At Least 82 Die In Triple Train Crash

County Demo Leader Refuses To Aid Adlai

County Democratic Chairman Aaron Sturgeon today refused an appointment to the Stevenson-Sparkman campaign steering committee.

Sturgeon, along with 26 other leading Panhandle Democrats, was appointed to the 18th Congressional District committee by Speaker of the House Sam Rayburn, Texas chairman of the Stevenson-Sparkman campaign.

In a letter to the state committee Sturgeon said, "I cannot count on me to attend any meetings, or take an active part in their campaign."

Later the county chairman told a Pampa Daily News reporter, "As county chairman, I represent the Democrats of Gray County and I know the majority of them feel the same as I do about the presidential candidates. I believe Gray County will go for Gen. Eisenhower because the majority of the people here still believe firmly in the principles of Jeffersonian Democracy."

Sturgeon said the state committee sent out the appointments without first consulting any of the people named to the various congressional district committees, and without their knowledge.

He added he had nothing to do with selecting the Democratic nominees at the national convention and will have nothing to do with assisting in their campaign for votes in Texas.

Alley Traffic Is Studied

At least two Pampa alleys may be changed over to one-way traffic resulting in repeal of a present ordinance which prohibits vehicles from traveling straight through and crossing main streets.

The alleys flanking Cuyler, if studied by each city commissioner, the mayor and the police department deem the change necessary, will be the ones affected.

City Manager B. H. Cruce said the present system of two-way traffic isn't satisfactory because of the traffic snafus it causes through illegal parking and trucks attempting to make deliveries to continue through alleys.

Under the existing ordinance, a car or truck may not make a left turn into an alley or turn left while coming out of an alley. Nor may they cross the street to continue through alleys while making deliveries.

Seven illegal parking tickets were issued in one day by the police department for parking in the alley or blocking the alley, Cruce said. He added he has seen several trucks ignore the ordinance on street crossings and observed the law is "unhandy" for delivery trucks.

Cruce asked the mayor and city commissioners to give the problem some thought before arriving at a decision and to consider whether both alleys should be one-way going north or both south, or one north and one south and if so which should be which. The problem, he added, should be worked out to a point where deliveries could be expedited with a minimum of traffic jams.

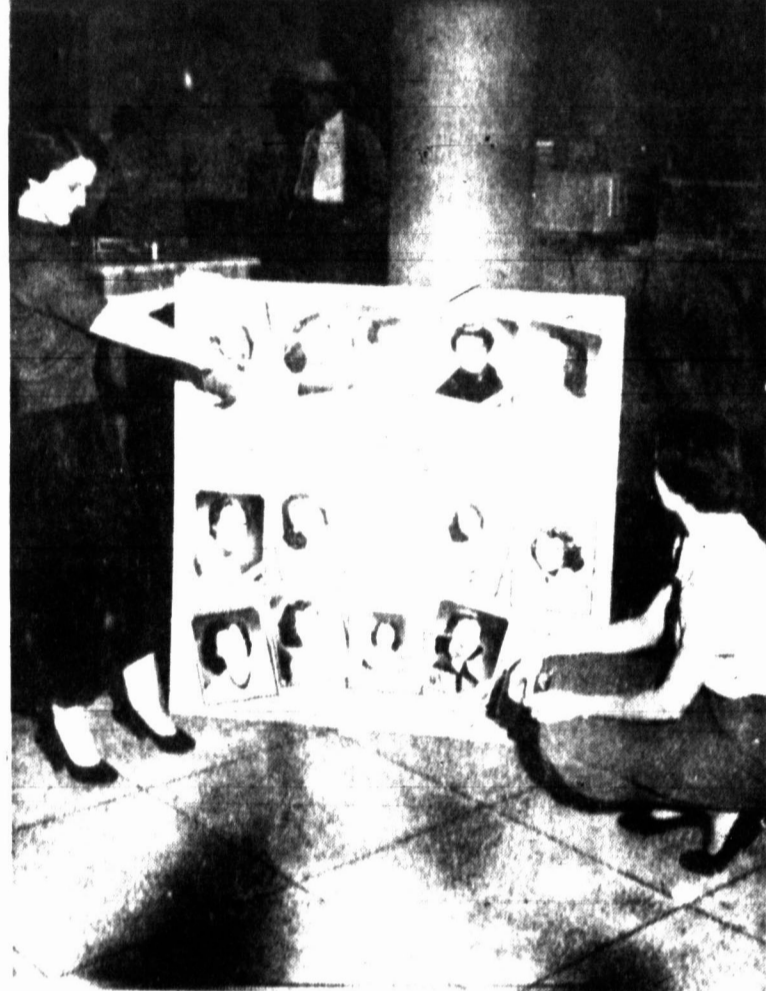

Selective Service Quota Set Here

Local selective service officials announced the November draft quota today for 49 inductees and 35 physicals for the area.

Inductees are to report Nov. 17 and 18 and are to be at least 20 years old. Physical examinations are set for Nov. 28 for boys 19 or more.

The local selective service officials serve Gray, Roberts, Donley and Wheeler Counties.

If it can be had hardware here we have it. Lewis Hardware Adv.

ANY BEING MADE — Two local residents, pictured above, are participating in the beauty queen contest to be held next Monday during Gray County's 50th Birthday Celebration. Judging from the candidates' pictures, on display now in both local banks, it's going to be no easy task to pick the winner. Admiring the potential "queens' portraits are Mrs. Lora Miller (left) and Miss Ruth Alverson. The contest is to be concluded at 7 p.m. Monday in the junior high school auditorium when contestants will appear in formal evening dresses on the stage. There will be no admission charge for the presentation. (News Photo)

Mystery Plane Seen As B-29 Disappears

TOKYO (AP) — A B-29 Superfort disappeared yesterday shortly after radar picked up an unidentified plane approaching it from the direction of the Russian-held Kuriles, the Far East Air Forces said today.

The Air Force said radar tracks of the two planes merged.

It did not say the unidentified plane was Russian or that the Superfort was attacked.

The FEAF reported armed F-84 Thunderbolt fighters were guarding planes searching for the missing B-29. It disappeared off Eastern Hokkaido, Japan's northernmost island, which is separated by a narrow strait from the Kuriles.

The spokesman said a voice message in English, presumably from the bomber, was heard and then a crew member shouted, "Let's get the hell out of here."

The newspaper Asahi said Japanese police reported a plane, holding black smoke, crashed into the sea near Nemuro, North-east Hokkaido, at about 2:20 p.m. yesterday. They said the plane hit in Russian-controlled territory.

The spokesman refused comment on that.

The Air Force said the Japanese Superfort was on a routine flight at 15,000 feet and "was under the customary U. S. radar observation." The radar plot showed it was heading east. The Air Force added:

"A second but unidentified sighting was plotted at about 2:15 p.m. on a westerly heading about seven miles inside Japanese territory.

The American pilot "few directly into cloud cover which happened to be at hand and got away," Gen. Mathewson said.

Gov. Stevenson Turns Political Artillery On Sen. McCarthy

BY THE ASSOCIATED PRESS
Gov. Adlai Stevenson turned his campaign artillery on Sen. Joseph McCarthy in McCarthy's home state Wednesday as Gen. Dwight D. Eisenhower fought back against biting criticism from President Truman on foreign policy.

Democratic Candidate Stevenson moved into Wisconsin after telling an overflow audience in Detroit that McCarthy failed to turn up a single Communist with "wild and reckless" charges.

Eisenhower, GOP standard bearer, struck back at Truman's accusation he once imperiled American security when the general said Russia wanted peace by recalling Berlin in the President in 1948 referred to Joseph Stalin as "Good Old Joe."

Truman, whistle stopping through Colorado Tuesday, said saying that McCarthy's attacks

Vital Peak Recaptured . . . Bayonets Jab Reds From Hill Positions

SEOUL (AP) — South Korean infantrymen, fighting with bayonets, tonight recaptured a vital shell-cratered peak overlooking the ancient invasion route to Seoul in a brutal battle that has raged since Monday night.

A front line officer said the Korean troops cut a Chinese battalion of 700 men down to 150 in recapturing the crest of White Horse Hill on the Western Front.

The peak main objectives of the biggest Communist attack in a year has changed hands more than a dozen times as both sides threw tanks, artillery and men into the raging battle.

A few hours earlier, the Chinese recklessly charged through an Allied artillery barrage and captured the crest. Then they hit the Korean defenders on the south slope but the Republicans held fast.

Fighting was only slightly less bitter elsewhere along the front as the big Red offensive moved into its third day.

Allied warplanes rocketed overhead, plastering Red lines directly behind the front.

Earlier today in Seoul, Gen. James A. Van Fleet, U. S. Eighth Army commander, said:

"The Eighth Army has stopped all attacks without any penetration of its main battle positions. Action has been limited to outposts, and the enemy has been clobbered in that area.

"The troops which have participated in the current action are as elated over the good shooting as I am. Morale never has been higher."

And U. N. negotiators postponed indefinitely the armistice talks at Panmunjom. Top U. N. officials stressed that the talks were not necessarily at an end.

Front line reports said a reinforced battalion of Chinese swarmed up the slopes of White Horse Mountain despite a shattering Allied artillery barrage. They seized the crest at 5 p.m. and held on.

When they made their charge down the south slope, South Korean troops met them with bayonets, hand grenades and clubbed rifles.

Communist dead littered the hillside.

Eighth Army said the South Koreans threw back three Red assaults on White Horse between Tuesday midnight and Wednesday noon.

During the afternoon, a roaring artillery duel drove both sides away from the crest.

AP correspondent Milo Farnet reported from the front that the crest of White Horse Mountain was a shell-shattered man's land. It had changed hands 12 times in 42 hours of almost continuous fighting.

White Horse, and nearby Arrowhead ridge, guard the sprawling Chorwon alley and the gateway to the South. The peaks have been the main target of the Red offensive.

Plans for checking local homes for fire hazards are being set up and were announced today by Fire Chief Ernest Winborne.

Winborne says he will pick eight homes per week from the telephone directory and will call for permission to check these homes free of charge. This plan is to continue until as many homes as possible have been checked.

The project is being initiated this week during the local observance of Fire Prevention Week. A daily fire alarm has been set to remind residents of the week's significance.

In connection with the observance, contests in area schools have been arranged with cash awards to be given by local insurance agents. Winners in these posters and theme contests are to be announced Friday. B. R. Nuckols is serving as the school activities chairman and Kirk Duncan is the representative of the insurance agents in this program.

Pampa Life Underwriters Association and guests will hear S. E. Hale of Amarillo speak on the subject, "Your Estate and Taxes" at the association's regular luncheon at noon Saturday.

Tentative place for the meeting has been set for the Schneider Hotel Pine Room. Tax accountants, attorneys, bank personnel and trust officers are invited to the luncheon.

Anyone in this field interested in attending has been asked to make reservations with Ott Shewmaker, association president, by calling 4333 by Thursday night. Hale is a trust officer of the Amarillo National Bank.

WE HEARD . . . That Pampa residents are planning to wear derbies and bonnets to the Pampa-Amarillo game Friday night to publicize the 50th birthday celebration.

QUEEN CONTESTANT — Miss Jean Green, 21, E. Browning, is another of the 37 contestants in the beauty queen contest to be held next Monday during Gray County's 50th Celebration. Miss Green is being sponsored by the local Auxiliary of Veterans of Foreign Wars.

Early Morning Fire Sweeps Texas Town

KNOX CITY (AP) — An early morning fire today destroyed three business houses in this North Texas town. Six persons were injured when an explosion occurred in a building. Damage from the fire and blast was estimated at \$200,000.

The six persons hurt were standing on top of the one-story pharmacy watching the fire when an explosion in the pharmacy split the roof. Dan Steakley, Knox City, with both legs broken, and Theodore Ressel, Benjamin, with a broken hip, were taken to an Abilene hospital. Less seriously injured were John Nixon, Bill Dixon, Toby Lane and Ed Jetton, all of Munday.

Charles Reed, owner of the two-story brick building housing the grocery and locker plant, said he, his wife and four children were awakened by smoke at 2:50 a.m. in their apartment on second floor. They fled through smoke to safety.

Fire departments from Knox City, Munday, Haskell, Rule, Rochester and Benjamin answered the alarm. The fire was not brought under control until about 6 a.m. They were unable to say what caused the blaze.

Reed estimated his loss at \$100,000 and estimates of others brought the total to \$200,000. Part of the loss was covered by insurance.

Power and telephone lines in Knox City, a town of about 1,500 population, were put out of commission by the fire.

Volunteer rescue workers clawed at the wreckage with their bare hands to remove victims. Bodies of the dead were lined up.

(See TOLL, Page 3)

John L. Talks Against Ike

CINCINNATI (AP) — John L. Lewis still hasn't said in so many words whom he favors for the nation's next president but he declared yesterday he didn't know anyone could vote for a man whom Taft may lead around by the collar.

The reference to Sen. Robert A. Taft of Ohio was taken to mean by 7,000 United Mine Workers delegates that Lewis, their long-time president, does not favor the candidacy of Gen. Dwight D. Eisenhower, the Republican presidential candidate.

Taft currently is on a speaking tour in behalf of Eisenhower, and Democratic leaders have claimed it was operated by Earl Smith, Taft is bossing the Eisenhower campaign.

Mrs. E. O. Thompson, Wife Of Veteran Commissioner, Dies

AUSTIN (AP) — Mrs. Ernest O. Thompson, wife of the veteran Texas Railroad Commission member, died this morning at 12:05 a.m. in Seton Hospital here.

Mrs. Thompson was stricken Sept. 30 while vacationing at Estes Park, Colo., and was flown to Austin the next day for treatment.

Besides her husband, a sister and five brothers survive.

Funeral services will be held Thursday at 4 p.m. at the Weed-Corley Funeral home in Austin with burial following in the Texas State Cemetery.

Mrs. Thompson was May Peterson and was known as the "gold" girl of the Metropolitan Opera.

She was a member of the opera company along with such famous singers as Enrico Caruso and John McCormack.

Mrs. Thompson was stricken with a cerebral hemorrhage at Estes Park, Colo., Sept. 30.

She was born in Oshkosh, Wis., where her father, a native of Denmark, was a Methodist evangelist. Her grandfather was conductor of the Royal Copenhagen Opera.

Mrs. Thompson's life was devoted to musical and religious work. Her home here and at Amarillo was always a gathering place for musicians.

She taught piano at the Chicago Conservatory of Music and studied extensively in Europe. She made her debut as an opera singer in "Manon" in Paris.

Toll May Hit 120 In British Tragedy

HARROW, England (AP) — Two collisions involving three trains killed at least 82 persons here today and piled wooden coaches 50 feet high in a mass of wreckage.

Some of the dead were in the coaches; others were mowed down as they waited on a station platform.

Officials of the government-operated railways said the death toll may top 120. More than 130 persons were treated at hospitals and hundreds received first aid.

The wreck came just after 8 a. m., at the height of the morning commuting rush. The scene was the station in this Middlesex village 10 miles northwest of London.

Eight hours later, rescue workers still were digging through the debris in search of additional victims.

The collisions involved two fast expresses and a packed suburban train.

First, an express running 95 minutes late from Perth, Scotland, to London rocketed into the rear of a stationary suburban train. The express locomotive sheared through the wooden coaches, jammed with 600 passengers seated and standing, and blocked both main lines.

Seconds later, another express, bound from London to Manchester, plowed into the wreckage. Its two locomotives leaped from the tracks and skittered along a platform full of commuters waiting for other trains, mowing them down like a giant scythe.

Smashes Crosswalk
Derailed coaches rode up each other until the topmost smashed into a crosswalk 45 feet above the tracks, knocking a huge segment out of it and plummeting pedestrians into the wreckage.

The terrific double impact threw chunks of debris clear through one wall of the Harrow Station and into a shopping center 150 feet away.

When the known dead passed 80; about eight hours after the wreck, a railways official said: "If our worst fears prove right to reach yet."

There will be another 40 dead in the wreckage we haven't been able to count. One American serviceman was on the first death list. His name was given as Donald G. Woodvale, Air Force serial No. 19372075, stationed at a maintenance depot.

A suburban train standing in the station was hit from behind by an express bound for London from Scotland. As the wreckage of the first two trains sprawled over the tracks, the London-to-Manchester express plowed into it.

Two of the three locomotives were flung broadside across the tracks at one point, three splintered carriages were piled up on top of one another.

The overhead bridge connecting the northbound and southbound station platforms was ripped down on the wreckage.

Amateurs and doctors rushed from all main communities in Middlesex County and from Northwest London. All available ambulances were called out and moving vans and other trucks were pressed into service to help carry the injured to hospitals.

Volunteer rescue workers clawed at the wreckage with their bare hands to remove victims. Bodies of the dead were lined up.

(See TOLL, Page 3)

Youngster Suffers Brain Concussion

Three-year-old Jerry Woodward, struck by a car while playing in a park, is suffering from a brain concussion but is reported in "fair" condition today at a local hospital.

Jerry, who lives at 846 W. Foster, ran in front of a slowly moving car when the mishap occurred, according to police.

He spent most of the morning at the hospital reported. Jerry's cousin — Bill Hulsev, 321 S. Gillespie — was driving behind the car that hit the youngster.

Taft is bossing the Eisenhower campaign. No charges were filed.

Mrs. Thompson was stricken with a cerebral hemorrhage at Estes Park, Colo., Sept. 30.

She was born in Oshkosh, Wis., where her father, a native of Denmark, was a Methodist evangelist. Her grandfather was conductor of the Royal Copenhagen Opera.

Mrs. Thompson's life was devoted to musical and religious work. Her home here and at Amarillo was always a gathering place for musicians.

She taught piano at the Chicago Conservatory of Music and studied extensively in Europe. She made her debut as an opera singer in "Manon" in Paris.

UN Calls Off Peace Parley

MUNSAN, Korea (AP) — The Allies today indefinitely postponed Korean armistice negotiations and bluntly told the Reds the next move was up to them.

The dramatic action was taken on "higher authority," Gen. Mark Clark's headquarters said without elaboration. Clark said the Red proposal was taken until the Communists either accept an Allied proposal for setting the stalemate over prisoner of war exchange or make "a constructive proposal of their own."

What may prove to be the final break in the talks, started 15 months ago, resulted from a prisoner of war exchange, deadlock in the knotty problem last unsolved item on the agenda.

Lt. Gen. William K. Harrison, senior Allied negotiator, said the Allies would return to the truce site any time the Reds were ready to accept one of the alternate Allied plans for settling the POW question or were willing to make "a constructive proposal," in writing.

Plans for checking local homes for fire hazards are being set up and were announced today by Fire Chief Ernest Winborne.

Winborne says he will pick eight homes per week from the telephone directory and will call for permission to check these homes free of charge. This plan is to continue until as many homes as possible have been checked.

The project is being initiated this week during the local observance of Fire Prevention Week. A daily fire alarm has been set to remind residents of the week's significance.

Lack Of Raw Materials Seems To Hamper Red Production

By TOM REEDY
LEIPZIG, Germany (AP) — The Communists are again claiming big East-West business at the annual Leipzig Fair. They talk vaguely in terms of "millions of dollars" worth.

How much actual trade with the West is transacted in Leipzig remains an exceedingly elusive fact. One thing is certain: Western buyers who came here for this fall fair went away disappointed.

Several hours of haggling with British, Dutch, Swiss and Scandinavian businessmen at the "foreigners' meeting place" in downtown Leipzig concluded all the Eastern propaganda claims.

Most of the Western visitors have the same experience. They are impressed with the tools, ceramics, china, pottery, optics and household implements on display. But as soon as they get down to brass tacks on price, delivery and so forth, they run into blank walls.

The conclusions of most of the buyers agree. They say it seems clear that the East is unable to produce these items in sufficient quantities for lack of raw materials. The Russians seem to have a pattern of distribution in a meet this shortage which calls for most of the products to be made available to satellite areas.

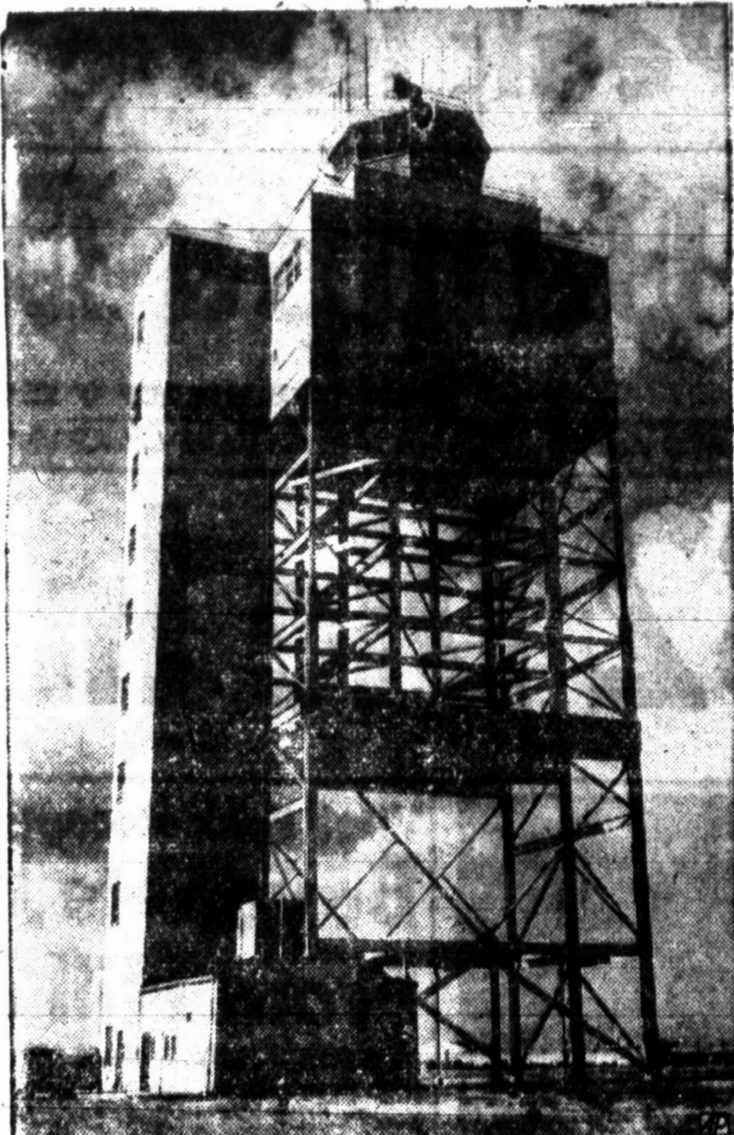

One figure given informally in Leipzig was \$9.20. This means the East receives 80 per cent of the contracts for its own bioclimatic blood.

King Calls Election, Ousis Parliament

ATHENS, Greece (AP) — King Paul today ordered the Greek Parliament dissolved and called a general election in an effort to get a majority government that might aid the nation's grave economic situation.

The King's decision ended several weeks of unsuccessful efforts to get Field Marshal Alexander Papagos, whose right-wing Greek Rally party is the largest in Parliament, to join Premier Nikolaos Plastiras and Deputy Premier Sophocles Venizelos in a national government.

The American Negro is a new figure given informally in Leipzig was \$9.20. This means the East receives 80 per cent of the contracts for its own bioclimatic blood.

ELEVEN STORIES HIGH—The new million-dollar control tower at Idlewild International Airport, New York City, rises 150 feet above site for permanent administration building.

Earl Says Ike Will Inspire Confidence

SACRAMENTO, Calif. (AP) — Gov. Earl Warren said Monday night the election of Gen. Dwight D. Eisenhower would "inspire confidence in all the people of the free world, with whom we must work if peace and good will are to be restored to this earth."

It was the 1948 GOP vice presidential nominee's first speech on behalf of the Eisenhower-Nixon ticket. Speaking to a radio audience, he said of Eisenhower: "No American active in public life today has the world-wide prestige that he enjoys."

"Our people will follow him in a revitalized foreign policy that will enable the United States to furnish the world leadership for collective security against Communist aggression."

"It is a change of administration that the nation needs, and that change can only come through the election of our great Republican candidate, Dwight D. Eisenhower," Warren said.

Sea-Faring Town Has Salty Clock

WELLFLEET, Mass. (AP) — When the bell in the town clock strikes eight, the residents of this Cape Cod town know it's either noon, 1 o'clock, 3 or midnight.

The ship's bell idea was appearing as in keeping with the town's proved by the annual town meeting-seagoing tradition. The bell was adjusted during the past week.

So far, the only persons mystified by the new bell system are visiting landlubbers who know nothing about the salty system of time keeping.

Aboard ship, bells divide the day into four-hour segments. Twelve o'clock is eight bells; 12:30 is marked by one bell; 1 o'clock by two bells and so on until eight bells at 4 o'clock and again at 8 o'clock.

The Communist Party of America was formed in September, 1919, in Chicago and had a program for the conquest of political power, the overthrow of capitalism and the destruction of the bourgeois state.

Politics Is A Major Film Industry Interest; Ike Backing Heavy

By BOB THOMAS
First of two articles on Hollywood's part in the presidential race. Today: The campaign for Eisenhower.

HOLLYWOOD (AP) — As in the rest of the nation, the main topic of conversation in Hollywood today is politics.

No previous campaign has evoked so much interest and activity as the 1952 race. To report Hollywood's part in the election, I visited the local headquarters of both sides and talked to some of the campaigners. First, alphabetically, came the Eisenhower group.

Hollywood's drive for Ike is directed by the Entertainment Industry Joint Committee for Eisenhower-Nixon. The nature of this group was explained by Dickie Kees, who is in charge of the office.

"The committee was formed in August," she remarked. "It is composed of two groups — the Hollywood Republican Committee, which was formed in 1947, and the Independent Volunteer Committee, which was organized last spring to promote Eisenhower's nomination. Since the latter comprises many former Democrats and independents, it was felt a new group should be formed apart from the Republican committee."

The GOP group lists such officials as George Murphy, Robert Montgomery, Walt Disney, Ginger Rogers, Adolphe Menjou and Leo McCarey. The volunteers are headed by powerful studio heads J. L. Warner, Samuel Goldwyn and Darryl Zanuck. Members include Fred Astaire, Irving Berlin and Clifton Webb.

The Republicans boast other well-known supporters such as Esther Williams, who sports a diamond-studded "I Like Ike" pin. Jeanne Crain has done the first political campaigning of her life, speaking at a women's meet called "Coffee Hour for Eisenhower," along with Hedda Hopper.

The purpose of the joint committee, it was reported, is (1) to raise money; (2) to provide talent for Republican programs. Sample assignments are Irene Dunne to a women's rally in Long Beach; Dennis Morgan to fund raising drive in Beverly Hills. Also active are Lucille Ball, Dick Powell, June Allyson and Hossy Carmichael.

Head of the Republican group in Hollywood is hard-working ex-hooper George Murphy. He managed the campaign sendoff for Richard Nixon in Pomona and last week introduced Gov. John Lodge of Connecticut in San Diego and El Centro, Calif.

"We are now working on plans for the Eisenhower speech here Oct. 9," Murphy told me. "Producers Mervyn Leroy, Joe Pasternack and Arthur Freed are putting on the show. It will be a typical Republican rally, because we represent Hollywood, USA; it's no longer Hollywood, Calif."

The Republican committee sends stars wherever they are needed to whoop up spirit and raise money. Stars are also set for some radio and television appearances. Most stars under contract to studios are barred from TV, but there are indications they will be allowed to appear on TV for political purposes. The argument is that such appearances involve their rights as citizens, in contrast to their restrictions as performers.

The song "America," was written in a half hour and on a scrap of paper by Dr. Samuel Francis Smith, a Baptist minister, and sung on July 4, 1832, by school children in the Part Street Church, Boston.

George Reddington established the first alligator farm at Anastasia Island, Fla., in 1892.

END OF A LIGHTHOUSE — Dynamic blast topples 150-year-old Bishop and Clerks Lighthouse, off Hyannisport, Mass., destroyed by Coast Guard lest it fall on fishermen.

White Deer Schedules Lions Carnival Saturday

WHITE DEER (Special) — The sixth annual Lions Club carnival will begin at 1 p. m. Saturday at the White Deer Trap Grounds with a ham and merchandise shoot.

Beginning at 6:30 p. m., the remainder of the carnival will be in the White Deer grade school. This will be the first public entertainment for the new school. Carnival concessions will be bingo, movies, cake - walk, bottle toss, cigarette toss, ducking board, balloon and dart pitch, basketball pitch, fishing pond and a special treat for the children.

Miss Jeanne Willingham, dancing instructor from Pampa, will be here with a troupe of local and Pampa entertainers in a talent show, according to Horace Williams, an entertainment chairman. It will be held in the music room of the grade school.

R. Y. Corder and Kippie Eden, both of Amarillo, will have a telescope so that those present may look at the moon and stars. Kippie will do the narration.

The local Lions Club, chartered in 1946, has been active since its beginning. The proceeds from each year's carnival goes for civic betterment.

T. C. Jackson, club president, announced that this year's plans are incomplete. On the docket already for the year's program are street and house numbers and city stop signs which are almost ready for use.

Jackson stated that the club keeps in close contact with White Deer schools. "Its primary interest," he said, "is our boys and girls and other things come second."

Another yearly project is the baseball field. "The carnival this year will be the best," he said. "I am confident that people will be as cooperative as in past years. I attribute the success of the carnival to the men who have worked diligently to make it possible."

House Committee Will Resume Oct. 17

LOS ANGELES (AP) — The House Committee on Un-American Activities will continue its inquiry into Communist infiltration among the professions in Southern California when its hearing resumes here Oct. 17.

The hearing was recessed Tuesday after a week of testimony from 64 witnesses, including 22 doctors, 25 attorneys, six actors, four writers, a pharmacist, a film studio laborer, a social worker and an "organizational worker."

Of the eight women witnesses, three were actresses and three were attorneys. Sixty-one of the witnesses refused on constitutional grounds to answer questions regarding membership in Communist party.

Only three-two writers and an actor were co-operative. They named some 30 writers and actors, chiefly in radio, as members of a Hollywood "cell" of the party.

After Tuesday's session, Miss Betty Selden was fired from her job as a Los Angeles County social case worker, a post she had held for 17 years.

PLANE (Continued From Page One) aircraft and the B29 were followed until they merged on the radar scope about eight miles northwest of Nemuro, which point is in Japanese territory about 15 miles from the international border.

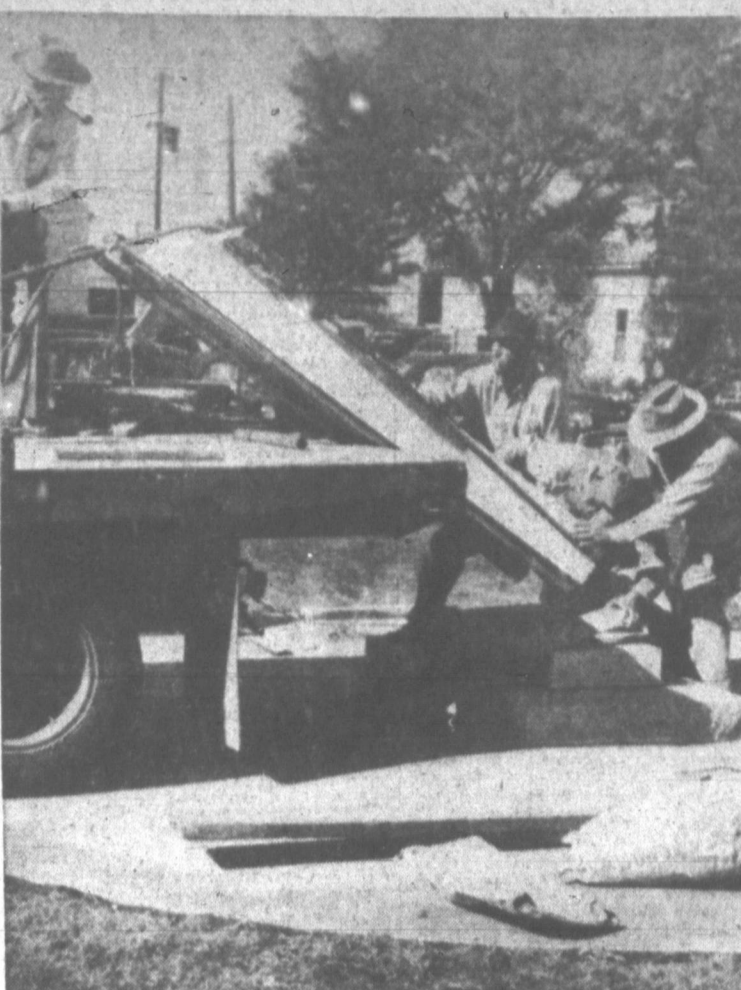

The merged radar tracks, still over Japanese territory, continued southeast for a few moments and then disappeared from the radar scope. Shortly thereafter a single unidentified "May Day" call voice SOS was heard, presumably from the Superfort. Then there was silence.

The spokesman said it was possible for two planes in the same general area to merge on a radar scope if they are close together. He said it was possible for a plane to go below the range of the radar line of sight. This could account for the disappearance of the unidentified plane.

Search planes yesterday sighted an oil slick two miles east of Ochiishi on the Southern shore of the Nemuro Peninsula, the Air Force said.

The hunt was resumed today but a 200-foot ceiling hampered searchers.

Korea List No. 666 WASHINGTON (AP) — The Defense Department today identified 193 battle casualties in Korea. A new list No. 666 included 18 killed, 138 wounded, 27 missing and nine injured.

MONUMENT GOING UP — The Gray County Pioneer Memorial, to be unveiled during the county's 50th Birthday Celebration next week, is shown in the process of being erected at south entrance of the court house today. E. C. Kouth of Fort Worth is shown on the truck as he helps lower the monument to assistants (left to right) Delmer Bramblet, Pampa, Sam Parker, Fort Worth, and Ed Foran, Pampa. A special dedication and unveiling ceremony is scheduled for 2:30 p. m. next Tuesday on the south lawn of the court house. Mrs. Julia German Brooks, once a captive of the Indians in this area, will unveil the monument and Frank Culbertson will give a special speech dedicating it to the pioneers of the area. Ivey Duncan is to introduce Mrs. Brooks of Santa Ana, Cal., and the local school band will play background music. The service is open to the public. (News Photo)

NG To Help In Celebration

Pampa's National Guard Unit will not meet in the armory for regular drill next Monday evening but will participate in the Gray County 50th Birthday Celebration. Guardsmen will serve in the color guard for the celebration parade and will help police the area during festivities.

Six enlistments were accepted at the unit's meeting this week. Joe T. Stone, World War II veteran, enlisted as a sergeant, and recruits include Bill L. Edwards, Charles E. Austin, Billy D. Geen, Von D. McIlvain and Allison P. Simmons.

These announcements were made along with a list of promotions approved recently for the unit, including A. of the 474th Field Artillery Battalion.

Jesse W. Holt has been advanced from sergeant, first class, to master sergeant; Libern L. Howell and Earl H. Wallin from sergeant to sergeant, first class; Billy J. Ford, Roy V. Garner, Bobby J. Phillips, Wilks L. Taylor and Billy E. Wallace from corporal to sergeant; Jack Addington, Wilbert R. Babb and Elmer L. Weckesser from private, first class, to corporal.

And James N. Shelton, Elvin G. Posey, Donald R. Byars, Sammy P. Gaffney and Wayne O. Gore from private to private, first class.

STEVENSON (Continued From Page One) ner once called Marshall a "front for traitors."

Reporters said the President appeared as grim as they'd ever seen him as he lashed out at Eisenhower Tuesday. Still losing verbal darts at the GOP nominee, Truman campaigned through Iowa and Missouri en route home.

Ike in California Eisenhower drove his slim-bang attack against the administration and the President as he campaigned in California.

It was in Eugene, Ore., Tuesday night that he brought up the "Good Old Joe" incident, but refused to comment on accusations that he was betraying his principles by publicly endorsing a 11 GOP candidates regardless of their policies.

Regarding Truman's comment that the general periled the nation by not sitting up the Russian threat after the war, he said: "As you know, ladies and gentlemen, through this region another (Truman's) campaign train preceded mine some time back. From its back platform, many red hot salvos were loosed at me. Now one of the charges made was that in 1945 I expressed the hope and belief that Russia wanted to establish a workable friendship with us. I was testifying for increased Army strength. I proposed that we hope for the best and be prepared for the worst."

"Now, I think if we had pursued such a policy at that time, today in view of the chaos in which the world exists, we would be terribly blaming ourselves for not having done our best. Yet from the back platform of a campaign train came the charge that because of that hope and that belief I had one much to destroy the safety of my country."

And that charge came from the very same man who only three years later, remember, in 1948, came to this town and said: "I like old Uncle Joe Stalin. He is a decent fellow. But the people that run the government won't let him be as decent as he would like to be."

Two Auto Collisions Within City Limits Two more car collisions inside the city limits have occurred within four hours of each other, bringing the year's toll to 277.

Glady's Fuller, 26, of 506 Harlan, had just parked her car on N. Christine about 3:40 p. m. Tuesday when a vehicle operated by a 15-year-old Pampa girl collided with it.

Police estimated damages to the car at \$350. No casualties or citations were reported.

At 7:15 p. m. the same day Aderon J. Kirkham, 44, of 416 Carr, was driving south on Ballard when he veered to the right to avoid driving on the wrong side of the street—and collided with a vehicle owned by Mrs. W. I. Smith, 613 N. Sumner, which was parked at the curb. The mishap occurred some distance south of Sunset Drive. Damages were calculated at \$225. There were no injuries and no citations.

Red Puppet Insists People Work More

By JAMES MARLOW WASHINGTON (AP) — What's coming out of the Russian Communist Party Congress in Moscow is bad news for the Russian people themselves. They are being told by their Communist masters they have to work harder.

In the keynote speech George M. Malenkov, a Stalin favorite, told the party's six million members who run the country's 210 million people they must bear responsibility for correcting defects in the economy.

He complained that the factories aren't turning out enough work. He wants it stepped up. Which is another way of saying more work from the workers. The speed up.

The reason: Russia's own defense program and its determination to pull more closely abreast of the West in industrial output. It's still away behind although making progress.

There is always hope in the non-Communist world that when Stalin dies his political heirs will wreck the party in their struggle for power and so eliminate Russia as a menace.

This can be only wishful thinking until it is known at last whether Stalin has handpicked a successor to take over after him without trouble. So speculating on a possible Stalin heir has become almost a Western hobby.

There was a lot of this speculation some weeks ago when it was learned Malenkov would deliver the keynote speech which Stalin had reserved for himself at previous congresses. Did this mean Malenkov was the crown prince?

Maybe. But Stalin certainly took the play away from him before Malenkov could open his mouth. Last Thursday, just before congress began, the monthly magazine Bolshevik appeared with one of Stalin's infrequent articles.

Stalin said there would have to be a "five-hour" day. This didn't conflict with Malenkov. Stalin was just making a pep talk about how things ought to be in the future in a socialist state. He didn't say when, though.

But that was only part of what he said in 50 pages covering Marxian economics and foreign affairs. The statement will be examined in the West for possible clues to Russian intentions.

Raging Waters Threaten Ship STOCKHOLM, Sweden (AP) — Raging waters in the gale-swept Gulf of Bothnia today held at bay rescue ships trying to reach a grounded tanker believed to have 10 men aboard.

The ship's identity was not known but she was believed to be German—or Dutch. Rescue personnel described her situation as "serious."

She ran aground late Tuesday night about 35 miles off the Eastern Coast of Sweden. The crew messaged for help by lamp signals to a lighthouse.

Possible Hurricane Located in India MIAMI, Fla. (AP) — A hurricane hunting plane was to go out from San Juan, Puerto Rico, today to investigate the fifth tropical disturbance of the season.

The storm—not yet a hurricane—was located Tuesday about 720 miles east of Antigua, British West Indies, and 2,000 miles southeast of Miami.

It had winds of 55 miles per hour whirling around a well-defined center and was moving north-northwestward at about 11 miles per hour but offered no immediate threat to any land areas.

Women Hear Talk On Campaign Issues

The issues in the 1952 presidential campaign and what they mean to voter and parties alike were discussed for the Venado Blanco Club, meeting in White Deer Tuesday night, by Henry S. Gordon, of the Pampa Daily News staff.

The speaker took up each of the principle campaign issues, war in Korea, government spending, Communists in government, civil rights, corruption in government, the Taft-Hartley Act, campaign gifts, forcing aid and federal controls.

The club met in the home of Mr. and Mrs. Clifton Kelly. Mrs. Huelyn Laycock introduced the program.

Greatest Get-Out-The-Vote Drive Moves Into High Gear

NEW YORK (AP) — The greatest get-out-the-vote drive in the nation's history is moving into high gear. Predictions are even being made that the vote in the Nov. 4 general election, when the nation elects a president, a new Congress and 35 United States senators, will be 20 per cent higher than in 1948—an increase of 15 million. Roughly 48-million persons vot-

Businessmen See Rosy Glow In Crystal Ball

By SAM DAWSON
NEW YORK (AP) — A fresh batch of industrial and financial executives today report seeing a rosy glow in their crystal balls. Joining the long list of businessmen who are optimistic about prospects are spokesmen in these fields: Hardware, home appliances, electrical equipment, television, freight car makers, bankers and finance company officials. The growing trend of householders to "do-it-yourself" is the bright spot in hardware men's shows. At the National Hardware Show here, exhibitors predict a sales upswing in the months ahead. Handymen around the house and hobbyists are making a big market for tool makers. The home appliance industry is looking up, says John W. Craig, vice president of AVCO Manufacturing and general manager of its Crosley Division. "As far as we can see—certainly through the first half of 1953—production and sales should maintain high levels," he asserts. TV Sales May Spurt. Ralph J. Cordiner, president of General Electric, predicts that in the next 10 years the electric industry will turn out as much equipment as it did in the last 24 years. Utilities will profit from the spurt in television which Dr. Charles B. Jaffe, vice president of Radio Corporation of America says, will be in use in this country within a few years. Prospects are good in the refrigerator car leasing field, according to Col. William M. Spencer, chairman of North American Car Corp. His company makes freight cars and has a fleet of 10,000 refrigerator cars it leases. Bank Earnings Up. For the economy in general, Alan H. Temple, vice president and economist of the National City Bank of New York, sees good times for several months ahead. And New York bank statements show that in July, August and September, their earnings after taxes were highest for any three-month period in recent years. But there's one set of doubters who seem unconvinced by all this sweetness and light. Down in Wall Street, bearish sentiment has been on the increase of late. The bears have their eyes on that time—maybe mid-1953—when government spending for defense stops its climb. "The presents from is too good to last" is their motto.

Sittin', Starin' N' Rockin' Keeps Spouses Around Longer

By DOROTHY ROE
AP Women's Editor

Wives—who do not wish to become widows should present their husbands with an old-fashioned rockin' chair. This is the advice of "Uncle Tom" Saxe of Stamford, Conn., who feels so strongly on the subject that he heads an organization called the "Sittin' Starin' n' Rockin' Club," with 2,500 members in this country and abroad, including such as "Uncle Ben" Fairless, president of U.S. Steel Corp., "Uncle Bing" Crosby, "Uncle Bob" Hope, "Aunt Mary" Martin and others ranging from Supreme Court justices to the policeman on the corner. Uncle Tom is not in the rockin' chair business and has no interest in the sale of rockers other than to decrease the toll of ulcer, heart attacks and nervous breakdowns among his friends, all of whom, he feels, would live longer and enjoy it more if they took more rockin' chair time. The club started as a gag while its founder was seated in a rockin' chair on the front porch of a hotel in Sarasota, Fla., a couple of years ago, and discovered that he was rockin' his troubles away. Just for fun, he had a few cards printed up for distribution to his cronies. Each bore the legend: "This is to certify that so-and-so is a member in good sittin' of the Sittin' Starin' n' Rockin' Club and entitled to stare n' rock."

Objectives are stated thus: "To advance the art and science of sittin', to develop new techniques of starin', to promote improved methods of rockin', to practice the enjoyment of all three simultaneously while in a completely relaxed state of mind and body, and to bring back the quiet, peaceful rhythmic squeak of the old-fashioned rockin' chair." The friends who became charter members suggested other friends who were working up to a breakdown, and thus the membership grew. Today files and correspondence connected with club occupy much of the space and a good deal of the staff time in Uncle Tom's offices. Uncle Tom, as well as being club president, also assumed all financial responsibility, sending out periodic gifts, gadgets and reminders to club members. These include such items as miniature rockin' chairs, a "rockin' chair operators license," recordings of the club's theme songs and six-month calendars on which most of the dates are holidays, to be don'ta's and holds no meetings, rockin'.

The club has "no dues and no don'ta's" and holds no meetings, they require too much effort. Hannah Lord Montague, tired of washing her husband's shirts just because she collar was soiled, in 1925 took a pair of scissors to the garment—and created a new men's fashion: the detachable collar.

Less Money Forces FBI To Cut Staff

WASHINGTON (AP) — The Federal Bureau of Investigation, with personnel recently at peak levels, has begun a gradual reduction of staff to get its payroll within the limits of current appropriations.

Bureau officials said the cut can be carried out without interference with vital internal security tasks because some of FBI's routine investigations of applicants for government jobs have been shifted to the Civil Service Commission. A bureau official said in response to inquiries that no firings are in progress, or planned—the FBI is simply depending on the normal number of resignations, without replacements, bringing the payroll into line with available funds inside the next few months.

During this freeze on new appointments, the bureau has likewise suspended staff transfers on its own motion from one grade to another which might involve higher pay. Employees who might normally rate such promotions are being placed on a list for later recognition. However, routine advancements from one grade to another on the basis of time served, as provided by the Civil Service Statute, will continue. The bureau outlined the situation thus: FBI started the fiscal year Ju-

ly 1, 1952, with more workers than its appropriation provided for because Congress, at the bureau's request, relieved the FBI of detailed checks on every person who applies for a federal job. This routine was shifted to the civil service inspectors, with provision for FBI taking over full investigation only for jobs involving national security and where the civil service investigation develops some hint of disloyal association of activity. Congress gave FBI a 1953 fiscal appropriation of \$84,400,000 compared with \$80,260,000 last year and the new funds were further cut to about 77 million when the Budget Bureau impounded a portion to be used as needed by the appropriate agency in the investigation of job applicants. The FBI declined to estimate in numbers just how much staff reduction is in prospect. The FBI payroll now totals 14,800 which includes 8,000 special agents in the investigation field. The first American Christmas cards were engraved by a Roxbury, Mass., printer in 1874—for export to England. They were not given to the American trade until the following year. A hunter named Philip Ginter coal in Cabron County, Pa., in 1791. It was regarded as a species of black stone.

MRS. JOHN E. HINES is pictured above in a dress worn in 1925 by her mother, Mrs. I. B. Hughey. The dress is a beige two-piece lace with fashionable pointed hemline. Mrs. Hughey has been in Pampa since establishment of the county, and attended the Catholic convent in Clarendon, the nearest thing to a finishing school in this section. Mrs. Hines was born here and attended Pampa schools. She is among the models to appear in the Epsilon Sigma Alpha show Sunday at 2:30 p.m. Models wearing new fashions are to meet for rehearsal at 7:30 p.m. today, and models for older fashions are to rehearse at 8:15 p.m. in the Junior High School auditorium. Tickets for the fashion show are on sale at the Harvester Drug.

MATURE PARENT

By MURIEL LAWRENCE

Five-year-old Kathy lives a life that is packed tight with what her mother calls her "activities." Mr. and Mrs. Kathy goes to kindergarten. Afternoons, she is conducted to a play center. Saturday mornings, she goes on educational tours with a "project" group with whom she visits anything from dairy farms to newspaper plants.

Were Kathy ever given a free time to digest the crowding impressions forced in on her, her "activities" might mean something. Unfortunately, Kathy's mother regards idle time as dangerous. Kathy might use it to present a problem.

Since her mother is only comfortable when Kathy is in the charge of people who have mastered in college child psychology courses, she wants to avoid any situation which she feels she has neither the competence nor understanding to solve.

Kathy's mother is a victim of conflicting theories on the treatment of children's problems, and prefers to delegate her child's training to people who have been educated to make sense of the theories.

We should be deeply grateful that the best minds in the field of child guidance have become aware of the dilemma of thousands of parents like Kathy's mother. These experts are doing all they can to rectify the harm that has been done by bad interpretation of the role in children's development.

Now that it has been recognized that to give Kathy security, her mother has to have a little herself, we may expect just a scolding and more encouragement and more equal interest in human rights, whether the humans be young ones or older ones.

We should be grateful that some of the more intelligent people in the field of child guidance are trying to reverse the trend toward the complete subjection of parents to children.

If they were not doing something about it, family life as we know it might have gone the way of the dodo and the Model T Ford. We might have ended up with a social order like the ants who breed and educate a special type of their species to nurse, guard and train the young.

Child training experts like Adele Franklin and the late Agnes Benedict represent the new thinking that champions our right, as well as that of children, to dignity and self-respect.

In their fine, sensible book *Your Best Friends Are Your Children*, they ask and answer the questions we've been wondering about for a long time: "Why should parents trust authority when so few agree - and so many have turned out to be false prophets? Why should parents not be on the defensive when they are afraid?"

I'd go a step further, like the children's court judge who said to me: "Parents have been made so afraid of administering the wrong kind of discipline that

Cook's Nook

This "meat and potatoes" casserole is one that should be in every homemaker's cooking repertoire. It is the sort of satisfying, good tasting dish that pleases every member of the family and will be welcomed friendly in menu plans the year around. Either hamburger or ground beef made into temptingly seasoned balls as the meat portion of this casserole. Then potatoes and onions are added and all baked in a casserole with a tomato sauce. The result is a most deliciously tender and tasty meal.

HAMBURGER AND POTATO CASSEROLE

- 1 cup fine dry break crumbs
- 3/4 cup evaporated milk
- 3 medium onions
- 1 pound hamburger or ground beef
- 1 teaspoon salt
- 1/4 teaspoon nutmeg
- 1/4 teaspoon monosodium glutamate, if desired
- 3 to 4 tablespoons flour
- 3 tablespoons butter
- 4 medium potatoes (about 3-12 cups peeled and sliced thin)
- 1 cup tomato juice, heated
- 1 teaspoon salt
- 1/4 teaspoon nutmeg
- 1/4 teaspoon monosodium glutamate, if desired
- 3 to 4 tablespoons flour
- 3 tablespoons butter
- 4 medium potatoes (about 3-12 cups peeled and sliced thin)
- 1 cup tomato juice, heated

Soak bread crumbs in the milk. Chop one onion very fine. Add to the meat with the bread crumb mixture, 1 teaspoon salt, nutmeg and monosodium glutamate. Mix thoroughly. Shape mixture into 12 balls. Roll balls in the flour to coat.

Slice the remaining two onions. Melt butter in large fry pan. Add sliced onions and cook over low heat until onion is transparent. Remove onions and save. Add meat balls to fry pan, and cook and turn until they are browned on all sides. Butter a two-quart casserole. Arrange meat balls, cooked onion and potatoes in two layers in casserole. Add a ny butter remaining in fry pan and tomato juice, then sprinkle with remaining teaspoon salt and the few grains pepper. Cover tightly and bake in moderate oven (375 F.) until potatoes are tender, about 35 to 40 minutes. Makes six servings.

NOTE: This dish may be cooked on top of the range if fry pan is large and has a tight fitting cover. When meat balls are browned, place the cooked onion and potatoes on top. Sprinkle with the remaining teaspoon salt and the few grains pepper. Pour tomato juice over. Cover the pan and cook over very low surface heat until potatoes are tender, about 30 minutes.

Most densely populated of the Central American republics is El Salvador.

Merten Club Has Clothing Study

Mrs. V. Day presented a program on women's work clothing at a meeting of the Merten home Demonstration club Tuesday afternoon in the home of Mrs. Lawrence West.

"Work clothing should be comfortable and free," Mrs. Day said, "and for heavy, outside duties clothes should have strong seams and stitching. Plastic aprons are appropriate for cleaning. Mrs. Day said and basket aprons for outside work.

During the meeting it was announced that Mrs. D. A. Rife was awarded a red ribbon for her blouse and a plastic purse exhibited in the Court House recently. Mrs. William T. Case Jr. won red ribbons for her plastic purse and orange bread.

Reports were made by Mrs. A.M. Nash and Mrs. Rife who attended the corsage-making class here Monday.

Mrs. Nash announced an all-day meeting to be held today in her home. Gloves from suede and other material including khaki shirts were to be made today.

A Halloween party was planned for October 31 after which Mrs. Archie Maness conducted recreation.

Refreshments were served to Mrs. Maness, F. J. Boyd, Cass, Steward, T. G. Groves, Jack Prather, Rife, Day and Nash and two visitors, Mrs. C. A. Ford and Miss Linda K. Day.

Society Deadlines

Deadlines for the Woman's Page of The Pampa News are printed below for the convenience of club press chairmen and other contributors to this page: All stories must be in the News office by 6 p.m. the day PRECEDING the week day it is to appear in the newspaper. Wedding and engagement announcements and accompanying photographs must be in the News office by Thursday at 6 p.m. preceding the Sunday it is to appear. All other stories for Sunday must be reported by that time, with the exception of Friday events which will be taken until 3 p.m. Friday.

Social calendar notices for Sunday's paper must be reported by 5 p.m. Friday. No additions are made to the calendar after it is typed for the week.

This public is invited to send in the Armed Forces Messages must be written and deposited with the nearest recruiting station which will send them to a "ham" station for transmission. Individual wishing to send messages via MARS are requested to provide name, rank, serial number, APO and organization of addresses.

It is pointed out that if a message is of importance, it should be sent through normal commercial channels.

Mrs. Foster, Mrs. Clark Give Program At Parent Education Club Meeting

Mrs. Jack Foster and Mrs. R.W. Clark presented the program at the Parent Education club meeting Tuesday in the home of Mrs. Rex Rose. Mrs. Foster discussed "Psychology and Your Children" and Mrs. Clark spoke on the importance of democratic government in a child's development.

To stress the necessity of realizing the importance of the emotional, problem Mrs. Foster explained that it is our biggest problem. "Some 700,000 persons enter mental hospitals annually and every three minutes a new patient enters a hospital. One in every 100 persons in the United States needs psychiatric help," Mrs. Foster said, "and one in every five families has a mental patient. More mental patients are treated than all the cancer, polio, tuberculosis and heart illnesses combined."

Mrs. Clark was introduced by Mrs. Rose. She spoke on the importance of realizing that young mothers must guard the outside of homes as well as the inside and that careful physical and mental care for children is of little avail if negative factors at work in our government succeed in destroying democracy.

She compared the five reasons for the fall of Rome with the situation in our country today. The reasons were divorce, tax-

Greet Serviceman By Way Of MARS

The public may now employ facilities of the Military Affiliate Radio System (MARS) in sending messages and greetings to personnel in the service anywhere in the world except combat zones and "Iron Curtain" countries, according to information received at Texas Military District headquarters.

The MARS program is set up to trail its members for use during emergencies and disasters. This trailing will be greatly enhanced if the public responds by using MARS.

This public is invited to send in the Armed Forces Messages must be written and deposited with the nearest recruiting station which will send them to a "ham" station for transmission. Individual wishing to send messages via MARS are requested to provide name, rank, serial number, APO and organization of addresses. It is pointed out that if a message is of importance, it should be sent through normal commercial channels.

RUTH MILLETT

Grandma Moses, the spry little old lady who took up painting as casually as another woman might decide to learn to play chess, has now set down enough facts to make a book about her life.

It wasn't an easy life, either, for the farm girl who went to work as a hired girl at the age of twelve.

But of the hardships, Grandma Moses has this to say: "Of course, I had trouble, but I kind of brushed it off; I tried to teach myself to forget it, and that everything would be all right in the end anyway."

That is the kind of practical courage that women need, the kind that enables them to brush off trouble and forget about it, once it is past.

The woman who makes herself unhappy and doesn't make anyone else happy is the woman who piles herself when trouble comes and clings to the memory of it long after it is gone.

So when you get to feeling sorry for yourself or find that you are miserable because this or that has gone wrong, remember the phrase of Grandma Moses: set your shoulders back and try brushing trouble off.

You don't want trouble clinging to you, making your mouth drop, your shoulders sag, and your outlook weary and pessimistic. Brush it off and go on. Be determined to get at least part of what you want from life by concentrating on the things you can do something about, rather than on the things that are past and too late to act on.

Troubles are bound to come, big ones and little ones. But don't let them cling to you. Brush them off and go on.

THOUGHTS

Go to now, ye that say, Today or tomorrow we will go into such a city, and continue there a year, and buy and sell, and get gain.

The first cook-book of American authorship was written by Amelia Simmons and printed in 1796 by a Hartford, Conn. firm. The 46-page book was called "American Cookery, or the Art of Dressing Vizards, Fish, Poultry and Vegetables, and the Best Modes of Making Put-Pastes, Pies, Tarts, Puddings, Custards, and Preserves, and all Kinds of Cakes, From the Imperial Plumb to Plain Cake - Adapted to This Country, and All Grades of Life."

To present officers, Mrs. Robertson represented "Mrs. WMU of 1963," and each officer placed an article of clothing upon her to represent her office and duties for the year.

Attending, besides the above officers, were Mrs. Austin Rudick, Mrs. L. A. Laverty, Mrs. C. Davis, and Mrs. Marie Haught. Mrs. Graham Reeves presented a devotion on "Service."

Although the diamond is the hardest cutting object, second is tungsten carbide, a synthetic material developed in Germany.

PENNY PAYNE has second birthday

Make Baby's Life Flexible

By ALICIA HART

When you bring your new baby home from the hospital, you'll be faced with the problem of keeping schedules.

You've probably been told that baby must be fed at absolutely the same time every single day, to save nothing of naps, play and dressing.

According to leading authorities on the subject, baby will be much happier and healthier if you allow her to lead a more flexible life.

If her cries indicate she is hungry 20 minutes before her regular feeding time, there is no reason why you should make her wait. And you won't spoil her by giving in to her premature hunger. Instead, she will be contented and easier to manage.

The same basic rule applies to baby's sleeping habits. Regardless of how many hours she slept while you were in the hospital, you can be certain of a change. In all probability, the baby will sleep more than you planned schedule indicates. Again, this should cause you no worry. In fact, some parents will tell you how lucky you are.

Schedules, of course, must have a place in the life of your new baby, but it is up to you, as a wise parent, to adjust and readjust them as varying needs arise.

Penny Payne Has Second Birthday

Miss Penny Payne, daughter of Mr. and Mrs. Gran Payne, was honored on her second birthday with a party in her home. Hostesses were Miss Wadene Thomasson and Miss Nina Ruth Robinson.

Colors of pink and blue were carried out in decorations. The table was centered with an arrangement of pink and blue chrysanthemums intermingled with small pink and blue tapers. Pink candles waxed in little-girl figures were used in the centerpiece.

The white birthday cake was trimmed with pink rosettes, and "Happy Birthday, Penny."

Guests were presented favors of colorful giant balloons, miniature derby hats, and whistles.

Cake and ice cream were served to Pamela Parker, Lee Waters, John Karr, Ken Boyle, Robert Doucette, and Mr. and Mrs. Bob Robinson, Mr. and Mrs. Wade Thomasson, and Mrs. May F. Carr, the honoree's maternal grandmother.

Home And School

The Home and School Assn. of the Holy Souls school will hold the annual father's night today in the Parish Hall. The event is scheduled for 8 p.m.

Advertisement for Dishpan Hands and Dishwasher Hands. It features illustrations of hands being washed and a woman in a kitchen. Text includes: "DISHPAN HANDS", "DISHWASHER HANDS", "There's a difference in hands that 'do' dishes and hands that 'dial' dishes. Hands that 'do' dishes are often rough and red, chapped and creased and unattractive. Hands that 'dial' dishes are soft and smooth, the nails are polished and pretty, and they always look beautiful and bright. An automatic electric dishwasher - the way that lets you 'dial' dishes - makes dishwashing a snap. Just scrape the dishes, stack them in the dishwasher and snap the dial. For your hands' sake, don't 'do' dishes, 'dial' dishes. SEE YOUR MODERN ELECTRIC APPLIANCE DEALER. SOUTHWESTERN PUBLIC SERVICE COMPANY. 28 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE."

French Have Freed Most Reds They've Captured In Indochina

HANOI, Indochina (AP) — The French Union forces have taken more than 200,000 captives from the Communist-led Vietminh in the six-year war in Indochina, but most of them are now free. A check disclosed there are now only 63,115 Vietminh in concentration camps scattered in North, Central and South Viet Nam and in Cambodia and Laos. Of these, 7,899 are listed as regular prisoners of war—men taken in combat with the French troops. A total of 65,216 are numbered as "internees."

Since Moscow trained Ho Chi Minh started his rebellion in 1946, the French from time to time have released hundreds or thousands of imprisoned Vietminh. Tens of thousands seized in Vietminh zones of fighting as suspected of actively aiding or carrying arms for the Vietminh, have been, and are being separated, from the "die-hard" regular Vietminh soldiers. Most of the latter likely will remain prisoners of war until the conflict in Indochina is ended.

The French carefully screen all Vietminh internees. Where it is proven they were impressed into Vietminh military service or forced to other wise aid the Vietminh, action is taken to arrange their eventual liberation. Thousands of these once-suspect Vietminh return to villages in French-held sectors of North Indochina and cause no further trouble for the France-Viet Namese authorities. Some go back to Vietminh-held territory. Much depends on where they last saw their families or relatives.

With 63,115 prisoners of war and Vietminh internees still held

Destroyer Wages War With Lights

ABOARD U. S. DESTROYER WALKER OFF KOREA (AP) — Lookouts on this destroyer spotted North Korean work parties trying to clear debris of a bomb-wrecked train near Songjin recently.

The Walker fired its five-inch guns. The workmen fled at the first flash. Soon they were back. Again the Walker's guns flashed and the workers scattered.

Ena, Dennis O'Connor, Honolulu, suggested flashing the searchlight on the beach, five miles away. It worked. Time and again the Reds ran for cover at the quick flick of the 24-inch searchlight beam.

The destroyer's skipper, Comdr. Marion C. Walley, Honolulu and Richton, Miss., messaged the nearby Canadian destroyer Iroquois:

"Have discovered that searchlight flashes shoreward scatter workmen very effectively. Am conserving ammunition and possibly running them to death. Request services of two Indians and a

Church Trouble Not Persecution

DALLAS (AP) — Misunderstanding rather than persecution caused a recent religious controversy in Italy involving the Church of Christ, a Dallas member of the church said Sunday.

The member, Orville McDonald, was one of a three-man church-appointed investigating group which returned Sunday from Rome.

McDonald, Don Hinga, Houston newspaperman, and James Nichols, minister of a Church of Christ in Abilene made up the committee.

The controversy centered over police action which stopped or hindered services of the American-sponsored church in Italy.

"It's my personal opinion that there is not a great deal of persecution," McDonald said, "but a great deal of misunderstanding." He refused to expand on his statement.

The Geneva Convention of 1929 was a revision of the Hague Convention of 18 dealing with prisoners of war.

A number of signers of the American Declaration of Independence received their legal training at the Innsbruck court, famous British law schools that date back to the 18th Century.

Ladies Can Size Up Men By Observing The Hat They Wear

By DOROTHY ROE
AP Women's Editor

Want to size up the men in your life? You can judge their character by their hats, says James B. Lee, men's hat manufacturer of Danbury, Conn.

This can be a great help to the girl who is out shopping for a husband. A young man may put on his best manners for his best girl, but his taste in hats will give the key to his true personality.

There's the Joe College type, who still wears a pork pie hat, collegiate cloths and always wears his fraternity pin. He's an eternal sophomore, and isn't mature enough to be a good husband.

The lad who wears a green plush Tyrolean hat with a whisk broom in the band for business occasions is a non-conformist, and probably difficult to live with.

The swain who goes in for widebrimmed Western-type hats in

light colors is something of an exhibitionist, but easy-going and open-handed. He's good husband material, if you don't want to exhibit him in a fashion show. Probably will be good to the children and go in for outdoor sports.

The type who wears sport shirts wired for sound and straw hats with blinding bands probably holds himself in all year just so he can get rid of his inhibitions in the good old summer time. He's the mercurial type, who may be in the dumps one day and bubbling over with good cheer the next. Life with him at least would not be dull.

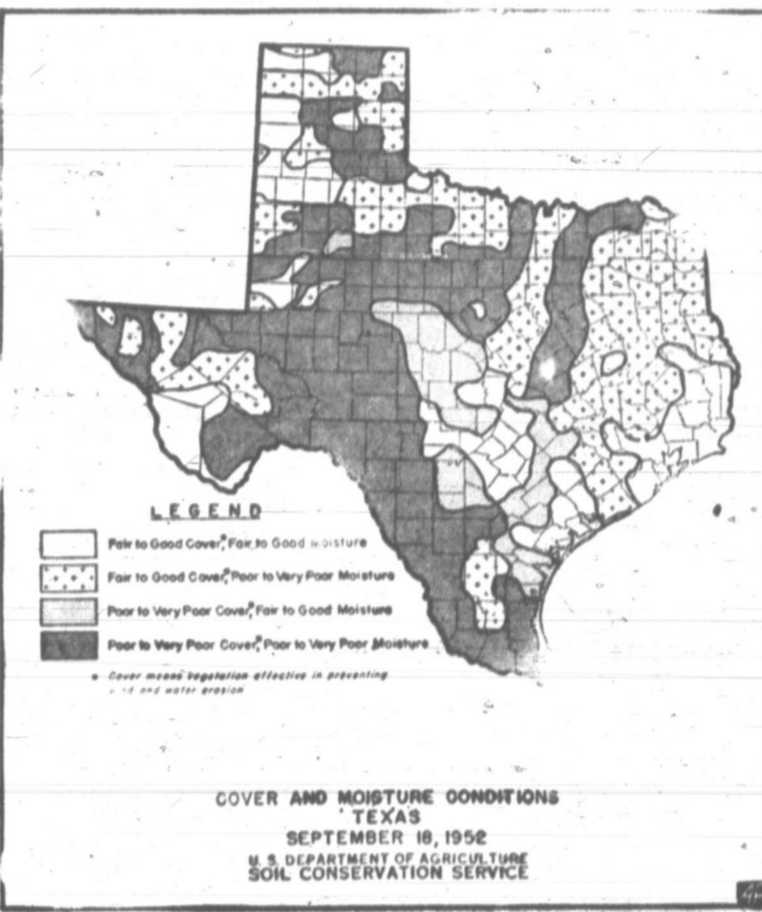

If he wears a derby, he's a rarity these days, and may be worth keeping. He's a boy who reveres tradition and never ventures very far off the beaten path.

The man who wears a homburg — is sure of himself, knows his way around, also inclines toward formality and is fussy about his clothes. But he'll be a

good provider, make the decisions for the family and probably enjoy pedestals, grab him.

Lee feels that the most promising husband material is the young man who wears a conservative felt hat with narrow brim and tapered crown, teams it with a well-tailored business suit and a restrained tie. If one of these is on your list, rope him in with all speed.

But if he doesn't wear a hat at all, says this hat maker, who could be prejudiced on the point, send him home to mother. He'll never succeed in the world of business, because he doesn't care enough about appearances.
