McLean GOP Rallies ...

### County's Political Fever Runs High

Excitement continued to run high locally as the two residential candidates neared the finish line in the hectic 1952 White House derby.

Republicans and their Democratic friends boosting Gen. Dwight D. Eisenhower continued to hold the spotlight in pre-election activity and ballyhoo.

Stevenson supporters have displayed little surface activity and with the exception of last-minute newspaper ads and some visible lapel buttons their fight has been confined to personal contacts and relying on staunch party liners for support.

The first public Republican rally and street parade in McLean fell short of expectations when the McLean High School band failed to show up at 4 p. m. Saturday and the march had to be called off.

Undaunted, Citizens for Eisen-Main St. in McLean before an ers and showed it in the applause they gave the speakers by handclapping and blowing automobile horns. A vast majority sat in their parked cars to hear Pampa Eisenhower boosters speak behalf of the general.

On the speaker's stand were Frank T. O'Brien, Amarillo, who carried Gray County in 1946 congressional race, against Gene Worley, but lost over the rest of the district; L. P. Fort, Jones Seitz, chairman of the Citizens for Eisenhower: Jack Alexander, Borger attorney;

#### Two Touchdowns In Fourth Period Provide 20-7 Win

When you're a winning team it hurts just twice as much to lose. And that was the Harvesters' situation yesterday after losing to the defending state champion Lubbock Westerners, 20-7, Saturday afternoon at Harvester Park.

It was a bitter pill to swallow for the Green and Golders, who played their hearts out against terrific odds and in mid-summer heat.

Goach Tom Tipps summed it all up two hours after the game was over. "They just have too much for us. We played a good game, and I naturally hated to lose, as did the

## SENATOR RICHARD B.

OF GEORGIA

This is the man Gov. Shivers and the Texas Delegation voted for in Chicago throughout the Democratic Convention.

As the campaign for the Presidency approaches a decision, it becomes more and more evident that I was correct in the prediction I made in August that Governor Stevenson and Senator Sparkman will be elected by one of the largest majorities given a National Ticket in recent years.

General Eisenhower's evident confusion in his efforts to grapple with vital political issues has clearly demonstrated to the American people the grave danger of placing our government in the hands of a military man who is totally unfamiliar with the American civilian thinking and the laws and policies which control our domestic way of life. No military career, however great, can be a substitute for familiarity with the operation of a government which traditionally and by law is dependent upon civilian control. Civilian control is all the more imperative in circumstances which make it necessary for us to maintain large military forces and devote two-thirds of the national budget to preparations for military defense.

As one who has admired General Eisenhower as a military leader, I have been bewildered by the endless contradictions of his political pronouncements. It would require a book to catalog them. Of course, it is difficult for him to bring forth the blueprint for his early classic, "our whole program must bring an idealistic approach for every problem in the world."

Shortly after his nomination, he declared: "The Soviet threat is no more to be feared than a pollywog swimming down a muddy creek." Since that statement, he has devoted much time to stressing the fact that he is the best qualified man to deal with the ominous threat of world communism he had likened to a pollywog.

Shortly after stating that he did not understand the term "Farm Parity," he assured the American farmer of 100% parity for all the products of his toil. As one who has devoted a large part of his legislative service to overcoming Republican opposition to fair farm legislation, I have vainly awaited an endorsement of this last farm statement from General Eisenhower's Republican Congressional supporters. I have failed to see where one of them has disclaimed their record of opposition to the soil conservation program and to the laws which enabled the farmers to have some idea when they plant their crops what they will receive from their harvest.

On those days when General Eisenhower decides to support collective security in the field of foreign relations, he is deserted by the Republican leaders in the Congress who will direct legislation in that body and whose records stamp them as isolationists.

The American voters are thinking for themselves in 1952. Neither the bedlam of this campaign nor the military glamour of the Republican candidate will confuse them. They will go to the polls in the greatest number in our history on November 4 to maintain in power the party of the people. They will protect the social, political, and economic gains of the past 20 years. They will not be beguiled by the promises of an easy road to National Security nor risk the future of this country to hawkers of painless means to stop the march of communism. They will not gamble with the future of their children.

It is well known that I do not subscribe to every plank in the Democratic Platform nor agree with all the views of our party's Presidential candidate. I am convinced, however, that Governor Stevenson has the potentialities which can make him one of the greatest Presidents who has ever served our country. With the support and prayers of the American people and the aid of the Almighty he devoutly worships, he will see this nation safely through the dangers of today's world.

# Golden Autumn

the golden season of the year when everyone begins to relax from the crispness of summer.

It's a time for a carefree little girl to go scuffing through falls of leaves . . to kick as high as the leaves are wafted by the winds. . . to dream little girl dreams . . . she is the fall queen or a new Alice in a new Wonderland . . one of nature's sprites. .

But for some youngsters, the leaves connote a different theme — a rake to be put to use . . . however, with a dog and a boy's love of the "all-outdoors" it's not really such a chore . . . he can loaf along and build his castles too — maybe he's a pirate or a cowboy . . . the movement of the rake slows — the job may take all day . . . but then, this is autumn . . . . . Or autumn can be a crackling the day and a soft, warm and creamy on the inside . . . a boy and a girl roasting marshmallows before the fireplace while chill winds whistle outside. . . And who cares about the chill winds when under a flannel shirt the familiar bite in the air sends the hunter rushing off, gun in hand — then barbed wire slows him down; but even this he accepts with good grace when there are birds to be had on the other side.

For the farmer, it's the culmination of a year's labor — good crop or bad, it's over . . another season vaulted away in the banks of time . . the feed is shocked and the fields are clean. .

Yes, autumn is a golden time for everyone . . the year's maturity . . and some say "quite the nicest time."

POINTED ANTIQUE

If you've inherited family heirlooms, you'll find them superbly in key with this Paul Revere design. The simplicity of POINTED ANTIQUE suits contemporary furnishings as well as Colonial. Six-piece setting, solid silver, 29.75.

BURGUNDY

If your raste is sophisticated, you couldn't select a better pattern than BURGUNDY, by Reed & Barton. Notice the superb sculpturing of each delicate scroll, leaf and flower. Truly a great pattern. Six-piece setting, solid silver, 33.75.

GEORGIAN ROSE

This gracious pattern derives from the golden age of design. It harmonizes with Chippendale and 18th Century decor. GEORGIAN ROSE combines a beautifully rich border with a graceful, plain center-panel. Six-piece setting, 28.75,

FRENCH RENAISSANCE

One of the main delights of solid silver is the satisfying weight of it. FRENCH RENAISSANCE is exceptionally heavy sterling. It combines a feeling of luxury with unusually deep scalpturing. Six-piece setting, solid silver, 33.75.

# Like your travel with a JOYOUS THRILL?

Want more fun from driving than they get from their present cars.

There's a trim bundle of eager high-powered energy that's just the ticket for you - a spirited automobile that can give you thrill after joyous thrill, for mile after fleeting mile.

Why not come in and try the Buick we have in mind?

The excitement starts with your first look at it, your first sitting in it, your first fingering of its slender wheel.

But wait till Dynaflow Drive\* begins working its magic-and its constant and complete smoothness fills you with never-ending

Wait till you feel the bubbling exuberance

of taking your first hill with a high-compression Fireball 8 Engine doing the honors. That's when you get a man-sized sampling of the tremendously able and instantly responsive power you command here.

Wait till you feel the serene satisfaction of skimming over rough roads, cobbles or ridged crossings. That's when you know, better than words can tell, what a million dollars' worth of ride engineering can do in the way of magnificent comfort.

Wait till you jockey into a real tight parking space and note the fun and ease that Power Steering\*\* brings to a once-tough job.

But-why wait?

There's a Buick that can do all this - and more, far more - all ready for you to try it. And listen: If you can afford a new car, you can afford a Buick.

How about coming in this week for a real sampling of this joyous travel?

She talked to 170 of the county's 463 qualified voters, her report: 41 per cent for Stevenson, 38 per cent for Eisenhower, 12 per cent undecided, 3 per cent told her it was none of her business, and one per cent said "I am going to scratch them both." Wife Refutes Hubby

The AP correspondent had quite a time of it. She said: "In a few instances I talked to a husband first and he would say he was voting a Republican ticket and at a later time I would say, 'Oh, I'm voting like my husband and he always votes a Democratic ticket.' In one case a man went to great pains to tell me how ignorant anyone would be to vote for Stevenson. Gas is the cleanest of all heating fuels. It burns without smoke or odor, leaving neither stains nor residue.

Automatic gas heating leaves carpets, drapes, paint and household decorations spotless and clean, and reduces cleaning and painting bills to a minimum.

That's one saving you make with gas heat . . . and remember, too, when you install gas heat you earn the lowest domestic rate on every gas appliance in your home. That's another saving that helps pay for gas heat.

American homes in 1951 installed more GAS HEAT than any other AUTOMATIC heating system.

### Do Americans Want Big Government

After reaching legal voting age, each American can expect to have about 24 opportunities to vote in a national election. In our whole lives, we cannot expect more than a dozen opportunities like the one this year to vote in a Presidential election.

Surely, none of us wants to waste this opportunity. We want to make the most of it.

The way to make our vote count most is to judge the candidates by their stand on important issues.

·This can be illustrated with just one issue — Government economy. Uncle Sam is a generous fellow - more generous than prudent, considering that he has nothing to spend except our own tax money.

He has taught us to depend more and more upon his support. The line at his pay window grows longer each year. His checks for salaries, pensions and various benefits now go regularly to about 17 million persons.

The time has come to ask ourselves: How much government spending can we afford?

·Big spending by government leads to many complications. High taxes, for example. And higher prices. An enormous national debt that some day must be paid. It leads down the road to socialism. And it leads to corruption.

Let's take up these matters one at a time. You've seen your taxes go up lately. Maybe you don't realize how much because a lot of your taxes are hidden in prices you pay. In about six years our federal government has collected more taxes than all the other ad-

ministrations in our history, combined. Next, big spending by government leads to inflation. And inflation, as we know, means higher prices. We have inflation when there is a big increase in the supply of money, without a corresponding increase in the production of things to buy with that money.

The government pours out vast sums of money and produces nothing that you or I can buy. In fact, heavy government purchases are in some cases reducing the amount of goods which we normally could buy.

Excessive government spending also piles up the national debt. Right now, the debt stands at 263 billion dollars. That's almost \$1700 for every person in the country. Theoretically, at least, every child born in America inherits a \$1700 share of the debt.

Spending promotes big government. Maybe you've noticed that the bigger government grows the more it tells the people what to do and when to do it. Socialism, after all, is just big government equipped with all kinds of controls over the lives of the people.

Finally, big government spending invites corruption. Even strong men are tempted when money flows like water. Our government this year is spending almost 80 billion dollars. Even if only one hundredth of one per cent of this sum went astray, the loot would add up to \$8 million — and that's a tempting figure, isn't it?

So there you have it. On Nov. 4, you have a choice

The issues: on the one hand, unrestrained government spending, with high taxes, high prices, growing debt, new steps toward socialism, and corruption. Or, on the other hand: fewer government services, less spending, some hopes of tax relief, less upward pressure under prices, a balanced budget, a return to the traditional American way of life and less chance for corruption in govern-

Vote on this issue as you see it.

### Aiding The Commies

At more or less regular intervals, the oil industry is attacked on one political pretext or another. That is the case today - with special emphasis on the operations of American oil companies abroad, despite the fact that they have performed miracles in developing once-primitive nations, have brought new concepts of civilizations to native peoples, and have produced huge quantities of oil desperately needed by the free world.

The layman can't be expected to understand all the complex ramifications of the political attacks. But he can understand certain truths. For instance, Fortune magazine recently quoted this observation by Walter Levy, an authority on world oil: "Oil in the ground in the underdeveloped countries of the Middle East or elsewhere is of value to no one. It required the capital and skill of the American and British companies to bring it out of the ground - a skill and an investment that cannot presently be duplicated in the underdeveloped countries. It also requires the markets of the importing countries to translate the oil resources into an economic value."

If it hadn't been for the willingness of free enterprise to take long risks, most of the foreign oil would still be deep underground in trackless wastes. Is that what the government would like? In any event, the current attacks are giving welcome propaganda to the Communists and others whose purpose is to undermine every free nation and to eventually enslave the whole world. Washington politicians are playing conscienceless politics with a vengeance:

Of course that statement makes Governor Stevenson a law unto himself. He is repudiating the ethics of the Jewish and Christian religions -- and when a man reudiates the moral principles of the Jewish and Christian religions he

Roosevelt and Truman-didn't use any fixed principles to determine what the government should attempt to do. They evidently believe that the state has a legal right to do things that are immoral for an individual to do. They evidently believe, tike Governor Stevenson must believe, that men can do as they please collectively and not suffer the consequences for violating the moral laws that govern the individual. Probably that is the reason the latter two Presidents were parties to the United States government borrowing money and agreeing to pay in money redeemable in gold and six months later repudiating their agreement and making dishonest fiat money legal tender.

With this kind of pelief, it is no vonder that Governor Stevenson has to avoid fundamental principles that should control our government bodies. The only thing a man can do who does not reason from principles is to wisecrack and avoid answering certain questions. He dare not answer them because he would be embarrassed because he would have to let the public know that if he was elected he could change the rules because he knows mo rules that are eternal and that should govern human relations. If there is anything that should frighten the American people, and especially Jews and Christians it should be this statement by Governor Stevenson that: "I have no fixed principles by which every issue is to be automatically resolved." Neither has Joseph Stalin or any

A reader of this column was kind nough to write me telling what Governor Stevenson said at the New York Herald-Tribune Forum on October 24, 1949. This is what the governor said at that forum. "I have no fixed principles by which every issue is to be automatcally resolved."

That is certainly a most starlling statement for any individual to make, let alone a man who is seeking the highest office in the United

If we would know a man, we must know what he believes, and when a man says that he has no fixed principles by which every issue is to be automatically resolved, then we must conclude that he is either ill-informed or he believes himself so omnipotent that he need not obey any natural laws. That is the equivalent of saying that there are no inalienable rights that beequivalent of saying that he does not believe in the doctrine set forth in the Declaration of Independence that all men are endowed by their creator with certain inalienable rights-among these are life, liberty and the pursuit of happiness. Evidently Governor Stevenson believes in a government of whimsical men rather than a government of eternal imutable laws.

Probably that is the reason that Governor Stevenson of Illinois ran a deficit of 27 million dollars in 1950 and a deficit of 37 million dolars in 1951. He evidently believes there are no "fixed principles" that govern financial matters and that e can do like the federal government is doing-spend and spendand it will impoverish those who have to pay the bill. If there are no fixed principles, then his running the per-capita cost of the state

PRESIDENTIAL "SMEAR" CAMPAIGN

'Truth', London, Eng.

The attempt to "smear" Senator Nixon has proved a sorry failure. By making public the state of his finances, the victim of the campaign has proved that he certainly is not in politics for money. A brilliant lawyer, as was proved by his cross-examination of Hiss during the Congressional inquiry. he could-on the strength of the fame which it brought him-have made a fortune in his own profession. Instead, it is clear that he is happy, in his abstemious way of life, simply to make ends meet The fact that certain people, who considered his membership of the Senate to be a good thing for the United States, found money meet his political expenses has been held by his enemies to amount to corruption. No evidence whatever has been produced to show that the money was corrupt ly used, and most reasonable peo ple will agree with the Republican candidate for the Presidency the Senator has not only vindicated himself, but has acted as a man of character and honour, who

stands higher than ever before. It was natural, in the circumstances, that Senator Nixon should have riposted by asking questions about certain expenditure by the Democratic candidate for the Presidency and Vice-Presidency That does not necessarily mean is difficult for British commenta tors to assess these matters withknowing what is common

Most of them probably feel, as, no doubt, all intelligent Americans feel, that it is time for candidates to drop their "smear" tactics, and to concentrate on the policies each proposes to pursue, internally and externally, should he become President. As things stand at present, these policies have been only faintly adumbrated. If this should be intentional, it means that neither side credits the electorate with the

"CREATIVE REBELS?"

A Chicago newspaper columnist recently cited the fact that a wide majority of the reporters covering the absurdity of the accusation. the Presidential campaigns have announced their personal preference for Stevenson, although most of the papers they represent support Eisenhower. He comments: "This sort of po-

litical schism is an old story on newspapers, and I think it can he explained by temperament as much as by anything else. Writers, lie in Europe, Asia and Latin on the whole, have tended throughout history to lean to the liberal, if not the radical side on public matters. THE SWORD of the spirit is the word of God. Eph. 6:17. The cutting word is a two-edged sword; truth cutting through falsehood or the hurting word cutting into innocent hearts. Talking is a terrible responsibility. Words create or crush. Your words are your union card; they put you in the construction crew or the wrecking gang. Words are ambassadors of the mind...choose those that will make treaties of peace, not declarations of war. In America there are nearly 300,000 Churches where "His Word" is fed to hungry souls. The word of God is living and active and sharper than any two-edged sword. Jesus offered life to those who would hear His words and believe. You can be sure the best people are church-going people ... do you go to church?

### Three New Wildcats Staked In An Otherwise Slow Week

After almost a month of no new wildcat activity in the Panhandle, three new tests have been slated. One is in Carson County, another in the Haggard pool of Roberts Coun-underway today. ty and the third in Hansford County. In the regular field there were 'll new locations, including the three new ventures.

ENJOY DOUBLE ANTI-GLARE PROTECTION

with Admiral's ingenious combination of new Panoramic all-glass cylindrical picture tube and curved safety glass. Since both picture tube and curved safety glass are curved like a section of a giant water tumbler, all annoying reflections are BOUNCED to the side, AWAY from your eyes, and with picture tube hugging the safety glass you get the widest viewing angle ever seen in television.
