Youth Center Wins \$100 Merit Award

The Tahoka Youth Center, a neighboring youth group participating in Manpower's Summer Action '70 contest, has been named the recipient of a \$100 Merit Award for its entry in the summer youth program.

Mayor James Granberry presented the award April 15, 1971, 7:30 a.m. at the Chamber of Commerce Breakfast sponsored this month by the local Manpower Office.

According to Loretta Crouch, manager of the local Manpower office, the merit winning project involved "The Shadow", a youth center established by young people in a community where there were no recreational facilities for young people.

Participants in the youth group are: Phil McClendon, John and Jim Thomas, Mark Flippin, Debra Draper, Sheri Short, Becky Franklin, June Randall, Sharon McNeely, Gary McCord, and Dean Rogers. Before the project was completed about 100 youth participated.

The Summer Action '70 Program was sponsored by Manpower, Inc., the world's largest temporary help and business service firm. The contest offered \$10,000 in cash awards to the winning youth projects participating in the contest.

According to Loretta Crouch, manager of Manpower in Lubbock, the competition attracted nearly 300 outstanding youth projects from across the nation. We are very pleased with the response to Summer Action '70 during its first year of operation. Plans for Summer Action '71 are now in progress. Manpower's Summer Action Program seeks to stimulate and reward meaningful action by young people at a level where they can achieve results in their community. According to Loretta, "The youth of America has evidenced its concern and demonstrated its desire to become involved. This program, in an effort to bring about community betterment, challenges young people to identify specific community needs, and then to implement a plan of positive action to meet these needs."

'Operation Kick-It' Will Be Presented At Local Schools

Mr. Gerald Huffaker, County Attorney of Lynn County, and Mr. Norvell Redwine, Sheriff of Lynn County, together with the National Honor Society have arranged to bring the Texas Department of Corrections' successful drug program "Operation Kick-It" to the South Plains area. The program will be given in the local schools of Tahoka, O'Donnell, Wilson, New Home, Post, Lamessa, Brownfield and Seagraves on April 27th, 28th and 29th. The participants of the program will stay in Tahoka during the three day period and travel from town to town.

"Illegal drugs are dangerous. Drug abuse is against the law and you can go to prison for it. We did."

The four volunteer panelists are young, first offenders, age 17-21. Each was convicted for possession of marijuana, one for the sale of drugs.

Each inmate tells briefly about his home life, how he began using drugs, and the events leading to his arrest.

"Operation Kick-It," which is funded by a grant from the Governor's Criminal Justice Council, is similar in format to the highly successful "Operation Teenager," which was established by TDC in 1962. The purpose of this program is to combat crime among youth by presenting an inmate's story of his own road to crime.

The appeal of "Operation Kick-It" is straightforward and sincere. As one inmate panelist summarizes it, "Down at the pen, it's the simple things that count. Don't ignore the simple life, because that's where it's at."

Mr. Huffaker states that he is very excited about the program and hopes that it will make our youth realize the seriousness of experimenting with drugs.

School Board Members Take Oath Of Office

The Tahoka Board of Education met Thursday evening, April 8. Maurice Huffaker, Kenneth Turner, and Othello Meeks, winners in the April 3, Trustee Election, replacing J. T. Miller, Edward Bartley, and Elmer Owens, took the oath of office as new members of the Board. The Board organized by electing Joe Brooks as President, and Ruben McElroy and James Brookshire as vice President and Secretary, respectively. Holdover members are Brooks, Brookshire, McElroy, and Dan Curry.

The meeting was preceded by a dinner at the Homemaking Cottage, prepared by several 9th grade girls who are students of Mrs. Madeline Hegi. The dinner, an annual affair, was attended by retiring members as well as new members and current members.

The Board set April 20, and May 6, as special meeting dates for information sessions. Numerous reports concerning the operation of the schools were presented by the superintendent.

Evaluation of the entries was based upon (1) community need and benefit, (2) demonstrated initiative of participants, (3) originality of project and methods, and (4) the project's potential for application elsewhere.

The entries were judged by an independent panel of judges; Eli Cohen, executive secretary of the Committee on Employment of Youth; John Gunther, executive director of the U. S. Conference of Mayors; Mrs. Dorothy Height, president of the National Council of Negro Women; and Captain James Lovell, Astronaut.

A taped interview of local people will be shown on KLBK Channel 13 noon news Thursday (today) pertaining to the award.

Jan Wilke Wins Lynn County Spelling Bee

The annual Lynn County Spelling Bee was held at 9:30 a.m. Friday, April 9, in the Tahoka High School Library. Jan Wilke, seventh grade student of Wilson Elementary School was named winner. She is the daughter of Mr. and Mrs. Carlton Wilke.

Jan, who was also winner of the 1970 bee in Lynn County, spelled the word "neither" which had been misspelled by Susan Thornton, fifth grade Tahoka student, and then spelled the word "nephew" to win

the bee. Susan is the daughter of Mr. and Mrs. W. G. Thornton of Tahoka.

Also entered in the bee were Barry Nettles an eighth grade student at New Home and the son of Mr. and Mrs. Harold Nettles, who misspelled the word "acquainted." Beverly Harvick misspelled the word "blossom." She is a Tahoka sixth grade student and the daughter of Mr. and Mrs. Dub Harvick. Kelly Crews, daughter of Mr. and Mrs. W. O. Crews, a Wilson sixth grade

student missed the word "leaven."

Mrs. Betty Green was pronouncer for the bee. Judges were Frank Nanson, Teddy Dockery, Donald R. Johnson and Dean Andrews. Director was J. P. Hewlett.

Jan won 13th place in the 1970 Regional Bee. She will represent Lynn County at the Regional Bee scheduled for May 1, in Lubbock's Smylie Wilson Junior High School Auditorium.

New Home Girls Observe FHA Week

The week of March 28 through April 2 was national F. H. A. week. The New Home F. H. A. attended church at the Trinity Baptist Church in Lubbock Sunday night. It was youth night and one of the featured guests was Richard Campbell.

Monday was "howdy" day at school. All of the F. H. A. girls wore bandanas to school. Tuesday was "Lady Willpower" and "Mr. Irresistible" day. Each F. H. A. girl was given ten ribbons and each time a girl spoke to a boy, she had to give him a ribbon. At lunch, the ribbons were counted and the boy with the most ribbons was Mr. Irresistible. The girl with the most remaining ribbons was Lady Willpower. The winners were Danny Huddleston and Debra Canady.

Thursday, a group of F. H. A. girls from Tahoka High School presented a program for our school. The theme was "Bridge Over Troubled Waters." This was the same program they presented at the area state meeting in Midland. Thursday night the New Home F. H. A. girls attended the preview night at the Hay-Loft Dinner Theater. The production was "The Tender Trap." Thus ending a fulfilled week for the New Home F. H. A. girls.

The New Home F. H. A. officers for 1971-72 were elected Thursday April 8, 1971. They are as follows: President - Patti Phifer, First Vice President - Robyn Nettles, Second Vice President - Sheila McClintock, Third Vice President - Shirley Clements.

Fourth and Fifth Vice President - Vickie Harmonson, Secretary - Virginia Smith, Treasurer - Melody Peek, Reporter - Judy Turner, Historian - Debbie White, and Parliamentarian - Karon Edwards. Refreshments were served by Jeanne Bruton.

Mrs. LeMond To Host Garden Club

The Tahoka Garden Club will meet Tuesday, April 20, at 2:30 p.m. in the home of Mrs. Roy LeMond of Grassland. Co-hostesses are Mrs. E. M. Walker and Mrs. Charles Ellis of Abernathy.

The program will be "Are Abstracts Here To Stay?" The debate will be by Mrs. Robert Abbe, affirmative and Mrs. J. B. Oliver, negative. Mrs. L. D. Howell will be moderator. Floral exhibits will be presented by Mrs. Garland Pennington and Mrs. A. C. Weaver, entitled "The Sky is the Limit" (abstract). Mrs. V. F. Jones and Mrs. Emil Prohl will present "Thoughts of Love" period.

Special activity will be seed and plant exchange. Mrs. Otto Carter is the chairman.

Mr. and Mrs. Charles Polk Denise and Larissa of San Antonio visited his parents, Mr. and Mrs. Denmie Polk, last weekend.

Resolution Honors Judge Truett Smith

Representative E. L. Short presented Judge Truett Smith a Resolution, H. S. R. No. 72, from the House of Representatives of the 62nd Legislature, of the state of Texas. The entire House signed the resolution and it was adopted Feb. 3, 1971.

The House commended Judge Smith for his many accomplishments and distinguished career. He dedicated his life to service to the people of Texas and has made many accomplishments.

The House has high esteem for Judge Smith. Judge Smith is now a trustee of the new medical school at Texas Tech.

PRESENTS RESOLUTION-Rep. E. L. Short of the 73rd District is shown above as he presents a Resolution from the House of Representatives to Judge Truett Smith for his many years of distinguished service to the people of Texas.

Midkiff Chairman Of Lynn County Cancer Drive

Dr. David Midkiff has been named Chairman of the Lynn County Chapter of the American Cancer Society's 1971 educational and fund raising Crusade which begins April 1. The appointment was announced by Mr. Howard Moore, President of Lynn County Chapter who said that Dr. Midkiff had accepted the position "because of a deep understanding that the fight against cancer must not lose momentum but must be speeded up."

Dr. Midkiff in accepting the position in this area said that, "last year insufficient appropriations hampered important cancer research programs. The Society was overwhelmed with requests for grants, many of which merited scientific support but could not be funded because of a lack of money. While ACS increased its research expenditures, some promising developments in the search for the causes and treatment of various types of cancers are marking time."

Dr. Midkiff brings to the post an energetic commitment to the fight against cancer.

The Lynn County Chapter has designated Tuesday, April 27, as "Collection Day." A business and house to house drive will be held in all of Lynn County. County board members are Howard Moore, president; Tom Cloe, vice-president; Mrs. Kenneth Turner, secretary-treasurer; Dr. K. R. Durham, medical chairman; Floyd Tubb, educational chairman; Mrs. Gus Sherrill, chairman of service committee; Leighton Knox, campaign chairman; and Johnny Valentine, publicity chairman.

Although a recent Gallup study showed a gradual increase in the percentage of Americans who get medical checkups (from 55 percent in 1961 to 62 percent in 1970); it also indicated a slowing down in the rate of increase of those who went for specific cancer tests. For most of these tests - skin, proctoscopy, breast examinations and Pap smears - there were two to five percentage point increases from 1963 to 1970, Dr. Midkiff said.

Telephone operators all have their troubles. Recently, a long distance operator in Holland answered a call with, "This is Amsterdam. Where are you calling from?"

"Why?" Was the answer. The operator replied (sweetly), "According to regulations, sir, we must have the town where the call is placed. Will you please give me the name of the town?"

"Why," the caller repeated. The operator warned, "I'm sorry, but it will be necessary for me to call my supervisor if you don't give me this information."

Finally the situation was cleared up.

Please, operator, the name of the town is WHY ... Why, Arizona!"

The call went through at that point. Why not?

From Congregation Chimes comes this bit of logic which adds to your face value:

"The more I smile at people, the more they smile at me. Now I collect bright smiles from everyone I see."

It has been said that it takes SIXTY-FOUR muscles to frown ... and only thirteen to smile -- so why ever work yourself?

A smile costs nothing, but creates much. It happens in a flash, but sometimes the memory of it lasts a long time. No one is so rich that cannot give smiles.

A smile creates happiness in the home, fosters good will in business and is a counterforce to the weary, light and discouraged, sunshine to the sad ... and is one of nature's best antidotes for troubles.

Smile! It adds to your face value!

Learned the other day that there are very inexpensive and very efficient means of disposing of garbage ... that if we would just follow the example of Harar, the fourth largest city in Ethiopia.

Every night the ancient city's gates are left open and the hyenas silently sink into the shadows. They prowl the streets devouring garbage that for them outside tightly shut doors. The sanitation staff is strike proof, raise a riot and always on time. Only one shortcoming has been noted - the garbage collectors are known to have a taste for unsuspecting humans.

Do you know how the term "hitchhike" came into use? It originated in the days of horses, rather than horsepower, in this manner: men had to go on a journey with only one horse between them. One man started out on horseback, the other on foot. At a predetermined point one on horseback dismounted, hitched the horse to a convenient tree and continued on foot. When the man who started on foot caught up, he mounted the horse, and passed the former rider. By alternating "hitching" and "hiking" the two travelers eventually reached their destination!

Patti And Leah Short Visit Austin

Patti and Leah Short, daughters of Representative E. L. Short of Tahoka, discussed the activities of the Young Democratic Club of West Texas State University during their visit with House Speaker Gus S. Mutscher in his office this week.

The girls spent part of their Easter vacation touring the State Capitol and helping in their father's office.

Both of them were instrumental in organizing the Young

Democratic Club of West Texas State University at Canyon, and Leah is currently serving as president of the organization. Patti is classified as a sophomore and Leah is a senior at West Texas State University.

The Short family returned to Tahoka Friday morning to spend the Easter weekend there. Rep. Short is serving his second term as a member of the House of Representatives. His District 73 includes

Andrews, Dawson, Martin, Lynn, Yoakum and Gaines Counties.

"We hope to persuade the hard core of resisters to join the ranks of the 'check-up' this year. Today there are 1.5 million Americans alive and cured of cancer. We want to wipe out cancer in your lifetime," declared Dr. Midkiff.

"We shall be urging the people of Lynn County to join this fight -- to protect themselves with a checkup and others with a check to their America Cancer Society."

Hootenanny Is This Saturday

The regular monthly Hootenanny will be held this Saturday, April 17, at 8 p.m. in the Tahoka Community Center.

Come on out and support the Hootenanny, no admission is charged. There are some very good entertainers presenting some very good western and gospel music.

If you would like to sponsor the Hootenanny please contact Dub Powers, president or Mrs. J. T. Miller, secretary.

House Speaker Gus Mutschler designated Murray as chairman and the following representatives as members of the panel: Dewitt Hale of Corpus Christi, James Nugent of Kerrville, Jim Slider of Naples, and Clyde Haynes Jr. of Vidor.

Gov. Preston Smith approved appointments of J. C. Chalmers Jr. of Marlin, Clarence Gaskamp of Brenham, Bruce Campbell Jr. of Knox City and Burford I. King of Fort Worth to the Board of Directors of the Brazos River Authority. Reappointed were R. E. (Gene) Chambers of Wichita Falls, Albert Brannan of Comanche and Glynn A. Williams of Bryan to the same Board.

Reps. Tommy Shannon of Fort Worth and Phil Cates of Lefors will serve on a committee to select an official Texas State Artist. Lt. Gov. Ben Barnes will designate two Senators and Governor Smith will appoint the fifth member.

AMENDMENT FIGHT LOOMS -- Battle lines are forming for the May 18 constitutional amendments election.

Conservation leaders and Texas AFL-CIO executive board have declared war on Proposition 4, which would create a \$100 million bond fund to assist local governmental units with sewage treatment plant construction.

AFL-CIO also announced opposition to an amendment creating a state commission to set legislators' pay and ethical standards for officials. Support was given to raising the welfare ceiling and the amendment which would allow constitutional changes to be proposed in special sessions as well as regular legislative sessions.

Governor Smith announced appointment of Richard D. Brown, executive director of Texas Municipal League, to head a Committee on Clean Water, promoting passage of the water bond amendment which would also raise the maximum interest rate on Texas Water Development Board bonds from four to six per cent.

A committee of 12 will serve as the coordinators of Texas Citizens for Welfare Reform, promoting passage of Amendment 3 to raise the aid ceiling.

annual voter registration requirement is unconstitutional. State Supreme Court reversed the decision of a Dallas civil appeals court, directing a new hearing in the civil breach of contract action against Texas Rubber Supply Inc.

Court of Criminal Appeals ordered a new trial for a Texarkana man convicted of murder on grounds that the trial court did not rule correctly on whether a statement by the defendant was voluntary and that the man should be heard on the issue of accidental shooting.

Fifty-sixth district court of Calveston County has enjoined the Gulf Chemical and near Texas City, directing it to install specified air pollution abatement equipment by September 10.

Third Court of Civil Appeals was told, in arguments by attorneys, that the defunct Sharpstown State Bank did not adequately check the identity of a man who gave it \$470,000 in surety bonds.

BONDS FAIL TO SELL--A \$25 million offer of Texas Water Development Bonds failed to draw bidders. It was felt that the four per cent ceiling on interest discouraged buyers.

Board members said another offer will be made later in the month if a "favorable" market develops.

A representative of a Dallas bank was about to offer a bid, but moments before the opening he announced he had changed his mind. Board succeeded in selling \$15.1 million worth of bonds late in February at 3.9984 per cent.

AG OPINIONS -- Several domestic relations and juvenile court judges stand to lose retirement benefits if their courts are converted into state district courts of general jurisdiction, Atty. Gen. Crawford Martin has held.

In other recent opinions, Martin concluded that:

- + A bill providing for a county civil service system in counties over 300,000 is constitutional.
- + Legislation seeking to prohibit State Board of Insurance members or employees from receiving compensation from any insurance company within six years after they leave their state posts is unconstitutional.
- + Grayson County commissioners court may legally employ an attorney to make investigation for a grand jury.
- + Petroleum products shipped out of state from F.O.B. loading points in Texas do not constitute receipts from business done in Texas under the franchise tax law, because physical possession occurs outside the state.
- + Texas Fine Arts Commission may publish in its newsletter the text of legislation relating to fine arts and solicit comments; but it may not argue the merits of a bill, tell who supports it nor can a list of legislators be printed in their publication.
- + Requirement of a bill that no county may alter, damage, destroy, sell or lease its courthouse without six months' notice to the Texas State Historical Survey Committee is not comprehended in the Antiquities Code.
- + A bill to create a State Budget Commission of executive and legislative branch members violates the constitution in seeking to grant legislative power to the executive department of government and executive power to the legislative branch.
- CAR DEALER LICENSING DUE--Governor Smith signed into law legislation establishing a six-member Texas Motor Vehicle Commission to license major new car dealers and manufacturers.
- Consumers are assured by law that warranties will be performed by dealers and manufacturers. False advertising and misrepresentation of products and services are also prohibited.
- SHORT SNORTS
- Former Texas Banking Commissioner J. M. Falkner, 78, died last week.
- Reduction and eventual repeal of the chain store tax, which produces about \$5 million a year in revenue, was voted by the Senate.
- A bill changing the Texas Unemployment Compensation System to conform with minimum new federal requirements was passed by the House.
- Transfer of \$6.8 million in welfare contingency funds to prevent a cut in aid to families with dependent children was ordered by the Senate.
- A law just signed by Governor Smith allows city bus companies to provide lower fares for aged, blind and disabled.
- A controversial code of ethics bill was passed by the House.

SOIL CONSERVATION NEWS

BY RICHARD L. CHRISTIE

What's better, faster, cheaper—and reduces erosion up to 95 percent?

It's mulch tillage, says Clyde W. Graham, state conservationist for the Soil Conservation Service in Temple. Sometimes called minimum tillage or no-till, mulch tillage is a new system of farming where residues from a previous crop are left on or near the surface throughout the cropping year.

Graham says the specific advantages are: —less labor. Plowing and planting trips across the field are reduced.

—lower production costs. Many farmers report savings of \$8 to \$14 on an acre. —more moisture conservation. —less soil erosion.

—possibility of double cropping in some areas. —protection of seedlings from wind damage.

—more food and cover for wildlife.

"Farmers and researchers report that yields of mulch-tilled corn and grain sorghum are usually equal to or higher than yields from conventionally tilled fields," Graham says. "However, the system may lower soil temperatures, delaying seed germination in the spring. But moisture conserved by the mulch usually offsets this delay later in the growing season. The system does not, of course, eliminate the need for other good farming practices, such as disease or insect control."

Here's how mulch tillage differs from conventional farming: In one trip across a field a farmer simultaneously prepares a seedbed, plants his seed, applies fertilizer, and adds herbicides for weed control while disturbing only a small portion of the soil surface. In conventional methods, 6 to 10 trips are often required to do the same job, and almost all surface soil is disturbed on each trip. And each soil disturbance destroys residue that might have been left on the surface for soil protection.

"Since it costs at least \$1 a mile to pull a plow, it pays to hold trips across a field to a minimum," Graham points out. "With mulch tillage, chemicals are used to control unwanted vegetation instead of cultivators."

But the big factor in Texas is erosion control, Graham emphasized. On sandy or loamy soils in the western half of the state, mulch tillage is especially effective in stopping wind erosion. In fact, it is one of the most critically needed crop land conservation measures in Texas. And it is just as effective in preventing water erosion on all kinds of soil.

USDA researchers report that in one field test, switching to mulch tillage from conventional methods reduced soil losses by a whopping 95 percent—from 7.8 tons per acre to .03 tons per acre. Soil Conservation Service personnel in Texas made a concentrated effort to get mulch tillage trials started across the state during 1969 and 1970. Cooperators with soil and water conservation districts have used the system on several kinds of crops on varying conditions. Results generally have been excellent and the practice is expected to spread rapidly.

Graham said special farm equipment now on the market and new techniques for putting fertilizer in the ground have helped make the measure practical. He also credits the perfection of new herbicides which take the place of cultivation in controlling and preventing weeds with speeding up acceptance of the practice.

Older farm equipment can be adapted to mulch tillage. Or farmers may buy specially designed planters that cut through stubble-covered fields with minimum disturbance while preparing narrow, easy-to-close planting slits in the soil. Fertilizer can be knifed in with the seed or scattered on the surface. Graham said the Soil Conservation Service has a new leaflet which explains how much and what kind of crop residue is most desirable for erosion control, and how to estimate the amount of residues from crop yields. While the publication talks mostly about corn, soybeans and small grain, the principles also apply to grain sorghum and other crops.

Single copies of "Mulch Tillage in Modern Farming," Leaflet No. 554, are available free from SCS offices.

Cotton fabrics are playing a leading role in this spring's fashions. The natural fiber, which Texas ranks first in producing, is in the spotlight not only as a part of the "return to nature" ecology movement, but also because of its great versatility. The cotton fabrics, which dry beautifully, are splashed with clear bright colors, as well as with soft, dusty shades, this spring. Designs range from plain and homespun to striped and patterned jacquards. Cotton knits, hottest item in the spring market, provide fashion at moderate prices. Cotton knits come in a wide range of textures, including boucle, raschel, rib, mesh, jacquard and jersey knits.

When selecting a cotton knit always check labels and hangtags for care instruction. If the labels say "mercerized" and "wrinkle-resistant," the fabric is less likely to shrink and stretch. Shrinkage-resistance is important for all cottons, but beware of shrinkage controlled or preshrunk claims that do not state the percentage of shrinkage. Such cottons may shrink up to 5 percent, possibly making the garment too small to wear.

Most cotton knits are washable—some by machines and others by hand. If knits are labeled as "hand washable" yet percentage of shrinkage is not included, it is best to wash them in cool water with little agitation to prevent distortion of the garment's construction.

Before washing, outline the garment's shape on paper, using the paper silhouette for blocking when drying. Knits usually dry better on a flat surface; when hung, the weight of the water can pull the fabric out of shape.

Only when the label specifically says "machine dryable" should that method be used for cotton knits. RECIPE OF THE WEEK: Fruit Fantasy 1 1-lb. 2-ounce package sugar cookie dough 1 8-ounce package Cream Cheese

1-3 cup sugar 1/2 teaspoon vanilla Orange sections Green Grapes, cut in half Banana slices Strawberries, cut in half 1/4 cup Orange Marmalade 1 tablespoon water

4-H Food Show To Feature "Quick Foods"

"Quick Foods" will be featured at the Extension District 2 4-H Food Show which will be held at Texas Tech University in Lubbock on April 17, announces County Home Demonstration Agent Linda Huffaker.

All activities will be held in the main ballroom of the Tech University Center. Entries will be judged at 10:30 a.m. and the awards program is slated for 2:30 p.m.

Each of the 20 South Plains counties in the district may have one entry in each of the four food groups in both the junior and senior divisions, explains Linda. All participants in the senior division will prepare and exhibit a favorite food delicacy that is a "quick" dish.

Seniors participating in the various food groups from Lynn County will be Carla Wilke, milk; Janna Adams, bread-cereal; Terie Steen, fruit-vegetable; and Gayle Neugebauer meat. Juniors will include Charmi Wood, milk; Elaine Draper, bread-cereal; Denise Curry, fruit-vegetable; and Linda Sue Ford, meat.

In addition to their food specialties, the 4-H'ers will also be judged on their knowledge of food and nutrition, plan for a day's menu, table setting and record book.

According to Linda, the Gladola Flour Milling Co. of Sherman will sponsor the awards program. The senior winner in each of the food groups will qualify to compete in the State 4-H Food Show to be held at Texas A & M University on June 2 in conjunction with State 4-H Roundup.

A \$500 scholarship provided by Gladola Flour will be awarded to the highpoint individual in each of the four food groups at the state contest.

Land Bank Reduces Interest

Ross Smith, Manager of the Federal Land Bank Association of Tahoka, announced today that the Federal Land Bank of Houston will reduce the interest billing rate on variable rate loans to 7 1/2 percent.

"This reduction will be effective on installments maturing on or after June 1, 1971 and affects more than \$110 million in variable rate loans to over 3200 Texas farmers and ranchers," Mr. Smith stated.

The variable rate loan, which was introduced by the Houston Bank in July 1969, lets the interest rate "float" over the variations in the money market. This is the second time since January 1 that the billing rate has been reduced and the third such reduction in the past year. "This action is in line with the Bank's policy in providing farmers and ranchers credit at the lowest possible cost consistent with sound business practices," Mr. Smith stated.

The Federal Land Bank of Houston makes long term real estate loans on farm and ranch lands throughout Texas. The Bank has over \$540 million in volume of loans outstanding. The local association makes and services loans in Lynn and Garza Counties.

NEW SIGN-The First Baptist Church has erected a new sign north of Tahoka on highway 87. The signs invite all visitors to "Visit Friendly First Baptist Church." The church plans to erect signs on all four of the highways leading into town.

Church Erects New Sign On Highway

The Brother hood of the First Baptist Church, Tahoka, has erected a "Welcome To Tahoka" sign on highway 87, North of town, that invites all visitors to "visit friendly First Baptist Church." The sign was a project the men hope to do yearly until all four of the highways leading to our town have one. Edward Bartley and J. T. Miller were chairmen of the committee. Many of the men of the church worked hard on the construction of the sign as well as providing tools and places of construction.

Dub Kenley, president of the mission-study-church-in-

volvement group, spearheaded the venture.

"Every church has its own unique personality. We want the public to know that our church is friendly and warm. The best way we knew to do this was to put up an invitation for all to see and respond to", stated Jimmy Turner, Pastor.

FARMERS CO-OPERATIVE ASSOCIATION NO. 1

Past Days In Lynn County

formed April 1, 1949
Miss Jeannine Smith, daughter of Mr. and Mrs. Happy Smith of Tahoka, was one of the Texas Tech students inducted into the Phi Kappa Phi Honor Society on last Sunday, when she was initiated into the Omega Chapter of Phi Kappa Phi at the Phi Kappa Phi House, national honorary fraternity for women in the economics. Initiation ceremonies were at the Home Ec. building in a sunrise service, and this was followed by a breakfast at the Hilton Hotel.

Jeannine, who is a graduate of Tahoka High School, was among only eight high ranking students to be invited to membership in the honor group, seven of whom accepted membership.

The Senior Class of New Home High School is presenting its annual play Friday, April 1, at 8:00 p.m., entitled "Aunt Samantha Rules the Roost."

The characters are: Aunt Samantha, Letta Roland; Serna Simpkins, Emadent Robinson; Sophie Simpkins, Joy McClinton; Polly Paule, Martha Cantree; Annie, Coleene Savage; Blanch, Betty Smith; Lillian Littlefield, Carl Armes; Earl Boswell, Jim Chandler; Frank Fairfield, Orville Phillips; Larry Lowell, Billy VanDer; Buddy, Bobby Fillingim

G. Porterfield was a guest of honor at tea given recently at McMurry College, Abilene, by members of Alpha Chi, honorary scholarship society, for students who made the college honor roll last semester.

D. G. is the son of Mr. and Mrs. Gus Porterfield of the Grassland community.

Mary Ann Tankersley, daughter of Mr. and Mrs. Hubert Tankersley, won third place in a talent contest staged by the Jaycees of Lamesa that city last Friday night, when no prize goes with the honor.

Winner of first place is an audition on Horace Wright radio program. Students from 22 towns in this area participated in the contest.

Congratulations to Mr. and Mrs. W. T. Kidwell upon the birth of a son at 2:00 p.m. on Thursday afternoon of last week, weighing 8 pounds and 4 1/4 ounces. He has been named Roger Thomas.

Tahoka Lions met in their den Tuesday night and all enjoyed a chicken supper and all the trimmings, according to Dub Kenley, the official reporter.

A local Boy Scout, Bentley Gaither, was guest of the Club. Two new members were present and were welcomed into the club, Jim Foust and Dub Lowrey who is associated with Wharton Motor Co.

Lion Dan Lewis had the program. He had as his guest and as speaker of the evening W. D. "Dub" Rogers, sales manager for the Coca-Cola Bottling Company of Lubbock and also a member of the Lubbock Lions Club. "He brought us a very good message on What would happen if we should get socialized medicine in our country," Mr. Kenley said, and added, "I don't think there was one there who wanted it when he finished his message."

We were also glad to have with us our District Governor, Lion Bill Rutherford from Dumas," Kenley stated, "who brought us a very good message that every one enjoyed very much."

Lion President Jack Ally Robinson presided.

"It was a good meeting, and Lions that were not there missed a treat," Dub declared

Tahoka's FFA dairy stock judging team made a very creditable showing at the annual Plainview Dairy Show this week, winning one first place.

The team, composed of Delwyn Tunnell, Duwaine Townsend, and John Henry, took first place in the judging of Milking Shorthorns, seventh on Jerseys, and ninth on Holsteins. The team made a perfect score in the Shorthorn contest and Townsend was one of the top ten individual judges of the entire meet.

Twenty-five teams of 75

boys participated in the contests.

V. P. Carter, Tahoka vocational agriculture teacher, coaches the Tahoka FFA teams.

On the basis of her excellent scholarship as a freshman student in Texas Technological College, Miss Nan Beth Pennington, daughter of Mr. and Mrs. Willis Pennington of Tahoka, has been honored with membership in Alpha Lambda Delta sorority, a national honor society for freshmen women maintaining a grade point of 2.5 and above.

The new city council held its first meeting last Monday night, after the new members, J. A. Biggerstaff and W. B. "Bill" Strange Jr., and re-elected members B. L. Parker, had taken oath of office. These three and the two hold-over members, Clay Bennett and Ivan Cathcart, constitute the new city council. With Dr. K. R. Durham as mayor, Miss Rosemary Nelms is the holdover secretary.

The first big problem before the new city council is the street paving project. Mayor K. R. Durham informs the News that a petition has been prepared and left in the office of the city secretary to be signed by property owners who desire the streets in front of their property to be paved. This is not a paving contract but a mere application for paving.

It is necessary for it to be signed so that the mayor and the city council may be advised as to who will join in the paving project, for they can not know where to begin and where to pave until this petition is signed. So, if you wish the paving to be done in front of your property, please sign this petition at once so as to get the project started. Mayor Durham also informs the News that the City is leasing its property consisting of nearly 200 acres of land north of town on which the City water wells are located and the City sewer farm of 22 acres south of town to an oil company for all tests. The City gets \$5.00 per acre for the leases.

ACS IN THE INNER CITY

Increasingly, the American Cancer Society is drawing more people of the inner cities into the battle to control cancer. It is among these people that certain cancers strike with increasing frequency.

These special Society programs differ, but the guiding principle of all of them is person-to-person contact-involving the communities themselves in the project.

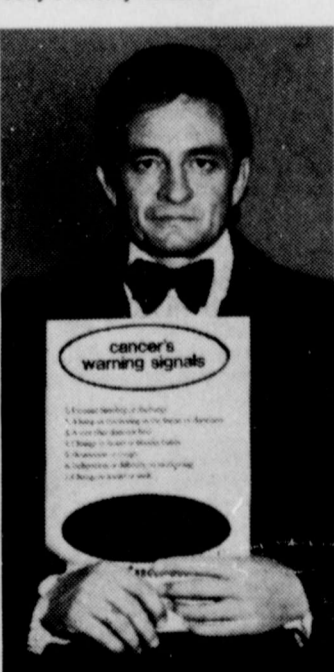

In Chicago, for example, an interracial "Good Neighbor Corps" of volunteers transports cancer patients for treatment; a "Southside Pap Express" regularly takes women for uterine cancer tests. The city's large Spanish-speaking population is reached through "Casa Central," a cancer education center.

In New York City, the Society plays a cooperative role in organizing "health fairs" along with scores of other health and community groups. Besides Pap tests and breast examinations for cancer, free clinics offer tests for many other diseases as well.

California programs involve and serve Afro-Americans and Mexican-Americans. "People-Made Clinics," made effective by a portable examining room insuring privacy, are held in firehouses, churches, schools, etc.

In Atlanta, the Society has begun to involve residents of the predominantly black communities in Pap test and breast examination programs.

Responding to the needs of the inner city, the American Cancer Society is demonstrating that people will work together when the goal is the conquest of everybody's enemy-cancer.

"It makes sense to know cancer's warning signals," says the nation's leading cancer and western singer, "and it makes sense to give to the American Cancer Society." Johnny Cash, star of his own TV show and top recording artist, says, "Prompt action in seeing your doctor, if you spot one of these signals, can help save your life." Ask your local ACS Unit for a copy of these life-saving signals.

NEW HOME NEWS

BY MRS. W.W. DAVIES

Mr. John Armontrout, age 93, was carried to the Mercy Hospital in Slaton, by Whites Ambulance from Tahoka, after suffering a light stroke last Tuesday. He was returned home Friday morning, but had to return to the hospital in the afternoon. He is reported doing very well this Monday morning, but will remain in the hospital for several days.

I visited for a while with my sister and brother-in-law Mr. and Mrs. M. M. Shearer, in Lamesa last Friday.

Miss Nancy Unfred and a friend, Miss Carolyn Mascho, students in the Baylor School of Nursing in Dallas, were here with Nancys' parents, Mr. and Mrs. Joe D. Unfred a few days last week. Daughter Vicki and a friend Barbara Chapman, students in Texas Tech University, in Lubbock also visited with the family.

Mr. and Mrs. Wilson Payne and Scott, of Albuquerque, New Mexico were over night guest in the home of his sister, Mrs. C. G. Eades and family, last Monday.

We went to Crosbyton Friday evening and had dinner with our daughter, Mrs. Charles Freeman and family. Joe Loyd, who is attending a Mortuary School in Dallas and working part time at the Baylor Hospital was home for a short Easter vacation.

Easter visitors in the home of Mr. and Mrs. D. B. Wheeler were their daughter and son-in-law, Mr. and Mrs. M. M. Wadsworth of Lubbock and also their son Bob Wheeler from Monahans. Mr. Wheeler is able to be up and out some after a long convalescence following a severe heart attack several weeks ago.

Randy Unfred, Graduate student in the University of Texas spent the Easter vacation here with his parents Mr. and Mrs. L. C. Unfred.

Mr. and Mrs. Delbert White

accompanied by her sister, Mrs. Bernice Harris of Abilene visited last week in Colorado with other members of their family. In Colorado Springs they visited their sister, Mrs. M. C. Benton, and with Mrs. Arthur Balch in Cannon City, and their brother, Stan DePriest in Westcliff, Colorado.

Easter visitors with Mr. and Mrs. Garland Walker and girls were Dusty and Frosty Walker, of Lubbock. Ellens' sister Mr. and Mrs. W. J. Johnson from Ft. Worth, and their parents, Mr. and Mrs. Frank Williams of Grassland.

We went to Muleshoe Saturday on business and visited briefly with my brother, Sherman Inman and his wife Beatrice, and with Winston's sister, Mrs. Grady (Francis) King at Lasbuddy.

Visitors in the J. W. Edwards home last week end, were her brothers, Walter Jenkins and his wife, from Dennison, Texas. Jim Jenkins, Half Moon Bay, Calif., Cap Jenkins, his son Johnnie and family Jal, New Mexico. A sister, Mrs. Edith Crispin and son Ray Crispin and family Post. And her daughter Mrs. George Rogers Thomas and girls from Falls.

Things are quiet around New Home this Monday morning, as school dismissed Friday for a weeks vacation. Most of the teachers and several other families are away. Please let us have a report on your trips for next weeks news.

Mr. and Mrs. Angelo Martinez and children of Brownfield spent the week end here with her brother, Inez Estrada and family.

Mr. and Mrs. John Edwards and John Dudley and his friend Mitch Clem spent the week end at Lake Stamford, on Sunday Bob Ballard FFA Instructor at New Home with his parents, Mr. and Mrs. Preston Ballard and son Jim from Rochester, and another son Don Preston and family from DeLeon had dinner with them at the lake.

Rev. James Taylor left Sunday evening after services at the New Home Methodist Church to spend a few days with his family in Abilene.

A program on Cotton Crops was presented by Mrs. L. C. Unfred last Monday evening at a meeting of the Texas Tech Faculty Newcomers Club in the Ex-Students building on the Tech campus. Assisting in the program was Mrs. Harold Nettles, Mrs. Stewart Rice, Mrs. Lit Moore and Mrs. Leland White. The current Miss Cotton of Texas, Elda Cruce of Tahoka modeled several garments of her Cotton wardrobe.

Mr. and Mrs. Bob Parker and Brenda and Debbie Airhart spent Easter Sunday with

Bobs' sister, Mrs. Roy Sheperd and family on the Cogdill ranch in Scurry County.

COST OF LIVING HITS CANCER RESEARCH

Has your cost of living gone up? Clothes, furniture, a good meal? Unhappily, yes. So has the cost of cancer research. Ten years ago a simple lab measuring cup cost 39 cents, today it's 49 cents. And a basic laboratory mouse was 27 cents. Today, 44 cents. And the cost of sophisticated equipment, with which we may find the answer to the cancer riddle, has skyrocketed. For instance, the minimum magnification electron microscope cost \$35,000 in 1960. Today one is the price of a luxury home - \$47,000.

The American Cancer Society must raise even more money to support vital research.

But recently the Society was forced to turn down applications already approved that amounted to over fifteen million dollars, because the money was not there. That means two out of every five approved applications were rejected for lack of funds.

Never was money so important to realize a potential that is so near at hand. If every American would review these facts thoughtfully, and give a little more to the American Cancer Society, that extra mouse, that extra test tube, that extra microscope might help make the difference between cancer tragedy and cancer cure.

The uterus sheds cells the way a tree sheds leaves. Women are lucky that these cells can easily be gathered and examined for uterine cancer. The procedure is called the Pap test. It can detect uterine cancer early, when it is most curable. Stay lucky. Have a Pap test regularly.

BSE is Breast Self-Examination. A monthly exam to help women guard against breast cancer. It's simple; takes about two minutes. If you don't know how to do BSE, ask your doctor; or ask us.

Cotton Production May Fall Short

BY PLAINS COTTON GROWERS

If USDA's March 16 report of cotton planting intentions proves correct, there's little or no chance U. S. production in 1971 will reach the announced production goal of almost 12 million bales.

The report shows farmers intend to plant 12.1 million acres to cotton, only 1% above the

11.9 million planted acres which produced 10,150,000 bales in 1970. And, if history repeats itself, the final planted acreage this year will be less, not more, than USDA's mid-March estimate.

If 12.1 million acres are planted, and if "abandonment" comes to about 6% as it usually does, we'll still have only about 11.4 million acres left

for harvest.

That means we'd have to almost equal 1965's all-time record per-acre yield of 527 pounds to reach the goal. If we averaged only 464 pounds per acre, which we've done for the past five years, production would barely pass 11 million bales.

The planting intentions report indicates that Texas is ex-

pected to plant 5,371,000 acres of cotton this year, up from 5,251,800 in 1970, an increase of about 2.3% and almost 45% of the national total.

But drought conditions that as of this writing extend all over the state could greatly reduce this acreage, not to mention the expected per-acre yield. The High Plains, according to estimates, may plant 2,700,000 acres or more of the state's cotton. But, here again is the matter of dry weather.

So, all in all there'll have to be some drastic changes in weather conditions and planting

plans if cotton production is to meet market demand.

Cotton carryover at the beginning of the 1971-72 marketing year on August 1 will be down to below 4.5 million bales, based on a total offtake this

year of 11.5 million bales.

Disappearance of cotton next year is expected to be about the same, maybe up a little. So a 1971 crop of less than expected consumption, coming at a time when the carryover is extremely low, should strengthen market prices for the immediate future. But what it will do to cotton's ability to range in the interest of range prosperity, is another matter.

OK!... you want to be Cool

Get your money's worth electric air conditioning

OVER 30 YEARS OF PROVEN DEPENDABILITY

Just like your refrigerator, electric air conditioning uses the same experience-proven method of cooling. A dependable compressor keeps on cooling no matter how high the outside temperature.

LOW OPERATING COST

Before you buy, be sure you have complete information. Electric air conditioning saves you money when you buy and because it uses only electricity and free air, your operating cost is low... no extra installation costs, either!

HIGH ALTITUDE - NO PROBLEM

Despite our high altitude, electric air conditioning keeps on doing its job because the electric cooling method is completely sealed against the effects of altitude changes.

CHOICE OF BRANDS

There are 58 manufacturers of electric air conditioning and all major brands are available in our area. Brands in your area are listed in the Yellow Pages or identified on your neighborhood dealer's store front.

CHOICE OF SIZES

Electric air conditioning offers the right size for your cooling job. Too large a unit makes your first cost unnecessarily high; too small runs up operating cost. Electric air conditioning can save you money on both counts.

COMPLETE SERVICE

The principle of electric air conditioning is so well understood and the parts so easy to change that any air conditioning man can give you service quickly should you ever need it.

Bill Griffin, County Agent Says....

Quality planting seed is a must for farmers in Lynn County. Quality seed will insure a more vigorous plant and a more uniform stand. Certified seed are important in the production of quality cotton. Certified seed normally will produce higher yields of more uniform quality of lint.

Chemical treatment of planting seed is good insurance reduced crop yields from seed and soilborn diseases organisms. In demonstrations in Lynn County an overcoat of a fungicide has improved stands and some increase in yield.

Recently a quarantine on movement of swine was announced. The quarantine began on March 29 and will be in effect for 60 days. The quarantine does not effect the movement of hogs going to slaughter. This quarantine was placed to help eradicate hog cholera from our State. Similar action has been taken in other states that are now free of cholera.

If you wish additional information please contact my office.

Red's Automotive Service is located at 917 South Sixth in Brownfield, phone 637-3308. They specialize in automotive air conditioning service and repair.

Having equipped their garage with the latest tools and machinery enables this establishment to accurately and economically service your car or truck. This is the time of year to have your car inspected thoroughly and to have all needed repairs attended to. Their repair service on all makes will assure you of better work at reasonable prices.

Before you take your car anywhere, be sure to drive in here and get their estimates upon that repair or overhaul work. They also feature complete service for motor trucks.

The mechanics here know their business and with their modern equipment can put your car or truck in A-one condition at the lowest cost. If you want the work done correctly and at fair prices, take your repair problem to Red's Automotive Service.

The compilers of this 1971 Review give our endorsement of this concern.

LETTERS TO THE EDITOR

To whom it may concern. We know Tahoka and Lynn County has some of the best people in it. They are always ready and willing to help and do all they can in time of need. Everyone has been so nice and thoughtful to us in the loss of our loved one. We can never say thank you all enough for what everyone did.

We have such a nice home here for our Senior Citizens. A home away from home. A place where they are loved and cared for. We have a good Administrator Dewain Glass that is a good Christian man. A man that is never too busy that he can't stop and visit with the recipients and if one of them needs to go to town or to a doctor he always has the time to take them. So lets all get behind him and boost our home and administrator. And take a little time and visit our senior citizens in the home. And bring a little sunshine to them. Thanks and Love to all, Mr. and Mrs. Rob Barnett.

BEAVER SHOE SHOP

"GENE BEAVER - OWNER"

Make those old shoes look like new. Take them to the Beaver Shoe Shop in Brownfield located at 617 W. Main, phone 637-2383. They repair all types of leather goods including boots, shoes and saddles.

Here they feature all kinds of shoe repairing, dyeing, cleaning, shining, and half-soles. You'll find they have the best in equipment and are experienced workmen.

Take care of your old shoes by having them soled and the heel caps replaced often enough to keep them like new. When your shoes lose that "new look" have them dyed to a new color that will go well with the latest color fashions.

Don't ruin your feet with shoes that do not have proper support in the arches; let them correct this for you. You will be more than satisfied with their work and their reasonable prices. They give you the best in workmanship and fast service.

For sometime this shop has proved their expert ability as shown by their many satisfied customers.

This 1971 Review and its staff are pleased to refer our readers to this concern.

Mrs. White's Funeral Monday

Services for Mrs. Jim (Bessie Maud) White, 65, were held at 2:30 p.m. Monday, April 12, in the Sweet Street Baptist Church with the Rev. Lee Jones, pastor, Rev. Ray Cunningham, pastor of the Wells Baptist Church and the Rev. Jim Pulliam, pastor of the Tahoka United Pentecostal Church, officiating.

Burial was in the Tahoka Cemetery directed by White Funeral Home.

Mrs. White died about 9 a.m. Sunday in her home. She had been in ill health several years.

She was born in Indian Gap on Nov. 1, 1905 and was married to Rufus James White in Erath County on Nov. 11, 1922. They came to Lynn County in 1947 from Comanche. She was a member of the Order of the Eastern Star, Tahoka Chapter 743, and the Sweet Street Baptist Church.

Survivors include her husband; two daughters, Mrs. Roy Wilhem of Kermit and Mrs. Sammy C. Davis of Grassland; four sons, J. E. White of Lubbock, William T. White of Brownwood, Jesse W. White of San Jose, Calif., and Jimmie D. White of Tahoka; two sisters, Mrs. Odessa Lake and Mrs. Pat Howard, both of Comanche; two brothers, Nomie M. Harris of Idalou and Hardy S. Harris of Gustine; 17 grandchildren and five great-grandchildren.

Pallbearers were George Ellis, Sidney, Tex.; Glen Harris, Lubbock, Tex.; Cecil Johnson, Post, Tex.; Charles Reese, Gustine, Tex.; Bobby Sisk Idalou, Tex. Edward Ware, Idalou, Texas.

Honorary pallbearers were other nephews and Tahoka Chapter of Eastern Star.

Secretaries Are Rotary Guests

Truett Smith, who recently retired as district judge, was the featured speaker last Thursday when Tahoka Rotarians had as guests their secretaries and/or wives. This has become an annual event of the club.

Announcing his subject as "Nothing-And Lots of That," the Judge dished up a lot of humor and ended on a serious note.

Wilton Payne was in charge of the program, and Mrs. Novis Curry, who formerly was the Judge's secretary, introduced the speaker.

Visiting Mr. and Mrs. T. R. Riddle and Pam last week end were Mrs. Bobby Hayes and family of Perryton and Ricky, Belinda and Julie McFarland of Rankin.

CATCHES FISH - Shown above are from left to right, Al Jolly, Jerry Slover, Billy Jolly and Dave Hubbard, admiring the fish the Jolly's caught on a recent fishing trip at the Rio Grande River. They caught about 160 pounds of dressed fish, during their weeks fishing trip.

Jolly's Spend Week Fishing

Mr. and Mrs. Al Jolly and sons, Billy and Thomas of Snyder, daughter, Mrs. Sammie Engle of Artesia, N. M.

and Jerry Slover of Tahoka returned home Sunday night after spending a week fishing and Langtry on the Rio Grande River.

They reported a fairly good catch. They caught about 160 pounds of fish, after dressing. This is an annual affair as they reported having a good time.

THE FAMILY LAWYER
Gory Story
Witness by witness, exhibit by exhibit, the prosecutor was building his case against a woman accused of slaying her husband. But when he tried to bring in the victim's blood-stained garments, the defense attorney raised a vigorous objection.
"Your Honor," he said, "there is no question that the man was murdered. The only issue in this case is whether my client did it. I see no justification for bringing in all this gruesome clothing."

The court saw no justification either, and held the evidence not admissible. The judge said: "These bloodstained garments could in no manner identify the murderer. We can conceive of no other purpose than to excite the passions and inflame the minds of the jury."
It is on this ground that courts generally take a dim view of gruesome evidence. Nevertheless, the fact remains that trials often must deal with dreadful events. Evidence is not disqualified by gruesomeness if it is really useful.
Another case involved manslaughter by auto oblie. Here, the prosecutor wanted to show the jury a battered shoe - its laces torn - that had been ripped from the victim's foot when he was struck by the car.
This time, one of the issues was how fast the car had been traveling when it hit the victim. Since the shoe did cast light on this issue, it was held to be admissible evidence. Even if it was inflammatory, said the court, it could still help the jury reach a just verdict.
A similar rule applies to photographs. In another murder case, the prosecutor wanted to show the jury a picture of the victim's body, lying on a table at the mortuary. Over defense objections, the court allowed the prosecutor to go ahead - because the picture gave valuable assistance in showing the location of the fatal wound.
As one judge put it: "Courts and juries cannot be too squeamish about looking at unpleasant things, especially if truth is on trial."
