West Texas-Partly cloudy,

An oil showing at a depth of 2,296 feet in the Watchhorn-King No. 1, encountered about 9:00 o'clock Wednesday night is believed to have extended the McMillan pool some two miles to the southwest and brought it nearer Ballinger, according to the opinion expressed here Thursday by oil operators who viewed the well and samples of the oil which covered the slush-pit.

This well is being watched very closely by West Texas operators and it is believed a sand will be struck a little deeper that will produce more oil. At present it is estimated the well is good for about 20 or 25 barrels daily. Each bailer, and the well is making three or four bailers of water hourly, is bringing up five or six gallons of the oil.

The date was set following a long conference between Murdock, Federal Judge Ira L. Letts, and Attorney John P. Hartigan, counsel for Conley. A motion for reduction of the \$50,000 bail under which Conley is held was denied and indications are that Conley, who has been unable to furnish bail in this amount, will remain in jail until his trial.

It was intimated that George "Red" Savage and Daley, also charged with the robbery, will also be tried at the same time, although no definite Statement to this effect is forthcoming from federal officials. The fourth member has been secretly indicted but has not been apprehended.

Maybe you have a High Compression Motor-RIGHT NOW

THERE are two kinds of high-compression motors. In one the compression ratio has been raised purposely by the car manufacturer to produce more power; the other is a high-compression condition caused by the natural formation of carbon in the combustion chamber. This condition exists, to some extent, in every motor.

But in either case there is one best fuel to release the full power caused by high compression. That fuel is Winter Conoco Ethyl Gasoline, the super-gasoline that knocks out the "knock," turns carbon into power and assures a smoothrunning motor at any speed and under practically all operating conditions. It gives the extra pull you need for snow and slush and muddy roads. It is the last word in motor fuels.

Drive up to a Conoco Ethyl pump-and convince yourself.

Flood Provides Thrills in Film at the Queen

Down the seething torrents to berty and new life-just he and he. Their craft a log. No rudder, no sail, no engine but freeom at the perilous journey's That's the dramatic climax

found in Karl Brown's novel Paramount picture, "Stark Love," -79c which closes a two day run at the \$1.98 Queen Theatre tonight. The hero is thrown from his father's ome into the flooded creek when he opposes his father's indomitable will by pleading for the young girl his father has taken to wife. Seeing the boy, unconscious, clinging to a spar in midstream, she grasps an ax and fights her way out the cabin. Then-but to tell more would 88 spoil the enjoyment of a good
