GERMANS PUSHING DEFENDERS BACK IN CRETE

Home Defense Guard Will Parade Sunday

President Not Showing Hand On Convoys

WASHINGTON, May 29 (AP)—President Roosevelt adopted the strategy of silence today on future methods for delivering the goods to Great Britain.

"You don't telegraph your moves anymore in the world of today," one service official explained, referring to the president's statement that army and navy technicians were devising new safeguards. "You can't afford to. You'll notice the other fellows never do."

However, Chairman Reynolds (D-N.C.) of the Senate Military committee looked "full convoys of some description." He said that was his interpretation of the president's fire-side chat pledge to see that needed supplies reached England safely.

On the other hand, no less a personage than Vice-President Wallace was reported to be disappointed that his chief had not been more specific as to how delivery would be assured.

Mr. Roosevelt did nothing to quell conjecture yesterday at his special press conference. He disclaimed any intention of seeking change or repeal of the neutrality act, contending that it in no way infringed on the seas, which he formally reasserted for the United States Tuesday night.

By ruling out action on the neutrality law, the president eliminated the possibility of American merchant ships being used to carry cargoes through the present combat zones. However, this caused one official to recall Mr. Roosevelt's specific assertions in the past that the United States would not apply to the nation's naval vessels, which were free to go wherever their missions took them.

President Roosevelt, touching on another subject of considerable speculation, also told reporters yesterday that he contemplated no executive orders at present to invoke any of the numerous broad powers conferred on him by the proclamation of an unlimited national emergency.

AMA Fined For Trust Violation

WASHINGTON, May 29 (AP)—Justice James M. Proctor of district court today fined the American Medical Association \$2,500 and the District of Columbia Medical Society \$1,500 for violation of the Sherman Anti-Trust act.

The A. M. A. and the district society were found guilty of conspiracy to violate the act on April 4. At the same time 18 physicians, including five officials of the AMA, were exonerated.

In the trial attorneys of the justice department argued that the two groups and the physicians had conspired to obstruct the activities of a Group Health association, a federation of government employees organized to provide cooperative medical care.

They charged that the association and its affiliated societies had "conspired to restrain trade in Washington hospitals" by refusing to group health doctors the privilege of practicing in the hospitals and had brought pressure to bear to prevent other physicians from consulting with the group health physicians.

Boat "Kidnappers" Sought By Hicks

Dr. H. H. Hicks has all set to get to his office this morning, when he opened the front door of his residence there was his sail boat floating on the lawn with sails set.

How the boat, which he tied to the docks at Lake McClellan yesterday afternoon following a sail, got on his lawn is said to be a mystery. But there it was—and there it is.

The genial doctor questioned friend and foe today but no one seemed to know anything about the boat.

"Maybe it floated to town during the rain last night," remarked one sailing companion.

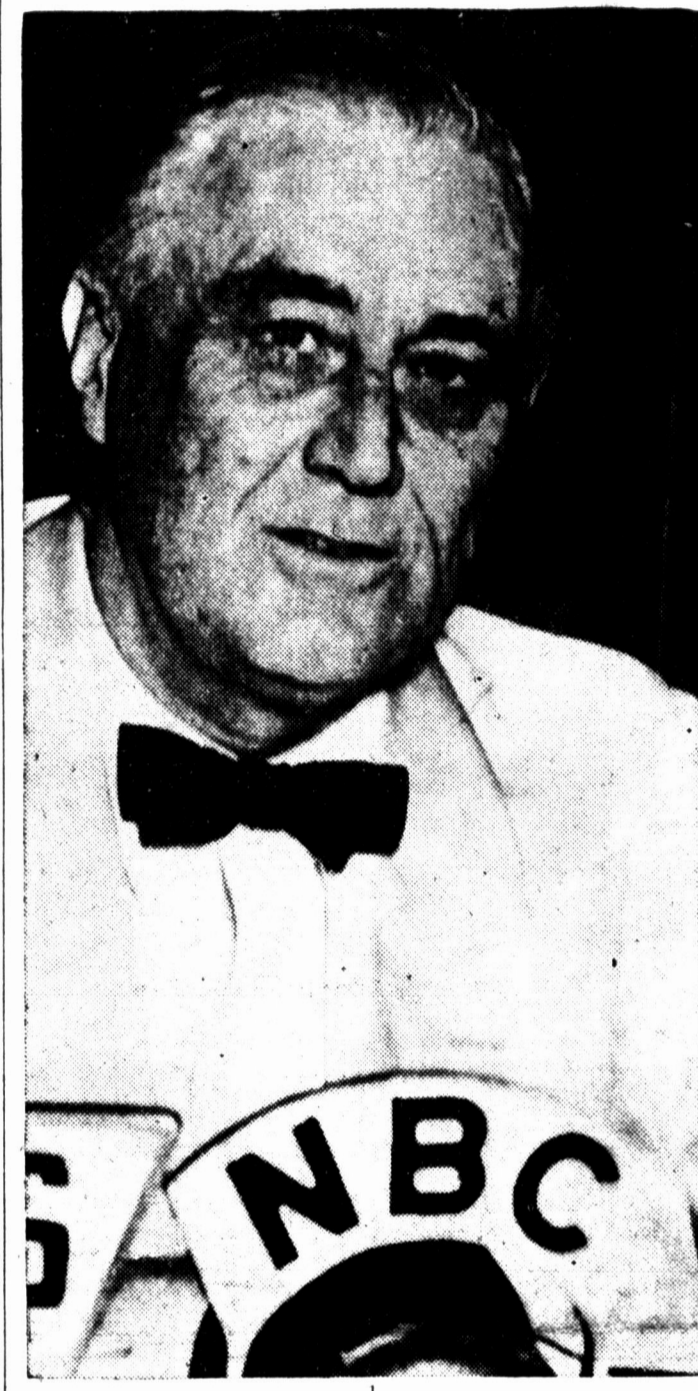

Now Dr. Hicks has to load the boat on a trailer and take it back to the lake.

I Heard . . .

Judge Newton P. Willis comparing Panhandle mosquitoes to Stuka dive bombers. He said both gave warning of their approach but there wasn't much that could be done about them.

Ladies Felt Hats cleaned the factory method. Roberts the Hat Man. (Adv.)

AS FDR ADDRESSED NATION

Addressing the nation via radio and a group of distinguished representatives of the 21 American republics and the Dominion of Canada, President Roosevelt, above, advises that he has declared the nation to be facing a state of unlimited national emergency.

Old-Timers To Be Honored As Usual

Missouri Club To Name Queen Friday Night

Missourians are to elect a queen to represent that state when the Missouri club meets at 8 o'clock tomorrow night in the district court room. The meeting is in connection with the Top O' Texas Folks Fiesta to be held here June 12, 13, and 14.

Reports will be heard from the nominating committee and other nominations received, and other committees will also turn in an account of the work they have been doing.

Badges for the Missourians will be on hand for distribution. W. R. Pearce, Missouri club president, has announced.

Committees to report are membership, of which S. L. Pipkin is chairman; badges, Mrs. D. V. Burton, who is also vice-president; float, Roy McMillen; queen, Miss Rowena Wasson.

1,000 Horses And Riders Wanted For Parade Of States

There's going to be a call issued next week for 1,000 horses—saddle horses and draft horses—to be used in the Top O' Texas Folks Fiesta parades on June 13 and 14.

President Jimmie Dodge named Mickie Ledrick, P. O. Gurley, and E. L. Henderson as members of a committee to get hundreds and hundreds of horses. Ledrick has been named chairman of the committee.

A meeting of committee members will be held Saturday or Sunday, when Chairman Ledrick arrives home from college.

In the meantime, anyone having horses they will loan the Jaycees or enter in the parade, can contact Mr. Gurley at Gurley's Leather shop on West Kingsmill, or Mr. Henderson in the tax assessor and collector's office in the courthouse.

Just arrived, a carload of Star tires. See us for a good deal. Williams-Sill. (Adv.)

AFL Council Disapproves Ship Strikes

(By The Associated Press)

The executive council of the American Federation of Labor declared that AFL machinists on strike at shipyards in the San Francisco Bay area "should call it off immediately and return to work."

This formal announcement by the council backed up a sweeping pronouncement it issued yesterday, calling on all of its affiliates to take disciplinary action against local unions which strike without exhausting resources for mediation. The executive council said it would take similar action itself against federal labor unions directly under its control.

The council declared that uninterrupted production by the West coast shipyards was vital to the nation's defense, and further that "the good name, the honor, and the 'no-strike' policy of the American Federation of Labor demand that the coastwise master agreement between the shipbuilders and the metal trades unions, barring strikes and lockouts, be religiously observed and respected."

AFL and CIO machinists are on strike at 11 San Francisco yards which hold \$500,000,000 in defense contracts. They are seeking \$1.15 an hour and double pay for overtime, instead of \$1.12 and time-and-one-half overtime provided in a coastwise agreement which the OPM negotiated with the AFL.

The United States conciliation service assigned Paul Broderick of its staff to a labor dispute at Cleveland which threatened to close five plants of the Aluminum Company of America. CIO die casters there voted last night to empower a negotiating committee to call a strike. The workmen seek a wage increase of 4% and an hour, in addition to a recent eight-cent raise granted by the company. The present minimum scale is 72 cents.

A strike at the Monsanto Chemical company at East St. Louis ended a wage increase of 7 1/2 cents an hour in lieu of the 10 cents they had demanded.

A wage increase likewise ended a strike threat at the Packard Motor Car company, Detroit, which holds \$62,000,000 in defense orders.

Four hundred employees of the Western Pine Manufacturing company at Spokane, Wash., walked out yesterday. Grant Dixon, president of the firm, said the walkout occurred after they had rejected a 2 1/2 cents per hour compromise to their demand for a blanket 10-cent wage hike.

One Dead, Three Injured In Wichita Falls Shooting

WICHITA FALLS, May 29 (AP)—Marlin (Country Boy) Owens, 30-year-old Port Worth shooting gallery operator, and former Wichita Falls professional boxer, was dead, and his estranged wife and her parents were wounded as the result of an early morning shooting here.

An inquest verdict of suicide was returned by Judge L. Inge, justice of the peace in the death of Owens, whose body was lying on the front porch of the home of his wife and her parents, Mr. and Mrs. W. M. Culver, when police arrived. Officers said a revolver with five spent shells was clutched in Owens' hand.

Mrs. Culver, only one of the injured three, said she discussed the shooting with investigators, said her daughter had filed suit here for divorce in April and sought custody of the couple's two small boys. The case was to be tried next week.

Culver, produce trucker, was shot through the stomach, and Mrs. Owens was hit in the right arm, chest, and stomach. Both were seriously wounded. One bullet hit Mrs. Culver, tearing the elbow of her right arm.

Free Course In Welding Offered In Defense Work

A free welding school for out-of-school youths is now being offered here through the Pampa school board, the board of education and the defense program. Registration can be made at 712 North Russell street.

The course is open to any youth not in school who has passed his 17th birthday but has not reached his 24th birthday.

Length of the course will depend on the ability of the student. The course will include fundamentals, running penetrations to make a good welding bead, running bead, light sheet metal welding and supplemental old field welding.

Rain Beginning To Irk Wheat Farmers

Jap Loyalty To Hitler Reaffirmed

(By The Associated Press)

Japanese Foreign Minister Yosuke Matsuoka reaffirmed Japan's loyalty to the Rome-Berlin-Tokyo alliance today and conferred for more than an hour with German Ambassador Eugen Ott on the reported subject of President Roosevelt's fire-side chat.

While the Tokyo stock exchange boomed in apparent relief over the president's speech—particularly the lack of reference to America's problems in the Pacific—the Japanese newspaper Chugai declared bluntly:

"If the United States continues her present policy (aid to China), conflict with Japan is inevitable."

Meanwhile, the Japanese news agency Domei said it understood authoritatively that economic negotiations between the Dutch East Indies and Japan in Batavia had reached a most critical stage.

Tokyo dispatches said Matsuoka had demanded that the East Indies government come to terms on trade with Japan, and that the Japanese foreign minister had virtually told Britain to keep "hands off" from interfering in the negotiations.

Following a conference between Matsuoka and British Ambassador Sir Robert Leslie Craig, the newspaper Asahi declared:

"Japan's demand to Britain in this connection is that Britain refrain from putting obstacles in the way of the Japanese-Netherlands parity."

Asahi said that "depending on the nature of the answer, a delicate situation may be created."

Chugai expressed the belief that "the difficulties and seriousness of the situation" between the United States and Japan could be ironed out, but asserted that "United States leaders should take cognizance of the prevailing situation in east Asia."

Matsuoka declined to comment on President Roosevelt's address, and it was indicated that no official comment would be forthcoming.

Addressing teachers at the Tokyo ministry of education Matsuoka said the present world crisis must end either in the destruction of modern civilization or in the establishment of a new world order.

WASHINGTON, May 29 (AP)—Secretary Hull asserted today there was no change in United States policies or relations with regard to Japan.

He made this statement in response to questions concerning the omission of any mention of Japan in President Roosevelt's speech Tuesday night.

Some legislators said the reason for the omission was a growing belief in administration circles that Japan's adherence to the Axis was weakening and that the President did not wish to offend conservative anti-Axis elements in Japan.

West Texas Flying Club Organized

The West Texas Flying club has been organized here with 10 members. The club has purchased a new Taylorcraft Trainer, powered by a 65 h. p. Lycoming motor.

Club instructor is Art Smith, veteran flyer, who has been brought here by Earl Dinsmore to give flight instruction to the 10 young men and women receiving flight scholarships in the ground school course just completed. Winners of the free scholarships will be announced soon.

Smith has been flying since 1927 and has more than 3,000 hours in the air. He holds army flight rating. Another flying club is being organized and an order has been placed for a new ship. There are eight planes located at the airport here.

Members of the West Texas Flying club are Dr. R. M. Brown, J. C. Christopher, Arthur Nelson, Louis Tarpley, Art Hopkins, Johnny Jet, Willis Clark, Emmett Foster and Pascal Massey.

Nazis Occupy Capital And Bay Shore

Another British Debacle Believed Beginning

(By The Associated Press)

With newly-arrived Italian troops striking from the east end of the island, Adolf Hitler's aerial invaders captured Crete's prize harbor of Suda bay on the west today and occupied Candia, in central Crete, for the first time. British struggled desperately in the jaws of a closing vise.

Candia is the island's biggest city, with a population of 33,000 about 55 miles east of Suda bay.

British military headquarters, conceding that the heavily-reinforced Germans had scored major gains, declared that violent hand-to-hand fighting was continuing.

Casualties were heavy on both sides, the British said, with New Zealand and other imperial forces fighting bitterly east of Suda bay.

(By The Associated Press)

Italian troops were reported today to have entered the 10-day-old battle end of Crete, landing on the eastern end of the island, while German forces captured the prize harbor of Suda bay on the west. Thus the British, already in dire straits, were caught in a vise.

Amid the losing struggle in Crete, British Foreign Secretary Anthony Eden gave the first comprehensive statement on Britain's war aims and declared:

"We must never forget that Germany is the worst master Europe has known. Five times in the last century she has violated the peace. She must never be in a position to play that role again."

Seizure of Suda bay gave the Germans a bridgehead for landing sea-borne troops, and military experts said it may prove to be the turning-point of the struggle—the beginning of another British debacle.

Hitler's high command reported that Nazi mountain troops, striking on beyond Suda bay, reached Almyro, opened the flood sluices of the "defeated" British.

The German communique said Nazi forces had taken a large number of prisoners.

Fascist press dispatches reported also that hundreds of little Greek sailboats, loaded with German troops, had been safely escorted to Crete under the guns of Italian warships.

Italian troops belatedly entered the conflict yesterday, it was reported.

"The landing was made in perfect order at the extreme eastern tip of the island with companies of soldiers and sailors," Fascist informants said. "The British were in a position to create for the commander of the British Imperial forces a sudden new front to the east, when German pressure they must face on the west is already heavy."

London military quarters acknowledged frankly a "serious deterioration" in the situation in the last 24 hours.

The British admitted that capture of Suda bay, the best harbor on the island, was probably the deciding factor in the struggle.

It was just a year ago today, incidentally, that the Allies, in retreat from the bloody battle of Flanders, opened the flood sluices around Dunkerque to guard the last escape port to England.

Under orders to fight to the death, hopelessly outnumbered British troops were reported yielding ground slowly, in bitter fighting, before the onslaught of Nazi forces east of Suda bay.

While big German transport planes, operating from the Greek mainland 100 miles away, ferried a steady stream of reinforcements, there was no indication that the British had made any attempt to land more troops.

The Germans said flatly that the British were trying to flee the island, declaring that Stuka dive-bombers sank five transports and damaged two others in Suda bay yesterday, inflicting heavy losses on Allied troops attempting to board the ships.

Italy's high command said Fascist warplanes scored torpedo hits on three British cruisers and bombed another in Crete waters.

Lack of air defense again appeared to have been the "Achilles heel" of the Allies, Greek Prime Minister

I Saw . . .

The first annual sign that the Fiesta is just around the corner—Don Brashear of Abilene, who is in town with flags with which to decorate the town for the big celebration. The Jaycees today are calling on various business places, signing them up for flags and bunting. This is the third year Don has decorated the town for the Fiesta.

New Liquor Tax Stamps Will Be Affixed Sunday

Ready for distribution to Gray county and other Panhandle retail liquor dealers on Sunday, June 1, will be the new fractional liquor tax stamps.

Dealers must purchase these stamps for all liquor on hand as shown by inventory taken at the close of business yesterday, and no liquor may be sold after May 31 until stamps have been affixed.

Passage of the omnibus tax bill by the legislature now in session has these effects of liquor dealers:

Increased the tax on distilled spirits from 96 cents to \$1.28 per gallon; levied a tax of 22 cents on each prescription for liquor filled by drug stores holding medicinal permits.

No New Tax On Beer

There was no increase in tax on wine, ale or beer, and other types of distilled spirits are affected by the new tax law.

All retailers must submit their sworn inventory as of midnight, May 31, to the Texas Liquor Control board's office in Amarillo, where the amount of tax stamps needed by the retailer will be calculated. The retailer will then pay for the stamps and affix them to his bottled stocks.

Office of the board is located at 415 Amarillo building. It will be open Sunday to receive stamps and accept payment from dealers. Personal checks will not be accepted.

Under the Amarillo office are Gray and these counties: Armstrong, Garson, Collingsworth, Dallam, Deaf Smith, Donley, Hall, Hartley, Hansford, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Cidham, Potter, Randall, Roberts, Sherman, and Wheeler.

Late News

AUSTIN, May 29 (AP)—The legislature overturned another of Governor W. Lee O'Daniel's vetoes today.

The senate voted, 27 to 1, to override the veto of a bill reducing benefits to unemployed seasonal workers under the unemployment compensation law.

The house acted similarly yesterday.

WASHINGTON, May 29 (AP)—The senate today approved and sent to the White House today administration legislation permitting the government to take over more than 80 foreign ships now lying idle in American harbors.

LONDON, May 29 (AP)—More than 100 officers and men of the German battleship Bismarck were picked up after she was sunk Tuesday morning, and a subsequent attack by German aircraft then sank the British destroyer Mashona, the admiral announced today.

One officer and 45 men are missing from the Mashona, the admiral said.

Bread Bill Most Amazing Of Session

By HUGH WILLIAMSON
AUSTIN, May 29 (AP)—Perhaps the dullest of a host of wacky incidents which inevitably occur in the turmoil of law-making—the 47th legislature now drawing to a close being no exception—was the senate's passage of the now-famed "bread bill."

Or rather, the double passage of the bill, since a portion of the senate admittedly was asleep the first time.

When the senators awoke and discovered what they had done, they immediately reconsidered the vote by which the bill was finally passed. Having reconsidered, they voted it through again.

A number of senators confessed that, on the first trip, the bill got by without their knowledge.

The controversial part of the bill was an amendment by Senator W. C. Graves of Dallas, making it illegal to sell a loaf of bread weighing 1 1/2 pounds.

The amendment inspired what was probably the most amusing speech of the session. It was delivered by Senator Weaver Moore of Houston. Excerpts:

"You might as well tell me I've got to buy either a 35 belt or a 45 belt. I couldn't fasten a 35 belt, and the 45 belt wouldn't hold my pants up."

Despite Moore's speech, the Graves amendment stayed in the bill, but the house refused to concur and the measure went to a conference committee.

The legislature passed among a multitude of game and fish bills, a measure describing the legal method of defense measure, to prohibit the taking of bullfrogs in certain counties and a general law, described as killing of homing pigeons.

"How do you tell the difference between a homing pigeon and any other kind of pigeon?" inquired Senator Clay Cotten of Palestine when the bill was being considered.

TO CHECK MALARIA IN 7 DAYS take 666

Nazis Nabbed

One of four German aviators taken from American liner President Garfield by Canadian cruiser in the Pacific climbs down ladder to get into Canadian lifeboat.

in the upper chamber. "Makes no difference," explained Senator Allen Shivers of Beaumont, "to anybody but the pigeon."

Other legislative oddities: A bill was introduced and passed by both houses in an hour and six minutes, possibly establishing a record.

Rep. Len E. Alsop of Carthage introduced a resolution criticizing the West, East, and South Texas Chambers of Commerce. He said they ought to consolidate and stop duplication of effort.

Five thousand youth marched to the capital and into galleries of the legislature in an anti-liquor demonstration.

Senator Allan Shivers of Port Arthur was challenged when he referred to a proposal to remit certain taxes to counties as "gift from heaven."

"This is the first time," commented Senator Clay Cotten of Palestine. "I ever heard the legislature called heaven."

McLean Youth Vice-President Of State FFA

J. B. Waldrop, son of Mr. and Mrs. Leon Waldrop, who live on their farm 10 miles south of McLean, is the first Panhandle boy to become first vice-president of the Texas Future Farmers of America. Waldrop, president of the Pampa district FFA, was elected to the state office at an Area 1 meeting held in Lubbock on March 29 of this year. He is one of the 10 best individual livestock judges in the state, has won \$307 in premium money on his calves and hogs, fed out 98 calves. Waldrop was elected district president at Groton on September 27, 1940. A native of McLean, the state FFA vice-president is now a junior at McLean High school, has a B average, is president of the school band, and an expert boxer.

Waldrop will attend the state FFA convention in Marshall, July 17-19, and then go to Michigan to attend a camp held there honoring boys outstanding in agricultural, social, and religious organizations. In the first week of November, he will attend the national FFA convention in Kansas City.

London Announces Third Cruiser Loss

LONDON, May 29 (AP)—Britain's third cruiser loss in the battle for the island of Crete, destruction of H. M. S. York, was announced by the admiralty today.

The powerful, 8,250-ton warship had been under repair at Suda bay, British naval base on the embattled island, and the admiralty said she "must now be regarded as a total loss" after having been bombed again and again from the air.

Although the York normally carried about 600 men, the admiralty said it had been informed of only two deaths and five injured among her crew.

Thus, the acknowledged price to Britain's eastern Mediterranean fleet for its share in the defense of the Greek island is raised to three cruisers and four destroyers sunk, as well as two battleships and several other cruisers damaged.

The United States Army Air Corps chalked up more than 900,000 flying hours to its credit during 1940. In 1921, only 77,000 flying hours were credited to the army.

Fine Chinaware FOR YOU IN EVERY PACKAGE ... At Your Grocer's Now!

WHAT AN EASY WAY TO GET A SET OF FINE CHINA... AND GIVE MY FAMILY EXTRA ENERGY "SPARK"—THIAMIN (VITAMIN B₁) TOO —FOUND SO RICHLY IN MOTHER'S OATS

Now you can be doubly lucky! Think of giving your family the healthful benefit of a great "spark-plug" vitamin, Thiamin—and getting a "surprise" piece of lovely, useful chinaware besides! Yes, china made by one of America's leading manufacturers! So be sure to get a package of delicious, healthful Mother's Oats with China at your grocer's today.

Thiamin is so important! For adults, no Thiamin means no pep, no calm nerves, no good looks. Babies, youngsters, need it for proper development. And yet authorities say Thiamin is widely lacking in American diets. Happily for your family, Nature packed Mother's Oats not only with abundant food-energy but with actually enough Thiamin to "spark" itself and twice again as much additional food into needed energy!

Mother's Oats is also up to 50% richer than other whole-grain cereals in proteins, needed for building strong muscles—trim, streamlined bodies. Wonderfully economical and easy to prepare. Now, at your grocer's, get a package of delicious Mother's Oats with China right away.

O'Daniel Asks Legislature To Give Him Control Over Texas Rangers

AUSTIN, May 29—The famed Texas Rangers, storied law enforcers whose feats color the pages of history in the southwest for more than a century, today figuratively rode into the state legislature.

Before the lawmakers was an emergency recommendation of Gov. W. Lee O'Daniel requesting that the force once more be placed under Texas' adjutant general.

The Rangers, a hard-riding, light-lipped group which first brought law and order to the Texas wilderness, rode herd on outlaws in the hell-roaring, cattle rustling era, and now works as hard as ever on major criminal cases, changed bosses

some years ago by edict of the legislature.

Previously under the adjutant general, they are part of the public safety department, otherwise known as state police, which includes the highway patrol, criminology laboratories, drivers' license and truck weight inspectors division and the narcotics law enforcement staff.

The department is supervised by a three-man gubernatorially-appointed commission, members of which serve six-year overlapping terms, while the adjutant general, also named by the governor serves but two years.

The senate recently refused to confirm an O'Daniel nominee to the public safety commission.

"During these critical times," O'Daniel yesterday told the lawmakers, "it is more important than ever that the governor of the state of Texas should have the Texas Rangers under the command of the adjutant general."

He contended the present arrangement left the chief executive "without any positive means of making investigations of lawlessness when asked to do so by the citizens of this state and . . . without any positive means of rendering aid in stopping lawlessness in local subdivisions when called upon for such aid."

O'Daniel added the governor had been deprived of facilities needed to meet a constitutional requirement that he cause the law to be faithfully executed.

The house yesterday passed to final reading a senate-approved bill appropriating \$650,000 for two years to public junior colleges.

Pertaining to the recently-enacted omnibus tax bill, Attorney General Gerald C. Mann ruled that state assistance grants cannot be paid the needy blind and destitute children prior to Aug. 1.

Soviet naval engineering colleges have graduated 354 women students in the past two years.

The Lachine Rapids are in the St. Lawrence river, south of Montreal.

Nation-Wide Power Emergency Foreseen

WASHINGTON, May 29 (AP)—Foreseeing a nation-wide power emergency "perhaps the most serious in history," F. R. Tate of the federal power commission revealed today that a study was being made of means for diverting electricity from civilian to industrial purposes, to assure uninterrupted production of defense weapons.

Tate expressed hope, however, that any restriction in the use of electricity would not include the "lightless nights" and darkened great white ways of World War years.

Under the "unlimited emergency" proclaimed Tuesday night, President Roosevelt has absolute sway over the nation's power facilities. He may "take over power houses, dams, conduits and reservoirs; require temporary connections of facilities and such interchange, delivery and transmission as may be required."

Tate, who is director of the national defense power staff in the power commission, predicted that "if we are going to double airplane production, quadruple tank production, triple powder, small arms ammunition and rifle production, and multiply output of machine guns and other materials, then by the end of 1941 the power situation will be critical indeed."

Every recourse is being exhausted, he said, to meet such a situation.

Among bargainers were Socony-Vacuum, Great Northern, General Motors, Woolworth and J. C. Penney.

Beats were virtually neglected. The Associated Press index of last week's freight loadings showed a less than seasonal pattern, although the total touched a new peak since November, 1930.

U. S. Government bonds posted higher. At Chicago wheat dropped 1 1/2 to 2 1/2 cents a bushel and corn was off 1/4 to 1/2 cent in local trades, while soybeans a bale lower.

Canadian OES Holds Memorial Service

CANADIAN, May 29—Canadian chapter 227, Order of Eastern Star, held its annual memorial service Monday night.

This chapter is fortunate in having lost no member by death during the past year.

Maudeline Hutton is worthy matron and P. V. Bryant is worthy patron.

Market Briefs

NEW YORK, May 29 (AP)—The stock market absorbed its vitamins more or less unshaken today but managed to work up moderate rising energy in several departments.

Closing rains were small for many leaders although 1 to 2 points were tacked on scattered issues, generally slack dealings. Transfers for the full proceeding were around 360,000 shares.

New highs for the year were posted for Oliver Farm, Consolidated Aircraft and Southern Railway. New 1941 lows were registered for American Chile, Fajardo Sugar and South Porto Rico Sugar.

Favored most of the time were Douglas Aircraft, Glenn Martin, Savage Arms, Green Can, Shipbuilding, Lone American Tobacco, B. American Car & Foundry, Du Pont, Union Carbide and American Smelting, Dow Chemical and U. S. Steel.

Among bargainers were Socony-Vacuum, Great Northern, General Motors, Woolworth and J. C. Penney.

Beats were virtually neglected. The Associated Press index of last week's freight loadings showed a less than seasonal pattern, although the total touched a new peak since November, 1930.

U. S. Government bonds posted higher. At Chicago wheat dropped 1 1/2 to 2 1/2 cents a bushel and corn was off 1/4 to 1/2 cent in local trades, while soybeans a bale lower.

Mann Leaves It Up To RR Commission

AUSTIN, May 29 (AP)—It is up to the railroad commission to decide whether buses and trucks may pass on to their consumers one new tax

levied by the recently-enacted omnibus bill, Attorney General Gerald C. Mann ruled today.

"The statute levies the tax against the motor bus companies, the motor carriers, and contract carriers themselves, not against their customers," Mann declared. "Thus it is incumbent upon the carriers to pay the tax."

Canada's most thickly populated district, as well as areas seldom touched by white men, are in the province of Quebec.

September	97 1/2	95 1/2	95 1/2
December	98 1/2	97 1/2	97 1/2

CHICAGO GRAIN

CHICAGO, May 29 (AP)—Selling increased in the wheat pit today, forcing prices downward as much as two cents a bushel to the lowest level since May 12. At the low point prices showed net losses of about 7 cents since establishment of the year's peak May 15.

Much of the selling represented pre-holiday adjustment of accounts but there was considerable uneasiness in the trade about war developments and the marketing quota referendum Saturday. Offering of less than 85 per cent parity on the new crop depends upon approval of two-thirds of eligible producers who vote. Consistent hedging sales added to selling.

Wheat closed 1 1/2-2 1/2 cents lower than yesterday. July, September 1 1/2-2 1/2; corn 1 1/2-1 1/2; down, July 7 1/2, September 7 1/2; oats 1/4 lower to 1/4 higher.

Dempsey Nominated For Interior Post

WASHINGTON, May 29 (AP)—John J. Dempsey of New Mexico was nominated by President Roosevelt today to be under-Secretary of the Interior.

Dempsey, a former Democratic congressman and now a member of the Maritime commission, succeeds Alvin J. Wirtz of Texas, who recently resigned to manage the special senate election campaign in Texas of Representative Lyndon Johnson.

Authoritative records show no deaths from the bite of a tarantula.

Breakfast Given To Announce Engagement Of Miss Janice Purviance

Honoree's Mother Entertains At Home Wednesday

Mrs. Walter Purviance announced the engagement and approaching marriage of her daughter, Miss Janice Purviance, to Frank Akright when she entertained with breakfast at home Wednesday morning at 9 o'clock. Mrs. Purviance was assisted by Mrs. Archie Cole.

Mrs. Purviance and Mr. Akright will be married on July 2. Baskets of yellow iris, blue delphinium, roses, and mock orange blossoms were arranged throughout the rooms. Observing a color note of blue and yellow, the breakfast table was decorated with yellow candles, tied with blue and yellow ribbon, in crystal holders. Individual corsages of fever few with yellow and blue ribbons were presented to the guests. Marking each place was a tiny parchment scroll giving the names of the betrothed couple and the date of the wedding.

The guest list included Meses. Charles Cook, Allen Evans, R. L. Triplehorn, Jack Smith, Paul Schneider of Amarillo, Albert Reynolds, Gene Fathree, A. C. Martin of Wheeler, C. E. Barber, George Pollard, Tom Rose, Jr., Robert Gibbons of Olmstead Field, Pennsylvania, and Misses Lucille Bell, Catherine Pearce, Mary Gaylord Booth, and Betty Lou Ford.

Horace Mann P-TA Faculty Entertained At Dinner In Park

Teachers of Horace Mann school were entertained by the executive committee of Horace Mann Parent-Teacher Association at a fried chicken dinner in the city park Tuesday evening.

After the meal was served, games were played and surprise gifts were presented to each teacher.

Special guests were Superintendent and Mrs. L. L. Soper and Robert Curry.

Others present were Meses. George Clark, Jimmie Nelson, Robert Curry, M. K. Griffith, H. A. Stokes, E. N. Franklin, Thomas Clayton, E. S. Hancock, Jr., F. A. Huddell, R. W. Tucker, O. W. Prewitt, C. W. Myrath, O. V. Hoy, C. W. Hays, W. E. Noblitt, Lane Garrison, O. B. Schmitt, George Alden, Ben Garber, and Mr. and Mrs. W. A. Nolan.

Miss Lewis Will Conduct School At Christian Church

MISS HAZEL LEWIS

Miss Hazel Lewis of St. Louis, Missouri, a Church School Children's worker of national reputation, is national head of the department of children's work in the Christian church. She has written numerous books which are used by Children's Workers of many denominations throughout the country.

Miss Lewis will arrive in Pampa Sunday morning to begin a week's Laboratory Training school for Church School Children's workers. Assisting her will be Miss Mona Holt, specialist from Fort Worth, and Mrs. Carl Disney of Berger, district Children's worker. Several teachers from the local Christian church will also assist.

Initial Girl Scout Day Camp Will Be Conducted Next Month With Varied Program For Two-Week Period

Pampa's first Girl Scout camp opens Monday morning at 9 o'clock at the Girl Scout little house with a registration of 75 girls and approximately 25 adults lined up to pioneer the program.

Mrs. Mel Davis is the chairman of the camp committee; Mrs. Clarence Barrett, chairman; with Miss Ollie Durham and Mrs. J. M. Collins on the Day Camp committee. Mrs. Ewing Williams is chairman of the Troop Camp committee.

On the staff are: Director, Miss Sallie Cahill; business manager, Miss Ollie Durham; first aid instructor, Mrs. Charles Ballard, chairman; Mrs. Gardner, Mrs. Lynn Boyd, Charles Ballard, Tom Eckhard; archery, Jim Edwards; photography, Fred Smith and Nancy Yoder.

Troop 2
Unit leaders, Mrs. Jess Clay, Brownies, Miss Maxine French, Mrs. D. A. Caldwell, Mrs. Estelle Purvis, Mrs. Jack Goldston; song leaders—Virginia Covington and LaVerne Covington.

Troop 5
Crafts, Nita Rose McCarty; assistants, Juanita Caldwell, Mrs. J. C. Hart, Mrs. Clayton Henry, Mrs. J. B. Massa, Mrs. Marvin Harris, Carroll Killebrew, and Mrs. L. J. McCarty.

An all day hike through the woods, with a cook-out at the point of destination is a favorite with all Girl Scouts. Beginning with the first warm day of spring, they get out stout shoes, heavy socks, walk preparations for the woods, begin preparations for the first savory meal in the out-of-doors. At Girl Scout camps a hike to some favorite spot near a rushing brook where milk cans may be set to cool while fish and potatoes are baked in a wood fire, remain a Girl Scout's idea of fun.

Luncheon Ends Year For 20th Century Forum

Concluding another year of study, members of Twentieth Century Forum met this week in the home of Mrs. W. T. Fraser for a luncheon with Mrs. Arthur Teed and Mrs. Frank Perry as co-hostesses.

A patriotic note of red, white, and blue was carried in the plates, glasses and napkins. Centering the luncheon table was an arrangement of tiny soldiers, tents, and tanks.

Attending the event were Meses. R. G. Allen, E. C. Sidwell, W. L. Loving, Frank Carter, Odus Mitchell, E. J. Dunigan, Gene Fathree, C. N. Barrett, Arthur Swanson, Paul Knupp, W. T. Fraser, Don Conley, Knapp Perry, Arthur Teed, and E. L. Green, Jr.

Pre-Nuptial Shower Given As Courtesy To Miss Hatton

Special To The News
WHITE DEER, May 29—Complimenting Miss Lorena Hatton, a pre-nuptial shower was given Monday afternoon in the home of Mrs. E. J. Moore, with Mrs. J. W. Wells, Mrs. H. G. Hynds, and Mrs. Moore as hostesses.

Miss Hatton will be married to Loyd Stalcup on June 8, at the bridegroom elect's home in Goodnight, Oklahoma, and they will make their home in Oklahoma City.

Presiding at the guest book was Miss Jennette Moore and at the refreshment table was Miss Geneva Moore.

As Miss Hatton and Mr. Stalcup entered, Mrs. H. C. McDowell played the Wedding March from Longfellow. This was followed by a musical reading, "The Wedding of Jack and Jill" by Mrs. Holt Barber accompanied by Mrs. McDowell.

Gifts were presented to the honoree in a huge box decorated in pastel shades.

Others present were Mesdames J. A. Hatton, J. Freeman, H. H. Banzet, Roy Matheson, W. W. Sills, Mrs. J. Haggerty, J. R. Nicholson, Floyd Travis, Halle Martin, Roy Tribble, Jessie Pearson, Clarence Anderson, M. C. Doss, Herman Coe, H. T. Dickens, Whatley McRae, Myrtle Hodges, W. G. Eller, J. G. Wheeler, Holt Barber, Ida Block, E. W. Outlaw, David Hodges, Frank Evans, and E. H. Grimes, and Miss Claudia Eversly.

Sending gifts were Mesdames Dand Lee, Jim White, Neal Edwards, Bill Walker, J. D. Cooper, Jennie Calvin, Elton Beeson, O. A. Wagner, G. W. Culbertson, Pearl Burgin, Biggs Horn, C. W. Watson, Ralph Goodner, Harry Eidenborough, E. F. Fondren, A. L. Stovall, John Williams, C. B. Chunn, E. J. Williams, B. R. Weeks, E. C. Shuman, Laura Naylor, W. B. Stubbins, Sam Goodner, Jesse Woodard, J. C. Jackson, V. B. McBrayer, J. M. Owens, Jerry Simmons, B. O. Bertrand, Hylda Brown, W. B. Carey, J. W. Eversly, Zetta Edwards, Al Jordan, Clara Zector, Artie Morrow, L. A. Cunningham, G. B. Moss, Oscar Hess, and Lillian Luttrell.

Misses Florine and Roberta Nicholson, Alma Ruth Edwards, Eula Reynolds, Roberta Bertrand, Dolores Bishop, Lucille Warminski, Patricia and Marilyn Brown, Dessie King, Maxine Felts, Floretta Whitefield, and Vivian May.

Members of the White Deer chapter of the Eastern Star presented a crystal sandwich tray, and the bride-elect's parents, Mr. and Mrs. J. A. Hatton, a chest of silver.

The international air transport system joins the United States with more than 50 foreign countries and colonies, including all Latin America, Europe, New Zealand and the Orient.

Breakfast Given For Euzelian Class Wednesday Morning

Members of Euzelian class of First Baptist church were entertained at a breakfast given Wednesday morning in the Johnson cafe.

Red, white, and blue flowers decorated the tables and the cafe. Each place was marked with a tiny American flag.

After breakfast the group went to the home of Mrs. Emmett Forrester, 1120 East Francis avenue, where a business session was held. Two officers, Mrs. Homer Anderson, secretary, and Mrs. W. Claude Wilson, stewardship vice-president, were elected and a new group captain, Mrs. S. C. Hewitt, was appointed. Mrs. S. C. Hewitt was assisted by Mrs. Homer Anderson.

Attending the event were Meses. William Morris, J. G. Teeters, O. R. Pumphrey, L. H. Johnson, H. N. Clay, O. B. Shiffman, Homer Anderson, S. C. Hewitt, E. L. Yeargain, Allen Vandover, Robert Carr, and Lunnett Forrester.

Guests were Meses. E. L. Anderson, R. W. Tucker, and Homer Doggett.

HAT AND FROCK

8864

Every age has its nautical costume. Here is the Miss 2 to 6 version, with a flat sailor hat to match! Make it in white pique, for dress-up, or in blue chambray or broadcloth with a contrasting white collar. A simple princess line frock to make with a yoke which buttons in front.

Pattern No. 8864 is in sizes 2, 3, 4, 5, and 6 years. Size 3 requires for hat and dress, 2 1/2 yards 35-inch material; 3/4-yard contrast fabric for collar, cuffs, and hat band; 3/4-yard lining for cap. Detailed sew chart included.

For this attractive pattern send 15 cents in coin, your name, address, pattern number, and size to The Pampa News Today's Pattern Service, 211 W. Wacker Drive, Chicago, Ill.

Have you seen our new Summer Fashion book? More than 100 fascinating styles for you and the children.

Pattern, 15c; Pattern Book, 15c; One Pattern and Pattern Book, ordered together, 25c.

Tip on Swiss
To preserve the delicate flavor of Swiss cheese, keep it away from strong smelling foods—in a cheese bell, or a cool, dry place, preferably.

Spring Dessert
A timely dessert that is simple, delicious and has gobbs of eye-appeal is large, perfect, ripe strawberries served in individual clear glass dishes, stems on, around small heaps of confectioner's sugar.

Crisp White Flatters Tan
There's nothing quite so becoming to summer tan as crisp white. To wear with short-sleeved summer frocks you will want to consider six or ten-button length white gloves of waffle pique. One of the smartest models reaches nearly to the elbow and has a narrow turned back buttoned cuff. Another, equally as smart is slightly shorter, with a wide, flaring cuff.

Such terror was caused by the comet of 1680 that people wore medals to ward off its evil effects.

Hopkins HD Club Has Program On 'Fancy Work'

"Fancy work" in the home has the same effect as do accessories to a beautiful costume, giving the finishing touch to a carefully arranged room." Mrs. C. F. Jones said when the Home Demonstration club met in the home of Mrs. Helen Partridge.

The program subject was "Fancy Work" and each member took an article for display. Mrs. Hueyn Laycock showed a vanity set of Ramona cloth embroidered in soft colors with a narrow crocheted edge. Mrs. George Reeve demonstrated how bright color wool yarn on bur-lap could be used to good advantage on a lumen cloth for an outdoor dining room.

Mrs. Vern Savage contributed a crocheted divan and chair set which was larger than the ordinary set, being almost large enough to cover the entire back of the divan or chair. Mrs. Jones displayed two different designs of pillow slips. One was of white tubing lined with rose print material with cutout design above the center scallop. The other was all white embroidered in satin stitch which has a lasting quality.

Mrs. L. J. Pratt displayed a chair set and a vanity set in linen with white satin embroidery. She also showed a crocheted basket which she used for a centerpiece on the dining table.

Mrs. Partridge explained how to make various stitches in embroidery and displayed a tatted dollie for a flower vase.

Mrs. George Reeve presided over the brief business session with six members attending.

The next meeting will be held in the home of Mrs. Pratt on Tuesday, June 10, when the program will be on bread making. The bread will be made and served to members at the conclusion of the meeting.

Motion Pictures Shown At B-PW By Mrs. Goldston

Mrs. A. B. Goldston of Amarillo showed moving pictures made in Europe and explained various scenes at the social meeting of Business and Professional Women's club this week in the city club.

The group recessed to hear President Roosevelt's address after which the meeting was resumed.

Those planning to attend the convention in Lubbock on June 6, 7, and 8, are asked to call Myrtle Simmons for reservations.

During the business session the tea to be given for 4-H club girls was postponed and plans were made to announce the date later.

After the guests were introduced, refreshments of punch and cake were served by the hostesses, Myrtle Simmons, Blanche Anderson, Rowena Wasson, and Laura Belle Cornelius, at tables decorated with red roses and mock orange blossoms in tall white vases.

Attending were Myrtle Simmons, Lillian McNutt, Ann Heskew, Martha Tinnin, Mrs. G. E. Tinnin, Mable Gee, Ruth Walstad, Mrs. Etta Britan, Blanche Anderson, Rowena Wasson, Grace Pool, Lois Cambren, Dalton Hall, Fern Goldston, Clara Lee Shewmaker, Jan Sanders, Bernice Lash, Lillian Mullins, Mildred Overall, Ida Mae Jones, Virginia Parton, Gertrude Lowther, Thelma Snyder, Ruba McConnell, Louise Smith, Helen Houston, Letha North-up, Mayme Counselor, Geneva Briscoe, Cherry Madoux, Beulah McCarty, Vera Lord, Ulane McCarty, Madeline Murray, Madge Rusk, Lillian McWright, Janice McWright, Lillian Jordan, Leora Kinard, Audrey Fowler, Estelle Tierson, Mildred Lafferty, Frances Craver, Gypsy Maloy, Tommy Stone, and Maurine Jones.

Fine Arts Club Concludes Study At Recent Lunch

PANHANDLE, May 29—Climaxing their year's study course on "Spanish America Today," members of Fine Arts club met at the Mexican Inn in Amarillo for a luncheon.

Mrs. J. Sid O'Keefe, president, gave highlights on the National Golden Jubilee celebration of the Clubs held at Atlantic City. Mrs. Asberry Callaghan was a delegate to attend the meeting.

Mrs. J. C. Jackson, president for the coming year, and who was a delegate to the recent district convention at Amarillo, gave a report of the meeting. Mrs. O'Keefe was a delegate and also attended the state meeting of the Federation of Women's Clubs held in Austin.

A course of study based on club year.

Present Students In Recital Friday

Special To The News
WHITE DEER, May 29—Closing the year's work, Miss Kathleen Crawford will present her voice and piano pupils in a public recital, Friday evening, at 8:15 o'clock at the Presbyterian church.

The program will include: "Home on the Range" and "Oh, Susanna," Foster; Clara Meaker; "Bird Calls in the Woods," Wagner; Bonnie Swinford; "The Fox Hunt," folk tune, Bruce Martin; "Busy Corner," Montandon, and "March of the Wee Folk," Gaynor, Ermagne Taylor; "Sonatina Op. 36, No. 2," Clementi; Les Mae Bednors; "Puck," Grey, Maxine Doss; "The Mill," Jordan, Charmian Coe.

"Lullaby Allegro," Brown, Doris Crumpecker; "Mozart from Sonatina," Beethoven, Shirley Evans; "Hand in Hand," Duclele, duet, Clara Meaker and Bonnie Swinford; "The Rosary," Nevin, Juanita Gray; "Andantino Op. 10, No. 2," Weber, Phyllis Shuman; "Minuet in G," Beethoven, Doris Crumpecker; "Pony Race," Frost, "Morning," Weybright, and "Swans on the Lake," Thompson, Carolyn Evans.

The public is invited.

Members of Euzelian Class Entertained At Breakfast

Members of Euzelian class of First Baptist church were entertained at a breakfast given Wednesday morning in the Johnson cafe.

Red, white, and blue flowers decorated the tables and the cafe. Each place was marked with a tiny American flag.

After breakfast the group went to the home of Mrs. Emmett Forrester, 1120 East Francis avenue, where a business session was held. Two officers, Mrs. Homer Anderson, secretary, and Mrs. W. Claude Wilson, stewardship vice-president, were elected and a new group captain, Mrs. S. C. Hewitt, was appointed. Mrs. S. C. Hewitt was assisted by Mrs. Homer Anderson.

Attending the event were Meses. William Morris, J. G. Teeters, O. R. Pumphrey, L. H. Johnson, H. N. Clay, O. B. Shiffman, Homer Anderson, S. C. Hewitt, E. L. Yeargain, Allen Vandover, Robert Carr, and Lunnett Forrester.

Guests were Meses. E. L. Anderson, R. W. Tucker, and Homer Doggett.

Eades Dies In Veils Hospital

John Noah Eades, 46, died last night in the United States Veterans hospital at Amarillo where he had been admitted May 10. Mr. Eades had been a resident of Alameda for 16 years and at the time of his death was working on the government shelterbelt program. He was a member of the American Legion post at McLean. He joined the United States army in 1917, and was honorably discharged in 1919. He was with the wagon artillery. Survivors are the widow; three daughters, Alta Mae, Mae, and Johnnie, all at home; five brothers, Tom of Hollis, Okla., Oscar of Hico, J. D. of Kopper, Vernon of Hanley, and George of Blair, Okla.; four sisters, Mrs. R. V. Miller, Auburn, Cal., Mrs. Eunice Bramlett and Miss Ivy Eades, both of Blair, and Mrs. Lizzie Jones of Hollis; and step-mother, Mrs. Elizabeth Eades, Blair. Funeral services were to be conducted at 3 o'clock this afternoon in the Alameda Baptist church by the Rev. Vaughn, pastor of the Alameda Methodist church, and the Rev. S. T. Greenwood, pastor of the Alameda Baptist church. Burial was to be in Alameda cemetery, under direction of Djenkel-Carmichael Funeral home of Pampa. Pallbearers named were Hartley Davis, L. H. Earthman, Lawrence Lee, J. W. Bryant, A. H. Mormon, and George Oakley.

Jap Adherence To Axis May Weaken

WASHINGTON, May 29. (AP)—Responsible legislators said today there is a growing belief in administration circles that Japan's adherence to the Axis soon may weaken, and they cited as evidence President Roosevelt's virtual omission in his fireside chat of any discussion of America's problem in the Pacific. This belief, reported to be entertained in high quarters, was said to be based on information that business interests apparently were gaining influence in the Tokyo government and might eventually prevail over the military party which led Japan into the war with China and into the Axis alliance. The President made only brief references to the Pacific in his address Tuesday. He mentioned aid to China, but nothing else beyond the assertion that the dictatorships were organizing a system which might be used to force enslaved peoples to build "a naval and air force intended to gain and hold and be master of the Atlantic and the Pacific as well." Chairman George (D.-Ga.) of the senate foreign relations committee, after a study of the speech, told reporters he considered it "significant that the President did not deal with the Pacific problems. He declined to elaborate, but intimated that some change in the far eastern situation might be in the offing."

Schmeling Killed In Crete Invasion

CAIRO, Egypt, May 29 (AP)—Max Schmeling, former world champion heavyweight boxer, has been killed while trying to escape from British imperial forces which captured him in the German invasion of Crete, a New Zealand ambulance driver witness declared today. Returning to Egypt, the ambulance driver said: "Early in the battle of Crete, a husky German fighter was captured, slightly wounded. "Speaking English with a strong American accent, he said he was Schmeling and his papers bore that name. He was truculent and surly. "After talking with him at length, our officers were convinced he was Schmeling. "Later in the day he was being taken to a field hospital by our ambulance corps when more German parachutists descended on top of us and a dog fight opened. "Schmeling grabbed a chute from one of our soldiers who had been wounded and went into action like a wild bull. "Before he did any damage, however, someone let him have it, and that was the end of Max. "The ambulance driver said he did not know whether Schmeling had arrived in Crete by parachute, plane, or glider, but German officials had said previously that he went there as a parachute trooper."

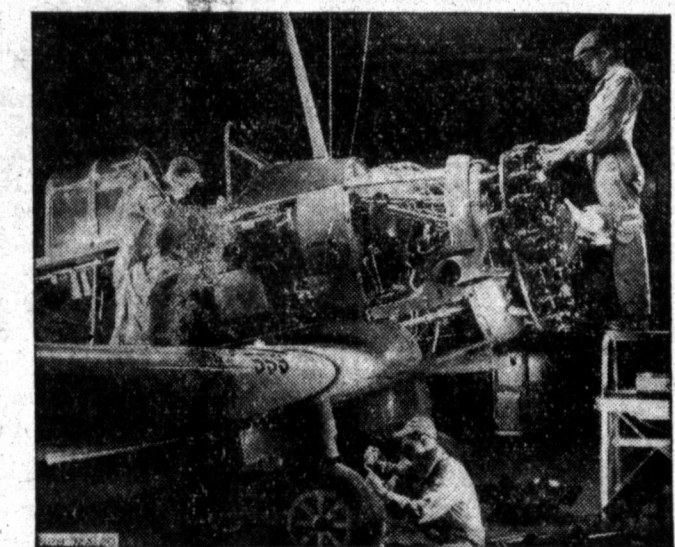

Texas Labor Leader Promises No Delay

AUSTIN, May 29 (AP)—Organized labor will see that there is no delay in national defense work, Joe T. Steadham, Texas labor leader, declared today. He termed President Roosevelt's Tuesday talk a "masterpiece," and as legislative representative of the Brotherhood of Railroad Trainmen in Texas pledged full support in every undertaking involving that organization. "I think the address was a masterpiece," he said in a statement. "I concur in every phrase and as representative of the trainmen in Texas offer our full and undivided support in every undertaking where our organization is concerned. We stand ready to serve in any capacity in defense of our nation. "I believe that every member of organized labor in America should and will take it upon himself to see that there is no delay in our defense work. "I have full confidence in the president and know that he will not permit capital to take advantage of the toilers during this crisis. "The president, the congress and the legislatures of the different states will not permit the enactment of oppressive legislation, and in addition, they will not permit the cost of living increase without equal compensation to those in the trenches of toil who produce and deliver the supplies that will preserve our democracy."

Victor Mature, stage and screen star, and Mrs. Martha Stephenson Kemp, widow of Hal Kemp, band leader, seem to be having a nice time dancing while New Yorkers hear they'll marry this fall.

One Goes Up; Seven Stay Home

"Ground-Crews" like the night-working mechanics shown in the picture above tuning up the "innards" of a training plane at Randolph Field, Texas, are busy night and day at Army Air Corps flying fields throughout the country. They keep the planes of our rapidly-expanding Army in top condition. The Army figures that, to keep one plane in the air, seven men such as these are required to perform their expert tasks on the ground. The Army has places for more of these capable young men.

Mass Production Of Parachutists To Begin When Two Towers Open

FORT BENNING, Ga., May 29 (AP)—Mass production of parachutists to increase the present United States force four-fold by November begins here today with the opening of two \$80,000 spinning towers, army prototype of the 25-cent-a-ride thrill feature of the New York world's fair. Since last November the army has trained one battalion, about 500 men, of the air-borne shock troops like those so prominent in the Crete campaign. By this November it expects to have a force of more than 2,000 even if world developments do not force speeding up the program. The new system will slash training time by providing all the necessary instruction of jumping without the need of flying. With the new towers "the man can take three or four jumps a morning, an impossibility if they had to be flown every time," says Capt. R. E. Lindquist, plans and training officer of the just-created provisional parachute group. One of the towers is for controlled descents, just like the world's fair attraction. With chutes blown above them, recruits are hauled 200 feet to the top in a seat. Cables control the descent and absorbers take up the shock of landing. Once he is accustomed to height perspective and the sensation of dropping, the soldier transfers to harness and is allowed to land without the benefit of absorbers to learn how to flex his legs and body. That step completed, the recruit is suspended horizontally from his chute straps and hauled 150 feet into the air. That is the position when he drops from a transport plane. Face downward, the soldier pulls a cord, drops 15 feet and is suddenly pulled up just as though a chute had snapped open above him. This gives him the body jerk he would get normally in a real jump. The first training phase completed, the soldier transfers to the second tower where he is hoisted the full 250 feet and dropped, his chute descending with no control except what he can exert through the shroud lines. A short practice at this and the soldier is ready for the biggest hurdle—psychologically at least—of stepping from a noisy plane cabin into the blasting slipstream 2,000 feet above the ground. But he isn't an army parachutist until he can dive out at 700 feet with a pistol and pack full of grenades, land safely on his feet, grab machine guns or other weapons dropped by other chutes and be ready to fight within one minute. Alaska, Canada, Finland, Greenland, Norway, Russia and Sweden extend north of the Arctic Circle.

Luftwaffe Strates Britain Severely

(By The Associated Press) LONDON, May 29—Weather variations aided the Germans and handicapped the British in aerial offensives last night and the British Isles were strafed by the Luftwaffe with a severity unequalled since May 17. Nazi bombers favored by improved flying conditions struck at towns of the northwest, east and southeast England and the southeast coast of northern Ireland while a small force of the British bomber command aircraft raided objectives of northwest Germany in spite of what the air ministry called "bad weather."

British Announce Loss Of Destroyer

(By The Associated Press) LONDON, May 29—The British destroyer Mashona was sunk by German planes when they got in the last blow of the sea battle which cost Germany the 35,000-ton battleship Bismarck, the admiralty announced today. One officer and 45 men are missing from the 1,850-ton tribal class destroyer, which went down shortly after the Bismarck was pounded to ruin 400 miles west of Brest, France, last Tuesday morning. The Mashona's normal complement was 240-110 more than usual for British destroyers.

British Intercept German Freighter

LONDON, May 29 (AP)—The German freighter Lech, 3,280 tons, trying to run the British blockade from a South American port to occupied France, has been intercepted by a British ship, the admiralty announced today. "The British would not say whether the Lech had been scuttled by her own crew, sunk by the British, or captured. Early this month there was a rumor in New York shipping circles that the Lech had been intercepted by a British cruiser and scuttled by her own crew. The Lech left Rio De Janeiro, Brazil, April 28, carrying a cargo of fuel oil, cottonseed, hides, iron, mica, coffee, and other merchandise.

Price Chief Opposes Rail Wage Increase

WASHINGTON, May 29 (AP)—Leon Henderson, government price chief, testified today he would oppose a suggested 33 per cent increase in railroad wages if the increase could be absorbed only through increased transportation costs.

Appearing before the Senate Agriculture committee, the head of the office of price administration and civilian supply was asked by Senator Ellender (D-La.) whether he had made any effort "to fix the price of labor."

When Henderson replied negatively, Ellender mentioned the proposed rail wage boost and in opposing it the witness remarked that "rising transportation costs seriously affect all other costs."

He said that when it appeared that an unjustified wage increase would affect prices he would "make representations" to the office of production management and the secretary of labor.

When Ellender suggested that Henderson could be given authority to fix "the price of labor as well as any other commodity" the witness said he was "not prepared to suggest what ought to be done."

Henderson told the committee that "the President does have an obligation to maintain stability of prices in times of emergency like these."

The English house of lords has a red-bordered carpet marking the limits where a member may stand when addressing the gathering. It is believed to have been set in the days when men carried swords so that a safe distance would be allowed in case of altercations.

Where an island lies in a river across a state boundary, entire possession of it usually is given to the state in which the large portion falls.

PLANE IN WHICH YOUTHS DIED AFTER STRUGGLE IN AIR

Two youths engaged in a hand-to-hand battle in cockpit of this light training plane as it flew above Wichita, Kans., airport in what apparently was an attempt by one to frustrate the suicide plan of the other. Plane went out of control at 250 feet and crashed, killing both youths. Victims were William D. Woodward, and John Blaupied, both of Wichita.

SUICIDE CARRIES RESCUER TO DEATH

William D. Woodward, left, apparently with suicidal intent, started to take off from Wichita, Kans., airport in a light training plane. His friend John Blaupied, suspecting his suicide plan, jumped into the plane behind young Woodward and struggled with him for control of plane as it began to take off. Reaching height of 250 feet the plane went into a dive and crashed, killing both Woodward and his attempted rescuer.

Eden States War Aims Of Britain

LONDON, May 29. (AP)—Foreign Secretary Anthony Eden, in his first comprehensive statement on Britain's war aims, declared today that "our political and military terms of peace will be designed to prevent a repetition of Germany's misdeeds." Eden said that "under the system of free economic cooperation, Germany must play a part. But here I draw a firm distinction. We must never forget that Germany is the worst master Europe has yet known. Five times in the last century she has violated the peace. She must never be in a position to play that role again." Eden, addressing a London audience, termed President Roosevelt's fireside chat "Tuesday" night "a momentous world event" because, "by his words, the President has given resolute expression to the fixed determination of the most powerful nation on earth." He asserted that "a lasting settlement and internal peace of the continent as a whole is our only aim."

Greenberg Can't 'Lose Himself'

NASHVILLE, Tenn., May 29 (AP)—Poor old Hankus-Pankus — Put Henry Greenberg to the army — in making a good soldier but he is a problem to himself because he can't "lose himself" in the fifth division of Fort Custer, Mich. Greenberg, the former home run hitting outfielder of the Detroit Tigers, stopped here yesterday with his outfit enroute from Fort Custer to Tennessee for the June maneuvers. All along the way it's been the same story. Autograph seekers, fans, curious folk of all descriptions have come out to get a look at the baseball genius. When his outfit passed through Cincinnati, a newspaper headline read "Greenberg and Buddies Here."

"I'll appreciate it very much if the public will just let me get lost in the army and forget about me," he told reporters here. "It's awfully nice and considerate of my friends, but all this publicity is doing me more harm than good. I just want to be another one of the boys." Quail roost in star formation with their heads pointing out, and, when flushed, they take off in all directions. The Housatonic was the first warship to fall victim to a submarine. The incident occurred during the Civil War.

Mainly About People

The condition of D. C. Hartman, who underwent a major operation last week in Oklahoma City, is reported favorable. For rent: nice furnished garage bedroom. Private bath. 802 Mary Ellen. Ph. 795. (Adv.) Mrs. Walter Daugherty, Mrs. R. B. Pagans, Mrs. Clifford Braly, Sr., and Miss Janice Purviance left this morning for El Paso to spend the week-end. Mrs. Paul Schneider of Amarillo is visiting here this week. Mrs. Maude Hall of Springfield, Illinois, arrived today to spend the summer with her sister, Mrs. W. Purviance. Also she will attend summer school at West Texas State College in Canyon, the first semester. Miss Evelyn Stallings of Stanton arrived yesterday to visit with her sister, Mrs. R. M. Klinger, and Mr. Klinger.

night that a tire and rim had been stolen from his car. Condition of Mrs. J. N. Duncan remains serious. Mr. Duncan, who has been critically ill, is reported slowly improving. A first aid kit, bearing the Humble insignia, and a leather jacket were reported stolen from H. C. Walford's car last night, city officers said today. Two women were fined \$10 each in city police court this morning on a charge of disturbing the peace. The charge followed an affray in a local cafe about 3 o'clock this morning, officers said.

Flood Waters Again Cover Town Of Friona

ALBUQUERQUE, N. M., May 29 (AP)—Violent thunderstorms last night flooded Friona, just across the New Mexico border in the Texas Panhandle, and added a lightning death to the toll in the flood-stricken southeastern New Mexico city of Carlisbad. At Friona, grain elevators in the lowlands were reported flooded and the Santa Fe railway yards washed out by a record flood crest in Friona draw. Trains were detoured from Clovis, 34 miles southwest of Friona, to Amarillo via Lubbock, Tex. In southeastern New Mexico lightning struck Marcus Newley, 27, while working on a concrete mixer at a potash mine, southeast of Carlisbad. The storm at Carlisbad was short lived and did not bring a repetition of cloudburst crests which roared down a week ago, making more than 1,300 homeless.

Home Movies Reveal Surprise Marriage ATLANTA, May 29 (AP)—Ada Newton had friends and relatives in to see some motion pictures brought home from a Hawaiian trip. The first scene was her wedding to Martin Stahlheim, about which none of the spectators had heard until they saw the pictures. International Study Of Wheat Surplus Planned WASHINGTON, May 29 (AP)—The state department disclosed plans today to call an international conference in Washington soon to consider the wheat surplus problem. The disclosure was in the release of an exchange of notes between the United States and Canada in connection with President Roosevelt's action yesterday in imposing import quotas on wheat from Canada and other countries.

This Is the Fabulous Magda

Latest picture of Magda Lupescu, taken in Bermuda where she and former King Carol fled, shows a slimmer and less gay woman than most earlier European photos of this famous principal of a Balkan story book romance.

Daylight Saving Time For Nation Urged By Ickes

WASHINGTON, May 29 (AP)—Interior Secretary Ickes today advocated daylight saving time on a nationwide scale, and suggested that America may have to resort to restricted use of electricity and institute "gasless Sundays" to meet shortages of power and oil. The statement came as an official of the federal power commission foresaw a power emergency, "perhaps the most serious in history," and revealed studies were being made on means of diverting power from civilian to industrial uses, to prevent interruption of defense production. Daylight saving, Ickes said, could be instituted by an act of congress, to save substantial amounts of power. In mentioning the possibilities of priorities in the use of power, the secretary said restricted consumption might easily include night baseball, and he commented: "It's more important to make aluminum than to have night baseball." Turning to oil, Ickes told his press conference the problem was strictly one of transportation and he foresaw a possibility of restricted use, especially on the eastern seaboard. In this connection, he advocated oil pipe lines from the south to the east, where severe shortages of oil are feared because of the transfer of one-fifth of the American tanker fleet to British service. He advocated priorities on materials used in making pipe lines and oil tankers, to hasten their construction. Ickes said an effort to build the pipe lines had been blocked in the Georgia legislature by the railroads "very shortsightedly." T. R. Tate, of the federal power commission, told of the study to conserve power.

GERMANS

(Continued From Page 1) Emmanuel Tsouderous said German bombers had smashed the principal Crete cities of Canea, the capital, Candia and Retimo with such fury that "not one stone was left standing." Tsouderous charged that the German raiders "ruthlessly machine-gunned" the Crete civilian population, particularly children, and that the cities were "literally plowed up by bombs." 'A Cold Steel, Fighting Man'

The men who command the U. S. Army and Navy are no longer mere "names" as they come glowing to life in a series of six intimate articles written for The News. This is the fifth in the series.

By GERRY DICK
NEA Staff Correspondent

WASHINGTON, May 29—When President Roosevelt last February dipped deep down into the Navy pool of admirals and passed over 46 high ranking men to pick Edward Kimmel as Commander-in-Chief of the U. S. Fleet, many a naval man nodded significantly. "Kimmel, King (commander of the Atlantic Fleet), and Hart (commander of the Asiatic Fleet). Three cold steel, fighting men. The navy's stripping for action."

"Hubby" Kimmel, as his friends call him, is an expert in ordnance, a keen strategist. There is little nonsense about him. Ever since he was a midshipman at Annapolis, he has been true to his class yearbook's description of him: "The best type of greaser (conscientious student) and intensely serious about everything."

Six feet tall, broad shouldered, Admiral Kimmel carries himself proudly—another hanger of his student days, when, the record states, "he had the air of being his own statue erected by national subscription."

His friends describe his decisiveness by saying: "He knows what he wants." Others who have felt his blunt edge say he is "brusque, aggressive." But officers and men alike who have served with him concede the fairness of his decisions. Shipmates tell many stories about him.

YOU READ THE ORDERS

Traditionally, flag officers aboard ship seldom attend quarters—that is, are not mustered out to go fishing and inspection. Their shipmates call them "politicians." On one occasion Kimmel gave orders for officers in his command to report with the others "at quarters." He checked up and found only a few of them "on deck." There suddenly seemed, according to one story, to be a thick bluish air obscuring the deck. When it cleared, every flag officer was at his station.

Another time, Kimmel issued orders that officers were to man the battle stations alongside their men. You can get pretty grimy at a battle station aboard ship, and the officers protested this unconventional command. Kimmel's answer to their spokesman was brief: "You read the orders."

Tough though he may be, there is a light side to "Hubby" Kimmel. His alibi for slowness in math as a student is still an Annapolis classic: "This isn't very good chalk they give us here, sir. If it hadn't been for that, I'd have worked twice as many problems."

When he was a young officer on duty off Guantanamo, one of his superiors invited him to go fishing. They came back with one fish. Kimmel held it up and said: "We got one, anyway." The admiral corrected him. "What do you mean 'we'? I hooked him." The next day the pair went out for birds and came back with one. Kimmel held it up and, looking straight at his superior, announced: "We got one, anyway."

WANTED TO GO TO WEST POINT

He seems to enjoy frightening junior officers nearly out of their wits by calling them to the bridge, and discussing the day's orders with brows gathered like storm signals, blue eyes staring.

Then he breaks into a wide grin as he dismisses them. They get to know it as a form of having intended as good clean fun, but more than one has been tempted to make a dive for it before the grin came.

His shipmates tell many stories which indicate that their "Cincus" (abbreviation for his title) has a sense of humor, but few of them have felt that they were close to him.

When he comes ashore to join his family, "hubby" Kimmel doesn't need to translate navy argot into landlubber's language. His wife is the daughter of an admiral, and two of his three sons are naval officers.

Though he was born in Kentucky, his life at sea and in strange ports has left little in his voice and manner to identify him as a southerner. When he can, he still likes to go south in the duck shooting season. Today he plays golf when he can (he's a cross-handed player) but hunting and fishing are his favorite sports. On sea duty he often organizes parties to go ashore for wild boar or to try their luck at baracuda.

Admiral Kimmel will talk tactics, turkey shooting or tarpon if you like, but he shies at mention of the distinguished line of Revolutionary War heroes and fighting men from whom he descends. His father, Major Manning Kimmel was an army officer.

Being an "army brat," it was natural that young Kimmel should want to go to West Point. More than that, the future "Cincus" almost lost such love as he had for the navy when, as a boy of 14, his sailboat capsized in the Ohio river. He advertised it for sale "very cheap." But he couldn't get an appointment to the military academy and chose Annapolis.

As a midshipman he played class football, excelled as a gymnast, managed the varsity crew. Admiral Kimmel's career has developed in him talents of remarkable range. He is as skillful in directing the soft-spoken exchange of diplomats as in returning the enemy's compliments with loud-mouthed navy guns.

KNOWS BLOCKADE PROBLEM

Soon after he left Annapolis he took a post graduate course in ordnance, was later selected champion turret officer of the fleet for his performance with twelve-inch guns. He served as assistant to the director of target practice at sea, and as assistant to the head of the naval gun factory ashore.

During the trouble in Nicaragua,

COMMANDER-IN-CHIEF OF THE U. S. FLEET

Kimmel was put in charge of the Central Division in the Office of Operations, and his job was to act as liaison officer between the navy and the State Department.

Another complete change of pace was his appointment as Budget Officer of the Navy Department, which put his long legs under a Washington desk for three years.

Probably no officer in the United States Navy today understands as well as he the problems of the British blockade. In the World War he was executive officer of the U. S. S. New York, Fifth Battle Squadron, which aided the British in patrolling the North Sea.

Shortly before the United States entered the war, the navy had worked out a system of "spotting," its

shots by triangulation of movie cameras—that is, by focusing two cameras on the spots where the shots fell. The navy could determine from this movie record whether it was shooting "over" or "under." When the U. S. S. New York went abroad, Admiral Kimmel was detailed to take a camera squad to Scapa Flow and show the British the trick. It greatly improved the accuracy of British fire, and they are again using the lessons Kimmel showed them at target practice off Scapa Flow.

His last job before becoming "Cincus," on February 1 of this year, was Commander, Cruiser Battle Force of the Pacific Fleet. When Kimmel was assigned to this post, the only indication he had as to how the new style heavy cruisers

"An expert in ordnance... a keen strategist... there is little nonsense about him." Admiral Husband E. Kimmel, "CINCUS."

and destroyers would behave was what builder's blueprints and the design engineers told him. With Admiral Fye, who was in command of the Destroyer Battle Force, Kimmel translated the battle performance of these ships from theory to fact.

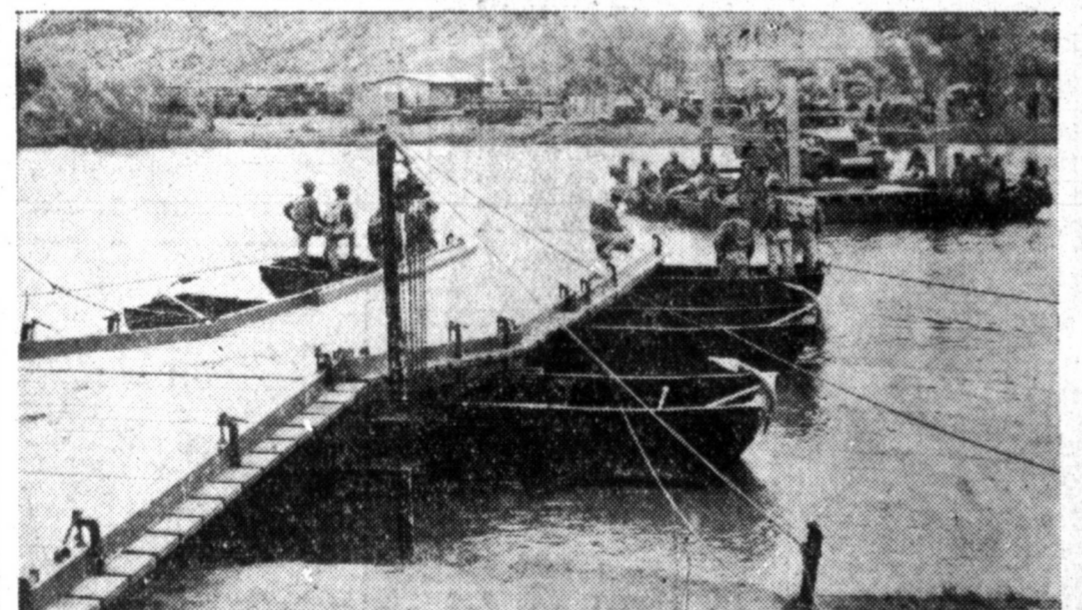

Being "Cincus" is not Kimmel's sole job. He is also Commander in chief, Pacific fleet. If the United States should go to war before his retirement (which is five years away), he would see active duty at sea. Perhaps the most brilliant chapter of his career is still to be written in the log.

It's 'Heads Up' on British Golf Courses

Golf groundsmen are working overtime in England, too. Armed with brooms usually used for sweeping fairway, caretakers go to work on one near London littered with bits of downed German bomber.

RIVER CROSSING MANEUVERS AT FORT BLISS

In a demonstration of speed and efficiency an 8th Engineers squadron strings a pontoon bridge across swollen Rio Grande river near Radium Springs, Tex., above, for a river crossing exercise in which the 12th Cavalry, bottom left, and right, was able to start crossing the river within 10 minutes of their arrival and the start of operations. In the top photo an armored car is already aboard the section of bridge being floated into place.

Sooner Display For Fiesta Off To Good Start

Collection of articles to be used in the window exhibit the Oklahoma club will sponsor as a part of the Sooner activity in the Top O' Texas Folks Fiesta next month, was started by the Oklahomans at their meeting held last night in the district court room.

Neal Holden, Box 422, Pampa, contributed a calumet peace pipe found plowed up in a field near Seminole, and his collection of arrowheads found in various parts of the state.

Two beautiful Indian rugs were loaned for the display by Mrs. J. B. Nichols, 1109 Wilks, along with a vase. These articles came from an Indian trading post, at Connersville.

This is only the start of the display, which is expected to be one of the best in the Fiesta. Numerous other Sooners will be contacted and asked to loan articles for the exhibit, and a supply of other material is due to be received here today from Oklahoma City.

There was a good turnout at the Oklahomans meeting last night. A report was made on past activities of the club, contributions were taken, and five of the 16 candidates for queen were among those present.

The queen candidates were introduced to the group. Election of the state queen, who is to ride on the Oklahoma float in the Fiesta parade, will be held at the club's next meeting, set for 8 p. m. June 5 in the district court room.

Traffic Deaths Jump
DALLAS, May 29 (AP)—Traffic deaths in Dallas county jumped to 18 today when Marcus Morris, 16, of Addison, was killed in an accident on Midway road and Walnut Hill lane shortly before midnight and Jack Sitton of Corsicana, employe at North American Aviation, died at Baylor hospital of injuries suffered in an accident May 17.

Good Neighbor

You've heard of the daughter of the admiral? Well, here is Senorita Marie Guisasa, daughter of Admiral Jose Guisasa, head of Argentine navy general staff. She and father are visiting U. S. naval stations.

Employment in the sales and service of motor vehicles totals 1,306,752 persons, according to U. S. Bureau of Census figures, covering the year 1939.

Flashes Of Life

(By The Associated Press)
RICHMOND, Va.—It was 70 below or thereabouts in the Antarctic on Jan. 10 when Theodore A. Petras, a member of the Byrd expedition mailed a postcard from the base at Little America to a Richmond supper club requesting reservations for a family reunion.

The night the master technical sergeant picked for the affair, May 28, was the hottest of the year in Richmond with a maximum of 98 degrees.

KANSAS CITY—Chester W. Selgular's frank admission that his thoughts were on fishing won him exemption from jury service.

"I just couldn't sit here and hear the evidence impartially and think about those fish in Minnesota," he told the court.

Circuit Judge John F. Cook agreed the excuse was "a frank one," but added that his decision was not to be taken as a precedent.

JERSEYVILLE, Ill.—Charles Terry didn't know his prize rooster was a rat killer when he sold it to Gordon Cary.

But when Cary informed him he found a dead rat in the champion rooster's pen with its head picked full of holes Terry decided the game bird was mighty valuable. So—he repurchased him.

JACKSONVILLE, Ill.—It's always a big moment when a new teacher signs her first contract and for Miss Roberta Butler, MacMurray college senior, there was an added thrill.

Her boss-to-be, Superintendent Johnson of Payson Community High school, is a licensed pilot and flew the contract to her for initialing.

Federal and state taxes on motor fuels and lubricants, and on motor vehicles, accessories and tires have yielded \$13,143,000,000 since 1930, or an average of one and one-quarter billion dollars a year.

The George Washington bridge in New York City is the world's longest suspension bridge.

Oilers Beat Gold Sox And Kid Crider 6 To 4

The Pampa Oilers broke Kid Crider's winning ways last night to beat the Amarillo Gold Sox 6 to 4 in the first of a two-game series. Tonight the Oilers can get their heads even with the world in games won and lost, if they again can take the measure of the Gold Sox.

Monty Montgomery, who hurled his best game of the season last with DeCarlo being safe on Hargrove's error. Hargrove followed with a double and Ray singled DeCarlo across. Cato fled out to Harlan. D'Antonio, who had been troublesome all night, doubled to score Hargrove. Crider fled out to Fierston, and Ray scored. Tenorio then singled and D'Antonio scored the fourth run. Adams then fanned, for the fourth time, to end the rally.

Oilers Score Early
Amarillo threatened in the fourth when the first two batters singled but the next three went out. Amarillo put three on base in the fifth on three singles, but again they failed to score when McPartland fanned two and forced the other man to fly out. In the ninth the Sox put two aboard but failed to score.

The Oilers scored early. With two away in the second, Harlan singled and stole second, and Paur walked. That brought up McPartland, who took a liking to one of Crider's fast balls and warped the rightfield fence for two bases, scoring Harlan and Paur.

Malvica opened the second with a single. Prather walked and then Peterson doubled, scoring Malvica. Matney walked. Reynolds hit one a mile a minute past short but from nowhere Tenorio popped up to snag the ball and double Prather off second. Harlan fled out.

The runs needed to win the game came in the seventh when saw Malvica open proceedings by flying out. Then Crider developed a wild streak and walked three in a row. Reynolds and Harlan singled and three runs scored. Paur fouled out and McPartland fanned.

McPartland was nicked for 14 bingles, but he kept them fairly well scattered, excepting in the eighth. He walked only one and whiffed

TUNNEY ON BACK TO TOUGHEN TARNS

Sports Roundup

By EDDIE BRIEZE
NEW YORK, May 29.—Rumor foundry: The brow front office is spiking strikee Rick Ferrell will replace Fred Haney. They sounded off-key to start with since Haney tried for two seasons to get Ferrell on the club. . . . And we suppose reports that some of the Reds are speaking to each other are just part of the gossip that always goes along with a slump. . . . The Washington boxing commission says it paid Arthur Donovan \$150 to referee Louis-Bauer. Ray C. Alvis, one of the promoters, says Donovan got a grand. Which is right, and if it's Alvis who made up the difference?

Crashing the "400"
Ted Williams of the Red Sox pounded that apple for a very neat 400 in his first 30 games. . . . Which led Mel Web to sing follows in The Boston Evening Globe: This is the tale of Teddy the Great, Who hits 'em early and hits 'em late, Who's blazed away with his trusty To the tune of a cool 400 flat.

Tramp, Tramp, Tramp
Hank Greenberg's outfit is marching 15 miles per day from Fort Custer, Mich., to Camp Forrest, Tenn., at every stop. At one sign, were being carried around reading, "Here comes the army—and Greenberg." . . . Ben Chapman says the reason Washington aired him was his \$12,000 salary. Clark, who is merely speaking to each other are just part of the gossip that always goes along with a slump. . . . The Washington boxing commission says it paid Arthur Donovan \$150 to referee Louis-Bauer. Ray C. Alvis, one of the promoters, says Donovan got a grand. Which is right, and if it's Alvis who made up the difference?

Today's Guest Star
C. E. McBride, Kansas City Star: "Baseball brings strange switches. . . . Dick Bartell, now on the Giants, finds himself teamed with Gabby Hartnett and Bill Jurges. . . . Bartell and Gabby didn't get along when Dick was with the Cubs. . . . And in the old days when Bartell was a Giant and Jurges a Cub, they used to tangle every time they came together in a play at second base."

The Morning Line
Fort Worth bookies quote Craig Wood, Gene Sarazen, Jimmy Demaret, and Ralph Guldahl at 15-1 in the national open. Ben Hogan is 10-1. . . . Zeke Bonura, bowling along at the sweet 400 clip for Minneapolis, predicts he'll be first basing in the majors before the season is over and there are plenty who will second the motion. . . . The deal the Braves and Reds were trying to make didn't involve Max Winter, but called for Ernie Lombardi and Whitely Moore to change uniforms with Ray Berres and Lloyd Waner. Then Ernie began hitting and the thing fell through. . . . The Detroit football lions will move back into Briggs stadium for next fall's home games. . . . Detroit's orchard wasn't big enough.

One-Minute Interview
Joe Cronin: "If Joe and Dominic DiMaggio played in the same outfield there wouldn't be enough room for a third outfielder."

Crack-of-the-Week
"I'm still wondering," writes Ben Atkinson, "how anybody got close enough to Whirlaway to scratch him."

Texas Far Ahead In Championships
AUSTIN, May 29 (P)—The sports year for Southwest Conference states is all in all with the University of Texas far ahead in championships—but not quite satisfied. For a decade the Longhorns have chased after the coveted football title.

They are the people's choice to win the gridiron diadem next fall but meanwhile the orange and white will have to be satisfied with this record for the 1940-41 year. First in baseball, track, golf, swimming and cross-country; second in tennis, third in basketball and a tie for third in football.

Texas A. and M. was Texas' closest competitor but the Aggies did not win an undisputed title. They tied for the football crown, finished second in basketball, swimming and tennis. In cross-country and track, cross-country and third in track. Arkansas won one title—basketball—while Rice took the tennis championship.

There were no other first places to be won except that Southern Methodist finished in a tie for the top with A. and M. in football. While the sports year as far as conference competition is concerned has closed, several of the schools are due to send entries to the national collegiate tract meet in California next month.

Texas' championship thin-clads will be represented by discus thrower Jack Hughes, dash man Fred Randall and Carlton Terry, half-miler Mac Umstadt and javelin tosser Garland Adair.

33 Cars To Face Starter In Indianapolis Classic

INDIANAPOLIS, May 29 (P)—An all-American field of 33 cars will face the starter tomorrow for the 20th running of the Indianapolis motor speedway's 500 mile race.

Ren LeBeque and Jean Trevoux, who went to a lot of trouble to bring their specials from unoccupied France, failed to get into the starting lineup. Their last chance passed yesterday.

LeBeque, who finished tenth in last year's "500," made an attempt but his car lacked the needed speed. He qualified at a speed of 115,003 miles an hour, slowest of the 33 qualifiers, and thus was relegated to second alternate position.

A car must do 115 miles an hour or better for ten miles to qualify. Trevoux did not take his car to the track in the last qualification period.

The field was filled with qualifications for three places in the eleventh row. "Deacon" Litz, Dubois, Pa., took the inside spot with a speed of 123,440 miles an hour. The other positions went to Duke Nalon, Chicago, 122,227, and Al Putnam, Indianapolis, 121,951.

This year, as in 1940, two more than the limit of 33 starters passed the qualifications test. Louis Durant, Hollywood, Calif., whose qualifying time of 118,152 was the next to the slowest, will start only if one of the other cars isn't at the line.

Athletics Have Won Nine Of Their Last 11 Games

BY JUDSON BAILEY
Associated Press Sports Writer

The real sensation of the spring in the major leagues now is being provided by the Philadelphia Athletics, who have won nine of their last 11 games.

From a haphazard crew that floundered helplessly for five weeks, once losing seven straight games and another time five in a row, the Athletics suddenly have sprung up to challenge the first division in the American league.

They squeezed into fifth place ahead of Boston yesterday by capturing a 6-4, 16-inning marathon from the Red Sox and now not only are threatening Detroit in fourth place, but are just three games out of second!

No one will dissent in giving the greatest credit to that 78-year-old genius of the scoreboard, Manager Cornelius McGillicuddy himself.

While the Athletics have been ridding in the east, the Detroit Tigers have covered the first-place Cleveland Indians three in a row, yesterday by an 8-5 margin.

The second-place Chicago White Sox dropped their second straight to the St. Louis Browns 6-4.

A grand-slam home run by George (Tink) Selkirk with the bases loaded in the eighth brought the New York Yankees a 6-5 verdict over the Washington Senators.

The St. Louis Cardinals continued their burning pace in the National league with another ninth-inning rally to clip the Chicago Cubs 6-5 for their ninth consecutive victory.

A three-run homer by Vince DiMaggio gave the Pittsburgh Pirates the lead they needed to cage the Cincinnati Reds, 7-4.

Brooklyn's Dodgers preserved their lead over the Phillies by taking a 6-5 twelve inning decision in a night game.

Davis To Help Write Refining Textbooks

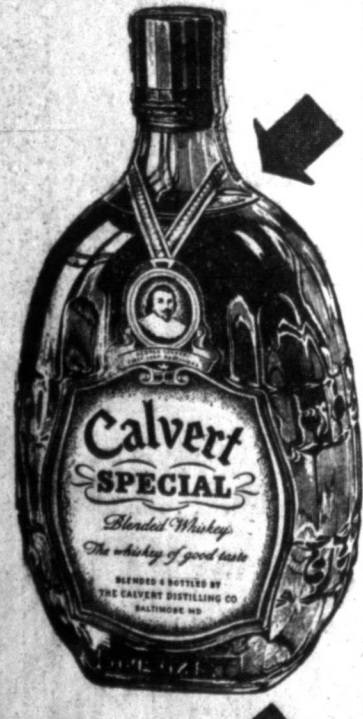

C. M. Davis, area coordinator of industrial education with headquarters here, will leave tomorrow for Austin, where he will spend June and July assisting in writing vocational textbooks on refining of petroleum products.

The industrial education board has textbooks on all petroleum products except refining of petroleum products.

Mr. Davis will return to Pampa in August to organize fall classes.

The participants of the California gold rush of 1849 were known as the "forty-niners."

Lake Fryer To Have Official Opening

LAKE FRYER, (Perryton) May 29.—Saturday and Sunday marks the second annual official opening of Lake Fryer with all the fixings of a gigantic water carnival and Fiesta.

Advance indications are that thousands will jam the shore line Sunday to witness thrilling boat races, swimming meets, and fast speed boats on this Oasis of the North Plains. From the Panhandle of Texas, Oklahoma and Kansas have come reservations for boats, motors, fishing and camping equipment. R. M. Cronister, concessionaire, predicts a crowd almost equal to last year's opening for the current events.

The fun begins Saturday night, however, with a big dance slated in the Recreational building at the lake site and with special events planned for entertaining the visitors. "There will be plenty of action and fun for all," Mr. Cronister promised, "including fast speedboats for rides, and slower motors and row boats for the more conservative fans who skipper their own craft."

Swimming fans are planning on being on deck Sunday as Lake Fryer is the first of the several lakes in the area to announce swimming facilities open this early in the season.

President's Speech 'Momentous World Event,' Says Eden

LONDON, May 29 (P)—Foreign Secretary Anthony Eden told a London audience today that President Roosevelt's fireside chat was "a momentous world event" because, by his words, the president has given realistic expression to the fixed determination of the most powerful nation on earth.

Eden said the president "described with incomparable breadth of vision the scope of the struggle in which we are engaged."

"He defined the settled policy of his country in terms which are as vigorously encouraging to us as they must be disheartening to the enemy," the foreign secretary declared.

"To give effect to this policy the president has decreed a state of unlimited national emergency in the United States.

"For our part, we have listened with hearts full of thankfulness to the president's determination that the cause of freedom can and will prevail."

Because of the urgent demand for manpower in the defense industry, the 1942 automobile output may be only 50 per cent—more or less—of the total 1941 output.

Wilbur Shaw To Try For Fourth Victory In Indianapolis Speedway Classic

Hi-yo-o-o, Wilbur! Shaw drives for fourth victory—third in row—on Indianapolis Speedway.

By HARRY GRAYSON

NEA Service Sports Editor
INDIANAPOLIS, May 27—Three quick boys from the front row of speed were waiting to fight it out in the final 100 miles of the 500-mile race on the Indianapolis Motor Speedway a year ago and then it rained.

Pate and ability have put the same three fast men in the front row again this May 30th, praying for a dry strip and an opportunity to give the close to 150,000 customers a furious run for their money.

It was Rex Mays, Wilbur Shaw, and Mauri Rose in the front row in 1940, with average speed of the famous 127 miles an hour for qualifying runs.

Flagged down because of the slippery bricks, Shaw won, Mays placed, and Rose showed.

On the first day of qualifying this year, the trio hopped up their average speeds to close to 129 miles an hour, and are sitting in the front row in this order—Rose, Mays, Shaw.

This is one of the reasons for predicting one of the hottest contests in 29 years of racing at the famous station attendants' picnic, without even considering that there are 30 other mounts in the field, a number of them as capable of scoring as the front row swift-steppers.

On past performances, Shaw, the home-town boy, and Mays, the California Comet, are the favorite, with the bantamweight, Rose, an aviation motor executive of Dayton, O., well thought of.

Chet Miller of Detroit, and Cliff Bergere, Hollywood stunt man are dark horses.

BERGERE TAKES PLACE AS IRON MAN OF SPEEDWAY

Bergere returns as car owner as well as chauffeur. He finished third in '39 and went out of last year's marathon with a broken oil line. He needs only 186 miles to become the iron man of the event and top the record of 5,004 miles driving in competition in the 500-mile now held by Lou Meyer, three-time winner.

Kelly Pettilo, '35 winner, Ralph Hepburn, and George Connor are dependables. Connor is a mate of Shaw and Miller in the Mike Boyle team.

LeBeque and Jean Trevoux, French flyers, waded through international red tape to bring themselves and their creations through the British and German blockade.

The average of the qualifying field, something better than 123 miles per hour, with top-ranking jobs in at closer to 129, indicates that, given good conditions, the 500-mile record of 117.2 established by the late Floyd Roberts in '38 will go by the boards.

Shaw upset tradition last May by becoming the first to win in successive years, the second to win three races, Shaw, who pilots an Italian Maserati, first prevailed in '37.

Driving the car in which LeBeque finished 10th last year, and which LeBeque qualified at 118 miles an hour, Rose in the face of a spanking breeze qualified at 128.691 with one lap run of better than 130. His car was completely rebuilt with American motor parts.

Again approximately \$100,000 is up for the knights of the roaring road. First prize is \$20,000.

INTEREST IS RENEWED IN SPEED AND MOTORS

There are an even dozen super-charged motors, which means that their cubic inch displacement averages around 182, while the remainder varies from 225 to 270. Seven are front-wheel drives, while two

drive off four wheels with motors mounted in the rear.

New or redesigned cars attracting interest are led by the four-wheel drive, rear-motor guinea pigs which Harry Miller of Los Angeles designed three years ago but which have just been brought to a point of perfection.

Intense interest in the race is said by officials to be traceable to: Increased rivalry because of the virtual interruption of the competition by drizzling rain for the final 125 miles last year.

Improvement in American cars which have a fine chance of wiping out the two-year foreign car reign with a victory.

Renewed interest in speed and motors because of the defense program.

The fact that Friday, May 30, is the start of a three-day week-end holiday.

The Indianapolis 500-mile race, America's biggest sports attraction, rolls on.

It is the only major automobile race left in a troubled world.

Melting Snow Keeps Rio Grande Swollen

ALBUQUERQUE, N. M., May 29 (AP)—Continued melting snow of the Rio Grande's upper watershed brought a forecast today of rising river stages for several days, but officials minimized flood threats, barring heavy mountain rains.

Main activity along a 200-mile front where the river has been fought for a month was about 90 miles south of here at San Antonio. A levee gave way there Tuesday, requiring evacuation of several farm homes.

Workers blasted a hole in the levee, two or three miles below the break, to relieve a threat from rising backwaters to U.S. highway 85 and the Santa Fe railroad tracks.

Panhandle OES Elects Officers

Special to The NEWS
PANHANDLE, May 29—At the last regular meeting of the Order of Eastern Star, Mrs. Alf Pemberton was elected worthy matron. Other officers elected were: Mrs. E. E. Pierce, associate matron; Allen Johnson, worthy patron; Lloyd Thorp, associate patron; Mrs. C. F. Hood, conductress; Mrs. Letha Grammer, associate conductress; Mrs. J. E. Southwood, secretary; Mrs. Clara Cornelius, treasurer.

These officers and the appointed officers will be installed Saturday night, at Masonic hall.

Have You Bought Your Defense Bond?

Yes, there is something you can do! You can buy Defense Bonds. The result of their sale thus far indicates that not nearly enough people are buckling down to their job. Lending the government part of whatever money you can spare is part of that job.

In the first two weeks of their sale, about a quarter of a billion dollars worth of Defense Bonds and Savings Stamps have been bought. That is not nearly enough. If it were enough the government would not have to go out to raise another huge loan at this time selling ordinary bonds to the banks.

Once more, let us repeat the advantages of the Defense Bond plan. When the government sells bonds to banks, that simply expands the national credit case. Inflation is brought nearer. But when you buy Defense Bonds, you lend your actual money to the government. What you lend is not spent now, and what is not spent does not help to raise prices unduly, which is another word for inflation.

Defense Bonds are debt with a double purpose, that is, to keep down spending of excess money, which, too freely spent, tends to force prices up. They cannot depreciate in dollar value, but grow each year in such a way that a \$100 face value bond bought now for \$75 pays out at \$100 ten years hence, or at an appropriate fraction of that any time you need the money. The advantage of all this is that people will be cashing in those bonds later, at a time when business and money in circulation are contracting. It will be needed then, and its spending will be a national benefit instead of a national inflationary threat as it may be today.

A quarter of a billion dollars is chicken-feed in relation to the vast amounts that must be spent for defense, whether there is war or not. If you're making good money today, and many people are, better set some of it aside in Defense Bonds or Savings Stamps. Your bank or your postoffice will tell you about them.

The slower the response is to this effort to get people to invest savings voluntarily, the greater will be the cry for a "compulsory savings" or "deferred wages" plan on the Keynes model. We still have complete faith that Americans will prefer to do the job of their own free will.

Behind The News

By PETER EDSON

The Pampa News Washington Correspondent

WASHINGTON, May 29—Difficulties in settlement of two recent major labor disturbances, the General Motors and Pacific coast ship building cases, have brought out sharply some of the fundamental weaknesses of the American labor situation today—and the weaknesses of most of the remedies now under consideration to cure what ails us.

Take the General Motors case first. Management and labor both admitted privately that this was one strike that would not be allowed to happen. Inside story is the C. I. O. filed its five-day notice of intent to strike, as called for by Michigan law, purely as a precautionary measure, with the idea, perhaps, that it would speed up negotiations and settlement. What happened, however, was that the cooling off period became a heating-up period and before leaders knew it, their unions were all steamed up and ready to walk out.

It took 16 days of the National Defense Mediation board's best licks to effect settlement. Even then, on the day before agreement was reached, 36,000 workers in Detroit and Flint, unaware that the negotiators had agreed to a further 24-hour truce, walked out. Flint workers simply ignored the order of U. A. W. President John R. Thomas that they return to work. Fortunately, the walkout was ended after one day by signing of the new agreement.

WATERFRONT STEAMS UP Take the coast shippers case. On April 23 in Seattle, a master contract was agreed to at Office of Production Management instance, providing \$1.12 an hour with time and a half for overtime. A short time later, however, "uptown" San Francisco machinists not working in the shipyards made an agreement for \$1.15 an hour and double time for overtime.

This steamed up 1,900 waterfront machinists, 1,200 of them A. F. of L. 700 of them C. I. O. Taking the stand that the master contract had not been approved by the rank and file membership, they went out on strike for \$1.15 an hour and double time, forming picket lines that kept 20,000 men off the job. Union leadership was powerless to prevent this clearly unauthorized strike. OPM appealed to the machinists to go back to work, but without effect.

Here is the interesting complication: Because OPM had handled this case from the first, the conciliation service of the Department of Labor was not called in and because conciliation service was not called in, the secretary of labor could not certify the case to the National Defense Mediation board.

WHAT THE DOCTORS THINK

Chief panaceas that congress has been able to think up for these mixups follow the general formula of the Vinson bill now under consideration, providing for a cooling off period. In neither of these cases, labor experts in Washington believe, would the cooling off period have done any good. Rank and file union membership, when it takes matters into its own hands, has all too frequently run away from its leadership.

Reorganization of all federal labor relations agencies under one head has been proposed since there has been confusion in the eight-headed OPM-Mediation Board-Conciliation Service Department of Labor-Wages and Hours-NLRB-Maritime Board-Railway Labor Board setup. These organizations really have

Common Ground

This column contends there can be no satisfactory progress until we measure the shares of each man by the common yardstick of the God-given equal right to create and enjoy anything anyone else has a right to create and enjoy.

SOME WAGE INCREASES A CURSE, SOME A BLESSING

There are two very opposite, distinct and different kinds of wage increases. One kind is a great blessing to all mankind; the other kind is a curse to mankind.

It is undoubtedly because some wage increases are a great blessing to all mankind that many people conclude any wage increase is a blessing to mankind.

But this is not true. It is not true for the reason that when wages increase are the result of more production then all the other producers of other things in the world are benefited by this increased wage resulting from increased production. Then the real wages of all producers of other things are increased because what he produces will exchange for more.

But, on the other hand, when wages are increased not because of increased production, but by the threats of sudden stoppage, or by blackmail, or even force, or intimidation, or by law and these wages are out of harmony with other wages, then this kind of a wage increase is a curse to mankind. It is a curse to mankind because wages that are thus raised, lower the real wages of all other workers who produce other things. It lowers the real wages of all other workers who produce other things for the reason that when they trade what they produce they get less of what they trade for.

Better Understanding Needed So it is of the utmost importance that people come to better understand that wage increases can be a curse or they can be a great blessing. It depends entirely upon whether they are the result of more production or whether they are the result of a form of intimidation and threat of sudden stoppage of production or, in other words, a form of civil war.

It is undoubtedly due to this misunderstanding in the different benefits and curses of wage increases that causes democracies, sooner or later, to commit suicide. It was this idea that wages could be increased arbitrarily by collective bargaining that caused Italy, Germany and Spain to lose their democratic form of government. It is largely the cause of England being in the predicament it is now. It is largely the cause of the United States having the worst and longest depression in its history.

No, wage increases, as a result of more service to their fellowman—that is, more production—are a great benefit to mankind as a whole. They not only benefit the recipient but they raise the real wages of all other workers producing other things. On the other hand, wages established arbitrarily, collectively, by intimidation, by blackmail, by misrepresentation, by people who will not write a "rule of the game" is a great curse to all mankind. When wages are raised this way, other wages are lowered much more than the arbitrary wages benefit for the time being those who are receiving them.

Would that more people understood the different results of different kinds of wage increases!

THE CUSTOMER THE BOSS

No matter how big a business man is, the customer is eventually the boss. It will be remembered years ago when Ford jumped from a four to an eight cylinder car, he rather intimated that a six cylinder car was impractical from mechanical principles. Now he is announcing that he is producing a six.

The customer is always the boss.

The Nation's Press

WAITING FOR A POLICY (Kansas City Star)

Regardless of what particular instance of defense strife may be "settled" or may not be, it is evident that a condition exists in this country that cannot be permitted to go on forever—unless all authority is to be abdicated and the nation is to acquiesce in group and special interest control.

The present urgent need is a clear and effective official policy. What we have is exactly the opposite of it. In spite of all the trouble over a period of long months when the cry has been more and more production, the sole move toward an official policy has been the naming of a mediation board.

It is no fault of the board that it can't do the job, certainly not the whole of it. The board has been credited with the settlement of some disputes—after they had been certified to it by Miss Perkins of the labor department. But the board was not allowed to touch the soft coal tie-up for the greater part of a month, while the great steel industry—key to the defense production—was forced to cut down because of a fuel shortage. The board was held off, as Miss Perkins admitted, because John L. Lewis of the Miners' organization objected to its getting in. The same kind of objection presumably would hold in any other case.

On top of that situation, no move in Congress to establish new methods or adopt a new system—even such a mild measure as a cooling off period—has been sanctioned by an administration spokesman. On the contrary, there has been opposition and the plea that the whole matter should be left to simple mediation and voluntary action—at the identical time that such a policy was proving its futility.

An objection to the house proposal for a cooling off requirement has been that it carries still penalties for violation. But if they are too severe they should be modified. That is not, in fact, the basic point. It is rather an unwillingness to do anything of a positive nature.

But there is no such unwillingness when it comes to telling the industry what it shall do, when it comes to taxing the people, to control of prices and to drafting men for service to their country.

The people see what is going on and they are asking why. Will Washington answer?

different functions and they are now co-ordinated through Steelman's conciliation service office.

Too much pressure has been put on the mediation board. Because it has been at the top of the heap and was created to be the last word in cure-alls, there has been a great rush to get cases certified to the board for handling.

This tendency has been partly corrected now. Only the most crucial cases get to the board, which was rapidly being swamped. In the two months of its existence, it will have had only about three dozen cases certified to it, two-thirds of them being in the first month. In the meantime, the conciliation service has been handling some 500 cases a month without much hullabaloo, simply because it's bigger and better organized for the job.

WINGS OVER CRETE

Around Hollywood

By LUCIE NEVILLE

NEA Service Staff Correspondent

HOLLYWOOD, May 29—Behind the screen: The Brothers Warner have thought up something to compete with Bingo, Whammo, and free dishes in the stimulation of interest in motion pictures. The idea, though is strictly cultural: a Library of the Screen, with branches in all the company's theaters.

There will be novels and biographies which already have been filmed and texts and histories on movie-making plus albums of photographs from famous pictures. No announcement has been made regarding source novels such as "What Makes Sammy Run?" and "The Days of the Locust"—whether they'll be omitted or lauded by a special committee from the Hays Office.

Anyway, considering the great amount of excellent and unobjectionable material which should be available, it seems the Warners are taking a pretty big chance with their lending library. Such a venture may be all that's needed to remind millions of people of the neglected pleasures of curling up at home with a good book.

SHED TEARS HERE

Fritz Lang met a writer whom he hadn't seen in a long time and asked if he'd been selling anything lately. "Yes," said the free-lancer grimly, "my house and car."

Anybody who is very unhappy about being cast in another Andy Hardy picture, she believes that she and her career have outgrown the role of a Mickey Rooney stooge. Jane Withers' next picture for 20th-Fox will be about the 4-H clubs, which have a membership of 1,500,000 farm boys and girls of all rural America. Strange nobody thought of that before.

STORIES BY THE YARD

Speaking of stories, more than 19,000 of 'em now have been registered with the Screen Writers Guild, the majority in the past four years. If all those manuscripts were placed end to end, it would be the first time that most of them ever had seen the light of day. . . . Scenarists are having a tough time figuring out new twists for mystery thrillers. In a current whodunit, "The Devil to Pay," the lethal knife is thrown by a trick monkey.

Jimmy Stewart is going to be in for an awful shock when he comes home from Moffitt Field next time. Burgess Meredith moved out of Stewart's house the other day, but he didn't close the place. He left it in charge of a bunch of Earl Carroll cuties. . . . Next flicker done by Producer-Director-Actor Orson Welles is likely to be "Louisiana Hayride"—the American Rehearsal for Dictatorship—with Welles appearing as the late Kingfish Huey Long. Like "Citizen Kane," this one might be full of dynamite. Yet "Louisiana Purchase" deals with the same regime in music and that stage hit goes into movie production in July.

Greyhound racing in America began in 1917 with the first mechanical hare appearing in Oklahoma. The more highly evolved the animal, the more helpless it is at birth.

People You Know

By Archer Fufflingim

The outstanding feature of the Top O' Texas Folks Fiesta this year is going to be the parade of all states and nations, and it shows signs of really being the outstanding parade since the celebration was started ten years ago. There are approximately 40 men working on the clubs and floats. Without the clubs there would be no floats, and the chairman of the club organizing committee is Charlie Gunn, native of Tennessee who has lived in the Panhandle 15 years. Mr. Gunn lived in Berger before he came to Pampa. Usually when a person is elected chairman of a committee he either does all the work or does nothing, but Charlie has practically every Jaycee helping organize the clubs, and he is working on it every spare minute. He believes that pride of native state will influence residents to get behind their state floats, and that is just what is happening. . . . But the fellow who has one of the biggest jobs in the Fiesta is Finis Stilwell of the Griffith theaters here. Finis led in the organization of several state clubs, and I will say that it is the permission to use a vacant building in town; then he hired some women and put them to work making the floral sheeting for the floats. I have seen this sheeting and I wish here's mighty good water," they all said. . . . "Ain't bad," Bess agreed, "but you have to break it with lie foren you can wash clothes."

Bess always felt sad when she saw outfits go by rattling along with the wash tubs on the side and the oil can and water bucket on the back. She knew they'd been starved out, blown out and dried out. She knew they were giving up. But when they went out of view the other side of the hill she felt a great envy. If only Buck would give up too before they all starved to death or got pelegra from corn bread and salt pork. . . . Buck was always counting his blessings. Water on his place, always water even in the drought. Plenty of corn to bread. His idea of a meal to sing about was cornbread, butter milk and good old turnip greens. He had a tun for that. He'd rub his hands and sing it before sitting down at the table, but Bess never joined in. . . . She was tired of greens, sick of salt bacon. She wished she were back in Galveston and could go to town on Saturday night and have oyster s.w. It was something to dream about. Back in Galveston where you could see the gulf, where the town had pretty stores and lights and no wild cowboys shooting them out sure as they got drunk on Saturday night. She wished she could buy a hat and go to church. "Kids ought to go to church. These ain't never seen inside a church." Bess was tired of mother hubbards and sunbonnets. Tired of coyotes and buzzards waiting for a sick cow to die. She wanted to get her children and run after the covered wagons and beg to be taken along. . . . Buck said it was a good country and anybody who gave up was just plain yellow livered.

Yesteryear In The News

Ten Years Ago Today

At a called meeting of the city commission the ballots of the recent library election were canvassed and an official report announced. . . . Twenty-eight Boy Scouts received merit badges at a Court of Honor directed by the Rev. A. A. Hyde, pastor of the First Presbyterian church, assisted by C. A. Clark.

Five Years Ago Today

Local Boy Scout troops were to demonstrate Scoutism in the merit badge parade which was to be one of the 10 scenes in the Cavalcade of scouting to be held at the fairgrounds. Centennial minded Pampans peered often at slowly clearing skies and hoped for a dry week when the big celebration was to get underway. . . . According to English law, the seashore is that portion of land situated between the limits of high and low tides.

THE LOOKING GLASS

GREER COUNTY

By Stella Holit

Now that the drought had really set in two or three outfits would go by every day heading east. "Going to see the wife's folks," Buck would say cheerfully. "Sensible thing to do when the crops are laid by."

But Bess knew why they were heading east. She'd talked to some of the women. They had told the same story. . . . "Ain't no way possible to farm that land over in Greer county. Crops just dry up like paper. Ain't no water for the cattle for miles around. Ain't even no drinking water. Just Gyp."

Bess would look at the poor old horses pulling the wagons and count all their ribs. They had goad vines thrown over them to keep off the flies. An old cow tied to the back of the wagon looked like a walking skeleton. There was always a mattress inside and some kids that looked too thin and tired to stand up. . . . "These here's mighty good water," they all said. . . . "Ain't bad," Bess agreed, "but you have to break it with lie foren you can wash clothes."

Bess always felt sad when she saw outfits go by rattling along with the wash tubs on the side and the oil can and water bucket on the back. She knew they'd been starved out, blown out and dried out. She knew they were giving up. But when they went out of view the other side of the hill she felt a great envy. If only Buck would give up too before they all starved to death or got pelegra from corn bread and salt pork. . . . Buck was always counting his blessings. TEX'S TOPICS

By DeWesse

THIS generation, like every preceding generation, likes to think that the modern youngster isn't as tough, as hard-working, or as patriotic as his old man. . . . It's an observation sometimes heard in comment on the new army America is putting together. . . . But the generation that fought in 1917-18 showed no more heroism than that of the lad who quietly leaves his job and kisses his girl goodbye, in order to get his military training.

Think back 24 years, to the hullabaloo over the deferment of Edsel Ford, and the exemption of Jack Dempsey as a shipyard worker, or reread the Civil War history of draft scandals. . . . If we do that, we cannot help but agree that America never had a more democratic army than we're building today, nor one to which young men went—with no exhibitionism, no illusions about adventure—more willingly or courageously to defend its things in which America believes. . . . Oh, put not your trust in women! I'm a woman and know by birth. That a woman is always too clever for the cleverest man on earth. —Mrs. Anon, Jr.

A bachelor sent in the above, commenting: "It is amusing the belief persists in women they are smarter than men. . . . Consider the innumerable women given to torch singing after being footed by men. Think of the many widows outsmarted by men and deprived of their savings. . . . When a woman takes the view men are smarter and she has to be careful that is the beginning of wisdom with her and she is on the high road to matrimonial success and happiness." . . . ANTISEPTIC snuff would be an excellent protection against winter colds, says an eminent British medic. Boy, there's an idea. Maybe we will go into the antiseptic snuff the business and make ourselves a few million. What would be a good slogan for Whooid's antiseptic snuff? How about "one sniff of snuff is enough"? Not so hot, is it? Well, we'll have plenty of time to figure out something before the winter cold season. . . . Walter Winchell, who needs no introduction, is joining the naval reserve with the rank of lieutenant commander for the duration of his annual vacation. He was in the navy during the World War. . . . A campaign to bring about having strawberry shortcake for breakfast has failed. However, it's still available for lunch and dinner. . . . In London, strawberries are retailing for \$2 a pound. That's about 20 cents for each strawberry. . . . At that rate, an order of strawberry shortcake would set you back about \$5 in England.

The War Today

By DEWITT MACKENZIE

The position of the Anglo-Greek allies in the battle of Crete was so grave today that even as this is being written they well may have been compelled to give up the fight to retain control of that strategic island.

During the 10 days of one of the fiercest battles of history the Nazi dive-bombers have all but blasted Crete out of the water. Late Greek reports record that the cities of the island literally are pulverized by the deluge of high explosives that have produced an inferno in which civilians and troops alike have struggled.

Lack of air-power in the eastern Mediterranean is the millstone about the Allied neck. It will so continue to be until this deficiency is supplied by the Allies.

Some London observers believe that if the Hitlerites win the battle of Crete they will turn their attention next to the big British naval base on the island of Cyprus. This lies 400 miles to the east of Crete and off the coast of Syria.

That might be an early objective, but possession of Crete would give the Nazis a fairly wide choice of moves. In any event, they must take time out for consolidation of the bomb-torn island before it will be of much value as a base for further major operations.

It is quite possible that the Germans will by-pass Cyprus for the moment, and try to establish themselves in Syria. This would provide a base for a drive through Palestine to Egypt and the Suez canal, and it would give them handy airbases for an assault against Cyprus.

Also of vast and perhaps more immediate importance is the fact that possession of Crete would bring German bombers within 250 miles of the Libyan-Egyptian border on the North African coast where the Axis expeditionary force is maneuvering for an opening drive into Egypt. In fact, this entire stretch of coast, including the all-important British naval bases at Alexandria, and the Suez canal, would be brought within very handy bombing distance for the Nazis.

While possession of the island of Crete doesn't by a long shot win the conflict for domination of the eastern Mediterranean, it would be of inestimable value in development of the German campaign. The only satisfaction the British and their allies get out of the situation is that the German victory—if so it proves to be—has been tremendously costly.

The British claim that the Nazis have thrown equipment away right and left and among other things have lost many of the 1,200 transport planes they are said to have assembled in Greece for the effort to drive the Allies from the eastern Mediterranean. That will be a blow to Hitler, for those big planes cannot be replaced overnight.

Texas Oil Facts

Ninety-five per cent of all the oil wells in North Texas are now on the pump. The daily average output is 4.6 barrels per day.

In the Texas Panhandle, 97 per cent of all producing oil wells are pumps.

Jap Demands Indies Come To Terms

TOKYO, May 29 (AP)—Foreign Minister Yosuke Matsuoka said today to have demanded that the Netherlands East Indies come to trade terms with Japan. The demand was understood to have figured in conversations Matsuoka held today with the British ambassador, Sir Robert Leslie Craigie, and German Ambassador Eugen Ott. The British envoy was consulted because the Netherlands home government now is situated in London.

Japan's demand to Britain in this connection," said the newspaper Asahi, "is that Britain refrain from putting obstacles in the way of the Japan-Netherlands parley."

Motor vehicle taxes averaged \$55.83 for each motor vehicle in operation last year in this country, an increase of \$2.86 over the previous year.

"I want a shirt for my husband—one that will make a good dustcloth when it gets old."

SERIAL STORY

THREE TO MAKE READY

BY W. H. PEARS

YESTERDAY: Tony urged League members to avoid a clash with the fraternity men, accused Big Barney Sherwood of plotting to name Cardman's next president. His plan is ignored. Kilo admits he wants a president who won't saddle the fraternity groups with the burden, Paula begs Kilo to tell the truth about the secret, to save Chris.

WHEN ENEMIES UNITE

"YOU'RE trying to frighten me," Kilo accused. "Oh, Kilo, I'm trying to make you see things straight! Chris was leaving school when he was arrested. He couldn't stand having everyone think he slugged Tony. I tried to help him, but I couldn't. He needs someone else, Kilo. He needs you!"

"Why... do you tell me all this when you love him yourself?" "I-I don't know," Paula said, her hazel eyes clouding. "I'm all mixed up about things. I only know I had to tell you."

From the left Tony called, "They're almost here." Kilo seemed not to hear. Her green eyes, filled with tears, were fixed upon Paula.

"You're so decent," she said slowly. "So are you, Kilo," Paula said. "And now your chance to prove it."

"Paula, I-I didn't mean to get Chris in trouble. It was just that I was jealous. I was willing to do anything to keep him away from you..."

Paula tried to interrupt her, but Kilo rushed on: "I wanted Chris in the League because he was daring. Then one of the boys suggested throwing a stench bomb into every fraternity party. Chris promised to help. Later, when you told him about Uncle Barney, he came to me and said he was quitting the League."

"Paula said, 'Please, Kilo, there's no time now.'" Kilo ignored the warning: "Chris said he'd have no part in getting Van Horn fired. But he'd promised to meet me the night of the party, and I held him to it. He begged me not to start trouble. I refused. It began to rain and I borrowed his scarf to cover my head. Chris didn't even go with us. I saw him afterward and told him how Tony had been hurt. He said he never wanted to see me again."

Paula shook the girl's shoulders. "Kilo, listen! Chris doesn't hate you. He loves you. But if you don't stop this fight he will hate you. I know Chris. Under that hard crust he's full of ideals. This is your last chance to make him

respect you." "But how..." Kilo seemed bewildered. "Come out and face the boys," Paula replied. "Tell them the truth. Tell them you're willing to let Van Horn settle things." Kilo said dully, "All right, I'll go."

From the left Tony yelled, "Paula, stay inside. I'm going out and..." But Paula and Kilo paid no heed. As they moved out the door Kilo said to one of the League boys, "Don't let Tony Beale out and don't let anyone in."

OUTSIDE the jet sky was steel-pointed with stars. In the dark silence Paula took a deep breath of cool night air and tried to quiet her pounding heart. "Who's there?" Hal Bascomb called sharply.

A flashlight beam lanced out at them, pinned Kilo in its light. Under the silver-blond hair her face was cut clear and cameo-sharp. A low gasp of admiration escaped Paula at the other girl's loveliness.

"We're holding a meeting here," Kilo replied. "What do you want?" "Quit stalling," Bill Jenks growled. "If you're going to run this League bunch out of Cardman, get started."

"Is that you, Bill Jenks?" Kilo called. "I want to talk to you." A figure detached itself from the group. "What is it, Miss Sherwood?"

"Tell them to go back," Kilo said imperiously. "Sure, sure, I will," Jenks chuckled.

Kilo beckoned him closer. Only Paula could hear her words: "Bill, the whole thing is off. I've changed my mind."

Jenks sucked in his breath. "Say, you're kidding, aren't you?" "I'm serious, Bill. There must be a fight here."

"Well, I'll be..." Jenks exclaimed, then, "Sorry, Miss Sherwood. I've got my orders from the boss. It's too late now."

THE crowd of boys surged forward. Kilo reached out and caught Paula's hand. They stood there, two girls who a few hours ago had been enemies, facing Bascomb with a single purpose.

"Don't go in there until you've heard what I have to say," Kilo begged. "Everything that happened has been my fault. You can't beat up my friends for something I did."

"We're not going to beat them up," Bascomb said. "Not unless they fight back. We're just going

to see that they don't throw any more stink bombs around Cardman. Or slug guys from behind."

"Wait!" Kilo cried. "Tony Beale wasn't slugged." "Of course not! He tripped on a pin and..."

"He did trip! I was there. I know. One of the boys stood by the French doors with the stench bomb. I was behind some bushes. He was supposed to wait until I gave him the signal, but he got excited and threw it too soon. I started to run away just as Tony came out of the house. He fell over me and struck his head on the sidewalk."

"How about Chris Wentrich's scarf?" someone asked. "I-I borrowed it," Kilo explained. "Chris was not near the party that night."

"Tell them the rest," Paula whispered. Kilo said, "Bill Jenks, you'll lose your job for this." Then, to Bascomb, "You think he's your friend, Hal, but Big Barney Sherwood is paying him to start trouble."

"What do you say to that, Jenks?" Bascomb asked. Jenks snorted. "Think I'd be talking like this to my boss's niece? Use the old noggin, fellow!"

"Please, Hal, listen to her," Paula said. "Kilo's telling the truth. Go back and let Dr. Van Horn settle this. If the League's willing to trust him, you ought to be."

"Say, look," Jenks said in disgust, "if you guys are too yellow to tackle this League bunch I'll go in and clean 'em out myself."

An angry murmur went up at his words. Jenks had shrewdly chosen the sharpest weapon at hand by accusing them of cowardice. The murmur broke into shouts.

"Come on!" "Let's go!" Bascomb and another fellow caught the two girls and lifted them out of the way. They made a rush for the barn door only to find it blocked by bales of hay.

Paula clutched Kilo's arm. "Look, over toward the road! It's a car. Maybe Dr. Lud's bringing help."

The fraternity boys were circling the barn, and they threw their weight against it, but it was solidly held from within.

"Do you think it could be?" Kilo asked breathlessly. Over the splintering of wood Paula said, "They can't make it..."

New Dining Hall At WTSC To Be Finished Within Thirty Days

SPECIAL TO THE NEWS CANYON, May 29—Thirty more working days will complete the new NYA dining hall on the West Texas State college campus.

One hundred boys will eat at the "T-shaped" dining hall, which is being constructed of native stone. The wings are 20 by 83 feet and 28 by 36 feet. The interior will be Spanish in styling and will be adapted to recreational activities.

Nearby is Terrill hall, the NYA dormitory which houses young men who are here learning aviation mechanics, sheetmetal work, auto mechanics, electricity, and other trades.

The NYA group studies part of each day and works on campus projects a portion of each day. Some of the young men work in the NYA kitchen and other maintenance projects, some work on the dining hall, and others are employed on the new Randall hall annex.

An auto mechanics shop, recently completed by the NYA group has been occupied and equipped. Earlier, Buffalo stadium was enclosed and converted into one of the best college aviation shops in Texas. Young men who complete the work here are finding their way into industrial, military, and defense factories.

In 1918 there were about half a million trucks in operation in this country; in 1940 there were 4,500,000 trucks on the nation's highways.

Rathjens Leave On Trip To Washington

SPECIAL TO THE NEWS CANADIAN, May 29—Mrs. Harry Rathjen and two children left by motor Tuesday morning for Washington, D. C., where Mr. Rathjen is

in the F. B. I. training school. Mrs. Claude Strader rode with them on her way to visit relatives in Kentucky.

C. A. Studer drove Mrs. Rathjen's car for them as far as Joplin, Mo., en route to clerk a rodeo at Cedar Rapids, Iowa.

Mrs. Rathjen and the children expect to have a month in the national capital before Mr. Rathjen is ready to return home with them.

Reagan of the Marines

Francis K. Reagan salutes flag after enlisting in United States Marine Corps Reserves in Philadelphia, Pennsylvania's star back, who expects to be graduated June 11, is sought by Yankees and Phillies. He is a catcher.

Outstanding Record Made By McLean Future Farmers

Down in the truck garden and cotton center of Gray county they still turn out cattlemen.

Southeastern Gray, around McLean, has long been famous for its cotton and its fruits and vegetables, but it is also proud of the record made during the past year by the McLean Future Farmers of America.

C. J. Magee, vocational agriculture instructor of the McLean public schools, today listed these accomplishments:

At Pampa district livestock and poultry contest held in Miami, January 18, the McLean chapter's judging team, composed of Bob Sherrod, J. B. Waldrop, Tommy Beck, and J. M. Montgomery, won over the other 11 teams competing. They also took top rank at a livestock stock contest at Claude, on February 8, where 22 teams competed; first in judging beef cattle at the Amarillo Fat Stock show, March 3-7, with 32 teams competing.

At the 24th annual Texas Smith-Hughes judging contest at Texas A. & M. college, College Station, held on April 21, they ranked second. Only top teams from each area of the state are permitted to enter the A. & M. contest.

The poultry judging team, composed of Monroe Combs, J. D. Roth, and Wayne Back, won the contest at Miami (Pampa district) January 18.

Panhandle Rainbow Install Officers

PANHANDLE, May 29 — Miss Naomi Smith was installed as worthy advisor of the Rainbow Girls when installation ceremonies were held last Thursday evening in the Masonic hall.

Miss Lenola O'Neal, retiring worthy advisor, was the installing officer. She was assisted by Wanda Sheppard, installing marshal; Virginia O'Neal, installing chaplain; Evelyn Cox, installing recorder; and Mrs. J. P. Callihan, installing musician.

Other officers installed were Juanita Jo Wigham, worthy associate advisor; Ora Lee Ramey, charity; Mary Anna Roberts, hope; Lulla Faye Held, faith; Mary Davidson, chaplain; Norma Jean Frankson, drill leader; Frances Adams, love; Marie Durrett, immortality; Lola Sue Callihan, patriotism; Emma Jane White, confidential observer; Gloria Cantrell, musician; and Colleen Harris, choir director.

Gifts were presented to Naomi Smith, new worthy advisor and her mother, Mrs. Janie Smith, and Lenola O'Neal, retiring worthy advisor.

Individual Honors

McLean is also proud of the fact in the single honors, members of their F. F. A. chapter rate high. J. B. Waldrop, district FFA president, is also first vice-president of the Texas Future Farmers of America, an organization with 30,000 members. He is the first Panhandle boy to occupy the state office.

Wayne Back, a member of the poultry judging team, knows hogs as well as chickens. He showed the grand champion pig in Amarillo March 3-7, his entry winning over 449 others, representing all breeds. His expense on the pig was \$18; receipts, \$127; which is a smart profit for even the keenest business man.

Waldrop's Fine Record

Getting back to the state F. F. A. vice-president: he didn't get that office on anything but what he knows and what he has accomplished.

J. B. has fed out 98 calves, won \$307 in premium money on his calves and hogs; showed his champion calf at Pampa last March. He had the grand champion and reserve champion hogs at the McLean show for two years.

He won on the reserve champion litter of hogs in Amarillo in 1939, was high point individual livestock judge at the Pampa district and Claude contests; third high individual, Lubbock, on March 29; and placed in the first 10 high individuals in the state contest. He expects to show several calves and hogs at Amarillo and Fort Worth during 1941-42.

His impressive record also includes: third, fifth, sixth, seventh, and eighteenth on calves at Amarillo show, remaining three sold in Pampa; won reserve champion in 1940, grand champion in 1941, at Pampa.

Bob Sherrod, member of the chapter's livestock judging team, had the grand champion calf at McLean, and the reserve champion county calf at Pampa. His calf here sold for 17 cents a pound, netting \$17.

J. B. sold his grand champion calf at Pampa, at 17, netting \$206.

The McLean F. F. A. chapter has 44 members, and owns three registered hogs and one registered milking shorthorn.

Alanreed To Hold Graduation Tonight

SPECIAL TO THE NEWS

ALANREED, May 29—Graduation of the five seniors of Alanreed High school will be held here tonight. Diplomas will be presented to James Darnell, Willis Dean Lingo, Granville Simmons, Efflyn Bryant, and Virginia Ann Odell.

Supt. C. T. Howell will present the diplomas.

The recessional will be played by Miss Mauida Coffee. Special songs will be sung by the junior girls. Devotion will be by Dr. M. Meyer of Canyon and the Rev. Alton Vaughn.

Final examinations at the Alanreed school were held Monday, books checked in yesterday. Students will come back tomorrow to receive report cards.

Passion Play To Be Given After War

By ERNEST G. FISCHER

OBERAMMERGAU, Germany, May 29 (AP)—This peaceful village in the Bavarian Alps is busy with war work but its 3,000 residents eagerly await the time when they may present their world-famed passion play again.

Mayor Alfred Bierling said the play, suspended last year on account of the war, probably would be performed again in 1944. But Alois Laang, who had the role of Christ in 1934, declined to hazard a guess, explaining that the next production depended on termination of the war—after which "at least a half year's preparation would be required."

War has brought other changes to Oberammergau, too. Four hundred and eighty of its sons, including about 100 from the cast of 1,600 used in the special jubilee performance of 1934, are in the military service. Many of the older men, skilled in the handicrafts, are working in industrial plants. Many young women are taking men's civilian jobs for the duration of the war.

Four of Oberammergau's men have been killed in the present war, but none of them members of the passion play cast. Villagers recall that 70 of the 1910 cast fell in the world war.

The more-or-less fireproof wooden theater, in which the passion play is presented to 6,000 persons at a time, stands idle. A lone hoot owl fluttered from the girders when the caretaker opened the auditorium for inspection.

Costumes costing 280,000 marks (\$12,000 at current exchange) lie in the dressing rooms back of the stage, ready for the next production.

One thing which has not changed is the Bavarian Woodcarving school, famous throughout Germany. One of four such schools in the Reich, it gives a four-year course in which the students begin by drawing such fundamentals as a human foot, and wind up by making a life-size wood carving of Christ on the cross.

There now are 107 pupils in the school, ranging in age from 8 to 20.

Carving has been a home industry for centuries.

The famous passion play normally

Dies Blames State For Small Pensions

(By The Associated Press)

Although national defense continued to be the principal burden of addresses by Texas senatorial candidates, there was some indication today that the question of old-age pensions might be injected as an alternative theme.

Perhaps in recognition of Gov. W. Lee O'Daniel's reputed strength with some groups as a result of his efforts in behalf of state old-age pensions, Rep. Martin Dies touched on the question in a talk at Austin last night.

Dies said he favored legislation to match with federal funds the state's old-age pension payments up to \$15 a month, asserting that if Texas had done its part the old would now be getting \$39 monthly.

O'Daniel, who announced he would pursue his senatorial campaign with an intensive tour of the state starting at Waco June 2, has vigorously espoused old-age pensions since his entrance into politics.

Another candidate, Attorney General Gerald Mann, reiterated that he wanted to go to Washington "to help President Roosevelt build a great navy, army, and air force" in a speech at Cleburne.

Rep. Lyndon Johnson, a third candidate for senator, urged in a speech at Longview the construction of pipelines from Texas oil fields to the Atlantic seaboard.

He said they would supply vital defense industries and increase Texas' share of the Atlantic seaboard oil market.
