50,000 Reds Near Taegu

Spearhead Is Stopped Near Vital Center

TOKYO, Sunday — (AP) — A 50,000-man striking force of Korean Communists was reported Saturday massed north of Taegu, key American supply base, waiting orders to march. Ahead of this menacing force was the spearhead of Reds which drove within 10 miles of Taegu before South Koreans and a "fire brigade" of Americans blunted it. Resistance in that sector today disappeared, but American leaders were cautious.

While keeping a wary eye on this as yet withheld big push, the U. S. Eighth Army headquarters today sent American and South Korean forces to the attack in a sector immediately to the east. This drive on the east anchor of the 120-mile battle perimeter was launched by the South Korean third division and unidentified American units from the Pohang-Kyong line.

Pohang is the port city on the east coast recaptured two days ago by the South Koreans. Kyong is nine miles west and slightly north of Pohang. Twenty-three miles southwest of Taegu another Communist advance melted in a bloody rout. Hundreds of bodies were found on hills sloping to the east, back of the Naftong near Chanyong. Officers said today that few of the Reds got back to the west.

Gen. John H. Church told newsmen that "we have the (See SPEARHEAD, Page 2)

Enemy Action Takes Toll of 55 Planes, Air Force Reports

WASHINGTON — (AP) — The Air Force announced Saturday night that it had lost 55 planes to enemy action in the Korean war.

The figure does not necessarily cover all plane losses. The Air Force said it covered only losses known to the enemy. Any operational losses that may have occurred in American-held territory, where the enemy could not observe them, were not reported. The announced figures included losses from fighter attacks, anti-aircraft or small arms fire from the ground and enemy strafing and bombing.

Over 100 Cast Absentee Ballots

Absentee balloting in the Aug. 26 Democratic runoff election was limited and reached over 100 absentee and reached a total of 115 votes by noon Saturday.

County Clerk Charlie T. said that 110 voters had been cast in person and eight have been returned through the mail. This leaves 11 of the 22 mailed ballots to be returned.

Skellytown Votes To Remain Dry

SKELLYTOWN — Skellytown voted to remain bone dry Saturday in a special election called by voters on the beer wine question for the second time in less than six months.

The drys polled 123 votes against the sale of beer while the wets polled 32. Wine fared even worse when its supporters collected only 91 votes to the drys' 125.

Beer and wine were voted out by a similar margin on May 6 when a special election was called by drys up to the town.

However, a petition was presented to the Carson County commissioners court by voters of the town to call another special election.

Avoid the fish! Let us service your heating system now. Call us today and put an end to your worries. Bert A. Howell & Co., 219 N. Ward, Ph. 152—adv.

FIRST COAT — The primer coat of maltha-asphalt sheds from a spray truck as an additional 14 miles of Highway 70 goes into the final step of becoming a hard surfaced road. The black-top section starts at the end of the concrete pavement, several hundred yards north of Pampa's Derby Downs. (News Photo and Engraving)

Rogers Demands Anti-Russia Steps

By HENRY S. GORDON — In the most dramatic speech of his current campaign for Congress, Walter Rogers of Pampa Friday night denounced the expulsion of Russia from the United Nations, called for outlawing Russia, Stalin and the Soviet Union, and urged an economic blockade of the Soviet Union and all of its satellite nations.

He pulled no punches in his strongly worded anti-Communist radio talk and declared it "a disgrace the way we are coddling Communists at home while fighting them abroad at the same time."

He compared Russia to an octopus and the Korean situation to a cancer. He said that the people of Russia are enslaved and that the Communists are "effectively destroying the body from which it came."

But not all of his speech was aimed at communism; he also attacked the "waste, extravagance, graft, the pyramiding of useless bureaus under the spoils system and the dangerous increase of fast growing communism."

He recalled the "isms" and world conquest ideologies of Kaiser Wilhelm, Mussolini, Hitler, Top and Stalin, recounting how all of them had been crushed, with the exception of Stalin.

It was there that he singled out the Communist Party of the United States and the entire party, including Stalin, Molotov, Malik and the other war mongers, create an economic blockade against Russia and all of her satellites, and call the play "Russia's Shame."

He called for a national mobilization, saying "We cannot continue to squander the lives of American boys fighting one battle after another, while the body of the octopus without end, without hesitation and without appointment in order for the United States to carry out the policy of the 'isms'."

(See ROGERS, Page 2)

Surfacing of 70 Is Started

Hard-top surfacing on Highway 70 — the Pampa to Portlan Highway — was started at 4:17 p.m. Saturday when the first primer coat went down on the road's red-brown base.

The primer coat is a solution of asphalt cut back with naphtha to an almost milk-like thickness, was to be shot by workmen at 1 p.m., but a heavy rain on the road swept brush and loose gravel from the road bed, broke and a new one had to be obtained.

Meanwhile, excavators had moved grading and structure in stations along the remainder of the road to a point three miles south of Chicken Creek.

After the primer coat is laid on the stretch then a one-inch asphalt surface layer will be shot, followed by top stones. The primer coat was laid to act as a sealant between the base and the asphalt topping.

After the primer coat is laid on the stretch then a one-inch asphalt surface layer will be shot, followed by top stones. The primer coat was laid to act as a sealant between the base and the asphalt topping.

Geologist Consulted In Well Poisoning

CORSIKANA, Texas — (AP) — A geologist has been called to help investigate the Elmore, Texas, water well poisoning, which resulted in death of a child and illness for 10 other persons.

W. O. George of the U.S. Geological department, Austin, Tex., was called in by Navarro County Sheriff David C. Gentry and Texas Ranger E. L. Radgett.

Sheriff Gentry said Saturday that the geologist took samples of the well water and samples of the poisoning stream, and the well had been drilled to the feed stream level.

Two wells are involved. A Navarro County health unit of dead and sick cattle from a well at the same location, 200 yards from the poisoning stream, was found in a sample taken from a well 200 yards west of the poisoning well.

The poisoning well is believed to be responsible for the poisoning of several animals in the Elmore, Tex., water well poisoning. Four gun employes became ill after drinking the water. Jeannette Leach, 3, died.

Arkansas state troopers said the well left the poisoning trail. The troopers said the poisoning trail led to the poisoning well. The poisoning well is believed to be responsible for the poisoning of several animals in the Elmore, Tex., water well poisoning.

Tighter Curbs Clamped on Some Exports

WASHINGTON — (AP) — The Commerce Department Friday clamped tighter controls on exports to Russia and her satellites.

Up to now, exports of all goods have been permitted without individual licenses if the shipments were small enough (the limits ranged from \$1 to \$1,000, depending on the type of goods). Effective immediately, the licensing procedure was revised with regard to 14 countries. Shipment of goods on the Commerce Department's list of 1,100 controlled items to those countries now must be licensed no matter how small the amounts.

A further tightening also was announced for exports of petroleum products.

The dollar limit—above which a license must be obtained—was lowered on natural gasoline from \$1,000 to \$25, applicable to all destinations except Mexico.

In addition the department announced that licenses will be required for shipment of 11 petroleum products, including natural gasoline, to all destinations except Canada, where the shipment exceeds the dollar limits.

Formerly, petroleum products could be exported to any destination in the western hemisphere without licenses, no matter how big the shipment.

Officials said the purpose of the broader regulations was not to clamp down on exports to western hemisphere countries, but to give a better check on shipments to those countries and trans-shipment to countries in the Russian orbit.

Boy, Rescued From Well Shaft

FAIRMONT, Minn. — (AP) — A three-year-old boy fell into a ten-foot well shaft Friday and became tightly wedged in the tapering hole.

A dozen men dug frantically for two hours to rescue the lad, trapped with his hands over his head and his nose pressed against the wall of his prison. Oxygen was pumped down to him.

The shaft was about a foot across at the top and narrowed to only a few inches at the bottom.

The rescuers dug a second hole nearby, 15 feet across and about 9 1/2 feet deep. When they reached that depth, they tunneled across to little Jimmie Zaring, who lives at nearby Imogene. He was hospitalized for a check-up.

Jimmie fell into the hole as he and a playmate pushed aside a box covering the opening.

Cugat Described As Latin Lover Of Wrong Girls

LOS ANGELES — (AP) — Rumba King Xavier Cugat was described by his estranged wife as a faithless Latin lover who romanced with six beautiful girls, including singers Abbe Lane and Betty George.

In an amended complaint for \$3,500 a month separate maintenance, actress Lorraine Allen named Miss Lane and Miss George as co-respondents along with four other girls listed as "Jane Does."

Her complaint said that Cugat is threatening to marry Miss Lane and may get a Mexican divorce to do so unless restrained. Miss Lane is an 18-year-old singer in Cugat's band.

Miss Allen stated that Cugat had given Miss Lane and the other girls gifts in excess of \$50,000 from community funds.

Cugat's attorneys, at the same time, asked the court to set aside a previous \$2,000 a month temporary alimony order on the ground the bandleader never was served with papers in the suit.

University Asks Increase in Fund

AUSTIN — (AP) — The University of Texas is asking the next legislature for more money for the next biennium.

Requests totaling \$12,157,302 for the main campus and its extramural divisions were submitted to the state board of control by Dr. J. C. Dolley. He is univer-

ROYAL "GODFATHER"—In Stockholm, Sweden's 92-year-old King Gustav V accepts his "godfather's" diploma from six-year-old Bert Christer Oredin, the 10,000th child to be given a summer vacation by an organization that helps poor children. Those who donate to the fund receive a "diploma" and picture of the child who benefited from their donation and become his or her "godfather" or "godmother." Bert's royal "godfather" invited him to visit him at Sollden Castle as an added treat to his vacation.

Post Office Tells Denver Papers to Omit 'Pari-Mutuel'

DENVER — (AP) — This city's two daily newspapers will not use the word "pari-mutuel" after Sunday, Aug. 20.

Thursday the Rocky Mountain News and the Denver Post received identical letters from the Post Office Department in Washington. The letters were signed by Frank J. Deane, a department attorney, who stated:

"Any newspaper or publication containing any advertisement of any lottery, gift enterprise, or scheme of any kind offering prizes dependent upon 'lot or chance' shall be fined not more than \$1,000 or imprisoned for not more than two years or both.

Deane said this included use of the word pari-mutuel in print and that he'd give the News and Post until Sunday to get rid of the habit of using the word.

Both Post and News officials said they would comply with the order.

Both also expressed interest in whether or not the Post Office department would invoke the order on a nationwide basis, and if not, why not.

No comment was available from Post Office heads in the nation's capital.

There were queries from various points throughout the nation feature stories.

READS HISTORY AS HE MAKES IT—Pvt. Donald Webb of Atlanta, Ga., reads a pocket-sized "History of World War II" as his 1st Cavalry Division comrades rest. Left to right, they are Pfc. Gumao Radriquez of Norfolk, Va., Pfc. O. Hamner of Grant City, Mo., and Pfc. David Joseph of Jeannette, Pa.

No one in Denver was certain, as to whether the order applied to the word only when used in even after one editor had phoned race results, or if it prohibited Washington for "a simple explanation of it, even in general, or nation" of the letter.

Federal Reserve Board Hikes Discount Rate to Slow Loans

WASHINGTON — (AP) — The government has moved to curb bank credit in a new stop-inflation maneuver.

The step was taken by the Federal Reserve Board Friday when it approved a boost from 1.2 to 1.34 percent in the discount rate of the Federal Reserve Bank of New York. Such rate changes usually spread to the rest of the federal reserve system.

The idea is this: when federal reserve member banks make a loan on a rate, they can get the money tied up in the loan from a Federal Reserve Bank, less a sum known as the discount rate. Increasing the discount rate thus tends to restrict bank loans.

The new 1.34 percent discount rate is effective Monday, Aug. 21. It was approved by the reserve board and the federal open market committee, an inter-agency body, after loans and holdings of corporate and municipal securities held by reserve member banks rose by \$1,500,000,000 within six weeks.

"Such an expansion under present conditions is clearly excessive," the reserve board said in a statement.

It added that it is prepared to "restrain further expansion of bank credit, consistent with the policy of maintaining orderly conditions in the government securities market." The board said additional legislation to curb credit may be needed later.

In another related move, Secretary of the Treasury Snyder announced that insurance companies' savings banks and other institutional investors now may buy up to \$1,100,000 worth of Series F and G government bonds this year. The former limit was \$100,000.

This will provide the government with ready funds without contributing very much to inflationary pressures. Such investors usually buy government bonds as investments to lay aside until they mature. Commercial banks, by contrast, can use government bonds as the basis for loans, inflating credit.

Secretary Snyder also announced a big new offering of treasury notes. Two series of 1.4 percent, 13-month treasury notes will be offered in exchange for four series of maturing securities totaling \$13,570,000,000.

Treasury officials said this is possibly the biggest refunding operation in department history. The reserve board, in announcing approval of the new discount rate, outlined its views on the current economic situation.

"Effective restraint of inflation," its statement said, "must depend ultimately on the willingness of the American people to tax themselves adequately to meet the government's needs as a pay-as-you-go basis."

"Taxation alone, however, will not do the job. Parallel and prompt restraint in the area of monetary and credit policy is essential."

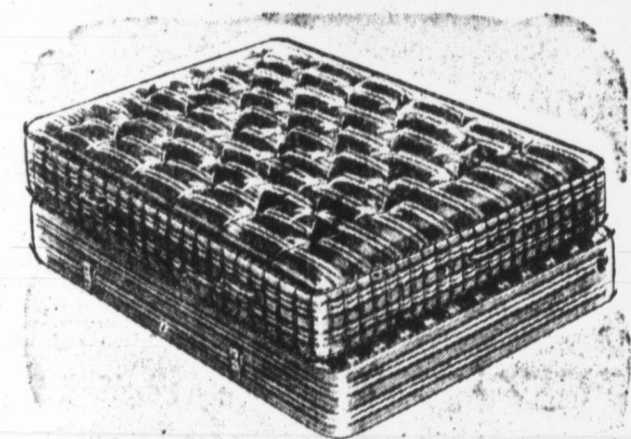

sity vice president and budget officer.

He said the more than 50 percent increase over current appropriation is needed because G. I. tuition fees — paid by the federal government — have dropped tremendously and because the last appropriation was insufficient.

Moscow Persistently Seeks West Germany Foothold

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
Persistence and methodically Moscow is campaigning to win West Germany away from the western allies, join it to Eastern Germany and then incorporate the reunited Reich among the satellites.
The great drawing card offered by the West is the promise of re-union with Eastern Germany, now pointed to by the Russians, but not by other observers, as a land of milk and honey under Soviet domination.
Only what is a goal never absent from the average German mind. There are no more nationalistic folk in all Europe than those of the Reich.
Germany's former powerful position as the military and economic backbone of continental Europe makes this aspect of the endeavor especially important. It is so important that time may be wasted in the despicable engagements in the conflict of the ideologies.
Western Germany is the de-

fective barrier between the Soviet zone and the democracies. It was disclosed in Frankfurt the other day that nearly all western military men and most officials stationed there agree Europe couldn't be defended against Russia without the arming of West Germany.
That's a striking admission by experts who not long ago swore that a guilty Germany shouldn't be allowed to rearm. It's an admission born out of common sense and out of the potential dangers of a "cold war" which is "cold" only in the sense that Vesuvius is "cold." It could get mighty hot—and quick.
As things stand at the moment, the Soviet campaign to win West Germany is in what may be called the political stage with the Reds carrying the ball.
However, the East Germany politicians also are concentrating on underground work to sabotage economic recovery in the western zone. This is calculated not only to make the citizens discontented but to embarrass the western occupation powers.
Typical of Red propaganda was an announcement the other day in the Red army's official news paper in Berlin, "Taegliche Rundschau." This proclaimed a sweeping program for all Germany, including the "liberation" of West Germany. There was no talk of using arms to achieve this. The Communists can be discreet.

Relief Scheduled For South Koreans

TOKYO — (AP) — The United Nations is setting up a relief organization to care for an estimated 1,500,000 South Korean war refugees.
Col. Alfred G. Kutzin, personal representative in Korea of the U. N. secretary general, called details from Pusan. Arrangements were concluded last week under General MacArthur's direction. Kutzin said supplies will come from U. N. headquarters, army resources, U. N. specialized agencies and voluntary organizations. He said sufficient foodstuffs are available in Korea for two months, but sickness and disease is rife among many thousands, a very large proportion indeed are without shelter and lack covering or blankets of any description. They are reduced to the clothing in which they stand.

Churches Stand To Lose Minister

DICKINSON, N. D. — (AP) — Four churches in this area will be without a pastor if Rev. Martin Werfelman, an Army reserve, is called into active service.
He serves Redeemer Lutheran Church here, Redeemer Lutheran Church in Cassy, Eutte, St. Paul's Lutheran Church in Bellevue and the Medora, N. D., Lutheran Church.
Rev. Werfelman holds a commission as lieutenant in an infantry line outfit. He has received orders to take a physical examination in Fargo, N. D., Monday.

U. S. Offensive in Propaganda Urged

WASHINGTON — (AP) — Rep. Gathings (D-Ala.) called today for something stronger than the "tug-of-war" line of defense against Russian propaganda.
"The Russians tell the most outlandish lies about us," he said, "and about all we do is yell 'Lie! Lie! Lie!'"
"What we ought to do," Gathings told a reporter, "is to refute these lies and laugh the Russians right out of the picture."
"They can't stand to be made ridiculous," he said. "Let's take the offensive in this propaganda."

Pampan to Receive Engineering Degree

Frank M. Yates, son of Mr. and Mrs. Frank Yates, 429 14th N. Cuyler, will be graduated from Texas Tech Wednesday.
Yates, who was graduated from Pampa High School in 1943 and served over two years in the Air Force, will receive a bachelor's degree in science degree in electrical engineering. He was graduated from R.O.T.C. in the spring.
Mr. and Mrs. Yates will attend the exercises at Lubbock.

Extradition of Death Suspect Again Delayed

MEXICO CITY — (AP) — Texas efforts to extradite Jose Villalobos Valencia, accused slayer of Presidio County Sheriff O. L. Blackie, were again delayed today. A hearing on the case before Judge Juan Enrique Azuara was postponed indefinitely Friday.
Attorneys for the federal justice department, which argues in favor of extradition, and Villalobos' lawyer, advised the first criminal court they had not completed their documents summing up the case. No new date was set for the presentation.
Villalobos' main hope of escaping return to Texas for trial is in proving he is a Mexican national. Mexico is reluctant to deport her own citizens, particularly where the penalty for a crime is greater in another country than in Mexico. Texas has capital punishment while Mexican federal law does not provide it.
Villalobos has produced a Mexican consular certificate in proof of his birth in this country.
President Miguel Aleman will make the final decision on extradition after receiving the court's recommendation.

East Germans Say Production Is Up

BERLIN — (AP) — The East German government claims that Soviet zone industries produced 26.6 percent more in the second quarter of 1950 than in the same period a year ago, but said the zone-wide investment program was only 33.2 percent fulfilled.
Communist-ruled East Germany is completing a two-year economic plan in 1950 and is depending on heavy taxes and profits from state-owned enterprises to provide the capital for carrying out a new five-year plan.
A dragon fly can fly with one wing torn completely off.

Medal Return Brings Rebuff

PRAGUE — (AP) — American Ambassador Ellis O. Briggs has chided a Czech who returned two U. S. medals because of American intervention in Korea.
To Ladislav Schein's assertion that U. S. action is "lawless aggression," the envoy replied that the interpretation "appears to be based on false information and false charges."
Referring to the Bronze Star medal and the Medal of Freedom, which the Czech said he got in 1945 for liaison work with the U. S. Army in Germany, Briggs noted:
"The embassy regards them as tokens of friendship between the people of Czechoslovakia and the United States — a friendship not frivolously extended, nor lightly cast aside."

Area Resident Called to Duty

Joe Wheelley, who lives 12 miles southwest of Pampa, has been recalled to active duty in the Air Force, effective Aug. 21. He will be stationed at Randolph Field.
Wheelley served as an engineer on a B-29 during the past war and was plane inspector for the post at Eagle Pass, with a rating of staff sergeant. He was in the service from 1941 until the latter part of 1945.
Mrs. Wheelley is a sister of Mrs. H. H. Koehler, Pampa, and is a former Miami resident. They have two children: Sharon, 6, and Joe Hubert, 4.

Ethyl Corporation To Build in Texas

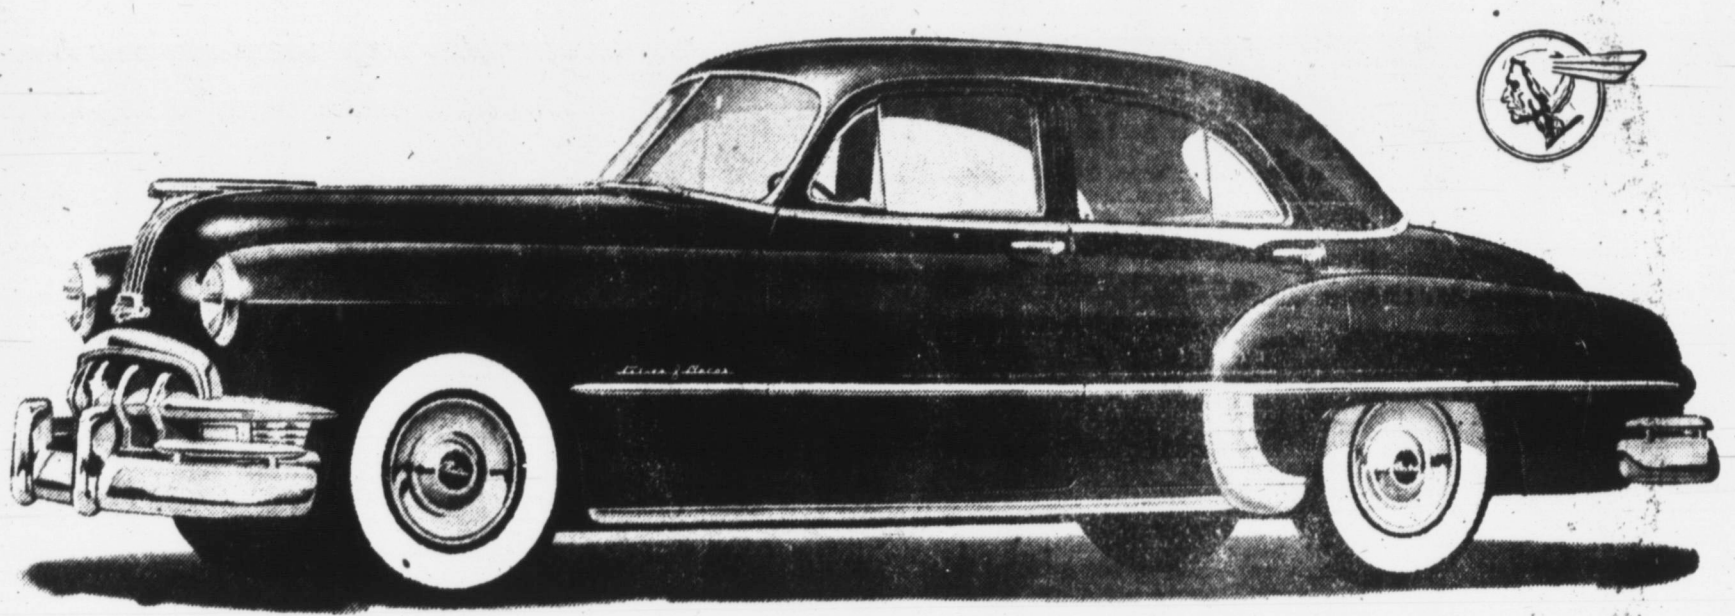

HOUSTON — (AP) — The Ethyl Corporation has announced plans for the immediate construction of several plants along the Houston ship channel to manufacture chemicals needed by the military forces.
An official of the company integrated to produce more than 100,000,000 pounds annually of tetraethyl lead, ethyl chloride, sodium and chlorine and other ingredients.
Manufacturing facilities of the company until now have been in the Baton Rouge, La., area.

Road Sign Project Is Approved by C-C Committee

The highway committees of the chamber of commerce headed by W. B. Weathered, coordinator, decided on an extensive road sign program, according to E. O. Wedgeworth, manager of the chamber. The program will tend to increase tourist traffic through Pampa.

The program, which would include several signs to be erected on highways leading in and out of Pampa, is being recommended to the board of directors, and if approved, will be turned over to a special committee to handle the details.

One of the major items in the program is to direct traffic

Specialized Training Centers Are Listed

WASHINGTON — (AP) — Two Texas military installations were among 11 advanced replacement centers to speed the specialized training of soldiers announced by the Army.

Fort Bliss, Texas, was named as a specialized training center for anti-aircraft artillery, and Fort Sam Houston as a specialized training center for medical corps.

Through Pampa to the Rocky Mountains, Colorado and Yellowstone National Park. It will be pointed out that roads through Pampa to those areas are paved, shorter, faster and safer.

The Berger Chamber of Commerce has expressed the desire to cooperate on the program. As soon as the program is approved by the Pampa directors the matter will be taken up with a Berger committee.

Ship Searching Is Poor Protection Against H-Bomb, Which Would Destroy Waterfront

By HOWARD W. BLAKESLEE
NEW YORK — (AP) — Congress has approved searching of incoming ships for nuclear bombs.

This is good insurance against A-bombs — not so good against H-bombs. If the A-bomb is detected only a few miles from a port city it cannot do harm.

But an H-bomb detected only a few miles away and then detonated probably would put most seaports out of useful activity.

Apparently to be on the safe side H-bomb sneak ships must be stopped many miles out.

A ship is ideal for H-bomb sneak attack. The bomb will be bulky, and the ship is large enough. The hydrogen probably will have to be in liquid form, and this can be done on a ship.

The ship explosion will not be an underwater bomb. It will be a true surface explosion. The blast will travel over the surface with energy enough to smash buildings ten miles away, where nothing intervenes in front of them.

front. But these swells will not be radioactive.

About the ship great quantities of water will become radioactive, and for a few hours dangerous to ships passing through them. Tides will spread this radioactivity widely, and this dilution will permit ships to sail through without much risk to personnel.

There remains one great peril from the sneak ship. This is the fireball. The H-bomb fireball will rise from the water like the sun, hundreds of times hotter. It will start at ground level, instead of miles in the air.

As the H-fireball rises, its heat will radiate downward in a vast, inverted cone, gingering down into streets and buildings like a mid-forenoon sun. This searing heat will last for probably more than ten seconds, long enough to start fires, and long enough to burn people.

The fireball has one saving grace. Unlike the heat flash it does not strike without warning. Getting into the shade will afford protection. Covering hands and face and arms will save serious burns.

There are still the dangers of gamma rays, if the H-bomb is exploded close to the port. There are both the gamma rays in the flash, and then from the

Firemen Turn in Own False Alarm

EVANSVILLE, Ind. — (AP) — It was a swell place for a fire but the alarm was false.

It came from the Bendor Hotel where many of the 1,500 delegates to the Indiana Firemen's Convention are registered.

Because of long duration, the radioactive rays from the fireball are as dangerous as those from the flash.

If a person can dive into a shelter when he sees the flash, he may save himself from fully half of the gamma ray damage. He already will have suffered whatever radioactive harm the flash carried at his distance. That may not be enough to kill him, but if he remains out, exposed to the fireball gamma rays, the result may be fatal.

Tonnage Report To Be Protested By Houstonians

HOUSTON — (AP) — Port Houston officials will protest a U. S. Army engineers report on tonnage handled by the port last year.

The report placed the port's 1949 total business at 36,857,458 tons. Port Director W. F. Heavey said his records show a 1949 total of 275,64,000 tons.

"In addition, Houston handled some 1,200,000 tons of bunker oil, which the Army engineers, under a recent ruling, do not count as cargo," Heavey said.

The report gave Houston a 1949 increase of 48.31 percent in foreign trade tonnage.

The report ranked Texas ports,

in total tonnage handled, in this order: Houston, Port Arthur, Beaumont, Texas City, Corpus Christi, Port Aransas, Galveston, Ingleside Terminal, Freeport, Brownsville, Sabine Pass, Port Isabel and Orange.

ain, Ruyle Join or Twin Bill Sweep ver Lamesa Lobos

ORGER — (AP) — Jim Cain and Len Ruyle combined efforts in the second game of a twin-bill here Friday night to beat Reynolds and Ed Arnett, 5-4. Eight innings to go, both pitchers of the doubleheader were in the first 1-1 behind the day five hit pitching of Reynolds.

double by Manager Jody Miller with two men on base in the top of the seventh. Arthur came in to pitch the eighth frame, striking out the side.

en Ruyle relieved starter Jim to start things off in the ninth and promptly set the tone at the bottom of the eighth by issuing a free pass to Pop Williams to start things. Both Eddie Carnett and Bob Unhard had bounced out, while Timma advancing to third on a two-out infield fly. Arthur grew wild. He walked Earl Fry and then issued an intentional pass to Ted Clawitter to hit the sacks. Wally Edridge, who hitting on inside corner for the fourth walk of the inning, scoping Williams' escape across the plate with the winning tally.

ene Vega and a John Berger back were two later when Unhard for the Lobos and the Leger guided the opener in an easy 1-0 victory. Arthur pitched five-hit ball and a wildness in trouble. He gave five hits, one a homer by manager Jody Berger. The extra-base hit of the game was a double by Reynolds. Reynolds collected two of the Lobos' other three hits.

Martin Hurt in Collision

BELL PARK, Clovis — Disaster swept this New Mexico stadium last night, in triple portions of the Clovis Oilers as two of their players were injured in a Pampa Oiler victory, 7-5. Injured for the Oilers were Pat Randall, and Bill Rosin, both pitchers.

But the Oiler squad also was hit by misfortune when catcher Jim Martin and Randall collided in a play at home plate in the second inning. The Pampa backstop was removed to the Clovis hospital where he reportedly walked from the stretcher to the hospital room, although no word was received concerning his condition.

The two squads will wind up their series today when Tom Gallagher, Clovis southpaw, and probably Earl Doud for the Oilers draw the starting hurling assignments.

Mack Hyde elbowed all the way for the Pampa triumph last night, scattering 10 hits. He and his mates managed only nine off the bat of Pioneer hurlers, bunched the hits where they hurt most.

Clovis jumped to an early lead in the bottom of the first inning when two singles and a walk propelled them into a one run lead.

They added three in the second on two singles, a double by

Salgado Operated On

Ramon Salgado, Oiler right-hander, was operated on Saturday morning at the Highland General Hospital. Salgado, who hails from Havana, Cuba, joined the Oilers after the season had already begun, and is currently sporting a record of nine wins and six losses. He is reportedly doing fine, but will probably be lost to the Oilers for the remainder of the season.

The Robbins and another walk. Martin was injured on a close play at home when Randall, who started for the Oilers, raced home from third on Frank Calo's single. The two collided, both being removed on stretchers later in the game.

The Oilers got their first two runs in the fourth on Richardson's double and Ricketson's single, plus an error and a fielder's choice.

But it was a five run outburst in the fifth inning that sewed up the game for the Oilers. Two singles, two walks and an error enabled the Pampans to chalk the markers.

Glovis got their last run in the seventh on an error and a walk and Calo's single.

Rosin was forced to leave the game when he was struck on the arm by a scorching line drive in the fifth inning. Ernie Alken came on for the Oilers and finished the game.

In other league games last night, Lamesa nudged Borger, 7-1; Amarillo trounced Abilene, 8-5; and Albuquerque thumped Lubbock 11-6.

Tigers Stage Rally To Open '50 Season As 26 Gridders Out

A rally held last Monday night in the McLean city park initiated the training grid for the McLean Tigers, as approximately 300 Tiger rooters turned out to get the season started.

Following the rally, the twenty-six candidates underwent a series of workouts that began Tuesday night. Coaches Al Duncan and Don Leach drilled their line-men in the fundamentals of blocking and tackling and ran their potential backfield through a few plays.

At the Monday rally, McLean Superintendent Logan Cummings gave a pep talk, as did Principal Paul Kennedy. Following these, several ex-Tigers who were on hand rose to the occasion and also made short speeches. The coaches had acquired 1,800 pounds of watermelon for the group and a feast was held immediately after the speeches.

A scrimmage session is scheduled for next Thursday night against the Tulsa Hornets in Tiger Field. The public has been invited to attend. There is no admission.

Jack Tierney, Michigan State's crack welterweight boxer, is a trumpet player good enough to hold down the solo chair in the college's concert band.

Kennelizer Polytechnic Institute's 12 varsity teams have completed a winning average of 50 in 440 athletic contests played since 1948.

Explosion in Eighth Gives Pampa Victory

CLOVIS — (AP) — A five-run explosion in the eighth inning here Friday night gave the Pampa Oilers an 11-4 victory over the Clovis Pioneers in a series opener.

The Oilers broke a 6-6 deadlock which had existed from the sixth inning when Clovis tied it up. George Payne was the winner after relieving Mel Kramer in the fifth.

Dick Dawson and Virgil Richardson pounded homers in a five-run Pampa first inning.

The Oilers were tamed by Joe Borrego and his effective southpaw slants after they had driven Bill Rosin to shelter without a mishap being retired in the first.

Dick Dawson started the beginning of the end for Rosin with a homer blast over left center. Deck Woldt reached first when Rosin threw his bun into right and kept on going to second. John Jeandron walked and Joe Fortin dropped a single into short center. When Pete Trabucco did a juggling act, Woldt dashed home.

Virgil Richardson drove one out of the park to tally Jeandron and Fortin, and the Pampan were away.

Borrego came in after Rosin walked Don Ricketson and proceeded to pitch stellar ball for the next seven innings, limiting the Oilers to three hits and one run during this stretch.

Dawson's single and Jeandron's double on the hit-and-run produced the marker in the fourth. The other hit off Borrego before the fatal eighth was a double to left center.

Borrego suddenly weakened in the eighth and the Pampa crew was quick to seize advantage of the opportunity. The deluge struck after one down. Homer 6, Amarillo trounced Abilene, 8-5; and Albuquerque thumped Lubbock 11-6.

Gene Fatheree, local tournament chairman, will call his last Top of Texas meeting within the next few days for his sur everything is ready for our biggest event of the golfing year. It looks as if this one is going to be a dandy since many players have indicated they would attend from all over the country. I heard Red Wedgeworth and Dick Pepin telling Johnny Austin to put their names down, so that means that Pinky Vinyard and Frank Cuberson will probably play. All local players may begin their qualifying rounds next Sunday, August 27, and continue through Sept. 2.

I heard that Marvin Harris made a two on the Number One par four, hole. His is the second eagle ever recorded on this starting hole. Charley Douglass had one a few weeks ago.

Since Sam Sloan left town,

Virgil Richardson, Mr. Firstbase, as far as Oiler fans are concerned, has been one of the most popular ballplayers ever to participate in the West Texas-New Mexico League. He got his first start in baseball playing with an American Legion team in Fairbury, Neb. Before he was out of high school he was playing in the San Joaquin League and in 1939 he broke into pro ball at Mitchell, S. D

Let's Talk Things Over With Gabby Garrison

The Oilers have only twenty-two games left to play and will have to go on the road for only eight of them. They are completely finished (directly) with the challenging Lubbock Hubbers currently in third place, and the series which opens in Oiler Park tomorrow night with the Lamesa Lobos will be the final encounter between the two front-running outfits. So, it seems as if the ultimate results in the West Texas-New Mexico League will be settled by the ability of the leaders to continue their dominance over the second division representatives. The Oilers have three games with the Albuquerque Dukes, including a doubleheader on Labor Day, and other than that, will finish against Clovis, Borger, and Amarillo in that order. Only one of the great disasters in local baseball annals could prevent the Oilers from attaining the statistical figures which would make the fifth place Borger Gassers, ten games behind the commanders, have not, however, given up hope, as was evidenced by Friday night's bargain bill sweep over the Lobos. A look through the statistical figures would tend to make one cautious however in dispensing with the Gassers, since they are within the top three in club hitting and fielding. But, according to the official league figures, one could hardly see how the Oilers would be leading a league. Pampa is third in club batting, with a .318 mark, and fifth in defensive work, with a .948 fielding average. The difference lies in the ability to hit when the chips are down, as has been the story all season long. As a unit, the entire line-up is full of potential home run clouters, including the pitchers. The outfield has socked 165 four-masters already this year, which is forty-two more than their next competitor, the Lubbock Hubbers, with 121. In the individual battle for circuit laurels, the Oilers have almost pilfered the entire line-up. Three Pampans have gained at least a first place tie for the top in ten fields of distinction performance, out of a possible 17. Here's the way the individual leaders stack up: BATTING Percentage - Fortin, Pampa .406 (based on players participating in at least two-thirds of games)

PHILLIES RETURN TICKET ORDERS

MARY ALICE SULLIVAN and her brother Jimmy, ticket office employees of the National League-leading Philadelphia Phillies, prepare to return part of the upwards of 25,000 requests for World Series tickets which the club already has received. The Phils, now 9 1/2 games out in front as of Aug. 18, are returning all ticket requests. (AP Wirephoto)

Houtteman's One-Hitter Wins for Detroit, 6 to 0

DiMaggio Paces Yankees; Easter, Wynn Head Tribe

NEW YORK (AP)—Brilliant pitching by Art Houtteman and Earl Wynn and timely hitting by Joe DiMaggio, Luke Easter and Buddy Rosar highlighted the American League pennant race Saturday. Houtteman pitched the league-leading Detroit Tigers to a 6-0, one-hit victory over the St. Louis Browns. Jim Delinger singled in the second inning to spoil Houtteman's no-hit bid. Wynn pitched the second place Cleveland Indians to a 1-0 triumph over the Chicago White Sox, winning out on East's third homer of the season in the eighth inning. The victory kept the Indians three games behind the Tigers. Ken Holcombe was the loser. DiMaggio clubbed out a double and two singles to lead the third place Yankees to a 6-2 victory over the Philadelphia Athletics. Rosar singled with the bases loaded in the ninth inning to clinch a two-run rally that gave the fourth place Boston Red Sox a 5-4 victory over the Washington Senators. Shows interrupted the National League pennant battle. Rain wiped out scheduled games between the league-leading Philadelphia Phillies and the New York Giants and between the runner-up Brooklyn Dodgers and the third place Boston Braves. In the only game played, the Pittsburgh Pirates crushed the Chicago Cubs, 13-8. Ralph Kiner slammed his 35th and 36th homers to lead the Pirate attack with Clyde McCullough who batted in six runs. John Hopp also homered for the Pirates while Roy Smalley, Mickey Owen and Hank Sauer smacked homers for the Cubs. Houtteman faced only 27 batters in his masterpiece at Detroit. Two other Brownies got on via walks but both were erased in double plays. Houtteman fanned four and the victory was his 16th.

Heafner Holds Share of Lead In East Meet

BALTIMORE (AP)—Clayton Heafner held grimly to a share in the lead at the three-quarter point of the eastern open golf tourney yesterday. Curly-haired Pete Cooper from Ponte Vedra, Fla., steamed into a tie with Heafner who has been in front since the first 18 holes Thursday. The pudgy North Carolinian struggled mightily to match par 72 Saturday and bring his 54-hole total to 209. Cooper, playing in the same trio, chipped three strokes from par to pull up even. Pace-setters in the \$16,500 tourney on the Mount Pleasant links are bunched for a mad rush to the wire in the final 18 holes today. A hot round by any of several touring pros can grab the \$2,600 first money. The honors for such a round today by pushing back the toes and the pants. Several of the contenders, including Heafner, found it rough going. Henry Ransom, the Tam O'Shanter "world" title holder, faltered to 78 and dropped to sixth place at 216, par for the 54 holes.

Abilene Beaten 12-6 By Amarillo Soxers On Barta's 6-Hitter

AMARILLO (AP)—Jerry Barta's six-hit, 10-strikeout pitching and a seven-run fifth inning gave sixth-place Amarillo a 12-6 victory over seventh-place Abilene here Friday night. Half the losers' runs off Barta were on homers by Art Bowland and Lon Dunn, the first with one on. Two of the others resulted from a pair of errors by Pinky Higgins, Amarillo shortstop, who is playing with a broken index finger on his left hand, and a bone-chipped right elbow. Barta himself contributed a home run with one ahead in the big fifth round. Nelson Davis, Jim Bynon and Frank Murray also homered for the winners, the 23rd of the season for Davis, the 27th for Bynon and the 11th for Murray. Nine of the Amarillo runs were charged to E. H. Moore, who was relieved by Glenn Jones, both rookie right-handers. First Playoffs Set In Softball Action For Monday Night

The first round play-offs in the West Texas-New Mexico League is slated for tomorrow night at the softball diamonds north of the high school, beginning at 7 p.m. Eight games are scheduled. The survivors of the initial round play-offs will then clash in the final round Thursday night at 7:30. The games are played on four diamonds with two games played on each field. In the Senior Boys League, the First Methodist boys will clash with the Nazarene team in the first tilt at 7 o'clock, immediately following this game, the McCullough Methodists will engage the First Christians. The First Methodist Junior boys meet the Nazarene boys in the first Junior tilt, while the First Baptist and Central Baptists will lock horns in the final Junior boys game. The First Methodists will send their third diamond representatives to action when their Junior girls meet the Central Baptists in the first girls tilt in this division. The First Baptists and Calvary Baptists meet in the Junior girls last game. The First Baptist-First Christian contest opens Senior girls action, and the Calvary Baptist-Central Baptist fracas will wind up the initial play-off schedule. Officiating in the girls divisions will be Radcliff and McFall in the Senior girls bracket, and Lane and Redus in the Junior league. Wells and Fischer will umpire the Senior Boys tilt with Beard and Alman working the Junior games. beat a United States All-Star swimming team, 36-27, in a three-day meet at Tokyo. Merrins Stages Comeback for Junior Crown

AMES, Ia. (AP)—Eddie Merrins, a fighting little guy from Meridian, Miss., staged a brisk comeback Saturday to win the national junior golf championship. He licked Gay Brewer, a batter in his own right, 1-up in the 36 hole final in the tournament sponsored by the U. S. Junior Chamber of Commerce. Merrins, a bantam-sized golfer at 57 and weighing 140 pounds, was three down to his Lexington, Ky., foe at the end of 18 holes in the morning round. He

Polly Riley Finally Captures Women's Eastern Links Crown

By JERRA LINKA CHICAGO (AP)—After eight years of trying, persistent Polly Riley of Ft. Worth, Saturday won her first women's western amateur golf title, 4 and 3, over a newcomer, Mae Murray of Rutland, Vt. Polly, 23, tournament medalist, jumped into a three-hole lead after the first five greens of the scheduled 36-hole match at Exmore Country Club, and Mae never got closer than two holes behind. Miss Murray, who looks more like a high school kid than the 24-year-old she is, in 61 previous competitive holes during her first appearance in this tourney had been only one over par. Yesterday, she shot a staggering 12 over par for the 33 holes played. Polly, on the other hand, methodically ground to a seven-over par for the distance. The best Miss Riley ever did previously in the tourney was reached the 1948 finals, losing to Dot Kietly. Queen Victoria began the study of Hindustani, one of the most intricate languages in the world, when she was 75 years old.

Shamrock Starts Training For 1950-51 Grid Season

The Shamrock Irishmen will pin their 1950-51 gridiron hopes on forty-two candidates who reported for initial workouts last Wednesday. Shamrock mentor Scott McCall showed his prowess through light calisthenics the first day before holding a workout of passing and running drills, and tackling assignments on Thursday. Sixteen of the Shamrock youths are lettermen, up from 14 last year's squad that captured second place laurels in District 2-A. The first scheduled game is less than two weeks away against Lockney on September 1. The complete Shamrock schedule is: Sept. 1—Lockney, there. Sept. 15—Dalhart, here. Sept. 22—Perryton, there. Sept. 29—Phillips, here. Oct. 6—Memphis, there. Oct. 13—Lefors, here. Oct. 20—Clarendon, there. Oct. 27—Wheeler, here. Nov. 3—McLean, here. Nov. 10—Wellington, there.

Radar Defense Screen Called Inadequate To Completely Halt Large Air Raid on U.S.

By ELTON C. FAY
 WASHINGTON — (AP) — An enemy probably could make an aerial Pearl Harbor strike at almost any place in the United States today and get some bombs down on the target.

It is not considered within the realm of possibility that the present sparsely spotted radar system even though on a round-the-clock operating basis would detect all approaching bombers or that existing fighter forces would destroy every one of them.

Competent military sources doubt if more than a quarter of an attacking bomber force coming in over the polar regions could be knocked down before it crossed the northern border of the United States.

They point out that in World War II, in areas where there was a high concentration of fighter defense and elaborate radar warning system, destruction of 10 percent of an attacking force was considered excellent.

Air Force strategists hold that the most effective way to halt air attacks on the U. S. mainland would be destruction of the bases from which the attacks are launched and of the industrial

centers supporting the attacks. It is on this theory that the retaliatory strike by long range B-36s, B-29s and B-50s are planned.

Following this same reasoning, defense officials believe that the bases for those planes, in the continental U. S. and Alaska, would be priority enemy targets, the spots for which sneak raiders would head first. Making the bases useless for launching retaliatory strikes would be of prime importance to the enemy.

Any bombers he got past the radar warning system and fighter defenses could be expected to streak for air bases.

Next in importance probably would be the great industrial areas and the nerve-center of government and military direction, Washington.

When asked about defenses against a surprise air attack, the Air Force's frank answer summed up to this:

The nation's air defenses today are not satisfactory. The present radar stations comprising the warning net are composed of World War II equipment and are located on government sites. What is true of the radar system also is true of the buildup of fighter forces. Money from the regular and supplemental

appropriations of the present fiscal year has been lagged for buying quantities of jets. Orders have been placed. But the Air Force doesn't have the planes now and won't have them in any large quantity for some time.

And even when all the radar equipment and airplanes now ordered or to be bought later is on hand and in operation there is no guarantee that the screen against enemy aircraft will be 100 percent airplane-proof.

The effort must be (a) to cut down as far as possible the number getting through and (b) to prevent them reaching vital targets.

The advent of the atomic bomb has made this problem crucial. Even if only one of a force of 50 bombers gets through, the damage it can produce would be devastating.

News Not New, Knose Knows

TORRANCE, Calif. — (AP) — Mrs. Frederick Knose has a nose for news — but reporters chose to cover this one by remote control.

Mrs. Knose detected an unmistakable odor in her garage. She opened the door and saw a skunk — too late. She called police, and Officer J. W. Maestri came out and shot the beast — also too late.

SHOW TIME—There's at least one in every outfit—the guy who lugs his banjo, guitar or uke along with his combat pack. Such are Pvt. Raymond Williams of Moberly, Mo., left, and Pvt. Bob Clinton of Bismark, Mo., right, shown entertaining their buddies on their way to the front.

HORSING AROUND — In Sweden, the Stockholm life-saving company was called out to rescue a work horse that had fallen into a 13-foot-deep hole. Using a large mechanical crane, plus a good bit of manpower, they managed to raise the bewildered animal so it could go back to work again.

JACOBY ON CANASTA

Penalty Cards Can Be a Help

By OSWALD JACOBY
 Written for NEA Service

A player with penalty cards on the table is not allowed to discard a card from his hand proper. Apart from that, possession of penalty cards does not hurt a player in the slightest. He may use penalty cards or a combination of penalty cards and cards from his hand proper to make a legal meld, or to take the discard pile. He may meld cards from his hand even though he has penalty cards on the table.

Sometimes a player will get an advantage due to having penalty cards on the table. This look is called a "joker" on the table as penalty cards and you draw another joker. You may add that to your penalty cards and they will immediately become melded cards.

It is possible for you to legalize your own insufficient meld if you draw the right card. Thus you have two eights, a deuce and a joker on the table as penalty cards and you draw another joker. You may add that to your penalty cards and they will immediately become melded cards.

Texan Is Sentenced For Skipping Duty At Guard Maneuver

DALLAS — (AP) — A Dallas man has been sentenced to 30 days in the Dallas County jail and fined \$30 for not attending the 49th armored division's maneuvers last month at Fort Hood.

Two others are awaiting courts martial for not taking part in the training. Brig. Gen. C. P. Kerr, commanding officer of Combat Command B of the division, announced.

The sentence was handed down by a summary court martial. The man was placed in the county jail, General Kerr said, because the National Guard has no guard-house in Texas.

Kerr said the man sentenced to jail had been given time off by his employer but instead of going to camp, "he ran off to New Mexico."

The court martial hearing was held in Dallas.

Bandit Will Learn To Halt Tongues

NEW YORK — (AP) — A bandit tied up Carl Krantz's hands but he should have tied his tongue too.

The bandit escaped with \$200 from the cash register after tying Krantz with twine to a hot water pipe in the rear of his hosiery store in downtown Brooklyn.

Krantz, 32, butted the receiver of a nearby wall telephone with his head. Then he used his tongue to dial "0" for operator. He told her his plight.

She called police, who arrived to find Krantz still bound to the pipe.

Odessa College Vote Contested

ODESSA — (AP) — A suit contesting the \$800,000 Odessa college bond election held July 29 has been filed in 70th district court.

The issuance was favored by a majority of 25, with 387 voting for and 342 against.

Plaintiffs are two well known local businessmen, Tom W. Davis and G. C. Hardwick.

The petition alleges persons were allowed to vote who had not paid their poll taxes, who were not property owners, and who were not residents of the college district.

Damage High in India Earthquake

CALCUTTA, India — (AP) — At least 11 persons perished and hundreds of acres of crops were laid waste by last Tuesday's earthquake in the province of Assam. Damage was estimated at \$2,000,000.

Authorities said the fact that the northeastern province is sparsely settled — with most dwellings flimsy structures — kept the death toll from being far higher. They added, however, that communications still are down and casualty figures are not complete.

He Shoulda' Left The Dog at Home

LOS ANGELES — (AP) — Long stress Buddy Stanton, 22, won a divorce from dancer Ronny Stanton because, she said, he spent his nights in another girl's apartment — and took the family dog along.

She testified in court that his conduct caused her to have spasmodic pains in her stomach.

"He'd tell me he was one place, and I'd find he was somewhere else — with a girl," she complained.

MOVIES NEXT? — Sharman Douglas, 22-year-old daughter of U. S. ambassador to Great Britain Lewis Douglas, is being tested for a role in a new movie entitled "That Man From Tangier," now being filmed in Spain.

GERMAN ART FOR U. S. CHURCH—A workman fits mosaic into almost completed altarpiece being made by a firm in the American occupied sector of Berlin, Germany, for use in the Church of the Sacred Heart in Lowell, Mass. Although this mosaic represents the firm's first postwar order from abroad, it shows the industrial revival now under way in Western Germany under the direction of the Allied powers.

Packard Strike Slows 1951 Model; Industry Uncertain

By DAVID J. WILKIE
DETROIT — (AP) — Last week's Packard strike didn't cut heavily into overall car output but it did slow down the company's new model planning.

The strike demonstrated the uncertainties that lie ahead of all auto industry planning. It came just as Packard was beginning to get volume production of its 1951 line of new cars and had been shipping them to dealers.

Formal introduction of the new models may not be delayed but deliveries are bound to be put back to some extent. Packard hasn't disclosed details of the new cars but it is fairly well known they are completely new and wholly unlike previous models.

Other car makers going over to new model production now are Nash and Hudson. Nash began tapering off 1950 model output a couple of weeks ago and Hudson completed its runs of current models Friday night. Both companies probably will introduce the new cars next month.

What Nash will announce in mechanical and styling advancement still is being kept pretty much of a secret. It already has automatic transmissions, using General Motors' Hydra-matic. Nash's current models were more widely acclaimed than any other model in the company's history and there has been considerable speculation as to advances that might be made in the 1951 line.

Hudson is considered certain to announce Hydra-matic along with its new models. Also expected is an entirely new and more powerful engine.

Top Seeded Players Set for Tennis Play
GALVESTON — (AP) — Two top seeded players are scheduled for action today in the opening round of the state TAAAF tennis tournament.

Men's division favorite Jason Morton of Houston takes on Warren McMillan of Fort Worth and James Schmidt of Galveston, a ranking contender in the boys class, meets John Rosenquist of Austin.

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically
Was run-down, weak, after service in South Pacific due to deficiencies of Vitamins B1, B2, Iron and Niacin

Mr. Donald Hedburg, who resides at 1812 Parker in the fashionable Riverside District of Wichita, Kansas, has been an up-and-coming member of the staff of the great Wichita Eagle newspaper for over four years.

Mr. Hedburg has an enviable record of combat with the U. S. Army in the South Pacific in World War II. He is very active in civic affairs. And just as he was anxious to pitch in and do a job during the war — he now wants to help his fellow citizens who like he was once, are physically run-down and weak due to lack of Vitamins B-1, B-2, Iron, and Niacin in their systems.

Here is Donald W. Hedburg's witnessed statement: "When I returned from service, I faced the problem of rebuilding myself physically. I was in a general run-down condition. In my present capacity of advertising salesman for Kansas' greatest newspaper, The Wichita Eagle, it's absolutely necessary that I have plenty of vitality. I got up and go. I had real cause to worry. Nothing seemed to rebuild me constitutionally. Then a friend of mine on the national staff told me about HADACOL — he asked me to try at least five bottles. I'm on my fourth bottle and already I feel like my old self. I look forward to a day's work and go home play with the children — work in the yard (and) until midnight! Thanks again to HADACOL, energy and vitality once again course through every fiber of my body. You bet, I too, am now a missionary for this great new HADACOL.

Get That Wonderful HADACOL, Feeling Everyone is Talking About
HADACOL gives such wonderful results because it not only supplies deficient weak run-down systems with more than their daily needs of important

Paper Determined To Help Old Friend

COLUMBUS, Ohio — (AP) — It's going to take more than three broken ribs to keep 87-year-old Perry Doran away from his 76th Ohio State Fair.

Doran, who operates his own farm in adjoining Licking County, is in Grant Hospital, Columbus, with three broken ribs. He was hurt in an auto accident Saturday.

Doran hasn't missed a state fair since the first one in Columbus in 1874.

Yesterday the Ohio State Journal, Columbus morning newspaper, said it would see Doran gets to the fair during the week of Aug. 27 "even if he has to go in an ambulance."

The newspaper considers Doran as a special friend.

He learned to read by the newspaper 81 years ago, and he has been reading it ever since.

Munitions Board Gets New Power

WASHINGTON — (AP) — If the armed forces have to take over hotels or college buildings as they did in World War II, the job will be done by the munitions board.

The American Council on Education has so advised its membership on the basis of a report from the National Security Resources Board (NSRB).

During World War II, the Army and Air Force bought or leased 600 hotels and resorts. The Navy used 85 hotels, apartment houses and resorts, and used training facilities at 160 schools.

U.S. Citizen Still Needed in Italy

HAGERSTOWN, Md. — (AP) — Robert Vidoni, 20, has just received a letter indicating there's a great demand for his services.

The letter is from a cousin in Italy who says Vidoni has been ordered to report for duty with the Italian army.

When he was six months old Vidoni was brought to the United States by his immigrant parents.

A few days ago his Hagerstown draft board notified him he has been classified 1A—U.S. style.

New U. S. Polio Cases Hit 1,442 in Week

WASHINGTON — (AP) — There were 1,42 new cases of acute poliomyelitis last week, the public health service said.

Sales Soar in Larger Cities

DALLAS — (AP) — A spectacular boom in department store sales in Texas' largest cities in the past month — since the nation began mobilizing for the Korean war — was reported by the Federal Reserve Bank of Dallas.

For the four weeks ending last Saturday, sales averaged 46 percent higher for reporting stores in the district as compared with the same period last year.

The figures for this period: San Antonio up 58 percent, Dallas 46, Fort Worth 42 and Houston 37.

Figures for one week ending Aug. 12 indicate that the scare buying of the early war days is tapering off. These increases were shown as compared with a year ago: San Antonio 34 percent, Houston 26, Fort Worth 23 and Dallas 19.

The ostrich can cover 25 feet or more at one stride and run as fast as 60 miles an hour.

Wichita Falls Bus Hearing Postponed

WICHITA FALLS — (AP) — A hearing on a suit of the city of Wichita Falls against the Wichita City Lines, municipal bus service, has been postponed.

The original suit was for debt receivership and cancellation of the line's franchise. But it has boiled down to a wrangle over bus routes and schedules.

J. L. Perusse or Gulfport, Miss., an executive of the bus company, said he planned to attend at least three conferences here before the hearing Sept. 18.

The bus company has indicated it will restore any services the city council deems absolutely necessary in order to retain the franchise.

The turkey is the only species of poultry that originated in the United States.

"FOR SOFT, LOVELY HAIR, USE — WATER!" — Cpl. Jim McMinn, of Houston, Tex., gets a thorough dousing from his buddy, Cpl. Larry Watson, of Spokane, Wash., as G.I.'s take a few moments out from the fighting to wash away some of the grime they've picked up over a period of days. (Exclusive NEA-Acme photograph by correspondent Stanley Tretick.)

Reporters Cover Battlefield But Get Rest Behind Lines

By HAL BOYLE

KOREA — (AP) — It is night and you are miles behind your own line.

You may have gone up to the front and been scared during the day, but that was earlier. You have come home to the tapwater from an Army disapproved shower to wash away the road dust that feels an inch deep on your skin.

You have got back in time to eat a meal. Or you may be forced to try to digest something out of a can you have stuffed under a bunk.

But bad as the food may taste or persistent as the mosquitoes are, you are among the fortunate ones of the Korean war. You at least generally sleep free from danger.

This is the great advantage a correspondent has over any one group of doughboys. They had to stay and take it — and he comes up for a visit and then gets the hell out of there.

The disadvantage of the reporter covering a war is that he has to go up each day to the place where the battle activity is highest, or at least he does many days if he has a conscience. So if you total up his exposure to "the million dollar wound" — the one that sends him home with four limbs and a head — he gets at least an admiring understanding of the average combat infantryman.

And he gets an extra bonus — an understanding of the part of the doughboy of the job a correspondent has to do. This happens so often that it usually makes a correspondent feel ashamed. Many and many a time an infantry will say to a reporter who comes up to write the story of men under fire:

"You're crazy. You mean you come up here when you ain't ordered to? Look! Be smart! Get the hell out of here."

But if you hang around for a while with them under mortar or artillery fire and still get the hell out of there they like you for it. And they remember you as an old friend the next time you visit them — whether they are in combat or not. You have become one of them because you shared their danger. You don't have to tell them whether you went on to share danger with another outfit or not. You are part of them forever.

For some reason this gives you a feeling of guilt at night after you have come back to what passes for a comfortable billet in wartime and have finished your writing for the day.

You go out on a small balcony and see the light of distant guns and hear their far-off rumble. A few trigger-happy rear headquarters troops send up some red tracer fire and someone new to the front says:

"Look! Lightning bugs!"

Secret Testimony Is Already Known To Newspapermen

WASHINGTON — (AP) — Dr. Richard Melling, director of the Defense Department's medical services, declined Friday to tell a House subcommittee how many beds there are in military hospitals while reporters were in the room.

Such figures, even for hospitals in this country, are "restricted" or secret, he told a House armed services subcommittee studying hospital beds.

Several committee members pool-pooled that stand, but reporters were asked to leave.

One of them had a copy of a story which on Aug. 5, gave as \$7,000 the number of beds now staffed in military hospitals in this country. The figures had been obtained from the Pentagon press section.

Although Melling insisted on testifying secretly, the testimony did not stay secret long. A committee member informed a reporter the doctor stated that there are now 42,000 beds.

According to the most widely accepted explanation, the name was given it because of its call-notes: "Turk-turk-turk."

Lie Says Korea Reds Must Learn Lesson

OSLO, Norway — (AP) — United Nations Secretary-General Trygve Lie said Saturday the North Korean aggressors must be taught a lesson. They must "be forced

JACOBY ON BRIDGE

Pete's 'Bad Feeling' Inspires Clever Play

By OSWALD JACOBY
 Written for NEA Service

"How did you ever dream up that play?" West asked respectfully.

"That's a standard play," said Pessimistic Pete. "You use it when you have a bad feeling about the trumps."

"You certainly had a bad feeling," sighed West. "Your play won this time, but I'm still not convinced."

West should not have been so doubtful, since Pete's play assured the contract against anything but a 5-0 trump break. As Pete observed, it was a standard play.

West opened the queen of hearts, and Pete, playing the South hand, won with the ace. Pete saw that he was bound to lose a heart and a club. The contract therefore depended on losing no more than one spade trick.

The "normal" play is to lead a spade to dummy's ace and return a low spade with the intention of finessing the jack. This play loses two trump tricks if West happens to have four spades headed by the queen-ten.

The correct play, as Pete demonstrated, is to win the first trump trick in the South hand with the king! Pete then led a low trump toward the dummy's ace-nine.

When West played his low spade, dummy's nine was finessed! This won, of course, and the rest was easy. Dummy's ace of spades was cashed, and West could take his queen of trumps whenever he liked.

It would have done West no

good to play the ten of spades on the second round of trumps. Dummy would win with the ace and return the nine of spades to force out West's queen. South would later gain the lead to draw West's remaining trump with the jack.

It is important to note that South is still in good shape even if it turns out that East (rather than West) has four trumps to the queen-ten. After winning the first trump with the king, South leads a second trump towards dummy. West must discard, revealing the trump

you don't have to tell them whether you went on to share danger with another outfit or not. You are part of them forever.

For some reason this gives you a feeling of guilt at night after you have come back to what passes for a comfortable billet in wartime and have finished your writing for the day.

You go out on a small balcony and see the light of distant guns and hear their far-off rumble. A few trigger-happy rear headquarters troops send up some red tracer fire and someone new to the front says:

"Look! Lightning bugs!"

General Approves Guard Division

CAMP POLK, La. — (AP) — Sun-bronzed troops of the 39th (Louisiana and Arkansas) National Guard division got a nod of approval Friday night from Lt. Gen. Leroy Lutes, Fourth Army commandant from San Antonio.

The general made an inspection of the units in the field as they wound up a two-week encampment.

He said:

"I am highly pleased with the smooth working command of the 39th, whose units benefited materially from realistic training problems. They're in better shape than last year — from a standpoint of numbers and stage of training."

Home Planning Loans Approved

WASHINGTON — (AP) — President Truman has approved loans totaling \$963,900 to public housing authorities in 20 localities for planning 2,993 low-rent housing units.

The local housing authorities to receive the new loans, the number of units, and the amount, included:

Texas: Commerce, 75, \$30,000; Paducah, 30, \$12,000; Victoria, 130, \$49,000.

Streamliner Trains Slated for S-P Run

HOUSTON — (AP) — New streamliner equipment will be placed in service Saturday on the Southern Pacific Railroad's new New Orleans-Los Angeles Sunset Limited line.

The railroad says the equipment amounts to \$15,000,000.

Two-unit diesel locomotives of 4,000 horsepower will pull the trains east of Del Rio, Texas, with three unit 6,000 horsepower engines being used between Del Rio and Los Angeles.

It's a Very Satisfying Feeling

Yes, it's good to slip into a truly fine automobile and sense its richness, its comfort, its room.

And there's a great thrill in touching off the waiting power of a great-hearted straight-eight and feeling its swift response at any speed.

It's fun to count the quick, admiring glances thrown your way.

It's nice to have a car that parks easily, for all its inches. It's very pleasant to do away with gearshifting and clutch-pedal pushing, and know in its stead the utter smoothness of Dynaflo Drive's silken transmission of power.

And still that doesn't probe the depths of a ROADMASTER owner's secret satisfaction.

For while he knows he has a fine car, by its look, its feel, its appointments—While he has performance at his command that needs play second fiddle to no other on the road—While he enjoys a very special measure of creature comfort in the quite matchless gentleness of ROADMASTER's ever-level ride—He knows too that he has made an

exceptionally wise investment.

He has spent his money for the things that make a fine car fine—and nothing simply for show.

He has paid the lowest price per pound in the fine-car field—he has the very satisfying feeling of knowing his dollars have given him solid merit, and solid merit alone.

We'd like to have you try ROADMASTER in honest comparison with the highest-priced cars to be found. We'd like to have you try to match it for room, for comfort, for finish, for handling ease and for ability on the road.

Then check the prices—and see if your own sense of value doesn't advise signing up right now with your Buick dealer for a Buick ROADMASTER.

MERCY UNDER FIRE—The strained expressions and tense attitudes of the Marine stretcher bearers in this battle-action picture tell the story. Rescuing a wounded comrade under heavy fire, they hope to duck North Korean bullets successfully enough to get him safely into an aid station. (Photo by Stanley Tretick, NEA-Acme staff correspondent.)

Bumping curbs or striking objects is likely to jolt the front wheels of an automobile out of line.

Take Off Ugly Fat With This Home Recipe

Here is an inexpensive home recipe for taking off surplus weight and helping to bring back alluring curves and graceful slenderness. Just get from your drugstore four ounces of liquid Barcozate. Add enough grapefruit juice to make a pint. Then just take two tablespoonfuls twice a day. Wonderful results may be obtained quickly. Now you may slim down your figure and lose pounds of ugly fat without back-breaking exercise or starvation diet. It's easy to make and easy to take. Contains nothing harmful. If the very first bottle doesn't show you the simple, easy way to lose bulky weight and help regain slender, more graceful curves, return the empty bottle and get your money back.

Pampans Visit Clark Gable on Movie Location

A sight-seeing tour of the "Million Dollar Highway" between Durango and Silverton, Colo., brought an unexpected visit with Clark Gable and the cast filming "Across the Wide Missouri" to a group of Pampa and Oklahoma summer vacationers.

Mr. and Mrs. Ray Dudley and family, 709 N. Somerville, Mrs. R. T. Parker and family, 428 N. Starkweather, and Mr. and

Mrs. Bill Smith, Wilburton, Okla., were the travelers.

It was a day when the fish failed to bite at the Vallecito Lake resort near Durango, where they were vacationing. It was their decision to see more of Colorado on that day and as they drove along, they came upon the movie set at work.

After chatting with celebrities such as Gable, John Hodiak, Ricardo Montalban and James Whitmore, the group obtained autographs and snapshots from the stars and continued their trip.

The youngest child of Mr. and Mrs. Dudley, Gary, received special attention from the actors. He is four months old.

18 Delegations To Seek Projects

AUSTIN — (AP) — Texas highway construction requests will be laid before the state highway commission by 18 delegations at a public hearing here Aug. 22.

Both major and farm highway improvements are included on the commission's docket for discussion.

Delegations are expected from the following counties: Bexar, Erath, Hale, Bowie, Limestone, Bandera, Dallas, Travis, San Saba, Jack, Garza, Crosby, Dickens, McLennan, Kaufman, Upshur, Gregg, Jones, Newton and Garrettsville.

Texas Porty City Housing, Labor Creating Confusion

ORANGE, Texas — (AP) — This port city is in the peculiar position of having a housing shortage and a housing surplus along with increasing unemployment in the midst of a developing war boom.

A survey by reports located only 11 vacant dwellings here available to families with children. About 25 others, most of them furnished and some in the "undesirable" category, are available to couples with no children.

Meanwhile, several hundred government-owned dwellings stood vacant. These were closed up several months ago when a surplus of privately owned rent properties existed and may not be reopened without approval of the government.

The Texas Employment Commission here reported that it had received 400 new applications for employment during the first half of August, as compared with 217 during the same period in July. TEC said it has 1215 jobless on its rolls, the highest figures in months.

L. A. Hammond, TEC manager, attributed the influx of people here to "magnified rumors" or war contracts having been announced and there is at present no need for more workers in the Orange area.

Hammond said a substantial number of new jobs have been opened up here by operations of the Navy and others in connection with the war in Korea, but

Army Considers Texas Cities for Big Laboratory

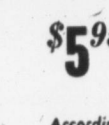

DALLAS — (AP) — A new Army quartermaster corps research and development laboratory may be located in one of seven Texas cities.

The Dallas News reported that the Texas sites have been proposed for the laboratory in addition to 191 other sites.

The News said that four Army reserve officers were asked to recommend the site for the plant, estimated to cost \$11,000,000. The recommendations will be used by a site selection committee when it meets in Washington Sept. 8.

The Texas cities are Dallas, Athens, Brownwood, Cameron, Fort Worth, Lufkin, Palestine and Whitney.

August Surpasses June As Wedding Month

The Pampa Daily News Women's Activities

PAMPA NEWS, SUNDAY, AUGUST 20, 1950 PAGE 13

NEWLYWEDS — Mr. and Mrs. Clinton L. Allen, above, are pictured at their recent wedding in Beaverton, Pa. Mrs. Allen is the former Miss Arla Marie Thomas, daughter of Mr. and Mrs. Herbert F. Thomas of Beaverton, and Mr. Allen is the son of James Allen of Fort Worth and Mrs. Alice Masters of Pampa. He is a grandson of Mr. and Mrs. John Paddock, 932 S. Barnes, and grew up in Pampa and attended the local high school. The couple is at home in Harrisburg, Pa.

MRS. EMMITT EARL EDWARDS, JR.

WILL WED — Mr. and Mrs. O. W. Swails, Edmond, Okla., announce the engagement and approaching marriage of their daughter, Miss Mildred Swails, to Richard Gee, son of Mr. and Mrs. Emmett Gee of Pampa. The vows will be exchanged at 2:30 p.m. Friday, Aug. 25 in the First Christian Church of Edmond. The Rev. W. Frank Aten will officiate. The bride elect attended Edmond High School and is a graduate of Central State College and has done graduate work at the University of Oklahoma. Mr. Gee is a graduate of Pampa High School and attended Central State College and West Texas State College, Canyon.

Cole-Nation Vows To Be Said Today

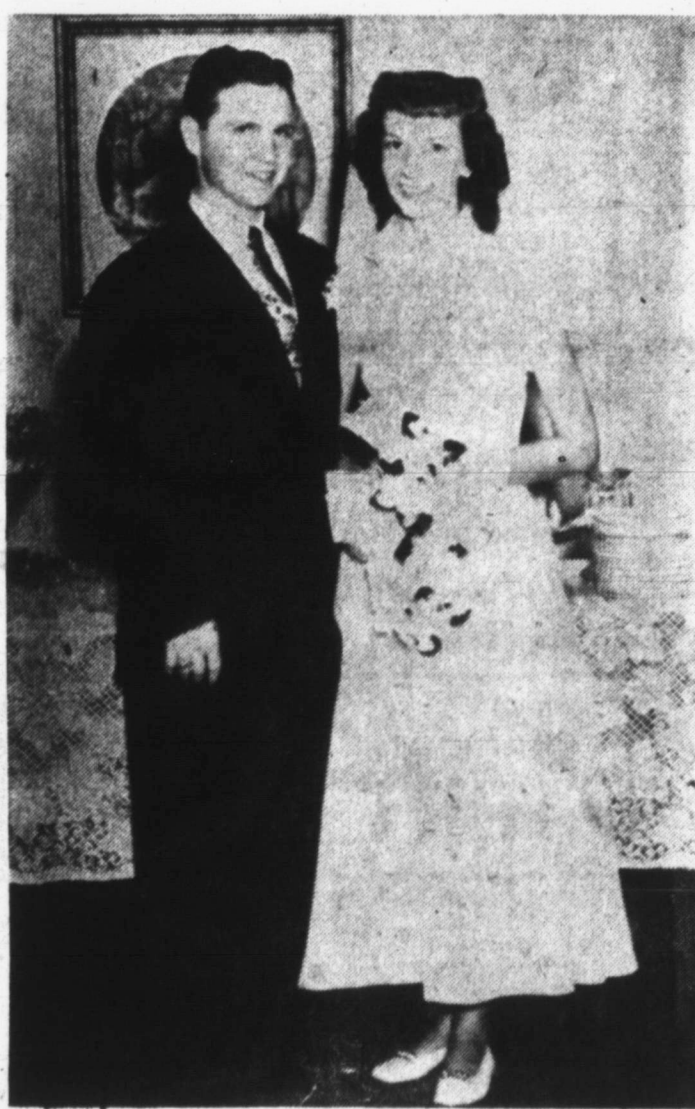

At 2 o'clock this afternoon, in the Harry Hoyler home, 101 N. Faulkner, the Rev. E. Douglas Carver will read a ceremony uniting in marriage Mrs. Mildred Cole and R. R. Nation. Mrs. Cole is the daughter of Mrs. W. J. Rodgers, Stratford, Okla., and Mr. Nation is the son of Mrs. Olive Nation, Colorado Springs.

Pink gladioli and candleabra will decorate the living room, and a large mirror will form a background for the exchange of vows in the single-ring service.

Mrs. Cole will be given in marriage by her son, Jimmie Cole. For her wedding she has chosen a rose lace ballroom-length dress fashioned with a fitted bodice and long sleeves. She will carry a bouquet of white carnations on a white satin Bible. Mrs. Harry Hoyler, Sr., will officiate. (See COLE-NATION, Page 14.)

MRS. MILDRED COLE

MR. AND MRS. GILBERT DICKENS

Moot-Dickens Vows Said In Pampa

WHITE DEER — (Special) — An impressive double-ring ceremony uniting in marriage Miss Maryann Moot, daughter of Mr. and Mrs. Carl W. Moot, Sr., west of Pampa, and Gilbert Dickens, son of Mr. and Mrs. H. T. Dickens, White Deer, Friday morning, August 11, in the First Christian Church, Pampa, with the Rev. Jerry Hobbes, Cordell, Okla., officiating.

Vows were exchanged before an altar decorated with yellow gladioli and purple asters, flanked by tall yellow tapers in seven-branched candleabra. Jimmy Wilson and Teddy Williams lighted the candles. As a nuptial prelude, Miss Darline Anderson, Cordell, Okla., pianist, played "Two Preludes" (Chopin) and "Poem" (Fibich), and accompanied Miss Beth Goeringer, San Antonio, as she sang "Wanting You" (Romberg) and "Because" (D'Hardelot). The traditional wedding marches were used. Miss Goeringer wore a brown lawn frock with white accessories, and Miss Anderson, an aqua batiste dress with white accessories. Their corsages were of yellow daisies.

The maid of honor, Miss Marylea Fisher, Marlowe, Okla., was attired in aqua marquisette with black accessories; and the bridesmaid, Miss Sharon Dickens, sister of the bridegroom, in orchid marquisette with white accessories. Both carried nosegays of (See MOOT-DICKENS, Page 15)

By MARY ANNE DUKE
SCHOOL DAYS — Again it's time we prepare our youngsters for the school year ahead. This we owe the children and the teachers who give their best. Check to be sure that the child can see well. If not, provide the glasses needed. Have a complete physical check-up. As for clothing, provide comfortable garments which can take the wear and tear of rough play on the school ground. Sturdy, well-fitting shoes are a must. Much pressure about food but see to it that your child eats the foods needed for maintenance and growth. Our Texas Food Standard is our best guide for planning a balanced meal. Here it is:
For A Good Diet I Need Daily:
1 qt. milk, children under 16 need 3/4 to 1 quart milk, 1 egg, 1 serving average serving about 1 1/2 cups, most including poultry and fish, cereals, eggs or nuts may be used instead of meat, 1 serving apples, 1 serving green or yellow vegetables, 1 other serving vegetables, 1 serving citrus or tomatoes, 1 raw cabbage, strawberries, melons, 1 other serving fruits, 1 serving whole grain products, other enriched cereals and bread, butter, or margarine with vitamins added. Some sweets. Most of the above or other foods as needed, 6 to 8 glasses of water.
Children of all ages usually do not get enough sleep and rest for good health and a good disposition at home and at school. It is worth the battle you'll have to fight to see that your child gets 10 to 12 hours sleep in the 24 hour period.
The life of a good parent is not easy. Such a parent teaches constantly, example perhaps being the one the child copies first.
A new study, "Parents Responsibility in Character Development," just published by The General Federation of Women's Clubs, declares that character development begins in the cradle. But it is something a child cannot be forced to learn before his growth and maturity make it possible. A parent who does not understand this may be seriously undermining the character growth of the child.
The study follows the findings of psychologists and psychiatrists that embarrassments, disappointments, and frustrations of childhood often produce emotional scars which may remain in the subconscious mind and later cause trouble.
If a child learns at an early age to express himself without fear, to develop the impression that he is being loved and accepted, to emerge discipline as a learning process, to make his own decisions and to take the consequences of those decisions, he will be on his way to an enrichment of character as he grows.
We can tell when our children are growing toward good character when we see that they have a genuine liking for other people, both children and grown-ups, and enjoy being with others. That's an important indication of good adjustment. At the

THERE'S DEFINITELY a lull in the social whirl and I didn't realize it so much until I started hearing all about the various club activities planned for the coming year. Surely seems like the summer has passed quickly, but really I'll be glad when everyone returns from vacationing, and the winter routine begins.

CALIFORNIA IS DRAWING so many of our Pampa friends! Already a few have returned from trips there earlier in the season, and they're still heading that way. The young Tom Bates toured the West Coast, and Jeanne Willingham is back from a business plus pleasure trip there. Mrs. J. C. Lunsford and her attractive young daughter are in California but I haven't heard when they are due back.

YOU JUST AREN'T "up" on things if you don't have a patch of cotton on your screen door. It keeps flies away, I'm told.

WE ARE EXCITED over the news that the State Fair will host a run of "South Pacific"—mumm! By the way, I heard of a lucky, lucky Pampa girl who saw the New York show on a recent trip East. Don't remember her name, but I bet she framed the stub of that precious quack. However did she manage it? ... until most recently tickets were scarce as hens' teeth.

WONDER IF the Drs. Hicks have moved into the new house yet? You'd simply love her generous splashes of color which begin right at the front door and extend to every room. One thing I would adore is curling up with a New England cook book in front of the picturesque fireplace which is right in the kitchen—a la the olden days! So cozy.

PAMPA PANORAMA: Saw some cute little bathing beauties splashing in the Country Club pool the other morning. Fun! ... fun! Mrs. J. C. McDowell thinks there's no finer grandson than hers ... he's been here visiting with her ... also his offer set of grand-children. Mrs. Dee Harrah is handy with a crochet hook ... such lovely, lovely things she "whips up" ... Pretty new paint job at 220 N. West ... who lives there now? ... Believe the Ernest Cranes lived there until they moved north of town not long ago ... Mrs. L. E. Miller was wearing a very little bonnet when I saw her last ... she is most attractive. Been meaning to plug that new Penman Club ... hear the food is good there and you're bound to run into somebody you know ... There's a little house on Francis Ave. that has a daring arrangement of ivy going up in front of the entrance ... it's all done with strings ... and the ivy is following the set pattern of squares, diamonds, etc. ... wonder what kind of plant it is to be so hardy and fast-growing? ... Party of the week ... undoubtedly the Jaycee-Elite entertainment the other evening at the Floyd Watsons ... everyone came dressed at his "worst" and I'm looking forward to hearing who won the prizes for tackiest ... The Floyd Wards' popular daughter is accumulating a massive quantity of ribbons from her wedding packages ... Mrs. Henry Mathieu looked pretty as could be the other afternoon ... liked the shade of green in her big picture hat ... I'm anxious to hear the details of her daughter's wedding last evening ... know it goes lovely ... Never see Nancy Sullivan in the same dress twice ... she's always well-dressed ... Speaking of dresses ... sometime ago Jean Haw had a lot of clothing damaged in a small fire or something of the sort, but I suppose everything was "repaired" at the cleaners ... she still looks smart all the time.

IN MY CHILDHOOD (oh, so long ago) nobody was more popular, more sought out, than the friend who had a playhouse! It's enlightening to see there are a few playhouses left in this time when little girls grow up so fast ... one day they're making mud pies and by what seems just a few days later, they're giggling over dates and parties. Anyway, when we see a group "playing house" it makes us pause just a moment and share the fun. There's a regular little doll house on the corner of Deatur and N. Russell that has held a big household of good times. I bet. The A. L. Steeles' daughter still has time for her playhouse in the corner of the backyard—it's ultra modern with picture windows and all. The Ervin Purveys' oldest is practically "grown up" but the playhouse (that evidently was hers) was still standing in the yard of their house on Mary Ellen before they moved into the new house. I wonder if they plan to move the little house along—won't be long until the new baby daughter will grow into it!

NOTICE THE House voted restoration of twice-a-day mail deliveries, but it's not expected to go through the Senate and over the President's desk. Frankly, here's one housewife who can get along without that afternoon service which costs a reported \$50,000,000. That surely would buy a lot of three-cent stamps—which reminds me of the story of a little girl away at camp for the first year who wrote home: "Dear Mommy, please send me five three-cent stamps

same time they don't need other tertain themselves. They are people around all the time to neither over-sensitive nor too dependent. They can en-

Betty Sue Hilburn Becomes Bride Of J. E. Mackie in Baptist Church

In an informal candlelight ceremony, read at 8 o'clock Saturday evening, August 12, in the First Baptist Church of Pampa, Miss Betty Sue Hilburn became the bride of Joe Edd Mackie, son of Mr. and Mrs. E. C. Mackie. The Rev. E. Douglas Carver, pastor, officiated at the single-ring ceremony.

The bride is the daughter of Mr. and Mrs. J. R. Hilburn and the bridegroom is the son of Mr. and Mrs. E. C. Mackie.

—they are so expensive!"

THE MOST IMPORTANT birth this week was without question the arrival of Britain's little Princess Ann, but Mr. and Mrs. Nolan Cole no doubt think their new little daughter as fair as any princess. She arrived, I believe, on the same day as the princess.

LAST WEEK'S rhyme was all about Wade Duncan and now guess this one: She hardly ever buys a hat, And here's the reason why? Her husband usually tends to that. Can you think of a nicer guy? I could preach all day and night, And start to carve off hubby's toe, Still he'd put up a fight, At having to select my chapeau.

THERE'S A STANDING JOKE at our hose that the first one to want the furnace "fired up" is the goat for the winter. Looks like I'm going to be said goat, but honestly, it's already getting real crisp and there's nothing that would warm me up like a Harvester football game! Tickets should be going on sale real soon now and I wonder if we'll get the same seats we had last season—we could look right down a few rows and see the C. E. H.'s and down a little more and see R. M. B., and right next to us was—oops! I nearly gave away the reserved seat number of

PEG O' PAMPA.

The auditorium was decorated with baskets of gladioli in pastel shades and greenery, with candles holding lighted tapers. Candles were lighted by the bride's sister, Miss Margie Hilburn, and Miss Dorothy Mackie, sister of the bridegroom. They wore printed gaily dresses and corsages of white carnations.

At the organ, Mrs. E. Douglas Carver played traditional wedding music and also accompanied Miss Helen Blocker as she sang "Be-

cause" and "Always." The bride, given in marriage by her father, wore a dress of white eyelet over navy blue. It was trimmed at the waistline with tiny white pearl buttons, and she wore pearl earrings and necklace. She carried a white Bible from which a shower of white satin streamers tied in love knots cascaded. Topping the Bible was a cluster of red roses. She also carried out the tradition of "something old, new, borrowed and blue."

Miss Wanda Hilburn, the bride's sister and maid of honor, wore a dusty rose suit and a white carnation corsage. Her accessories were white.

Charles Owen served as best man and Bill Keuhl and Jimmie Martin were ushers.

Mrs. Hilburn, mother of the bride, wore a navy dress with navy and white accessories. Her corsage was of white carnations. Mrs. Mackie, mother of the bridegroom, also wore navy with matching accessories and a white carnation corsage.

Miss Euanell Johnson presided at the guest register in the church.

The bride was graduated from Pampa High School last spring and was co-editor of the school annual. The bridegroom was graduated from Pampa High School in 1949 and is now employed at Thompson Parts and Supply.

Cole-Nation

(Continued from page 13)
be her sister's matron of honor. She will wear a black chiffon dress with matching accessories and will wear a corsage of pink carnations.

G. C. Nation, Amarillo, will serve as best man.

After the ceremony a luncheon will be served to the following guests in addition to the wedding party: Mrs. G. G. Nation, Mr. and Mrs. J. W. Robinson, Hereford; Mr. and Mrs. Carl Gray, Sunray; Miss Mildred Nation and Miss Nellie Snider, both of Amarillo, and Mrs. Olive Nation.

S. J. Jones, F. E. Rodgers, C. E. Hoyer, H. G. Hoyer, Sr., H. G. Hoyer, Jr., R. V. Rodgers and Mrs. H. K. Dye.

The couple will go to Colorado on a short wedding trip.

Thoughtful guest protects her hostess' dressing table with duplicate of the small terry towel she is using for make-up cape.

D'Alessandro-Cook Ceremony Read in Amarillo

In a ceremony read in the home of Mr. and Mrs. N. H. Mock, Amarillo, on August 3, their daughter, Flossie D'Alessandro, became the bride of James K. Cook.

ther, the bride wore an aqua dress fashioned with a bolero jacket, and pink and white accessories. The doubling ceremony was performed by the Rev. Pennington, pastor of the Church of God of Amarillo, before an archway decorated with a wedding bell and baskets of pink and white gladioli. Miss Carolyn Mock, sister of the bride, was maid of honor, and Marvin Wallace was best man. Miss Mock wore a pink crepe frock, blue accessories and a pink carnation corsage.

BIRTHDAY HONOREE

Celebrating her 80th birthday, Mrs. C. L. McKay looks as pleased with her gifts as she probably did 70 years ago at her birthday party. She was honored in the A. C. Steeley home, 418 Crest. Present were son, Jack McKay and his wife; daughter, Mrs. Jack Morris, Mr. Morris and Wanda Lou; granddaughter, Mrs. S. H. Scott, and her husband, Oklahoma City; granddaughter-in-law, Mrs. W. L. Morris, and great-grandson, Russell; daughter, Mrs. E. L. Holmes; granddaughter-in-law, Mrs. Leon Holmes, Mr. and Mrs. Steeley and the honoree.

MOOT-DICKENS

(Continued from Page 13) yellow daisies and wore yellow daisies in their hair.

John R. Strange, Hobart, Okla., was best man; and James D. Click, Pampa, groomsman. Ushers were Tom Horn and Wendell Jordan, White Deer.

The bride, who was given in marriage by her father, wore a pastel pink ballerina-length dress designed with victorian collar, deep yoke, and sleeves of lace, with a lace tunic over taffeta. With it she wore matching lace minky and pastel pink ballerina slippers. Her shoulder-length veil was of nylon net, and she carried a bouquet of gardenias encircled with white gladioli and showered with lilies of the valley and tuberoses caught in white ribbon streamers.

The bridegroom's mother wore a white suit with purple velvet accessories and orchid gladioli corsage. Mrs. Moot, mother of the bride, wore a two-piece navy blue dress with matching velvet hat, tan accessories, and white gladioli corsage.

After the ceremony, the bridal party was honored with a reception in the church parlors. Serving at the bride's table, which was decorated with an arrangement of yellow gladioli and purple asters, were Miss Roberta Corder and Mrs. C. E. Hawkins.

For the wedding trip to New Mexico and Colorado, the bride traveled in a beige sharkskin suit with white accessories and a gardenia corsage.

Both the bride and bridegroom graduated in 1948 from White Deer High School, where they were among the four highest ranking members of their class, elected in their junior year as "most representative students" of that class, and in their senior year as "most helpful students" in the high school. Among her many activities, Mrs. Dickens served as cheer leader, drum major, advertising layout manager for the community paper then being published by the school, art editor, and editor-in-chief of the school yearbook. Mr. Dickens was not only a letterman in football, basketball, and track, being named co-captain of the football team and all-district tackle in 1948, but was a member of the National Thespians and was chosen best actor in the state one-act play contest in 1947.

Since graduating from high school, Mrs. Dickens has attended Tulsa University and Oklahoma College for Women, majoring in art. At OCW she was a member

Coronis-Wilson Vows Exchanged in Clovis

A ceremony read by the Rev. H. H. Allen, Methodist minister in Clovis, N.M., in his home there, united in marriage Miss Mary Louise Coronis and Clark Ray Wilson. The bride is the daughter of Mr. and Mrs. Bill Coronis and the bridegroom is the son of Mr. and Mrs. W. M. Wilson of Lefors.

The bride was dressed in yellow organdy and her white hat was trimmed in yellow. Her flowers were white carnations.

Mrs. Kenneth Lindsay, matron of honor, wore a dress of white organdy and a pink carnation corsage. Mr. Lindsay served as best man.

Mrs. Wilson attended Pampa High School. Mr. Wilson, a graduate of Lefors High School, is working with his father-in-law in the Coney Island Cafe.

The couple will live at 117 E. Thut. The couple will live at 117 E. Thut.

A pre-bridal shower was given for Mrs. Clark Wilson on July 20, in the home of Mrs. Kenneth Lindsay. Hostesses were Mrs. Lindsay, Mrs. John Gikes and Miss Betty Crockett.

Pink and white-decorated cake was served with pink punch, and favors were small bags of rice tied with pink and white ribbon. The pink napkins were lettered in silver "Mary and Clark." The honoree wore a corsage of pink carnations.

The guest list included Mrs. W. E. Franklin, Pat Franklin, Mrs. G. Davis, Mrs. N. A. Holmes, Mrs. B. F. Morris, Betty Crockett, Barbara Southern, Lynn Cornelius, Elsie Boyd, Jo Ann Hash, Deanne Crawford, Maryetta Ford, Donna Robertson, Knoxine Russess and Janice Mayes.

Jan Dickey, Nancy Summer, Doris Condo, Mrs. Ford, Mrs. of the yearbook staff and the Art Club. Mr. Dickens attended Oklahoma University, where he majored in pharmacy and was a member of Phi Delta Chi, pharmacy fraternity. This fall both will transfer and will continue their studies at Southwestern State College at Weatherford, Okla.

Grace Friend

EXCHANGE OF MATES ILLEGAL Dear Grace Friend: Is there any law for men and women to change husbands and wives and live together not divorced and not married?

I know of two couples living that way. Each couple has four children. One couple is keeping all of the children. Will you please tell me your opinion of this matter and if they are allowed to do this way.

Dear Mrs. M. Under the circumstances you have presented in your letter the couples are living in a state of adultery. If the children are of sufficient age to understand the acts of the parents, criminal action might be brought against the parents for contributing to the delinquency of minors.

LETTER TO THE PRESIDENT Dear Mrs. Friend: Can you tell me the correct way to address the president of the United States in a letter?

Thank you, C.H.

Dear C. H. Address your letter To His Excellency, The President of the United States or To The President of the United States

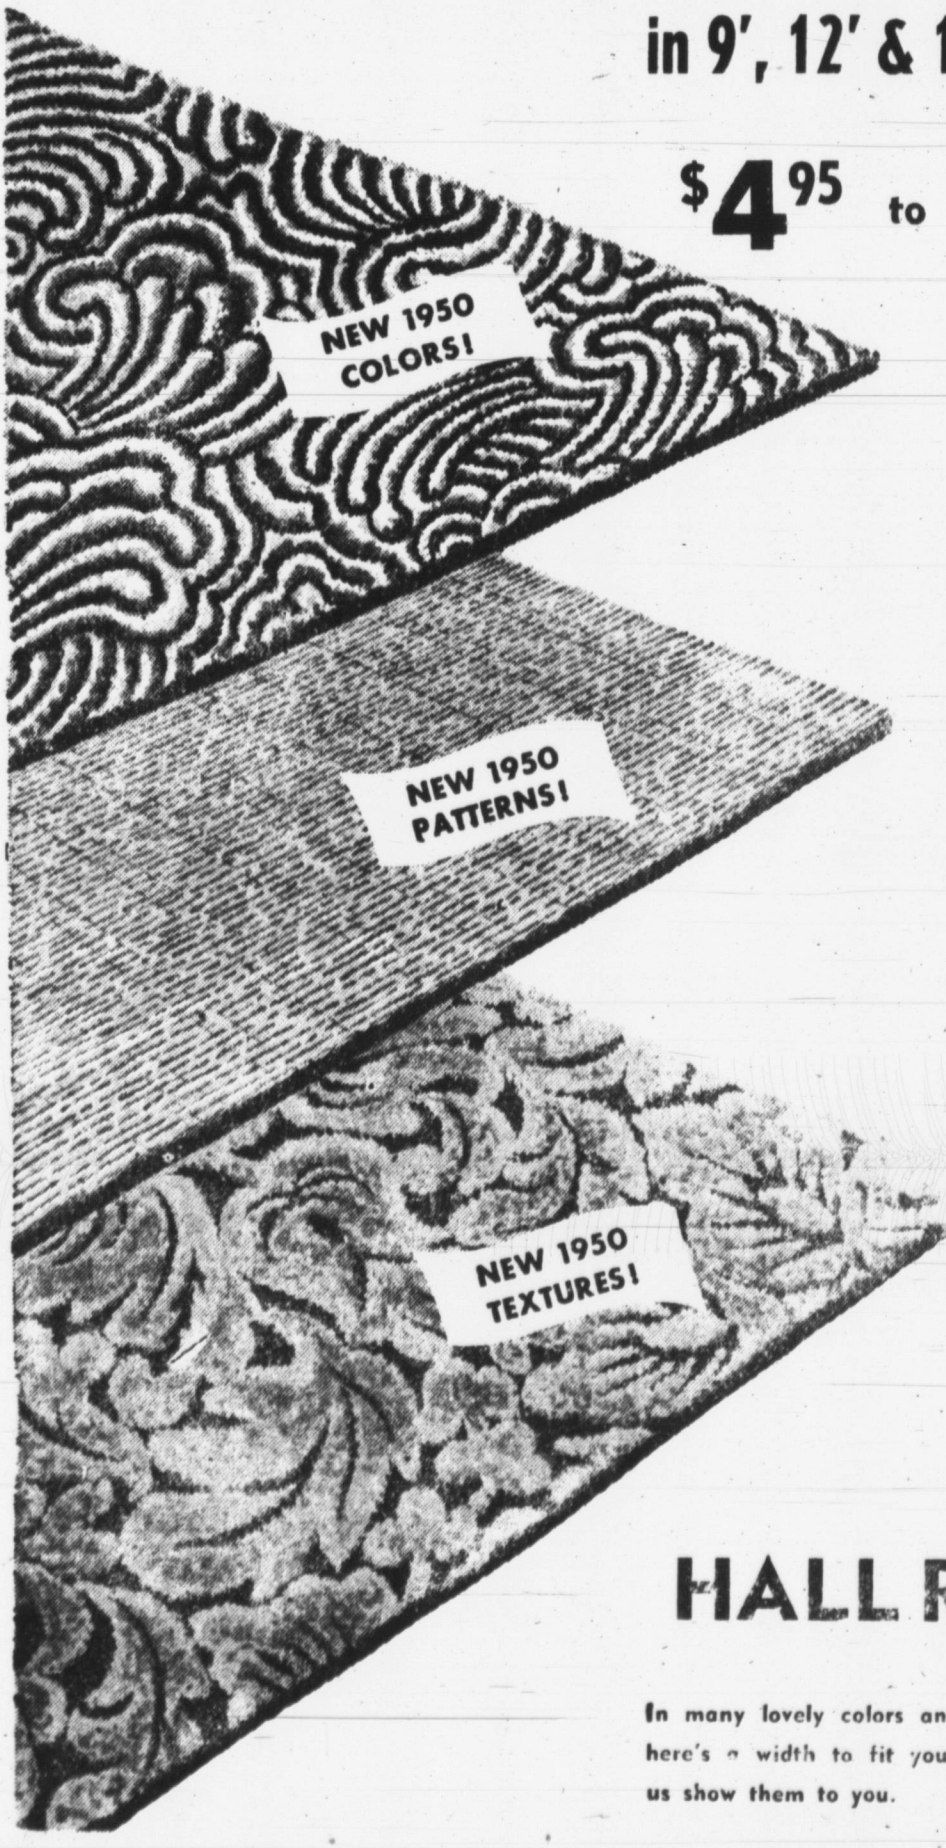

Sir: In speaking you say "Mr. President" or "Your Excellency"

McLaughlin, Irene and Zoy Corons, Mrs. John Gikas and Mrs. Joyce Gist.

Miss Jane Eleanor Richart Is Bride Of Walter Lee Brown; Wed in Roswell

Miss Jane Eleanor Richart, daughter of Mr. and Mrs. Louis Phillip Richart of Roswell, N.M., and Walter Lee Brown, son of Mrs. Alice Brown of Gatesville, were married Friday, Aug. 11, in a double-ring ceremony read in the First Presbyterian Church in Roswell.

Dr. F. Homer Teuler, pastor, read the ceremony as the couple stood in a setting of white gladiolus blossoms against a background of greenery. White baskets tied with white satin ribbon held bouquets of white gladioli, and were placed at the altar against a background of palms and fern. Twin floor seven-branched candelabra held lighted white tapers.

Miss Delena Pfeil Becomes Bride of Sidney Gilbreath

An informal ceremony was held at 8 o'clock Saturday evening, August 12, united in marriage Miss Delena Pfeil, daughter of Mr. and Mrs. D. T. Pfeil of Lefors, and Sidney Gilbreath, son of Mr. and Mrs. J. C. Gilbreath of Alanreed.

The single-ring service was read by the Rev. M. A. Hutchinson of the Bible Baptist Church of Pampa, in the home of the bride's sister and brother-in-law, Mr. and Mrs. G. W. James, at 612 N. Wells.

Miss Belva June McCathern, a cousin of the bride, registered the guests.

Wedding vows were said before an improvised altar flanked by tall baskets of pink and white gladioli and seven branched candelabra holding burning tapers.

Candles were lighted by Miss Barbara Pfeil, sister of the bride, and Miss Norma Lee Gilbreath, sister of the bridegroom, dressed in identical dresses of blue chambray. Mrs. D. T. Pfeil, Jr., accordionist, played "A Perfect Day," and accompanied Mrs. Jackie Davis as she sang "I Love You Truly" (Bond). Mrs. James also played the traditional wedding marches.

Given in marriage by her father, the bride was dressed in a white gabardine suit with navy blue accessories. She carried a white Bible and white gloves. In her hand, also, was a white handkerchief, scalloped in navy blue, borrowed from a friend, Mrs. Myrtle Hilton of Lefors. She wore a shoulder corsage of blue carnations, with a matching head piece holding her veil of nylon net.

Attending the bride as maid of honor was her cousin, Miss

La Fern McCathern, Lefors. She was dressed in a navy gabardine suit with matching accessories. Her corsage was of white carnations.

The bridegroom was attended by Jimmie Joe Bruce of Alanreed as best man.

The bride's mother wore a blue crepe dress with black accessories, and the bridegroom's mother had on a cord suit and black accessories. Both wore gardenia corsages.

At the reception following the ceremony, Miss Maxie McCathern, Hereford, cousin of the bride, and Miss Imogene McAninch, a classmate, presided at the serving table. The table was covered with a crocheted cloth, made by the bride's mother, and was centered with a three-tier wedding

cake flanked by blue and white candles in white holders.

Misses Willow Dean McAninch, Carlene Carruth, Clayda and Wanda Joyce Rickman, classmates of the bride, served the punch and cake.

About 50 guests attended the reception. Out-of-town wedding guests were Mat Heck, Jou Don McCathern, Hereford; Jerry Lowry and LaVoy Hatchet, Oklahoma City; Mr. and Mrs. O. V. Gomer, Jr., Sunray; Mr. and Mrs. Bill Stubs, Bob and Kay, Mrs. Fiedelle Stubs, Juniof Cox, Mrs. Jimmie Joe Bruce and Jerry Carter, all of Alanreed.

The couple will live in Lefors.

In early New England days, handwrought nails were used for money.

Sleight-of-Hand Program Presented At Kiwanis Meet

Jack Ash, amateur magician, was the guest performer at Kiwanis Club Friday. Ash presented several sleight-of-hand tricks, and closed with the Statue of Liberty rick, which was used so many times by magicians during the war.

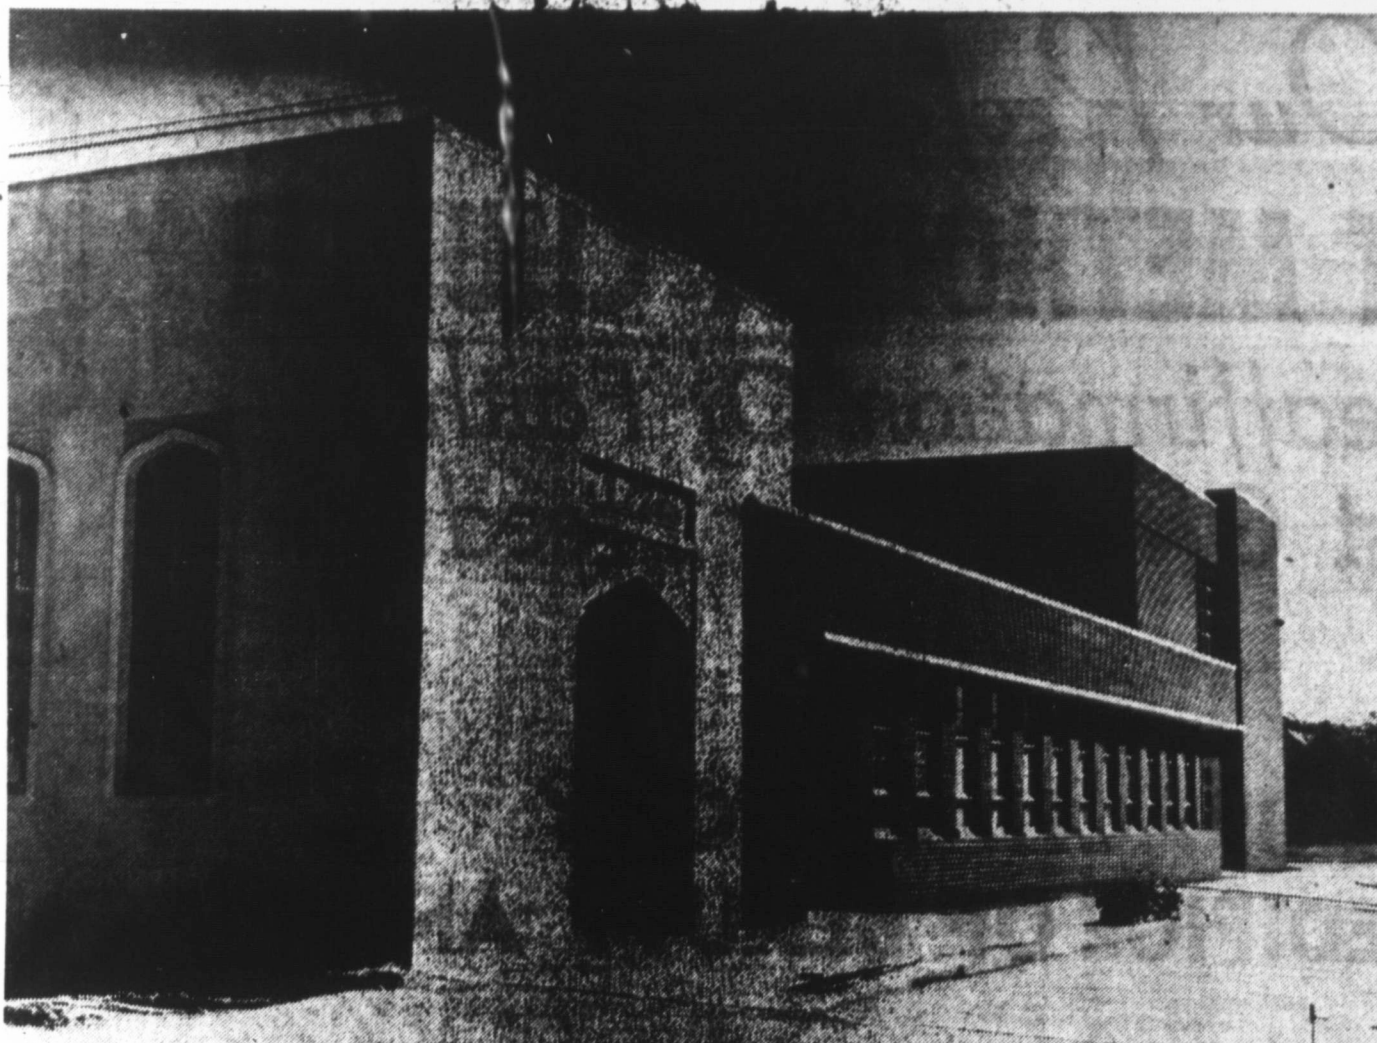

Ash was presented by A. C. Troop, chairman of the Kiwanis education committee.

Special guests for the day were the wives of men whose anniversaries are in the month of August. A directors meeting was held after the luncheon at which time Carlton Nance and Howard Buckingham were elected to represent the Pampa club at the Texas-Midland convention to be held in Galveston, Oct. 13.

Leslie Hart presided at the meeting in the absence of Herman Whatley, president.

Gandhi Followers To Unveil Shrine

LOS ANGELES — (AP) — The Self-Realization Fellowship announced Saturday that a Gandhi peace shrine, which will contain part of the ashes of Mahatma Gandhi, will be unveiled by California's Lt. Gov. Goodwin Knight in ceremonies Sunday. The dedication of the shrine will mark the 30th anniversary of the Self-Realization Fellowship in America, founded by Paramahansa Yogananda.

HAZARDOUS JOB

Picking Brazil nut pods from the ground is one of the world's most hazardous occupations. Workers often are killed or injured by the four-point nut pods as they plummet to the ground.

Found in Alaskan waters, the giant king crab weighs up to 16 pounds and has a span of from 50 to 54 inches. Meat of this crustacean resembles lobster.

First Methodist Church to Formally Open New \$250,000 Education Building Sunday

With former pastors as speakers and the public as guest, the First Methodist Church membership will officially open the church's new education building, located next to the church on E. Foster, this morning. The \$250,000 red brick and tile building will accommodate about 1,000 people for Sunday school, according to Dr. Orion W. Carter, pastor of the church. The chapel seats 116 adults. Classroom space is provided for a children's division through high school and three adult classes. Other classes will be held in the old building. The project of erecting the education building began in 1949, during the ministry of the Rev. H. C. Smith. The money was raised largely by the Wells Organization, a professional fund-

raising organization for the Methodist Church. Dr. Carter has stated that the institution is built on the new plan of a modern Sunday school with co-educational classes, with a key teacher in each class and several assistants in the children's division. Each room of the building has outside ventilation. The main building is built around a concrete court, which will be used by small recreation groups. Program for the formal opening will begin at 9 a. m. Sunday. Open house will be held all day. The Rev. Smith, now of Abilene, will deliver the morning sermon at 10:35. At 2:30 p. m., the Rev. W. C. House, also a former pastor here, will speak at the formal opening of the chapel and Dr. Ray N. Johnson, San Angelo, will speak at the evening service at 7:45.

For the three following nights, Dr. Maldwyn Edwards, Birmingham, England, will conduct a Bible conference at the chapel at 7:30 and on Tuesday and Wednesday at 10 a. m.

Industry Fears Shortage of Basic Steel-Making Materials

By SAM DAWSON
NEW YORK — (AP) — Steelmakers, harassed now by record civilian demands and on notice of greater military orders to come, have a three-ply worry ahead in the coming winter. That's the chance that the supplies of manganese, chrome and iron ore may grow tighter. Steelmen are debating three points: 1. How adequate are their foreign sources of manganese, an essential ingredient in making steel? Should we, now that Russia can no longer be counted on as our main source, develop domestic low-grade and expensive ores? 2. Will imports of chrome, also

largely a foreign commodity, be high enough to supply makers of stainless steel, tool and engineering steels? 3. Will ice stay out of the Great Lakes long enough for the iron boats to bring sufficient ore down from Lake Superior for the winter? Because of a late spring and slow start — plus heavier than usual consumption — the ore stocks for the winter are lower this year than usual. Tungsten could also become a problem, since much of the U. S. supply comes from abroad (China used to be the main source.) Tungsten alloyed with steel makes high speed cutting tools used in many mass production industries. But manganese may be the first headache. Russia in 1948 sent us 285,000 tons of manganese, which hardens and toughens steel. The cold war cut that down to 73,000 tons in 1949. And this year it has dropped to a trickle, cargoes coming over only in February and June. But our consumption of manganese has gone steadily up, (1,379,000 tons in 1949) as steel output boomed. India has become our greatest supplier, with the Union of South Africa and the African Gold Coast close on her heels. But all three are a long way off, should snorkel submarines infest the trade routes. Brazil has large deposits but needs modern mining machinery and transportation systems. Cuba, Mexico, the Philippines and Chile are also possibilities for some tonnage. Manganese is being produced in Montana. Deposits of low-grade manganese ore in Arizona, Maine, Minnesota, and Nevada could be developed. The American Manganese Producers Association has been trying to get Congress to underwrite production of these domestic low grade ores to forestall a shortage that in war time could be disastrous.

Tree-beaters Hired By Movie Company
PHOENIXVILLE, Pa. — (AP) — Three soldiers, off duty, tramp through the woods near Valley Forge General Hospital armed with long poles. They're tree beaters, movie version. The G.I.'s, employed at the Army hospital, were hired by Universal-International as extras during filming of the movie company's "Lights Out."

Sound men had discovered that dialogue was spoiled by the buzzing of locusts on the trees. So the soldiers scatter the insects with the poles. And the show goes on.

Curiosity Hampers Youths' Movements
DETROIT — (AP) — Obviously, when you find a pair of handcuffs the thing to do is to try them out. So Gordon Hardy, 17, and Jack Kadrowski, 14, wound up at a police precinct station to get unshackled from each other. It wasn't learned who lost the handcuffs.

A full-grown Indian mouse deer weighs only about five pounds.

Pampans Address Water Works Body

Two Pampans were principal speakers at a dinner meeting of the Canadian Water Works Association in Spearman last week. Ten cities were represented.

Wayland Merriman, consulting engineer in Pampa, and E. S. Lowery were the speakers. Their subject was the Imhoff Sewer Tank. They prescribed methods of cleaning the tank and how it should be done.

W. T. Ball, Childress, spoke on the subject. Business for the meeting included the election of a program committee and a good will committee. The latter includes J. C. Reagan, water superintendent of Canadian, Elvie Immel, city water commissioner of Higgins and R. M. Mundine, Jr., Pampa, secretary-treasurer of the association. This committee will make tours of the cities of the area, visiting mayors and city officials, urging them to attend the association meetings.

Following the dinner hosted by T. M. Dickey, water and sewerage secretary at Shamrock, a round table discussion of the evening's subject was held. The next meeting will be held Sept. 21 at Spearman with Leo Dacus, president of the association, as host. This meeting will be a "family night."

Shoe-Saving Project Helps San Antonians

SAN ANTONIO — (AP) — Ingenuity is not only the mother of invention, but it's proving economically feasible as far as a group of west side residents here and their shoes are concerned. During recent rains the resi-

dents got tired of wading through muddy streets to bus stops in their good shoes. So now they wear their oldest brogans, carry their shiny new shoes and change at the bus stop — depositing the older ones on a bench. Homeward bound in the evening, the process is reversed. seed pearls, long calla pointed sleeves, and a bouffant skirt worn over a hoop which swept into court train. Her finger-tip veil of ivory imported bridal illusion fell in circular tiers from a bandeau of the illusion and satin. She carried her white Rainbow Bible, topped with Vanda orchids, marked and showered with narrow ivory satin ribbon, caught with stephanotis blossoms. The wedding gown was worn by the bride's cousin, Mrs. Edward Gilenke, the former Miss June Gilbert of Milwaukee, at her wedding.

Miss Betty Dunlap of Hereford was maid of honor. The bridesmaids were Miss Eleanor Tegler and Miss Virginia Henry of Roswell. All the bridesmaids wore alike in gowns of frost blue slipper satin made with fitted bodices, and low necks, finished with crushed folds of the same material as their dresses. The long floor-length skirts were caught at the back with butterfly bustles. They wore hat-like caps, tied in the back with ribbon and adorned in the front with imported blue silk forget-me-nots. They were long suits to match their gowns and carried colonial bouquets of carnations. The maid of honor's bouquet was of rose colored carnations in a lace frill, and the two bridesmaids' were of ice pink blossoms, frilled and tied with matching ribbon. Little Miss Rowena Barnett was flower girl. Her robe was of ice blue taffeta made floor-length with very full skirt over crinoline. The deep shoulder yoke of the dress was caught at intervals with pink forget-me-nots. She wore a lace bandeau in her hair and carried a basket of rose petals which she threw on the pathway of the bride.

Michael Brown, Gatesville, was best man for his brother. Ushers were Delmar Pope and Stanley Santhoson of Roswell. The mother of the bride wore a floor-length gown of black tulle designed with draped skirt, caught at the side with three large gold buttons. She wore a small hat of petal pink flowers and long black gloves with a corsage of pink gladioli. The mother of the groom was unable to attend.

Immediately after the ceremony a reception was held in the parlors of the church. Guests were greeted by the bride's mother, the bride and bridegroom, and the bride's attendants. The parlors were filled with garden flowers. At the south end of the room a large table was covered with a handmade lace cloth over white satin, and held the twin wedding cakes which were made in the shape of wedding bells and decorated with pale pink tinted spun sugar roses, and blue love birds. The cakes were linked together with fresh flowers and ribbons. Individual cakes were topped with rosebuds, and candies were in shapes of bells, rosebuds and swags. A round table covered in white held the large hobbled glass punch bowl. After the first piece of cake was cut in traditional manner by the bridal couple

Home Ceremony Unites in Marriage Marjory Goodman and C. W. Grayum

The home of Mr. and Mrs. Jay H. Nichols, 609 W. Wilkes.

The home of Mr. and Mrs. Jay H. Nichols, 609 W. Wilkes, was the scene of an informal ceremony uniting in marriage Miss Marjory Elaine Goodman and Charles W. Grayum Thursday evening, Dr. Orion W. Carter, pastor of the First Methodist Church of Pampa, officiated.

The bride is the daughter of Mrs. C. O. Goodman of McLean, and the bridegroom is the son of Mr. and Mrs. Gordon Johnson of Pampa. The bride wore a dinner-length gown of sky blue taffeta, fashioned with fitted bodice and Martha Washington collar, and trimmed with self covered buttons. She had matching accessories and carried a white Bible. Her hat was of white moire taffeta and she carried white gloves and wore a corsage of white carnations.

Miss Betty Norwell of McLean, maid of honor, also wore blue taffeta with white accessories and a white carnation corsage. Mrs. Jay Nichols, at the piano, played "Humoresque" and the traditional wedding marches. Mrs. Nichols also sang "I Love You Truly," playing her own accompaniment.

The bridal party met before the living room fireplace, which was decorated with baby breath and blue tapers, for the single-ring service. After the ceremony, refreshments were served to the bridal party and assembled wedding guests, in the Nichols dining room. The lace-covered table was appointed in blue and white. Tall blue candles flanked the white wedding cake, and punch was served from a crystal bowl.

Wedding guests were Mrs. C.O. Goodwin, mother of the bride; Mr. and Mrs. Gordon S. Johnson, Mr. and Mrs. Kenneth Goodman and son, Dennis Lee, Mr. and Mrs. Foy Barrett, Wayne Andrews, Quannah; Mrs. Minnie Barnes, Miss Barbara Barnes; J. R. Taylor of Lefors, Paulette Cook, J. B. Hobbs, Mrs. Franklin Wall, Betty Norvell, Harold Callis, and Jack Taylor of Lefors, and

Miss Silcott, Mr. Edwards Are Married

A wedding service read by candlelight in the Central Baptist Church at 7:30 Friday evening, August 11, united Miss Frances Silcott and Emmitt Earl Edwards, Jr. The Rev. E. Douglas Carver, pastor of the First Baptist Church of Pampa, was the officiating minister.

The bride is the daughter of Mr. and Mrs. Frank Silcott, 1100 S. Sumner, and the bridegroom is the son of Mr. and Mrs. Emmitt Edwards, south of Pampa. Miss Freda Worley, pianist, and Mrs. Jimmy Silcott, vocalist, presented the wedding music, which included "Because," (D'Hardelot) "I Love You Truly" (Bond), "Indian Love Call" (Friml). Bridal Chorus from Lohengrin (Wagner).

Mr. and Mrs. Jay H. Nichols and Lonnie. The bride is a graduate of McLean High School, and the bridegroom attended schools in Oklahoma City, and also attended Bradley Tech., Peoria, Ill. He is now employed by Standard Oil Services in Quannah, where the couple will live.

Miss Spoonmore wore a dress of blue eyelet over taffeta, and pink carnations in her hair; and Miss Standish was dressed in yellow eyelet over taffeta with

Railroad to Buy New Equipment

PORTLAND, Ore. — (AP) — Southern Pacific has announced plans for purchase of 5000 new freight cars and 48 diesel locomotives, and also declared a \$1.25 a share quarterly dividend.

President A. T. Mercier made the announcements at the close of a meeting of the road's board of directors here. The dividend will be paid September 18 to stockholders of record August 28.

Argentine Liberator Honored by Mexico

MEXICO CITY — (AP) — The 100th anniversary of the death of Argentine Liberator Gen. San Martin was celebrated here yesterday.

Mexican government officials laid a cornerstone for a monument to Martin and planted a cutting of the historic San Lorenzo pine where he won his first battle against Spain.

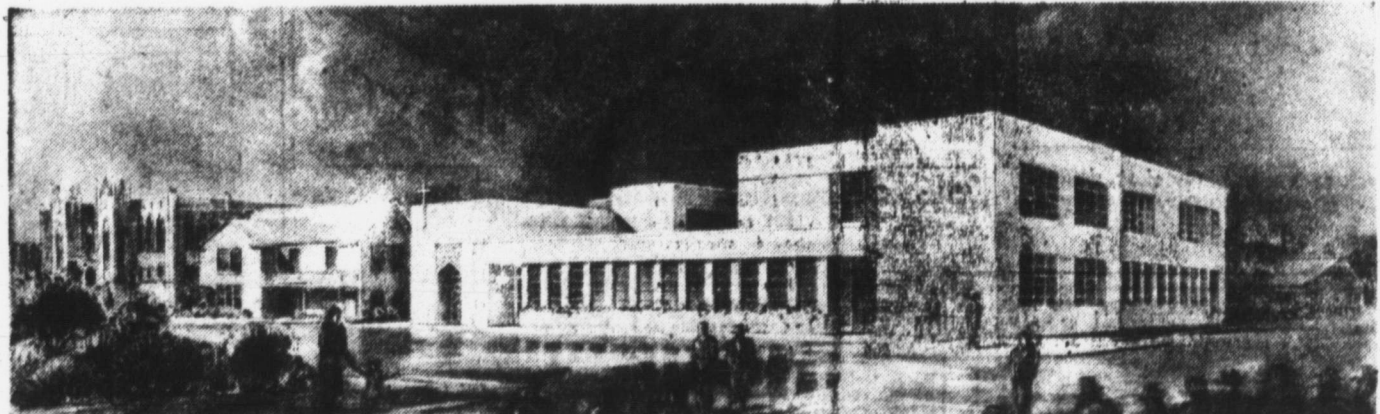

West Germany, Brazil Sign Trade Treaty

SAD NEUENAU, Germany — (AP) — West Germany and Brazil have signed a trade agreement here calling for an exchange of goods worth \$230,000,000. Brazil will send coffee, cotton and hides to Germany in exchange for iron and steel products and chemicals.

Of The

**FIRST METHODIST CHURCH
NEW EDUCATION BUILDING
TODAY BEGINNING 9 A. M.**

DR.
ORION W.
CARTER
MINISTER

THE PROGRAM

OFFICIAL OPENING
Official opening of the new First Methodist Education Building will be held today with former pastors of the church as special speakers. Dr. Orion W. Carter has extended an invitation to members of all other churches to attend the services before their own services begin and to return for the afternoon activities.

NOON
Following the regular 10:55 service an old-fashioned "dinner on the grounds" will be held.

9:00 A. M.
Ceremonies will begin at 9 a. m. and continue through the day. Dr. Carter will open the day's services in the sanctuary of the main building. His introduction will be followed by a short speech by the Rev. W. E. Hamilton, district superintendent of Clarendon. Invocation will be given by the Rev. Uel D. Crosby, Lubbock, conference executive secretary.

2:30 P. M.
Continuing the open house at 2:30, the Dr. W. C. House of Hamlin, former pastor of the local church, will speak at the formal opening of the chapel in the new building.

10:00 A. M.
The congregation will then move to the new building, as the architect delivers the keys to the building committee of the church, who will unlock the front door in a ceremony. The groups will then proceed through the new building and the various classes will take their places in their own classrooms.

7:30 P. M.
Regular broadcast at 7:45 will feature Dr. Ray N. Johnson of San Angelo as speaker.

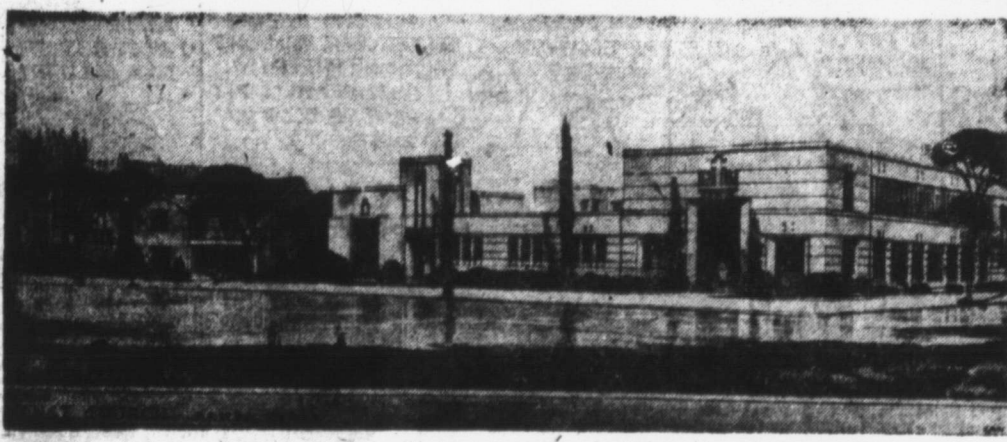

10:55 A. M.
At the regular 10:55 worship service, the speaker will be the Rev. H. C. Smith of Abilene, who preceded Dr. Carter at the church.

NIGHT SERVICES
For three days, following the official opening, night services will be held at 7:30 with Dr. Maldwyn Edwards of Birmingham, England, conducting a Bible conference in the new chapel. These conferences will be held also at 10 a. m. on Tuesday and Wednesday.

SPECIAL MUSIC
Special music for the Sunday services will include the adult choir at 9 and 10:55 a. m.; Harley B. Bulls, tenor soloist, and quartet of music for the church, at the afternoon chapel service; and for the night service, a massed choir of the six groups of the church will sing.

Congratulations

To The Methodist Church

ONCE AND FOR ALL I'M GOING TO TELL THIS BUNCH OF BRAINS I WANT THE CASE DROPPED.

BEFORE YOU MAKE A RASH DECISION, GREEN, LISTEN TO THIS CASE. NEHER VERSUS HOLMAN. NEHER HAD LET A STRAY DOG HANG AROUND HIS PLACE.

WHEN THE DOG DESTROYED A DELPHINIUM PLANT IN HOLMAN'S YARD NEHER REPLACED IT. LATER ON THE DOG BIT HOLMAN AND HE PROMPTLY SUED NEHER.

THE COURT DECIDED IN HOLMAN'S FAVOR, HOLDING THAT NEHER HAD ASSUMED RESPONSIBILITY FOR THE DOG'S ACTIONS WHEN HE REPLACED HOLMAN'S DELPHINIUM PLANT. SO SNAPPY DECISIONS ARE RISKY.

Panhandle Drilling Activity Maintains Fast Pace As Area Operators Stake 16, Complete 24

Steel Supply Is Stated for IPAA Sessions

TULSA, Okla. — A full discussion of the pressing problems of equitable distribution of steel to the independent oil industry will have an important place on the annual membership meeting program of the Independent Petroleum Association of America in St. Louis on Oct. 2 and 3. J. Ed Warren, IPAA president, announced today.

"Our oil and gas field materials committee headed by Bryan W. Payne of Tyler will meet in Ft. Worth Sept. 11 to prepare its advance report for the St. Louis membership meeting in October," Warren said. "Full discussion in St. Louis is expected to develop the committee's preliminary work of showing that inequitable distribution of vital pipe and other steel products would seriously hamper oil production by the nation's independent producers."

FPC Asked Okay On Plant Purchase

A second attempt is being made to transfer for \$225,000, properties of Independent Natural Gas Co. owned by Hugh Burdette and E. L. Green, Jr., of Pampa to the Northern Natural Gas Co. The federal power commission was asked Friday that permission be granted for transferring the Grayco compressor station, four miles west of Lefors, and 21 miles of pipeline to Northern. A previous request by Independent heard by the commission March 27 was refused.

American Crude Production Up

TULSA — (AP) — America's crude oil production spurted up again during the week ended Aug. 12, averaging 5,598,550 barrels daily, an increase of 30,150 barrels over the previous week, the Oil and Gas Journal reported. Texas, the country's largest

Oil and Gas Victory Over Coal Brings Mining Town's Death

DAWSON, N. M. — This 46-year-old town in the Sangre de Cristo mountains of northeast New Mexico is being torn up by the roots and scattered throughout the U. S. A. — a victim of coal's defeat by oil and natural gas. It's 803 homes are being picked up by house movers and rolled to Raton, 32 miles away at the foot of the historic Raton Pass on the old Santa Fe trail, and to other neighboring towns. Other houses have been knocked down in sections and shipped as far away as Amarillo, in the Panhandle.

Tideland Revenue Held Back Until Settlement Is Made

AUSTIN — (AP) — State revenue from tidelands is at a virtual standstill until Texas and the federal government settle their fight for ownership. The school and board has not called an auction on tideland tracts since November, 1947, following the United States Supreme Court decision that the federal government had paramount rights over California's tidelands. Texas officials forbade that their submerged lands would be involved in a similar suit. "With that cloud over our title, we felt we would not get the best demand from the oil companies," explained California's Commissioner Bascom Giles, chairman of the school land board. "But there is a lot of interest in developing tidelands," he hastened to add. "How valuable the tidelands actually are remains to be seen. They often are called as the

PAMPA NEWS, SUNDAY, AUGUST 20, 1950 PAGE 21

Sinclair Sets New Texas Record With 13,290 Feet

ODESSA — (AP) — An unofficial production depth record for Texas oil wells has been set by Sinclair Oil and Gas Co. No. 1-E June Sanders at 13,290 feet. The well flowed 909 barrels of 50.5 gravity oil through perforations between 13,245 and 13,290 feet in the Ellenburger, about 18 miles southeast of here. The old record, 13,250 feet, was set March 4 by General American Oil Co. of Texas No. 1-F Josie Faye Peck, a quarter of a mile south of the Sinclair well. Sinclair No. 1 Sanders was staked out Feb. 10, in southwestern Midland County. The General American record broke a mark of 13,230 feet set Feb. 1, 1949, by The Texas Company No. 1 Scharbauer, about 15 miles east of here.

Louisiana Reports Seasonal Oil Slump

BATON ROUGE — (AP) — The State department of conservation has reported what it called a seasonal slump in Louisiana oil activities in July. Drilling permits totaled 204, compared with 210 in June, while well completions totaled 170, compared with 228 the previous month. Ninety wells were completed as oil producers and 29 produced gas. As the month ended, drilling was on in about 310 locations. Final production figures for July showed 584,727 barrels of oil per day and 2,906,427,600 cubic feet of gas per day.

Texas Completions Hold to Fast Pace

AUSTIN — (AP) — Oil well completions held a fast pace in Texas last week. Completions for the year totaled 6,675 compared with 5,557 in the same period last year. For the week, 201 wells were brought in, the Railroad Commission reported today. There were 89 dry holes reported. Seven wildcats also reported an increase of 14,939 barrels in the average calendar day allowable.

World Production Of Crude Declines

WASHINGTON — (AP) — World production of crude petroleum averaged 9,464,000 barrels a day in January, the Bureau of Mines reports. This was 106,000 less than in December. The daily average production in the North America declined 9,000 barrels. A production decrease of 102,000 barrels daily in the United States outweighed gains in Canada and Mexico. In South America, Venezuela increased production 25,000 barrels daily, to a record 1,465,000 barrels daily. Middle East production decreased 21,000 barrels daily.

Nation's Oil Tanker Supply at All-Time High Records Show

WASHINGTON — (AP) — The United States today has many more — and larger — oil tankers than at the outset of World War II, interior department records show. And the total number in service in all of the western hemisphere is up sharply. Latest figures show the hemisphere, with the United States leading the way, has about 60 percent more tankers, including converted whalers and molasses vessels, than in the fall of 1939. But that percentage doesn't tell the story, officials of the department's oil and gas division say. They point out that the latest tankers are both faster and larger than any in service ten years ago. The newer ships have a capacity of about 116,000 barrels. On Sept. 1, 1949, latest figures show, there were 870 tankers in the western hemisphere — 359 of these, 878 were under the U.S. flag — 195 more than in 1939. And there have been additional launchings in the last 12 months. "There doesn't appear to be any immediate tanker problem for supplying fuel oil and motor fuel in this country and for military requirements under present conditions," one official told a reporter. Here's how the home front control bill, as passed by the House (the Senate is at work on similar legislation), might affect the oil industry if President Truman should exercise the powers given him therein: 1. Priorities and allocations of steel. (The industry already is working on plans for adequate steel allotments in event of controls.) 2. Rationing of oil and gas.

Twenty Three Wells Bring in 780 Barrels; 26,160 MCF Gas

Drilling activity during the past week fell slightly below totals set the previous period, but still remained above the average for the first six months of the year. Operators staked 16 new locations and completed 24. Of those completed 15 were oilers, eight gasers and one a dry hole. New oil potentials totaled 780 barrels while gas totaled 26,160 MCF.

This compares to 18 new locations and 16 completions for the week ended Aug. 12 for 1,185 barrels of oil. No gas wells were finished in that week. Current production is now 26,534 barrels of oil and 1,208,840 MCF gas.

Rig Activity Is Driven Up Over Country

DALLAS — Rotary rig activity in United States and Canadian oilfields shot upwards to the second most active week of the year during the week of August 1, with an increase of 45 active rigs, according to reports made to American Association of Oil-Well Drilling Contractors by Hughes Tool Co., Oklahoma. Canada and the Gulf Coast areas showed considerably increased operations compared to moderately decreased operations in all other areas. The total for the week of 2,325 operating units compares with 2,240 in the previous week, 2,256 a month ago, and with 2,016 in the same week of 1949. Following is a comparison of principal areas for the past two weeks: Pacific Coast, 138, down 10; Oklahoma, 295, up 44; Kansas, 119, down 1; Rocky Mountains, 107, down 5; Canada, 105, up 10; Ark-La-Tex., 153, down 4; West Texas and New Mexico, 746, unchanged; Gulf Coast, 525, up 27; Illinois, 137, down 16.

Groninger & King Buy D&O Co.

Groninger & King, pipeline contracting firm, has purchased the D & O Trucking Company, officials of the firm announced Saturday. Purchase was made by G. E. Groninger and Jim King from Earl Demore. Price was not disclosed. Cecil Williams, who is associated with the firm, said the trucking concern would be known as G-K Trucking Company and offices would be at 908 W. Brown.

Texaco VP Planning Aug. 31 Retirement

James Tanham, vice president of The Texas Co. in charge of industrial and public relations, has announced his retirement on August 31. For the time being, he will travel and look after personal interests. Mr. Tanham joined the company after release from a naval service at the end of World War I. Before being elected vice president, he had been for approximately eight years assistant to the president, and prior to that time for a number of years had been assistant to the vice president in charge of sales. Mr. Tanham is chairman of the board of the National Safety Council, a member of the board of directors of the Chamber of Commerce of the United States, and a member of the executive committee of the Chamber of Commerce of the State of New York. Mr. Tanham is a member of the Grand Jury Association of New York County.

Cities Service Payments Drop

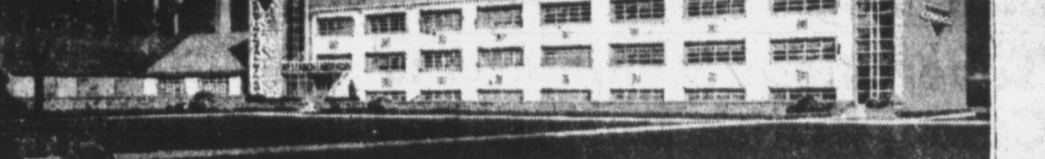

Consolidated net income of Cities Service Co. and subsidiaries for the six months ended June 30, 1950, was \$27,577,275, President W. Alton Jones has reported. This compares with consolidated net income of \$30,159,000 for the same period last year, and is the equivalent of \$7.45 per share of common stock as against \$8.15 per share for the same period of 1949. Corporate net income for the first six months was \$13,476,258 as against \$13,240,703 in the first half of 1949, or \$3.64 per share as compared with \$3.58 per share for the same period of 1949.

Stanolind Names Geophysical Head

FORT WORTH — George L. Ellis has been named division geophysical coordinator for the North Texas-New Mexico division of Stanolind Oil and Gas Co. It was announced by John R. Evans, division manager. Ellis, a senior geologist here since December, 1948. Joined Stanolind in July, 1945. He received his bachelors degree in petroleum and mining geology from Pennsylvania State College in 1917.

Cross-Action Filed By Tennis Expert

LOS ANGELES — (AP) — Former national tennis champion Bobby Riggs has filed a return legal volley against his wife, Kay. Riggs filed a cross-complaint for divorce, alleging cruelty. Her suit last month made the same charge against him. They were married in 1939.

Continental Oil Company has awarded a contract for construction of a \$2,250,000 research laboratories building in Ponca City, Okla., that will provide the Company with one of the most advanced development and research programs in the American oil industry. It has been announced by President L. F. McCollum. The new structure, as shown in the architect's sketch above, will be three stories and is expected to be completed in the fall of 1951. Approximately half of the building will be occupied by the Company's central research laboratories, which will include an organic chemical laboratory, comprised of a petroleum chemical division and a lubricating oil division; a physics research laboratory, for research in electronics, X-ray diffraction and mass spectrometry; an analytical laboratory, consisting of both chemical and physical methods units; and a colloid laboratory, for carrying on fundamental work on greases and allied materials.

U.S. Crude Output To Hit New Record

HOUSTON — (AP) — Domestic crude oil production can be expected to reach an all time high next month. This apparently was assured Thursday as another 202,836 barrels daily were added to September output allowables from Texas fields. Domestic production last week averaged 5,747,700 barrels daily, only 47,350 below the nation's all-time monthly daily average set in December 1948. Texas' new allowable hike, combined with similar action expected from other oil producing states, should boost the nation's September output above 5,800,000 barrels daily. Such an average is even more impressive when it is compared with the post-war low of 4,703,800 barrels daily only 14 months ago. Texas' big September increase results from increased military demand for petroleum products and continued heavy civilian consumption of motor fuels. It also is a good example of how the state's oil and gas conservation statutes operate in limiting output to actual demand. Crude oil purchasers advised the Texas Railroad Commission they expect their September requirements to total 2,618,436 barrels daily. The commission set the September allowable at a record 2,823,720. Actual output normally is about 8 percent below the

AGE IS NOT MEASURED IN YEARS

IT'S MEASURED IN FRIENDS

We could tell you why you'll be pleased if you select the Citizens Bank & Trust Co. as your bank, but we'd rather have our friends and customers tell you about us.

Ask them, for example:

- "Is it a friendly bank?"
- "Will my business really be welcome?"
- "Can I talk things over confidentially?"
- "Can I have complete confidence in it?"
- "Will I like banking there?"

We're sure our case with our customers — if you are not already a customer we hope to be seeing you soon. Our banking services are adaptable to your particular requirements.

Tuberculous Meningitis Is Cured, British Doctors Say

LONDON (AP)—Two children near death from tuberculous meningitis apparently have been cured by a by-product of tuberculin itself plus a new wonder drug, two British doctors reported Saturday.

The doctors said the treatment consisted of injections of tuberculin liquid containing growth products of the tuberculous germ, and streptomycin.

The treatment is being further tested on other patients.

The report, made by Drs. Honor V. Smith and R. L. Vollum of the departments of surgery and bacteriology at Radcliffe Infirmary at Oxford, appeared in the current issue of the British medical weekly, *Lancet*.

The doctors cautioned against building up hopes of a sure cure for the dread disease, which attacks membranes surrounding the brain and spinal cord.

Their study is yet incomplete, they said, and it will take another year to 18 months to be certain of the treatment.

Up until now the best antidote for tuberculous meningitis had been streptomycin alone, but this helped in only about half of the cases.

Both of the children were apparently near death despite treatment with streptomycin when they were given injections of tuberculin, the doctors reported.

"In both patients these injections were followed by totally unexpected recovery, which appears to be complete over a year after treatment was first begun," they declared.

Oriental Fruit Fly Not Yet Sighted In U.S. Orchards

PANAMA (AP)—Banana eaters in the U.S.—along with Florida, Texas and California citrus fruit growers—were given re-energized word last week.

The enemy—the Oriental fruit fly, scourge of banana and citrus fruit producers—has not yet been sighted trying an invasion of American orchards by way of the Canal Zone.

This was the preliminary report by Dr. C. L. Hitchie of the U.S. bureau of entomology and plant quarantine after a spot check here.

If the insect—faintly golden brown in color and with transparent wings—ever is located here or in other parts of Central America, imports of bananas and other fruits attacked would be banned immediately in the United States.

This already has happened to bananas from Hawaii, where Hitchie has been fighting the fly for the last four years.

At the suggestion of U.S. citrus fruit growers, the entomologist was sent from Honolulu to Panama to determine if the dreaded pest can reach the western hemisphere aboard ships from the East Coast. There is no treatment known to safeguard banana plantations from the pest once it gets in.

Card Of Thanks

We wish to thank our many friends for their kindness and sympathy during our recent accident. We greatly appreciate your prayers, floral offerings and food. We especially praise Dr. Overton and other physicians and the hospital staff who worked so diligently at all times.

We also wish to thank Dr. Carter, The First Methodist and other churches for their special prayer and interest in us.

May God Bless each of you. Mr. and Mrs. Sam Beget and 12 Children.

DOG BITES MAN

can still make news, so it seems . . . wasn't that the darndest thing you ever heard of?—Of all the dogs and all the kids in this town, those two had to get together—

Very embarrassing—one man called up and said "I guess your guys will do anything for a little publicity"—well, almost anything Mister, but not quite that far yet—and I must say the Rogers family were wonderful about it—I don't think I'd be so nice if Walter's dog had bit me—

A Man over in Shamrock did a pretty good job of it yesterday, though—I was introduced to him as Ben Guill's campaign manager or some such fine title, whereupon he looks down his nose coldly at me and says "Young man, I hope you have something to do that's more worthwhile than that!"—so today I'm selling real estate . . .

Three bedroom homes are getting harder and harder to find—I've sold two this week and need more listings—One I've got left is the best buy in this town, and I'm not foolin'—it's at 1229 Christine, and it's a honey—doesn't need a thing in the way of paper or repair—downstairs there's two bedrooms, living room, dining room and a cabinet-filled kitchen—upstairs they've built storage space galore and 2 rooms, one of them 12x24 feet—beautiful yard, front and back, best neighborhood, and only a block from high school—for just \$10,500.

Getting back to politics for a minute—ain't it fun to watch the Amarillo paper these days?—one's for one candidate, the other's boostin' another—One says the Guill supporters are voting for the man, cause he'll be easier to beat—leaves me kinda in doubt—the whole story's silly—Guill backers are like everyone else—they want the best man in that job during these times—this is no time to play politics with your vote—they'll vote for whoever they think is best qualified next Saturday and likewise next November—it's like I been tellin' folks at pie suppers and on the Squares: "Go out and vote for the candidate you like on August 26, and may the best one win"—but whichever one it is, let him tighten his belt (or girdle), cause the real battle ain't been fit yet . . .

Back to real estate, I've got a nice section farm down in Wheeler County—nice row crops, fine grass, good improvements and one-half the minerals—\$30 an acre—and here in town I've got a 3 bedroom home at 1717 Terrace that's just been re-decorated—and the Johnny King home at 218 North is a bargain at \$2000—it has 2 very large bedrooms and the kitchen closets you ever saw—also a woman has a house over in Amarillo she wants to sell or to trade for Pampa property—it's a 5 room FHA 2 years old, at 1200 N. Lincoln—at \$2500 it sounds plenty reasonable to me—which is more than I can say for the price of this ad if I keep on—call us for listings if you really want to sell.
