## Political Speaking Tonight

The first speaker for the democratic campaign will be in Ballinger tonight and will deliver an address at the district court room in the courthouse at 7:30 p. m. Speakers are coming the country at the present time and according to an announcement more than 250 speakers will be working for the cause in the nation before the end of the present month. Hon. Guinn Williams, representative in congress from the 13th district will deliver an address on "Democracy" here when he speaks this evening. Mr. Williams is a very able speaker and is speaking for the democratic committee in this section of the state. A cordial invitation is extended to everyone to hear this orator discuss the present political issue.

## Prince Nicholas Elopes with Girl

(By International News Service) BERLIN, Oct. 4.—The Budapest newspaper, Sestinario, today published a sensational report stating that Prince Nicholas of Roumania, had eloped to Paris with a beautiful young Roumanian aristocrat whose name the statement did not disclose. It is reported that the couple is visiting Nicholas' elder brother, Prince Carol, and that Queen Marie and Princess Elena have implored him to return.

## Gene and Bride Happy in Italy

(By International News Service) PERUGIA, Italy, Oct. 4.—Gene Tunney, retired heavyweight champion and his bride, the former Josephine Lauder, today began their idyllic honeymoon in this romantic little city, unhampered by newspaper reporters.

The longest siege on record was that of the siege of Tyre by Nebuchadnezzar, 585-572 B. C.

## Stewart Case Is Postponed

(By International News Service) WASHINGTON, Oct. 4.—The perjury trial of Col. Robert W. Stewart, chairman of the board of Standard Oil in Indiana, was today postponed from October 8th until November 12th by Justice Jennings Bailey, in the district supreme court. A crowded docket and the illness of three justices was given as the reason for the postponement.

## STATE BOARD STOPS CONTRACT

(By International News Service) AUSTIN, Oct. 4.—The State Board of Education has affirmed the decision of State Supt. S. M. N. Marrs in the cancellation of a teacher's contract of W. S. Kerr as high school teacher in the Dumas Independent School District in Moore county. Kerr plans to appeal his case to the courts. He was discharged because the school authorities, among other things, disliked the way he conducted his classes.

Roby public schools lay claim to having the unique distinction of serving 100 sections of land. The school has had a phenomenal growth and its scholastic and athletic records draw recognition all over the state.

## Youth Died from Natural Causes

(By International News Service) FORT WORTH, Oct. 4.—Marvin Brown, local attorney, who delivered the funeral oration at the funeral of Nolte McElroy, Texas University student who is believed to have died as the result of a fraternity initiation, made public in a letter to the press in which he declares the youth's death was not caused by contact with electric current as was believed, but was due to constitutional weakness peculiar to the McElroy family.

Nolan county is to have one-half state aid in surfacing Highway No. 70 between Sweetwater and Blackwell. This is expected to total \$74,710.

Be wise and advertise

## Candidate Running For Two Offices

(By International News Service) AUSTIN, Oct. 4.—A. E. Harding, of Fort Worth, nominee for the legislature from Tarrant county, apparently intends to run for two offices at the same time, and according to H. Grady Chandler, assistant attorney general, Harding has a right to do so. Harding has announced for the state senate to fill the vacancy caused by the nomination of State Senator R. A. Stuart of Fort Worth for district attorney of Tarrant county.

Chandler held that regardless of whether the special election to fill Stuart's place and the November general election occur on the same day, Harding can secure a place on the ballot as a candidate in the special election.

A campaign to solicit \$100,000 stock subscriptions for the erection and equipment of a powdered milk plant at Brady recently got under way. The plant is to cost \$200,000 but one half of the capital is to be furnished by foreign interests.

## Urge Investigation of Big Anti-Smith Fund

### Good Program for Parent-Teachers

The Parent-Teachers Association met for one of its first programs of the year and everyone present pronounced it one of the best programs ever given by that organization. Those who did not attend the meeting Wednesday missed a treat which they will regret very much.

The playette, "Bill's Dream" of how to keep well, was extra well given and showed that there had been quite a lot of work done to give the play in the manner in which it was handled.

Mrs. A. B. Stobaugh's talk on the "Moral Development of the Child in Play" was very inspiring and suggested many thoughts for the parents.

Miss Louise Doss very beautifully sang "The World is Waiting for the Sunrise."

Dr. O. L. Lasater gave the parents an interesting explanation of why children should have regular physical examinations, whether there is any seeming illness or not.

Miss Parker, the home economic teacher, explained the part food plays in keeping the human body functioning.

Each one on the program brought a wonderful message to the members and was worth going there to hear. It is the purpose of the program committee to arrange such programs for the entire year and make them so interesting that the attendance will grow at each meeting.

## Board of Control Has Final Say

(By International News Service) AUSTIN, Oct. 4.—In an opinion to the board of control, Attorney General Claude Pollard, today ruled that the board of control has the final say relative to the purchase of highway machinery and equipment. This apparently settles the controversy between the highway department and the board over which should have the final decision, relative to the purchase of machinery. Roy I. Tennant, member of the board of control, announced that the board will proceed to buy the machinery recommended by it and not that desired by the highway department.

Texas is the leading state in number of sheep, number of mules, number of beef cattle and number of goats.

## ST. EDWARD'S ELECTS OFFICERS

(By International News Service) AUSTIN, Oct. 4.—Officers elected by the St. Edwards University council of the Knights of Columbus follow: Grand knight; James McCloskey, San Antonio; deputy grand knight, James Deeg, Austin; chancellor, Remigius Fette, Muenster; recording secretary, Joseph Klein, Plantersville; warden, Irwin Fanette, Beaumont; inner guard, Charles Brogan, Tyler; outer guard, George Pessoney, Palestine; advocate, John Egan, Chicago, Ill.; trustee, Harold Jansing, Lott, Tex.

Appointive offices have been filled by the new grand knight as follows: financial secretary, Elmore Borchers of Laredo; lecturer, Edward Ott, Waterloo, Ia.; chaplain, Rev. Leo Heiser, professor of biology at St. Edward's. The council is planning an initiation to take place in the latter part of October.

## Houston Lynching Case is Dismissed

(By International News Service) HOUSTON, Oct. 4.—The case of the state against T. J. Reese as one of those who were charged in the lynching of Robert Powell, negro, a few days before the opening of the democratic convention here, was dismissed on joint motion of the state and defense for insufficient evidence today. The only witness against Reese was Jesse McCarty, a negro orderly at the Jefferson Davis hotel, where Powell lay wounded when kidnaped.

### PECAN CROP SHORT IN CUERO

(By International News Service) CUERO, Oct. 4.—Indications are that the Dewitt county pecan crop will amount to 60 per cent of the 1926 crop, which was looked upon as a banner yield. Forty-five carloads of pecans were shipped from the county that year. Reports over the state indicate that the yield will be better than in 1927.

Japanese children are taught to write with both hands.

## Patrolmen Battle Nine Smugglers

(By International News Service) EL PASO, Oct. 4.—Border patrolmen are today searching the banks of the Rio Grande 21 miles below here for smugglers believed to have been wounded in a gun fight with officers last night. One of the smugglers was killed in a battle that started between ten and eleven o'clock last night, when five border patrolmen surprised nine smugglers bringing a burro train across the river. When they were called on to halt they fired upon the officers. Some of the smugglers are believed to have been wounded and it is thought that they may be hiding near the river bank.

A check of the building program in Dublin reveals expenditures in excess of \$100,000. These include \$50,000 by a products company, \$35,000 by the Katy railroad, a \$10,000 creamery and \$3,000 fair exhibits.

## Governor Moody Revokes Pardon

(By International News Service) AUSTIN, Oct. 4.—Governor Dan Moody today revoked the conditional pardon, granted by former Governor Miriam A. Ferguson, to Wayne Todd of Weatherford, whose death sentence for the murder of Minnie McNeal, Ft. Worth service car driver, was commuted to life imprisonment. The governor was informed that Todd was under arrest at Fort Worth on charges of theft.

Wheeler is proud of the fact that 13 carloads of dressed poultry and 10 carloads of live poultry have been shipped out of Wheeler county which until recently was considered fit only for cattle grazing.

#### NEW YORK YANKEES WIN FIRST GO OF WORLD SERIES

NEW YORK, Oct. 5.—In a fast game in which the St. Louis Cardinals, National League leaders, only got two hits off of Waite Hoyt, Yankee ace, and in which George Herman (Babe) Ruth got three hits from his four trips to plate, Lou Gehrig clouted the ball for four bags, Sheridell, St. Louis ace, was knocked from the box, the New York Yankees won today's world's championship game in their own park by the score of 4 to 1. This was the first of the 1928 championship games. Jim Bottomley of St. Louis got a home run, accounting for the Cardinals' lonesome mark.

#### The Four Jacks Feature at Fair

Doc Holland, of the Holland Amusement company, arrived here today from Fort Worth to get everything in readiness for the opening of the Runnels County Fair.

Mr. Holland stated that he was bringing the biggest program here this year that has shown at any fair in Texas this year. He was very fortunate in securing for the headline act, "The Four Jacks," four aerial wonders who have been the feature for two years at the Dallas fair and who come to Ballinger direct from Toronto, Canada. The Four Jacks work on a high trapeze one hundred and ten feet in the air and are breathtaking thrillers wherever they appear. The four artists will headline the program in front of the grandstand all next week.

They will also appear in a side-splitting comedy acrobatic number introducing original feats of equilibrium and strength. They carry special electric lighting effects for night performances, using the 1,000 watt improved spotlights.

Mr. Holland brought with him all the fireworks which will be used in the five big displays which will be shot during the fair each night. Clown costumes that will be used in parades, animal sides as well as clown ducks, chickens, and many other fun provoking stunts. He also brought a drove of trained terrapins which will be scheduled each afternoon in races. "It's going to be the biggest county fair ever held in Texas as far as the grandstand area is concerned," Mr. Holland stated.

C. W. Sherrill of Dallas, general manager of the Southwest Telephone Co., which firm recently purchased the West Texas Telephone properties was in Ballinger Thursday on business pertaining to this plant. Mr. Sherrill is also owner of the local sewerage plant and will have some recommendations to make to the city health department with reference to the unsanitary condition existing, owing to the use of privately owned and operated septic tanks.

#### CONNECT CITIES BY AIR LINE

(By International News Service)  
WICHITA FALLS, Oct. 4.—This city will soon be connected with Oklahoma City by air line, it plans being considered by the Brainiff Lines of Oklahoma go through. A representative of the company is arrangements for the air line, expected here soon to make final it was announced here.

The proposed line would connect with the National Air Transport line at Oklahoma City and would give this city fast mail, express and passenger service to Kansas City, St. Louis, Chicago and New York.

### New York Jailers Get Strict Order To Qualify with Rifle and Pistol

By Bernard R. Mullady  
(International News Service Staff Correspondent)

NEW YORK, Oct. 4.—Confronted with the problem of guarding an increasingly large number of prisoners facing life sentences with the attendant danger of attempted jail breaks, Richard C. Patterson, commissioner of correction, recently ordered every man in his department who comes in contact with prisoners to qualify as a marksman with the revolver.

No longer will warden, keepers and others employed in and about the five county jails in the city and the city penitentiary on Welfare Island carry revolvers for show or to awe the prisoners in their charge. Under Commissioner Patterson's latest order they will have to be able to shoot straight.

**Handling Prisoners**  
From the time of a prisoner's arrest until his arraignment before a committing magistrate he is in the charge of the police. This period is limited to twenty-four hours and within that time he must be arraigned at a district court where his case is disposed of if he is charged with a summary offense, or, facing a more serious charge, he is held for the action of higher courts or the grand jury or is granted an adjournment.

After his arraignment the prisoner is in charge of the Department of Correction. This unit of the city government must take the prisoner to and from the courts and jails each time the case is on the calendar. This frequent transportation of prisoners through the city's streets in prison vans did not, in past years, present the problem it does now. Seldom was an attempt to escape custody made.

**Aimed At Criminals**  
The Baumes laws, aimed at the habitual criminal, have changed this situation, however, and now many of the prisoners face the imposition of life sentences if convicted. The Baumes statute leave no alternative to the judges. Conviction as a fourth offense must result in a life sentence.

With this prospect, Commissioner Patterson believes that there is a much greater danger from attempted breaks than heretofore and it is in preparedness for such an attempt that his revolver practice order was issued.

The use of the police regulation revolver has also, by the same order, been made compulsory. The New York police are now using a .38 calibre weapon and frequent inspections are made without advance notice to learn whether any members of the force are carrying guns of smaller calibre. For many years police officers had favored the .32 calibre revolvers because of their lightness. These have now been replaced with heavier guns with greater "stopping power."

Commissioner Patterson's order putting these heavy arms in the hands of trained marksmen will cause criminals to hesitate before attempting to dash for freedom, as he believes.

**Target Practice**  
The target practice in which the official pistol target of the United States will be used will be held in one of the National Guard Arm-

ories of the city. One of the department officials pointed out that the inauguration of compulsory practice this month will mark the first time that prison officers in this country have been required to take a regular course of instruction in shooting.

Keepers and others taking the tests will be rated as follows: 60 to 75 per cent scores, marksmen; from 75 to 89 per cent, sharpshooters; 90 to 100 per cent, experts. Those failing to make the marksman grade will have to repeat the course every six months until they qualify. Skill with the revolver, as revealed through these tests, will be rewarded as is the case in the police department. Experts will receive three days extra vacation, sharpshooters two, and marksmen, one extra day each year.

Commissioner Patterson has donated a silver cup to be known as the Commissioner's trophy on which the highest score each year will be engraved. Should a man win the cup three successive years the trophy becomes his property. A regulation revolver will also be given the man making the highest score each year.

#### WINTERS MAN PAYS FINE FOR SIMPLE ASSAULT

Excitement ran high west of Winters Wednesday afternoon when the alleged whipping of a boy by a man other than his parent is reported to have taken place.

Thursday morning John Swatchesue, who resides several miles west of Winters, plead guilty to simple assault in the justice court here and a fine of \$15.85 was assessed against him.

Jim Wilson, 14-year-old son of a widow who lives in that vicinity claimed that he was dragged from his wagon and spanked by the man for failure to shut a gate. He and a companion, it was stated, were hauling gravel from a pit and in some way had to go through a gate into Swatchesue's place. On this particular trip the gate was left open and the alleged spanking is reported to have taken place. Swatchesue admitted taking the boy from the wagon but stated that he did not spank or kick him as other testimony was given.

#### RICH CHICAGO WOMAN HAS TICKER IN HOME

(By International News Service)  
CHICAGO, Oct. 4.—A Chicago woman, who invests daily in stocks has just had a ticker installed in her home. She is thus kept constantly in touch with the stock market.

Several special phones have been installed in the home, so her brokers may be reached almost instantly.

The bonded indebtedness of Texas is about \$4,000,000.

### Angelo Coming To Fair Strong

The preparations which are being made at San Angelo and Abilene make it look like Thursday will be one of the best days of the Runnels county fair. Abilene has already reserved 250 tickets for the fair that day and news comes from San Angelo that the citizens there are planning to beat anything Abilene does. Angelo is working on the idea of a special train and may come to the fair in that way.

Here is what The Standard has to say about the trip:

Determined to take a sizable delegation to Ballinger next Thursday, Oct. 11, to attend San Angelo and Abilene Day at the Runnels County Fair, E. E. Lowrie, chairman of arrangements, will attempt to interest each civic club in this city to go as a unit on the special train, for which plans are now being perfected, he announced last night.

As has been the annual custom, the Runnels County Fair Association has set aside one day of the week's fiesta devoted to San Angelo and Abilene. "It is important that we equal or surpass the delegation from Abilene," declared Mr. Lowrie, "for with the entire highway between Ballinger and San Angelo either under paving construction or passed, this city automatically becomes the logical trade headquarters for the Runnels County territory." Lowrie also called attention to the fact that the Ballinger band, with nearly 200 citizens from that city, attended the All-West Texas Exposition here last month.

If members may be relieved from school Thursday afternoon, the De Molay band will head the delegation from San Angelo and the Simmons University Cowboy band from Abilene will accompany that city's boosters to the Runnels county seat.

If the special train becomes a reality, which at this time seems probable, each merchant in San Angelo will be asked to travel to Ballinger or send some representative of his firm, according to the plans or the arrangement committee.

#### SIXTY KIDDIES GET FREE TRIP TO FAIR

(By International News Service)

WACO, Oct. 4.—Sixty children, inmates of the Home for Neglected and Dependent Children here, will be given a free trip to the Dallas State Fair, October 12, it was announced by the board of control at Austin.

The Katy railroad will supply complimentary a special car in which to make the trip; the Dallas Fair management will give the tickets of admission, and the Dallas Welfare Committee will furnish sleeping quarters. The trip will consume two days. The children will be accompanied by Miss

Jennie Burleson, superintendent of the home.

Texas has one of the few international street car systems in North America. It is the line operated by the El Paso Electric company between El Paso and Juarez, Mexico.

The quickest way to keep abreast with the times is to read the ads.

MACK SENNETT COMEDY

**MOVIES**

Scene From **WANTED IN THE CLOUDS**  
Starring **AL WILSON**  
A UNIVERSAL THRILL FEATURE  
**QUEEN TODAY**

**Brings Thrills, Chills and Mystery In Oriental Drama**

A new kind of underworld—that of a large city's populous and mysterious Chinatown—furnishes the background of "The Hawk's Nest," starring Milton Sills, which opened at the Palace Theatre yesterday. The First National Picture marks a distinct departure for Sills, who appears in the early part of the story as a disfigured war veteran, with a make-up equally as good as anything Lon Chaney has achieved in recent years.

The story, which concerns two underworld resorts, operated largely to thrill tourists, is handled in unique manner by Benjamin Christensen, who achieves some of the finest trick camera effects that have been seen since "The Last Laugh," and "Variety." The air of Chinatown is symbolized as much by camera work as it is by actual Chinese architecture, the picture being given all the weird mystery of a "thriller" largely through such camera work.

Sills operates one of these underworld cafes for tourists, while Montague Love, another underworld gangster, operates a rival establishment, which is attempting to put Sills' place. "The Hawk's Nest," out of business through framing Sills' partner, played by Mitchell Lewis. The enmity between Sills and Love is deepened through Sills' protecting the dancer, played by Doris Kenyon, who is sought by Love.

Mystery, thrills, and the tense atmosphere of the underworld furnish the background for this fast-moving drama, one of the best in which Sills has appeared in many months. A particularly admirable performance is given by the distinguished Chinese actor, Sojin. The story is by Wid Gunning, who also produced the film for First National Pictures.

**"The Covered Wagon Coming Into Town Again"**

A magnificent epic of the early west is James Cruze's latest Paramount production "The Covered Wagon," which is due to make a triumphant return to the Palace Theatre next Monday. This picture of Emerson Hough's novel has proved itself one of the greatest photoplays ever seen on

the screen. The features embraced in "The Covered Wagon" are many and varied and include among others, the start of 350 covered wagons from Westport Landing (now Kansas City) in 1843. The terrors of fording flooded rivers, prairie fires, and the like are depicted with great realism. A buffalo hunt is one of the most exciting scenes. Old Fort Bridger, with a night attack and fight by day with Indians, is shown. The dividing of the trails to Oregon and California at old Fort Hall, a touch of the gold fever in California, magnificent mountain shots and a culmination of the romance with the establishment of one of the first homesteads in Oregon—these are all incidents in a picture that fairly bristles with big scenes.

Such historical characters as Kit Carson, Jim Bridger, and Bill Jackson, scouts and typical western characters, are portrayed in Paramount's screen version of the novel, which is conceded to be one of the most notable achievements of the present decade.

J. Warren Kerrigan is the leading man and Lois Wilson, his heroine. Alan Hale makes a mean villain. Others in the cast include Ernest Torrence, Tully Marshall, Charles Ogle, Ethel Wales and John Fox. "The Covered Wagon" is well worth a second or even a third visit!

**A Sudden End to Stomach Trouble**

AIN or discomfort following a meal doesn't mean you must go on a "diet." Nine times out of ten indigestion, acidity, flatulence and heartburn are caused by excess stomach acid and food fermentation. After too hasty a lunch, or too hearty a dinner, a little "Pape's Diapepsin" instantly neutralizes the excess acidity, stops fermentation, and soothes and heals the acid-inflamed stomach lining as if by magic. Your recovery is quick, and complete. Make a special point of getting a 60-cent package of "Pape's Diapepsin" from your druggist today, and so follow the example of millions all over the world who use "Pape's Diapepsin" to end indigestion and allied stomach troubles. With "Pape's Diapepsin" handy you can eat and enjoy whatever you fancy without fear of pain or discomfort to follow. At any rate, it's worth the trial, for lots of folks have found a new freedom at the table.

**SHERIFF'S SALE**

Notice is hereby given, that by virtue of a certain Order of Sale issued by the Clerk of the County Court, at-law of Dallas County, on the 26th day of September 1928, in a certain cause wherein Enterprise Butchers Supply Co., is plaintiff, and Jno. Reese and A. Wilmeth, jointly and severally and as composing the firm of Reese and Wilmeth are defendants, in which cause a judgment was rendered on the 4th day of September 1928 in favor of the said plaintiff Enterprise Butchers Supply Co. against said defendants Reese and Wilmeth and each of them jointly and severally for the sum of Four Hundred Thirteen and 85-100 Dollars, with interest thereon at the rate of 6 per centum per annum from date of judgment, together with all costs of suit, I have levied upon, and will, on Monday October 15th 1928, it being the 15th day of said month, at Ballinger, Texas, within the legal hours, proceed to sell for cash to the highest bidder, all the right, title and interest of said Reese and Wilmeth, and Jno. Reese and A. Wilmeth jointly and severally in and to the following described personal property, levied upon as the property of said Reese and Wilmeth to-wit:

"One No. 4-E Type 'C' Cleveland Chopper Serial No. 15611-A-100."

The above sale to be made by me to satisfy the above described judgment for Four Hundred Thirteen and 85-100 Dollars, in favor of Enterprise Butchers Supply Co., together with the costs of said suit, and the proceeds applied to the satisfaction thereof.

**SAN ANTONIO TO GREET 100,000 WAR VETERANS**

(By International News Service) SAN ANTONIO, Oct. 4.—San Antonio is ready for the coming of 100,000 veterans of the World War and their wives, mothers, sisters, and daughters for the tenth national convention of the American Legion, Oct. 8-12.

Even the weather man is all lined up and ready to serve the finest brand of convention weather the organization has ever had. Inquiries have come to the bureau from all over the country and an investigation of records at the local weather bureau office going back 50 years shows:

Delightful fall weather holds from the period from October 6 to 12. Average low temperature runs at 62 degrees, with the average high at 85. There is only the slightest chance for a rain, and that a mere sprinkle. Sunshine prevails during that week of October between 87 and 87 per cent of the time.

**Generous Program**  
Veterans attending the convention, in addition to the pleasant weather and the reunion with their war comrades on the spot where thousands of them trained, will find the greatest entertainment program ever planned for a Legion gathering, according to Phillip B. Stapp, general convention director.

A world's championship rodeo, a decision prize fight with leading contenders, spectacular battle exercises by the Second Division, a foibles Bergeres show with dancing beauties of six nations, dancing every night on Alamo Plaza, an air circus with a thousand planes participating, the great parade of 60,000 men and women, dinners and social functions beyond number are on the program at San Antonio.

**See Bull Fights**  
Bull fights and Spanish fiestas on the Mexican border are an additional attraction. Side trips will be run to Laredo, and Nuevo Laredo, Eagle Pass and Piedras Negras, and also to King ranch, the Lower Valley of the Rio Grande, Corpus Christi and the Gulf Coast, Brownsville and Matamoros. A 12-day tour will take a large party to Mexico City.

Field Marshal Viscount Allenby of Great Britain; Major Georges Scapini of France; General John J. Pershing, Col. Charles A. Lindbergh, Judge Kenesaw M. Landis, William A. Green, president of the American Federation of Labor, are among the distinguished persons who will attend the conventions.

When was the rocking chair invented? The earliest known record is a bill rendered in 1774 for "bottoming a rocking chair." This style of chair was inspired by the rocking cradle used by the Colonists, and the chair was primarily intended for either invalids or children.

Be wise and advertise.

**Airplans Prove To be Big Aid to Business World**

(By International News Service) CHICAGO, Oct. 4.—Airplanes are causing new sensations daily in the business world, according to a survey made by the American Air Transport Association, with headquarters in Chicago.

A Chicago glass dealer learned he had been shut out of a \$60,000 contract in Oklahoma because his firm was not incorporated in that state. Bids were to be opened the next day. Papers were forwarded Monday night and were filed Tuesday afternoon, beating the train thirty-six hours, to the dismay of the competitive firm.

Competition for a \$50,000 tire order from a California co-operative association prompted the salesman to secure samples of a new tire by air mail, and he got the business.

A Denver florist looking for new markets for sweet peas found customers when he delivered the blooms to Chicago twenty hours after they were picked, while a Utica, N. Y., firm got a contract for ice cream on a sample shipment via air mail to Greensboro, S. C.

The water supply of a municipality in the California mountains was threatened by breakage of machinery which had to be duplicated from stocks in Cleveland. The spare part was put on the air mail plane and within thirty hours before the surplus supply had been drained off, the plant was pumping again.

**AMERICAN TRADE WITH NEW ZEALAND GROWING**

(By International News Service) WELLINGTON, N. Z., Oct. 4.—Evidence of increasing American trade with New Zealand is seen in the appointment of Charles F. Kunkel as assistant to Julian Foster, American Trade Commissioner here.

Kunkel, a graduate of Georgetown University, Washington, arrived here recently. He has had wide experience in the steel and motor industries.

**Elaborate Style Show Feature Fair Program**

Plans were perfected Wednesday afternoon for the staging of a style show on Friday night in connection with the grandstand program at the Runnels County Fair. For several years a style show has been the big feature of the fair program and this year indications are that the best one ever given will be staged. More models will make their appearance this year than ever before and a greater array of the new styles, especially for women, will be shown. Entertainment features will be run during the show to keep the display from becoming monotonous to anyone and the entire program will be one of the best ever given at the fair.

Plans are about complete at present for the staging of an illuminated parade with all style show models taking part in the decorated cars, just at dark on the downtown streets. The plans will be perfected and illumination will be brought from Dallas to be ready to illuminate the darkened streets just preceding the style show. The parade will continue on to the stage in front of the grandstand and the models will make their appearance at eight o'clock on a specially built and elaborately decorated stage.

Many spotlights will be focused on the stage so that a perfect light will be thrown on the models and they can be seen distinctly

from any place inside the park.

The Fair Association and the entertainment committee will spare no time, work or expense in making this the biggest feature night ever shown at the Runnels County Fair. As on all other nights, a big fireworks display will be shot at the conclusion of the Style Show.

A modern triple combination of 500 gallon pumping fire engine was purchased by the city of Pyote at a cost of \$6,750. Several members of the new volunteer fire department learned how to work the mechanism of the pump.

Over 50 kinds of vegetables are grown on a farm by Mr. and Mrs. J. F. Wilkenson, southeast of Perryton of Wolf Creek. Swiss chard, oyster plant, colo rabi, worm weed, berries and melons are included in the group.

Nothing Gets By the Youngsters These Days

—they are cruelly critical, and unfortunate is the child who is shunned by his playmates because he is lacking in some respect which they think is important.

That's one of the terrible things about HOLISOLIS (scientific name for neglected shoes). It develops rapidly on children's feet and the child may be entirely unconscious of it. But not so his playmates! And even his best friends won't tell him about it.

HOLISOLIS can be readily checked by a shoe rebuilder and it is up to mothers to watch for the first signs of this disease and have it repaired before it causes embarrassment to their youngsters.

**Ballinger-Abilene Game Tomorrow**

The Ballinger Bear Cats will meet the fast Abilene club here tomorrow afternoon at Fair Park at four o'clock. This will be the first at home game of the year and the school authorities are hoping that a big crowd will greet the Bearcats in their initial appearance on the home lot.

Three games in a row will be played here before the team leaves again for an out of town engagement. Next week, on Wednesday, the locals will meet the Coleman High School team here during the Runnels County Fair. This will be the first district game and the Bear Cats are expected to be in good condition by that time and

have no trouble in defeating the Coleman aggregation. Friday of the next week, which is October 19, the Howard Payne Reserves will be here to interest the locals in an exhibition game.

There are no season tickets sold for the games this year and all tickets will be sold at the park. Admission to the Abilene game will be 25 cents for students and 50 cents for adults. The game will be called promptly at four o'clock.

**SLICK'S INCOME  
IN OIL FIELDS  
\$45,000 A DAY**

(By International News Service)  
WICHITA, Kans., Oct. 4.—Tom B. Slick of Oklahoma City, stands alone today among the individual operators in the Mid-Continent oil field, as one of the most colorful figures ever known to the oil industry. With an income of approximately \$45,000 a day from several hundred oil wells in Kansas, Oklahoma and Texas that yield him 29,000 barrels of oil every twenty-four hours, Slick may well be called the "Miracle Man" of the oil game.

He now has 12 wells drilling in the St. Louis pool of Pottawatomie county, Oklahoma, and most of these will be oil wells in the gusher type unless the Goddess of Petroleum forsakes Slick, and so far that hasn't happened.

**\$75,000 A Day**

Other great oil leaders are predicting that Slick will soon have between 40,000 and 50,000 barrels of oil production a day, in which case he will have an income around \$75,000 every twenty-four hours, or in other words a little more than a million dollars every two weeks.

There are few major oil companies in the United States that can boast of an income as large as this individual's. Slick, in fact, owns more oil than many of the big producing concerns whose names are household words. He came from Pennsylvania a few years ago and has been striking a new gusher every time he turns around. He has his own company, Tom Slick, Inc., and owns all the stock himself.

Of a modest nature, tall and gaunt, always a cigar in his mouth, Slick rushes from gusher to gusher day and night, rain or shine, personally supervising the drilling of his wells.

**Other Figures**

In the last few years the Mid-continent has seen two other figures in the oil industry, that in many respects are similar to Slick—men who built up a large amount of oil production as individuals. These men were Lew Wentz, of Ponca City, Okla., and Waite Phillips, Tulsa, Okla.

The factors have worked to make Slick the great oil producer he is—his ability to drill in the right spot, and luck.

A few years ago, a Wichita man was offered a drilling deal at Burkburnett and turned it down because it did not look promising. Thirty minutes later Slick strolled through the lobby of the Wichita

Falls Hotel where oil men were milling about, took the deal and sixty days later had a 5,000 barrel well—Slick's luck.

**LIQUID AIR TO DRIVE  
ROCKETS TO PLANETS:  
CHEAPER THAN POWDER**

(By International News Service)  
BERLIN, Oct. 4.—The Society for Space Navigation, consisting of the leaders of the movement to build a rocket airship which would propel itself into space and possibly reach other planets, announces that it has constructed a new rocket motor that is driven by liquid air.

The construction is supposed to do away with the defects and dangers of the gun powder rockets that wrecked the rocket rail cars of Printz von Opel and Max Valier with which they tried to break the world's speed record.

It is hoped that the new motor will bring space navigation considerably nearer realization.

The new motor is based on the ideas of Professor Oberthmediasch and is to be tried out soon in an airplane.

Liquid air as fuel is said to be much cheaper than gun powder, and above all, wholly without danger.

**U. S. HEALTH SERVICE  
CRITICIZES PARENTS WHO  
DO NOT GUARD CHILDREN**

(By International News Service)  
WASHINGTON, Oct. 4.—Careless parents who allow their children to contract whooping cough and measles at an early age are criticized by the United States Public Health Service in a bulletin prescribing preventive methods to guard against these diseases.

Though these are generally regarded as "minor" ailments, the health service warns that they are far more serious than is supposed especially among younger children.

The theory that it is best for children to have their whooping cough and measles before attaining school age on the assumption that they will have them sooner or later, is entirely fallacious, the bulletin says.

In support of this statement, the health service points out that one half of the deaths from whooping cough occur among children under one year of age, and ninety-five per cent among children under five years of age. The death from measles is not quite so high, but is much higher among children than adults.

The quickest way to keep abreast with the times is to read the ads.

**British Workers'  
Grid Team Badly  
Treated in Russia**

(By International News Service)  
MOSCOW, Oct. 4.—The British workers' football team, which came to Russia from England for the "Red Olympic games" called the "Spartacade," has complained against what it brands "disgusting and unsportsmanly treatment" by Soviet athletic officials. The "Komsomolskaya Pravda," organ of the Young Communist League, supported the complaint and demanded an investigation.

Members of the team said that their tour of Russia, which might have been a sportive and pleasurable trip, was ruined because they were "driven like slaves." On the day they stepped off the boat from London in Leningrad a few weeks ago, tired, stiff and ill because of the stormy voyage, they said they were asked to play against a Leningrad team from one of the factories. They finally consented on condition that the game last 30 minutes and a weak team be chosen.

Officials of the Soviet Physical Culture Council agreed, but failed to keep their promise. The British footballers were pitted against the strongest team in the city, played for 50 minutes and lost 11 to 0. Day after day on their tour of Moscow, Charkov and other cities, they said they either rode in uncomfortable trains or played football. They returned to Moscow for the Spartacade schedule of games against both Russia and foreign workers' teams, but refused to play until given a rest.

**WIESBADEN TO ABOLISH  
STREET CARS FOR BUSES**

WIESBADEN, Oct. 3.—Permission has been received by the city authorities to carry out their plan of doing away with street cars altogether.

Orders have already been given for 60 auto buses and four trailers which will take the place of the street cars from April 1, 1929. Wiesbaden thus follows the example of a number of other German municipalities.

The school boys of Winters have organized one of the first "Future Farmers of Texas" chapters in Texas. This organization for boys who are preparing themselves to be tillers of the soil has organizations in nine states.

Texas has inexhaustible sand and gravel resources suitable for highway construction.

**AIR MAIL NOW FLYING  
25,000 MILES A DAY;  
COVERING 37 ROUTES**

(By International News Service)  
CHICAGO, Oct. 4.—Air mail is being flown 24,974 miles daily, exclusive of additional mileage piled up when "double headers" are run on routes because of heavy mail, and by January 1 the mail planes will be flying at the rate of more than 10,000,000 miles a year, exclusive of the foreign air mail routes operating from points in this country. Ten years ago the daily mail plane flight was 218 miles, according to the American

Air Transport Association. This network of airways now serves 70,000,000 people directly on the 37 routes, while millions more have the benefits of air transport through train service connections at air terminals.

Hand in hand with this rapid expansion of the airways has come airport development and there are now 1,338 airports of all types officially listed with 665 proposed airports. The recent ruling of the post office department that air mail will not be flown from cities that do not provide adequate landing fields, has been a factor in stimulating the acquisition and

improvement of terminals by cities in all parts of the country.

Why is it considered more difficult to cross the Atlantic by airplane from east to west? The theory is that the air currents are a deciding factor in this matter. In the temperate zones of the earth the prevailing winds are often from the west and are known as the "westerlies." It is easier for an airplane to fly from west to east with these strong winds at its back than in the other direction, bucking the "westerlies."

Have you read the want ads?

**What makes  
CONOCO-ETHYL  
BETTER**

**I**n the first place, Conoco Ethyl Gasoline is a better motor fuel because its base is Conoco, the triple-test gasoline—and Conoco has set the standard of gasoline quality for over 40 years.

Then, to make Conoco Ethyl, Conoco Gasoline is expertly blended with Ethyl Brand of Anti-Knock Compound, the remarkable fluid developed by General Motors after more than seven years of exhaustive research.

The combination of Conoco and Ethyl produces a motor fuel unsurpassed for easy starting, rapid pick-up, extra power, and smooth, knockless driving. Thousands of motorists know this to be a fact.

Get a tankful wherever you see the Conoco Ethyl sign.

**DEATHS**

**Mrs. Ray Marsh**  
Mrs. Ray Marsh died at the home of her parents, Mr. and Mrs. R. E. Walker, at 406 Strong avenue, Wednesday evening at about 8:15 o'clock. Mrs. Marsh had been sick since the birth of her child, two weeks ago today, but was not considered dangerously ill until just a short time before she died.  
Late Wednesday afternoon a physician was called when Mrs. Marsh apparently had a smothering spell but she recovered quickly and the physician returned to his office. Another attack followed almost immediately and she died before a doctor could reach the house, or her husband, who had returned to town to attend to some business. It is believed apoplexy was the immediate cause of her death.  
Mrs. Marsh was 23 years, 9 months and 9 days old. Both she and her husband have spent most of their lives here and have a host of friends in and around Ballinger.  
Mrs. Marsh is survived by her husband and the 14-day-old infant, her mother and father, Mr. and Mrs. R. E. Walker, and three sisters who are all present and

four brothers, three of whom will attend the funeral. One brother, Earl Walker, living in California, has not been heard from and is not expected to attend the funeral. Another brother, R. E. Walker, Jr., of Wichita Falls, arrived Thursday morning and the funeral will be held Thursday afternoon at 4:30 at Eighth Street Presbyterian church, with Rev. Alvin O. Rue officiating. Mr. and Mrs. T. M. Marsh, father and mother of Ray, and other relatives of his are present.

Many friends of the bereaved families join with them in their sorrow and are doing all they can to relieve the shadows which today cover their lives.

**Mrs. W. R. Clark**  
Mrs. W. R. Clark died at the Halley & Love Sanitarium Wednesday evening at 9:45 o'clock. Mrs. Clark has been in very bad health for a number of years and during that time has undergone a number of major operations in efforts to regain her health. She and her family have made Ballinger their home for many years and have a host of friends who are sharing the family's sorrow in the loss of a good wife and mother.  
Mrs. Clark is survived by her husband, W. R. Clark, who has been engaged in the cotton business here for many years, her children, John L. Clark, W. R. Clark, Jr., Harrell Clark, Robert Neeley Clark, Misses Faye Clark, Irmagene, Verra Sue and Eula May, five brothers, Arthur McMillan of San Benito; Forest McMillan of Ballinger; Neeley McMillan of Temple; W. R. McMillan of Wink, and Clark McMillan of Wink. She also leaves one sister, Mrs. L. E. Henry.  
Funeral services will be held Thursday afternoon at the Meth-

odist church with Rev. R. B. Hooper Rev. W. H. Doss in charge. Following the service at the church the body will be interred in Evergreen cemetery.  
Pallbearers selected are: Wix Currie, U. E. Hartman, Dan Mosler, Dick Thorp, R. E. George, W. B. Woody and Lit Chastain.

**Lankford Lets Building Contract**

A contract was let Wednesday afternoon by T. S. Lankford of Abilene to R. M. Williams for the erection of a hollow tile building 40x80 feet to face on strong Avenue between Seventh and Eighth Street. The building will be on the alley line and will join the King-Holt building at the back of their store.  
The building will be constructed of hollow tile, stuccoed on the outside, cement floor, plastered walls, metal roof and steel windows, making an absolutely fire proof building. Work of digging the foundation began today and a large crew of workmen will be placed on the job and instructed to rush its completion.  
As soon as the building is completed it will be occupied by Lankford & Thomson, who will operate a modern automobile washing and polishing plant. In addition to this part of the plant, gas and other automobile accessories will be handled. A complete announcement of this will be made by the owners at a later date.  
The firm is composed of Wilbert Lankford and Gordon Thomson. Both of these young men were reared in Ballinger and are beginning their business careers here.

Mr. Thomson has been operating a filling station here for the past several months.

**Request Program Christian Church**

Each Sunday evening from 7 to 7:30 o'clock, the First Christian church will conduct a request musical program. Requests can be made of an old hymn or sacred number that you would like to hear and it will be rendered for you. The request must be given to the choir leader one week in advance of the program in order to allow time to look the number up in books and have the music ready for the following Sunday program.  
Those desiring a number can request that it be rendered in any of the following ways: on the organ, on the piano, as a violin solo or by the choir. As soon as the choir leader receives the request, the music will be found in some book and turned over to the ones who will be expected to render the selection.  
Each Sunday evening in the 30 minute program as many of the requests will be rendered as the time will allow and anyone in town may feel free to make a request.  
The radio stations in different parts of the country have conducted such programs and in every instance they have been very popular. It is hoped that these programs will become favorite Sunday evening entertainments and that many will take part in them.  
Mr. and Mrs. R. P. Tunnell are rejoicing over the arrival of a fine baby girl Wednesday night. The

mother and infant are both doing fine Thursday.

Miss Josephine Grant was operated on at the Halley & Love Sanitarium Wednesday night and is reported to be doing fine Thursday.

There are in the state enormous supplies of several kinds of fuel, natural gas, petroleum, coal and lignite.

**STOMACH SPELLS**

**Oklahoma Lady Gives Interesting Account of Long Use of Black-Draught In Her Home.**

Sageeayah, Okla.—"I have taken Black-Draught ever since I was a child, and can recommend it as a splendid medicine for family use," says Mrs. Cora Maberry, of this place. "My mother used it, in bringing up her family, and after I had a home of my own, I continued to use it, as I thought it was especially good to give the children."  
"My children did not mind taking Black-Draught, and so when they got upset with stomach spells, or were constipated, I gave them Black-Draught tea."  
"If I found that they were taking cold, I was quick to start giving them Black-Draught, as it helped them to throw off the impurities, which caused the trouble."  
"My children are all grown now and have homes of their own, but I still keep Black-Draught in the house and use it myself when I wake up in the morning feeling dull and 'headachey', and have a bad taste in my mouth."  
"Black-Draught is a simple remedy for constipation, and I prefer it to others because it is purely vegetable. I always feel better after I have taken a course of it." In use over 87 years. NC-191
