## WEATHER

West Texas fair and continued cool Thursday and Thursday night. Warmer Friday. Lowest tonight 45-55 in Panhandle, South Plains and Upper Pecos Valley Westward.

## Five MIGs Downed . . . Chinese Pounded By Air, Rocket Barrage

SEOUL (AP) — Allied forces pounded Chinese positions late today with the heaviest rocket barrage and warplane strike in the 37-day-old battle for the vital Kumhwa ridges on the Central Korean Front.

In the air, U. S. Sabre Jets destroyed five Communist MIG-15s. The Fifth Air Force announced it brought to 502 the Red jet fighters destroyed since the war began — exclusive of those downed by Navy pilots.

AP Correspondent John Randolph reported from the Central Front that a total of 576 rockets were launched within a few seconds at Communist targets north of Allied-held Sniper Ridge.

The dusk rocket barrage came after an intensive fighter-bomber strike against Chinese positions along a narrow, two-mile sector.

Randolph's dispatch on the rocket launching was timed at 9 p.m. (7 a.m. EST). An hour later he filed a report that two Chinese infantry companies attacked South Koreans dug in on Sniper Ridge. His censored dispatch indicated the attack was continuing.

"Whether tonight's action was just another probe or a heavy attack remained to be seen," he reported.

The Air Force reported that Capt. John H. Jones Jr. of Rome, N. Y., bagged two of the five MIGs. The Sabre pilots said they damaged two other Communist jets.

Jones is flying with the 51st Fighter Wing, was credited with downing the 49th and 50th MIGs. The Air Force made a special announcement of the 500th as the U. S. Air Force boss, Gen. Hoyt S. Vandenberg, was touring the battlefield.

On the ground, South Korean troops smashed a Chinese assault on Sniper Ridge in the crackling cold of daybreak after a night of minor probing thrusts on the Central Front position.

The U. S. Eighth Army reported an estimated 100 Reds hit the ridge after a modern Chinese artillery shelling. After 50 minutes they withdrew to the comparative safety and warmth of a cave.

Elsewhere along the front, the numbing cold — 14 degrees — kept infantrymen of both sides huddled in their bunkers most of Wednesday night. Only scattered patrol skirmishes were reported.

## Grayco Gas Plant Sold

Northern Natural Gas Co. has purchased all the stock of Independent Natural Gas Co. (known as Grayco) from E. L. Green Jr. and Hugh Burdette, it was learned here today.

The sale of all stock in the company was completed this week and now awaits Federal Power Commission approval.

Northern Natural once before attempted to purchase only the physical assets of the company and that sale too was also completed, but FPC later disallowed the transaction. This time, however, Green said, the gas company purchased all the company's stock.

A majority of the gas supply is purchased from Phillips and then piped east. Burdette and Green bought the company stock from Phillips Petroleum Co. Mar. 10, 1950, amounting to 1,400 shares.

Independent had been subsidiary of Phillips until that time. The new owners are to take over operation from Burdette and Green Monday it was reported.

## Spies' Execution May Be Dated Friday

NEW YORK (AP) — An execution date for Julius and Ethel Rosenberg, convicted atomic spies, may be set tomorrow by Federal Judge Irving R. Kaufman.

U. S. Atty. Myles J. Lane said yesterday he will ask Kaufman to set the electrocution date. The couple have been in Sing Sing Prison's death house since their conviction March 29, 1951, on charges of relaying atomic secrets to Russia.

On Monday the U. S. Supreme Court for a second time rejected an appeal for a review of the conviction.

## Clothing Drive Slated Tonight

An old-clothing drive, sponsored by the Elks Club, to aid 102 needy area families is scheduled to begin at 7 p.m. today.

Both local radio stations will go on the air with special programs for the drive at 7 p.m. and 8:05 p.m., respectively.

Donors are requested to call the stations and leave addresses. Elks Club members will be at both stations with automobiles to answer the calls and pick up clothing.

According to an Elks Club spokesman, shoes and 6- to 16 clothing sizes are most needed. However, he said, all sizes will be welcomed.

All Elks members are requested to be at the radio stations with cars.

## Guill May Get Key Post In Capital City

Pampa's Ben Guill may become an important figure in the Republican administration, according to a veteran Associated Press correspondent in Washington.

Tex Easley, in a dispatch from the capital city, indicated Guill's chances for a key post in the new administration could be considered good in the light of the Pampa's efforts for Eisenhower in Texas.

Says Easley about Guill: "... a personable young World War II veteran and business man, who won a special Panhandle election and served in 1950 as a member of the Texas Republican Party in more than two decades, Guill plugged long and hard to help Eisenhower carry Texas."

"Since Guill is not a lawyer, he can't qualify for numerous federal positions. He might be named to the Federal Power Commission, the Civil Aeronautics Board, Bureau of Internal Revenue or to a place in some other agency."

"With all Texans in Congress being Democrats, Guill and the Texas Republican National Committee Jack Porter of Houston still have much to do with the naming of Texans to various federal jobs."

## Ike's Trip Needless, Sen. Morse Claims

PITTSBURGH (AP) — Sen. Wayne Morse of Oregon, commenting on President-elect Dwight D. Eisenhower's proposed inspection trip to Korea, says, "You're not going to settle that Korean War in Korea."

Morse, who bolted the Republican party and withdrew his support from Eisenhower in the November election, made that comment in a speech last night to a Pittsburgh Israel bond drive dinner. He added:

"You're not going to perform any miracles by any visitation of anyone to Korea. You're going to settle the Korean War in the United Nations—nowhere else. And you're going to do it by negotiating, not with Soviet Russia, but with your allies, for unity."

## Senate Secretary Considers Retirement

WASHINGTON (AP) — Secretary of the Senate Leslie L. Biffle said today he is thinking of retiring after 44 years on Capitol Hill.

Biffle's job will be forfeited to the Republican when they take over control of the Senate in January. Indications are that J. Mark Trice, present secretary to the minority, may be picked for the job.

Biffle, who is 63, told reporters his plans for the future except to take a long vacation.

There were indications, however, that the Democrats would ask him to stay on as director of their Policy Committee, or in some other post.

## Pampa Is Elected To Service Organization

AUSTIN — A. Miller of Pampa has been elected to PAPA, service organization for students in the College of Pharmacy of the University of Texas.

Miller is a senior majoring in pharmacy. He is the son of Mr. and Mrs. Jesse Miller, 1014 East Denver.

For livestock transportation, call Lloyd Kuntz 2830-J or 1862. Adv.

## Flame - Spewing Jet Sets Mark

THERMAL, Calif. (AP) — A roaring, flame-spewing F86 Sabre jet plane piloted by Capt. J. Slade Nash of Edwards Air Force Base has established a new unofficial world speed record—599.9 miles per hour.

Capt. Nash, 31, whose home is in Mowbray, Ia., made four low-level passes yesterday over a measured three-kilometer course at the edge of the Salton Sea, 235 feet below sea level. His performance was made under rules of the Federation Aeronautique Internationale and the National Aeronautics Association, which must verify it before it becomes official.

In shattering the record for operational aircraft in the

A COUPLE OF WINKS — A state-side bound Marine, Sgt. Hugh M. Smith of Cynwyd, Pa., had time to grab a couple of winks while being processed at Ascom City, Korea. His dog, not being rotated, stood guard for a while then joined the sergeant for a nap in the warm sun on a pile of tents. (NEA Telephoto)

## Says Texans Sold Rights For Control

DALLAS (AP) — If Texas wanted complete control of her rivers, she should have paid the entire cost of dams on the streams, the Southwest chief of the Army Engineers says.

Col. Herbert D. Vogel, expressing "complete surprise" at Gov. Allan Shivers' attack on federal control of water behind Whitney Dam, said the Engineers must regulate use of water behind the dam and other such federally-financed structures to make sure the

## Army To Try Officer For Korean Book

FT. MEADE, Md. (AP) — Lt. Col. Melvin B. Voorhees, Army commander in Korea accused of writing a book that wasn't censored, will be court-martialed here.

Second Army headquarters announced yesterday that it would push charges against Voorhees for his book, "Korean Tales," which, in his own words "took a slap at a large part of the correspondents corps, which I felt was violating security and endangering lives."

Voorhees is charged with failing to submit a manuscript of his book to the Department of Army for review and disregarding the order of his commanding officer to withdraw the book from publication.

The charges were filed by Gen. Joseph Swing, commander of the Sixth Army on the West Coast but the investigation was switched here so Gen. Swing would not have to act as both prosecutor and judge.

Voorhees said his book, published in Armistice Day, ran into a "one-general barrier" in the person of Brig. Gen. Frank Dorn, deputy information officer at the Pentagon in Washington. Voorhees contends Dorn opposed the book because "he said I had no right to write a story which reflected against Gen. MacArthur."

Gen. Dorn denied this. He and his staff spent three days going over the book with Voorhees and ordering changes in "certain parts that were not suitable," Dorn said.

## Oklahoman Leads Revival Services

Rev. Paul Hodge, Chickasha, Okla., is conducting revival services in the Light House Mission, 1124 S. Wilcox, throughout the week.

Services, being held daily at 9:30 a.m. and 7:30 p.m., are to conclude Saturday.

Rev. F. F. Miller, Light House Mission, has invited the public.

If it comes from a hardware store we have it. Lewis Hardware.

# Eisenhower Fills Three Top Spots In New Cabinet

## HST 'Happy' On Ike's Views

WASHINGTON (AP) — President Truman said today he is very happy over Gen. Dwight D. Eisenhower's views on the Korean prisoner-of-war issue, and declared "this country is a unified organization in its policy toward the rest of the world."

In his first post-election news conference—his first in fact since Sept. 25—Truman laid emphasis on unity and on the effort to make the shift of power to President-elect Eisenhower as smooth as possible.

Orderly Turnover  
He began with this statement which he permitted reporters to quote directly:

"I want you to understand that the election is over and that we are trying to get things in shape to make an orderly turnover of the government to the successor, and that we want to let the world know that this country is a unified organization in its policy toward the rest of the world."

Korea Main Topic  
"I was very happy to see that Gen. Eisenhower had told Sen. Wiley that he was with the policy on the prisoners of war in Korea. That was one of the main things about which we talked in the meeting the other day when he was down here."

Met With Wiley  
Eisenhower and Truman met at the White House on Tuesday and later announced jointly that they had arranged for an exchange of information. They expressed belief this co-operation would be to the advantage of the country and promote a favorable progress of international affairs.

## Selling Under Ceiling . . .

# Woods Wasting His Time, Pampans Say

Price Stabilizer Tigue Woods has told a joint Senate-House Committee on Defense Production that the time has come to lift price controls on clothing, soft drinks, wholesale pork and the amount slaughterers must pay for live cattle.

But Pampa businessmen, by and large, thought Woods' action pretty much a wasted effort—for the consensus was that such products had been selling at or under ceiling prices for some time.

Despite the prospective price relaxations, The Associated Press quoted Woods as telling the committee, he does not believe the new Republican administration should or will want to abandon price controls April 30, when the current law expires.

Clothing prices in the Pampa area "have been running under ceiling prices on almost every thing," according to Ed Myatt, manager of Friendly Men's-Wear, 111 N. Cuyler.

Price Decrease Asked  
Actually, there should be a price decrease, Myatt continued, for "we have had to use a bookkeeper to keep track of the records." Others, he thought, were probably in the same boat.

Both Myatt and Bill Elkins, manager of Bel-Aire Store for Men, figured prices would remain steady in the future—if Woods carried through with his decontrol plans.

No immediate change in prices on soft drinks was seen by C. A. Huff, owner of Dr. Pepper Bottling Co., 420 S. Hobart, although "prices eventually would have to come in unless the price of materials came down."

Huff maintained that price control (See WOODS, Page 2)

# Dulles, McKay, Wilson Picked By GOP Chief

NEW YORK (AP) — President-elect Eisenhower announced today he has chosen John Foster Dulles as Secretary of State; Charles E. Wilson, president of General Motors, as Secretary of Defense, and Gov. Douglas McKay of Oregon as Secretary of the Interior.

Eisenhower's press secretary, James C. Hagerty, gave the news to the press while the general was lunching with Anthony Eden, British foreign secretary, at Eisenhower's Hotel Commodore headquarters.

In naming Dulles as Secretary of State, Eisenhower picked for his administration a major Republican voice in America's bipartisan foreign policy of the past decade.

Dulles, 64, held the title of ambassador when he served as architect of the Japanese peace treaty under Secretary of State Dean Acheson.

Three Democratic presidents — Wilson, Roosevelt and Truman — gave Dulles active roles in helping to formulate and carry out United States policies.

Carved Foreign Plank  
Dulles carved a foreign policy plank at the Republican National Convention last July which satisfied both leading contenders for the presidential nomination — Eisenhower and Taft.

Eisenhower's announcement of the appointment followed a long conference with Dulles at the general's headquarters today.

The president-elect conferred with Wilson here last night.

Wilson, president of General Motors, was mentioned by Eisenhower last September in suggesting the need of "business brains in a 60 billion dollar business" — a reference to the operation of the federal government.

Began As Newsworthy  
McKay, 59 years old, began his career as a newsboy. Later he was an office boy for the Union Pacific Railroad and then an auto sales manager.

He began his political career when he was elected mayor of Salem, Ore., in 1933. After that, he served as a state senator and became governor in 1949. He is a veteran of both world wars. McKay is a Presbyterian.

Eden Meeting Important  
Today's meeting with Eden is considered unusually important.

The day Eisenhower's election was confirmed, the British diplomat said he hoped to meet with him at an early date. He flew here from London two weeks ago for the U.N. meeting.

Their conversation could touch on both Europe and the Far East.

Some European leaders have expressed anxiety over reports the United States may expand the war in the Orient, bombing Chinese territory, and possibly sanctioning a Chinese Nationalist assault on the mainland of Red China.

Some unfavorable reaction also (See MEETING, Page 2)

## Open House Tonight In Pampa High School

An open house for parents of Pampa High School students has been scheduled tonight by the student council.

Parents are invited to visit the home rooms of their children from 7:30 to 8:30 p.m. in the cafeteria by members of the student council.

Refreshments will be served from 9 to 9:30 p.m. in the cafeteria by members of the student council.

INJURIES FATAL  
RICHMOND (AP) — James R. Booth, 30, died here yesterday of injuries received near the South Texas town. Booth was from nearby Booth, Tex.

# Foreign Affairs Experts See Slash In Spending Abroad

WASHINGTON (AP) — Foreign affairs experts predicted today the new Republican-controlled Congress will trim U. S. spending abroad, with emphasis on military and economic aid shifting from Europe to Asia. Foreign aid will likely kick off the first big debate in the 83rd Congress convening Jan. 3. Extension of the Mutual Assistance Program is one of the first things on the agenda.

With Republican leaders just about agreed on a top budget figure of 70 billion dollars in fiscal 1953-54, the foreign spending program faces possibly hefty reductions for the year beginning July 1. The authorization for this year, ending next June, is \$6,447,750,750.

Unspent Balance  
Any controversy is certain to center around American outlay of \$32,104,867,055 during the post-war years since 1945 and gross foreign spending of some 87 billion dollars since 1940.

Much of the money authorized and appropriated is as yet unspent. As of last June, the mutual security program showed a five-billion-dollar balance earmarked for guns, tanks, aircraft and the like. Funds not obligated and carried over amounted to about 400 millions.

Program Reviewed  
Rep. Lawrence Smith of Wisconsin, fourth-ranking Republican member of the House Foreign Affairs Committee, said the whole foreign aid program must be reviewed and reduced. He told a reporter:

"I don't think the country will stand for any more all-out spending. We owe it to the country to sit down in bipartisan fashion and take a good look at the new problems which have arisen."

Among such problems, Smith said, are European failure to meet rearmament goals of the North Atlantic Treaty program, France's financial troubles and the free world's improved economic status.

Loudly Critic  
Smith said President-elect Eisenhower has heretofore been concerned chiefly with Western Europe, adding:

"I'm hoping when Ike goes to Korea he gets a picture of this Asiatic situation."

Republicans in Congress have been loudly critical of what they call the Democratic administration's "failure" to protect Asia from Communist aggression.

In the last foreign aid bill, Asia and the Pacific got only about 900 million dollars of the over six billion authorized.

Bert A. Howell Inc. Plumbing, Sheet metal, Heating, Air-conditioning, Ph. 152, 119 N. Ward, Adv.

# Former Communist Big Shot Faces Charge Of High Treason

VIENNA, Austria (AP) — The former secretary general of the Czechoslovak Communist Party, tough, Moscow-trained Rudolf Slansky, was listed for trial in Prague today with other purged leaders of the Red Czech regime — a mass hearing some diplomats expect will rival the 1936 Moscow trials.

Announcement of the hearing was made earlier today by Prague radio. The broadcast said that Slansky would be tried together with "his group," but it gave no indication of how many defendants would face the court or who the others might be.

The radio also made no mention of the charges but Slansky and others purged with him have been publicly accused of high treason.

Daily Reports  
The radio said it would broadcast daily reports of the court proceedings. There have been no Western news correspondents in Czechoslovakia since the conviction last year of Associated Press Correspondent William M. Oatis on "spy" charges — a trial denounced throughout the non-Communist world.

Confessions  
Earlier this year, Stefan Rais, Czech minister of justice, said that Slansky and Clementis would be tried along with Otto Sling, one-time political secretary of the Communist Party in the city of Brno, and other purged figures on charges of plotting to murder President Gottwald.

Red-haired Slansky, one of the architects of the Red Czech regime, was arrested in Nov., 1951, along with scores of other top government and party officials in a full-scale purge of Communist ranks.

At that time, Czech President

# Pvt. William Tilley Not In Army Guardhouse—Or Is He?

BATTLE CREEK, Mich. (AP) — Official papers on file at the Army's Ft. Custer say Pvt. William John Tilley is being held in the guardhouse on charges of going AWOL.

But William, 22, is at his Detroit home attending to a concrete contracting business, while his 19-year-old brother, Joseph, sits in the guardhouse.

That is as it should be, army officers ruled yesterday, because he was married and the father of a child. That was Joseph's situation when he was discharged last September. William was dis-

charged in 1946, only the Army thought then he was Robert Tilley.

The mixup goes back to the war year of 1944, when 14-year old William Tilley wanted to get into action. He was too young, so he assumed the identity of his brother Robert, who had been dead several years.

William (or Robert) joined up and served two years before being honorably discharged. He was married and the father of a child.

That is as it should be, army officers ruled yesterday, because he was married and the father of a child. That was Joseph's situation when he was discharged last September. William was dis-

PRESENTING THE CHARTER for the St. Paul Methodist Church Men's Club to Elton Coe (the fourth from left), club president, is Sam Berger (far right), president of the Men's Club, First Methodist Church. Presentation was made Wednesday night in Fellowship Hall, First Methodist Church. Others at the ceremony (left to right) were James Winborne, Neely Rodgers, B. B. Pettit, Chester Andrews and Roy Cullison. Guest at the affair was Rev. John English, pastor of Phillips Methodist Church, Berger, Rev. E. L. Hall is St. Paul Methodist Church pastor. (News Photo)

### Two Auto Wrecks, One Involves Train

Two vehicle accidents involving three automobiles — and one train — have been reported inside the city limits over a 21-hour period.

Clyde A. Moor Sr., 50, of 1129 S. Starkweather, was headed south on Starkweather at 8:30 a. m. today, police reported, when he drove up the grade to the Santa Fe Railroad crossing and was involved in a collision with a yard train operated by F. A. Carver, Pampa, engine foreman.

Moor told officers that the sun had blinded him, causing him to fail to see both the warning signals at the crossing and the yard train which was backing up.

The crossing is 60 feet south of Atchison and crosses Starkweather at right angles.

Damages to the Moor car were calculated at \$400. No citations were given.

Carl H. Luten, 45, of 900 S. Summer, was headed east on Brown at 11:45 a. m. Wednesday, according to police, when his vehicle was involved in a collision with a car operated by Edna E. Jordan, 38, of 701 S. Ballard who was going north on Cuyler.

No citations were given, but damages were estimated at \$175.

### Deer Kills Not Up To Par, Says Game Warden

CANADIAN (Special) — Capt. Jim Maggard of the game warden force operating in this area reported the number of deer bagged in the Canadian River valley the first four days of the season almost 50 per cent less than the number taken last year. However, the hunters seem to be doing better on turkeys — the number bagged being "about normal."

The unseasonably warm weather was given as the probable cause of the small kill of deer. It seems that the bucks have not yet come to the brushy bottomlands as is their habit when the weather is colder.

Asked whether or not there were more violations than usual, Capt. Maggard replied that there may not have been any more violations in the first four days of the season, "but we apprehended more violators."

Violations so far, included the killing of three hen turkeys, one doe, and one spike buck. Three hunters paid fines for trespassing.

Resident Wild Life Biologist, A. E. Jackson, is compiling data on the deer and turkey harvest and will release the information shortly after the close of the ten-day open season.

### Pampans To Learn Of Home Nursing

A 14-hour home nursing course will be taught to a maximum of 10 persons during the coming week, according to Mrs. F. W. Shotwell, Pampa, Chapter Red Cross executive secretary.

Classes are to be held at 304 W. Foster under the direction of Mrs. Kay Eller, instructor recently completing the Red Cross instructor course, "Home Care For The Sick."

Mrs. Shotwell said the group is to be organized at 1 p.m. Friday. Three-hour classes are to be held Monday, Tuesday, Wednesday and Friday from 1 to 4 p.m.

The executive secretary has asked women interested in the course to contact the Red Cross offices — the first 10 will be enrolled.

Plans for other classes are underway, Mrs. Shotwell said, and will probably be conducted in the Red Cross office or local church basements.

### Legal Publications

ORDINANCE NO. 370  
 AN ORDINANCE PROVIDING FOR ONE-WAY TRAFFIC IN CERTAIN ALLEYS, REGULATING THE PARKING IN SUCH ALLEYS AND REGULATING THE ENTERING INTO AND EXIT FROM SUCH ALLEYS AND DECLARING AN EMERGENCY.

BE IT ORAINED BY THE CITY OF PAMPA, TEXAS:

Section I  
 That all traffic in the alley between Cuyler Street and Ballard Street from Broadway Avenue to Atchison Avenue shall proceed only in a northerly direction; and all traffic in the alley between Cuyler Street and Russell Street between Francis Avenue and Atchison Avenue shall proceed in a southerly direction.

Section II  
 That no vehicle shall be left standing or parked in said alley in such a manner as to block the flow of traffic through such alleys, taking into consideration permanent obstructions and other parked vehicles.

Section III  
 All vehicles using the alleys above described may enter and leave the same by right turn, left turn, or proceeding directly across the streets intersecting said alleys, or at the ends thereof.

Section IV  
 All persons or corporations violating the terms of this ordinance shall be fined a sum of money not to exceed Two Hundred Dollars (\$200.00).

Section V  
 The fact that there is no ordinance providing for one way traffic in the alleys specified above and the public welfare demands such, creates an emergency and an emergency is so declared and rule requiring an ordinance be read on these separate days is suspended and this ordinance shall take effect immediately on its passage and publication.

PASSED AND APPROVED this 11th day of November, 1952.

(SEAL)  
 C. A. Huff, Mayor.  
 Edwin S. Vicars, City Secretary.

### WOODS

(Continued From Page One)  
 trois had made no "difference at all" in the past.

"No effect whatsoever" on wholesale pork and live cattle was the decided opinion of Hansford Ousley, Ideal Food Store No. 1, 229 N. Cuyler. For the pork market "has been definitely off with pork selling way below ceilings."

No Great Effect On Meat  
 A spokesman for Furr Food Store, 125 N. Somerville, felt there would be "no great effect in Pampa," although there might be in the populated areas of the Northeast and the West Coast.

The entire cattle market — including hogs — has been off for the past few months, Ousley continued, because of the high price of feed and the statewide drought. Unable to feed their cattle, he said, cattlemen sold them and flooded the market.

According to the A.P. Woods later told the committee that "there is danger that inflationary pressures now concentrated in limited areas — especially those closely related to the defense program — may spread throughout the economy."

### ARMY

(Continued From Page One)  
 son when his draft summons arrived in June.

At that point younger brother Joseph decided to help out and went into the Army as William. Three months later, officers said, he decided he didn't like Army life and returned home to become Joseph again.

So when military police went to Detroit last night to arrest William for being AWOL, it was Joseph they brought back with them.

But there was a strong possibility that eventually the worse angle might be sent to the Pentagon for a final ruling.

### MEETING

(Continued From Page One)  
 arose in Europe after Eisenhower's speech to the American Legion Convention, during his campaign, in which he discussed the possibility of issuing a warning to the Soviet Union. The general said it should be couched in terms of "cold finality," and he noted the possible methods of creating tensions inside the Iron Curtain.

With regard to Western Europe, some American sentiment holds that direct financial aid should be discontinued. Proponents of this belief argue that military aid alone — and assisting European allies with a broadened trade basis — would be more effective and less costly.

Open More Markets  
 The probability of opening more American markets to British trade would be a matter of major interest for Eden.

# Vandenberg Says Air Force Can Launch Manchurian Fight

By WILLIAM C. BARNARD  
SEOUL (AP) — Gen. Hoyt S. Vandenberg, Air Force chief of staff, says the Air Force is capable of beginning an aggressive war against the Reds' Manchurian bases at any time the U. S. government changes its policy.

Vandenberg, on the last leg of a world tour of installations under his command, told newsmen: "The Air Force is in a position to do anything the administration wants done."

Reporters had asked if the Air Force was strong enough to bomb effectively beyond the Yalu River boundary of North Korea.

"Do you mean the Air Force in Korea could carry on an aggressive campaign in Manchuria without bringing in more squadrons to build up strength?" a correspondent asked.

Pilot Errors  
"No," Vandenberg replied. "I said the Air Force."

The Air Force chief was asked to comment on the fatal crashes of four C-119 Flying Boxcars in the past 10 days—one in Korea, two in Alaska and a fourth in Montana.

"From what I have read," he replied, "there were no mechanical failures found, so I think it was mostly pilot errors."

Witness Tells Of Jap Killing

NEW YORK (AP) — A prosecution witness from Texas at the treason trial of John David Provoost told a hushed courtroom this week how the Japanese executed Capt. Burton Thomson of Sea City, La., on Corregidor in 1942.

Other witnesses in the trial have testified that Provoost bragged to them he was responsible for Capt. Thomson's death.

The witness, Everett Waldrum, 20, a graduate student at Sul Ross College, Alpine, Tex., told Federal Judge Gregory F. Noonan and the jury that he was forced to drive the car in which Capt. Thomson rode to his death.

This, Waldrum said, was what happened:

A the direction of Japanese Army Sgt. Saitaro Fujita he drove Thomson from Mabinta Tunnel to a garage.

"There they got out and went in to a tin building. I waited about 40 minutes and they returned with Capt. Thomson. His hands were tied in front of him with a grass rope and we drove to the air base and they got out of the car and tied him to a bush and shot him."

Afterwards the Japanese commented that Thomson "was a very brave soldier."

# Inheritance Hinges On New Change

WILMINGTON, C. (AP) — A modern tale from the Arabian Nights came to light in a Western court of law here when a young Air Force man sought to adopt the Mohammedan name of Mustapha Barbassar Balutcha.

New Hanover County Clerk of Court Foster Edwards THIS WEEK RECEIVED LETTERS AND DOCUMENTS FROM YOLO Leroy Croom appealing for immediate action in the case. Croom said this was necessary if he was to receive an inheritance from his Mohammedan father, who is now dead.

REACHES BACK 23 YEARS  
His appeal came in the form of certified letters from the registrar of deeds office at Caldoosta, Ga. Croom, who was born in Wilmington, is now stationed at Moody Air Force Base, near Valdosta, Edwards said.

The unfamiliar ode of the Far East cropped up in the Western court when Croom unfolded a yarn that reached back 23 years and stretched halfway around the world.

He said his father, a native of India, was a seafaring man in his younger days aboard a British merchant vessel. When the ship made port at Wilmington, Croom's father met the woman who was to become the young soldier's mother, his letter said.

Croom told the court that years later he learned the identity of his father and started corresponding with him.

His father acknowledged the boy as his son and later Croom's paternal grandparents, the Balutchas, recognized the American youth as their heir, Croom said.

When his father died recently, there was only one hitch involved in Croom's attempts to claim his inheritance.

Under the Code of Islam, the body of religious and civil law, an heir to family property must adopt a Mohammedan name and embrace the Moslem religion. The Balutcha family, living in what is now West Pakistan, are guided by this code.

Croom said in his letters he is prepared to comply with the Pakistani law in order to claim his inheritance. He gave no indication, however, just what the inheritance consists of or its value.

# Witness Tells Of Jap Killing

Crash Survivor Says Passengers Didn't Obey Order

BILLINGS, Mont. (AP) — Men on an Air Force Flying Boxcar which crashed and killed eight of 16 aboard were "just milling around" after orders to bail out, the pilot testified.

Capt. William E. Shuttles, 45, Dallas, described the scene in a hospital interview. He suffered a head injury.

The pilot said he ordered a bail-out, unhooked his safety harness and went to the lower deck.

"Not one soul had made any effort to bail out," Shuttles said. "They had the doors open but were just milling around."

Shuttles said he was convinced that "it was hopeless in the minutes left to bring order" and returned to the controls.

"I couldn't just jump and leave the others in," he said. "I decided to ride her down. But I don't believe anybody would have been hurt if they had bailed out."

# Long Says Now Is Time For Tidelands

WASHINGTON (AP) — Sen. Long (D-La.) figures that the time will never be more favorable than the next two years for settling the federal-state controversy over ownership of the oil-rich offshore lands.

Twice Congress has passed legislation to deed these areas to the states. President Truman vetoed both bills.

But President-elect Eisenhower said during the campaign that he looked with favor on the state claims.

Thus if Congress enacts a bill similar to that passed previously, prospects are that it will be signed.

"If we can't get a bill through in the next Congress," Long told a reporter, "then we never can."

# Crash Survivor Says Passengers Didn't Obey Order

Woman Driver Finds Difference

CAPE GIRARDEAU, Mo. (AP) — It took a woman driver to finally decide the difference between a "dead stop" and an ordinary "stop" — a question that has bothered folks here for two weeks.

The problem arose when new city stop signs called for a "dead stop."

The unidentified woman driver, quoted by City Commissioner J. W. McBride, saw it this way: "A 'dead stop' is when you turn off your switch key and kill your motor."

## Learn From Previous Errors

By OSWALD JACOBY  
Written for NEA Service

"Please settle an argument over a Canasta hand," requests a Pittsburgh correspondent.

"Both sides needed 120 points to go down. Our score was 4800 and the opponents had 3900. The pack grew very large, with natural canastas of all the small cards.

"Finally my partner went down with the three queens, joker and deuce; and a separate meld of two jacks and a deuce. The next player promptly froze the pack, and I assumed that she did so in order to prevent our side from taking the pack with one natural card and one wild card.

"I held two queens, one jack, four tens, two deuces, and three odd cards. I did not know just what to do, but decided to throw one of my four tens.

"My discard got by safely enough, but my partner discarded eight at her next turn, and the pack was picked up. As a result, the opponents scored several natural canastas and won the game.

"Had I made the canasta of queens at once (by adding my two queens to my partner's meld and had I also melded my tens,

my partner could have gone out at her next turn. We would have won by a very handsome score.

"With so little on the board just queens and jacks, I didn't think she had a chance to go out so quickly and I hated to lose my chance to win the pack.

"Was my play unlucky or unskillful?"

I am sorry to say that my correspondent made an unskillful play. Let us hope that this disaster will teach her a lesson from which she can profit the next time she plays.

Her partner melded only queens and jacks, but it is important to note that the partner was left with only three cards in her hand. Obviously, a hand with only three cards cannot be terribly profitable from melding out. Equally important, a hand with only three cards cannot be expected to defeat the discard pile effectively.

My correspondent should have resigned herself immediately to eventual loss of the discard pile. Her only hope was that her partner could meld out before the opponents could take the pile.

The correct play was to meld the two queens and three tens and to discard a deuce. This

### Communists Claim Rail Transformation

SAN FRANCISCO (AP) — The Communist Peiping radio claims the Manchurian rail center of Harbin, once a refuge for White Russians across the Soviet frontier, has been transformed into an industrial center in three years.

The Red broadcast said that before "liberation" by the Communists in 1948, Harbin had only one large factory, a railway workshop. Now, the Reds say, industrial output is five times above the 1949 level. Men (ioned specifically were a modern flax mill, a machine tool plant and a tractor parts plant.

### Operations Studied

MANILA (AP) — Forty — three forestry students from Burma, China, Malaya, Pakistan and North Borneo are taking a six month training course in mechanized logging operations here.

The course is being conducted by the Philippine Forestry Service and would combine maximum safety with the maximum chance for learning.

### Basic Housing Policy Decision Is The New President's Stake

By PETER EDSON  
NEA Washington Correspondent

WASHINGTON (NEA)—Federal government housing policies are shrouded sharply on the political horizon as the dawn of a new administration breaks over Washington.

While there is considerable feeling in the building industry that the government ought to get out of housing and let private business do the job, the new President won't find it easy to abolish all government housing programs. In fact, he would find it impossible to do so.

The government is in too many housing activities now to get out. And if the government did withdraw from all housing programs, including mortgage guarantees, the real estate and building industries would probably be the first to scream the loudest.

What's at stake for the new President, therefore, is a basic policy determination on whether to have a positive housing program enlarging present activities, or whether to carry on passively at present or reduced levels.

There are some six different fields in which this must be decided.

Most controversial program, perhaps, is public housing. Will the new President want to continue the present ceilings on new project starts?

The 1949 housing act authorized starts on 135,000 units a year. President Truman reduced this to 75,000 units shortly after the Korean war began. Congress cut it back further by 35,000 units. The National Association of Public Housing Officials met in Washington recently and advocated that the program go forward at the 135,000 annual rate.

Dispute FHA insurance

In the private building field, there is some dispute over whether to continue Federal Housing Administration insurance on improvement loans granted without mortgages. Congress set this up on a \$1.25 billion revolving fund basis. There has been a tremendous amount of business in this field.

The fund is now so largely committed that FHA can handle only a small part of the applications for insurance guarantees that it receives. A large part of the building industry favors continuing a 20 percent program. But there is some small feeling that the insurance demand has now been largely taken care of.

FHA's building mortgage insurance program authorization will be exhausted on June 30. The question for the new President is how much it should be expanded. The total FHA mortgage insurance authorized is \$11.5 billion. Of this amount, approximately \$8.3 billion is outstanding and \$1.7 billion more is committed. The remaining \$1.5 billion uncommitted will last only until June.

About one-third of the total U. S. mortgage business is now FHA insured. When this mortgage insurance program was set up, it was believed the government's share of the total would be not more than a fourth. Its chief value was to have been that it would set standards for the building industry.

But trends in recent years have indicated the FHA mortgage insurance program would naturally grow bigger. If it does, a larger authorization will be needed from Congress.

There is a related question in the Federal National Mortgage Association's mortgage purchase program from banks in tight mortgage

market areas. It applies particularly in areas where there is much defense construction, with many new housing developments. The government's authority to carry on this "Fannie Mae" program expires June 30. The question is whether it should be renewed.

Up Or Down?

This brings up the all-important interest-rate question on mortgage loans. The present Veterans Administration rate for G. I. housing loans is 4 per cent. The building and home finance industries think this rate is low. The FHA rate is 4 1/4 per cent. But whether both of these rates will be increased will depend somewhat on the new administration's general fiscal policy in allowing all interest rates to rise, or trying to keep them low.

The Defense Housing and Community Facilities and Services act also expires on June 30. Under this act the government makes loans and grants to communities to meet unusual demands for schools, streets, sanitary facilities and utilities in rapidly growing defense areas.

This act was extremely important when it was passed right after the Korean war broke out. But there is some feeling that the housing situation in defense areas is now stabilized, so the authority can lapse.

The original authorization was \$200 million. Of the \$100 million for defense housing, \$7 million has been appropriated. Of the \$100 million for facilities, \$30 million has been appropriated. The funds are ample to carry on till June 30.

Government housing research is now more or less at a standstill. The 1951 appropriation for this was \$1.4 million, but half of this went for private research contracts. Subsequent appropriations have been only enough to carry on these contracts and no new projects are being undertaken.

Incidentally, one of the choicest political plums for the new President is in the government housing agencies. In addition to the top officials, there are some 80 field-office directors who could be replaced by favorites of the new President, if he were of a mind to make a wholesale housing cleaning.

### 'Golden Knight' Gets Jail Term

CHATTANOOGA, Tenn. (AP) — A kidnap-robbery spree led by a man who described himself as a knight in golden armor brought federal sentences yesterday to a former prizefighter and a 15-year-old companion.

The onetime boxer, Charles Hopkins, 20, Jacksonville, Fla., was given sentences totaling 17 years for kidnaping and two for interstate transportation of a stolen motor car. The sentences were ordered to run consecutively.

James Francis Hill, an ex-convict who led the crime spree last month in Tennessee and Georgia, was found mentally incompetent and ordered committed to an institution.

Hill placed a nine-page "life-story" in court records in which he said he was Robin Hood and stole from the rich to give to the poor.

### Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many suffer complaints of aching backache, aches, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as kidney and strain, over-exercising or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent urination.

Don't neglect your kidneys if these conditions bother you. Dr. Dean's Filio—a mild diuretic. Used successfully by millions for over 10 years. It's amazing how many times Dean's gives happy relief from these discomforts—helps the function of kidney tubes and filters flush out waste. Get Dean's Filio today!

## Rabies Outbreak A Threat To Residents In Canada

FORT VERMILION, Alta. (AP) — Settlements clearing when they strange tales of unusual antics by normally-shy wild animals are coming from homesteads and settlements in this area 600 miles north of Edmonton as Alberta Province battles its first epidemic of rabies.

Canadian officials have brought the outbreak among domestic animals under control and a program has been mapped out to eliminate the disease, a highly-infectious one that causes madness and death among foxes and timber wolves.

Many cases of mad foxes and timber wolves have been reported and at least one case of a wolf attacking humans has been substantiated, although there are no reports of anyone having been bitten.

Mr. L. Gray, of Little Red River, reported that by late August a change was noticed in the character of foxes. They were no longer shy and timid but walked boldly near cabins and settlements. Soon several dogs were bitten and died of rabies.

First signs of rabies were seen among foxes at Fort Chipewyan and Fort Fitzgerald in the northeastern corner of Alberta. From there it spread up the Peace River to Wood Buffalo Park and westward to the Fort Vermilion area, a sparsely-settled farming region.

More than 37 farms were quarantined and almost 1,300 dogs vaccinated. Four men were put under observation after handling or skinning infected animals and a quarantine was placed on all of Alberta lying north of the 57th Parallel forbidding the export of dogs which might carry the disease.

The three worst centers in the epidemic area were High Level, Fort Vermilion and Moose Lake. At High Level two mad foxes were killed with clubs in the

## Steel Headache... Selection Slim For Yule Bikes

By WALTER BREAD JR.  
For Sam Dawson  
NEW YORK (AP) — Buying for a new bike this Christmas? You may not be able to get the exact style and color you want. Manufacturers who have been bucking shortages of chrome and steel are hard-pressed trying to keep up with demand.

Sales Outlook Good  
"The sales outlook would be terrific if we could only get enough steel," says an industry spokesman. "We're selling more bikes than we can make."

The tight situation in bicycles goes back to 1951 when steel restrictions held production down to 1,800,000 units. The industry's entire output for that year was sold out by Christmas.

Things looked pretty grim but the manufacturers scrounged around for scarce materials and developed new sources of supply. Today they feel they've produced enough bikes to take care of this year's Christmas rush, although the selection may be somewhat narrow.

Prices Stable  
Retail prices are about the same as last year. Prices next year are expected to reflect a 7 per cent increase recently allowed manufacturers by the Office of Price Stabilization.

One of the hottest items right now is the junior size two-wheeler with attached outrigger wheels designed for beginners 5 to 9 years old. The outrigger wheels hold the bike upright while the tot is learning to balance. They can be removed when he has learned to ride safely.

## Pravda Attacks Graft, Corruption

LONDON (AP) — Reports of graft and corruption on a vast scale in the Soviet Union has prompted Pravda to demand a "ruthless" campaign within the USSR Communist Party to eliminate breaches of discipline.

"A former attitude toward the decisions of the party and government, a passive attitude toward their implementation, is a vice which must be stamped out ruthlessly," the official party newspaper said in an editorial broadcast by Moscow Radio and monitored here.

# Lefors, White Deer Clash For 1-A Title

The battle of the year so far as Class A football in the Panhandle is concerned will be unreeled at Shaw Field in Lefors Friday night when the Lefors Pirates host the White Deer Bucks in the championship game of District 1-A.

The two teams are tied for the lead in 1-A with 3-1 win-loss records and Friday night's winner will be crowned champion. It will be the final regular scheduled game for both teams.

A thriller-diller skirmish is expected between the two arch rivals. If comparative scores are of any indication, White Deer rates a slight favorite. But, like all games that pit long time rivals, past scores aren't considered when picking a favorite.

White Deer, actually, hasn't been beaten in district play. They were held to a 6-6 tie by Canadian but Canadian gained the decision via the 20-yard line penetration rule.

Lefors' line loss in district play was a 20-0 upset at the hands of the McLean Tigers.

In two instances, White Deer holds a distinct edge in comparing scores of common opponents while Lefors holds a big edge on one game, White Deer defeated Price College of Amarillo, 14-0 while Lefors lost to the same team, 32-0, and the Bucks defeated McLean, 12-7, which had beaten Lefors, 20-0.

Lefors, however, regained some prestige by defeating Canadian 31-6, the same team that had tied White Deer, 6-6.

Fridays game will pit two of the finest running backs that District 1-A has produced in Cordell Pugh of White Deer and Jimmy Dooan of Lefors. Both run with lots of power and Friday's game may very well turn into an offense duel with these two lads leading the way.

The quarterbacks of the two teams, Bill Watson of Lefors and Ronald Mills of White Deer, have been major factors in guiding their respective teams to championship contention. Both are fast

SEASON RECORDS

27	Totals

as well as being capable passers and adept ball handlers off the T.

The game will have added interest since James Love, White Deer coach, formerly coached Lefors. Love coached most of the current members of the Lefors team while they were freshmen.

White Deer will carry a 7-2 record into the game as compared to a 6-3 slate owned by Lefors.

The title game will be aired over Radio Station KPDN.

## Mustangs Picked To Clip Baylor

By the Associated Press

If the odds are correct Southern Methodist will stay in the race for a share of the Southwest Conference football championship Saturday.

SMU is a six-point favorite to beat Baylor at Dallas. If the Methodists do they will retain a chance at a tie for the title. Texas would, however, have to lose to Texas A&M Thanksgiving Day at Austin for that to come about. Texas is undefeated; SMU has lost one game.

Rice and Texas Christian play at Houston in the other conference game on the schedule. This is considered so close there are no odds—its five and six and take your choice.

Arkansas plays Tulsa an inter-sectional game at Tulsa. Tulsa is a 14-point favorite

**BACK OF THE WEEK** — Sam Stollenwerk, 160-pound halfback, led SMU from a 17-0 deficit to a 27-17 victory over Arkansas last Saturday at Fayetteville. As a result of this somewhat sensational one-man feat, Stollenwerk was named as Associated Press Back of the Week. Before last Saturday, the pint-sized SMU junior had taken part in only four games. He was called on after rushing plays and ten passes this Arkansas took a 17-0 lead and before the game ended he had connected on ten of 24 passes for 299 yards and three touchdowns and had kicked three of four conversions. (AP Wirephoto)

## Sauer Named Most Valuable In National

**NEW YORK (AP)** — Hank Sauer, the rags to riches outfielder of the Chicago Cubs, today was named the Most Valuable Player in the National League for 1952 by the Baseball Writers Association of America.

The selection of the 33-year-old Chicago slugger came as a surprise to many as Sauer slumped badly during the last month of the season following a brilliant start.

Sauer won his circuit's highest honor by a narrow margin over Robin Roberts, the graceful right-hander of the Philadelphia Phillies, and Joe Black, the rookie relief expert of the pennant-winning Brooklyn Dodgers.

The Chicago star, whose climb to major league stardom was a tortuous path, collected 226 points out of a possible 336. Roberts, who won more games than any other pitcher, 28, finished second with 211 points. Black, who made Brooklyn's entry into the World Series possible, was third with 208.

Sauer, a 6-foot-4, 250-pound bruiser ran into a terrible slump in September. He hit only three homers, drove in seven runs and collected 16 hits in 75 times at bat.

Despite this poor showing the Cub cleanup hitter wound up tied for league home run honors with Pittsburgh's perennial champion, Ralph Kiner, at 27 each. He also led the loop in runs batted in with 121, the highest of his major league career, and batted .270.

Three writers from each major league city participated in the balloting. Points were awarded on a 14 for a first-place vote, nine for second, eight for third and so on down the line.

Only other players to poll 100 or more votes were Hoyt Wilhelm, the rookie relief specialist of the New York Giants, and Stan Musial, the six-time batting champion of the St. Louis Cardinals. Wilhelm placed fourth with 133 points and the \$85,000-a-year Musial fifth, with 127.

Rounding out the top 10 were Enos Slaughter, St. Louis, 92 points; Jackie Robinson, Brooklyn, 31 points; Pee Wee Reese and Duke Snider, Brooklyn, 29 points each; and Roy Campanella, Brooklyn, and Red Schoendienst, St. Louis, 25 points each.

The record for field-goal kicking in West Virginia U. is held by Ed Kenna who in 1901 booted three for distances of 42, 45 and 50 yards in a single game.

## Lubbock, Arlington Seek Repeat Titles

**By HAROLD V. RATLIFF**  
Associated Press Sports Editor

Two defending state champions can push their way into the Texas schoolboy football playoffs this week.

Lubbock, which won the Class AAAA title, is a heavy favorite to clinch a spot in the playoffs Saturday when the West-erners play at Midland. Lubbock is undefeated and untied and needs only one more conference victory to become the District 1 representative. Midland lost to Pampa and Abilene, both of which were beaten by Lubbock.

Arlington, defending champion of Class AA, is an even choice to win its district title Friday night and return to the playoffs. Arlington, however, must beat a Mineral Wells team that has a better season record.

**District 2 Undecided**

Breckenridge, the 1951 champion of Class AAA, has to win its way until next week to win its way back into the fight. It plays

## USC, UCLA To Play Before 100,000 Plus

**LOS ANGELES (AP)** — The football teams at Southern California and UCLA eased down a bit in workouts today and, barring the unforeseen, will go into their Pacific Coast Conference championship game in Memorial Coliseum Saturday in near-perfect condition.

The possibility that Southern California's great tackle, Bob Van Doren, may not be able to play, cast a pall of gloom in the Trojan camp. Dr. Willis L. Jacobs, team physician, said Van Doren has not progressed satisfactorily from a mild concussion suffered in last week's game against Washington.

"It is quite doubtful whether he will be ready by Saturday," said Dr. Jacobs. X-rays and brain wave tests showed no serious injury, but the big defensive tackle has been complaining of headaches all week.

**Winner To Rose Bowl**

The battle, with the winner heading on to Pasadena and the Rose Bowl engagement with the Big Ten representative, still shapes up as an even struggle between a pair of teams unbowed and untied in eight games apiece.

If either has an advantage, it is Southern California's greater reserve strength.

The UCLA coach, Red Sanders, while conceding nothing to the Trojans, either on offensive or defense, did admit this:

"Well, they do have more football players than we do."

An injury in the game to one of Sanjer's starters, say halfback Paul Cameron or blocking back Lewis Williams, or linebacker Donn Moomaw, would work an extreme hardship.

USC's 1st Two Teams Potent

Trojan coach Jess Hill conceivably would not be harmed too much by injuries. There isn't much to choose between his first and second platoons on either offense or defense.

One of Hill's problems, it would appear, has been deciding which of his various combinations in the backfield might be the most effective. He has about five tailbacks, headed by Jimmy Sears.

The game, to be witnessed by millions of television fans and a sellout crowd of 101,043 on the scene, will feature a duel between 187-pound Sears, no. 32, 180-pound Cameron, no. 34.

Cameron has completed 30 out of 80 throws for 429 yards and eight touchdowns, with three interceptions. He has gained 150 yards in the 60 times he's run with the ball.

Sears has completed 30 out of 80 throws for 528 yards and seven touchdowns, and four have been intercepted. He has a rushing gain of 298 yards in 103 tries.

## Harvesters Guarding Against Slip-Up By Bobcats Saturday

Determined to snap their two-game losing streak, the Harvester gridders aren't taking any chances of a slip-up Saturday when the winless San Angelo Bobcats call at Harvester Park Saturday afternoon.

True it is the Harvesters will be heavily favored to down the Bobcats but in football, one can't be sure of anything.

The Bobcats will have everything to gain and nothing to lose Saturday while the Harvesters have some prestige to gain back after dropping their last two starts. Actually, the Harvesters haven't dropped in prestige to any extent as their two losses were to the No. 1 and No. 5 team in the state, Lubbock and Odessa.

But the Harvesters need very much to return to the win column to strengthen their season record. San Angelo will come to town Saturday seeking their first win in 17 games. Berger handed the 'Cats their 16th straight loss last week by a healthy margin, 63-13.

The Bobcats have dropped eight straight this season as compared to six wins and two losses for the Harvesters. San Angelo has turned in some good performances this year despite their record. Against the rugged Midland Bulldogs, the Bobcats trailed by only one touchdown with one minute left in the game only to have Midland score again and walk off with a 24-12 triumph.

The Harvesters are expected to be at near top strength Saturday so far as the regulars are concerned. The already thin reserve strength of the Harvesters has been cut down even more the past two weeks with three subs put out of action for the remainder of the year.

To take up the slack in the reserve ranks, Coach Tom Tippis has brought up three players from the Guerrillas who have already finished their season schedule. The three Guerrillas brought up are end Ben Sturgeon, fullback Harold Boyle and halfback Bill Edwards.

Out for the season because of injury are Gene Beaty, Ken Hinkle and Walker Bird. The latter was injured in the Odessa game last week. The other two were put out of action the week before.

Tickets for Saturday's game are on sale at the school business office in the City Hall.

**A BODY SLAM** — Farmer Jones Murdock is shown supplying a body slam during his match with Ivan Kalmikoff in the main attraction of last night's wrestling program at the Southern Club. Murdock won the second fall but Kalmikoff came back to win the third fall and the match. (Néws Photo)

## Kalmikoff, Martindale Chalk Up Wins On Wrestling Card

Ivan Kalmikoff outlasted Farmer Jones Murdock to win last night's main attraction at the weekly wrestling show at the Southern Club.

The Mad Russian divided the first two falls with the Farmer and then took the third and deciding fall. Kalmikoff had won the first fall with Murdock coming back to win the second.

Murdock appeared on the way to victory in the third fall when he had Kalmikoff groggy after ripping off a bandage from the Mad Russian's forehead that started a flow of blood streaming down his face but the Southwestern Junior Heavyweight lifted had enough at the finish to take the fall.

Kalmikoff appeared on the way to victory in the third fall when he had Kalmikoff groggy after ripping off a bandage from the Mad Russian's forehead that started a flow of blood streaming down his face but the Southwestern Junior Heavyweight lifted had enough at the finish to take the fall.

Popular Tommy Martindale won on two straight falls from Frankie Hill Murdock. Martindale won the first fall with a body press and then Frankie lost his temper to lose the second fall and the match. Murdock tossed Martindale over the ropes that automatically lost the fall for him and Referee Billy Weidner raised Martindale's hand in victory.

Prior to the semi-final match, Martindale and his five-year-old daughter, Linda, put on a hand-balancing act. This act is gaining country wide recognition and the fans roared their approval of the exhibition last night.

The 20-minute preliminary match on last night's card ended in a draw between George Overhul and Gust Johnson.

## Temple No. 1 In AAA Poll

**DALLAS (AP)** — The first appearance of Marshall and the first absence of Texarkana among the top 10 in Class AAAA Texas schoolboy football feature this week's Dallas News poll of the state's sportswriters.

And Breckenridge, receiving growing sentiment, climbed to within three points of mighty Temple.

Here are the top 10 as judged in the poll:

1. Temple 5-AAA
2. Breckenridge 2-AAA
3. Brownwood 2-AAA
4. Edison (San Antonio) 7-AAA
5. Lufkin 5-AAA
6. McAllen 8-AAA
7. Palestine 5-AAA
8. Marshall 4-AAA
9. Lamesa 1-AAA
10. Denison 3-AAA

When he is not playing with the Detroit Lions in the National Football League, end Jim Doran operates a 1,000-acre farm with a brother in Boone, Iowa.

## SPORTS MIRROR

**BY THE ASSOCIATED PRESS**

**TODAY A YEAR AGO** — Tennessee was back on top of the Associated Press weekly football poll, displacing Michigan State.

**FIVE YEARS AGO** — The Boston Bruins regained first place in the National Hockey League by beating the Toronto Maple Leafs, 7-2.

**TEN YEARS AGO** — Willie Tapp, 125, outpointed Chalky Wright, 125-3-4, in 15 rounds to win the N.Y. State version of the featherweight championship.

**TWENTY YEARS AGO** — Six major football teams — Auburn Colgate, Michigan, Centenary, Southern California and Brown — remained unbeaten.

**Read The News Classified Ads.**

**BLIND BOWLER** — P. J. (Polly) Norris rolls a bowling ball in a Port Arthur, Tex., bowling alley while his seeing-eye dog, Hedy, watches. Norris is blind, but he has an 82-pin average in the Memorial Bowling Center league. He has rolled a 69 for low and 112 for high game. Teammates lead him to the approach line, but Norris does the bowling. He is 39, married and the operator of a news stand. Norris has been bowling only three months and is admired by other bowlers who can see the pins but have trouble hitting them. (AP Photo)

### American, British Navies Develop New Carrier Deck

WASHINGTON (AP) — THE United States and British navies have invented a new kind of carrier flight deck—a "side porch" runway angled off to the left side of the ship.

It is designed to make landing safer and easier for jet aircraft. And with the far end of the runway jutting over the port side of the carrier, the likelihood of a plane crashing into others parked on the flight deck, or into the carrier island, is greatly reduced.

The two navies jointly announced that the new deck arrangement is being installed for test purposes on the Essex class carrier Antietam at the New York Naval Shipyard.

The British, who brought up the idea, call it the "angled deck." The Americans, arguing that "angled" might imply slanted or tilted whereas the deck is perfectly level—tentatively call it the canted deck.

"We are open to suggestions," said Rear Adm. E. S. Combs, chief of the Bureau of Aeronautics. One newsman suggested the V-deck, since the angled deck juts off from the regular flight deck to form a narrow porch. Other suggestions: side porch deck, check deck, cocky deck, cornice.

Combs said conversion of the Antietam will cost around a million dollars but should result in even greater savings in terms of ship damage, reduced weight and savings of life.

He said carriers with the new-type deck will be unable to pass through the Panama Canal because the deck will be about 34 feet to their top width.

Combs said the safety factor arises from the fact that the line of flight is off to the left side of the ship.

"If the plane falls, it goes over the side of the deck and only one plane is lost," he said.

"If the forward firing guns go off accidentally as the plane is landing, they would discharge into the water. And if the rockets should come off in landing, there would be no danger of them slipping along the flight deck as has happened."

Customers Set Their Own Price  
VICTORIA, B.C. (AP) — A Victoria cafe operator is going to let his customers set their own price for the meals they order next week.

Paul Arsens, indicating he just wants to try a change from old business patterns, said waitresses will give service, but no checks. The customer will even make his own change at the cash register.

"I don't know what will happen, and I'm getting a little scared," Arsens commented, "but at least it will be interesting."

More than 99 per cent of the earth's air lies below 20 miles above sea level.

### Russians Have Rails Worry Repair Worry

By EDWARD E. BOMAR  
WASHINGTON (AP) — Russians claim they invented automobiles, but apparently they're having trouble keeping them running.

Some examples of automotive repair service, Russian style: Waited Three Years  
1. The director of the Kishinev winery says he waited three years for his truck to be repaired. Then he found that it had been "cannibalized" — stripped of parts to repair other trucks.

2. A ZISS truck, of the Kishinev Truhenik collective, was delivered to a repair plant July 7 last year and more than 12 months later was still waiting its turn although in the meantime 6,538 rubles nominally about \$1,744 had been paid in advance for repairs.

The situation is so bad, says the State Department, even Russians are becoming impatient.

Customers Complained  
The customers of the government-run automotive repair plant at Kishinev, capital of the Moldavian Soviet Republic, finally complained. The situation was set forth in detail in a copy of the newspaper Soviet Molavia received by the state Department.

A year ago the literary Gazette of Moscow was complaining about difficulties owners were finding in having the simplest repairs made.

The Kishinev newspaper thus quoted the director of the winery: "Only Trains Remained."  
"They were telling us all the time that as soon as they receive new parts they would repair the truck. Finally, we found that all that was left of our truck was the frame and part of the body. We had to file a complaint with the public organizations. And only then did the director of the plant, Comrade Artemyev, begin to search for another truck to give us in exchange. It is possible that in three years the plant did not receive the part they need to repair our truck."

The Soviet newspaper reported that the Stakhanovites, or pace setters, at the plant wrote the Moldavian minister of motor transport. He replied after delay that it was all true but deflected the management according to the paper, which added that three months later "nothing has been done."

Film Library Awaiting Reply  
CORVALLIS, Ore. (AP) — When ever the film library at Oregon State College sends out a movie, it tucks in a card asking, "How effective was the showing of this film?"

It now awaits the answer to one of this week's mailings. The film — "How To Dig." The borrower — San Quentin Prison.

There are about 100 coal mines in Indiana.

### Rails Worry About Load

For Sam Dawson  
NEW YORK (AP) — Railroad men worry whether they'll have enough cars for all the freight they'll be asked to haul in the next few months.

The year's peak loading season, when crops move to market and materials shippers try to beat the cold weather, is waning. But weekly carloadings still run ahead of the level of a year ago and calls by shippers for cars are expected to stay at a high level well into 1953.

In the face of this, the railroads have available fewer serviceable cars than the total with which they started the year.

This is partly because the steel shortage has cut into the production of new freight cars. The railroads have some 90,000 new cars on order, but deliveries fell to 2,762 in September and rose only to 5,437 in October.

Roughly a third of the cars now in use are more than 25 years old. They are wearing out fast. Heavy repairs also put a drain on the car supply. Oct. 1 the railroads had more than 104,000 cars awaiting repairs against about 95,000 at the start of the year.

Both new car builders and repair shops need steel, delivery of which was delayed by last summer's long steel strike.

The picture isn't all dark, however. Steel output is being pushed along at a record pace, with October's 9,790,000 tons the largest amount ever made in a single month. The Defense Transport Administration has urged allocation of enough steel to produce 35,000 new freight cars each quarter.

And the new freight cars, when the railroads get them, carry much larger loads than the cars they replace, and with greater efficiency.

### Captain Hough Tells Rotary Of Salvation Army Activities

The part the Salvation Army plays which seldom, if ever, is seen, was described yesterday to the Pampa Rotary Club by Capt. William Hough, recently appointed Pampa post commander.

### Capehart To Open RFC Investigation

WASHINGTON (AP) — Sen. Capehart (R-Ind) says he plans to reopen investigations of the Reconstruction Finance Corporation when he takes over chairmanship of the Senate Banking Committee in January.

Capehart told a news conference that one of his first acts will be to call a far-reaching inquiry to consider whether the huge government lending agency should be abolished.

The committee at the same time, he said, should look into what he termed delays in prosecutions resulting from inquiries made by the last Congress into alleged influence deals involving RFC officials and others.

Capehart is a member of a banking subcommittee which in 1951 charged that an influence ring having contacts in the White House had exerted improper pressures on the RFC.

A federal grand jury which conducted a parallel inquiry into RFC affairs indicted four Washington political figures on perjury charges in December, 1951, and February, 1952.

### White Deer Group Host To Lefors Men

WHITE DEER (Special)—Brotherhood of the White Deer Baptist Church was host to the Lefors Baptist Brotherhood recently at the White Deer church for a western supper.

Clifton C. Kelly, local president, presided at the business meeting during which questionnaires were filled out by the 38 members present of the White Deer unit. Reports were made regarding the recent work being done on the church auditorium.

The Lefors Brotherhood presented the program which was "Personal Testimonials." Five members spoke to the group.

There were four new members added to the White Deer membership roll. Including four visitors, there were 58 men present.

## Canada Is Described To Parent Ed. Club By Mrs. Bob Clark

A word tour of Canada was given at a recent meeting of the Parent Education Club. Mrs. Ed Williams was hostess.

Mrs. Bob Clark gave a personal account of her trip to Edmonton Alberta, where she and her husband and two children lived for four months the last summer.

She commented on Canadian architecture and gave a word picture of the Alcan Hwy. — which stretches 1750 miles north and south and is considered the gateway to the north.

The speaker told her audience that Canada is the third largest trading country in the world and is extremely rich in natural resources.

The country, according to Mrs. Clark, is still basically a frontier area.

Economically Canada has a sound fiscal policy showing a budget surplus every year since World War II, she said.

Largest manufacturing company is the Canadian Chemical Company owned and operated by the Celanese Corporation of America, she said, and many displaced persons are supplying Canada with labor personnel.

In a business meeting prior to the talk it was decided to send a cake to the "cake-walk" being held in Amarillo today by the Parent Cerebral Palsy Association.

Attending the meeting were Mrs. Tom Braly, R. W. Clarke, Dale Cuiwell, Robert Curry, Clinton Evans, Gene Fatheree, Jack Foster, Chilton Hill, George Hofess, Homer Johnson, Julian Key, Myron Marx, Jr., Albert Reynolds, Rex Rose, Tom Rose, George Snell, J. B. Venle, C. C. Whitney and Ed Williams.

## 20 New Members For Cub Scout Pack 22

Approximately 20 new Cubs will be inducted at a Cub Scout 22 monthly pack meeting at 7:30 p.m. Friday in Horace Mann auditorium, under the leadership of Bunny Shultz, cubmaster, and W. R. Patrat, assistant.

Included on the program will be presentation of awards to Wolfs, Bears and Lions.

A shortage of den mothers in three Pampa areas has been reported. These areas include the territories west of S. Hobart, south of the Amarillo Hwy. and the northwest part of the city west of Zimmers and Gwendolen to the Borger Hwy.

There are 20-25 boys in these areas desiring to become Cub Scouts but are unable to do so because of the shortage of den mothers.

Women interested in taking care of 6 to 8 boys are requested to attend the pack meeting. The public is invited.

The Union Pacific Railroad used 1.2 million tons of coal in 1951.

**EARN CURVED BAR** — All members of Troop 28, under the leadership of Mrs. J. C. Steward, have earned the curved bar award — the highest rank in Girl Scouting. Pictured from left to right are, bottom row, Sheila Chisholm, Pat Johnson, Ruth Steward and Carol Carnes. Top row (left to right) are Mary Kennedy, Nancy Coley, Anita Wedgeworth, Martha Skelly, Wanda Langford, Wynora Orndoff and Mrs. J. C. Steward, leader. (Smith Studio Photo)

## Grace Friend

Dear Grace Friend: I am in a most unhappy position. I am engaged to be married to a man who is an alcoholic.

I did not know that he drank when we met. In fact he wasn't drinking at all then. I fell in love with him and when he asked me to marry him I was the happiest girl in the world.

Everything seemed wonderful and we set our wedding date for Christmas. I don't know why he changed so suddenly. I guess we had had a small argument about something. It was of no great interest as I can't even remember now what we disagreed about. Anyhow he started to drink and has been at it ever since.

I've begged and pleaded but it doesn't do any good. His parents have tried to stop him but he just continues to drink every night after his work is through.

I have learned now that he had been an alcoholic but had stopped drinking and his family thought he was all right.

I still love him but I don't know what to do. Do you think that if I marry him I can help him to conquer the habit? My parents seem to feel that I should give him up but I just can't.

What should I do, Miss Friend? J. D.

Dear J. D.: Be sure that your fiancé has given up drinking before you marry him if you expect any happiness or security.

If you feel that you can't break the engagement you at least

## Lefors Junior Art And Civic Club Aids "Care For Austria"

Proceeds from a Lefors Junior Art and Civic Club, Nov. 25, will be contributed to the "Care For Austria Plan" as the result of a club meeting Tuesday night in the home of Mrs. Ray Jordan.

Plans were also completed and approved to contribute clothing, toys and food to the Gordon Memorial Orphanage, Panhandle.

The social committee reported on arrangements for the club Christmas party, Dec. 13.

Mrs. Jack Shoffitt was elected to serve as club reporter.

Attending meeting were Mmes. Leonard Cain, H. W. Callan, Jimmy Cantrell, Christine Dunn, Lovell Hughes, Bill Johnson, Richard McDonald, George Johnson, George Mortimer, Jack Seal, A. W. Shoffitt, Harold Sims, Norman Sublett, Jack Thacker and the hostess.

## Men, Women! Old at 40, 50, 60! Want Pep? Want to Feel Years Younger?

Do you blame exhausted, worn-out feeling on age? Thousands owe it to what a little peping up with Pep does. Contains tonic many need at 40, 50, 60, for body old solely because low in iron; also supplementary doses vitamins B<sub>12</sub>, calcium. Try this very low cost, very low price, very low price. Money gets regular \$1.10 size only 50¢. For still lower savings see money-saving "Economy" size.

In the years between explosions of the volcano Vesuvius, men can descend to the crater floor.

At all drug stores everywhere. In Pampa at CRENEY DRUG.

## All Members Of Girl Scout Troop 28 Complete Requirements For Curved Bar

By Mrs. J. C. STEWARD, Troop 28 Leader

The Curved Bar, highest rank in Girl Scouting, has been earned by all members of Troop 28. To earn the Curved Bar, a Scout must first be a First Class Scout having all proficiency badges required under the class. She then goes on into one of 14 groups—her choice—and must earn four new badges in this division. Having completed this work she is awarded the Curved Bar and is a Senior Scout.

There are numerous other badges a Scout may earn but only these are required to be a Senior Girl Scout.

Purpose and aim is "friendship" and by working together they earn them quickly.

A brief history of Troop 28 will recall the girls' activities through eight years of scouting. In 1943, Troop 28 started in scouting as Brownies in Sam Houston School.

Mrs. J. C. Steward and Mrs. Charlie Wilton were leaders. Eight of the original troop are still with the group.

As scouting goes, many changes take place and this troop was then called No. 27. It was combined with troop 28 and the girls worked under a number of

different leaders. As intermediates, Mrs. Etward became leader again in 1950. The older members already had their second class badges and the others were working toward them.

After this the girls started on the next highest badge — first class.

A number of achievements are required to attain the badge and included a full year's work for Troop 28.

Now, another year later, the girls are at the top.

Troop 28 has earned approximately 400 proficiency badges.

Ceylon Seeks Honey

NEW YORK (AP) — Britain is sending a bee expert to Ceylon to advise the government on the development of beekeeping in the island, the British Information Service reports here.

Dr. Colin G. Butler, an expert on the physiology and behavior of bees, will spend six weeks at Peradeniya in Ceylon studying bee strains and advising on the breeding of bee colonies. It is hoped that a thriving honey industry will supplement the island's meager food supply.

## Guill Outlines Steps For Better Government To 20th Century Club

Ben Guill presented the subject "Good Citizens Make Good Government" at the annual Twentieth Century Culture Club, husband's night dinner - meeting at 7 p. m. Tuesday in the City Club Room.

Guill commented on some of the highlights of the last presidential election — concentrating on Texas and the roles played by Texans.

He listed steps that can be taken by individuals who wish to continue working for better government.

Theme of the dinner was western with ranch style table appointments and western attire. Hostesses were Mmes. M.E. Cooper, M. P. Downs, J. N. Edminster and L. H. Hart.

Everybody likes Hills Bros Coffee!

**Merten HD Club Sees Demonstration On Making Steam Bread**

Miss Helen Dunlap, county home demonstration agent, gave a demonstration on the making of Boston brown bread at a meeting of the Merten HD Club Wednesday in the home of Mrs. Archie Maness, 431 N. Sumner.

Miss Dunlap poured the liquid ingredients into the center of the dry ingredients—each had been previously combined and stirred just enough to mix.

She said that formerly all quick breads have been baked but she introduced a different method—steaming. This adds to the moisture retained in the cake—particularly fruit cakes.

She cautioned members not to allow water used for steaming to have a rolling boil but to keep it at a slow boil. It takes four hours to properly steam a cake.

"A cook is judged a lot by her bread," the demonstrator said and the right temperature is the most important thing in its cooking. For cooking bread the temperature should be from 350 to 375 degrees.

Quick breads may be served as a dessert or along with meal and are also good for sandwiches, she explained, adding they are equally delicious served hot or cold.

It was suggested to use dark molasses for making quick breads. Mrs. Dunlap served peanut bread and the hot Boston brown bread.

**German Students Are AAUW Guests For International Relations Meeting**

Gretchen Johannsen and Burkhard Brehm, Kiwanis-sponsored German exchange students, were guests at a dinner-meeting Tuesday of the American Association of University Women.

The two students' appearance was in keeping with the program "International Relations Meeting."

Mrs. Kenneth Walters, international relations committee chairman, said in introducing students, "As a country's youth is a key to its future so Germany must have a bright one with such cooperative and intelligent young students as these."

Miss Johannsen told of her family and home life on a farm in northern Germany, accompanying her talk with pictures. She also recounted places she had visited as a member of youth groups hiking and bicycling over the country. Burkhard played several numbers on the harmonica preceding his "conversation, not a talk."

The son of a school teacher in East Prussia, he and his family were forced to leave their home in 1946 when Russia was given control of the area. They now live in West Germany under United States control.

His father teaches high school, an older brother and sister are both doctors and his mother is a homemaker.

Burkhard also showed pictures including one of a parade celebrating the 50th anniversary of a town in Germany— "quite a bit different from the 50th anniversary prepared in the demonstration, to Mmes. J. C. Steward, V. Day, T. J. Boyd, A. M. Nash, Maness, one guest, Mrs. Joe Key and two children, Linda Kay Day and Randy Maness.

**Busy Bee HD Club Schedules Activities**

WHITE DEER (Special)—Projects for the coming year have been completed by the Busy Bee Home Demonstration Club.

After the reading of club constitution and by-laws by Mrs. Hoyt Taylor, the club, meeting with Mrs. Bert Haiduk, held a discussion of club projects for the year.

Mrs. L. A. Puckett, vice-president, presided at meeting.

Beginning Jan. 1, a book a month, including fiction and non-fiction, will be presented to the White Deer Branch Library, Mrs. R. H. Barnes and Mrs. Puckett were appointed to the library-book committee.

Earlier this month, the club voted to decorate the branch library window for the Christmas season. Mmes. James Burch, Marshall Gann and R. G. Robinson were selected to complete this project.

As a means of furthering present and future projects, the club will hold a bake sale, Dec. 6. Mrs. Haiduk and Mrs. Rudolph Willis have charge of the publicity for the sale.

Mrs. W. T. Townsend, Mrs. Puckett, and Mrs. Barnes will be co-hostesses at the annual club Christmas party, to be held Dec. 11, in the home of Mrs. Puckett. Mrs. Nick Nicholson and Mrs. Gann will conduct the program.

Members present were: Mmes. Taylor, Townsend, Willis, Puckett, E. J. McCormick, Dare Locke, Barnes, Birch and the hostess.

**SHOWER HONOREE — Miss Angela Duncan, bride-elect of John Spearman, was honored at a pre-nuptial shower at 7:30 p. m. Wednesday in the home of the William T. Frasers, 102 W. 18. Hostesses were Miss Norma Ann Pirtle and Mrs. Dwaine Lyon. Shown left to right are Mrs. J. Wade Duncan, mother of the bride-elect, Miss Duncan and Mrs. John R. Spearman, mother of the prospective bridegroom. (News Photo)**

**Cadillac**

**It May Be Starting a Million Miles!**

Happy, happy man! His time has come to own the "car of cars" . . . and there he goes for the first thrilling ride at the wheel.

But what an additional thrill he would have if he could look down the long, long road that car will travel before it comes to its final stop!

For then he would know, beyond any doubt, that he has just taken possession of one of the mechanical masterpieces of all time!

Accurate records of Cadillac mileage are seldom kept throughout the car's whole span of life. For the average Cadillac has a succession of owners—and its accumulative mileage is thus difficult to compute.

But reliable statistics kept by a great tire manufacturer show that certain Cadillacs in its testing fleet have actually approached a million miles.

Naturally, when you take possession of a new Cadillac, you are not thinking of driving it for such a spectacular distance.

But consider, if you will, what this phenomenal endurance foretells for your own period of ownership.

It is your finest possible guarantee that the thrill and the satisfaction of your first mile at the wheel will go on and on and on—until, with reluctance, you pass the car along to another proud and happy owner.

And it means, of course, that the value of your Cadillac will endure. Even its second, and third, and fourth owners will find—as they pass the car along—that its relative value is amazing. There is almost always a demand for a Cadillac, regardless of its age.

Of course, the great thrill of owning a Cadillac comes from the car's marvelous performance and its wonderful prestige.

But it is so nice to reflect that your pride is practical—and that your satisfaction is coming from a sound investment.

Is it time for you to think about a Cadillac? If so, we would be happy to see you any time.

## War Still An Issue

Unmistakably the American people are out of sympathy with the present trend of the Korean war. Polls show they favor extending the fighting even at risk of World War III, or if that is not practicable, pulling our troops off the peninsula.

There can be no question that the presidential campaign just concluded sharply intensified the emotions of the ordinary American on the Korean issue.

But it is important to realize that the major candidates did not create those emotions. They were there before the campaign began. Close observers of American voting habits, in surveys made back in the late spring, detected at that time a deep-running current of feeling against the Korean War.

The strength of that original feeling can be judged from the fact that so many say they are willing to risk a larger conflict to get this war ended. No candidate at any time made any such drastic proposal.

In any event, it would not be fair to ascribe this situation to the extremes of campaign oratory. Nor is it fair to say that Korea as an issue had no place in the campaign.

When the United States is committed to a war, whether it be big or small, that war must be fought with the support of all the people. The lives of Americans cannot be put in jeopardy by half-hearted backing at home.

But that does not mean we may not honestly inquire into the question how we got into such a war, or whether that war is being wisely and effectively conducted.

War is not a course of action we take for granted; it is a last resort. And it can be an acknowledgement of the failure of other means short of war. We have a right to ask why a last resort was necessary. Were mistakes made? If so, who was responsible?

To say that these questions cannot be asked, to keep silent in the name of a unified and bipartisan foreign policy, is to throw out the window the whole idea of political accountability. In other words, we act in this country on the theory that the men in positions of government power should be held accountable for acts of government which take place during their tenure of office.

In gauging whether they have done well or blundered, we must not make the grave error ourselves of blaming them for matters beyond their control. The whole of world history is not made in the House. It is also made in the Kremlin, in Downing Street, and many another capital.

But Korea was a perfectly legitimate topic for campaign discussion. The big question now is what President-elect Eisenhower will do about the peoples unsettled mood.

## First Things First

To Americans, the Anglo-Egyptian Sudan is certainly not a brightly illuminated spot on the map. But nevertheless has some meaning for them as one troubled element in the shifting puzzle of the Middle East.

The Sudan was one of the sore points in the ranking controversy between Britain and earlier Egyptian governments. Both countries now jointly rule the land, but the Egyptians have in the past demanded full sovereignty over it. The British have argued that the Sudanese people ought to decide for themselves whether they want independence or a link with Egypt.

The coup that brought Premier Naguib to power in Egypt has sharply altered the situation. Naguib has shown many signs of wishing to cooperate with the West and to arrive at amicable settlement of Egypt's differences with Britain. He has avoided the blatant appeals to fanatic nationalism which characterized his predecessor governments.

Now, too, he has come up with a plan for the Sudan, Naguib proposes an interim government be set up quickly for that area, and at the end of that time a plebiscite be held to determine the wishes of the Sudanese people. Where this leaves Egyptian ambitions toward the Sudan is not plain.

## BETTER JOBS

By R. C. HOILES

How Does One Tell Who Has Been Born Again?

I have never heard a rational sermon preached on the third verse of the third chapter of St. John, which is the statement accredited to Jesus:

"Verily, verily, I say unto thee, Except a man be born again, he cannot see the kingdom of God."

I have heard preachers say that a man should be born again and again, and I used to believe that statement was true, but now I do not believe it is true. To me being born again means that an individual is desirous of being useful to himself and to mankind. He wants to learn more and more of Nature's or God's laws. He has to give up the idea that he is a law unto himself and he needs to consider the natural or God-given rights of other individuals. When he comes to this state, he has nothing to hide. He can never be embarrassed. He might be mistaken but it is an honest error. When he has been born again he is willing to answer any and all rational questions about his beliefs. He is willing to think out loud. He wants to have anything he is doing or advocating checked to see whether he is violating natural law. In short, he is willing to answer any and all rational questions about what he is doing or advocating. If he is not willing to do this, it seems to me logical to conclude that he has not been born again.

This seems to be substantiated by the statement of Jesus in the same chapter of St. John where he said:

"Men loved darkness rather than light, because their deeds were evil."

For every one that doeth evil hateth the light, neither cometh to the light, lest his deeds should be reproved.

But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God."

According to these verses the man who does not want what he is doing or advocating analyzed and studied is not able to see the kingdom of God. He is not in harmony with natural laws. He has not been born again.

The man who has been born again must be sincere. Jesus pressed the same idea, it seems to me:

"Behold, the kingdom of God is within you."

A man is not born again unless the kingdom of God is within him, not here or there or yonder, but within him. And when the kingdom of God is within him he does not hide behind a pulpit and advocate a lot of things that make him a worship idol. He does not advocate running to the state to make people see the kingdom of God, as does E. Stanley Jones, Bishop Oxnham and the executive secretary of the National (alias Federal) Council of Churches in the U.S.A. (alias America). When a man has been born again he does not do like these preachers who make a business of making the state to make people do what every honest person should voluntarily do. He does not hide behind a pulpit and refuse to answer questions about what he is advocating when he has been born again.

A man who has been born again cannot be made uncomfortable or embarrassed. His conscience is clear. He has peace of mind that does not come from a pulpit, but from the peace of mind that he has not been born again, if we take the interpretation as outlined.

If anyone can point out any errors in this conclusion, or has a better explanation of being born again, I would be glad to have them presented.

For every one that doeth evil hateth the light, neither cometh to the light, lest his deeds should be reproved.

But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God."

But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God."

According to these verses the man who does not want what he is doing or advocating analyzed and studied is not able to see the kingdom of God. He is not in harmony with natural laws. He has not been born again.

The man who has been born again must be sincere. Jesus pressed the same idea, it seems to me:

"Behold, the kingdom of God is within you."

A man is not born again unless the kingdom of God is within him, not here or there or yonder, but within him. And when the kingdom of God is within him he does not hide behind a pulpit and advocate a lot of things that make him a worship idol. He does not advocate running to the state to make people see the kingdom of God, as does E. Stanley Jones, Bishop Oxnham and the executive secretary of the National (alias Federal) Council of Churches in the U.S.A. (alias America). When a man has been born again he does not do like these preachers who make a business of making the state to make people do what every honest person should voluntarily do. He does not hide behind a pulpit and refuse to answer questions about what he is advocating when he has been born again.

A man who has been born again cannot be made uncomfortable or embarrassed. His conscience is clear. He has peace of mind that does not come from a pulpit, but from the peace of mind that he has not been born again, if we take the interpretation as outlined.

If anyone can point out any errors in this conclusion, or has a better explanation of being born again, I would be glad to have them presented.

For every one that doeth evil hateth the light, neither cometh to the light, lest his deeds should be reproved.

But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God."

According to these verses the man who does not want what he is doing or advocating analyzed and studied is not able to see the kingdom of God. He is not in harmony with natural laws. He has not been born again.

The man who has been born again must be sincere. Jesus pressed the same idea, it seems to me:

"Behold, the kingdom of God is within you."

A man is not born again unless the kingdom of God is within him, not here or there or yonder, but within him. And when the kingdom of God is within him he does not hide behind a pulpit and advocate a lot of things that make him a worship idol. He does not advocate running to the state to make people see the kingdom of God, as does E. Stanley Jones, Bishop Oxnham and the executive secretary of the National (alias Federal) Council of Churches in the U.S.A. (alias America). When a man has been born again he does not do like these preachers who make a business of making the state to make people do what every honest person should voluntarily do. ## National Whirligig... Symington Seen As Possible Democratic Candidate in '56

By RAY TUCKER

WASHINGTON — Although the Democrats have hardly scrambled to their feet after their November 4 downfall, there are a number of irrefragable leaders here and throughout the country already discussing a possible 1956 comeback and speculating on probable presidential candidates.

In view of the extent of the Eisenhower sweep, the minority cannot afford to delay and drift.

Gov. Adlai E. Stevenson has been mentioned, as is usually the case with a defeated candidate, and particularly because of the excellent impression he made in the campaign. But he faces the handicap that he will lose his public platform and political momentum, who strove to escape the Eisenhower sweep, the minority cannot afford to delay and drift.

Even if he presides actively over the Party's destinies, refusing offers that might keep him in the public mind, it will be difficult for him to retain his present hold. Moreover, his friends doubt whether the Illinois honor, will want to undergo another campaign ordeal.

SCARCITY OF PRESIDENTIAL MATERIAL — The Democrats must begin to groom a 1956 entry almost immediately because of the devastating nature of their recent defeat. With the exception of Gov. G. Mennen Williams of Michigan, who barely survived the GOP landslide, they have no executives at the capitals of the great states to promote for the presidency.

The losers may win back several governorships two years hence, but it will be difficult for those victorious Democrats to build themselves to national stature in two short years.

There is a scarcity of presidential material in the Senate, for almost all the outstanding members of that body hail from deep in Dixie. No House member and none of the outgoing Cabinet officials appear to merit consideration.

The Democrats, in short, are bereft of prospective Presidents.

SYMINGTON QUALIFICATIONS — Ironically, the most likely prospect seems to be a bandwagon popular and able veteran of the "battle of Washington" who was opposed by Harry S. Truman in the 1952 political wars. He is Sympington, who won a remarkable victory in Missouri in the face of the Eisenhower sweep. So far he is the only man the Democrats can find as even remotely available for 1956.

Sympington has numerous potential qualifications. His family were Southerners who lost their wealth in the Civil War. When his parents moved to Baltimore, as he now admits laughingly, they lived "on the very wrong side of the railroad tracks."

As their fortunes improved, he attended Yale, and married the daughter of the late James W. Wadsworth of New York, former Senator, Representative and GO-stewart.

brings, and should force himself or herself to take part in all social functions to which he or she would like to go otherwise.

Family and friends should be careful not to make remarks which will add to the self-consciousness. Comments on the plumpies, even if done with the best of intention, only make matters worse.

## Fair Enough... Foreign-Born Citizens Alarmed At 'Europeanization' Of U. S.

By WESTBROOK PEGLER (Copyright, 1952, King Features Syndicate, Inc.)

Mario Pei, who came here in 1908, has been trying to warn Americans within sound of his voice that this country is stumbling into the same condition that made Italy a dungeon for ambitious, honest young men and women in his day. His voice is short in the reach because his subject is philology.

In that line he recently turned out a fascinating but depressing book entitled, "The Story of English," examining the jargon which Americans speak and write, with emphasis on the frightful gibberish that radio and press resort to, such as "escapee" for "escapee," "the forty-seven year old woman" instead of the numerals "47" after the victim's name, and one that Pei uses himself

### Cheer Up, Gals! Men On Increase

AUSTIN (AP) — Cheer up girls, there may be enough men in Texas to go around by 1960. A "marked" surge of men workers' seeking jobs here was given as the reason by Robert H. Ryan of the University of Texas Bureau of Business Research. Ryan's analysis of the 1950 census showed more women than men but a tendency toward an increase in male population because of Texas' growing industrialization.

### Seven Chaplains Killed In Korea

WASHINGTON (AP) — The Army says that, in two years' fighting in Korea, seven of its chaplains have been killed, five are missing and an undetermined number have been injured.

### Alexis Tries To Escape 'Cold, Statuesque' Tag

By BOB THOMAS  
HOLLYWOOD (AP) — How to draw fire from Alexis Smith—call her "cold and statuesque." "I see red when I hear those two words," she told me. "I've been trying to escape them for years."  
She is finally making some progress, but she has had to use a combination of jujitsu and smoldering love scenes to do it.  
The jujitsu came in "Here Comes the Groom," the BING Crosby flicker of a couple of seasons ago. Alexis played a society matron who unbended in a most Wyman.  
"although I was never told about it, I'm sure many at the studio had trouble visualizing me in the role," she commented. "After the picture came out, people kept telling me, 'Great work, old girl; I didn't know you had it in you.' She happily went into another picture in which William Holden and Edmond O'Brien battled for exactly a sexy role, at least I wasn't 'cold and statuesque,'" she said.  
Now she gets a complete change of pace in "Split Second," in which she plays a gal with physical tendencies. Set watchers say that she has a love scene with Stephen McNally that will sell the screens—if it sets by the censor's shears, which is doubtful by a onetime rooner named Dick Powell.  
Alexis said she got stuck in the cool category during her nine long years of duty at Warner Brothers. "Just about my best picture there was 'The Constant Nymph,'" she recalled. "That's what got

### JACOBY ON BRIDGE

#### Expert Uses Care To Avert Pitfall

By OSWALD JACOBY  
Written for NEA Service  
When the annual National Bridge Championship begins in Miami at the end of the month, Joe Cohan, president of the Bridge League, will be on hand to welcome experts from all parts of the country. Joe will be a host in more ways than one because, although his home town is Wooster, Ohio, he spends about half of the year in Florida.

Opening lead—♠ 2		

Besides being a good executive, the genial Irishman is also one of the top-ranking players in the country. Today's hand, played by Joe Cohan in a recent publisher bridge game, shows him at his careful best.  
West opened a low trump, and dummy won with the ten. Joe

led another trump from dummy, and put up the ace of trumps from his own hand when East showed out.  
The average player would probably switch to hearts at this point in the hope of discarding diamonds from the dummy. This plan would fail, since West would ruff the last heart with a low trump, forcing dummy to overruff.  
Dummy would have to return a diamond, and West would be able to take the trick and lead out the king of spades to draw dummy's last trump. South would wind up losing a trump and three diamonds.  
Cohan saw this danger and therefore took the club finesse at the third trick. This finesse had to be risked sooner or later, no matter how the hand was played, and the immediate finesse was necessary for other reasons.  
When the queen of clubs, held the third trick, declarer cashed the ace of clubs, and ruffed a club in his own hand. Only now was it proper to begin on the hearts.  
When the fourth heart was led, West found himself unable to defeat the contract. If he ruffed low, dummy would overruff, and South would then ruff out dummy's last club. If West ruffed dummy would discard. Either way, exclusive to readers of this newspaper — Jacoby's new POINT COUNT EDDING BOOK! Send 25 cents in coin with your name and address to Oswald Jacoby, The Pampa News, P. O. Box 438, Times Square, Sta., New York 13, N. Y., and your copy will be rushed by first class mail!

#### Mayor Finds Jobs

CORONATION, Canada (AP) — Mayor John Stewart has handed the placing of harvest help in this district for the last several years. This fall he placed 100 farm helpers, and was commended

"Do you think my pearls would be too much?"

### Texas Delegation Will Find Itself In Strange Position

WASHINGTON (AP) — The Texas congressional delegation will find itself in a strange position next January — in the role of the minority party with the opposition party also controlling the White House.  
Only two of the solidly Democratic Texas 24-man delegation will be able to recall service under similar circumstances — present Speaker of the House Sam Rayburn of Bonham and Rep. Wright Patman of Texas-Kan.  
Rep.-elect Martin Dies of Lufkin served in Congress under the Hoover Republican regime, but Texas' John Nance Garner was a leading a Democratic House at the time.  
For one thing, as minority members the Texans can and probably will become vigorous critics of a Republican administration, just as their GOP colleagues have been critical of things in general the past two decades.

#### Accepted Custom

It is the accepted custom that those who don't have to share in responsibility can loudly criticize.  
Rayburn will yield the reins of the House to the present House Minority Leader Joe Martin (R-Mass.) on next Jan. 3. The Texan will still wield great influence as a minority leader, however, especially since the Republicans will dominate by such a slim majority.

### Aproned Men Exemplify New Trend

By LLOYD WOLFE  
OKLAHOMA CITY (AP) — Remember when a self-respecting male wouldn't be caught dead in an apron?  
They have changed.  
The modern married male not only helps the little woman around the house, but actually thinks he likes pitching in. In fact, a survey by Dean Lela O'Toole, chief home economist at Oklahoma A&M College, revealed 77.2 per cent of married student husbands regularly help out with the household chores.  
Compare this with the 26.2 per cent figure she allots to older married men.  
The reason is simple she says. The marriage theory currently accepted by the younger set is that marriage is a partnership.  
A thought like that in dad's time was heresy.  
"People are getting married earlier," she says. "There are fewer single women in the younger age brackets than ever before. Economic pressures have shifted. Rigid distinctions between what men and women do around the home are a vanishing aspect of the American household."  
But the thing that has made the difference is the attitude of the community.  
"Men at work in the house is no longer sissy — it's the thing to do."  
Of course the new order of things has given women a few bad moments also.  
"The woman has to be willing to change her attitude. She may have to get used to the idea of the house not done like she might want."  
North Carolina's 1952 sweet potato crop had an estimated value of nine million dollars.

# MODERN BEDROOM GROUP!

**SMALL AMOUNT DOWN DELIVERS**

**Blonde or Limed Oak**

Beautiful new stunning pieces in modern styling. Your choice of Bar-Bed or conventional panel, and in two outstanding finishes. Plate glass mirrors for years of service. YOU GET:

Students Protest

Teacher Transfer

TEL AVIV (AP) — When their eighth grade teacher was transferred to another class recently, 30 pupils, all about 14, started a minor revolution that lasted four days before peace was restored.

H-Bomb Queries of Children Put Their Father On The Spot

WASHINGTON (AP) — You're sitting at the breakfast table and you look over the headlines and you see that you've exploded the hydrogen bomb.

CAIRO (AP) — It depends on how you look at it. One way, you can take ex-King Farouk's word for it that he is a "relatively poor man."

Farouk Just Poor Man Now

EL SAIED KASABA, one of the two custodians of the ex-king's property, has disclosed that part of Farouk's personal holdings included 12,000 acres of the most fertile soil in the Nile Valley.

Says Every Husband Allowed One Slip

LONDON (AP) — Every husband is entitled to slip once in his life, a spokesman (male) for the British Law Society said last night in advising wives it is better to forgive once than try to forget forever.

Russell And Monroe Are Problems (?) For Today

HOLLYWOOD (AP) — How to shoot Jane Russell and Marilyn Monroe — with camera. That's our problem for today.

**Frantic Motorist Gets A Surprise**

CARTHAGE, Mo. (AP) — Motorist E. L. Thomas was frantic when he called state troopers to report his car had struck a woman on U.S. 71.

**America Becoming A Nation Of After - Dinner Speakers**

By HAL BOYLE  
NEW YORK (AP) — America is becoming a nation of after-dinner speakers.

It might be a good idea to put a government bounty on them right now or there won't be an ear in the land left unbent.

As a people we always have had an outspoken admiration for the gift of gab. But the idea used to be that the gab had to be good. That noble standard of criticism has gone the way of vaudeville.

Today listening to after dinner speakers has become a form of mass self-punishment. In Europe people still go to a hotel or restaurant for the food. But here? The price of the entree is fixed or a determined by what they put on your plate. It's determined by the fee of the vocal chords rented for the occasion to deliver "a message of importance to us all."

..... Skipped Menu .....  
I hate to be counted as a cultural savage, but sometimes wouldn't it be quaint and old-fashioned and good clean harmless fun to go to a dinner where everybody just traded conversation and enjoyed a real meal — and skipped the message?

Why do they have to skip on the menu to provide the inevitable ear message? Must the ice cream always be followed by a dismal lecture on "The Perils of the Grave Petunias in Patagonia?" or a dashing lady wild-life slayer telling how all alone in Africa, she survived the head-on charge of a maddened herd of antlered grouse?

This growing willingness of the public to sit in slack-jawed, glazed-eyed paralysis, trying at the same time to digest a limp hunk of lamb and a cliché - studied oration, has created a new entertainment industry. This is the business of supplying after dinner speakers.

Fees up to \$1,500  
It is a cash crop that rivals the value of the crop grown in the fields to fatten livestock. In the last few years dozens of lecture agencies have sprouted up that keep stables of after dinner speakers on call — and they range from bird imitators to U. S. senators.

The fee ranges from \$25 to \$1,500 or more, depending on the rating of the professional ear bender and the crucial nature of his message.

There are a few isolated cases of rebellion against this spreading submission to mas torture. Recently a friend of mine, revolting against another night at one of these postcoffee hour culture barrages, told his wife: "Honey, do we have to go? I'd even rather stay home and listen to you all evening."

"Why, darling, let's do stay home," said his delighted wife, "It's been years since you paid me so sweet a compliment."  
Could this point to a trend?

Balloons, sent up as high as 100,000 feet to study cosmic rays, often are reported as flying saucers.

**Socialite Recovers Suitcase And Furs**

UPPERVILLE, Va. (AP) — Mrs. Liz Whitney Person has recovered that \$298 suitcase — complete with \$15,000 worth of furs — which bounced out of the

trunk of her car the other day. The socialite - horsewoman has sent a reward to Mr. and Mrs. Raymond A. Clingentel, Roanoke, Va., who picked it up on the highway.  
Mrs. Person said her check was for twice the amount the

**Russia Behind On UN Payments**

UNITED NATIONS, N. Y. (AP) — The United Nations reports that Clingentels agreed to accept as a fair reward. Friends of the Clingentels said the check was for \$50.

Russia has handed in \$2,168,217 on her 1952 U. N. assessments but still owes more than four million dollars.  
The United States and Britain headed the list of a number of

nations who are paid up in full for 1952. The U.S. contribution was \$23,682,125.91.

Potash contained in the lava of the volcano Vesuvius makes the surrounding countryside a rich agricultural region.
