"The blasphemy of the emulcompetent state is that it seeks to annihilate the individual conscience. The totalitarian state is the crowning irony of a scientific age. The terrifying truth about totalitarianism is that he has no conscience. His personal integrity has been eaten away. He flip-flops with changes of party lines, embraces evil as good, calls falsehood his truth without batting an eye." -Chabert Rutenauer

"LONG TOM" IN ACTION - A battery of 155mm "Long Toms," self-propelled guns of a UN Field Artillery Battalion, pumps shells into enemy-held positions north of the 38th parallel. Because of its far-reaching effects, the "Long Tom" is becoming one of the UN's most feared weapons by the Reds. This Battalion is composed mostly of Arkansans National Guard units. (NEA Photo)

UN Troops Abandon Last Foothold North Of Parallel

No Positions Open For Non-Union Men:

Tribute Found Necessary To Work On Defense Job

By HENRY GORDON
To work for a living on a government project in Amarillo you must first pay tribute to the Amarillo labor unions.
This was learned Monday when two Daily News representatives posed as job seekers at the Atomic Energy Commission's Pantex construction project.
They were told flatly that all hiring was done through the labor unions and that non-union men would not be employed. The project is being paid for by the taxpayers who are made up of union and non-union members.
Here is what the two Daily News men learned when they sought employment on the government project.
"At the current headquarters of Weldon, Fulton and Payne, Lubbock, general contractors for the Pantex AEC development, the men were told by an office attendant—a woman—the company was not doing any large scale hiring at present, but would be taking on some laborers, probably Tuesday. Pressed for further information on how to "go about getting a job here" the woman said:
"Well, all of the hiring is done through the labor unions."
She was asked, "What if you are not a union member?"
"Then, I guess you'd have to join because this is strictly a closed shop."
(This was virtually the same answer an unidentified man from that same office had previously given a reporter asking for a job. The contractor had contracted with the labor unions to supply the labor.)
After some questioning the woman remembered a list of the Amarillo locals, their addresses and telephone numbers. The two "job seekers" jotted down the addresses.
Next stop was the Construction General Laborers, L. U. 688 at 611 E. 4th, Amarillo, the union's hiring hall. In the rear of the hall was a small cage where a union official sat at a desk. A would cost \$100 to join the union—payable \$25 down and \$25 a week until initiation fee was paid.
"You must also take an examination," the little man said. He didn't stipulate what month dues would be required to have a job at Pantex development.
Commenting on the experience of the two Pampa News men, State Senators George Parkhouse, Dallas, and Otis Lock, Lubbock, said Monday night:
"That is the type of thing we are trying to crack wide open with the Parkhouse Bill—a bill that will put teeth into Article 3207a of the civil statutes of Texas."
Parkhouse told this reporter by telephone that his bill was intended to "eliminate this damned practice of having a man join a union to work and then later getting rid of him to put on another union man, and so on."
Parkhouse asked the writer to stand by the telephone while he reported the incident to Lock who is chairman of the Senate Investigating Committee, charged with looking into the closed shop practice in Texas.
The senator said there is little likelihood of any legislative inauguration of any legislative in-

'Magnificent' Delay Action Being Fought

TOKYO — (AP) — Allied troops today abandoned their last foothold north of the 38th Parallel in western Korea.
They were "fighting a magnificent delaying action" against 300,000 Chinese pressing towards Seoul. The Reds were 20 miles or less from the South Korean capital, Munsan fell to Chinese driving down a main highway from the northwest. The town, 21 miles from the war-battered capital, was the site of an American paratrooper landing last month.
Fifteen miles to the east, Red masses surged across 38 and down the Yonchon-Uijongbu road leading to the telephone cables back south of Chango, four miles below the border and 15 miles north of Uijongbu.
Chinese tried to knife down an undefended strip between this highway and Munsan. Heavy artillery fire ripped them throughout Thursday.
The UN withdrawal toward Uijongbu yielded about six miles to the Reds — their biggest gain of the day. It almost wiped out the western side of the Kapryong bulge in the center of the 100-mile front.
Slow withdrawals were made in the bulge, about 30 miles northeast of Seoul. One UN unit counterattacked, but was ordered to fall back to a new defense line.
A slow withdrawal also was begun to the northeast in the Hwachon-Yangu salient. This sector in Red Korea had held steady since the Communist spring offensive opened up Sunday night. Yangu, on the eastern end of the 30 mile salient, was still in allied hands.
Most withdrawals were made in the daylight after allied forces had held steady against Red night-time probing attacks.
Eighth Army divisions in the west were generally falling back well ahead of the Chinese masses. The terrific fire power of American artillery and allied planes protected the rear of withdrawing columns.
But one unit surrounded by on-rushing Chinese was caught in a trap northwest of Uijongbu. There was no word from this unit late Thursday.
Field reports said it was cut off by at least three Chinese divisions. An armored task force broke through and rescued it (See ALLIED, Page 2)

Czechs Hold U.S. Newsman For 'Subversive Activities'

FRANKFURT, Germany — (AP) — Communist Czechoslovakia announced today it has arrested Associated Press correspondent William N. Oatis and hinted he would be tried for "subversive activities."
Oatis, chief of the AP's Prague bureau, vanished on Monday—the fifth employe of the AP Prague bureau to disappear in three weeks.
Government statements seemed to indicate the other employe, all Czech nationals, would be presented in the role of witnesses against Oatis.
The correspondent, who had complained to the U. S. embassy that he was being shadowed 24 hours a day, apparently was pounced upon by secret police Monday night as he put his car in his garage.
For more than 48 hours there was no word of him. The U. S. embassy, suspecting he was arrested, demanded information from the Czech foreign ministry. Today U. S. embassy Counselor T. J. Thompson said the foreign ministry told him Oatis was arrested on three charges:
"1. Activities hostile to the state.
"2. Gathering and disseminating information considered secret by Czechoslovakia.
"3. Spreading malicious information regarding the Czech state through illegal news organs, for which purpose he misused Czech citizens."
"Activities against the state" is a broad charge in Communist dominated countries. It can mean anything from espionage down to spreading propaganda. Thus, almost any penalty could be imposed.
Western sources in Prague said the arrest of Oatis may be signed as part of a propaganda barrage to set the stage for the trial of Vladimir Clementis (See CZECHS, Page 2)

U.S. Proposes Base Bombing

LAKE SUCCESS, N. Y. — (AP) — The United States has proposed the bombing of enemy bases in Manchuria, if the Communists launch heavy air attacks on United Nations forces in Korea.
A U. S. spokesman said the recommendation had been outlined to 13 other countries with military forces fighting for the UN in Korea and that no objections had been raised.
The spokesman said the proposal was announced during recent talks in Washington, but added that no agreement has been reached on the timing and conditions of the proposed counter-raids in Manchuria.
There have been reports in the past month that a formal agreement on the matter had been made in Washington. None confirmed.
A public declaration on Korean policy had been planned about two weeks ago by the United Nations countries involved in the Korean conflict. However, the group cancelled the plan because of the dismissal of Gen. MacArthur from his UN and other far East commands.
The declaration reportedly would have called upon the Chinese Communists for a cease-fire and would have given the Peiping government new assurances that the UN has no intention of invading Chinese territory.
Some delegates felt, however, that such a declaration would be useless in the midst of the controversy over the removal of MacArthur, who referred to the Manchurian bases as the enemy's "privileged sanctuary" and advocated bombing them.

WHERE AIRLINER AND NAVY PLANE COLLIDED—Symbol locates approximate spot where a commercial airliner and Navy training plane collided and crashed into the sea a mile off Key West, Fla., April 25. A short time later Pan American Airways reported that an airliner was overdue on a flight from Miami to Havana. It had 34 passengers aboard. (AP Wire-photo Map)

Navy Divers Bringing Up More Bodies

KEY WEST, Fla. — (AP) — Navy divers recovered additional mangled bodies today from the shattered sections of a Cuban airliner and a Navy trainer plane which collided and killed 43 persons.
At mid-morning 23 bodies had been brought to the surface, and taken to morgues in the shattered city in the United States. Nineteen were located yesterday.
Divers worked in relays, two at a time, over the smashed pieces of the four-engine transport, scattered over a wide area on the sandy bottom 20 feet below the surface.
The Navy trainer plane was located about two miles away.
Navy Lt. James A. Atkinson, of Jacksonville, Fla., said the transport plane "looked like a junk pile on the bottom. You can walk all over the wreckage" (See NAVY, Page 2)

Had A Role In School Play

WOODSTOCK, Conn. — (AP) — Dr. Hamilton Holt, 78, noted educator, died in his sleep at the Day Kimball Hospital today.

Margaret Makes Professional Acting Debut On Radio Today

HOLLYWOOD — (AP) — Margaret Truman makes her professional acting debut tonight.
The President's singing daughter will have a vast, unseen audience as she plays opposite Jimmy Stewart in "Jackpot," on the Screen Directors' Playhouse, over NBC at 10 p.m. (EST).
Miss Truman has been in rehearsal since her arrival here Monday, and reports are that she has taken considerable pains to see that nothing gets into the script that might in any way reflect upon her famous father. She succeeded in having the name of one of the characters in the play changed from Harry, because it might have brought a laugh in the wrong places. A gag used in the movie version of "Jackpot," which starred Stewart and Barbara Hale, was taken out because it involved General MacArthur.
Bill Karns, directing the radio version of the play, said Miss Truman asked to have changed one scene in which Stewart, who plays her husband, is supposed to be pulling her out of bed in the morning.
"She thought that might be suggestive, so we changed it," Karns explained. "She explained that she has to be very careful."

Search Continues For Missing Plane

AMARILLO — (AP) — Searchers for a plane missing since last Sunday are looking in the Las Vegas - Albuquerque area today.
Yesterday residents of the New Mexico area reported seeing a plane flying west Sunday which fitted the description of the plane flown by O. B. Calame, 57. He was last reported over Amarillo on a flight from Kansas City to Tucuman, N. M.
A search by the Civil Air Patrol on the airway route between Amarillo and Tucuman was discontinued yesterday but search headquarters remained here.
Chubby, champion stud, standing at his place, 501 N. Rider, W. S. Wooten, Ph. 4675W.

Russia Prepared To Send Poison

TEHRAN, Iran — (AP) — Russia is prepared to send tons of poison to Iran to fight locusts.
A foreign office official announced today after a conference here between Russian Ambassador Ivan Sadchikov and Ghobad Nakhai, acting foreign minister of Iran.

Uranium Find Is Uncovered

ST. LOUIS — (AP) — A spokesman for Atomic Energy Commission predicted today significant new uranium production in the Colorado Plateau area of eastern Utah, northern Arizona and New Mexico.
Dr. Phillip L. Merritt told the American Association of Petroleum Geologists uranium had been found also in Colorado, Wyoming, Montana, Idaho and Florida.
He added that prospects of finding the mineral in Tennessee and Kentucky were promising and that a search for uranium in Michigan, Minnesota and Wisconsin might well yield mineable deposits at a low cost.
Dr. Merritt said, however, that the Colorado Plateau, extending over some 130,000 square miles in Colorado, Utah, Arizona and New Mexico, contains "our largest potential resources as we know them now."
He told the geologists the search for uranium was of deepest importance to the nation's welfare whether for war or peace.

Senators Discuss Naming Judge

WASHINGTON — (AP) — Senator Tom Connally plans to talk with Senator Lyndon Johnson before naming a judge to fill the vacancy created by the death Tuesday of Judge Randolph Bryant of Texas.
Three Texas attorneys have been mentioned here as possible candidates for the job: Roland Boyd of McKinney, A. P. Moore of Beaumont and Warren Moore of Tyler.
Earlier Galloway Calhoun of Tyler and Fred Erisman of Longview, as well as Rep. J. M. Combs of Beaumont had been mentioned for the position.

Attlee Released From Hospital

LONDON — (AP) — Prime Minister Clement Attlee today left the hospital where he has been under treatment for an ulcer since March 21.
He said he would spend the weekend at his country home, Cheyres, and return to work Monday at No. 10 Downing Street, his official residence.

Chicago Rolls Out Welcome For Mac

CHICAGO — (AP) — Today was Gen. MacArthur Day in Chicago and the nation's second largest city was ready to greet the five-star general with a huge demonstration.
The city's millions and thousands from nearby cities were expected to join in the 10-hour civic tribute to the general. The celebration, shaping up as the biggest in the city's history, was expected to draw some 3,000,000 spectators.
Chicago was in a holiday spirit for the reception to the self-styled "old soldier." The city was decked out in flags and bunting. Windows in stores along the parade route were boarded up.
All public buildings will be closed — and most of the loop stores will be closed during the parade. The White Sox baseball team made today an open date by playing a double header yesterday. The board of trade and some business houses will close at noon.
It will be a double-barreled celebration: the formal parade down Michigan Avenue and State Street this afternoon and pageantry, fireworks and a talk by Gen. MacArthur in Soldier Field tonight. A turnout of 100,000 was expected for the big jamboree in the lake front stadium. No rain was forecast. Fair and cool weather was predicted with temperatures in the high 50's.
Placards bearing greetings, "Hi, Mac," were on display throughout the city.
But the Merchandise Mart, the world's largest commercial building, had the biggest greeting for the general. Across the front of the huge building in letters 20 feet high was the salutation, "Hi, Mac." A big American flag will be flown from each tier.
Mayor Martin H. Kennelly in a television broadcast last night invited "all of midwest America" to join in the MacArthur Day celebration.
Kennelly said the city's demonstration "will be our people's way of showing in a great swelling chorus of acclamation their appreciation of the contribution Gen. MacArthur has made to our nation by his military exploits."
It will be Gen. MacArthur's first visit to the Midwest since his return to the United States last week. He was cheered and acclaimed by millions in New York last Friday and earlier thousands welcomed him in parades in celebrations in Washington and San Francisco.
The general will be greeted by a booming of guns when his plane, the "Bataan," arrives at Midway Airport from New York at 12 and 12:30 p.m. (EST). He will be accompanied by Mrs. MacArthur and their son, Arthur, 13.

Bridge Open For Traffic At Canadian

Traffic on U.S. Highway 83 and 90 is again flowing over the Canadian River Bridge at Canadian.
Barriers were removed at 2:30 p.m. Wednesday.
One of the 50-foot spans collapsed under the weight of a big earth-moving machine being pulled behind a truck the night of April 2, stopping all traffic for a few days.
Santa Fe immediately started a shuttle service for school children normally crossing the highway bridge by bus.
The dry weather, bringing unusually low water, enabled the highway department to make a (See BRIDGE, Page 2)

Korean Veterans To Get Insurance

WASHINGTON — (AP) — All U.S. military personnel in service since the start of the Korean war are to receive \$10,000 in life insurance. Families of those killed in the conflict will receive benefits payable for 120 months at \$92.90 per month.
A bill providing for the new insurance was signed into law yesterday by President Truman.

Goodwill Tourists Get Big Welcome From Citizens Here

Two bistards of tired but happy Sooners pulled out of Pampa and headed for home at 8 a. m. today after climaxing their good will tour with a "Welcome Okies Dinner" last night in Pampa Country Club.
The Oklahoma City Chamber of Commerce Good Will tour actually turned out to be a good will reception here by Pampa's Chamber of Commerce during the afternoon and evening.
After the Oklahoma boosters were ushered into town yesterday afternoon by a group of Pampans, the Killie band — sponsored by Oklahoma City American Legion Post 35 — drilled and played in front of the LaNora theater.
During the hour-long program, brief speeches were given by Chamber President William Morgan Cain and Shell Stirling, both of Oklahoma City. Paul Brown, Gene Fathere and Mayor C. A. Huff, all of Pampa.
Visitors and local men packed the country club for the reception and dinner which started at 7 p. m.
Entertainment consisted of vocal solos by Paul Floy of Oklahoma City and Irma Francis Morris of Pampa. Brown and Stirling acted as masters of ceremony. Brief talks were given by James O'Neil, chairman of the Oklahoma City Chamber Wholesalers and Manufacturers Division, Cain, Jack Durland, of Cain Coffee Co., Paul Hunt, Gaston Broyles, all of the booster group.
Fathere, president of the Pampa chamber, introduced Bob Clark, resident engineer for Celanese Corp.'s proposed Pampa plant and Coy Palmer, chairman of the reception committee that met the Oklahoma City contingent on the Burger Highway and escorted them into town.
(See GOODWILL, Page 2)

Property Owners' Meeting Scheduled Here 8 P. M. Friday

Property owners will meet at 8 p. m. Friday in the district court room to hear Jack Pinkston, director of the National Assn. of Property Owners and managing director of the Texas association.
John G. Brown, president of the Amarillo Association will also present to the Pampa group a report of the Amarillo organization. It is the desire of the two men to initiate at least a nucleus for a strong, aggressive local organization in Pampa," according to Pinkston.
This will be one of a series of such meetings being held throughout the larger cities of Texas to acquaint the property owners with the over-all legislative program of the Property Owners Assn. in national, state and local groups.
The meeting will particularly bring into view the drastic provisions pending in Congress in recent control bills, which propose to renew rent controls, nationwide, effective June 30.
The bills propose to freeze all rents back to the 1940-1942 levels, but no proposal is included in the bills to freeze the taxes or the cost of living of the property owners back to that same level.
A report covering the recent rent control opposition staged by Texans in Congress during March will also be included in the meeting's program as well as the state legislative program and the national conference of property owners held in Omaha, Neb. on April 21 and 22 at which Pinkston was present and participated.
Meeting in Amarillo Wednesday night were about 200 property owners and it was voted unanimously to oppose the pending congressional bills in every way possible. Brown and Pinkston are holding a meeting in Borger tonight.

IN THE Huddle — William Morgan Cain, president of the Oklahoma City Chamber of Commerce, and Gene Fathere, president of the Pampa chamber, talk things over as Mayor C. A. Huff of Pampa and Kermit Hardwick of Oklahoma City listen in. This was one of many huddles last night at the country club as a dinner and reception was given for the Oklahomans who were on a goodwill tour of more than 1200 miles. (News Photo)

Mainly About People

Mrs. Everett McNutt, 1340 Shrine, will leave Friday for San Antonio where she will have charge of certification examinations for dental assistants. The examinations will be conducted Sunday from Brooks Army Medical Center.

Divan for sale, \$10.00. 1015 E. Twiford.

Barbecue To Be Held

A barbecue and carnival will be sponsored by 7th grade students at the Hopkins school No. 2 Friday evening at 5:45, according to an announcement from E. H. Gibbs, sponsor of the class.

Barbecued goat and beef will be prepared by John V. Andrews. Money will go toward expenses on the annual 7th grade trip.

Games included in the carnival will be the sack race and fishing pond, and for adults, horseshoe pitching, bingo and dominoes.

The school is located by the Phillips-Pampa plant, and those in charge of arrangements say the barbecue will be held regardless of weather conditions; there is a place for cooking indoors.

The public is invited.

NAVY

(Continued from Page One) except for part of a wing which sticks straight up 15 feet from the bottom.

He said the divers hadn't seen any sharks. "The main danger is the sharp corners of the wreckage. That is more dangerous than sharks, anyhow."

The largest section of wreckage recovered so far was part of the forward portion of the transport. It was smashed and twisted.

A woman's foot and shreds of bodies came up with it. Divers also found a skull, with the flesh torn away.

The four-engine transport carrying 54 passengers and 11 crewmen from Miami to Havana, and the Navy plane, a twin-motored Beechcraft with four aboard, collided with a noise like a bomb blast over Key West shortly before noon yesterday.

Then, in full view of hundreds of shocked sunbathers and residents of the city, the airliner power-dived into the ocean at a speed estimated by witnesses at 600 miles an hour. It landed a half-mile offshore, not far from President Truman's "Little White House."

The Navy craft, disintegrating as it fell, crashed two miles west of the transport.

BRIDGE

(Continued from Page One) crossing that has been used by cars and smaller trucks the past three weeks.

One long span that collapsed was replaced by three bents of steel piling driven to 55 feet to carry short spans of steel that were brought in from the old Borger bridge.

Hendricks Construction Co. of Fort Worth, contractor on the job, was to have completed by April 29, but good weather and low water enabled him to complete the job ahead of schedule.

Much through-traffic, especially on Highway 60, was detoured over the Pack Saddle bridge south of Arnett, Okla., while some north-bound traffic from Amarillo and Pampa went over the Borger Bridge.

First yacht club in America was organized at Poughkeepsie, N. Y., in 1861, and held regattas and races on the Hudson River.

TRIBUTE

(Continued from Page One) investigation into the practice since the Parkhouse Bill, which he helped to write, has passed the Senate.

Said the Lufkin lawmaker: "I am chairman of that committee, but I have been tied down with these tax and money bills so much I haven't had time to launch an investigation. However, the Senate already has passed the bill and we believe the House will pass it. Then there will be no need of an investigating committee because it can be turned over to the enforcement authorities for prosecution."

"They are not actually violating any law because the statute has no teeth, no penalty. It merely states that no man can be kept from working because he is not a union member. This is the thing we want to crack down on; then, when it is violated, a jail sentence or a fine or both can be imposed."

Article 527A, passed in 1947, is titled "Right to Bargain Freely Not to Be Denied; Membership in Labor Union." It says: "The inherent right of a person to work and bargain freely with his employer individually or collectively . . . shall not be infringed by law, or by any organization of whatever nature."

"No person shall be denied employment on account of membership or non-membership in a labor union."

The statute carries no penalty for violation. The Parkhouse Bill would change that; put teeth into the law and make it a criminal offense to operate a closed shop, denying a man the right to work because he is not paying tribute to labor bosses.

It is up to the House of Representatives to make it law and the Governor to back it up with his signature.

It has passed the Senate. It is now up to the House to pass it on to the Governor for signature — or veto.

GOODWILL

(Continued from Page One) Pampa Mayor C. A. Huff expressed the Panhandle's appreciation for the cooperation given by the Oklahomans in settling up the Canadian River dam compact.

While the men were attending the affair at the country club, Paul West entertained the Kiltie band at a local cafe.

Today the Sooners will be on the last leg of the booster trip that will register more than 1200 miles.

During the Boer War, the British used a huge kite to raise a man who made military observations.

ALLIED

(Continued from Page One) least 100 men. It was feared the unit's losses might be high.

Other previously encircled units—Turkish, Belgian and Australian—had hacked their way out with relatively light casualties.

Red losses were placed at close to 30,000 in unofficial estimates. Heavy smoke and haze shrouding the battle area cut the aerial toll. Nevertheless, Marine and Fifth Air Force pilots reported they accounted for at least 550 Reds Thursday. This is about half their normal count.

Behind the screen of aerial and artillery fire, dusty columns of UN troops rolled toward Seoul.

There were indications indecipherable Seoul would be given up to the Reds for the third time.

UN officers in the west said they had the power to check

the Reds, just as they halted the Communists in the center after a big breakthrough early in the offensive.

Communist night attacks were broken almost before they were started. Huge searchlights turned night into day, exposing the Reds.

To the northeast, searchlights at the western end of Hwachon Reservoir caught 1,000 Reds marching down a road.

"The area lit up like Coney Island," the official report said. Then the artillery let loose.

"The wall of fire stopped the Chinese in their tracks," the report said. "Not one round of infantry fire was necessary."

Communist patrols probed the UN defense line through the night. They found the allies strongly placed on mountain ranges along the bulge.

There were sharp fights under

the light of star shells. But Thursday morning a staff officer reported the UN line had not given up a single yard during the night.

The 14-nation UN force was intact on all fronts. Its spirit was high, its firepower terrific.

On the east, allied troops prepared to meet a new assault by Korean Reds. The Communists were regrouping and building up their assault forces east of Hwachon Reservoir.

In the west the allied withdrawal was orderly.

'Cyclone Jones' Chases Twisters With 'Sferics'

By RICHARD M. CULWELL
STILLWATER, Okla. —(NEA)—An engineering wizard named "Cyclone Jones" is trying to bankrupt nature's cyclone business, which some years takes as much as \$300 million in property losses and 7000 lives in the south and southwest.

Herbert L. (Cyclone) Jones is professor of electrical engineering at Oklahoma A&M College in Stillwater, where he has set up the only college detection laboratory in the nation to trace cyclonic origins.

With it, he hopes to be able some day to speed warnings to communities in the path of the destructive winds.

Jones spots the gathering cloud funnels by means of "Sferics," which he describes as "the static or kerthumping noise heard on the radio" when there's lightning in the vicinity.

His devices are three screens, which look like small television sets or radar scopes. With these, he watches for wind columns and funnel-shaped clouds within a 200-mile radius.

But as Cyclone Jones' research develops, the radius will grow much broader. A series of such stations could serve as a cyclone-spotting network for a wide area, and save lives and property by giving people in the path of a twister time to prepare for it.

An intense, mustached professor who chews up dozens of black cigars while he works, Jones attacks cyclones with a scientific background that includes kinetics, electronics, mechanics, radio engineering, the theory of alternating currents, physics and meteorology, all of which he has studied or taught since he graduated from the University of Oregon in 1926.

Worry of FALSE TEETH

Slipping or irritating? Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, sticky taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug store.

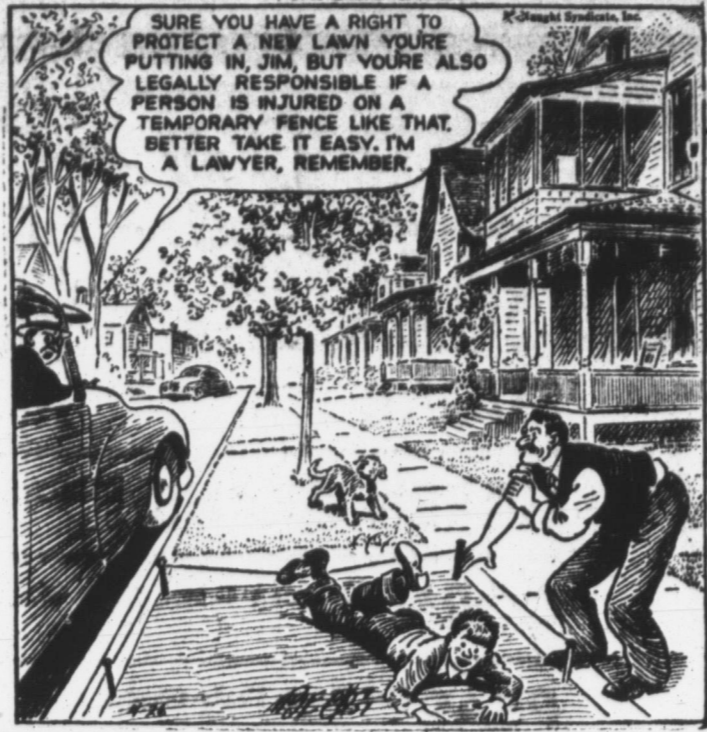

Notice — All Rental Property Owners

A County-wide Meeting to discuss DRASTIC FEDERAL RENT CONTROLS and other National and State Legislation now threatening ALL RENTALS—Business, Commercial, Industrial and Housing Properties—will be held:

(Ask any rental housing owner about rent control!)

'Whirlwind' Artist Began At 60 And Still Going Fast

By NEA Service

NEW BEDFORD, Mass. —(NEA)—Mrs. Sarah Marshall is an unusual artist. Sometimes she finishes her painting before she remembers to put her smock on. She has what has been called a "whirlwind" style with a paint brush.

It's all the more remarkable because Mrs. Marshall is 77. She took up painting just after her 60th birthday.

Her painting speed was emphasized by the mural she just finished at South Baptist Church. It took her less than seven hours to convert a blank space behind the baptistry into a colorful River Jordan scene.

First, she made a 4-by-8 inch sketch of the mural, then transferred the sketch to the plaster wall. She continued the painting up to the top section of the wall what is arched to meet the ceiling.

Mrs. Marshall, a native of England, isn't sure why she took up painting at all. Although she'd been a mill worker, she'd always loved anything that was hand work. She thinks her painting is "just another phase" of that hand work avocation.

Guns were fired every half hour until sunset on every American Army post, naval station and ship when Lafayette died.

Production Slow On Vegetables

AUSTIN —(AP)—Slow progress for Texas commercial vegetables was reported today by the U. S. Department of Agriculture.

Crops in early sections are running at least 30 days later than usual, the truck crop report said.

Cold weather has been a retarding factor, and strong winds have depleted the surface moisture supply.

Early crops mainly affected are cantaloups, cucumbers, sweet corn, potatoes, tomatoes, and watermelons.

TEXAS DEFENSE SECOND WASHINGTON —(AP)—Texas ranks second among states in the expansion of defense industry, to the extent that it is shown in industry's requests for tax benefits for added projects. The defense production administration put the Texas total at \$269,573,500. Pennsylvania led with \$756,460,000. Cocoa beans grow directly on the trunk and main branches of the cocoa tree, not at the tips of the branches as do many seeds.

Unions Deny Men Freedom To Work

An example of how a union can deprive a man of the right to work — despite Texas laws prohibiting such conditions — has been uncovered by The Daily News at the Pantex construction project near Amarillo.

Here is a place where the worker — skilled or unskilled — is required to pay fealty to the union bosses before he is allowed to pursue his occupation.

Any worker who retains enough freedom of spirit to be confident in his ability to make his own individual bargain with his employer and to sell his services wherever he wishes, is told he must "join the union" which applies for work at the offices of Waldon, Fulton and Payne, general contractors on the government project.

In effect, means that the workers have a CHANCE to get a job if he is willing to go to the union, lay cash on the line, submit to union registration and give the union a portion of his wages each month. If he is not willing to submit to all of this, he simply is denied the right to work on the project.

How the labor unions in their unending fight for power can make dupes out of an employer and workers at the same time is clearly seen in this case. For so long as the employer is apparently given up his right to hire whom he pleases at whatever wage he believes he can afford to pay, the union makes a fair profit. This puts the worker squarely in the middle — it's pay or don't work!

Under the Constitution, an American is guaranteed a right of freedom; including the freedom to work. When this freedom is denied the worker, whether it is by an employer, a union, or any other organization, it is his time for the practice to be halted.

During World War II, the unions demonstrated what can happen where labor operates under a monopolistic system. Many extra billions of dollars were extracted from taxpayers due to the prevalence of featherbedding, unnecessary overtime, hampering union restrictions and all of the other un-American activities the union bosses held in such great esteem.

A man who has a son fighting in Korea today might be moved by a patriotic spirit to do his part by working on a defense project even if he did not really need the money.

Better Jobs

By R. C. HOILES

What Belongs To Caesar?

By A Real Christian Preacher (continued)

I am continuing to quote today from an article published in "Faith and Freedom" under the heading "The Competence of Government" or "What Belongs to Caesar?" The article was written by Rev. Edmund A. Optiz, a member of the Spiritual Mobilization Staff. In yesterday's article Rev. Optiz was explaining that there was no way for government to get wealth except to confiscate what its citizens had produced, then he stated:

"Before it can build a housing project or a dam, the government must first deprive its citizens of the clothes, food, education, and health. They would otherwise enjoy if their means of obtaining them had not been taxed away. What the government puts into one set of pockets it must first lift from another set.

"It is obvious that the nation as a whole does not grow richer by an arrangement which taxes everyone for the purpose of subsidizing a few. For each one in a position to get something for nothing, there is another who gets nothing. Nor does the Paul who paid obtain full value for what was stolen from Peter; the friction of the governmental machinery of collection and distribution absorbs a large share of that amount. The nation is broken up into three large groups. First, there is the producing group which pays more in taxes than it receives in subsidies. Second, there is the consuming group which gets more in subsidies than it pays in taxes. And, finally, there is that swollen multitude comprising the nation's establishment whose maneuvering effect the distribution from group one to group two.

"This three-part division of the nation constitutes an enormous drain of wealth and potential. The first group plays host to the particular action of the other two groups. Robbed by the arrangement, this group is reluctant to produce up to capacity because it knows that the harder it works the more it will be penalized by progressively heavier taxes.

"The subsidized group is paid for not producing at all, or for producing less than it would if it knew its income depended entirely on its own efforts. This for opposite reasons the potential productive capacity of each of these groups is not realized, and the amount of goods actually available in the nation is far less than it might be.

"But this is not the whole story. The lowered production of these two groups, such as it is, must be shared with a third group which does not produce at all. The burden in government is withering on production together, and it does not, for the most part, render services for which consumers would voluntarily exchange their own goods and services produced by the nation to pay the salaries and other costs of government officials.

"The productive members of society would not consent to play host to the subsidized group and the bureaucracy if force were not brought to bear on them. The monopoly of force in society rests with government, and if the producing group refuses to pay the tribute demanded, the power of government to compel and its willingness to employ violence would be evident.

"The three-part division of the nation means that fewer goods will be produced. And there is the alchemy by which more goods can be distributed while fewer are being produced. The power of government to take from producers is not the creation of wealth, but the distribution of the abundance of wealth.

"Government is without competence in economics. The three factors in production are land, labor, and capital. Government is not one of these. It did not create the earth and its resources. It did not instill in man the needs and desires which the results of his labor satisfy. Neither did it bequeath to him the gifts of mind and muscle which unite in transforming man's natural environment into an ever more suitable home. The desire of man to save himself work, and the ingenuity back of labor-saving devices are peculiarly individual things. Inventions are personal creations not brought into being by government commissions. But although government does not share in the production of wealth, it can inhibit production all along the line. It can divert production from the channels set by human desire. It can garnish the wealth it had no share in producing. The injustice of these acts of government is obvious. But if government is to intervene positively in the life of man, it must commit the kinds of acts it must commit.

"When government intrudes in production, it lessens the amount of wealth that might be produced. It confers economic advantages on groups of its own selection only by disadvantaging everyone else.

Washington . . . by Peter Edson

WASHINGTON—(NEA) — When the MacArthur tumult and the shouting die, the first real test of Truman administration foreign policy will come over the combination of foreign and military economic assistance bill for next year. It promises to be more sound than substance.

It will pose the investigating congressmen in the role of military experts, trying to decide questions of strategy. There is always difference of opinion on such subjects. So an investigation may prove nothing conclusive, even though it makes a lot of noise and headlines.

In the foreign aid bill, however, the congressmen will have the true end of government, ignored in this contest. The vis-a-vis the economic government, to prevent the intrusion of non-economic factors. These are the things which deny the individual the enjoyment of the full fruits of his labor or prevent him from freely exchanging his goods and services in the market of his choice. Needless to say, the most persistent of these intrusive non-economic factors is government itself, and no other factor can successfully suppress individual freedom in the economic realm without the consent of government. The individual is either exploited directly by government, or by a semi-private interest to which government has granted a legal privilege—such as a monopoly.

It is months behind schedule. It is simple fact seems to be that there has been no detailed justification for these estimates. They were based on only the roughest of guesses.

"Task forces of experts have been working all over Washington since last fall, trying to get the figures together. Mountains of papers have been prepared. Estimates have had to be made for each country in the North Atlantic Pact.

"First, each country's military potential has had to be determined. Then its arms requirements for this force have had to be figured. How much of its arms could each country make for itself? Could it make more? Did it have the required raw materials? If not, where could the supplies come from? And how were they to be paid for?

Poll On Admired Women

BY DAVID BAXTER

I've been waiting for readers to send in their selections of the six women they most admire. I have accumulated pretty fair cross-section of opinion on the subject and here with you the results. You will be surprised.

- (1) Sister Elizabeth Kenney. (2) Helen Keller. (3) Vivien Kellems. (4) Betty Knowles Hunt. (5) Miss Grace Coolidge. (6) A tie between Mrs. Hester McCullough, Marian Anderson, and Mrs. Harry Truman.

The surprise package in this deal turned out to be Mrs. Betty Knowles Hunt, who came in fourth. She is a featured columnist for some of the papers running this poll and made a surprising showing. There is no doubt about one thing—Mrs. Hunt certainly has a following among readers of the papers her writings appear in.

Finally, was all this okay with General Eisenhower? All kinds of side problems crept in. For instance, Italy has some good automobile plants. They could be converted to making trucks or tanks. But if auto production were cut down, Italy's exports of autos would be smaller and its ability to earn dollars or other foreign exchange would be reduced.

On top of all these issues, the problem of U. S. inflation has been. The prices of arms and materials going into arms production have increased along with everything else. The result is that instead of requests for \$11 billion worth of foreign assistance for next year, the cost may be between \$12 and \$13 billion.

Military aid alone may run to \$7.5 billion or more. Economic assistance through the Marshall Plan may come to \$2.5 billion or more. Export-Import bank lending authority might have to be increased by \$1 billion. Special aid programs like famine relief for India, raw materials for Yugoslavia, Arab relief in Palestine have to be figured in and added to the total.

If additional aid is given outside the Marshall Plan and North Atlantic Pact, add that. Top it off with something for the Point Four program of aid to underdeveloped countries and you can see where the \$13 billion estimate comes from.

Spain and other countries outside the Marshall Plan and North Atlantic Pact, add that. Top it off with something for the Point Four program of aid to underdeveloped countries and you can see where the \$13 billion estimate comes from.

Spain and other countries outside the Marshall Plan and North Atlantic Pact, add that. Top it off with something for the Point Four program of aid to underdeveloped countries and you can see where the \$13 billion estimate comes from.

BY RAY TUCKER

WASHINGTON — The military high command at the Pentagon has blueprinted a secret plan for sterner strategy against the Chinese Communists in Korea that almost parallels General Douglas MacArthur's recommendations. They have so informed House-Senate Armed Service committee members in the record talks.

For obvious reasons, mainly their controversy with MacArthur, the Joint Chiefs of Staff do not want to publicize their program in detail. But they realize that the current statement must be ended if possible, by a definite decision on the battlefield.

The United Nations casualties mount over 100,000, mostly Americans, as they may during the summer fighting months, the White House believes it must adopt a more aggressive course.

The only basis of the Truman reason for firing MacArthur, and of the Administration's defense, is that the latter's policy envisaged possible war for which neither the United States nor its allies are prepared.

Current consensus is that Moscow will not dare to commit itself to an aerial attack. For all that, it is not believed that any more ready for a showdown than the western world.

The Kremlin's reaction, according to this theory, would be to prevent the U.N. army from becoming the victim of a massive surprise attack, as it did last December.

The final MacArthur demand to be met, depending upon circumstances in Korea and Western Europe, is the shipment of additional American units to the Far East, even if it means some delay in building up Eisenhower's contingent.

It is now known that General MacArthur did not stretch the truth when he told Congress that the Joint Chiefs of Staff had, at one time or another, approved the majority of his suggestions. But even if there still remained any dispute between him and the strategy makers at Washington, the Marshall-Bradley endorsement of the MacArthur idea is solely from their "military" perspective. If they had been in the place as commander in the field, if there were no other considerations being taken into account, they would have forwarded the same program to the Capital.

But, as General Bradley points out, the decisions here were based on "higher political level" named after the prospect that MacArthur kind of campaign would have brought on a global war with Russia.

Washington . . . by Peter Edson

WASHINGTON—(NEA) — When the MacArthur tumult and the shouting die, the first real test of Truman administration foreign policy will come over the combination of foreign and military economic assistance bill for next year. It promises to be more sound than substance.

It will pose the investigating congressmen in the role of military experts, trying to decide questions of strategy. There is always difference of opinion on such subjects. So an investigation may prove nothing conclusive, even though it makes a lot of noise and headlines.

In the foreign aid bill, however, the congressmen will have the true end of government, ignored in this contest. The vis-a-vis the economic government, to prevent the intrusion of non-economic factors. These are the things which deny the individual the enjoyment of the full fruits of his labor or prevent him from freely exchanging his goods and services in the market of his choice. Needless to say, the most persistent of these intrusive non-economic factors is government itself, and no other factor can successfully suppress individual freedom in the economic realm without the consent of government. The individual is either exploited directly by government, or by a semi-private interest to which government has granted a legal privilege—such as a monopoly.

It is months behind schedule. It is simple fact seems to be that there has been no detailed justification for these estimates. They were based on only the roughest of guesses.

"Task forces of experts have been working all over Washington since last fall, trying to get the figures together. Mountains of papers have been prepared. Estimates have had to be made for each country in the North Atlantic Pact.

"First, each country's military potential has had to be determined. Then its arms requirements for this force have had to be figured. How much of its arms could each country make for itself? Could it make more? Did it have the required raw materials? If not, where could the supplies come from? And how were they to be paid for?

WEST IS BEST—A German housewife buys a loaf of bread marked "West" in a West Berlin delicatessen. Berlin civil authorities recently voted to require such marking in order to cut down the smuggling of cheaper Eastern sector bread into Allied zones. The Communists have used the cheaper bread as a lure for West Berliners to cross the sector dividing line. (NEA-Acme photo by Staff Photographer Dietrich Gieseler.)

Rules Listed For Would-Be Dance Pickups

By SAUL PATT
NEW YORK — If you want to get along with night club chorus girls, don't call them chorus girls. Call them dancers. Don't think that mink will make up for what you lack in good intentions. Don't assume they're all nits. Many have been to college. Don't whistle or make passes at them from your table. They'll cut you dead. Don't invite them to your table.

If you're drunk. They won't come. And remember, in just about every decent night club it's understood the girls don't leave the place with the customers.

Don't tell them about your Texas oil wells. These girls have been exposed to every line known to man or wolf.

And if you actually do own an oil well and she smiles at you, don't draw any conclusions on your progress. Chances are she's engaged to marry a \$75 a week trumpet player.

All this information comes from Fletcher and Arden, a producing agency which "packages" musical revues for night clubs in New York, Boston, Miami, New Orleans, Cincinnati and Paris, France.

"We just don't stand around any more on a stage and look pretty," says blue-eyed Joy Sky-lar, a Fletcher and Arden dancer. "In the old days, they just

Red Infiltration In India Denied

New Drive Credited To Halting Attempt

By DEWITT MACKENZIE AP Foreign Affairs Analyst
It is too early to assay the potentialities of the massive Red offensive launched Sunday in Korea, but apparently it's a major effort aimed at driving the U. N. forces from the peninsula — or dying in the attempt.

Lt. Gen. Matthew B. Ridgway, who succeeded General MacArthur in command, declared that this great battle might well prove decisive. That is, it may be the big show-down.

Much of the terrific weight of 400,000 foot soldiers flung against the Allied lines came from Chinese Communists. An estimated 300,000 more Chinese and North Koreans were held in reserve.

Thus to all intents Red China and the United Nations forces were at war. Technically, however, the well trained masses of Chinese soldiery were "volunteers" who were rushing to the aid of their stricken Red brethren in Korea.

So this is just another phase of the war of aggression against South Korea. U. N. circles are hoping that the Allied high command is right in believing that this humane landside campaign is stemmed. They hope that if Ridgway can hold the Reds, then maybe the Chinese will be ready to talk peace.

Behind Red China is the impulse and guidance of Moscow. This is just another shrewd move on the part of Russia to bleed America and the other Western Allies all possible in Asia by using satellite force as part of the Bolshevik program of whittling the western powers down to size where the Soviet Union can handle them.

Is Moscow-inspired Red China deliberately inviting trouble with America and her allies? That could well be. Premier Stalin would give his right arm to see the United States involved in war with continental China while Russia sat on the sidelines conserving her strength for eventualities.

Observers generally hold that should the United States allow herself to be drawn into such a conflict, it would be a direct invitation to World War III. Apropos of this it will be recalled that Congress declared that "No man in his right mind would advocate sending our ground forces into continental China, and such was never given thought.

Thus far in the current offensive the Reds haven't displayed great strength in air power, tanks or artillery. The United Nations, while outnumbered in ground forces, still dominate both sea and air, and have greater fire power.

Emotional Speaking Defended By Columnists

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The global surge of favorable and adverse criticism directed at General MacArthur's speech before the joint houses of Congress has much to say about the emotional aspects of his oratory.

The address was, of course, highly emotional in places as was fully demonstrated by the reaction of his hearers. For instance, there were tears and even open sobbing in the chamber when MacArthur concluded with his "old soldiers never die; they just fade away" Good bye."

And there were tears among listeners on the radio as this farewell of the famous veteran came over the air. That was the effect of the spoken word as handled by a master orator.

However, some who didn't hear the speech, but tried to have their opinion on the printed word, have been wondering whether these very intimate phrases were too emotional and somewhat on the "corny" side. Well, it perhaps is true that coming from a novice such expressions might have seemed "corny," but not when delivered by a MacArthur.

Authorities on public speaking, assaying this address, have placed MacArthur in the class of great speakers who have employed the oratorical style of the 19th century. Britain's Winston Churchill is cited as being in this classification, which is reminiscent of the days of famous speakers like William Jennings Bryan and his "Cross of Gold" speech.

This style of oratory depends heavily on the emotional appeal, and it calls for consummate skill if it is to be kept from becoming theatrical. Churchill is a past master of emotional speaking, as witness such famous utterances as his call to arms against Hitler in May of 1940. That was when as Prime Minister he told the House of Commons in impassioned tones:

"I say to this house as I said to the ministers who have joined this government, I have nothing

to offer but blood, toil, tears and sweat."

That was emotionalism at its peak. Yet as handled by a master like Churchill it had the effect of an electric shock on his people. They surged to the defense of their country. And this sensational appeal also swept through Allied nations and spurred them to greater efforts.

I have seen Churchill in action many times, especially in the House of Commons, going back as far as 1916 when he was more or less a "lone wolf" politically in Parliament. There never has been a time when opponents haven't been afraid of Churchill's uncanny skill with words, and his ability to arouse emotions.

MacArthur has the knack of emotional appeal. He used it in his address before Congress.

There are some who maintain that such emotionalism has no place in public life. They insist that we should be guided by cold logic.

At first blush that sounds like an irrefutable argument. Still, while broadly speaking it is true, I think emotionalism has its place. Many of the finest acts of mankind are due to the emotional appeal.

And so, unless we are to be ruled solely by our heads and never by our hearts, I think we must concede MacArthur the right to resort to some emotional appeal in making this historic defense of his stewardship in the Far East.

Politics Change Her Birthday

LOS ANGELES — (AP) — Mrs. Beatrice H. C. Wood doesn't like her birthday. It is the same as President Truman's. She has served notice she will celebrate her birthday on General MacArthur's birthday instead.

Mrs. Wood said in a personal notice she offered the Los Angeles Times that she has celebrated many years on May 8 but hereafter will observe Jan. 28 along with Gen. Douglas MacArthur, with whom I am willing to fade away."

To a suggestion that perhaps her hour of birth might have been different from the President's, Mrs. Wood replied:

"I was born very early in the morning. It was too early for me to be awake, or I'd have done something about it."

Incidentally, Mrs. Wood and her husband, Vernon D. Wood, a financial counselor, are both Republicans.

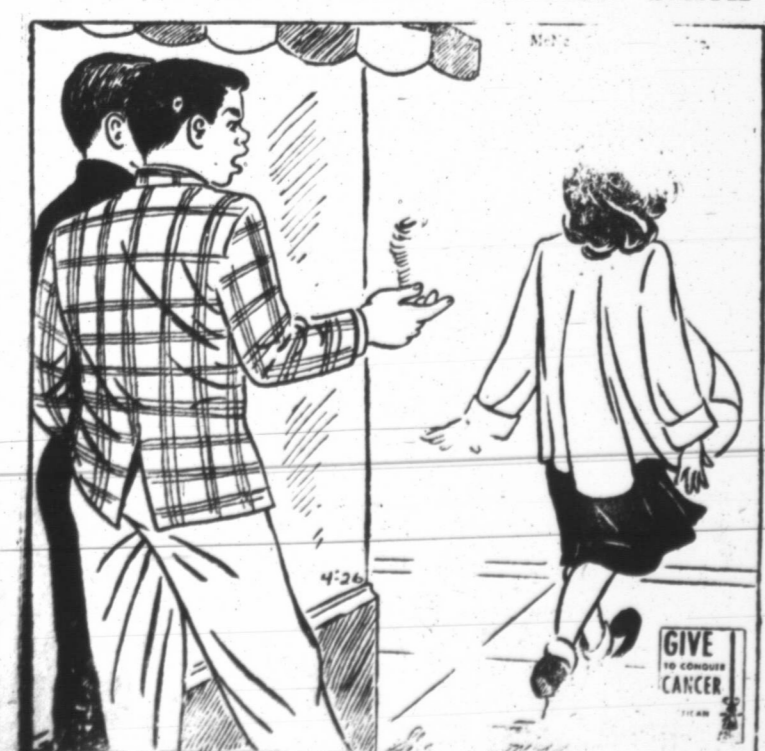

The Korean tiger often measures 12 feet from nose to tail tip and has a shaggy, heavier coat than the Bengal tiger.

Lots Of Big Fish In Pond

SYDNEY — (AP) — A year ago officers of the Government's Scientific and Research Organization caught a shark in St. Helens Bay, Tasmania, put a tag on it and let it go again. The idea was to get information about the growth and movement of the shark if it were seen again.

Ten months later scientists did the same thing with 196 flounders. The other day they tagged shark was caught in St. Helens Bay. Inside it was one of the tagged flounders.

Dear Old Grandma Streamlined Now

By HAL BOYLE

NEW YORK — (AP) — Before the species dies out altogether, someone ought to go out and trap a real old-fashioned grandma.

And they ought to trap a real old-fashioned grandpa, too, and put them on exhibition in the American Museum of Natural History — somewhere between the dinosaur and the brontosaurus.

But I suppose it is too late. Are there any real old-fashioned grandparents left? If there are, I don't see them anymore. No place, that is, except in the magazine ads.

You know the type of grandma I mean. She's the dear old white-haired soul with the kindly look, sitting in a quaint rocking chair and putting the finishing touches on a quilt. And remember the old-fashioned grandpa? He's the gentle character with the time-frayed moustache. He is seated by the fireplace. His cane is by his side, and a golden-haired tot is sleeping on his lap as the fine old fellow gazes with misty eyes into the dying fire.

Well, that's the kind of grandma and grandpa I was raised to believe in. But today they're about as legendary as Santa Claus. I have met a lot of grandparents recently, but none of them were sewing quilts or sitting by the fireside.

They have become streamlined — just like trains, airplanes and motor cars. The jet age grandma doesn't want to look like Whittier's mother. Her model is Marlene Dietrich, who is a grandma, too, but gets a little tired of having that fact mentioned so much.

Yes, grandma has done gone in for glamor and sex appeal. The only needle she knows is the one she gives grandpa for stopping off at a bar on his way home. She no longer has silver threads among the gold. She's a platinum blonde. And by golly, and by peroxide, she's going to stay a blonde!

She and grandpa don't hang out in their children's chimney-corner. The youngsters live with them, and grandpa usually pays the rent.

The big argument about the house now isn't whether the grandchildren should be spanked. It's about whose turn it is to

stay home and baby sit—mother's or grandmother's?

"They're your kids," says grandma firmly. "You stay home and raise 'em. Your father and I are already 15 minutes late to our samba lesson."

Nope, grandma is done with diapers. She'd rather play canasta or talk about the foreign policy.

Recently I visited a household that has one of those golden-haired little tots that used to fall asleep on grandpa's lap. She was prettily begging her mother to let her stay up until midnight — "just this once."

"Why?" said the harassed mother.

"I want to see grandma come home," explained the tot.

And at a party I went to I

Man Carves Farm He Once Knew

BRATTLEBORO, Vt. — (AP) — Growing up around Albert E. Halladay, 85, is the farm — in miniature — he knew as a boy.

Halladay farmed until he was 55, sold real estate until he was past 80, then took up wood carving. With jack knife and hacksaw he carves out in authentic detail the equipment which farmers have used.

The maple sap tub with its little spigot and two wooden buckets alongside, all mounted on a sled pulled by two steers yoked together. A model of a long-disused milk wagon; a little dump-wagon that preceded the modern manure spreader; grindstone, wheelbarrow, pitchfork, bucksaw, shovels, rakes, a buggy.

It is nice to see the old folks growing young so disgracefully.

Wayland Has How Not To Walk In 6 Silly Lessons Meet May 1

PLAINVIEW — (WCSN) — The annual meeting of Wayland students will be held in the Wayland College dining hall at 7 p. m. May 1 according to an announcement made here today by the Rev. Vernon Shaw of Lubbock, president of the Extension Assn.

Kearle Keegan of Nashville, Tenn., south-west student secretary of the Southern Baptist Convention, will be the speaker for the evening.

Atty Bruton of Plainview is acting secretary of the association, and Frank Baker of Plainview is vice-president.

THE STUTTERER walks in such uneven rhythm his next step may be four times as big as the last one. This is one reason why stutterers are so good at multiplication. Manholes are a stutterer's biggest problem.

THE DIPPER puts so much weight on one foot that his knee is constantly buckling. The bemused belle above is not sure whether she has a shy suitor or a "Big Dipper" on her hands. "Little Dippers" are just as bemusing.

HEEL-KNOCKERS are worse than the fellow knockover. For one thing, they knock the rear of one shoe against the other, wearing out both shoes and trouser cuffs. And because they won't back up for anyone, they're sometimes called "Heels."

TOE DANCERS are adept at sneaking into the house late at night after being out with the boys. They walk on the balls of their feet, like frustrated ballet stars, and sometimes get an assist from the bartender.

SHIFTERS can't stand in one position for long because their feet hurt so much. Some have the shifts so bad they migrate to New York just to hang from subway straps. Others play football or mournfully walk on their hands.

THE DRAGGER does exactly that. As a result, his soles almost always look like they are on their last legs. Draggers are often found in brakeless jalopies, dragging in a way that leaves their feet tired.

Drafting Doctors Is Due This Year

By JAMES MARLOW
WASHINGTON — (AP) — Up to this time no doctors have been drafted for military service. It hasn't been necessary. Enough have volunteered to fill the need for medical men.

Now more are needed. And selective service says that if enough doctors don't volunteer, it will have to draft some in July, August, and September. It's ready to draft up to 1,202.

Doctors who volunteer will be commissioned as officers. But selective service says those who wait till they're drafted will go in as buck privates.

But selective service says it isn't shooting at doctors in general. It is aiming only at a special group, called priority one. In fact, no doctors may be drafted until those available in priority one are called.

Doctors in that group are those who received medical education at government expense or were deferred from service during World War II to attend medical school and who have served less than 90 days in the armed forces.

Under the law all doctors up to 50 have had to register and, under the law, any of them under 50 could be drafted. But Congress asked the President to see to it that none would be drafted before those in priority one.

It can be seen that most of those in priority one are young or comparatively young doctors. This is a brief explanation. During the war the government set up an Army specialized training program (AST) and a similar program for the Navy, called V-12.

Under that program the government would pay the expenses of youths studying to be doctors, dentists, scientists, and so on.

Under that program, also, besides receiving government pay, they were to be exempt from the draft until they were graduated.

But once they were graduated, it was understood, they'd start paying back their debt to the government by joining the Army or Navy.

Those who finished before the war's end did just that although some didn't see much service before the shooting stopped.

The AST and V-12 programs ended in the fall of 1945 when, with the war over, there wasn't such great need for doctors in the Army and Navy.

This meant that many youths, with part of their schooling already paid for by the government, were free to finish at their own expense.

And, when they did finish, they were free to go into private practice. Some joined the Armed Forces. Some went into military reserve units. Some just went into private practice.

After the Korean outbreak, the Armed Forces made a bid to get some of those young doctors, who had had some schooling at government expense, to pay up their debt by joining up.

The bid got a cool response from the young doctors, although the American Medical Assn. urged them to sign up.

So Congress passed a law giving the President power to call any doctor up to 50. But Congress asked him to do the drafting in this priority order:

1. Those who had AST or V-12 and put in less than 90 days' military service or none at all. (This no. 1 group also includes those who paid for their own medical training but were deferred from World War II draft because they were studying medicine.)
2. Those who had AST or V-12 training and put in more than 90 days' service but less than 21 months of it. (It also includes those in parentheses under no. 1.)

And there were a couple of

other groups after those: doctors who didn't take any part in the AST or V-12 programs but had no military service, those who did have military service of more than 21 months and so on. Selective service, since the Korean war, has put out only one call for the draft of doctors. That was last fall. But it got enough volunteers and no doctor had to be drafted.

Johnson Stresses Control By Civilians

Terming General Douglas MacArthur as "one of the greatest military leaders we have produced," Sen. Lyndon Johnson said it "is essential that civilian control be maintained over the military," in a letter expressing his views on the MacArthur canning debate, to The News yesterday.

The junior Texas senator voted to ask the deposed Far Eastern commander to testify before the Senate Armed Services Committee and have the "entire controversy explored in order to give the American people all of the facts."

In his letter, Sen. Johnson wrote: "In the early days of World War II I had the opportunity to serve under General MacArthur. . . I believed then — and I believe now — that he is a very great military leader, one of the greatest we have produced. I'm sorry we have lost his talents in the Far East."

"While regret what the commander in chief (President Truman) deemed to be the necessity for General MacArthur's removal, I realize that it is essential that civilian control over the military be maintained."

"We must avoid appeasement of the Chinese Communists; I think we must try to avoid any course that would lead us into a 15-year war with the Chinese, on the Asia mainland."

"I regret General MacArthur's dismissal. I have just voted to ask the general to testify before the Senate Armed Services Committee . . . and want to see the whole controversy fully explored in order to give the American people all the facts. I'm sure that his views will be thoroughly considered in helping to determine our future course in the Far East."

Shamrock entrants in the declamation contests at the Lubbock regional meet won two first places Saturday.

Sandra Burden, Irish junior, won the senior high school girls' declamation with her original work, "Our Living Constitution." Sandra had previously taken the top honors at the McLean District 2-A meet.

Billy Bob Lasater, also a junior, won first honors with his senior boys' declamation, "Why? Lasater's declamation compares the world-throttling ambitions of four conquerors — Alexander the Great, Caesar, Genghis Khan and Napoleon — with the fact that swallows return annually on the same date to Capistrano, while conquerors fade."

He, too, won the McLean district contest. Both will go to Austin the first week of May for the state declamation contest. Shamrock also has other entrants in the state meet: Vernon Tarbet, a senior, in the pole vault, following his victory for second place at the Lubbock meet and the golf team.

Means To Check Cholera Sought

CALCUTTA, India — (AP) — Authorities are seeking means to check a growing epidemic of cholera which has claimed 143 lives in Calcutta during the past two weeks.

Combating the ancient scourge is complicated by general objection to inoculation against cholera and by continued sale of food from open sidewalk stalls despite city laws prohibiting this practice.

Also, Calcutta's 3,000,000 population has been increased during the past year by countless Hindu refugees from the Pakistan state of East Bengal. As a result, living conditions are even more unsanitary than usual.

Health officials took some comfort however, from the fact that cholera has not yet taken the toll it did at this time last year. In corresponding weeks of 1950 there were 152 cholera deaths here.

Offer good for a limited time only.

Central Sets Up Service In Borger

BORGER — (P) — Central Airlines of Ft. Worth will begin commercial airline service in and out of this Panhandle city on May 15.

Central President Keith Kahle made the announcement after the Civil Aeronautics Board Tuesday approved Borger's application for passenger and mail service.

Service will be provided by 24-passenger DC-3's on a schedule of two round-trips daily, two eastbound (to Bartlesville and Tulsa) and two westbound (to Amarillo) flights.

Kahle said the new service will be a great travel accommodation for major industries in the "transportation desert of the Texas Panhandle."

On February 5, 1951, China's "Year of the Tiger" ended and the "Year of the Rabbit" began.

SINUS CATARRH SUFFERERS

Find relief from misery due to SINUS CONGESTION. SUPPLY RUSHED HERE!

Relief at last from torture of sinus, catarrh, and hay fever due to nasal congestion. It is seen today in reports of success with a formula which has the power to reduce nasal congestion. Men and women with sinusitis, hay fever, and other ailments, find relief after using it. KLOBONOL costs \$1.50, but considering results, this is not expensive, amount to only pennies per dose. KLOBONOL (caution, use only as directed) sold with money-back guarantee by Perkins Drug Store, 110 W. Kingsmill, Pampa—Mail Orders Filled.

America's Largest and Finest Low-Priced Car!

The Styline De Luxe 2-Door Sedan (Continuation of standard equipment and trim illustrated is dependent on availability of material)

LARGEST! FINEST!

Only Chevrolet in the Low-Price Field Can Say: Only Chevrolet in the Low-Price Field Can Offer:

- IT'S LONGEST!** 197 1/2 inches. Line up all the cars in the low-price field, and you'll find Chevrolet the longest. Looks longest, is longest. And this greater length means greater comfort on the road.
 - IT'S HEAVIEST!** 3140 lbs. (shipping weight). Chevrolet is a solid value. It outweighs all others in the low-price field. This greater weight helps to give you a staid, more solid ride . . . gives you that big-car feel.
 - IT HAS THE WIDEST TREAD!** 58 1/2 inches (rear wheels). Full measure, full value, in every dimension . . . including the widest tread in the low-price field. This greater width of tread contributes to exceptional roadability.
- Put them all together . . . longest, heaviest, widest tread. They add up to the largest car in the field, and underscore the rugged virtues that make Chevrolet America's first choice. Big-car, massive look, most like the most costly. Staunch, sturdy construction that makes Chevrolet stand up better, as resale values show. Solid, roadhugging ride with big-car steadiness on the highway. All this is part and parcel of the largest and finest low-priced car—Chevrolet.

WAGE STABILIZER — Dr. George Taylor, above, University of Pennsylvania professor, has been named chairman of President Truman's new Wage Stabilization Board during his "organization period." Dr. Taylor served for three years as vice chairman and later chairman of the War Labor Board in World War II.

Star Refuses To Dye Hair

By BOB THOMAS
HOLLYWOOD — (P) — He was a far cry from the suave, slick-haired Cesar Romero of yore. He had the same Latin dash, but now he looked more distinguished, as though he had just stepped out of a liquor ad. This was the new Cesar Romero, with handsome streaks of grey in his black hair. He appeared that way for his role in "Lost Continent," and he snorted at the idea of dyeing his hair black.
 "Why should I?" he asked. "This is the way my hair is, and this is how it's going to stay."
 He remarked that other actors, such as Spencer Tracy and Cary Grant, allowed their hair to grey, too.
 "That makes sense," remarked the Latin from Manhattan. "I'm 44 and I'm not going to play juveniles any more. Grant is a few years older than I am and Tracy is in his 50's."
 Others who take no pains to disguise their grey hair: Clark Gable, Ray Milland, Humphrey Bogart, Ronald Coleman, Dick Powell, James Stewart, Barbara Stanwyck.
 Romero laughed about one actor who has kept the dye pots busy for more than a decade. "He's not fooling anybody but himself," Romero remarked.
 "I remember another actor who was a big star at Fox when I was there in the old days. He was 30 then, but he still wanted to play romantic leads. He was dyeing his hair and trying to keep his figure.
 "At that time he was worried because the studio wanted him to take a role as Tyrone Power's father. He wouldn't do it." The star soon declined to B pictures.
 Romero has been doing — all right since he left 20th-Fox a year or so ago. He went to Europe for "Happy Go Lovely" with Vera-Ellen and the film is being hailed as one of the brightest musicals to come from the British Isles.

Planting Evergreens For Future Security
 PITTSBURGH — (P) — A young Pittsburgh minister thinks the 40,000 evergreen trees he has planted will keep him in his old age.
 The Rev. Stewart P. Robinson, assistant pastor of the First Presbyterian Church, and his wife planted 20,000 of the trees themselves on a farm the couple owns near Delhi, N. Y. The other 20,000 were planted by a professional.
 Robinson hopes to plant another 100,000 evergreens in coming years. Although he doesn't expect to get rich, he says the trees are a good investment for the future. He adds: "If this inflation keeps on, I can be sure my investment is growing anyway."

DUCK SOUP — When two inches of rain fell on Gulfstream Park in a day, a duckling mistook the "Hollandia" track for a tributary of the Gold Lake, and joined Jockey Anthony Tavarre as he waded in the clubhouse. (NEA)

Soil Spoils The Pretty Picture

Frequent laundering and careful ironing (left) aid this young woman in keeping her spring costume-touches of white crisp and fashion-right.

White has descended upon the fashion world this spring like an out-of-season snowfall. Frost-ed over current styles are crisp accents ranging from filmy or gaudies and nylon sheers to sturdy linens and piques.

Practical as well as pretty, many of these trimmings are detachable. Collars, jabots and revers snap on; scarves unbutton on untie; bandings slip easily out of slots.

These are regarded as a boon by the fashion-wise woman who realizes the importance of keeping her white touches spotless.

Frequent laundering not only disposes of dimming films of soil, but also slows the onslaught of yellowing.

It's a good idea to dry your white wardrobe accents on a white towel in the sun from time to time. Or hang them directly on an outdoors line to keep them well-bleached.

Press collars, cuffs, scarves or bands with the straight of the material to keep the linings smooth and flat. Set your iron low for nylons, rayons and silks; turn it high for linens or cottons.

To make ruffles stand full and frothy, iron toward the seam of the rill and swing the back of the iron from left to right and back again.

To raise embroidery, iron the pattern face downward over an extra thickness of material such as a Turkish towel.

Fresh white gloves are always a good bet for lifting a costume out of the ordinary. But remember, gloves get the roughest treatment of any accessory. Once they're wilted, they lose their importance as fashion accessories and become simply not-so-attractive handcoverings.

It's best, if your budget can stretch that far, to own several pairs of white gloves at a time—for changing when they become soiled.

You'll find it's economy in the long run, since there's no need to subject the several pairs to the hard scrubbing required by one pair that's allowed to get completely grimy.

Routine Complexion Care Studied By Bell Home Demonstration Club

"The Flowers I Grow Most Successfully" was the roll call answered by the members of the Bell Home Demonstration Club when they met recently in the home of Mrs. Henry Duesterhaus.

Mrs. J. B. Jones presented a ten-minute demonstration on "The Care and Cleaning of Walls and Woodwork."

"Nothing changes your looks more profoundly, for better or for worse, than the way you use color," said Mrs. Carl Smith as she began her program on "Routine Care of Complexion and Hands."

"A poor skin makes a color selection difficult; a good skin is lovely in itself and easy to cue to color. So do everything you can to keep your skin bright. Remember that it is fed from the inside, and stick to a well-balanced diet, wholesome as a baby's. Train a critical eye for the state of your face by a frequent observation in a magnifying mirror. The skin changes from time to time as a result of age, weather, diet, illness, and other factors. Know what your skin looks like, and act to improve it."

Mrs. Smith continued, "After each face washing, rinse off every trace of soap and dry carefully. Protect your face from wind and cold, and never risk a severe sunburn. Use cream every day without fail. Blackheads and bumps warn you to eat sensibly, clean your face meticulously, and avoid fingering or picking at your skin."

"The glove habit if one of the best ways to keep hands white," said Mrs. Smith. "Protect your hands from cold, redness, the harsh effects of work, by having an extra thickness of material such as a Turkish towel."

Refreshments of cake, coffee and iced tea were served. Members attending were Mrs. Roland Duer, Mrs. Ernest McKnight, Mrs. J. B. Jones, Mrs. Grayce Morris, Mrs. D. W. Swain, Mrs. Carl Smith, Mrs. J. W. Gray, Mrs. J. W. Cunningham, Mrs. Jack Morris, Mrs. Arnold Doss, Mrs. Emmett Osborne, Mrs. Walter Noel, Mrs. Henry Urbencyk, Mrs. Charles Warrinski, and the hostess, Mrs. H. C. Duesterhaus.

daughter, Karen Sue, and Mrs. Perener Carper and son.

The guest of honor received several gifts.

Q — Where is the world's greatest waterfall from the standpoint of actual size and volume of water?

A — On the basis of mean annual flow combined with height, Guaira on the Parana River, between Paraguay and Brazil, is the world's greatest waterfall. Its estimated mean annual flow is 470,000 cubic feet a second.

BIRTHDAY PARTY IS FAVOR FOR MRS. LaMAR

Mrs. Bowen Reviews 'The Unveiling' For AAUW Book Club

Mrs. Walter Bowen reviewed "The Unveiling" by Grace Vlesher Paine at the April meeting of the AAUW Book Review Club. The setting of the book is Iran, with most of the activity centered in Teheran.

Mrs. Bowen said the book tells the story of Esmat, a Moslem woman, and the problems she faced after her unveiling.

Mrs. Bowen said "A law was passed in 1936 requiring all Moslem women to appear publicly without veils. Esmat had a

Blue Bell 4-H Girls Place Slide Fasteners For Clothing Revue

Members of the Blue Bell 4-H Club met, in the home of Sally Graves to learn the correct way to sew zippers in the garments being made for the 4-H Revue. Mrs. Emmett Osborne showed film slides on using the sewing machine and how to put in a zipper. After the film she put in a zipper and explained it step by step.

Later, the girls met in the home of Olivia Ann Swain where Miss Joy Williams showed films on altering dresses. She also told how to finish the front facings and neck edges of garments.

Billie Mae Osborne, vice president, presided at both meetings.

The meetings were attended by Johnnie Mae Daur, Linda Woodall, Olivia Ann Swain, Sally Graves, Sarah Weaver, Nancy Weaver, Carolyn Anderwald, Martha Anne Duke and Billie Mae Osborne.

Also present were Mrs. Roland Datter, Mrs. D. W. Swain, Mrs. T. D. Anderwald, Mrs. Roland Cole, Mrs. M. O. Graves, Mrs. Emmett Osborne, Mrs. J. R. Weaver and Miss Joy Williams. The next meeting will be in the home of Peggy O'Neal at 2 p.m. Monday, May 7.

It is impossible to mentally or socially enslave a E.L.I.-reading people. The principles of the Bible are the groundwork of human freedom.—Horace Greeley.

WE, THE WOMEN

By RUTH MILLET
NEA Staff Writer

WHO'S COMPLACENT?
Time and time again someone charges the American people with complacency.

Well, just who is complacent these days?

Certainly not the Joneses whose son has gone into service at an age when the Joneses still think of him as just a kid.

It's not the Smiths, who are finding it increasingly difficult to feed and clothe and house a family of six on Mr. Smith's white collar pay check.

It's not the Browns, who look at their four small sons and wonder what is in store for them in the years to come, and, like all parents, hope and pray that "things will straighten out" before their own healthy, happy kids are of draft age.

It isn't anybody who reads the front page of his newspaper, listens to news broadcasts and tries to figure out what is ahead.

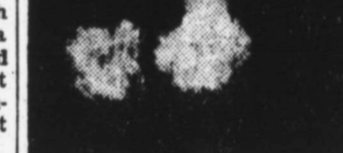

THE REAL BATTLE
How people could be any less complacent than they are today would be hard to imagine. Complacency isn't what we have to fight.

What each family has to fight is the very opposite of complacency — our feeling of insecurity, our lessening faith that we can ever win a lasting peace, our secret fear that tomorrow may be much, much worse than today.

That is what we are living with — not with complacency. It is at the back of our minds as we go about our daily jobs, only dulled a little when we look for escape in leisure hours. It is often in our minds when we watch our children at play.

Who are these complacent people we are always hearing about? Do you?

Beauty After Forty

BERNICE CHAMBERS

"Anything worth doing is worth doing well," says Bernice Chambers, Director of Fashion of the New York University School of Retailing. "And especially does this apply to mature women who have the opportunities to make good in any activity—any career. A woman," she said definitely, "must have the proper concept of a woman's place in business. Her contribution to the business world should be based on that."

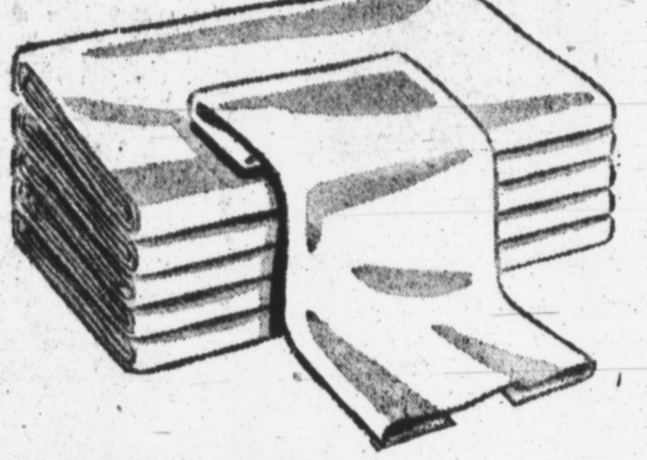

Bernice Chambers has been building her career along that idea and she has built it well. She believes that Women need never say that they are lonely. "Why," she said briskly, "a woman is selfish when she has that attitude: if she lives in one room she can invite the next-door roomer to come in for a cup of tea and a cracker, even though she has only a hot plate on which to brew the tea! That friendly gesture leads to conversation, sharing of ideas, and then, suddenly, neither one is lonely or alone."

And hobbies she thinks are important. Her's is horserback riding and she is taking lessons in jumping. She has always ridden, maybe because she started life in the Golden West, the state of Oregon.

Eye shadow in new slick form enables this young woman to shade her lids quickly and surely for a well-blended natural effect.

Bombing Bridge All In Day's Work For American Jet Pilots

INS 2-24 BOMBING BRIDGE... By WILLIAM C. BARNARD
A U.S. AIR BASE IN KOREA... The mission was a bridge of planks and lashed poles thrown across the Imjin River north of Seoul by the Communists.

We flew over the bridge, Major George Loving of Lynchburg, Va., a jet pilot, and I. From 10,000 feet the bridge was a slim but very important target. The five jet pilots of our flight dived lower and examined the bridge and its surrounding terrain. They were considering

Kansas Rancher Is Speaker May 11 For Historical Society

DAN D. CASEMENT

CANYON — (WTNS) — Dan D. Casement, rancher and farmer from Manhattan, Kan., will be principal speaker at the annual meeting of the Panhandle-Plains Historical Society, to be held May 11 at West Texas State College.

J. Evetts Haley, president of the society, announced the speaker this week. Casement, a graduate of Princeton University, has been in the cattle and farming business for a half century and was active in building up the quarter horse breed. His father, a general in the Union Army, was hilder of the Union Pacific Railway Co.

"Mr. Casement is a vigorous speaker," Haley said, "and his speech will probably be both reminiscent and on current affairs." The annual society meeting will get underway at 2:30 p. m. May 11 with a directors' and business meeting in the society's museum on the college campus.

Casement is slated to speak at the dinner that evening, to be served at 7 o'clock in the West Texas State cafeteria.

Beauty Parlor Patrons Blasted

PLZEN, Czechoslovakia — Some hairdressers' salons in Czechoslovakia are nothing better than "reservations of the bourgeoisie," says the Plzen Communist newspaper Pravda. Though now city-owned, it said they "cultivate the old morals and have become the last refuge of the 'mesdames.'" "It is one's own business, of course, how one has oneself disfigured," the paper went on. "But the time wasted in such titillations and the thought of the reserves of labor that are still unused are something to think about."

Americans Spending \$41 Million In Italy

ROME (AP) — The average United States tourist who visited Italy in Holy Year, 1950, spent \$336 here exclusive of travel costs from and back to America. The Italian office of American tourists announced that 122,000 Americans came to Italy during the year, and spent \$41,000,000. They were part of the 300,000 United States tourists who visited Europe in 1950, spending \$230,000,000 or an average of \$765 per person.

Fades the sun, your day is done, day is done, Fare thee well old soldier, Tho' you're gone, your deeds live on. Old soldiers never die, They just fade away, Old soldiers never die, They just end their day, Fade away, fade away, fade away.

Still they stay. (Copyright Remick Music Corp., reprinted by permission.) The music is just about the same as the band version once it gets into the chorus. As a song, it seems to have faded away in recent years. Now that MacArthur has aired it in the halls of Congress, however, it will probably turn up in more versions — and in more places — than the Tennessee Waltz.

the best ways to hit the bridge. Hills guarded the most effective approach to the bridge but Capt. Edward F. Johnston, 27, of Reynolds, Ill., squadron leader, figured the planes could slip through.

Down he went in a breathtaking dive through Communist fire and released a 500 - pound bomb. He was followed by Lt. Robert D. Marsh, 35, of Burlingame, Calif.; 2nd Lt. Paul W. Wood, Jr., 22, of Deport, Texas, and Lt. Joe D. Johnston, 26, Coffeyville, Kan.

Then it was our time and Loving expertly dropped the jet's nose and flashed earthward at 450 miles an hour while enemy weapons winked brightly from the bridge's guardian hills. Two bombs had damaged the bridge — one at each approach — but the structure still stood.

Again the five jets howled in steep dives. Captain Johnston's bomb blasted the center of the bridge. Later he explained his fine hit: "It's my new technique — I just closed my eyes and let go."

The jets, with some fuel to spare, sought new targets. In another part of the front they found allied soldiers, miles behind enemy lines and cut off by Chinese. For as long as they dared, the jets circled the soldiers, pointing the enemy hills and ridges around them with machinegun-fire. Then, with waning fuel supplies, the jets streaked back to their home base.

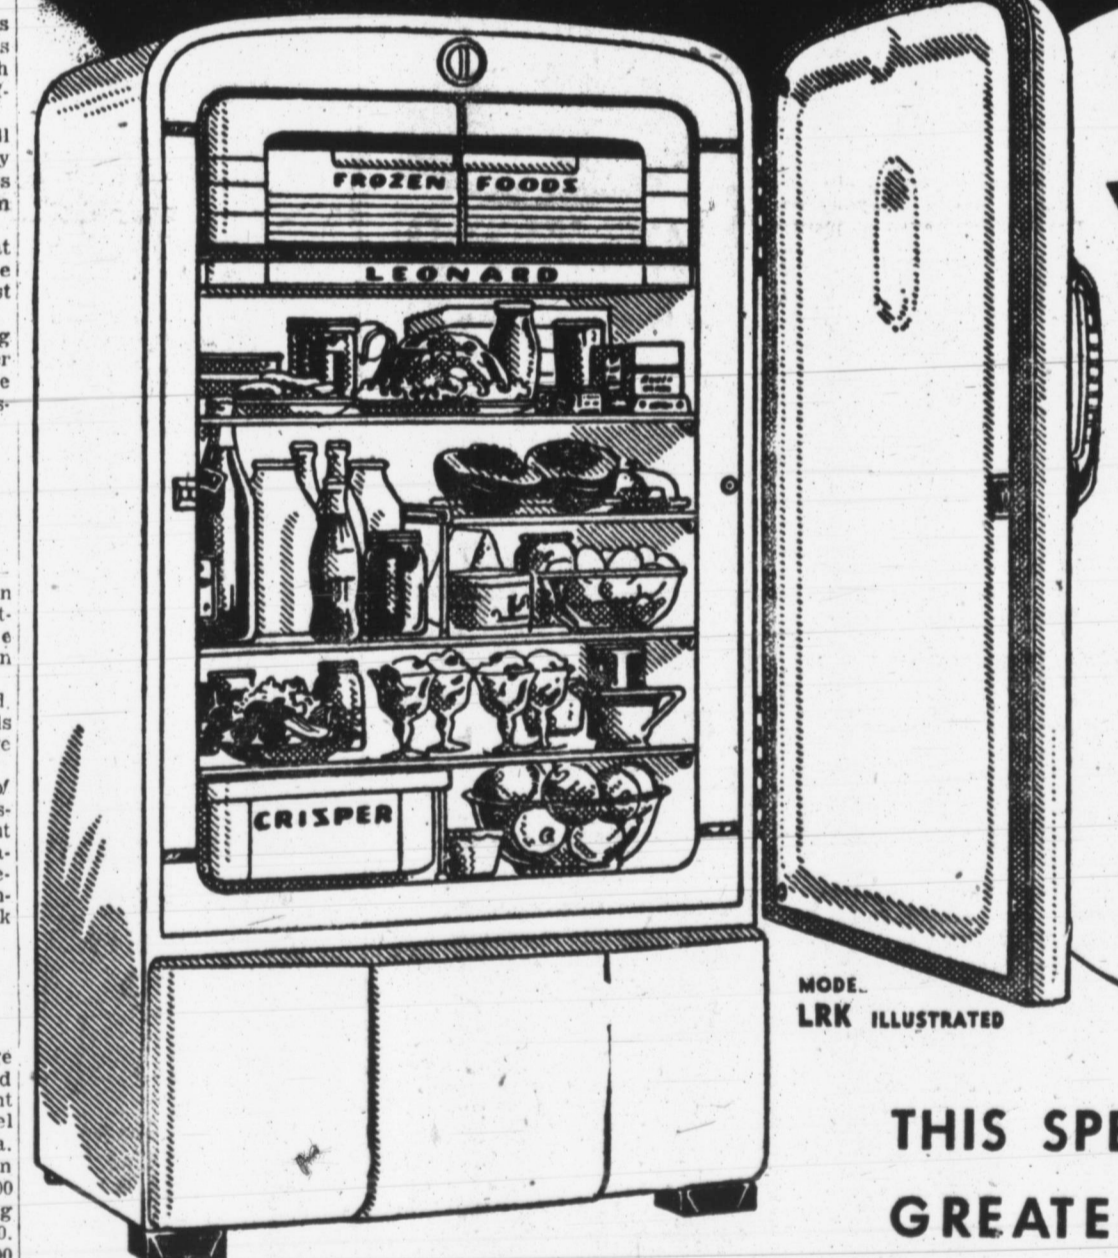

SQUARE CHUTER—This is the Air Force's new square cargo parachute, made from strips of cotton muslin, and able to deliver 500-pound loads from a plane traveling 175 miles an hour. The new chute, introduced at Wright-Patterson Air Force Base, Ohio, replaces the old 24-foot rayon model that had a capacity of only 300 pounds. Added strength in the cotton chute comes from its unique strip design. (U. S. Air Force photo from Acme.)

Here Are The Chinese Air Bases Mac Wants To Bomb

A major reason why General MacArthur wanted to bomb the Reds beyond Korea's Yalu River boundary is highlighted on this Newmap, based on data from the National Geographic Society. From the borders of Soviet Siberia in a mighty arc through Manchuria and around the Yellow Sea, lie more major airfields than in all the rest of China put together. Major airports at 25 Manchurian and Chinese cities are closer to the heart of Korea than Tokyo, as indicated by the light circle on the map. In addition the Reds have been hurriedly rebuilding air bases in North Korea. All of which helps explain why the biggest jet battles in history have raged over North Korea.

Texans Among First Rotation Shipment

TOKYO — (AP) — Three of more Texan soldiers yesterday aboard the transport Gen. LeRoy Ellinger in the Army's first rotation system shift. They are Sgt. Billie J. Porter, Brownsville; William J. Sanderfer, Dallas; and Bert E. KeSery, Mineral Wells. They will get 30 days leave in the United States and be reassigned.

Spokesmen Study New Rules For Price Regulation Cuts

By SAM DAWSON
NEW YORK (AP) — Don't set your hopes too high on many price cuts soon as a result of the recent price regulations for manufacturers. The first result, on the contrary, may be higher prices on some articles. That's the opinion of business spokesmen in their first study of the new rules. They think there'll be a few sizable cuts and that such will be slow in showing up at retail stores. They also fear black markets may get another shot in the arm. And some think that the new rules are so cumbersome as to be a drag on production incentives. Price director DiSalle takes a different view. He thinks the order will roll back the general price level on many products and will prove tough on price-hogs. "The small minority of manufacturers who after Korea hit prices as high as the traffic

Wake Up To More Comfort Without Naggng Backache

Naggng backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's give happy relief from those discomfiting—help that makes of kidney tubes and filters flush out waste. Get Doan's Pills today!

Diamond Wedding

PETERSBOROUGH, Ont. — (AP) — Young lovers should be sure they're suitably matched before they tie the knot, said Mr. and Mrs. George Taylor while holding open house on their diamond wedding anniversary. "They want to be sure to make the right choice like I did," said Mrs. Taylor.

WOULD DECLARE WAR—Sen. Harry P. Cain (R-Wash.), above, wants the Senate formally to declare war against Red China "to find out where we are and where, in God's name, we are going." Cain said his war resolution would focus public attention on the "policy of negotiating peace" on the enemy's terms.

New Source For Child-Birth Medicine Found In Florida

GAINESVILLE, Fla. — (AP) — The University of Florida has announced discovery of a new source of the child-birth medicine, ergot, in Florida. Ergot has come mainly from France and other countries. Their supplies have been dwindling and costs recently have doubled. Florida reports says the first ergot mushroom discovery, the first of its kind, promises an independent American source. Ergot has been coming from a fungus found only on cereal grains. To find out whether this mushroom was poisonous, Dr. Murrill sent it to Dr. R. B. French of the Florida agricultural experiment station. The

Irish Coaches Put Out Winners, But Their Work Isn't All Sports

By GEORGE BURRIS

SHAMROCK — (Special) — Shamrock athletic coaches have had one of the best years in Irish history, but their work isn't all athletic.

District 2-A champions in football, going on to win the district from Hereford and play a 24-14 game against Leveland in the regional. The Irish also took second in the District 2-A loop in basketball.

All four coaches — Scott McCall, Clarence Morris, H. W. Callan, and B. L. Hill — have done extremely well. All four work with football, McCall as head coach, Morris as end coach, Callan as line coach, and Hill as assistant high school coach in football, junior high basketball and football coach, and track coach for the high school.

H. W. Callan's boxing team won the Shamrock Golden Gloves tourney, took the Amarillo regional, and dropped the District 2-A tourney to Wellington by only two points.

Hill's track crew was third in 2-A play, but Vernon Tarbet, Don Carlton and Dwayne Hager went to the regional, after Tarbet won the Pole Vaulting and Hager the discus. Tarbet won second in the regional track meet at Lubbock in pole vault.

Coach McCall is serving his fifth complete year since returning from the service. He teaches civics, supervises a study hall and conducts two physical education classes when athletics groups are not engaged in team sports.

Clarence Morris, who developed outstanding ends such as Vaughn Terry and Van Pennington, teaches two industrial arts classes (woodwork and related study), which were instituted after he came here three years ago, conducts a study hall and teaches world geography, in addition to serving as assistant football and basketball coach.

Morris is a major in industrial arts and is also well equipped to teach world geography. During World War II he was commander of a navy PT boat in the Southwest Pacific area — New Guinea and the Philippines, principally.

H. W. Callan, serving his second year, teaches two world history classes, one class of general science and one in physical education in addition to duties in football and boxing. Callan, a veteran of the European campaign against Hitler in World War II, travelled extensively in Western Europe. This helps enrich the history course.

All competitive team sports, except girls' basketball, are coached after 4 o'clock.

"The plan may eliminate a few who want to participate in competitive sports," Mr. Moore states, "but it does not detract from classwork. We are very proud of the academic record of our athletes and their participation in other activities."

"We are seeing Vernon Tarbet to Austin in the state meet in pole vaulting, and also the golf team.

"Our standards are high, our coaches do excellent class work as well as coaching, and we have the highest ideals of sportsmanship. Indeed," concludes the superintendent, "our motto now as always, is, 'Sportsmanship, then victory.'"

Cardinal Mound Ace Blanks Pittsburgh With Two Hits

By JACK HAND AP Sports Writer

What's wrong with this picture? Poholsky pitches St. Louis Cardinals into first place New York Giants sink into cellar with seventh straight loss.

This is the year the weary old Cards were supposed to fade away. Wasn't their fifth place finish of last year the tipoff?

With Manager Marty Marion on the inactive list, they were sure to be left in the starting gate. Fenwick talk flooded the Giants training camp at St. Petersburg; Leo DuRoche had each of his pitchers go the route in two practice games to get ready for a fast start.

But nothing is sure in baseball as Giant fans sadly are discovering. Nothing DuRoche does works. The hitters don't hit, the fielders don't field. Even his ace, Larry Jansen, has lost his last two starts.

There is near panic in the Polo Grounds as the Giants' stumble home for a series with Boston and a trip to Brooklyn before the western teams move in.

Ken Heintzelman snuffed out Giants in the pinches to pitch Philadelphia past New York, 2-1. He gave eight hits and walked six but left 12 stranded. Twice the Giants loaded the bases with only one out.

Although Larry Jansen gave up only five hits, the Phils took full advantage of them. Richie Ashburn's single following Eddie Waitkus' leadoff double in the first brought a run. Hamner's double drove in Del Emms who singled in the fourth.

The old home run ball, a Brooklyn Dodger-hoodoo for years, rose up again to cost them the ball game. Boston's Sam Jethroe hit one into the seats with one on and two out in the ninth for a 6-5 edge over reliever Clyde King. Just like Sid Gordon did the day before in an earlier inning off reliever Carl Erskine. Vern Bickford was the winner. Ted Kuszewski, deep in an early spring slump, snapped out of it with a two-run homer in the eighth for Cincinnati's 4-3 edge over the Chicago Cubs.

Ewell Blackwell, working on relief, picked up win No. 1 at Paul Miner's expense.

Spec Shea, New York Yankee star of 1947, was the big new in the American League with a four-hit, 4-0 shutout of Philadelphia. The big right-hander walked five but left 10 at-bats stranded.

Billy Johnson had a hand in all four Yankee runs with a double, single and walk. Three times the A's loaded the bases as they ran their scoreless inning string to 18.

The Chicago White Sox split two with St. Louis, winning 8-6 but losing 7-4 in the second game. The Browns had lost 12 straight, including nine spring exhibitions, to the Sox before they won the second for reliever Ned Garver.

Al Zarilla and Eddie Robinson of the Sox and Ken Wood and Jim Deising of the Browns homered in the opener won by Dick Littlefield over Duane Pillette.

Ethiopians speak a Semitic language.

Albuquerque Tips Lubbock Hubs, 8-6

LUBBOCK — (P) — Albuquerque's Dukes battered their Lubbock hurlers for an 8-6 victory here Monday night, the visitors staging a big five-run fourth inning to forge the victory lead.

The Dukes took the waste and jammed over five runs on four hits and an error.

Steve Lagomarsino, making his first start of the season, received credit for the victory, although Lee Zamorra had to come to his aid in the eighth. After two Hubber-batters had singled and H. C. Sargent doubled with no one out for one, Zamorra came in to put out the fire.

The Dukes, despite two errors, gave both Lagomarsino and Zamorra a good support. Manager Lander's infield out scored the second. The Hubbers picked up a third run in the third inning on Pughata's homer over the leftfield fence.

The Dukes got back in the game with a single run in the second on Art Cutti's double, first of two for him, Martin's infield out and Bill Haley's single to left.

The dam burst in the fourth. Allan Maul walked to lead off and went to third on Martin's single, after Earl Hochstetler had made a great catch on Cutti's long fly up against the boards in leftfield. Haley bounced weakly back to the mound and Haskins, with plenty of time for the double play, threw wide of Wilcox covering.

That throw cost Haskins five runs, Maul scoring on the play. Jerry Folkman singled to right to start the inning. Hinson's single plated Haley. Lagomarsino provided the winning margin at this point with a single to rightfield that sent both Folkman and Hinson across the plate. That sent Haskins to the showers and brought on Mills, who ended the rally.

Ray Machado, former Albuquerque hurler, pitched the ninth and was touched for a single by Cutti with two out, but didn't yield a run.

And Zamorra hurried hitless ball in his two relief appearances last night and dropped into their third victory of the season.

Albuquerque returns home to open its season at Tingley Field Thursday, with Don Cantrell slated to mound. Duties Lubbock moves into Clovis for a pair of games, with Ray Faust (1-0) ready to go for the Hubbers.

Albuquerque 010 500 020-8 11 2
Lubbock 201 000 210-6 11 3
Lagomarsino, Zamorra (8), and Hinson; Haskins, Mills (8), Machado and Moore.

Lubbock To Display Six All-Americans

LUBBOCK — (P) — Plenty of talent — six All-Americans in fact — will be exhibited as Texas Tech winds up spring football training with an intrasquad game tomorrow night.

Coach Dewitt Weaver won't be able to use any of the all-stars, except indirectly, when he makes his Border Conference debut next fall. This is the lineup of All-Americans to be presented:

Backs — Army's Glen Davis, Texas Christian's Sammy Baugh, Oklahoma's Jack Mitchell, and Texas' Bobby Layne; Tackle — Oklahoma's Wade Walker; end — Texas' Mal Kutner.

Mitchell and Walker are Tech assistants. Davis, Layne, and Kutner live in Lubbock when not playing professional football, and Baugh also a pro, ranches at nearby Rotan during the off-season.

Pioneers Divide Twin Bill With Lobos, 5-3, 6-15

LAMESA — (P) — Lamesa's Lobos and the Clovis Pioneers split a doubleheader here Wednesday night before 1100 fans, the Pioneers getting their first win of the season, 5-3, in the opener, and the Lobos taking a 15-6 win in the weird nightcap.

Lethander Joe Borrego got his first victory in the opening contest, scattering eight hits. The Pioneers got only five bases off Jim Reynolds, but benefited from five costly walks, four of them coming in Clovis' three-run fifth.

Three Lobo errors helped the Pioneers score two unearned runs in the seventh.

Pedro Santiago collected a double and two singles for the losers. Bob Pennington and Frank Calo had two hits each for the winners, one of Calo's being a double.

Lamesa got only six hits in the second game, but made the most of 16 walks off a parade of Pioneers pitchers and three Clovis errors.

Bulis Rosson and Israel Tenfeld Clovis to five singles, but they also were wild, issuing nine free tickets. Rosson gained credit for his initial triumph before Ten replaced him in the sixth.

Lobo leftfielder Glen Burns belted two homers, the first coming with the bases loaded in the fourth, and the other with the sacks empty in the sixth to open Lamesa's seven-run explosion in that frame.

Pennington poled three singles for Clovis in the aftermath.

Starter Cleveland Ralph was charged with the loss, although he had not allowed a hit but had walked six before he went to the showers in the third inning.

Manager Jay Haney announced the sale of Cuban Negro right-hander Roberto Leyva to Geneva, N. Y., of the Border League, and the optioning of Cuban Negro catcher Douglas McBean to the same club, and the conditional sale of outfielder John Alonso to Artesia.

Lethander Pat Garrett, formerly of Clovis, has been signed by Lamesa.

First Game
Clovis 000 030 2-5 5 0
Lamesa 000 201-3 8 4
Borrego, Randall (7) and Calo; Reynolds and Marti.

Second Game
Clovis 000 004 2-6 5 3
Lamesa 001 527 15-6 0
Ahlens 300 030 02X-8 14 4
Vega and Secrest; F. Schmidt and Bowland.

Texarkana Slaps Spudgers, 15-7

(By The Associated Press)

The Wichita Falls Spudgers lost to the Texarkana Bears last night and dropped into a three-way tie for first place in the Big State League as two games were played and two were rained out.

Texarkana overpowered the Spudgers 15-7 when Gainesville was trimming Sherman - Denison, 8-3. Temple at Tyler and Austin at Waco were rained out.

The victory by Gainesville and the loss by Wichita Falls moved the Owls into a first place tie. Waco got in through the back door, slipping into the tie also while remaining idle.

The Bears did just about everything for themselves and in addition got a lot of help from the Spudgers as they collected 13 hits, stole three bases, were handed nine walks and got an additional boost from six big Spudger errors.

A CIVIL TONGUE IN YER HEAD, ME MAN, YA GETS NO TIP!

Wash Tubbs

THIS MUST BE THE TWO LETTERS HE ASKED ME TO READ, ONE IS FROM KIT CARLILE...
Dear Papa:
The pace of these American circuses is terrific! No time for the finances in particular. I say we must still cut 20 percent in performance time before heading for the hinterland!
An disturbed by Don's growing indifference to his work! The boy is progressing... but trying to talk over 8 hours of practice daily! He hasn't interest expected of a Carlile. Reminds me much of his father each day... remember how I'm used to rebel, too!
Circus children over here lack the discipline. Amused... maybe I should keep Don away from them.
KIT DOESN'T KNOW THAT DON ISN'T A CARLILE... THAT HIS FATHER TIM WAS ADOPTED AND—
BUT THE BOY'S GUARDIAN IS A SLAVOYNER! NO WONDER HE'S UNHAPPY! WHAT'S THE OTHER LETTER?

Booky

TAXI, LADY? WHERE TO?
I DUNNO! I WHERERE Y'GOIN'!
THAT YOUNG MAN AIN'T NONE OF YOUR BUSINESS!
SLICKER!

Mickey Film

I WAS AFRAID IT WOULD HAPPEN, RED—KNOWING YOU WERE I-A! BUT I DIDN'T WANT TO SAY ANYTHING!
WELL, I KNEW IT WAS BOUND TO COME—BUT I WAS HOPIN' TO GET THIS SEASON OR MOST OF IT!
I WAS SORE WHEN IT CAME—AT FIRST—BUT I KNOW A LOT OF OTHER GUY'S BEEN CALLED—JUST WHEN THINGS WERE BREAKING SWELL FOR 'EM—
—AND IF IT JUST MEANT GUMMIN' THINGS UP FOR ME, I WOULDN'T BE SQUAWKIN'—BUT IT'S NOT GONN TO BE—JUST ME!
YOU MEAN—YOUR MOTHER?
NO—NOT MOM! SHE'LL TAKE IT OKAY—SHE'S BEEN TAKIN' IT ALL HER LIFE! I MEAN—POP!

Penny

MY HONOR TO PRESENT YOU WITH THE TITLE OF MISS UNIVERSE
WINN OSCAR FOR BEST STARRING ROLE OF YEAR
YOU KNOW WHAT YOU HAVE TO DO, DREAM GIRL, GET BUSY AND DO IT!
OKAY, MOTHER.
SOME PEOPLE IN THIS HOUSE HAVE UTTERLY NO SOULS.

Freckles

HURRY UP! TRIXIE PROMISED TO HAVE HER DOG TIED! BESIDES, SHE WON'T BITE YOU—SHE'S A VEGETARIAN!
YEAH, BUT I DON'T KNOW WHETHER MY SUIT IS ANIMAL VEGETABLE OR MINERAL!
THIS IS FUN—JUST LIKE AN ACT ON TV!
NOW I KNOW HOW ATLAS FEEL!

Square Dance Jamboree Due

Square dancers from over the Panhandle have been invited to the spring jamboree of the Panhandle Square Dance Assn., which will be held May 5 at Perryton.

The jamboree will be held in the Veterans Memorial Building, which has 17,640 square feet of floor space, adequate for 80 squares on the floor at one time. The crowd is expected to be as large this year as the spring jamboree last year at Shamrock, when approximately 1,600 dancers were present.

Music will be furnished by Joe Heffner and his band from Borger, and callers from member clubs throughout the Panhandle will call the dances.

The jamboree opens May 5, with a general get-together and dance clinic at the Veterans Memorial Building from 3 to 5 p. m. The dancing begins at 8 p. m. and continues to 12 midnight.

DEFENDS FORMOSA — Vice Adm. Harold M. Martin, above, the new commander of the U. S. Seventh Fleet, has warned the Chinese Communists that American naval fliers would "intervene immediately" if the Red air force should attack Formosa. The admiral declared there "will be no invasion of Formosa if the Seventh Fleet is present."

A Chinese husband is given legal cause for divorce if his wife cannot get along with her in-laws.

Since 1910, the American farmer has increased his investment in tools and machinery about 900 percent.

Boston lies as far south of the British Isles as does Rome.

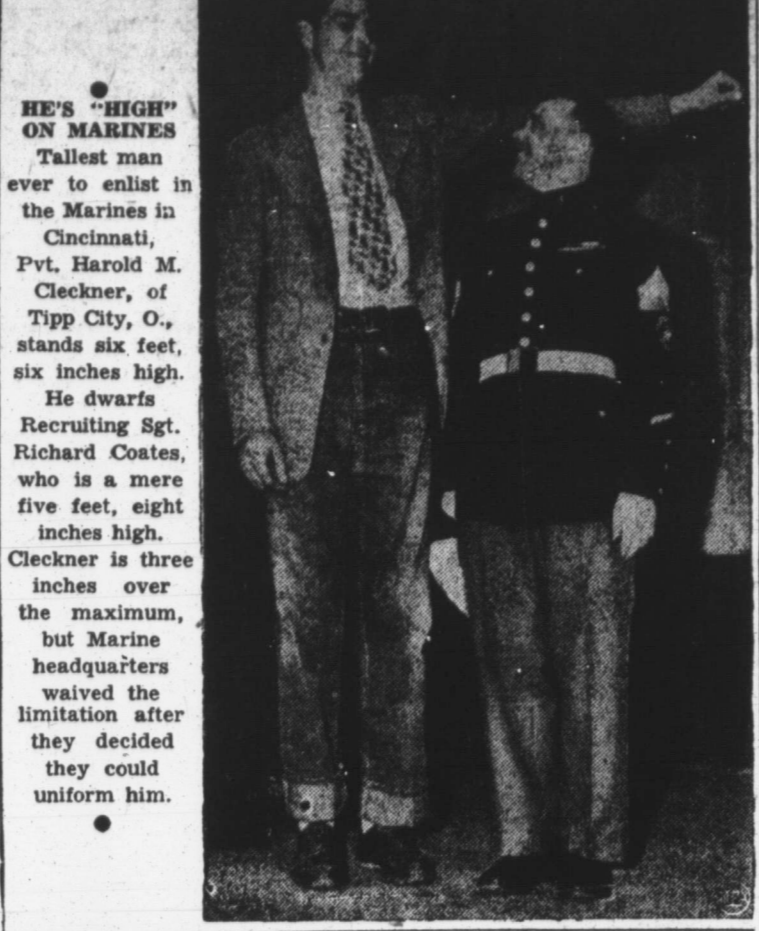

Do You Really Want To Take Off That Ugly Fat?

Don't say it's your thyroid when reaching for the box of chocolates. Possibly one bulky person in 100 has some glandular disturbance and that is truly a case for the physician. Never take any treatment for a gland condition without your doctor's advice. But for the other 99 per cent who are trying to fight the "battle of the bulges," common sense is the watchword. Don't overeat, but don't go hungry, either. Furthermore, it just doesn't make sense to go on a strenuous diet—take off weight and then quickly put it back on again when the diet period is over. For it is obvious that one cannot continue a starvation diet over a protracted period. Within the last year or so several diet and vitamin "plans" have appeared on the market, which means cut down drastically on the food intake and fortify with vitamins. But as mentioned above, you can't keep this up very long and when you quit—back comes the fat.

An exhaustive survey recently made among Texas druggists showed one outstanding reducing aid is not based on the diet and vitamin "plans." It allows you to eat plenty. You eat all you want, but you eat LESS. Sounds like double talk, but it isn't. It definitely stops you from eating more than necessary for the energy you spend. At the same time it dehydrates and eliminates.

Nearly four million bottles of this preparation, called Barcentate, have been sold in Texas in the past eight years.

You can get a four ounce bottle of Barcentate from any Texas druggist. Mix with 12 ounces of canned grapefruit juice and take just two tablespoonful twice a day. If the very first bottle doesn't show you the simple, easy way to lose that ugly fat, return the empty bottle for your money back.

English Department At Shamrock Holds Assembly Program

SHAMROCK — (Special) — Declamation winners Sandra Burden and Billy Bob Lasater were featured of the annual English Department assembly program here recently, but there was a much more.

Kathleen Tindall gave a reading, "How to Cut Your Husband's Hair" in one not-so-easy lesson.

The string band composed of Ted Sonnenburg, Robby Hamman, Clois Smith, Virgil Snell and Shirley Lee at the piano, offered several selections.

"Hidden talent," a special feature, turned out to be a group of athletes attempting to sing, among them Van Pennington, Don Carlton and Mack Terry.

Sandra and Billy Bob gave their orations which won both the district and regional contests. They also recorded them for broadcast over a local radio station.

Teen-Ager Has 400 Dogs But No License

GREENCASTLE, Pa. — (AP) — A comely 15-year-old high school sophomore, Ina Reichard, keeps 400 dogs at home and gets away without buying a single dog tag.

She self-styled dog fancier's pets are made out of stone, china, glass, wood and other materials, they come in almost every size, breed, shape and pose. Ina started her collection in 1938.

Pastor Speaks For Rotarians

Understanding of people and thinking before criticizing the actions of others was discussed at noon Wednesday by Rev. W. E. "Bill" Thorn, pastor of the First Baptist Church of Panhandle before the Pampa Rotary Club.

In recognizing the fact each person is an individual, Rev. Thorn said, "one of the greatest teachings of Christ was that we are free individual beings, possessed with a heart, mind and soul which distinguishes us from animals. We must respect the individual even if he does not see eye to eye with us."

The Panhandle Baptist minister had a word for the "yes-man" when he said:

"When two or more individuals gather together and all agree on a subject; then somebody is not thinking."

He also cautioned against jumping to conclusions, and advocated thinking a problem out before criticizing magazines and newspapers for articles which "you may not like."

"Too many of us are too ready to criticize the acts of others on a subject of which the majority of us know nothing about, much less understand the thinking of the men charged with these great responsibilities," he declared.

On the MacArthur debate he recalled, without mentioning the defendant's name, the time the deposed general sat on the court martial that tried Gen. Billy Mitchell for his views, adding the same thing has now happened to MacArthur.

(MacArthur was the only one on that court who voted to acquit Mitchell.)

He used that, however, as an illustration in setting forth his views that people should always be conscious of the other person's line of thinking before criticizing, adding there is never a time when one person is "all right and the other all wrong."

It was announced by G. S. Vineyard, chairman of the committee to assist the local Alcoholics Anonymous Chapter in organizing a workable group here, that the AA committee would go to Borger next week to attend an AA meeting there.

Fred Neelgar, President of Rotary, presided over the business session. The program was introduced by Floyd Yeager.

Lawyer Could Even Become Color Blind

DUBOIS, Pa. — (AP) — Attorney Leo Brockbank saw everything but red while closing a real estate deal.

Here's what happened: Rolland and Mary White sold their property to John and Nancy Gray. John Green, William G. Brown and Charles Black witnessed the transaction. Brockbank says blue ink was used.

PPROA Meet Due May 3

AMARILLO — (Special) — Date for the annual membership meeting of the Panhandle Producers and Royalty Assn. has been set for 3 p. m. May 3 in room 202 at the Herring Hotel.

The agenda for the meeting is election of directors, reports of committees and such miscellaneous business as may come up for discussion.

The announcement was sent out by A. D. Weatherly, president of the association.

The annual luncheon, banquet and directors meeting will be held one week later on Thursday, May 10th.

This association is composed of independent gas and oil producers and royalty owners. It has accomplished many progressive measures for the entire Panhandle oil industry.

People who have had cataracts removed from their eyes can see ultraviolet light which cannot be seen by those with ordinary vision.

Lefors School Is Evaluated

LEFORS — (Special) — Lefors High School is undergoing evaluation by a visiting committee to determine whether the school system may remain a member of the Southern Assn. of Colleges and Secondary Schools.

The evaluation committee had its organization meeting Tuesday, Dr. J. L. Russell of West Texas State College, who is the coordinator, headed this committee. The other members are Mrs. Marion Karr and Mrs. Barbara Truitt, Canadian; B. A. Krum, Wheeler; Don Leach, McLean; Miss Mary Ewing and Mrs. L. C. Greenlee, Panhandle; Mrs. Mildred Little, Wellington; Ray Vineyard, White Deer; Myles Morgan and Claude Zevery, Pampa; R. E. Drennon, Clarendon; Kenneth Laycock and E. N. Burkhalter, Shamrock; A. H. Gordon, Miami; and M. W. Graves, Stinnett.

The committee members are divided into groups, each to investigate a certain phase of school activity which included curriculum, school plant and library service, and pupil activity program and guidance service. There is also a group which will investigate the school staff and administration.

The self-evaluation of the faculty has already been turned in to Dr. Russell.

Classes were visited all day Wednesday and part of the day today. At p. m. today committee was to give a report in the auditorium.
