Serving the Counties of Borden, Dawson, Garza, Howard, Lynn & Scurry

GERMAN VISITOR - Britta Kattwinkel (right) of West Germany has been staying this summer with the Weldon Lloyd family of Fluvanna. She is shown here with D'Lyn Lloyd, who stayed with Kattwinkel's family earlier this summer. (SDN Staff Photo)

West German Girl Nearing End of Visit

D'Lyn Lloyd of Fluvanna, the daughter of Weldon and Sue Lloyd, has just returned from a month long stay in West Germany where she visited with the family of Britta Kattwinkel, who accompanied her home for a brief visit here.

Kattwinkel will remain in Scurry County until August 24, Lloyd was in West Germany from June 22-July 27.

Lloyd's trip was sponsored by the local Youth Exchange Program which is supported by local clubs and organizations. Exchange visits are coordinated through Rotary Club

International.

Kattwinkel lives in Oberbrugge which is a small village in the western part of the country, about an hour away from Cologne.

This was Lloyd's second trip outside the U.S. She traveled to England when she was in the eighth grade. She said she chose to visit West Germany because her parents have visited in that country three times and she wanted to get to see some friends who live there.

Lloyd will be a senior this fall at Borden County High School. She speaks

only a few words in German but she said she had little trouble communicating since most of the German people speak English.

Lloyd said she visited Bavaria which is in the southern region and saw lots of castles. She visited Austria and went to Rothenburg which is one that country's oldest cities and dates back to Medieval times.

She got to see one of the world's tallest ski jumps and visited friends in Cologne and Bonn.

Lloyd also took a cruise down the Rhine River and visited Phastasia Land which is like a smaller version of Six Flags.

She visited another castle at Heiidelberg which is a tourist attraction in West Germany. She also got to shop in all the area towns around Oberbrugge.

"I loved the trees, the people, the mountains and the snow in July in Bavaria. I also loved the food and the castles," Lloyd said.

Lloyd said she got to try some different dishes, most of them fried, but she passed on things like snail soup.

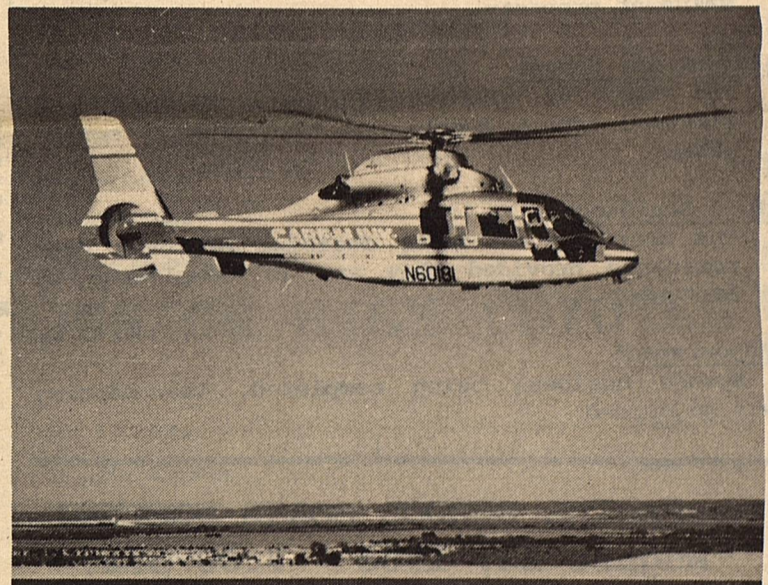

"I learned a lot about a different culture and learned that people from one culture can visit another culture and feel at home. Maybe I have helped to bridge the gap between the two cultures," she said.

Lloyd also said she was amazed at the influence that "Dallas" has on the German people. She said she was constantly asked about J.R. Ewing and the South Fork ranch.

Kattwinkel has an older brother, Arndt, who is 21. Her father owns a travel agency

and her mother is the bookkeeper for the family's factory.

"I am glad for the opportunity to meet new friends and learn about another way of life," Kattwinkel said. "I chose to come here because I wanted to learn about America and meet new people."

CARE+LINK

LUBBOCK - Methodist and Lubbock General Hospitals announce the unveiling of the permanent CareLink aeromedical helicopter, SA 365-N-1 Dauphin 2, and the opening of the LGH helicopter pad and refueling station and the EMS/CareLink communications center located at LGH.

The newly constructed helipad is located on the northeast side of the LGH/Health Sciences Center complex, approximately 30 seconds from the emergency room. The on-site refueling station, featuring a

10,000 gallon underground fuel cell, will facilitate immediate refueling and enhance the response time for back-to-back flights.

The recently remodeled Communications Center will feature two, 24-hour dispatchers and will allow the personnel to communicate with ground EMS and aeromedical services on all FCC authorized medical frequencies. The communications console will also allow physicians, EMS/CareLink supervisors and other authorized personnel to

SPECIAL SCHOOL BOARD MEETING August 22, 1988 - 6:00 p.m.

The Board of Trustees of the Borden County Independent School District met on August 22, 1988 at 6:00 p.m.

The purpose of the public hearing was the proposed school budget for the 1988-89 school year.

Board members present were Tom Ed Vestal, Jack McPhaul, Joel Dennis, Jon Monger, Bill Phinizy and Steve Hess.

Administrators present were James McLeroy, Superintendent; Mickey McMeans, High School Principal; Ben Jarrett, Elementary Principal.

Board President Jack McPhaul called the meeting to order.

Minutes

The Board read and approved the minutes of the regular board meeting on August 15, 1988.

Visitors

President McPhaul stated the purpose of the Special board meeting and recognized the visitors: Mr. Joe Canon, Mr. Doyle Newton and Mr. John Anderson.

The visitors stated their concern to maintain local control and that tax levies should be met by changing the rate and not by changing the value of property.

Adjust the Budget

The Board by unanimous decision adjusted the proposed school budget for the 1988-89 school year.

Duel Residence

The Board by unanimous decision approved duel residents provided they are in compliance by September 1, 1988.

Adjournment

Agenda business being completed, the meeting was adjourned.

SPECIAL SCHOOL BOARD MEETING August 22, 1988 - 7:00 p.m.

The Board of Trustees of the Borden County Independent School district met on August 22, 1988 at 7:00 p.m.

The purpose of the special meeting was to set the tax rate for 1988.

Board members present were Tom Ed Vestal, Jack McPhaul, Joel Dennis, Jon Monger, Bill Phinizy and Steve Hess.

Administrators present were James McLeroy, Superintendent; Mickey McMeans, High School Principal; Ben Jarrett, Elementary Principal.

President McPhaul stated the purpose of the meeting.

The Board by unanimous decision set the tax rate at \$.43 per \$100. value for the 1988-89 school year.

There being no further business, the meeting was adjourned.

COYOTES SCRIMMAGE COUGARS

The Borden County Coyotes opened the 1988 football season with a scrimmage with the Klondike Cougars. The Cougars are picked as the district favorites, and it's easy to see why. The Cougars out scored the varsity players 3-1. The Coyotes started out slow, but they looked better as the scrimmage progressed. The Coyote offense

had Sr. Lance Latimer at running back; Juniors Brian Bond -quarter back; James Smith-Center; Sophmores Cole Vestal-end, Jimmy Rios running back, and Paul Sturdivant -end.

The Coyote defense was manned by Sr. Randell Hollis; Juniors Brian Bond and Marc Latimer; sophmores Cole Vestal, Paul Sturdivant and Jimmy Rios. Lance Telchik and Lance Latimer also saw action on defense.

The other Coyotes who

played were: James and Jeff Lewis, Shane Kemper, Cody Stone, Clint Bray and Jason Mize.

Jimmy Rios scored the Coyotes only touchdown on a 60 yard run. The Coyotes almost scored on a pass to Marc Latimer that went to the 2 yard line, but the Coyotes were out of plays.

The Coyotes will travel to Highland this Friday for a 6:30 scrimmage.

PARENTS CLUB NEWS

WHAT: A Get Re-Aquainted Meeting.
WHEN: Thursday, Sept. 1, at 8:30 a.m.
WHERE: Conference Room at the Borden County School.

Refreshments will be served.

SEE YOU THERE!

FIRST DAY JITTERS!!

"Nobody likes me at school," said the son. "The teachers don't, and the kids don't. The superintendent wants to transfer me, and the custodians have it in for me. I don't want to go."

"You have to go," the mother insisted. "You're healthy. You have a lot to learn. You've got something to offer others. You are a leader. Besides, you are 49 years old. You're the principal, and you have to go to school."

MOTHER'S DAY

THERE IS A MONTH WITH A SPECIAL DAY
 AND WE HONOR OUR MOTHERS WITH, "MOTHER'S DAY"

BUT, I'LL BET THE DAY SHE LOVES THE BEST
 (FOR IT REALLY IS HER DAY OF REST)

AND IT'S THE TIME THAT WARMS HER HEART
 FOR IT'S THE DAY THAT SCHOOL WILL START.

and a winning attitude, says Charles.

For years, Charles Lakers has trained rigorously with the goal of making the U.S. Olympic team. Part of that training has consisted of regular use of Dianetics to mentally prepare himself for competition.

"A number of years ago, I happened to read Dianetics by L. Ron Hubbard," he explains. "More than anything else, that book has helped me to understand what the real barriers were to becoming a champion. I suddenly understood

where the stress, the nervousness and the lack of confidence came from that always plague an athlete in competition.

"You see it again and again. In competition someone makes a mistake or gets injured doing something that he or she has done easily hundreds of times in practice. It's the added mental pressure of competition that causes the mistakes.

"Reading Dianetics gave me an understanding of the mind so that I could really begin to handle these problems. More than

Cont. to pg. 6

Dianetics Helps Top U.S. Gymnast Develop a Winning Attitude

"Winning in sports and success in life depends far more on mental abilities than as it does on physical skills," says Charles Lakes, the top male gymnast on the United States Olympic team. "Personally, I think the challenge of becoming a champion is

really 99% mental." Charles says it is easy to appreciate the mental demands of any sport. A champion has to learn to confront physical pain as he pushes his body to the limit and beyond. He has to master the concentration necessary to accomplish some of

the most incredible feats of coordination and timing. And he needs the determination to consistently work day in and day out, perfecting his athletic skills.

"To become a champion an athlete first needs to develop a strong mental drive

OBITUARY

JOHNNIE SUE (GUESS) YORK

Johnnie Sue (Guess) York, 74 of Lubbock, died in the Methodist Hospital on Saturday, August 20, after a lengthy illness.

Johnnie's husband, Lee F. York, preceded her in death on April 21, 1977.

Johnnie was the daughter of Marshall Fields Guess and Bedia (Springer) Guess. She was born in Rogers, Texas on October 15, 1913. She married Lee Francis York on August 20, 1938 in Lovington, New Mexico.

She was a registered nurse, housewife, and Mother. She was also a member of the First Baptist Church in Lubbock.

Surviving are two sons, Van Lee York Sr. Gail and Mardes John York of Santa Fe, New Mexico; one sister, Mamie Duseck of Azle, Texas and four grandchildren, Van Lee York, Jr. and Catherine Sue York of Lubbock and Christopher York and Elizabeth York of Santa Fe, New Mexico.

Memorial Services were held Tuesday, Aug. 23rd at 10 o'clock, at the First Baptist Chapel of Lubbock.

Memorials may be sent to the Arthritis Foundation.

Wonder Worm

A 12-foot long worm that makes a sound like a bathtub draining may not seem like much of a tourist attraction but the bizarre giant earthworm has proved the economic salvation of one Australian town. According to National Wildlife magazine, after the local coal mine shut down, the townsfolk of Korumburra (pop. 2800) turned to their one notable resource: the great Gippsland gurgling earthworm. Colorful toy earthworms began appearing in shop windows, and the town launched an annual worm festival complete with parades and an earthworm queen.

CARE+LINK

Cont. from pg. 1

directly communicate through telephone/radio dispatching systems.

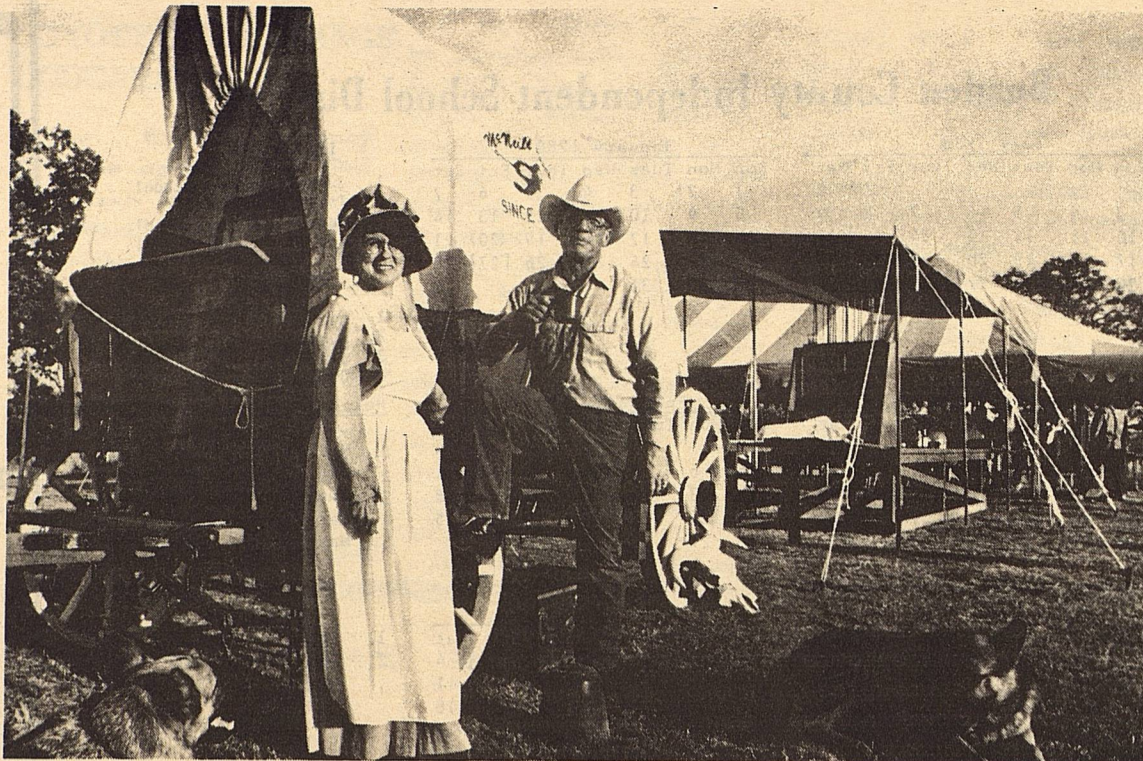

Direct telephone link with Lubbock Police Department, Fire Department, Lubbock County Sheriff Office and Texas Department of Public Safety will also be available. In addition, the state-wide enforcement frequency (Inter City) will allow dispatchers to directly communicate with regional law enforcement personnel via radio within approximately 100 miles of Lubbock.

The SA 365-N-1 Dauphin 2, the final craft of the CareLink venture, is the most impressive aircraft to date exceeding all professional and FAA standards for safety. The helicopter is known throughout the industry for its avionics technology, advanced speed and range capabilities.

A special feature of the CareLink craft, the twelfth Dauphin in the nation to be placed into aeromedical service, is a specially designed tail rotor called the fenestron which adds safety and stability to this aircraft. The medically configured interior is large and roomy, capable of housing a large passenger load. The maximum crew capacity, usually used only in disaster situations, can consist of two pilots, four medical crew members and three patients. The standard flight load, found on most flights, contains two pilots, two medical crew members and up to two adult patients.

The mobile intensive care unit is flown by Lead Pilot, Scott Boss and seven pilots. All pilots have accumulated approximately 40,000 hours of flying time.

Heading the emergency response crew is Jaine Moore, R.N., Chief flight nurse. She is assisted by Sandy Willis, R.N., Willis Hassell, chief paramedic and Mike Reddell, Bob Pierson, Lloyd Cody and

George and Ophelia McNeill man the Welcome Wagon at the McNeill SR Ranch in Lubbock. The ranch offers a genuine "Old West" experience for visitors, with an opportunity to just kick back and relax, and enjoy authentic cowboy meals after a trailer ride on a scenic ranch road. The McNeill Ranch is open for groups of 25 or more from mid-May to mid-September. Reservations are made through the Lubbock Convention and Visitors Bureau. (800/692-4035) Tourism Division, Texas Department of Commerce photo.

Deathly Delicious

Perhaps the most sinister of tropical fruits is the akee, whose toxic flesh and seeds have killed more than 5000 people since 1865. National Wildlife magazine reports that the fatal fruit is still popular in Jamaica. The akee is both safe and delicious when fully ripe and cooked.

Robert Cocke, paramedics, Mark Brock, paramedic/ems director, Doak Enabnit paramedic communication director and Joe Moore, paramedic training chief complete the emergency team.

The helicopter will now land at both facilities, depending on the trauma care required by the victim. In accordance with the shared agreement, CareLink will be housed at both facilities on a rotational basis.

With a maximum cruising speed of 195, CareLink can travel to cities in a 200-mile radius of Lubbock within minutes. CareLink is enhancing Lubbock as a major tertiary care unit and between the 1,100 beds the medical facilities can offer the most complete continuum of acute care.

GAIL BAPTIST HAPPENINGS!

GUESS WHAT KIDS!!

Christian Musician, Al Denson is going to have 3 (THREE!!) concerts in the Lubbock area during September.

Al will be in Lubbock on Sept. 9-11th, and in Levelland on Sept. 10th. This is a Friday, Saturday and Sunday. Time's and places will be announced later.

There will be a group from the Gail, Luther, and Vincent area going, so please make plans to attend.

Put these dates on your calendar.

For more information, please call Mike or Susan Stephens, 399-4511.

Share Jesus Now Rally

On Saturday, August 27, there will be a Share Jesus Now Rally at First Baptist church in Coahoma Texas. It starts at 6:00 p.m. Let Bro. Pat know if you want to attend.

A Chinese artist of the 1920's, Huang Erhnan, painted designs on silk cloth using his tongue as a brush.

LET ME GET MY HAT

by Dennis Poole

Helping Your Child Get Ready to Begin School

Many parents are anxious for their child to know the letters, numbers, shapes and colors before starting kindergarten in the fall. However, academic-type activities and drill may not be the best thing you can do to ready your child for school.

The results of child development research tell us that fantasy play activities are more effective in the development of language, social skills and thinking skills--all of which are essential for success in school.

Fantasy play is what children commonly call "pretending." Through fantasy play children learn more abstract thinking and problem-solving skills. They can also test their ideas in a safe situation.

Here are some suggestions for ways to encour-

age fantasy play in your children:

- Let children have a place for a pretend house, doctor's office, grocery store or museum. They will try out different roles as they play "house," or any variation of this common childhood game.

- Keep a box of old clothes, purses, shoes and other items for dress-up. That also encourages children to try different roles and create stories to go with their costumes.

- Encourage children to use dramatic play to act out their favorite fairy tales and stories.

- Provide low-realism toys and objects that require children to use their imaginations. A big box, for example can be a house, a rocket ship or a bear's cave, depending on imagination of the child playing in it.

When female elephants fight, it is said, they usually try to bite off each other's tail.

Borden-Scurry County Ranch Breakfast

The Upper Colorado Soil and Water Conservation District will have another Ranch Breakfast at 7:00 am on Wednesday August 31st, at the Jess Everett Ranch four miles South of Snyder on Round Top Road. Ezell-Key Grain Co. of Snyder will again be providing the breakfast. Speakers for this breakfast will give talks on breeding for leaner beef and developing a plan to help get heifers bred by fifteen months of age. Also there will be talks given on the subject of managing both the game and the hunters on wildlife leases. Everyone interested is invited to attend and visit with friends and enjoy the cooking talents of the Ranch Breakfast Crew. Activities should be over by 9:00 am to let everyone continue with their workday. The Ranch Breakfast will be a chance to have a hearty outdoor breakfast visit with your neighbors, and get some useful information all in one place.

Beginning the program for the Ranch Breakfast will be Dr. Robert A. Long, chairman of the Animal Science Department of Texas Tech University. His presentation will be on breeding principles to produce leaner beef. With the cattle feeder, the packer, and the consumer all calling for leaner, more efficient beef, producers will want to learn what can be done to produce a more desirable type of calf to sell. Following Dr. Long will be Kent Mills, Sales Representative for Ezell-Key Feeds, Snyder, Texas who will discuss a program developed by Ezell-Key Feeds to grow

weanling heifers to a better body condition to improve conception rates for their first pregnancy. Mr. Mills has been taking forage samples and custom designing supplement plans for several years with results that have helped producers realize more profits.

Also on the program will be Dr. Dale Rollins Extension Wildlife Specialist with the Texas A&M Experiment Station at San Angelo, Texas. Dr. Rollins will discuss management techniques for improving both the numbers and quality of game on wildlife leases. His talk will cover such topics as supplements, management tips to increase wildlife habitat, surveying your game to determine how many need to be harvested, etc. In a time when improved quality of the game can bring a premium for the lease, Dr. Rollins talk should be very beneficial to those currently leasing, or considering leasing hunting on their property. Concluding the program for the Ranch Breakfast will be Skipper Duncan, from San Angelo, Texas, who will present his approach to management of the Hunters on hunting leases. Mr. Duncan operates Adobe Lodge Hunting Camp on his ranch southeast of San Angelo. His lease is very well organized and attracts hunters from thirteen states including Pennsylvania, California, Mississippi, and Wyoming. He will discuss how he insures both hunter safety and success which guarantees return visits from satisfied clients.

The Cooking Crew for the Ranch Breakfast will all be there with Jerry Baird of the Scurry County Senior Citizens Center in charge. Jerry's menu will include sausage, bacon, eggs, biscuits, gravy, hash browns, cowboy coffee, and juice. No one should pass up a chance to enjoy some of Jerry's cooking and conversation. Ricky Linex with the Soil Conservation Service in Snyder will again be preparing biscuits in Dutch ovens. Directions to the Jess Everett Ranch Headquarters from Snyder are to go 3 miles south on State Highway 350 then turn East on FM 2763 for 0.6 mile to Round Top Road. (The Junction of Round Top Road and FM 2763 form the southwest corner of Western Texas College). Turn south on Round Top Road for one mile and turn east across a cattleguard and follow the road to the ranch headquarters. Ranch breakfast signs will be posted to help attendees find their way. Anyone wishing further information can contact Ricky Linex at the Soil Conservation Service office in Snyder, 573-1268, or Kent Mills, at Ezell-Key Grain Co., 573-9373.

'DIAMOND LIL' B-24 BOMBER and 'FIFI' WW II B-29 BOMBER to arrive in Midland International Airport

'DIAMOND LIL', the oldest flying B-24 LIBERATOR, is scheduled to arrive August 29 at Midland International Airport where she will be on display to the public between 9 a.m. and 7 p.m. She is currently on tour with the Confederate Air Force, and organization committed to the preservation of World War II aircraft as a flying tribute to that tumultuous epoch of modern history.

'DIAMOND LIL' is piloted by Col. Brooks of Harlingen, Texas, with Col. D'Eath of Harlingen, Texas serving as co-pilot.

'FIFI' the only flying B-29 Superfortress, is scheduled to arrive August 29 at Midland International Airport where she will be on display to the public between 10 a.m. and 8 p.m. She is also on tour with the confederate Air Force.

'FIFI' is piloted by Tom Cloyd of El Paso, Texas, with Col Schlacht of Harlingen, Texas serving as co-pilot.

They are currently being displayed in Amarillo, Texas having already visited Enid, OK. and Kansas City, Mo. where they were warmly received with enthusiasm from children eager to see a living piece of history, as well as by the adults who actually lived the history.

'DIAMOND LIL' is one of only three B-24 survivors. The LIVERATOR bomber saw action in every theater during World War II. They were the aircraft used in the first bombing raids over Europe in June

1942; and the aircraft used in the famous low-level attack on the Ploesti oil field in Romania.

With the range of 3,000 miles, the B-24 also carried out anti-submarine patrols in the North Atlantic helping to break the U-boat offensive against Allied shipping. They carried big bomb loads as well as gas and guns. The LIVERATORS were rugged planes capable of taking a real beating and absorbing a lot of flak from enemy anti-aircraft guns.

'FIFI' is the only B-29 Superfortress in flying condition today. The superfortress saw action in the China-Burma-India theater and the Pacific ocean theater during World War II and then again in the Korean War.

The 'Engola Gay', a lone B-29, dropped an atomic bomb on Hiroshima on August 6, 1945, making an invasion of Japan unnecessary, saving an estimated 1,000,000 lives. B-29 Superfortresses flew 35,000 missions against Japan, dropping nearly 200,000 tons of bombs, and shot down 1,100 attacking aircraft.

'DIAMOND LIL' and 'FIFI'S' visit to Midland and Odessa is made possible by our local Desert Squadron and its Confederate Air Force parent organization headquartered in Harlingen, Texas. After their stay in Midland, they are scheduled to visit the Oklahoma area and then home to Harlingen, Texas for Airshow 88, and the coming

winter months.

Big Thirst

How much water does a big tree need? According to Ranger Rick magazine a large leafy tree may take up as much as 240 gallons (900 liters) of water from the soil every day. That would fill the average bathtub more than three times.

"One Deathless Day" Progress Report

In the first half of the summer driving season, Texas didn't see a single day without a traffic death.

The Texas Coalition for Safety Belts had not achieved its goal of "One Deathless Day" as of July 15, coalition spokesperson George R. Gustafson announced today. Gustafson is president of Texas Safety Association, one of the 49 member groups which make up the statewide coalition.

"Since our last progress report on June 15, we've had four days when only three people were killed. All the other days have had higher fatality counts," said Gustafson. "The summer's deadliest day so far was Saturday, June 25, with 20 traffic deaths."

Days with three fatalities apiece were June 21, July 4, July 5, and July 13, according to the Texas Department of Public Safety. "All counts are preliminary at this time, and subject to change," said Gustafson. "Still, it's worth noting that July 4 and 5, coming at the end of a holiday weekend, have been two

of our best days. Last year we lost 21 lives in July 4 accidents, and seven on July 5."

The coalition hopes to achieve one deathless day during the 101 Driving Days of Summer, May 28 - September 5. Despite the early reports, Gustafson says the group is not discouraged.

"In a state the size of Texas, with 300,000 miles of roadways and more than 11 million licensed drivers, a day without a single traffic death is a tall order. We knew that from the beginning," he said. The last deathless day on Texas roads was January 5, 1977.

Gustafson commended law enforcement agencies, community groups, and the media for the way they are responding to the campaign to increase safety belt use and other safe driving habits.

"With so many committed Texans working together, we believe that we can still achieve one day without a traffic death between now and the end of Labor Day weekend," he added. "We're asking everyone to continue buckling up and keep trying."

ASCS NEWS

By Jerry Stone

MEASUREMENT SERVICE

Due to the continual cloud coverage, the process of taking slides for measurement service has been slowed down. We hope to have slides as soon as the weather permits. We ask operators to notify us prior to beginning harvest of crops that have not been certified. We will work with you as best we can.

MAINTENANCE OF ACR

If you designated to plant a fall seeded crop on your ACR acres you need to report to the County office when you have completed the planting. Remember, your ACR land must have an approved cover or practice on it unless you requested to clean till.

There are some ACR (set aside) acreages in need of attention. We urge you to take a look at yours and do whatever needs to be done to clean these acres up. Failure to maintain the ACR acres through December 31st could result in loss of program benefits.

DISASTER PROGRAM POSSIBLE

Congress has passed legislation authorizing disaster payments for program and non-program crops on participating and non-participating farms. Exact requirements cannot be known until after action is complete on the new law.

Operators need to be aware of how important it is to report failed acreages BEFORE destroying evidence of the crop by plowing. Our instructions today require appraisal before plowing of all acreages not carried to harvest. Failed acreages before this date will be covered by the instructions received after action on the law. From this date on, failed acreages must be appraised by multi-peril insurance personnel if applicable, or ASCS personnel if multi-peril insurance has not been purchased. The point is, REPORT THE ACREAGE BEFORE YOU DESTROY THE EVIDENCE. No loss for failed acreage can be allowed if not reported and appraised before plowing.

CONSERVATION COMPLIANCE

The soil conservation service has been working with operators to make determinations as to highly erodible land. Owners should check with their operators to see how this work is progressing. The operator will have knowledge of any plan agreed to by the SCS personnel. If your farm has not been reviewed you need to contact the SCS office or our office to set up an appointment with SCS.

DATES TO REMEMBER

August 31 - 7th CRP signup ends.
Final Date to request and complete haying of CRP land.

AREA AJRA PERFORMERS - Pictured above are some of the area youngsters who took awards at the AJRA National Finals Rodeo, which concluded Saturday night. Pictured on the front row are, left to right, Jill Voss, who was fourth in the 12-under pole bending for the year, Jill is a student at Borden County Jr. High School; Shasta Brooks of Sweetwater, who was the division's champion pole bending competitor. Left to right along the back row are Gail Cowgirl Kelly Jo Ogden, age 13-15 world champion barrel racer; Snyder's Leddy Lewis, 13-15 team roping champ and reserve all-around and tie-down champion; and Ralynn Key of Gail, who was third in the 16-19 barrels for the year and also chosen Miss AJRA for 1988. HOLIDAY

This office will be closed Monday, September 5, in observance of Labor Day.

A humpback whale often travels more than 4,000 miles in a single year.

Straight on Vitamin C

Many people have a tendency to believe "if a little is good, a lot is better." Consumers may use this adage when taking vitamin and mineral supplements, but the practice can often be dangerous.

Vitamin C is needed by the body for collagen formation, healing of wounds and resistance to infection. In addition, the absorption of iron is enhanced when vitamin C and iron are eaten together. However, Shelley Fillipp, outpatient dietitian at Methodist Hospital, warns against the "megadosing" of vitamin C.

For example, pregnant women who take high doses may give birth to babies with unusually high vitamin C requirements. Unborn babies often adapt to the

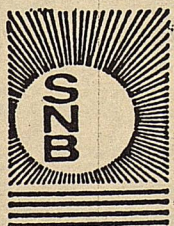

mother's high blood levels of vitamin C causing their own bodies to destroy the vitamin. This creates a need for larger amounts of the vitamin after birth.

Ms. Fillipp noted that other possible side effects of megadosing include gastrointestinal problems such as nausea and diarrhea, high uric acid content in the urine and interference with the white blood cells' activity in destroying bacteria.

The following fruits and vegetables are outlined as excellent sources of vitamin C as well as other beneficial vitamins and minerals: red pepper, broccoli, brussel sprouts, green pepper, orange juice, kale, grapefruit juice, strawberries, one orange, raw oysters, califlower, turnip greens, mustard greens and collard greens.

the clean, white tablecloth, one boasted, "My hands are dirtier than yours." "Yea," admitted the other, "but you're two years older."

So sin, if allowed to continue, develops a dirty life. It stains your soul, taints your thoughts, soils your speech, cheapens your character; and it contaminates all that it contacts.

What can wash away our sins? The Bible says, "The blood of

Jesus cleanses us from every sin."

Man may be able to polish, but only Christ can cleanse. Why don't you let Him cleanse your life and cure your sinning?

Vitamin C

cont from pg. 7

The dietitian noted that one cup portions, unless specified otherwise, provide more than 100% of the recommended daily allowance of vitamin C.

Public Notice

TO ALL FORMER AND CURRENT INTRASTATE WIDE AREA TELECOMMUNICATIONS SERVICE (WATS/800) SUBSCRIBERS:

The General Counsel of the Public Utility Commission of Texas has instituted an inquiry into possible overcharges, due to rounding practices, on the bills of intrastate WATS/800 customers of Southwestern Bell Telephone Company and other telephone companies which concur in Southwestern Bell Telephone Company's tariffs. The possible overcharges relate only to those customers who were billed for overtime WATS/800 hours. The inquiry has been assigned Docket No. 7297.

Companies which are named in the inquiry include AT&T Communications of the Southwest, Inc., Southwestern Bell Telephone Company, and all other local exchange carriers within the State of Texas *except* the following: Brazos Telephone Cooperative; Byers and Petrolia Telephone Company; Caddoan Telephone Company; Cameron Telephone Company; Electra Telephone Company; Ganado Telephone Company; Knippa Telephone Company; LaWard Telephone Company; Lake Livingston Telephone Company; Lipan Telephone Company; Mid-Plains Rural Telephone Company; Panhandle Telephone Cooperative; Romain Telephone Company; San Marcos Telephone Company and West-Tex Telephone Cooperative.

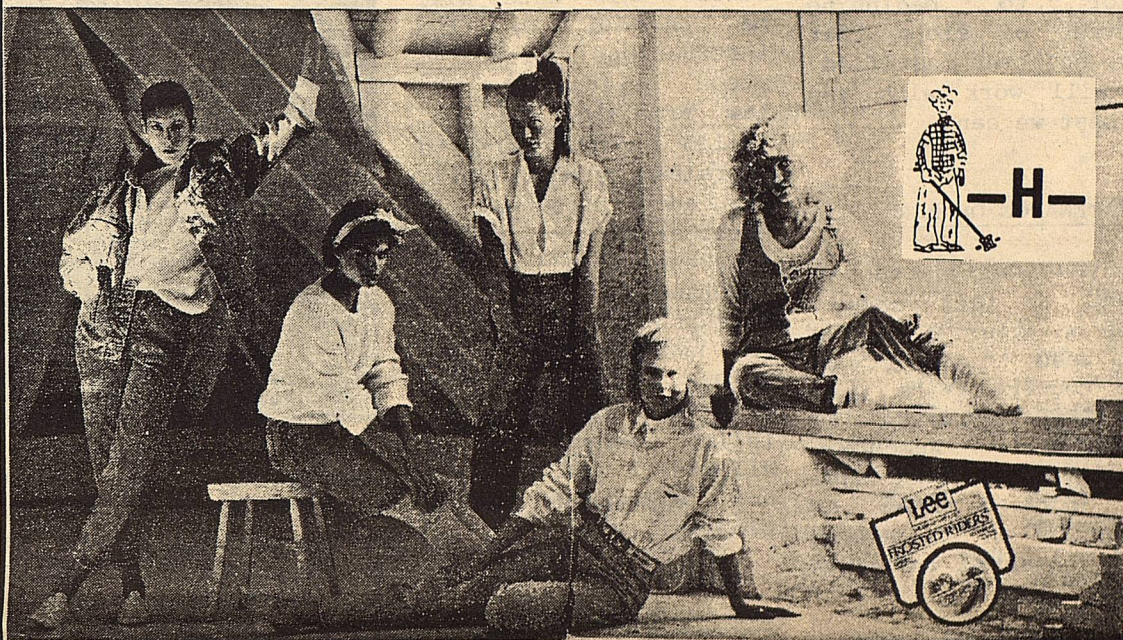

Persons who wish to obtain further information should contact the Public Utility Commission Public Information Division at (512) 458-0100 or (512) 458-0221 teletypewriter for the deaf.

Persons who wish to intervene formally to participate actively in this proceeding should notify the Commission as soon as possible, but no later than September 30, 1988. Four copies of formal requests to intervene should be filed with the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, and a copy sent to each other party in the inquiry.

Failure to intervene or seek further information will not preclude any former or current subscriber from receiving a refund if the Commission ultimately finds that overcharges have occurred and refunds are required.
