk and experiments were made more interesting by several humorous experiments such as boiling liquid air by placing it on ice. He also used rubber balls, cranberries and balloons to show the effect of liquid air on material substances and to show the expansion of liquid air.

In the business meeting of the club the matter of forming a student loan fund was discussed and the club voted to appoint a committee to formulate and regulate the fund. Visitors were Tom Rucker, Glen Bell and Robert Tisdal of Shamrock, and R. S. Tisdal of Amarillo.

Tempi Holbein's "Merchant Glaze," Rembrandt's "Night Watch," and "Hendriek Stoffels," Goya's "Water Carriers."

Many American paintings are also in the display, such as "The Great of the Sierras," by Leland Curtis; "Path Thru the Woods" by George Thayer; and "Grand Canyon" by Thomas Moran. A charge of ten cents is made for viewing a picture for Clark auditorium. The picture to be bought will be selected by vote by those attending the exhibit.

Note To Young Wives: Beware Of Male With Cook Book

By RUTH MILLETT

Paging young Mrs. America. Keep that cook book out of sight. Also the weighty volume on child training that you've never had time to read.

If young Mr. America finds it—your happy marriage may take a turn for the worse. The Alex. Whites of Brooklyn were a happy enough couple until Mr. White came across a book called "Plate Dinners for the Busy Woman."

He reads it. Grew critical of the way his wife was running the household. They fought. He slapped her face. She had him brought before a judge—who sent them home "reconciled" with a word or two of advice.

Latest reports are that the "reconciled" couple are still arguing. Mrs. White for her "natural" way of doing things. Mr. White for the scientific.

A "DANGEROUS THING"
In the interest of the women and the harmony of the home—the moral should be repeated: Hide your household guidance books.

Men are sticklers for the scientific method. And if the man you married pounces on a household "how-to" book and holds it up as a measuring stick for your performance he may find you sadly lacking.

It won't do any good for you to explain that even the most scientific books don't take into account all the interruptions and demands made on the women of the home.

And you won't get anywhere by arguing that common sense is a better guide to managing a home than any expert's advice.

Just hide the book. A little knowledge of household management is a dangerous thing for a husband.

French experts, under the supervision of the Academy of Agriculture, are experimenting in the use of gases obtained from coal and wood for tractors and other farm machinery.

MELODY MARKS THREE OF WEEK'S FILMS

Themes Vary From Swing To Songs Of Nelson Eddy

By BROWNWOOD EMERSON

There's plenty of music in film fare this week in Pampa. Opening the week at the Crown is the first film appearance of Kay Kyser and his famous band, appropriately titled after the saying made famous by the orchestra leader, "That's Right—You're Wrong," co-starring Kay Kyser and Adolphe Menjou, an RKO Radio picture.

The photoplay joyously probes the troubles encountered by a film company in trying to produce a band leader picture. The first attempt has Kyser as a romantic Latin type—and by no stretch of the imagination can Kyser be considered a torrid Latin lover!

"The College of Musical Knowledge," radio program with which Kyser achieved radio fame, is presented in the course of the story.

Trailer shots of "Jeepers Creepers," featuring the Weaver Brothers and Elvira, and showing today, tomorrow and Tuesday at the Rex, hint music of another type in this hill billy story.

Metro-Goldwyn-Mayer present Nelson Eddy, Iona Massey and Frank Morgan in their first action musical of 1940, "Balalaika," showing at the LaNora on Wednesday and Thursday.

Swinging into a different type of story, away from the musical angle, there's Loretta Young and David Niven featured in "Eternally Yours," a Walter Wanger-United Artists production. It's a gay and amusing presentation of a sophisticated love story of two young people from different walks of life. The adjustment of the granddaughter of a bishop as the wife of a handsome, lovable young magician and their ex-

WEAVER TEAMWORK

The Weaver Brothers seem to have Johnny Arthur on the spot in this picture, a scene from "Jeepers Creepers," opening a three-day run today at the Rex.

'WHO'S BOSS AROUND HERE?'

Kay Kyser may be the radio luminary drafted to Hollywood to make a super-super musical comedy sensation, but it's his grandma, May Robson, who's giving the orders on how the maestro of "The College of Musical Knowledge" is to act before the glamour gals! Ginny Simms, the band's attractive soloist, seems amused by Grandma Robson's commands in this scene from Kyser's debut picture, "That's Right—You're Wrong," RKO Radio film musical, co-starring Adolphe Menjou with Lucille Ball, Edward Everett Horton and others in support. At the Crown today, tomorrow, and Tuesday.

Presbyterian Study Services Postponed

Because of the bad weather, the first of a series of Vesper hour mission study services scheduled for Sunday at 5 p. m., at the First Presbyterian church has been postponed until next Sunday, the Rev. Robert Boshen, pastor, announced yesterday. There will be a vesper service at that hour, however.

At the morning hour, 11 o'clock, the regular communion service will be held as scheduled, Rev. Boshen said.

The special mission study series will consist of group study according to ages, regular worship and a social hour with refreshments.

EACH DAWN I DIE

LANE SISTERS AT LaNORA

The Lane sisters, Rosemary, Lila, Priscilla, and Gale Page, as seen in "Four Wives," sequel to "Four Daughters," showing today, tomorrow, and Tuesday at the LaNora.

THIS WEEK IN PAMPA THEATERS

LaNORA
Today, tomorrow, and Tuesday: Priscilla, Rosemary, and Lola Lane, Gale Page and John Garfield in "Four Wives."
Wednesday and Thursday: Nelson Eddy, Iona Massey, Frank Morgan in "Balalaika."
Friday and Saturday: Loretta Young and David Niven in "Eternally Yours."
REX
Today, tomorrow, and Tuesday: Weaver Brothers and Elvira in "Jeepers Creepers." In Technicolor, "Cavalcade of Texas."
Wednesday and Thursday: Col. Roscoe Turner, Phil Regan, Jean Parker in "Flight At Midnight."
Friday and Saturday: The Three Mesquiteers in "Cowboys from Texas."
STATE
Today and tomorrow: James Cagney, George Raft in "Each Dawn I Die."
Tuesday: "Charlie Chan at Treasure Island," Sidney Toler.
Wednesday and Thursday: Randolph Scott, Cesar Romero, and Nancy Kelly in "Frontier Marshal." Friday and Saturday: Bob Baker in "Honor of the West."
CROWN
Today, tomorrow and Tuesday: "That's Right—You're Wrong" with Kay Kyser, Adolphe Menjou, May Robson, Lucille Ball, Kay Kyser's Band and the "College of Musical Knowledge." An RKO picture. Short subjects and news.
Wednesday and Thursday: "The Mad Miss Manton," with Barbara Stanwyck, Henry Fonda and Sam Levene. An RKO picture. Short subjects and news.
Friday and Saturday: "Rangle River" with Victor Jory, a Zane Grey story, Chapter 1 "Mandrake the Magician." Short subjects and news.
SQUASH AND SAUSAGE
Spilt acorn squash lengthwise, scoop out seeds and fill cavities with sausage meat. Bake in oven until squash is tender and sausage is cooked through. This, with a green salad, hot biscuits, a simple dessert and tea or coffee, would make an excellent luncheon.

County Treasurer's Fees Total \$2,170

Total fees of the office of county treasurer in 1939 were \$2,170, according to the annual report of W. E. James, county treasurer, filed Saturday in the office of the district clerk.

Commissions on county funds, current year net fees collected, show the following: road and bridge fund \$150 road and bridge 1, \$590; road and bridge 2, \$240; road and bridge 3, \$315; road and bridge 4, \$375.

Total expenditures was \$2,512.00, of which \$2,240 was credited to officers supplies, \$50 to premiums paid on surety bond, and \$40.50 for postage.

Technicolor Film Shows Texas' Glory

The grandeur of the most versatile state in the Union—Texas—is dramatically shown in a photoplay opening, a three-day run today at the Rex.

In Technicolor is shown Texas industries, points of interest, and amusements, in the film titled "Cavalcade of Texas."

SERIAL STORY BLACKOUT BY RUTH AYERS

YESTERDAY, Mary has little back in finding a job. Discouraged, she is surprised when Lenox calls on her. He is leaving for the army and she has a question—'Will you marry me?'

She retraced her steps to Charing Cross road and past the National Gallery, its windows boarded and sandbagged. She had forgotten she was Anna Winters. She had forgotten that she, Mary Carroll, was supposed to be dead, a victim of the sinking of the Moravia.

Town In Uproar As Pig And Dog Fight

MELROSE, Mass., Jan. 6 (AP)—If neighbors of Elmer George slept late this morning, you can't really blame them. It seems that a 200-pound pig wandering down Florence Avenue tried to find protection from the chill night air in a doghouse which already was occupied by George's 80-pound St. Bernard.

"It's my constitutional right! I'm in pursuit of happiness!"
