

ROSSAINS ON ROAD TO GERMANY

Hitler's Newspaper Paints Dark Picture of Situation

More Officers Named in Plot On Der Fuehrer

LONDON, July 27.—(AP)—In stark comment of Paul Joseph Goebbels' assertion that total mobilization would relieve the receding German front, Hitler's own newspaper said never since the beginning of the war have our nerves and hearts been exposed to heavier trials.

The comment in the Volksischer Beobachter, Berlin organ of the Nazi party, appeared beside a report of the speech of the newly appointed "reich plenipotentiary for total mobilization."

The propaganda minister, also Gauleiter of Berlin, asserted that German reserves would be moved to the fighting fronts from the home army, now commanded by the Gestapo Chief Heinrich Himmler and that results would begin to show "next month."

"The situation, especially in the east, will soon change in favor of Germany," he said as the Russians charged to within 140 miles of German Silesia and stood within easy striking distance of east Prussia, where many of the Junkers' great estates.

Hitler's mobilization decree placing Reichsmarschal Hermann Goering and Goebbels in charge ordered total mobilization not only of Germany, but of all occupied territories—France, Western Poland, Hungary.

Argentina Stands Pat On Policy

WASHINGTON, July 27.—(AP)—A defiant Argentina stood virtually quarantined from its western hemisphere neighbors today, unimposed publicly by a blunt United States declaration that its government will not be recognized until it plainly abandons a "pro-Axis" policy for a pro-Allied one.

A high State Department official said the sweeping U. S. denunciation charging Argentina with open aid to the Axis had received virtually unanimous approval of all the other American nations.

Since the inter-American conference convened shortly after Pearl Harbor, Argentina has persisted in its open, notorious and contrary course of action which has given constant aid and comfort to the enemies of the other American Republics. It declared.

It said the brief period last February when Argentina broke relations with the Axis and promised to take measures for continental defense was followed with overthrow of the government by pro-Nazi elements who opposed Argentine cooperation with the rest of the hemisphere.

Argentina's public retort came in a broadcast last night by Foreign Minister Gen. Orlando Peluffo who said his country would continue its present course of conduct. Peluffo was emboldened by Farrell after his speech.

Peluffo said "We do not admit" that pro-Nazi elements are maintained in the government, and he disputed the accusation that Argentina has been helping any cause but her own.

The State Department declared that Farrell's regime has made "spasmodic token gestures" of cooperation but the department said, "In almost all instances they have been designed to do no more than foster the false hope that Argentina might yet be prepared to honor her solemn pledge of hemisphere solidarity."

No hint was given as to whether this government is prepared to take economic measures against Argentina in backing up its vigorous condemnation.

Fewer Auto Use Stickers Bought In New Campaign

WASHINGTON, July 27.—(AP)—The \$5 annual automobile use tax was paid on nearly 2,400,000 fewer cars in the fiscal year ended June 30 than in the preceding 12 months.

This is among the facts revealed today in the Internal Revenue bureau's annual breakdown on who paid what to produce record-breaking \$40,121,760,232 internal revenue receipts.

The \$5 automobile use tax produced \$134,325,537, a decline of \$11,983,746.

This meant that nearly 2,400,000 motorists either had (1) junked their cars, (2) put them up for the duration, or (3) decided to risk the \$25 penalty provided for not having the use sticker.

Gasoline taxes also reflected rationing and tire shortages. This tax brought in \$271,216,501, a decline of \$17,569,324.

Income and excess profits taxes provided more than three-fourths of the total revenue.

Corporation income taxes accounted for \$5,284,145,852, an increase of \$763,294,142; individual income taxes exclusive of withholding, \$10,437,570,433; up \$4,493,653,454; withholding, \$7,823,434,977, up \$7,137,419,966.

Excise profits taxes amounted to \$2,345,190,293, an increase of \$4,281,334,679.

Liquor taxes totaled \$1,618,775,155, an increase of \$195,128,699.

Tobacco taxes brought in \$988,483,236, up \$64,525,953, usually thought of as out of date, accounted for \$7,692,236 of the tobacco total.

Manufacturers' excise taxes—gasoline, radio sets, sporting goods, etc.—totaled \$583,422,170, while retailers' excise taxes—jewelry, fur, toilet preparations and luggage—brought in another \$225,232,264.

Employment taxes jumped \$339,667,492, from \$1,498,705,033 to \$1,738,372,435.

Some of the miscellaneous taxes: Transportation (seats and berths), \$153,682,607, up \$66,560,873; bowling alleys and pool tables, \$2,268,422, up \$355,757; club dues and initiation fees, \$9,181,516, up \$2,661,625; admissions to theaters, concerts, cabarets, etc., \$205,289,025, up \$50,838,302.

Temperatures Soar in State

Pampa's weatherman saw little change in temperature here today following a scorching 96 degrees yesterday. The temperature soared for the second time to 96 since July 17.

Resumption of the hot weather followed a short period of mild temperatures here last week.

Texas over most of the state sought shade to escape the second heat wave and sweltering temperatures.

Uvalde was the hottest city in Texas yesterday with temperature of 97.345,190,293, an increase of \$4,281,334,679.

Liquor taxes totaled \$1,618,775,155, an increase of \$195,128,699.

Tobacco taxes brought in \$988,483,236, up \$64,525,953, usually thought of as out of date, accounted for \$7,692,236 of the tobacco total.

Manufacturers' excise taxes—gasoline, radio sets, sporting goods, etc.—totaled \$583,422,170, while retailers' excise taxes—jewelry, fur, toilet preparations and luggage—brought in another \$225,232,264.

Employment taxes jumped \$339,667,492, from \$1,498,705,033 to \$1,738,372,435.

Some of the miscellaneous taxes: Transportation (seats and berths), \$153,682,607, up \$66,560,873; bowling alleys and pool tables, \$2,268,422, up \$355,757; club dues and initiation fees, \$9,181,516, up \$2,661,625; admissions to theaters, concerts, cabarets, etc., \$205,289,025, up \$50,838,302.

15-Point Program Outlined by Dewey

ALBANY, N. Y., July 27.—(AP)—Announcing a 15-point program of action for the Republican governors' conference next week, Gov. Thomas E. Dewey pledged today if elected to "end the disgraceful spectacle of petty bickering and constant warfare between the various units of the government."

The Republican presidential nominee told a press conference that he and Gov. John W. Bricker of Ohio, the vice-presidential nominee, were in full accord on the issues of the campaign.

Dewey said the conference in St. Louis beginning Aug. 2 would delve into the field of "conflict" between federal, state and local governments.

"This has been a constant source of friction for 12 years in this country now," Dewey said. "Enough people are spending full time fighting each other over the question of jurisdiction and power between the federal, state and local governments to make up a small army."

"Almost as many people are squabbling over this subject as are squabbling in the federal government, if that were possible," Dewey said.

L. G. Raney Named OPA Rent Director

Louis G. Raney, who for the past month has been serving as acting rent director for the Pampa-Borger Defense Rental Area, has been named rent director, according to an announcement made by C. N. Sullivan, district rent director.

Raney came to Pampa from Childress where he had been associate Area Rent Director since December 1, 1942.

They Disagree On Question, Then Shy Away from Politics

ALBANY, N. Y., July 27.—(AP)—Mrs. Thomas E. Dewey and Mrs. John W. Bricker have divergent opinions on a compulsory military training for American youth, but appear, nonetheless, well-teamed as wives of the G.O.P. presidential nominee and his running mate.

Their first joint press conference held yesterday on the veranda of New York state's executive mansion, had the atmosphere of a casual tea. The Ohio governor's wife, and her hostess, Mrs. Dewey, responded with equal poise to a barrage of questions.

Mrs. Bricker, mother of a 13-year-old boy, John, stated flatly, in answer to a question, she would dislike awfully to see compulsory military training.

The New York governor's wife appeared surprised. She said, at first, she had formulated no opinion on the subject, but later decided she had "no objections" to such training as might be required.

"The military very much appeals to my boys," she said, adding that "boys do love to march. (Her sons are Thomas, Jr., 11, and John, 4,

Japs on Tinian, Guam Hopelessly Pinned by Yanks

By J. B. KRUEGER
Associated Press War Editor

Allied warships and planes, suddenly reappearing in the Indian Ocean, have demolished the harbor works at Saipan, key Japanese fortress guarding the rich stolen islands of the Dutch East Indies and Singapore, southeast Asia, headquarters disclosed today.

Adm. Lord Louis Mountbatten, confirming yesterday's Tokyo broadcast, said a 35-minute attack Tuesday by battleships, cruisers, destroyers and carrier aircraft demolished shore batteries, sank a freighter, wrecked two jetlies, wrecked workshops and wharves and left the target area aflame. The Japanese had claimed little damage.

Three thousand miles eastward on Guam and Tinian, American warriors—including a grim 5,000-healed-of-wounds suffered on Saipan—relentlessly closed in on Japanese garrisons bereft of all outside aid. The Marines and doughboys held the northern quarter of Tinian and its 4,500-foot Ushi airfield, rated one of the best in the Pacific.

On Guam to the south they also bid for another airfield from which the U. S. can mount its coming offensive against the Japanese homeland, the Philippines and China's coast. This airfield was on Orrote Peninsula, on which a trapped force of Japanese was pinned in.

Americans advanced 3,000 yards out into the Peninsula to the outskirts of Sumay town.

The Guam invaders, with 2,500 dead Japanese accounted for, wiped out their beach head of 12 miles of Guam's west coast, including the shoreline forming prized Apra harbor.

On Tinian three days of slaughter left 1,958 Japanese dead.

Five thousand Marines wounded on Saipan rejected a chance to take

WAR IN BRIEF

(By The Associated Press)

FRANCE—Yanks gains threaten whole western end of German line in Normandy; British stated in east.

RUSSIA—Reds storm across Vistula river.

INDIAN OCEAN—Allied warships, planes demolish harbor works at Sabang, Dutch East Indies.

MARIANAS—Americans capture Ushi airfield on Tinian, wipe beachheads on Guam.

ITALY—Battle for Florence flares to new fury.

Two-Hemisphere Fighting Brings Dead to 63,000

WASHINGTON, July 27.—(AP)—Pierce fighting in two hemispheres has rushed the battle casualties of the United States past the 311,000 mark, to more than 63,000 dead.

The cost in men in this war now far exceeds the 278,828 total for World War I.

The overall total is a compilation of official army and navy files, plus later figures which have been announced from the fighting in Normandy, Saipan and Guam and air forces losses.

Here is how the casualty lists now stand:

Army, reported through July 6 and covering casualties up to about three weeks earlier—207,283, of which 37,237 are killed, 89,949 wounded, 40,786 prisoners and 39,311 missing.

Navy, reported up to today and presumably including figures not much later than three weeks ago—50,496, of which 21,433 are killed, 14,939 wounded, 9,655 missing and 4,469 prisoners.

American casualties in Normandy in the period June 6-20 inclusive—24,162, of which 3,082 are killed, 13,121 wounded and 7,959 missing.

This, of course, does not include the recent heavy days of fighting in the St. Lo offensive.

Li. Gen. McNair Dies in Action

WASHINGTON, July 27.—(AP)—Lt. Gen. Lesley J. McNair, former commanding general of the army ground forces, has been killed in Normandy.

A War Department announcement here said:

"The War Department has been notified of the death of Lt. Gen. Lesley J. McNair, General McNair was killed by enemy fire while observing the action of our front line units in the recent offensive."

On July 14, the army announced that McNair had been given an important overseas assignment, the nature of which was not disclosed, and that Lt. Gen. Liner had succeeded him in command of the army ground forces.

McNair, 61, was responsible for the training of the ground forces now in action overseas, and was regarded as one of the army's most brilliant officers. Gen. George C. Marshall, chief of staff, once called him "the brains of the army."

He was chief of staff of general headquarters in Washington when the army was reorganized in 1942, and became commanding general of the ground forces, one of the three top commanders under the chief of staff.

In April, 1943, during an inspection tour of the Tunisian front, he was wounded by shell fragments.

McNair was one of the early advocates of building up a method of anti-tank defenses, particularly the highly mobile self-propelled, hard-hitting guns that came to be known as tank destroyers.

Commenting on the general's death, General Marshall said "The American army has sustained a great loss in the death of General McNair."

"Had he had the choice," said Marshall, "he would probably have elected to die as he did, in the forefront of the attack. His presence on the firing line with the leading element in the great assault, which has just been launched on the American front in Normandy, was indicative of his aggressive and fearless spirit and should be an inspiring example to the forces of our great ground army which he organized and trained."

County To Have Six Votes at Convention

Gray county will have six votes at the governor's convention to be held at Dallas September 12, according to records released today by Norman Minter, secretary to Gary county democratic executive committee.

Local democrats will meet in the Gray county courtroom Saturday. County voting strength is based on the state allocating the convention one vote for each 300 votes or major fraction thereof, cast by the county for the party's candidate for governor in the last general election. The total vote cast for Governor Stevenson, Democratic nominee in Gray county was 1,684.

American Front Is Now 40 Miles Wide

By DWIGHT PITKIN
Associated Press War Editor

The battle for Poland blazed towards a climax as the Russians stormed the last main water barrier on the road to Germany, with some spearheads reported already to have reached the west bank of the Vistula river.

Berlin announced a withdrawal from the key railroad center of Biaystok, 47 miles southeast of St. Lo, German border, and a Moscow broadcast said Russian troops had broken into the fortress city of Brest Litovsk, originally bypassed in the drive towards Warsaw.

Warsaw About 66 Miles Away

Moscow reported that a crossing of the wide Vistula river was being effected in the Delbin-Pulawy region, 57 to 66 miles southeast of Warsaw as the Red army smashed at German defenses along a 30-mile sector of the strategic waterway.

Lt. Gen. Omar N. Bradley's forces struck three miles deeper into German defenses on the flaming Normandy front and have taken nearly a score of hamlets and towns in two days of heavy tank fighting. Advance patrols reached the German stronghold of Periers, 19 miles northwest of St. Lo. Infantry and tank teams in the St. Lo sector fanned out from captured Conisy and St. Gilles and captured Le Nesnil Herman, nine miles from the jumpoff point of the drive.

The British-Canadian push below Caen stalled against German counterattacks which were said to have been repulsed.

In Italy American troops occupied the entire section of Pisa south of the Arno river but the Germans were reported barricading streets in the north section for a house-to-house defense. The Germans launched heavy tank-supported counterattacks in an effort to halt the British Eighth Army's drive that has reached within eight miles of Florence on a tenmile front. Headquarters in Rome said the German assaults were thrown back.

Under cover of tremendous artillery barrage, Russian troops were reported crossing the Vistula river in thousands of amphibious trucks. Moscow said the Germans apparently held failed in regrouping battered forces on the west bank to halt a speedy crossing and that perhaps the entire defense on the central front in Poland had been smashed.

The showdown battle for Poland raged along the Vistula from north of Delbin to south of Pulawy, both in Russian hands.

The Moscow newspaper Izvestia said, "Polish troops are advancing beside the victorious Red Army, Delbin is liberated already and the capital of Warsaw listens to the onerous detonation of artillery."

The American front in Normandy was broadened to 40 miles by a drive 15 miles to the east of St. Lo that captured Montrobart, four miles northwest of Caumont. In the sector

Mexico Students Riot, 2 Killed

MEXICO CITY, July 27.—(AP)—The rector of the National University of Mexico has asked President Avila Camacho to take a hand in a school riot that has resulted in the death of two students.

The riot reached its peak yesterday when veterinary students threatened to turn loose dogs infected with rabies, kept for laboratory experiments. The threat was not carried out.

Dr. Rodolfo Berio Foucher, the rector, in a statement to the faculty and students of the university, blamed the outbreak on "a group of politicians covetous of getting possession of the university."

He said the leaders had the following: "a small group of bad students who for three months have been carrying on acts of violence."

The rector carried his appeal to the president while students were fighting in university buildings and in the streets.

Police said that besides the two students killed, more than a score more were hurt seriously, and some 200 had minor injuries.

The rioting started in protest against professors he had installed as heads of various schools of the university. Ten members of the law faculty resigned yesterday morning after an anti-Berio faculty had taken possession of the law school building and held it all the previous night. When the defenders were dislodged, the battle spread to the veterinary school building.

Bricks and stones were hurled freely during the fighting, and when students assaulted the veterinary building they were met with bottles of blasting gasoline and a threat to turn loose the mad dogs.

Favors Won't Choose To Run Again in '46

Rep. Ennis Favors of Pampa, who defeated R. L. Templeton of Wellington for state representative in the 122nd district last Saturday, said he will not be a candidate for the same post in 1946.

"I've decided not to run again," Favors said during the recess period of a trial in district court here yesterday afternoon.

Favors did not indicate whether he might be a candidate for any other office when his legislative term ends.

The Favors-Templeton race in last week's primary election was one of those see-saw affairs in which the outcome was not certain until two days following the election.

Favors finally won out over his Wellington opponent by a 108-vote margin.

PRETTY SOFT

Veteran Marine Will Arrive Here Today

Gunner Sergeant O. D. "Dick" Witten, U. S. Marines, will arrive in Pampa today to visit his niece, Mrs. M. H. Weston, 900 Charles.

Witten is a veteran of the Marines, having served 16 years. He was one of the first to land on Guadalcanal and participated in many battles there.

Before entering the service he was an oil field scout in the Pampa area, employed by W. O. McSpadden, drilling contractor. He will be in Pampa only a few days during his 30-day leave.

No further Action Is Taken on Park Lease

"City commission members concluded their regular meeting yesterday with a clean slate as far as new business was concerned," City Manager W. C. deCordova said today.

Further discussion was held concerning the request made last week by Sam Dunn and Harry Burton to buy or lease the southeast corner of recreation park, requested for a location of a new meat packing house. No action was taken.

The condition of the sewer was discussed, and no new business was brought before the commission.

Fewer Auto Use Stickers Bought In New Campaign

WASHINGTON, July 27—(AP)—The \$5 annual automobile use tax was paid on nearly 2,400,000 fewer cars than in the preceding 12 months.

This is among the facts revealed today in the Internal Revenue bureau's annual breakdown on who paid what to produce record-breaking \$40,121,760,232 internal revenue receipts.

The \$5 automobile use tax produced \$134,325,537, a decline of \$11,985,746.

This meant that nearly 2,400,000 motorists either had (1) junked their cars, (2) put them up for the duration, or (3) decided to risk the \$25 penalty provided for not having the use stickers.

Gasoline taxes also reflected rationing and tire shortages. This tax brought in \$271,216,501, a decline of \$17,569,324.

Income and excess profits taxes provided more than three-fourths of the total revenue.

Corporation income taxes accounted for \$5,291,145,852, an increase of \$762,294,142; individual income taxes exclusive of withholding, \$10,437,570,433; up \$4,493,653,454; withholding, \$7,823,434,977; up \$7,137,419,966.

Excise profits taxes amounted to \$9,345,198,293, an increase of \$4,281,334,679.

Liquor taxes totaled \$1,618,775,155, an increase of \$195,128,699.

Tobacco taxes brought in \$988,483,236, up \$64,525,953. Snuff, usually thought of as out of date, accounted for \$7,692,236 of the tobacco total.

Manufacturers' excise taxes—gasoline, radio and sporting goods, etc.—totaled \$503,462,170, while retailers' excise taxes—jewelry, furs, toilet preparations and luggage—brought in another \$225,222,264.

Employment taxes jumped \$239,667,402 from \$1,498,705,033 to \$1,738,372,435.

Some of the miscellaneous taxes: Transportation (seats and) \$153,682,607, up \$66,550,873; bowling alleys and pool tables, \$2,208,422, up \$355,757; club dues and initiation fees, \$9,181,516, up \$2,661,625; admissions to theaters, concerts, cabarets, etc., \$205,289,025, up \$50,838,302.

Fulbright, Atkins Have Met Before

LITTLE ROCK, Ark., July 27—(AP)—By a strange turn of events a discharged president of the University of Arkansas and the governor who ousted him found themselves in the August 8 runoff today for the Arkansas Democratic senatorial nomination.

These two finalists in Tuesday's preferential primary, personable J. W. (Bill) Fulbright, 39-year-old freshman congressman who authored the "lasting peace" resolution, and tall, smiling Gov. Homer M. Adkins, 53, were quick to advance possible issues based upon their theories of government.

Among his associates, Fulbright is recognized as a liberal while Adkins has been referred to as a practical public official with a leaning toward conservatism.

Paths of Fulbright and Adkins first crossed in 1941 when a board of trustees named by Adkins removed Fulbright as university president, charging him with lack of cooperation.

Little Rock, Ark. (AP)—

Argentina Stands Pat On Policy

WASHINGTON, July 27—(AP)—A defiant Argentina stood virtually quarantined from its western hemisphere neighbors today, unmoved publicly by a blunt United States declaration that its government will not be recognized until it plainly abandons a "pro-Axis" policy for a pro-Allied one.

A high State Department official said the sweeping U. S. denunciation charging Argentina with open aid to the Axis had received virtually unanimous approval of all the other American nations.

Since the inter-American conference convened shortly after Pearl Harbor, Argentina "has persisted in an open, notorious and contrary course of action which has given constant aid and comfort to the enemies" of the other American Republics, it declared.

It said the brief period last February when Argentina broke relations with the Axis and promised to take measures for continental defense was followed with overthrow of the government by pro-Nazi elements who opposed Argentine cooperation with the rest of the hemisphere.

Argentina's public retreat came in a broadcast last night by Foreign Minister Gen. Orlando Peluffo who said his country would "continue its present course of conduct." Peluffo was embraced by Farrell after his speech.

Peluffo said "We do not admit" that pro-Nazi elements are maintained in the government, and he disputed the accusation that Argentina has been helping any cause but her own.

The State Department declared that Farrell's regime has made "sporadic token gestures" of cooperation but the department said, "In almost all instances they have been designed to do no more than foster the false hope that Argentina might yet be prepared to honor her solemn pledge of hemisphere solidarity."

No hint was given as to whether this government is prepared to take economic measures against Argentina in backing up its vigorous condemnation.

Temperatures Soar in State

Pampa's weatherman saw little change in temperature for today following a striking 96 degrees here yesterday. The temperature soared for the second time to 96 since July 17.

Resumption of the hot weather followed a short period of mild temperatures here last week.

Texans over most of the state sought shade to escape the scorching heat wave and sweltering temperatures.

Uvalde was the hottest city in Texas yesterday with temperatures of 111 degrees, the 20th consecutive day on which readings have been at least 100.

Right behind Uvalde were Eagle Pass, Del Rio and San Angelo, each with 109-degree temperatures, and Laredo with 108.

Next in line, according to the Dallas Weather Bureau, were Pecos, New Texas (with 106 Big Spring and Alice registered 105 degrees.

Other temperatures: Abilene, 104; San Antonio and Austin, 103; the latter experiencing its hottest day of the year; Dallas, 102; Texarkana, 100; Sulphur Springs, 99; Houston and Corpus Christi, 98 and Galveston, 91.

L. G. Roney Named OPA Rent Director

Louis G. Roney, who for the past month has been serving as acting rent director for the Pampa-Border Defense Rental Area, has been named rent director, according to an announcement made by C. N. Sullivan, district rent director.

Roney came to Pampa from Childress where he had been associate Area Rent Director since December 1, 1942.

15-Point Program Outlined by Dewey

ALBANY, N. Y., July 27—(AP)—Announcing a 15-point program of action for the Republican governors' conference next week, Gov. Thomas E. Dewey pledged today if elected to "end the disgraceful spectacle of petty bickering and constant warfare between the various units of the government."

The Republican presidential nominee in a press conference today and Gov. John W. Bricker of Ohio, the vice-presidential nominee, were in full accord on the issues of the campaign.

Dewey said the conference in St. Louis beginning Aug. 2 will delve into the field of "conflict" between federal, state and local governments.

"This has been a constant source of friction for 12 years in this country now," Dewey said. "Enough people are spending full time fighting each other over the question of jurisdiction and power between the federal, state and local governments to make up a small army."

"Almost as many people are squabbling over this subject as are squabbling in the federal government, if that were possible," Dewey said.

Whee alignment. Dixie Tire Co. Adv.

County To Have Six Votes at Convention

Gray county will have six votes at the governor's convention to be held at Dallas September 12, according to records released today by Norman Minter, secretary to Gary county democratic executive committee.

Local democrats will meet in the Gray county courtroom Saturday.

County voting strength is based on the state allocating the convention one vote for each 300 votes or major fraction thereof, cast by the county for the party's candidate for governor in the last general election. The total vote cast for Governor Stevenson, Democratic nominee in Gray county was 1,684.

Japs on Tinian, Guam Hopelessly Pinned by Yanks

By J. B. KRUEGER
Associated Press War Editor

Allied warships and planes, suddenly reappearing in the Indian Ocean, have demolished the harbor works at Saabang, key Japanese fortress guarding the rich stolen islands of the Dutch East Indies and Singapore, southeast Asia headquarters disclosed today.

Adm. Lord Louis Mountbatten, confirming yesterday's Tokyo broadcast, said a 35-minute attack Tuesday by battleships, cruisers, destroyers and carrier aircraft silenced shore batteries, sank a freighter, wrecked two jeties, wrecked workshops and wharves, and left the target area aflame. The Japanese had claimed little damage.

Three thousand miles eastward on Guam and Tinian, American warriors—including a grim 5,000-healed wounds suffered on Saipan—relentlessly closed in on Japanese garrisons, first from outside aid. The Marines and doughboys held the northern quarter of Tinian and its 4,500-foot Ushi airfield, rated one of the best in the Pacific.

On Guam to the south they also bid for another airfield from which the U. S. can mount its coming offensive against the Japanese homeland, the Philippines and China's coast. This airfield was on Orote Peninsula, on which a trapped force of Japanese battled for its life. The Americans advanced 3,000 yards out into the Peninsula to the outskirts of Sumay town.

The Guam invaders, with 2,800 dead Japanese accounted for, widened their beach head of 12 miles of Guam's west coast, including the shoreline forming prized Apra harbor.

On Tinian three days of slaughter left 1,958 Japanese dead.

Five thousand Marines wanted on Saipan rejected a chance to take

Li. Gen. McNair Dies in Action

WASHINGTON, July 27—(AP)—Lt. Gen. Lesley J. McNair, former commander in chief of the army ground forces, has been killed in Normandy.

A War Department announcement here said:

"The War Department has been notified of the death of Lt. Gen. Lesley J. McNair, general McNair was killed by enemy fire while observing the actions of our front line units in the recent offensive."

On July 14, the army announced that McNair had been given an important overseas assignment, the nature of which was not disclosed, and that Lt. Gen. Lear had succeeded him in command of the army ground forces.

McNair, 61, was responsible for the training of the ground forces now in action overseas, and was regarded as one of the army's most brilliant officers. Gen. George C. Marshall, chief of staff, once called him "the brains of the army."

He was chief of staff of general headquarters in Washington when the army was reorganized in 1942, and became commanding general of the ground forces, one of the three top commanders under the chief of staff.

In April, 1943, during an inspection tour of the Tunisian front, he was wounded by shell fragments.

McNair was one of the early advocates of building up a method of anti-tank defenses, particularly the highly mobile self-propelled, hard-hitting guns that came to be known as tank destroyers.

Commenting on the general's death, General Marshall said "The American army has sustained a great loss in the death of General McNair."

"Had he had the choice," said Marshall, "he would probably have elected to die as he did, for the element in the firing line with the leading element in the great assault which has just been launched on the American front in Normandy, was in fact McNair's spirit and should be an inspiring example to the forces of our great ground army which he organized and trained."

WAR IN BRIEF

(By The Associated Press)

FRANCE—Yanks gains threaten whole western end of German line in Normandy; British stalemated in east.

RUSSIA—Heds storm across Vistula river.

INDIAN OCEAN—Allied warships, planes demolish harbor works at Saabang, Dutch East Indies.

MARIANAS—Americans capture Ushi airfield on Tinian, wide beachheads on Guam.

ITALY—Battle for Florence flares to new fury.

Two-Hemisphere Fighting Brings Dead to 63,000

WASHINGTON, July 27—(AP)—Fierce fighting in two hemispheres has rushed the battle casualties of the United States past the 311,000 mark, to more than 63,000 dead.

The cost in men in this war now far exceeds the 278,828 total for World War I.

The overall total is a compilation of official army and navy files, plus later figures which have been announced from the fighting in Normandy, Saipan and Guam and air forces losses.

Here is how the casualty lists now stand:

Army, reported through July 6 and covering casualties up to about three weeks earlier—207,283, of which 37,377 are killed, 89,949 wounded, 40,786 prisoners and 29,311 missing.

Navy, reported up to today and presumably including figures not much later than three weeks ago—50,496, of which 21,433 are killed, 14,939 wounded, 9,655 missing and 4,469 prisoners.

American casualties in Normandy in the period June 6-20, inclusive—24,162, of which 3,082 are killed, 13,121 wounded and 7,959 missing.

This, of course, does not include the recent heavy days of fighting in the St. Lo offensive.

Favors Won't Choose To Run Again in '46

Rep. Ellis Favours of Pampa, who defeated R. L. Templeton of Wellington for state representative in the 122nd district last Saturday, will not be a candidate for the same post in 1946.

"I've decided not to run again," Favours said during the recess period of a trial in district court here yesterday afternoon.

Favours did not indicate whether he might be a candidate for any other office when his legislative term ends.

The Favours-Templeton race in last week's primary election was one of those see-saw affairs in which the outcome was not certain until two days following the election.

Favours finally won out over his Wellington opponent by a 108-vote margin.

Veteran Marine Will Arrive Here Today

Gunner Sergeant O. D. "Dick" Witten, U. S. Marines, will arrive in Pampa today to visit his niece, Mrs. M. H. Weston, 900 C. Street.

Witten is a veteran of the Marines, having served 16 years. He was one of the first to land on Guadalcanal and participated in many battles there.

Before entering the service he was an oil field scout in the Pampa area, employed by W. O. McSpadden, drilling contractor. He will be in Pampa only a few days during his 30-day leave.

PORTRAIT OF THE ENEMY: 'How About Warsaw? And Rotterdam? And London?'

By EDWARD D. BALL
IN NORMANDY, July 27—(AP)—A massive American air assault flushed a covey of German parachutists yesterday and they ran out sobbing and screaming, "this is not war; it's criminal."

Terror glazed their eyes. Their mottled camouflage flared as they ran. They were some distance behind the first American troops before they could be headed off.

Splendid physical specimens, they quieted down under the calm handling of Sgt. Ernest Gumburg of Miami, Fla.—German-born interpreter.

A 19-year-old Nazi who reported

American Front Is Now 40 Miles Wide

By DWIGHT PITKIN
Associated Press War Editor

The battle for Poland blazed towards a climax as the Russians stormed the last main water barrier on the road to Germany, with some spearheads reported already to have reached the west bank of the Vistula river.

Berlin announced a withdrawal from the key railroad center of Bialystok, 47 miles southeast of the East Prussia border, and a Moscow broadcast said Russian troops had broken into the fortress city of Brest Litovsk, originally bypassed in the drive towards Warsaw.

Moscow reported that a crossing of the wide Vistula river was being effected in the Deblin-Pulawy region, 57 to 66 miles southeast of Warsaw as the Red army smashed at German defenses along a 30-mile sector of the strategic waterway.

Lt. Gen. Omar N. Bradley's forces struck three miles deeper into German defenses on the flaming Normandy front and have taken nearly a score of hamlets and towns in two days of heavy tank fighting. Advance patrols reached the German stronghold of Periers, 19 miles northwest of St. Lo. Infantry and tank teams in the St. Lo sector fanned out from captured Canisy and St. Gilles and captured Le Nesnil Hermon, nine miles from the jump-off point of the drive.

The British-Canadian push below Caen stalled against German counterattacks which were said to have been repulsed.

In Italy American troops occupied the entire section of Pisa south of the Arno river but the Germans were reported barricading streets in the north section for a house-to-house defense. The Germans launched heavy tank-supported counterattacks in an effort to halt the British Eighth Army's drive that has reached within eight miles of Florence on a ten-mile front. Headquarters in Rome said the German assaults were thrown back.

Under cover of tremendous artillery barrage Russian troops were reported crossing the Wisla river in thousands of amphibious trucks. Moscow said the Germans apparently held failed in regrouping battered forces on the west bank to halt a speedy crossing and that perhaps the entire defense on the central front in Poland had been smashed.

The show-down battle for Poland raged along the Vistula from north of Deblin to south of Pulawy, both in Russian hands.

The Moscow newspaper Izvestia said, "Polish troops are advancing beside the victorious Red Army. Deblin is liberated already and the capital of Warsaw listens to the noise of the artillery."

The American front in Normandy was broadened to 40 miles by a drive 15 miles to the east of St. Lo that captured Montablot, four miles northwest of Caumont. In the sector

Mexico Students Riot, 2 Killed

MEXICO CITY, July 27—(AP)—The rector of the National University of Mexico has asked President Avila Camacho to take a hand in a school riot that has resulted in the death of two students.

The riot reached its peak yesterday when a small group of bad students who for three months have been carrying on acts of violence.

Dr. Rodolfo Brito Foucher, the rector, in a statement to the faculty and students of the university, blamed the outbreak on "a group of politicians covetous of getting possession of the university."

He said the leaders had the following in a statement to the faculty and students of the university, blamed the outbreak on "a group of politicians covetous of getting possession of the university."

Police said that besides the two students killed, more than a score more were hurt seriously, and some 200 had minor injuries.

The rioting started in protest against professors he had installed as heads of various schools of the university. Ten members of the law faculty resigned yesterday morning after an anti-Brito faction had taken possession of the law school building and held it all the previous night. When the defenses were dislodged, the battle spread to the veterinary school building.

Bricks and stones were hurled freely during the fighting, and when students assaulted the veterinary building they were met with bottles of blazing gasoline and a threat to turn loose the mad dogs.

PRETTY SOFT

It will be soft sleeping for this Yank doughboy if only he can hold on to the prize he picked up in recaptured Cherbourg—a nice, comfortable mattress.

No further Action Is Taken on Park Lease

"City commission members concluded their regular meeting yesterday with a clean slate as far as new business was concerned," City Manager W. C. deCordova said today.

Further discussion was held concerning the request made last week by Sam Dunn and Harry Burton to buy or lease the southeast corner of recreation park, requested for a location of a new meat packing house. No action was taken.

The condition of the sewer was discussed, and no new business was brought before the commission.

Rejected Man Is Often Above Average, Assert Physicians

Far from being inferior, despite the fact that they have been discharged from the armed services after induction, or rejected by Selective Service, the actual truth is that many persons labeled psychoneurotic are, and always will be, outstandingly superior in civilian life.

That statement, made by Dr. Louis E. Bisch, professor of neuropsychiatry at New York Polytechnic Medical School and Hospital and former lecturer in psychology at Columbia University, holds out new hope to countless men who have been suffering in the belief that such a classification denotes a mental ailment which is a fancy name for insanity, or at least its first cousin.

"It is a pity that the rejected man

comes to look upon his 4F rating as a stigma, a brand of shame and a sign of inferiority, quite without reason," Dr. Bisch writes in an article in Your Life magazine. "What he often overlooks is that the Army is picking fighting men—men with special attributes—and the man who lacks these qualities is no more to be scorned than their infantryman who is a dud at mathematics or the four-star general who can't run 100 yards under 12 seconds.

"Thousands of 4Fs with superb abilities of their own, are as vital to the war effort as if they hurled grenades or welded bayonets at the battlefield. If the 4F can only consider his situation realistically, his self-confidence must inevitably be given a tremendous boost.

"The man rejected for physical reasons usually understands why. He knows that his stiff knee, or his asthma, or his poor vision handicaps him, by no fault of his own, for military action. But the neurotic, rejected because of his emotional make-up, has a more stringent battle with his self-respect. His sensitivity, and the very virtues which enable him to make unique contributions, tend to intensify his feelings of inferiority.

"He should understand that the Army and the Navy do not want psychoneurotics in the service simply because their emotional make-up is not the rough-and-tumble sort best suited to withstand the rigorous training, discipline, stress and strain of military life. Every man, despite his physical health and physique, is not suited to the task. Nor is it in the least a question of courage or determination.

Dr. Bisch, who was among the first psychiatrists to work with service men when, in 1917, he organized the psychiatric division of the 5th Naval District, U. S. N. R. F. points out that "if one were to assume that a neurotic is an inefficient, emotionally unstable weakling, then most of the great thinkers and doers of the present age, as well as of the past, would necessarily have to be counted out. And," he adds, "that just doesn't make sense."

As examples of noted men who certainly would be classified 4F for physical or psychoneurotic reasons under current Selective Service regulations, he cites M. Luther, Anatole France, Oliver Goldsmith, Lewis Carroll, Julius Caesar, Sir Walter

Scott, Newton Carlyle, Byron, Charles Steinmetz, Charles Darwin, Edgar Allan Poe and many others.

"Our Commander-in-Chief, Franklin D. Roosevelt, and his well-known fight against infantile paralysis, is a famous instance of physical disability," the writer concludes. "Not many 4Fs have such a serious handicap as he, yet it has been no deterrent to his achieving a brilliant place in history. Does he think of himself as a 4F? I venture to say not! And it is not so much what happens to you as what you think about it that really counts."

Making Stratosphere Gun Regarded Vital Feat of the War

Building the Army's powerful 4.7" (120 mm.) stratosphere gun on an assembly-line basis is regarded today as one of the automotive industry's most significant contributions to the nation's war production program.

Sound engineering techniques and ingenious manufacturing methods enabled the Fisher Body Division of General Motors to overcome material and equipment bottlenecks and produce the deadly weapon in quantities demanded by the Army.

Fisher Body undertook the project more than two years ago and assigned it to its Grand Rapids, Mich., Stamping plant—in peacetime producer of parts and assemblies for automobile bodies.

However, before it could produce in quantity the weapon capable of reaching an objective more than 11 miles in the air it had to:

- 1—Design every tool, jig, machine and fixture used in producing the mobile, dual-purpose weapon of completely new design.
- 2—Design an automatic loader and rammer to facilitate rapid firing of the gun.
- 3—Make many changes in specifications to facilitate volume production.
- 4—Train a large force of workers to do machine work, flame cutting, arc welding and delicate assembly operations—all completely new to personnel previously trained as press operators, helpers and assembly men.
- 5—Build 80 per cent of the machine tools used in production of the 4.7" gun.

The manufacture of the big, mobile gun weighing more than 60,000 pounds required extensive precision operations in which Fisher Body was assisted by 75 small plants in the Grand Rapids area serving as sub-contractors.

WASHINGTON, July 27—(P)—A British suggestion that the Allies write a provisional peace with Italy which now has the combined standing of defeated enemy and co-belligerent, is before American authorities.

The plan awaits discussion with Russia and other countries interested in the Italian settlement.

As now contemplated, the peace treaty would leave all territorial questions, and probably other final claims such as reparations, for later decision.

Primarily, it would serve to regularize Italy's relations with the United Nations, clarify the position of Italian war prisoners, and enable Italian soldiers to re-form and get into the front lines of the battle in their homeland.

Plan Under Way For Peace With Italians

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause raging headaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Kidneys may need the same as bowels, soak your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Annual Dalhart Roundup Aug. 7-8

DALHART, Texas, July 27—Two professional rodeos, at least two dances with top orchestras including the Dalhart Army Air Field dance band, and a parade featuring the Old West alongside the ultra-modern in military equipment from the Dalhart base, are among the highlights of the Eighth Annual XIII Roundup celebration and rodeo in Dalhart August 7-8.

Capt. Franklin Hibel, veteran of Pearl Harbor says the air base will have at least sections of troops in the parade, a section of WACs, military band, all kinds of GI vehicles, Red Cross-Army medical section and Ordnance display.

There will be only one parade—Monday at 4 p.m. The professional rodeo, including outstanding speciality acts, will start each evening at 8:30, and dances will follow.

'Hams' Play a Part In This Global War

WEST HARTFORD, CONN., July 27—The largest communications system, either military or commercial, the world has ever known has been built largely by "hams" radio operators, who shut down their transmitter on December 8, 1941, and turned their friendly hobby into an integral part of the Allied military might.

According to the American Radio Relay League, national organization of radio amateurs, 90 per cent of the operating and technical staff officers before the war. The AACRS is the world-wide network of radio stations responsible for all aircraft along the global web of United States ferry and transport routes.

Operating over more than 600,000 circuit miles with stations in each of the 48 states and in 52 foreign lands, the AACRS supplies communications for more than 100,000 miles of airways throughout the world. It serves not only the flying units of the Army Air Forces—the Air Transport Command, the Troop Carrier Command—but all other Allied flying units, including the U. S. and British Navies, the RAF Ferry Command, commercial airlines flying overseas, combat units engaged in transport operations, and all itinerant aircraft.

Prime requisite in establishing the vital system was a thorough knowledge of the numerous intricacies of radio. To the task were promptly assigned "hams," whose recognized radio "know-how" was the germ from which their own sending and receiving apparatus, through chatting with fellow amateurs to assisting in time of national disaster. The choice has proved a wise one.

A recent count showed at least 20 of the 23 AACRS world-wide regional commanders were active "hams" before the armed forces. And in the forefront, down through the ranks, are the nation's most enthusiastic hobbyists—the "hams."

Large Crowd Sees PAAF Cadet Show

An enthusiastic crowd last night received the Pampa Army Air Field cadets' stage show "You, Too, Can Wear Wings," enacted in the post theatre.

The cadets used their own orchestra which they organized just a few days ago. It was announced by the Public Relations office today.

The show was written throughout by the members of the cast of 50. It was directed by ALC Frank A. Harts, chief, instructor of some experience.

One of the main features was the "Pin-Up Girl," in which the actors were dressed as pin-up girls representing the different holidays of the year.

There's One Fan, Guess Where It Is

It was hot yesterday afternoon. At 2 p. m. the big thermometer downtown showed 83 degrees under a sizzling sun.

In Gray county's district courtroom at the courthouse it must have been five or six degrees hotter than that.

Gray county's district courtroom is not air-conditioned. It has one ceiling fan.

But—The fan is not over the judge's neck where you'd expect it to be. It is not over the nervous man in the cool off the lawyers. It is not over the busy court stenographer's table.

It is not over the envious man in the witness box. It is not over the defendant or plaintiff. And the courtroom spectators must mop their brows just the same as the judge.

Well, where is it? The fan is whirring invitingly above the 12 contented, satisfied-looking jurors, good and true. And cool, too.

TEXAS TECH STAFF IS DECLARED INSUFFICIENT
AUSTIN, July 27—(AP)—Although members of the college auditor's staff are comparatively efficient, there apparently is insufficient help to most properly handle the amount of detail required in an institution the size of Texas Technological college at Lubbock, state auditor C. H. Cavness said today.

Cavness in a report on his audit of the school for the fiscal year ended Aug. 31, 1943, said this condition was commented upon in a previous audit and "while some progress has been made the problem still exists to some extent and the college auditor is still burdened with an immense amount of detail work."

Cavness' audit showed the school's general operating fund assets exceeded liabilities by \$265,984. A favorable gain over the excess in the preceding year. The total college surplus was \$4,801,697 or \$327,499 more than at the close of the preceding fiscal year.

Three Men Die in Drilling Accident

McCAMEY, Texas, July 27—(AP)—Three members of a drilling crew were injured fatally in a gas blow-out at a Pecos county well east of eight miles southeast of Oswego Tuesday.

Leonard Isaac of McCamey was killed in the blowout and Jim Rice, 20, of Cisco and L. M. Patterson of McCamey, died yesterday.

Ernest McPadden of McCamey was injured also and drilling superintendent C. R. Reslin, who was on the derrick floor, escaped with a bruised knee although a shoe was blown off his foot when tubing was catapulted from the hole by gas.

All were employees of an Arrow Drilling Co., crew on Standard Oil Co. of Texas, No. 1-3 Macder, Co. well.

McPadden was dismissed from the hospital after receiving treatment for slight burns.

British Promise To Help Punish Japs

LONDON, July 27—(AP)—Foreign Secretary Anthony Eden said in the House of Commons Wednesday that the American people could rely on the full support of the British government in the announced aim of President Roosevelt to bring to justice all the Japanese responsible for the execution of American fliers who bombed the Japanese homeland.

Ex-Shah of Iran Is Reported Dead

JOHANNESBURG, UNION OF SOUTH AFRICA, July 27—(AP)—Reza Pahlavi, former Shah of Iran, died yesterday after a short illness.

He became Shah in 1925 after a Coup d'Etat which dethroned Ahmad Shah and on Sept. 17, 1941, the abdicated in favor of his son, the present ruler, Mohammad Reza Pahlavi, after the Allies invaded the country to halt German intrigue there.

Somervell Orders Step-Up in Hours

WASHINGTON, July 27—(AP)—A 54-hour work week, an increase of one hour a day, was ordered yesterday by Lt. Gen. Brehon Somervell, chief of the army service forces for all military and civilian personnel in headquarters under his command.

General Somervell's office said the added working hours were necessitated by "an accumulation of unfinished work."

Heads of administrative and technical services and service commands also were instructed to establish the longer working day wherever there were backlogs of work.

The order directed that no leaves of absence be granted except under exceptional circumstances, until further notice.

Tire Shortage Critical Here

The shortage of truck and bus tires in Gray county was described today by the Gray county rationing board as critical.

Gray has had a slight increase in its tire quota, but because of hot weather there are more applications being filed, officials said.

A plan approved Monday in Washington by the WPB requirements committee, under which

Supplies of Package Materials Are Short

NEW YORK, July 28—Production of packaging materials—metal, glass, wood, and paper—this year will be the greatest in our history; yet there won't be nearly enough, according to BUSINESS WEEK.

"Worst situation, as far as civilians are concerned, is in paper," heavy trucks forcess off the road for lack of tires can now be "counted in thousands."

about 145,000 of the big tires would be diverted to truck and bus operators from three sources was outlined: the Army, export quotas set aside for the Foreign Economic Administration, and supplies earmarked for new vehicles.

The critical part of the situation in Gray county is that truck and bus operators already hold ration certificates but cannot cash them because retailers have no tires, board directors stated.

Many agencies agree that the situation could result in transportation breakdown. John V. Lawrence, director of the American Trucking associations, has estimated that the

say the publication. "This is clearly indicated by the War Production Board's proposal to hold down the amount allocated to even to sanitary food containers.

To prevent further expansion, WPB already has started the squeeze on food containers by limiting producers of paper milk containers in future quarters to 100 per cent of the paper and paperboard used in the final three months of 1943. This is the first important restriction on use of paper for packaging perishable foodstuffs. Other food containers and paper cups may be placed under similar quotas."

MOTHERS: THE FLETCHER'S CASTORIA NOW ON SALE IS SAFEGUARDED THREE WAYS! Look for the Serial Control Number on each bottle. EVERY BOTTLE of Fletcher's Castoria—now on sale at your druggist's—bears a Serial Control Number. This number is plainly visible through a "window" in the new package. It is your guarantee that Fletcher's Castoria is safeguarded by three different kinds of rigid tests... chemical, bacteriological, and biological. Here's how you can easily identify the new package: The Green Band... Around each package is a brilliant green band. This band quickly identifies the triple-tested Fletcher's Castoria now on sale. The Serial Control Number... The Serial Control Number is on the bottle label. You can see it through a "window" in the outside carton. We think that this visible evidence of quality and reliability... the Serial Control Number on each bottle... will be welcomed by millions of mothers who have long used Fletcher's Castoria as the ideal laxative for children. And we think that millions of mothers will be glad to know that Fletcher's Castoria—the laxative made especially for children—is now on sale at their druggists'. For this is the original and genuine Fletcher's Castoria... the laxative that's mild and gentle, yet effective... the laxative that's pleasant-tasting, so you don't have to "force" your child to take it. Ask for Fletcher's Castoria the next time your child needs a laxative. Note: Until sufficient stocks can be made available, your druggist may not have enough Fletcher's Castoria on hand to meet all demands. If he happens to be out of stock when you ask for Fletcher's Castoria, please be patient. He will have it for you shortly. THE MAKERS OF FLETCHER'S CASTORIA

How to Ruin Dresses and Lose Friends

IT'S tragic how some girls lose their friends and ruin their dresses because of perspiration odor and stains. And there's no excuse for it. It's easy to save dresses, it's easy to save friends. Use Arid, the new cream deodorant that helps keep your armpits dry and removes the odor from perspiration. Arid is safe and dependable for these four reasons:
1. Arid does not irritate skin. Does not rot dresses or men's shirts.
2. Prevents under-arm odor. Helps stop perspiration safely.
3. A pure, white, antiseptic, stainless vanishing cream.
4. No waiting to dry. Can be used right after shaving.
5. Awarded Approval Seal of American Institute of Laundering—harmless to fabric. Use Arid regularly.
Arid is the largest selling deodorant. Sold at all stores selling toilet goods.—39c and 59c a jar. (Plus Tax)

Mrs. Ericson Is Elected Delegate To Convention

At the meeting of the Hopkins Home Demonstration club Tuesday afternoon, Mrs. Dean Ericson was elected as delegate to the Home Demonstration State Convention at Austin, August 1-3. During the meeting, a panel discussion was held in which Mrs. R. W. Orr led the topic of discussion on "Waste." Others taking part in discussions were Eaton Riggins, "Waste Prevention in Preparing to Cook;" Mrs. J. W. Markee, "Precautions in Cooking to Save;" Mrs. W. E. Melton, "Kinds of Storage that Prevent Waste;" and Mrs. Dean Ericson, "Preservation Method to Prevent Waste." The club will have the Victory Home Demonstration club as guests on August 8. Refreshments were served to Mrs. Vern Savage, C. A. Jones, W. E. Melton, Silas Hopkins, R. W. Orr, Eaton Riggins, J. W. Markee, Dean Ericson, and Miss Millicent Schaub.

Gray County Women To Attend Convention In Austin August 1-3

Four Gray County Home Demonstration Council members are to attend the Texas Home Demonstration association meeting in Austin August 1-3. These women are Mrs. Allen Say, Merton Home Demonstration club, who is being sent by the Gray County Home Demonstration Council as their special delegate; Mrs. T. Anderwald a Bell Home Demonstration club, who is being sent as delegate by the Bell club; Mrs. G. H. Anderson, Worthwhile club, and Mrs. S. D. Ericson, Hopkins Home Demonstration club member, who is being sent by Hopkins club. These women will leave here on the 5:30 bus Saturday afternoon and are to return to Pampa August 4 or 5. They plan to bring back to the Home Demonstration Council members of Gray county many new ideas, and inspirations for the club work of 1945. Each of these women will appear on the radio station KFDN early in August to give to the people of Gray county a report of the work being done by the rural women of Texas.

Baptist Missionary Circles Meet Monday

Special To The NEWS. SHAMROCK, July 27.—The W. M. S. of the First Baptist church met in circles Monday afternoon with the Blanche Groves circle meeting in the home of Mrs. Weldon McLean. Mrs. Lee Newman presided over the business session. Mrs. Edward C. Deer gave the devotional led the prayer. A social hour followed during which time refreshments were served. Members attending were Mrs. Newman, Deer, Bill Wilson, Louie Waits, and George Barth. The Many More circle met in the home of Mrs. A. Nichols, Sr., with Mrs. Henry Holmes presiding over the business session. Mrs. Holmes gave the devotional and led in prayer. The lesson, "Cherry Blossoms and Smoke Stacks," from "Ancient Peoples at New Tasks" by Willard Price, was given by Mrs. George Stanley. During the social hour refreshments were served to these members: Mrs. Holmes, Winnie Nix, Emma Skidmore, J. R. Brown and Stanley.

The earth has 57,510,000 square miles of land surface. Ohio is an Iroquois Indian word denoting "great."

Y. The smart new issue of the mid-summer style book—FASHION—has 32 pages of cool-looking, crisp new sportswear and summer day frocks and accessories. Order your copy now. Price 15 cents.

County 4-H Clubs Will Have Council Meeting Saturday

The 4-H clubs of Gray county will have their regular Council meeting Saturday July 29, in the office of the Home Demonstration agent, Miss Millicent Schaub. All 4-H club girls and their sponsors are invited to attend. The meeting will be in charge of the Council president, Atha Belle Steward, vice-president, Berdene Laycock, and secretary-treasurer, Emma Mae Slig. Special recreation will be planned by Betty Jean McCracken of the Countyview club 4-H club, which will also be in charge of a special demonstration. All committees will make reports and plans will be made for the countywide picnic and club camp. The lesson for the day will be the making of macaroni woven yarn belts under the supervision of Miss Schaub and her assistant, Mrs. Sibyl Weston. Each girl is to come prepared to have a good time and to receive a lot of new educational material.

The German radio reports that the Nazi musical production line has turned out a flying bomb which has been sent to England. Bad as the robot blitz is, at least Britain has been spared the theme song.

51 People Attend Royal Neighbors Party Tuesday

Fifty-one people attended the Royal Neighbors apron party given in the KJ hall Tuesday evening. Before the party, the members of the Royal Neighbors lodge held a meeting with the Oracle, Edna King, presiding. Entertainment for the party was as follows: Neva Matlock conducted the fortune telling and mystery box booths. Ola Faye Emerson displayed her ability as a cigarette girl. Bonnie Fouch was in charge of the refreshment booth. A large covered dish was spread on the table by Edna King, and the cost of each luncheon was determined by the measurement of the waistline. A prize of an apron was presented by Edna King to Mrs. Guy Dunwoody for the smallest waist and to Neva Matlock for the largest waist. Piano solos were played by John Robert Lane and Shirley Ingram. Roy Tinsley entertained with a violin solo accompanied on the piano by Mrs. Irvin Cole; Shirley and Mary Jane Emerson played a piano duet; and Mrs. Rina Filer of Groom, gave several readings. Those present at the party were: Mmes. Edna King, Nellie Ford, Marion Chandler, Maxine Bennett, Pan Cory, Byron Timmon, Iva Ward, Fred Fisher, Clay Gamble, H. F.

Walker, Neva Matlock, Carl Emerson, Ruth Kries, Fred Ingram, Lula Purdy, Tom Eckert, C. F. Hale, Irvin Cole, Rose Rogers, Lulu Mendenhall, Lula Harding, and Mr. and Mrs. Ed Timmons, Henry Timmons, Frank Toie, Mr. and Mrs. Guy Tunwoody, P. Fouch, Mr. and Mrs. E. E. Flier, Mr. and Mrs. Lawrence West and daughter; Mr. and Mrs. O. A. Baker, of Borger; and Mr. and Mrs. O. F. Langston.

New Gas Coupons To Non-Highway Users

Farmers and other non-highway users are now being issued E-2 and R-2 non-highway gasoline coupons, the district Office of Price Administration announced today. E-1 and R-1 coupons now in circulation are still valid, it was said. Both E-2's and R-2's bear the notation "non-highway" and are valid only for bulk purchases for gasoline delivered into the fuel tank of a motor vehicle.

SALT LAKE CITY—Department store manager R. W. Madsen has told his employees they will have the day off when Germany surrenders. If the surrender is at the next day, if it's in the daytime, they needn't come to work the doors will be locked immediately and business suspended.

Merten Demonstration Club Meets in Home of Mrs. Allen Say

Merton Home Demonstration club met recently in the home of Mrs. Allen Say for their regular business meeting. Mrs. C. B. Haney, president, opened the meeting with Miss Millicent Schaub leading the club prayer. A short recreation program was directed by Mrs. V. Smith. The panel discussion, "Home Made Rugs" was led by Mrs. T. G. Groves with Mrs. Frank Belle and Mrs. H. Hammert displaying rugs they had made. Miss Millicent Schaub, county agent, explained the procedure for making the various kinds of rugs. Refreshments were served to Mrs. H. H. Threatt, T. G. Groves, C. B. Haney, C. L. Hunter, V. Smith, Frank Bailey, Early Casey, C. H. Hammert, Allen Say, and Miss Schaub.

The University of Finland was founded in 1690.

Air-Borne Fruit Passes Taste Test

DETROIT, July 27—Delicate, tree-ripened fruits transported by air from California were subjected to the taste-test recently by the critical palates of 39 Detroit experts—and passed the test with flying colors.

The tasters were members of a special research panel consisting of housewives, dietitians, home economists, and produce, merchandising, and transportation experts, all of whom are cooperating in practical experiments on the transportation of fresh produce by air, now being conducted by Wayne University, the A & P food stores, and United Air Lines.

The panel sampled plums, boysenberries, nectarines, apricots, figs, strawberries, and tomatoes which were less than two days earlier had been growing in California.

Fears that the fully ripe fruits would suffer from the long trip, which was carried out without any special equipment or precautions, were set at rest when A & P's produce experts declared the shipment to be in perfect condition. Said Earl R. French, national marketing director of A & P's produce affiliate:

"It has been clearly demonstrated, at the outset of our experiments, that highly perishable fruits and vegetables can be transported by air over long distances and arrive in perfect condition. A collection of fruits of such taste and eye appeal was never before brought together in Detroit, I feel sure."

The produce was picked on the Pacific Coast under the direction of J. Prescott Blount, of Chicago, head of United Air Lines' perishable cargo department, who declared that, in general, the produce he brought back was of the ordinary, run-of-the-mine variety.

"As a matter of fact," Blount said, "I picked the nectarines, plums, and figs myself from piles of fruit discarded by the packers as not fit for marketing under ordinary conditions. These culms, discarded as over-ripe in the growing areas by the hundreds of tons, are in my opinion in perfect condition for eating—far superior to the relatively immature produce which ordinarily reaches our tables. Through the medium of air transport, these fine fruits—now wasted—can be brought to the eastern consumer."

The taste panel concurred in Blount's opinion, pronouncing the fruits to be the finest they had ever seen in Michigan.

According to Dr. Spencer A. Larsen, director of air cargo research at Wayne University, the fruits are now being tested for vitamin and sugar content, rate of deterioration, and weight loss in the University's Home Economics Laboratory. This work is being conducted by Dr. Gladys J. Everson, assistant professor of home economics.

Other shipments will be received by the panel approximately once a month for a year. All commodities move in sample lots on a non-priority basis.

SERVICE IS FAMILY AFFAIR

Pvt. Kathryn Nafz, pictured above, is an Air-Wac in the Clothing and Equipment Repair shop in the warehouse at Amarillo Field. Recruiting for women to do such jobs in the army is now going on in this area. Pvt. Nafz has four brothers in service.

Italian Newspaper Points Out Purported Ills in the Country

ROME, July 27—(AP)—The Allied armies drag behind them an "elephantine bureaucracy," the action party newspaper Italia Libera said Wednesday in an article criticizing both Italians and their Liberators.

The article, entitled "The Allies in Italy," said there was:

"A futile waste of means and energy, x x x a show of infallibility where presumptuous ignorance, ingenueness and fatuousness are evident, x x x Contradictions in the acts of authorities whose powers are not precise and are contrasting."

Tuning to the Italians, the newspaper said, "we are forced to note

14th Racks Up Good Results on Japanese

CHUNGKING, July 27—(AP)—A review of U. S. 14th air force operations in the Hengyang-Tungting lake sector during the past several weeks indicates that the consistent hammering of Japanese supply lines has depleted seriously the enemy's stock of river supply craft.

The Japanese were transporting much of their supplies by boats of all types, motor launches, barges and steamers, excellent targets for 14th air force planes.

In a little more than a month Maj. Gen. Claire L. Chennault's pilots have sunk and damaged 1,191 junks, 516 launches and 24 steamers, according to Chinese figures.

The 14th air force also is adding a long list of truck casualties to its record. Almost 1,000 trucks and their contents have been destroyed in recent strafing expeditions.

Disgruntled Group Forms Own Party

BIRMINGHAM, Ala., July 27—(AP)—A group of Alabama anti-administration Democrats formed a new political party Tuesday night and voted to call a state convention here August 4 to name presidential electors pledged "to some Democrat other than Mr. Roosevelt."

Fred Rucker of Birmingham, who said he was chairman of the meeting at which the action was taken, declared the party would be called the American Democratic Party.

Dr. Glendon L. Archer, Boston, chairman of the American Democratic committee, was quoted in a release as telling the group that the Democratic party is "rotting" but a group of office holders dominated by the CIO Political Action committee.

The meeting, although not closed to the press, was held on an off-the-record basis.

The first permanent settlement in the new world was founded by Samuel Champlain in 1608.

Leaves From A Correspondent's War Notebook

By HAL BOYLE

A COMMAND POST SOMEWHERE IN NORMANDY, July 17 (Delayed)—(AP)—A few hundred yards ahead of this old French stone farmhouse, a tall, loose-jointed Kentuckian and his Sherman battle-wagon are slugging with a German tank force.

Lt. Alfred Williams of Louisville and his men are throwing high-velocity armor-piercing shells under the searing July sun.

"Wham!—bang!—wham!— bang!" Sounds of the snells leaving the guns and crashing into targets are so close together they seem almost instantaneous.

Occasionally the heavy "Kaaa-rump!" of a Nazi shell exploding denotes enemy artillery trying to help its armored attack which so far has been completely contained.

"Then won't get through Williams," says Lt. Floyd Mitchell of Tullahoma, Tenn., who is in touch with the forward command by field telephone.

"He reported back a few minutes ago that his men have knocked out four tanks this afternoon and have the situation well under control."

Prisoners say some of the Germans use their tanks as pillboxes, being that short of gasoline, said Glazier.

In their first counterattacks the Germans used flame throwers denoted on armored half-tracks.

After doughboys firing bazookas rockets at them at close range knocked out their first column of five tanks and dispersed their infantry, the Nazis pulled back and reorganized.

"They hit us again at 7 p. m. with

more infantry and 15 tanks; it was murderous for awhile," said Glazier. "But we held our ground and worked out eight more of their tanks before they called it off for the night."

"That made nine tanks claimed for this outfit during the day—and other units in the same sector claimed seven more—making a total of 16 by nightfall. Allied fighters over the territory reported 14 tanks in flames.

"As I write this now, the Germans are making a third desperate counterattack, throwing in the best troops they can command."

Both the colonel and Mitchell feel the German effort to break through will be futile with the forward units in position and young Williams up ahead. A fresh series of staccato explosions shook the window.

"That's Williams," said the colonel looking up from a map with a grin.

"All the boys are crazy about Williams," Mitchell said. "x x x He hasn't been out of the line since the unit was committed. The other day he knocked out a German 88 by flanking from both sides while he ambled right down the road toward it to draw its fire."

"If somebody has to take a chance, he takes it himself. At night he calls back to us on his radio."

"Goodnight back there, you all. Have a good sleep. Everything is smooth and easy up here. We got our front buttoned tight."

"No they won't get past Williams." "It is now four hours later. Mitchell was right. Army headquarters says our lines haven't been dented in that sector—and you can give a lot of credit to that battling young tank lieutenant from the blue grass country."

WITH THE AMERICAN TROOPS IN NORMANDY, July 13—(Delayed)—(AP)—The doughboys' best aerial pal in France is "El Diablo," the little "flying jeep" which once saved an American company from being trapped and which on another occasion called down fire location to them so accurately that 150 Ger-

mans were wiped out.

"Diablo" is a small observation plane that acts as a spotter for an artillery battalion. Front line German gunners hate it worse than they do a dozen fighters.

Piloted by Lt. John Holloman, Livingston, Texas, it circles over the battle area while Lt. Fred (Luke) Madden, Hazard, Ky., directs the artillery fire on the targets behind the German lines.

Once they caught four Nazi trucks trying to sneak supplies forward and with the first volley they called down two were destroyed. The others wheeled to the safety of the rear.

Madden on another occasion called in three battalions to fire on German troops, concentrated in a ravine. The doughboys later found 150 dead Germans there.

"It's fun to direct fire on enemy trucks or tanks because you can see the result," said Madden, "but we help our own doughboys more by searching out enemy gun positions for our artillery to destroy."

"Diablo" or any one of the other planes in the group commanded by Maj. J. Elmore Swenson, Salt Lake City, can call down a whole corps of artillery on a German battery or any other important target.

The work of this group won the personal congratulations of General Eisenhower on July 3, during his Normandy tour. Swenson received the Bronze Star for his planning and leadership. The men thought it was swell to be praised by the supreme commander, but even a prouder tribute came from the infantryman who said:

Rest Centers To Be Set Up For Military

WASHINGTON, July 27—(AP)—The War Department has announced the army ground and service forces are establishing rest centers in some of the nation's leading resort hotels for military personnel returning from fighting fronts overseas.

The program is similar to one already effected for air force veterans. Men will receive "complete physical examinations" and each will be evaluated as to his "most suitable

new assignment," the department said.

"These objectives will be accomplished in surroundings conducive to rest, relaxation and diversion in order that this short period may serve as a result from the arduous tasks of war and as orientation for further duties," it was added.

Five such "rest and recreation centers" were understood to be planned to start operation in September.

The War Department said it could not list names and locations of hotels until leasing have been completed.

John Adams, second president of the United States, once fought with the U. S. Marines.

Independent Retail Sales Show Rise

AUSTIN, July 27—(AP)—Sales of Texas independent retailers in June rose 7 per cent above June a year ago, but dropped 6 per cent from May, 1944, the University of Texas Bureau of Business Research said yesterday.

Dallas led in gains by cities, with a 12 per cent increase over June, 1943. San Antonio and Corpus Christi advanced 5 per cent each. Fort Worth and Houston registered 3 per cent gains. Waco 2 per cent. Amarillo retailers noted almost no change.

APPLICATION FOR LIQUOR PERMIT

The undersigned is an applicant for a Retail Liquor permit from the Texas Liquor Control Board and hereby gives notice by publication of such application in accordance with provisions of Section 10, House Bill No. 77, Acts of the Second called session of the 44th Legislature, designated as the Texas Liquor Control Act.

"The Retail Liquor permit applied for will be used in the conduct of a business at Scherer Hotel Liquor Store at 609 W. Foster Street, Pampa, Texas.

(Signed) SCHAFER HOTEL LIQUOR STORE.
By Walter C. Schaffer.

Auto Purchasers Given Reminder

Used automobile purchasers were reminded today by R. E. McKernan, chairman of the Gray county War Price and Rationing Board, that OPA "certificate of transfer" must be completely and accurately filled out and filed with the local War Price and Rationing Board on or before the date the buyer applies for gasoline ration.

McKernan said that during the past week 100 certificates of transfer were filed at the board by used car buyers. Of these, he said, 50 percent were filled out improperly. To protect themselves from overcharges, McKernan urged all used car buyers to fill out the blanks completely, showing the facts about make of car, model, year, body type, extra equipment, and price paid.

OPA is requiring presentation of this certificate to prevent sales of automobiles at prices higher than ceiling, the board chairman said.

"This action will protect both legitimate automobile dealers and buyers by making impossible over-ceiling sales by non-buyers," he said.

Military Action Requires More Gas, Informants Assert

Intensified military operations in all theaters of war have sent shipments of aviation gasoline soaring above all estimates, and additional quantities of aviation gasoline and other petroleum products are being requested by commanding generals in all active war zones, it was revealed this week by B. I. Graves, chairman of the product conservation committee of the Petroleum Industry War Council, when he made public the text of a telegram received from Ralph K. Davies, deputy Petroleum Administrator for War.

In the telegram, Davies urged the homefront to increase gasoline conservation measures and stamp out the black market in gasoline coupons in view of warfare needs.

Davies' telegram to Graves included the text of a letter addressed to aviation gasoline refiners throughout the nation in which he advised them of the military's critical need for the vital fuel.

Davies pointed out that this increased demand for aviation gasoline would probably be stepped up even further by the European fighting as well as by the huge demands being made for the mighty naval and bomber actions at great distances on the Pacific. This puts unprecedented strain on the country's ability to produce and deliver gasoline and other petroleum products critically needed by the military.

"Up to now," said Mr. Davies, "over 50 per cent of all supplies shipped our fighting forces have been gasoline and other petroleum products."

"Gasoline conservation on the homefront is directly related to the success of the Allied military effort. This fact is well expressed in your important slogan—Gasoline Powers the Attack, Don't Waste a Drop," concluded Mr. Davies.

Graves said that Mr. Davies' telegram would intensify the petroleum industry's present all-out educational campaign to conserve gasoline and stamp out the black market in gasoline coupons, which is stealing an estimated 2,500,000 gallons per day from home front supplies for vital war and A-1 hard holders alike.

He urged on motorists the industry's four points to aid in stamping out the black market:

1. Apply for only the rations needed for essential driving.
2. Endorse in ink license plate registration number ad state on the face of each ration coupon.
3. Refuse gasoline without surrendering coupons.
4. Refuse to buy or accept gasoline coupons from others.

Civil Damages Case Is Resumed Today

In the Civil case of B. A. Ricketts vs. Mitchell Hill, owner and operator of Mitchell's Grocery and Market which was brought to 31st Judicial court Tuesday in a suit to secure \$25,000 damages, the case was to continue at 1:30 o'clock.

Both sides have concluded their testimony, and Judge W. R. Ewing was to have prepared the instructions for the jury.

The plaintiff alleges that on January 29, 1944, Leon Ricketts, son of Mr. and Mrs. B. A. Ricketts, was upon the premises of the defendant at which time the seven-year-old boy was "permanently injured" when his right hand was "pulled into the cutting gears" of a meat grinder in the meat department of the grocery store.

Defendant waived no exception and denied all allegations.

The defendant is charged with negligence in the case.

Priority Adviser Visits Pampa Today

Herbert W. Randolph of the Priorities Department War Production Board, out of Oklahoma City, arrived here late yesterday to assist Gray County with matters concerning the priority system of the WPB.

Randolph will be in the Chamber of Commerce office all day today and urges persons who have matters with the WPB to receive help and information concerning priorities. He is to be in Berger tomorrow.

EQUALIZATION BOARD Considers City Taxes

The city board of equalization is meeting today, continuing through Friday for a hearing on city taxes. Gray county residents should go to the City court room today or tomorrow for tax valuation adjustment, it was said.

The school district equalization board will meet tomorrow to establish values on oil property and to arrive at the percentage to be allocated to the school district, according to Roy McMillen, school board manager.

The county board of equalization is adjourning from a 3-day meeting today.

RUSSIANS

west of St. Lo an armored spearhead reached beyond Canisy, two miles south of the strategic St. Lo-Couances highway. One of two columns closing in on Periers, 15 miles west of St. Lo, recaptured the town of Pairs. The other pushed a bridgehead across the Seves river. U. S. heavy bombers from Britain attacked targets in Belgium today and Berlin reported others from Italy struck the Hungarian capital of Budapest. In night operations, British heavies bombed the rail center of Givors-Baden in southeast France and Mosquitos hit Hamburg.

Gulf Report Shows Process Decrease

HOUSTON, July 27—(AP)—The Gulf Coast Refiners association reports that crude oil processed in its 11 member operating plants during the first half of July decreased about 10,000 barrels a day compared with the last half of June.

Crude runs were at the rate of 85 per cent of pre-war rated capacity of 146,500 barrels, representing an increase of 38,576 barrels a day compared with operations at 55 per cent of rated capacity a year ago.

Total stocks of all products in the refineries comprising the group were reported at 2,894,539 barrels on July 18, a decrease of 412,705 barrels during the first half of the month as compared with total stocks a year ago of 3,741,540 barrels when crude runs to stills were at a greatly reduced rate.

Worker Situation Will Be Studied

MEXICO CITY, July 27—(AP)—Senator Ramiro Tamez said today that a group of senators and deputies will meet tomorrow to make plans for a proposed congressional mission to study the situation of Mexican workers in Texas.

The mission, invited by William Prescott Allen, publisher of the Laredo, Texas, Times, had planned to leave June 10, but the trip was postponed.

14. Agriculture, including the extent of government aids, soil conservation programs and controls should be locally or nationally regulated.

15. Veterans affairs.

Talks on School Prospects Made

W. B. Weathered, member of Pampa's post-war planning committee, spoke to Rotarians yesterday at their regular weekly luncheon discussing the proposed movement to establish a Junior college in Pampa. He explained the requirements which must be met by the county and city before such a school could be established and added that in view of requirements the establishment of the school looked "favorable."

"Before such a college may be set up here, it is required that the state board of education check the valuation of the district; the required high school enrollment and check area location," Weathered said.

"Insofar as we have been able to ascertain, the Pampa area will be able to meet all these requirements," the speaker concluded.

Following the talk a discussion period was held concerning the college plan.

Visiting Rotarians included N. P. Nelson and Harry M. Balner of Amarillo; C. H. Everett, Ardmore, Oklahoma; S. E. Allison, Canadian; Ed Edwards, Ft. Worth; C. S. Gentry, Smith, and A. A. Meredith of Borger.

HITLER

(Continued from Page One)

Czechoslovakia, Norway, the Baltic States, Belgium, Holland, Yugoslavia, Greece, Denmark, northern Italy, and Luxembourg. Whether the decree applies to Finland, Romania and Bulgaria has not been made clear.

Goebbels conjured up the old Shillboleth of secret weapons again, asserting that for a minute his hearers "stopped beating" when he saw the most modern German weapons. Robot bombs such as those hurled against London are "nothing but a mere preamble," he said.

The German radio also said today that Infantry Gen. Olbricht, Col. Gen. Ludwig Beck and Col. Gen. Erich Hoepner took part in the bomb plot against Hitler.

Olbricht was shot after a court martial, the broadcast said. Beck was said to have committed suicide when arrested. Hoepner was reported under arrest awaiting trial.

The Berlin account said these were the three mentioned by Propaganda Minister Paul Joseph Goebbels in his speech last night.

The propaganda minister, without mentioning names, said one general "up to then had been prominent only for sabotaging all decisions in the war."

Goebbels said a certain colonel general "had hysterical breakdowns" and that another colonel general conducted a "cowardly retreat" on the Russian front.

Hoepner, Beck and Hoepner tallied with the propagandist's descriptions was not immediately made known.

Four more German generals have been added to the swiftly lengthening list of Nazi command casualties in 24 hours.

The Russians announced the capture of Lt. Gen. Moser-Hillmann, commandant of fallen Lublin. He was their 26th captured general of the summer offensive.

Lt. Gen. Wilhelm Grimm "met with a fatal accident," probably at Munich, the Berlin radio said last night. American bombs cratered that Nazi shrine city last week.

Col. Gen. Freiherr Geyer von Schweppenburg, commander of a German tank division in Normandy, was reported by Stockholm Morgue Tidningen to have been shot. Gen. von Machenfeldt was arrested in the Hitler bomb plot, the same newspaper said.

Trouble-Shooter To Go to Moscow On Polish Issue

LONDON, July 27—(AP)—Premier Stanislaw Mikolajczyk of the Polish government in exile left for Moscow today. His departure came after the cabinet of the Polish government had approved a plan to send him to the Soviet capital to confer with Premier Stalin in an apparent effort to effect a compromise with the rival Polish faction in Moscow.

The cabinet's decision was regarded as a sign that neither the London Poles nor the British government had abandoned hope of settling the differences between the government of the peasant-borne premier and the Polish committee of Liberation with which the Soviet government signed an agreement for administration of Polish territory occupied by the Red Army.

Meanwhile, some degree of unity is being developed in the Polish armed forces.

The Moscow radio broadcast a letter from Lt. Gen. Sigmund Berling and Maj. Gen. Alexander Zawadzki, commanders of Polish troops in the Soviet, to Gen. Julian Zelinski in London calling for a Poland "great, strong, happy and no dependent on anyone."

Zelinski's reply raised hopes for their part in the restoration of an "independent" Poland.

SABANG

(Continued from Page 1)

It easy in hospitals and joined their Tinian comrades. They are now among the most hard hitting of all the Tinian invaders," said AP correspondent Robert J. Meyer.

Gen. Douglas MacArthur's men maintained the trap holding thousands of Japanese on northwest New Guinea. New breakout attempts were foiled.

In China the U. S. 14th air force stung the Japanese trying to take Hengyang, downing or damaging 14 planes in a battle over Yochow. A the began to glimmer in Chungking stories that the enemy might be forced to abandon his offensive to seize all the Hankow-Canton railway. Heavy fighting occurred on the verge of capture, but its doughty defenders and General Chennault's fliers were making the price high. In the Yochow battle no Americans were lost.

The British inflicted more losses on the Japanese fleeing India and Chinese-American troops inched deeper into Myitkyina.

The Sabang raid was a repeat performance of the April 19 task force raid. Sabang lies at the northeastern end of the Malacca Strait, the narrow waterway which thrusts between Sumatra and Malaya down to storied Singapore.

WRONG ANSWER

NEW YORK—Detective John A. Duffy, en route to his commuter train at Pennsylvania station, saw a man jostle a train-bound passenger into Myitkyina.

"Did you get it, boy?" Duffy asked.

"Yeah, I got it, boss," the man replied.

Duffy quickly found the wallet the man had taken. He was charged with grand larceny.

Mexico's first navy was a tiny flotilla of armed rowboats.

CITATION BY PUBLICATION THE STATE OF TEXAS

To: Avery A. Dobson

GREETING: You are commanded to appear and answer the plaintiff's petition at 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday, the 11th day of September, A. D. 1944, at or before 10 o'clock a. m. before the Honorable District Court of Gray County, at the Court House in Pampa, Texas.

Said plaintiff's petition was filed on the 26th day of July, 1944. The file number of said suit being No. 7632.

The names of the parties in said suit are:

Leta F. Dobson as Plaintiff,

Avery A. Dobson as Defendant.

The nature of said suit being substantially as follows, to wit: Suit for divorce and custody for minor child.

Issued this 26th day of July, 1944.

Given under my hand and seal of said Court, at office in Pampa, Texas, on the 26th day of July, A. D. 1944.

Houston Garbagemen Go Out on Strike

HOUSTON, Texas, July 27—(AP)—Sixty-one of Houston's 97 garbage truck workers refused to make their regular runs today, announced W. G. Wilson, superintendent of the city garbage department.

Wilson said he did not know the cause of the trouble.

Employees in the street maintenance and cleaning division, which includes the garbage workers, voted last Thursday to strike yesterday if certain wage demands were refused by the city. Following talks yesterday with city officials, the city-county union voted to postpone the strike.

The city has 23 garbage trucks manned by 97 men. Wilson said 26 men took 12 trucks out of the city runs this morning to go on their routes.

The Isle of Man has an area of 221 square miles.

4 Teams To Meet Tonight in Last Games for Title

AUSTIN, July 27 (AP)—Four teams, Austin, Waco, Dallas and Lubbock, begin play here tonight for the junior American legion baseball championship of Texas.

Winners of regional titles then play a series beginning Saturday night. The second in the championship series will be played Sunday afternoon and if a third meeting is necessary a doubleheader will be on the boards for Sunday afternoon.

The winner goes to New Orleans to meet Louisiana, Mississippi and Arkansas champions Aug. 10 to 13. Austin's team is coached by Tony Burger, Austin High school mentor, and is essentially the Austin High school team.

Oilers Lose To Fliers, 4-1 The Pampa Army Air Field Fliers baseball nine defeated the Pampa Oilers yesterday afternoon at Roadrunner park, 4 to 1.

The field players racked up 11 hits, as against 5 hits for the Oilers. Three double plays were made by the Fliers—the first in the third inning, from third to second to first—the second in the fifth, short to second to first—third in ninth, from first to second back to first.

The Oilers scored 2 in the first inning and the third and fourth runs came in the fourth and fifth innings.

The Oilers scored 1 in the first inning; 3 in the second; 1 in the fourth; 1 in the fifth; 3 in the eighth, and 3 in the ninth.

Three More Games In July Series With a full schedule for August the Kiwanis Soft Ball league winds up its July series with only three more games to play.

Senior boys league shows First Methodist and Central Baptist playing at Roadrunner park.

Brewers Lambasted To Tune of 18-0

MILWAUKEE, Wis., July 27 (AP)—Three loyal Milwaukee baseball fans were still wondering today if it was their beloved Brewers who absorbed that 18 to 0 pasting last night in the American association's 10th all-star feature before a crowd of 12,000.

The Brewers have dominated the league since the start of the season, and one at a time the other seven clubs have been able to do so little with them that Casey Stengel's team leads the circuit by 10 1/2 games over second-place Louisville.

Last night the all-stars, an aggregation selected by the league's baseball writers, were the guys the Brewers were supposed to be. The stars belted five Brewer pitchers for 30 hits.

Abiene Racqueteer Wins In Tennessee NASHVILLE, Tenn., July 27 (AP)—Third-seeded Lt. Johnny Hyden of Camp Bartley, Abiene, Texas, pulled out of a hole Tuesday to take a thrill-packed match from Cpl. Wendell Macoby of Smyrna (Tenn.) Army Airbase in the Tennessee state tennis tournament.

Hyden won the first set 7-5, fell victim of an 8-6 marathon in the second and found his touch to cop the third, 6-1.

THE SECRET OF FRIENDSHIP A straight line is not the shortest distance between two points—not when you're lonely and it's friendship you're seeking.

Big Advance Is Seen in Sports

When the war is over we can expect one of the greatest athletic raids in history—raids not as spectacular, perhaps, as the onetime Federal league's invasion of organized baseball but one which will have a far-reaching significance and a more lasting effect.

This probability was advanced today by Hugo Goldsmith, an official of a Cincinnati athletic goods firm, who pointed out the raiders will be industry and the victims of its designs will be college and high school campuses, where coaches, athletic directors and star college athletes, winding up their careers, will accept the industrial bait.

The "bait," Goldsmith declared, will be career jobs as industrial recreation leaders and / or personnel directors—jobs which will appeal to coaches, athletic directors and coaching-minded athletes, since they will provide opportunity to continue on in athletic work at attractive salaries with possible future executive positions, depending upon ability.

Recreation has made tremendous strides in industry over the past five years and it will have an even more important place in the post-war era, when shorter working days create leisure time for workers and business executives, Goldsmith said.

Activities of a competitive athletic nature are forming the backbone of these industrial recreation programs, since the latest thinking is that all of us should find leisure time activity that will promote physical fitness and develop a competitive spirit.

Athletic directors, coaches and athletes, generally speaking, are well suited to direct recreation programs because of their experience on athletic fields, Goldsmith added.

U. S. Horses To Train On Mexican Track

MEXICO CITY, July 27 (AP)—The Hipodromo de las Americas, Mexico City's \$2,000,000 race track, issued a call today for its third training season, starting next Tuesday, and ready to answer the call were a record number of both Mexican and U. S. horses.

Breeding farms have sprung up throughout the republic, and President Manuel Avila Camacho, recipient of a "good will" horse, is one of the most enthusiastic of the owners.

Heading the stallions at the president's Rancho la Herradura is Foxbrough, champion two-year-old of England in 1938. This bay horse full brother to Gallant Fox and Fighting Fox, was presented to the

Mexican chief executive by the Jockey club of New York, whose chairman, William Woodward, called it a gift of international friendship and good-will.

Among other sportsmen setting a pace in horse breeding here is Bruno Pagliai, president of the racetrack. Pagliai and associates this summer brought to Mexico 22 broodmares, with foals, from the Valdivia farms of Texas.

John L. Sullivan, San Antonio, Texas, breeder, has established farms near a Guadalupe with three stallions and 40 broodmares.

Market Briefs

NEW YORK WALL STREET

NEW YORK, July 26—(AP)—The stock market ruled up general gains in the first hour today but as buying interest became apathetic in the later dealings most of the progress was erased.

It was one of the slower days of the summer with transfers at approximately 300,000 shares.

The comparative inactivity appeared to reflect general indecision among speculative followers as to whether last week's sharp decline from seven-year highs was a completed or only a partial readjustment of the market's technical position.

Ahead near the finish were Johnsonville, Allied Chemical, General Motors, Sears Roebuck, Oliver Farm, Consolidated Edison, Santa Fe and Great Northern. Standard Oil (N.J.) retreated about a point. Several of the rails also dipped.

Bonds were irregular.

Story of Guts And Know-How

WITH THE 90TH DIVISION IN NORMANDY, July 27—(AP)—

This is a story of the guts and know-how shown by the 90th Division since it hit the beaches on D-Day.

A typical example was the case of the buck private and a division lieutenant who pressed the selling side while prices are so near the loan level.

At the close wheat was unchanged to lower than yesterday's close, September 1.55 1/2, Oats were off 1/4 to 1/2, September 1.10 1/2, Rye was 1 1/4 to 1 1/2 lower, September 1.08 1/2, Barley was off 3/4 to 1, September 1.13 1/2.

Mexicans Arrive For Six-Months' Course

LAREDO, July 27—(AP)—

Officers and men of the 201st military aviation squadron, first full unit of Mexican armed forces to undergo combat training with Allied forces, passed through Laredo last night enroute to Randolph Field, Tex., for a six-months stay.

More than 5,000 persons jammed both sides of the international bridge to cheer the Mexican troops, and there was an international reception at the border attended by high Mexican army officials and high officers of the U. S. army's central flying training command at Randolph.

(An official announcement in Mexico City said a special train taking the men to Randolph Field went through Saltillo and Monterrey yesterday, and that all along the route authorities tendered them a rousing reception.)

Harvest Convention Will Be Held Sunday At White Deer Church

Special To The News.

WHITE DEER, July 27—Dr. T. C. Gardner of Dallas, state secretary of the Baptist Training Union, and Dr. John R. Cobb, dean of Wayland Baptist College, will be the main speakers at the Harvest convention to be held at the First Baptist church here next Sunday, July 30.

This convention will take the place of the annual Homecoming Day instituted in 1927 during the pastorate of the Rev. E. Douglas Carver.

The program for the day will begin at 9:45 a. m. with a song service led by Virgil Coffee, choir director of the local church. The pastor, Rev. J. W. Hardin, will give the welcome address to which Rev. Carver, now pastor of the First Baptist church, Pampa, will respond.

Forage Crop Seeds To United Nations

CHICAGO, July 27—(AP)—

The War Food administration has allocated to the United Nations, friendly neutrals and liberated areas for the 12 months beginning July 1 about 35 million pounds of the 700-million pound supply of grasses and small legume seeds for forage crops.

Announcing the allocation, WFA said the supply of seeds for forage crops is several million pounds short of the estimated needs for the second consecutive year. Seeds for 1945 grain crops, the announcement added, appear in ample supply for all needs.

WFA attributed the shortage in forage seeds to the "hazardous nature of the crops" and said the prospective supply of sudan grass, grown principally in Texas and Oklahoma, was about 50 per cent short of estimated needs and that supplies of northern grown alfalfa were critical.

Unrequited Candidate Is Offered Succor

MONROE, La., July 27—(AP)—

Lieut. Ted Miles, Selman field pilot who was defeated by a narrow margin in his state senate race from the 24th Texas district in Saturday's Democratic primary, said today that the race was his "first try at a political office."

Lieut. Miles, returning from Abilene where he went Monday by plane, said he led in the vote of 9 of the 12 counties in his district and "greatly appreciate the support I received."

A fellow Texan at the Selman field pre-flight barber shop offered the losing candidate recompense of a free haircut together with a shampoo and tonic.

The bedstead on which George Washington died at Mount Vernon was made by a New York cabinet maker in 1789.

AP Photographer Is Killed in Normandy

LONDON, July 27—(AP)—Bede Irvin, Associated Press war photographer, was killed in action on the Normandy front yesterday, U. S. army authorities announced.

Word from the public relations office of the U. S. Ninth Air Force said Irvin was killed near Pont Hebert, four miles north of St. Leger, this week. Irvin was killed in action in 1943. A third AP man, Witt Hancock, has not been heard from since March, 1942, when he was attempting to escape from the Japanese in Java.

Death Rate Among Wounded is Light

LONDON, July 27—(AP)—Maj. Gen. Paul R. Harvey of the U. S. Medical Corps, reporting an "excellent achievement," said Tuesday the death rate among wounded American soldiers admitted to U. S. army hospitals in Britain had been four of every 1,000 patients. Among wounded treated by medical units in the combat zone, the rate was less than three per cent for the period from D-Day, June 6, to June 30, he said.

Niagara Falls has shifted its position nearly a quarter of a mile in the last 264 years.

Famous Ranger Didn't Pay Out

(Editor's note—Another in the highlights of Texas oil series, linked with the 25th anniversary of the Texas Mid-Continent Oil and Gas Association.)

The world had never seen anything like Ranger and the circumstances surrounding it—80 the rock-ets soared into the stratosphere before the inevitable descent of the slick.

Experts were gloomily predicting a world oil famine—and then came Ranger, where one month each new well averaged 712 barrels a day, compared with 165 barrels for the nation as a whole; and where it seemed the drill could hardly miss, with a score of 80 producers out of 87 tests that same month; and where the field seemed immense for the week the Duke well came in at Desdemona, (many miles south of Ranger), there was a gusher completed, 15 miles north of Ranger. Was it any wonder that the public, new operators and even experienced executives of oil grew excited?

Frenzy resulted. One company announced an order for 180 derricks. At Desdemona, two months after the discovery, 300 wells were drilling and 750 others were awaiting equipment. The Texas Pacific Coal and Oil Company (capitalized at \$2,000,000 before it drilled the McCleskey) was reported to have rejected \$120,000-

000 for its holdings, and made a series of deals whereby it leased various of its many tracts for large sums and retained a half interest, with the purchaser paying the cost of drilling the first well.

Tex Richard, famous boxing promoter, took over a 10-acre lease, agreeing to pay the lease-owner \$50,000 if the first well averaged 1,000 barrels a day the first 15 days—(it averaged 1,300 barrels). In addition, Richard agreed to give the lease-owner a half interest in all the wells drilled, with Richard paying the entire cost—in effect, a half royalty, besides the landowner's one-eighth, leaving the operator only three-eighths!

One writer predicted the field would produce a billion dollars' worth of oil before it began to lag. Another "expert" scoffed at such conservatism—why, it would take nine billion dollars just to pay for drilling the wells necessary to drain the ocean of petroleum!

But the descent was far swifter than the climb had been. In the race to produce as much oil as possible, gas pressure was speedily exhausted and giant gushers became small pumpers. Dry holes increased and the limits of the field were defined. Discoveries in other parts of the country brought overproduction, and Ranger crude tumbled from \$3.50 to \$1 a barrel.

A farmer, worth several hundred thousand dollars, lost everything and peddled balloons on the street in the next boom town. A country school teacher, who had owned office buildings, lumber yards and banks, saw all the banks fail and his entire fortune, estimated at \$7,000,000 swept away. A landowner dropped from riches to rags and went around with a hound and a fiddle, passing his hat. Another millionaire, who had bought a palace in Dallas, lost all—and was given a job by a friend, his only duty being to cheer up his employer with jokes and droll sayings.

Ranger never "paid out." It never came close to paying out. Legend says one company spent \$40,000,000; got back \$11,000,000. Whether this is literally true or not, it probably is illustrative of the heavy losses the oil industry sustained there as part of its endless quest to find crude that the world needs.

OUR MEN IN SERVICE

SERIOUSLY INJURED

Sgt. Robert R. Kuntz, son of Mr. and Mrs. Lloyd R. Kuntz, 839 W. Francis, has been seriously injured in action near Chungking, China, the family was informed this week. A gunner on a B-24 operating in the India-China theater for about 3 months, he enlisted March 19, 1943, at 19. For some time he served in South America. The telegram to the parents reads:

Regret to inform you your son, Sgt. Robert R. Kuntz was seriously injured in action 13 July in Chungking, China. Letter containing present mail address follows. It was signed by the adjutant general, War Department.

TAKES PART IN BATTLE—
SM 2c Dell Foran, brother of Edward Foran, 1237 Duncan, and son of Mr. and Mrs. H. B. Foran, of Cincinnati, Iowa, is a radio man on an escort vessel and recently returned home from that he termed (in an article written in a Center-ville, Iowa paper) was one of the largest submarine and escort battles of the war.

He is the 14th child of Mr. and Mrs. Foran. SM 2c Foran has been in service since 1942. While he was on this trip, his wife gave birth to a 7 1/2 pound boy in New York City.

A portion of a letter, which was part of the article, is as follows: "We just got back from Russia and took part in the largest escort and submarine battle, yet waged in this war, off the northern coast of Norway. This happened going up and coming back we picked up survivors from a torpedoed ship just in front of us. This also took place in the same zone."

WHITE DEER
Among the servicemen who have

been at home during the last few weeks were Pvt. Lawrence Warminski, Lt. Lowell Potter, and Sgt. Clifford Bednorz. Pvt. Warminski, who was stationed at Chandler, Ariz., for nearly two years, was transferred a short time ago to Santa Fe, N. M., where he is an aviation mechanic. He is the son of Mr. and Mrs. E. S. Warminski.

Lt. Potter, son of Mr. and Mrs. W. L. Potter, has returned to Sebring, Fla., for advanced training as a B-17 pilot. He received his wings at Blytheville, Ark. His sister, Mrs. Hal McDonald, and Dr. McDonald of Fortales, N. M., also visited here during his leave.

Sgt. Bednorz, who has spent 18 months overseas, is now at Ft. Belton, Va., where he is attending officers' candidate school. He is the son of Mr. and Mrs. L. J. Bednorz. Other servicemen who have been visiting in White Deer recently or are here now are Sgt. Ernest Richardson, son of Mr. and Mrs. Riley Richardson; Captain John Wells, son of Mr. and Mrs. J. W. Wells; Fred Urbanczyk, son of Mr. and Mrs. John Urbanczyk; Al Jordan, husband of Mrs. Ayleen Edwards Jordan; Cpl. Hansel Ingan, son of Mrs. J. O. Ingan; R. D. Seltz, son of Mr. and Mrs. Roy Seltz, and Cpl. Lansin Osborne, son of Mrs. J. N. Osborne.

A. L. Stovall, Milfred Bichsel, and Herbert Rapstine were among the Carson county men who left Wednesday for induction into the various branches of the armed service.

Lt. (jg) John Williams, son of Mrs. Fannie Williams, was second in command on one of the craft which made the first landing on the Normandy coast and Lt. Oscar Phillips, Jr., wrote his father that he was the 20th plane to cross the channel on D-Day. Horace Williams, son of Mr. and Mrs. O. C. Williams, and Chester Nunn, nephew of Mrs. J. W. Everly, are two other White Deer boys who at this time are known to be in France.

Oil Price Ceilings Into Effect July 31

WASHINGTON, July 27—(AP)—The Office of Price Administration has announced six changes, each affecting a different area, in its regulation covering price ceilings for fuel oil, gasoline and liquefied petroleum gas.

Effective July 31, the revisions include: For distillate Diesel oil lower than 28 degrees gravity sold at gulf coast port and in the New Orleans area, a uniform maximum price of \$1.35 a barrel is established. An increase of 10 cents a barrel is allowed when quantities of 20 barrels or less.

Dollars-and-cents ceilings are provided for sales of kerosene, distillate fuel oils, gas oils and gasoline, P.O.B. refineries, at lower inland Texas points. One schedule covers shipments to the eastern seaboard, another to all other Texas points. OPA said the new ceilings were substantially the same as those established earlier on individual applications of companies.

OPA also ruled that quotations published in the Oct. 8, 1941, issue of the National Petroleum News for gas oils 6 and 8 grades, cannot be used as ceilings for sales of these products. The agency said specific ceilings have been provided for gas oil sold on the gulf coast.

275 Bbls. 40-Gravity Oil in Five Hours

PONCA CITY, Okla., July 27—(AP)—Production of 275 barrels of 40-gravity oil in five hours on a 6-inch choke has been achieved by the Continental Oil company's Hundley No. 1, ten miles east of Bowie, Texas.

The firm announced that the Montague county Wildcat, drilled to 8,018 feet, was perforated and is producing in the conglomerate at 6,228-35 feet.

Have a Coca-Cola = Viva! (YEAH MAN!)

...or being the good neighbor in Brazil
Your American's good-natured invitation Have a "Coke" is a good-neighbor policy in three short words. It marks that brand of friendliness which our fighting men carry with them everywhere among our Allies. In many lands from Alaska to South Africa, Coca-Cola is spreading the custom of the pause that refreshes—that refreshing moment devoted to just being friendly. Enjoy it at home, too, with frosty Coca-Cola from your own refrigerator.
