Tahoka Bulldogs, after losing their opener at Stanton last Friday, will play the Abernathy Antelopes there Friday night at 8 o'clock.

The Stanton Buffloes, picked as the best in District 5-A, took advantage of the inexperienced Bulldogs working a new system under a new coach and rolled to a 21-0 victory.

There were bright spots in the Tahoka game, however, and the Bulldogs are expected to improve as the season progresses.

Tahoka's Rocky Gonzales kicked off to open the game, and Stanton had the ball on its own 36. A Stanton sustained drive helped by two third down passes, took them to the Tahoka 2 yard line, where Tahoka drew an offside penalty, and then HB Vernon Brown drove over for the TD and converted. Score 7-0.

End Denny Johnson received the kick-off on the Tahoka 36. Two plays later, Tahoka drew a 15-yard penalty, Tailback Ernest Bailey ran for 12, then Fullback Trent Leverett picked up a bad snap from center and ran to the 50 for a Bulldog first down. But Tahoka was forced to punt.

Lynda Carter At Hayloft

The New York comedy called "The Champagne Complex," will be the next attraction at the Hayloft Dinner Theater where it will open on September 9th for a run of four weeks.

Lynda Carter, Mike Griswold, and Cal Bartlett will play the three points of the triangle -- Miss Lynda Carter as the bubbly, bubbly, Mike Griswold as her pompous, prudish lover, Cal Bartlett as the psychiatrist who only uncovers the secret of the girl's affections, but italyzes on them himself.

"Intelligent, well-meaning, often funny and witty" is the description given to "The Champagne Complex" by dramatic critic John C. Brooks of the N.Y. Daily News. Brooks said of it, "It's only funny, but it has and the dialogue is brilliant." A number of other reviewers also emphasized that Lynda was in good taste despite her heroine's propensity to throw off her clothes down to her and panties. While the actress sees her do this, her tease is only incidental to the main action of the comedy which is the gradual discovery of why she must do it.

The production of "The Champagne Complex" is being directed by Thomas A. Zona, Miss Carter's singing career began early. By the time she reached high school, Lynda was singing in some of the most popular night clubs in Phoenix. At 18, Lynda took her singing talents on a traveling show group. Then it was on to the road. Then it was on to the world of beauty contest titles -- those, Miss U.S.A. and Miss World.

After reigning as Miss U.S.A. 1973, Lynda decided to settle down to a double life of singing and acting. She has appeared with greats as Bob Hope, Dean Cain and Andy Williams, being selected to appear in the season opener of "Naked ABC" series. Miss Carter's first experience in live performance but if one can judge from her past history of Lynda, she will be her last.

Nursing Home News

Another week time to get down happening from the Home. Mrs. Hollis Hill brought us fresh green apples that are good for you. Mary Rivas one of our cooks brought us a load of watermelons. Mrs. Messer brought some green beans both were enjoyed very much. F.H.A. group had a lovely arrangement of garden flowers that grace the piano. The flowers and the beautiful pictures hanging on our lobby and dining room give our home a more homey atmosphere. Our residents need this as some are trying to adjust to leaving their homes.
 Mrs. Evelyn Russell returned home after spending several days with her family we were sure glad to see her as she brightens our home. Mrs. Russell reports more furniture is coming to our living room, we have chairs and low beds ordered to make our sleep time better.
 Some of our patients are feeling bad from head colds, also Inkelbarger with his cough. Miss Mowery, pastor at O'Donnell Baptist Church brought his

people and our church services Sunday. He read several scriptures about how the Lord is always with us he is the new pastor at O'Donnell. We enjoyed the service as we are always looking forward to Sunday Services. We need more residents to make an effort to come out and hear our services. We have only thirty minutes to go out and those of us that go feel our spirits lifted.
 Mrs. Russell attended church with Mrs. Thomas at the United Methodist Church, she says the people were warm and friendly.
 I want to tell the outside world about our Home. There is always something going on. In the north hall there is a group visiting in the lobby some of watch television and some activities in the dining room. Others are in their rooms being lonely and wishing that their loved ones would come visit them. Most of any day of the weather is nice you can see Mr. Anderson taking his daily walks. Jim Tomlinson rides his three-wheel bike for his exercise. Roy Campbell catches a ride into town and goes to the cafeteria to see what he wants for dinner. We try to keep busy and happy.

Birthdays for this month are Arthur Dial and Lallie Black.

SEPTIC TANK - CESSPOOL CLOGGING CAN NOW BE PREVENTED!

LIVINGSTON, N. J. — An amazing bacterial discovery that prevents clogging of septic tanks and cesspools with but a single, safe and easy-to-use yearly treatment, has been developed by the FX-Lab Co., Livingston, N. J.

Sluggish systems and drainfields can also be restored to normal by fast acting bacterial cultures. They are also recommended as a "starter" to seed newly cleaned out or newly installed septic tanks and cesspools.

These proven FX bacterial organisms, known as FX-4 for septic tanks, FX-7 for cesspools, and FX-11 for sluggish septic tanks and cesspools are available locally.

Available also, is a free booklet "The Story of Willie Bacteria, or How To Take Care of Your Septic Tank or Cesspool" from:

Says . . .

Many of you are sewing for your men these days. If you do, you need to keep a few things in mind when buying fabrics.

The type yarn used for men's wear doubleknits determine how well the garment will wear and how snag resistant it will be. The most common yarn used is 100 percent textured polyester filaments. Textured means crimped. Crimping the smooth, air-like strand of polyester gives the yarn more bulk, more 'give', and provides air pockets to allow better circulation.

Fabrics of textured polyester filaments are usually smooth, shinier than traditional mens wear wovens and have a harsher "hand" to touch than wool knits. When loosely knit, the slippery polyester fibers snag easily.

The second kind of knit used for menswear doubleknit is spun polyester. The long filaments are chopped into short pieces to look like cotton or wool staple lengths.

When spun into yarn, there are millions of microscopic fiber

ends. Not only is the fabric softer, but there is less chance for a rough fingernail or an abrasive desk edge to snag fiber ends.

Spun polyester isn't used for all menswear doubleknits. Chopping up the filaments and spinning them like cotton costs more than twisting filaments together. Also, while spun polyester does resist snagging, the short fibers slither their way out of yarns during the abrasion of wear. This creates 'pilling,' which yarn makers are trying to correct.

The third kind of menswear doubleknit is the newest and considered the best. It is a combination of polyester and 25 percent wool. The spun polyester and wool fibers are combined for the surface of the fabric. The filament polyester provides greater strength and a smoothness on the underside.

The surface feels like wool and the fabric snags less and keeps the wind from blowing through the garment.

As you know, many knits have a tendency to snag. Some of this is done during washing. To prevent snagging knits during laundering, fasten hooks at the neckline or elsewhere with a safety pin. Just slip a small safety pin through eye of the hook . . .
