Lawmen Crack Down On Auto Parts Thieves

WHEELER — (Special) Sheriff Bus Dorman and law enforcement officers of Sayre, Okla., are in hope of breaking up an auto parts theft ring today. They believe the group has been operating over several counties in the Panhandle and extending operations into Oklahoma.

Sayre officials yesterday arrested one man and hope to catch two others today. The suspect being held was found with auto generators, heaters, radios and antifreeze which are believed to be some of the loot taken from Ware Chevrolet Co. in Wheeler Dec. 17, and from Deke Motor Co. of Shamrock Feb. 17. Missing items from Wheeler include radios, heaters and 17 cases of antifreeze. They recovered six radios in addition to heaters and generators.

The loot was found in the Hill Top Service station in Sayre. Law officials are seeking an auto dealer who they think was to use the stolen accessories on used cars.

Wheeler officials have filed for extradition papers to bring the Sayre suspect to Wheeler.

Condition Of Accident Victims 'Fair'

The condition of three Canadian men injured in an accident Sunday when a car in which they were riding overturned, was described by hospital authorities today as "fair."

A fourth passenger was released from the hospital this morning. Injured were James Newman Brown Eulin D. Andrews and Thurman Alcock. Released was Glen Howard Bennett.

Highway patrol said the car, going east on U. S. Hwy 60 west of Miami went out of control due to icy conditions about 1:25 a. m. Sunday, and overturned, demolishing the vehicle.

A second car containing four occupants skidded off Hwy 66 west of McLean about 1:45 p. m. yesterday and hit a concrete culvert, finally landing in a ditch. Involved were Mr. and Mrs. Paul E. Loggins whose conditions are "fair" in a Shamrock hospital, and their two children who were not injured.

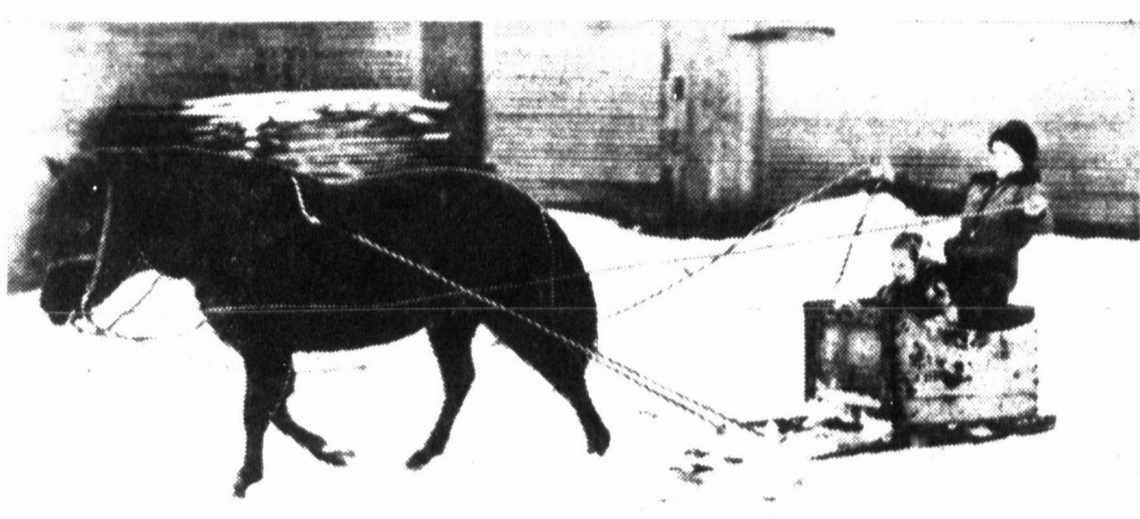

About 5 p. m. on Hwy 66, three miles from the previous accident, a third vehicle overturned, slightly injuring an unidentified Oklahoma driver who was treated in Panhandle.

No one was injured in an accident at 12:30 p. m. yesterday at (See ACCIDENT Page 8)

Rites Tuesday For Frank Riley Allen In Lefors Church

Funeral services will be held at 2 p. m. Tuesday in Lefors for Frank Riley Allen, 42, who died of a heart attack Saturday.

Services are to be held in the First Methodist church with Rev. Newton Daniels, former pastor now of Lockney, officiating, assisted by Rev. H. B. Hicks, pastor of the church.

FUN IN THE SNOW — Snow, a pony and a little ingenuity added up to some fun for these two youngsters Sunday. The driver, Bob Coombes, 11-year-old son of Mr. and Mrs. A. P. Coombes, rigged up a sled to the sledland mare loaned him by Ernest Aron of Pampa. The happy rider is Sue Horton, daughter of Mr. and Mrs. R. E. Horton, 608 Naida. Bob, who is driving his sled at Recreation park, had worked the pony for only three days. (News Photo)

Area Begins Digging Out Of Drifts Following Blizzard

Area highways were being cleared and near normal traffic resumed this morning after blizzard conditions yesterday blocked transportation several hours. Snow in Pampa and the Panhandle began falling early Sunday morning and continued throughout the day. Strong north winds piled the snow into drifts and reduced visibility greatly causing hazardous driving conditions.

By 11 a. m. it was estimated at the KPDM transmitter four inches of snow had fallen, and .25 inches of moisture had been measured. Temperatures during the 24-hour period hovered below the sub-freezing mark turning the snow to ice in some spots. High recorded yesterday was 32 with the low shortly after midnight Sunday, 19. From the low of 14 at midnight last night temperature had risen only two degrees by 11 a. m.

John W. Gilliam, manager of the Pampa Bus Terminal, said roads east have been opened and traffic is getting through normally. Until early today Gilliam said roads between Pampa and Oklahoma City were blocked at Laketon and Mobeile. One bus leaving here at 7:15 p. m. yesterday had not arrived at Oklahoma City this morning and two buses leaving there yesterday afternoon did not arrive in Pampa until early today, he added.

Roads to Amarillo, although clear, still are hazardous, and State Highway patrolmen warned that traveling should be done only if necessary.

Most trains through here were on schedule with the exception of one eastbound train that was one hour late this morning. Central Airlines planes were bypassing the Pampa airport because of icy runways, and airline officials doubted whether conditions would clear today.

Pampa schools remained open despite the storm. Knox Kinard, superintendent of schools, said that schools will be operated normally, and with the exception of a few transportation difficulties there have been few problems encountered. Only a few spots south of Pampa are isolated to buses, he said.

Cold weather caused a power failure for one hour and 15 minutes today when a wire broke about 6:15 a. m. stopping power in the west central part of the city. Joe Key, district manager of Southwestern Public Service Co. explained that the wire probably expanded and broke due to extreme cold.

Rufe Jordan, Gray county sheriff, and a wrecker from the C. M. Jeffries Trucking Co. last night assisted in pulling 17 stranded cars and one bus through drifts near Laketon.

The weather bureau said West Texas would have occasional snow today. Much colder temperatures were expected over all the state except extreme southern portions.

Weathermen would not guess (See AREA Page 8)

Jap Leaders Depurged Clean French City

TOKYO — (AP) — The government today depurged 290 wartime leaders, some of them dead. The live depurges may seek public office.

Among the dead cleared of wartime responsibility was Adm. Kantaro Suzuki, the premier who steered war-losing Japan to the surrender in August, 1945.

However, the natural heart action resumed. The doctor said pumping of oxygen to the brain was stopped for probably no longer than two minutes at the start.

Bids On Sewer Pipes, Water Lines Eyed By Commission

City commission, meeting Tuesday, will consider three sets of bids on sewer pipe, water lines and fire hose.

Officials this morning said commissioners will open bids for six and eight-inch cast-iron water pipe plus cast-iron fittings and fire hydrants. The city plans to buy 30,000 feet of six-inch and 9000 feet of eight-inch pipe plus about 40 fire hydrants.

Also coming up for consideration will be clay sewer tile ranging in size from four-inch to 10-inch pipe and fittings, and including six and eight-inch tile. These sets of iron and tile pipe are being bought primarily for extensions to present lines in the city to the new additions.

The commission will also open bids on 800 feet of 2 1/2-inch fire hose.

Bids are to be opened March 4 for 16-inch mains and 18-inch outfall sewer lines and a smaller outfall line along Crawford through Prairie Village, new addition to the south part of town. These bids will be for a turnkey job with contractor supplying the pipe.

School Board Meet Not Expected Today

School board members this morning said it is not likely the board will meet today.

Board President H. R. Thompson said one member, A. C. Troop, is ill and would not be able to attend the session. School business manager Roy McMillen would not be able to be present. He is in Truth or Consequences, N.M., and is not expected to return until the end of the week.

Supt. of Schools Knox Kinard said he knew of no important business scheduled and that routine matters could be postponed until another meeting. The board meets the second and fourth Mondays of each month.

Organizing Scouts In Skellytown Area

SKELLYTOWN — (Special) — Mrs. P. E. Stephenson, aided by Pampa Girl Scout leaders, is organizing Brownie Scouts in the Skellytown area. She has asked mothers of girls, age 7 to 12, who are interested in their girls becoming members, to meet with her at 3 p. m. Tuesday in Skellytown grade school.

He described his family, including "my mother-in-law with whom I manage to agree." He said he is a property owner, a taxpayer, and has never been charged with serious crime.

No Marine Group Promised..HST

No Authority For Order To European Duty

WASHINGTON — (AP) — Sen. McFarland (D-Ariz.) quoted President Truman today as saying no Marine division has been promised for service with European defense forces.

McFarland, the Senate Democratic leader, told reporters Mr. Truman had given him and other congressional leaders this assurance at this regular Monday morning conference.

Some concern had been stirred in Congress by published reports over the weekend the United States had promised a division of Marines next year for the defense of Western Europe.

The report was in dispatches from Lisbon — not carried by the Associated Press — and was attributed to a source high in the councils of the North Atlantic Treaty Organization.

McFarland said the matter was discussed with the President while the congressional leaders were being "briefed" by military officers on the general military picture. Such a "briefing" has come to be a routine thing at the Monday meetings.

McFarland added: "We found out there has been no authority for any such commitment to be made. No commitment could have been made, for the President is the only one with authority to make the commitment, and he has not done so."

Other Capitol Hill leaders at the conference were Vice President Barkley, Speaker Rayburn (D-Tex.) and House Democratic Leader McCormack (Mass.). It was the first conference attended by Barkley since his recent eye operation.

HAM AND YEGGS

CANTON, O. — (AP) — Sheriff's deputies today were trying to depule the case of the ham and yeggs.

The yeggs blew a safe in the Brookside Provision Co. piling 15 hams on top of it to hold it down and muffle the blast. They escaped with \$1,725.

Senate Group Asked To Delay Action On President's Plea For Revolutionary Powers

WASHINGTON — (AP) — Chairman McCarran (D-Nev.) said today he wants his Senate judiciary committee to postpone action on President Truman's "unparalleled request for revolutionary powers," as McCarran put it, for corruption investigator Newbold Morris.

In advance of a closed meeting (9 a. m., CST) to consider the matter, McCarran declared: "I am going to recommend that we give much more extensive study to this request for authority to set up an inquisition, if you please, which could deny Congress access to important information in its own investigations."

Three Republican members of the committee — Senators Ferguson of Michigan, Wiley of Wisconsin and Watkins of Utah — also said before the meeting that they favor more study of the President's request.

Mr. Truman asked that Congress empower Morris to (1) grant immunity from prosecution to witnesses and (2) issue subpoenas for persons and documents in his investigation of a wrongdoing in government.

A week ago McCarran set up a judiciary subcommittee with himself as chairman to look into the Truman request for cleanup powers. The group was instructed to report to the full committee today.

McCarran said in an interview he would report "no sentiment at all" in the subcommittee for giving Morris authority to promise witnesses immunity from prosecution. The House judiciary committee already has rejected the President's request for such authority, but has taken no action on the subpoena power issue.

Morris said last week he had not asked for witness immunity authority. He added, however, that he might just as well quit if he didn't get subpoena power.

McCarran said today he would favor granting subpoena authority only if Congress provided it would have access to any material Morris obtained — a few Ferguson has said he shares.

"As it stands, this is an unparalleled request by the President for revolutionary powers," McCarran said. "If we granted the request without reservation or limitation, Mr. Morris could conduct an inquisition and then sequester documents and evidence."

And we could do nothing about it, on the basis of past experience in cases where Congress has tried to obtain certain information from the Executive Dept."

McCarran said that because the President's proposals are "without precedent in the history of our country," he feels sure the full judiciary committee will agree that the matter should have more study.

The chairman said, however, he couldn't go along with Ferguson's (See SENATE Page 8)

Funeral Today For J. M. Glover, 86, In Wheeler Church

J. M. Glover, 86, died about midnight in Shamrock hospital. He is the father of M. L. Glover, Rt. 2, Pampa.

Funeral services will be held at 5 p. m. today at the First Methodist church in Wheeler with Rev. W. E. Fudall, pastor of Wheeler Nazarene church, officiating. Burial will be in Oklahoma City.

Mr. Glover is survived by two other sons, Marion of Spearman and Charlie of Fort Worth; one daughter, Mrs. Fanny Smith of Shamrock; and eight grandchildren and two great grandchildren.

He had lived in Wheeler about 12 years moving there from the Rio Grande valley.

Richardson Funeral home of Wheeler is in charge of funeral arrangements.

Two Pampans In New College Choir

Two Pampa students are members of one of the newest organizations on the Wayland campus.

They are Wanda and Cecil Roenfeldt.

The Pampans are members of the Wayland Words, a speech choir, under the direction of Mrs. Lake Pylant, head of the church recreation department.

The choir will do readings, poetry, stories and scriptures. The 15 members have been chosen at random from the student body and will be available to present programs in churches and schools in the Plains area, according to Mrs. Pylant.

SIGNS OF THE TIMES — A tree, its limbs weighted down by snow and ice, and a five-foot snow bear testimony to the type of weather Pampa and the area have experienced since Saturday. It would appear that Leon Sharpe, 617 N. Wells, is trying to harvest the icy fruit borne by the tree of ice at the corner of Sixth and N. West streets. Jimmy Turlington, 625 N. Hobart, places a cap and ear-muffs as the finishing touches to his snow man which he built Sunday. (News Photos)

Texas Swaps Catfish

DENVER — (AP) — The Colorado Game and Fish Dept. said it has sent three Colorado Big Horn Mountain sheep to the state of Texas in exchange for some Texas catfish.

The department did not state the prevailing rate of exchange.

One of Texas' Five Most Consistent Newspapers

Published daily except Saturdays... Subscription Rates

We believe that one truth is always consistent with another truth.

Should we, at any time, be inconsistent with the truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

For some reason, a great many bureaucrats take a peculiar delight in denouncing business.

An Old Trick

An anonymous Office of Price Stabilization official provides a current example of this dangerous and insidious stratagem.

It is undoubtedly true that somewhere somebody has misunderstood or misinterpreted a technical regulation laid down by O.P.S. to govern the selling of meat.

All this to one side, to make a blanket accusation against a major industry, without specific evidence, represents an extreme of official recklessness.

Victims

It is an interesting fact that one of retailing's biggest headaches today is declining profits.

This is the best answer to those bitter consumers who believe, quite sincerely, that inflation and high prices are a boon to the storekeeper.

Under-18 Restriction

CALGARY, Alta. — (AP) — Recruiters are being urged to accept jobs as counter girls, waitresses or hotel chambermaids without written permission of their parents.

"Government And Moral Law"

Here is more of a speech made by Ben Moreell on "Government and Moral Law" before the Illinois Manufacturers' Association.

Under the sub-heading of "Moral Law and Social Gains," Mr. Moreell continues as follows:

"Unfortunately, the consequences of breaking a moral law enmesh the innocent along with the guilty. What is worse, moral law seems to be the only one that remains constant in the face of the evil of their forefathers."

"In previous discussions of government restrictions on individual liberty and the free market economy, I have had this question hurled at me: 'All right, Admiral Moreell, what would you have government do? For example, would you advocate a free enterprise policy for the steel industry?'"

"I believe that most of us agree on the propriety of the police and defense powers of government which are designed to protect all of us equally against internal or external aggression. And we are agreed that there should be no private police force except by permission and under control of government."

"But to examine the idea of a government monopoly in carrying the mail. For there are several lessons to be learned from such an examination."

"First, do you believe that it is more difficult to deliver a letter from Pittsburgh to New York than it is to deliver a pound of steel? I think not."

"Then is this mail business monopoly justified because government provides better facilities? My studies reveal that private enterprise has invented and developed practically every improvement that government now uses in the mail business. Among these are collection boxes, automatic mailing machines, stamping machines, wrapping and tying machines, stamp vending machines, and many others—including trucks, railroads, ships, and airplanes."

"Possibly, then, the reason for this monopoly is because government can deliver the mails cheaper? On examination, however, this theory also collapses. Few people know that government and private companies once competed in the mail business. Among the private companies which carried mail were the Pony Express, Overland Mail, Wells Fargo, Vanderbilt, Adams Express,

"The legal device of declaring lines of communication 'post roads' was used to establish monopoly. But it was necessary to bolster this monopoly with liberal subsidies, thus making it unprofitable for private enterprise to 'bootleg' mail service, which they actually did before the subsidies killed them off. In 1813 the navigable rivers were declared to be 'post roads.' And in 1896 rural roads were preempted wherever rural free delivery was desired. Now the ship lines and airways are under this monopolistic jurisdiction."

Baxter's Views

BY DAVID BAXTER

13TH AMENDMENT

My face is a little red these days due to an unintentional error in having passed before this gets into the U. S. Constitution—the Involuntary Servitude Amendment. It came out the 18th instead of 13th.

I'm glad there were at least two wide-awake friends who knew their Constitution well enough to immediately write me about the error. The 18th Amendment, of course, was the Prohibition Amendment, the Volstead Act. When I was writing the article, I had an '8' instead of a '13' on the typewriter. I intended to correct it later, as I usually write a complete column, then go over it to correct mistakes.

Next year you will see her as the lead in Robert E. Lee and Jesse James, a top budget picture. The picture will be shot half in Virginia and half in whatever state the James boys come from.

Henry's Going To Hollywood

So He Practices On A Column

By HENRY McEMORE

In a month or so I'll be in Hollywood, which means I must write a Hollywood column. So today I'm going to practice.

Seen on the Strip last night? Mrs. Bing Van Buren window shopping. If she hadn't worn a sign with her name on her back, nobody would possibly have recognized her. Mr. and Mrs. Horn James waving at their friends as they drove away in a combination Rolls-Royce-Jaguar.

Chili Beattie Williams has taken a house in the ultra-exclusive section of Bel Air. Millions of fans adore her, but do you know what she's doing? She's moving in without a stick of furniture or a stick of soap.

From Hollywood to New York on the Super Chief? Mr. and Mrs. Ben Higletower. Ben is president of the Dogfood Television Co. Willie May Glutz was to be seen in the superdupper production, General Grant.

Wanda Weycross had better watch her weight. Moviegoers like their stars, and if Wanda had started watching her diet, Darryl Hays told me at a party the other night, Wanda was one of the best actresses he had, but five more pounds and she'd become a character actress. Buzz Stewart has set up his own producing company, and if Stewart's picture goes the way they have before, buzz stanzas to make a haul million dollars every day. His pictures will be released by free balloon.

Forget all the rumors of a rift between Nightingale O'Dare holding hands last night at Cito's. I saw them, and they were in love all over again. Nightingale leaves for the Cape of Good Hope next week and will be gone three years on location. Huck is going to the San Fernando Valley to shoot a picture.

"My recommendations for this year's Oscars Betty Longacres in The Radiator is Very Cold; Barry Brennan in Where the River Shanon Flows, best character actress, Selznick Jenner in Call Me Willie, best character actor, Phil Pheebie in Tugboat Paragon."

National Whirligig... Taft-For-President Forces Rolling Smoothly Over Nation

By RAY TUCKER

WASHINGTON — The Taft-for-President organization has begun to function as smoothly as the T. E. Roosevelt "steamroller" that nominated its father in 1912.

On the other hand, the Eisenhower amateurs are still floundering. The Taft total of probable delegates is now estimated at 450 by its promoters, with about 605 necessary for nomination.

That is the central fact of today's GOP situation, regardless of future developments and the identity of the eventual nominee. The Eisenhower faction realizes that, unless they can bring the general home soon and place him on the stump, Taft will so far outstrip them that he may go over on the very first ballot.

OBJECTIVES — As a result of the Lincoln-Washington birthday period, the Ohioans' skilled operators are now concentrating on two objectives. Their campaign operations extend from Maine to Texas and from Oregon to Florida, an extensive territory which their hard-riding candidate has almost covered already.

The first objective is to amass such strength that "Ike" will be discouraged enough to remain silent and in uniform 3000 miles away from the scene of political battle. His own partisans concede that such an indirect course and attitude will eliminate him from serious consideration by the convention.

The second Taft aim is to place him so far in front in the next few weeks that all talk of a deadlock and a compromise choice — Warren, MacArthur or Stassen — will die out.

Lately, they have felt some worry over a sporadic but scattered boom for MacArthur, whom they had counted as a camp-follower, if not an actual supporter. Sufficient to them to know that he is awedly anti-Eisenhower.

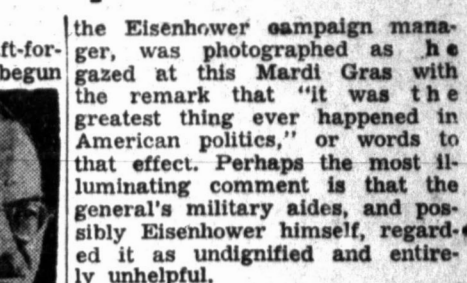

AMATEURS — The difference between the Taft and Eisenhower organizations is that between a group of experienced and skillful veterans and a bevy of likable but inept amateurs, with the possible exception of Senator Duff of Pennsylvania and Governor Dewey of New York.

But Dewey is such poison to GOP leaders and rank-and-file that his remarkably efficient machine cannot operate openly, even in New York. When his pro-Eisenhower associates want to consult him, they enter and leave Albany by night trains, or ask his advice over long-distance telephone.

In Pennsylvania, Duff faces opposition from Gov. John S. Fine as well as the Grunert-Owlett group, which may split the delegation between MacArthur and Taft, with "Ike" getting less than a majority.

CARNIVAL — The Madison Square garden carnival to stir Eisenhower sentiment was to the juvenile tactics of his promoters. Most of the 15,000 consisted of boxing fans who remained over after the end of the usual weekly bouts. Many others probably attended to get a free look at Irving Berlin, Ethel Mergerson and other Broadway stars. They always draw a crowd anywhere.

The starry-eyed Senator Lodge, about Prince Phillip during World War II when he was unmarried. Splendid anecdotes, but not as here.

the Eisenhower campaign manager, was photographed as he gazed at this Mardi Gras with the remark that "it was the greatest thing ever happened in American politics," or words to that effect. Perhaps the most illuminating comment is that the general's military aides, and possibly Eisenhower himself, regarded it as undignified and entirely unhelpful.

SEASONED — Meanwhile, Taft has shown his determination and resourcefulness by assuming personal charge of his forces. By contrast, in 1948 he remained on the Senate floor during the pre-convention period. He did not reach Philadelphia until late afternoon before opening a day after attending a Senate session until 3 a.m. that morning.

His chieftains are seasoned warriors. Former National Chairman John D. M. Hamilton has Pennsylvania. The Taft forces have New England, New York and Virginia. Paul Williams, an old shocked the opposition by sign-Driscoll aide, as their representative in New Jersey. David S. Ingalls, Taft's cousin, and Tom Coleman, Wisconsin boss, are looking after the Middle West.

INFLUENTIAL — The Taftites stole former National Committeeman Roy Dunn from the Stassen camp in Minnesota. They lifted Sen. Andrew F. Schoepel, although he represents the Eisenhower faction. A recent accession, is Sen. Eugene C. Millikin of Colorado, GOP policy leader in the Senate, who served in MacArthur's division in World War II.

Former Rep. Carroll Reece, who had to work under wraps for Taft in 1948 because he was then national chairman of the American People's Party in the South. A non-political but extremely influential figure in the West is Marriner S. Eccles, former head of the federal reserve, who has banking, railroad, farming and construction connections in that area.

PREFERENCE — All polls of the national committee, members of Congress and the state and courthouse boys, show Taft as the preference by a wide margin. In popular taste, he has caught up with Eisenhower, despite the increased activity on the general's behalf and his announcement that he is willing to run.

In view of this summary, which represents the practical political outlook, it is obvious that the Eisenhower forces must cut out the hoopla, and get down to hard work. Even then, it is agreed that "Ike" must answer his admirers' prayers that he "come home on the next boat."

An old man was sitting on the porch of a little village store when a high shiny car drove up with two strangers in it. "Hey, there," one of them called out. "How long has this town been dead?"

The old man looked at them over the rim of his pipe. "Well, not long, I guess. You're the first buzzards I've seen."

James Auto Float Trues And Balances For Road As Well As Axle

Clothes Care Simple Matter Because Of Modern Cleaners

It's hard to conjure up a mental picture of all the cleaning worries that must have beset people in the olden days. Clothes must have looked pretty shabby indeed by the time various home methods were used before the advent of modern cleaning processes and the building of cleaning establishments.

Think of experimenting on a favored item of apparel when the outcome would be a moot result. There was undoubtedly a great deal more expense and a lot of wasted time, added to the worries of the fastidious homemaker.

Now switch the idea around and contemplate the ease by which clean, well kept wardrobes can be maintained today. It's such a simple matter and one people have grown so accustomed to that they seldom appreciate the ease and economy that has been added to living by the modern cleaners. The cleaner goes steadily about its work—using and unheralded, yet one of the manifestations of progress.

Such an aid to easy living is Service Cleaners, located at 312 South Cuyler. Here, as close as your phone when you call 1290 is reasonable, efficient wardrobe care. The representative of Service Cleaners will pick up your clothes and deliver them to you ready to wear.

You can be confident that they will be expertly cleaned and pressed. No doubt as to the result here. No experimentation. They are cleaned by a proven process.

And added to the service of cleaning your garments are the many extras that mean long wearing and a well-dressed appearance for the owner. Mitten repairs are automatically taken

care of by Service Cleaners. These things are part of that seldom thought of "service," that they impart without any extra charge. Promptness too is a keynote and clothes receive immediate attention by master cleaners who are specialists when it comes to cleaning and renovating quality clothes.

Now that winter has been in progress these many months most people are tired of winter clothes. The best way to make the best of attire demanded by chill winds and a distant sun is to always be sure they look their best. If they are freshly cleaned and well pressed they will be a joy to wear until summer gets here.

And when clothes are kept well cleaned it's really an economy measure. Any responsible manufacturer of clothing and clothing materials will subscribe to the statement that regular trips to the dry-cleaners for wearing apparel will substantially lengthen the life of the clothing so treated.

And remember that the Service Cleaners' establishment is operated in a highly efficient manner. All the equipment employed by the firm is of the most modern and up-to-date type. Every effort is expended to guarantee the ultimate in cleaning of each garment submitted for treatment and handled by the Oliver Jonas firm.

Owner Of Painting Sought By Captain

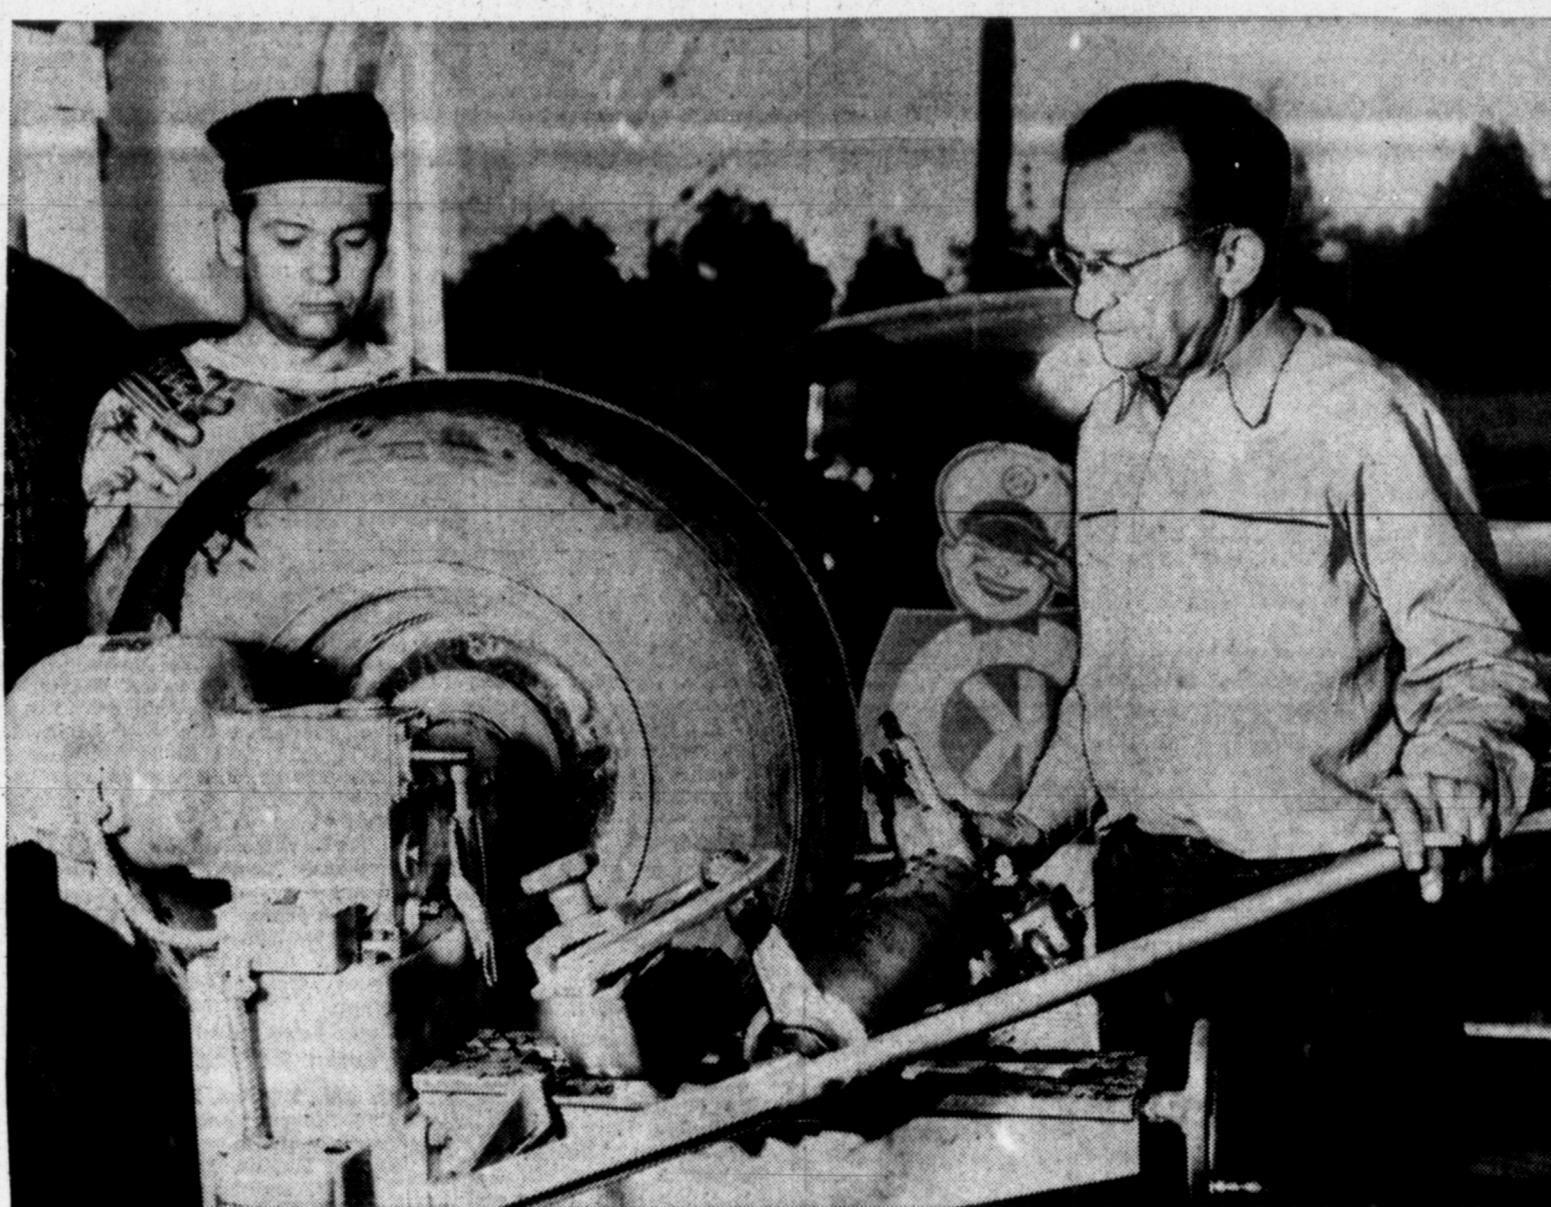

NEW YORK — (AP) — An Army captain would like to find the owner of a painting of two children which his wife received from Korea by mistake.

The soldier, Capt. S. R. Eiszitz, now stationed at the 1st Church St., New York City, mailed a package from Korea last summer containing a painting of his own children. When his wife received it, there was an additional painting of two other children enclosed. Eiszitz thinks a postal mixup probably caused the snafu.

The extra painting is of a boy and a girl. It is painted in oils on silk and is the work of a Japanese artist.

Good lighting depends partly on clean lamps and bulbs. Dusty reflector bowls and bulbs may waste 20 percent or more of the current.

Pampa News Advertising Is An Investment, Not A Cost.

JAMES AUTO-FLOAT — The new machine to assure perfect tire performance. Bill Suggs, right, and Arthur Nunn, are shown truing and balancing a tire. Tire revolves and stationary buffer

smooths off high spots on tread making tire perfectly round. For demonstration drop in at O. K. Rubber Welders at 918 Alcock.

O. K. Rubber Welders' New Machine Gives 30 Percent More Tire Mileage

Bill Suggs at O. K. Rubber Welder, 218 Alcock, has the solution for that tire problem that has harassed tiremen and car owners since 1888 when the first pneumatic tire was invented. It's the James Auto-Float that in one simple operation will bid farewell to those bumpy rides and tire slaps.

What is the new James Auto-Float? It's the new, proven tire discovery that will help your car and save you money. That's good to hear anytime isn't it? Yet it's exactly what this new process with a scientific approach to perfect tires does.

The machine has a stationary arm buffing machine that sands off the high spots on the tread as the wheel revolves. The buffer contacts the high spots on the tread all the way across insuring a true, perfect circle.

And what are the benefits of a true, perfect circle tire? For one thing, the saving on expense. Tires cost more money today than ever before. Good tires are certainly not inexpensive. If they are trued and balanced to the road as well as to the axle they will have an increased tire mileage of up to 30 percent more than the ordinary. Harold V. James certainly had economy in mind when he invented Auto-Float.

Of the cars traveling on the roads today 90 percent are out-of-round. And this doesn't just apply to cheap tires or old tires. It is a situation common even to new tires that have never been in service. This condition will ruin your tires and shorten the life of your car. The James Auto-Float trues and balances the tire while it's on the hub. This is all-important because even a few 32nds of an inch out of round here is what happens to the tire. Bearings, shock absorbers, springs, bushings and pins are overtaxed. Your ride is uncomfortable. Of all the car shimmy, thump and bump, actual tests have proven that only 25 percent is

Des Moore, Tinsmith, Is Highly Trained Artisan

A tinsmith is a highly trained artisan in the difficult art of working various sheetmetal products into items for home, business or factory. Des Moore at Des Moore Tin Shop is such an artisan.

So when it becomes necessary to consult a tinsmith in order to procure the precious metal for the job you have in mind, it just makes good sense to have the chosen smith do your metal working for you. You'll profit handsomely by such action. Des Moore Tin Shop is equipped to care of your most exacting specifications. It will be to your advantage to investigate the services Des Moore has to offer.

He is conveniently located on Somerville just behind Sullins Plumbing across the street from the Hughes building.

Dennis Chiropractic Clinic Announces Opening Feb. 26

The Dennis Chiropractic Clinic, located at 912 Alcock will be open tomorrow, according to Dr. W. U. Dennis, well-known chiropractor who has been making preparations for the clinic since December.

Equipped with modern up-to-date facilities for the benefit of patients, the Dennis Chiropractic Clinic is a model of efficiency presided over by a well-qualified chiropractor.

Dr. Dennis is a familiar personality to Pampans having been active in chiropractic in our area last year. He has recently re-

Complete Service Electric Supply

The electrification problems of the businessman and the householder are given equal consideration and are thought of as being equally as important as oil field electrification at Electric Supply.

To many people are of the opinion that they are more interested in oil field projects, but such is not the case.

A custom of the Electric Supply is to make careful plans for each project, large or small, and to offer any planning you desire at no extra charge. All commercial and residential electrification problems are welcomed and an adequate and safe wiring job is assured.

The individual problems of each project are taken into consideration to insure a safer, more thorough wiring job. Small appliances if not properly installed can be a source of possible danger.

Perhaps you are having remodeling problems — or maybe you are planning to do remodeling soon — the Electric Supply is more than happy to take care of them for you. Just ring 1106 if your present wiring is inadequate and someone from the Electric Supply will be right out to check over the situation.

Be careful that your circuits are not "overloaded." This has proven to be one of the most common and biggest problems in wiring. Efficient electrification cannot be maintained under such conditions and it is a hazard that should be avoided. The Electric Supply has a wide collection of electrical appliances

Your Dollars Buy More for Yourself, Your Home, Your Family BECAUSE OF ADVERTISING

Because Advertising ... brings you news about better products you need ... tells you where to get what you want when you want it ... makes lower prices possible through mass production and mass selling

Yet Picture How Little All This Costs

For instance, it costs less than 1/10¢ a quart to advertise the best-known brands of milk. Any other method of selling would cost the manufacturer more and therefore raise the price. Otherwise he wouldn't use advertising.

MRS. GEORGE MILLARD WYATT

Shirley Tacker And George M. Wyatt Wed In Formal Ceremony In Wheeler

WHEELER — (Special) — The First Methodist church in Wheeler was the scene of nuptials uniting Miss Shirley Tacker and George Millard Wyatt Friday evening, February 22. Dr. J. S. Rankin of Amherst read the double-ring ceremony before an altar draped with fern and bouquets and white gladioli. Candelabra backed the altar and cathedral tapers at each pew were linked with ribbon ropes to frame an aisle for the bride.

The bride is the daughter of Mrs. W. A. Tacker of Wheeler. The bridegroom's parents are Mr. and Mrs. G. L. Wyatt of St. Maurice, La.

Prelude organ music by Jaunita Haynes of Miami included "L'Espresso," "Clair de Lune," and "Pomp and Circumstance." Mrs. M. B. Smith sang "Because." The traditional wedding marches were used.

Miss Loyce Renfrow of Seagraves, Texas, attended the bride as maid of honor. She wore an azure blue gown of tissue faille with matching miter. The brideau in her hair and her bouquet were of American beauty roses.

John Sewell of Phillips served as best man. Ushers were John Haws and Harold Hilliard of Phillips.

Given in marriage by E. W. Voss of Pampa, the bride chose ivory satin and lace for her gown. The fitted lace bodice featured a parisian collar and long pointed lace sleeves. Floor-length lace panels swung over the bouffant skirt of ivory satin which extended into a cathedral length train. Her fingertip-length veil of illusion was caught to a seed pearl circlet. She carried a cascade bouquet of white carnations.

For her daughter's wedding, Mrs. Tacker chose a street-length dress of dusty rose lace. Her navy accessories featured a small straw hat with a velvet lined brim and wine rose. She wore an orchid corsage. Mrs. Wyatt, mother of the groom, chose a navy suit with red and white piping and navy accessories. She also wore an orchid corsage.

A reception was held at Nora's cafe. The bride's table was draped in azure blue with an arrangement of American beauty roses. The rosebud tiered wedding cake was presented by Miss Mary Eickels of Borger. Presiding at the punch bowl was Mrs. Leo Guthrie of Wheeler. Guests were registered during the reception.

WEDDING TOLD — Mr. and Mrs. G. L. Sheehan announce the marriage of their daughter, Rosemary, and Charles Holloway, son of Mr. H. B. Holloway. The couple was married February 2 in Tucumcari, N. M., with Rev. Ernest Steel officiating at the ceremony. Miss Juanita Cox of Pampa and Glen Comings of Borger attended the couple.

WEDDING PLANS ANNOUNCED — Mr. and Mrs. Mitchell Powers of White Deer announce the engagement and approaching marriage of their daughter, Betty Jane, to Franklin Hussey, son of Mr. and Mrs. C. P. Hussey of White Deer. Wedding vows will be exchanged March 15. (Smith Photo)

Mrs. H. A. Yoder Has Piano Workshop

Wash your dishes one at a time, keeping the temperature of the water consistent. To keep recipe file cards clean while cooking, spread a thin coat of shellac over them.

A Piano Workshop for the younger pupils of Mrs. H. A. Yoder was held Thursday evening in the home of Paty Huffkins, 1330 S. Hobart. The students played solos and discussed the qualities of good piano playing. The pieces they played will be included in the work they are preparing for the national piano auditions, when they will be heard by Mrs. Lilla Gray Parkers, Atlanta, Ga., adjudicator for the National Guild. These auditions will be held here during the week beginning April 21.

Mrs. Yoder conducted a musical contest, after which refreshments of cookies and cakes were served.

The following pupils were present: John Campbell, Gail Cole, Martha Lou and Mary Ann Kelley, Linda Woodall, Jocelyn Morgan, Susan Kay, Linda Andis, Donna Tarpley, Virginia Hopkins, Billy Kirkham, Hal Rhea Upchurch, Sue Foster, Nora and Sheila Nelson, La Yonna Andrus and Patsy Huffkins.

Parents attending were: Mmes. C. C. Campbell, Don Cole, Frank Kelley, Myles Morgan, Guy Andis, Louis Tarpley, James Hopkins, Hal Upchurch, Frank Foster, Andrus, and Dr. Douglas Nelson.

When Mean Colds Stuff You Up

It's so easy to relieve coughs and stuffiness of colds in a hurry. This home-proved way... with 2 spoonfuls of Vicks VapoRub in a vaporizer or in a bowl of boiling water as directed in package.

Just breathe in the steam! Every single breath carries VapoRub's soothing medications deep into throat and large bronchial tubes. It medicates irritated membranes, helps restore normal breathing. For coughs or upper bronchial congestion there's nothing like using Vicks VapoRub in steam.

For continued relief always rub it on throat, chest and back.

Wall and ceiling brushes should be washed often in warm soapsuds, rinsed in clear water, and allowed to dry completely, head down.

phs meeting in the City Club room.

Palaver de Pampa

"HAVE WE NOT ALL ONE FATHER?" Hath not one God created us? (Malachi II.10)

THIS HAS BEEN Brotherhood Week in the United States. Each year the National Conference of Christians and Jews works through schools and churches and community organizations striving for more tolerance and good will. This year's slogan is "Brotherhood for Peace and Freedom." Worth thinking about, isn't it?

WAS WONDERING if Peg is just one of many — thinking crying at a movie makes it a good one — wanting to change my looks, hair color for instance (figure, too, here and there) — being so amused with Arthur Godfrey (it upsets my whole day to miss his program in the a. m.) — having an uncontrollable urge to get into the act while watching a floor show — liking men to wear a nice after shave lotion or cologne. (This could go on and on!)

TALL PEOPLE make such handsome couples, i. e.: Mr. and Mrs. Ham Luna, Shotgun and Ellen Layne, Dr. and Mrs. Frank Kelley, to name a few. Mr. Peg has done his part toward belonging to that group, but 'tis I who never quite grew up — around yes — but not up!

WOULD LIKE to comment on newcomers Homer and Virginia Deck. Moved here from Colorado Springs only a short time and already she's found a place for herself in the Episcopal Women's Auxiliary. He's a new Lions club member, too. They have a cute 'til two-year-old son, David, one of the happiest little tykes ever! Welcome!

WHY IS IT that the minute the little red expired flag pops up in the parking meter, Mr. Policeman is right there on the spot with a ticket-book? Don't know whether that's a compliment to our police force or a slam toward me and others who don't figure time as closely as they should.

CHATTER DE PEG — Heard that several Pampans went to Oklahoma City on spur-of-the-moment to hear the barbershop quartets... Saw Johnnie Austin giving golf lessons to wife Margie... incidentally their two young daughters, Linda and April, are mighty handy with golf clubs... Guy Leiford and Ken Reeves cinema-ing... Del and Irene Beagle back in town again... they spend far too much time in Farmington to suit their friends... Saw Glenda Husted having quick snack at drive in... cute gal, she... Two charming matrons: Mrs. Ralph Garm and Mrs. Raymond both laden with groceries... (haven't we housewives been having a heyday?)... Mrs. Kay Fancher wears the smartest chapeaux... especially for breezy days... not a hair is disturbed for it is completely covered by her hats... Wayland college's fine international choir with the many, many fine voices, gave a splendid presentation here... Mr. and Mrs. Shirley Nichols (he's of the sheriff's department) buying tickets for "Detective Story"... Also saw the newweds, Henry Gilchrist, laughing in the movies... she's a beauty... Noticed in the column on hospital patients that Mrs. Doris Freeman (of the White Deer Freemans) was dismissed from Highland General. Here ever since last week Peg's been thinking it was our Doris (Mrs. Claire) Freeman here in Pampa. Almost wished her a "get well soon" last week.

MANY CLAIM that beauty is an optical illusion. Perhaps 'tis so. With modern cosmetic science and old art principles, you can create the illusion of beauty where none exists. The shape of your face can be changed completely by the way you wear your hair—the way you shape your eyebrows—the way you apply make-up. Experiment with hairstyles and try using a darker foundation on features that are too prominent—chin, nose, jaws, etc. You'll be amazed at what you'll discover all by yourself.

WILL BE HAPPY when baseball season starts... can wear fresh crisp summer frocks (the ones now in lay-away)... can get the kiddies out in the sunshine... have outdoor barbecues... spring and summer fun, humm?

ANOTHER IMPORTANT contribution to your poise, charm and success is a listenable way of speaking. Though well-chosen, colorful words add greatly to a beautiful manner of speaking, colloquial phrases and words are definitely an attribute because they give you a certain easiness in speech which is far more desirable than over-preciseness. The manner in which you speak is one of your most distinguishing characteristics. If you wish to be admired, so authorities say, be sure your voice has an easy fluid quality. Don't "you-all" agree?

ADD WHY IS IT — when you're rushing to dress for an evening out, you always get a run in the last pair of hose — or the wind whips its strongest when you start hanging heavy wet sheets. (Oh, for a dryer).

SPEAKING OF WIND — was amused at the bantamweights trying to buck the wind we had the last of the week. Even Peg had difficulty navigating against it.

D'JA EVER TRY: using Raindrops to soften and blue your bath water... bathing the baby with a sponge... a few dashes of Worcestershire sauce in scrambled eggs... getting ready to go out before your husband can start tapping his foot in impatience... sleeping late in the a. m. with rain to go youngsters bouncing through the house... to get your teenager to dress with originality... butter the skins of potatoes before baking... and didja ever try guessing about

Wheeler Club Plans Tea Honoring Poet

WHEELER — (Special) — The Wednesday Study club will have a tea February 27 with the Thursday Review club as their guests. The date is the 14th anniversary of Longfellow's birth and will be Longfellow's day at the Wednesday Study club.

A short biography of the poet will be given by Mrs. B. W. Brown, program chairman, followed by some of his poems and their backgrounds by the associates and complimentary members.

Permanently employed by local concern — man, wife and small baby want to rent unfurnished house or apartment. Call 666, classified dept.; or 4458 Sunday and evenings.

Young Kidnaper Wanted Money

MONTREAL, (AP) — Police today prepared a kidnapping charge against 16-year-old Robert Patenaude, who told them he didn't know just why he made off with his boss' three-year-old daughter but he "wanted money."

Police said Robert, who whittled away the time in his jail cell with a comic book, added that he had gotten the \$50,000 he demanded, "probably I would have buried it somewhere."

Young Patenaude and the child, Barbara Nemeroff, were picked up in a shopping crowd on Montreal's main street Saturday. She was returned, apparently unharmed, to her parents, Morris Nemeroff and his wife.

Police said the youth denied he had a grudge against his employer, who operates a leather goods shop. Officials said the investigation was not complete. The maximum penalty for kidnaping in Canada is 25 years.

Patenaude allegedly grabbed the child from a maid at the Nemeroff home Friday night, leaving a ransom note demanding \$50,000 on the way out. A woman saw the youth and the little girl waiting on the street next morning, recognizing them from broadcast descriptions and called the police.

AREA

(continued from page one) how far south freezing temperatures would extend but said of the cold front: "This is the real thing."

Show that fell across the Panhandle and West Texas generally was dry and promised a minimum of relief to parched range lands.

The drought, however, was considered broken in the southwest Texas area. A soaking 1.38 inch rain early today added up to a February total of 2.71.

The weather bureau forecast freezing temperatures tonight in the northwest portion of South Central Texas and temperatures from 26-32 in the north central portion of East Texas.

Readings of 8-14 degrees were expected in the Panhandle to night, from 14-24 in the South Plains and Upper Pecos valley and 24-30 elsewhere in West Texas.

Japs Smash Windows

TOKYO, (AP) — About 40 Japanese last night smashed windows in an Osaka police station after police rejected their demands for release of two men arrested for passing leaflets advertising a Communist meeting.

Police reinforcements quelled the demonstrators and jailed one. Osaka is an industrial city 350 miles west of Tokyo.

Canadian Meat Imports Halted Due To Disease

WASHINGTON, (AP) — The Agriculture Dept. today ordered an immediate halt to virtually all imports of livestock and meats from Canada because of an outbreak of foot and mouth disease in Saskatchewan.

Dr. B. T. Simms, chief of the bureau of animal industry, said imports have been running to well over 100 million pounds of meat a year and about 360,000 head of cattle, swine, and sheep. Foot and mouth disease is easily spread and is one of the most feared of all livestock ailments.

REPORTER

(continued from page one) make observation worthwhile, was to be seen along a 9,000-mile route, about 70 miles wide and curving from somewhere in the Atlantic between Brazil and Africa, across Africa and the Arabian and Persian gulfs to the Irkutsk region of Soviet Siberia.

Astronomers calculated that, in the Khartoum area, the moon's shadow started across the sun's face at 9:49 a. m. (1:49 a. m. CST) and slipped off the eastern side at 11:00 a. m. — 4:30 a. m. CST.

The eclipse also was partially visible in nearby areas outside the arc of the total blackout. In Cairo, where Helwan observatory made its own observations, 70 percent of the sun was covered at the maximum. Londoners also watched, and called it a pretty good show, though the Greenwich observatory treated it with indifference since the traverse arc was so far away from overhead.

The United States, in darkness, didn't see anything. Sudanese officials have used radio, newspapers and word of mouth intensively to tell the country's primitive tribes of the blackout. They hoped to avoid a panic from the darkness before noon.

Earnings Report Deadline For Vet Farmers March 1

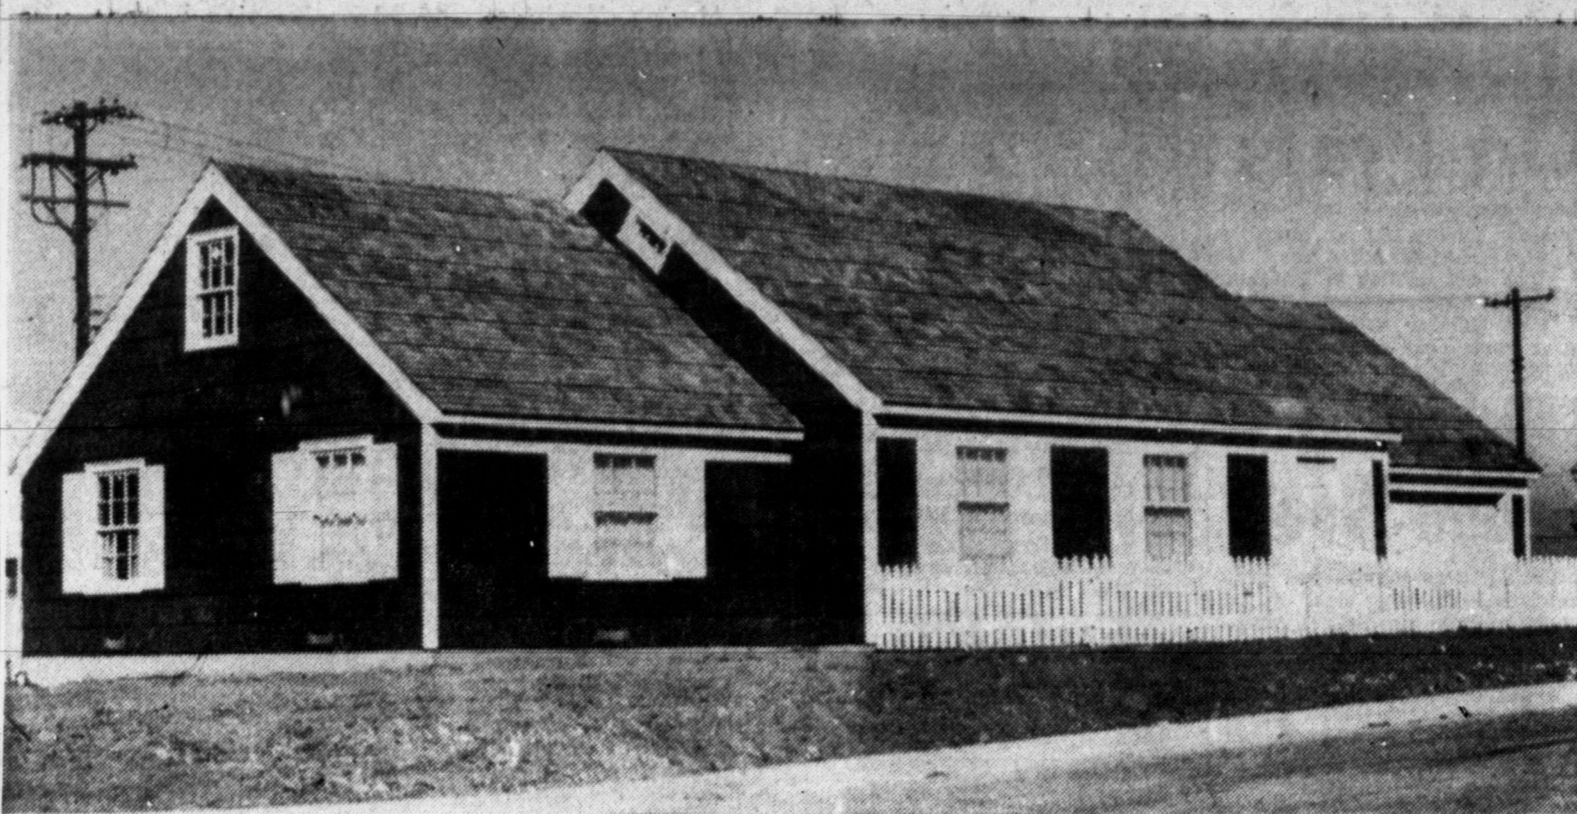

Veterans in West Texas taking GI bill institutional on-the-farm training have been reminded by the Veterans administration reports of their 1951 earnings must be submitted to the regional office at Lubbock not later than March 1.

Failure to submit the reports by the deadline may result in discontinuance of G. subsistence payments until such time as the reports reach the Veterans administration, Robert W. Sisson, manager of the regional office, stated.

This year, in addition, farm trainees must send in a second report—a certification as to the period of time they may have been engaged in employment outside farming activity. This, too, must go to VA before March 1.

The earnings reports—covering only income from productive labor for 1951—serve a double purpose, Sisson said. First, they are used by VA as the basis for adjusting each veteran's subsistence for 1952. Second, they are part of the veterans' instruction in farm accounting, thus giving him the opportunity to put into practice what he has learned in the classroom.

ed two factory workers suspected of leading a demonstration here last Thursday, part of a Japan-wide series of outbreaks on what the Reds called "anti-colonization" day.

CAPE COD IN TEXAS — The Bob Clark's Cape Cod home at 1201 N. Hamilton has dark brown shingles on outside walls trimmed in cream-pink. Picket fence picks up cream of trim. The Clarks, originally from New England, and newcomers in Pampa, have just finished their new home. They moved in New Year's eve. The house is by architect Arthur Krumweide. (News Photo)

Pampa's Home Of The Week: Bob Clarks Bring A Bit Of New England To Pampa

By DOLORES DAVIS They say Texas has some of everything — could be! Anyway, a note of New England and the salty North Atlantic has been added by Bob Clark and family. They chose a Cape Cod house, reminiscent of the rolling sea, and built it on the rolling plains at 1201 N. Hamilton.

The story and a half house by Architect Arthur E. Krumweide, with its many windows is a "homey" place, efficient, comfortable and just right for family living.

An out-of-the-ordinary note has been lent by the Clark's choice of exterior painting. The shingled sides are a deep, rich, brown, alleviated by cream-pink trim. The typical New England picket fence is the same shade as the trim. Mrs. Clark plans to plant roses along the fence to add to its picturesque qualities.

The Clark's idea of interior decoration is one advocated by many leading decorators today and followed by a majority of home builders. Choose what you like, and follow no set style or era. For the main, however, the house is furnished in early American.

Off the entrance hall are the stairs to the upper half-story and a handy powder room, papered in a bright, quaint design.

The 15 x 22-foot living room spells "comfort." Bright, floral upholstery harmonizes with a turquoise rug. Walls and ceiling are a muted yellow adding light with its soft shade to the east room. There is a delicate aroma permeating the air from the pine furniture. Hand-embroidered samplers of Raleigh's Tavern and the Bruton parish church are on the south wall on either side of a pine china closet. On a dough bench sits a coffee-grinder lamp and between the windows is a pine dry sink. Mrs. Clark made the curtains throughout the house and here they are plain cotton edged with a print matching one of the chairs.

Windsor, comb back chairs, and a brass bucket for magazines complete the details of early American.

To the right on the west wall is the door leading into the kitchen. Green, parti-colored spattered, enlaid linoleum and soft yellow woodwork sparkle from sunlight through a picture window. The draw curtains are white-trimmed with red scallops. For extra efficiency Mrs. Clark added an island cabinet to the original plans. This type cabinet is easy-to-work-around and permits access to the breakfast table in the corner.

Joining the kitchen is an efficient utility room. Here Mrs. Clark sews and does the laundry. The heating unit is located in this room, too. The utility room has gained much favor in modern design as it does away with the necessity for a basement. Compact, effectual and no stairs. It's a definite contribution to ease in living.

The hall, entered through either the utility room or the living room leads back to the bedrooms. It's painted in a light shade because of its length and lack of windows.

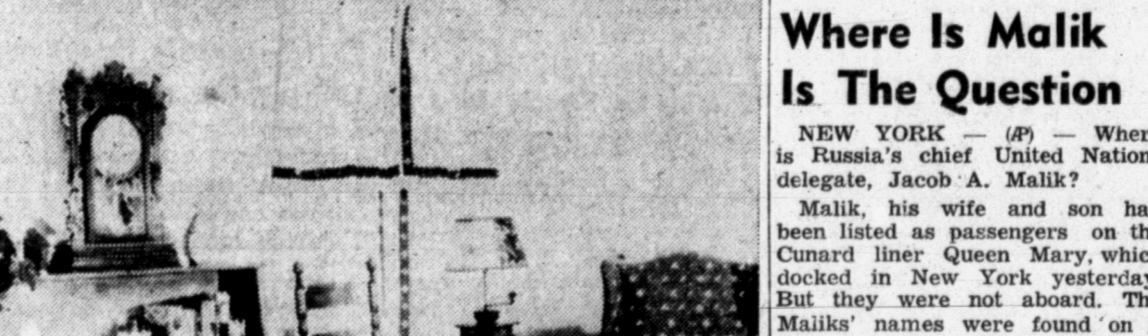

Mr. and Mrs. Clark's bedroom is a corner east-south room, again furnished in early American. Mrs. Clark used her imagination in choosing a quaint floral pattern, quilted texture, paper with a white background for the ceiling and extended it down the walls for about six inches. A gray-blue paint completes the walls. On the four-poster bed is a white crocheted bedspread.

Completely away from early American is the children's south-west bedroom across the hall. The Clarks' two sons more or less "rough it" in ease. Burlap curtains are different and serviceable. The walls are painted green except the north wall which is the children's delight. Dashing Texas rangers and Indians are the design of this one-papered wall. Red furniture and throw rugs finish off the youngsters' room.

The bath is papered in a

EARLY AMERICAN — Furnished in early American mode, the Bob Clark's living room is bright, comfortable. Prized possession is the comb-backed Windsor chair. Sampler on wall is hand-embroidered in old New England design, by Mrs. Clark. (News Photo)

DRY SINK — A well-known piece of early American furniture, the pine dry sink, complements the east wall of the Clark's living room. Coffee-grinder lamp and pendulum eight-day clock carry out trim on curtains. (News Photo)

bright plaid design and indoor shutters are also featured.

Perhaps one of the most expedient additions to this type house is the half-story which is as yet unfinished.

Mrs. Clark has her plans well laid out for this variable extra space. There will be a storage room on the north and an upstairs bath. In the center, and more roomy area, will be a game room and on the south is to be another bedroom. The south window gives a superb view of the park and surrounding territory. Beds are to be built under the sloping side walls.

The landscaping has yet to be done but the yard area is level and spacious.

The Clarks moved into their 1300-foot floor space home New Year's eve.

Mayor To Be Known As No Gift Clark

PHILADELPHIA, (AP) — Whether it's a mink coat for his wife, a deep freezer, or just an oil painting of himself, Mayor Joseph S. Clark, Jr., won't accept it.

Since becoming mayor Jan. 7 he's received a portrait of himself, 25 passes to a sportsmen's show, a colored photo of the Liberty Bell, season passes to two theaters and a pass for the city transportation system.

All have been returned to the donor. Clark says his policy will be not to accept any gift, even if it is a small one.

Working Women Up In Arms; Say Sitters Are Exemptions

By DOROTHY ROE AP Women's Editor U. S. working women are, good and mad because they cannot deduct from their income tax the amount they must pay to have their children cared for while they work.

Judge Sarah T. Hughes, Dallas, president of the National Federation of Business and Professional Women's clubs, voiced the feelings of most of the 10 million married women now holding down jobs when she told me: "I have felt for a long time that all women who work should be entitled to a deduction for a maid to take care of their households."

"Sweden allows such a deduction, and it seems only fair, as a necessary business expense. "The woman who has children and who must pay for their care in order to earn an income has particularly strong grounds for complaint."

"Now that more and more married women are taking jobs every day, this has become an issue more important than ever before. Today 55 percent of all U. S. working women are married, many have children, and must subtract the cost of a maid, baby sitter or day nursery from their pay checks."

"I believe that if enough of them protest vigorously enough, the law eventually will be changed. It's a matter of education, and it may take a long time. But the married working woman is a growing force in our national economy and her views should carry weight."

The mail that has come to my desk in recent weeks since writing another column on income taxes indicates resentment against this provision of the income tax laws. A typical letter from an Iowa working mother runs like this:

"I have to have a job in order to meet expenses, as my husband's salary can't stretch any further. I have three small children, and it costs me \$6 a week to send them to a day nursery."
