BILLY H. SANDERS, 83, of 319 N. Madison, San Angelo, won the award Saturday as the oldest man at the Reunion.

## Pioneer Ranch Park Dedicated

Dedication of Tahoka Garden Club's Pioneer Ranch Park, immediately west of the Museum, was held Saturday afternoon immediately following the annual Old Timers' Reunion. Due to the heat, the crowd moved inside the Museum, where Dr. Kenneth Durham made the dedicatory talk and read a poem on "The Windmill".

Although the little park area is not yet complete, much of the area has been covered with washed river rock and landscaped with West Texas plant life.

The park features an Eclipse wooden wheel windmill assembled and rebuilt by Joe Don Nevill and his dad, Everton Nevill, and an old wagon from the T-Bar Ranch.

A brass plaque cast by Eclipse Foundry, will soon be installed on a huge boulder in the park.

The plaque reads: "Pioneer Ranch Park, a project of Tahoka Garden Club in cooperation with Joe Don and Everton Nevill, the City of Tahoka, and the T-Bar Ranch. The T-Bar Ranch was established in 1883 by Cass O. Edwards, and this park is dedicated to his memory and to all Pioneers of Lynn County. June 21, 1980. Park Committee: Clifford Tankersley, president; Maxine Paris project chairperson; Mildred Abbe, Loucille Stewart."

## Largest Crowd In Years At Pioneer Reunion

MRS. TEXAS OWENS, 92, of Tahoka won the award as the oldest lady present at Saturday's Pioneer Reunion who had not won previously.

The largest crowd in several years, nearly 400 people, attended the 46th annual Lynn County Pioneers Reunion held in the Tahoka school cafeteria Saturday.

Most of the day was devoted to "just visiting among friends," as registration began at 10 a.m. The usual barbecue lunch was served at noon to 347 paying visitors. About fifty people were involved in cooking, serving, and making other meeting arrangements.

Following invocation by Rush Dudgeon after the meal, John Ed Redwine presided over the brief afternoon session.

Mrs. Texas Owens, age 92, won the award plaque as the oldest lady present. Mrs. W.C. Huffaker Sr., 94, was the oldest lady present, but she had won the award previously and was not eligible to receive it again.

Billie Sanders, 83, of San Angelo, who married the late Sadie Dyer at Tahoka "away back yonder" received the oldest man present award. Runner-up was Hugo Maeker, 82, of Wilson.

There was no contest in the person coming the greatest distance. This award was won by Jim and Becky Hooten and two children, who had come from London, England, for the Wells family reunion. Becky is the daughter of Van and Betty Sue Greene of Morton, the granddaughter of Mrs. O.C. (Bernice) Roberts, and the great-granddaughter of the late Mr. and Mrs. J.S. Wells and "Aunt Becky" Roberts.

A large group of the J.S. Wells descendants came for this reunion and for a Wells family reunion. Incidentally the Pioneer Reunion was started by Mr. and Mrs. J.S. Wells in 1935, and is held annually on the Saturday nearest her birthday, which was on June 24.

Another reunion group was Griffin family, arranged by Raymond Griffin of Turlock, Calif., formerly of Tahoka and New Home. Many Griffin relatives came great distances for the meeting, some of whom had never seen each other before.

Another group reunion was of Ira S. Doak descendants.

Redwine also announced the winners in the store window contest, and awards were presented: Genny's Dress Shop, first; Murray Florist, second; and Parker Pharmacy, third.

Horace Rogers, this year's vice president, automatically became the new Pioneer Reunion president to succeed Mike Huffaker. Jim Wells was elected the new vice president, and Mrs. Helen Ellis the new secretary, succeeding Mrs. Mike Huffaker.

## County Buying New Radar Unit

Lynn County Commissioners Court in its meeting Monday, authorized the purchase of a new radar unit for use of the Texas Department of Public Safety here, at a cost of \$2,850.

Also, three additional air conditioner units were authorized for the court house.

These purchases will be from Revenue Sharing funds, made possible by amending the budget.

The proposed county budget for 1981 was discussed on which action will be taken at a later date.

Since Noel Caswell of Draw has moved to Lubbock, Elbert Crawford was appointed as alternate election judge for the draw voting precinct.

Only other business attended to was routine.

## Sen. Short Addresses Ag Leaders

Senator E. L. Short told a statewide meeting of agricultural leaders in Austin recently that the status quo for agriculture policies is insufficient and suggested that a fact-finding body be established to explore and recommend policy to the Legislature, the Railroad Commission, the Texas Department of Agriculture, and other regulatory authorities.

Short said, "Somewhere we have failed in this great land to take care of our business. Without our farm organizations' efforts, our economy would no doubt be worse. But I believe it is time we agree on a few fundamentals: That major policy and laws which are adopted and passed detrimental to our best interests are advocated by people who use agriculture as a sideline. The part-time farmer in many instances is the person serving on boards and is appointed to policy-making positions, while his counterpart back home is working his fingers to the bone."

Short continued by suggesting that a new system be established which is more equitable and fair in crop estimates. He encouraged agriculturalists to "get our act together as a State and work toward needed changes especially in Washington."

Short was one of five state officials to address the Statewide Workshop of Agricultural Lobbyists.

## Local People At Demo Convention

All four Lynn County delegates and four alternates attended the State Democratic Convention held in the Convention Center in San Antonio last Friday and Saturday.

Delegates attending were Mrs. Thalia Burks, county chairman, Woodrow (Ode) Brewer, Calloway Huffaker, and Mrs. Lloyd (Thelma) Nunley.

Alternates were Judge Melvin Burks, Mario marez, Tommy Lawson and Darrell Stotts. Mrs. Emily Marez also attended.

The meeting was a bit hectic at times, one of the issues being on the "gay rights" proposal, voted down by the convention.

The 3,900 delegates at the State Convention elected 152 delegates to the Democratic national convention in New York. Of these, 104 favor Carter, 38 favor Kennedy, and 10 are uncommitted.

## "Jaws of Life" Ready For Use

The "Jaws of Life" equipment bought by Tahoka Fire Department at a cost of \$6,550, a fund raised by public contributions, is now ready for service.

"But," a Fire Department member says, "We hope we won't have to use it."

The "Jaws" is a piece of equipment that can be used to pry open metal parts of a wrecked car or other machinery in order to release a trapped victim.

In an emergency, the Tahoka Fire Department will go anywhere in the county or to adjoining counties to release a trapped person or persons.

Although the equipment has been paid for, contributions continue to come in. Additional such contributions continue to come in. Additional such contributions will be used to build a carrying case on the fire truck.

Additional donations have come from Oran Short, Robert Harvick, and Mrs. Helen Ellis.

C-C DIRECTORS TO MEET  
The Chamber of Commerce directors will meet July 1, at 11:30 a.m. at the Tahoka Cafeteria.

Mrs. Tankersley presided at the program, attended by about sixty people, and Everton Nevill also made a brief talk.

"This has been an expensive project," Mrs. Tankersley says. "Made possible by our members, financial help from Cass O. Edwards II and a number of other individuals."

"But, for these improvements and others planned," she says, "we need further contributions from individuals and organizations, which can be made by deposits to the Ranch Park Memorial Fund at First National Bank, by mail to any committee member, or by calling 998-4254 or 998-4726."

"We think this is a worthy attraction and drawing card to our town and county to be enjoyed by tourists and local people, and we will appreciate your help," she concludes.

## Firemen Receive Praise For Work

Back on May 25, Mr. and Mrs. Paul Forman of Glendora, Calif., were traveling along U.S. Hwy. 380 east of Tahoka when their motor home caught fire.

Tahoka Fire Department made a run to the site and did what they could to extinguish the fire and give further aid to the people.

Last week, the Fire Department, Chief J.T. Miller reports, received the following letter from the Formans:

"We wish to thank you for your assistance and kind consideration regarding our motor home fire loss on May 25th.

"We find it a little hard to express in words just how much it meant to us to have your help that day--not only in the line of duty (which was great), but also, in the genuine concern shown us.

"In appreciation, please accept this check for \$150 to the Tahoka Fire Department to use in anyway needed."

## Museum Open House

As a prelude to the Pioneer Reunion, Tahoka Pioneer Museum directors sponsored a program Friday night which they hope will become an annual affair.

Featuring the program, presented outdoors in front of the Museum building, was a talk by Bob Nash, a history hobbyist of TV Channel 28, Lubbock; a comedy number by Mrs. Abbie Whorton, also of Lubbock; and square dance numbers by the Frenship Squares with Bob Solesbee as caller.

Bob Nash's talk featured many little known facts about the American Revolution, unpublished key figures in that war, and the participation of many nationalities in the American cause.

Mrs. Whorton, dressed in pioneer attire and "buck" teeth in place, told stories on some of the Tahoka citizens to the amusement of the crowd.

Harold Green, master of ceremonies, told of the rapid development of the Museum to its present state.

Mrs. Jewel Connelly was winner of the gold charm valued at about \$200 given by Dr. K.R. Durham, Museum Association president.

Inside the Museum, Mrs. Clay Bennett played the old time pump organ given by the Will Montgomery daughters.

## Two Burglaries, Theft Reported

A burglary and theft have been reported in Tahoka this week by the Police Department, and the Sheriff's office reports a burglary at O'Donnell.

When Pete Garcia returned home Monday after a three weeks absence, he found burglars had pried open a back door of his home at 1201 Ave. B and carried away loot valued at \$4,170.

Items taken included a 21-inch Western Auto television, a small Sony TV, an AM-FM stereo tape player, an 8-track AM-FM radio, a set of pots and pans, a set of china dishes, end tables and antique lamps.

Houston Bain reported theft from outside his second hand store between 5 and 11 p.m. Tuesday night of last week. A large bear trap weighing about 100 pounds, chain and lock on which had been cut with a bolt cutter was taken.

At O'Donnell, the Sheriff's office reported some one with a key opened a washer coin box and removed its contents at David Royce's laundry.

cookies were served to the visitors.

The Museum was open until after 10 p.m., and many visited it for the first time. First and last, a little over 200 people attended the event.

AUNT EVELYN keeps telling everybody that she can teach them to read everything a lot faster than they can. She will just take her speed reading course, and she is supposed to help busy persons get through their junk mail and even the important things a lot faster, giving them more time for coffee breaks and big business deals.

Usually, I don't have an Aunt Evelyn, but there is an Aunt Evelyn Wood reading course, which I've taken, but which I understand really does increase his reading speed with no loss of comprehension.

I don't know how it works, but it seems that I can go somewhere that you learn to grasp entire sentences or paragraphs at a time, and your eyes skip along on the printed matter, hitting the words in fewer places than it does in normal reading.

For faster readers, I think, look at every word. The faster readers jump from the beginning of the line, bounce somewhere in the middle and hit the end toward the end of the line, absorbing what is between without actually looking at every word. The speed reading concept just has the eye jumping bigger jumps and absorbing more as it goes along.

I remember reading somewhere that there was a young girl who could read an entire book faster than someone else could turn pages for her, and she could tell you what it was all about. She could probably read the Lynn County News in about 30 seconds.

I don't know how many words per minute the faster readers can negotiate, but somehow the rate of 1,000 to 1,200 comes to mind.

So, it seems to me that when I was in college, I was tested once and I was reading somewhere around 500 words per minute, which was pretty good (but my comprehension level was pretty low at that speed).

My eyeballs were jumping along at about two hits per line, they said. I would have scored higher, but I'm not now and then they would jump out the window toward low-flying airplanes or coeds walking across the campus.

Personally, I don't think I want to read any faster than I do. I'd rather throw away the junk mail than read it. And I frequently read Luke Short or Dickens novels in the evenings, giving me about 30 minutes of good relaxation on the divan. If I were a speed reader, I'd have to buy twice as many books as I do.

If you are a speed reader, you probably finished this column in about a half minute. If you're a slow reader, you probably haven't got to this paragraph

**Director Tells Of Rape Crisis**

The very successful program of Lubbock Rape Crisis Center, established in 1975, in getting court convictions for sexual abuse crimes and counseling and aide to victims, was told Tahoka Rotarians in a talk Thursday by Becky Mahan, center director.

"Your wife, daughter, sister, or mother may be the next victim," she warned, and added that the public needs to be more aware of the crime, causes, and prevention. She said she had worked several cases from Tahoka and Lynn County. Offenses against women, and even children, including incest, are very prevalent in this area, but many instances go unreported. She urged victims to report such attacks to officers. Following an attack a medical examination is very important. All officers in this area are very supportive of the program, she said.

Since the Center was established in March, 1975, there have been only four acquittals of persons charged with the crime.  
 Strangely, women on juries are most likely to vote for acquittal. Conviction, she thinks, is most important, because statistics prove that 73 percent of the rapists will rape again.

Summertime is the season when the crime is most prevalent as people tend to leave windows and doors open. Nineteen percent of the crimes occur on Saturdays, and a majority are perpetrated between midnight and daylight. Most of the crimes are by young men in their late teens or early 20's. Lubbock is third, percentage wise, in Texas cities, behind Dallas and Houston.  
 County Judge Melvin Burks was in charge of the program.

Rotary will not meet this Thursday noon, but will hold its annual officer installation Thursday evening with the meal served on the back lawn of President and Mrs. Jim Solomon's home. Rex Webster of Lubbock, a former International Rotary officer, will be the speaker. All Rotary Anns are urged to attend. Carl Reynolds is the incoming president.

**Visitor Recalls Pioneer Events**

Bill "Snookum" Shumake of Claimesa, Calif., whose grandparents were the late Mr. and Mrs. J.B. Miles, attended his first Pioneer Reunion Saturday and recalled some early day events.

When the J.B. Miles family moved to their "bonus" near the Lynn-Dawson County line east of present O'Donnell, there was no school for their children.

They built a school building just over the line in Dawson County that became known as "Six Miles School" because of the six Miles children who attended.

After O'Donnell was established, Chas. H. Doak, one of the daddies of the new town, he said, pilfered the school building and moved it to the new town. The Miles School building became O'Donnell's first school.

The six Miles children and their married names were: Oma Willis, Carrie Shumake (Bill's mother), Lela Tomlinson, Gladys Tomlinson, Roy Miles, and Jack Miles. Mrs. Miles was a sister of A.R. McGonagill who followed a few years later to settle east of Tahoka.

As has been customary, 47 plates of food were served to residents of the local rest home.

**ACCORDING TO THE BIBLE**

BIBLE Answers for BIBLE Questions: By DOUG CARTER

During the past several months we have been offering to answer Bible Questions. Now let me ask you the question of Eternity: Are you willing to "stake" your soul on your present belief? Solomon wrote, "There is a way which seemeth right unto a man, but the end thereof are the ways of death" (Prov. 16:25). If we, as mortal man, attempt to find our own "way" to heaven, disregarding the Word of God, how far will we go?  
 So many people want to live with God in heaven, but so few take the time to sit down and open their Bibles and find out what God has told us to do. And there are some, even when they do read God's Word, "explain-away" the plain commands of obedience. Jesus told the Sadducees "Ye do err, not knowing the scriptures, nor the power of God" (Matt. 22:29).  
 Paul was concerned about some of his own relatives because they were not following the ways of God, but the "ways" that they had invented. "For I bear them witness they that have a zeal for God, but not according to knowledge" (Rom. 10:2). Is there a chance that you are not following the ways of God?  
 I do not write this to condemn you, but because I am concerned about your soul, and I write with all love and humility. Will you sit down with me with an open mind, an open heart, and an open Bible and let us find what God's Word tells us together?  
 The Lord was rejected by the world (Jn. 1:10) and He is still rejected today. Christ said "He that rejecteth me, and receiveth not my sayings, hath one that judgeth him: the word that I spake, the same shall judge him in the last day" (Jn. 12:48).  
 Contact me and let us study God's word together. Call: 998-4060.

My wife and I have been married only a short time and I really have a need for life insurance?  
 Amount and kind depends on your needs, responsibilities and if you are childless, both working with well-paying jobs, your protection is less than a family with children, a non-working spouse, a smaller savings account. Think of life insurance in terms of income... to meet medical expenses in case of disability cover the cost of your children's education, income to support a family. With all these variables, you should discuss your circumstances with your agent. He will help you as to your best way to meet them.

### Sherry Etheredge Says....

**Pies To Fit The Berry Season**  
Here are 3 pie recipes. Enjoy them during these hot days.

1. Take home an extra basket of fresh strawberries the next time you're in the market. If they're on "special", so much the better. Rather than go the dessert route of traditional shortcake, create a homemade berry pie. Strawberries combine so well with other fresh fruits, fruit flavor gelatin and thawed frozen whipped topping in easy-to-prepare pies to spark family meals. To make a Strawberry-Blueberry Pie, dissolve 1 package (3 oz.) lemon flavor gelatin in 2/3 cup boiling water, stirring about 3 minutes. Add 2 cups ice cubes and stir constantly until gelatin is thickened, about 2 to 3 minutes. Remove any unmelted ice. Using a wire whip, blend in 1 container (8 oz.) frozen whipped topping, thawed; whip until smooth. Fold in 1/2 cup sliced strawberries and 1/2 cup whole fresh blueberries. Chill, if necessary, until mixture will mound. Spoon mixture into a cooled, baked 9-inch graham

cracker crust. Chill 2 hours before garnishing with additional fruit, if desired.

2. When fresh rhubarb makes its debut in the local market, snap it up quickly, keeping in mind this fresh Strawberry-Rhubarb Pie. Add 1 package (3 oz.) strawberry flavor gelatin to your shopping list, too. To prepare, simply combine 1-1/2 cups chopped rhubarb, 2 tablespoons water, 3 tablespoons sugar and 1 tablespoon gelatin from 1 package (3 oz.) strawberry flavor gelatin in a saucepan. Bring to a boil and simmer 2 minutes, just until rhubarb is tender. Chill about 15 minutes. Meanwhile, dissolve remaining gelatin in 2/3 cup boiling water, stirring about 3 minutes. Add 2 cups ice cubes and stir constantly until gelatin is thickened, about 2 to 3 minutes. Remove any unmelted ice. Using wire whip, blend in 1 container (8 oz.) frozen whipped topping, thawed; whip until smooth. Fold in 3/4 cup diced strawberries. Chill, if necessary, until mixture will mound. Then partially fold in rhubarb mixture for marbled

effect. Spoon into a cooled, baked 9-inch graham cracker crust and chill 2 hours. If desired, garnish with additional fruit before serving.

3. Don't throw away the last banana in the bunch. It will come in handy if you happen to bring home fresh strawberries today for a Strawberry-Banana Pie. Simply dissolve 1 package (3oz.) Jello-O orange flavor gelatin in 2/3 cup boiling water, stirring about 3 minutes. Add 2 cups ice cubes, stirring constantly until gelatin is thickened, about 2 to 3 minutes. After removing any unmelted ice, use a wire whip to blend in 1 container (8 oz.) frozen whipped topping, thawed; whip until smooth. Fold in 3/4 cup diced strawberries and 3/4 cup sliced banana. Chill, if necessary, until mixture will mound. Spoon mixture into a cooled, baked 9-inch graham cracker crust. Chill 2 hours. Before serving, garnish with additional fruit, if desired.

### Tornado Alert Could Save Life

Some people seemed to think the tornado alert sounded last Friday evening by the Fire Department was unnecessary. Chief J.T. Miller says.

"But", he told The News, "a funnel definitely was sighted southwest of Tahoka, the tail touching the ground, and a while later was sighted southeast of Tahoka. However, no damage has been reported from the twister."

Four sharp blasts on the fire siren are given when a possible twister has been sighted.

"The warning, when given, is in the best interests of the town and adjoining area," Chief Miller says. "And we feel it is better to be safe than sorry."

Weeds often survive because they can withstand extremes of heat and cold, drought, high winds - even fire.

MRS. RICKY ALAN HOLMES nee BRIDGETTE FOWLKES

## Fowlkes - Holmes Pledge Vows In Brownwood Recently

Bridgette Rene' Fowlkes and Ricky Alan Holmes were united in marriage June 21 at 7:30 p.m. in the First Baptist Church.

The bride is the daughter of Mr. and Mrs. Ronnie Fowlkes and the granddaughter of Mr. and Mrs. W. Lee Robertson and the late Mr. and Mrs. E.J. Fowlkes. The groom is the son of Mr. and Mrs. L.L. Holmes, the grandson of Mrs. J.P. Holmes and Mr. and Mrs. Don Norris.

Dr. Max Brown, pastor of the First Baptist Church, performed the double ring ceremony before a brass archway entwined with greenery with 15-branch brass candelabras on each side.

The bride, given in marriage by her parents, was escorted to the altar by her father. She was attired in a candlelight color gown of silken organza. The moulded bodice featured a bib-style, sheer cluny lace inset. A single ruffle of cluny lace and seed pearls outlined the collar. A high wedding band collar was also edged with cluny lace ruffle.

Straight candlestick sleeves repeated the pattern of cluny lace and seed pearls. A single ruffle of cluny lace fell gracefully over each hand.

The dress featured a princess-style skirt swept to back fullness forming a chapel-length train. To complete her wedding ensemble, Bridgett wore a chapel-length veil of ivory silk illusion edged in the antique lace. The veiling was caught to a lace camelot

caplet. The bride carried a traditional cascade of gardenias and daisies on a lace covered Bible that was given to her at birth.

Attending the bride as matron of honor was her sister, Mrs. Leah Fowlkes Miller of Lubbock. The maids of honor were the bride's sisters, Gwendolyn and Maritita Fowlkes. Other bridal attendants were Kathy Meeks of Tahoka and Blynn Roberson of Dallas. They wore identical floor-length dresses of cloud blue nylon Qiana edged with satin ribbon and lace.

Miss Anita Durham and Steve Meares exchanged double ring wedding vows Thursday, June 12 in the Second Baptist Church in Lamesa. Clifton Igo of the church officiated. Parents of the couple are Mr. and Mrs. J.C. Durham of O'Donnell and Mr. and Mrs. Bill Meares of Lamesa. Beverly Wright of Tahoka, sister of the bride sang, accompanied by Pat Romines of Lubbock at the organ. Donnal Meares of Lamesa, brother of the groom, registered guests. The church sanctuary was decorated with a brass arch covered with greenery and filled with blue and white daisies. To each side of the

arch were nine-branch candlesticks and 15-branch candle spirals filled with greenery and holding blue tapers. Presented in marriage by her father, the bride chose a white formal-length gown of sheer organza lined in taffeta designed with a stand-up collar. The yoke in front and back was trimmed with ruffled lace. Lace also trimmed the long illusion sleeves which finished in lace cuffs. The dress featured an empire waistline. Her chapel-length train was of polyester organza with nylon veiling, lace and simulated seed pearl trim. She carried a cascade of blue and white feathered carnations and baby's breath tied with satin streamers fashioned into love knots. Centered in the bouquet was a white orchid surrounded by satin loops and sprays of pearls. For something old, the bride carried two handkerchiefs belonging to her great Grandmother Mensch and the groom's Grandmother Thompson. Her dress was something new; something borrowed were the pearls belonging to Randy Garden-

TIPS FOR HOMEOWNERS

Edgers: Take Edge Off Drudgery

Maintaining a lawn can be fun--if you remove the drudgery involved. Like edging and trimming.

The Outdoor Power Equipment Institute suggests these tips on how to use edger trimmers safely and efficiently:

1. Read the owner's manual carefully. Acquaint yourself with all controls, attachments and safety features.

2. Keep children and pets out of the way.

3. Wear rough-soled, heavy-duty shoes or boots and tailored pants. Skirts or billowy slacks can get caught in moving parts.

4. Protect your eyes by wearing safety goggles.

5. Let the engine cool for 10 minutes before refilling the tank.

6. Stop the engine when leaving the equipment to make repairs or refuel.

These tips can give you an edge on edger safety and trim the chances of mishaps when you use your trimmer.

Cotton production from the 25 High Plains counties represented by Lubbock-based Plains Cotton Growers, Inc. in 1979 came to 2,750,600 bales of 480 pounds net weight, according to figures just released by the Texas Crop & Livestock Reporting Service (TCLRS), Austin.

The total was the third highest on record, trailing the 1977 crop of 3,215,400 bales and the 2,888,700 bales produced in 1973.

Planted acreage according to TCLRS was a record 4,565,800, over a half million acres above the 4,043,000 seeded in 1978, which was the previous high. But adverse weather, including one of the most severe hailstorms ever seen in August, cut 1979 harvested

acres by 17 percent to 3,789,250. Yield per harvested acre for the 25 counties averaged 348.4 pounds, up from the 274.4 pound harvested in 1978 but far below the area high of 513.2 pounds set in 1965. The 10-year High Plains average yield per harvested acre, 1970 through 1979, now comes to 356.3 pounds.

Dawson County, with 243,800 bales, led the area in total 1979 production. In second, third and fourth places were Lubbock (240,600), Gaines (228,700) and Lynn (220,000).

Per-acre yield leaders on the Plains in 1979 were Martin (552 pounds), Howard (525), Midland (510) and Garza (505).

The chart below shows planted and harvested acres, yields per harvested acre and total production in 480-pound net weight bales for each of the 25 PCG counties.

# COTTON TODAY

A NATIONAL COTTON COUNCIL SERVICE

**OSHA Gets Delay:** The U.S. Supreme Court has granted the Occupational Safety and Health Administration another extension for filing a response to industry petitions in the cotton dust case. OSHA's request said the principal issues in the petitions are likely to be affected by the court's decision in the benzene case and that the agency's response would be of more assistance to the court if it can be framed in light of that case. The deadline was extended to July 7.

**Exports Rolling:** Cotton exports of 205,100 running bales during the week ended June 8 brought the season's total shipments to 7,755,500. New sales of 97,800 for

current year delivery included 71,900 to Canada, 16,300 to Korea, and 12,900 to China. Meanwhile, the total commitments for 1980-81 rose to 2,086,000 with new sales of 99,200 going to Korea, Japan, Indonesia, and Israel.

**USDA Changes Mind:** The U.S. Department of Agriculture has notified the National Cotton Council that it has dropped its proposal to share its warehouse inspection responsibilities with the states. Director James E. Springfield of USDA's Warehouse Division said 90 percent of the comments received on the proposal opposed the policy change. Without substantial support from those affected, USDA considered it inadvisable to proceed further, he added.

**Extended Loans Available:** The U.S. Department of Agriculture has announced that the average spot price in May fell below 130 percent of the 36-month average, making extension of cotton price support loans available for an additional eight months. The loan extension option has been suspended in March when the spot price exceeded 130 percent of the 36-month average.

**And Cotton yesterday:** Cotton Gin, Texas, the second oldest settlement in Freestone County, was named for a gin built there in 1848 by Dr. J.S. Mills.

## A Visit With Your County Agent

By Stanley Young

An alcohol fuel symposium on "Small Scale Production of Ethanol from Grain" is scheduled July 1-2 at Texas A&M University.

Advance registration for the Symposium, to be held at the Rudder Theatre, is underway now and will be accepted through June 23, says Stanley Young, County Extension Agent. Registration is limited, and people are encouraged to register early by contacting the county Extension office for registration forms and more details.

Many organizations of the Texas A&M University System—including both the Texas Agricultural Experiment Station and Texas Agricultural Extension Service—have joined forces to explore the various aspects of the ethanol issues.

The Symposium will present latest information on feedstocks, preprocessing requirements, use as fuel in engine, by-product utilization, and legal, economic, and financial aspects of ethanol production.

Among speakers will be Dr. Neville P. Clarke, Director, Texas Agricultural Experi-

ment Station; Dr. Wayne A. LePort, Agricultural Engineer, and Dr. E.J. Soltes, Researcher in Wood Chemistry, both with the Experiment Station; and Henry P. O'Neal, Agricultural Engineer with the Extension Service.

Other key speakers will include Reagan Brown, Texas Commissioner of Agriculture and Representative Dan Kubiak, Vice Chairman, House Agricultural and Livestock Committee.

Serving as moderator will be Dr. Edward A. Hiler, Professor and Head, Department of Agricultural Engineering at Texas A&M.

Joining the Experiment Station and Extension Service in sponsoring the two-day Symposium is A&M's Center for Energy and Mineral Resources.

## A Farmer's Will

Being as sane as I have ever been, I hereby declare this to be my last will and testament. I leave:

**To my wife:** My overdraft at the bank. Maybe she can explain it!

**To my son:** Equity on my car. Now he'll have to go to work to meet the payments!

**To the banker:** My soul. He's got the mortgage on it anyway!

**To my neighbor:** My clown suit. He'll need it if he continues to farm as he has in the past!

**To the SCS people:** My farm plan. Maybe they can understand it!

**To the junk man:** My machinery. He's had his eye on it for years!

**To my undertaker:** A special request; six implement and fertilizer dealers for pall-

bearers, please—used for carrying me.

**To the weathermen:** sleet and snow for my funeral, please. No having nice weather.

**To the grave digger:** bother. The hole should be big enough.

**And last, to the maker:** Set up a nice epitaph: "here lies a man who has now assumed all his obligations."  
New York (N.D.)

The average size of farm increased from 48 acres in 1975 to 48 acres in 1979. The Agriculture Department expects three acres will be the average in 1980.

## HELPING THE NEEDY BRINGING NEW HOPE

A lifetime of honest labor and a wealth of experience are seen in the faces of the aged. This woman, a southern Indian who has never traveled more than 25 miles from her birthplace, has watched her family grow and prosper. In her old age, she will be well cared for. But there was a time when the future was uncertain. Several serious floods washed her village away. Each time, the people rebuilt with the help of the international relief and development agency, Catholic Relief Services (CRS). CRS helped build a dam upstream and, although floods are a fact of life in southern India, their severity will be diminished by the new dam. Around the world, every day of the year, CRS helps young and old alike. Catholic Relief Services, the international aid and development agency of American Catholics, brings new hope to millions of lives.

## PET FACTS & FIGURES

Man first tried to classify dogs according to their breed in the fifth century B.C. The Romans determined that certain dogs came from Asia, others from Europe and some from Africa. The classifications established by the ancient Romans have not been contradicted to this day.

No matter where dogs come from, they all have one thing in common: they can bring in mud on their paws and odors on their coats. In that case, the dog's best friend may be Lestoil Deodorizing Rug Shampoo, the clean way to keep odors away. You spread the shampoo's foam on the rug, let it dry 15 minutes, then vacuum it up. Results: a clean, odor-free rug.
