HOME TOWN Talk

By R. C. THOMAS

All good things come to an end—at least temporarily. And so it is, as the long school summer holiday draws to a close. Very shortly, millions of youngsters will be picking up their school books once again. Other millions will see the inside of a schoolroom for the first time when school opens this fall.

While it is true that an educated man does not get all his education in the classroom, the fact remains that formal education is the foundation and best hope of civilization. Education is the seed bed of tolerance and understanding. It is the source of progress in every field of human endeavor.

Tomorrow's astronauts, engineers, scientists, technicians, men of medicine and the arts and business will be trudging back to the halls of learning, as the crisp days of autumn approach. Their return is an omen of a steady advance toward a better life.

W. F. Brown of Norton last Thursday was exhibiting a pod of okra, Texas-size. Of the vining type, this particular pod measured 36 1/2 inches long, and was 9 inches around.

There's nothing new about the automatic vending machine. In fact, according to a recent article in a food marketing magazine, it's 2,000 years old. Says the article, in 219 B. C. a Greek priest introduced a form of automatic vending. He devised a machine that dispensed holy water when activated by a coin. And, in the 10th century a Chinese inventor rigged up a bamboo pole so that a coin dropped in a slot released a pencil.

Most everyone has some kind of remedy for reducing automobile accidents, control traffic, and for self-preservation on the highway. But a novel, and perhaps workable, idea has been proposed by a Greenville, S. C., newspaper. They say it could pretty well eliminate excessive speed on the highway. As are most good ideas, it is a simple one. It is to require that every new car be equipped with a red flasher, mounted on the front and set to flash at a stipulated speed—say, 65 miles an hour. It further would provide that every driver be required to maintain headlights in good condition.

Can you picture any driver, even the heedless, reckless, idiotic ones, proceeding down a highway with a flashing red light carrying the message far ahead to patrolmen that he is speeding? Not many would. This signalling of speed to patrolmen ahead was not exactly the reason for the suggestion. What was in the mind of the idea-maker was for another driver or pedestrian to be able to spot a speeder and get off the road out of his way. It would serve that purpose, too, but the major benefit would be to make sure that any speeder with the flasher attached to his car would meet an early arrest on the highway.

Early Visitor To Runnels City, A Writer, Tells of Freight Wagon Ride

(This is one of a series of historical articles about Runnels County Historical Survey Committee. The writer is historian of the committee.)

BY CHARLSIE POE

An Englishman, J. M. Pollock tells of his visit to Runnels City in the 5th chapter of his book, *The Unwashed West*. He settled in Wisconsin in 1884 but after an unsuccessful winter came to Texas to visit a fellow Englishman, Harley Turner, near San Angelo.

Leaving the funds to ride a stagecoach from Abilene, Pollock engaged passage on a train of eight freight wagons. He rode the first wagon loaded with lumber. Then came the "trail wagon" followed by a wagon loaded with blocks of rock salt.

The next two wagons hauled groceries, California canned goods and Irish potatoes. The last two were loaded with lumber. Before getting underway, arm-chair seats were made out of sacks of oats, but since they were to be used as feed for the horses, the farther they went the harder the seats became.

They reached the little settle-

ment of Runnels City, that Pollock called "Reynolds," just at sundown, and comfortably fixed their camp in the middle of one of the streets.

As the homes of several of the freighters were not far away they rode over to spend the night with their families, leaving Pollock and one other with the wagons. Soon after going to bed they were roused by a furious thunderstorm which quickly passed, but everything was soaked and it was too bitterly cold to stand about in wet clothes. They found a mesquite log which they split and soon had a fire. "We passed a fairly comfortable night, sitting on our heels in the mud drying our clothing, piece by piece, and all this was in the street of a town."

"Next morning we found some difficulty in pulling out, as the lumber soaked with rain had greatly increased in weight and caused the wheels to sink deep in the mud. When the sun came up we forgot our troubles and enjoyed the light elastic feeling in the air."

Also, students who have already registered and who desire to make any schedule changes are asked to see the principal Wednesday and Thursday of next week.

Volunteer Firemen To Hold Bar-B-Q Thursday

Many former Winters residents and ex-members of the Winters Volunteer Fire Department are expected to be here next Thursday, August 18, to attend the annual Firemen's Barbecue, to be held in the City Park. Promoted entirely by members of the fire department, the barbecue has been held annually for almost 40 years.

The barbecue, an invitational affair, is an occasion for an annual report by the volunteer firemen on activities of the past year, and for awarding service pins and recognizing outstanding members of the department. The "Fireman of the Year" award will be awarded for the second time during this year's celebration.

Beef for the barbecue is provided by individuals or businesses each year. Dry Manufacturing Co. has furnished the beef for this year's barbecue. Fire department officials have announced that Pan American Industries will provide the beef for the 1967 barbecue.

J. C. Hodnett is president of the Volunteer Firemen this year. Jim Hamner has been elected to fill an unexpired term as vice president, succeeding Calvin Holloway who moved from the city recently. During a business meeting Tuesday night, the Rev. Edward Otwell, pastor of the First Methodist Church, was elected chaplain of the organization, to fill a vacancy created when Willis Jernigan moved from Winters to Arlington.

Football Tickets Will Go On Sale Aug. 27, Sept. 1

Season tickets for the 1966 football season will go on sale Thursday, August 25, at 8 a. m. at the school business office and continue through Sept. 1.

Tickets will be sold on a first come, first served, basis this year, with all reserved seats between the 33 yard lines. Season tickets will be sold as a book of five and will include all home games. Price per book will be \$6.25.

This is the first time in several years that the season tickets have not been sold on an option basis, but it is felt that many people would like to add or drop tickets and possibly change their place of seating, school officials said. Therefore, no option on last year's arrangements will be kept.

Fans purchasing tickets for the 1966 football season will have their names placed on a seating chart which will be on file in the school business office. And, if feasible, the 1967 season tickets will be sold on an option basis, it was stated. Therefore it would be advantageous to each person to have their name placed on the seating chart in 1966 as no one else will be permitted to purchase their tickets on an option basis in 1967, they said.

Throughout the season tickets will go on sale each Thursday at 8 a. m. and continue through Friday noon at the school business office for the game that is being played that week.

Season prices on tickets for 1966 are as follows:

Reserved seats	\$1.25
Adult General Adm.	1.25
Student Gen. Adm.	.50

The first game of the season will be Saturday night, Sept. 10, with the Blizzards meeting Lake View in San Angelo. The first home game will be with Coleman, Friday, Sept. 16. Both games are non-conference tilts.

Cotton Insect Count Approaches Spraying Need

A tremendous buildup of boll-worm eggs in cotton reported last week indicated that anything could happen, according to this week's cotton insect situation report from the County Agent's office. However, beneficial insects and weather conditions gave some help, although some fields are reportedly fairly heavily infested, enough to warrant spraying.

The County Agent reported this week that the egg buildup this week is not nearly as heavy as last week. But actual worms are getting fairly numerous with most fields bordering on the 5 percent mark, the report said. "According to the book, this is enough to warrant spraying," said the report. However, unless we get general rains, or prospective price of cotton and the lack of a real effective insecticide control would "force this office to sit back and watch," it was pointed out.

It was further stated in the report that "if at all possible, we need to make this crop without an insect control program." It was also stated that if the actual worm count continues to climb, a program of spraying or dusting may be necessary.

Weevils are beginning to make an appearance, but with the exception of one field, the count is still rather low, according to the weekly report.

FROM FORT WORTH

Mr. and Mrs. Harry Martin of Fort Worth were overnight visitors Monday in the home of Mrs. T. V. Jennings.

AS IT LOOKS FROM HERE

Omar Burleson, M. C. 17 District, Texas

The inquiry is often made as to why the United States does not formally declare a state of war in Viet Nam.

There are valid considerations which weigh against a declaration of war. Such a de-

claration would validate and authorize a broad expansion of Presidential war powers which have been set up on a stand-by basis. This would include a much tighter control over the economic life of our nation and one must admit it is already considerable without this added authority.

The present conflict in Viet Nam occupies an agonizingly unique status. There is nothing in our history comparable to it. Although our military forces have been locked in combat, no

state of war has been declared to exist by the Congress. Therefore, the President, as Commander in Chief of our Armed Services, has had and will continue to have in the foreseeable future the responsibility of direction.

Even the events in Korea do not serve as any precedent for the current situation. In that instance, the United States, acting under the consent and direction of the United Nations Security Council, declared the Communist invasion of South Korea a "threat to the peace" and officially authorized intervention by military forces of member nations. This action served as a substitute under International Law for official declaration of war by nations participating.

The United States takes the position that the present conflict is Viet Nam's war for independence and we are assisting them by their request. It is significant that the United States has repeatedly announced that it has no intention or purpose to undermine or overthrow the existing Communist Government of North Viet Nam. A Declaration of War by the United States against North Viet Nam, according to all historical precedents, would conflict with this announced policy of non-intervention with the political control by the Hanoi Government.

There exists, however, the possibility that new problems brought to the surface may require a reconsideration of whether the Congress should formally declare war to exist. Should such be the case, it would probably be defined as having started at the time the North Vietnamese forces attacked our ships in the Gulf of Tonkin.

Within recent weeks the communist Government of North

Funeral Service Wednesday For Mrs. B. H. Green

Funeral services were held Wednesday afternoon at 2 from Spill Memorial Chapel for Mrs. Barnett H. Green, 74, who died in the home of her daughter in San Antonio at 11:40 p. m. Monday.

Officiating was the Rev. Virgil James, pastor of the Southside Baptist Church, and the Rev. W. J. Taylor, pastor of the Drasco Baptist Church. Burial was in Bluff Creek Cemetery under direction of Spill Funeral Home.

Mrs. Green was born Bertha Letha White May 5, 1892, at Gonzales, Texas. While a child she moved with her parents, the late Charles and Roda White, to Cook County and later to Rannels County. They later moved to Callahan County where they lived in the Cottonwood community. She was married to Mr. Green March 6, 1918, at Baird.

Following their marriage they moved to Taylor County, to the Bradshaw-Drasco Community, where they lived until Mr. Green retired in 1957; then they moved to Winters.

Mrs. Green was a member of the Southside Baptist Church. She became ill about a year ago and last week she was taken to the home of her daughter in San Antonio.

Survivors include her husband; three daughters, Mrs. Eddie Green of San Antonio; Mrs. C. C. Coleman of San Antonio; and Mrs. Nelson Marucci of Johnstown, New York; ten grandchildren; three great-grandchildren; one sister, Mrs. W. P. Kerby of Abilene; two brothers, Willie White of Tulsa and Norban White of Abilene.

Pallbearers were R. Q. West, Ronnie Green, Lannie Green, William Banks, Gene White, Richard Jackson.

IN KRAATZ HOME

Pfc. Charles W. Kraatz, who had been spending a few days in the home of his parents, Mr. and Mrs. Walter Kraatz, left Monday to report at Camp Lejuane in North Carolina. He has just returned from 14 months tour of duty with the Marines in Viet Nam.

Viet Nam has publicly threatened to conduct trials of captured American airmen. Communist propaganda from Communist Viet Nam, Red China and other Communist nations has dwelled on "war crimes" trials, rather than to treat the captured as prisoners of war. They contend that, under International Law, they are entitled to mete out such treatment in the absence of a formal declaration of war. Obviously these threats on American prisoners by Hanoi are used as a psychological weapon in an attempt to inhibit United States' bombing of targets in North Viet Nam. There is a very real possibility that the Communists may go through with the conduct of "trials" of Americans whom they hold prisoner, but more recent indications are that it is not an immediate prospect.

The fact remains, however, that captured Americans, and particularly our airmen, are used for political implications. Their lives and welfare must be the first concern. The treatment of captured Americans in accord with International Law requirements must be assured by our Government, at whatever cost.

It could well be that if the Red Vietnamese murder American prisoners under treatment as "war criminals," a declaration of war would be necessary. In such an event, it would be necessary to actually wage war to the extent of destruction of the Communist Government in North Viet Nam.

STEALING THE SHOW—Niki de Saint-Phalle's mammoth construction of a woman was supposed to be the main attraction of an art exhibit in New York, but this guest proved to be a striking attraction, too. She's wearing a St. Laurent see-through dress.

The Family Lawyer

Careless Clothes

What to wear? Choosing your costume for a particular occasion is not just a matter of fashion but also a matter of law. Should you be injured, careless clothing may jeopardize your right to collect damages by pinning a "negligent" label upon you.

Consider this case: A young woman, going for a walk on a wintry night, knew that the sidewalks were slick with ice. Yet she chose to wear very high heels. Sure enough she skidded, fell, and suffered assorted injuries.

But when she sued the city for damages, the jury decided she herself was guilty of negligence in her choice of footwear. On the other hand, a woman who stumbled on a hotel stairway was held not negligent. The heels she was wearing were only moderately high—and the process of walking down steps did not demand any special precautions.

Even choosing an unwise color, if not negligence all by itself, may at least tip the scales in that direction.

Was a hunter accidentally shot by a companion? It may count against the victim, legally, that he was wearing a grey hat exactly the color of a grey squirrel.

Was a motorist, changing a flat tire on a dark highway, struck by a passing car? It may be held against him that he was wearing a hard-to-see black jacket instead of an easy-to-see white shirt.

A woman passenger, emerging from a friend's car, shut the door on her own sleeve. Unaware of her predicament, the driver started forward, hurling the woman to the pavement. But a court later found no fault with the driver. The woman herself was negligent, said the court, for letting her sleeve get caught.

In another case, a man with foot troubles sued a shoe dealer for selling him shoes that were too tight. But the court turned thumbs down on his claim. The judge commented:

823,000 Texans Sign Up For Medicare Service

By July 1, 1966, 823,000 Texas people 65 or older had signed up for the voluntary doctor bill insurance part of medicare. Floyd B. Ellington, district manager of social security in San Angelo, announced today. This represents 92 percent of Texas' 896,000 residents of medicare age, he said.

As of the same date, out of a national total of 19.1 million persons 65 or older, 17.3 million, or 91 percent, had signed up for medical insurance protection to help pay their doctor bills and other medical services. This part of medicare is financed by a \$3 monthly premium paid by the beneficiary with the Government paying a matching amount out of Federal general revenues.

Ellington explained that most people have the premiums deducted from their monthly so-

cial security, railroad retirement cash benefits. Others who have enrolled for the supplementary medical insurance protection, but who are not receiving cash benefits, pay the premiums quarterly by check or money order to the Social Security Administration or the Railroad Retirement Board.

However, elderly people who may not be able to pay the \$9 quarterly payment at the time they receive the quarterly premium notice may pay \$3 or \$6 and send in the remaining amount later, Ellington said. But they should make sure that payments are made in time to keep this protection in force.

Ellington advised all Winters area residents signed up for the medical insurance part of medicare who have questions about how premiums are paid, to get in touch with his office at 3000 West Harris, San Angelo, or contact a representative from that office when he is in this area. He will be in Winters at the Chamber of Commerce Wednesday, August 24, from 9:45 a. m. to 11:30 a. m.

Mrs. Myrtle Harkins Honored On Her Eightieth Birthday Sunday

Mrs. Myrtle Harkins, resident of Runnels County for 59 years, was honored on her eightieth birthday Sunday afternoon at Open House, from 2:30 to 4:30 o'clock, at her home, 206 Paloma.

Hostesses were her daughters, Mrs. Naomi Overman, Mrs. Marcy Robertson, and Mrs. Louella Wilson.

In the receiving line, Mrs. Oneil Overman of Grapevine, greeted the guests and presented her mother, Mrs. Harkins, Mrs. W. M. Robertson of Ballinger and Mrs. Louella Wilson of Winters.

Beverly Simpson and Donna Wilson of Rio Hondo registered the guests. Others in the house party were Mrs. Billy Joe Simpson of Rio Hondo, Sue Ann Simpson, Mrs. Marel Wilson Jr. and Mrs. Vera Clem of San Antonio.

The tea table, laid with hand crocheted cloth over pink, was centered with an arrangement of pink carnations in crystal container. Appointments for the table were of crystal and silver. Mrs. Juanita Wilson presided at the table and was assisted in serving cake and punch by Maxine Dean of Austin, Lucille Robertson of Ballinger and Mrs. Walter Dixon of Comanche.

Mrs. Harkins was born at Tuscaloosa, Alabama in 1886, and came to Texas with her parents in 1893 when she was 7 years old. They settled in Hillsboro and came to Runnels County in 1907. She was married in 1901 to W. M. Robertson. He died in 1920 and she married

A. F. Harkins in 1924. Mr. Harkins retired from active farming and they bought a home in Winters. He died two years later.

Approximately 64 friends and relatives registered during the afternoon. Those from out-of-town attending were Louis Berryman, Midland; Mr. and Mrs. Walter Dixon, Comanche; Mr. and Mrs. Jobie Dean, Austin; Mr. and Mrs. Carl Harkins, Mr. and Mrs. Hoy West and family all of Dallas; Tell Denison, Roscoe; Susie Davis and father Ed. Whitson of Midland; Vera "Mitzie" Clem, San Antonio; Mr. and Mrs. Elmer Simpson, Hobart, Oklahoma; Mr. and Mrs. Roe O'Neil, Mr. and Mrs. Cam Blackman, Mr. and Mrs. Lawrence Blackman all of Ballinger; Mr. and Mrs. Oneil Overman, Grapevine; Billy Joe Simpson and family; Marel Wilson Jr., and family, all of Rio Hondo; Mr. and Mrs. Nick Smith of Hamilton.

FROM CALIFORNIA

Recent visitors in the home of Mr. and Mrs. Ili Simpson and Jo Ann were Mrs. Simpson's sister, Mr. and Mrs. Wayne Goen and grandson, Duane Gorman of Milpitas, California. Her father, J. M. Price, returned to Winters with them and will remain with the Simpsons. The Goens also visited in Abilene with Mr. Goen's mother, Mrs. Rosa Evans, while in Texas.

State Capital Highlights— 1967 Legislature Faces Big Money Problems; Reductions Inevitable

By—Vern Sanford
Texas Press Association

Never has the Texas Legislature had money problems like those it will face in 1967.

Although the fact has been little publicized, state agencies are requesting an unprecedented \$1,200,000,000 in appropriations from the general revenue fund during the next biennium. This figure does not include activities financed by extensive special fund revenues and federal aid. Neither does it allow for the \$120,000,000 pay raise sought by school teachers.

By way of comparison, present general revenue appropriations add up to \$623,900,000, so the agencies are seeking almost twice as much as they now are getting from tax sources controlled by the Legislature.

Sharp pruning is inevitable before official budget proposals are submitted to lawmakers by Gov. John Connally and the Legislative Budget Board. Making the task more difficult is the fact that the bulk of requested increases would go to such worthy purposes as:

Improved education, new community action programs for mental health and mental retardation, tuberculosis control, Medicare implementation, park improvements, a \$50,000,000 mental hospital and special school building program, water facilities and pollution control, new prison buildings and a pay raise for state employees.

Financial authorities estimate state taxes would have to be raised \$400,000,000 to meet the new spending demands.

Most of the demands, of course, will not be met. But high ranking officials, including House Speaker Ben Barnes, see a tax bill in the magnitude of \$200,000,000 shaping. Although most forecasters are predicting that a sales tax hike of one per cent is inevitable, look for a "surprise" revenue bill with top-level backing.

CONNALLY BACKS SENTENCE

Governor Connally, returning to this capital city while it still was numbed with shock and grief over the senseless sniper slaying of 13 at The University of Texas, suggested a new state law ordering mandatory life prison sentences for insane killers.

Connally said he is considering a recommendation for a non-parolable life sentence because too many criminals escape extended punishment on pleas of insanity.

The governor, who cut short a South American tour after the August 1 UT tower murders, also directed the State Department of Public Safety to gather all facts on sniper Charles J. Whitman, an ex-Marine and honor student. He further directed a study of Whitman's brain by a conference of medical experts at M.D. Anderson Hospital and Tumor Institute at Houston.

Connally said he does not believe the August 1 tragedies, which "could have occurred in any city of the world," will reflect on Texas or Austin.

Lt. Gov. Preston Smith promptly directed the Texas Legislative Council to study the feasibility of enacting mandatory life imprisonment provisions for accused killers pleading insanity.

LAWMAKERS DECLINE NOMINATIONS

Congressman Walter Rogers of Pampa and State Rep. Bill Satterwhite of Ennis served official notice they are declining Democratic nominations for reelection.

Rogers' completely unexpected decision to return to private law practice leaves the job of naming his successor to Democratic county chairmen in the Panhandle counties he long represented. Satterwhite accepted a job with the Lone Star Gas Company in Dallas.

Republicans say the bow-out of Rogers will improve chances of their congressional nominee, Bob Price of Pampa, who ran strong in 1964.

HISTORIC SUIT ENDS

Prompt appeal of final judgment in the 11-year-long lawsuit over Rio Grande Valley water rights is expected to be filed soon.

District Judge J. H. Starley of Pecos entered the judgment, ending the trial of controversy last week at Edinburg.

A 100-page decree covers U. S. share of water at Falcon Dam and the Rio Grande flow below the reservoir. Case will have far-reaching effect on land values and water use in Hidalgo, Cameron, Willacy and Starr counties.

Judgment proposes division of water among irrigation districts and independent pumpers on a priority system in five categories. It doubles amount of water previously allowed cities in preliminary judgment but retains acreage basis of figuring allotment.

MILLIONS FROM LEASE SALE

State permanent school fund received more than \$5,600,000 from oil and gas lease sale on 101,236 acres.

Total of 143 tracts were leased for average of \$55.35 an acre. Fifty-two tracts in the Gulf of Mexico leased for \$3,800,000.

SHORT SNORTS

State Board of Education can contract with Department of Corrections for production of Braille textbooks for blind, Attn. Gen. Waggoner Carr held in official opinion.

Texas will need to spend \$500,000,000 a year in new highway construction by 1985 to keep up with growth, predicts a State Highway Department Study. This is \$152,000,000 more than in 1965.

House Speaker Ben Barnes has announced September 16 symposium here on children's language disabilities. About 2,500 are expected to attend.

July revenues from cigarette taxes increased \$1,300,000 over 1965 but declined from previous month by nearly \$1,000,000.

Hearings on the Nueces River Basin water plan are set for August 12 at Carrizo Springs and August 16 at Corpus Christi.

Texas Parks and Wildlife Department has set September 1 to October 30 in the North Zone and September 24 to October 30 in the South Zone, except for special dates for those counties having whitewing dove.

Land Commissioner Jerry Sadler has announced that the fourth Oil and Gas Lease Sale for 1966 on Permanent Free School Lands will be Tuesday, November 1, and the deadline for nominations is September 16.

Dr. James E. Peavy, State Health Commissioner, says the basic document upon which an expected \$17,500,000 will be granted to eligible Texas health facilities has been completed and the department will apply for the federal grants.

Tom McCrummen Jr. of Austin was sworn in as a member of the State Securities Board, replacing Maurice R. Bullock of Midland.

IN JACOB HOME

Mrs. Dick Dunlap and children, Dicky and Leslie of Carlsbad, New Mexico are visiting in the home of her parents, Mr. and Mrs. Lawrence Jacob.

IN GATES HOME

Koy Strube of Lubbock was an overnight visitor in the home of Mr. and Mrs. Charles Gates during the week end.

Some Fish Are In Abundance At Winters Lake

Personnel from the State Parks & Wildlife Department made a thorough check of Winters Lake east of town the first of the week, and report that some game fish are in abundance, with good supplies of other fish.

According to the biologist and other Parks & Wildlife Department surveyors, crappie of about all sizes are in abundance in the lake. They reported that there is a "good supply" of channel catfish, also, but that not many black bass were noted in the survey. Also, the four men who used the better part of two days to make the check, reported that yellow cat are in very short supply in the lake.

The surveyors also said that there are very few trash fish in the lake at the present time, probably the result of the poisoning operation which was undertaken two years ago. They also said there is lots of food in the lake, and that shad and minnows abound.

It is expected that the Parks & Wildlife Department will put more bass in the new lake in the near future.

The old city lake, located north of town, probably will be surveyed in the near future, it was understood.

Rebecca Ann Knight, Danny Wardell Long, Recite Marriage Vows Thurs.

Rebecca Ann Knight, daughter of Mr. and Mrs. C. R. Knight, became the bride of Danny Wardell Long when they recited their marriage vows Thursday evening at 7:30 o'clock at the Southside Baptist Church.

The refreshment table, laid with cutwork linen over pink and white carnations and a pair of crystal candelabras with lighted tapers forming the centerpiece. The three-tiered decorated pink and white cake was topped with a miniature bride and groom.

Parents of the bridegroom are Mr. and Mrs. Wardell Long, 390 North Magnolia.

The Rev. Virgil James, pastor of the church, officiated for the double ring ceremony.

Two tall baskets of white gladiolus were at either side of a large palm tree forming the background for the wedding party.

Traditional wedding music was played by Mrs. Kenneth Simpson, organist, and Betty Knight, soloist, sang "Sweetest Story Ever Told."

Donald Ray Parker served the groom as best man. Ushers were Cy Banner of Ozona and Jimmy Green of Winters. Groomsman was Freddie Morrison of Crane.

The bride's attendants were Mrs. Freddie Morrison of Crane, matron of honor and Mrs. Cy Banner of Ozona, bridesmaid. They wore identical pink street length dresses with net hats of a corresponding color and carried a single long stemmed white carnation.

Presented in marriage by her father, the bride wore an antique white brocade satin street length dress, fashioned with empire bodice, bell sleeves and A-line skirt. She carried a crescent-shaped bouquet with two white Japhet orchids and feathered mums atop a white Bible.

Baptist WMS Hosts Coffee Honoring Two Missionaries

Flags of all nations decorated the walls of Fellowship Hall of the First Baptist Church Monday honoring two missionaries on furlough from different parts of the world at a coffee hosted by the Woman's Missionary Society.

Mrs. Logan Templeton from Hong Kong and Mrs. Dale Carter of Corrente, Brazil talked informally of their experiences to the forty guests assembled from Ballinger, Drasco, Pumphrey and Winters.

Mrs. Templeton, the former Lounette Glover, described Hong Kong as a land of contrasts, the very rich and the very poor. There is little opportunity for young people and they all want to come to America, calling it a "Heaven on Earth," she said, but our hope is in the middle class that is rapidly emerging.

Baptists have been in Hong Kong for a long time and have a hospital and school of which Templeton is business administrator, and now have a good will center. The greatest need is for a trained social worker.

In speaking of Corrente, Mrs. Carter, the former Bertie Sue Worthington, said it is not a place to live unless the Lord has chosen you for the place. In a town of almost 4000 people there is no hospital, no doctor, no drug store and no grocery store. Mail now comes once a month instead of every four months but the roads are impassable in rainy weather, however the missionaries have an airplane which is of great help.

The Baptist Industrial Institute at Corrente, where the Carters work, serves a four state area. Mrs. George Poe introduced the honorees. Mrs. Dennis Poe served and was assisted by Mrs. Bernice Gardner and Mrs. J. E. Smith. Mrs. Loyd Robertson presided for the closing of the meeting and Mrs. Ferris Akin of Ballinger gave the closing prayer.

WHY MEDICARE IS VITAL

Have you ever wondered why Medicare became such a vital issue in this country — why the public and Congress supported so overwhelmingly a special system of medical care for people over 65? The answer is this: In the past few decades, the number of people over 65 has grown from an insignificant few to more than 18 million. The reason for this growth? A big part of the answer lies in the hundreds of drugs that now enable people to live to 65 and many, many years beyond — people who would have died long before 65 only a generation ago. That's why we say—

Are there really any sound reasons for buying a Chevrolet in August?

During August, it's as easy to own a Bel Air 4-Door Sedan as getting in the car.

Wait till you see how sporty you look sitting in your Impala Super Sport.

In a word: Six

1. Have you ever known the instant delight of selecting a new Impala Super Sport in the color you want, slipping into its Strato-bucket seats, and driving it home from the showroom the same day? Now's your chance. Your Chevrolet dealer has a big choice of models on hand with small August price tags.
2. More than likely, your present car will never be worth as much in trade as it is right now. Money— another good reason to buy a Chevrolet this month.
3. Read those articles about when to buy a new car and they'll tell you that August is one of the best months. And your Chevrolet dealer is ready to show you why... with buys that are better than ever.
4. If you think winter's tough on an old car, believe us, so is summer. There's added strain on the engine because of vacation driving. Greater tire wear. The cooling system has to work extra hard. A new Chevrolet can save you a lot of trouble.
5. You do a lot of driving for pleasure so why not ride on Chevrolet's Full Coil suspension. Let your feet feel that deep-twist Chevrolet carpeting. August is to enjoy.
6. Make your summer driving safer driving by taking advantage of the eight standard safety features built into every new Chevrolet. If your present car doesn't have seat belts, back-up lights, outside rearview mirror, padded instrument panel, look into a new Chevrolet.

Roger Babson Says

Small Town Growth Most Vigorous In South and In Far West Regions

Babson Park, Mass. Since World War II the whole face of America has changed. There have been more numerous and more far-reaching advances in technology, industry, and transportation than in any comparable period in our history. These have been accompanied by a 38 percent increase in population and by a mighty cross-migration from farms to urban areas and from the large cities to the outer suburbs. In the process, many of the nation's smaller towns have grown and prospered. But nearly as many more towns just haven't kept pace.

Small-town growth has not been most vigorous in the South and in the Far West reflecting the heavy movement of industry and people into these areas. Perhaps the biggest growth factor is need. Towns grow and expand to meet needs. If the needs don't materialize, there is no cause for growth. And if the needs are there, but not fully perceived or exploited, the opportunity is lost. Towns which are bound to grow are county seats, sites of colleges, or headquarters of government agencies or of sizable service businesses or industries. Growth begets growth. Many

of the small county seats and college towns of yesteryear are today thriving cities, some of them fairly large ones. They have expanded primarily because their development of retail and other services, and of cultural opportunities, has attracted new economic activity.

Location Is Important
The Geographic location also plays an important part in the economic growth potential. If a region has abundant natural resources and is marching forward by making maximum use of its advantages, such get-up-and-go will almost automatically bring growth to many of its small towns too. Of course, small towns within 20 to 30 miles of larger cities usually have better prospects for growth than do places more off the beaten track. This is true largely because even small industries need to locate where they will be assured of the required labor, good transportation, and nearness to suppliers of raw materials and other necessary equipment.

But the more isolated towns need not always be so isolated. New high-speed highways continue to open up vast tracts of land far out in the country for development. Some of the most prosperous towns of the 1970s will be entirely new communities built on sites that today are still completely rural, and in some cases actually wilderness.

Fiscal Limitations
As our smaller towns grow larger, they suffer all kinds of growing pains. Chief among these are the need all at once for enlargement of educational and recreational facilities, expansion of fire and police departments, procurement of ample water supplies, and pro-

vision of adequate plant and equipment to assure prompt and effective disposal of waste.

All these services and improvements cost money. And the cost is rising year by year. Hence it behooves those towns which must meet new demands for capital improvements to step warily. The temptation to go full steam ahead is great as needs mushroom. But, for towns as well as for people, the foundation for lasting prosperity is fiscal sanity. Do not allow debt to become unmanageable!

Town Mergers
More and more we hear proposals that smaller towns merge with their neighbors in order to modernize their governmental structure and cut the overhead cost of essential services. The consolidation approach to these problems has recently been the subject of a national policy report prepared by the Committee for Economic Development. This idea is not without merit, but outright mergers certainly ought not to be hastily effected.

Nowhere is the small town so much a symbol of freedom and of selfgovernment as it is in the U. S. Loss of that identity and image—synonymous with initiative and self-reliance that has helped make our nation great—would be irreparable. It would often be far better for towns to team up to operate certain services jointly than to merge outright.
