## MINOR MENTION.

He took her fancy when he came;  
He took her hand, he took a kiss;  
He took no notice of the shame  
That glowed her happy cheek at this.  
He took to comin' afterwards;  
He took an oath he'd ne'er deceive;  
He took her father's silver spoons,  
And after that he took his leave.

The Prince Imperial was twenty-three years old.

'Tis better to have seized and lost, than not to have seized at all.

The Bonapartists have not yet decided who is to wear the paper crown.

In Texas there are 30,000 white children over eight years of age who cannot read.

The Empress of Germany would not speak to Bismarck at her golden wedding.

LEADVILLE people can't be considered gods and goddesses, simply because they live in the clouds.

The glory of the Nevada mines is declining, while those of Colorado are just beginning to loom.

WESTON was the original pedestrian. He commenced walking in 1867, but he achieved his first victory in his recent and last match in England.

MISS MARY ANDERSON, who retains her maiden name on the stage, avers that she loves her profession too well to think of bestowing any of her affection upon a man.

The Boston movement for a memorial to William Lloyd Garrison starts off with a thousand dollar subscription. It is proposed to erect a bronze statue costing \$15,000.

The Zulu war is no playful and one-sided skirmish. England has now engaged in it as many men as she had at Waterloo, and it has already cost her forty millions.

TALMAGE'S first lecture in England netted \$4,000. The reverend gentleman did not visit all the fast places in New York and bring upon himself a church trial for nothing.

LEADVILLE is crying loudly for protection against the bunco-steers and thieves who are in the city. It may be remarked in this connection that Denver also has too many of this class of citizens.

EVERY day we read how some woman shot her husband or some other fellow. Unless something is done to prevent ladies from carrying concealed weapons it will become absolutely dangerous for unprotected men to venture out alone.

The audacity with which the use of the bayonet is championed by the administration has borne fruit in encouraging an insolent spirit among the military toward the citizens. In Chicago some citizens insulted a militiaman and are fired upon by his company and indiscriminately murdered for it.

JUST what good is to come from removing the Khedive and putting his son in his place is not apparent from this distance. What Egypt needs is not a change of individual rulers, but a new and civilized system of government, in which the intelligence of the country and not the whims of a potentate will make the laws.

AMELIA, favorite wife of the late lamented Brigham Young, claims that the executors of the estate have made way with about \$1,000,000, and asks for an injunction and a receiver. It is stated that the bulk of the sum "made away with" has gone into the coffers of the Mormon Church from which it no doubt originally came.

The Bi-Metallic League which has been organized in Chicago will recognize neither of the parties. Its object is to secure the free coinage of silver by bringing a strong pressure to bear upon Congress. Every attempt will be made to secure converts, and documents and tracts on the silver question will be distributed. Some of the wealthiest citizens of Chicago are engaged in the movement.

TWELVE sets of telephones have been sent out to Sir Garnet Wolseley for use at the seat of war in South Africa. The great advantage of the telephone over the telegraph is that the General can carry on confidential talk with the officer at the district station, or a soldier can creep out towards the enemy's lines and whisper back the information as to position. A fine wire—the thinner the better—is all that is needed.

The late visit of the crown prince of Sweden and Norway to England, and his reception by the German Empress, is supposed to have been connected with a desire on the part of his highness to sue for the hand of Queen Victoria's granddaughter, Princess Victoria, of Baden. The mother of the grand duke of Baden having been a daughter of King Gustavus Adolphus IV, of Sweden, such a union would introduce into the house of Bernadotte a near descendant of the line of Vasa.

## NEWS OF THE WEEK.

### CONGRESSIONAL.

In the Senate on the 1st the vote was reconsidered by which the free quinine bill was referred to the committee on finance; the bill passed by a vote of 60. The committee on appropriations, reported with amendments the House joint resolution relating to the clerks' salary bill. The report of the committee of conference on the joint-resolution providing additional pay for Congress employees, discharged treasury clerks, etc., by which the Senate receded from certain amendments, was adopted.

Resolved, That the thanks of the Senate are due, and are hereby tendered to Hon. William A. Wheeler, vice-President of the United States, for the ability, courtesy and impartiality displayed by him, while he presided over their deliberations during the present session of Congress.

At five o'clock p. m. the president pro tem said: "Senators, thanking you sincerely for the respect and approbation which your resolution adopted to-day, and for the kind aid you have uniformly given me while temporarily performing the duties of the chair, and wishing you all safe and pleasant return to your homes, I now, in obedience to the concurrent resolution of the two houses, declare the Senate adjourned without date." [Applause on the floor.]

On the 1st in the House after the customary personal explanations the bill prohibiting political assessments was taken up. Dilatory motions and voting used up the morning hour and the bill was not taken up until 11 o'clock. The message from the Senate announcing the passage of the bill putting quinine on the free list was received with demonstrations of applause. A resolution was agreed to paying employees of the House on the annual role one month's extra pay. On motion of Mr. Converse, the Senate bill granting additional rights to homestead settlers, within railroad limits, in Missouri and Arkansas, was passed. Five o'clock having arrived, the speaker said: Gentlemen of the House of Representatives: Before we separate I desire to return my thanks as presiding officer of this House to the members of this House of every political division, and to say to them that I appreciate their uniform kindness of conduct; and now, in obedience to the two houses fixing the time for final adjournment of the first session of the 46th Congress, I declare this House adjourned without date. [Applause all over the House and in the galleries.]

### WASHINGTON TOPICS.

Comstock and Maj. Charles H. Suter, U. S. engineers; Henry Mitchell of the coast survey, and George E. Dietter, surveyor, to be members of the Mississippi river commission. Recipients of public money John Handback, Salina, Kas.; E. J. Jenkins, Concordia, Kas.

The secretary of the treasury has been informed that Bolivia has decreed the issue of letters of marque with authority to privateers to seize Chilean property in neutral vessels, and that the agents of Bolivia have departed for the United States.

The Senate confirmed John A. Hunter, of Missouri, chief justice of the supreme court of Utah. Lt. Col. John Newton to be the colonel and Major Geo. H. Wendell lieutenant colonel of engineers.

During the session of Congress just terminated 727 bills and 46 joint resolutions were introduced in the Senate, and 2,395 bills and 119 joint resolutions in the House.

The President nominated Col. Horatio G. Wright chief of engineers, with the rank of brigadier-general, vice Gen. Humphreys, retired.

The President nominated John A. Hunter, of Missouri, chief justice of the supreme court of Utah.

The President has approved the bill making appropriations for certain judicial expenses.

### CRIMINALITIES.

MURDERED FOR HIS MONEY. A short time since a young German named Benner, representing a Galveston wholesale house, left San Antonio in company with another German calling himself Dreyer, for Corpus Christi. Dreyer returned, registered at Adolph at a hotel, bought a through ticket and left for New York. It is developed that Benner was murdered for a sum of money, supposed to be about \$2,000, which he had with him. It is thought Dreyer is making his way back to the fatherland.

JAILED FOR HORSE STEALING. The locality of Lawrence, Kas., is getting to be rather famous as a resort for horse thieves with their prey from other parts of the State. On the 24th of June, a man arrested the tenth within the last two months. He gave a name as Wm. Johnson, and had in his possession a very fine grey horse stolen in Wau-banosa county. The thief said the horse there but was lodged in the Douglas county jail.

THE SELF-DEFENSE FEAR. The inquest in the case of John Armstrong, a coachman, who was shot at Joseph C. Blair, N. J., on the 26th by his employer Joseph P. Blair, teller in the Mechanics bank New York, was resumed on the 2nd in the Newark court house. Armstrong's body was delivered by the coroner to some residents of Mount Clair for burial. Blair is likely to get free by the self-defense dodge.

A TERRIBLE MELEE. A report from Dennison, Texas, gives an account of a terrible tragedy in that city, in which five or six men were killed. A policeman attempted to arrest a negro, when the latter shot the policeman. The city marshal attempted to quell the disturbance and shot the negro. A friend of the negro shot the city marshal. A general row ensued and several were wounded.

A SUSPECTED MURDER. Last January Wm. McKenezie mysteriously disappeared from the house of Thos. L. Haban, a Madison township farmer, and nothing was heard from him till the 2nd, when he turned up at Park City. During his absence, Haban has been tried several times for his murder, and barely escaped lynching by his neighbors.

A DELIBERATE MURDER. Wm. Pierce, a laborer on the construction train of the Chicago & Alton railroad, and the foreman of the yards of the Pittsburg, Fort Wayne & Chicago road, at Chicago, was shot and killed on the 2nd, by John Connors, another laborer. The murder was said to be unprovoked.

CHEAT JUSTICE. In Cleveland on the 5th Judge Hamilton passed sentence in the case of the doctors and janitor, convicted of embezzling the body of the late Edwin French, Esq., Drs. Schneider

and Smith of the faculty, were fined \$500 each and costs, and the janitor \$250 and costs, SWIFT RETRIBUTION.

The negro who outraged Miss Edwards, near Lindale, was captured on the 5th, and after being identified by the victim, was literally hacked to pieces by a mob. The body was found disfigured beyond recognition.

ARRAIGNED. Chastine Cox was arraigned in New York on the 1st, to the legal sessions for the murder of Mrs. Jane DeForest Hall, and though counsel pleaded not guilty, the case was set down for trial July 14th.

AT BRENHAM, TEX., two young men, Earnest Zerial and Grandison Spain, got into a difficulty about some apples, when Spain stabbed Earnest in several places and escaped.

A WOMAN'S DOOM. Margaret Shaw, convicted of the murder of her husband on the 23d of April, has been sentenced to State prison for life.

UKOICIDE. In New York on the 5th, Mary E. Sanford, aged 22, was shot and fatally wounded by her husband, John H. Sanford.

A LIFE SENTENCE. Lester Brothers, sentenced to be hanged July 11th, has had his sentence commuted to life imprisonment.

CASUALTIES. A BALLOON ASCENSION. Prof. S. W. Colgrove, accompanied by Miss Emma Allison, of the New York Graphic, made a balloon ascension from Woodward's garden, San Francisco, on the 10th. About midnight Prof. Colgrove returned to the city and reported that the balloon came down in the bay on account of a rent in the bag, it dragged through the water over two miles in about the same number of minutes, and struck a pile of old wharf timbers on the opposite side of the bay and threw out both occupants, who were somewhat cut and bruised, but not seriously injured, and freed from its burden rose again and sailed off.

A TERRIBLE STORM. Later accounts of the terrible storm in Goodhue county, Minn., are to the effect that its greatest violence was at the village of Vasa. An orphanage at this point, containing 21 inmates, was blown up and three persons killed. Seven were wounded, three of them fatally. Several other buildings were destroyed or greatly damaged, and G. H. Holmes and wife, Evick Stevenson, another person name not known, and a child, were killed outright, and four more not expected to live. About 30 were more or less injured. At Warrenton three persons, names not given, were killed.

AN ENGINEER'S CONFESSION. Hays, engineer of the steamer May Queen, which exploded her boiler on Minnesota lake on the 24th of June, just before his death he confessed that when the boat landed at Rockwell's Island the water was low in the boiler and that when he started the machinery, the fire originated. The boiler exploded and there is no doubt that pumping cold water into the heated boiler was the cause of it.

MINES ON FIRE. In Nevada on the 2nd a fire broke out in a deserted mine at the village of Vasa, heading at 2,040 level to 2,135. The bulk heading on one began. One was put in on 2,040 level just near the 2,000 drift from the incline, and another on 2,135 level close to the incline, and the fire originated. The drifts of smoke and gas along 1,135 north into the shaft. Three miners were suffocated.

KILLED BY A BULL. A shocking scene occurred at the slaughter house of Henry Gansbacher, at Somerville, on the 1st. Henry White an employe, fifty years of age, was leading a bull into the slaughter house when the rope became loosened, and the animal caught White below the naval with one foot, and ripped his body completely open, causing instant death.

DIED FROM SUFFOCATION. The three men missing at the time of the fire in Bullion mine, Nevada, have been found. Peris was found at the top of the incline on the eight hundred feet level; Donaldson at the four hundred feet level, and Crocker about 200 feet above. All evidently died from suffocation.

A STEAMER CAPSIZED. At Lake Quinsigamond on the 5th the steamer Isaac Davis, loaded with passengers, capsized, and several persons were thrown in the lake. There were about 200 passengers on the boat, 100 on the hurricane deck, and no opportunity to get off. Several persons were drowned.

ACCIDENTALLY DROWNED. Captain A. Oak Smith, of Carolina City, N. C., with his son and four daughters, in Crossing Bogue sound the boat capsized. One daughter was drowned, the others are not expected to survive.

ACCIDENTALLY SHOT. At Fort Scott on the 5th Wm. McDonnell, a young man from Osage Mission, was accidentally shot and killed through careless handling of a revolver in the hands of a brakeman.

POISONED BY LEMONADE. Seventeen persons at Leavenworth were poisoned by some substance supposed to be tartar emetic in lemonade at a picnic, some dangerous, and recovery is doubtful.

FATAL FIRE CRACKERS. In Poughkeepsie, N. Y., on the 5th, Miss Jessie Dunbar, aged 22, was burned to death, some boys having ignited her clothes with fire crackers.

FATAL TARGET PRACTICE. George Richardson, aged 64, while marking a target range at Medford, Mass., on the 5th, was shot dead by his nephew, Horace Richardson.

REKIDNED. In New York on the 5th, Mary Anderson and infant were burned to death. Cause, starting a fire with kerosene.

THE FOURTH. The Fourth of July was generally observed throughout the country with imposing ceremonies. In this section the people were enthusiastic and celebrated the day in horse racing, fairs, processions and other attractions.

AT OTTAWA. The Fourth of July celebration here was a grand affair, between 8,000 and 10,000 people participating.

AT WARRENO. The celebration here was a fine affair. Three thousand people were present. The speech-making was done at the grove on the Kansas river. The chief speaker was Col. J. B. Howell, the newly-appointed United States district attorney.

AT CHEROKEE VALLEY. The Fourth of July celebration terminated much better than the most sanguine anticipated. The oration by Col. G. P. Duffington was a masterpiece of eloquence and logic. Cherokee valley is destined to be the railroad centre of Southern Kansas.

AT FORT SCOTT. The Fourth passed off pleasantly and quietly, although the city was unusually full of strangers in attendance upon the races. No accident or disturbance occurred. In the race of the Fourth, first money was taken by Ted, from Nevada, Mo., in a 3:30 trot; second by Major Bacon.

IN KANSAS CITY. The Fourth was generally observed, though it can hardly be said to have been celebrated by the citizens, business being suspended by all the principal establishments for at least part of the day. There was a large attendance at the fairs grounds and the races created considerable excitement.

WA-KEENEY. Less than a year and a half ago Wa-Keeneey was not, July Fourth Wa-Keeneey saw what was probably the most successful Fourth of July celebration in the State—certainly the most successful west of the extreme eastern cities. Excursion trains were run by the Kansas Pacific from both east and west, while the regular trains brought many visitors. Among the latter from the east were Gov. St. John, with a party of ten from Topeka and Olathe; Messrs. P. B. Groat and S. F. Smart, of the Kansas Pacific telegraph department, with a party from Kansas City and Lawrence; and a full platoon of editors, orators and sight-seers from nearer points. The Emporia Knights Templar band—the best band in Kansas, except perhaps, the military band of Leavenworth—was supplemented by the Wa-Keeneey band, an excellent home organization only six weeks of age.

INDIAN TERRITORY. On the Fourth Hon. B. J. Franklin, and Col. T. Van Horn, both of Baxter Springs for a twelve miles drive over the prairie to a point in the Indian Territory which had been named for a place of meeting of the different tribes of Indians inhabiting the Territory, for a celebration. Soon after the arrival of the visitors, the people gathered at the grand stand, where the speakers and chiefs assembled to address them. Mr. J. W. Harworth, the reservation agent, on behalf of the regulars, extended a welcome and greeting to the visitors, after which he introduced Hon. B. J. Franklin, of Missouri, who was the orator of the day. After thanking the immense audience for the generous words contained in their invitation, and referring to the Fourth of July, he discussed the question relating to the policy that should be pursued toward the Indian Territory. He warmly advocated that the United States should make citizens of the United States, and given a ballot. Col. Van Horn, of Kansas City, followed Mr. Franklin in a few well chosen remarks relating to the necessity of self-governance. He spoke with good effect, both in English and their own native language.

FOREIGN NEWS. FIGHTING IN HAVEL. A steamer from St. Thomas brought the following news from Cape Haytien, June 21: It rumored the National Assembly at Port-au-Prince has been closed, owing to the dissensions between the Senators and Deputies.

On the 20th Gen. Toellil Parisien, with his following, entered the city of Cap-Haitien, and there is no doubt that pumping cold water into the heated boiler was the cause of it.

ADOPTED BY THE REICHSTAG. The Reichstag has adopted duty on cotton goods apparel, linen yarn, linen and silk threads. The tariff committee has fixed on October 1 as the date for the introduction of the new tariff, excluding duties affected by the Belgian treaty of commerce, which comes in force on the 1st of January.

A HAVANA LETTER SAYS: The Cuban government proposes asking Madrid to distribute about 40,000 troops on the island, as field hands, among sugar plantations, at fixed wages, to be paid by planters under the supervision of the officers. The measure is expected to secure tranquility and protect estates during the gradual emancipation of the slaves. The soldiers, thus getting accustomed to field-work, would form a nucleus for free labor on the day slavery ceased.

THE SOUTH AMERICANS. The Chileans are said to be preparing for an attack on Lima and Callao with an army of 10,000 or 15,000 men, while the ironclads will engage the attention of the present government. The main army of Peru is now at Pisco, Iquique, Arica and Ica, and with the transports hemmed in Callao bay relief for the beleaguered city would be impossible for more than a month.

THE ZULU WAR. Lord Chelmsford has sketched the outlines of the probable terms of peace to an unconditional surrender, indemnity to England for the cost of the war, and the return of the spoils taken at Isandula. If these terms are not agreed with the English and the British forces are disgusted with the war.

DEPORTABLE. The official reports of the Italian harvest say the rain and inundations have rendered the proposition in the north deplorable. Central Italy promises at least moderately good harvests; the south, southwest and Sicily tolerable; the southeast and Sardinia excellent. On the whole anticipations are under the average.

INSULTED. The Irish members of the house of commons are by no means disposed to accept Lord Cairns' university bill. Some characterize the bill as an insult to the country.

LADDER TROUBLES IN WALES. In the steam collieries of Merthava, South Wales, where 32,000 persons refused a 10 per cent. reduction of wages, they were reported as accepting.

COLLIERIES HORROR. Thirty-one men were killed by an explosion in the Highlantry mines, near Glasgow, on the morning of the 3rd.

A PILGRIMAGE. Five hundred French Canadians are making a pilgrimage to the Shrine of St. Anne De Boisbourg, near Quebec.

GENERALITIES. THE SUTRO TUNNEL. On the night of the 30th the mountain tops overlooking the Washoe Silver region and the Carson Valley were ablaze with bonfires and the echoes of the cannon and discharges of giant powder were heard in every direction. The event which is being celebrated is the final completion of the Suro tunnel for the reception of the water from the Comstock mines after ten years ceaseless labor day and night and the expenditure of six millions of dollars. The powerful engines of the combination shaft of the Hale and Norcross and Savage mines started up, discharging their water into the Suro Tunnel at the mouth of which it made its appearance in one hour and

twenty minutes, showing a temperature at first of 101 degrees, which gradually increased to 118 degree. In eight hours the water in the long drained out mines was lowered 100 feet.

RILEY WINS. At Auburn on the 5th the race between Freney, Johnson, and James H. Riley, took place over the Essancee course. At the start Riley got the lead of half a length, but Johnson soon over came this and forged ahead the first half mile, then got out of his course into Riley's water, until a collision seemed unavoidable, when Riley stopped and signalled foul which the referee allowed, having previously warned Johnson. This entitled Riley to the race, but at cries of "go on" from the grand stand, he began racing again, but was soon afterward almost crowded ashore by Johnson. He then took the outside course and by some rapid sculling turned the stake, his boat being even with his competitor. Time for mile and a half, 10:25.

THE ARKANSAS PRESS GANG. The Arkansas Press association, numbering about one hundred and fifty gentlemen and ladies, arrived in St. Louis on the 2nd. They were met at the depot by a local reception committee, including the president and secretary of the Missouri Press association, who came to St. Louis for the occasion, and were escorted to the Lindell hotel, where they partook of a breakfast especially provided for them. They were then taken to the Merchants' exchange, where they received a cordial greeting from the merchants, after which they were driven to the St. Louis cotton compress, where they were hospitably entertained by the compress company. They were then driven to notable places in and about the city.

BISHOP DUDLEY. Bishop Dudley, of Kentucky, in his address before the joint celebration of literary societies of the University of Virginia, predicted a bright future for the liberal plan adopted by the founder, Thomas Jefferson, and carried out subsequently by those in authority. He said the plan for receiving students on their responsibility as men, and not as boys, has resulted in a lasting benefit. He declared on his responsibility as a teacher of religion, he would not have any other system of inculcating religious belief adopted than is now in force at the University of Virginia. He does not favor compelling students to attend religious services.

THE DEMOCRATIC STATE CONVENTION. The Democratic State Convention assembled at Sacramento at 1 p. m. on the 1st. There was a full delegation present. J. Campbell was chosen temporary president, and the usual committees were appointed and recess was taken. A strong disposition was manifested to endorse Dr. Glenn, the H. B. nominee for governor, but there was an opposition to the nomination. Increasing efforts will be made by the H. B. managers who were in attendance to induce the convention to endorse all Democrats on the H. B. ticket, but the proposition meets but little favor except in the nominees.

BOARD OF HEALTH CONFERENCE. In Memphis at a conference meeting of the members of the National board of health, the members of the Mississippi Valley sanitary council and representatives of the railroad and force at the University of Virginia. He does not favor compelling students to attend religious services.

GRAIN AND OATS—Markets for these grains are yielding very special features. A steady and increasing supply tends to throw the advantage in buyers' favor.

Indian Affairs. Colonel J. W. Donnellan, of Laramie, formerly of Denver, writes to Governor Pitkin that a band of eighteen Utes, under Mexican Joe, are molesting the settlers who are going into North Park, and declare that the whites must pay them for the North Park land if they can't get it, or ship food into it, for the settlers who are already there. Mr. Donnellan also writes that several prospectors are about leaving Laramie for the North Park from the regions occupied by the Sioux, and whose interests teach them to shoot Indians on sight, and fears are entertained that trouble will occur unless the Indians are removed to their reservation.

Discipline and Mercy. Obedience in the German army is enforced by strict discipline, but mercy also is inculcated by stern example. A court martial at Wurzburg has just sentenced Lieut. Baron Rudolph Schenk von Geyern to two years' imprisonment in a fortress and dismissal from the service, for unheard of cruelties to private soldiers under his command, in the Fourteenth Regiment of Foot. No fewer than sixty-six cases of heartless violence perpetrated by his own hand or by subalterns acting under his orders, were laid to this lieutenant's charge. The subaltern accomplices of Lieut. Geyern were also sentenced to various periods of imprisonment.

Can't Preach Good. No man can do a job of work, preach a good sermon, try a law suit, visit a doctor a patient, or write a good article when he feels miserable and dull, with sluggish brain and unsteady nerves, and none should make the attempt in such a condition when it can be so easily and cheaply removed by a Hot Bitters. See "Truths" and "Proverbs," other columns.

THE SINGLE SCULL. In Boston on the 5th the professional scullers' race, three miles, was won by Ezra Morris, of Pittsburg, nearly half a mile ahead of Teneyck.

SIMPLY TO THY CROSS EYE CLING. General Butler's physician requires him to retire temporarily from business.

THE MARKETS. GRAIN REVIEW.

Messrs. Lynde, Wright & Co., of Kansas City, furnish us the following reliable review of the grain trade for the past week:

Wheat—The week developed adverse influence at work in nearly all the leading markets in this country for the manipulation of higher values, and they seem to have been attended with success. The closing figures, therefore, of our winter and spring wheat market and the nervous movement in these markets are not to be taken absolutely as the measures of values. The future of the month rests largely with the action of the New York "relieus," who have been manipulating the spring wheat markets. Foreign markets for winter wheat have in no way changed, while the decline of two pence on spring wheat some days ago has been recovered. At the principal English ports large supplies of wheat and flour continue to arrive, which with liberal "home deliveries" leave a fair amount to be warehoused after supplying the demands of customers.

Of these imports America contributes largely. Our exports showing 2 1/2 million bushels going out weekly. Late reports of the growing crops in Great Britain, in the Corn Belt are unfavorable. Too much rain without the warmth and sunshine necessary to help the struggling plant. A later harvest than usual is anticipated with lighter yield, therefore, any added fact of a decreased acreage. Stocks in the principal markets on the continent have been materially reduced.

Our present visible supply seems to hold its own in the neighborhood of thirteen million bushels—the liberal receipts at interior and seaboard market offsetting the large exports. The favorable prospects for growing wheat crop and generally satisfactory condition of some parts and stacking and thrashing at other points while reports are current of damage through bleaching and sprouting to no serious extent however. In the principal winter wheat section the general assurance is of a superior quality of grain from new crop.

Corn—From 1/2 to 1c decline has attended the movement of prices in this cereal during the week. Receipts at interior points have been unusually large with corresponding large exports.

The large arrivals in Great Britain have depressed their markets and we look for no appreciation from that quarter. The present range of values in interior markets is due to excessively low freights to the seaboard and across the Atlantic.

Rye and Oats—Markets for these grains are yielding very special features. A steady and increasing supply tends to throw the advantage in buyers' favor.

Freights—No new development, though feeling very unsettled.

KANSAS CITY MARKETS. GRAIN—No. 2 winter wheat, 94c. No. 3 do 91c; No. 4 do 84c; Spring wheat, No. 2, 75c; No. 3 do, 70c. Rye, No. 2, 40c. Oats, No. 2, 30c. Corn, No. 2, mixed, 31c.

PRODUCE—Butter, good to choice, 8@10c. Eggs, 48c per doz. Chickens per dozen, \$1.50@2.25; Turkeys, 50@75c each. Cheese, 5@6c for prime Kansas. Hides, 4@5 1/2c for green. Potatoes, per bushel, 50c. Broom corn, 1 1/2c @ 3c per bu, according to quality. Feathers, live geese, 40c. Hay, 47.50@65.00 per ton, baled.

**The Chase County Courant.**

W.E. TIMMONS, Editor and Publisher.

In 1860 the public debt per capita was \$1.60, and the interest per capita 11 cents. In 1879 the public debt per capita is \$50, and the interest \$2.50 per capita.

Money is badly wanted by the Republican managers in Ohio; and who, say the men who are trying to elect Mr. Foster, can money be had so readily as from the Government employes in Washington? A few dollars apiece would do the business handsomely. To be sure, Hayes's famous civil service order stands in the way of compulsory assessment, but under the "voluntary contribution" system the end in view may possibly be reached.

The Legislative, Executive and Army appropriations have been passed by Congress and approved by the President. The Army bill contains the restriction that no soldiers shall be used for police duty at the polls on election days, which is just what the Democrats contended for all the time. The only thing unprovided for is the Judicial branch of the Government. An appropriation bill for that purpose passed both houses of Congress, but was vetoed by the President, because it failed to provide for the payment of Deputy Marshals and Supervisors for their services on election days.

The test vote on Senator Vest's resolution demanding the free and immediate coinage of silver on an equal footing with gold resulted in its reference to the Finance Committee, by one majority. Had all the Democrats of the Senate been present, it would not only not have been referred, but would have been passed by five or six majority. Of the 22 votes to pass the resolution every one came from the Democratic side, while of the 23 votes to refer the resolution all were Republicans, except Bayard, Kernan, Eaton and Whyte. The vote shows clearly that only the Democrats need the people look to have silver placed on an equal footing with gold; and the silver men promise to make it lively enough next winter to compensate for their present defeat.

BUFFALO, N. Y., July 1, 1879. To the Editor of the Courant: Having determined some time since to emigrate to your State I sent for copies of papers published in different parts of Kansas so that I might thereby gain an idea of the people and country surrounding the localities from which I received any newspapers. In looking over the advertising columns of your paper I have come to the conclusion that should I go to Chase county, myself and family would have to dress in harness, live on hardware, and when we died have a white bronze monument erected to our memory; hence, we will stay away from your part of the State. Respectfully,

We would inform the gentleman that although the appearance of our advertising columns would seem to indicate that the businesses he refers to are the only ones carried on in this city and county, we have in our midst groceries, dry goods stores, boot and shoe stores, clothing stores, meat markets, milinery establishments, cigar and confectionary stands, drug stores, a bank, a bakery, blacksmith and wagon makers' shops, etc., and that he can have all his wants supplied here about as well as he can back East. In this connection we would say that the advertising columns of the papers of this city look as if the business men were afraid some one would move into the county; and if all of them are to be judge by the talk of one, such is actually the fact. A few months ago we were soliciting an advertisement from a merchant of this city, and we said: "There is hardly a day passes in which we do not receive a letter or postal card from some one in the East asking us to send him a copy of the Courant; and what do those people want with the paper if not to determine whether it is published in a live locality, such as they would like to go to? and the business men ought to help in settling up the county, and not expect the newspapers to bear the entire burden of inducing immigration here." "Damn the immigration!" said he; "the more people we have the more stores we will have." Right here we would say that if there was more competition here than there now is the people of the county would not be driven to Emporia and elsewhere to do their trading, but would buy what they want of their home merchants, and thus build up their county town. Every other business man in the community will condemn the sentiments of the one to whom we have referred, while in practice nearly all of them are carrying out that same idea by withholding advertisements of their business from the newspapers.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST AND THE WEST!

Its main line runs from Chicago to Council Bluffs and Omaha, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brookfield, Clinton and Des Moines, the capital of Iowa, with branches from Bureau Junction to Peoria; from Junction to Muscatine, Washington, Fairbank, Eldon, Centerville, Princeton, Trenton, Galatin, Cameron, Leavenworth and Atchison; from Leavenworth to Oskaloosa, Eddyville, Oskaloosa, Pella, Monroe and Des Moines; Des Moines to Indianola and Winterport; Atlantic to Audubon, and Avoca to Harton. This is positively the only Railroad, which owns, controls and operates a through line between Chicago and Kansas.

This Company owns and controls their Sleeping Cars, which are inferior to none, and give you a double berth between Chicago and Council Bluffs, Leavenworth, or Atchison, for Two Dollars and Fifty Cents, and a section for Five Dollars, while all other lines charge between the same points Three Dollars for a double berth, and Six Dollars for a section.

What will please you most will be the pleasure of enjoying your meals while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining and Restaurant Cars that accompany all Through Express Trains. You get an entire meal, as good as is served in any first-class hotel, for seventy-five cents; or you can order what you like, and pay for what you get.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes (and the enormous passenger business of the line warrants this), we are pleased to announce that this Company runs its PALACE SLEEPING CARS for sleeping purposes. These PALACE DINING CARS for eating purposes. One other great feature of our Palace Cars is a

**WESTERN STAR CARRIAGES.**

Sedalia, Mo., 1879.

A full line of carriages, of first class material and workmanship, substantial and elegant, is now offered at prices to correspond with the times and with the decline in all other things.

A good, well made, stylish buggy, with leather trimmings, oil tempered springs, sarven wheels for \$110; With leather top and rubber back and side curtains \$150; A Phaeton with lamps and fenders \$180, and all other carriages in proportion. All fully warranted.

In nothing else has the decline in prices been so slowly accepted as in carriages. The dread of unsafe work, dangerous and dear at any price, has forced many to use carriages at very dear prices, or cling to the saddle.

But now, by the use of perfected machinery, we can furnish a carriage strong as the strongest and at a fair price. The Anchor Brand Axles and the Sarven Wheels insure strength, and all can see that they are getting in other respects just what they want.

We use the Anchor Brand Axles, the Sarven Wheels, Oil tempered Springs, the best Swedes Iron for the Iron Work and Second Growth Hickory for the Wood Work; and we offer a Buggy that will run with the greatest ease to both horse and rider, and that will out wear two clumsy vehicles made by ordinary workmen. We furnish just the article wanted and every test is wholly satisfactory.

Piano, Coal Box or Drop Front Buggies, as preferred. Agents wanted. Where there are none, we will give the first purchaser the agent's discount of 30 per cent.

Mode of buying: Deposit the price in the bank, and send us a certificate that you have done so, and the carriage will be sent as you direct. On its arrival, if you are not suited, you can return it by

paying the freights. The freight will be about the same as for 400 pounds, first class, between your place and St. Louis.

Clergymen and useful institutions favorably considered.

To CARRIAGE MAKERS: You know that if the wheels are "Sarven" and the axles "Anchor Brand" the strength is there. They are all right and the carriage is likely to be all right. We can furnish you a carriage made by the best machinery better than you can readily make, for less money. It is of the best style, materials and workmanship; but it lacks the hand finish given to the most expensive work. This you can add. You can take off the rubber curtains and put on leather; the paint has a solid lead body and you can rub down ten or twenty more coats; and then you will have an article better than your own, touched up to suit your customers, which will give better satisfaction and more profit than your own work. Try it.

THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of our people are worrying themselves almost to death over the vexed question, even to the extent of neglecting their business, their homes and their duties to their families, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka and Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming land in the world at almost their own prices. If you do not believe it write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.

W. F. WHITE, Gen. Pass. and Ticket Agt., Topeka Kansas.

VARIOUS CAUSES.

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action, and removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft luster and richness of tone it imparts. It contains neither oil nor dye, and will not soil nor color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous.

THE HANNIBAL AND ST. JOE.

Elegant Day Coaches, Furnished with the Horton Reclining Chair, will be Run Hereafter Between this City and Chicago.

The "Old Reliable" Hannibal and St. Joe railroad will hereafter run magnificent day coaches, furnished with the Horton reclining chairs, between this city and Chicago, without change, by way of Chicago, Burlington and Quincy railway. This is one of the most direct and safe routes to the East, and this step places it in the very first rank in point of elegance and perfection of accommodations. Without doubt it will early become the most popular line in the West with the traveling public. The Horton reclining chair is immeasurably superior in point of comfort and ease of management to all others now in use, and those placed in the Hannibal and St. Joe cars are of the finest workmanship and materials; but to the traveling public it is useless to speak of the excellence of these chairs. They have proved so entirely successful, and so fully meet the wants of the traveling community, that they have become a necessity. Mr. H. D. Price, the efficient passenger agent of the Hannibal and St. Joe road, in this city, furnishes the information that these day coaches will be placed on the road, this week. We commend this route to those going east, who wish to secure comfort, safety and expedition. -Kansas City Journal, Feb. 9.

J. P. Caldwell, H. L. Hunt and S. P. Young were appointed viewers on a road petitioned for by A. B. Moore and others.

It was ordered that the sheriff have the roof of the court-house painted.

There were \$ in county orders cancelled, and the County Treasurer given credit for the same.

FOURTH OF JULY.

Although a heavy rain set in on the evening of the 3d and continuing nearly all night, and the morning of the 4th was ushered in quite gloomily, long before noon the clouds dispersed and the Sun shot forth his resplendent rays on the 103d anniversary of the birth of American independence, and the day was fittingly celebrated by the people of this community. The rain of the previous night, while it rendered the grove more pleasant for dancing in the afternoon, made it very disagreeable for the morning exercises, and the speaking and singing took place in front of the court-house. It has been estimated that at least 2,000 persons were present on the occasion; and it is the prevailing opinion that it was the most successful Fourth of July celebration ever had at Cottonwood Falls.

After prayer by the Rev. John Taylor, and the reading of the Declaration of Independence by the Hon. C. C. Whitson, and a few National airs by the Cottonwood Falls Brass Band which was seated in a wagon drawn by four nicely decorated horses, and for which decoration Messrs. A. Z. Scribner and George W. Hays deserve great credit, the President of the day, Judge S. P. Young, introduced the Hon. Samuel A. Riggs, of Lawrence, who delivered a first-rate greenback speech.

The toasts on the programme which we published, last week, were responded to in a happy and eloquent style by the gentlemen selected for that purpose.

The singing by the Glee Club was good, as was also the music by the Band.

At the close of the morning exercises the crowd repaired to Dr. Carter's grove, north of the river, where swinging, dancing and other amusements were kept up during the afternoon.

At 3 o'clock, p. m., the Sycamore Guards, the most motley crowd that ever struck this town, came out of the court-house and formed in line of procession, headed by a band whose musical instrument were tin horns, cheese boxes, etc. Several banners with various devices and inscriptions on them were carried in the procession which was composed of both horse and foot. At the command of the Colonel the squad marched to the grove where the Sycamores' Declaration of Independence was read, and a patriotic speech delivered by one of the Guards, after which the guards marched back to town and dispersed.

At night the fire-works and balloon ascension came off, and there being very little wind blowing, the display was all that could be desired. The dance in the new hall was a grand success, there having been 127 tickets sold.

The picnic in Harry's grove on Diamond creek, on the Fourth, was not very largely attended, though those present had a very enjoyable time of it.

There was a nice little picnic in Crutchfield's grove on Buck creek, on the Fourth, participated in by a few families in that vicinity.

The picnic at Cedar Point was well attended and was quite an enjoyable affair.

There was a very pleasant picnic in Alford's grove on Rock creek.

The Sunday school picnic at Matfield Groves was very well enjoyed by those in attendance.

WHITE BRONZE

MONUMENTS AND STATUARY, MEDALLIONS, PORTRAIT BUSTS, & C.

Cemeteries, Public and Private Grounds.

A Few of the Advantages White Bronze Possesses over Stone Monuments and Headstones.

1st. Age will not impair their beauty.

2d. There being no deterioration in their value, you always have in these your money's worth; while with marble, or even granite, what you obtain at great expense, may, in a few years, become of little or no value, as defective headstones and monuments in every cemetery attest. It is not then the part of wisdom to invest where you will always feel satisfied with your purchase, and also give the same satisfaction to coming generations?

3d. The designs are far more elaborate and beautiful than can be made in stone at double the cost.

4th. Beautiful emblems full of meaning can be selected from our large list without extra cost.

5th. The most delicate lines and sharpest letters will not chip nor lose a particle of their beauty.

6th. The inscriptions, without additional expense, are all in raised or black letters which can not be broken off, even with an axe; while the action of the frost and constant disintegration on raised letters of stone ultimately obliterates them.

7th. The Tablets are changeable, and the old can be removed for new as occasion requires, with but trifling expense. Purchasers of these monuments do not need to seal for a stone cutter to carve the inscriptions, and cutting from five to ten dollars extra—simply send for the inscription plate, giving the number of monument and tablet required which will come by express; then with the aid of the socket wrench (which comes with every monument) the old tablet can be taken off and replaced with the new, and not requiring the labor of five minutes; then return the old tablet to the manufacturers and receive credit for it.

8th. Our monuments being Double Fronts or Shafts, inscriptions can be put on the backs as well as on the fronts, and thus do for two or even four graves.

9th. The Shaft Monuments have from four to eight Tablets. All are filled, when made, with inscriptions, mottoes, or emblems, which can be removed as desired without marring the beauty of the monument.

10th. The price, we think, will average about the same that marble is usually furnished. If Stone Monuments were as beautifully carved, as the White Bronze are moulded, they would cost double the price of many of our designs. The durability of the White Bronze Monuments enhance their value to that of stone beyond comparison.

11th. They are easily—and if properly set, are as firm as if grown to the earth, and as enduring as the everlasting hills.

12th. They are boxed and shipped complete to set in cemetery, and not being as heavy as stone are more easily handled, and freights much less. In fact they have all the virtues without the vices of all monuments of stone, and we now offer them truthfully and conscientiously say without fear or favor, and back it by scientific facts, as well as historical data, that the White Bronze Monuments are the BEST IN THE WORLD.

Thousands of purchasers already bear witness to the above. For full particulars call on or address,

JOHN HOWARD PAYNE.

On hearing a young lady speak of "Home, Sweet Home," these lines were written in memory of John Howard Payne:

John Howard Payne, you sang a strain That cheers each human breast; That song sublime, in every clime, The wide world's hymn of rest.

That cherished spot is ne'er forgot, However far we roam; By sea or land, on desert's sands, The heart turns back to home.

Blest bower of peace where troubles cease, And weary wanderers come To find at last, when war has passed, Rest, happiness and home.

Oh, play for me that matchless strain, Let music banish gloom; Charm me, to-night, with song's delight, And sing me "Home, Sweet Home."

Dear gem of earth, where life had birth, And love and hope were given; My mother's home where angels come And whisper: "This is heaven."

TRIX.

"Do you know where Miss Beatrix is?" There was something sharp in Mr. St. John's glance as he questioned little Rosetta, his cousin's niece.

At the end he stopped before descending the steps, and looked down the broad garden path. He saw plainly the group there under the acacia—a regally beautiful young lady in purple silk, two dark-eyed young men leaning upon her lap, a young fair-complexioned man standing so as to overlook the book upon which the eyes of all were fixed.

Descending the steps, he advanced slowly, never removing his baleful gaze until he came face to face with the young lady. She looked up. First surprise, then observation, then offense showed themselves in her mobile countenance.

"I wish to speak with you, Trix." "Certainly, as soon as I am at leisure. Go on, Reginald."

"It is Max's turn now," responded the elder of Miss St. John's young brothers. She turned the book in her lap so that Max could continue his reading of German. A lurid flush of anger overspread her cousin's florid face.

"Come, Reginald, to your dinner," said Miss St. John. "Come here a moment, Trix." The boy stood at the drawing-room window with his toy telescope.

"What?" "Trix lifted the glass quickly. She put it down the next moment, while as a rose, every nerve strung tight. The tide is coming in! He is prisoner indeed! He will be drowned!"

"Encourages whom if you please?" "The blond. He watches for a chance to speak to you day or night, and you know it!"

"A color like the red glint of an opal came into Trix St. John's oval cheeks. She did not speak. Her cousin's watching eyes saw this. He frowned over."

"Stop, if you please." "I beg your pardon, muttered the other, sulkily. 'I did not quite mean that. Come, Trix, give up those German lessons, or give that blond his walking papers. To please me," he added.

"I cannot please you in this matter, Forrest." "He checked an angry answer. 'It is desirable that the boys have early lessons in German. And I know of no reason why Mr. Paul Le Blond should have his walking-papers, as you term it.'"

"If you don't dismiss him, I shall, Trix." "By what authority?" "By the authority of my relationship and right to prevent you from throwing yourself away on a poverty-stricken fellow who nobody knows."

"I do not think that I shall wed Mr. Le Blond until he asks me," with a curious smile. "He'll soon have the impudence to do that, with the encouragement you give him."

Miss St. John's fine black brows had contracted, and her natty curls touched a burning color in her cheeks; and when her cousin added, "You mean to marry him, but by heavens you shall not!" she stopped in the path.

"Forrest," she said, "I hate reproaches and recriminations, but there is no other way with you. You who are not fit to govern your own life, shall not be allowed the government of mine. You have squandered the fortune my father left you; you are my cousin, and by courtesy, my guest. You are nothing more. You shall be permitted no authority over me. The law gives you none, and I will not submit to your interference in my affairs."

affairs, of course. You can marry whom you like." He turned away with a downcast countenance and boiling heart, leaving her to go alone to the house. Trix entered the great hall of Fairfields alone. The color of her face had faded, and she went up to her chamber. There the beautiful hot cheeks cooled slowly. Her face grew calm and introspective.

"Sweet Paul Le Blond, watch for my coming? Does he love me? He is a loyal, true-hearted gentleman and a noble fellow. The confession she made under her breath brightened again the dreaming eyes, crested the beautiful head.

Down the avenue walked Forest St. John, gnawing a white lip. "I'll conquer her yet. I mean to be master here. She shall marry me!"

Paul Le Blond sat alone in the school room. The boys, permitted a half holiday, had gone to town with their ponies. Beatrix had gone with them on her graceful filly.

Paul Le Blond held a book in his hand. It was opened where a knot of rose-colored ribbon was laid between the pages. He closed it quickly at sound of a step at the door. Mr. St. John entered.

"Miss St. John wishes you to go to the Corners and get the German books for the boys she was speaking of last evening," he said in the ungracious way in which he spoke habitually to the tutor of his young cousins.

"Certainly," replied Paul, rising with alacrity. He was lithe, active, graceful, his fair spiritual face in strong contrast with St. John's over-indulged and sensual shape. The other hated him for the clear, dark-gray eyes, which always looked into his without flinching.

"You will have to go and return along the shore. Miss St. John wants you to return before 2," he said, turning from the room, as Paul, with a smile, reached for his hat.

Along the shore, the little waves were rocking in the sunshine. The tide was out so that he went down in the sands to see their sparkle and white-fretting about the rocks. The beach-birds twittered sweetly. He enjoyed it all, as only pure, fine souls can.

But when he came back the tide was thundering in, loud and strong. The yellow frothing surges swept up to the feet of the cliffs, which they had so far abandoned two hours before. Suddenly he found the way impassable. He turned back in surprise and bewilderment.

The water had washed out his path. He was hemmed in. Forrest St. John received the riders cordially. Even the careless boys observed and wondered at his graciousness. But it was certainly pleasanter than his usual surliness. They were about to dine.

"Where is Mr. Le Blond?" asked Beatrix. "Come to the woods for botanical specimens, I believe," replied her cousin. She saw a little, quick smile of his a moment later, but could not read it.

"Come, Reginald, to your dinner," said Miss St. John. "Come here a moment, Trix." The boy stood at the drawing-room window with his toy telescope.

"What?" "Trix lifted the glass quickly. She put it down the next moment, while as a rose, every nerve strung tight. The tide is coming in! He is prisoner indeed! He will be drowned!"

"Encourages whom if you please?" "The blond. He watches for a chance to speak to you day or night, and you know it!"

"A color like the red glint of an opal came into Trix St. John's oval cheeks. She did not speak. Her cousin's watching eyes saw this. He frowned over."

"Stop, if you please." "I beg your pardon, muttered the other, sulkily. 'I did not quite mean that. Come, Trix, give up those German lessons, or give that blond his walking papers. To please me," he added.

"I cannot please you in this matter, Forrest." "He checked an angry answer. 'It is desirable that the boys have early lessons in German. And I know of no reason why Mr. Paul Le Blond should have his walking-papers, as you term it.'"

"If you don't dismiss him, I shall, Trix." "By what authority?" "By the authority of my relationship and right to prevent you from throwing yourself away on a poverty-stricken fellow who nobody knows."

THE FAIR SEX.

The News says Cloverport, Ky., has pretty girls of "the real, genuine, warranted to wash and hold color kind."

The Middletown Register finds New England mosquitoes looking over hotel registers to see what rooms are taken. The Breckinridge (Ky.) News says: At a fete in Frankfort, last week, a lady ate \$5 worth of the good things for the benefit of the church.

A Chicago man's nightmare turned out to be the shadow of his wife's foot on the bed-room wall, instead of an unearthly monster with five horns. A bursting soda-water fountain killed a North Carolina man a few days ago. Young women, beware how you lead young men up to a loaded soda-fountain.

The young ladies of Waterloo, N. Y., the Observer says, are seeking renown by taking long walks. Several of them are credited with journeys of ten and twenty miles. The hobby of the Empress of Japan is silk raising. She has a silk manufactory within the bounds of the imperial palace, and many distinguished ladies co-operate with her.

Whenever a woman does a wicked or a foolish thing, the newspapers designate her as beautiful and accomplished. Perhaps that is the reason why some good, homely women become bad. A girl who keeps her sweet temper and good looks up to twenty-five is apt to retain them to old age. All right, but just trot out the girl who will own that she's anywhere near twenty-five.

The State Constitution lately adopted in California contains this section: No person shall, on account of sex, be disqualified from entering upon or pursuing any lawful business, vocation or profession. The second sale of Queen Christina's jewels has produced \$1,300,000. One pair of \$8,400 sapphires and 11 brilliants sold for \$8,420; and a magnificent necklace, containing 529 pearls, brought \$14,860.

A Logansport woman wants a divorce just because her husband goes to bed with his hat and boots on. And now we ask, in all reason, does the woman want a man to go to bed in this weather with a pair of articles and a pair of boots on? Isn't a hat and a pair of boots enough? At lady Dudley's children's party in London recently, each of the Princess of Wales' children was presented by the host with a cracker which, on being opened, was found to contain a little narrow brooch of diamonds and pearls. The rest of the children not belonging to the royal family were naturally left in the cold.

A lady, not accustomed to raising poultry, set a hen on some eggs, and in due course of time a brood of chickens was hatched. A friend, coming in four days afterwards, noticing that the little things looked weak and puny, asked how often they were fed? "Fed!" was the reply, "why I thought the hens nursed them."

One Word Covers the Advice Which should be given to nervous, slender, delicate, nervous, and nervous, and nervous, opiates, opiates, opiates, are comparatively useless. The system must be built up with a genuine tonic in order to the recovery of vigor and tranquility by the nerves. A course, systematically pursued, of this medicine, will restore the system to its normal condition. Hostetter's Stomach Bitters, should be resorted to by those who suffer from weak nerves and general debility. The stomach, always more or less dyspeptic in cases of nervousness and loss of vitality, is toned and regulated by this medicine into the organ acts with a precision akin to that of a steady-going piece of mechanism. Complete digestion and assimilation of the food is the result. You may be sure, therefore, that the medicine will be of great benefit to you. It will give you a good appetite, and will make you feel like a new man. It will give you a good appetite, and will make you feel like a new man. It will give you a good appetite, and will make you feel like a new man.

Chickens of uncertain age that have just escaped the annual sale of spring pullets are again unhappy at the near approach of camp-meeting season. Since the creation, it is estimated that 27,000,000,000,000,000 have lived on the earth. This sum divided by 27,864,000 the number of people that now exist, 1,000,000,000 of whom are invalids, 33,000,000 dying each year. What they most want are the facts concerning Dr. Pierce's Family Medicines. For years his Golden Medical Discovery has been the best remedy for the cure of all scrofulous, throat and lung diseases. While for over a quarter of a century, Dr. Sage's Catarrh Remedy has been unrivaled as a positive cure for catarrh. It is the best medicine for the cure of all scrofulous, throat and lung diseases. THESE BITTERS

are a preparation of such BARKS, ROOTS and HERBS of which the Prickly Ash constitute a leading part, that enter into the prescription practice of all regular physicians, the extracts of which being held in solution in pure Holland Gin, and are therefore a valuable Diarrhoeic, as well as a tonic and a cathartic. As these Bitters are the deduction of over thirty years practical experience by Dr. Sherman himself, whose reputation as a physician no one who knows him will gainsay, we feel safe in recommending them to you as an invaluable remedy for the prevention of CHILLS and all diseases arising from a disordered condition of the Stomach and Bowels, Dyspepsia and General Debility of the System. They are not a beverage, and can not be used as such, but a real medicine and if used with prudence and whenever the system indicates impairment, they will effectually prevent contraction of Chills and all malarial diseases. But should the MALARIAL FEVER, a preparation adapted to the Disease, to break it up, then afterward the Bitters in such quantities as the system may need, until the health is fully restored.
