# **Commies Take** Serious Defeat In Jap Election

TOKYO (/P) - Japanese voters in their first free election since regaining sovereignty handed world communism its worst Asian setback of the postwar era.

Japan's Communist party, which won 35 House seats in the 1949 election, failed to place a single one of its 107 candidates in Wednesday's balloting. Only two Communists remain

in the Japanese Parliament. Both are in the virtually nowerless Voters gave pro - American Prime Minister Shigeru Yoshida and his Liberal party an absolute

majority of 240 seats in 466member House. Japanese commentators predicted that Japan would follow an er policy of cooperation West, particularly with

the United States. The severe drubbing which the Japanese gave the Communists at he polls amazed observers.

It was a smashing cold war victory for the democratic West. The Red defeat reflected Japapese revulsion for the Red campaign of violence and hate which cuss the thousands of Nipponese war prisoners missing behind the

Iron Curtain. It showed the depth of Japan's suspicion of the Communists who seized islands within sight of Japan after the war. The Japanese have become increasingly angry at Soviet capture of Japan's fishing boats and crews off the northern island, Hokkaido.

Wards are a safeguard against any small pressure group controlling all of the commissioners. The first of the seven amendments appearing on the ballot sets up the terms of office on the staggered term basis. It provides that the mayor and commissioners 1 and 2 will serve for two years; commissioners 3 and 4 will serve for one year and then be elected for two-year terms after 1954,

The second proposal - on the ballot to conform with state law states that all vacancies on the onimission shall be filled for the unexpired term by appointment by the city commfssion unless the vacancy results from a recall election, then such vacancies are filled by special election,

The third proposal is the controversial measure which sets up designation of the commissioners tavius as Nos. 1, 2, 3, and 4 and reads; Bohhy and Gayla Brown,

"The elective officers of the ger the four commissioners (the commissioners other than the mayor to be designated as Commisiques No. 1. # Tomorrow's Election

The form of government which we think best protects the freedom of the individual is that which bears as close a relationship between taxation and representation.

The degree there is a variance from this point is the extent to which the philosophy of socialism is prevalent.

Consistently, too, there is a higher caliber of men elected to public office when the taxation - representation tie is maintained and for these reasons, we think the proposed amendment to the city charter in tomorrow's election, which provides for the at-large election of city commissioners instead of the existing ward system, should be supported.

One certainly has no guarantee that equity will constantly reign supreme under the proposed change but in the light of the ownership of taxable valuation and the wider availability of men for office of proven business judgement which would prevail if the amendment carries, Pampa should have a sounder city governing body than the ward system has offered.

# The Safe Side

"It pays to be on the safe side!".

So goes a familiar old slogan. On streets and highways, where paint or other markings are liberally displayed to clearly designate the safe side for automobiles, this. truth would seem difficult to ignore. Yet, more than 5,000 deaths and over 100,000 injuries are caused each year by drivers who take chances on the wrong side of

There is a growing tendency among drivers to disregard the "life lines of the highways" that is hard to understand, because every motorist with sense enough to drive should know and obey the safety rule that solid lines must never be crossed.

Last year 1,600 more drivers lost their lives, or caused the death of others, by violating wrong-side-of-the-road - passing at the crest of a hill, on curves, on the open highway at high speeds, and on the streets of cities, towns and villages — than the 3,400 victims of this illegal habit that were counted in 1948. In the past three years, injuries from crossing the highway "life lines" increased about 15,000 - from 94,000 in 1949 to 110,-000 last year.

Nearly all head-on collisions, the worst crashes seen on the highways, result from driving on the wrong side of the road. About 250 lives were lost in 1951 in multipledeath traffic accidents causing five or more deaths each, virtually all of which were head-on collisions. These avoidable tragedies comprised about one-fourth of the nation's catastrophies of all kinds that year.

After speeding and drinking & driving, traveling on the "wrong side of the road" probably claims the greatest number of traffic accident victims each year. It accounts for about one of every six fatalities and more than one of every seven injuries. It is high time for the police and courts to remind motorists of the old fashioned slogan

# Finland's Example

On September 19th last, the Finnish people cleared their books of a reparation debt imposed by Soviet Russia.

This is the nation that before World War II, during the war and after the war paid in regular installments its debt to the United States.

This is the nation of lakes and forest in what hardly can be called the most favorable climatic zone of the world that regards its national integrity with such pride that it always pays it debts - out of its own pocket.

Finland is no member of the NATO nor has it received Marshall plan benefits. No free American dollars have flowed into Finland.

You can like the Finns or not, you can like or dislike their siding with Germany in World War II, but Finland has rendered a service to mankind and set an example that more nations should follow.

The Finns have proved that a nation with the will to preserve national existence can survive impossible economic problems without the help of Uncle Sam's philanthropic pocketbook.

The Finns broke away from Russia in 1918 after a fierce civil war. For 20 years they worked to create an independent nation. Then in the winter of 1939-40 Finland was attacked by the Soviet and overwhelmed. When Hitler went to war with Russia, it joined forces with him to recover its land the Russians had seized. It was beaten again by 1944. This time it was stripped of one tenth of its territory and saddled with a reparation bill of \$600,-

With remarkable energy the Finns have gotten rid of this burden and even more remarkably they have remained independent of the Russian satellite orbit and stayed on friendly terms with the West.

It is still standing alone beyond the protection of the western powers and within the easy range of Soviet pow-

The future years for the Finns will not be easy but they've become inured to difficulties in past years. National consumption has been curtailed to meet reparations but their capital equipment, under the spur of the war debt, has been expanded.

The compulsion to stand on one's own feet is as good for a nation as it is for an individual — and this selfreliance of the Finns may in the end provide a greater and healthier material well being.

The Myth of

Collective Bargaining

There is a lot of talk about collective bargaining. But in reality that is entered into on a voluntary basis by both parties. And when there is intimidation or threats of can be no real bargain.

if he does not make a contract with purpose of collective bargaining is to get an advantage for some people at the expense of other workers. So talking about collective bargaining is talking about a myth. It is just a form of exploitation that greatly reduces production and thus keeps down the average wage for the workers as a whole

Probably the reason that most people believe in collective bargaining is because they have heard so much about it in public and private schools and in the churches and by politicians and by cowardly newspapers. Since they have heard so much about it and so little pointing out how labor unions keep down production and how despotic collective bargaining is, they believe in it. Remember the great preacher, Henry Ward Beecher, said organized labor was the worst form of despotism ever devised by the human mind.

If there be any exception to that statement, it is that giving the state a monopoly on educating the youth of the land is even more despotic than labor unions. Labor unions deal purely with material things, while education deals with moral and spiritual things.

Whoever thought of that term 'key states" did a great injustice to his country. Loud is the he moaning over the fact that all of the citizens don't exercise their ballot, and the loudest bemoaners are the political pundits. Yet from one of them, sure as' shooting, came those two words, "key states."

You read about the key states in the press, in magazines, and hear about them over the radio. Candidates talk of them, campaignmanagers and their helpers wear themselves out figuring a way to carry them, and by the time election day rolls around the eyes of the voters are not on all 48 states, but fastened on the key states.

WHAT STRENGTH IS HERE! Steam and electricity, heat and pressures; but also men at work! Power harnessed for a nation that feels its duty to help mankind. Millions of men at the front and millions more preparing to go. Millions of other men at home being saved by the cold wet soldier on the firing line. How much they depend on good materials we can send them! We are making the sinews of war. They are the warriors. We are partners together. Each serves the other and we win or lose together.

THE SOLDIER at the front may save our bodies from disaster but he cannot save our soul. God must do that. We cannot be men of truth and character if we let those fellows down. They are risking their lives in our military service. Let's gird ourselves for the task. Let's be brothers of the spirit with our fighting men wherever they may be.

Our Job is pleasant work compared with what our great armies are doing. Let's not complain. Let's pay our taxes with a smile. Let's honor the men who are dying for us. Let's nerve them to fight their best by not failing them on the home front. May the great industrial power of the Democratic nations of the earth together with the very best from every citizen, defeat the tyrants of greed and hate.
