Wolverines End Basketball Season

The Carbon Wolverines ended a fine basketball season in Abilene McMurray gym before a large crowd Monday night when they were defeated by Lueders-Avoca 71 to 54. The USDA County Civil Defense Board will be working on a Civil Defense exercise within the next few days. This organization set up by law several years ago consists of the County ASCS Office Manager, Work Unit Conservationist, Soil Conservation Service, County Agricultural Agent and Farmers Home Administration Supervisor. This organization is active in each county and is required to meet at least once each month. Definite civil defense responsibilities are assigned to each board member. The exercise currently under consideration deals with what nuclear attack would do to residents, agriculture and current food supplies in the County.

We would like to remind producers that acreages must be certified on all crops and land uses for 1968. This is a most important change and producers will need to acquaint themselves with these new regulations. It is important that acreages be accurate. There will be no chance to adjust acreages that are certified incorrect. This provision could adversely affect reduction payments and eligibility for price support. I plan in the near future on holding at least two meetings in each community prior to

Fashion looks change as fast as a woman's mind and this year the look is as varied: a touch of the 1930's, the military ruffles, short jackets and waistlines belted naturally or higher. The scope is wide enough for something for every figure age and personality. Return of the Thirties influence has entered the fashion picture. The soft blouses look very feminine. The blouses feature tiny yokes, fluff sleeves and are worn with a wide belted semi-full dirndl or shift. Colors are suited grays,

beiges, browns, victorian pastels and bright prints with fabrics showing texture. Important in the color news is that coral or shrimp is new with lots of turquoise and yellow.

The big question is hemlines! Two main lengths are being shown by the designers
