Italy Mourns Over Tragedy Of Submarine

(By International News Service)
 POLA, Aug. 8.—The Italian submarine F.14, sunk in the Adriatic with a loss of thirty-one lives after a collision with a destroyer during maneuvers, was towed into port this morning supported by a 250-ton pontoon.
 A black flag was flying at half mast from its prow. The whole city is in mourning.

County Court Is In Session

The regular twelve-week term of county court opened this week, which was designated as jury week, with criminal cases appearing on the docket. Several cases have been disposed of, and continuances in others have been granted.

In the case of the State of Texas vs. E. O. Hendrix, trial was set for August 20, due to the fact that the defendant was not in position to be present for his trial. This is an appeal case, having been originally tried in the city court of Winters, in which the defendant was convicted on charges of vagrancy.

Two bonds were forfeited, in the cases styled State of Texas vs. A. D. Spurgeon and State of Texas vs. W. N. Hamm. The first charge was aggravated assault, it being alleged that Spurgeon, of Dallas, crashed into a car in which a group of Miles young people were riding, and that the collision could have been averted. Spurgeon let out a tirade of oaths when approached by the driver of the car wrecked, it was said. His bond, of \$500 was declared forfeited in the failure of the defendant to appear. The other case was based on a charge of swindling. Hamm passed a worthless check, it was alleged, and forfeiture of his \$500 bond was taken.

In the case of the State of Texas vs. W. L. Clark, a fine of \$50 was assessed against the defendant. Clark, 17 year-old son of Deputy Sheriff S. T. Clark, Winters, was indicted by the grand jury and charged with negligent homicide, in connection with his driving a car which struck and killed W. A. Pace, aged resident of that city, on May 21, of last year. Jury trial was waived by the defendant and the case was submitted without argument of the law or facts. The offense was classed as a misdemeanor, and carried a maximum penalty of a \$1,000 fine and one-year imprisonment. Between thirty and forty witnesses from Winters "for each side were present for the trial. The victim of the tragedy had lived in the county for more than 35 years and a great deal of interest centered in the case.

ROAD BOND FUNDS CAN BE USED ON OTHERS

(By International News Service)
 AUSTIN, Aug. 8.—A surplus of road bond money, left over after the road for which it was voted is finally completed, may be diverted to another road, of comparable type, either one already in the program, or one not in the bond program. Attorney General Claude Pollard ruled in an opinion to H. L. Washburn, Harris county auditor.

The question arose when certain roads being built under the Harris county \$6,000,000 road bond issue were completed at a lower cost than anticipated, resulting in a surplus. Harris county wanted to use some of this surplus on roads not mentioned in the program, or to extend roads covered by the bond issue program.

Hurricane In Florida Lulls

(By International News Service)
 WEST PALM BEACH, Aug. 8.—Citizens of the cities on the east coast of Florida, which has been battered by a hurricane during the past 24 hours, cheered today when the storm abated somewhat, but fears are felt for ships off shore, several of which have been reported in distress.

The storm centered this morning at Jupiter, north of here, the wind abating from 75 to 60 miles per hour, accompanied by heavy rain.

WASHINGTON, Aug. 8.—A tropical hurricane of great intensity is tearing across the Caribbean sea, and will strike Florida within a day or two the United States weather bureau warned today.

FRENCH ARE URGED TO TALK FRENCH TO ATTRACT AMERICANS

(By International News Service)
 PARIS, Aug. 8.—"French people, speak French!" advises F. G. Heffner of Columbia University, who fears that many Americans will stop coming to France inasmuch as they have no occasion to try their tongues at the language of Voltaire, Ronsard and Anatole France.

"American tourists to France numbered 220,000 in 1926 and 280,000 in 1927," continues Professor Heffner "and more than ever are expected this year, but a great many of them will be disappointed when they find they have little use for the French they have learned.

"Let the shop-keepers and hotels furnish interpreters for those who demand them but refrain from answering in English except when necessary. Don't take away a large share of the pleasure they would find in speaking and trying to understand a little French."

DANISH MERCHANT GOES ON HUNGER STRIKE IN FIGHT ON VACCINATION

(By International News Service)
 BERLIN, Aug. 8.—Rather than permit his children to be vaccinated, the Danish merchant Bjoerner, of Copenhagen, went to jail, where he immediately started a hunger strike.

His family joined him in the hunger strike and vowed to eat nothing till he was released.

W. A. Forgey and family, and Tom Forgey and family, left Tuesday on a ten-day vacation trip in the Davis Mountains.

Brennan Dies From Poison

(By International News Service)
 CHICAGO, Aug. 8.—George B. Brennan, Democratic National Committeeman of Illinois, died today following an illness of a week with septic poisoning and kidney complications. He was 63 years old.

His recent illness was brought on by an infected tooth. He underwent an operation, but septic poison developed and his condition became serious, though not hopeless until complications.

Reed's Choice Is Defeated

(By International News Service)
 ST. LOUIS, Aug. 8.—Democrats of Missouri have turned "thumbs down" on Senator James A. Reed, it was apparent today on the basis of returns from the primary election of yesterday, and prohibition is not an issue.

Missouri has apparently nominated Charles M. Hays, of St. Louis, for the Democratic senatorial nomination by a landslide vote over Reed's man, James A. Collett. Hays is dry, while Collett is a confirmed wet.

Voters then turned around and nominated Francis M. Wilson, a wet, as the gubernatorial candidate by an even-break majority that may get a Republican senator. Senatorial candidates, Roscoe Patterson and David M. Proctor, dries, are running a close race. Senator Caudfiet, of St. Louis, apparently has won the Republican gubernatorial race from Phil A. Bennett.

Moron Murders Woman Teacher

(By International News Service)
 EVANSTON, Ill., Aug. 8.—The body of Miss Jennie Constance, 42, head of the English department of Bradley Polytechnical College of Peoria, was found at dawn today behind a hedge in front of the palatial home of George H. Peaks, millionaire.

She was apparently beaten to death with a lead pipe after being mistreated by a moron. Her valuables were untouched.

Air Mail to Bring U. S. Business From Canada and Mexico

(By International News Service)
 CHICAGO, Aug. 8.—Air mail has not only brought New York and the middle West within ten hours of each other with only 31 hours separating the Atlantic and the Pacific, but American business men will soon have overnight markets in Canada and Mexico.

According to the American Air Post Association, before the first of the year it will be possible to send mail and express to Montreal and Mexico City by air routes.

The Association points out that the good speed of the air mail will make the customer in Canada and Mexico write to American firms about the communication of "yesterday" and not "your letter of last week."

National Monument For Former Kaiser Planned for Birthday

(By International News Service)
 BERLIN, Aug. 8.—A national monument to the former kaiser, showing him "high on horseback with the fieldmarshal's staff in his hand," is proposed by the Reichsbote, the organ of the German evangelical church.

The paper proposes that the monument be financed by a national collection and that it be presented to the former kaiser on his seventieth birthday on January 27, next year.

An elaborated birthday celebration program is already being prepared.

Police Baffled In Murder Case

(By International News Service)
 LOS ANGELES, Aug. 8.—Police investigating into the murder and mutilation of Mrs. Myrtle Mellus were thrown into turmoil and confusion today when Sergeant H. L. Barlow, of the police identification bureau, announced that the bloody finger prints found in the bathroom of the palatial Mellus home were not those of Leo P. Kelly, the woman's butcher boy sweetheart charged with the murder. The sensational development pointed to another person involved, police said.

Men Eat Candy, Girls Smoking Since Big War

(By International News Service)
 LONDON, Aug. 8.—Experts who used to declare men were using more cosmetics in barber shops than women used in their boudoirs must now take a back seat to a new type expert who has declared men were eating more candies and sweets than women and smoking less than members of the fair sex.

This latter thesis on "women and the weed" and "men and sweets," was made by the head of a world famous confectionery firm at the opening of the Chocolate and Confectionery Exhibition at Olympia. The exhibition was organized by the Manufacturing Confectioners Alliance, Olympia is the greatest exhibition hall in London, similar to the old Madison Square Garden in New York City.

In an interview, the Confectionery expert declared: "Men got the habit of eating sweets during the war. In the trenches when they could not smoke they could always eat some of the millions of pounds of sweets that were sent over. Men like something 'pully,' something that lasts; with a caramel flavor.

"You can see them chewing chocolate caramels nowadays at horse and greyhound races. When they want strength of mind for a difficult public shot—they again chew chocolate caramels.

"As for the office—there is many a man today who keeps a bag beside him on his desk in the financial section of all the great cities of the world. Sweet-eating has taken the place of tobacco chewing."

Referring to women, the Confectioner declared they represented the great problem of the trade at the present time. He remarked that not even all added enticements of new varieties of sweets, prettier exteriors, fancy aluminum wrappings and attractive containers had persuaded women to increase their consumption of sweets. He explained:

LAMESA—A "clean-up" campaign has been initiated here.

(By International News Service)
 WASHINGTON, Aug. 8.—The condition of the United States cotton crop on August 1, was 67.9 per cent normal, indicating total crop of 14,291,000 bales of 500 pounds gross weight from 46,695,000 acres under cultivation on July 1, the crop reporting board of the department of agriculture announced today in the first cotton report of the year.

The production of last years amounted to 12,955,000 bales, more than a million bales less than the estimated production of this year.

Americans In Rowing Final

(By International News Service)
 SLOVEN, Holland, Aug. 8.—California's brawny eight-oared crew went into the finals of the Olympic championship today when they defeated Canada after a thrilling duel over a 2000 meter distance, winning by a scant half length.

California meets England in the title contest, the English crew having fortunately drew a bye in the finals Friday.

PERSHING TO ATTEND LEGION CONVENTION

(By International News Service)
 SAN ANTONIO, Aug. 8.—General John J. Pershing, commander of the American Expeditionary Forces in France during the World War, and honorary national commander of the American Legion, will be one of the Legion's distinguished guests at its national convention at San Antonio, October 8-12.

Pershing will address the convention. He will also be one of the chief figures in the round of social activities and functions which will feature convention week.

For Pershing the visit to the Legion gathering will be in the way of a home coming to the city from which he set out to command America's forces in the greatest war in history.

Upon his return from Mexico, where he had headed the punitive expedition in pursuit of Pancho Villa, Pershing took command on Feb. 19, 1917, of what was then known as the Southern Department, with headquarters at San Antonio.

In the following May Pershing was called secretly from San Antonio to Washington. Carefully guarded conferences were held there. The next the country knew "Black Jack" had landed in France, with the first handful of American troops.

Street paving construction now underway is progressing remarkably well, and indications are that the work will be finished in advance of the announced date. The paving project is evidence of the progressiveness of Ballinger citizens, and the twenty-nine blocks to be paved will, it is apparent, serve only as a beginning of a city-wide paving program. The plan of financing paving in Ballinger is most reasonable, and once the value of paved streets and their durability are established, little hesitancy will be experienced in gaining the co-operation of the entire citizenship in furthering the move. City conveniences play a great part in the development of any center.

A question to come before the voters of this section on September 1st of still greater import-

ance than the street improvement move is a good road bond issue. The people of the specially created road district will have the responsibility of passing or rejecting the \$525,000 bond issue proposal, and the action of the voters will bear direct effect up on the progress of the county.

The good road move is gaining rapidly throughout the country, and the section that desires to go forward must sponsor this program in line with other districts. It is a matter of only a few years until, by some means, every section will boast an efficient road system, and the regions that delay longest this building program hinder in the same degree their advancement.

Miss Opal Cox left Sunday with Mr. and Mrs. Courtney Collum for an automobile trip to Arkansas, they will be gone until September visiting in the homes of uncles, aunts and cousins in different parts of the state.

Mrs. J. D. Tullus and three children spent a few days last week at Rochell.

Texas Mother Was Right

Within a few months there will be no more feverish, bilious, headachy, constipated, pale and puny children! That prophecy would surely come true if every mother could see for herself how quickly, easily, and harmlessly the bowels of babies and children are cleansed, regulated, given tone and strength by a product which has proved its merit and reliability to do what is claimed for it to millions of mothers in ever fifty years of steadily increasing use.

As mothers find out from using it how children respond to the gentle influence of California Fig Syrup by growing stronger, sturdier and more active daily they simply have to tell other mothers about it. That's one of the reasons for its overwhelming sales of over four million bottles a year.

A Texas mother, Mrs. J. Owen, 624 Thompson St., San Antonio, says: "Before my daughter, Lillian, was a year old, she began having constipation. Mother got me to give her California Fig Syrup and in a few days she was all right and looked fine again. This pleased me so much that I have used Fig Syrup ever since for all her colds or little upset spells. It always stops her trouble quick, strengthens her, makes her eat."

Always ask for California Fig Syrup by the full name and see that the carton bears the word "California." Then you'll get the genuine.

Mr. and Mrs. E. O. Lange, Mr. and Mrs. Walter Lange, were guests in the home of Mr. and Mrs. Julius Lange Sunday.

Misses Corine Gressett and Ruth Cole pent the week-end in Ballinger with Mrs. Ora Williamson.

Mr. and Mrs. F. J. Cole's guests Sunday were Mr. and Mrs. Frank Hoffman, Roy Clark and family also Mr. and Mrs. Rufus Cole of Maverick.

Miss Faye Hill of Winters visited in the home of her grandparents here last week, returning home Saturday.

Mayfield Attacks Connally's Record In Speck Here Today

Charging that Tom Connally was concentrating his campaign on a policy of mudslinging because he had no official record in his twelve years in the United States Congress qualifying him for the senate, Earl B. Mayfield, candidate for re-election to the United States Senate, addressed a small crowd on the courthouse lawn here today. Senator Mayfield was introduced by Judge Frank Dickey, local attorney.

Comparing their respective records, Senator Mayfield pointed out that he was the author of eight or nine major laws during his term of office, and challenged Connally to show a single legislative measure of which he was the author. The Senator reviewed the work of the committees of which he was a member, and showed the importance of these committees. He would be retained on these committees if re-elected, because of the seniority rule, he declared, and Texas would profit much by being represented in the various bodies.

Senator Mayfield said in part: "The greatest economic question before the people of our country today is the placing of agriculture and livestock upon permanent, remunerative basis. In order to do this, we must modify our national policies which operate to the disadvantage of our farmers and ranchmen. We should recast the provisions of the tariff with a definite view to improving the relative positions of agriculture and livestock in comparison with other groups. There should be no discrimination between raw materials and finished products in the raising of revenue. I am unalterably opposed to the doctrine of free raw materials. I believe in a tariff so levied as to operate justly equally and without discrimination on all classes, sections and industries, while Mr. Connally advocates or has advocated, placing all raw materials on the free list with duties imposed on all manufactured products.

"I am not advocating protection, but I am simply insisting that whatever tariff system is adopted should be one that operates on the farms and ranches of the South and West the same as it does on the factories of the North and East.

"I would levy a duty both on wool and manufactured woolen goods for the purpose of raising revenue, while Mr. Connally would levy a duty on manufactured woolen goods and place wool on the free list. If the manufacturers are to have free wool, then the people ought to have untaxed woolen clothes; and if the people must pay a tax on woolen clothes, then the manufacturers should be compelled to pay a tax on their wool. Indeed, if you must leave one or the other untaxed, it would be infinitely better to take the tax off woolen clothes and leave a tax on wool, because wool is purchased by a few opulent manufacturers, while woolen clothes are bought by the millions who live in the sweat of their faces.

"I submit then that you should not vote for a candidate for the United States Senate whose position on this question is against the interests of this great section of Texas, but should support the

candidate whose views on this question promote your welfare and prosperity.

"The same argument which I have made with reference to wool applies with equal force to mohair and cattle, and it is not necessary to make an argument with reference to those industries because you know if the duty on cattle were removed, and they could be imported from Mexico free of duty, every cow in West Texas and Southwest Texas would be worth from \$5.00 to \$10 a head less than they are worth today. If the duty on vegetable oils were removed tomorrow and the vegetable oils of Asia admitted into this country free of duty, the price of cottonseed oil would immediately begin to decline and would fall to a price which would compel the cottonseed mills to reduce the price of cottonseed. That must be true because cottonseed are used by the cottonseed oil mills only to produce cottonseed meal, hulls, and oil, and whenever the price of cottonseed is substantially reduced, a reduction in the price of cottonseed is inevitable. This is a matter of extreme importance to the cotton farmers of Texas, since a ton of cottonseed is worth nearly a third as much as a bale of cotton."

Earl B. Mayfield, For Director

A. L. Spann has returned from points in Southwest Texas where he had been to accompany Mrs. Spann and little daughter on a visit to relatives.

Mrs. W. E. Middleton, Walter Middleton, Jr., and Mrs. E. C. Tinsley, left Wednesday morning for Glen Rose, where Walter and Mrs. Tinsley will undergo treatment for about two weeks.
