

FIRST IN LINE TO BUY A VICTORY BOND today at the Pampa post office was **Nickie Burlene Lewter**, 4-year-old daughter of Mr. and Mrs. Burl Lewter, 600 South Reis. Nickie was thinking especially of her uncle, Herman Lewter, who enlisted in the army on July 6 at Gainesville, when she made the purchase, using liberty-head nickels she had saved. Nickies have a perfect relation for Nickie; her parents paid the hospital and birth expense bill with nickels they had saved when Nickie was born here on May 8, 1938, and since she has been known as the "Nickel Baby".

Photo by Smith's Studio. In the picture above, left to right, are Luther Long, Gene Hickey, Mrs. Lewter, Mrs. J. H. Kelley, and Nickie, in line before the defense window. Mr. Lewter was working and could not go to the post office for the picture.

Detroit Motor Bus Operators Walk Out

DETROIT, July 17 (AP)—Motor bus operators striking contrary to advice of their AFL union leaders, halted buses on Detroit's East side today, ejected the non-striking drivers and forced passengers to alight. Many passengers, en route to jobs in war plants or office buildings, were left stranded as the buses that were operating were jammed to capacity. After these instances of forcible interruption of bus schedules, police received a general order to arrest on sight anyone found interfering with the buses.

'Parachutists' May Have Been Toy Balloons

RHINECLIFF, N. Y., July 17 (AP)—Search for six "parachutists" reported seen descending in an area near President Roosevelt's Hyde Park estate was renewed at dawn today, but the belief was expressed they may have been festive balloons. A farm superintendent's unconfirmed report of seeing parachutists late yesterday afternoon brought a small army of military, FBI and state police officials to the scene; they postponed their search until daybreak today after townfolk advanced a theory the reported aerial objects probably were balloons sent aloft by a group celebrating a religious holiday. Robert Milroy, a hotel clerk in nearby Rhinebeck, told investigators he had heard fireworks about the time the "parachutists" were reported seen and recalled that persons of Italian descent gathered at Glasgow on the opposite bank of the Hudson river celebrating a feast day by shooting off fireworks, roman candles and releasing balloons for nine hours last night. Hudson valley residents and motorists within a radius of 50 miles were questioned as to whether they had seen any parachutists. The report originated from Clyde R. Swenson, superintendent of Fox Hollow farm. A nine state police teletype had reported Swenson as saying he had seen six large parachutes drifting down near Fox Hollow farm, and his wife told Dutchess County Undersheriff Douglas Crasner she had seen a lone parachutist "trying to manipulate it down" in woods northwest of the estate.

BUY VICTORY BONDS. Sunday Driving in Louisiana To End. NEW ORLEANS, July 17 (AP)—Beginning probably the last week in July, there will be no sales of gasoline in Louisiana on Sunday except to a few classes of motor-vehicle users, under a law enacted by the legislature and signed by Governor Sam Jones.

BUY VICTORY BONDS. Here's Your Chance For Adventure! Like action and plenty of it? Well, if you're used to boats and are between the ages of 18 and 45, you can get it. If you're itching to get into the fight, the opportunity now is available to join the "Sea Taxis" of the Army Engineer amphibian command. For details about enlistment in the Army's Navy—turn to Page 3. And, if you're interested—see your army recruiting officer in the postoffice building.

BUY VICTORY BONDS. Write in Walter Rogers for D. A. (Political Advertisement)

Fees On War Contracts To Be Outlawed

WASHINGTON, July 17 (AP)—A measure outlawing commission fees on government war contracts was approved unanimously today by the House naval committee after the navy itself demanded swift action to "stop profiteering at government expense." The action came after three days of public hearings during which representatives of four firms of "sales promoters" in the nation's capital told of earning close to \$2,000,000 during the last 18 months in fees for obtaining contracts for manufacturers throughout the country. Robert E. Kline, an advisor in the office of Under-Secretary of the Navy James V. Forrestal, told the committee that it "should be obvious that something is very wrong and that quick action should be taken to stop profiteering at government expense."

RAF Raids On Germany Short Of Expectations

LONDON, July 17 (AP)—Devastation as it has been in southeastern Germany, an offensive against Germany still is short of expectations, and still below the peak of striking power it could and will develop in the months ahead, according to experts today. The appraisal of these sources, who would not permit their names to be used, is based on the 47 nights since the RAF opened the Allied "second front" in the air with the mass attack on Cologne last May 30, the first of three 1,000-plane raids on Germany.

Associated Press tabulations show that the beginning with the Cologne raid the RAF has made about 8,750 bomber trips against Germany in fulfillment of Prime Minister Churchill's promise to erase Nazi industry "city by city." Only two raids of a thousand or more bombers—against Emden and Bremen—have been made since the Cologne assault but British air sources say they left those cities so devastated that they can make little, if any, further contribution.

'Nickel Baby' Buys First Bond Today

Pampa's Nickel Baby nicked the Axis today. Four-year-old Nickie Burlene, daughter of Mr. and Mrs. Burl Lewter of 600 E. Reid, stepped smartly up to the defense window at the Pampa post office and bought the first Victory Bond today, American Heroes day. The bond was bought with liberty nickels and thereby hangs another story. When Nickie was born on May 8, 1938, in a local hospital, nickels were used 1,400 of them, paying the doctor and hospital bills. Mr. and Mrs. Lewter had saved them for this use. In fact, they began saving nickels when they were engaged.

The habit of saving nickels has stuck, and now Nickie is saving her nickels and the whole family is saving them for her, putting aside liberty nickels for Nickie, who incidentally gets her first name from a relative whose nickname is "Nick." The Lewters have been Pampa residents for 10 years. Nickie has an uncle, Herman Lewter, who enlisted in the army at Gainesville, just 11 days ago. Known as the "Nickel Baby," Nickie was all smiles today as she saw her nickels grow into a Victory Bond, and she started saving nickels again for another.

Daily And Dance To Close American Heroes Bond Sale

Million Nazis Push Toward Stalingrad

MOSCOW, July 17 (AP)—Masses of German infantry supported by their heaviest tanks—a force of perhaps 1,000,000 all told—marched through the lush, waist-high wheatfields of the Don steppes in a continuing offensive today as the Red army fell back toward Stalingrad and Rostov.

Mindful of the hourly increasing threats to both of these important centers on the Volga elbow and the lower Don which flank each side of the entrance to the Caucasus, the Red army fought stubbornly from well-defended Voronezh on the north to the flat-river-wrinkled country southeast of Millerovo. Near a river crossing southeast of Millerovo, 200 miles south of Voronezh, the Soviet fighters were reported to have handed a heavy blow to the invaders.

'Little Steel' Asked To Accept 44-Cent Pay Hike

WASHINGTON, July 17 (AP)—The War Labor board called upon organized labor today to accept with "self-restraint and statesmanship" a wage stabilization policy which permitted an increase of 44 cents a day for "little steel" workers, instead of \$1 asked by the union. The policy, made public late yesterday in the board's decision on the case, was designed to maintain the purchasing power of hourly wage rates as of January, 1941. "We are convinced," said the opinion of Chairman William H. Douglas, "that the yardsticks of wage stabilization thus applied are fair and equitable and at the same time sufficient to prevent the cost of living from spiraling upward because of wage adjustments. We think they look to a 'terminal' for the tragic race between wages and prices."

But the Germans apparently were still clinging to positions at the west side of the city, and the danger to the city from the south, where Hungarian infantry and cavalry were attacking at the confluence of the Don and Voronezh rivers, was not lessened.

FBI Raids Homes Of 65 Nazi Aliens

NEWARK, N. J., July 17 (AP)—The homes of 65 German aliens were raided early today and last night in widespread searches throughout New Jersey as the Federal Bureau of Investigation renewed its drive on the German-American Bund.

Dr. George W. Taylor, writing the principal opinion on wages, said "this directive order calls directly upon the steel workers, and indirectly upon all labor, to accept sacrifices which are their share under the national program for adjusting our domestic economy to the needs of total war."

American Tanks Being Used On Egyptian Front

CAIRO, July 17 (AP)—British troops, engaged in a violent and indecisive tank battle since yesterday in the center of the El Alamein desert line, were reported today to have brought up American-made General Lee tanks to give additional power to their defense.

Douglas Carver To Preach First Sermon Sunday

WASHINGTON, July 17 (AP)—None of the 34 United States senatorial campaigns has attracted more attention in Washington than the three-cornered conflict between ex-governors of Texas for the full term in succession to the late Morris Sheppard. With Josh Lee re-elected from Oklahoma, the Texas race now has no competition from the Southwest from the standpoint of official Washington interest, although in the South the Mississippi campaign is something of a rival. Charges and emphatic denials that senatorial candidate Jim Eastland of Mississippi had senate speeches printed with the intention of mailing them out over his state postage free under the franking privilege of incumbent Texas Senator W. Lee O'Daniel have linked the two campaigns. Eastland said O'Daniel's franked envelopes were mailed to his office through a mistake, and that "every word of this campaign of vilification is false." O'Daniel in Texas commented: "Let them run their campaign and I will run mine," and James V. Alford an opponent, made extensive use of the affair in campaign speeches. Administration circles so far have carefully refrained from taking an open hand in the Texas race this year, but it appears to be no secret that from the White House down a warm welcome would be extended to any candidate who would be elected.

Texas' Senatorial Campaign Being Watched In Washington

WASHINGTON, July 17 (AP)—The Texas race now has no competition from the Southwest from the standpoint of official Washington interest, although in the South the Mississippi campaign is something of a rival. Charges and emphatic denials that senatorial candidate Jim Eastland of Mississippi had senate speeches printed with the intention of mailing them out over his state postage free under the franking privilege of incumbent Texas Senator W. Lee O'Daniel have linked the two campaigns. Eastland said O'Daniel's franked envelopes were mailed to his office through a mistake, and that "every word of this campaign of vilification is false." O'Daniel in Texas commented: "Let them run their campaign and I will run mine," and James V. Alford an opponent, made extensive use of the affair in campaign speeches. Administration circles so far have carefully refrained from taking an open hand in the Texas race this year, but it appears to be no secret that from the White House down a warm welcome would be extended to any candidate who would be elected.

WEDS DAUGHTER-IN-LAW—Pat Rooney, 62, vaudeville veteran, pictured with his former daughter-in-law, Janet Roode, 32, whom he'll marry next Tuesday in Hoboken. Janet was married to Rooney's son, Pat Rooney III, until her divorce July 6.

FDR Studies Wage Control, Inflation

President Roosevelt told his press conference today that the whole question of wage controls and inflation is under study when asked for his reaction to the broad wage stabilization policy laid down by the War Labor board to maintain the purchasing power of hourly wages at the levels of January, 1941. He said no decision had been reached on when he might send a message to congress on the subject, and that the basis of all policy on the program was to keep the cost-of-living from going up.

Lana Turner Marries Former Stock Broker

HOLLYWOOD, July 17 (AP)—Lana Turner eloped by air to Las Vegas, Nev., with Stephen Crane, a former New York and Chicago stock broker, today and reports were ripe that Linda Darnell and publicity agent Alan Gordon, who accompanied them, would make it a double ceremony. Lana's studio said it never had heard of Crane but Gordon's agency said Lana had known him a year, been his frequent companion for four months, Crane asked the big question while dancing last night, Lana answered affirmatively and they quickly agreed upon the flight. Startlet Linda is just 18, a native of Dallas. She and Gordon have been going together more than a year.

Band Concert, Stunts, Sale On Program

Two Booths Will Be Available To Purchase Bonds

Thousands of Pampans will join together tonight in a mammoth display of their devotion to America and a renewal of faith with its defenders when a patriotic rally is held at 8 o'clock tonight in the 100 block on N. Cuyler, between Foster and Kingsmill. An inspiring band concert, directed by Ray Robbins, high school band director, a chance to see Hiro-hito, Hitler, and Mussolini in a series of stunts arranged by Hoyt West, a bond auction, are part of the rally, which will be followed at 9:30 o'clock with a dance in the Junior high school gymnasium. From a flat-bed truck in front of the LaNora theater Dr. H. H. Hicks, local dentist, will be master ceremonies at the local observance of American Heroes day. Hollis Keys, chairman of the observance, will make the announcement that Pampans may purchase bonds and dedicate them to their particular hero—a father, son, husband, or sweetheart in the armed forces. Seventy-nine have been sold. At two booths, one at each end of the roped-off street, Victory bonds and stamps will be available. Bonds will be sold at one of the booths, stamps at the other, by two post-office employees. Climaxing the program will be the auction of bonds by Dr. W. Calvin Jones and the award of a \$25 Victory bond with someone in the crowd. Tickets will be issued as persons file into the block, regardless of whether they purchase a bond or stamp or not. Purpose of the rally is to sell Victory bonds and stamps to raise the war effort.

Buy A Bond For Your Hero Now!

Editor's note: The 74 names below are the first in the list of American Heroes, in honor of whom Pampans have purchased Victory bonds. When you buy at least an \$18.75 bond for your hero, give the bond seller the name of your son, sweetheart or friend in the service and his name will be added to this list. Let's make this honor roll grow. The list is published in connection with Pampa's American Heroes Day observance today. Sgt. James Gordon McConnell, Kelly field. Cpl. Amos B. First Trailer Camp Permit Issued Here

First permit authorizing operation of a trailer camp in Pampa under the ordinance passed six weeks ago by the city commission was granted to F. C. White, who has established a trailer camp at 322 W. Brown, across the street from a lumber company. City Manager Steve Matthews said today. This is the first permit issued since the ordinance went into effect. Purpose of the law is to insure that tourist and trailer camps within the city shall be sanitary and slightly. Permits are issued by the city health department after rigid regulations on plumbing, wiring, and other health and safety precautions are met. When strangers to Pampa make inquiry at the city hall offices as to where to find a trailer camp, the places that have complied with the law will be the camps to which they will be directed. The Panhandle's most complete stock of Fishing Tackle at Lewis Hardware—Adv.

Steel Unionists Quickly Protested

Steel unionists quickly protested the WLB decision and Republic Steel corporation, one of the four affected, said "the wage increase is a long step in the direction of inflation."

In another part of its decision, the WLB by another 8 to 4 vote, with industry members dissenting, granted union security through a maintenance of membership clause combined with a checkoff (collection) of union dues by the companies. Writing the principal board decision on wages, Dr. George W. Taylor said the members had paid heed to President Roosevelt's anti-inflation program and the board "has determined that the following guiding principles should be applied in evaluating claims for wage increases: 1. For the period from Jan. 1, 1941, to May, 1942, which followed a long period of relative stability, the cost of living increased by about 15 per cent. If any group of workers averaged less than a 15 per cent increase in hourly wage rates during or immediately preceding or following this period, their established peacetime standards have been broken. If any group of workers average a 15 per cent increase or more, their established peacetime standards have been preserved. 2. Any claim for wage adjustments for the groups whose peacetime standards have been preserved can only be considered in terms of the inequalities of the substandard conditions specifically referred to in the president's message of April 27, 1942. 3. Those groups whose peacetime standards have been broken...

Mrs. Gaut Hostess At Breakfast For Alathean Class

Alathean class of First Baptist church was entertained Thursday morning at an outdoor breakfast at the home of Mrs. P. O. Gaut, when bacon, eggs, coffee, and toast were prepared by the group over an open fireplace in the yard.

During the business session presided over by Mrs. L. J. Zachry, Mrs. Charles Welton announced that flowers will be sent to Mrs. Ike Beaman and Mrs. W. H. Beazley, members who have been ill recently.

The invocation was given by Mrs. Tom Duvall, teacher. Mrs. Tom Herod, social vice-president, had charge of arrangements for the event.

Attending were Meses. E. E. Shelhamer, P. O. Gaut, Tom Herod, C. S. Boyd, Tom Duvall, Rex Kiff, T. J. Watt, L. J. Zachry, C. R. Welton, and one guest, Miss Mary Muller.

Try These Efficient War-Time Finger Tips

War-time style, economy and charm are at your fingertips—if you care for them efficiently. The last word is the most important one in that sentence.

Nails which look overdone and artificial—glistening claw-tips—are passe. Likewise, nails which bespeak emphasis on "glamor" such as brilliant polish plastered on to hide unsightly, neglected fingertips. Here are some ideas for efficient care:

FOLLOW THESE BEAUTY AIDS

1. Have the nails manicured, or give yourself a thorough manicure. Weekly. Whoever does it must do it genuinely—must clear away dead cuticle without harsh scraping by steel instruments—must gently shape, with emery-board, the nail edge—should buff nails well, even when liquid polish is used.
2. Cooperate with your manicurist by keeping your nailtips in good condition. Push cuticle back with orange wood stick nightly; smooth chips or breaks immediately, with your own emery board.
3. When nails are shaped, remember moderation in style.
4. Protect nails from bruising and from grime. Wear gloves for soapy, nail-staining, nail-straining work. Dig nails into soap or prepared anti-dirt and anti-grease material before beginning a chore that makes nails "take it."
5. Conserve your manicure supplies at home. When you use polish, use a nail base first, a protective coating afterward. Leaving a hair-line free of polish at the edge helps prevent chipping. Covering the polish and also the under side of the nail tip with the liquid shield protects the nail edge. Buffing before applying any of these makes polish go farther, makes surface last longer.

Jack Spratts Are Needed In Wartime

There are a lot of meaningless dinner table taboos we ought to start ignoring now that we're trying to go as easy on the food as possible.

Let's sit down at the table with the Joneses and see just how much food they are wasting in an effort to follow the rules of etiquette.

The kids—and, if the truth were known, even Mama and Papa—would like to put some of the rich essence left in the bottom of a serving dish on bread and leave the platter clean. But Mama and Papa have the idea that letting the kids enjoy that nourishing food would be training them in poor table manners. So, the essence goes to waste.

The family has been taught, too, to take a small serving of food whether they intend to eat it or not. It is supposed to be better manners—if not better economy—to take some food and push it around with a fork, so that it looks touched, than to say, "No, thank you," in the first place.

FOOD FORCED ON NON-HUNGRY

They've been taught, too, that it isn't polite to stir coffee vigorously enough to keep the sugar from settling in the bottom—but now that so many restaurants have little signs saying "Stir like H—," in their sugar bowls, Mama and Papa aren't so strict about this point as they used to be.

Then there are Mama's feelings, which get hurt if anyone turns down dessert after she has gone to the work of making it and turned out a work of art. So, dessert is always accepted even though it makes a person feel uncomfortably stuffed, or, even though it can't be more than half eaten.

Washington tells us that the food habits of a nation are going to be changed. They might not have to be changed quite so drastically if we got busy and revised our ideas of good table manners enough to make the wasting of food a sign of bad manners rather than of gentility.

The Jack Spratt family might not have followed the rules of etiquette—but Uncle Sam wouldn't mind if we were a nation of Jack Spratts at least for the duration!

Central Baptist WMS Circles Meet For Bible Study

Meeting in circles Wednesday, Woman's Missionary society of Central Baptist church featured Bible study at the weekly program.

Lydia circle was entertained by Mrs. Clyde Ives at a 9 o'clock breakfast in the city park preceding the Bible lesson taught by Mrs. T. D. Sumrall. Eight members and three visitors were present.

At a meeting of Lottie Moon circle in the home of Mrs. J. M. Johnson, the Bible study was conducted by Mrs. H. E. Johnson. Four members and two visitors attended.

Annie Sallee circle met in the home of Mrs. J. J. Brown when an opening song and prayer preceded the Bible lesson taught by Mrs. H. C. Showers. Refreshments were served to six members.

A meeting of Lillie Hundley circle was conducted in the home of Mrs. Roy Beasley at which time Mrs. John Arledge led in prayer. A report of the district W.M.S. meeting in Amarillo last Tuesday night was presented. Mrs. D. M. Scaife spoke on "Stewardship." Ten members were present.

Mrs. Roy Hallman was hostess to Mary Martha circle when Mrs. Dayton White presided over the business session. Prayer and the Bible lesson were presented by Mrs. S. L. Anderson.

The W.M.S. will meet in circles next Wednesday afternoon at 3 o'clock. Mrs. L. B. Scruggs, 1109 East Twelfth, will be hostess to Mary Martha; Mrs. D. M. Scaife, 623 North Faulkner, Lillie Hundley; Mrs. George Berlin at Sallee camp, Annie Sallee; Mrs. Buck Lottie Moon; and Mrs. J. T. Little, Lydia.

—BUY VICTORY BONDS—

War shipments from 432 automotive plants, representing 72 per cent of the industry, amounted to \$420,000,000 in April, or 46 per cent above that in February.

FRILO designed this Bundles for America bag.

No zippers, no metal frames—just a piece of cotton and rayon, two rulers, and the seal of the nationwide organization which is aiding the families of men in the fighting service.

The 15-inch rulers, which make the bag's frame, come in very handy for measuring knitting. Shoulder strap is twisted red, white and blue cotton.

bag is reversible, red on one side, blue on the other.

Vegetable Leftovers Can Be Used Again

ADD pennies to the weekly food budget by using parts of vegetables usually discarded.

Peel broccoli stems and cook as you would asparagus. Peel coarser parts of asparagus for soup, using water in which asparagus was cooked. Puree the stems when soft.

Cook broccoli and cauliflower leaves, the outside of lettuce and cabbage leaves, kohlrabi, turnip and beet tops either separately or together for greens. Remember, green leaf vegetables are rich in essential vitamins.

To preserve vitamins in leaf vegetables cook in a very small amount of water and only long enough to make them tender. Let them come to a quick boil, then turn the heat low.

Here's a recipe using leaves which are usually discarded:

Green Sauce With Creamed Frankfurters and Potatoes
(Serves 4 to 6)

Three pounds mixed greens, salt and pepper, 3 tablespoons butter or bacon fat, 2 cups well-seasoned white sauce, 1/2 pound frankfurters sliced, 2 cups cooked diced potatoes.

Wash and trim greens; add salt and cook rapidly without added water until tender, 10 to 20 minutes. Drain; let stand 10 minutes. Prepare white sauce; add frankfurters and potatoes; heat well. Turn out greens onto platter; fill center with creamed frankfurters and potatoes; serve at once.

Breakfast Will Replace Regular Meeting of WSCS

Special To The NEWS

CANADIAN, July 15—The regular meeting of Women's Society of Christian Service of the Methodist church will be in the form of a breakfast in Fellowship hall instead of the usual afternoon meeting at 3 o'clock. Breakfast will be prepared by the work committee and will be served to women of the church attending at 8:30 a.m.

A program will follow immediately after the breakfast. Mrs. Jepp Todd will deliver the spiritual message; Miss Charlotte Alice Tubb will render piano music; and Mrs. Grace Spiller will give two accordion solos.

Mrs. Uel D. Crosby is to discuss "The Place of the Society for Christian Service in Our Lives."

Mrs. George Hill is president of the group.

Fickle Girls Make Soldiers Turn Cynical

By RUTH MILLETT

If his soldier's experience is typical it seems a lot of American girls are willing to do anything for Uncle Sam but wait for one of his orphaned nephews. Here is what this private from Chanute field writes:

"Eight of the 32 men in my barracks have already received one of those sweetly but firmly-delivered missives to the effect that 'really my dear, if you're not nice, and I wouldn't ask anything for the recollection of our friendship, but...'"

"Sure, we know how it is. Spring is in the air. Put the girl of our dreams out with the boys with flat feet or 26-60 vision, and see how much thrill she gets from the next letter she receives. Don't tell me, I'm just recovering from one of those amatory rejection slips myself."

MANY GIRLS ARE JUST PLAIN FICKLE

A bit cynical, that soldier's letter. But maybe he has a right to be—when you're considering broken romances.

But all those girls didn't jilt their men just because they are soldiers and the girls prefer to play it safe with young men whose feet are flat. Even in peacetime there are a lot of engagements that never reach marriage. The girl who in wartime will jilt a soldier for a safer future will in peacetime jilt a struggling young man for one whose future doesn't look like as much of a gamble.

That ought to be some consolation to the soldier and his buddies who are in the 25 per cent.

Not only that, but had they married their girls there would still be a chance they wouldn't keep them. About one marriage in every five ends in divorce—without any help from war conditions.

The trouble isn't with being a soldier. The trouble is with being in love. It's a risky business—as risky, almost, as war.

Immortal Painting To Be Featured At McCullough Church

That immortal painting by Hoffman, "Christ and the Rich Young Ruler" will be featured in the Sunday evening service of the McCullough Memorial Methodist church. This is the third in a series of Sunday evening services based on great art masterpieces.

Miss Paula Faye Franklin will give a brief report on the original painting. Beautiful prints of this picture, suitable for framing, will be distributed among the congregation. The pastor's sermon topic will be "Come and Follow Me."

The previous services of this series have been enthusiastically received and have proven an inspiration to all. The public is invited to attend.

—BUY VICTORY BONDS—

"Life" To Be Topic Of Lesson-Sermon

"Life" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 19.

The golden text is: "As the Father hath life in himself; so hath he given to the Son to have life in himself" (John 5:26).

Among the citations which comprise the lesson-sermon is the following from the Bible: "The Spirit of God hath made me, and the breath of the Almighty hath given me life" (Job 33:4).

The lesson-sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God fashions all things, after His own likeness. Life is reflected in existence. Truth in truthfulness, God in goodness, which impart their own peace and permanence" (page 516).

Mainly About Pampa And Her Neighbor Towns

Miss Blanche Brannon, formerly of Meeteetse and now of Oklahoma City, is visiting this week with Miss Polly Oswalt of KPDN.

DALHART—Sgt. R. E. Collins, Jr., 23, is now stationed at Camp Rouse, Ala., after being transferred from Tacoma, Wash. His brother, Pvt. Forrest G. Collins, is stationed at Fort Sill, Okla. Both men attended Dalhart schools and are brothers of Mrs. Jack Clifton, 400 Scott. Father of the two men resides at the Elwood hotel here.

A vote for H. C. Coffee will assure you of two years' continuous oil topping for roads. H. C. Coffee will be road conscious during his full two-year term.

BORGER—Borger will send 13 men to induction centers July 23, including five officer candidates. The candidates are Clifford Flinders, Walter Harvey Wilkins, J. W. Thompson, Henry Franklin Gillespie, Earl Vincent Garrett; the others, O. C. Finchum, Jasper N. Sangster, Grady E. Stagg, Guy E. Wells, Floyd H. Dinnock, William O. Cain, William J. Brown, William Robert Sickles.

Vote for Economy Business Methods and law enforcement cooperating with other law enforcement agencies. Elect P. S. Brown, Sheriff.

WELLINGTON—Salvage rubber collected in Collingsworth county as a part of the nation-wide drive totaled 75 tons, A. B. Mears, salvage chairman, has announced.

Keep Gray county road tax down by electing a man familiar with the work. John Haggard, your present commissioner.

BORGER—Dr. L. M. Draper, pioneer physician here, has been commissioned a lieutenant commander in the U. S. Navy and is to report at the naval air base in Corpus Christi, Aug. 7.

Clyde E. Jones, for efficient, economical management of the office of county commissioner. Vote for him!

PLAINVIEW—Meade F. Griffin, chairman of the Hale county draft board, who has been champing on the bit since Pearl Harbor to get into active duty, has had his wish granted after his frequent requests he had made had been denied. He is to report as a lieutenant colonel at Camp Walters July 27.

Mrs. N. F. Maddux, Jr., of Fort Leonard Wood, Missouri, is visiting with her parents, Mr. and Mrs. H. C. Schofield.

WELLINGTON—Clark Anderson, Wellington insurance man, has been named commander of the Frank King post of the American Legion, succeeding Morris Wells.

Dale Irving underwent an operation for appendicitis this week at a local hospital.

Staff Sgt. Turney Mullinax of Ellington Field is spending a 10-day furlough with his parents, Mr. and Mrs. W. Mullinax.

Alice and Margaret Johnson have returned to their home in El Reno, Oklahoma, after spending the past two weeks with their uncle and aunt, Mr. and Mrs. L. K. Stout.

Mrs. Jack Richardson left today for Houston where she will join Mr. Richardson who is employed in the Houston ship yards.

Mr. and Mrs. Roy Ray and Miss Glennes Savage, of Canadian, have returned from Oklahoma City where they visited the past week.

Mrs. Ray Van Winkle, daughter of Mrs. E. H. Douglas, underwent a major operation at Pampa hospital yesterday. Her condition today was fair.

Mr. and Mrs. Roy Ray went to Amarillo yesterday. Mr. Ray, former high school athlete, enlisted in the navy. He will be called July 29.

MIAMI—Mrs. Hazel Coffee of Hot Springs, N. M., is here visiting her sister, Mrs. C. C. Shield.

Mrs. T. D. Wheeler of Phillips camp is a patient in a local hospital. She underwent a major operation Tuesday.

MIAMI—Miss Mittie Beck returned Wednesday from a two-weeks vacation in Eastern New Mexico.

CAMPAIGN
(Continued from Page 1)

either Alfred or Dan Moody, the third contestant, if either should emerge on top of the heap after the July 25 primary.

Alfred has come out strongly for all-out support of the president in the war effort—at least Moody and O'Daniel—but Alfred has also said he had no intention of going to Washington as a yes man.

Texans in Washington, naturally, are keenly interested in the fight in their home state.

Representative Wright Patman of Texas, who is head of the Texas State society here, said he had received numerous calls from persons working in various governmental departments inquiring about procedure for casting absentee ballots in the Texas race.

Patman said he didn't ask the inquirers whom they were going to vote for.

"I don't think any member of the Texas house delegation should publicly state his preference among the candidates," added Patman.

During the special election last summer, when O'Daniel won his seat to serve out the remainder of the term of the late Senator Sheppard, Speaker Rayburn of Bonham and other Texas representatives publicly supported candidates. Patman recalled that circumstances then were different than today.

Although the Texas members of congress aren't publicly stating their sympathies, private conversations disclose that generally they are divided into two groups. Those who are strong administration supporters are backing Alfred, who gave up a federal judgeship to enter the senate race. Others are supporting Moody, saying that he made a good governor and is an able statesman and lawyer who would

FDR STUDIES

(Continued from Page 1)

are entitled to have these standards re-established as a stabilization factor.

"4. The board, as directed by the president in his April 27 message, will continue to give due consideration to inequalities and the elimination of substandards of living."

"5. Approximately 20 wage disputes, still pending before the board, were certified prior to the stabilization date of April 27. The question arises in these cases whether wage rates being paid on April 27, 1942, can or cannot be considered as 'existing rates' within the meaning of the president's message, or whether they then had the tentative character of disputed rates. Due regard must be given to any factors of equity which would be arbitrarily swept away by a change of rules in the middle of the game."

"The guiding principles outlined above insure, in general, that claims for wage rate adjustment can be considered on an equitable basis and in a manner which will further the national purpose to stabilize the cost of living."

Philip Murray, president of the United Steel workers, declined comment on the meeting of the union's policy committee in Pittsburgh today but the executive committee of five locals at Bethlehem, Pa., expressed disapproval of the situation in that steel center was "tense and explosive."

It added: "Our government says we work or fight. We agree. For a dollar a day wage adjustment we will not fight."

Bethlehem officials would not comment.

As the policy laid down in the steel case claimed major adjustment, because the ruling directly affected 157,000 workers and was expected to be reflected in other pending cases involving more than 1,000,000 in automobile and other industries, drillers and shooters in mechanically-operated shaft coal mines in Indiana were awarded a 40-cent-a-day pay increase, retroactive to Jan. 1.

At Los Angeles last night management and labor representatives who had been conferring on a proposed aircraft wage stabilization formula said they had been unable to agree and blamed government agencies for the deadlock.

Four hundred members of the CIO United Automobile workers union stopped work at the Ford Motor company's No. 2 body plant at Iron Mountain, Mich., yesterday and remained idle today with 75 men in the chemical department having joined them. The unionists demanded weekly wage payments, instead of bi-weekly payments, cancellation of the stagger system of employment, and return to their jobs of two men.

In Pittsburgh members of the AFL building trades union continued a walkout started yesterday protesting that the War Production board had refused to authorize a 25-cents-an-hour pay increase.

Passengers on motor buses in Detroit were forced in some instances to disembark and seek other modes of transportation to jobs in war plants and offices when bus operators went on strike contrary to the counsel of their AFL leaders and stopped conveyances driven by non-striking drivers, ejecting the passengers.

A General Motors corporation tank plant at Flint, Mich., was idle for the third day due to a walkout which strikers said was caused by the discharge of 30 welders who left their jobs Monday to go outside the plant to smoke.

The huge Willow Run bomber plant of the Ford company experienced an hour and a half sitdown early last night which company officials said was an unauthorized action protesting the company's removal of a special telephone system it contended was installed without "proper arrangements." Company and union officials said full production was resumed after the brief stoppage.

BAND CONCERT
(Continued from Page 1)

remainder of Gray county's July quota of \$164,300, of which \$100,000 is still to be obtained.

A sales contest among retail store clerks to see who can sell the most bonds in the county which began Monday and will end July 31 is now in progress. At the rally tonight, Pampanians may indicate on cards the name of the hero to whom they wish to dedicate their bond, and also the name of the salesman whom they wish to see receive credit for the sales.

Awards in the Retailers for Victory contest total \$95 in Victory bonds and stamps.

Dance at Gym
At 9:30 o'clock a dance, featuring old time dance music, will be held at the Junior high school gymnasium. W. C. deCordova is chairman of the dance committee. His workers will be L. R. Frank, Chairman, Mrs. Joe Roche, Ray Kuhn, and J. R. Martin.

Victory stamps will be sold at the dance. Admission will be on the basis of the purchase of 25-cent stamp and to dance those attending must then buy more stamps. Two dance tickets will be given for each ten cent stamp.

An orchestra, directed by Jeff Guthrie, will furnish the music for the dance.

Chairman deCordova said that Mr. be a credit to his state in the national legislature.

Most of the Texas congressmen are hoping the tax bill will be passed in the house and matters cleared up so they can vote in person in their districts.

WAR BULLETINS
HELSINKI, July 17 (AP)—An official statement issued through the Finnish news bureau today said the Washington decision to close the American consulate here and to request closing of Finnish consulates in the United States was "a surprise" to the Finnish government, which "had no reason to suppose" that its policy could lead to such an action.

WAR BULLETINS

WASHINGTON, July 17 (AP)—Although administration officials have been speaking repeatedly of the fact that this country always has called youths of 18 and 19 years to the colors in wartime, President Roosevelt told a press conference today that such a step was unlikely now. He said nothing need be expected on this matter at any time soon.

NEW YORK, July 17 (AP)—Two men and a woman who the government says were aides of one of the eight Nazi saboteurs on trial in Washington were arraigned in federal court today and held in \$50,000 bail each for a further hearing July 31. They were Miss Hedwig Engemann, Helmut Leiner and Anthony Cramer, all of New York City, accused by the government of helping Edward John Kerling after he landed on the Florida coast last month from a German submarine.

YOUR HERO

BUY VICTORY BONDS
The United States, during the first six months of 1940, exported 193,849 pounds of peppermint oil.

EXPECTATIONS

(Continued from Page 1)

to Germany's war effort.

The air offensive, made at an announced cost of 261 bombers up to last night, is regarded by informed sources, however, as below expectations.

They said they believed the high hopes raised when the mass bombing of Cologne thrilled the United Nations appeared premature and "really intensive" attacks on industry in central and eastern Germany must wait for the longer nights of autumn.

These experts agreed that three reasons explain the RAF's failure to keep up the thousand-plane pace:

1. Exceptionally bad weather—air officers say the nights be "pretty nearly perfect" or else targets are obscured and fog imperils the RAF's huge bombers taking off and landing on home airfields;
2. Drain on the RAF bomber command by operations elsewhere—the campaign in Egypt, the threat to India;
3. Failure of the Allied Air forces to produce a long-range fighter capable of escorting heavy bombers over targets in daylight attacks.

Crisis

The world today seems to be at the top of its crisis. It is the best test of modern civilization. In some ways this era may be likened to the fourth and fifth centuries, when the Goths and Huns swept down upon the Roman empire and destroyed it.

But ancient Rome was decadent and already far down in vigor and ideals, when those barbarians assailed it. The modern civilization represented by the free nations of Europe and America is supposed to be at the very apex of modern progress. It has been developing since the Middle Ages, when the Mongol Conqueror Genghis Khan was supreme in Asia.

This civilization has been considered, until lately, as including Germany and Japan, the two nations now foremost in trying to destroy the free powers. But they are now seen as representing a resurgence of barbaric power that attacks the ideals and finest achievements of the free modern nations, and aims to replace them by a regime of brute force.

Their triumph would destroy the souls of men, and the liberties and decencies and high aspirations for which enlightened moderns have fought for many ages. Theirs would be a rule of remorseless power, wielding the forces of nature for selfish and evil purposes. It would be a reversal of civilization and a betrayal of the human soul.

—BUY VICTORY STAMPS

War Justice

In all this talk, much of it premature, about what kind of peace shall be made when the war is over, it is well to bear in mind a statement made by Woodrow Wilson last time.

"When we speak of justice to the enemy," he says, "let us remember that there must be justice for the millions who have been killed and maimed, justice for the torn and bent lives of the great millions who survived, justice for the hopes of those who do not want to live through such hell again."

War is grim business, and it takes also grim resolution to mop up a war when it is ended and apply the principles that have been established. Unfortunately the United States after the last war walked out of the courtroom and left everything for his partners to decide. Thereupon they stupidly applied penalties that would take half a century to pay. Simple-minded Americans then stupidly lent Germany the money to pay at first, and lost it when Germany walked out on her obligations with a fake revolution, leaving all her creditors flat.

This time there should be a fair trial and a fair and practical penalty, and the penalty should be enforced by armed power. Nobody knows now what that penalty should be, but it certainly should guard against a repetition of the last fiasco.

—BUY VICTORY STAMPS

Subs In The Potomac

A submarine may yet come up the Potomac, says Senator Allen Ellender of Louisiana. Considering that attacks have been made in the mouth of the Mississippi, this is not so impossible as at first sight it may seem.

It is just the sort of spectacular stunt that the Nazis love. It does not have much military value, but they think it scares their opponents as terrifying exhibition of German might.

Americans are not so easily frightened. It would do no harm, however, to be on the lookout for such unexpected move.

—BUY VICTORY BONDS

The Nation's Press

JAPAN'S UNMECHANIZED ARMY (Kansas City Times)

The present war is now generally regarded as one of machines. Indeed, since Adolf Hitler's panzer divisions scored their unexpectedly easy victory over the Polish army, it has become almost axiomatic that in this war the side will win which is best provided with tanks, planes and other mechanized equipment. Yet new information on the recent Burmese campaign indicates that this theory doesn't always work out.

The Japanese made liberal use of aircraft in the conquest of Burma. Otherwise, however, they proceeded virtually without machines. The invading force, it is estimated, was composed of troops especially trained for operations in just such a country. They were taught to live off the land, to move with little or no motorized transport (they simply seized native bullock carts and river boats, when they needed them) and to fight with the lightest possible equipment.

This system gave the Japanese a great advantage over the British and Indian defenders of Burma, who, because of their mechanization, had to stay close to the established highways. As the Delhi correspondent of the London Times puts it, the Japanese devised a "secret weapon" by dispensing with machines. What the Burmese campaign really demonstrates is that in this war imagination and resourcefulness count more than anything else. The Germans won in Europe with machines, the Japanese without them. But in each case the fundamental principle was the same. They outguessed their opponents.

The same thing seems to have been true in Libya. The British started with a superiority in men and machines. But their generals were outsmarted by Rommel.

That equipment won't take the place of brains is one lesson the United Nations must learn if we are to win.

THE WHEAT AGREEMENT (Chicago Tribune)

The terms of the international wheat agreement as given out in Washington indicate pretty clearly what those who talk glibly about the "century of the common man" really have in mind for the people of the United States and the rest of the world.

When the Atlantic charter was published, a good many thoughtful people concluded that it promised a return to a liberal world economy, an economy of free private enterprises and respon-

Common Ground

By R. C. HOLLES

"I speak the plain-word primer, I give the sign of democracy. By God! I will accept nothing which all cannot have their counterpart of on the same terms." —WALT WHITMAN.

MAXIMUM WAGES FOLLOW CLOSELY AFTER MINIMUM WAGES

It has been a relatively short time that the United States government has established a minimum wage below which no one dare work for industries engaged in interstate business and, under the new Supreme Court, most all industries seem to be interstate, no matter how little interstate business they do.

Now we are hearing definite demands for maximum wages. And if wages for those who produce less than they are obliged to get are in no way related to what they produce, then the public soon begins to believe that the big producers need not get all they produce.

In fact, it is impossible for the slow, inefficient worker to get more than he produces unless someone else gets less than he produces.

When we start the socialistic idea of minimum wages, it is only a question of time until all wages are regimented by the State. The reason the government regulating wages will not work, is that there are ten or a hundred ordinary persons to one genius. The ordinary persons out-vote the genius ten to one. Therefore, the genius does not get all he produces. Therefore he is not able to manage the things that he should manage, as he cannot manage what he does not own. And ownership is nothing in the end results, but management.

Yes, maximum wages shortly follow the socialistic idea of minimum wages. And every one suffers when every one does not get all he produces and all people are not permitted to help establish what each man produces.

HARSH WORDS

Some of my friends are constantly telling me that I use too harsh words against politicians, labor racketeers and religious racketeers. This charge was made against Thomas Paine in his "Age of Reason." Tom Paine's biographer, Moncure Daniel Conway, points out several cases where our great reformers and great leaders have been compelled, in order to arouse the public, to speak very harshly. He says:

"It is easily forgotten that Luther desired the execution of a rationalist, and that Calvin did burn a Socinian. The furious language of Protestants against Rome, and of Presbyterians against the English Church, is considered even heroic, like the invective ascribed to Christ, 'Generation of vipers, how can you escape the damnation of hell!' Although vehement language grates on the ear of an age that understands the real forces of evolution, the historic sense remembers that moral revolutions have been made with words hard as cannon-balls. It is only when soft phrases about the evil of slavery, which would pass away in God's good time, made way for the abolitionist denunciation of the Constitution, as 'an agreement with hell,' that the fortress began to fall. In other words, reforms are wrought by those who are in earnest."

The same author says, "Paine's book (referring to the 'Age of Reason') has done as much to modify human belief as any ever written. It is one of the very few religious works of the last century which survives in unsectarian circulation."

We need a Tom Paine now to arouse people as to the eventual results of our setting aside our Constitution, our universal, eternal rules and principles which Tom Paine so endeavored to establish in France, and which he believed would have prevented the French Revolution.

ONLY POSSIBILITY OF AGREEMENT There is no possibility of New Dealers, collective bargainists or socialists agreeing. This is true because they all have their own personal idea of what is desirable. While they won't admit it, they are in reality only desiring to exploit their fellowman in the name of freedom and justice.

Not so with the men of principle. A man of principle is not alone. Other individuals can have the same objectives and the same aspirations.

Our only hope of returning more nearly to peace, prosperity and tranquility is to adopt some universal, eternal principle upon which men can agree.

able free international exchange of goods. The assumption was a natural one, because under such a regime, in only a little more than a century, longer strides have been taken toward freeing the common man from want and fear than had been made in all the previous thousands of years of recorded history. There is still a long way to go, but there is no reason to suppose that the world will progress faster under rigid controls than in freedom.

Nevertheless those who are talking about the century of the common man are in reality planning a world of controlled domestic economy and of international trade quotas and cartels, if one may judge from the pilot model just unveiled. Export quotas are to be assigned. The basic export quotas for Argentina, Australia, Canada, and the United States would be 25, 19, 40, and 16 per cent respectively of the estimated volume of international trade in wheat. Maximum and minimum prices are to be set. The exporting nations bind themselves "to adopt positive measures to control production," or in plain English, to the AAA till the cows come home.

We are asked to believe that the common man will benefit from restricted production the way we know from experience that it is unrestricted production which has liberated from fear and want.

We are asked to believe that wider distribution is obtained by controlling markets than by freeing them, the the experience of the world tells the opposite story. We are asked to believe that export quotas are what we are fighting for when they are the central feature of Hitler's and Hirohito's economic policy.

The plan is being dressed up as a scheme for the relief of famine in war stricken countries but no such elaborate cartels of the wheat trade would be required for that purpose. Indeed, the Associated Press dispatch announcing the terms say the agreement is "designed as a first step toward the conclusion, after the war, of a comprehensive wheat agreement between all countries concerned in the international wheat trade."

They talk about the century of the common man but what they really have in mind is a strait-jacketed world bossed by politicians and busybodies.

Seversky's book telling how to win the war by air power probably will be read by everybody but the people he is trying to convince.—Portland Evening Express

One hears nothing these days of the old-fashioned watchdog of the treasury. It is supposed he was killed in the rush.—Detroit News.

BREAK THROUGH

Around Hollywood

By PAUL HARRISON

HOLLYWOOD, July 17 (AP)—A new actress at Metro, Esther Williams, is being introduced in an Andy Hardy picture. And, as is appropriate and decorative, the studio has included some swimming pool sequences. Miss Williams is an ex-natal A. A. U. champion and was a star of the San Francisco Aquatics. In a couple of bits of pink bathing attire, she looks capable of luring a whole fleet onto a reef, so imagine what she can do to the Mickey Rooney-Ann Rutherford romance.

Only trouble is—they won't let her swim. Haven't yet, anyway. For a week Miss Williams and Rooney have been monkeying around the edge of the pool, talking about love and stuff, and pretending to dry their hair. Actually Director George Seitz won't even let her dampen her handsome hair-do. These scenes are to be seen after she has emerged from the water, but in Hollywood realism seldom is allowed to intrude upon glamor.

TOUCHEY ROONEY

Muggey Rooney, who apparently has been leading a sedentary life lately, is painfully sunburned, and when the 21-year-old cut-up tries any juvenile devilry on the bronzed, marvelously muscled Miss Williams, she scratches him with a slap on the back.

The aquatic actress, who's almost a year younger than Rooney and several inches taller, made her first Metro screen test with Clark Gable, but she voiced a very practical acceptance of this movie debut in "Andy Hardy's Last Fling." She said: "Of course I'd like to play opposite Gable—but a woman of 35 can do that. By starting in this picture I'm identified as a youngster and people will accept me as a girl of 20, which is my age."

Her movie career so far has been marked with such sensible ideas. She made a few tests for various studios, but they were dramatical-ly bad and she knew it. When Metro approached her she said she'd never again go before a camera until she had learned to act.

TEST TERRIFIC

The studio offered to teach her. Esther Williams was given a year's contract which provided a salary with no obligation. She could study with the dramatic coach, Lillian Burns.

Louis B. Mayer, M-G-M boss, boosted her ambition by winning Gable's consent to work with her in a screen test. Carefully conducted, it showed she had plenty of what every studio wants. When "Andy Hardy's Last Fling" was being cast, the test she made with Rooney was so good it very nearly was incorporated in the actual picture.

Miss Williams was married at 18 to Leonard Konner, now a medical interne.

Nazi Subs Attack Big British Convoy

BERLIN (From German Broadcasts), July 17 (AP)—A special communique from Adolf Hitler's headquarters said today German submarines "attacked a strongly escorted British convoy off the west coast of Africa and sank six merchant ships aggregating 39,500 tons."

Other U-boats have sunk ten ships totaling 68,500 tons recently in the Atlantic, off the Mississippi and the Panama canal and one transport of 7,000 tons in the northern Arctic, the high command declared.

Crude oil production in the U. S. in one week of November, 1941, exceeded the entire production of petroleum in the first 11 years of the American petroleum industry, from 1859 through 1899.

Subsidies For Oil To Solve Rationing Of Gasoline In East

WASHINGTON, July 17 (AP)—Senator George (D-Ga.) said today responsible representatives of large oil companies had told him that payment of government subsidies to meet increased transportation costs soon would assure a sufficient flow of petroleum into eastern states to make gasoline rationing unnecessary.

At the same time, he disclosed that a federal "war service" tax of 1 1/2 cents a gallon on petroleum products had been suggested to absorb the cost of these subsidies. He added that if the treasury approved, he would lay the proposal before the senate finance committee, of which he is chairman.

Previously, Secretary of Commerce Jones announced that the Defense Supplies corporation would assist in financing transportation and distribution of petroleum products to the eastern seaboard.

A gasoline price increase of 2 1/2 cents a gallon, permitted by the Office of Price Administration in 17 rationed states, generally was expected to be cancelled when such subsidy payments become effective. However, a high government official, who asked that his name not be used, cautioned against expecting too much in the way of gasoline price reduction.

State's 100,000th Oil Well Dedicated

GREENVILLE, July 17 (AP)—Symbolic of one of Texas' greatest assets, the state's 100,000th producing oil well was dedicated yesterday 10 miles southeast of Greenville in the presence of public officials and oil men.

A gasoline price increase of 2 1/2 cents a gallon, permitted by the Office of Price Administration in 17 rationed states, generally was expected to be cancelled when such subsidy payments become effective. However, a high government official, who asked that his name not be used, cautioned against expecting too much in the way of gasoline price reduction.

In addition to Thompson, addresses were made by Olin Culberson, another member of the commission, and Henry Bell of Tyler.

WPB Dissolves Its Special Industrial Machinery Branch

WASHINGTON, July 17 (AP)—The war production board, in a further move to consolidate its overlapping units, has dissolved its special industrial machinery branch.

Simultaneously it was learned from WPB sources, who declined to make any official announcement, that John R. Kimberly, former assistant chief of the bureau of industry branches, was in line for promotion to chief of the bureau succeeding Philip E. Reed, whose transfer to London with the combined production and resources board was announced recently.

The head of the abolished special industrial machinery branch, Lewis S. Greenleaf, is slated to become special assistant to Kimberly, it was reported. Functions of the dissolved branch will be taken over by various existing units.

Pulp and paper machinery will be transferred to the pulp and paper branch and printing and publishing machinery to the printing and publishing branch.

Petroleum machinery will be removed from WPB's jurisdiction and assigned to the office of the petroleum coordinator.

The rubber in a tennis ball is equal to that in one roll of adhesive plaster used by the army.

So They Say

Our enemies will not be slow to make the most of anything that they can represent as evidence of divided purpose or uncertain resolution.

—LORD HALIFAX, British minister to the U. S.

The germs of totalitarianism exist within every nation and they must be destroyed physically and then the democratic system can operate successfully.

—ROBERT NATHAN, chairman WPB planning committee.

Freedom can not be defended in one region and neglected in another.

—ARCHBISHOP OF CANTERBURY.

Our task must be fulfilled without hatred. Justice and charity alone can bring peace. Justice alone can give us the proper fruits of victory.

—BISHOP JOHN F. O'HARA, former president of Notre Dame university.

Wage Stabilization Would Cause Fight Regarding Henderson

WASHINGTON, July 17 (AP)—Re-opening of the price control law to include wage stabilization almost certainly would start one of the bitterest fights congress had had in years, influential house members predicted today.

Such representatives said the fight would center around Leon Henderson, the price administrator, and that before it ended Henderson might find himself shorn of much of his present authority.

High-placed lawmakers have intimated that President Roosevelt soon might ask congress to put the brakes on wage and salary increases to combat the increasing threat of inflation.

Such legislation, if requested as an amendment to the price control act, would be subject to hearings and consideration by the house banking and currency committee. This committee worked out the price control bill last year and many of its members profess no particular love of Henderson.

Wolcott said he favored creation of an appeal board to hear appeals from Henderson's rulings and to serve as a safeguard.

One Dead, 6 Injured In Crash Of Bomber

SHREVEPORT, La., July 17 (AP)—An enlisted man was killed and six other persons injured late yesterday when a medium army bomber crashed and burned about two miles south of Barksdale field.

The plane crashed in a pecan orchard shortly after it took off. Killed instantly in the crash was Master Sgt. Harold J. Courtney, 37, a veteran army bombight specialist whose home was at Indianapolis, Ind.

War Has Brought America Largest Crop Of Marriages

WASHINGTON, July 17 (AP)—War has brought America its biggest crop of marriages.

The census bureau estimated that last year there were 1,679,000 weddings, which averaged 12.6 for every 1,000 population—7.3 per cent higher than 1940 and 22.1 per cent higher than 1939.

The previous record was 12 marriages per 1,000 population in 1920, following the return of the dough-boys from France.

Behind The News In Washington

By PETER EDSON

Stand by to be impressed. If you go out to where Washington's old Hoover airport and the Department of Agriculture experiment station used to be, you'll see a lot of building activity covering some 320 acres. Some time about mid-November, the war department will move out there, into the biggest office building on earth.

The building isn't in Washington proper, but across the Potomac river in Arlington, Va. Right now the building is a one-floor complex and 9,000 people are working there already.

There is no fooling about it being the biggest office building on earth. Empire State building in New York may be taller, Merchandise Mart in Chicago may be bigger, and many others may have cost more because of site and trim. But this new Pentagon building in Arlington tops them both for floor space, though it is only four stories high.

Why Pentagon? Because it's five sided. Why five sided? Because it can be approached from five directions, and each approach will give a full-faced view of the building.

Stretching this penta-nomenclature a little, the building is really five buildings in one—four buildings nested within one outer building in an ingenious, space-saving design that gives a maximum of light, air and convenience.

To get some idea of its size, start with the Yale bowl or some comparable six-acre stadium. That's about equal in size to the building. If you walked around it, you would be covering 4,605 feet, or almost a mile. In still other words, if you took all five of these nesting "wings" and stretched them out in a straight line, you would cover approximately three miles long.

The two parking lots for this Pentagon will accommodate 8,000 cars. The system of roadways, underpasses and cloverleafs necessary to get the traffic away from this building without congestion at rush hours necessitates the building of 21 bridges.

There will be six cafeterias—world's largest, of course—capable of serving anywhere from 50,000 to 100,000 meals a day and getting the people back to work in a normal lunch hour.

Supplementing these main eateries will be six snack bars. The building will be completely air conditioned, with its own sewage plant, its own powerhouse generating heat and power and light and everything needed to keep it going except its water system, which will be tied in with the Washington system.

Today's War Analysis

By DEWITT MACKENZIE

Wide World War Analyst

There can be no dispute with the assertion by Major General Zhuravlev, military expert for the Moscow News, that the German command is trying to defeat the Red army before a second front can be opened in Europe," although that isn't the only reason for Herr Hitler's speed.

The second-front problem, involving as it does a water-borne invasion, presents more difficulties than a porcupine does quilts. The fact that the Allied leadership hasn't yet attempted an invasion of Western Europe ought to make it clear that this has not been possible. Our eagerness to help gallant Russia in her magnificent stand, and to smash Genghis Hitler, should not be allowed to upset our perspective. After all, the Allied command is just as anxious to win this war as the man in the street.

I am reverting to this subject again because it strikes me that the public pressure which is being aimed at all the Allied governments to compel an opening of a second front is a dangerous thing. The governments already have agreed that this front shall be opened as soon as feasible, and this is no time for civilians to try to force the hands of military leaders. When a surgical operation is to be performed you call in a specialist—and military decisions must be left to the professional soldiers.

Personally I've had a strong hunch recently that it wouldn't be long before there was an Allied invasion of Western Europe. That feeling, which still persists, isn't based on official information—it's just a hunch. However, if this unprecedented operation were undertaken without proper preparation it might produce an Allied disaster which would end the war then and there.

And don't forget this: If things went wrong with this great adventure, there would be a long line of Yankee boys, and other Allied boys, who wouldn't be coming back home. The chances are that the second front isn't so very far in the offing. And should the Russians suddenly be faced with disaster, the Anglo-American invasion undoubtedly would be speeded to meet the crisis. As things stand now, however, while the position of the Red armies is serious they continue to fight a masterful battle.

Judge Peter Sets Bond At \$10,000

NEW YORK, July 17 (AP)—All Frank Deutsch is accused of stealing is a set of false teeth and two 25-cent war stamps, but Kings County Judge Peter J. Brancato set bail at \$10,000 and held him for trial.

An old customer of ours," remarked the judge, quadrupling Deutsch's original bail on recognizing him as a prisoner he had sentenced to jail in 1938 for unlawful entry and noting further that Deutsch's record showed 10 arrests and four convictions since 1925.

never have more than three flights of stairs to navigate.

WASHINGTON PENTAGON

Cost of the war department's new Pentagon building headquarters in Washington will be around \$36 million, but it will save the government \$4 million a year now being paid for rent

Market Briefs

NEW YORK, July 17 (AP)—Relatively meager offerings today were sufficient to stall the props from under many stock market leaders.

Arguments for inflation and deflation were about even-up and, with indications the administration would press for a stiffer tax bill in the senate, especially for corporations, and might urge wage-price legislation, speculative and investment forces found little in the way of buying inspiration. Sentiment was derived from the Russian war news. The usual lightning of commitments for the week-end was a handicap.

Transfers were around 300,000 shares.

Weakness of major commodities helped chill securities. Chicago wheat was off 1 1/2 to 1 3/4 cents a bushel and corn down 1/2 to 3/4 cts. Cotton, in afternoon trading, was a lower by 95 cents to \$1.05 a bale, bonds were shaky.

Prominent in the downward drift were U. S. Steel, Bethlehem, General Motors, Chrysler, American Can, Westinghouse, DuPont, Allied Chemical, Sears Roebuck, U. S. Rubber, Texas Co., Standard Oil (N. J.), Santa Fe, American Telephone, Anaconda, U. S. Gypsum, and Johnson & Johnson.

Oliver Farm and White Rock edged into new high ground for the year. Bids were forthcoming for Atlantic Coast Line, Southern Railway, Cranes Co., Columbia Gas, Owens-Illinois, Western Union, and Postal Telegraph preferred.

O'Daniel Claims War Not An Issue In Senate Race

By J. B. KRUEGER

DALLAS, July 17. (AP)—Senator W. Lee O'Daniel struck back at charges of isolationism last night, telling a Fair park crowd that he as the father of a soldier-son was putting his soul into the fight to help win the war.

Dan Moody and James V. Allred, "without any boys in this war," should have sense enough—"if not smart enough"—to know, he said, that the president commands the army and navy, which is doing the fighting, and that the war is not an issue in this campaign.

Nevertheless, he said, he has worked persistently to curb strikes in war industries; he failed to get his anti-violence labor bill passed, but the furor his efforts created forced the "Communist labor leader racketeers" to agree to call off all walkouts and now the country is in this campaign.

He said, however, he might modify or withdraw his amendment since it appeared that current restrictions hampering development in the Illinois fields might be eased without legislation. A nationwide regulation now limits drilling to one well for each 40 acres.

Senator Vandenberg (R-Mich.) is an outspoken opponent of the Lucas proposal, contending that the senate lacks the technical knowledge to say how closely oil wells should be spaced.

Majority Leader Barkley said the barge-pipe line bill probably would be called up today after final action on the \$1,857,000,000 supplemental defense appropriation.

Great interest in the measure will center upon the \$44,000,000 proposed for construction of a high-level barge canal across the upper part of the peninsula.

Crippled Sub-Chaser Fights Axis U-Boat

MIAMI, Fla., July 17 (AP)—The navy today released the story of how a game sub-chaser crew, with one engine of their craft disabled, made an attack on a submarine and then limped into port with her seams open.

The disclosure was made while Secretary Knox made an inspection of the sub chaser school here.

A new crew of a new patrol chaser, spotted a submarine in Florida waters, and Lieut. Com. F. E. McDaniel, commander of the school.

As the chaser rushed in to drop the first depth charges one of the engines broke down and the speed was cut to 10 knots—too slow for the boat to race away from the concussion of the underwater explosions.

But without hesitation, the skipper went ahead with the attack and the crew tossed over the charges.

The explosions opened up the seams of the chaser, but the skipper kept the boat circling until every charge aboard had been dropped.

Leaking badly, the chaser made for port. The crew moored her at the Miami dock and the commander reported the attack, adding:

"By the way, I'm afraid the chaser is sinking."

A tug managed to get the slim craft into drydock before she went under.

HD Agents Meeting Held At Wheeler

Special To The NEWS

CANADIAN, July 17—Miss Vivian Winston, Hemphill county home demonstration agent, attended a group meeting of food specialists in Wheeler county.

Home demonstration agents from Lipscomb, Childress, Gray, Hemphill, and Wheeler counties attended.

Miss Winifred Jones and Miss Grace Neely, food specialists from Texas A. & M. college, College Station, were the speakers.

Army Air Corps Has Best Safety Record

WASHINGTON, July 17. (AP)—The war department reported today that the army air forces have the best safety record of all the world's military air organizations, with an accident rate of 68 per cent below the army's rate for 1930 and 10 per cent below the 1930-40 army average.

Records show, the department said, that better than 80 per cent of the air force accidents are caused by personnel failure, and especially attention is being paid to takeoffs and landings in an intensive campaign to lower the accident rate as the bulk of the accidents involved them.

Secretary of War Stimson also made the following announcements:

A battalion of Norwegian soldiers, including citizens of Norway living in this country and Americans who speak Norwegian, will be organized at an onset date at Camp Ripley, Minn., to serve with the army's ground forces.

Soldier first aid kits now contain five grams of crystalline sulfanilamide each for sprinkling on wounds for a protection against infection as well as tablets of sulfanilamide to be taken internally.

The army needs nearly 20,000 additional doctors by the end of this year, and is setting up nine new medical officers' recruiting boards to enlist them.

BUY VICTORY BONDS

Lauchlin Currie To See Chiang Kai-Shek

WASHINGTON, July 17. (AP)—Lauchlin Currie, administrative assistant to President Roosevelt, has arrived in Chungking to consult on war problems with Generalissimo Chiang Kai-Shek.

Currie visited China once before, on an economic and military mission prior to this country's entry into the war. He became the principal liaison agent between the Chinese and American governments.

His current trip came at a time when Japanese armies were increasing their pressure on the Chinese and signs of uneasiness were developing in China, apparently from a fear that the United Nations were more concerned over the European and African phases of the world war than over the Asiatic aspects.

Class In Mechanical Drawing Starts Soon

A class in architectural or advanced mechanical drawing to help men prepare themselves for civil service examinations and defense jobs will be conducted here if there is enough demand, according to W. H. Galloway, coordinator of diversified occupations.

If as many as 12 men sign for the course, application will be made to local and state authorities for permission to conduct the classes.

Persons interested in the course must contact Mr. Galloway by calling him at 143J or by writing to him at Box 999, Pampa, by Monday.

The state supervisor will be in Pampa next month.

Oil Company Builds Plant With Junk

TULSA, Okla., July 17 (AP)—A big lubricating oil plant built almost entirely of junk has just been completed by the Mid-Continent Petroleum corporation.

While the exact description of the plant is a military secret, company officials disclosed today that engineers searched the junk piles of eight states to obtain the scrap metals and the obsolete and second-hand equipment used in its construction.

By using this salvage, Vice President F. G. Koontz estimated that Mid-Continent saved the nation enough steel to build 36 big tanks of 5,500 anti-tank guns and enough new iron to make 390,000 hand grenades and 24,000 field mines.

The company's achievement brought congratulations from Wright W. Gary, director of refining for the office of petroleum coordination.

A staff of engineers headed by E. M. Dons, formerly chief engineer of Mid-Continent's big refinery in West Tulsa, began accumulating junk for the new plant in March, 1941.

They poked through every important junk yard in Oklahoma, Missouri, Illinois, Texas, Louisiana, Arkansas, Kansas and Indiana.

Hundreds of tons of second-hand iron and steel was reclaimed. Oil equipment, such as compressors, exchangers, towers and drums, was redesigned and made to fit into new lubricating processes.

IT IS OUR SINCERE BELIEF THAT IN PROPORTION TO ITS SIZE NO OTHER OIL ORGANIZATION IN AMERICA IS CARRYING ON GREATER, ESSENTIAL WAR PRODUCTION THAN THE PHILLIPS PETROLEUM COMPANY

K. S. ADAMS
President

FRANK PHILLIPS
Chairman of the Board

Phill-up with Phillips for Greater Mileage

In the peacetime laboratory, the symbol of research is the test tube. Sooner than we now expect, it may well serve as the symbol of victory.

In search of product betterment, Phillips scientists have engaged in never-ending study and experiment. The benefits have flowed to car-owners in improved fuels and lubricants, at prices which gave ever-increasing value for the money.

Now, the work goes on at an accelerated pace because every facility, and the know-how painstakingly acquired through the years, are dedicated to winning the war.

Just as certain as peace with victory... is the fact that, when peace comes, Phillips 66 motor fuels and lubricants for your car will be better than ever.

SERIAL STORY MURDER IN FERRY COMMAND BY A. W. O'BRIEN

G-MEN IN ACTION CHAPTER IX INSIDE the letter addressed to John Dezel Clyde Dawson found a white slip of paper bearing a set of fingerprints. Accompanying it was a brief note: "John," it stated simply, "these are Statter's prints. I believe you will find the thumb print corresponding to the print found on the filing cabinet." Paul...

Col. Thompson's Former Officer Backs Candidacy

SAN ANTONIO, July 17—As the dominant figure in the oil industry today, Col. Ernest O. Thompson should guide Texas' flow of oil to the Allied war effort, Gen. Claude V. Birkhead, former commander of the 36th division, Texas National Guard, believes. As the former commanding officer of the present chairman of the railroad commission, Birkhead paid high tribute to Thompson both as a soldier and a statesman, in a radio address over the Texas Quality network here last night.

40 Per Cent Rise In Infant Mortality In Occupied Countries

LONDON, July 17 (AP)—A 40 per cent rise in infant mortality over normal in German-occupied Europe was reported today by the British Public Health Service, a fact-finding organization of churchmen. On the basis of first-hand reports, it likened the suffering from lack of food, clothing, shelter, and medical care in occupied areas as well as other em-battled nations on the continent with the situation after four years of the First World War.

Auditor Finds Old Age Assistance Records Correct

AUSTIN, July 17 (AP)—State Auditor C. H. Cavness reported today after his current examination of the records, that in his opinion all taxes collected for the old age assistance fund have been properly handled by the state comptroller and state treasurer and that every individual old age assistance applicant who has been duly certified by the state department of public welfare has been paid in full the entire amount to which he is legally entitled to date.

Slayer Of Melbourne Women Found Guilty

MELBOURNE, Australia, July 17 (AP)—Pvt. Edward J. Leonski, former New York City grocery clerk, was convicted by a United States military court today of the slaying of three Melbourne women and was condemned to death by hanging. The 10-member tribunal debated barely 50 minutes before announcing its verdict, which is subject to review by the commanding general of the United States armed forces in Australia.

FUNNY BUSINESS

"So when he stooped over I gave him a swift kick-- but I didn't know he was a colonel!"

"Crook!"

Nazi Onslaught Brought To Standstill Before Voronezh

By CLYDE A. FARNSWORTH
Associated Press War Editor

The Germans, at a bloody standstill if not in actual difficulty before Voronezh, were reported today to be losing the initiative there, but further south, in a zone of deeper penetration eastward, they rolled like a tide across the Caucasian grain fields—perhaps a million strong.

The Russians, harassed from land and sky, fell back fighting eastward toward Stalingrad on the Volga and southward toward Rostov on the Don.

At Voronezh, on the northern flank of this blazing 300 mile front, the chance of a successful side diversion, against the Caucasus offensive, rested in the balance of a bloody struggle in which the Russians said they had cracked through two lines of their besiegers.

The battle of Russia was running to the Red army's favor in a nine-to-four ratio of manpower losses, according to official Russian statistics for the past two months of combat.

A roundabout report under German sponsorship said that Joseph Stalin, for whom Stalingrad was named, had joined the chief of the Russian general staff at the Volga city to take personal direction of the defense.

Subsidiary war developments elsewhere included:

Egypt—The British eighth army has been fighting off violent German-Italian attacks on newly won advance positions in the center of the El Alamein line and a great battle of armored forces still rages.

Britain-Germany—Sunset raids, combining advantages of daylight for attack and the cover of night for return, were launched yesterday against Germany. Britain's mammoth, four-motored Stirlings raided shipyards in Flensburg and attacked submarine building yards at Luebeck to halt reconstruction necessitated by a devastating assault on March 28. Both Flensburg and Luebeck are on the Baltic.

The report that Stalin had taken charge at Stalingrad, according to word which reached Stockholm through German-controlled channels from "an absolutely reliable source in Ankara," was linked in the same dispatch with word that strong reinforcements from "the newly formed central Asiatic army" were concentrated there.

There was no confirmation from Moscow, and the Stalin report might be merely a bit of fiction based on the facts that Stalingrad is gravely menaced, that it is not likely to be yielded without a terrible struggle and that Stalin, as both premier and defense commissar, has personally directed Russia's year-old battle with Germany.

But there was a chance that a defense of Stalingrad in its immediate environs may never be necessary. Two German spearheads, at least one of which is well inside the north Caucasian area at Millerovo, are still about 175 miles west and northwest of that major goal.

The fate of Voronezh on the exposed flank of the Germans' eastward bulge may in turn decide the fate of the German offensive further south.

"In some sectors of the Voronezh front the initiative has passed into Soviet hands," the Russians declared in today's communique, reporting that the fight there had

Spaatz Gives British Queen His Rain Coat

LONDON, July 17 (AP)—Maj. Gen. Carl Spaatz, commander of U. S. Army air forces in Europe, is no less gallant and considerably more practical than Sir Walter Raleigh.

Sir Walter, 360 years ago, threw his coat on a mudpuddle for Queen Elizabeth to step on.

Yesterday, when the present Queen Elizabeth was visiting the American Air forces, it began to rain. General Spaatz shed his coat and placed it over the Queen's shoulders with the remark:

"Your majesty, this makes you a major general of the American Air forces."

Many Germans And Italians In Army

BAITIMORE, July 17 (AP)—Earl G. Harrison, newly confirmed director of immigration, disclosed today that, as far back as February, 60,000 Italian nationals and 8,000 Germans in this country had husbands or sons serving in America's armed forces. He addressed the national association of secretaries of state.

Urging that the "overwhelming majority" of non-citizens who are loyal to America and its cause and "are eager to assist in the war effort" be given the opportunity, Harrison reported that approximately 93,000 German Italian and Japanese aliens applied for certificates of identification during February.

He said the median age of the alien population was 50 years, compared with 28 years for the citizen population.

gone on through another night. "The Germans are on the defensive."

"In the Voronezh sector fighting continues with the same ferocity as before," the communique went on. "Numerous attempts of the enemy to press forward are failing. The battlefield is littered with German corpses and dozens of burned out enemy tanks."

Such was the story of Voronezh, the Germans' principal if not only bridgehead on the eastern, or Volga, side of the Don river, which the Germans more than a week ago claimed had fallen to them.

This optimism-tinged report came as a sequel to the official Moscow announcement that the Germans were on the losing end of a nine-to-four ratio in casualties.

From May 15 to July 15, said last night's special communique, the Germans lost in dead, injured and captives no less than 900,000 troops against 399,000 for the Red army. Of the German casualties 350,000 were said to be dead.

RAF Blasts Nazi Submarine Bases

LONDON, July 17 (AP)—A force of Stirlings, Britain's biggest four-engine bombers, struck at Germany before the fall of darkness last night in attacks on submarine building yards five miles from hard-hat Luebeck and on shipyards at Flensburg, near the German-Danish border.

The raids carried to a climax daylight attacks yesterday on objectives in Germany which opened with single-plane assaults on points in the Rhur.

Details of the Luebeck and Flensburg attacks were meager but an air ministry communique said the bombs were seen to burst in yards and shipyards of the submarine building yards near Luebeck.

Two of the bombers were reported missing.

"The Berlin radio broadcast a DNB report that German aircraft dropped heavy bombs on aircraft factories at Leamington, near Warwick, England, causing heavy damage to assembly shops."

The major target in the Luebeck area was identified as the Flenderwerke, a medium-sized shipyard. Official British circles said "as many as 15 submarines have been reported on the slips or fitting-out at one time" there.

British air observers said the new tactic, of striking late in the long summer day gave the raiders the advantage of daylight for precision bombing and the cover of darkness for return to their home bases.

—BUY VICTORY STAMPS—

Rattlesnakes dine entirely on warm-blooded creatures, such as mice, gophers and rats.

HERE IS THE FIRST GROUP of men Gray county sent to an induction station for military service, under the selective service act. They left here November 23, 1940, for Lubbock.

It is in honor of these men and of the hundreds of others of Gray county men who have followed, that Pampans are asked to make American Heroes day a truly patriotic event, by buying Victory bonds today and dedicating bonds to their particular hero—a father, son, husband, or sweetheart in the armed forces. All in the group above are volunteers: left to right, A. T. Humphrey, Herbert Medlock Brady, Merl William Pike, Donald Odell Gaskins, Nicholas Matina, Leo Carlos Fletcher, assistant leader of the group, and Albert Mayse Nash, seated at desk, leader.

Lend-Lease Aid Hits New High

WASHINGTON, July 17 (AP)—President Roosevelt disclosed today that lend-lease assistance to the United Nations and other countries eligible for aid reached \$708,000,000 in June, the highest monthly total yet.

This compared with \$662,000,000 in May and brought the total since lend-lease assistance was inaugurated, March 11, 1941, to \$5,205,000,000.

The president told a press conference that of this latter sum, 59 percent was accounted for by goods actually transferred, that is, exported or at points of embarkation in this country. Articles in process of manufacture accounted for 24 percent and services here and abroad represented 17 per cent.

Negroes Can Play In Majors Landis Says

CHICAGO, July 17 (AP)—Judge Kenneth Mountain Landis, commissioner of baseball, ruled today that the Brooklyn Dodgers were obligated to pay the purchase price for Don Padgett, an outfielder, despite the fact Padgett joined the navy shortly after the Dodgers bought him from the St. Louis Cardinals.

Brooklyn had asked that Padgett be transferred to the national defense service list of St. Louis and that the Dodgers' obligation to pay the consideration due St. Louis for his contract be canceled.

Ickes Sees Huge Steel Pipe Roll

LORAIN, O., July 17 (AP)—Petroleum Coordinator Harold L. Ickes came here today to witness the making of "the largest steel pipe ever manufactured for the transportation of oil" and said he hopes steel may become available to extend the forthcoming Texas-Illinois line to New York.

Describing operations "which are going forward today in this great mill of the National Tube company," Secretary Ickes declared it "is making the largest steel pipe ever manufactured for the transportation of oil—24 inches in diameter. One hundred miles of the pipe will be made this month and 160 miles next month."

"By early November the total will be 450 miles. A month later this 550 miles will be in the ground, carrying 300,000 barrels of crude oil daily out of Texas into Illinois—more oil than has ever been carried by any other pipeline ever built anywhere in the world. From Illinois most of this oil will be transported to the East by railway tank cars, river barges and tankers on the Great Lakes."

Ickes, who was joined in his broadcast (NBC) by W. Alton Jones, president of the War Emergency Pipeline, Inc., reviewed his earlier unsuccessful efforts to obtain steel for a Texas-New Jersey pipeline and said:

"It was only because I realized the importance of oil, both for the war and for the prevention of severe civilian hardship, that I continued to plead for the steel which eventually was granted. Now we have it or part of it."

Ickes was accompanied by Ben F. Fairless, president of National Tube's parent, the U. S. Steel Corp., and B. F. Harris, National Tube president. The \$35,000,000 line will run from Longview, Texas, to near Salem, Ill.

Jones disclosed "we expect to start laying the pipe by the end of this month, probably at the south end," adding that "the work will be in progress on several sections simultaneously as soon as all the contracts are let."

—BUY VICTORY STAMPS—

To feed and clothe the troops in one army corps area requires 98,000 miles of highway and 131 miles of government-owned railways connecting 20,000 buildings of nearly 2,500,000 acres of military reservations.

Two Wounded In Painters' Union Brawl

CHICAGO, July 17 (AP)—Two bosses of Chicago's brawling painters' union were wounded and the wife of one of them was killed in an exchange of gunfire early today.

Mrs. Loretta Youngblood, 39, was dying of a bullet wound in the breast when police arrived at her west side home. In another room, shot through the right arm, was her husband, Charles, one of the leaders of local 147 and a member of the painters' district council.

Detective Marvin Nelson said the Youngbloods told him they had been shot by Arthur Wallace, secretary and treasurer of the painters' district council No. 14.

About an hour after the Youngbloods were fired upon, Wallace was found lying on the lawn of the Franklin Boulevard hospital. He had been shot in the abdomen, but he refused to tell them who wounded him.

Picking together the events preceding the shootings, police learned that Youngblood and Wallace had attended a meeting of the council last night and had been seen talking together quietly. Later the Youngbloods visited a tavern.

They had been home about five minutes Nelson said Youngblood told him, when the doorbell rang. Mrs. Youngblood answered it, and "they came in."

Apparently the shooting began at once, Nelson said.

Capt. Daniel Gilbert, chief investigator for the state's attorney's office, commented that Youngblood, 53 years old, had been a "bone of contention" in the union for some time.

The Youngbloods were shot once before by unidentified gunmen who ambushed them in a dark street the night of March 15, 1939.

—BUY VICTORY BONDS—

Of the 28,000 railroad passenger cars in the U. S., 14,000 are coaches, 4,500 sleepers, 4,400 baggage-and-coach cars, 700 parlor cars and 500 lounge cars.

Incorrigibles To Be 'Isolationists'

DALLAS, July 17 (AP)—Incorrigible convicts soon will be placed in isolation cells at Eastham prison farm No. 1, it was disclosed in connection with a plan to abandon Eastham farm No. 2 on the Trinity river, where the convicts now are confined.

In making the announcement yesterday, Col. William George Gilks, state prison board member, commented that confining the incorrigibles in tanks by themselves "has failed, but isolation cells will be the answer for these men."

He said the cell block and isolation system has been approved by penologists, whereas the farm and tank plan gives the men too much time for scheming and proselyting among the younger convicts.

—BUY VICTORY BONDS—

Building Trades Walkout Threatened

PITTSBURGH, July 17 (AP)—A walkout of members of AFL building trades unions threatened today to halt construction on more than \$100,000,000 worth of war construction jobs in this steel and industrial center.

Business Agent W. D. Cashdollar of the United Brotherhood of Carpenters & Joiners said the walkout began yesterday, the workers protesting that the war production board refused to authorize a 25-cent-an-hour pay increase.

He said the walkout was unauthorized and spread so rapidly that all work on the vital projects in this area may be halted.
