

## Mainly About People

Mr. and Mrs. Sherman White visited friends in Shamrock and Ph. 777 or 2011J. McLean Sunday.

Attend Piano Symphony at Jr. Hi Aud. this eve., 8 p. m. Conductor, Mrs. May Foreman Carr, assisted by Mr. Harley Bulls, tenor. Sponsored by Business and Professional Women's Club of Pampa. Tickets may be had at the door.

Mr. and Mrs. E. R. Jay and granddaughter, Mary Jay Campbell, spent the weekend visiting relatives in Denton and Clifton.

3 room newly decorated unfurnished apartment; private bath. Ph. 1380W.

W. B. Weathered and family spent the weekend in Canton, Okla. Fuller brushes, 514 Cook P. 2152J.

Miss Martha Thomas, formerly of Pampa, is visiting friends here. Miss Thomas is now living in Bridgeport.

Found—4 keys on chain. Owner call at News and pay cost of adv. to claim.

Mr. and Mrs. Ray W. Jackson, 211 E. Francis, are parents of a daughter born Thursday at the Highland General Hospital. She weighed five pounds, one ounce.

Notice—If your evening copy of The Pampa Daily News is not delivered by 8:00 p. m. call number Nine (9). If your Sunday copy isn't delivered by 8:30 a. m. call number Nine (9) before 10 a. m.

A son was born Friday to Mr. and Mrs. Lloyd Anderson, northwest of Pampa. His name is Jesse Houston and he weighed eight pounds, two ounces.

### Gas Group Opening

DALLAS (AP)—The natural gas department of the American Gas Assn. opens its spring meeting here today.

D. A. Hulcy of Dallas, new president of the U. S. Chamber of Commerce and head of the Lone Star Gas Co., is to be the principal speaker.

### CASUALTIES LISTED

WASHINGTON (AP)—A Defense Department casualty list and Mrs. Lloyd Anderson, northwest of Pampa. His name is Jesse Houston and he weighed eight pounds, two ounces.

WESTERN AUTO—Spence Hearn, manager of Western Auto Stores, 111 W. Kingsmill, holds a red and white kitchen clock which will grace some Pampa kitchens after The Pampa Daily News' all-electric cooking school Tuesday and Wednesday. (News Photo)

SMITH'S SHOE STORE — Queen quality shoes are the offering of Smith Shoe store for the Pampa Daily News two-day cooking school Tuesday and Wednesday. Shown here is Delbert Beasley, specialist who has moved to Pampa from St. Louis, Mo. (News Photo)

### MARSHALL

(Continued from Page One)

received by him from higher authority are not those that he would have written for himself."

The defense secretary continued: "There is nothing new about this sort of thing in our military history. What is new, and what has brought about the necessity for General MacArthur's removal, is the wholly unprecedented situation of a local commander publicly expressing his displeasure at and his disagreement with the foreign and military policy of the United States."

Several senators questioned MacArthur about the propriety of his action when the deposed general was before them. MacArthur said he was against any "gag" rule. He also said he would have permitted officers under his personal command to communicate directly with members of Congress even if the officers knew their words might be used in public debate.

MacArthur's discharge was blamed in large part on a letter he wrote Rep. Martin (R-Mass.), endorsing the latter's view for use of Chinese Nationalist troops against the Chinese Reds.

Marshall told the senators: "It became apparent that General MacArthur had grown so far out of sympathy with the established policies of the United States that there was doubt as to whether he could any longer be permitted to exercise the authority in making decisions that normal command functions would assign to a theater commander. In this situation, there was no other recourse but to relieve him."

Hong Kong is an island 11 miles long and up to five miles wide.

### Skellytown Man Fined By County

Ramie Laverne West, Skellytown, pleaded guilty in County Court today on charges of drunk-driving.

West, arrested on the Borger highway Saturday night by the Highway Patrol, was fined \$100 and costs and received an automatic six month suspension of license by the state.

Other cases scheduled for County Court were postponed until Thursday, County Judge Bruce Parker said today.

### \$100 Damage In Sunday Accident

An accident at 6:30 p. m. Sunday resulted in property damage of \$100 to a car owned by Ernest Lee Henderson, 112 Van Buren, when his car was in collision with a truck driven by a local teenage boy.

No arrests were made in the accident which occurred on Brown street near the Hobart intersection.

Police reported no damages to the truck.

### Mothers Of Pre-School Children To Be Feted

Mothers of children who will enter school next year will be special guests of the Sam Houston Parent-Teachers Assn. at 2 p. m. Thursday at the Church of the Brethren.

Topic of the program will be "It's up to us what kind of parents teachers like and what kind of teachers parents like." Leader will be Mrs. E. Johnson. Speakers will be Mrs. Truman Cooper and Mrs. L. M. Atchison.

### Crash Hurtles Woman 150 Feet Into Barn

PLYMOUTH, IND. (AP)—The impact of an auto crash Saturday night hurled a young woman 150 feet through the air to a 35-foot high barn roof, killing her almost instantly.

State police said Mrs. Agnes Grise, 21, of Bremen, Ind., was thrown through the windshield of her husband's car when it plunged into a ditch.

They said the husband, Robert Grise, 23, said that brake on the car had locked and that he had been traveling about 60 miles an hour.

### WARNER BAXTER ILL

HOLLYWOOD (AP)—Warner Baxter, 58, the original "Cicero Kid" of the movies, was reported by friends to be gravely ill today.

The former screen actor has been ailing for several years and last April 20 underwent cranial surgery.

### Breaks Deciders Of Walker Cup

BIRKDALE, England (AP)—Willie Turnesa, playing captain of the U.S. Walker Cup team, predicted today that the international golf trophy would go to the team "that gets the breaks."

"I base my opinion on the British team's performance in 1947 when the contest was very close although the score did not indicate that," the little Elmford, N.Y., amateur star said.

"That year we had what we thought was our best Walker Cup team. This year we have a strong team. It is well balanced and will give a good account of itself."

The U.S. and British amateur forces will meet Friday and Saturday for the trophy which the Americans have won 11 of the 17 times it has been contested.

### MARKETS

FORT WORTH LIVESTOCK (AP)—Cattle 1,800; calves 400; dull and weak; some milk 50 to 51 or more down. ### Korea Vets Home On Leaves

SEATTLE (AP)—Some 1,000 Army officers and enlisted men returning from Korea on vacation leaves are streaming across the nation by train, plane or bus today for 30-day furloughs at their homes in the 48 states, Puerto Rico and Canada.

The majority of the much-decorated veterans, many of whom had spent more than nine months on the warfront in Korea, were rushed through the required processing at Fort Lawton here within 24 hours of their arrival early Saturday. Others left yesterday and 100 men from Puerto Rico were the only veterans still being processed last night. They were to leave today for Camp Kilmer, N. J.

The name of the country border is Spanish for "equator."

The Sino-Japanese war was in 1894 and 1895.

Tea, Book Review  
Highlight  
National HD Week

A tea and book review in the City Club Room Thursday afternoon entertained members of the home demonstration clubs and their guests and was the highlight of national home demonstration week. Mrs. F. E. Leech reviewed "The Edge of Time" by Louisa Grace Erdman. Mrs. Leech was introduced by Mrs. Ernest McKnight.

Hostesses were Mrs. R. E. Engle, Mrs. A. A. McElrath, Mrs. H. H. Threat and Mrs. Ernest McKnight.

The tea table was centered with an arrangement of daffodils and iris, and bronze tulips, lilac and bridal wreath were used throughout the room.

The new district vice president, Mrs. V. H. Poncet of Amarillo, was a guest of Mrs. W. E. Melton.

Others registering were Mrs. T. E. Maness, Lowell Osborne, A. M. Nash, Grace Morris, F. H. Kelley, Walter Noel, P. H. Rice, Joe Stone, C. A. Jones, A. Swafford, Roland Dauer, Emmett Osborne, D. A. Rife, V. Smith, T. G. Groves and W. E. McCracken.

Mmes. Clyde Edmondson, B. M. Vaughn, O. G. Smith, C. H. Brickey, B. F. Lard, Charles Warminski, J. S. Fuqua, P. G. Turner, M. Robinson, O. A. Wagner, J. M. Keel and Miss Joan McCracken.

From McLean were Mrs. J. C. Claborn, Mrs. Amos Page and Mrs. Reed Grogan.

Serve panned cabbage sometimes — instead of the usual cole slaw — with baked beans. Season the cabbage with Worcestershire sauce after it has been shredded and cooked a short time in a few tablespoons of butter or margarine and a little water.

Stole Is Fashionable And Practical

BY GAILE DUGAS  
NEA Staff Writer  
NEW YORK (NEA) — The stole dress, because it is versatile, is important again for summer. The stole sometimes tops a sheath, sometimes serves as a cover up for a bare-top dress. It's pretty and entirely useful. It's a handy cover up, providing protection against too much sun, too sudden breezes or the chill of a summer evening.

Stoles are dress up but they can also go to the beach. They're tailored for town, sophisticated for after-five. They have pockets, fringe or flower trim, and match or contrast with the costumes for which they're companions.

Lavender cotton broadcloth (left) is turned into a sunback dress with slim straps by Lampl. The matching stole can be worn scarf-fashion about the shoulders, tucked into the belt or draped loosely about the arms. It has pockets. The dress is simple, its bodice pin-tucked, its belt neatly tailored. The skirt is slightly full.

For an informal summer evening, broadcloth appears again (right), this time in green-and-yellow two-tone with matching stole. The dress has a fitted

Singer Warns Hopefuls Of Pitfalls

By DINAH BLORE  
Written for NEA Service  
NEW YORK (NEA) — For every youngster who yearns, as thousands do, for a career as a popular singer, there are pitfalls waiting. I know. I've learned about them the hard way.

The biggest single pitfall for most ambitious young singers with talent is, of course, New York. But it's also a must. It's the place where all the breaks are to be found — radio, stage, television and the agencies.

I arrived in New York with \$500 in my handbag. I wouldn't advise anyone else to try that. For one thing, the cost of living is higher by far now than it was when I broke in. For another, I had a family to help me over the rough spots. Not every hopeful singer can count on the help of a family.

In New York, the biggest pitfall is the phony agent. The town is full of them. These are the people who will tie up a young singer with an iron-bound contract, giving her nothing but encouraging words in return. These contracts only hamper the singer. She's likely to find her career at a standstill.

There's a third pitfall, that begins as soon as you decide to sing professionally. How do you get the necessary experience? These contracts only hamper the singer. She's likely to find her career at a standstill.

The answer is to sing for free in your home town whenever you get the chance. The pay will come later. In doing this, you develop style and get rid of some of that nervousness that plagues all singers for always. You'll never quite lose it all and, actually, it does help you to stay on your toes.

Whenever you have the opportunity, record. Professionally, I'm under contract to RCA-Victor. For my own advancement, I also record at home. Use those little or late recordings that you can play back for study. Listen carefully to pitch and phrasing. Listen objectively for faults and favors.

And, above all, don't fool yourself! If you haven't got the basic talent I mentioned, you'll be the first to know it when you hear your own voice. If you have, correct the things you don't like and learn the ones that you do like.

By studying your own voice, you'll avoid becoming a mimic. Having a favorite singer can be an inspiration, but it can also be a deterrent. There are few cases on record of popular singers who got that way by singing just like so-and-so.

In picking your material, it's safest to stay with the tried and true. Sing tunes the public has heard and wants to hear again. popular tunes and standards. Never sing brand new, untried, special material until you're so established as a singer that the public will take it from you.

My belief is this: selling your voice is enough for the first few years. Then when you've sold your voice professionally, you can sell a new song.

You need one last thing to help you along. That's luck — and I do hope you have lots of it!

Beta Sigma Phi Founders Day Tea At Country Club

The annual Founders Day banquet was held at the Country Club this past week in observance of the founding of Beta Sigma Phi Sorority in 1931 by Walter W. Ross. Tables were placed in the shape of a U and a bouquet of yellow talisman roses, the sorority flower, was used as a centerpiece. Mrs. Martin Stubbe led the group in prayer.

Following the dinner a short history of the Beta Sigma Phi was given by Mrs. Bill Bridges and Mrs. Leonard Hall gave a Founders Day message from Walter W. Ross. All members stood to repeat the pledge, led by Mrs. Roy C. McKee.

Preceding the banquet the ritual of the Beta Sigma Phi was given by Mrs. Bill Bridges and Mrs. Leonard Hall. The ceremony was held by candlelight and Mrs. Joe Fischer, Mrs. Stanley treasurer, Mrs. Vergil Hamilton, Outgoing officers are as follows: president, Mrs. Roy C. McKee; vice-president, Mrs. John Plaster, recording secretary, Mrs. Creel Grady; treasurer, Mrs. James Poole.

Members attending the banquet and ceremonies were as follows: Mmes. Bill Bridges, Betty Brock, Stanley Chittenden, Tod Cone, George Culver, R. L. Edmondson, Jr., Joe Fischer, Norman Fulps, Creel Grady, Leonard Hall, M. D. Robert, T. C. Lively, Jr., George Marxsen, Roy C. McKee, Fred Myers, John Plaster, John R. Guick, Louis Sills, Martin Stubbe, David Tubbs and Miss Joyce Wanner.

Mrs. Haggard Hostess To Firemen's Auxiliary

Mrs. Tom Haggard was hostess to the Firemen's Auxiliary at the last meeting. Secret pal gifts were exchanged and the members worked on their current project, textile degree at a later date. They were Mrs. Ed Line and Mrs. Vergil Hamilton.

Following the ritual of jewels, installation of officers for 1951-1952 was held. Mrs. Leonard Hall was installed as new president of this organization and a set of jewels degree was held for those who pledged Beta Sigma Phi in the fall. The ceremony was held by candlelight and Mrs. Joe Fischer, Mrs. Stanley treasurer, Mrs. Vergil Hamilton, Outgoing officers are as follows: president, Mrs. Roy C. McKee; vice-president, Mrs. John Plaster, recording secretary, Mrs. Creel Grady; treasurer, Mrs. James Poole.

Members attending the banquet and ceremonies were as follows: Mmes. Bill Bridges, Betty Brock, Stanley Chittenden, Tod Cone, George Culver, R. L. Edmondson, Jr., Joe Fischer, Norman Fulps, Creel Grady, Leonard Hall, M. D. Robert, T. C. Lively, Jr., George Marxsen, Roy C. McKee, Fred Myers, John Plaster, John R. Guick, Louis Sills, Martin Stubbe, David Tubbs and Miss Joyce Wanner.

Reapers Class Has 'School Days' Social

The Reapers Class of the Central Baptist Church held the monthly social and business meeting in the home of Mrs. Dwight Irby.

A "school days" theme was carried out and the members arrived dressed like girls and carrying school books and lunch.

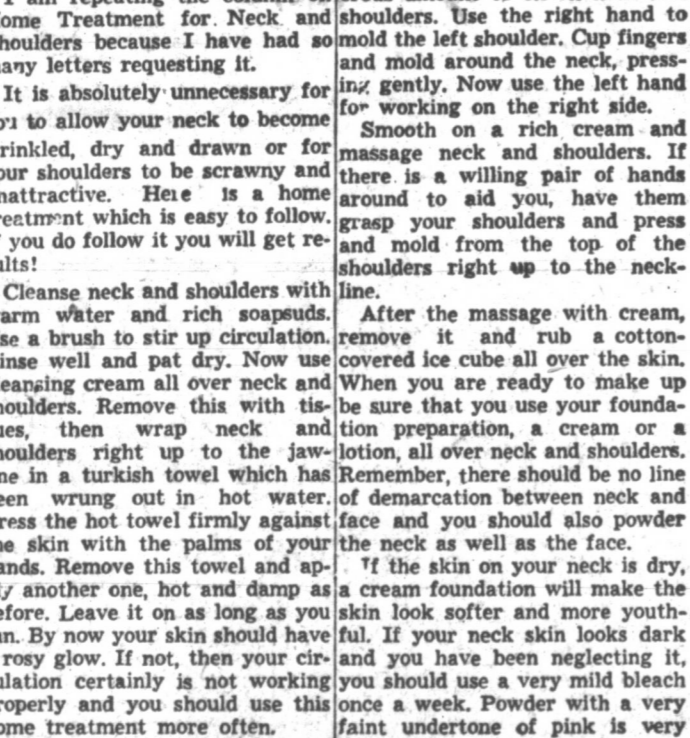

The devotional was given by Mrs. Myrtle Atkinson and a short business session was held.

"School" was then conducted by Mrs. C. A. Jeter as teacher. Those receiving diplomas were Mmes. L. Leonard, Alma Lunsford, Velma Bates, Mamie Holigan, Vaneia Jeter, Grace Nease, Myrtle Atkinson and visitors, Mrs. B. Silvey and Beverly Atkinson.

The next meeting will be held in the home of Mrs. S. B. Bates, 428 Hughes.

BEAUTY AFTER FORTY

PRETTY NECK—You can have a nice neck and shoulders!

I am repeating the column on Home Treatment for Neck and Shoulders because I have had so many letters requesting it.

It is absolutely unnecessary for you to allow your neck to become wrinkled, dry and drawn or for your shoulders to be scrawny and unattractive. Here is a home treatment which is easy to follow. If you do follow it you will get results!

Cleanse neck and shoulders with warm water and rich soapsuds. Use a brush to stir up circulation. Rinse well and pat dry. Now use cleansing cream all over neck and shoulders. Remove this with tissues, then wrap neck and shoulders right up to the jaw-line in a turkish towel which has been wrung out in hot water. Press the hot towel firmly against the skin with the palms of your hands. Remove this towel and apply another one, hot and damp as before. Leave it on as long as you can. By now your skin should have a rosy glow. If not, then your circulation certainly is not working properly and you should use this home treatment more often.

While skin is warm apply a generous amount of oil on neck and shoulders. Use the right hand to mold the left shoulder, Cup fingers and mold around the neck, pressing gently. Now use the left hand for working on the right side. Smooth on a rich cream and massage neck and shoulders. If there is a willing pair of hands around to aid you, have them grasp your shoulders and press and mold from the top of the shoulders right up to the neck-line.

**It's the only new-type engine in any "new car"!**

**Chrysler FirePower** — Finest engine ever put in an automobile

180 HORSEPOWER

With so many engines claiming newness . . . how can we call FirePower the only new type engine today? The answer's very simple, and one you ought to know before you invest in a car. The fact is that engine "improvements" happen every year . . . but a basically new motor car engine is a very rare thing. And FirePower is the most basic new development since Chrysler introduced high-compression in 1924!

To get to the heart of the matter, just go to the heart of the engine . . . the combustion chamber where the spark fires gas into power. Here Chrysler brings you something no car has had till now . . . a Hemispherical combustion chamber . . . the only perfect and ideal combustion chamber in any passenger car. Here the same amount of gasoline delivers you far more energy than it could in any other car. What this means to the man at FirePower's wheel is impossible to tell you till you take that wheel yourself. FirePower's 180 horsepower can outperform any other engine on the road, even on regular grade gas.

Remember, too, that Chrysler now offers the wondrous road-ease of new Orflow shock absorbers with twice the shock-absorbing power of any others . . . and the exclusive safety and delight of Hydrguide power steering\* which takes four-fifths of the work out of steering! You can learn for yourself how Chrysler has changed your motoring life by seeing your Chrysler dealer now!

**Wheeler Students Travel To Austin**

**WHEELER** (Special) — Coach Burney Smith, Jamie Clark and Teddie Johnson left Thursday morning for Austin. The boys are to take part in the pole vaulting event in the state track meet. Jamie Clark won first and Teddie Johnson won second in this event at the regional meet in Lubbock April 21. Buddy Toomes came in fourth in the mile race and was eligible to compete in Austin.

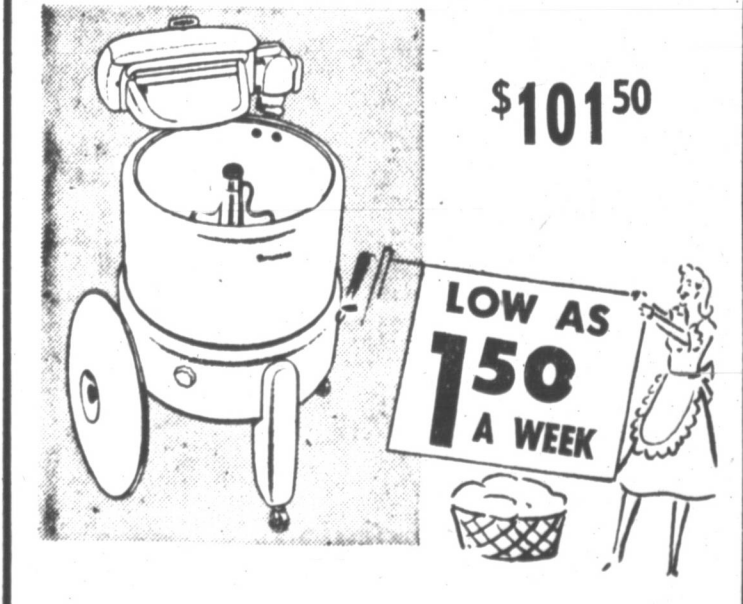

Anita Underwood won second in extemporaneous speech in Lubbock. Use leftover egg yolks in cakes, cornstarch pudding, custard or custard sauce, pie filling, salad dressing, scrambled eggs.

The F.F.A. Dairy Judging team won first in the Holstein judging and fifth in the show at Lubbock. The team will go to the state dairy judging contest at College Station May 5. The team is Bill Crossland, Carrol Goald and Melvin May. Their instructor, Ike Sewell, will go to Texas A.&M. with the boys. Bill Crossland was the fourth high in judging points at the regional show in Lubbock out of some three hundred boys.

**Mrs. Hale Is Starting Film Career Again**

**By BOB THOMAS**  
**HOLLYWOOD** (AP) — What does a woman do when her husband dies after she has spent most of her life in the shadow of his fame?

In the case of Mrs. Alan Hale, she is returning to acting after an absence of 30 years.

The famed character actor died last year, leaving his widow well endowed for the rest of her life. But the prospect of a comfortable future was not enough. Her two children, Karen and Alan, Jr., were grown and making progress on their own film careers. So why not mother?

The suggestion came when a family friend was visiting the Hale home, a few blocks from Hollywood Boulevard. The friend brought a book called "80 Years In The Theater." In it was a picture of Mrs. Hale as a child stage star.

"It would be a shame to deny such talent to the public," he jested.

Mrs. Hale took the hint. She went out to Warner Brothers, where her husband had been under contract for 14 years. She landed a role in "As Time Goes By," using her professional name of Gretchen Hartman. Now she has other deals on the fire and is enthused about the reflowering of her acting career.

"It was a big thrill to get started again," she told me. "Nervous? Not much. It's just like riding a bicycle. Once you get your balance you can go right along."

Mrs. Hale's acting career started 40 years ago. She was a child actress on the stage and then drifted into the movies in their earliest days.

"I started at the old Edison studios in the Bronx in 1910," she recalled. "Then I went to the Biograph studios, which was in the Bronx, too. But my stage producer heard about it and gave me the dickens. He said I would run myself on the stage if it was discovered that I had appeared in pictures."

When her contract ended three years later, she returned to the movies. It was then she met her husband. An actor came up to her on the set and started to tell her a saucy story.

"What makes you think you can tell me that kind of story?" she protested. A few weeks later, he returned and said, "do you want to hear the end of the story now?" She answered she might as well.

The story led to a date and the date led to marriage three months later. She was 16 and her mother objected strenuously. The mother wouldn't speak to Hale for many years afterward, always declaring that the marriage "wouldn't last."

The marriage did last through 36 happy years. At first the Hales acted as a team. After they appeared together in an early Fox film, the studio wanted to sign her alone. She refused, saying they wanted to work together.

During World War I, she also starred separately. One day she was surprised to read that a Sonja Markova was playing a role which she expected to do. She complained to the studio head and was told that was her new name. He said her own name, Gretchen Hartman, sounded too German. Only by fast arguing did she get her own name back.

When the Hales settled in California, she retired from the movie scene. Alan's career was going well, and his wife found another one of her own — rearing two children. Now she's returning to her first career with all of the enthusiasm of a starlet in her initial role.

**B&G** — A Happy Home house dress will go to some woman attending the Pampa Daily News cooking school Tuesday and Wednesday. Showing the dress is Mrs. Barbara Scruggs, store manager for B&G. (News Photo)

**FRIENDLY MEN'S WEAR**—Otto Rice, salesman at Friendly Men's Wear, 111 N. Cuyler, holds a pair of women's riding pants to be given away Tuesday at the all-electric cooking school. (News Photo)

**Juniors, Seniors Planning Banquet**

**WHEELER** — (Special) — The junior class has invited the senior class to the annual Banquet on May 8. Palm trees under the full moon in the stage scene will set the mood for the evening. Lois for each guest will be given by the grass skirted waitresses. Hawaiian dishes will be served at the tables decorated with canoe nut cups, hula dancers, seashells and flowers.

Mrs. R. H. Forrester will be the speaker of the evening. Welcome will be made by Richard Brown with Dick Pendleton giving the Response. A boys quartet will sing Blue Hawaii. A hula duet by Laveta Moore and Martha Chapman will be authentic entertainment for a Hawaiian feast.

If you do not feel like melting butter or margarine or other shortening when you are making griddle cakes use salad oil.

**Wheeler Men Get Suspended Terms**

**WHEELER** — (Special) — The three men indicted by Wheeler County grand jury in April for stealing 2200 pounds of feed were given five-year suspended sentences in district court on Monday.

**PPRO Meets Thursday**

The annual luncheon and banquet of the Panhandle Producers and Royalty Owners Association will be held at the Herring Hotel in Amarillo, Thursday, May 10.

This annual affair has always been popular with the Panhandle oil fraternity and promises the same large attendance this year.

At the noon luncheon the speaker will be Harold Fell, vice president of the Independent Petroleum Association of America. Mr. Fell is nationally known as a well posted speaker on the oil industry. He will have something of value to tell his listeners Thursday, May 10.

The evening cocktail hour starts at 6 o'clock. This is the get together time for the Panhandle oil industry. At 7:30 is the banquet in the Crystal Ballroom of the Herring Hotel. The principal speaker will be Leon Hill who has earned a reputation as an afterdinner speaker.

Contact O'Dale Smith or Cecil O'Brien, offices in the Amarillo Building, for advance reservations.

**Wheeler Juniors Take Class Trip**

**WHEELER** — (Special) — The twenty five members of the junior class left for Medicine Park on their annual class trip Friday. Their sponsor, Gladys Mobley, Mr. and Mrs. Jesse Moore and Mr. and Mrs. Nig Clark went with the juniors on their weekend trip through Lawton, Oklahoma, Medicine Park and Craterville Park.

**Girls From Wheeler Attend Convention**

**WHEELER** — (Special) — The high ranking girls from the home economics department of Wheeler left on the chartered bus out of Memphis Thursday morning for the Future Homemakers of America Convention at Fort Worth. Betty Kidwell and Loretta Crowder were chosen to represent Wheeler at the convention. Their teacher, Mrs. Eugene Carrick, made the trip also.

**Graduation Planned For Wheeler Pupils**

**WHEELER** — (Special) — Eighth grade graduation will be in the Wheeler gymnasium May 17 at 8 p.m. Coach Bunney Smith has been invited to deliver the commencement address. Mrs. W. O. Carrick has been class sponsor this year. Barney Teague will present the awards to the honor students which have not been announced as yet.

A little crisp crumbled bacon enlarges a serving of creamed spinach. Buttered toasted croutons can be sued instead of the bacon.

**HOGUE MILLS** — A 20-piece set of Capistrano pottery is to be given away at the two-day cooking school which opens in Pampa Tuesday. Ted Evans, manager of Hogue-Mills, shows one of the attractive pieces of the special California tableware the firm is offering. (News Photo)

Perfect soft-cooked eggs can be made by using one cup of cold or warm water for each egg, or enough to cover well. Bring the water gradually to simmering; do not boil. Simmer three to five minutes, then break immediately into an egg cup and serve. Season with salt and pepper, and a little butter or margarine if desired, at the table.

**How To Get Friends; Refuse A Pay Raise**

**PORT ARTHUR** — (AP) — City employees of Port Arthur have some steadfast friends among city officials. City Manager Charles Brazil yesterday turned down a salary increase of from \$10,000 to \$12,000 until such time that the city was financially able to give other employees a comparable raise. City Attorney A. A. DeLee likewise rejected a \$100 monthly hike on similar grounds. City Clerk Ernest Meyer indicated he would decline a proposed increase of \$50 a month.

In making coffee use freshly drawn, cold water; hot water from the tap does not always give the best flavor. In keeping coffee hot never allow it to boil and remove the coffee grounds from the pot.

**New Look For Boats**

**NEW YORK** — (AP) — Industrial designer Howard Ketcham claims the thousands of harbor craft that ply the nation's waterways, — ferries, excursion boats and tugs — need a face-lifting. His solution: a new paint job. "Gay exterior colors can set a cheery mood and increase safety in busy ports by offering greater visibility," he declares. Ketcham has already taken the first step toward putting his idea into general practice. The Jersey Central Railroad has introduced a new color scheme on a ferry built for the Hudson River crossing between New York and Jersey City. The new boat has a deep red hull, bright green lower deck, light green upper deck, and white superstructure and funnels.

Death Valley is the lowest land surface in the western hemisphere.

**Recruits Kidnapped**

**KUALA LUMPUR** — (AP) — Communist terrorists are now kidnapping youthful Chinese to serve in their war of murder and sabotage against the British in Malaya. A British army spokesman said that in some parts of Malaya the Communists could not enlist replacements to fill the gaps of those killed and wounded in clashes with British security forces. He added that the Com-

munist have resorted to kidnapping young Chinese, spiriting them off to the dense jungle, and forcing them to fight against the British. Sardine sandwiches and cream of tomato soup make a satisfying lunch. To make the sandwich filling mash a small can (about four ounces) of sardines with a little finely diced dill pickle, a teaspoon of prepared mustard and a little mayonnaise.

# THE COCKROACH... A POLIO CARRIER?

JOHNSON'S NO-ROACH — Effective roach eradicator — easy to apply!

## Johnson's No-Roach, Best To Fight Roaches And Ants

Latest research in bacteriological laboratories in two state universities indicates that the roach is a possible carrier for the polio virus. In any event, the modern housewife should no longer tolerate these offensive insects around her home.

The roach is still one of the most repulsive pests the housewife has to contend with. No woman could ever be sure her kitchen wouldn't be invaded, no matter how immaculate she kept it.

The great news in the fight against roaches and ants is Johnson's NO-ROACH, the modern way to control these pests.

Science has just produced this new discovery that kills roaches, ants, and waterbugs, and that stays effective for months.

Johnson's NO-ROACH is very simple and easy to use. Just brush this colorless, odorless, stainless coating on the kitchen cabinets, baseboards, near the stove, icebox, sink, etc. Brushed across window sills and door sills. NO-ROACH kills the ants and insects that crawl into the home from the outside.

Insects that walk across the invisible coating slowly become paralyzed and die, then this application stays effective for months to kill the strays that wander in.

Johnson's NO-ROACH contains no DDT, no sodium fluoride and no phosphorus. You apply it just where you want it, without having to move all your pots and pans. No more messy powder sprinkling, or all-over spraying, when you start controlling roaches, ants and waterbugs, this modern NO-ROACH way.

NO-ROACH is on sale at CRETNEY'S DRUG STORE. Prices are 8 ounces for 89c, pint for \$1.69, and quart for \$2.98.

## Shamrock Station Offers Quick, Courteous Service

At Shamrock Service Station, 400 W. Foster, you'll find the finest in motor oils and allied products that will serve you during your spring and summer vacation driving.

Charlie Ford, manager, and his crew boast the utmost in courteous service and prompt attention to the problems of Pampa motorists. All customers, transient or regular, will be impressed with Charlie's brand of treatment.

Although your car may appear all right to you, it may not be ready for the touch summer driving ahead. Maybe something is wrong that will give you some trouble later on. Your best and safest bet is to take your car to Shamrock Service and let them give it a thorough checkup.

Where speed and quality run hand in hand, you'll always find Charlie and his crew. If it's service with quality you want, you'll find it at Shamrock Service Station.

Shamrock carries a complete

cleaning and a general check-up. You can't go wrong by stopping at Shamrock Service Station, 400 West Foster, and letting Charlie Ford and his gang really service your car.

## Top O' Texas Specializes In Fire Insurance Coverage

Consult Garvin Elkins of Top O' Texas Realty and Insurance Co. to see if you have adequate Fire Insurance. Fire Insurance is one of the specialties of the Top O' Texas Insurance Company.

Do you THINK you have enough fire insurance, or do you know you have? A disastrous fire may mean your financial ruin if you are not adequately protected by insurance. Records show that many property owners who have suffered fire losses recently have had to pay a greater part of the loss themselves because they failed to increase their insurance in line with today's higher replacement costs.

Few people realize how much their own values have risen, due to inflation and new purchases of furniture and equipment. Insurance agents want their clients to be adequately insured, but they can not always persuade them! Claim files show many sad cases of under-insurance.

Suppose you had to replace everything you own in either your own home or your business. Would your present insurance cover most of your loss? Consider the replacement cost when appraising your fire insurance coverage. Today's values are up from fifty percent to more than double pre-war costs. Now is the time to revise your fire insurance program to cover today's needs. Do it now... tomorrow may be too late.

One second of carelessness can cause the loss of many lives and many millions of dollars in property values. One second's carelessness and your life and your property may be the penalty. Don't take chances. See Garvin Elkins of Top O' Texas Realty and Insurance Company today, and have Garvin check your present fire protection.

## Prompt Service For Metal Jobs At Des Moore's

Des Moore, manager of Des Moore Tin Shop, says that the wise person will take inventory of his immediate needs in the metal line and do something about it soon. Des doesn't want to scare anyone into doing anything, but you know there is likely to be a shortage of metal in these days. It seems that it is becoming more and more necessary to take a bit more of the metals used in air conditioning, etc., and applying them to the manufacture of military needs.

If you have an air conditioning job underway; if you plan the renovating and refurbishing of those ever important heating and air conditioning ducts and other metal-using installations, you had better get your order in to Des Moore before it is too late.

Also the use of aluminum in air conditioning is to be tapered off and almost ended by summer time. That isn't far away. If you have put it off too long, get Des to see what he can do about planning a substitute material and getting the job done now. Remember the Des Moore Tin Shop is located at 320 West Kingsmill, phone 102.

PAMPA NEWS, MONDAY, MAY 7, 1951 PAGE 7

Moisture trapped in this house worked through the walls, condensed into water and caused this scabby peeling of the exterior paint.

## Moisture Is The Villain When Paint Begins To Peel

By JIM CHANDLER  
Written for NEA Service  
Paint is peeling off throughout the nation. Warning is the appearance of blisters. Next, the paint film begins curling and falling. Beneath the surface there is danger of wood rotting unless something is done. This danger and damage is a new phase in home deterioration. Cause of the trouble, extensive surveys and tests have shown, is moisture. Trapped moisture from kitchen, bath and laundry pushes against the under side of paint layers to meet the pull of the Spring sun. Why is the paint-peeling disease spreading to thousands of more homes each year? Because more homes in the past decade have been sealed tighter and lighter, to save fuel. Homebuilding has improved to the point where it has created a new danger. Stuffed with layers of insulation board, fluffy insulation, weatherstrip and a-d storm windows, homes cannot breathe. Moisture spreading inside a home because of occupants bathing, cooking and drying clothes, fails to find easy channels to the dryer air outdoors. Nature compels moisture to seek dryer air just as it compels water to flow downhill and air to fill a vacuum. Trapped moisture pushes through walls, penetrating everything except complete-seal moisture barriers. Finally, it may strike the cool inner side of an exterior wall. Here it will condense into water in liquid form. Here it will wait for the sun to pull it through the paint. Meanwhile, it promotes the rotting of wood. In trying to keep heat inside in winter and outside in summer we have, in large degree, overlooked the moisture problem we have thus created. What can be done about it? A great deal. It is vitally important to keep the moisture danger in mind when you begin building a new house. But if your contractor overlooked the matter, much can be done to permit your home to breathe, while still conserving heat in winter and enjoying insulation against the summer sun. First let's look at some typical cases of paint peeling. You can spot them as you drive a long almost any street. Look at the sunstruck east, south and west sides of homes.) One home owner reports: "Our house is four years old. It has been painted three times but the

## Plumbing, Wiring Need To Be Modernized In Old House

Although the electric wiring and plumbing pipes are hidden in the walls and floors of a house, it is relatively easy today to modernize an outmoded or inadequate plumbing or electrical system. Skilled workmen are able, by the use of flexible copper tubing, to install a completely new water supply system with relatively little tearing out of walls. The tubing is pushed through small openings made in the interior finish and run downward to the stud spaces or horizontally between joists. If obstructions are encountered, such as solid fire-stops in walls or floors, another small opening is made over the obstruction and it is cut to admit passage of the tubing. After the new tubing is in place and connected to the fixtures, the old pipe system is disconnected and left in the walls. Additional electrical circuits can be provided in the same manner by pulling wires through the walls and beneath floors. Before beginning this work, the house should be thoroughly examined by a competent contractor who will determine if it is economically practical.

## War Paint Dates Back

Grease paint may fairly claim to be the oldest kind of paint. It is not unreasonable to suppose—and this is borne out by the present practice of savage tribes—that the earliest paints may have been pigments mixed with grease or fat. Such a paint adheres to the human skin with considerable persistence, yet it may be removed by thorough washing. The grease paints still, used by actors, are of this type.

## Use Care For Tinting

In mixing paint, be sure to add colors sparingly. A little pigment often has a marked effect on even a large can of paint. Experienced painters advise experimenting at first with a little paint in a small can to see what the colors will do. The safety procedure is to add tinting color to a small amount of paint and then transfer this mixture to the large container. This process can be repeated until you obtain the exact hue you desire.

## A Final Finish For Those Stains

Surfaces to which stains have been applied are usually finished with varnish or shellac. Two or more coats are used—the number depending upon the wear to which the surface will be subjected.

## Blue Is Formal

Blue-painted walls are cool and restful. They make an excellent background for a light room that will be decorated with a certain amount of formality. paint has just about all peeled off again." "We tried three different brands of paint—all good brands—but none would stick. We had old paint burned off and started right from the bare wood, last time. The job didn't hold. We were told about moisture being the cause. The last firm we hired refused to risk its reputation by repainting until the moisture was removed from the walls. We had 'breather holes' bored in the walls and aluminum tubes placed in the holes to screen out rain and bugs." He plans to install an exhaust fan in the laundry room and louvers or other extra ventilation in the attic, to let moisture escape without permitting too much wintertime warmth to escape. Only recently have research laboratories, paint companies uprooted by "paint failure" complaints and engineers applied themselves to the moisture menace. Progress must be swift in corrective measures in the next few years if terrific damage is to be avoided.

The Blake has a long narrow plan with hip roof and a wide eaves. The brick fireplace in front forms a recess for front door. Entrance door is shielded from living room by corrugated glass partition. Two large bedrooms have ample space for furniture placement including twin beds in one. Each has two wardrobe type closets with storage. Side entrance leads to kitchen and bedroom and has both broom and coat closet. Kitchen dinette are combined with sink under refrigerator window. Stove and serving counter are on inside wall. Plans call for frame construction with a full basement. Exterior is finished with siding and asphalt shingle roof. The overall dimensions of the Blake are 40 feet by 28 feet with the floor area amounting to 998 square feet, while the complete

cubeage equals 19,461 cubic feet. For further information about THE BLAKE, write the Small House Planning Bureau, St. Cloud, Minn.

## Finish Must Be Geared To Need

The requirements for protective coatings vary widely from one industry to another. The makers of air-conditioning equipment have an interior corrosion problem which must be met by a special finish. The specifications for typewriter and business machine finishes include a test to determine abrasion resistance and resistance to perspiration. Nothing will destroy adhesion and general film integrity faster than its becoming saturated with perspiration. The coating must be built especially to resist it.

Highlight On Meat Prices

Some of the loudest and most persistent complaints in regard to high prices are made in regard to meat...

To get a clearer view of the picture, let's consider some things...

Mr. Holmes said that over the year the meat packers' earnings...

As to whether meat will become as scarce as in 1945 and 1946...

"The supply of meat, which depends on the supply of livestock...

Meat available for consumption this year we estimate will be around 148 million pounds...

On a basis of government statistics meat prices are not disproportionately high in comparison with other items...

The basic cause of current high prices, dollarwise, of meat and other commodities, he points out, is inflation...

A Kentucky woman stole to bail out her husband so she could be with him...

Tout Gives Mac 'Sure Thing' Now He's Hitch-Hiking Home

SOMEWHERE BETWEEN LOUISVILLE AND NEW YORK - Kipling was as right as fleas on a pup when he said, "He travels fastest who travels alone."

Hitch-hiking home from the Kentucky Derby is something a man ought to do all by himself, and not in the company of his wife...

At this rate of progress we'll be lucky to reach New York in time to hang up our stockings Christmas Eve.

We should never have bet our return plane tickets on that "sure thing" in the last race at Churchill Downs Saturday but the tout was so convincing...

"The 'sure thing' ran superlively until the top of the stretch when, like a boat docking, he started backing up...

Being a Kentucky colman of long standing I was taken in the same way Shirley Temple was given her bluegrass hitch-hiker insignia...

To get a clearer view of the picture, let's consider some things...

National Whirligig

By RAY TUCKER

WASHINGTON - Uncle Sam will soon inaugurate one of the greatest, multi-billion dollar, give-away programs in American history.

The mad rush to the Klondike gold fields 50 years ago will not match the struggle for these prizes.

To put it more prosaically, on June 11 the Federal Communications Commission will begin hearings to determine the ownership and allocation of almost 2,000 ultra-high frequency and very-high frequency television stations...

Geographical factors will also influence the specific awards. In addition, an applicant's record in the radio or other fields, and his general standing in the community, will be investigated...

Despite the commission's fairly respectable reputation for objectivity, these forthcoming awards can provide the richest mine of political gold that the FCC.

Overnight - Although between 65 and 70 ultra-high frequency channels will be available for television broadcasting, the FCC will turn over only 50 of which will be in addition to the 12 now in operation.

Barrier - More than 10 percent of the stations - 200, exactly - will be reserved for non-commercial, educational use.

Squares - There is also the problem of what kind of subjects can be taught by TV. Obviously it cannot supplant books in teaching trigonometry or languages...

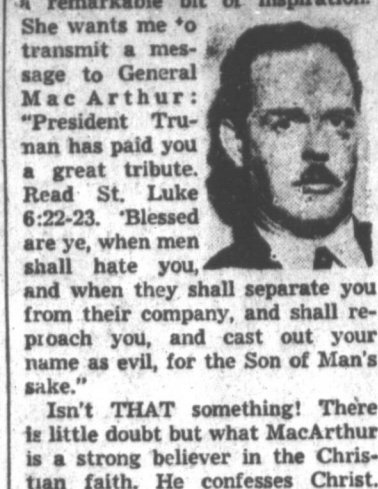

Better Left Alone - There is no good, safe way to raise the blood pressure and it is better left alone in most cases.

Better Left Alone - There is no good, safe way to raise the blood pressure and it is better left alone in most cases.

A Nebraska man charged his wife beat him with a hoe, a washboard and a ball bat.

Clearing House

Articles for this column are invited to be 50 words or less in length.

F. RABLE DE PAMPA TIME: Anytime lately. SCENE: In a Tampa telephone booth.

Oh! Well, for some strange reason I took my rose colored glasses off today. I guess I took them off to clean them in order to see the good things in Tampa better.

Well, you see, Peg, I go to college, and I come home to visit every once in a while.

Now, Peg, I read your Palaver every week. I like it. I enjoy knowing that new businesses are being established.

Yes, that's right. For one thing, I've seen several high school students under the influence of intoxicants.

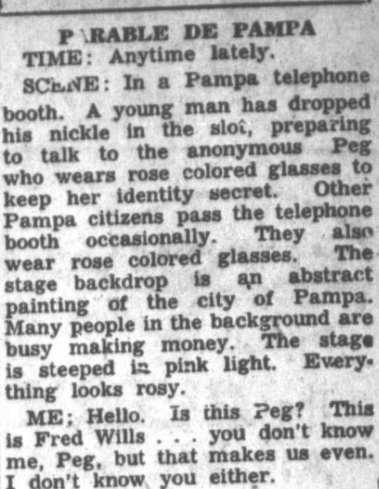

Some Catholic authorities also accused me of digging up ancient history when I mentioned the Inquisition and Dark Ages.

Another thing I question as far as better understanding is concerned is the oath a Protestant or convert must take on joining the Catholic church.

Yes, that's right. Well, thank you, Peg, for your time. CURTAIN.

Washington... by Peter Edson

WASHINGTON - (NEA) - Toy balloons—the kind sold by pitchmen at circuses—are being used in increasing numbers to carry U.S. messages behind the Iron Curtain.

Started by the European Marshall Plan organization nearly a year ago, this campaign has proved so surprisingly successful that it will be enlarged this summer with some new counter-propaganda dodges.

Countries behind the Iron Curtain, which are now becoming known as "the Gombie states," have become so annoyed by the balloon propaganda that they are trying to offset it.

Communist newspapers have publicly denounced the balloon barrage. Since the campaign utilized the best "box top" technique of U.S. advertisers, by asking finders to send back return cards, some of the Baltic countries have tried to impose a rigid postal censorship to catch anyone from the east trying to communicate with anyone in the west.

Perhaps the highest compliment paid to the balloon messages from free Europe has been a warning carried in one Russian newspaper, telling their people that the cards were impregnated with microbes.

There was a further warning that this was only the beginning of a bacteriological warfare campaign that the western powers were planning to begin against the Soviet Union.

The main idea for this type of information service grew out of a mobile caravan which the Marshall Plan organization sent on a 6,000-mile tour of western Europe last summer. It visited France, Belgium, Denmark, Germany, Sweden and Austria.

MESSAGES VARY

Many finders returned messages telling of the misery in their communities.

I should much prefer a balloon package containing the things we cannot buy in the Soviet zone," wrote an East German woman.

A best field worker in Poland and a German burger at breakfast with his wife on Sunday morning merely returned friendly greetings, considering the whole business an amusing souvenir.

Some of the cards were found by deep-dyed Communists who tried to reply with counter-propaganda.

One such finder wrote to the sender of his balloon that he was glad to have the name and address and, "We'll take care of you when the day comes."

Whether this kind of propaganda is worth its cost and trouble is debatable. It is at best a feeble ray of light reaching only a few people.

It has also made some Communist authorities jittery. After balloons were released at the Vienna Fair a few weeks ago, "Der Abend," Communist zone daily paper warned its readers that "The postcard is meant to serve as an identification to refugees from the People's Democracies."

"However silly the whole balloon device may be," the editorial continued, "there is no denying the fact that the campaign is an assault on the People's Democracies, Marshall Plan propaganda is thus being smuggled across the frontier against the will of the governments of the neighboring states."

And the way is being cleared for American espionage.

### Cook Veal In Sour Cream

By GAYNOR MADDOX  
NEA Staff Writer

This veal dish will make the family happy at Sunday dinner.

**Veal in Dill Sour Cream**  
(4 servings)

One pound veal, cut thin from leg. 1 tablespoon flour, 1/2 teaspoon salt, 1/8 teaspoon pepper, 4 tablespoons butter or fortified margarine, 1 1/2 cups sour cream, 4 tablespoons drained sweet pickle relish, 2 teaspoons flour.

Have butcher cut veal about 1/8 inch thick. Dredge in flour and sprinkle with salt and pepper. Melt butter or margarine in skillet; add veal and sauté until golden brown. Cover and cook until tender. Remove from pan; keep warm in oven. Add

teaspoons flour to drippings in skillet, blend well. Gradually add sour cream, pickle relish, salt and pepper; heat thoroughly. Pour pickle sauce over meat. Serve with buttered egg noodles.

Pickles again in a main dish stuffed spareribs.

**Stuffed Spareribs**

One cup finely chopped onions, 1/2 cup butter, 2 cups soft bread cubes, 1/2 cup chopped dill pickles, 1 tablespoon chopped peppers, 1 teaspoon salt, 1/8 teaspoon pepper, 2 half-sheets spare ribs, 2/3 cup chili sauce, 1 1/2 cups water, dash of Tabasco sauce.

Sauté onions in butter until lightly browned. Add bread cubes, pickles, capers, salt, and pepper, tossing lightly with a

### Cottage Cheese Is Important

By GAYNOR MADDOX  
NEA Staff Writer

Cottage cheese is high on the list of foods valuable in children's diets. It is a very substantial dairy food, rich in protein, calcium and other essential minerals and is also inexpensive and easy to serve.

Serve it mixed with a little cream and finely chopped scalloons or pickles and whipped with sour cream and salt and spooned over chopped raw vegetables. Serve it as an after-school or between-meal snack on crackers with tart jelly.

Here's a delightful combination cottage cheese balls in two flavors, served on crisp greens with a lemon cream dressing:

**Orange Cheese Balls**

One carton (8 ounce) cottage cheese, 2 tablespoons concentrated (frozen) orange juice, 1/4 cup chopped walnuts.

Beat cottage cheese until creamy. Add orange juice and chopped walnuts, and blend until smooth. Form into six balls and arrange on one side of the platter. Garnish with halved walnuts.

**Savory Cheese Balls**

One carton (8 ounce) cottage cheese, 1 tablespoon horseradish, 2 tablespoons catsup.

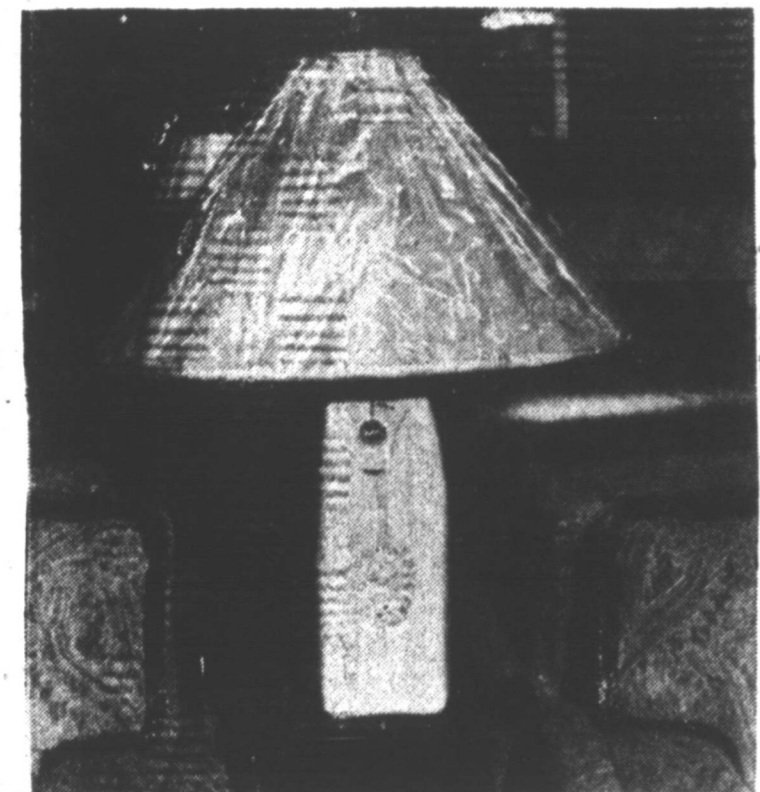

Beat cottage cheese until

**LOBSTER CHOWDER**

To make lobster chowder use a cup of cooked or canned lobster (cut in small pieces) to a quart of rich milk. Add about three tablespoons of butter and salt and freshly-ground pepper to taste. Allow the chowder to stand at least half an hour before serving to develop good flavor.

**BUTTER FROSTING**

To make a butter frosting you'll need about a quarter cup of butter (cut in small pieces) to two cups of confectioners' sugar; moisten with a little cream and flavor with vanilla and a pinch of salt. This should be enough frosting for an eight-inch square cake.

**MURRELL FURNITURE** — Shown above is one of the many modern lamps from which some housewife may select for her home as a prize in the Pampa Daily News' cooking school Tuesday and Wednesday. (News Photo)

**CRETNEY DRUG** — Store manager L. G. Close is shown here with the DuBarry kit which will be awarded some Pampa woman Tuesday at the all-electric cooking school being held in the Junior high school auditorium. (News Photo)

### Small Appliances Can Provide Square Meals

Most women take their small appliances for granted — never give a thought to what they need to do. Did you know that with an electric roaster, coffee maker, toaster, mixer, and combination waffle iron and sandwich grill that most any kind of food can be prepared?

This might be a solution to the problem for the young marrieds who have just found a house but not very much to go in it. Maybe the wedding checks do not

range for it will make the holiday turkey to perfection, thus freeing the range oven for roils, pies, etc. It will hold large quantities of food, quantities to serve fifty people. It can be used for the hot-water bath type of home canning. And since it is portable, it is ideal for keeping foods hot on picnics.

**KEEP SUGAR SIRUP**

It's handy to have a simple sugar syrup in the refrigerator, in hot weather, to use for cool drinks. Make it by simmering an equal amount of sugar and water together, then adding the same amount of light corn syrup.

### Conserve Adds Zest To Meal

(NEA)—Dried fruits tree-ripened, like rich and fruity preserves, these conserves have a way of making the cheaper cuts of meat taste more interesting.

**Peach and Fig Conserve**  
(Makes about 8 small glasses)  
Two cups dried peaches, 2 cups dried figs, 6 cups water (approximate), 1 cup granulated sugar, 1-2 cup sliced preserved orange peel, 1 cup shredded, blanched almonds.

Boil peaches 6 minutes, drain, remove skins, and cut into pieces. Tint figs, clip off stem ends and slice figs. Combine with peaches and water and boil 5 minutes. Add sugar and orange peel and continue to boil until of desired consistency, about 30 minutes, stirring frequently. Add almonds for last 5 minutes' cooking. Pour into hot glasses and seal with paraffin.

**Tropical Honey Conserve**  
(Makes about 1 1-2 pints)  
One cup seedless raisins, 2 cups canned cling peach slices, 1 cup diced canned pineapple, 1 cup honey, 1-4 teaspoon salt. Rinse and drain raisins. Drain peaches and pineapple. Combine all ingredients and bring to boil. Cook slowly until of desired consistency about 45 minutes. Stir frequently while cooking.

**Golden State Conserve**  
(Makes three 7-ounce glasses)  
Two cups prunes, 1-2 medium-sized orange (rind included), 6 cups water, 2 cups granulated sugar, 1-4 teaspoon salt, 2 tablespoons lemon juice, 1-2 cup coarsely chopped walnuts or almonds. Let prunes stand in boiling water a few minutes. Drain and cut from pits in small pieces. Cut orange into very thin slices, then into small pieces. Place in kettle with water, sugar, salt, and lemon juice. Bring to a boil and boil 10 minutes. Add prunes

and boil about 20 minutes longer, or until of desired consistency, stirring continuously to prevent burning. Add nuts last 5 minutes of cooking. Pour into glasses and seal with paraffin.

### Strawberry Shortcake

Preparation: Have shortening at room temperature. Grease and flour two round 8-inch layer pans. Start oven for moderate heat (375 F.) Sift flour once before measuring.

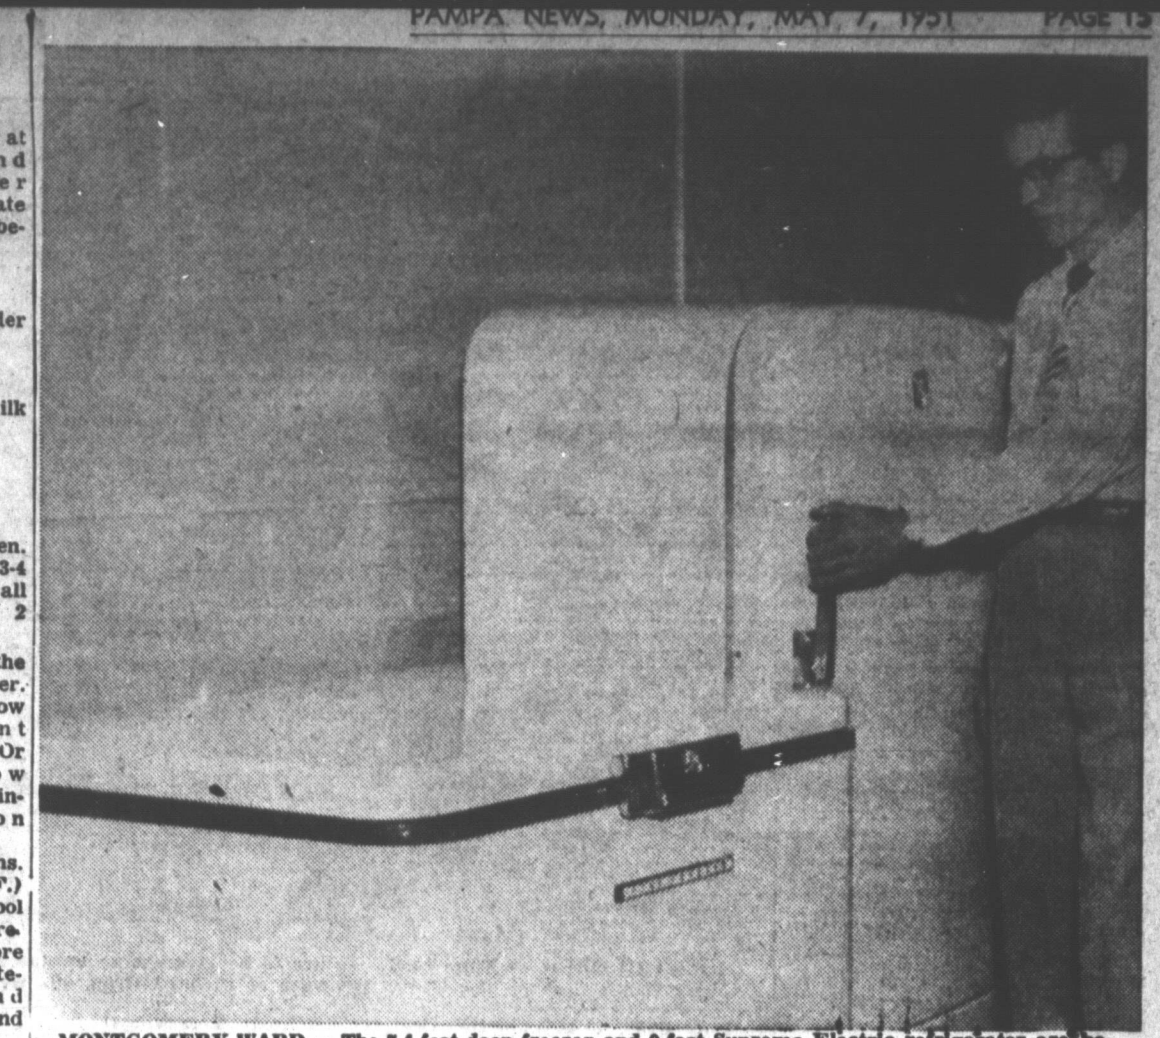

Measure into sifter:  
2 cups sifted cake flour  
1 3-4 teaspoons baking powder  
Measure into mixing bowl:  
1-2 cup shortening  
Measure into cup:  
3-4 cup plus 1 tablespoon milk  
1 teaspoon vanilla

Have ready:  
2 eggs, unbeaten  
3-4 teaspoon salt  
1 1-4 cups sugar

Stir shortening just to soften. Sift in dry ingredients. Add 3-4 of the milk and mix until all flour is dampened. Then beat 2 minutes.

Add remaining milk and the eggs and beat 1 minute longer. (Mix cake by hand or at low speed of electric mixer. Count only actual beating time. Or count beating strokes. Allow about 180 full strokes per minute. Scrape bowl and spoon often.)

Baking: Turn batter into pans. Bake in moderate oven (375 F.) 20 minutes, or until done. Cool on cake racks, wrap in moisture-vapor proof material and store in freezer, or serve immediately with whipped cream and strawberries between layers and on top.

**MONTGOMERY WARD** — The 7.4 foot deep freezer and 9-foot Supreme Electric refrigerator are being donated by Montgomery Ward for use in the Panama Daily News two-day cooking school, Jack Robinson, appliance salesman for Montgomery Ward is shown here with the two electric home appliances. (News Photo)

Thoroughly mix and put above. Start cooking on the third heat. when it stands in stiff peaks. ingredients in flat bottomed then turn switch to the fourth for about seven minutes. sauce pan and place on small heat to finish cooking. It is done surface unit of electric range. Beat on high speed of mixer. Read The News Classified Ads.

### Flaky Pie Crust

Store this pastry in a covered jar (I use a large mouthed glass jar) with a tight lid and it will keep indefinitely. Make 1-6 of this for a two crust pie.

12 cups sifted flour  
2 cups shortening; or 5 cups lard  
2 cups ice water  
5 teaspoons salt

Mix flour and shortening to the consistency of coarse meal by using a pastry blender or two case knives. Add ice water in which the salt has been dissolved. Roll out between two sheets of waxed paper.

**CHERRY PIE**  
2 cans sour pitted cherries (No. 2)  
1-4 cup sifted all-purpose flour  
1 1-4 cups sugar  
1-4 teaspoon salt  
1-4 teaspoon almond flavoring  
1 tablespoon butter

Line 9-inch pie plate with pastry. Combine drained cherries, flour, sugar, salt and flavoring, mixing well. Pour into pastry lined pie plate and dot with butter. Cover with top crust. Press edges together or flute. Place in oven with meal two hours before ham is done.

Read The News Classified Ads.

### 7-Minute Frosting

1 1-2 cups sugar  
2 or 3 egg whites  
1-2 cup water  
1-2 teaspoon cream of tartar  
1 teaspoon vanilla  
Salt

## Keep Recipes Children Like

If you keep a recipe book of wholesome and interesting dishes for very young children, you'll find your menu problems solved.

Here are three, carefully tested for nutritional value and young child appetite appeal:

**Creamed Eggs and Asparagus**  
(Serves 4)  
Two cans condensed cream of mushroom soup, 1-2 can water, 1 bunch fresh asparagus, 8 rusk or pieces of toast, 4 hard-cooked eggs.

Combine soup and water, blend well and heat to boiling. Cook asparagus. Place 2 rusk or pieces of toast on each plate. Slice one-half an egg over each rusk. Arrange spears of asparagus on top of eggs. Pour creamed mixture over asparagus.

**Meat Patties**  
(Yield: 1 large or 2 small servings)  
One can junior (chopped) beef,

## Broiled Chicken Is Spring Treat

Those tender young chickens being rushed to market are for housewives who know how to broil.

The more tender the young chicken the more wonderful the results. But be sure to choose a plump one.

Follow these instructions from the Bureau of Human Nutrition and Home Economics:  
Split the bird down the back and, if desired, cut into halves through the breastbone. Break joints and cut off wing tips. Brush chicken on both sides with melted fat, sprinkle with salt and pepper and dust lightly with flour.

Preheat the broiler and grease broiler rack lightly. Place chicken on the rack, skin side down, with highest part 4 to 5 inches from the heat. Turn the bird several times as it browns so that it will cook evenly. Baste often with the pan drippings or other melted fat.

Cook until well done — 35 to 45 minutes. If more convenient, cook the chicken partly done in the broiler and finish in a moderate oven (350 degrees F.).

Here's another refreshing spring idea — molded cottage cheese salad. Use it as a main luncheon dish because it is good protein food.

**Molded Cottage Cheese Salad**  
(4 large servings)  
One-half envelope unflavored gelatin, 2 tablespoons cold water, 2 tablespoons boiling water, 1 cup cottage cheese, 1-4 cup mayonnaise, 2 hard-cooked eggs finely chopped, 2 tablespoons coarsely chopped olives, 1-4 cup coarsely chopped salted peanuts or almonds, 1-2 teaspoon prepared mustard, 1-2 teaspoon salt, 1-4 teaspoon grated onion.

Soak gelatin in the cold water for 5 minutes. Add the boiling water and stir until dissolved. Beat cottage cheese and mayonnaise together. Add eggs, olives, nuts, mustard, salt and onion, blending thoroughly.

Mix in the dissolved gelatin. Pour into pan or small molds and chill until firm. Note: French dressing or more mayonnaise may be added at eating time, if desired.

Legend says the diamond's sparkle is kindled by the fire of love.

RICHARD DRUG — Elmo costumes are to be given some Pampa woman during the Pampa Daily News cooking school. Joe Tooley is owner of Richard Drug, 107 W. Kingsmill. (News Photo)

veal or liver, 2 tablespoons dry bread crumbs, 1 tablespoon undiluted evaporated milk, melted butter or fortified margarine, bread crumbs for rolling.  
Combine the meat, 2 tablespoons bread crumbs and milk. Shape into cakes. Roll in bread crumbs; brush lightly with melted butter or margarine and place on a greased baking sheet. Bake in hot oven (400 degrees F.) until lightly browned. Variation: Heat 1-2 can strained vegetables and bacon. Use as a sauce over the meat patties.  
Quick Sweet Potato Custard With Bacon

FURR FOOD — Pat Revious, attractive clerk at Furr Food store, holds a heavy basket of groceries which will be given away at the Pampa Daily News cooking school Tuesday and Wednesday. (News Photo)

## Baby's Diet Includes Meat

(NEA) — Baby doesn't have to wait long these days to get his first taste of meat. The changing schedule, of course, is in line with scientific recognition of the superior contribution of meat in essential bodybuilding proteins. Writing on "Protein in the Child's Diet," Dr. I. Emmett Holt, Associate Professor of Pediatrics, Johns Hopkins University says:

"The child must be given relatively more protein than the adult; the younger he is, the greater is his need for protein food. The young infant requires roughly 4 grams of protein per kilo each day, a quantity approximately double that which is necessary for an adult."  
Naturally the age at which meat is introduced into an infant's diet depends upon the needs and development of the individual baby, and the orders of the doctor who has been watching the child's progress.

The early starting of baby on his first tastes of smooth strained meat is no longer a heavy chore for his busy mother. Experts in meat packing are catering meats right to baby's taste, ready to warm slightly or combine with other foods.  
One baby meat producer now offers six strained meats, which have the added advantage of low fat content. Controlling fat has been one of the problems that has plagued the packers of strained and junior meats.  
Even the use of extra lean cuts did not always result in a product acceptable for the very young. Extra digestibility is claimed for these low-fat content meats, along with true flavor and color.  
Creamed Veal and Egg  
Makes 2 servings  
One tablespoon butter or fortified margarine, 1 tablespoon all-purpose flour, 1-2 cup whole milk, 1 can (3 1-2 ounce) junior veal, 1 hard-cooked egg, chopped fine, salt to taste.  
Melt fat, add flour. Blend well. Gradually add milk. Cook until thick. (Cook over low heat or in top of double boiler). Add chopped meat and egg. Season to taste. Serve on toast, fluffy rice or baked potato halves.

"Hope they're cookin' up something to keep us healthy."

**SCALLOPED POTATOES**  
Scalloped potatoes are delicious when the potato slices are alternated with paper-thin slices of onion. Season with salt and freshly-ground pepper, sprinkle with flour and bits of butter, and fill the baking dish with milk. Bake in a moderate oven for about an hour or until the potatoes are done.

### Well Cooker Menu

**Savory Steak** Tomato Cocktail  
**Braised Carrots and Potatoes** Mushroom Vegetable Sauce  
**Avocado Salad** Butter

**Rolls** Steamed Upside Down Pudding

**\*SAVORY STEAK WITH VEGETABLES**  
 1½ pounds round steak, 1" thick  
 1 clove garlic  
 ¾ teaspoon salt  
 ¼ teaspoon pepper  
 ½ cup enriched flour  
 3 tablespoons shortening  
 ¼ cup of water  
 1 can mushroom sauce  
 3 carrots, cut in half  
 1 green pepper, cut in strips  
 4 stalks celery, cut in strips  
 3 onions, sliced  
 3 potatoes, cut in half

Wipe meat with damp cloth and rub with piece of garlic. Cut meat into serving pieces; add salt and pepper to flour and pound well into meat on both sides. Brown steak in frying pan in melted shortening. Transfer to deep-well cooker kettle and add water and mushroom sauce. Cover, turn switch to high and when steaming freely turn to fourth heat and simmer for one hour. Add vegetables to meat and place pudding on trivet. Turn switch to HIGH and when steaming, again turn to fourth heat for 45 minutes or until pudding and vegetables are done. Yield: 5 servings.  
 \* To be cooked in deep-well cooker.

**\*STEAMED UPSIDE DOWN PUDDING**  
 10 tablespoons butter or margarine 5 tablespoons brown sugar  
 5 apricot or peach halves

Melt butter; place 2 tablespoons butter and 1 tablespoon sugar in bottom of each custard cup. Place in the cup an apricot or peach half and pour over the fruit the following batter:

1 cup enriched flour  
 2 teaspoons baking powder  
 ½ teaspoon salt  
 ½ cup sugar  
 1 egg beaten  
 ⅓ cup milk  
 1 teaspoon vanilla  
 3 tablespoons shortening

Sift together the dry ingredients. Combine remaining ingredients and pour into the center of the dry ingredients. Beat until thoroughly blended. Pour over fruit in custard cups and steam for 45 minutes. Serve with whipped cream. Yield: 5 servings.  
 \* To be cooked in deep-well cooker.

### Give Squash A Gourmet Taste

By GAYNOR MADDOX  
 NEA Staff Writer

Squash is a budget vegetable that merits more loving attention. To eat well for less, try these two squash treats.

**Squash Gourmet**  
 (4 servings)

Three cups mashed squash or 2 packages quick-frozen squash, 2 eggs, slightly beaten, 1-2 cup thick sour cream, 1-2 teaspoons salt, 1-4 teaspoon pepper, 3-oz. can chopped broiled mushrooms.

Place squash in mixing bowl. Add eggs, sour cream, salt and pepper. Drain and add mushrooms, reserving broth for use in soup or gravy. Whip smooth with kitchen fork. Pour into greased 1-quart baking dish. Bake in moderate oven, 350 degrees F., until dry in center, about 1-2 hours.

**Baked Zucchini Squash**  
 (4 servings)

One large zucchini squash (1 pound), 1-2 teaspoon salt, 1-4 teaspoon dry mustard, 1-4 teaspoon ginger, 1 teaspoon kitchen Louquet, 1 teaspoon water, 1-4

cup grated American cheese.  
 Cut ends from squash and then cut in 1-4-inch slices lengthwise. Arrange on greased cookie sheet.

Blend together the salt, mustard, ginger, bouquet and water. Brush over the top of each slice of squash. Sprinkle slices lightly with the cheese.

Bake in moderately hot oven, 375 degrees F., until squash is tender and cheese melted and lightly browned, about 15 to 20 minutes. Serve immediately.

**A New Technique For Cooking Meat**

1. Wipe meat with damp cloth. Wash fish and fowl carefully. Never let meat, fish or fowl stand in water, or they will lose their flavor.

2. Place in shallow uncovered pan, fat side up. Rub lean meat with butter. Season. Do not add water.

3. Put into a cold oven, and cook at a constant moderate temperature (300 degrees F. to 350 degrees F.; for required time. Basting is not necessary.

The Turfan Depression in western China is 427 feet below sea level.

**SQUARE DEAL PAINT CO.** — a gallon of T.P.V. outside white paint will be given by J. H. Johnson as a door prize at the Pampa Daily News cooking school due to open in the junior high school auditorium Tuesday. Johnson, whose store is located at 516 S. Cuyler, will award one gallon of paint each day. (News Photo)

# THE MOST SENSATIONAL BUY IN TOWN!

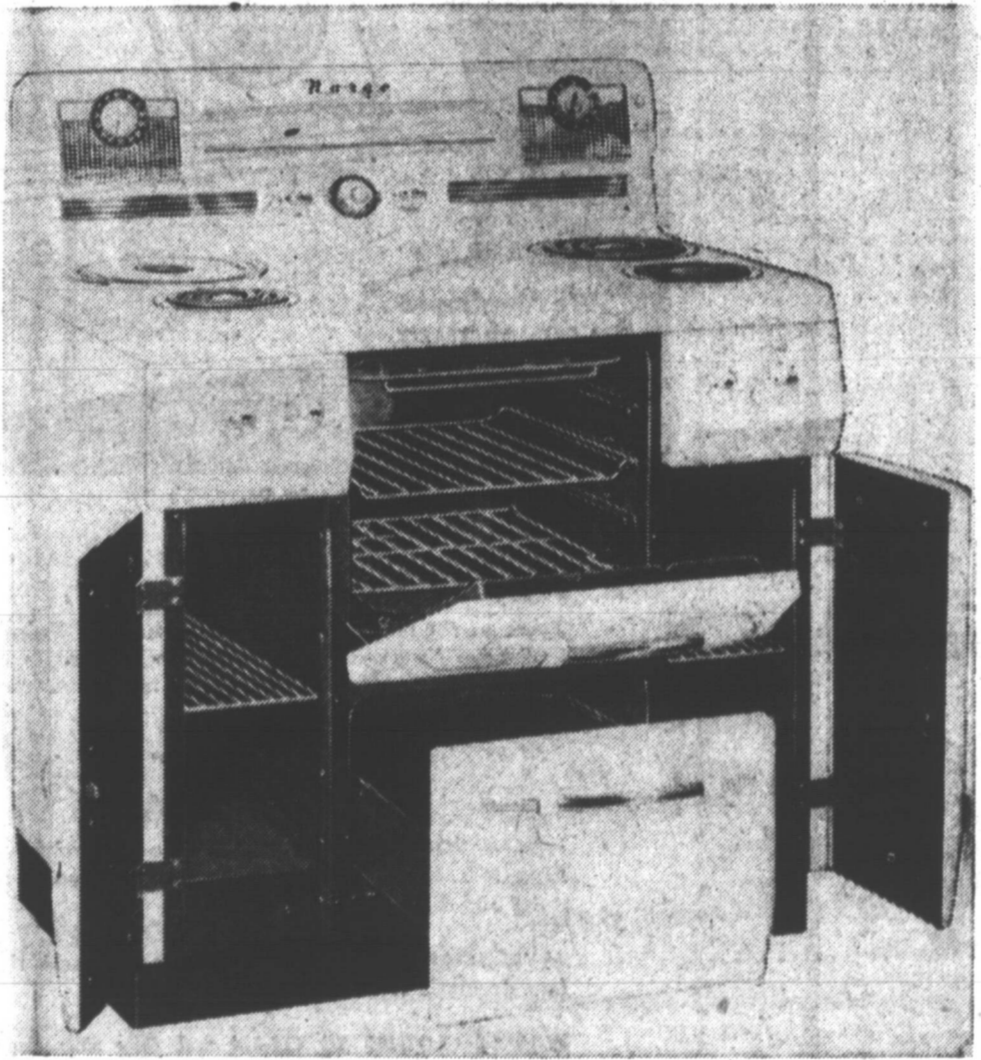

## THIS ALL-NEW NORGE REFRIGERATOR

Thrilling to look at—to use—to own! A genuine Norge with loads of shelf space—even in the door! Has full-width Freezer Chest with 35½ lb. storage capacity. Dozens of new conveniences — even a built-in bottle opener. It's a beauty and a bargain — quality-built by Norge for years of trouble-free, thrifty operation. See it NOW!

Packed with features women want

- HANDIDOR** — up-front shelf space.
- MEAT-KEEPER** — Deep enough for a roast.
- ADJUSTABLE SHELVES** — Move in or out, up or down
- SELECT-A-SIZE KRISPER** — With removable dividers
- DIAL-A-TEMP** — Gives 14 accurate degrees of cold!
- BUTTER BANK** — Choice of 4 degrees of firmness
- SWING SHELF** — Swings down for tall bottles.

### NORGE AUTOMATIC Electric Ranges

See Model E-457, shown at left, with the original "countour" design — a Norge exclusive — gives sparkling, new glamour to even the finest kitchen. The sloping control panel permits easier reading of the Tele-switches. The tapered lower panels and recessed base assure greater comfort when standing closer to the range. Automatic electric clock for oven, deep-well and appliance outlet and "Minit-Master" time-interval reminder. Here is a new, exclusive combination of gleaming beauty and perfected features for better performance.

#### Check These Automatic Controls

- SAFTEE SWITCH** — No chance of children turning on surface units by mistake. Surface units cannot be turned on unless Saftee switch is.
- ATOMATIC CLOCK** — Controls food cooking while you attend to other duties. Can be set to turn range on and off at selected times.
- OVEN CONTROL** — Controls oven temperatures within a range of 150 degrees Fahrenheit to 550 degrees Fahrenheit. Gives you just the heat you want.
- SELECTOR SWITCH** — To control the oven, deep-well cooker, or appliance outlet automatically, turn selector switch to desired marking.

## Take Tips On Feeding Toddler

By GAYNOR MADDOX  
NEA Staff Writer

Child experts have a few sensible eating tips for baby. Take a look at them — they may make mealtime more successful for your babies.

They warn over-eager fathers against bouncing the baby about just before his feeding. What

baby needs most at that time: relaxation or quiet game. Keep the paternal roughhousing for another time of baby's day. Here are five more practical tips:

1. Hot and cold foods are tempered for small folks. "Hot" foods should be served lukewarm; "cold" with chill removed. Pour milk from refrigerated bottles ahead of time, so it will be nearer room temperature.
2. Moderate seasonings, too lively curry and paprika are not for the young. They thrive on bland food, uniform in texture and consistency.
3. "Pass your plate, please." Small servings encourage young eaters. Introduce new foods a spoonful at a time. A strange food that's resisted today will be accepted tomorrow.
4. Variety builds an all-around acceptance of good foods that is carried over into adult life. Color contrast tempts lagging appetites. Golden foods are popular, such as strained sweet potatoes, squash, carrots — all excellent sources of vitamin A.
5. Comfort counts. Easy-to-handle dishes that are bright and preferably unbreakable. Small spoons with a shallow rounded bowl and short handle. Choose a blunt-tined fork or adult salad fork for young beginners. Use easy-to-clean table mats. Make sure the child's chair is adjusted for eating comfort.

## Make White Shower Cake

By GAYNOR MADDOX  
NEA Staff Writer

This is the open season for announcement parties. That's why this beautiful white shower cake is so timely. It is easy to make in a glass bowl that gives it its shape. The frosting is out of this world.

**SHOWER CAKE**  
Cake — Three-fourths cup shortening, 1-1/2 cups sugar, 1 teaspoon almond extract, 1 teaspoon vanilla extract, 3 eggs, 3 cups sifted cake flour, 3-1/2 teaspoons baking powder, 1-2 teaspoon salt, 1 cup milk.

**Icing** — One-half cup cold water, 1-1/2 cups sugar, 1-8 teaspoon salt, 1-4 teaspoon cream of tartar, 1 tablespoon light corn sirup, 2 egg whites, 1 teaspoon vanilla extract.

1. **Cake:** Cream shortening Add sugar gradually, creaming until fluffy. Beat in flavorings. Add eggs one at a time, beating well after each addition. Sift together the dry ingredients; add alternately with milk to shortening.

2. **Icing:** Place all icing ingredients except vanilla in the top of a 1-1/2 quart double boiler. Beat with rotary egg beater until ingredients are blended.

Place over boiling water in lower part of double boiler and beat constantly until icing will stand up in peaks. Remove from boiling water; add vanilla and continue beating until spreading consistency is reached.

3. **Flaky Pie Crust**  
Store this pastry in a covered jar (I use a large mouthed glass jar) with a tight lid and it will keep indefinitely. Make 1-8 of this for a two crust pie.

12 cups sifted flour  
6 cups shortening; or 5 cups lard  
2 cups ice water  
6 teaspoons salt

Mix flour and shortening to the consistency of coarse meal by using a pastry blender or two case knives. Add ice water in which the salt has been dissolved. Roll out between two sheets of waxed paper.

You will need about one tablespoon of milk or cream for each egg in preparing scrambled eggs, and about a half tablespoon of butter for each egg that is going into the skillet.

**MONARCH HARDWARE** — A West Ben percolator is to be given away by Monarch Hardware Co. during the Pampa Daily News cooking school which begins Tuesday. Manager Bill Ballard is shown here with the percolator. (News Photo)

**WHITE'S AUTO STORE** — Kenneth Meaders, manager of the White's Auto Stores, inspects the 41-piece set of Luray dinnerware his store will offer at the Pampa Daily News cooking school. (News Photo)

**BRAXTON FOOD STORE**—Mrs. A. C. Braxton, assistant manager Braxton Food Store, 1712 Alcock, is shown here with a basket of groceries which will be given away at the all-electric cooking school, starting Tuesday. (News Photo)

## Try Delicate Sunday Desserts

By GAYNOR MADDOX  
NEA Staff Writer  
A California friend whose food we always enjoy gives us these two delicate recipes. The orange wine cream makes a very special dessert treat. Her cocktail sauce is perfect for Sunday supper snacks.

**Orange - Wine Cream**  
(Serves 6)  
Two-thirds cup orange juice, 1-3 cup white port wine, or an additional 1-3 cup orange juice, 1 package orange-flavored gelatin, dash of salt, 1 (6-ounce) can evaporated milk, chilled for whipping, 1 egg slightly beaten, 2 teaspoons grated orange rind.  
Heat orange juice and wine to simmering; add gelatin; stir until dissolved. Add salt. Let cool thoroughly. When gelatin mixture is completely cold, whip

chilled milk until light and fluffy.  
Gradually beat in gelatin mixture; beat in egg; add orange rind. Pour into sherbet glasses or a serving bowl. Chill until firm. Serve plain, or with whipped cream.  
**Sherried Cream Cocktail Sauce**  
(Makes about 1 1/2 cups sauce)  
Three-quarters cup heavy cream or evaporated milk, 1-4 cup sherry wine, or an additional 1-4 cup cream or evaporated milk, 1-2 cup catsup, 2 tablespoons lemon juice, 2 teaspoons salad oil, 1-2 teaspoon sugar, 1-2 teaspoon Worcestershire sauce, 1-2 teaspoon paprika, salt to taste, dash of cayenne.  
Combine all ingredients, blending thoroughly. Chill for an hour or more before using. Excellent

## Brunswick Stew

1 pound meat cut in 1-inch squares  
2 tablespoons shortening  
1 cup whole kernel corn  
1 cup green lima beans  
1 cup sliced okra  
1 cup canned tomatoes  
Black pepper  
**RICE MOLD**  
1 cup rice  
2 cups cold water  
1 teaspoon salt  
Brown the meat in the shortening in the deep well kettle. Add the other ingredients. Place trivet in well over stew. Grease fluted mold or pudding pan; put rice and water in it and place on trivet. Put lid on well and cook on Low 1 1/2 to 2 hours. Serve stew around rice mold.

**Broiler Meat**  
1 large sirloin steak cut at least 1-inch thick  
2 small cans yellow hominy  
2 small cans asparagus tips  
1 small can whole pimientos  
Drain liquid from cans of vegetables and arrange in bottom of the broiler pan. To make asparagus bundles, wrap 1-4 inch strip of pimiento around (about 12 minutes) and season. Turn and brown on other side (about 10 minutes) and season. Place six canned peach halves with three maraschino cherries in the center of each on broiler rack around steak five minutes before the steak is done.  
Wipe steak with a damp cloth, score fat around edges to prevent curling. Place on rack on cold broiler pan and place under heat broiler unit of electric range so that the top of the steak is four to five inches from the broiler unit.  
Turn oven controls to Broil. Leave oven door slightly ajar.

## Electric Food Freezer In Home Eliminates Canning

Rural and suburban homemakers will vouch for the hours of tedious canning work saved with an electric home food freezer. Foods bought in season in large quantities and then frozen — add dollars to vacation funds and invaluable hours to everyday. Whatever the size or pocketbook of a family there is an electric freezer to exactly fit their needs.

It is easy to meet emergency meals with calmness with a modern food freezer. Whole meals can be prepared in leisure time, stored in the freezer, then when unexpected guests arrive you are spared needless embarrassment. The food freezer is your food bank that you can open any hour of the day or night. A typical menu from the freezer might include:

Fruit Cocktail

Broiled Steak Green Lima Beans  
... French Fried Cauliflower ..  
Hot Rolls  
Chocolate Ice Cream Roll

We should like to offer the following suggestions for using the food freezer to aid the homemaker in preparing meals that will sparkle and bring forth appreciative, "oh's" from her family:

1. Extra quantities of pies, cakes, breads, etc., can be made and frozen when the homemaker is in the mood for a baking session. This is the time to try new recipes and ideas. It only takes a few minutes longer to make an extra pie or cake — and you'll truly enjoy "banking" one for that time when it will be urgently needed.
2. Save time and effort by preparing in advance for special occasions or holidays, to save that

last-minute rush — mince pies, rolls, plum puddings, birthday cakes, rohs d'oeuvres, canapes party desserts, such as eclairs, ice cream cake, cream puffs, etc.

3. Keep a supply of retail bakery goods in the Home Freezer, which will save marketing trips and afford a good food supply on hand.
4. Freeze and save egg yolks after the egg whites have been used — or use the egg yolks in sponge cakes and freeze the cake for future use.
5. Take advantage of a good buy on butter, eggs or cream — save money by freezing.
6. Rewards of a fishing or hunting trip can be enjoyed for months when stored in the Home Freezer.
7. Practically all leftovers can be frozen for later use — the family need not tire of a big turkey. Remember, a half cake can be frozen and enjoyed later. Gravies and meat stock also serve to help the homemaker at a later date in preparing stews, meat pies, etc.
8. All fruits can be frozen at the peak of their season — and don't forget citrus fruit and fruit juices, apple sauce (serve partially thawed for a new taste), fruit prunes for shortcakes and sundae, frozen salad, etc.
9. Corn on the cob at Christmas is good eating.
10. Prepare and freeze "fryers" during the spring chicken season and serve the year around. Giblets can be frozen separately and used in creamed, creole or casseroles.
11. Lunch box sandwiches (except salad greens and salad dressings) can be frozen — also a complete lunch can be packed and frozen. It's a big help in getting the youngsters off to school.
12. Don't forget lamb stews, Hungarian goulash, spaghetti dishes, chop suey, chow mein, chili and the like.
13. Furs, or woollens to be stored, may be sealed in a bag and then placed in the freezer for one to two days before storage. This will assure the killing of any moth eggs which might be present and which would subsequently hatch and do damage, if the zero treatment were not used. For small articles, the standard heat sealing type of frozen food cellophane, or Pliofilm bags are very convenient to use.
14. Subsequent storage should be in the coolest location available since high temperatures are detrimental to furs.

pliance the manufacturer's instruction book should be carefully studied. In the instruction book for the freezer, you will find very helpful information concerning

packaging materials, processing requirements for various types of foods, cooking and serving of frozen foods, and defrosting and cleaning the freezer.

The brittle star, a cousin of the starfish, is so fragile it is seldom found in shallow water disturbed by waves.

TEXAS ELECTRIC APPLIANCE CO. — Myron Marx, Jr., is shown here with the Everhot electric roaster the store, 208 W. Browning, is giving at Pampa's cooking school Tuesday. (News Photo)

### Broiler Meal

- 1 large sirloin steak cut at least 1 inch thick
- 2 cans whole new potatoes (or left over potatoes)
- 2 cans whole cut green beans
- 6 slices canned pineapple

Drain liquid from cans of vegetables and arrange in the bottom of the broiler pan and salt the vegetables.

Wipe steak with a damp cloth, score fat around edges to prevent curling. Place on rack on cold broiler pan and place underneath broiler unit of electric range so that the top of steak is four to five inches from broiler unit.

Turn oven controls to broil. Leave oven door slightly ajar. Cook on one side until brown (about 12 minutes) and season. Turn and brown on other side (about 10 minutes) and season. Placed six pineapple slices on broiler rack around steak five minutes before the steak is done.

### Mashed Potatoes

Place in large bowl of electric mixer:  
6 medium sized potatoes, cooked but not peeled.  
Beat on No. 2 Speed and lift beaters up and down to chop potatoes until they are broken up. Then beat on No. 4 or 5 Speed for about 3 minutes until potatoes are mashed. Bowl will turn by itself. Scrape bowl while beating.

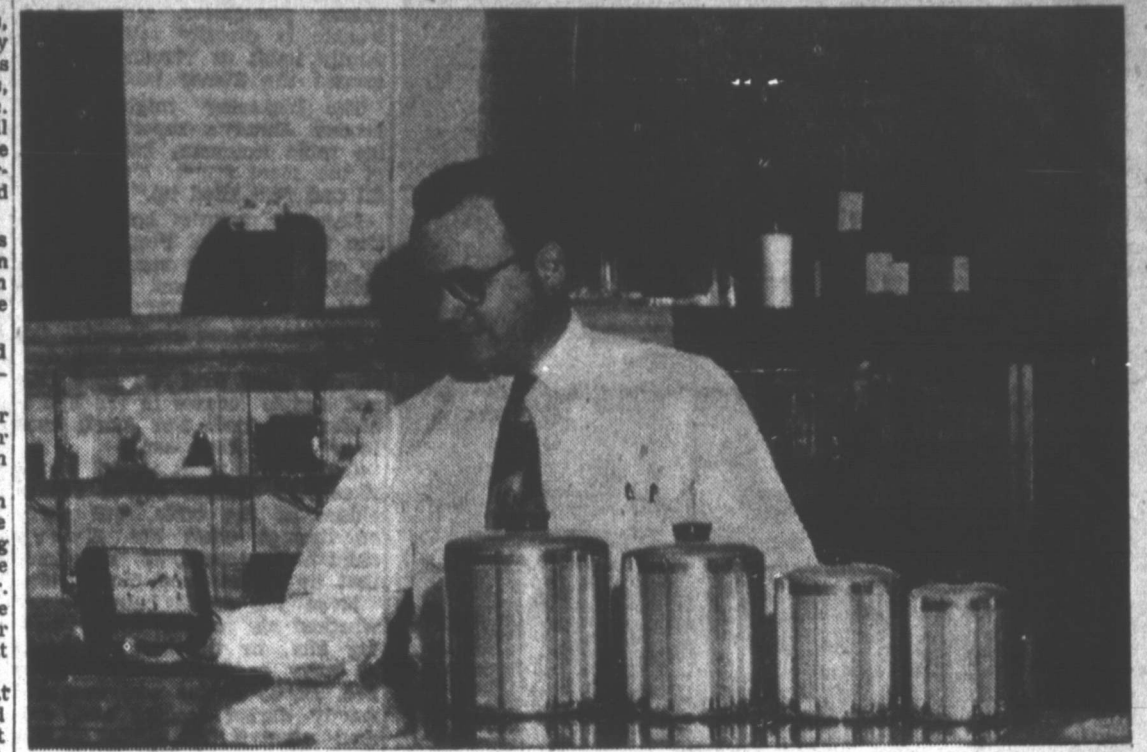

Add:  
1-3 cup hot milk or cream (amount will depend on variety of potatoes)

2 tablespoons butter  
1 teaspoon salt  
1-8 teaspoon white pepper, if desired.

Beat on No. 4 or 5 Speed about 3 minutes until very fluffy. Scrape sides of bowl while beating. Serve at once or place in preheated warmer drawer of electric range to keep them hot and moist until serving time.

### Mealtime Should Be Pleasant

How happy is mealtime in your house? Many a doctor asks that question in an effort to trace repeated digestive upsets among youngsters. Often the trouble is directly related to a family habit of "having it out" around the dinner table.

The bickering might center around Jimmy's report card or his table manners, but the end of the meal found him resentful and "all riled up."

Nagging disturbs both digestion and appetite. Perpetual hurry and tension at mealtime soon build up unpleasant food associations in the child's mind.

The main meal can provide the most congenial hour of the day, offering good food and good talk and simple lessons in the appreciation of food. For small ones learn while they eat.

Often the first tastes, the likes and dislikes copied from elders at the table, will carry on through adult life. Every child is a copycat, so make sure that he copies good food habits.

Even the small baby knows whether his mother enjoys feeding him, or whether she is in a hurry to bundle him off to bed. Bottle babies who are held snugly during feeding and cuddled after it, share the same reassuring sense of security as the breast-fed baby.

Fresh asparagus is in season and it contains valuable minerals for children and all the family. How To Serve Fresh Asparagus

1. Piping hot with melted butter or fortified margarine and a dash of freshly ground pepper.
2. With Lemon Butter made by blending 1-4 cup fresh lemon juice with 3 tablespoons softened butter and 1-2 teaspoon paprika. Pour over freshly cooked asparagus.
3. Crunchy with Dutch Crumbs. Add 1-2 cup dry bread crumbs to 1-2 cup melted butter or fortified margarine. Brown lightly and sprinkle over 4 servings of cooked asparagus.
4. Creamed on Cubes. Add freshly cooked cut pieces of fresh asparagus to a cream sauce. Serve at once over tiny, crisp toast cubes.
5. Cooked and chilled on iceberg lettuce cups with tomato slices and your favorite salad dressing.

### Rice

1 cup rice  
 2 cups water  
 1 teaspoon salt  
 1 tablespoon butter

Place above ingredients in covered sauce pan and place on a small surface unit. Turn switch to HIGH until steam escapes, then turn it OFF. Leave pan on unit for 30 minutes.

### Frozen Lima Beans

1. Break into pieces one or two packages of frozen lima beans.  
 2. Put into an oven meal pan. Add 3-4 cup water, 1 tablespoon butter, and salt.  
 3. Cover pan. Bake with oven meal.

Read The News Classified Ads.

### Milk Is Top Spring Tonic

(NEA) — Both youngsters and their parents need lots of milk to keep fit and full of spring spirit.

Remember that milk, the queen of dairy foods, provides high quality protein, calcium and phosphorus, necessary to growth. Build good meals around milk to make certain the family gets all the nutrients the body needs. These milk drinks will please the youngsters:

#### Mocha Marshmallow Float

(1 serving)  
 One cup milk, 2 teaspoons sugar, 1 tablespoon chocolate syrup, 1-2 teaspoon soluble coffee, 1 marshmallow.

Heat milk, add sugar, chocolate syrup and soluble coffee and stir until blended. Heat to scalding point. Garnish with marshmallow and serve immediately.

#### Bedtime Warmer

(1 serving)  
 One cup milk, 2 tablespoons molasses, 1-4 teaspoon nutmeg.

Heat milk, stir in molasses and nutmeg and heat until frothy. Serve immediately.

#### Orange Quench

(1 serving)  
 One cup milk, well chilled, 1-2 cup orange juice, sugar to taste, few drops almond flavoring, whipped cream.

Chill milk thoroughly. Add orange juice, sugar and almond flavoring and beat until well blended. Garnish with whipped cream.

#### Bouillon Chill Chaser

(1 serving)  
 One cup milk, 2 beef bouillon cubes, whipped cream.

#### Prune Special

One cup milk, well chilled, 1-4 cup prune pulp, sugar to taste, whipped cream.

Chill milk thoroughly. Add 1-4 cup prune pulp and sugar and beat until well blended. Garnish with whipped cream. Serve icy cold.

### Pinto Beans And Corn On The Cob

2 cups pinto beans  
 5 cups water  
 1-2 pound salt pork  
 1 No. 2 can tomatoes  
 1 green pepper, chopped  
 1 small onion  
 1 small clove garlic  
 1 teaspoon salt  
 Dash of pepper  
 Chili pepper (optional)

1. Pick over and wash beans  
 2. Combine all ingredients in well cooker pail  
 3. Cover  
 4. Start cooking on low heat at night and leave on low heat until noon the next day.

5. Mash some beans a round side of pail with a fork and stir vigorously about 30 minutes before serving and add trivet with ears of corn on it to steam.

6. Replace lid. Turn switch to HIGH until steam escapes, then turn back to LOW for 30 minutes.

MURFEES — Erlene Engle, sales lady at Murfees, local department store, will give away a Rinehart-Dosier Dormeyer electric cooking school Tuesday and Wednesday. (News Photo)

### How To Butter Up Menus

By GAYNOR MADDOX  
 NEA Staff Writer

Here are some springlike recipes to brighten up your menus. They use butter liberally, and therefore are rich and delicate.

Maitre d'Hotel Minute Steaks (serves 4)  
 Six minute steaks, 1-4 cup butter, 1-4 cup parsley, 2 teaspoons lemon juice, salt and pepper.

Season minute steaks with salt and pepper. Pan-fry in a hot buttered skillet for 1 to 2 minutes on each side. Cream butter until soft. Chop parsley finely. Add to butter with 1/4 lemon juice, and pepper and salt to taste. Divide into six and shape into small balls. Serve minute steaks with a ball of maitre d'Hotel butter on each one.

Fish is also good served in this manner.

Golden Carrot Rolls (serves 4)  
 Eight young carrots, 1-2 cup cooked salad dressing, 2 tablespoons finely chopped chives, 1 tablespoon finely chopped olives, salt and pepper, 1 cup finely rolled dried breadcrumbs, 3-4 cup melted butter.

Parboil carrots for 10 minutes. Mix salad dressing, chives and olives and coat carrots with mixture. Season breadcrumbs with salt and pepper. Roll carrots in breadcrumbs until well covered. Sauté in hot butter until tender and golden brown (5 to 10 minutes).

Nestled Eggs (serves 4)  
 Four slices bread, 1-3 cup softened butter, 1-2 teaspoon onion juice, 1 teaspoon chopped parsley, salt and pepper, 4 eggs, 1 teaspoon butter.

Remove crusts from bread. Thoroughly blend butter, onion juice and parsley and season with salt and pepper. Spread

### Baked Apples

4 baking apples  
 Brown sugar  
 Raisins  
 1-4 cup water.

Core apples. Peel half way down from stem end. Fill with brown sugar and raisins. Put in heavy aluminum foil. Add water. HIGH to steam. OFF for thirty minutes.

### Frozen Salad

1-2 pint cottage cheese  
 1 cup diced celery  
 1 onion sliced thin  
 1-2 cup grated cheese  
 2 teaspoons sugar  
 1 teaspoon salt

Cover, when steaming, turn the switch to WARM or OFF and cook for 35 minutes.

Blend cheese and enough cherry juice to the desired color. Whip cream and add to the cheese. Fold in drained fruits, olives and nuts. Turn into freezing tray and freeze. Serve on lettuce or with frozen grape garnish.

### Spanish Noodles

Brown in hot fat in skillet:  
 Six frankfurters

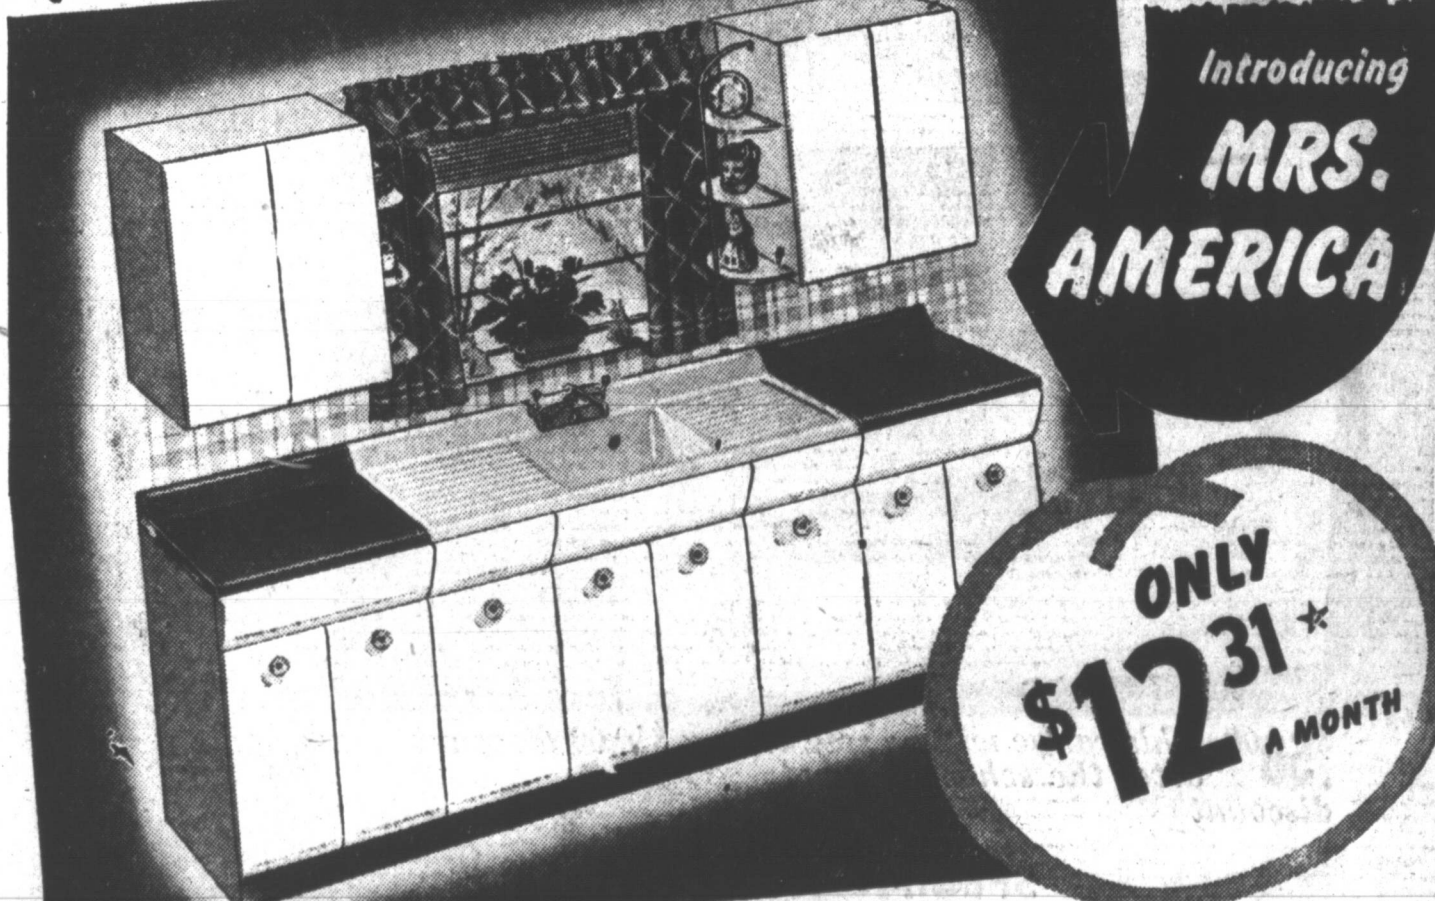

ADD:  
 both sides of bread with butter mixture and press bread firmly into muffin pans.  
 Bake in moderate oven (350 degrees F.) for 10 minutes. Remove from oven, break an egg into each shell and top with butter. Return to oven and bake until the eggs are set — about 5 to 8 minutes. Serve immediately.

THE MOST SENSATIONAL OFFER IN KITCHEN HISTORY  
**Big Saving—Complete 8 Ft. American KITCHEN**

Introducing  
**MRS. AMERICA**

ONLY  
**\$12.31\***  
 A MONTH

Imagine — only \$369.95\* for your complete Work-Saving "Mrs. America" Kitchen IF You Act Now!

#### HERE'S WHAT YOU GET!

- A gleaming, handsome American Kitchen Sink—54 inches long—double drainboard with a deluxe non-splash faucet aerator and push-button spray... three deep storage compartments... two roomy drawers.
- TWO 21" base cabinets. Lifetime vinyl tops in either basic black or red-wing red! Rounded surfaces eliminate hard-to-clean crevices. Noiseless, seamless drawers open and close without affect. Doors close easily on double-action spring hinges. Doors and drawers are rounded at all corners.
- TWO 21" wall cabinets—matching the base cabinets. Storage space at your fingertips—wash and get away dishes in one "no-step" operation. Mix and prepare foods without wasted energy. Notice the modern design—the smooth easy-to-wipe surfaces.
- TWO what-not shelves—three glass shelves on each.

Yes—you can believe your eyes! You may have a complete step-saving, work-saving, money-saving American Kitchen for a price unbelievably low. Big savings are made possible for you by purchasing the big complete "Mrs. America" as a package—rather than buying individual units.

No matter how you want your kitchen planned, you can use the "Mrs. America" package as your basic unit and build from it as you please. And no matter what units you add, you still save money on your basic purchase.

It means that now you can enjoy freedom from youth-robbing kitchen drudgery, you can give yourself up to 2 hours of freedom every day to enjoy your home and your children.

You can have American Kitchens, the most beautifully designed kitchen in America—the kitchen with more work-saving features than any other kitchen.

Work-saving features like these:  
 Easiest kitchen to clean—smooth easy-to-wipe surfaces with concealed door and drawer pulls to eliminate dirt-catching handles. Rounded drawer interiors—seamless—clean easily as wiping out a bowl. Storehouse storage space at fingertip level. Save hundreds of steps on every kitchen operation. Lifetime vinyl work-surfaces—won't stain or mar—available in basic black or red-wing red.

\*Uninstalled. Prices and specifications subject to change without notice.  
 \*\*Vinyl top available at slight extra cost.

### Try Next Day Pork Supper

—(NEA)— The next time you serve fresh pork roast, save some for the following day. Here's a delicious "next day" pork dish.

**Festive Pork Supper**  
(4 servings)

One cup cooked pork, ground or cut in thin strips, 1 tablespoon chopped onion, 1 tablespoon fat, 1/4 cup vinegar, 3/4 cup water, 1 tablespoon cornstarch, 2 tablespoons brown or granulated sugar, 1 teaspoon salt, 2 cups (1 No. 2 can) green beans, 2 cups cooked, sliced carrots.

Brown the onion in fat in a heavy skillet. Combine vinegar, water, cornstarch, sugar, and salt. Stir into onions. Heat. Add pork and cook 10 minutes.

Add drained beans and carrots. Heat slowly 25 to 30 minutes. Serve hot, with crusty French bread, tossed green salad and a light dessert.

**Creole Pork Steaks**  
(Serves 3 to 4)

Three pork shoulder steaks, salt, pepper, 2 tablespoons chopped onion, 1 cup canned tomatoes, 1 tablespoon Worcestershire sauce, 1 bay leaf, 3 whole cloves, 1 tablespoon flour.

Flour steaks and brown in a little hot fat in a skillet. Sprinkle with salt and pepper. To tomatoes add onion, Worcestershire sauce, bay leaf and cloves. Pour over steaks. Cover and cook slowly for an hour. Remove meat from skillet and thicken gravy with flour. Serve steaks topped with gravy.

A reader asks for a coffee gingerbread recipe. Everyone will enjoy the answer, below.

**Coffee Gingerbread**  
(6 servings)

Two cups sifted enriched flour, 1 teaspoon salt, 1 teaspoon soda, 1 teaspoon ginger, 1 teaspoon cinnamon, 1-2 teaspoon cloves, 1-2 cup sugar, 1-2 cup shortening, cup unaliphured molasses, 1 egg, well beaten, 1-2 cup double-strength hot coffee.

Heat oven to 350 degrees F.

### Ever Try Dill Pork Chops?

—(NEA)— Ever try dill with pork chops?

You'll like it.

**Baked Dill Pork Chops**  
(4 servings)

Four shoulder pork chops, salt, pepper, flour, 2 onions, chopped, 2 dill pickles, chopped, 1-2 cups water, 2 tablespoons pickles juice.

Season pork chops with salt and pepper; roll in flour. Brown chops on both sides in a little fat in skillet; then transfer to casserole or small roaster. Add onions and pickles. To skillet in which chops were browned, add water and pickle juice and heat to loosen the pan drippings; pour over chops. Cover and bake in moderate oven (350 degrees F.) 1 hour, or until very tender.

Lamb shanks are cheaper but can be turned into a wonderful dish.

**Erased Lamb Shanks and Noodles**  
(Serves 5 to 6)

Three lamb shanks, 1-4 cup flour, 3 teaspoons salt, 1-4 teaspoon pepper, 2 tablespoons fat, 1 cup sliced onions, 1 small green pepper, seeded and sliced, 1-2 quarts boiling water, 1-2 pound wide noodles.

(moderate). Sift together first seven ingredients. Cut in shortening until mixture resembles fine crumbs. Stir in molasses and egg. Beat in hot coffee. Bake 45 minutes or until done in 8-inch square pan.

(If desired, measure and sift dry ingredients, cut in shortening and set aside until ready to use. Then mix with liquid ingredients and bake.)

**Candied Sweet Potatoes**  
Juice of 2 oranges  
8 tablespoons butter  
1-2 cups brown sugar  
6 sweet potatoes  
Combine orange juice and brown sugar, pare and cut lengthwise sweetpotatoes and arrange in oven pan. Pour sugar and juice over potatoes and dot with butter. Place cover on pan and bake for two hours with oven door open.

**EGGS AND CHEESE**  
Baked eggs with cheese make a delicious luncheon dish. Break the eggs into a hot, well-greased, shallow baking dish. Four enough excess fat; add noodles, cover, and continue cooking about 20 minutes or until noodles are tender. Serve shanks in center of platter with noodles and gravy around them.

ing 2 teaspoons salt and 1-4 teaspoon pepper; cover and simmer for 1 hour. Then skim off excess fat; add noodles, cover, and continue cooking about 20 minutes or until noodles are tender. Serve shanks in center of platter with noodles and gravy around them.

are set.

### Try Broiler For Quick Easy Meal

For quick, easy, tempting meals try a broiler combination in your electric oven.

In the electric oven, broiling approximates charcoal broiling over glowing coals. It's the delicious flavor of electrically-oiled foods that makes them a mealtime sensation. Many dietitians praise electric broiling for its healthfulness.

The broiler unit in the electric range is in the top of the oven, so that the meat is always in a convenient position for turning or adding sauce. The broiler pan and rack, that is provided with each electric range is so designed that it protects fat drippings from the direct heat, thus eliminating smoke.

The broiler pan rests on a sliding oven shelf, adjustable at different positions in relation to the heating unit. The counter balanced oven door has a stop which holds the door ajar during the broiling period. This permits the broiler to maintain correct broiling temperature.

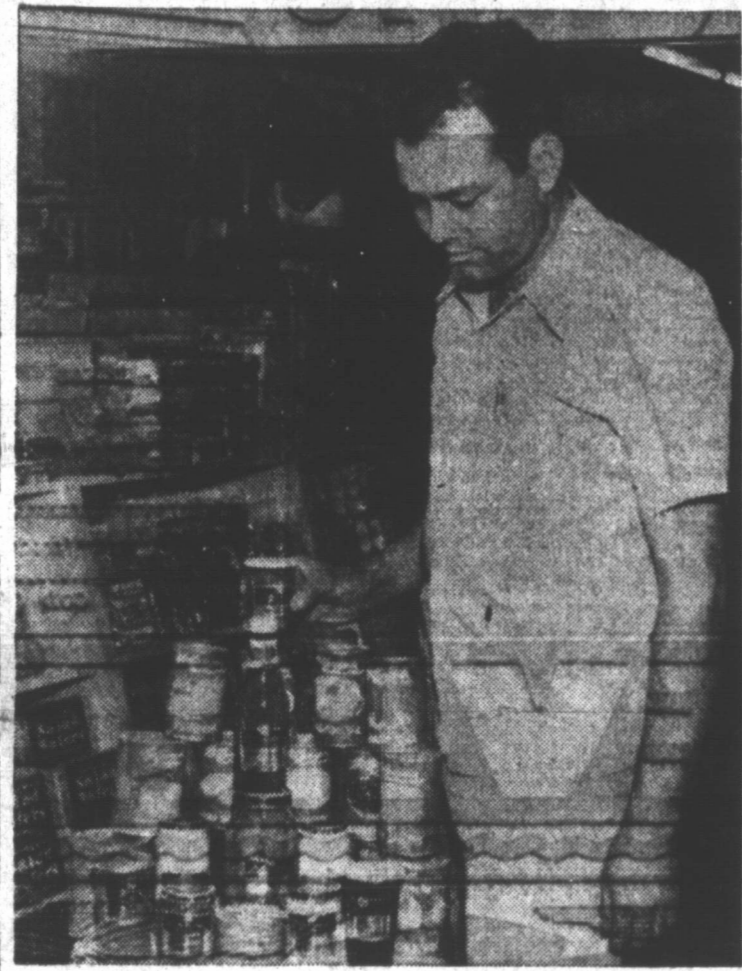

Meat for broiling should be tender, but it need not be the most expensive cuts. The glowing direct heat of your electric broiler gives that delicious grilled flavor to chopped beef or lamb, fish filets, sausage, frankfurters, bacon sliced or ground left-over meat. Other popular cuts of meat for broiling are beef tenderloins or steaks, sliced ham, coles' liver and chicken.

Steaks may be cut from 1-inch to 2-inch thick. Lamb chops, too, may be cut this thick, although 3-4-inch thick can be broiled successfully. A chop which is cut too thin will be done clear through before the exterior is sufficiently browned causing an undesirable drying out.

You can double the capacity of your broiler by filling the rack with meat, and arranging left-over or canned vegetables in the pan beneath. Vegetables will be piping hot and seasoned with the meat drippings when the meat is done.

To add glamour to broiler meals try garnishing them with broiled fruits such as bananas, raw apple rings, orange or grapefruit halves, or sections, and canned pineapple, peaches, pears or plums.

Remember electric cooking is flameless — clean as sunshine — to add more enjoyment to the fast and simple job of meat preparation with a modern electric range.

**SANDWICH SPREAD**  
A delicious sandwich may be made of minced ham mixed with cream cheese and spread between slices of whole-wheat bread with a layer of thin crisp cucumber slices and mayonnaise.

**HIGHLAND MARKET** — Fancy canned goods and Wolferman's specialties are to be given some lucky person who attends the Pampa Daily News Cooking school Tuesday and Wednesday. The prize is to be given by Highland Market, across from Highland General Hospital. Harold Morrow is owner. (News Photo)

## Meal Tastes Better From Deep Well

Statistics show that 70 percent of all cooking is done on top of the range. Applied to an electric range, this guarantees lots of top-notch eating. With a flip of the switch or a push of the button the surface units provide fast, clean measured, electric heat economically.

Included on most electric ranges is a deep well cooker. The cooker is just an ordinary large sauce pan. The magic is in the thickly insulated well which holds the cooker, and holds the heat.

An entire meal can be cooked in the deep-well cooker at one time, including meat, potatoes, vegetables and a dessert, or just a few dinner rolls can be quickly and easily warmed before serving. The cooker is an ideal place to cook the less tender cuts of meat.

There may be no such thing as inexpensive meats, but there are "less expensive" meats. These less expensive meats are as nutritious as the most expensive cuts. The thrifter cuts like all others, are rich in complete, high quality proteins. All contain essential B vitamins and certain minerals such as iron, copper and phosphorus.

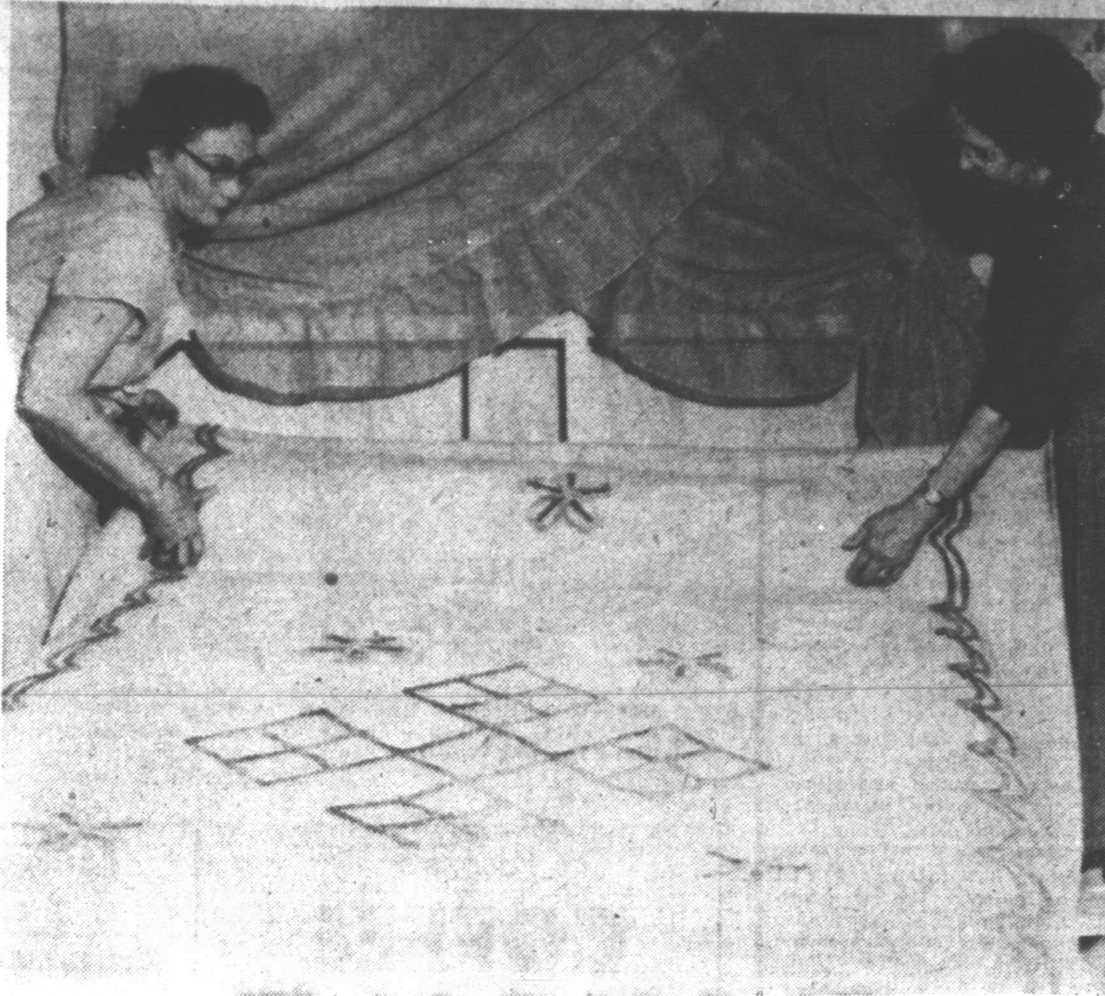

Thrifty cuts of meat are often less popular with the homemaker because of the longer cooking time necessary since they usually require long, slow cooking with moist heat. This process takes very little of the homemaker's time, however, when done in the deep well cooker of her electric range, for all she needs to do is to turn the unit switch to the lowest heat after the meat is steaming and let the electric range do the rest.

Other uses for the deep-well cooker are to:

- 1. Steam vegetables, cereals, puddings, and Boston brown bread.
- 2. Stew chicken and stewing meats.
- 3. Braise less tender cuts of meat.
- 4. Bake cup custards, apples, potatoes.
- 5. Sterilize tableware, canning equipment, nursing bottles, sick-room dishes.
- 6. Deep fat fry doughnuts, chicken, potatoes, croquettes.
- 7. Cook soups, large quantities of vegetables and beverages.
- 8. Blanch vegetables for freezing.

### LAMB PATTIES

To make lamb patties mix a half cup of milk and a teaspoon of salt with a pound of ground lamb; form into six patties about half an inch thick and broil until the patties are well browned. Turn and continue broiling until the meat is cooked through.

LEVINES — Mrs. Henry Shelton and Virga Tharp, salesladies at Levine's, spread a handsome chenille bedspread. Levine's Department store is to give away during the Pampa Daily News cooking school. (News Photo)

### When A Man Marries:

## Old Flames Should Be Forgotten When Cooking

When a man marries, his old flames should go forgotten. When a modern homemaker cooks, her old flames should be forgotten, too, and she should cook the matchless, flameless way — the electric way.

The story of cooking from the day of the open fireplace to the modern electric range is an interesting one. Up to the electric range it might be called a "hot" story, if a play on words is permitted, because until the cool electric range came along, every method of home cooking created heat which contributed little toward cooking the food, but did more than its share toward keeping the cook fairly well cooked.

An open fireplace served as the pioneer woman's range. The fireplace, of course, did double duty as it heated the house too. Even though a fire place is romantic in the winter, it probably wasn't much fun during the summer months when there was no particular desire to heat the house. Still another disadvantage of

the open fireplace was the fact that it couldn't be "plugged in." As a matter of fact, its fuel supply had to be carried in — carried in from the woodpile.

The coal stove was quite an improvement over the open fireplace. Whereas the open fireplace limited the cook to one kettle with the coal stove you could roast as well as stew. The cook stewed quite a bit in the summer months, which called for the cooking to be done either in the early morning hours or in an outdoor kitchen. The old problem of hauling in the fuel supply, coal, and hauling out the ashes and clinkers remained.

Next in the line of improvement in home cooking methods was the kerosene stove. The fuel problem continued to exist, and frequent replenishment from the kerosene barrel remained necessary. Kerosene did eliminate ashes and clinkers, but it kept the bottoms of the pans black, and the walls dirty as all cooking methods which employ a flame do.

The gas range provided the first constant fuel supply, with the range connected directly to the gas line. No more carrying fuel to the stove. No more spilling fuel on the kitchen floor. No more fuel-fueled foods. But still the flame, and with the flame, the carbon, and with the carbon, dirt on the walls, the curtains, the pots and pans.

Then came the electric range — the modern range. The matchless, flameless range. The range that lets you cook an entire meal without raising the temperature of your kitchen more than one degree.

With the electric range came the first, and still the only oven with complete six-side insulation. No vents are necessary, because no oxygen is necessary to support a flame. The heat is sealed into the oven, in a manner of speaking, and is completely concentrated on the cooking job to be done. What's more you heat your oven only once with an electric range, for the air doesn't have to be passing through time after time — it doesn't have to pass through at all.

Every time you pass air through your oven, as is necessary when you cook with a flame, you have to reheat the oven. In other words, one open meal cooked with a flame requires that the oven be reheated several times.

The surface units on your electric range are equally kind to your comfort and the cleanliness of your kitchen. No air being necessary to support the heat of electricity your cooking utensil sits right on the element. That means the heat goes right into the utensil, it doesn't go up and around the sides of the utensil, the way it does when a flame

method of cooking is employed.

Heat going up and around the What's more it's raising the temperature of your kitchen. It's not doing a darn thing about cooking the meal, but it's really cooking the cook.

Now let's turn back to oven cooking for a moment. With an automatic electric range, which has a constant heat inasmuch as it isn't depending on a flickering flame, there's no reason for over-peeking. That, of course, helps keep the kitchen cool.

The completely automatic oven, with the thermostatically controlled temperature, plus the constant heat of electricity, means your cake or bread will be finished at the time stated in the recipe. You don't have to look, peek, or guess. It's automatic.

The oven heat is completely in the oven. The heat from the surface units goes directly into the cooking utensil. No peeking into the oven, and no pot holders are necessary. No oxygen is necessary to support the flame — there's no flame.

Electric cooking is matchless. It's the only method that will cook an entire meal without raising the temperature of the room more than one degree, every day of the year.

"Cool cooking in the summer-time?" Impossible for years. But today, it's as easy as pushing a button. And the way to do it? Of course, it's electric.

## ALLIED PAINT

The Enduring Finish

219 N. BALLARD PAMPA, TEXAS PHONE 1078

### Apple Pie

- 5 to 7 tart apples
- 3/4 to 1 cup sugar
- 2 tablespoons flour
- 1-8 teaspoon salt
- 1 teaspoon cinnamon
- 1/4 teaspoon nutmeg
- 2 tablespoons butter

Pare apples and slice thin; add sugar mixed with flour, salt and spices; fill 9 inch pastry-lined pie pan. Dot with butter. Adjust top crust. Bake with oven meal.

### Buttered Carrots

- CARROTS**
1. Slice carrots. Put into an oven meal pan.
  2. Add 1-2 cup water, 1/2 teaspoon sugar, 1 tablespoon butter, and salt.
  3. Cover pan; bake with oven meal.

### JAM PIE

A rich biscuit dough may be fitted into an eight-inch layer pan, and the dough pressed about one-quarter-inch up the sides of the pan, then spread with a layer of thick jam and covered with another circle of dough. Bake in a moderately hot oven about twenty minutes and serve warm in wedges.
