## CHINA AIR WAR VETERAN HOME

Capt. Lynn Blackwell and his mother, Mrs. Clyde Blackwell, 319 N. Warren, are pictured before a training plane at Pampa Army Air Field, one of the new additions to Pampa which greatly surprised the air force captain, back home after 18 months in Yunan province, China, flying Mitchell bombers with General Claire Chennault's 14th Air Force. Captain Blackwell, who was 28 years old yesterday, was honor guest at the 43-J cadet graduation several days ago and was honored by the Rotary club Friday noon.

## Pampa Presses For Airline Connection

Aviation faces the greatest opportunity in post war of any one industry today, top aviation officials from all lines of the trade declared at the first national clinic of domestic aviation planning in Oklahoma City last week.

## De Marigny Is Requested To Leave Bahamas

NASSAU, Bahamas, Nov. 15.—(AP)—Shortly after it was learned that he has been invited to leave the Bahamas, Alfred de Marigny announced today that he and his wife, the former Nancy Oakes, would be re-married this afternoon.

The twice-divorced De Marigny said he had obtained permission for the ceremony from the Catholic archbishop in charge of this diocese. He set the time at 2 p. m. and the place as the Francis Xavier church.

De Marigny was acquitted last week of the murder of his wife's millionaire father, Sir Harry Oakes. The jury voted a unanimous recommendation that he be deported from the Bahamas.

The governor-in-council, at a special meeting Saturday, decided to invite De Marigny and his close friend, Marquis Georges de Visselou, to leave within the next two weeks. De Visselou was shocked by his inclusion in the order.

Nancy Oakes de Marigny, the acquitted man's wife, was depressed by the development.

**Vatican Raid Still Mystery**  
LONDON, Nov. 15.—(AP)—The Vatican radio, in a broadcast recorded by the Associated Press, said today that after a careful examination experts had been unable to come to a positive conclusion as to the origin of the four bombs that were dropped on Vatican City Nov. 5 by an unidentified plane.

**I SAW...**  
A letter from Mrs. L. R. McElroy, 1425 Evans, Ft. Worth, in which she states that "recently I received an article from the July 11 issue of your paper sent by my husband, Leon McElroy, who is serving with the Seabees in the Southwest Pacific with Archer Fulfilling. Apparently Fulfilling received this clipping from you, in turn gave it to my husband, who forwarded it back to Texas. He is the Tex McElroy who knew how to cook black-eyed peas but he bonomed the fact that he was listed as being from Dallas."

# AXIS BOMB BULGARIAN CAPITAL; REDS ADVANCE

## Allies Gain in Pacific War Enemy's Air Bases Raided By Bombers

Unusually heavy Allied bombing of Japanese air bases on New Guinea air strength in that area while Allied ground forces were making new gains in the Pacific war zones in China, Burma and Bougainville island.

On the sea, American submarines sank seven more Japanese ships and damaged two others. This, the navy department said in a week-end announcement, brought their toll in the Pacific to 346 sunk, 36 possibly sunk and 114 others damaged.

The Tokyo radio fought the "air battle of Bougainville island," claiming two more Allied cruisers sunk and three warships damaged. No American ships had been sunk when American naval spokesmen tired of denying the daily Tokyo propaganda claims of decisive naval victories. Axis broadcasts this time added that Allied reserves were so great a "further large formation of their fleet" was possible.

Actually, Japanese planes did cause some damage in intermittent night-time attacks on Allied shipping in the New Guinea area. This was countered by Allied attacks on Japanese shipping off New Ireland and New Guinea, and the second raid within a week of the Japanese naval base at Soerabaya where American planes dropped 82 tons of bombs on a 2,000-mile flight.

Biggest air raid in the Pacific and the heaviest yet in the New Guinea theater brought 223 tons of bombs down on Alexishafen and Madang where the Japanese have reinforced heavy anti-aircraft defenses and supply dumps in flames. They encountered no interception.

Other Japanese strong points were raided on Bougainville and New Britain while the Japanese made their 64th raid of the war on Darwin, Australia, and two small raids on the Ellice Islands. Damage from enemy raids was slight.

In latest ground action reported from Bougainville, American Marines and army troops extended their bridgehead in the Japanese-held Cape Torokina. The Japanese left 300 dead, apparently bringing the toll to 700.

## Texas 36th Division Led Fight At Salerno; Wounded Are Back

TEMPLE, Nov. 15.—(AP)—Some of the men of the famous, fighting 36th division are back in sunny Texas—from sunny Italy.

They are battle-scarred heroes. They've gone through war's hell of screaming shells and bursting bombs. Now, here in the quiet McCloskey general hospital, their wounds will receive further attention.

Army authorities attached to the hospital authorized the news that men arriving there yesterday were from this state's own 36th division. It was the first such American announcement disclosing that this long-trained outfit had seen severe action in the Italian invasion.

The wounded were only a small segment of the whole division. They appeared to be happy upon being brought to Texas. Pvt. Alvis B. Sims of Groesbeck said he thought it was a dream when told he was being sent to Temple and "I'm afraid I'll wake up tomorrow and find I'm back in Italy or North Africa."

McCloskey authorities said the returning men were busy until late hours last night telephoning all over Texas to families and loved ones that they were home, and happy.

Some of the casualties were from Oklahoma's war-tried 45th division. But men of the 36th who hit the Salerno beachhead in the pre-dawn hours of Sept. 9 were those with stories to tell—and were lucky to be able to tell them.

The Germans were waiting for them above the beaches when their boats slipped through the Bay of Salerno to disgorge the first American continental invasion army. The landing force barely escaped disaster.

## French Riviera Also Target of Warplanes During Wide Sweeps

By The Associated Press  
American planes bombed Sofia Sunday, bringing the war home to the capital of Bulgaria which had been holding down her Balkan neighbors of Greece and Yugoslavia with occupation troops.

Other Mediterranean air fleets struck into the French Riviera at the Antheor viaduct leading to Italy to cripple German communications into the peninsula, where the Fifth and Eighth armies were engaged in inconclusive fighting within 75 miles of Rome. Still other planes bombed Yugoslavia and the Civitavecchia harbor north of Rome.

It was Bulgaria's first real taste of Allied revenge for her declaration of war on the United States and Britain shortly after Pearl Harbor.

The Germans threatened dire reprisals on Britain for the Sofia bombing. Berlin shed crocodile tears, saying "neither the British nor Americans can claim they were retaliating against Bulgaria, because the Bulgarians have never done anything which could in any way justify such action."

Thus in Bulgaria, France, Yugoslavia and Italy, the Allies were collecting dividends on the invasion of Italy.

The Russians plunged 30 miles west of recaptured Zhitomir to take Baranovka in a broad advance toward the old Polish frontier.

The Germans said half a million Soviet troops had broken their lines in the Dnieper bend basin between Zaporozhe and Krivoy Rog. Their Paris radio called the battle a large-scale offensive on a broad front. The enemy said another powerful Russian offensive was being pressed in the Gornel and Nevel sectors in the frozen north, compelling the Germans to "modify their lines at some points." Moscow said the Russians had advanced eight miles within seven miles of Rechitsa, White Russian rail center.

Bitter fighting also was reported in the Crimea around Kerch.

The ground front across central See YANKS Page 3

## Nip Claims Pave Way for Defeat

WASHINGTON, Nov. 15.—(AP)—Japan's vanishing victories in the South Pacific, it now turns out, may be intended by Tokyo propagandists to lead into an easy explanation of defeat by Allied forces closing in on Rabaul.

Capital analysts who advanced this possibility noted that it would not be the first time the enemy has wiped a resounding setback off the books by claiming that a key position had accomplished its purpose and no longer was needed anyway. They used that line after both Guadalcanal and Kiska.

This is the anniversary of the worst straight-out naval defeat ever suffered by the Japanese. The engagement, a series of night actions around Guadalcanal island last Nov. 13-15, secured the American hold on the island and within three months the Japanese were out of there entirely.

They have even slowly but surely losing territory ever since, and probably find the process increasingly difficult to explain.

Rabaul for the Japanese is not only a well-developed base but has considerable symbolic importance as a key position in the outer ring of their defenses. Now that the warlords must see clearly that they are losing it, their problem becomes, how to make the future bad news look good?

The invention of victories by a phantom fleet in equally imaginary battles, some American observers now believe, is designed to prepare the Japanese people for a rebash of the old Guadalcanal Kiska explanation.

BY CARRIER in Pampa 24c per week. \$8.00 per month. Paid in advance, \$3.00 per 3 months, \$8.00 per six months, \$12.00 per year. Post paid copy 1 cent. No mail orders received in localities served by carrier delivery.

#### When Is a Mess?

In the first of three recent articles from Washington on the tire situation, Peter Edson stated that Col. Bradley Dewey, the new rubber director, had "inherited a mess." Mr. Edson went on to adduce evidence that amply justified that statement. The counsel of a Senate subcommittee investigating the synthetic rubber program, however, Colonel Dewey with this statement, and the colonel denied it. But Mr. Edson's evidence remains. And it is bolstered by some admissions which formerly rubber boss William Jeffers has made since his resignation.

When Mr. Jeffers returned to private life, he left the country the assurance that "the big job covered by the recommendations of the Baruch report is done." A month later, however, he conceded that the synthetic tire program was lagging by 20 per cent; that much remained to be accomplished, and that the synthetic tire program was not in apple pie order. Technically, perhaps, these admissions do not contract his optimistic statements about the "big job" being done. But they certainly tend to confuse a public which had naturally interpreted Mr. Jeffers' parting shot to mean that something was being done. And they certainly are forthcoming to replace the bits and pieces which now adorn their rims.

Mr. Edson quoted Sparks Bonnett, OPA tire rationing chief, as saying that there would be a shortage of eight million tires by the first of the year. His article gave a detailed account of manpower shortage in synthetic tire production, of bottlenecks which expanded facilities will not relieve until the last half of 1944, of near-exhaustion of the used tire supply, and many other disquieting data.

Mr. Jeffers accused the War Production Board of holding back the tire fabric. He criticized tire manufacturers for not maintaining top notch efficiency. But did he mention that he pointed a finger at labor boarding in department not engaged in tire production.

Maybe all this does not add up to Col. Bradley Dewey's definition of a mess. Undoubtedly present difficulties will be solved with the passage of time. But meanwhile there is going to be a continuing time of critical tire shortage, which will be met only with the complete co-operation of the users. Issuing rose-colored glasses won't do the trick.

Motorists grumble over gasoline rationing. They multiply military consumption in one big raid by the amount Mrs. Roosevelt's plane is going to the South Pacific, and divide it by the probable output of British oil fields in Iran. Then they find the answer in an aggrieved letter to their congressman.

But most of the disgruntled motorists' statistics are red herrings. The primary reason for gasoline rationing is that, without it, America would be riding on its rims. It is time that car drivers were told the whole story of the tire shortage and gas rationing, plainly and repeatedly.

#### BUY VICTORY STAMPS

Giving Doughboys Their Due

The infantry soldier has been pretty much the forgotten man of this war. The flyer has captured the public imagination. Most of the young volunteers wish to pilot a fighter or ride a bomber. All of which is not to deride the fine heroism of the magnificent job they are doing. But the infantryman is in there pitching, too. He's the man who eats dust and slogs through mud and rain, and whose helmet will be rusty to drop. And he is the man who will one day fight his way through to the streets of Berlin and Tokyo.

So it is good to know that Secretary of War Stimson has authorized two distinctive recognitions, the Expert Infantryman and Combat Infantryman badges, to honor "the hard-earned foot fighter capable of carrying combat into the enemy's teeth." His job isn't glamorous, but he is still a mighty important figure in any man's army.

The Nation's Press

**THE JIM CROW**  
ENTERTAINMENT  
(The News and Courier Charleston S. C.)

The Northern spokesmen for the American negroes, white and colored, The Crisis, The New Republic, The New York Times, Wendell Wilkie, the White House family, studiously omit, in their discussion of the American negro's future, the principal obstacle to his welfare and progress. The obstacle is the rigid, the stern, the iron, the tacitly agreed and practiced exclusion of the negroes from the villages and rural districts of 33 Northern and Western states.

In the dairy-farming districts of New York is no negro population. Negro farms are not found on the corn farms of Iowa or the wheat fields of Kansas.

The 3,500,000 negroes in the North are in what Thomas Sancton has in The New Republic correctly called "ghettos" in the great cities.

Movement is the characteristic of this race. Men are moving in all directions. A white Southern family going into a village of Mr. Wilkie's native Indiana county is welcomed.

### Common Ground

By R. C. HOILES  
"I speak the pass-word, I give the sign of democracy. By God I will accept nothing which I cannot have their counterpart on the same terms."  
—WALT WHITMAN.

#### The Denver Milk Subsidy

People throughout the nation will be interested in the plan the City of Denver has adopted in order to secure a supply of milk. They have placed a two-cent excise tax on the purchase of milk in Denver. The tax is to be paid to the producers of milk in order to keep the milk producers from going out of business due to the OPA ceiling milk prices below cost of production.

The OPA contends that this is a violation of its price ceilings. Here we have a test of Washington rule versus home rule. Here we have a test of a dictatorial form of government versus a democratic form of government. The end result of this test might be far-reaching. If the home people decide that they have rights over and above the bureaucrats at Washington, we might about face and again take up the free production.

Who would have thought a few years ago that we would have so far departed from the kind of a government our founding fathers started that a city in order to override a government price ceiling would have to give a subsidy to milk producers in order to get milk to feed its babies? But when any bureaucrat gets power there is no end to his demand for more and more power. As Lord Acton so wisely said, "All power is corrupting, but absolute power corrupts absolutely."

#### Getting Control of Men

I want to quote a paragraph from Ayn Rand's book, The Fountainhead, to show one way people use to get control over men, and to make themselves appear as great leaders and important people. The author has told the many ways of forcing people as to gain control over them, then she goes on to say how to control them when they contend that that statements are not reasonable. I quote:

"Men have a weapon against you, Reason. So you must be very sure to take it away from them. Cut the props from under it. But be careful. Don't deny outright. Never deny anything outright, you give your hand away. Don't say reason is evil—though some have gone that far with astonishing success. Just say that reason is limited. But there's something above it. What? You don't have to be too clear about it. The field's inexhaustible. 'Instinct'—'Feeling'—'Revelation'—'Divine Intuition'—'Dialectic Materialism'.

If you get caught at any point and somebody tells you that your doctrine doesn't make sense—you're ready for him. You tell him that there's something above sense. That here he must not try to think, he must feel. He must believe. Suspend reason and you play it deuces wild. Anything goes in any manner you wish whenever you need it. You've got him. Can you rule a thinking man? We don't want any thinking men."

And one of the reasons for this predicament we have been in for the last 30 years and especially in the last 10 years, is that men who pose as interpreters of God's laws use the above kind of tactics.

Reason is the greatest gift of the Creator to man.

#### Loose Reasoning

Most all socialists and New Dealers and "second-handers" actually believe in the phrase "it takes exception to prove the rule." When they are confronted with a contradiction that shows the absurdity of what they are advocating, they usually fly to this erroneous statement that the exception proves the rule.

This distorted statement undoubtedly became a part of us from the fact that it takes exception to test the rule. If there be an exception, then there is no rule.

Western states is the great "jim crow" practice. It dwarfs all other kinds of "jim crow."

These Northern inhabitants, city politicians and Liberalites expect to see their states into a fortress against negro invasion.

The plan, in successful operation, is to intern all negroes in the South except those willing to live in Northern ghettos.

Surely the negro farmer should have equal rights to farm in the valley of the Connecticut or in the valley of the Red River of the North that he has to farm on the Santee in South Carolina or in the Delta of the Mississippi.

He is denied that right. He is denied by the North and West the right that the Southern white people enjoy in any Northern or Western state.

If interment of 2,000,000 colored people in Southern states is not deliberately planned, it is effected by custom that is stronger than law.

Does the administration, in purchasing war materials, expect industry to produce tanks, planes and guns at a loss? It does not. The government not only offers a price but in addition offers a profit. Then why does the OPA set a price on butter, milk and eggs which does not cover the cost of production? These low prices lead to a diminishing supply for consumers with the miserly rationing, red tape and restrictions.—Congressman Landis of Indiana.

Then there was the Goller who told his talkative caddy: "Say, there are enough traps on this course; would you mind keeping yours closed?"

### Smudged Pages

### News Behind The News

#### The National Whirligig

By RAY TUCKER

**DEFEAT**—Although Congressman Henry B. Steagall of Alabama is comparatively unknown to his countrymen, he has placed Franklin D. Roosevelt on the hottest spot the President has occupied since he entered the White House. Here is the inside story:

A month ago, Chairman Steagall persuaded his Banking and Currency Committee to report out a bill abolishing the Commodity Credit Corporation and killing farm subsidies. Such important, presidential spokesmen as James F. Byrnes and Fred M. Vinson urged the gang to repudiate its chairman. But the anti-Roosevelt measure was sent to the House by a vote of twenty to three.

When Mr. Steagall ducked out of Washington, he headed for his home town of Ozark, Alabama, where he went fishing and hunting. Majority Leader John W. McCormack of Massachusetts phoned him daily, entreating him to come back on the Capital to introduce his proposed legislation.

The Bay State was sure that he had enough votes to defeat the Steagall anti-White House proposal and to put over a substitute favorable to the man in the Executive Mansion.

**CONDEMNATION**—Chairman Steagall refused point-blank to return to the District of Columbia. He knew that John L. Lewis had set October 31 as the deadline for a strike unless the Administration granted a pay raise.

Being a smart politician, the Alabama realized that if F.D.R. surrendered to the Weisman, his bill would have a better break. The President caved in to the boss of the United Mine Workers. The diggers will be awarded an extra dollar and a half a day. Members of A. F. of L. and C.I.O. unions, in reprisal, will demand more money. The inflationary wave is on.

Prior to the Steagall proposition had scant chance of acceptance by the House or Senate. It certainly could not have been enacted over a veto. Now there is evidence that it will be whopped through.

Thus by holding back his measure until F.D.R. submitted to the miner boss, Chairman Steagall has virtually insured its adoption by Congress and passage in the teeth of a Roosevelt condemnation.

**DELEGATES**—John D. Hamilton, All London's chairman in charge of the White House matters, is a red-headed playboy. He is looked upon as an unimportant cog in the national Republican organization. His present connection with the Pew interests in Pennsylvania has not helped him.

But if the G.O.P. should sweep the country next year, former manager Hamilton will be largely responsible. He was the first boss to maintain permanent headquarters in Washington. He founded, on a lasting basis, the publicity, library, financial, research and radio divisions.

In former years these agencies were thrown together almost overnight—between the time of the nomination of a candidate in June and the election in November.

As a result, they were inefficient units and muffed the job. But now, having been reorganized, they are better prepared for the Presidential contest than the Democratic High Command.

Note: Because of his accomplishments and contacts, Mr. Hamilton is extremely popular with the bread and butter Party workers. He is now swinging around the circle of prospective delegates against Wendell Wilkie.

**OUT**—Three Cabinet members are now lodged in the Presidential doghouse. F.D.R. would like to replace them with outstanding business figures who have been identified with the war effort.

### Around Hollywood

By ERSKINE JOHNSON

Vera Zorina, in a filmy white dress, was doing what we thought was a new kind of shimmy dance. She was standing in front of the camera shaking all over and not moving her feet. Where was Will Hays? We wondered, when the lights were turned on.

It was our mistake. Zorina said it wasn't a new kind of shimmy dance. She was just cold and she was shaking all over, she said, to keep her blood in circulation before dance partner George Raft appeared to take her in his arms.

After a couple of minutes on the set our teeth started to chatter, too. It was one of those nippy California fall mornings, and they couldn't heat the stage because of its size.

Ever since George Raft was wearing an overcoat, over a black and white gaucho costume, when he came out of his dressing room, Zorina's shakiness, her hiccups and always the gentleman, he handed her his overcoat. Both said a couple of hot water bottles would be welcome, indeed.

The actress, though, and always the minor annoyance, Director Eddie Sutherland and his crew were having troubles filming this big Raft-Zorina Rumba-Samba dance sequence in the panel of mirrors.

**DOUBLE TAKE**  
They were filming the dance on an actual floor, black wall, drapes and black ceiling. Very effective, too, with Zorina in a white dress and Raft in a black and white gaucho costume.

While we are presented at birth with the makings of personal life, their successful organization into unified and efficient personality is one of the most difficult, as it is the most essential task in human experience.

In confronting this task, man is the only creature that can consciously help to create itself. Fulfillment of the possibilities of its species may be the primary function of a seedling tree, but the tree is unaware of that fact and cannot deliberately co-operate. We are self-creatures; we are self-created. As Wordsworth put it, "So build we up the being that we are."

Human happiness is at stake in the success or failure of this undertaking. No external good fortune can bring abiding enjoyment to a half-made, unorganized personality. Without exaggeration it can be said that frustrated, disintegrated, inhibited, unhappy people, who cannot match themselves with life and become efficient personalities, constitute the greatest single tragedy in the world.

Wars come and go; economic circumstances alter with time and place; national handicaps and catastrophes, inherent in human existence, fall with varying incidence on everyone; social inequities are cruel to some, and inherited inferiority ruins others; but through every situation in this variegated scene in mansion and hovel, war and peace, wealth and poverty, misery and joy, there is a common factor, a common denominator, a common denominator, an omnipresent calamity is found, strangely impartial in its distribution.

Under every kind of circumstance people entrusted with personality, unable to escape it but incapable of managing it, are making a mess of it, and are thereby plunging into an earthly hell.

This statement involves no underrating of the importance of external conditions; yet happiness is never caused by circumstance and is often created despite it. A well-integrated person, supported by a sustaining philosophy, organized around worthwhile purposes, can capitalize adversity and can even be "frustrated into sublimity." Such a person, however, must start with life's primary datum—that we are ourselves on our hands, and that the most determining factor in our experience is that hour by hour we are getting to be we. From other facts we may run away, but after

### DR. FOSDICK'S 'ON BEING A REAL PERSON'

To Be a Real Person, We Must Do Something About Ourselves

The central business of every human being is to be a real person. We possess by nature the factors out of which personality can be made, and to organize them into effective personal life is every man's primary responsibility. To be sure, the word "personality" has accumulated many meanings.

When Daniel Webster walked down State street in Boston, doors were temporarily suspended while people rushed to the doors and windows to see him pass, and to the popular imagination he seemed to take up half the street. Such impressiveness, in common parlance called "personality," is a priceless gift, but to consider its achievement man's main business would be preposterous.

If all goes well, the normal individual grows up to be a self-conscious organism with capacities for memory, thoughtfulness, purposefulness, and affection, and being thus a person, man is unique in the universe. An organism, conscious of its own being that can remember, think, purpose, and love, is a personal being.

While these attributes are in a rudimentary degree are possessed by animals, in man they have attained a development differentiating him from everything else. While we are presented at birth with the makings of personal life, their successful organization into unified and efficient personality is one of the most difficult, as it is the most essential task in human experience.

In confronting this task, man is the only creature that can consciously help to create itself. Fulfillment of the possibilities of its species may be the primary function of a seedling tree, but the tree is unaware of that fact and cannot deliberately co-operate. We are self-creatures; we are self-created. As Wordsworth put it, "So build we up the being that we are."

Human happiness is at stake in the success or failure of this undertaking. No external good fortune can bring abiding enjoyment to a half-made, unorganized personality. Without exaggeration it can be said that frustrated, disintegrated, inhibited, unhappy people, who cannot match themselves with life and become efficient personalities, constitute the greatest single tragedy in the world.

Wars come and go; economic circumstances alter with time and place; national handicaps and catastrophes, inherent in human existence, fall with varying incidence on everyone; social inequities are cruel to some, and inherited inferiority ruins others; but through every situation in this variegated scene in mansion and hovel, war and peace, wealth and poverty, misery and joy, there is a common factor, a common denominator, an omnipresent calamity is found, strangely impartial in its distribution.

Under every kind of circumstance people entrusted with personality, unable to escape it but incapable of managing it, are making a mess of it, and are thereby plunging into an earthly hell.

This statement involves no underrating of the importance of external conditions; yet happiness is never caused by circumstance and is often created despite it. A well-integrated person, supported by a sustaining philosophy, organized around worthwhile purposes, can capitalize adversity and can even be "frustrated into sublimity." Such a person, however, must start with life's primary datum—that we are ourselves on our hands, and that the most determining factor in our experience is that hour by hour we are getting to be we. ### War Today

By DeWITT MacKENZIE  
Associated Press War Analyst

Nazidom's great war, who claims to work his wonders by intuition, indeed seems to have had a flash of second-sight in a just horse-sense during his recent Munich beer-cellar speech when he told his people in about so many words that they were headed for mountains of grief.

The titanic battle on the Russian front has worsened suddenly for the Hitlerites. Two outstanding developments indicate that this greatest of all armed conflicts is in the midst of another far-reaching crisis. These events are:

1. The Red avalanche has engulfed Zhitomir, thereby slashing Hitler's thousand-mile front virtually in two, and holding a spearhead at the Polish border, some 80 miles away. It is one of the key victories of the war.

2. The Germans today announced that half a million Russian troops are breaking through the Dnieper bend trap which the Moscowites are trying to close about the Hitlerites in that region. This hasn't been confirmed by the Soviet press.

The Berlin statement about a breakthrough at the trap would seem to be calculated to prepare the German public for another big withdrawal of their forces in the area. As a matter of fact it wouldn't be surprising if the retreat were ready as well on its way.

If this is true, there is direct relation between the retirement in the extreme south and the dangerous extension of the Red wedge which has been driven into the Nazi line.

every consciously or unconsciously maneuvered escape, we find ourselves back where we started, with ourselves on our hands. Every circuitous alley of evasion brings us back to life's central demand, with our attitude or misery dependent on our response to it: Be a real person.

#### TOMORROW: What can you do about heredity and environment.

—BUY VICTORY STAMPS—

Thus far, Russian capture of territories has added more to her population to be fed than to her current supplies of food. The hard year for Russia will be 1944. We must make certain she has enough food to continue her present magnificent fight and to get her rich Ukrainian farmlands producing again.

—VICE PRESIDENT HENRY WALLACE

### The Doctor's Daughters

By FAITH BALDWIN

up old threads and then—well, it all went stale. Same faces, same faces, same lines, same—passes.

"What about Frank?" he inquired.

"Not hurt, thought Emily. To her horror the quick, sudden tears forced themselves against her closed lids, crawled slowly down her cheeks.

"I'm not in love with him, she thought.

And knew that she was. . . .

"When had it begun? Had it started back in the old hospital days when they'd been just good friends, talking, arguing, laughing, working together? Or when he'd walked into the house on Atlantic Street a few weeks ago? Or the first time she had seen him look at Nancy with his lopsided grin? Or tonight, coming home from the hospital? It didn't matter when it had happened years, a month, a year, an hour ago, or just now. It had happened and that was that.

"She thought miserably. There's nothing I can do about it—go away perhaps, find a job in Boston—anything.

Sometime tapped at her door and her mother came in.

"No. Wait a moment," Emily fumbled under a pillow, scrubbed her handkerchief across her face and eyes, steeled her voice, reached out and turned on the bedside light. "What's the matter," she asked, "is father—"

"No, he's all right. Fast asleep," Millicent's hair was pinned into curls, caught under a net cap. Her face was scrubbed. Despite the fine lines, it had a little girl look. She had a pot of cold cream in her hand and sitting down beside Emily's bed she absentmindedly began to stroke the cream across her forehead and under her eyes.

"I looked out of the window just now, Nancy's over in the apartment with Jim."

### Peter Edson's Column:

#### PROBLEM IN TIRE REPORTS

By PETER EDSON  
Pampa News-Washington Correspondent

Just where the United States stands today on its critical rubber supply, with estimates of production and demand for the remainder of the year and for 1944, is revealed in Progress Report No. 4, covering the third quarter of 1943, now released by the new rubber director, Col. Bradley Dewey.

The report gives full assurance that all of the synthetic rubber plants will be in production by early 1944 and that enough rubber can be produced before the crude stockpile is gone. This assurance is, however, qualified:

1. The supply of tires and other essential rubber goods will be short a long time.

2. The synthetic rubber production program is being completed far slower than wished for. It was 76 per cent completed as of Nov. 1.

3. Still ahead in the production program of expanding the rubber industry of producing synthetic rubber, and expanding of allied industries to produce sufficient rayon cord for heavy duty tires, carbon black and other materials necessary in the making of rubber goods.

#### BALANCE SHEET

Striking a summarized balance sheet that tells the complete story of supply and demand for the next year, the report reveals that by Dec. 31, 1944, the national stockpile of both synthetic and crude rubber may be as low as 151,000 long tons, or approximately only half a year's requirements for military uses alone. All the figures following are in long tons:

Hazelwood to Speak At Retailers' Meet

J. A. Hazelwood, secretary-treasurer and credit manager of Black-burn Brothers, Amarillo clothing store, for the past 20 years, will be the principal speaker at the third annual banquet of the Retail Merchants Association of Pampa, to be held at 8 p. m. tomorrow in the First Methodist church basement.

PAMPA (Continued from Page 1)

connection with the pending hearing in which they asked for a certificate to serve from Oklahoma City to Tulsa and Brantley Airways. Lesour advised the Pampa representatives that it might be possible for Pampa to press its case at the hearing, but that a special ruling from the civil aeronautics board would have to be made first. He explained that a separate hearing with a joint application from the city of Pampa and Brantley Airways for an intermediate stop at Pampa would be a much simpler procedure.

ALLIES (Continued from page 1)

vanage of 60,000 Japanese in a many-pointed drive through the central rice bowl region. Stiff fighting was reported in the mountains south of Iohang.

HEALTH QUIZ

Do you have headaches? YES NO
Do you lack pep or vim?
Do you get irritable easily?
Do you feel depressed—nervous?
Everybody knows that poorly digested food often causes a headache, sluggish condition.

WAVES in Action\*\*Aviation Machinist's Mate

These girls, too, wear the trim Navy blue Mainbocher uniform when they're off duty, but when they're doing this particular win-the-war job with the WAVES they wear specially-designed coveralls. They appear a trifle new at the game, tinkering with an airplane engine, but that's because they are only students in the U. S. Naval Training School at Norman, Okla. After four months' training, following indoctrination, they wear the rating badge shown in the inset—Aviation Machinist's Mate, Third Class. There are many important jobs in the WAVES for mechanically-inclined, patriotic American girls, 20 to 36 years old, who have had two years' high or business school training.

36th DIVISION (Continued from Page 1)

famous Texas division made up the first American force to set foot on the European continent. He has a chest wound. "We landed before dawn about 3:30 on the morning of the ninth," said McFarland. "It was the toughest beachhead of this war. The navy didn't shell the German positions because our landing was supposed to be a surprise. But it wasn't. We got off our landing barges onto the beaches and walked right into machinegun fire."

HEALTH QUIZ (Continued)

Arrangements can be Made To accommodate special dinner parties for families, clubs or social groups. Opens 24 Hours A Day Hillson Hotel Coffee Shop

Mainly About Pampa And Her Neighbor Towns

Mrs. Otis Coffey, wife of the Pampa High school coach, is recovering at home from a heart attack she suffered Saturday. Her condition was not believed serious, according to information from the high school office. Coach Coffey was on duty teaching classes today at the school.

Chicago Democrats Appoint Kelly

CHICAGO, Nov. 15—(AP)—Mayor Edward J. Kelly's position as boss of the Chicago Democratic organization has been affirmed. The party's Cook county committee Thursday named him chairman of a 15-man advisory committee. The group will determine political policies and strategy.

Crippled Cruiser

Her stern smashed into a jumble of twisted steel, this U. S. cruiser made port and is now undergoing repairs at the skilled hands of ship surgeons at an American Navy yard.

German Rocket Guns Seen As Newest Threat to England

LONDON, Nov. 15—(AP)—Germany's "secret weapon" may be either rocket guns, suicide parachutists, stratosphere bombers or gas-armed in the order of their possibilities—but all of these have become the subject of much speculation since Prime Minister Churchill gravely warned of possible new forms of attack on England.

Both Pilots Hurt, But Fort Returns

A U. S. BOMBER STATION IN ENGLAND, Nov. 15—(AP)—The pilot and co-pilot were both wounded when the big plane was riddled by flak but this didn't keep the Flying Fortress "Romance 2" from making its bombing run over Gelsenkirchen.

Fort Worth Cafe Ruined by Fire

FORT WORTH, Nov. 15—(AP)—Fire and smoke damage that may approximate \$100,000 was caused early on Friday when flames broke out in a rear store room of the Clover Grill cafe, 701 Main street, and spread to five nearby places of business.

O. P. A. (Continued from Page 1)

former OPA general counsel who was inducted into the army last April, proved that a paramount purpose of legislation drafted by Ginsburg and Leon Henderson, first OPA head, was to place, "so far as possible, final and non-reversible power and authority in the hands of the administrator."

YANKS (Continued from Page 1)

Italy was virtually unchanged. On the Aegean island of Leros in the Dodecanese, a British commando squad the invading Germans had been pressed back in the north and center and were suffering substantial losses.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly lays the cough or you are to have your money back.

American Soldiers Paid as They Fight

ORLANDO, Fla., Nov. 15—(AP)—The United States army air forces have solved one of the major financial problems of the war by instituting "flying banking service," enabling its men to get their pay on time and under conditions of actual attack in the combat theater.

Catholics Call For 'Good World Peace'

WASHINGTON, Nov. 15—(AP)—The Catholic Bishop of the United States, calling for a "good peace" once victory is won, declared today it is imperative that nations of the world unite in setting up international institutions to maintain peace.

Man Accused Of Slaying Niece

LAREDO, Nov. 15—(AP)—Pablo Rodriguez, 36, was under an indictment today by the Webb county grand jury, charging him with fatally beating his 10-year-old niece, Guadalupe Flores, last Tuesday night.

Ring Received; Fiance Killed

WASHINGTON, Nov. 15—(AP)—Miss Zenia Dolinger of Whitetop, Va., found an engagement ring from her fiance, Pfc. William L. Stike of Washington, in the morning mail.

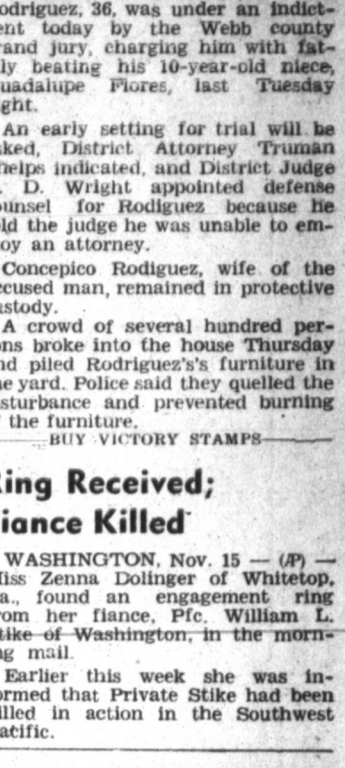

Petain Reported Suddenly Ill

BERN, Switzerland, Nov. 15—(AP)—The newspaper La Suisse, in an editorial note to a Vichy dispatch on the failure of Marshal Henri Philippe Petain to appear on a balcony before crowds yesterday, said today it had reliable information, "naturally unconfirmable" that the aged marshal had suffered a stroke.

If you are buying a laxative, answer these three questions first

Ques. Why do most people choose a leading laxative instead of a lesser known product? Ans. Because a best-seller can generally be counted on to give satisfaction. Ques. What laxative has been a best-seller in the Southwest with four generations? Ans. Black-Draught. Ques. How much does Black-Draught cost? Ans. Only 25c for 25 to 40 doses. Caution, use only as directed.

Amazing Way for "RUN-DOWN" people to get NEW VITALITY..PEP!

1—Promote the flow of vital digestive juices in the stomach
2—Energize your body with RICH, RED BLOOD!

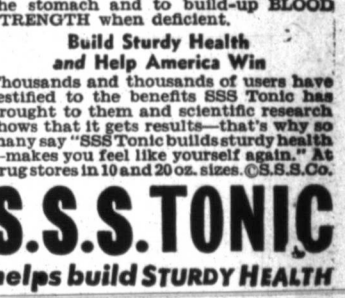

THESE two important steps may help you to overcome the discomforts or embarrassment of sour stomach, jerky nerves, loss of appetite, underweight, digestive complaints, weakness, poor complexion!

If you are subject to poor digestion or suspect deficient red-blood as the cause of your trouble, yet have no organic complication or local infection, S.S.S. Tonic may be just what you need as it is especially designed to promote the flow of VITAL DIGESTIVE JUICES in the stomach and to build-up BLOOD STRENGTH when deficient.

Build Sturdy Health and Help America Win. Thousands and thousands of users have testified to the benefits S.S.S. Tonic has brought to them and scientific research shows that it gets results—that's why so many say "S.S.S. Tonic builds sturdy health—makes you feel like yourself again." At drug stores in 15 and 30 cc. sizes. U.S.S. Co.

S.S.S. Tonic helps build STURDY HEALTH

Helpful Tricks in Saving Used Fats

TAKE ANY TIN CAN and tie cheese-cloth loosely over top. Or set an old strainer on top, and leave it there. Add every drop of kitchen fats you can no longer use for cooking. Or just throw fats into an unstrained, and when can is full, strain the whole lot at once into another can.

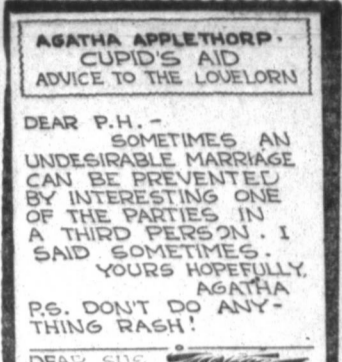

PLEASE HELP! Used fats no matter how black are needed desperately for ammunition and for medicines. Save them in a tin can, not glass. Any kind of can will do. Rush them to your meat dealer. Start doing it today, won't you?

Approved by War Production Board. Paid for by Industry.

Advertisement for Camel cigarettes. Text: "IN THE ARMY AIR FORCES they say: 'DAWN PATROLLING' for getting up before reveille, 'GET EAGER' for strive to do your best, 'SUGAR REPORT' for letter from a girl friend, 'CAMEL' for the favorite cigarette with men in the Army. CAMELS HAVE GOT WHAT IT TAKES, ALL RIGHT—PLENTY OF FLAVOR AND EXTRA MILDNESS. FIRST IN THE SERVICE. With men in the Army, Navy, Marine Corps, and Coast Guard, the favorite cigarette is Camel. (Based on actual sales records.)" Includes image of a Camel cigarette pack and a list of 35 shopping days 'til Christmas.

Advertisement for Creomulsion. Text: "Relief At Last For Your Cough. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly lays the cough or you are to have your money back. ### Higgins-Bowsher Marriage Vows Are Solemnized in Alexandria, Louisiana

Miss Lanorah Jane Higgins, daughter of Mr. and Mrs. James C. Higgins Sr., of 1426 North Yorktown, Tulsa, Okla., and Lieutenant Arthur LeRoy Bowsher, son of Mr. and Mrs. Dallas Bowsher of the Skelly Vickers Lease, Pampa, were united in marriage in the home of Dr. B. C. Taylor, Pastor of the First Methodist Church of Alexandria, La. Dr. Taylor read the double ring ceremony October 17 at 8:30 p. m.

The couple stood in front of an open fire place flanked by palms. Mrs. B. C. Taylor, pianist, played "I Love You Truly," and accompanied Mrs. David Traver in "At Dawning."

Mrs. Harry Walsh, of Indiana, served as Matron of Honor, wearing a Navy blue suit with white accessories.

Lieutenant Harry Walsh of Camp Claiborne served as best man. The bride wore a white slipper satin princess gown trimmed in imported lace. Her finger-tip veil of illusion was caught by a lace comb. Her coronet was a single lavender orchid.

Mrs. J. C. Higgins, mother of the bride wore a black suit dress trimmed in blue and Mrs. Dallas Bowsher, mother of the bridegroom, wore a black silk dress and both wore gardenia corsages.

Lt. and Mrs. A. L. Bowsher will be at home at 1716 Rousseau, Alexandria, near Camp Claiborne, where the bridegroom is assigned to the 790th Engineer Petroleum Distribution Co., 5th Provisional Training Regiment.

Mrs. Bowsher is a graduate of the University of Tulsa where she was an officer in the University of Tulsa Geology club and a member of the American Legion Junior Auxiliary. She sang with the A-Capella choir and the Boston Avenue Methodist church. Mrs. Bowsher is on a leave from her job as Engineer with the Douglas Air Craft in Tulsa.

Lt. Bowsher is a graduate of Pampa High school in 1936 and of the University of Tulsa where he was President of the Tulsa University Geology club, a member of the Tulsa Geological society, Tulsa Stratigraphic society and Member and Author for the American Association of Petroleum Geology. He received his Masters Degree from the University of Kansas where he was a member of Sigma Gamma Epsilon, Geologic Fraternity, Sigma Xi National Honorary Society and the Scientific Organization.

Out of town guests were Mrs. J. C. Higgins, Mr. and Mrs. D. Bowsher, J. C. Higgins Jr., brother of the bride, Lt. and Mrs. H. C. Walsh, Chaplain and Mrs. David Traver, Lt. H. R. Kern, Jr., and Lt. F. G. Kuehl.

### McPhillips Home Is Scene Of Party

Marjorie Lou McPhillips, daughter of Mr. and Mrs. R. W. McPhillips, 508 North Frost, celebrated her twelfth birthday with a party and scavenger hunt Saturday afternoon. Pictures were taken and refreshments served to the following:

Bessie Ann Crossman, Joyce Harrah, Dan Stallings, John Friauf, Betty Fern Wilson, Jimmie Baldrige, Garnet Reeves, John High, Laura Nell Berry, Jo Alice Franks, Janelle Stambough, Ann Kinsey, Phyllis Schelch, Patricia Price, Marjorie Lou McPhillips. The hostesses were Misses Pauline and Edith McPhillips.

### ANNOUNCEMENT

Mrs. Doc Schwartz, president of the Pampa Garden club, announced today that club members have received an invitation to attend open house and formal dedication of the USO club. Open house will be held from 3 until 7 o'clock. Dedication services will be held at 8 o'clock.

### HOME FRONT FORECAST

WASHINGTON, Nov. 15—Expect to give ration stamps for sugar for a long time, according to OPA. Unrationed sugar consumption would gobble up our supply in a short time. Rationing limits consumption to 24 pounds per person each year, plus special home-canning hand-outs. Unrationed sugar consumption in the carefree days of 1935-36 amounted to about 55 pounds per person.

A survey made by the Department of Agriculture shows that sugar consumption increases sharply with more income, and differs widely by sections. On the Pacific Coast in 1935-36 families who spent \$125 weekly on food for each person used an annual 34.9 pounds of sugar per person. Consumption shot up to 108 pounds per person in families spending \$4.38 each. Families in the same spending groups on the Atlantic Coast consumed 46 to 69 pounds. Such sugar products as jams, jellies and candies are also eaten much more by people with higher incomes.

Unrationed sugar consumption could easily get out of hand, since there is more money to spend, and other foods are limited.

### HIDDEN TREASURE

Local plans to dig out old toasters, irons, or other discarded electrical appliances and sell them to dealers for war stamps have turned out so well that they are being considered for a national campaign. The dealer will use spare parts from unusable equipment for reconditioning anything that can be used again.

### GREEN STAMPS IN BOOK IV ARE FOR CANNED FOODS, JAMS AND JELLIES

Green stamps in book IV are for canned foods, jams and jellies for the time being. The plan is to keep the red and blue stamps intact until the new blue and red ration books get here next year. Then on what is hoped will be the last lap of rationing, it will be simple to start from the beginning of the cost of the limited ration colors for change.

### ODDS AND ENDS

Late Christmas gifts can send V-mail notices of war bond gifts to soldiers up to December 1. They are sure to arrive by Christmas.

High-Octane gasoline for civilians will be cut from 78 or 80 octane to 76 to save valuable ingredients for military gasoline. Coal dealers are asked to check a customer's coal supply before delivering more. There is not enough to give anyone more than winter's supply.

Canners have been given permission to release 2,700,000 cases of canned peaches, peas and tomato catsup to civilians from emergency stocks held for military uses.

### War Costs Three Times More Now

WASHINGTON, Nov. 15—(AP)—War expenditures of the United States government totaled \$138,020,000,000 through October, or more than three times the total for this country of World War I, the war production board said today. Treasury department figures placed the cost of the first world conflict at \$41,755,000,000.

### Two Trainmen Killed in Texas

PORT ARTHUR, Nov. 15—(AP)—Two crewmen were killed and three persons injured Saturday in the collision of a Kansas City Southern freight engine with a switch engine. The dead were Frank Thrift, about 40, Port Arthur, and J. S. Bowman, Leesville, La., brakeman. A fire in the wreckage, near Port Neches, destroyed an engine, a car and an oil tank car.

### PAMELA BARTON KILLED

LONDON, Nov. 15—(AP)—Pamela Barton, 26, twice winner of the British and American women's golf championships, was killed Saturday as the plane in which she was a passenger crashed in a take-off.

### WRITER DIES

GREAT NECK, N. Y., Nov. 15—(AP)—Horace Green, 56, author, World War I correspondent and former president of Duffield and Green, publishers, died yesterday.

### Try Colorful Camouflage On Old Typewriter Desk

WITH typewriters as scarce as they are now, it would be easy to pick up a secondhand typewriter desk for very little money. With a little ingenuity, time and elbow grease, it can be dressed up and made the focal point of a boy or girl's room. The photo above shows a salvaged desk, rejuvenated with paint and smart red-white-and-blue plaid oilcloth, which also covers the seat and back of the chair (also rescued from the discard), and makes a decorative wall panel for the hanging bookcase. The professional touch is seen in matching the bolder stripes in the design, so that the horizontal lines on the desk top continue straight down the side panels. The edges of the wall panel are finished off with a band of red scotch tape.

### Mrs. O. B. Schiffman Is Honored With Pink and Blue Shower in Barnard Home

Mrs. Ray Barnard honored Mrs. O. B. Schiffman with a pink and blue shower in her home recently when games were played and prizes were awarded to Mrs. Schiffman and Mrs. A. McClendon.

As each guest entered the entertaining rooms she was presented a quilt block to be embroidered.

After gifts were opened, pumpkin pie and coffee was served to the following guests: Mrs. Earl Noland, Mrs. L. K. Stout, Mrs. C. F. Easton, Mrs. E. Stidham, Mrs. Clyde Lockhart, Mrs. T. G. Green, Mrs. Russell Kennedy, Mrs. Tony Smith, Mrs. A. L. Weathered, Mrs. Ralph Mangel, Mrs. A. McClendon, the hostess and the honoree.

Sending gifts were: Mrs. Halle Beard, Mrs. H. H. Hutchens, Mrs. Roy Timmons, Mrs. Cury and Mrs. Odie Cox.

Mrs. C. F. Bastion and Mrs. Tony Smith assisted Mrs. Barnard in serving.

### Accessory Set

8553 Small-Medium-Large  
Match your new coat or match your suit with a brimmed hat and drawing handbag made of the same material! They'll make an effective contrasting set, too, in felt, faille, velvet or broadcloth!

### Hopkins W. M. S. To Work at Red Cross At Next Meeting

The Hopkins W. M. S. met Thursday for Mission Study and to study the lesson, "A Book on Prayer," given by Mrs. E. B. Morton.

The society welcomed two new members, Mrs. J. R. Young and Mrs. E. L. Sparks.

Attending the meeting Thursday were: Mmes. Paul Simpson, E. L. Sparks, J. R. Young, H. E. Johnson, R. G. Head, E. R. Collins, C. E. Chisum, E. B. Morton, W. H. Pyeatte, W. E. Melton, J. W. Markee, J. A. Thurmond, E. P. Wellesby, E. H. Sloan, Marvin Stone, Olin Buxton and Orvil Horton.

There were 15 Sunbeams present with Mrs. Thurmond and Mrs. Horton as their teachers.

The next W. M. S. meeting will be held Thursday, Nov. 18, when members will work for the Red Cross. All members are asked to bring a thimble, needle and woolen squares.

### We're the Women

They couldn't have been more than 14 or 15 years old, the two fresh-faced girls walking down the main street of the town crowded with soldiers. It was Saturday night.

Yet whenever a couple of soldiers passed them, the two girls started to giggle and cast side-wise glances at them.

Maybe they weren't "pick-up girls"—the Army's term for the free and easy teenagers who are giving the Army more of a headache than prostitutes.

But if they weren't already pick-up girls they were potential ones. They were out wandering around the streets when they should have been at home or in company of an older person, proving that their parents were too lax with them.

And they were uniform-crazy. That is the combination that turns school kids into pick-up girls. PARENTS ARE DELINQUENT.

Fortunately, it is a combination that any parents with sense can break up. They may find it difficult to cure a girl of the war-time urge to grow up fast and take part in the excitement of the war.

But parents can see to it that their daughters aren't running around the streets at night, especially in towns where the streets are crowded with service men looking for pick-ups.

If they don't bother to break up the combination, then they are delinquent parents, no matter how much they may be respected in their community.

### Rev. Boshen Is Guest Speaker at Horace Mann P.T.A. Friday

The Rev. Robert Boshen, minister, First Presbyterian church (above) was speaker when the Horace Mann Parent Teacher association met at the school Friday night with the Dads as special guests.

Mrs. Francis Fullerton opened the meeting with group singing, accompanied by Miss Elizabeth Sewell at the piano.

Mrs. B. A. Sumner, president, conducted a short business session, during which Mrs. Pearl Spaugher read the state president's message as recorded in the state Parent-Teacher magazine. Mrs. Leland Kaps reported that there were 182 members in the local association.

During a recent contest between classes at the school, Miss Myra Millard's room was the winner with the best P. T. A. representation.

Rev. Boshen used the subject, "The Free Child's Personality," He said, "The world is a wonderful place in which a child can develop normally in acceptable personality. There are many things which help the child develop. First, the influence of other persons; second the teachings of other persons; and

### Whisky Company Sued by OPA

PEORIA, Ill., Nov. 15. (AP)—The office of price administration today filed in federal district court a civil suit against the American Distilling company, Peoria, Ill., asking treble damages of \$7,500,336 for whisky sales allegedly made in excess of OPA ceilings.

### Barriers Erected At Tule Lake

TULE LAKE, Calif., Nov. 15. (AP)—New barriers to control Japanese evacuees at the nearby Tule Lake segregation center were being constructed today while the army kept a watchful eye on the seething barracks city of 16,000.

So far as could be determined, the colony, reserved for confinement of Japanese considered disloyal to the United States, was quiet today.

### COVENTRY QUIET

LONDON, Nov. 15. (AP)—Three years ago last night the German air force blasted the heart out of the ancient city of Coventry but the anniversary passed unmarked by any noteworthy Nazi aerial activity over Britain.

### Women who suffer SIMPLE ANEMIA

If lack of blood-iron makes you pale, weak, "dragged out" — try Lydia E. Pinkham's Compound TABLETS (with added iron)—one of the best ways to help build up red blood to get more strength and energy — in such cases, Pinkham's Tablets are one of the greatest blood-iron tonics you can buy! Follow label directions. Worth trying!
