300 Homeless After Deluge In Kansas

(By International News Service)
HAYS, Kans., July 30.—Big Creek, transformed into an angry river by week-end deluges, went on a rampage early today, and a third of this town is under water, and more than 300 families are homeless.
Damage is estimated at running into the hundreds of thousands of dollars. No loss of life has been reported, but it is feared that there is some.

Plot Against War Minister Is Frustrated

(By International News Service)
BERLIN, July 30.—An attempt to assassinate Marshal Pilsudski, Polish minister of war, was frustrated through the discovery of a time bomb in the Polish army office, according to private advices from Warsaw today.
The bomb was in a package addressed to the marshal. Dispatches said that the affair was kept secret in Warsaw and when it leaked out it was rumored that Pilsudski in a rage shot a soldier on guard at the office.

Name Chairmen Of Precincts

J. F. Lusk and Edwin Day were elected chairmen of the precinct Democratic committees of precincts Nos. 1 and 24, respectively. Interest in the election of officials to these posts was lagging, there being only a comparatively small proportion of the voters indicating a preference for the position.
A. O. Strother was re-elected chairman of the county executive committee without opposition.

ASBESTOS COVERING FOR CALIFORNIA HILLS MAY PREVENT FIRES

(By International News Service)
LOS ANGELES, Calif., July 30.—An "asbestos" covering for the foothills of California to eliminate the menace of brush fires is a possibility.

The declaration is made on the authority of Fire Chief Ralph Scott, who witnessed the tests of a new plant importation at the California botanic garden at Mandeville Canyon.

While the plant is not exactly composed on the order of asbestos, plant scientists convinced Chief Scott that it is equally as effective as far as its non-burning qualities are concerned.

Newly arrived from South Africa, the asbestos plant answers to the formal name of portulacastrum and thrives on the arid slopes which makes it particularly well adapted for introduction to the foothills of southern California.

The plant is composed almost wholly of water and is an evergreen that is unaffected by dry seasons.

The plant spreads rapidly and in addition to its qualities as a ground cover it is declared, by Chief Propagator M. L. Bryan of the botanic garden, to be excellent for cattle feed.

Burns Willburn left Monday morning for Llano, where he will make his home.

Broad, white lines have been painted on downtown intersections for the benefit of pedestrians. Somebody ought to tell the motorists what they are for.
—Sioux Falls Argus-Leader.

CLARENDON—Donley county farmers have sold \$50,000 worth of hogs since March 1st.

Polar Explorer Defends Nobile

(By International News Service)
BERLIN, July 30.—Professor F. Behound Czozions, Czechoslovakian meteorologist and member of the ill-fated Nobile expedition, arrived here today, and stoutly defended the conduct of General Umberto Nobile, leader of the polar voyage.
Prof. Czozions said that he and Nobile parted better comrades than ever. He attributed the disaster to an unexplained gas leakage, and denied that ice formations on the top of the balloon was the cause.
He had Nobile rescued first because he was the lightest and suffering with wounds, he said. Czozions was scheduled to be taken off the iceberg by aviators, but Lundberg was taken first because the former was too heavy.

County Agent Advises Use Of Worm Poison

Rains are what we want but sometimes we get things we don't ask for. After these showers there is a probability of getting a leafworm infestation.

However, farmers should not become unduly alarmed over the prospects of the pest.

Preparatory arrangements to get poison in large quantities have already been made by the Farm Bureau and the county agent's office cooperatively. This poison—calcium arsenate—in car load lots can be bought at very reasonable prices. We want the farmers to have the advantage of the very best prices available. The Farm Bureau and the county agent's office are anxious to render all possible service along this line. This service is yours for the asking.

If the leaf worms should show up, notify at once, Frank Kemp, president of the Farm Bureau, or C. W. LEHMBERG, County Agent, Ballinger, Texas.

Silver To Die On September 3

(By International News Service)
FT. WORTH, July 30.—J. R. Silver today was sentenced to die in the electric chair September 3 for the murder of Roscoe Wilson, cashier of the Majestic Theatre of this city.

Petitions asking the governor to extend commutation to life imprisonment are being circulated.

JACK HOLT'S POLITICAL ASPIRATIONS COLLAPSE

Jack Holt received 21 votes for justice of the peace of this precinct, the official election report from Ballinger boxes revealed. This fell many times short of the total polled for Judge C. W. Willingham, incumbent, and it is rumored that Holt has definitely decided to withdraw from politics.

It is also rumored, with grounds for authenticity, that Joe Huffman was his campaign manager. Holt has confidentially indicated that the explanation of his defeat is traceable in part to his association with Huffman.

Now that an explosive having thirty times more power than TNT has been perfected, maybe we'll be able to open some of those car windows with it.
—Louisville Times.

Here's a List of "Dont's" For Hot Weather Bathers

Appalling Loss of Life by Drowning Due to Carelessness

By JAMES Y. KEENE
International Illustrated News Sports Editor

AROUSED at dispatches telling of the death by drowning of more than half a hundred persons over the Fourth of July holiday, Olympic swimming experts have prepared a list of "don'ts" designed to reduce the number of fatalities.

Almost every case of drowning at a lake or beach can be prevented if bathers exercise ordinary precautions, these officials declare.

Here are the rules laid down: Do not enter the water while overheated. If overheated when you reach the beach or lake, get into a bathing suit and relax in the shade until cooled off.

Do not enter the water after a meal. Wait at least an hour, preferably more, after eating. The stomach should be assisted in digesting the food.

Do not go beyond your depth. This is important for all swimmers and absolutely essential for beginners.

Do not take chances with undertows. These usually are marked out, or at least indicated at the beaches. If not, and you feel yourself in an undertow, get out of it.

Do not lounge in the sun in a bathing suit. Sunstroke, dizziness and headaches caused by over-exposure to the sun are among the most common causes of drowning. Stay in the shade when not in the water, or wear a hat to protect the head from the sun's direct rays.

Do not get out of bathing distance of other bathers.

Do not confuse silliness with bravery.

Here are two pictures of Gertrude Ederle, star swimmer, illustrating her effortless grace in the water. Above, "rescuing" her brother; below, demonstrating the arm stroke. (International Illustrated News)

ery. Don't think it makes you look brave to take unnecessary chances. It merely advertises to the world how silly you are.

Do not show off. More than half the drownings every year result from misguided attempts to impress others with the skill and courage of the swimmer. Be natural. Be careful.

Parnell Will Blanton Out Back Miller for Connally

(By International News Service)
AUSTIN, July 30.—J. D. Parnell, eliminated as candidate for lieutenant governor, today announced that he will support Barry Miller, incumbent, in the August primaries.
Parnell's statement expressed confidence in Tom Love's honesty, but declared that he doubted the wisdom of bolting the national ticket.

MULE BOAT CREW HOLDS BASKETBALL CROWN IN ALGERIA, FISHER SAYS

(By International News Service)
COLUMBIA, Mo., July 30.—An American basketball five, recruited from the ranks of a mule boat crew, holds the championship of Algeria.

Charlie Fisher, Missouri University wrestling coach, with some thirty others, many of them college graduates embarked from Norfolk, Va., in April on the Italian steamship Monarca, to act as "nurse maid" to a shipment of 1400 Missouri mules.

While in Algiers Coach Fisher, and a group of the young collegians with him went to a local gymnasium for a workout. There they witnessed a basketball game between two of the leading teams of Algiers. After watching the performance Fisher decided to recruit a quintet from the members of the "muleteers."

After a few preliminary workouts, a game was booked with the champions of Algiers, the Americans teaching the foreigners a few fine points about the game that originated in America.

Mr. and Mrs. Charlie W. Tibbs and son, of Dallas, are here for a visit with Mrs. Tibbs' parents, Mr. and Mrs. W. D. Gregory.

Mrs. J. A. Baker and little daughter are visiting in Strawn this week.

DODSONVILLE—Farmers between Wellington and Dodsonville are soon to be served by a low voltage high line.

(By International News Service)
DALLAS, July 30.—Congressman Thomas L. Blanton, defeated in Saturday's primaries for the nomination for United States Senate, congratulated his colleague, Tom Connally, who enters the run-off next month with Senator Earle Mayfield.
Blanton's telegram to Connally read: "You have made a gallant fight. Victory is yours. I congratulate you. Our unbroken friendship of thirty-three years is still intact. I am for you and command me if you need my services. I hope all my friends will support you. Blanton."

POLICE DOG SUMMONS HELP WHEN FAWN IS FOUND UNABLE TO GO

(By International News Service)
NORTH COLEBROOK, Conn., July 30.—Palva, husky German police dog, adopted a two-weeks old fawn this summer and when the fawn had the misfortune to break a leg, the dog nursed it and watched over it until the injury healed. The dog belongs to Frank Humphrey, a local farmer, and dog and fawn formed the central point of interest for motorists who flocked from far points to gaze at the two lying on the lawn, or romping together in the Humphrey dooryard.

Humphrey found the fawn in a hay-lot, helpless because of its age. He carried the animal home and fed it with a nursing bottle. The dog watched with interest, and guarded the animal. Only the dog knows how the broken leg occurred, and all he could do was summon his master. Humphrey sent to Winsted for a doctor who came out and set the fawn's leg.

Mr. and Mrs. L. C. Adair have returned from a visit of a week with relatives and friends at Commerce.

SEAGRAVES—The Seagraves Chamber of Commerce has been reorganized and has started a constructive civic development program.

Forty-Six Are Injured In Limited Train Crash

Angelo Airport Hangar Planned

SAN ANGELO, July 30.—Bids will be received by the city of San Angelo on Tuesday, August 7, for the erection of a hangar, 80 by 100 feet, at the municipal airport five miles southeast of the city. The field comprises 250 acres of land, and will be equipped to take care of all needs of aviators and their planes.

The building will have an opening 80 feet wide by 18 feet high, provided with conveniently operated doors, and will meet all specifications of a class "A" hangar as described by the aeronautics branch of the United States department of commerce.

Members of the aviation division of the San Angelo Board of City Development are cooperating with the city officials in working out plans for the equipping and maintenance of the airport.

Perry Elected Commissioner Of Precinct 4

R. A. Perry received a clear majority over both his opponents, Henry Goetz and Ed Kornegay, in the race for commissioner of precinct No. 4, a recount of the reports of election clerks in the office of County Judge Paul Trimmier revealed Monday. Mr. Perry had a total of 432 votes, while both his opponents registered 403, with all reports complete, with the exception of Brookshire, which was not counted in the foregoing figures, as the box was still out.

However, Brookshire polled only 24 votes, 16 of which went to Perry, according to reliable reports. The election returns will be officially canvassed Saturday by county Democratic executive committee.

Davis Cup Is Won By French

(By International News Service)
PARIS, July 30.—The Davis cup remains in France.

Henri Cochet made that certain today when he defeated Bill Tilden, American tennis star, in straight sets, with a score of 9 to 7, 8 to 6, and 6 to 4, giving the French three of four matches already played and assuring their victory.

Mrs. Dick Hodges, of Seminole, Oklahoma, and Miss Myrtle Seralley, of Healdton, Oklahoma, who had been visiting in the home of Mrs. Hodges' parents, Mr. and Mrs. W. S. Yancey, here, have returned to their homes.

THE WEATHER
(By International News Service)
West Texas—Partly cloudy.

(By International News Service)
SAN FRANCISCO, July 30.—Forty-six were injured, eight critically, when a crack limited train of the Southern Pacific Railway crashed into the observation car of a special train standing at the depot at Cortona. A check-up revealed that the special carried 170 prominent attorneys from all sections of the United States with their wives and families, returning from a convention of the American Bar Association.

America Faces Low Record In Olympic Feats

(By International News Service)
OLYMPIC STADIUM, Amsterdam, July 30.—One of America's most disastrous days in the Olympic competitions was climaxed this afternoon when Frank Wykoff, Glendale, Calif., school boy, could do no better than fourth place, while Bob McCallister, "man of destiny," was sixth and last in the 100-meter final.

Williams, of Canada, won first place; Lomber, an Englishman, second; and Lamberg, of Germany, third.

America had hard luck when Bracy, of Rice Institute, Houston, Texas, and Russell, were shut out in the semi-finals in the 100 meters contest. In the women's 100-meters the United States qualified only Elizabeth Robinson, of Chicago.

In spite of the day's disasters, America is still leading her nearest competitor, Finland, 3 to 1, in points.

Former Solon Of Texas Dies

(By International News Service)
FT. WORTH, July 30.—Scott Woodward, former highway commissioner and state senator, died here this morning.

WE THANK YOU

We wish to extend expressions of thanks and appreciation to the hundreds who showed us every consideration Saturday night while we were in the midst of an election special. Direct assistance was rendered us by several persons, and our sincere gratefulness goes to them, and we equally thank those who exhibited thoughtfulness in not interrupting work of the staff.

It is an expensive and responsible undertaking for an organization and plant the size of this to turn out a complete election service edition, and have it on the streets several hours in advance of any state paper, and it is a task that would be next to impossible without the liberal co-operation of the public. As before, the people were remarkably thoughtful, and only a minimum of interruptions was experienced.

In addition to tabulating results, there are dozens of other tasks for a newspaper force

during elections. Hundreds of subscribers call in for information by telephone, and every effort is made to serve in this manner. Many persons who are deeply concerned with the outcome of the election even endeavor to ferret prediction and encouraging political analyses.

CORRECTION

The advertisement of the Hicks Rubber Company appearing the special edition of The Ledger Sunday carried a description of a 30x3 1-2 Dayton Thorobred black cord tire, priced at \$6.95. The price should have been \$7.95, inasmuch as the tire wholesales at \$8.15, less 2 per cent discount, managers of the local Hicks establishment declared, but they are selling it at this new low price because of the 100,000-tires-per-week sale now in progress.

U. S. Dry Laws Is Knocked By Court Decision

HAMILTON, Bermuda, July 30.—The enforcement of American prohibition received an indirect setback here when Capt. William Watt, of Brooklyn, New York, master of the Panamanian schooner George Edward, was acquitted by a jury in the Supreme Court of a charge of making a false and fraudulent declaration in obtaining his clearance papers from the collector of customs at the port of St. George's.

In 1921, the Bermudian government had an act passed in colonial parliament, making it an offense to carry liquor, other than ship's stores, on board any vessel bound from Bermuda to an American port. To get around this law, the masters of rum-running schooners would clear for a Canadian port and then discharge their cargoes "at sea."

Asked Court Opinion

It was to have this practice declared illegal by the Supreme Court, and so check the flow of alcoholic beverages from Bermuda to the United States, that the Bermuda government directed the attorney general, Lieut. Col. the on. T. M. Dill, O. B. E.,

M. C. P., to prosecute Captain Watt in a test case.

Captain Watt was arrested on June 7, and held for the Supreme Court. He was released on bail bonds signed by Fred Burrows, of the firm of John F. Burrows & Company, wine merchants, but was forced to wait in Bermuda for the Trinity Assizes, which are now in progress.

The Crown showed that Captain Watt, on May 21, had obtained clearance papers for the Port of St. Pierre, Miquelon, and had sailed with a cargo of 153 bags, each bag containing 12 bottles of Scotch whiskey—nearly 2,000 quart bottles of liquor.

Returns Without Cargo

On June 1, the Crown showed, Capt. Watt had re-entered the port of St. George's without cargo, as having come "from high seas," without ever going to St. Pierre.

The defense, conducted by a former local magistrate and one of the foremost legal experts in Bermuda, Major the Honorable R. D. Appleby, contended that the Crown had no proof of false clearance nor intent to commit fraud. Captain Watt had cleared for St. Pierre with the presumptive cargo "at sea," and hence was under no necessity to complete his originally intended voyage. There had been no attempt to conceal these facts from the St. George's collector of customs, nor to lead him to believe that Captain Watt had actually gone to St. Pierre.

At this point, Chief Justice Sidney O. Rowen-Hamilton, stopped the trial and directed the jury to return a verdict of not guilty from the jury box, which was done.

The decision upholds the right of a master electing not to proceed to the destination for which he had cleared when circumstances made such action desirable. Bermuda, therefore, retains her position as the base nearest New York for the replenishing of rum-runners' stock in trade.

The United States consul, Major Robertson Honey, representing the United States government, and the colonial secretary, the Hon. Herbert Henniker-Heston, C. M. G., representing the executive of the colonial government, were among the interested spectators in the court room.

NEW FOOD DISCOVERY MAY SAVE FARMERS FROM FEEDING PIGS

(By International News Service)

BERLIN, July 30.—A chemical process to produce pork from wood, via the pig, has been discovered by Friedrich Bergius, the famous Heidelberg scientist.

Bergius is the discoverer of the process to make artificial gasoline from coal. This process is already being used on a commercial scale in Germany and will be tried out in America by the Standard Oil Company this summer. He announced his new food discovery at a lecture before the German Society of Chemists at Dresden.

The discovery was made during experiments to produce artificial coal. It took nature millions of years and geological upheavals to turn wood into coal. The same end was obtained in the laboratory in a short time by exposing wood to a terrific pressure of steam—12,000 pounds to the square centimeter. High grade coal was the result. Even the dangerous gases which cause coal mine explosions were produced.

These experiments also revealed a way, however, to extract digestible carbohydrates from the wood. Carbohydrates are foods, such as sugar and starch, which serve to build up flesh.

If the new Bergius process, which so far is still only a successful laboratory experiment, should prove capable of commercial application, experts believe that it would open up entirely new methods of supplying the nation with food.

In Danbury a man was hit on the head with a box of dynamite and nothing exploded but his vocabulary.—Hartford Times.

DOES THE SHOE PINCH?

The shoe bill pinches all but the favored few—so does the new shoe.

Why not give your feet a real treat and buy new soles from our shop, instead of new shoes?

They will look as good as new and feel better. There is as much difference in the quality of Resoles and the skill in applying them, as between good and cheap new shoes—more perhaps.

Skilled workmen in our shop, rebuild shoes with the most modern shoe factory machinery.

Hard, flinty, heavy weighing, acid, swelled, thick soles are dear at any price. In our shop, we resole with the same weight of leather that your shoe was originally built to carry. We do not "cobble"—we rebuild.

If you look in your closet tonight you will probably find several pairs of shoes needing new soles or new heels.

Bring them in to us and save the price of a new pair of shoes.

To Quit Making Half Dollar In All U. S. Mints

(By International News Service)
DENVER, July 30.—Half dollars, like silver dollars, will be unknown within a few years, according to Robert J. Grant, "boss" of the United States mints, who was recently on a visit here. The smaller paper dollar bill, soon to be placed in circulation, will accelerate the exit of the silver dollar, and, according to Grant, people would rather have two quarters than one fifty cent piece.

"No half dollars have been coined in the east in the last six years," said Grant. "The coinage of silver dollars has almost stopped too. We did coin between 3 and 4 million silver dollars at San Francisco and Philadelphia during the year that ended June 30 last, but that was not many as compared with the amounts coined in former years."

Silver Dollar Out
"Two years ago we tried to popularize the use of silver dollars in the East. We put 10 million silver dollars in circulation but they were all back in the banks in a few weeks. The people just won't use them, and now half dollars are seldom seen in the East although you will see a few in the West."

"We tried to popularize the silver dollar because it costs the government less to keep silver money in circulation than it does paper money. It costs 3 cents a year to keep every paper dollar bill in the country in circulation, whereas it costs less than 1 cent to coin a silver dollar and a silver dollar won't wear out and need replacing as a paper dollar will."

The holiday season is when most currency is needed, according to Grant. Ninety-five per cent of the money distributed by the mints of the nation is distributed during the last three months of the year.

Mints are Busy
The Eastern mints are, as a rule, busier than the Western mints. Ninety per cent of the money in circulation is east of Chicago. Money is usually coined in the section of the country where it will be put in circu-

lation. Transportation of coined money is expensive.

During the past year, 120 million dollars of double eagles, 20 dollar gold pieces, was coined at the Philadelphia mint. Most of this gold was exported, between 80 and 90 million dollars going to Argentina alone.

The Denver mint has coined nothing larger than quarters during the past year, said Grant.

MOVIES

Tom Meighan's Latest Called Best of Series

"We're All Gamblers," Thomas Meighan's new Paramount picture directed by James Cruze, opened this afternoon at the Palace Theatre. Life's ups and downs in a big city and the thread of a love which weaves it together and makes it worth while are vividly portrayed in this new Meighan offering.

The story is different and gripping. It was originally a stage play, "Lucky Sam McCarver," by Sidney Howard, but it has been developed and made stronger for the screen by Hope Loring. James Cruze, maker of "The Covered Wagon," and "Old Ironsides," has done a splendid job of direction.

It moves. From start to finish come a succession of surprises. A strong comedy vein is furnished by redheaded, freckle-faced Spee O'Donnell, while Gunboat Smith deserves full credit for all the laughs he injects. Marietta Miller, leading woman, is the brunette beauty brought from Vienna several months ago by Paramount. This is her second American picture. After seeing her the prediction is ventured that there'll be many more of them. She's a comer.

Rarely in his career has Mr. Meighan been called upon for such a variety of performances. They range from comedy to tragedy. Through it all he seems to be actually living the part.

In fact, in spite of the series of successes this star has turned out over a period of years, we have no hesitation in calling "We're All Gamblers" one of his best.

Mrs. E. R. Walker has returned from a summer vacation trip with Mr. and Mrs. Lawrence Boynton, of San Angelo. The party toured Colorado.

SHEPHERD THANKS HIS LOYAL FRIENDS

I am deeply grateful to all of my loyal friends for their highly valued support. I appreciate from the depths of my heart all that they have done for me. I shall never forget them. I have the deep satisfaction of knowing that those who have known me the longest supported me. To those who did not support me I have no resentment, you have chosen another to enforce your laws by a decisive majority and I shall join you in helping to see that this is done, from the ranks of a private citizen.

On January 1st next, when my present term of office expires, it is my purpose to engage in the general practice of law at my office over the Ballinger State Bank, where I have been for nearly eight years.

I accept the verdict of the sovereign voters of this county without any resentment and on January 1st will turn over to my successor the office of county attorney that I have filled for 14 years and four months, and I hope with some degree of efficiency.

C. P. SHEPHERD,
30-11d-11w

Mrs. Laurent Webb, of Brownsville, is here on a visit with relatives. Mrs. Webb made the 530-mile overland trip alone.

SHAW SAYS HOLIDAYS OF NEW WEDS SHOULD BE ENJOYED APART

(By International News Service)

LONDON, July 30.—"People in the early stages of married life should take their holidays apart," says George Bernard Shaw commenting on a clergyman's statement that a husband "needs the sunshine of a little change."

"In fact, I think married people should get away from each other whenever they feel inclined. It saves so much friction."

"Married people, however, get out of the stage when they see too much of one another. Married life is not the same all through."

"After a time the partners do not feel that need for separation. When people have lived long enough together they do not want to take their vacations apart."

Mrs. Belloc Lowndes, the novelist, says: "I do not agree with

the suggestion. Being old-fashioned, I think husband and wife should spend their holidays together. They ought to enjoy them that way."

"If they are not happy when at home, I do not see that it will help them merely to take their vacations apart."

WHOLESALE GROCERS WILL HOLD ANNUAL CONVENTION AT WEST BADEN SPRINGS

(By International News Service)

CHICAGO, July 30.—The greatest wholesale grocery salesmen's convention in history—a big conclave of salesmen, buyers and executives of the Independent Grocers' Alliance of America—is to be held at West Baden Springs, Indiana, the week of August 27, 1928.

Never before in the history of the independent grocery business have one thousand jobbing salesmen and executives gathered to-

gether in a congress of this kind under such circumstances.

West Baden, known as "The Carlsbad of America," is to be turned over for the exclusive use of the I. G. A. for that week.

The Independent Grocers' Alliance of America is now organized in twenty-three states. A great trade exhibit by grocery products manufacturers is to be a feature of the convention.

TRENT—The paving from Sweetwater to Trent was formally opened for traffic in a celebration scheduled for July 26.

Many Family Trees Produce Good Timber

GIVE YOUR HOUSE GOOD BONES

Any time you try to tighten up on the cost of lumber for your home or building, you are playing a big joke on yourself.

If you don't give your house good bones it'll likely shake itself to pieces with structural rheumatism.

But GOOD LUMBER does not cost any more, and we can prove it.

THE WORLD'S BEST COAL

Cut 1/4 off your coal bill

use **ORIGINAL GENUINE MONTEVALLO**

This one vein contains a marvelously dense, closely packed coal that burns with a clear hot flame... a coal free from the impurities ordinary coal has in considerable quantity. It not only lasts longer, but gives more heat per ton—and does not clinker or coke!

Save in Two Ways

You save not only money, but trouble and annoyance later on. When the first cold snap comes in the fall you will have good, real heat-giving Original Genuine Montevallo right on hand. You save on the price of Original Genuine Montevallo by ordering now—and save as always by the fuel economy it effects.

Only authorized dealers can sell you Original Genuine Montevallo Coal, mined by the Montevallo Coal Mining Company, Aldrich, Alabama. Phone the nearest dealer listed below and make sure of getting what you order—the World's Best Coal—Original Genuine Montevallo!

Buy Now and Save

You save at any time by buying Original Genuine Montevallo Coal—but right now you can save more because summer prices now prevail. Now—right now is the best time of all to buy Original Genuine Montevallo.
