'Whispering Campaign' Being Waged Against Him, Says O'Daniel

(By The Associated Press)
Campaigners in the race for U. S. senator from Texas set in their next to last speeches Thursday as Senator W. Lee O'Daniel goes to Henderson, Lufkin and Huntsville, Dan Moody to Gonzales, Austin and Fort Worth and James V. Allred to Houston.
O'Daniel charged at Mount Pleasant last night that a "whispering campaign" had been started against him and that "any new and extra slander that may be brought out should be disregarded."
One of his opponents, the senator declared, said O'Daniel couldn't "wear a scissor-tailed coat," and that he lacked the "social graces." He said the whispering campaign consisted of charges that he "had no interest in winning the war."
"I'm fighting this war to a successful conclusion so that it will be a war to end all wars," he asserted. Allred, speaking at Austin, challenged his hearers to "write and ask the boys in the service if the war is an issue in this campaign."
Allred was cheered when he called O'Daniel "a defeated and desperate man" and when he referred to the senator and gubernatorial Candidate Hal Collins as the "Siamese Twins."
He deplored what he described as

"the desperate effort of the junior senator to becloud the issue by wild charges affecting my honor and integrity" and said this was "the same character of campaign being conducted for the senior's twin candidate for governor against Coke Stevenson."

Moody spoke at San Antonio, where he said "this matching of Allred tenor and the O'Daniel soprano is a type of campaigning that went out of style on December 7."

He contended that the seriousness of the times dictates a thoughtful discussion of methods for winning the war and the peace, but "Senator O'Daniel is conducting his campaign with the aid of a troupe of comedians and a hired orchestra," and Allred "is traveling about with a song leader and his political rallies are advertised as sing-songs."

Moody reiterated his attack on O'Daniel's vote against extension of the selective service act and said of Allred's record of governor:

"It was the disappointment of Judge Allred's administration and his political activities that opened the way for Senator O'Daniel's election on the slogan that he opposed the professional politicians and that he would see that equal pensions were paid to all alike."

—BUY VICTORY STAMPS—
Copper mines in South America will receive larger quantities of operating and maintenance materials, under terms of an amended priorities order. Total of goods which may now be acquired is now three times that shipped during the base period of April 1 to Sept. 30, 1941.

9 Good Reasons
Why Friends of
CAL ROSE
Think He Should Be
RE-ELECTED SHERIFF:

1. He is a trained Peace Officer.
2. He not only is known in Gray County as a fearless and efficient Peace Officer but enjoys the confidence of Peace Officers throughout the State and entire Southwest.
3. He has attended all F. B. I. schools at his own expense and is thoroughly acquainted with their latest methods in handling espionage, sabotage and other law infractions.
4. He has worked day and night for the past 4 years making our city and community a safer place in which to live and rear our families. (Examine the Court Records for verification.)
5. He is a friend to our youth and has done his utmost in the past to keep our boys out of trouble and we believe he will continue this policy in the future.
6. He has never been associated with any "clique" or group that is opposed to good government and will, therefore, continue to enforce all laws without fear or favor.
7. His honesty has never been questioned by those who know him best.
8. He is both mentally and physically capable of performing the duties that the Sheriff's office requires.
9. With the influx of population (bringing both desirable and undesirable elements) that the county will experience during the next few months it is imperative that the Sheriff's office be in charge of one whose past record proves that he is experienced, capable, honest, sober, and ambitious and we know that he has all these qualifications.

CRIPPS

(Continued from Page 1)
 consolidated inching gains of yesterday.
 The weather spared Germany from RAF attack during the night but the Germans struck at England in somewhat stronger fashion.
 There were casualties and some property damage in the night raids over East Anglia and southern England and the Germans lost one plane. By daylight today a single plane laid a stick of bombs across the shopping center of an east coast town killing a number of civilians, while other raiders were active over other parts of eastern England and the eastern Midlands.
 The Hitler command said that German and Slovak troops—part of the million-man offensive—had penetrated fortified bridgehead positions in front of Rostov and reached the outskirts of the city. Since Rostov lies on the north bank of the Don, near the mouth, not shielded by the river, the Germans evidently meant that they had crossed a tributary of the Don which curves half around Rostov to join the Don on the east.
 Stalingrad likewise was the potential target of at least three drives, the closest being still short of the Don but near the border of Stalingrad province 80 miles away and astride the Likhaya-Stalingrad railway.
 By the bright light of the half-moon Russian bombers and fighters lashed last night at the long columns of German reinforcements moving across the grainfields of the Don bend, said a Russian dispatch, but they still showed no sign of halting the German advance.
 In the Voronezh area, 300 miles north of Rostov, Russian forces were fought through streets literally paved with enemy dead in mopping up one "large settlement" south of the city where 6,000 of the foe were reported fallen. Russian counter-attacks on the German north wing were said to have accounted for 9,000 more German fatalities.

CAN'T KEEP GRANDMA IN HER CHAIR

She's as lively as a Youngster—
 Now her Backache is better
 Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.
 The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.
 When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.
 Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney troubles flush out poisonous waste from your blood. Get Doan's Pills.

3 advantages for men 18 and 19

PICK YOUR OWN BRANCH OF THE SERVICE
 The Army offers you men of 18 and 19 a special opportunity—the right to choose your own combat branch:
 Air Force Cavalry Corps of Engineers Infantry
 Armored Force Coast Artillery Field Artillery Signal Corps
 Or you can qualify as Aviation Cadet. If you are under 20, you can choose. After 20, this is no longer possible, except for certain specialists.

GET A HEAD START IN TRAINING
 Enlist right away. Show your intelligence and leadership and you can qualify for an Officer Candidate School. There are no scholastic requirements. Start learning your way up in the branch of combat service you pick for yourself. If you earn a Second Lieutenant's commission before those who delay entering the service, you will find yourself in command of men your own age and older who didn't enlist when you did.

ACTION! ADVENTURE! BEST PAY AND EQUIPMENT!
 Right now is the best time to start learning. There's action ahead and adventure—fighting with the best equipment on earth. No soldier in the world is better paid than you will be while you're training. \$50 a month to start. Advancement is fast. You can make up to \$138 a month as an enlisted man without prior service. The initial pay and allowances of a Second Lieutenant are \$216 if single, and \$252 if married. Your Army Recruiting and Induction Station has literature and information. Drop in and talk it over. Discuss it at home. There are lots of reasons for enlisting before you are 20.

U. S. ARMY RECRUITING AND INDUCTION SERVICE
 Post Office Bldg., Rm. 10-12, Pampa, Texas
"KEEP 'EM FLYING!"

WAR BULLETINS

LONDON, July 23 (AP)—United States army officials permitted the disclosure today that new contingents of American pilots, ground crews, negro troops and other forces whose presence in Northern Ireland was announced two days ago, arrived on a large convoy—one of a series which has been bringing forces for a potential invasion of Europe. The exact composition of the new-arrived forces and the date of the convoy's arrival were a military secret, but the new force was one of the largest brought to Britain since the first arrival of United States forces in Northern Ireland was disclosed Jan. 26.

WASHINGTON, July 23 (AP)—An Office of Price Administration spokesman said today that OPA was "considering" the feasibility of establishing price ceilings on live hogs, despite complicated administrative problems involved. Until recently, the spokesman said, OPA has been opposed to such a ceiling because of the manifold difficulties in attempting to fix margins at which meat packers may operate.

You Can Enlist In Navy Up To Date You Are To Be Inducted

Even if selective service has marked you for the army, you can still enlist in the navy up to the date you are to be inducted, and it won't be necessary for you to secure a release from the draft board.

C. M. Norman, in charge of the U. S. Navy Recruiting station at Amarillo, stated today: "If you desire to serve your country in the United States navy make your application and be enlisted by the date you are to be inducted."

BUY VICTORY STAMPS

In the national forests of Texas, the federal government has constructed 11 100-foot lookout towers and 800 miles of telephone line for fire control work; five dams and recreational areas around the resulting lakes, and 800 miles of forest roads.

WEIGHT LIFTERS—Prime physical condition is essential for an air corps bombardier. These bombardier cadets at the Midland Army Flying school,

Texas, use bombs in setting-up exercises. **FRUITFUL LESSON**—Those model ships represent a Jap task force. Instructor, right, holds

BOMBSIGHTING—Bombardier students learn to use the famous bombsight on the anti-mated "high chair" seen silhouetted between the doors of a

hangar. Hits and misses are accurately recorded. **TICK SHOT**—Skimming in over the top of a 30-foot pyramid target "shack," the student bombardier drops an "egg" a few feet short so that, as arrow indicates, it hits the ground and ricochets.

MEET THE LAD WHO'S MAKING IT TOUGH FOR THE AXIS--THE U. S. BOMBARDIER

By NEA Service
MIDLAND ARMY-FLYING SCHOOL, July 23—Blitzkrieg . . . Tokyo . . . Cologne . . . Essen . . . Mediterranean . . . the Coral sea . . . Midway . . . Rumania—yes, and even Pearl Harbor. If all these have one thing in common it is that they are signposts on the road to one conclusion: this is the day of the bombardier.

Uncle Sam knows it—and that's why he has here the world's largest bombardier training center, with a program that calls for a minimum production of 25,000 skilled bombardiers in one year.

On the broad plains of West Texas, he is turning out trained "egg layers" on a mass-production basis, with a new class graduating every three weeks and heading for tactical units.

THEY GET PLENTY OF BOMB PRACTICE

For months now cadets, flying in relays on practice bombing missions,

have maintained a ceaseless day and night barrage over target ranges greater in combined area than the entire state of New Jersey.

Lieutenant Colonel Richard W. Smith, director of training here, has estimated that in this continuous aerial blitz the daily average number of bombs dropped rivals that which the Luftwaffe was able to keep up for only three weeks during the devastating raids on London in the fall of 1940.

United States military leaders are taking great pains in choosing just the right men for the exacting task of dropping bombs. Obviously not everybody can be a bombardier. The man who will have the personal satisfaction of blasting a Berlin rail center, a Tokyo munitions dump or softening up German coastal fortifications for the long-awaited invasion of Europe must have special qualifications. He is chosen as carefully as the British pick their famed Commandos.

To understand the necessity for such careful selection, visualize the bombardier in action.

He sits in the glass-walled nose of the bombing plane in front of the pilot. Between his knees is the mysterious bombsight, with its maze of dials and knobs. He is bundled in fleece-lined clothing, fur-lined boots on his feet, a fur-lined cap on his head and an oxygen mask clamped on his nose, for his mission takes him miles above the earth in the freezing stratosphere.

HIS COORDINATION MUST BE TOPS

Yet encumbered as he is by this heavy clothing, he must be able to execute delicate manipulations with the bombsight controls swiftly and precisely. He must have perfect muscular control for this exacting job. His mind must be clear, and his attention must not falter for an instant as he approaches the target.

To maintain perfect health, the bombardier's diet is supervised carefully. They cannot become lanky or drowsy while on the job.

But in addition to his physical attributes, the bombardier must also possess certain mental and emotional traits.

"In probably no other branch of the service," says Brigadier General Faith Davies, commander of the Midland school, "is greater emphasis placed upon personal integrity and moral character. For to the bombardier the United States intrusts one of its most precious secrets—the famous bombsight."

When a man enters the AAF as an aircrew cadet, he first takes a series of tests which determine the type of work to which he will be assigned. These examinations, prepared by a group of eminent psychiatrists, serve as a sort of screening process.

The amazing accuracy with which these examinations can single out potential bombardiers from any group of youths, regardless of previous experience or background, is attested by the training records of cadets at this field.

In these preliminary tests the emphasis is again on fundamental character traits rather than special education or former occupation.

Here is how Lieutenant Colonel Smith sums up the requirements of this work:

A good bombardier is a man who is not easily rattled, distracted or terrified. Crouched in the nose of his ship as it hurtles through space, he has a ringside seat at the air battle raging on every side.

"In plain view are the torrents of shell fire and the vicious enemy fighter craft rocketing out of the clouds in the attack. Yet he must disregard the whole show and concentrate on a delicate problem that involves trigonometry and a series of precise observations. He has no more than a few seconds to get the right answers—and he doesn't have any pencil and paper.

"Should he fail, the entire mission has been a failure—precious time and effort wasted, one opportunity to smash the enemy gone forever. He can't afford to worry about that possibility. He can't afford to get impatient or nervous as the crucial moment approaches. He's got to keep cool. He's got to keep right."

Sounds like a big order. But, ac-

ording to Lt. Col. Smith, it isn't. There are plenty of young men in the United States who can do the trick, he says, and in proof points to the steady stream of bombardier lieutenants, pouring out of Midland Army Flying school with their wings

and their gold bars.

An analysis of cadet questionnaires shows that these men come from every corner of the country, that in civilian life they may have been soda jerkers, college students, gas-station attendants, machinists or office clerks.

OLSEN

(Continued from page 1)

time as the construction here will demand his full time. In the meanwhile, he will fly to Pampa as often as is necessary to take care of the air force interests in connection with the construction program.

Colonel Olsen made a large number of friends in Pampa on his busy two-day stay in April. He has met a number of additional friends in his visits since June 30. Tonight he will be officially welcomed to Pampa.

Colonel Olsen wears the starred wings of a senior pilot. He has been one of the most spectacularly successful officers in the air service as reflected in the fact that he was named acting commander of Randolph field, the nation's "West Point of the Air" recently when Col. Idwal H. Edwards, then commander, was transferred to Washington. This appointment came before Colonel Olsen's 40th birthday, which came last June 13.

In recent months he has launched into the glider field, which carries the number one priority in the air force today. He is director of training at the Lubbock Glider school at this time in addition to his duties as project officer of the Pampa school and the same duties in connection with the new Lubbock school.

Colonel Olsen's many Pampa friends are hoping that nothing will develop to divert him away to other service before his full time is required at Pampa.

Born June 13, 1902, in Chicago, Colonel Olsen is the son of Mr. and Mrs. M. E. Olsen. He attended Austin High school in that city and as a member of the R.O.T.C. unit, became the first cadet major the school ever had. He joined the Illinois National Guard in 1921 in which he was commissioned second lieutenant in 1923. He later became captain and commanding officer of Company I, 132nd Infantry.

In 1928 he resigned his national guard commission and his position as sales engineer for a pumping equipment concern to begin army flight training at March field, Calif. Since his first airplane ride there he has piloted up more than 4,200 official hours of flying in military aircraft.

He graduated from Kelly field, San Antonio, in 1929, with rank of second lieutenant, and was assigned to Selfridge field, Mich., where he was squadron adjutant until 1932. Then he went to Randolph field as a flying instructor, remaining until his transfer in 1937 to Albrook field, Canal Zone, as a squadron commander.

In 1938 he returned to Randolph field to become director of flying, a post he held until his promotion to acting commander. He was promoted to captain Jan. 6, 1940, to major on March 21, 1941, to lieutenant colonel on Jan. 5, 1942, and to colonel last June.

Red-haired, stocky, and athletic, Colonel Olsen enjoys hunting, skeet shooting, and boating. He has a ranch in the hill country north of Randolph field but expects to see little of it for the duration because of the around-the-clock flying program mapped out for the new schools in Lubbock and Pampa, and perhaps others.

Colonel and Mrs. Olsen have an 11-year-old son, who is at present "roughing it" in a boy's camp in the New Mexico mountains above El Porvenir, Martin, the son, is a husky lad who likes swimming, horse-back riding, and other sports.

Cadet, the Olsen's collie dog, caused quite a sensation by disappearing soon after Colonel Olsen arrived at Lubbock. Headlines in the Lubbock newspaper screamed: "New Lubbock Flying School Loses 'Its First Cadet.'" The dog was quickly found and returned.

R. E. GATLIN

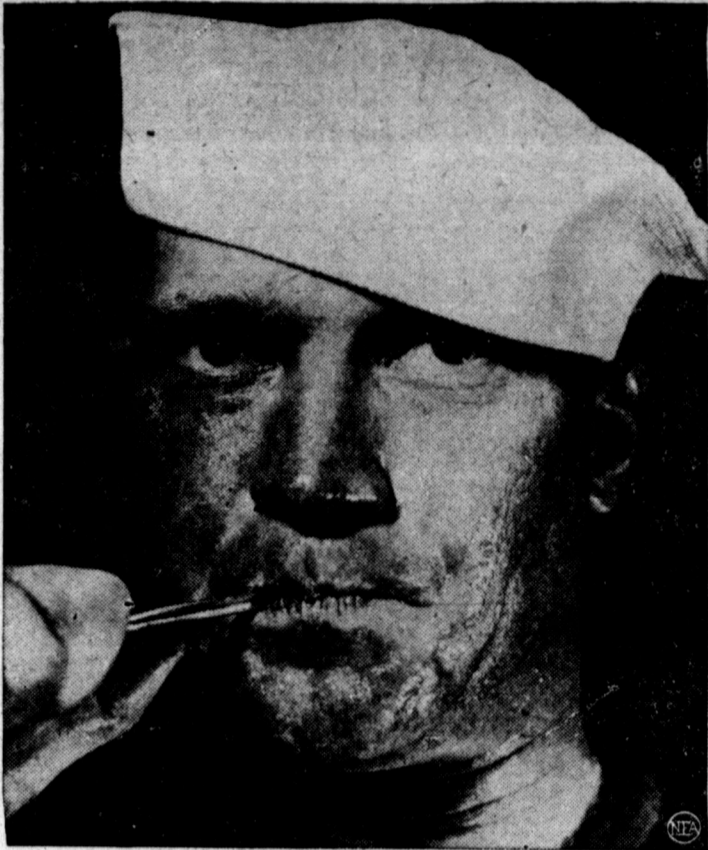

Candidate for District Clerk of Gray County, is eminently qualified by training and experience for that important office. The record of his unassuming but positively consistent living justly merits the serious consideration of the voters. During his 12 years in the county he has given unstintingly of his time and money to his church and the welfare and civic agencies.

Mr. Gatlin is a World War veteran. He was commissioned a Second Lieutenant of Field Artillery in France in 1918 and held that commission for 15 years. As Clerk of the 31st District Court he promises to give of his spare time and best thought to the war effort in whatever way he can. Mr. Gatlin believes in old fashioned democracy to the extent that a public official is a public servant throughout his time in office.

His wife and two boys, John David, 10, and James Paul, 6, join him in asking not only for your vote but your influence in the remaining hours of the campaign.

ALLRED

(Continued from page 1)

crazy crystals three times a day, but I don't believe this will sit well on the stomachs of the people next Saturday."

Hammering at what he called "wild charges and mud slinging" by "the junior senator," Allred promised to "nail a hide on the barn door" by quoting from the record and "playing a few of the senator's records."

Riveting his attack upon isolationism without once mentioning O'Daniel by name, Allred played a recording he said was from one of O'Daniel's campaign speeches in which he declared the senator said, "I shall continue to cooperate with President Roosevelt and all other federal officials in the national defense program."

"Did he do that?" Allred yelled. "Till tell you what he did!" "Our senator pledged himself at least 12 times to cooperate with President Roosevelt in the national defense program. But he cast his first vote against the recommendations of the commander-in-chief, against Senator Connally, and the entire Texas delegation, and voted with Wheeler and Nye and Vandenberg."

PARTY

(Continued from page 1)

Carl Benefiel, Charles Lamka, F. O. Gurley, Malcolm Denson, D. H. Coffee and members of the school board, city commission, county commissioners court and presidents of all clubs.

Cowboy boots and shirt sleeves will be the order for men at the dance while women may wear summer frocks or slacks suits. It's all informal, the committee says. Among those who will be present at the dinner will be high army air corps officials, including Col. N. B. Olsen who will be commander of the new school, U. S. engineers, and members of the various construction contracting firms.

ALLIED

(Continued from page 1)

good measure of surprise and they appeared quietly optimistic of the outcome. Heavy dust storms were reported to have limited the support which the RAP was able to give British ground forces in the early phases of the battle yesterday morning, but later in the day bombers and fighters entered the fight on the central front with telling effect.

PICNIC

(Continued from page 1)

casual but it was an enjoyable one.

The main attraction was a sausage supper served by members of the parish, but it was not an ordinary sausage supper. The sausage was made from a Polish recipe at the Panhandle Packing plant of Pampa and under the personal supervision of members of the community. There were potatoes, beans, pickles, onions, coffee, pie, barbecue to go along with the sausage.

More than 1,000 persons attended the supper, played games, or danced in the open air.

Just at sundown the flag was impressively lowered while the large crowd stood at attention. Bingo was played, and this game netted \$60. Previously, an 18-year-old boy, Ed Homen of Conway, expertly auctioned off livestock as follows: steer to F. E. Imel of Pampa, \$50; hog to Bulsy Urbanczyk, \$20; hog to John Kotara, \$5; hog to Bob McCoy of Pampa, \$38.

The entire proceeds of the en-

tertainment will be used to buy war bonds, and the bonds will be placed in the church building fund.

L. P. Eakin of the Grandview community was in charge of the sausage and barbecue.

Father Harry Zienta, pastor of the Sacred Heart church, was everywhere, but he had a right to be. He planned the entertainment, and supervised it.

Ninety per cent of the members of the church are of Polish descent, but even the German descendants of German-bred Admiral Nimitz are not more patriotic than the citizens in that parish. There are 200 souls in the parish, counting babies and everybody, and 10 of the men are in the service and one nurse. Three members of the Bednorz family are wearing their country's uniform.

The Sons of the West played for the dance and will play for another to be held Wednesday night, Aug. 5 at the same place. Proceeds will be used to buy war bonds.

West Florida has more lightning storms than any area in the United States.

RUSSIA

(Continued from page 1)

developed against Ttalingrad, 250 miles by air northeast of Rostov. The central and most advanced column was astride the Stalingrad-Likhaya railway line slightly more than 100 miles west of the Volga city.

By the light of a bright half moon, Soviet heavy bombers and fighter-bombers pounded long columns of German reinforcements moving into the Don river area last night.

Scores of troop-laden trucks were smashed and others fled in confusion, field reports said. Another column was said to have suffered simultaneous bombings at head and tail.

Russian dispatches disclosed that a spearhead of Field Marshal Gen. Fedor von Bock's 1,000,000-man army had engaged the defenders of Rostov, a Don delta port from which the invaders were driven by the combined firepower of Russian soldiers and guerrillas after a brief occupation last November.

(The German high command said

Tuesday that Rostov was in flames and under attack from west, north, and east.)

Amid these grave developments, however, Russian counter-attacks persisted against the Nazi left wing at Voronezh and about 8,000 Germans were reported killed in the savage fighting.

Some 6,000 invaders were listed as slain in a successful drive to recapture a large settlement south of that city.

A powerful German drive to recross the upper Don west of Voronezh was repulsed and 15 tanks were destroyed, it was announced.

Moody Places Opponents In Same Class

By WILLIAM E. KEYS
SAN ANTONIO, July 23 (AP)—Declaring his opponents' campaigns had sunk to the same low level, U. S. Senate Candidate Dan Moody last night invited James V. Allred and Senator W. Lee O'Daniel to "meet me on my high plane."
Before an attentive audience Moody criticized the Allred and O'Daniel techniques and stressed what he said was the need for serious discussion of war-born problems.
"This matching of the Allred tenor and the O'Daniel soprano is a type of campaigning that went out of style on December 7," Moody declared.
"I would like in this campaign to drive Texas politics back to a serious consideration of the problems of our times and sweep away the clowning."
Moody who as a political stripping rose to the governorship at the age of 33 and defeated the Ferguson to do it, said that all over the state people were saying he was the best qualified man for the senate post.
"Whether I am, I don't know but I feel complimented and although the campaign is two months old neither of my opponents had found anything in my record to use against me," he added.
"If it lasted two years they would find nothing to use against me."
Senator O'Daniel, he continued, declares the real danger is not the war but the labor racketeers who may take over the government and turn it into a Communist government.
"Everybody knows that the labor racketeers are not going to take over this government because there are too many of us and too few of them."
He attacked O'Daniel's senate vote against extension of the selective service act and asserted the senator had said he did not regret his decision.
"I submit to you that his statement and his attitude, though the product of ignorance, are damaging to our country," Moody declared.
Turning to Allred, Moody declared that the former federal jurist had obtained without knowledge of the signers a petition from citizens of Lubbock and Jacksboro originally circulated with the intent of presenting it to the war and state departments and asking that efforts be made to obtain information regarding the welfare of a field artillery battalion generally regarded as lost in Java.
The petition, Moody asserted, was obtained by Allred and was used by him in his campaign without knowledge or consent of those who circulated it in Lubbock.
The authority for statements regarding the petition, Moody added, was Dan W. Powers and others of Lubbock who signed the petition.
—BUY VICTORY BONDS—
After the war, America will have the world's most comprehensive aviation production facilities. Millions of trained mechanics, one to two million pilots, thousands of technicians and specialists, airports throughout the western hemisphere, improvements in aircraft engineering, greater operating economy—all point to greatly increased use of our airways.

Bank President Attends Meeting Of Victory Committee

DeLea Vicars, president of the First National bank, has returned from Amarillo where he attended a regional meeting of the Victory Fund committee of the eleventh federal reserve district. He is one of the 13 committeemen.
The primary function of the committee is to assist the treasury in placing its securities with investors of all types, particularly with institutions, endowments, trust funds, corporations, and wealthy persons for whom small denomination war savings bonds are not designed.
At the meeting the program of work was discussed and sales plans were outlined. It was explained that the work of the Victory Fund organization will not duplicate in any way the activities of the state and county war savings staffs, but will wherever possible, assist them in the sale of Series F and G bonds.
There are four regional committeemen in the state. Members of the Amarillo district consist of the following Panhandle bankers:
Charles T. Ware, chairman, Amarillo; George E. Benson, vice-chairman, Lubbock; J. Howard Paul, Tully C. Garner, Amarillo; R. L. Grimes, Borger; H. S. Wilbur, Sr., Canadian; J. M. Crews, Childress; Charles C. Woods, Dalhart; C. E. Maedgen, Roy Riddle, Lubbock; DeLea Vicars, Pampa; C. R. Hendricks, Ft. Worth; C. M. Smith, Plainview.

More than 100 war plants have adopted management-labor production drives, including a study of plant efficiency, establishment of suggestion boxes, bulletin boards and production score-boards, building of morale and recognition of achievement as parts of their programs.

THE PAMPA NEWS

(VOL. 40, NO. 104) THURSDAY, JULY 23, 1942 PAGE 9

Allred To Hold Last Rally Tonight

HOUSTON, July 23—James V. Allred returned today to Houston, from which place he launched his U. S. senatorial campaign last May in a radio address to the people of Texas after resigning a federal district judgeship. In this city, which has been his home for the past three years while serving on the bench, he will have his next to last rally tonight before the Saturday primary.
Houston supporters, pointing to the strides being made by Allred in his vigorous campaign and the gathering momentum of sentiment behind his plea to send a "fighting senator from Texas to congress," were predicting an uproarious welcome at the rally tonight.
The former governor and attorney general, in a final big-city swing before voting day, came here from Austin, where he spoke last night in the historic Woodridge park, near the state capitol. There he reviewed his

Wheat Harvest In Germany 15 Per Cent Below Normal

LONDON, July 23. (AP)—Germany and Nazi-controlled Europe will harvest a crop 15 to 20 per cent below normal this year and it is possible a shortage of farmhands and rainy weather may make the deficit still greater, British-American agricultural experts said today.
In addition, these sources declared, Germany can count on only one-fifth of her normal cereal grain imports from fertile southeastern Europe, on which she has been banking heavily.
As a result, the Germans will face the most serious food situation since the start of the war, said these experts, who would not permit their names to be used.
This picture was presented: For the first two years of the war Germany kept food rations at a comparatively high level by eating accumulated stocks. Because

Wheat Harvest In Germany 15 Per Cent Below Normal

of this year's poor general harvest she will have to fall back upon her own production and on reserves reduced to a bare "working minimum." That little she imports will be offset by grain she must send to her allies, such as Finland.
A heavy frost last winter destroyed more than 6,000,000 acres of barley, wheat, rye and rape—one-third of Germany's farm acreage. The fields were replanted, but a late spring delayed the work. Because of the risk that the grain would not ripen, considerable of this acreage was replanted with potatoes.
The cold also affected fruit trees, which still had not recovered from the severe winter of two years ago.

ETHEREAL FASHIONS—Even this summer, Margot Stevenson, CBS actress, chooses sophisticated and flattering suits for every occasion, on and off the air. The colorful plaid which she wears at left is woven cotton, brown and red and white. Natural cotton shantung makes her luggage tan bolero suit, right, with polka dot shirtwaist and revers. With both, she wears a natural milan hat.

GLORIFYING YOURSELF

By **ALICIA HART**
Women living as far apart as New York and Minnesota ask me, at the same time, "How can I tint my hair a desired color without dyeing it?" and, "Should I dye my hair to get a good wartime job for which I believe a woman with graying hair wouldn't be considered?"

I'd say to both, and to all women who are worrying over gray hair: Nobody but you can or should make the decision for you; and you should be able to make the decision easily in the light of a few facts.

DYEING IS NOT A STIGMA TODAY

The first fact to consider is that dyed hair is not nowadays the hazard-fraught, obvious, stigmatized thing it was to your mother and grandmother. If it is done well and cared for properly, I know several women who dye their tresses, but whose best friends don't know it.

However—and here is the second fact to consider—gray hair is not the tattle-tale of "age" that it once was. The "life begins at 40" philosophy has been spreading some time, and you watch the war give it a terrific push.

People are beginning to think in terms of "middle life" instead of "middle age." And I mean people generally, including employers and including very charm-conscious, charm-valuing men and women. So, don't go rushing off to dye hair in desperation at the mistaken notion that gray locks relegate a woman to limbo.

Now, if you nevertheless prefer to dye your hair, and to cooperate, do the expert you choose, that you want your hair as close to the natural, original color as can be achieved. (And that is plenty close!)

2. Plan now to have your hair re-colored often. It would be a good idea to arrange for this when you have the hair done. For this re-coloring is the whole secret of satisfaction. How often it is done depends on how fast your hair grows. As soon as untinted hair emerges from the scalp enough to show, even at distance—well, obviously you cannot go around with gray streaks at the scalp.

3. If your budget cannot take frequent re-colorings, ask the expert who dyes your hair to suggest a dye which you can apply at home between visits to the salon for expert re-coloring. And be sure that the expert who suggests this home-use preparation shows you how to use it.

Search Mate's Pockets—At Your Own Risk, Says Judge

By **RUTH MILLETT**

Go ahead, girls, and search your husband's pockets whenever you like. It's your right. A Chicago judge has just made such a ruling.

But maybe it's only fair to tell you that the ruling was made during a divorce trial.

Even though the wife wasn't going beyond her "rights" when she went through her husband's pockets—still her marriage wound up in a divorce court.

It might be a good idea to keep that fact in mind when tempted to take the judge's word that going through your husband's pockets is your privilege as a wife.

Remember, it, too, when you are tempted to indulge your curiosity in other wifely ways, such as reading your husband's opened mail if it is left lying around, asking, "Who was that, dear?" whenever he receives a telephone call, calling him at the office so frequently he can't help but suspect you are trying to find out if he really does have his nose close enough to the grindstone to be out of mischief.

REMEMBER: HUSBANDS WANT SOME PRIVACY

All of those may be within your wifely rights, but if you demand them you may find that your husband decides that there is one right he is going to insist on: the right of an individual to have a little bit of privacy, even if he is married.

There's not much satisfaction in the pocket-searching right if the fact is established only during a divorce trial.

And that's just about where any marriage would land if a husband and wife both insisted on all their rights.

Gray HD Clubs Busy With Yards, Victory Gardens

Gardens and yard beautification are current twin objectives of members of Gray county home demonstration clubs.

Three oil camps with over 150 families that never grew gardens before are now enthusiastic gardeners through the interest of home demonstration club members.

Mrs. Julia E. Kelley, Gray county home demonstration agent, recommends the following for early August planting:

Danvers half long carrots, Charleston Wakefield cabbage, Shogoin turnips, green sprouting broccoli, Detroit dark red beets, Lucullus Swiss chard, and kohlrabi.

Hardy vegetables that will stand heavy frost and winter, and can be planted during August:

Louisiana sweet collards, dwarfed curled kale, white Bermuda onions, Sandwich Isle salsify, long-standing Bloomsdale spinach, shallots, and rutabaga.

In Gray county gardens, soil has been improved by using barnyard fertilizer for nitrogen and phosphates for other nutrients, the latter at the ration of a pound of phosphate for every 100 feet of row space used.

438 Shrubs Set Out

Yard beautification centered on foundation and doorstep plantings has been the other interest of Gray county home demonstration club members.

Eight planting demonstrations were given by Mrs. Kelley.

Seven hundred trees were set out by members, including the following varieties:

Juniper, pine, nandina, English lavender, honeysuckle, lilac, spirea, vitex, privet, winter jasmine, red barberry, coral berry, and Rosemary.

Seven shrubs were planted including Chinese elm, American elm, walnut, honey locust, willow, and cottonwood.

In September and October yard work, including doorstep plantings and arrangements of walks, will be continued in 10 communities in Gray county.

Canadian Club Approves New Year Programs

Special To The NEWS

CANADIAN, July 23—Miss Georgia Engle, president of the Women's club of Canadian, has hosted Tuesday afternoon to members for a called meeting to read and approve programs prepared for the 1942-43 yearbooks.

Mmes. W. D. Fisher, Uel Crosby, and Charles Tubb compose the yearbook committee.

Literary programs include current literature of the Americas, methods of reading and reviewing books, two book reviews, a study of the present world situation relative to the prophecies of the Bible, and "Rhythmic Structure of Hebrew Poetry," last named for the spring guest day.

Music programs include a Christmas carol, a program of Negro spirituals, one of Cuban and Mexican music, one on outstanding women composers and artists, and for a March session, Haydn's "Creation," which was first produced in 1797.

Art lessons will be home decoration, Brazilian art, early English and American types of furniture, and outstanding homes of Texas.

It was voted to conserve funds by typing the programs this year, about one-third of the members being able to do this work and agreeing to type the two or three necessary copies apiece.

The Woman's club purchased a War Bond early this year and is saving towards another.

Hemphill HD Clubs Elect Delegates

Special To The NEWS

CANADIAN, July 23—At the July meeting of Hemphill County Home Demonstration Council, Mrs. Caylor Hoobler of Canadian, and Mrs. M. H. Smith, Jr., of Gem, were elected to represent the Hemphill county home demonstration clubs at the annual meeting of the Texas Home Demonstration association in Fort Worth Aug. 18-20.

Headquarters will be at the Blackstone hotel. Mrs. Lloyd Hefley and Mrs. Arthur Webb of Canadian, were elected alternate.

Because war intensifies the importance of home demonstration work, the annual meeting of the association will be held in spite of transportation problems and many other difficulties facing the 45,000 members.

"Home demonstration club work is vital and important in stress of peace, but in time of crisis its contribution is even greater," Mrs. W. B. Kennedy, Batty county farm woman and president of the rural women's organization, said in discussing how rural women are aiding in the Food-for-Victory program, are conserving food, clothing, and equipment, and are sustaining the morale of their families.

Mrs. Kennedy quoted Lady Halifax, wife of England's ambassador to the United States, who stated in a recent radio broadcast that the only clubs still intact in England are the "rural women's institutes," which are comparable to home demonstration clubs in Texas.

'War Is Not And Should Not Be Campaign Issue,' Repeats W. Lee

By LEDGERWOOD SLOAN
MOUNT PLEASANT, July 23 (AP)—Senator W. Lee O'Daniel last night warned his followers to disregard "any new and extra slanders that may be brought out in the last few days of the campaign" in which he seeks re-election.

The senator said he already had been called a traitor and "I can't think of anything worse that can be said that this bunch of character assassins can say."

O'Daniel also said he was the victim of a "whispering campaign" charging he had "no interest in winning the war."

"I'm fighting this war to a successful conclusion so that it will be a war to end all wars," he continued.

He also charged his political enemies were sending hired henchmen over the state "spreading the propaganda that O'Daniel will be forced into a runoff with one of the Gold Dust Twins."

"They are calling me every bad name possible."

The Mount Pleasant crowd, which packed half of the courthouse square and overflowed into the street, was the largest and appeared to be the most enthusiastic audience that the senator has drawn during his two days campaigning in Northeast Texas.

Explaining that the last half of his speech was to be broadcast, O'Daniel set out to "tell you a few things that the newspapers won't print." He also explained that he had to submit his radio manuscripts in advance to "big shot attorneys" and "if there is anything they don't want us to say they cut it out."

Then he went on to flay "Communist labor leading racketeers," inform the audience that "our boy also is in the service," and declare that "war is not an issue and should not be an issue."

"Neither one of the Gold Dust Twins has boys in this war," he said.

"There has been much deception by the Gold Dust Twins and on the part of political controlled newspapers and their poison pen editors. Your old clod-hopper senator, your old common citizen sen-

Germany Getting Rubber From Japan

LONDON, July 23 (AP)—Japan already is supplying Germany with a trickle of raw materials, chiefly rubber, from her Pacific conquests probably by running the blockade around Cape Horn at the tip of South America, a ministry of economic warfare spokesman said yesterday.

The economic contact between the Axis partners probably is made by ships which can travel the 17,000 mile route without refueling, the spokesman said.

Retail Sales Of Liquor Banned Saturday

AUSTIN, July 23 (AP)—No retail sales of liquor, wine or beer may be made between the hours of 7 a. m. and 8 p. m. Saturday, the Democratic primary election day, Liquor Administrator Bert Ford warned Wednesday.

Establishments are not required to close their doors, Ford said. Inspectors in the field will check on observance of the law.

Tenfold Increase in Production of Four-engine Bombers, by far the best in the world, is part of our aviation program.

ator, has to come back and tell you what's wrong."

SGT. ORRIN J. GROSS of Canadian, above, now is an instructor in use of automatic weapons in the U. S. Coast artillery at Camp Wallace near Galveston. Sergeant Gross enlisted Feb. 7, 1942. He had previously served three years—1924-27—and was stationed at Fort Kamehameha, Honolulu, Hawaii. Mrs. Gross and young son remain at home in Canadian. His parents, Mr. and Mrs. P. D. Gross, reside in Waynoka.

STAFF SGT. ROBERT LEROY GROSS, above, son of Mr. and Mrs. P. D. Gross, Waynoka, attended junior high school at Pampa in 1928-29, graduated from Amarillo High school in 1934. He enlisted in the U. S. Army Air corps in December, 1939; spent a year at Kelly field, transferred to Luke field, Ariz., and later to the air corps technical school at Chanute field, Ill., where he graduated

Traffic Deaths First Six Months Of 1942 Fewer

(By The Associated Press)
 AUSTIN, July 23 (AP)—Traffic deaths in Texas the first six months of 1942 were fewer than during any similar period since accurate records were started in 1938, State Police Director Homer Garrison announced today.

For the half year, Texas recorded a flat 20 per cent reduction in traffic fatalities, from 863 in the 1941 period to 689 this year.

Leading the safety race were cities and small towns, with reductions of 30 and 29 per cent, respectively. Highway deaths were

down 17 per cent and those on county roads 14 per cent.

Highway Patrol Chief Hill Foreman reported that arrests and warnings by the highway patrol increased 22.5 per cent over last June, from 18,327 to 22,460.

For cities of over 100,000 population, Dallas led in city motor vehicle traffic fatality ratings with a population rate of 7.5. The population rate is the number of deaths annually per 100,000 population and is computed on the assumption that fatalities will continue to occur during the remainder of the year at the same monthly average as they have for the period covered by this report.

In the 50,000 to 100,000 population bracket, Amarillo recorded no traffic fatalities for the first six months of the year. Galveston was second with a rate of 3.3, El Paso third with 6.2, Beaumont fourth with

10.2, Waco fifth with 10.7, Austin sixth with 15.9, and Corpus Christi seventh with 17.5.

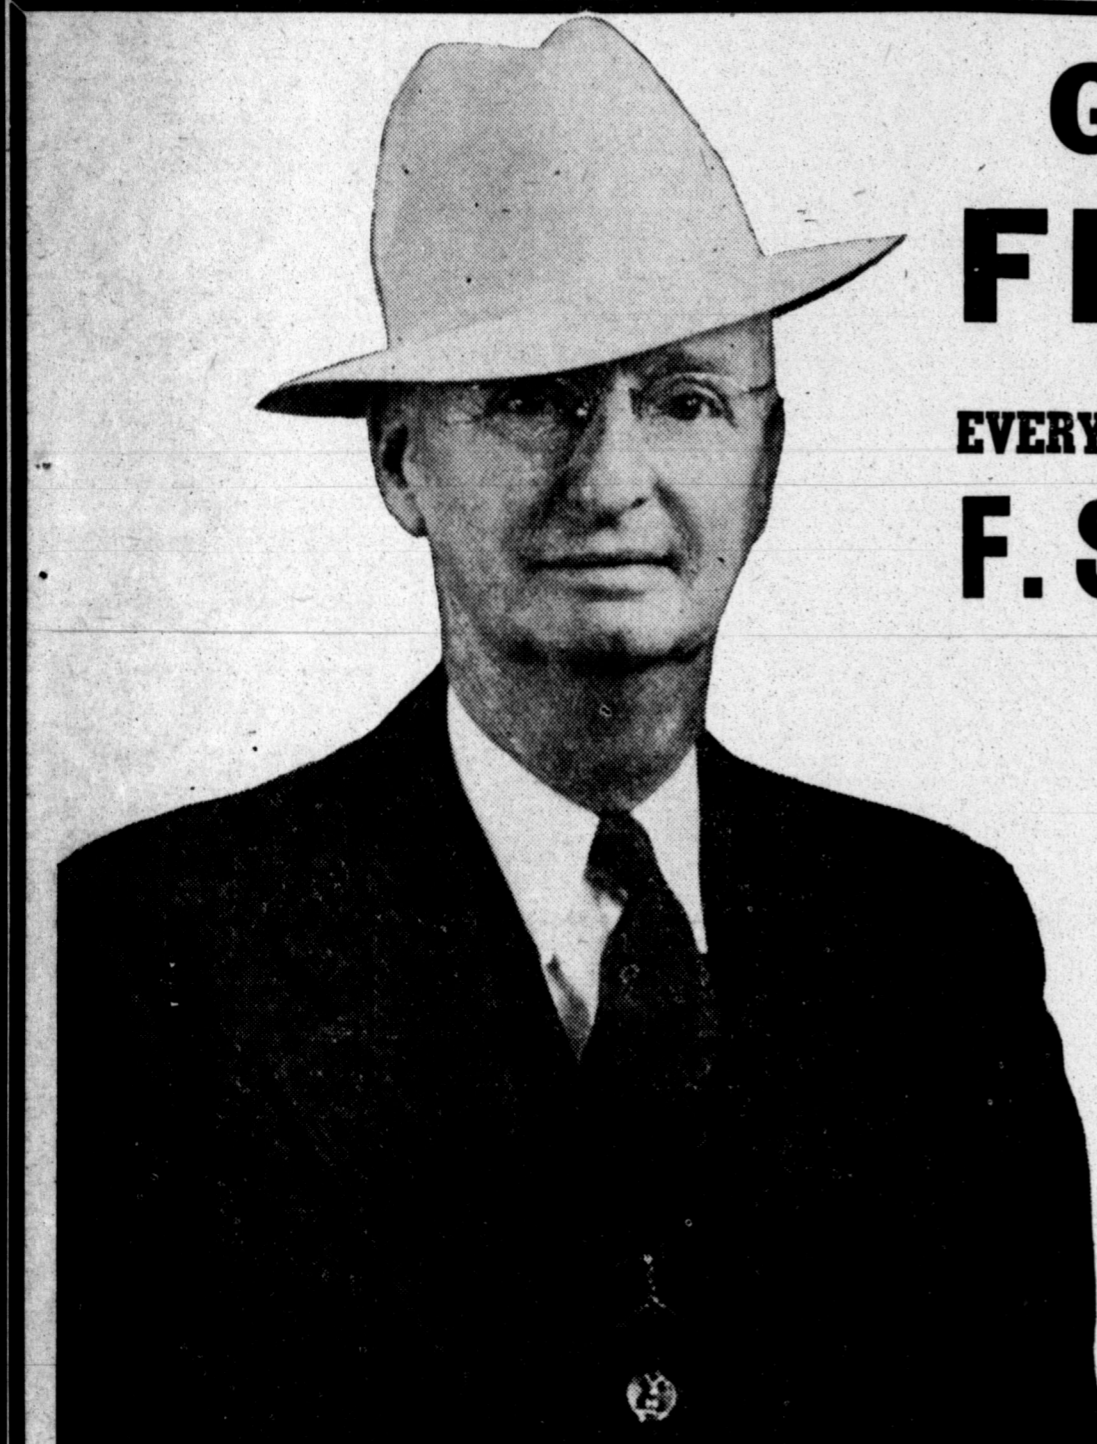

Libbuck, San Angelo, and Tyler had no traffic fatalities in the 25,000 to 50,000 population group. Port Arthur had a rate of 8.7, Wichita Falls 13.3, Abilene 15.0, and Laredo 15.3.

GRAY COUNTY'S BUSINESS FIRST-LAST-ALWAYS

EVERY GRAY COUNTY CITIZEN SHOULD KNOW THIS IMPORTANT FACT
F. S. BROWN IS NOT A PROFESSIONAL POLITICIAN!

F. S. Brown is a businessman and realizes that the people are thoroughly sick and tired of being "approached by and shaking hands" with the many candidates who are running for the various offices.

Good politics are NECESSARY in peacetime but good politics are ESSENTIAL IN wartime. Politics are never good unless they are operated in a businesslike manner and, who can put business into a political office any better than a practical businessman?

Being a businessman, he understood the necessity of cooperating with President Roosevelt's request for conservation and has refrained from "burning up gas and rubber" in making many trips over our county. This, in itself, may have prevented him from seeing many of you personally, BUT there are very few of you who do not already know him—fewer still who have not been served by him during his business years in this community.

He is a businessman and as such can be depended on to run the Sheriff's Office in a businesslike manner . . . using ECONOMY—BUSINESS METHODS—INTELLIGENT LAW ENFORCEMENT and the PROTECTION OF BOTH PERSONAL AND PROPERTY RIGHTS . . . cooperating fully at all times with National, State and Local Law Enforcement Agencies. F. S. Brown has NOT obligated himself to any individual or group in his race for Sheriff. He has made but one promise and one promise only, and that is, if elected your Sheriff, he will "PLACE THE SHERIFF'S OFFICE BACK IN THE HANDS OF THE PEOPLE."

Now... More Than Ever Before Gray County Needs A Sheriff Who Will

SERIAL STORY MURDER IN FERRY COMMAND BY A. W. O'BRIEN

RESCUE AND REUNION CHAPTER XIV A FAINT hope, or perhaps only a sorrowful curiosity, prompted Clyde Dawson to telephone the port commander who had told him of Carole Fiske's disappearance aboard the torpedoed steamer Fort Glengarry.

barely escaped it himself with only the fatalistic second thought that it was part of his job. But Carole Fiske . . . pert, keen-witted, smartly dressed . . . her moments of quiet concern about Darwin Lemoy . . . Carole Fiske, out there in the blizzard-blown Atlantic graveyard in the dark of night . . . And all because he had played the cagey, cocksure investigator too long.

eyes met her burning stare frankly—"dead. But he was a very brave man and, whatever his past connections, he did your country and mine a great service. There are heroes who die in unglamorous settings, but they are heroes nonetheless. You see, Carole, I, too, liked Darwin very much."

WASHINGTON, July 23 (AP)—Secretary Morgenthau called for a two and one-half billion dollar boost in the tax bill today with a warning that only bold war taxation could bring America a sound economic future.

He appealed to the senate finance committee to increase the house-approved \$6,271,000,000 tax measure to a minimum of \$8,700,000,000. Substantially, the administration asked the same revenue from the same sources proposed to the house months ago.

Under its scale of exemptions, the treasury estimated that 26,900,000 individuals would pay taxes next year, compared with 15,000,000 under present law.

Morgenthau also asked again for new excise taxes on soft drinks, candy and chewing gum, and increased rates on beer, wine, cigars, gasoline, oil, and transportation.

The secretary reiterated requests for mandatory joint income tax returns by married couples, repeal of the percentage depletion allowance for oil companies, and repeal of income tax exemptions on interest from state and municipal bonds.

Morgenthau Asks Boost In Tax Bill

TRAINEE AIR-TRAFFIC CONTROLLERS NEEDED
 The U. S. Civil Service commission has announced that its district offices would recruit airway and airport traffic controllers at the trainee grade, paying \$1,800 a year. Applications may be filed until further notice at district offices in New York, Atlanta, Chicago, St. Louis, New Orleans, Seattle, and San Francisco. Citizens, 20 to 35 years, with general experience in the field of air-traffic control may apply, if they possess a current pilot's certificate showing they are physically qualified for commercial pilot rating. Applications for higher grades of air-traffic controller will no longer be accepted.
 Full information as to requirements, and application forms, may be obtained from V. D. Darnell, secretary of the board of U. S. Civil Service Examiners, at the post office or customhouse in this city, or from the commission's secretary at first and second-class post offices.

After September 1, when Canadian workers crowd round the paymaster's window, they will find their paychecks lighter—by the amount of income tax which the Dominion will deduct in advance. Finance Minister James Lorrain Basky, right, "staggered" Canadians when he announced the new taxes, but the people approved any sacrifice to beat the Axis.

Canada's New Payroll Deduction Tax Seen As 'Test Tube For U. S.'

By JAMES MONTAGNES
 NEA Service Correspondent
 OTTAWA, Canada, July 23—While congress is debating income tax collection at the source and the advisability of forced savings, Canada's paymaster has announced that Canadians will start paying on their 1942 income from their pay envelopes on September 1, and will have to pay as part of their tax a portion which will be refundable after the war.
 Canada has overhauled her income tax set-up for an all-out war effort, has set a pace for steep income taxes and a new method of collecting them, just as she set the pace for price ceilings nearly six months ahead of the United States. Canada is becoming the economic test tube for the North American continent.
 Canada's new income taxes brought them much closer to those of Great Britain, leave them much higher than those proposed by congress—America under the new income taxes now being ironed out in Washington committee rooms will pay about \$540 if he earns \$5,000, is married and has two dependents.
TEN TIMES 1938 RATE
 Under the new Canadian tax plan his Canadian counterpart starts paying in September a total of \$1,662 on his 1942 income, will receive \$600 of it back two years after the war ends with 2 per cent interest. Or, if he saves that amount in life insurance, annuities, pension funds or principal payments on his home mortgage can deduct that much from his tax and only pay the actual income tax of \$1,062.
 Last year that same Canadian paid \$735, in 1938 he paid \$118. His British brother pays practically the same amount, \$1,068, part of which is refundable after the war.
 Canadians staggered under the impact of the income taxes when they were announced at Ottawa on June 23 by Finance Minister J. L. Basky. But they approved, even though it meant a definite drop in their standard of living. No sacrifice, they felt, was too great to beat the Axis. They were willing to cut their living expenditures. But in debate in parliament following the announcement, Canadians asked that Ottawa also curb its normal expenditures, not increase them ten per cent as shown in the biggest budget in Canada's history requiring \$3,900,000,000 for the 1942-43 fiscal year, the equivalent of the national income in 1939.
 Canada this year will spend 52 per cent of her national income on the war, including a \$1,000,000,000 gift in food and war supplies to Great Britain.
TAX IS ANTI-INFLATIONARY
 Because the new tax is a departure from Canada's income tax history, the plan allows exemptions never granted before. The tax is recognized as so severe that Ottawa will now allow deductions for medical and dental bills over 5 per cent of total income, but not exceeding \$1,000 for a married man and dependents.
 Because the compulsory feature of the plan is anti-inflationary, meant to curtail buying of commodities requiring raw materials needed for war production, it safeguards the persons with savings commitments such as pension funds, annuities and home mortgages.
 These can be deducted up to half the tax, which will otherwise be refundable after the war. But these deductions may not exceed, in the case of single persons 8 per cent of their income, or in the case of married persons 10 per cent of their income with one per cent allowed for each dependent.
 Canadians who are employed will find their pay envelope lighter each pay day after September 1, 1942. Ottawa is distributing deduction tables to employers so that they need not ask each employe his personal savings. The tax will be deducted according to the tables, and these take into account the marital status of each person and the fact that a national defense tax has already been collected since the beginning of the year and which now becomes the basic or normal income tax.
FIGURING TAX IS COMPLICATED
 The pay day deductions also include one-third of the compulsory savings. When the employe makes out his income tax form in the summer of 1943 he will settle with the government regarding the other two-thirds of the compulsory savings and any additional income and exemptions which he claims. The individual who is not employed but has

If exposed to the sun's rays for a few minutes, a diamond will radiate light when placed immediately in absolute darkness.

A. STURGEON FOR DISTRICT ATTORNEY, SAYS:

My opponent, by insinuation in his advertisement in this paper yesterday, charged that my law partnership with my brother would embarrass me as District Attorney. Of course, this is just an insinuation, just another statement to influence or persuade the people. He failed to state in his ad that his first job as an attorney started under my brother in 1935, at that time and for 2 1/2 years thereafter he was not embarrassed over his job.
 During the time my opponent drew his salary from my brother, everything was fine, but now it has, for political reasons, suddenly become something to be ashamed of. Since when has it become wrongful or a subject of criticism for a man to be associated with his own brother in business?
 I am not embarrassed in the least by my partnership with my brother. He has advised with me since I was a boy. I have been closely associated with him practically all of my life. "If that be treason, make the most of it."
 When I am elected District Attorney, my partnership will not enter into the discharge of my duties as District Attorney.
 My partner would be disqualified by law from participating in the trial of District Court Criminal Cases in this district except to assist me. No one knows this better than my opponent.
