Ike Sees Nothing Funny About Race

"In general, the art of government consists in taking as much money as possible from one part of the citizens to give to another. It is difficult to free fools from the chain the reverse."
—Voltaire

CIRCUS IN TOWN — Early admirers of performers and animals in the Clyde Beatty Circus in Pampa today for two performances, are Warren Kretzinger, left, and an unidentified friend. The circus was scheduled for a matinee performance at 3:30 p.m. and another at 8 p.m. today. The Pampa Shrine Club is sponsoring the show for the second year in Pampa. Reserve seat tickets are on sale in the lobby of the Combs-Worley building for tonight's performance. Quentin Williams, local Shriner, is in charge of ticket sales. (News Photo)

Collides With Truck . . . Pampa Girl Killed In Auto Collision

A Pampa girl was killed early this morning near Skellytown when her car collided with a truck on Hwy. 152. Annie Owen, 19, daughter of Mrs. Tommie Owen of 815 South Russell, was driving her '51 convertible toward Pampa when her car was involved in a collision between 7 and 7:10 a. m. with an oil field pulling unit operated by Tom Carver, Pampa, on Hwy. 152, seven-tenths of a mile northwest of Skellytown.

ANNIE OWEN . . . Killed in accident

Miss Owen was dead on arrival at Highland General Hospital. Positive identification was made by a 1951 Pampa High School class ring which she was wearing. In addition to the fatal gash to the side of her head, she suffered a broken leg.

According to Borger Highway patrolmen, Miss Owen's vehicle collided with Carver's truck, ripping the left side of the truck and demolishing her car. Carver was taken to Worley Hospital with a cut in the head.

A third car operated by Richard W. Mahry, 24, of Borger, which had followed the Owen car out of Borger, had its bumper bent by the accident.

A fourth vehicle, a pickup containing some of Carver's fellow-employees, was behind the well pulling unit but was not involved in the collision.

The Carver truck belonged to the Triangle Well Service, owned by Chuck Hoover. It is used to suck rods out of oil wells.

Miss Owen had been employed at Lane Wells Co., Price St., for about four months where she had done mechanical drawing and drafting work. She had planned to become an architect.

In the meantime, at least 17 other persons died by violence in other parts of the state during the week end, according to the Associated Press. As usual traffic fatalities led the list.

At least 13 persons died in traffic crashes, two persons drowned and a young Houston girl was shot to death and a boy was fatally injured in a fall.

The bodies of Cecil Campbell, 26, Palestine, fireman for the Missouri-Pacific Railroad, and Missy Allen Campbell, 7, his son, were recovered today from the wreckage.

They drowned yesterday when a boat carrying five persons overboard Sept. 30.

Lewis' union members traditionally won't work without a contract. However, agreements with Southern soft coal operators and with the Pennsylvania anthracite or hard coal, owners extend until Sept. 30.

The UMW Policy Committee, due to meet with Lewis in mid-afternoon, is the group Lewis usually consults when major union decisions are to be made. It always ratifies contracts before their terms are made generally known. It also helps draft strike plans.

John Busarello of Pittsburgh, head of the union's District No. 2, said over the week end he knew of no soft coal settlement in the works, but felt the calling together of the Policy Committee was a hopeful sign.

It was reported that some progress has been made in the soft coal, or bituminous, industry peace talks, but not enough to assure an agreement before a strike could develop. However, both sides were described as seeking to avoid a shutdown.

Army Demands 3 Red Officers Leave American Sector

FRANKFURT, Germany (AP) — The U. S. Army has taken accreditation cards away from three members of the Soviet military liaison mission here and ordered them out of the American zone.

The action retaliated for similar Russian measures last month against three U. S. military men in Potsdam.

A U. S. Army headquarters announced yesterday it had ordered the three Russians — a lieutenant colonel, a captain and a private — to give up their passes on Sept. 8. Since then, they have remained in their mission compound here.

Three American Army men of the same ranks were arrested by the Russians north of Berlin spying in a restricted area. The Soviets later released the three but demanded their withdrawal from the U. S. Mission at Potsdam, in the Soviet zone.

WAR TOLL MOUNTS — WASHINGTON (AP) — The Defense Department today identified 67 Korean War casualties in a new list (No. 649) that reported 15 killed, 45 wounded, two missing and three injured.

Church Plans Court Action Against Ban

ROME (AP) — American Church of Christ leaders said today they planned court action against a police ban on their Protestant services in this seat of Roman Catholicism.

Cline R. Paden, of Brownfield, Tex., who heads the Rome Church of Christ, said, "we will do whatever is necessary to bring our case before the courts."

Police action against the sect in Italy was climaxed Sunday when worshippers defying the ban were barred by police from the church rooms in a Roman villa.

Later the services were held secretly in the home of a member whose name Paden declined to disclose because it "might hurt him."

Today a Church of Christ delegation called on the Italian Ministry of Interior to ask quick and favorable action on an application to hold services in Rome.

Paden said the application was submitted last week.

An informed Italian source said the crackdown was due to the group's evangelical activities — about 1,000 conversions since World War II — in Catholic Italy.

Paden protested to the Interior (See CHURCH, Page 5)

General Takes Job At Adlai's Political Satire

ABOARD EISENHOWER SPECIAL (AP)—Gen. Dwight D. Eisenhower told a mildly responsive crowd at Fort Wayne, Ind., today that "I see nothing funny" about the issues of the presidential campaign.

Opening a 12-day, 12-state drive, the Republican presidential nominee said:

"I am in this business running for office because I believe America is in peril. There is nothing funny in that."

Eisenhower was applauded by an estimated crowd of 5,000 persons as he jabbed at the levity with which his Democratic opponent, Gov. Adlai E. Stevenson, has used in discussing some of the GOP reaction to political problems.

In an obvious effort to turn this satire against Stevenson, Eisenhower said solemnly:

"We are involved in a war in Korea without any plans for winning it. We have had 170,000 casualties in killed and wounded. There is nothing funny in that."

Eisenhower told the crowd that his greatest fun in campaigning is in making off-the-cuff speeches. He doesn't get much enjoyment out of so-called "major" speeches, he said.

Several Indiana Republican leaders, including Sen. William Jenner and Homer Capehart, joined the campaign train at a brief stop at Monroeville and in Fort Wayne.

Jenner, whose criticism of Gen. Eisenhower obviously has irked George C. Marshall as a "front" in the list of politicians scheduled to introduce the GOP nominee at seven appearances in the state.

Jenner and Eisenhower exchanged handshakes in the Fort Wayne station.

"I'm glad to see you again," said the general and then hurried on.

School kids perched on nearby busstops as Eisenhower spoke on the sunlit rail station.

At the Springfield state capital Stevenson was catching up on his gubernatorial duties and, on the basis of his experience in the West girding for an assault on the Atlantic Seaboard.

Stevenson's second major drive, (See RACE, Page 5)

Green Opens AFL Conclave

NEW YORK (AP) — Delegates to the 71st annual AFL Convention gathered today to hear an opening address by President William Green, who has indicated the group will endorse Gov. Adlai E. Stevenson for president.

Decision on a presidential choice is expected to be made a week from tomorrow after the convention has heard addresses by Stevenson and his Republican opponent, Gen. Dwight D. Eisenhower. The general will talk Wednesday and Stevenson next Monday.

The 72nd convention delegates represent some eight million AFL members.

The AFL's Executive Council filed a report last night in which it denounced the Taft-Hartley Act as "unusual failure" and called for wage-price control program unfair to labor.

Green made it clear at a pre-convention news conference that if the delegates decide on a presidential choice it will be largely — if not entirely — based on the candidates' views and their party platforms regarding the Taft-Hartley Act.

Stevenson and the Democratic platform advocate repeal of the Taft-Hartley Act, and a new labor relations act. Eisenhower is against repeal, but has recommended decisions to improve the law without changing its "basic principles."

Defends Work Of Liquor Board

AUSTIN (AP) — State Liquor Board Administrator Coke Stevenson cracked back today at criticism of enforcement activities in the Panhandle and West Texas.

Stevenson said undercover work by board agents produced evidence leading to indictment of seven persons by the Potter County Grand Jury in Oct., 1951.

"Only one defendant has been tried up to the present time," Stevenson said in a statement issued here today. "A Potter County jury gave him a two-year suspended sentence."

"Since October of last year, the board has taken administrative action on the licenses and permits held by the individuals who were indicted by the Potter County grand jury and resulted in cancellation of each and every license and permit held by such individuals, which orders of cancellation have been upheld by the Court of Appeals."

The Potter County Grand Jury sharply criticized enforcement activities of the board in a report issued last week.

Methodist Group To Elect Officers

Brotherhood Club of St. Paul Methodist Church will elect officers to fill present vacancies at a business meeting today at 7:30 p. m. in the church.

This is the regular meeting of the club which meets every three weeks. All mem. of the church have been urged to attend by Rev. Edwin Hall, pastor.

Nine MIGs Downed In Allied Assault

SEOUL, Korea (AP) — Sabre jet pilots destroyed at least nine Communist MIG-15s today while flying protective cover for Allied fighter-bombers attacking Red targets deep in North Korea, the Air Force announced.

Eight MIGs were shot down, one was maneuvered into crashing, another probably destroyed and two were damaged in 11 separate battles. Fighting ranged from 30,000 feet down to tree-top level.

The fighter-bombers plastered a Communist industrial complex at least nine miles from the Manchurian border. Targets included an oxygen plant, an alcohol distillery and a rope factory.

More than 80 MIGs roared across the Yalu River from their base at Antung in an attempt to protect the sprawling target. They ran into 104 swift Sabres and the ensuing jets were shot off into a series of twisting, turning dog fights.

The U. S. Fifth Air Force destroyed this month, forty Communist MIGs. Targets were KO'd by Air Force pilots and one by a carrier-based Marine pilot. If the MIG which was outmaneuvered into crashing is officially confirmed, the total will be 42, within two of the one-month record of 44 racked up last April.

Allied losses, if any, will be reported later in a weekend summary.

U. S. Asks Tito For Greater Aid In Joint Europe Defense

BELGRADE, Yugoslavia (AP) — The United States has asked Premier Marshal Tito for greater cooperation in the joint defense of Southeastern Europe, including the use by American planes of air bases in this country.

From a responsible source, it was learned that Vice Adm. J. H. Cassady, commander-in-chief of the Mediterranean-based Sixth Fleet, laid the proposition before Tito last week aboard the giant aircraft carrier Coral Sea during his visit to Split.

It was presented in the course of a special briefing, before the Coral Sea's sailors and aviators put on a demonstration of American sea and air power. Tito was shown charts outlining how and where carrier-based planes, operating from the Adriatic, could strike in Hungary, Romania and Bulgaria if Yugoslavia was attacked by the Soviet satellites.

Cassady was quoted as playing a glowing tribute to Yugoslavia's resistance against Russian pressure since its break with the Soviet-led cominform in 1948. He expressed American gratification at this country's recent measures to increase defensive cooperation with Greece and Turkey.

But he said the United States would like even greater direct cooperation already marked by increasing shipment of American arms to equip Tito's tough, well-trained troops.

Cassady reportedly offered two informal yet highly important suggestions. He said he would like to see:

1. Yugoslavia grant American fliers the right to operate over this country and to use Yugoslav air bases in order to become better acquainted with the terrain in the event they are called upon for aid in case of war.

2. Participation by the Yugoslav navy in joint maneuvers with units of the American navy in the Adriatic.

Both suggestions underscore the reason behind the decision of the Navy and the State Department to send a flotilla—one of the world's three largest carriers, a modern heavy cruiser and four destroyers—here for its most impressive demonstration of western strength since the war's end.

Cool Front Brushes Pampa Early Today

A cool front brushed Pampa early today as it rolled out of the western mountains and headed across the Great Plains.

Temperatures, however, were expected to stay warm — in the 80's and 90's — and forecasters doubted that the state would have any real cool weather before October.

In Pampa Sunday the high and low thermometer readings were 80 and 59 respectively. No rain was reported. At 11:30 a. m. today the mercury had reached the 75-degree mark.

Sect Member Would Die Before Taking Transfusion

ALVIN (AP) — A critically injured young railroad worker told doctors here he would rather die than accept blood transfusions.

The young man, Leo W. Scott, 24, was bleeding internally, doctors said last night, and added he "just couldn't last long" unless he and his family relent and accept the transfusions.

One doctor quoted Scott as saying "I'd rather die than take the blood of another and go to Hell."

The parents, Mr. and Mrs. E. R. Scott, of Austin, said they would not inject blood without permission of the family. The Scotts have two young sons, one two years old and the other five weeks old.

Lewis, Aides Charge Dismissed In Alice Killing

ALICE (AP) — Dist. Atty. Homer Dean today dismissed murder charges against Alfredo Cervantes in the assassination of Jake (Buddy) Floyd Jr., son of a prominent Alice attorney.

Dean would not immediately say why he dismissed the charges against Cervantes, sought since last Monday when young Floyd, mistaken for his father, was fatally shot.

At the same time, Dean filed new charges against Nago Alaniz, dapper young Alice attorney, and Mario (El Turco) Sabet, San Antonio bar owner.

The new charges specifically said that Alaniz and Sabet were not present at the shooting. But it charged them with aiding and encouraging the unknown triggerman.

The elder Floyd has claimed the bungled plot was politically inspired — that a group headed by him planned to lead a write-in campaign Nov. 4 for Judge Sam Reams, defeated for re-election. Reams for years has been fighting the dominant political group in the Rio Grande Valley, as has the elder Floyd.

The new charges against Sabet and Alaniz signed by Sheriff Halsey Wright, say that a "person whose name is unknown to me shot young Floyd, 22."

The complaints say Alaniz and Sabet "did prepare and furnish arms and aid in the attempted assassination of Jacob S. Floyd" and "the person whose name is not known shot and killed Jacob Floyd Jr."

Further, the new charges said that Alaniz and Sabet unlawfully, "willfully, knowingly and with malice aforethought, advised and commanded and encouraged the said unknown person to kill Floyd, and they did conspire, combine, confederate and enter into a positive agreement with this person whose name is not known."

Alaniz earlier had been charged with murder while Sabet had been charged with assault to murder.

Meanwhile, officials considered allegations by an attorney for Sabet that his client was tortured by Texas Rangers.

Female Spy Ring Crushed

PUSAN, Korea (AP) — South Korean police have smashed a band of 17 women spies operating from within the United Nations organization, the government announced today.

Police arrested 17 women, including two alleged ring leaders. The announcement followed by one day disclosure that a spy ring of 17 men had been broken up.

The two leaders were identified as Miss Pak Chung Ja, 25, and Miss Yoon Chul Sung, 24, both graduates of the Seoul Women's Medical College.

The government said Miss Pak received special Communist training in North Korea. She returned to South Korea six months after the war began June 25, 1950, and has been working in a United Nations unit.

The government said Miss Pak and Miss Yoon befriended other South Korean women who had contacts with the U. N. forces and persuaded them to join the spy ring.

MEMORIAL PROGRAM SOLOIST — Walter Jennings, education and music director for the First Methodist Church, Houston, is to be guest soloist and director of group singing at the memorial program dedicated to early-day pioneers of the area Oct. 12 during Gray County's 90th Birthday Celebration. The program is to be in the Senior High School Field House at 8:15 p. m.

If it comes from a hardware store we have it. Lewis Hardware. Adv.

Pleads Guilty To Charges In Accident

Ernest Miranda, Skellytown, was fined \$100 and costs in county court this morning after entering a plea of guilty to a charge of operating a motor vehicle while under the influence of intoxicating liquor.

Miranda was injured in a three-car collision Saturday night in the 500-block of S. Cuyler when his vehicle slammed into two other cars which were slowing down at a red light.

He was taken to a local hospital, left it of his own volition, was picked up by police, booked on the drunk driving charge and returned to the hospital.

Carnival Worker Confesses Murder

ELIZABETHTOWN, N. C. (AP) — Sheriff John B. Allen says a former Negro carnival worker has confessed to the rape and murder of a white woman.

The sheriff said the confession was made yesterday by Douglas Grisson, a 25-year-old Negro from Virginia, who was fired as a carnival laborer last Friday.

Murder and rape each carries the death penalty in this state.

Solicitor Malcolm Sewall said he would present bills of indictment to the Bladen County grand jury. The action was expected today.

Mrs. Thad White, 20, was found dead in a cornfield near her house Saturday. She was battered almost beyond recognition. The kitchen of the house was blood-spattered, as was an iron found on a table. Alongside her almost nude body was a bloody piece of timber.

Amarillo Takes Series Lead Over Pioneers; Gassers, Dukes All Even

By the Associated Press. Amarillo holds a one-game edge over Clovis and Berger and Albuquerque are all in the West Texas-New Mexico League's semifinal playoffs.

The Amarillo Gold Sox who came five runs in the fourth regular season game, trimmed the Clovis Pioneers 6-4 Sunday. This left the Pioneers' runaway lead in the third standing, in the uncustomed role of trailing two games to one.

Albuquerque's Dukes pulled even in their half of the playoffs by thumping the Berger Gassers 8-2. They now have one game apiece.

Amarillo and Clovis are scheduled to play their fourth game Monday night in Amarillo. The Dukes and Gassers move to Berger three games. They'll switch

Snead Wins Eastern Open In Baltimore

BALTIMORE (AP) — Sam Snead won the Eastern Open championship in a last which already is close to 100 and is interested in another \$2,400 first prize.

The Eastern Open check for that amount boosted his year's earnings to \$18,441. That leaves him only \$562 behind third-place Jack Burke Jr. among the leading money winners. Burke is reported to have put away his clubs for the time to concentrate on getting married.

Snead, whose devotion to the dollar is a standard joke among the pros, has been first or second in the money list since he started playing professionally in 1937.

The 38-year-old Virginian showed he was in peak form by winning the Eastern Open with a record-breaking 257. He was four strokes under the record of the past two tournaments, 13 under par for Mt. Pleasant and two in front of second-place Ed Porky Oliver of Lemon, Ill.

NOTICE TO BIDDERS

Sealed proposals will be received at the County Clerk's Office, Pampa, Texas, until 10:00 a.m. October 1, 1952, for the construction of a new base course and paving for 4.52 miles of lateral road.

Bidders must submit Cashier's Certified Check issued by a bank authorized to do business in this state in the amount of \$10,000.00 as security for the performance of the contract. The bid must be accompanied by a copy of the bid form provided within ten (10) days after notice of award of contract to him. Bids which do not conform to the proposal will not be considered.

The successful bidder must furnish performance bond in the amount of 100 percent of the total contract price from a Surety Company holding a license from the State of Texas. The amount of the bond must be paid in full to the County Clerk at Pampa, Texas, before the award of the contract.

All lump sum and unit prices must be stated in both script and figures. The award of the contract is subject to all bids and to waive formalities in case of a bid which is not clear in stating the prices in the bid. The owner reserves the right to consider the most advantageous construction thereof, or to reject the bid, "irrespective of any protest or objection." Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions. Attention is directed to the fact that there must be paid on this project not less than the general prevailing rates of wages which have been established by the owner as the following:

Gen. Prevail.	Mechanic	ing per diem	General
Wage	or Type	on 8-hour	Hourly
of Labor	working day	Wage	Wage
Skilled	\$10.00 to \$14.00	\$1.25 to \$1.75	
Semi-skilled	6.00 to 7.20	0.75 to 0.90	
Unskilled	6.00 to 7.00	0.75 to 0.90	

(Detailed Labor Classifications and Corresponding Wage Rates are set out in the Specifications.)

The Bidder's attention is also called to the special provisions concerning minimum wage rates and hours of employment included in the Specifications, and that compliance must be assured with House Bill No. 24 of the 42nd Legislature and House Bill No. 115 of the 43rd Legislature of the State of Texas, and also all Federal Wage and Hours Legislation applicable.

Instructions: Bidders, proposal forms, specifications and plans are on file at the office of the County Clerk at Pampa, Texas.

Copies may be secured from Roberts & Merriman, Consulting Engineers, 218 N. Russell, Pampa, Texas, upon deposit of \$25.00 each, which deposit will be returned to the bidder on submission of a bona fide bid on the work. With such Plans and Specifications on upon return of the Plans and Specifications immediately after examination of same, and advising the Engineer that bid will not be submitted; otherwise, the deposit shall be forfeited. No obligation is assumed to return deposits under other conditions.

Bruce E. Parker, County Judge, Gray County, Texas.

Notice is hereby given that a public hearing will be held by the Commissioners' Court of Gray County, Texas, on the county budget for the year 1953 at 10:00 a.m. on the 15th day of September, A. D. 1952, in the County Court Room at the Court House in the City of Pampa, Gray County, Texas. All taxpayers and other interested persons are requested to be present and participate in said hearing.

Given under my hand and seal of office this 12th day of September, A. D. 1952.

Bruce E. Parker, County Judge, Gray County, Texas.

Frank Stranahan Cuts Niche For Himself In World Of Golf

CHICAGO (AP) — Frank Stranahan has carved a niche for himself in the Western Golf Association's hall of fame by winning the group's amateur championship for the fourth time.

He joins such old timers as H. C. Egan and Chick Evans as the only man to make such a monopoly of the coveted Western Amateur crown.

Shortly after the turn of the century Egan won it four times, then Evans captured it eight times.

Stranahan, who has won about every amateur title but the National, defeated Harvie Ward of Atlanta 3 and 2 yesterday in the 50th meet. He did it with spectacular recovery shots.

Ward, who was walloped Frank 6 and 5 for the British Amateur title last June at Prestwick, Scotland, lost the first hole when the Toledo millionaire's son holed out a 40-foot eagle 3 putt.

Ward never was able to take the lead or ever square the match thereafter.

After a blistering three-under-par 68 in the morning, Stranahan finished the 34 holes in even par while Ward was four over for the distance.

Only 2 Ousted Cadets Would Return If The Army Let Them

By MURRAY OLDERMAN, NEA Staff Correspondent

NEW YORK (NEA) — Only two of 28 West Point football players dismissed for cheating in the Army game last week would return to the Academy if the Army granted sudden abolition for their "sins."

One is Hardy Stone II, a tackle at Mississippi State who intends to follow a regular Army career, Iowa State coach.

Stone, an ROTC senior, was presented an award last June for the "outstanding" Military Student at Mississippi State and selected Cadet Colonel for the coming school year.

Erickson barely missed making the Olympic wrestling team, eliminated in the semi-finals by the eventual winner. The 205-pounder went to Iowa State because "we were pressed for line, and I tried to choose the school that gave me the best offer and yet ranked high academically."

Iowa State is rather starchy in admitting that Erickson and Walt Walker, an ex-West Point half-back from Ottumwa, Ia., are in school.

Erickson remarked wistfully, "I believe I would go back to West Point if it would be possible in a year or so."

The rest? "I'm too accustomed to civilian life to go back to the regimented living there," summed up one former cadet. "Besides, my pride wouldn't permit it."

Two stated bluntly many cadets who remained to play football for Army in 1951 were also cribbers.

"Everybody knows we got a raw deal," snapped Ray Malva, who expects amnesty to be granted his group this fall.

Analysis of their motives for getting involved in the cribbing scandal reveals the prevalent theme that friendship, personal loyalty and the football team superseded the honor code.

That over-emphasis of football was a factor must be conceded. Look at the roster of dismissed cadets. Seven are from Pennsylvania, five from New Jersey (football talent sectors). That's almost one-third of the team, not an equitable distribution of talent for an institution that

draws its men from all over the nation.

That these former cadets are "men of high character," as Coach Earl Blaik insisted after the fiasco, must also be conceded. Their splendid academic and athletic progress at 21 different colleges proves it. Only two of 38 failed to continue their education.

Ironically, 80 per cent of these men, deemed unfit for West Point commissions, are destined to be officers anyway, through Reserve Officer Training programs at their civilian colleges.

(End of a series.)

Three groups are working to erase the stigma of the cadets' enforced resignations from West Point.

They are (1) a Parents Committee of families of the expelled cadets; (2) the Committee on Justice of the New York Criminal and Civil Courts Bar Association.

Notice is hereby given that a public hearing will be held by the Commissioners' Court of Gray County, Texas, on the county budget for the year 1953 at 10:00 a.m. on the 15th day of September, A. D. 1952, in the County Court Room at the Court House in the City of Pampa, Gray County, Texas. All taxpayers and other interested persons are requested to be present and participate in said hearing.

Given under my hand and seal of office this 12th day of September, A. D. 1952.

Bruce E. Parker, County Judge, Gray County, Texas.

These are men of high character... Coach Red Blaik... The reasons are simple. International Trucks are engineered for your job. You get a truck that is easier to handle... that gives you lower operating and maintenance costs, longer truck life.

These are just a few of the reasons why so many International Truck owners are repeat buyers. Why not stop in soon for all the reasons?

Once you own a new International Truck, you'll never be quite satisfied with anything less.

Indians Wallop Dallas In Texas League Playoffs

By THE ASSOCIATED PRESS

The Oklahoma City Indians downed the Dallas Eagles, 4 to 1, Sunday night behind the five-hit pitching of Jim Atchley to win first round of the Shaugnessy playoffs in the Texas League.

The Indians will meet the Shreveport Sports Monday night in Shreveport. The Louisiana team entered the finals by beating Fort Worth, 4 games to 0.

Dallas won only the first and fifth games in its series with Oklahoma City. Both times they used their ace hurler, Dave Hobbs. The Eagles paraded five pitchers to the mound in Dallas in a futile try to stop Oklahoma City.

The game was a loss-off for six innings, though the Tribe was never behind. Russ Burr's two-run homer in the seventh wrapped up the game.

The grade of Dallas pitchers began with Hal Erickson and wound up with Jose Santiago. In between were Don Moss, the loser, Ed Varhely and Pete Mazza.

Erickson gave up the first run in the first. But the Eagles tied the count in the bottom of the second. Johnny Creek misjudged Russ Burr's double in the third for another Oklahoma City score.

The Indians pulled three double plays in the game. One of them stopped a Dallas scoring threat in the third inning.

OUR TOWN
by
Wanda Campbell

When John and Mildred Shelton announced the arrival of Gary John recently, the word spread rapidly. . . John forgot his usual reticence and told all the neighbors on Doucette street about the new baby. . . he passed out cigars at church, on his job and every where. . . When friends started planning showers for Mrs. Shelton and the baby, they included John in the parties. . . Saturday night, the new father was honored at a stag-stork-shower! . . . Hosts were Johnny Johnson, Derrell Hogsett, Eugene Turner and David Tubbs. . . Guests brought quite a selection of gifts for the baby. . . and John, even after about three weeks as a father, had to admit he didn't know what a lot of the items were. . . Dale Thut, who's gained experience with his little daughter, Kathy, helped at the gift table and gave John some valuable advice. . . Men played a few games—like seeing who could pin a diaper in the best time and in the best way. . . Overall, it was a wonderful evening mainly because John reflects the happiness new dads have felt for all time. . . Next Saturday, the baby will be one month old, and John and Mildred get prouder of him by the week. . . Just as soon as he's old enough to understand, they're going to explain to their son about "adoption," because they want Gary to know that "from all the babies in the world they chose him!"

AAUW Will Meet Tuesday Night

American Association of University Women will meet Tuesday at 8 p. m. in the City Club Room. All college women of Pampa are invited to the open meeting. Miss Evelyn Milam, president, announced today. Mrs. Ray Salmon will present the program, "What AAUW Offers You," its history and purpose, its scope of its program, its national influence—past and present. Musical part of the program will be presented by Adelaide Williams, Carolyn Boyle, and Malcolm Brown, Jr. Hostesses for the evening will be Mrs. O. M. Prigmore, Walter Bowen, Henry Cornelius, and N. Dudley Steele.

Baked eggs with cheese make a delicious luncheon dish. Break the eggs into a hot, well-greased, shallow baking dish. Four enough milk just to cover the eggs. Sprinkle with a mixture of grated or crumbled soft yellow cheese.

So Many Little Childhood Ills Strike at Night!
Keep this special anti-cough remedy ready for emergencies. Approved by doctors. No need to break tablets, each contains 1/4 adult dose. Orange flavored. Buy it today.

Marriage Vows Exchanged In Skellytown
By Miss Joan Estes And Keith Brown

SKELLYTOWN (special) — cloth over dusty rose, and centered with the attendants' white asters flanked by white candles in branched candelabra decorated the Skellytown First Baptist Church altar Sept. 6 when Miss Joan Estes, daughter of Mr. and Mrs. V. C. Estes, became the bride of Mr. Keith Brown, son of Mr. and Mrs. J. J. Brown of Temple, Texas. Rev. M. O. Evans of Oklahoma officiated at the double-ring rites read at 8 p. m. Candles, which decorated the church windows, were lighted by Richard Estes, brother of the bride, and Mr. Barry Maynard of Waco, cousin of the bridegroom. Miss Betty Lou Cofer played a prelude of nuptial music preceding the ceremony, and played the processional from "Lovers' grin" and the recessional by Mendelssohn. Mr. Sam Patterson of Clarendon, the bridegroom's college roommate, sang "Always," "The Sweetest Story Ever Told," and "The Lord's Prayer." Mrs. William F. Mattingly of San Antonio, classmate of the bride, was matron-of-honor. She wore a dusty rose tulle gown, a duplicate of the bridal gown. She carried a turquoise nosegay of pompons with satin streamers. Miss Billy Joyce Adams of Skellytown was bridesmaid. She wore a turquoise gown identical to the matron of honor's and carried a dusty rose nosegay. Both attendants wore Juliet caps with finger length veils extending to the fingertips. Miss Mary Jean Pierce of Pampa, cousin of the bride, was flower girl. She wore a white aqua tulle and carried pink basket filled with petals. The bride was given in marriage by her father. She wore a ballerina length gown of white Chantilly lace over net and tulle. The fitted bodice was closed in front with small covered buttons and was styled with a Queen Ann collar. The full-length sleeves tapered to neat points over her hands. The scalloped fingertip net veil was attached to a Juliet cap. The bridal bouquet of gardenias and stephanotis carried on a white ribbon with satin streamers. She carried out the tradition of something old, a heart-shaped locket belonging to her grandmother, and something new, borrowed and blue. Mr. Howard Brown of Temple, brother of the bridegroom, was best man. Ushers were Mr. Richard Estes and Mr. Harry Maynard of Waco. For her daughter's wedding, Mrs. Estes selected a dress-maker's suit of black faille. Her corsage and accessories were lavender. The bridegroom's mother chose a gray dress with black accessories, and wore a corsage of white asters. Following the ceremony, a reception was held in the church recreation room. The bride's table was laid with a beige lace and dry bread crumbs. Bake in a very moderate oven until the eggs are set.

MRS. DAVID GREEN

Miss Edith Taylor, David Green Say Vows In Assembly Of God Church Here

Miss Edith Taylor, daughter of Mr. and Mrs. Herman Taylor, became the bride of Mr. David Green, son of Mr. and Mrs. W. C. Green of Mulberry, Ark., in a formal ceremony solemnized recently in the First Assembly of God church. Double-ring vows were exchanged under an arch decorated with white carnations, and flanked by emerald palms and candelabra. Traditional wedding music was played by Miss Louise Goff, who accompanied Rev. Dick Pruitt, soloist, who sang "Because" and "I Love You Truly." Rev. Pruitt sang "The Lord's Prayer" as the couple knelt before the altar. The bride, attired in a white slipper satin gown with a high, fitted neckline and collar, was given in marriage by her father. Tying buttons extended from the neckline to just below the waistline. The long sleeves ended in points over her hands and the full, gathered skirt culminated in a train. The bride's double tiered veil of nylon tulle was appliqued with lace roses. The veil extended to the fingertips from a tiara of pearl orange blossoms. She carried a bouquet of orchids surrounded by white carnations. Attending the bride as matron of honor was Mrs. James Taylor, sister-in-law of the bride. Miss Laverie Caldwell was maid of honor, and Mrs. Frances Gilbreth was bridesmaid. They wore organdy gowns styled with low neckline and full skirts of orchid, blue and pink, respectively. Attendants wore picture hats and carried colonial bouquets. Miss Marlene Taylor and Miss Betty Green were junior bridesmaids. They wore organdy gowns with matching hats and carried rosegays. Miss June Bruce and Miss Sherri Hyatt lighted the taper-candelabra. They wore green organdy gowns fashioned after the matron-of-honor's and wore matching hats and wristlets of green carnations. Flower girl was Miss Jewel Dean Ladyman who was dressed in blue organdy with matching hat. She wore a wristlet of carnations. Ringbearers were Miss Linda Taylor, dressed in rose organdy with matching hat, and Carroll Garner, son of Mr. and Mrs. J. C. Garner. Norman Green, brother of the bridegroom, served as best man, and ushers were Leon Taylor and Wallace Bruce, all of Pampa. Mrs. Taylor, the bride's mother, selected a dress of navy and pink faille for the wedding, she wore a pink carnation corsage. A reception was held in the Fair Room following the ceremony. Cake and punch were served to about 100 guests. Miss Wanda Hill presided at the guest book. For a wedding trip to Colorado Springs, the bride wore a navy faille suit with pink accessories, and an orchid corsage. The couple is now at home at 119 S. Christy. Mrs. Green was graduated from Pampa High School and has been employed by the Bell Telephone Co. the past three years. Mr. Green was graduated from the high school in Green Forest, Ark., and since his discharge from the U. S. Navy, has been employed by Celanese. A miscellaneous shower held recently on the patio of the Wesley Bruce home, 219 Wiliston, honored the couple. Co-hostesses were Mrs. Derwood

Social Calendar

- MONDAY**
7:30 p. m. First Baptist Vivien Hickerson circle will meet in the home of Mrs. Bill Garrett, 628 N. Nelson.
TUESDAY
8:00 p. m. AAUW will hold an open meeting for all college women of Pampa.
8:00 p. m. Religious Drama group will meet.
WEDNESDAY

Society Deadlines

Deadlines for the Women's Page of The Pampa News are printed below for the convenience of club press chairmen and other contributors to this page: All stories must be in The News office by 6 p. m. the day PRECEDING the week day it is to appear in the newspaper. Wedding and engagement announcements and accompanying photographs must be in The News office by Thursday at 6 p. m. preceding the Sunday it is to appear. All other stories for Sunday must be reported by that time, with the exception of Friday events which will be taken until 5 p. m. Friday. Social calendar notices for Sunday's paper must be reported by 5 p. m. Friday. No additions are made to the calendar after it is typed for the week.

Janice Mayes Is Delta Zeta Pledge

STILLWATER — Janice Mayes Oklahoma A&M college student, has pledged Delta Zeta, social sorority. She is among the 225 women who pledged sororities at A&M. Bid house ceremonies culminated rush week activities for the nine A&M sororities. The week began Tuesday, September 2 with a hospitality tea where every girl visited each house. Wednesday and Thursday were devoted to four parties and Friday night to two preferential dates and rush was concluded Saturday afternoon. Rush rules are set up by Panhellenic council which includes representatives from each sorority on the campus. Sororities have existed on the A&M campus since 1919 and continue to encourage high standards of scholastic achievement, co-operative living, social moral, spiritual, and personality development.

June Smith Is Party Honoree

Miss June Smith was honored recently with a surprise birthday party in the home of Miss Jerry and Carolyn Hill. Games were played and refreshments served to guests. Attending were Misses Sara Harly, Betty Hinton, Norita Sauer, Estelle Lunsford, Joanna Comas, Shirley Daugherty, Wanda Guthrie, and the hostesses and honoree.

The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with the truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we, at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa News, Atchison at Somerville, Pampa, Texas. Phone 566, all departments. MEMBER OF THE ASSOCIATED PRESS. (Full Listed Wire). The Associated Press is entitled exclusively to the use for republication on all the local news printed in this newspaper as well as all AP news dispatches. Entered as second class matter under the act of March 2, 1935.

SUBSCRIPTION RATES

By CARRIER in Pampa 25c per week. Paid in advance (at office) \$3.00 per 2 months, \$5.00 per 3 months, \$12.00 per 6 months, \$22.00 per year. By mail, \$7.50 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single copy 5 cents. No mail order accepted in localities served by carrier delivery.

Automobile Age

There are some people still around who can remember when the only way to get to Amarillo was aboard a horse.

But even those ancient fry probably never stopped to think what a factor the gas buggies have become in American life in a mere three decades.

The Automobile Manufacturing Assn. which has a due regard for its industry has completed a survey that concludes this country would be in a sorry state indeed were it not for the automobile.

Among the statistics lined up and set down by the association is the fact that in the course of a year private passenger cars in America travel more than 316,000,000,000 miles — every zero is correct — and that the yearly average per car is 9340 miles. Cars are used daily by a mere 59,000,000 persons. And we haven't the faintest idea what the other 100,000,000 Americans are doing meanwhile.

More than 50,000,000 adults in car-owning households depend on their cars every day and another 9,000,000 adults in non-car-owning households depend on hitching a ride for daily transportation.

Making a breakdown by occupation groups, the association found that cars are used daily by 63 per cent in the professional and managerial groups, 69 per cent of the salesmen and 56 per cent of the semi-skilled workers. More than half of all employed persons use passenger cars for earning a living and 70 per cent of these people ride to work five days a week or more.

The average motorists in a large city rolls up 8570 miles a year, 67 per cent of that mileage to earn a living or to shop. The average farmer travels farther, 10,020 miles a year, most of it for reasons of necessity.

There are almost 6,000,000 cars used on farms in this day and age, about 40 per cent more than in 1940.

The survey also showed that in winter 68.3 per cent of driving is for necessity — 57 per cent to get to work and 12 per cent for shopping.

There are about 54,000 motor vehicles of all kinds moggling around the nation's roads. Some 16,520,000 cars in service are more than nine years old and of these 9,000,000 are 12 years and older. The junking of old cars is currently at the rate of 3,700,000 annually.

The average farm car has gone 41,800 miles. The typical town car shows 41,000 miles on its odometer. The average car manufactured before the war has rolled up 73,230 miles. These are pretty vital vehicles, the survey shows. They aren't rolling up as much mileage as the newer cars — only 7220 miles — but at least half that travel is to get the driver to work and home.

Production and distribution of automobiles accounts for more than 1,000,000 jobs — 480,000 in automobile plants, 360,000 in parts factories and 565,167 in dealer firms.

The impact on national prosperity is tremendous. The survey points out that 20 per cent of all retail sales are, in one way or another, automotive.

And the surveyors didn't go into linking up the road building business, the road catering business or the traffic cop business.

No. Nor the crime business. From other sources we discover that more than 9,000,000 car thefts are reported annually. There weren't that many hosses rustled in the whole history of the Wild West.

Another Red Herring

The proposal that Congress be called into special session to tighten up on price controls and crack down on manufacturers and retailers who are illegally gouging the public savors of a new attempt to drag a red herring across the inflation's trail. It just doesn't make sense.

First of all, it is extremely unlikely that Congress would make any significant changes in the present control law. It took all the Administration pressure that could be dredged up to get the law renewed last time even in a modified form. Congress also made heavy cuts in OPS appropriations. Many Senators and Representatives want to get rid of the whole mess as soon as possible.

Second, the claim that producers and distributors are robbing us blind is propaganda of the most misleading sort. In case after case, manufacturers' profits have been showing substantial declines, due in large part to today's tremendous taxes. And retail profits, which at best average only a few cents of each consumer dollar spent, have been going down sharply, in many instances to the vanishing point.

In the third place, to argue that price controls are even a partial solution to inflation is to fly in the face of facts known to every economist. The controls deal only with the symptoms of inflation, not the causes. They do not reach down to the disease itself. The long, entwined roots of inflation lie primarily in suicidal government fiscal policies — in the indefensible waste and extravagance and general financial irresponsibility that has characterized the conduct of government for many years.

Finally, all the political hot air to the contrary, controls cannot help but destroy the free market in the long run. And when that happens the other freedoms start to die.

Better Jobs

By R. C. MOILES

"Darkness At Noon In American Colleges"

Here is the remaining part of the article by E. Merrill Root, as published by the Human Events publication under the heading of "Darkness at Noon in American Colleges."

People cannot devote too much time and energy to finding out what the youth of America is being taught in American schools and colleges. I quote:

"This American colleges say, 'Use only your left foot!' leads to, and is proved by, some of the incredible common things that happen in American colleges today. Let me cite a few out of many."

"Senator McCarthy addressed the students and faculties of several 'blue-blood' men's and women's colleges in the Connecticut Valley. Now the Senator may be wrong—he may be right. Certainly, until and unless you listen with an open mind you cannot evaluate his vision. Here the college audience, as reported by the press, greeted him with groans and boos (the usual liberality of the 'liberal'). They came not to listen but to slaughter. They met him with prejudice, that makes impossible the living truth of postjudice. Senator McCarthy commented: 'I don't mind it, I'm used to it. It's what I find at every college I visit.' Such is the academic witch-hunt!

"One of my students, after two years of study in the college where I teach, decided (during my sabbatical year) to try Vassar. She is politically one of the most realistic and informed students I have known; but, unhappily for Vassar, she is an American, a Republican and religious. At Vassar she found such things taboo. She was told by the New Inquisition that she was politically naive. She must 'grow up,' become oriented to the new day. Else how could Vassar graduate her?"

"The college paper, with the stereotyped conformity of contemporary colleges, published the usual stupid prejudiced review of 'God and Man at Yale.' My student, at the request of a friend on the editorial staff, wrote a courteous, factual letter in rebuttal, which was published. She was called on the academic carpet and told that this would not do at Vassar. They could not graduate students who believed in God and man at Yale, or, I assume, anywhere else. Fortunately, the victim of this characteristic collegiate program was a fighter. She would not conform. She returned to Earlham, and was able to graduate, though she disbelieved in collectivism. But never at Vassar!

"Or see the Iron Curtain descent on a great capitalist-founded, capitalist-supported Institute in Chicago. There is a teacher of English named Koester's classmate, Communist, 'Darkness at Noon.' He taught it as literature—fine as revealing reality. He had no intention of fighting Communism. He was himself a pacifist. Yet his head of department could not let him and forbade him to use this universally recognized contemporary classic: the excuse was that he would 'bring about war with Russia.' Such burning of the books, such Red Fascism, surely wounding of literature in the Party Line, recurs in collegiate life today. But let a single collectivist book or professor be even mentioned in 'Red Channels,' and a howl goes up from Boston to Belgrade, from Memphis to Moscow. 'That's Corporal Noy would say' is the humor of it."

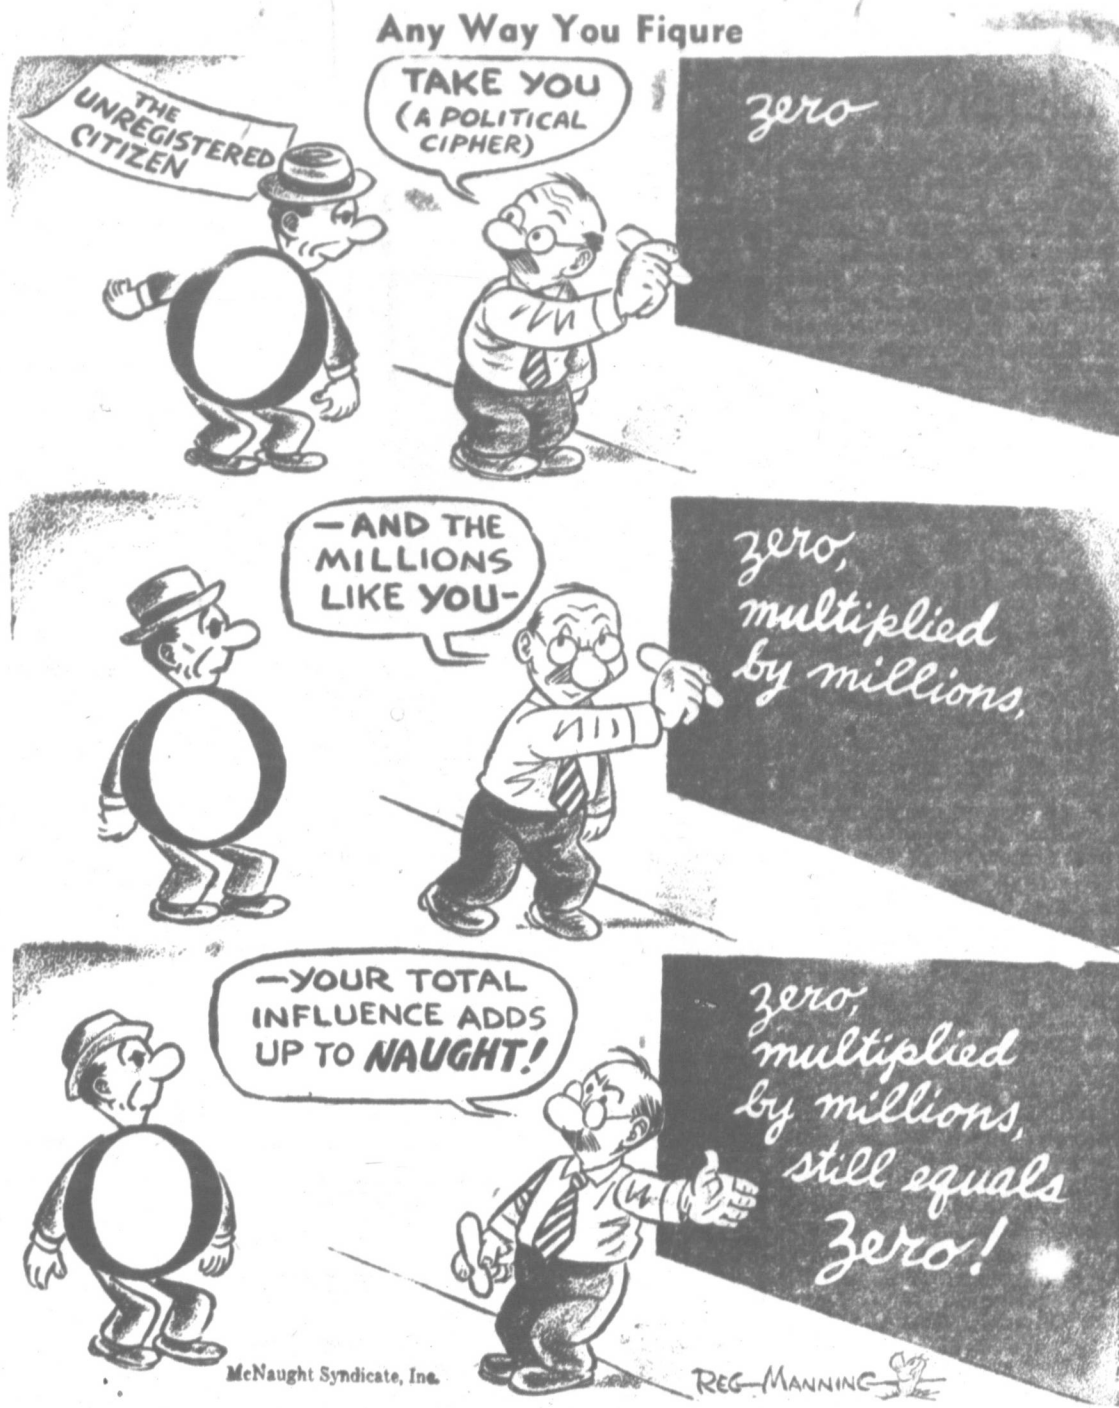

"Recently, while speaking at a great religious conference in the Middle West, I met the wife of a history professor at the University of Wisconsin. A charming, highly intelligent woman, she was herself anti-Communist. Yet when I mentioned 'God and Man at Yale,' she said: 'But it is a false book.' How did she know? Had she read it? 'No, but everyone in my academic circle tells me it is a tissue of hypocrisy lies.' I told her what the book is—a noble affirmation that criticizes most lucidly the collectivist and irreligious propaganda dominating academic life, and I am sure she returned to Madison to read it...though I prophesy trouble with the university library."

"Symptomatic of our collegiate climate is the remark I heard a prominent religious leader make in a college chapel. He wished that there were two or three Communists on every college faculty—to 'stir up the thinking' of the students. This characteristic pathos was wholly congenial to the characteristic college audience. Neither the speaker nor his audience had the slightest concrete realization of what a Communist is, or what sort of ideas a Communist can 'stir up' when all he has are carbon copies of directives out of Moscow. Few in the audience knew the ABC of Communism—that it is a militant conspiracy using the most conventional, unliberal, power politics, that can infiltrate, seize, consolidate, and become the State. Even with Czechoslovakia and China as case-histories of the murder of freedom, this babe-in-the-woods could believe his own folly and win credence for it."

"Behind the scenes, and always, lurk the few malignant, militant Communists who know what they do. They flatter the piper and call the tune. The mass of college teachers—naïve, but supposing themselves sophisticated; envious, but seeing themselves as free; reactionary, but imagining themselves 'liberal'—pull the collective chestnuts out of the fire."

"What is their motivation? Partly a vague desire to 'do good' to 'humanity.' Partly a rootlessness, a sense of separation from life, the modern distemper of secular nihilism—a divorce from God and man. But most largely, it is a need for compensation for their own rootlessness—which makes them wish to be 'intellectual,' 'modern,' 'advance guard,' 'sophisticated,' 'liberal,' clever and smart—a terrible constant pressure conditions professors to conform to this sophisticated nihilism, to prove that they are 'enlightened' by accepting this iron curtain."

"If a teacher in an American college today declares himself a free economy, for militant anti-Communism, for a living love for

Down South States Hold Vital Positions In U. S. Form Of Government

By THURMAN SENSING

Southern States Industrial Council Nashville, Tennessee

It seems to me that it would be a highly desirable project for each of the states of the Union to emphasize, give more observance to, and publicize to a larger extent its own state flag.

More than anything else, perhaps, this would stress the vital position held by the states under our own government. This position has been overshadowed in recent years by the trend toward centralization of government — and this trend, it should be noted, threatens to undermine the very foundations on which our freedom is based.

We seem to forget in recent years that under our Constitution the states reserve unto themselves all government authority that is not specifically granted to the federal government. This reservation of powers to the states is important — it heads off dictatorship and bureaucratic control; it keeps the government close to the people where it should be.

America, for the individual against the State, for the true conservatism (which is the true radicalism) of pulling weeds up by the roots and rooting the good grain more firmly, he will find his student hostile and his colleagues critical. He may be ostracized, kept from promotion, ridiculed, smeared, even purged. He will be as great and lonely a figure in the collegiate world as Buckley and Chambers are in the literary world.

"When will the American people waken to the academic status quo? Only they can change it—by refusing to send their sons and daughters to places where they will be deliberately infected with the poison of collectivism. What we need is a new revolution of 1776—against the Tories of Collectivism, the Red Coats of Socialism. Until then, American colleges will remain factories turning out robot collectivists, centers of darkness at noon."

SPOTLIGHT FOR THE NATION

SEVEN FALLACIES CONCERNING INFLATION AND THE PRICE LEVEL

By Willford L. King

The insistent demand by certain Fair Dealers that President Truman call a special session of Congress to strengthen price controls in order to "prevent inflation" and "protect consumers" brings into the limelight one of the all too numerous misconceptions concerning the nature of inflation and its effect upon the price level. Since most speeches by politicians and business leaders and articles by columnists and educators, indicate that erroneous notions concerning this subject are widely held, it seems worth while to list and analyze some of the most prevalent fallacies relating to this phase of economics.

FIRST FALLACY — that a rise in the price level is synonymous with inflation. The truth is that the term inflation, correctly defined, never means rising prices, but refers to an increase in the velocity of the supply of money and money substitutes to the volume of trade. Thus, if the quantity of circulating medium rises 10 per cent and trade also rises 10 per cent, there is no inflation; but if the circulating medium expands 10 per cent while trade increases only 5 per cent, inflation is present.

SECOND FALLACY — that inflation always causes a rise in the price level. In reality, the effect of inflation is to offset temporarily by a decline in the velocity of circulation of money and money substitutes. Thus, between 1939 and 1940, a 9.5 per cent inflation was more than offset by a 10.3 per cent decline in the velocity of circulation, the result being that the general price level fell 0.8 per cent. Such offsets are rare; hence inflation usually results in higher prices.

THIRD FALLACY — that increases in the price level can be prevented by the judicious use of price controls. Attempts to keep down the price level by applying price controls may well be likened to endeavors to take care of a break in a water pipe by sweeping the water from place to place. Such action may divert attention from the leak, but it will have no tendency to diminish the rise in the water level. Similarly, whenever price controls keep down the prices of some goods, they increase the demands for other goods, and hence make the prices of the latter rise faster. Therefore, the influence of price controls upon the general price level is nil, but such controls may allay the fears of the more ignorant opponents of inflation and thus enable Government spenders and wasters to inflate the currency without arousing too much public opposition.

FOURTH FALLACY — that inflation inevitably begets deflation. This is, indeed, always the tendency in the case of inflation resulting from excessive private borrowing.

This squeezing of the state and local governments has made them rely more and more on federal hand-outs and thus accelerated the trend toward centralization. This trend must be stopped; in fact, it must be put in reverse. Government must return to the people. The activities of the federal government must be restricted to the powers granted it by the Constitution. The states must reassert their authority.

No better symbol of such a reversal could be had than by raising the standards of the state flags throughout the land. This emphasis on the state flag should be sponsored by all sorts of organizations — by women's clubs, by civic clubs, by business organizations, by labor organizations, etc. The people should be proud of their states. The people of the individual states should know their state flag and respect it. The state flag should be displayed on all state occasions; it should be used in the schools and at all public gatherings.

National Whirligig World Diplomats Don't Think Stalin Ready To Launch War

By RAY TUCKER

WASHINGTON — World diplomatic reports on the meaning of Stalin's conviction or an all-Russian Congress next month furnish no cause for concern over imminent global war. Although these estimates from far-flung listening posts vary, even the most pessimistic list 1955 as the earliest date for World War III, with 1958 given as the most likely.

Many communiques express doubt that the historically cautious Russians will ever engage in war to attain their ambition of world conquest, preferring to rely on the Marx-Lenin theory that a capitalistic society is self-destructive.

SURVEY — Convicted Dean Acheson has canvassed every available source of information on the significance of the first Communist assembly of this kind since 1939. Like many other observers, he thought at first that it signified preparation for all-out action.

The secretary of state has obtained data from American and other United Nations' diplomatic outputs, from military and commercial experts, agricultural authorities, and from the banks in times of undue optimism. But it decidedly is not true when the inflation is caused by borrowing by government to cover a deficit. In this case, the higher price level brought about by inflation is likely to persist indefinitely.

FIFTH FALLACY — that labor unions, by forcing up wage rates faster than production increases, tend to generate a "wage-price spiral," and thus raise the price level.

To most business men, the validity of this theory seems self-evident. Obviously, higher wage rates mean higher costs, and hence higher prices for consumers' goods lead to demands for still higher wage rates.

However, the proponents of this theory fail to take account of the fact that the nation's total new spending power depends upon past, not future, income. And total demand is dependent upon the aggregate of new spending power. It follows that, if the bakers' unions force up their wage rates and hence the price of bread, with the result that consumers are compelled to pay an extra million dollars a day for bread, these same consumers will spend a million dollars a day less for other things. Either the prices of these other things will fall, or some of the workers engaged in producing these other things will be made idle.

It follows that unions, by pushing up wage rates unduly, very commonly cause unemployment, and reduce wage income, and depression—conditions usually accompanied by price-level declines. But forcing up wage rates has no tendency to elevate the general price level.

SIXTH FALLACY — That a mild rate of inflation — say two or three per cent per annum — constitutes an important safeguard against unemployment and depression.

Proponents of this theory either overlook or ignore the fact that, in a free economy alternating waves of optimism and pessimism produce cycles in business activity. A steady rate of inflation would accentuate the boom as much as it tempered the depression. If monetary devices are to be used to stabilize business, it is essential that inflationary measures be confined to depression periods, and that deflationary measures be employed when business is abnormally active and the price level is rising or is too high.

Any notion that the labor-monopoly leaders could be appeased by a two or three per cent annual increase in the price and wage level, and that their demands for more rapid advances could thus be eliminated, clashes with their observed behavior. Their prestige depends upon maintaining a steady barrage of sizeable new demands, and hence a playalish two or three per cent would not fit in with their necessities.

What a steady, mild inflation really accomplishes is to confiscate the incomes of persons depositing their funds in banks or investing in bonds, mortgages, or life insurance. This penalizes thrift.

SEVENTH FALLACY — that the price level is likely to be affected materially either by saving or by the spending of liquid savings. Hypothetically, the English queen could make every Britisher a lord; but the probability of her doing this is practically zero. Similarly, all holders of cash or bank deposits might simultaneously rush to the stores to buy merchandise, or to the brokers to purchase securities, but, in practice, they do nothing of the kind. Statistics show that what they really do is to spend their respective incomes, plus some borrowings, in periods of optimism, and less some debt payments in times of pessimism. Occasionally, if they feel that some types of durable goods may be hard to get in the near future, they very temporarily increase their spending for such things, but curtail it a little later. Any effect of such action upon the price level is decidedly transitory.

The seven fallacies just discussed are among the most common of those leading to erroneous conclusions concerning the measures necessary to combat inflation and to stabilize the price level. It is hoped that the comments just made may help to clarify public thinking in this connection.

In a trial before a justice of the peace to determine the ownership of a sugar, a witness, noted more for his enthusiasm than for his veracity, was asked if he recognized the tool in question. "Witness—Know that sugar? Why, I've known that sugar since it was a splint."

Bid For A Smile

Speaker Reed, Ambassador Choate and Senator Westcott were chatting together one evening. Mr. Choate said with great solemnity: "Well gentlemen, I have not drunk whiskey, played cards for money, or attended a horse race in twenty-eight years."

"My gracious!" exclaimed Senator Westcott admiringly, "I wish I could say that."

"Why don't you?" blandly inquired Mr. Reed. "Choate did."

Mainly About People

Mr. and Mrs. Henry Kolb, 321 N. Purviance, and Mr. and Mrs. Melton Stanford, 524 Doyle, have returned from a two-week vacation to Pikes Peak, Yellowstone National Park, San Francisco, Los Angeles and Arizona.

Two Trains Collide

MATTAWA, Ont. (AP) — Two Canadian Pacific passenger trains collided here on a fog here Sunday night but only two persons, a fireman and an engineer were seriously injured.

Odds For Adlai Rise In Britain

LONDON (AP) — Some sections of the British press declared today that Gen. Dwight D. Eisenhower, by making his peace with Sen. Robert Taft, has gravely imperiled his chances of becoming president.

Both ancient Egypt and ancient Greece defied great physicians. Mercury is the smallest of the major planets of the sun.

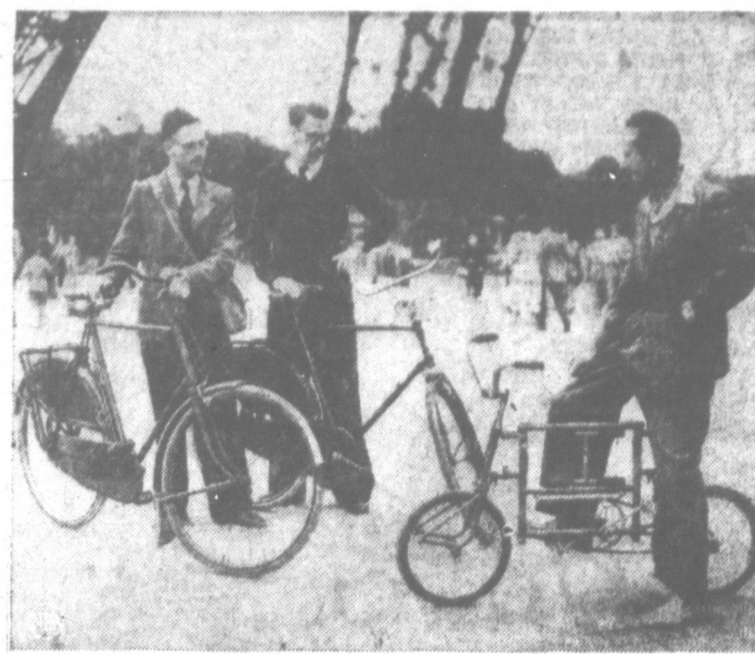

FUND RAISER — Beardsley Ruml, above, has been appointed by Gov. Adlai Stevenson as the new fund-raising chief for the Democratic Party's 1952 campaign. In New York, Ruml says his goal is to have several thousand contributors, each giving with a smile.

Always An Answer

TOKYO (AP) — The Chinese Communist radio in Peiping tonight came up with a handy explanation for the Chinese soldier who crashed through a barrier in a jeep Friday and surrendered to U. N. guards in the Panmunjom neutral zone.

Hubby Near 'Dangerous Age' Will Go For Attractive Home

One of the popular "Advice to the Lovelorn" columns recently had a message for wives whose husbands are nearing the "dangerous age." The article advised these wives to make no effort to compete with their younger competition — not to spend money on clothes, chin straps and beauty lotions — but instead to concentrate on making their homes as attractive as possible.

Demo Primary Gets Biggest Vote In Texas

WASHINGTON (AP) — Forty-five million, or 48 per cent, of the eligible voters of the nation did not choose to vote in 1948, a report issued recently by the Senate states. Only a quarter of the Texans who could have done so voted in the presidential election of that year.

Remodeling can very well be the best housing investment for a family better living facilities for a fraction of what a new house costs.

Remodeling Can Be Best Investment

Remodeling can very well be the best housing investment for a family better living facilities for a fraction of what a new house costs.

ATTICS OFFER ECONOMY

Attics and basements contain much wasted space that can be utilized with minimum expenditures, expanding a house into the attic is much more economical than destroying existing walls to provide a new wing.

MIGS

(Continued From Page One) bit Simuju in mid-afternoon to get the assault under way. They dropped tons of high explosive and fired thousands of machine gun bullets into the targets.

BUSINESS REVIEW AND FORECAST

The Electric Supply Company Moves To New Location

Acquaint Self With Pfaff The Do-All Sewing Machine

Have you tried the new Pfaff out of owning and operating the sewing machine? Have you observed its almost unbelievable performance? Seen its beauty? If no, you may be missing the sewing treat of your lifetime.

To this woman who sews—acquaint yourself with this versatile sewing marvel. The Pfaff is the machine that does everything and does it all without attachments. Yes, that is right—all without attachments.

The Pfaff sews forwards, backwards and every other way with the possible exception of straight up. It will do your darning for you and sew on the buttons. It will zig-zag, do cut-out work, embroider or monogram. And you don't have to be a genius to manipulate this machine. The machine does the work practically alone.

You can get your Pfaff at the Pampa Sewing Machine Exchange at 854 W. Foster. The terms are easy and a good trade in allowance is offered. This is your chance to get the wonder sewing machine without adding a strain to your budget or disrupting the economic order of your household finances. You'll derive so much pleasure

This is sewing made easy. It's the professional job brought into the home. You can do so many extra things that will so materially add to the beauty of anything you sew.

All the embellishments you've appreciated but have never been able to achieve in your home sewing are now yours with the Pfaff. It's so easy and so satisfying to be able to add the little decorations or enter into the new fields you've always wanted to.

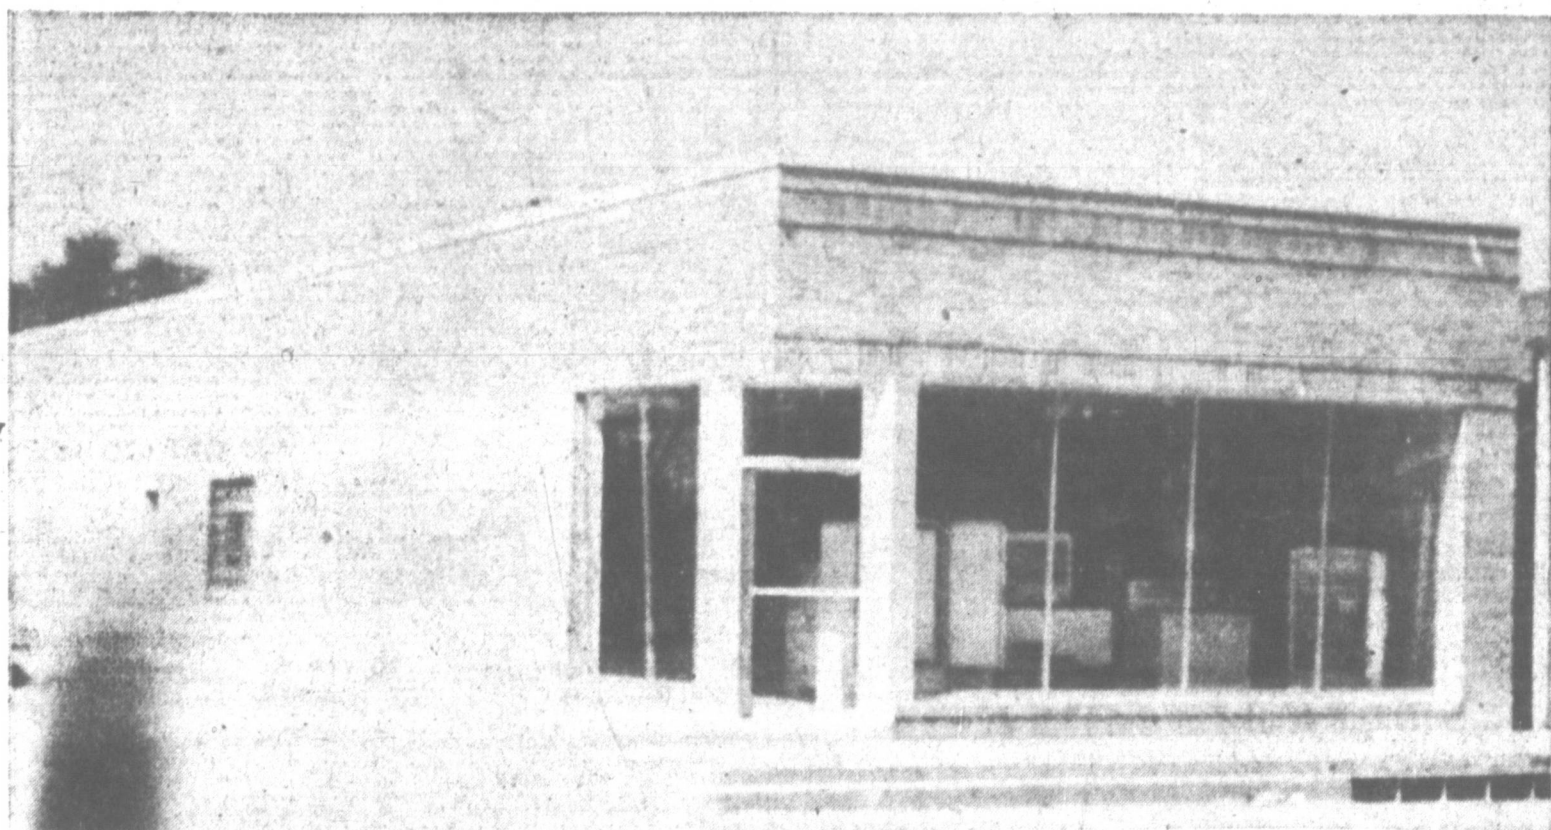

Make it a point the next time you are in town—it's worth an extra trip—to visit the Pampa Sewing Machine Exchange and get your introduction to the Pfaff.

Crop Confusion 22 Hospitalized

HONG KONG (P) — The Chinese Communists claim spring rice and wheat crops in Southern China in 1952 exceeded those of the previous year by 5 to 20 per cent. No tonnage figures were given.

The report was carried by the New China News Agency. A few days earlier the Reds complained in a Peiping dispatch that some areas were making erroneous and exaggerated crop reports.

Pampa News advertising is an investment, not a cost.

LOCATION CHANGE — Your new Electric Supply is now located at 836 W. Foster. Long established as "your electrical headquarters" Electric Supply, owned and operated by Suds Southerland, still features the best of courteous and reliable service performed

by skilled workmen with the best equipment. Every job receives individual attention. For appliances or fixtures visit The Electrical Supply, or superlative service and an assured job every time, make it your electrical headquarters. (News Photo)

Local Business Makes Location Change; Features Service, Ability And Supplies

Pampa's complete electrical headquarters, the Electrical Supply, now is located at a new address — 836 W. Foster. Your electrical man, Suds Southerland, owner and operator of The Electrical Supply, recently announced his new location and embellishes his announcement with a cordial invitation to you to drop-in and visit and become acquainted with his new establishment.

That is one of the pleasures of trading with Suds and the Electrical Supply Company — the unlimited courtesy and friendly service. And it's an attribute not to be considered lightly. As everyone knows in his everyday discourse with his fellow man, a smile and a handshake go a long way. At Electrical Supply this courtesy is not an assumed men to further business. They have an avid interest in all of your electrical problems or questions. They want you to feel confident in your reliance on them as an established firm with the know-how and interest to give you the best at all times.

For this reason — to cement your confidence in them — they guarantee all work and materials to the fullest extent. You know when the job is done by Electrical Supply that it's right.

Pampa's progress can to some extent be measured by the numerous construction going on in the city itself and the surrounding area. Electrical Supply should be remembered in all electrical contract considerations. The excellent workmanship and fully guaranteed supplies and materials are indicative of the firm's worthiness. They are THE electrical contractors in the area. Each job, large or small commands the same careful attention. Suds stresses that every job is complete regardless of size and the importance of that statement is measured by the meticulous detail they give to each job. And remember that The Electrical Supply specializes in oil field electrification. The electrical end is so very important in this field of the area's productivity that the best should be stressed at all times and Electric Supply is the best. Call on

them when you want an assured job by skilled workmen. The electrical part of it so complements the overall end that you can't afford not to take advantage of the best... and particularly when it's so economical. And in the line of economy it must be readily admitted that a home or business establishment that is fully equipped with the finest appliances attainable will just naturally come out on top. Nothing so pleases the workman or homeowner more than a confidence in the tools he uses or so furthers the ease of carrying out a job than perfect appliances. If you are planning a new business establishment or building a new home — don't deny yourself the advantage of being outfitted at The Electrical Supply. Or use this same advantage to implement your home. Avail yourself of the latest in design and service to be had at 836 W. Foster. Perhaps some of your appliances are really outdated. Don't just struggle along when you too can so easily have the latest and best by the simple expedient of going down to The Electrical Supply

ply and finding out what is the latest and how easily you can obtain them.

And when it comes to repairs, if you are in need of any kind or type of electrical repairs you should remember your electrical headquarters. The longer you delay having the repair job that is necessary done the bigger the repair becomes. With the growth of the size of the repair job the more the cost so in the long run the old adage of "a stitch in time, saves nine" is again borne out. Take your problems to Electrical Supply.

Have the Electric Supply men check your household or business

Tire Faults Corrected; Safe Recaps Available

Are you fully confident of your tires? Do you have faith in their complete safety and are you satisfied with their performance at all times? If not make a speedy trip to OK Rubber Welders, 918 Alcock and have your tire problems taken care of by a tireman well-known for his experience and ability.

And even if you are satisfied — go anyway. You may not realize it but your tires may be out-of-round. If so — even the slightest off-center spot will cost you money and safety. The life of your tire will be shortened by the excess friction and unbalanced wear that every revolution of the tire produces.

Consequently you are losing safety too. It is a matter of reasoning that a tire that is out-of-round will produce the old horrors of tire pound, tire-slap and make your ride more uncomfortable as well as give rise to the threat of blow outs or a loss of case in car handling. Yes, this can be corrected — through the James Auto-Floot method. The plague of tiremen for years was how to get exact, in-perfect-round balance. Now the James Auto-Floot has produced the method. Bill Suggs will be glad to demonstrate the working of this machine. It balances your tire to the road as well as to the hub through a scientific process that guarantees the tire to be in perfect round and consequently more economical and more safe.

And speaking of safety. If you are in the market for a safe, dependable recap, see Bill Suggs. For \$9.95 you can get a 670x15 recap that is in perfect round and has a guarantee of 10,000 miles! Yes, 10,000 miles and your second tire free. Not only will this not be a

hardship on your budget — you can't afford to miss the value. Take advantage of what OK Rubber Welders, 918 Alcock, is offering you. Call 633 and talk to Bill Suggs about it and see how you can ride safely and economically on guaranteed tires at low cost.

circuits, too. Remember that an overloaded circuit is a danger spot. It's a hazard that exists in all too many homes and should be guarded against. Efficient electrification cannot be carried on under such a condition and the danger is too much to be reckoned lightly. Have Electric Supply perform a wiring job that will be both efficient and safe.

So remember that now your electrical headquarters is located at 836 W. Foster. Here with the same efficient, friendly service you have always known and that has become a tradition with Electric Supply is yours for the asking.

And even if you are satisfied — go anyway. You may not realize it but your tires may be out-of-round. If so — even the slightest off-center spot will cost you money and safety. The life of your tire will be shortened by the excess friction and unbalanced wear that every revolution of the tire produces.

Consequently you are losing safety too. It is a matter of reasoning that a tire that is out-of-round will produce the old horrors of tire pound, tire-slap and make your ride more uncomfortable as well as give rise to the threat of blow outs or a loss of case in car handling. Yes, this can be corrected — through the James Auto-Floot method.

Prepare For Cooler Weather At Reliable Service Cleaners

With the coming of school also comes the cooler weather and so naturally the woollens, sweaters and other cool weather clothes that must be kept looking fashionable through the services of your dry cleaning plants.

Everyone is beginning to unpack or unstore winter clothes and prepare them for wear. And to insure their beauty and long life avail yourself of Service Cleaners, 312 S. Cuyler, expert operators, courteous service and the best of equipment.

Service Cleaners can take your last year's wardrobe and restore it to fashionable appearance till it will almost look like new. Take your coats in now and be ready for the brisk temperatures that are in the offing.

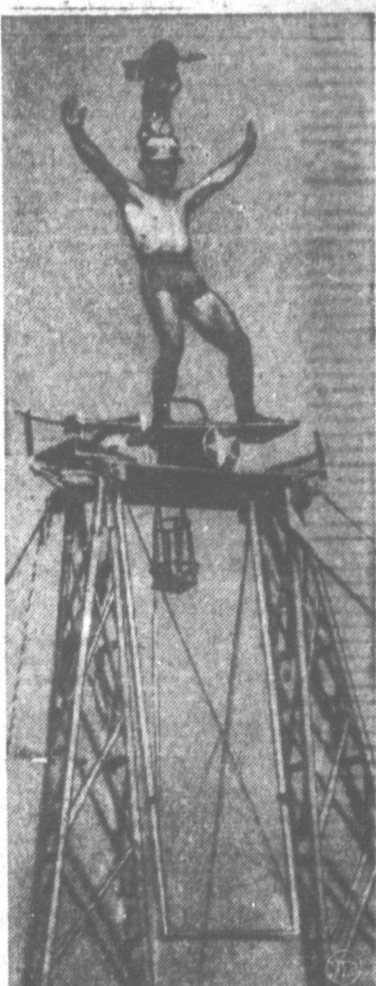

And don't forget the free pick-up and delivery service offered by this cleaning establishment. You don't have to bother with lugging them to the shop and then picking them up. Just call 1290 and a Service Cleaner representative will soon be at your door to take your garments in for a speedy process that will have them in tip-top shape. They will soon deliver them back to you ready to wear — ready to wear with a knowledge that you are well dressed.

And Service Cleaners is economical, too. Yes, they beautifully clean your pants, shirts, blouses and skirts for only 50 cents. This can be quite a saving when you consider how many of these articles are given daily wear by the students. It's doubly important for your children to be neat and well-dressed in their daily school attendance and there is no better way to keep them this way than by a reliance on Service Cleaners in the care of their clothes.

This is also the time of the year when the extra blankets, heavy spreads and winter drapes are making their appearance. Have them cleaned by Service Cleaners and ready to make their most attractive appearance in your home. There is no reason for a hectic time dressing up the house in its winter apparel. Be prepared and confident by relying on your most reliable cleaners — Service Cleaners, 312 S. Cuyler.

Yes, for all your cleaning needs

and for the protection of your clothes call on your dependable, friendly cleaners, Service Cleaners and don't forget their free delivery service — yours by calling 1290.
