

THE FARM.

DOTS BY THE WAY.

My neighbor P. V. ... I moved ... I traveled last fall ... I saw many fields of nice corn from four to six feet high.

HOW TO MEASURE LAND.

Make a light and straight pole sixteen and a half feet in length, and mark feet and inches on one end.

TO KEEP POTATOES.

The claim has been made by a good many citizens that Irish potatoes in this climate will not keep over from one season to another.

PAINT AROUND THE FARM.

One of the most useful things about the farm is a pot of paint. The easiest way is to buy a can of paint at the store.

MAKING SORGHUM SYRUP.

For ten years I have not made a gallon of sorghum syrup without first treating the cane juice with slacked lime as a cleansing agent.

shade of red will answer for the farm tools. Red wears better than green under exposure to the weather.

COLMAN CANE.

From the Louisiana Planter. This new and promising variety of sorghum originated in a cross of the early amber and the Kansas orange varieties.

LISTED CORN.

Table with 2 columns: Item and Price. Includes items like Seed, Planting, Cultivating, etc.

MILLS CORN PROSPECTS.

Texas Stock and Farming. As your readers have been requested to make a report of crops in their vicinity.

TO THE PROFESSIONAL MAN.

As you are not "making your salt," as is probable, owing to the overcrowded condition of your profession, then go to manufacturing.

TEXAS IS FULL OF MUSTANG GRAPES.

Now, and millions of bushels will never be gathered. Yet they make an excellent wine, and are quite valuable as an article of food.

SWINE.

HOW TO GET THE MOST OUT OF THE HOG.

I want to say to every man who is engaged in the hog industry, or any other industry on the farm, don't keep a kind of animal unless you like them.

TOO MUCH CORN.

The reason why the English have succeeded so well in keeping up their hogs is that they have not overfed them.

REMEDY FOR THUMPS.

You ask what to do if it is a feed your brood sow differently. If you can give her a little corn, it will do her good.

EARLY MATURITY.

Now, I make this point. Put the animals on the market young. How shall we get an early matured pig?

THE BEST MARKET.

I have watched the market for thirty years, and the best market for hogs is in September, commencing somewhere about the 15th to the 31st.

HORSES AND MULES.

THE CAVALRY HORSE.

There are over 16,000,000 horses in the United States, and the cavalry service, according to Captain J. B. Aleshare, assistant quartermaster, U. S. A., the government purchases annually over 1,000 animals.

THE CAVALRY HORSE.

There are over 16,000,000 horses in the United States, and the cavalry service, according to Captain J. B. Aleshare, assistant quartermaster, U. S. A., the government purchases annually over 1,000 animals.

THE CAVALRY HORSE.

it well I would keep them, but I would sell young sires.

FOR BROOD SOWS.

Now, we want to understand how to feed the mother, we want to give her a ration that will fill the stomach so she will be satisfied.

REMEDY FOR SCOURS.

Now, we want to understand how to feed the mother, we want to give her a ration that will fill the stomach so she will be satisfied.

THE BEST MARKET.

I have watched the market for thirty years, and the best market for hogs is in September, commencing somewhere about the 15th to the 31st.

HORSEBACK RIDING.

Now that the trees are in leaf, the weather mild and the roads good, the desire for a spin on horseback along the highways is very general.

THE CAVALRY HORSE.

There are over 16,000,000 horses in the United States, and the cavalry service, according to Captain J. B. Aleshare, assistant quartermaster, U. S. A., the government purchases annually over 1,000 animals.

CATTLE.

A few recent sales at foreign markets were as follows: At St. Louis— J. B. Stephens of Florenceville, a train of 1045-pound grassers, at \$2.15.

J. H. Punched, Reisel, 1099-pound steers at \$3.50. Jot J. Smyth of Grandview, 1130-pound steers at \$3.50.

W. B. Carpenter of Mount Calm, 46 head 1031-pound steers at \$3.65. Jno. Glenn of Gainesville, 1145-pound steers at \$3.35 and 65 steers, 1115 pounds, at \$3.40.

D. H. Almsworth of Cotulla, 272 head 850-pound steers, sold to Nelson Morris & Co., at \$2.90. L. M. Kokernot, Gonzales, 250 steers, 1142 pounds average, at \$2.35.

H. A. Pierce, Waxahatche, 60 head 1198-pound steers at \$3.55. D. Williams of Abilene, 48 head 1062-pound steers at \$3.50.

Jno. J. Burke, Eagle Pass, a train of grassers at \$2.80. C. Furman, 400 head 965-pound grassers at \$2.10.

At Chicago— John Hill, McKinley, 1982-pound steers, and D. C. Hill, 1190-pound steers at \$3.50.

M. Mansom, 1095@1200-pound, \$4.00. O. L. Eckart, 190-pound, \$4.20. Jot Smyth, 1187@1150-pound, at \$3.40.

best is to prevent the horn starting on the calf. It is not five minutes time, not one cent's expense, to do it. I have disbarred many and never failed or made a mistake.

After using patented fluids and caustic potash, I now use common concentrated lye, such as the women use for breaking water and making soap.

ARMOUR INTERVIEWED. Mr. P. D. Armour has been interviewed by Frank Carpenter and the following taken from the St. Louis Republic is the interview so far as it relates to the livestock trade.

Another cause assigned. It is surprising that the secretary of agriculture, J. Sterling Morton, has not yet learned that fat cattle are selling at ruinously low prices.

Amongst the herds being held at Amarillo and still unsold at last accounts were those of Messrs. Dives, Oleo Stoke, McElroy, Johnson & Crowley, Watts, Smith Bros., Jake C. McCall and Schabauer.

BLACK VS. RED-POOLED CATTLE. The following interesting description of Galloway's Polled Angus and Red Polled Cattle appears in a recent issue of the "Hornet."

HOLSTEINS ON PACIFIC COAST. W. A. Potter of South Bend, Wash., thus writes to the Holstein-Friesian Register.

DEHORNING CALVES. On the above subject Joseph E. Wing writes as follows to the National Stockman and Farmer:

and the present bull is the Aggie, Clothide and Johanna strain. The knowledge and education I desire from your valuable paper has encouraged me to keep improving not only my stock, but better accommodations for them.

WHY YOU NEED ONE OR MORE COWS?

If so, whether for pleasure or profit, household or dairy, you should know the CENTRIFUGAL CREAM SEPARATORS.

DAIRY.

Eleven of the twenty-six creameries in Freeborn county, Minn., paid their patrons last year \$300,000 for milk. It is estimated that the total amount paid to the farmers of that county will reach nearly \$500,000.

Milk cows drink 50 per cent more water than those not in milk. At the Geneva experiment station, the Jerseys drank the most, 5.24 pounds of water to one of milk produced; the Guernseys next and Short-horns and Friesians, Hofstines and Ayrshires after them in diminishing order.

Mrs. Anna Clemmer, dairy and food commissioner of Colorado, is the first woman in history to hold such a position, but she fills it with eminent ability. She not only maintains a pleasant home, but looks after a Jersey herd and makes 200 pounds of butter every month. She has a ranch of 150 acres and the care of 1000 chickens, demanding personal attention.

TRANSFERS OF JERSEY CATTLE The following is a complete list of the transfers of Jersey cattle sold since registration, to Texas parties for the week ending May 23, 1896, as reported by the American Jersey Cattle Club, J. J. Hemmings, Secretary, No. 8 West Seventeenth street, New York, N. Y.

Vaughn, Mount Pleasant, Tex. Tracres, 79,904—O. L. Abney to J. G. Abney, Boerne, Tex.

FROZEN MILK IN BLOCKS. Milk may be bought by the brick in summer, just the same as some kinds of ice cream. It will be frozen solid, through, and it intended to be used soon as received in the household the lactical fluid for the tea or coffee will have to be clipped off with the back of the knife or according to the quantity desired in the drink. Perhaps at the Waldorf, at Delmonico's and other resource of the city, the frozen milk may be served in cubes, like sugar, or in pats, like butter, and a man may order a lump of milk with his coffee and rolls as well as a lump of sugar or "another pat of butter, please."

From a fat frozen milk has grown to be more or less of a necessity in the warmer countries of Europe, and some of the larger dairymen in and about New York are seriously discussing the practicability of introducing the custom as an experiment during the coming hot weather. It is claimed that if the milk should be first frozen it is just as impervious to the gathering of disease germs as is boiled milk or water.

Many persons do not take kindly to the idea of frozen milk, or even preserved milk. Fresh milk in cans, they claim, can be kept fresh for sixteen hours, and if it does not remain sweet for that length of time they conclude that the milk was not fresh when poured into the cans, or that the cans were not clean.

The trade foreign importations of frozen milk and cream is yet in its infancy, but advice recently received by American dairymen indicate that the industry will be speedily developed to greater proportions, especially in Holland. The Belgian government designs to increase the trade at an annual outlay of \$60,000, and in Copenhagen, the capital of Denmark, a company has been formed and arrangements have been completed for the regular export of frozen milk. The necessary plant has been erected, and contracts have been made already for the delivery of 10,000 tons per week, which will be sent to all parts of the world in bricks or blocks like ice.

If the lines laid down in European countries were closely followed, the health inspector would arrange these contracts in a number of infectious diseases in a number of families served by the same ice milk man would be promptly discovered and the mischief checked.—New York Journal.

TO RUN A PROFITABLE DAIRY. First in importance is the selection of the herd.—Never keep a poor cow. She is a continual source of loss, cost-

POULTRY.

Conducted by Mrs. C. K. Hawkins, 1302 East Tenth street, Fort Worth, to whom all communications for this department should be addressed. All are cordially invited to send in their contributions. We wish to help out so far as possible, and we will help out so far as possible. We wish to help out so far as possible, and we will help out so far as possible. We wish to help out so far as possible, and we will help out so far as possible.

TO THE LADIES AND GENTLEMEN who help out in this department, we have extended a welcome. Your articles will appear, without further comment, in the next issue of the Journal. We wish to help out so far as possible, and we will help out so far as possible. We wish to help out so far as possible, and we will help out so far as possible.

AMONG OUR EXCHANGES. Among the poultry journals is "The Feather," published at Washington, D. C. It is a neat, instructive journal, devoted to the interests of the poultry raiser. The editor offers a stipend of three dollars a month to any man who will subscribe at 20 cents each yearly.

How many of you have tried with eggs, and how do the fowls you have, or get enough to lay 300 eggs a week? A poultryman's average is one egg a day for two hens, thus taking at least 150 eggs to produce a farm. You can then ship a case to a city and not have to take 6 cents per dozen as one would expect. It is a conceded fact that pullets lay the most eggs, or lay more during the first and second year than afterward. It is extremely rare to find a pullet, when they will, with eggs by your best winter layers when eggs are at a good price.

During the first year of my stay here I had quite a cage of mocking birds. The first one I had was a male. Hard boiled yolk and mashed potato, but for all I gave them good care. The little wings drooped, and the chicks' legs for the most part, and they appeared light. I finally got some more, but the old birds bothered so that I cut a hole as large as a saucer in the top of a shoe box cage and allowed the two old ones to feed the youngsters. Well, the little fellows grew up ahead of the other older lot. At first I could see no reason for this, but finally concluded that the insect food was the prime reason of their thrift. I had a small cage for the next lot on boiled meat, with the gratifying result of a thrifty lot of young birds.

While each cow should be fed by the farmer, she can eat and digest, the individuals of a herd will be found to vary considerably in the quantity and proportion of the various feeds required. It is a miserable mistake to underfeed a cow. Bear in mind that the dairyman's profit comes from the food taken in and not from the food given in support. If the pastures become dry in the latter part of the season, feed the green feed, such as clover, alfalfa, etc. In brief, see that the cow has the right kind of food at all times and does not have to waste her strength in getting it.

Pure water at the right temperature is another important factor in profitable dairying. A full flow of milk requires from 8 to 14 pounds per day of grain, and all the clover hay, corn fodder and straw that she will eat. A good average is 10 pounds of grain, 10 pounds of clover hay, 10 pounds of corn meal, two pounds of oat meal, two of oil meal, with the roughage mentioned. The roughage may be your experiment stations are useful and aid to a better system of feeding, but the farmer should never permit them to supplant his own judgment. Cows cannot all be fed by the same rule.

There are several reasons for having cows fresh in the fall. A cow fresh in September or October will give a greater annual flow of milk than one fresh in the spring, for the grass stimulates the winter milk, while the heat of the summer tends to dry the cow that was fresh in spring. Then, the demand for choice butter in winter is higher, and the prices are usually higher. Again, by this system, the farm work is more evenly distributed, necessitating the least milking and the least attention to the cow. Finally, the moral effect on the farmer is good, as the duties of milking time compel him to be in his pen in the village and to be in his pen in the village and to be in his pen in the village.

Profits for the year depend largely on the management of the cow just before and after calving. Profound to the good, great attention should be given to the general condition of health, feeding, and exercise of the cow. After calving, the herdman's skill is taxed to the utmost. The cow should have her liberty in a roomy comfortable box stall. All water should be given in small quantities, with the chill taken off. If her temperature becomes too high, give ten drops of acetic twice a day. Milk often the first day but never draw all the milk at these milkings.—Correspondent American Agriculturist.

And a Good Business Education Nearer Home.—Special Office. On June 15th Draughton's Practical Business College, Nashville, Tenn., will open a branch school in Texarkana, Ark. The management of Prof. R. L. Luman, who has not only served as principal of Draughton's Nashville college twelve months, but he has for several years been one of the largest and best firms in Tennessee and Kentucky. He will be assisted by other competent teachers.

This branch school became a necessity, as the Nashville College found it difficult to accommodate the large attendance from the West and other sections. It will give the same advantages as given in the Nashville college. It is generally known that Prof. Draughton's course of bookkeeping is considered by business men by far the best in the Union, while the other departments are second to none. Prof. Draughton's reliable guarantees positions under reasonable conditions.

Those who enter the Texarkana school within a reasonable time will receive a special discount. For catalogue, etc., address, J. F. DRAUGHTON, President, Nashville, Tenn.

POULTRY.

more. If the eggs float as stated the trouble is elsewhere, usually found in the temperature. I am so glad of the Poultry Department of Stock and Farm Journal is to be under your management (thank you, Ed.), and hope those successful in business very fast I experience added to yours. I have about 200 little chicks. Have you had any of the disease? I found two little fellows that would not eat, so I cracked a grain of black pepper and gave it to each in a few minutes and they were all right. I had one very lively. Had one little Brown Leghorn that let its wings droop and did not look well, so I had no rice, and I cut off the wing feathers and gave it a grain of pepper. It looks as well as any.

I had four fine healthy Bronze turkeys. I first fed them a cracked grain of pepper, and since had fed them with barbed corn, corn bread and cooked oatmeal, also finely pounded cracked and charcoal. They look as if they would all live. I feed six young chicks Kaffir corn, much (cooked) first thing very early in the morning. I give them millet seed when small and larger grain when they grow. They grow very fast and fry at seven or eight weeks old. They are Black Langshans.

I have a small brooder room from where they lay and never have any trouble. Let one hen carry twenty-five or thirty chicks and rest the other. Hence have had splendid success. I have one cock and thirty hens and get twelve to fifteen chicks from each nest of fifteen chosen eggs set. Of course all the hens do not lay all the time. A SUBSCRIBER.

It is a very good remedy and the Germans can beat anybody raising chicks, of giving them black pepper. Some think it a notion, but with a little black pepper as soon as it can be first thing it "goes for" it is every grass. I feed a damp snap, and down every little throat would mother poke a pepper ball, and she seldom had droopy chicks. Don't depend on sand for grit, it is generally too sandy. China ware, flint chimneys, and uncolored glass bottles have been used generally for this purpose. A separate hammer is all that is necessary; pound it up. The small pieces do for the little ones and the large fowls generally gobble up the big ones.

WHAT IS THE MATTER? Waco, Tex., May 20, 1896. Texas Stock and Farm Journal, Fort Worth, Tex. I have had a few chickens that seem to be affected like mine. I have lost a great many grown chickens that seem to be perfectly healthy. They get down with their legs, becoming perfectly stiff, and coming to a sudden stop, and dying heartily all the time and at last die. T. J. PRIMM.

ANSWER. Your fowls have the rheumatism, due to damp quarters, or have suffered blood due to injudicious breeding. As you have a table-spoonful of sulphur it is difficult to say positively. If running at large and just hens are afflicted the males may be the cause. Remove them or the affected hens from them, or if more than one male say to a dozen hens remove surplus males. Lack of exercise (scratching) and over feeding also produce this complaint. It is rheumatism. Keep the quarters dry. Feed a tablespoonful of sulphur to twelve hens in a mash of some sort and keep them out of the wet meantime. Charcoal, with happy aid, powdered up and mixed with food, or corn burned and fed is an excellent blood purifier.

Next to the afflicted ones as it is hereditary and will cause you trouble all along. Pratt's poultry food is also recommended for this complaint. Many people differ in their ideas of a fence for poultry. For one year ago we saw almost exclusively the lath fence eight feet high and the lath nailed so that they could be removed. An angle-worm would have had to wriggle through. The editor a few years ago had a neighbor who built the sort of fence I have spoken of above. It was built in early spring, and before fall it was so badly demoralized that it could not keep the fowls in the yard.

Three years ago we built a fence which is practically as good today as it was the day it was built. It is a wire fence eight feet high and the lath nailed so that they could be removed. An angle-worm would have had to wriggle through. The editor a few years ago had a neighbor who built the sort of fence I have spoken of above. It was built in early spring, and before fall it was so badly demoralized that it could not keep the fowls in the yard.

While, perhaps, we might have builded cheaper, yet we have always felt that the wire fence was the best. It has been a constant source of satisfaction ever since. If we were breeding Cochins or Brahmas, we should use the four-foot. But the four-foot, with a twelve-inch baseboard, is high enough for a hen to light upon before the top of a wire fence, she will never get over it. It seems, from an observation, that a hen in flight or under excitement, is not able to discern the wire, and, after repeated effort, she will jump over it. The wire and rebound back to the ground, the hen becomes disgusted, and is content to remain in the yard.

The material used in the fence outlined above is now cheaper than at the time this one was built, but even at the prices given, it is the cheapest and most satisfactory fence with which we have had to do.

The McLennan County Poultry Association was organized at Waco on May 22d, Dr. C. S. Phillips, president, and L. R. Sparks, secretary. Arrangements were made for an exhibition this fall. I have an Ice Cream Freezer that will freeze cream instantly. The cream is put in the freezer and comes out instantly, smooth and perfectly frozen. This astonishes people and a crowd will gather to see the freezer in operation and they will all want to try the cream. You can sell cream as fast as it can be made and sell freezers to many of them who would not buy an old style freezer for \$5 to \$8 worth of cream and six to twelve freezers every day. This is the best test with a hard and it is a pleasant employment. J. F. Casey & Co., 1142 St. Charles street, St. Louis, Mo., will send full particulars on application and will employ good salesmen on salary.

Powdered charcoal, if laid thick on a burn, causes the immediate abatement of the pain. A superficial burn can thus be healed in an hour.

POULTRY.

more. If the eggs float as stated the trouble is elsewhere, usually found in the temperature. I am so glad of the Poultry Department of Stock and Farm Journal is to be under your management (thank you, Ed.), and hope those successful in business very fast I experience added to yours. I have about 200 little chicks. Have you had any of the disease? I found two little fellows that would not eat, so I cracked a grain of black pepper and gave it to each in a few minutes and they were all right. I had one very lively. Had one little Brown Leghorn that let its wings droop and did not look well, so I had no rice, and I cut off the wing feathers and gave it a grain of pepper. It looks as well as any.

I had four fine healthy Bronze turkeys. I first fed them a cracked grain of pepper, and since had fed them with barbed corn, corn bread and cooked oatmeal, also finely pounded cracked and charcoal. They look as if they would all live. I feed six young chicks Kaffir corn, much (cooked) first thing very early in the morning. I give them millet seed when small and larger grain when they grow. They grow very fast and fry at seven or eight weeks old. They are Black Langshans.

I have a small brooder room from where they lay and never have any trouble. Let one hen carry twenty-five or thirty chicks and rest the other. Hence have had splendid success. I have one cock and thirty hens and get twelve to fifteen chicks from each nest of fifteen chosen eggs set. Of course all the hens do not lay all the time. A SUBSCRIBER.

It is a very good remedy and the Germans can beat anybody raising chicks, of giving them black pepper. Some think it a notion, but with a little black pepper as soon as it can be first thing it "goes for" it is every grass. I feed a damp snap, and down every little throat would mother poke a pepper ball, and she seldom had droopy chicks. Don't depend on sand for grit, it is generally too sandy. China ware, flint chimneys, and uncolored glass bottles have been used generally for this purpose. A separate hammer is all that is necessary; pound it up. The small pieces do for the little ones and the large fowls generally gobble up the big ones.

WHAT IS THE MATTER? Waco, Tex., May 20, 1896. Texas Stock and Farm Journal, Fort Worth, Tex. I have had a few chickens that seem to be affected like mine. I have lost a great many grown chickens that seem to be perfectly healthy. They get down with their legs, becoming perfectly stiff, and coming to a sudden stop, and dying heartily all the time and at last die. T. J. PRIMM.

ANSWER. Your fowls have the rheumatism, due to damp quarters, or have suffered blood due to injudicious breeding. As you have a table-spoonful of sulphur it is difficult to say positively. If running at large and just hens are afflicted the males may be the cause. Remove them or the affected hens from them, or if more than one male say to a dozen hens remove surplus males. Lack of exercise (scratching) and over feeding also produce this complaint. It is rheumatism. Keep the quarters dry. Feed a tablespoonful of sulphur to twelve hens in a mash of some sort and keep them out of the wet meantime. Charcoal, with happy aid, powdered up and mixed with food, or corn burned and fed is an excellent blood purifier.

Next to the afflicted ones as it is hereditary and will cause you trouble all along. Pratt's poultry food is also recommended for this complaint. Many people differ in their ideas of a fence for poultry. For one year ago we saw almost exclusively the lath fence eight feet high and the lath nailed so that they could be removed. WE HAVE NO AGENTS. But have a fine horse for sale for \$100, or for \$200, or for \$300, or for \$400, or for \$500, or for \$600, or for \$700, or for \$800, or for \$900, or for \$1000. Also a fine carriage for sale for \$100, or for \$200, or for \$300, or for \$400, or for \$500, or for \$600, or for \$700, or for \$800, or for \$900, or for \$1000.

"Maud Miller" Hay Rake. It seems to me that the name of the hay rake shown above—"Maud Miller"—is exceedingly appropriate, for who does not recall that beautiful poem of a hittler and associate it always with the making of hay. This happy aid and machine is the product of the Acme Hayraker Co., of Pekin, Ill., who manufacture also the "Eli" rake. Both of these rakes are made to dump each at the north end and the back end of the lot made tight, and with the addition of the twelve posts we have an enclosure 40x64 feet. After placing the posts in the ground, as near as possible around the entire yard. In some places, where the ground was unsteady, we used a strong iron strap, the bottom of the board, as we must make the fence tight enough to keep the young chicks in, if it should be desired. As there were three sides to be boarded, it required 172 feet of lumber, which cost \$3.50. Above this board we matched a No. 19 poultry netting. This required two rolls of netting, at a cost of \$8. This made our yard cost us about \$13.50 and one day's labor.

Excursion Rates ...in May, June and July, 1896... Sunset Route. Round Trip Tickets on All Coupon Stations will be Sold as Follows: TO THE CITY OF MEXICO—June 11th, from San Antonio, at rate of \$25 for round trip. TO MONTEREY, MEXICO—From San Antonio, June 11th, at rate of \$45 for round trip. TO SAN FRANCISCO, CAL.—Account of the American Society of Civil Engineers, on June 15th, 16th, 23d and 24th, at \$65.00 from New Orleans, \$60.00 from Houston, and at correspondingly low rates from other points, good to return within sixty (60) days from date of sale. TO CHICAGO, ILL.—Account National Democratic convention, July 7th. Limited to July 14th for return. TO SAN ANTONIO—From all stations in Texas, June 8th, on account Christian Endeavor meeting, at rate of one fare for round trip, with maximum of \$5.00. Tickets received on deposit for extension to allow excursions to Mexico and other points. TO SAN ANTONIO—From all stations in Texas, account Baptists' Young Peoples' convention, June 23d, and State Sunday School convention, June 25th, at rate of one fare for round trip, with maximum of \$5.00; final limit to return June 29th. Tickets also received on deposit for side trips to Mexico and other points. TO ST. LOUIS—June 8th, 9th, 11th, 14th and 15th, account Republican national convention, limited to June 21st for return. TO RICHMOND, VA.—Account Confederate Veterans' reunion, on June 26th and 27th, good to return within twenty (20) days from date of sale, at rate less than one fare. TO BUFFALO, N. Y.—Account National Teachers' association, June 20th and 21st, with limit to July 15th, and privilege of depositing with joint agent for further extension, at rate of one fare plus \$2.00 for admission. TO WASHINGTON, D. C.—July 3rd, 4th and 5th, at rate of one fare for the round trip, with privilege of excursions that would seem to commend to posting with joint agent. ST. LOUIS—July 19th and 20th and 21st, account Populist and American Union conventions, limited to July 27th for return. Full particulars will be furnished on application to local agents Sunset Route. C. W. BEIN, Traffic Manager, Houston, Texas. L. J. PARKS, Asst. Gen'l. Pass. & Tkt. Agt., Houston, Texas.

ETATE MISSIONARY CONVENTION CHRISTIAN CHURCH— STATE SUNDAY SCHOOL CONVENTION. STATE MEETING C. W. B. M. Austin, Texas, June 12th to 16th. For the above occasions the M. K. & T. will sell tickets on June 11th and 12th at the rate of five dollars for the round trip, limited to June 17th for return. For those wishing to take advantage of the low rates arranged for the Mexican side trips, an extension of thirty days can be made. J. E. COMER, C. P. A.

PEOPLE'S PARTY CONVENTION. Galveston, Texas, August 5th, 6th and 7th. For this occasion the M. K. & T. quotes a rate of \$5.00 for the round trip. Selling dates and limit will be announced later. J. E. COMER, C. P. A.

DAIRY.

than others do, and, of course, they can be educated. By taking bread from ewes were very poor and employing high also were two-produced, it power of any flock-master to get numbers of twins than he would be likely to do, says the Agricultural Journal. For it is only on master must be a good keeper to favor large increases. Some breeds of sheep are native productive than others, the and Dorset Horns being probably most productive of any. There should be a large percentage to ewes depends, of course, on the flock-master himself, on his shepherd. The latter and good management, makes all rearrange of them after they are, but he has no control over which causes prolific crop beyond placing, with the consent, the ewes when coupled in a clover or rape, which is a little more of food than other flocks on which flocks are subjected to great scarcity or management in the general system is often the rule. Sheep-owners have no encouragement to the best of things. Only when she and shepherds work hand together can the best results be good shepherd, and a good shepherd, only large sheep owners when the right sort of man has kept him, as large numbers do, find a shepherd remaining on the farm from youth to old age, or it was customary to find this in part and middle of the present and although agricultural labor almost everywhere, but many shepherds are still to be found, who shepherds take the greatest interest in the welfare of the ewes they have to tend. Although the best of things, only when she and shepherds work hand together can the best results be good shepherd, and a good shepherd, only large sheep owners when the right sort of man has kept him, as large numbers do, find a shepherd remaining on the farm from youth to old age, or it was customary to find this in part and middle of the present and although agricultural labor almost everywhere, but many shepherds are still to be found, who shepherds take the greatest interest in the welfare of the ewes they have to tend. Texas Stock and Farm Journal.

PUBLISHED EVERY FRIDAY

The Stock Journal Publishing Co., GEO. B. LOVING, Editor and Mgr.

FORT WORTH, TEXAS

SUBSCRIPTION, \$1.00 A YEAR

Entered at the Postoffice, Fort Worth, Tex., as second-class matter.

The Cassidy Commission company of Chicago, Kansas City and St. Louis has filed application for permission to do business in Texas.

Recent reports indicate that timely rains have fallen in many sections of the state since last week and cotton and corn crops will be wonderfully benefited in consequence.

Recent advices from the City of Mexico state that beef cattle in the interior have been dying for lack of pasturage, and the price of beef as a consequence is advancing.

Recent San Angelo advices state that agents for Eastern manufacturers have this spring purchased over 2,000,000 pounds of wool at 6 to 7 cents and that there is over 500,000 pounds yet unsold, with perhaps as much more to arrive.

A copy of a new journalistic venture entitled "Looking Southward" is before us. It is published monthly at Cincinnati, price 50 cents per annum, and devoted to the development of the southern states. It is an interesting, well gotten up, and useful journal, well worth the small subscription price.

"Looking Southward" correctly remarks: "The discovery of cotton seed meal as cattle food has revolutionized the cattle business in Texas. The long horned steer has disappeared, and the cattle shipped are fat and fine. This step has improved the breeding, increased the weight, and even increased the value per pound of Texas cattle."

The Journal acknowledges receipt of bulletin No. 34 of the Colorado agricultural experiment station entitled "Cattle Feeding in Colorado." Besides giving some results of feeding experiments it contains much other matter of interest to stockmen. An application to the director of the experiment station, Fort Collins, Colorado, will secure a copy.

Advices received during the week from the Otago, Ponca and Otee reservations and other parts of the Indian Territory, also from portions of the Panhandle country, state that abundant rains have recently fallen, which insures good summer grass. There have also been numerous showers along the line of country traversed by the Texas and Pacific railway and range cattle are in better condition than for several years.

That New York city consumes nine hundred and sixty million eggs in one year; nearly three hundred thousand pounds of butter every day; and as many gallons of milk; that it eats three hundred and five million pounds of beef in a year seems astounding. And yet these figures are, in reality, very moderate calculations which Mr. John Gilmer Speed has reached upon exhaustive investigation, and embodied in an article on "Feeding a City Like New York," which he has written for the Ladies' Home Journal.

Hardly had the public recovered from the shock caused by the reports of widespread loss of life and property with cyclones and tornadoes of last week when further casualties were reported. Another cyclone swept through Iowa and Kansas and part of Illinois on Monday, 25th inst., resulting in the death of forty-three, fatal injuries to a score and injuries more or less to fifty others. Students of sacred writing profess to see in these signs of the times, fulfillment of the prophecies relative to the end of the world.

This is a busy time of year with farmers and few have either the time or inclination to write much. But it will not take long to drop a few lines on a postal card stating briefly certain items of your locality. In many cases one of the boys or girls in a family can do it and thus relieve the parent. And, by the way, parents should encourage their children more in this direction. Education in penmanship and composition is indispensable but always incomplete until ease and fluency are attained by practice. We extend a general invitation to our patrons, and shall always be pleased to hear from them on any topics of interest connected with the various industries represented in the Journal.

UNION DEPOT DESTROYED. As doubtless most of our readers have learned ere this the union depot in Fort Worth is now numbered among the things of the past. On Monday last the Gimnoch hotel, adjoining the depot, caught fire and the flames communicated thence to the depot building which, in spite of the heroic efforts of the fire companies, was ere long reduced to ashes. Whilst as a general thing it must be admitted that there was a feeling of satisfaction at the demolition of the old building there were some few in whose breasts feelings of regret arose, when reverting to the old associations with which it was inseparably connected. In Fort Worth's palmy days, when dollars were more plentiful than dimes now—a day, the old depot was amongst

the principal buildings in the city. But it had outlived its usefulness, and of late years the erstwhile fine looking structure was condemned on all sides as being too small and inconvenient. The loss of the building was partially covered by insurance and a new and commodious depot will no doubt be at once erected, which will furnish considerable much needed employment to our artisans and laborers.

NEW MARKETS FOR TEXAS LIVE STOCK.

The Journal has just received authentic information that another buyer will be here on June 3rd in the person of Mr. Madison Hayes. Mr. Hayes comes as the accredited representative of large packing houses in St. Louis, Indianapolis, Cleveland, Buffalo, Cincinnati, as well as other interior points where packing houses are located. He can handle probably 5000 head of cattle per week and will want several cars of sheep as well as five to ten cars of hogs per day at least. With his arrival there will be, outside of the buyers for the Fort Worth packing house and local butchers, a buyer for the St. Louis abattoirs, for the Eastman company as well as one for the foreign packeries above named and other casual buyers for various local points. With this competition it will certainly pay our stockmen to give the Fort Worth market a fair trial.

APPALLING CATASTROPHE.

One of the most frightful disasters which has befallen the country of late years, and before which the many which were reported during the past two weeks pale into insignificance, overwhelmed the city of St. Louis Wednesday evening the 27th inst. A tornado struck the center of the city and for half an hour raged with a velocity of over eighty miles an hour.

A rough estimate places the number of killed and wounded at over 1000. Great buildings were blown down; also part of the Eads bridge, one of the strongest in existence. Nearly all the boats on the Mississippi river were sunk and in many cases all hands perished.

The Waters-Pierce oil works and several other large buildings took fire and were destroyed, and as late as yesterday fires were still burning in many parts of the city. Some of the largest manufacturing and other buildings, with countless smaller ones, were destroyed. Owing to the interruption of telegraphic communication, it is difficult to obtain full particulars up to time of our going to press, but enough has been learned to indicate that death, destruction and devastation overpread the city. Altogether it is one of the most widespread and awful catastrophes of the present century.

ABOUT HOGS.

The agitation by the state agricultural journals for the increased raising and fattening of hogs in Texas is being productive of gratifying results, which are justified by the home facilities for their handling and sale afforded by the Fort Worth stock yards and packing house. From recent reports received and published by the Journal we are pleased to note the probabilities of an increased supply for the coming season. The farmers no doubt realize that because markets are low at present is no reason why they should be in the same condition by the time the next hog crop is ready for sale. The following reports show the conditions as regards the hog industry in the several counties named written in reply to a circular sent to the Journal's office as to prospects for hog raising and fattening the coming season:

Bees—25 per cent. increase. Bell—More than double will be raised. Brown—20 per cent. increase. Eastland—50 per cent. increase. Hale—25 per cent. increase. Hamilton—One third more. Hack—An increasing amount. Kaufman—Rapid increase. Montague—Increase there will be 50 per cent. more this year if good crops. Palo Pinto—On the increase. Taylor—300 per cent. increase. Travis—25 per cent. increase at least. Young—Good prospects, more than ever before.

OUR HOME CATTLE MARKET. Last week the Journal briefly mentioned the arrival of Mr. J. W. Corwin, New York, and the fact that he expected to remain here and buy cattle for his company provided the Texas people were willing to sell them on the basis of northern markets. Since that time the Journal has had the pleasure of an interview with Mr. Corwin in which that gentleman reiterated the "great bulk" of the Eastman company's business," said he, "is the exporting of dressed beef, their slaughter house being at the foot of Fifty-ninth street, New York city, and having about 700 retail shops in England under their direct management for the disposal of the beef. They have not been shipping much live cattle, but their present intention now is to buy a few lots of cattle here and ship direct. As an experiment they will also make a shipment of dressed beef, and should the conditions prove advantageous the company will probably build a packing house here."

LIVE CATTLE EXPORT TRADE.

The Journal recently published reports showing that the export trade between the Argentine Republic and Great Britain had not been successful. Similar reports now come from Australia to an article which recently appeared in the "Queensland Grazier" as follows: "The live cattle trade is now like a dream of the past. It was dead as Queen Anne. It began a little over a year ago with a great flourish of trumpets, and New South Wales went in to boom it; but, somehow, it didn't work. It was frequently pointed out then that the real center of trade must naturally be Queensland, and there was no doubt but what it would come our way if it developed. But it has failed, and the reason why it has failed is simple. The voyage is too long for live cattle. There are men in our midst today who think that, by proper methods of handling, by careful attention to fodder and water, we might still make a trade in live cattle; but such ideas are entirely fallacious. There were shipments made that were much insured by the methods of handling, and Mr. Ralph came in for more than his share of abuse in that direction. We blamed shippers for failures, but the real reason of failure was beyond the control

of mortal man. We may as well face the hard facts at once—the trip is too long. No care in handling or in the selection of fodder will obviate that!

A few weeks ago Mr. P. J. Brennan, the business manager for Messrs. Bergl & Brabbin, returned from England, and his views have affected a very material change in our attitude. He saw that the American live cattle, at sea, looked as fresh and bright as though they had just left English pastures. He saw, too, that the Argentine cattle, after thirty-five days at sea, were sore, bruised, tugged up and poor. Then what must come to our cattle? Fancy some of our nearly eighty days on shipboard, poor, mis-purified beasts. No wonder that many of them died, that all of them brought poor prices.

"When the Urmonston Grange went home from New South Wales she carried some lovely cattle, as good as ever were sent out of the country. They were carefully handled, well fed and watered, and they were an even lot of bullocks, not too heavy for the trade. Yet they were a failure! We refused to understand why, but we've traced it into words—the voyage is too long, and the live cattle trade is as dead as a door nail."

PRACTICE WHAT YOU PREACH.

A notable example of which we are told is a jewel, may be found in the case of a Fort Worth daily paper, which has been clamoring long and loud on the subject of home industries, but yet persistently ignores even passing references to the industries which are among the chief in our city, namely, the Fort Worth markets, stock yards and packing house and at the same time announces in big box car headlines the fact of a reported good sale of cattle at a foreign market. Possibly, however, (may probably) the aforesaid announcement was what in newspaper parlance is termed "paid local" matter, or to be more explicit, matter inserted as news and paid for at advertising rates. If so, the home concern can have any amount of similar enthusiasm at so much per "enthuse." But that description of boasting is a poor substitute for the genuine article—it lacks the true ring. In fact comes dear at any price, and the home industries alluded to exercise commendable judgment in declining it. Now as the Journal's news and paid for at advertising rates, if so, the home concern can have any amount of similar enthusiasm at so much per "enthuse." But that description of boasting is a poor substitute for the genuine article—it lacks the true ring. In fact comes dear at any price, and the home industries alluded to exercise commendable judgment in declining it. Now as the Journal's news and paid for at advertising rates, if so, the home concern can have any amount of similar enthusiasm at so much per "enthuse." But that description of boasting is a poor substitute for the genuine article—it lacks the true ring. In fact comes dear at any price, and the home industries alluded to exercise commendable judgment in declining it. Now as the Journal's news and paid for at advertising rates, if so, the home concern can have any amount of similar enthusiasm at so much per "enthuse." But that description of boasting is a poor substitute for the genuine article—it lacks the true ring. In fact comes dear at any price, and the home industries alluded to exercise commendable judgment in declining it. Now as the Journal's news and paid for at advertising rates, if so, the home concern can have any amount of similar enthusiasm at so much per "enthuse." But that description of boasting is a poor substitute for the genuine article—it lacks the true ring. In fact comes dear at any price, and the home industries alluded to exercise commendable judgment in declining it. Now as the Journal's news and paid for at advertising rates, if so, the home concern can have any amount of similar enthusiasm at so much per "enthuse." But that description of boasting is a poor substitute for the genuine article—it lacks the true ring. In fact comes dear at any price, and the home industries alluded to exercise commendable judgment in declining it. Now as the Journal's news and paid for at advertising rates, if so, the home concern can have any amount of similar enthusiasm at so much per "enthuse." PERSONAL.

Transfers of Jersey... Sidney Webb of Bellvue was among the visiting cattlemen here this week. A. M. Lassiter of Keachi, a prominent cattlemen, was in the city Tuesday. A. M. Lassiter, of Jackboro, was among the visiting cattlemen this week. A. F. Crowley of Midland, a well known cattlemen, was in the city Wednesday. Aroh Gamel of Chickasha is in the city this week circulating amongst the cattlemen. Terry Parkinson of Oklahoma City, a well known cattlemen, was in the city this week. John W. Gibson of Waggoner, I. T., was a prominent visiting cattlemen here this week. J. W. Pike of Tarrant county was amongst the Journal's appreciated visitors last week. C. C. Slaughter of Dallas was a familiar figure amongst the visiting cattlemen this week. Bob Arnold of Graham, a prominent lawyer, banker and cattlemen, was in the city Wednesday. G. S. White, of Weatherford, is amongst the prominent visiting cattlemen here this week. H. B. White of Meridian wants livestock in exchange for a stock of goods. See his ad elsewhere. W. L. Gatlin of Abilene is in the city from his ranch, and was amongst the Journal's callers Monday. F. L. Burdick, former superintendent of the Packing company, left Tuesday for Hot Springs with his family. A. G. Boyce of Channing, the efficient manager of the Capital Syndicate company, was in the city this week. A. R. Jones, general live stock agent of the Missouri, Kansas and Texas, accompanied by Mrs. Jones, left for St. Louis. J. W. Barbee, general livestock agent of the Cotton Belt, arrived in the city Wednesday from a trip to the San Antonio county. Captain John Tod of Corpus Christi, manager of the Laureles ranch, was in the city Saturday and a visitor at the Journal office. H. Hill, of Lewisville, was amongst the visiting cattlemen here this week. Mr. Hill says that yearlings are scarce and high in his county (Deaton). William Harrell, of Amarillo, a well-known cattle dealer is in the city. He reports plenty of cattle there but sales slow and few at from \$15 to \$18. Frank P. Holland, president of the Texas Farm and Ranch Publishing company and mayor of Dallas, was in the city Sunday en route to Chicago. Mules wanted in exchange for a separator in good order and an Osborne binder that has cut only about 200 acres. See Mr. C. K. Herndon's ad in this issue. A. P. Bush of Colorado City, president of the Cattle Raisers' Association, was in the city this week in attendance at the executive committee meeting of that body. E. T. Corner of San Angelo, a well known cattlemen, was in Fort Worth this week in attendance at the meeting of the executive committee of the Cattle Raisers' Association. Curdlo Mackenzie of Trinidad, manager of the Matador Land and Cattle company, was in Fort Worth this week and attended the executive committee meeting of the C. K. A. J. B. Wilson of Dallas was amongst the prominent visiting cattlemen here this week. Mr. Wilson attended the meeting of the C. R. A. executive committee, of which he is a member. W. R. Curtis of Henrietta was in the city Tuesday on his way from his ranch in Hall county to Colorado City, where he goes to receive and ship out a lot of cattle from the M. K. Ranch. F. M. Weaver, of Sugden, I. T., was in the city Wednesday. Mr. Weaver is a large and well-known cattlemen in that section. He states that the stock interests are in good shape in his section. E. Fenlon, Jr., and J. T. Hines, manager and foreman of the "Quest Sale" ranch near Midland, were in the city last week and on their return from Amarillo, where they had been delivering a bunch of steers. Dr. J. B. Taylor of San Antonio, here this week. Dr. Taylor was here to attend the meeting of the C. R. A. executive committee.

to attend the meeting of the Cattle Raisers' association executive committee, of which he was an active member. Geo. B. Loving and Dan Waggoner came in Monday night and went out in the morning to check up on the stock. The former is agent for the Rocking Chair company and the latter is figuring on buying the ranch—Hall Co. Herald. Charles Goodnight if Goodnight was amongst the prominent visiting cattlemen here this week. W. E. Skinner, the active and efficient manager of the Fort Worth stock yards, was a caller at the Journal office Monday, in company with Mr. Corwin, of the Eastman company, whom Mr. Skinner introduced to the Journal people. E. D. Farmer of Aledo was in the city Tuesday. Mr. Farmer is a prosperous cattlemen and feeder and at present has a bunch of steers which will come mighty near topping the market when he offers them for sale in a short time. W. D. Driskill of Spearman, S. D., was a caller at the Journal office Friday. Mr. Driskill is an extensive cattle operator and was just down from Amarillo, where he returns in a few days to receive a herd of cattle he has purchased. Y. C. Renfro of Bullard, member of the firm of Lewis & Renfro, was in the city last week and made the Journal office a friendly call. Mr. Renfro and Lewis & Renfro are extensive dealers in cattle and have a large lot of ones and twos for sale at present. J. L. Harris, agent for the Chicago Union stock yards returned Monday from a trip to San Angelo, where he secured seventy-five double-decked cars of sheep for the yards. He states that that country is not dry and dry, has suffered from hot winds and is needing rain. J. M. Tannehill, of Tarrant county, a prosperous farmer resident a few miles west of the city, was a caller at the Journal office Monday to renew his subscription. Mr. Tannehill states that it has been very dry in his neighborhood and the hay crop there has been light in consequence. J. H. Burney, of the legal firm of Matlock, Cowan & Burney, returned Monday from a trip to Fort Stockton, where he went to prosecute a white man and two Mexicans charged with the theft of cattle from the Mexican. He escaped to the land of God and liberty and the cases were postponed. D. O. Lively, one of the Fort Worth stock yards efficient and effective missionaries, dropped into the Journal office Friday. Mr. Lively says the farmers are not getting ahead as well as they should be. He states that the present low markets and that there will be double as many hogs for market next season. T. B. Jones of Wichita Falls was amongst the visiting cattlemen in the city this week and made the Journal office a friendly call. Mr. Jones has considerable interests, including a large ranch in the Oklahoma country. He states that his ranch in Nowata has over five bushels per acre in Wichita county this year. J. S. Johns, of Houston, of the firm of Allen & Johns extensive cattle operators in the coast country and also in the Indian Territory, who was amongst the visiting cattlemen in the city this week and made the Journal office a friendly call. Mr. Johns is a substantial stockman and farmer in his section and is an old hand at the business and a believer in the efficacy of his advertising columns. In proof of which he inserts an ad. in this issue to which attention is directed. D. A. Galbraith of Colorado City, came in last night and made the Journal office a friendly call. Mr. Galbraith reports sales slow in that section. Very few buyers have changed hands. Says that his neighbor at Colorado City, Robert Gary, had a bunch of twos at Amarillo which he sold for \$15.29 per head. George C. Wolford of Lubbock made the Journal office a friendly call Friday. Mr. Wolford is a popular stockman in his county, also holds the office of county clerk, and is one of the residents in that county, having moved there from Jack county twelve years ago. He states that grass has been better there of late than in other sections, but just now it is a little dry. J. L. Pennington, general live stock agent of the Santa Fe, has just returned from a trip to Chicago. Mr. Pennington states that the authorities are now taking vigorous steps to combat the enforcement of the law relative to feeding and watering cattle in transit and that officials are stationed at terminal points to examine the cattle bills and see if the notations thereon show that the law has been complied with. S. H. Cowan, of the firm of Matlock, Cowan & Burney, attorneys for the Cattle Raisers' Association, returned last week from a trip to Woodward, Okla. T. where he went to prosecute Ben Gholson, who was charged with various and sundry cattle thefts in that county. Whilst that case was proceeding the accused, who was out on bond, "skipped out" and has not since been heard from. He was found by the authorities at Woodward, Okla., and was present. Officers are now in pursuit. J. W. Corwin, buyer for the Eastman company of New York, who is now making his headquarters at the Stockyards hotel here, was a visitor at the Journal office Monday and was pleasantly on cattle matters. Mr. Corwin expects to be here all the summer and before settling down to business will visit around throughout the cattle raising sections of the state. At the time of his call he was feeling somewhat better, due possibly to change of climate and water, and consequently did not talk as much as we would have wished. Sam Sherwood of Ryan, I. T., was a pleasant caller at the Journal office Saturday and notched his subscription up a year. Mr. Sherwood, who is a prominent and progressive stockman, is in the city to meet and bring his children, who are attending the Polytechnic college, home for vacation. He states that rain is needed in his country. Cattle, however, are doing well. Mr. Sherwood has a lot of red cattle

about ready for market. Thirty days ago he turned them out on grass and at that time weighed one bunch of eleven steers which averaged 877 pounds. At the expiration of the thirty days they were re-weighed and averaged 1,115 pounds, thus showing a gain of over four pounds a day. Mr. Sherwood has erected a scale for weighing his stock and thus can secure intelligently how his steers, weights and shrinkages on his shipments, etc., all the time. DEATH OF MRS. E. H. REED. May 22 Mrs. E. H. Reed, mother of Capt. A. S. Reed, died at the residence of the latter in this city. The remains were taken for interment in the family burying ground at Ballinger the following day. The Journal desires to extend its condolence to the family of the deceased lady upon the sad event. CHEAP EXCURSIONS VIA THE "KATY." \$60. San Francisco. Selling dates June 15, 16, 23 and 24. Allows until June 30 to reach destination, with stop-over at pleasure, with final limit of sixty days from date of sale. \$38.85. Buffalo, N. Y. Selling dates June 3 and 4. Limited to July 15 for return. Limit for return will be extended until September 1 on request. \$36.30. Washington, D. C. Selling dates July 3, 4 and 5. Limited to July 18 for return, with privilege of extending return limit to July 31 if desired. \$29.40. Richmond, Va. Selling dates June 26 and 27. Limited for return to July 31. J. E. COMER, C. T. M. K. & T. Ry. Write the Red Cross Farm, Austin, Texas, if you want a well-bred Scotch Collie dog to assist you in handling your sheep and handling the collie. They have several pups just the right age to commence training. With each dog they will give you free, a book on dog training and handling the collie. The book contains many valuable suggestions to stockmen. SUFFERING WOMEN. Read What Dr. Hartman Proposes to Do for You. Dr. Hartman, president of the Surgical Hotel, Columbus, Ohio, has arranged to answer all letters that are sent him from women in trouble with any form of female weakness, free of charge, giving them the benefit of knowledge which has cost him fifty years to accumulate. The medicines he prescribes are within the reach of every woman, and she can get them at any drug store. All she is required to do is send him her name and address, together with her symptoms, duration of sickness and age. This offer holds good only during the summer months. Thousands of women are taking his treatment today and are rapidly regaining their health. Dr. Hartman's favorite prescription for female complaints is Pe-ru-na, Mrs. Maggie Turner, of Holly Springs, Miss., writes: "Last September Pe-ru-na was recommended to me by a friend and I began to take it. I had no faith in anything any more, as I was not able to sit up and was a mere skeleton. After I had taken one bottle of Pe-ru-na I began to improve. I kept on taking it, and I believe myself to be permanently cured. I have discharged all my help, am doing my household duties and am able to take care of my children and my well and hearty mother." A medical book on female diseases which you will want it by the Pe-ru-na Drug Manufacturing Company, Columbus, Ohio. The Red Cross Farm, Austin, Texas, has shipped the past week several Scotch Collie (Shepherd) pups to our pet-raising friends the Collins and the three-bred dog, and when well trained will do more work and better work than any man you can hire for \$15 a month. THE PROMISED LAND. Why the Tourist, Traveler and Student Should Visit Utah. There are two reasons, either one of which ought to be conclusive with you. First—The trip from Denver to Salt Lake via Rio Grande Western, "Great Salt Lake Route," is the greatest scenic and European trip of equal length can compare with it in variety and grandeur of scenery and wealth of novel interest. Second—You should go because when you have made this wonderful trip you will find Utah at the end of it. Utah, one of the world's famous spots and a land of gold, silver, copper, iron and coal, of lofty mountains and fertile valleys; of vineyards, fruits and flowers. Salt Lake City, the capital, is of great interest on account of its historical and religious associations. Here are Hot Thermal Springs, Warm Springs, Sulphur Springs, Sanitarium, Park Desert, Canyon, and other delightful climate of earth. Great Salt Lake with the new and beautiful Sattair Beach Resort, of Moorhead design has just opened. Write to E. A. Wade, Salt Lake City, Utah, for copies of pamphlets, etc. The Red Cross Farm, Austin, Texas, can furnish you a family cow that will supply you and your family with all the butter and cream you can use. Write them and get prices. A FINE TESTIMONIAL. "Mayor's Office." Gollad, Texas, May 20, 1896. Red Cross Stock Farm, Austin, Texas. Gentlemen: The Holstein cow "Minnie" that I purchased from you is a dandy and worth twice the money I paid for her. And were it not that I get more butter and milk than a family of eight can use, and butter to sell, I would buy another from you. And those Berkshire cannot be beat at least not down in this part of the country. Everyone who sees them admires them and says: "that soot as they came up they want some of your stock. Yours truly, GEO. L. WHITNEY. KEEP YOUR EYE ON CRIPPLE CREEK. With the opening of spring the active in Cripple Creek the mining camps of Colorado increases and prospectors are now getting down to work under the unfavorable climatic conditions. The Fort Worth and Denver City Railway is the great short line from Texas to the gold fields of Colorado with ninety hours shorter time and grandeur of scenery. Low round trip rates will soon be announced with limitation of October 31st, 1896. Write for them to D. B. KEELER, G. P. A., Fort Worth, Texas. E. A. HILLSFIELD, T. P. A., Fort Worth, Texas. Subscribers to Texas Stock and Farm Journal who do not receive their paper regularly are requested to notify this office.

GEO. B. LOVING & CO.

P. S. We have a few very desirable residences in Fort Worth for sale cheap and on easy terms.

GEO. B. L. & CO.

THE STANDARD FOOT-LEVER,

Used on 5 Feet and 6 Feet Machines,

The operator can raise the outer-bar to its extreme height with the foot alone, and do it easily, without changing his position or the seat. It is raised to its extreme height as easily as it is raised the first two inches from the ground. It does not grow heavier the higher it is raised. Showing the bar lifted from the ground and held by the foot, as in turning a corner. The Foot and Hand Levers can be used in connection with each other, or independent as desired.

FACTS KNOCK OUT PREJUDICE.

Now and then a man will get a notion that he knows a thing is not so, because he does not know it is so, and is not therefore willing to be shown he is wrong. One of our men was at Columbus, Texas, with six foot team, and were therefore more economical than the narrow machines. Several farmers in the crowd, of course, knew that it would be impossible for a machine cutting six feet to need no more power to drive it than required in the same grass for an ordinary four-foot machine. The result was the crowd went out in a field of heavy grass, and with a very small pair of mules hitched to a Standard six-foot Mower cut two acres in one hour, which, the grass being very thick, was equal to four tons of hay. In this short time the prejudice of years was removed, and facts established that no amount of fluent talk would have done.

EMERSON MFG. CO., Dallas, Texas.

A Handsomely Illustrated Catalogue Will Be Sent on Application.

POPULAR WITH THE REPUBLICANS. The old reliable Texas and Pacific Railway will be the "Popular Route" for the great national Republican convention at St. Louis commencing June 16th. No effort will be spared to provide for the comfort of all who use this line. Special trains will be run, with elegant day coaches and chair cars, and Pullman palace sleepers, and you will be wise to send in your name now for necessary accommodations, as the attendance promises to be the largest for any convention yet held. Tickets will be sold via the Texas and Pacific railway at rate of one low ticket limited first class fare for the round trip on June 8, 9, 13, 14 and 15, good until June 21, 1896. For tickets, sleeping car accommodations or any further information, call on nearest Texas and Pacific agent or G. P. and T. A., Dallas, Tex. MINERAL WELLS, TEXAS. Rapidly becoming the greatest watering place of the South, it is reached only via the Weatherford, Mineral Wells and Northwestern railway. Excursion tickets are on sale with the principal roads of the state. All Santa Fe and Texas and Pacific trains make connection at Weatherford, Tex., for Mineral Wells. For further particulars address W. C. FORBESS, General Freight and Passenger Agent, Weatherford, Texas.

MANSSION HOTEL, FORT WORTH, TEXAS.

Reopened in first-class style with all modern improvements. The table up-to-date in every particular. Rates, \$2.00 Per Day. BASCOM H. DUNN, Prop.

SAN ANTONIO AND ARANSAS PASS RAILWAY COMPANY.

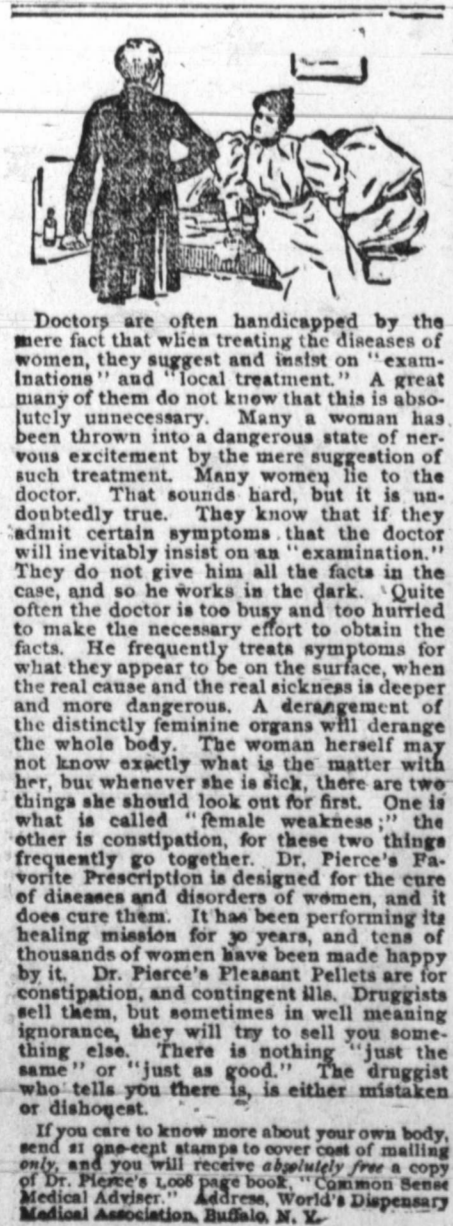

Live Stock Express Route

From Texas Points to the Territories and Northern Markets. All shippers of live stock should see that their stock is coated over this popping line. E. J. MARTIN, General Freight Agent, San Antonio, Tex.

EXCHANGE STABLES,

E. B. EDWARDS, Prop. Livery, Boarding, Commission and Sales Stables. Cor. Rusk and First Sts., Fort Worth, Tex.

The Texas Construction company of Fort Worth secured the contract for the erection of a best sugar factory at Eddy, N. M., at \$1,000,000. A simple plan of disinfecting rooms consists in putting a saucerful of salt in the middle of the room, and pouring on it a dram or two of sulphuric acid. The fumes that arise do the work of disinfection. Texas is paying dearly for her folly in sending away for products she might as well manufacture herself. Herein lies the chief cause of our financial depression, and our conditions will never be bettered until our food policy in this respect is reversed. Order your stencils, seals, rubber stamps, etc., direct from the Texas Rubber Stamp Co., 355 Main St., Dallas.

Doctors are often handicapped by the mere fact that when treating the diseases of women, they suggest and insist on "examinations" and "local treatment." A great many of them do not know that this is absolutely unnecessary. Many a woman has been thrown into a dangerous state of nervous excitement by the mere suggestion of such treatment. Many women lie to the doctor. That sounds hard, but it is undoubtedly true. They know that if they admit certain symptoms that the doctor will inevitably insist on an "examination." They do not give him all the facts in the case, and so he works in the dark. Quite often the doctor is too busy and too hurried to make the necessary effort to obtain the facts. He frequently treats symptoms, when what they appear to be on the surface, when the real cause and the real sickness is deeper and more dangerous. A derangement of the distinctly feminine organs will derange the whole body. The woman herself may not know exactly what is the matter with her, but whenever she is sick, there are two things she should look out for first. One is what is called "female weakness;" the other is constipation, for these two things frequently go together. Dr. Pierce's Favorite Prescription is designed for the cure of diseases and disorders of women, and it does cure them. It has been performing its healing mission for 30 years, and tens of thousands of women have been made happy by it. Dr. Pierce's Pleasant Pellets are for constipation, and sometimes in well meaning ignorance, they will try to sell you something else. There is nothing "just the same" or "just as good." The druggist who tells you there is, is either mistaken or dishonest. If you care to know more about your own body, send at once stamps to cover cost of mailing, and you will receive absolutely free a copy of Dr. Pierce's Little Blue Book, "Common Sense Medical Advice." Address, World's Dispensary Medical Association, Buffalo, N. Y.

MARKETS.

FORT WORTH MARKET.

The hog market during the past week has been practically steady, and has not declined as much as the Northern markets. In fact if any change here there was a slight advance, but so trifling as to be unworthy of mention. The run of hogs has been liberal—something over 1000 hogs having been received yesterday, and the same the previous day. During the six days up to the 23rd inclusive there were 5338 head received and sold of these, close on a couple of hundred head were driven in from Texas and Parker counties, the balance coming from Ardmore, Grapevine, Dent Prairie, Nevada, Mineral Wells, Denton, Alvarado, Bonham, Round Rock, McGregor, Copperas Cove, Valley Mills, Justin, Chico, Midlothian, Seymour, Moody, Meridian, Mansfield, Waxahatchie, Cleburne, Sunset, Aubrey, Weatherford, Roanoke, Killeen and Belton. From the above it will be observed that the Indian Territory and almost every section of the state was represented including the Panhandle country, the post office, the black land belt, the southern and western country and this is about the way receipts run every week, showing that the entire country has confidence in the manner in which they are dealt at this market—in spite of what demagogues may tell them. An encouraging feature, too, is that fact that the old customers among the best and shipments from the same parties have been repeated many times. It will doubtless be interesting to the stockmen to know that new buyers are coming in—some of them already here. Particulars will be given in the special page to follow. It might be noted that a good steady demand continues for fat cows and light steers. The packing house can readily handle about 50 head per week, and Mr. W. C. Bannard, buyer for the St. Louis abattoir, is also making a goodly order. This gentleman has already handled several car loads of nice smooth cattle for his people, and for which he paid the highest prices. As to the near future market outlook it is largely a matter of guess work. It is very doubtful, however, if hogs will advance until packers find a higher market for their products. Supplies of hogs both at home and foreign markets have been the greatest on record, and the same may be said of sheep during the past winter. Other conditions, too, conspire to produce low prices. Times are dull, wages low, many unemployed, are struggling to keep the wolf from the door. The supply of cattle has been by no means short, and owing to mild winter and abundance of cheap grain they have furnished more meat per head than usual. The raising and consumption of poultry, eggs, rabbits, etc., is increased and of itself is no inconsiderable factor in reducing beef and pork consumption. On the whole, present low prices can correctly be ascribed to a combination of natural causes, and not to any buyers "combine" as is so often said. It may be suggested—and come about as near the mark as possible—that prices will not materially advance until a general revival of trade occurs, and this revival need hardly be expected till after the general election.

REPRESENTATIVE SALES

Table with columns: No., Ave., Price. Rows include various livestock items like hogs, cattle, sheep, and their respective market prices.

DALLAS MARKET.

Table with columns: Report from A. C. Thomas, Extra choice fat steers, Choice to good fat steers, etc., listing prices for various livestock categories.

NEW ORLEANS MARKET.

New Orleans, May 26.—The receipts of all classes of cattle from Texas continue liberal, but there is a considerable falling off from Louisiana, Mississippi and Alabama. The quality of beef cattle is not the best and of the kind now being received is not the best of this season of the year. Good fat steers of 800 to 925 pounds gross are the kind now being best suited and sell readily for quotations. Good smooth fat cows and heifers are in light supply, ruling steady and in fair demand. Heavy and rough old steers continue to sell slowly. Full receipts of calves and yearlings, including a good many Texas yearlings that arrived late for the market, yearlings are in full supply and are in demand. The market for calves continues to rule firm and fairly active. The hog market rules quiet, good light weight stock selling best. Sheep in full supply and dull.

CATTLE. Good fat beef steers per pound gross, 10¢ 1-10; Good fat grass steers per lb. gross, 2 1/4¢ 1-10; Fair fat grass steers per lb. gross, 2 1/4¢ 1-10; Thin and rough old steers per lb. gross, 1 1/2¢ 1-10; Thin and rough old cows, each, \$6.00; Good fat calves, each, 9.00; Fair fat calves, each, 8.00; Thin calves, each, 6.00; Good fat yearlings, each, 8.00; Fair fat yearlings, each, 7.00; Thin yearlings, each, 6.00; Good fat cows, each, 10.00; Fair fat cows, each, 9.00; Thin cows, each, 7.00; Common to fair, each, 5.00; Springers, each, 17.50; 22.50.

HOGS. Good fat corned hogs, 3 1/2¢ 1-10; Common to fair, per lb. gross, 2 3/4¢ 1-10; SHEEP. Good sheep, per lb. gross, 3 1/4¢ 1-10; Common to fair, each, \$1.25; 1.75; 2.00; 2.25; 2.50; 2.75; 3.00; 3.25; 3.50; 3.75; 4.00; 4.25; 4.50; 4.75; 5.00; 5.25; 5.50; 5.75; 6.00; 6.25; 6.50; 6.75; 7.00; TAYLOR DEPARTMENT.

Williamson County Live Stock and Farm Notes—Minor H. Brown, Agent and Correspondent.

Grass is fine in this section and cattle are rolling in fatness.

Generous citizens of Taylor have contributed \$100 to the Sherman cyclone sufferers.

A meeting of the Williamson county Poultry association has been called to meet at Taylor Friday night.

J. W. Wisinger, a farmer living near Georgetown, found an egg the other day, within the shell of which was a young turkey with one head and body and four legs and wings.

The barn of Paul Wolf, situated south of Taylor, near Elgin, together with its contents of corn, oats and forage, was destroyed by fire a few nights ago. Origin unknown; loss heavy, with no insurance.

Crops in this section, though about two weeks late, are in fine condition, and with favorable conditions the outlook is the most favorable at this time for years.

Messrs. A. B. Kennedy, R. B. Pumphrey, M. R. Kennedy and J. E. Pumphrey have sold and shipped to Tom Coleman for his ranch in LaSalle county thirty head of high grade white-faced Hereford cows.

The oat crop in this section is unusually fine, and the merry hum of harvesters and threshers is heard on every side.

The county commissioners of Williamson county have leased to Ed Sawyer of Kerrville, Tex., the 11,605 acres of Williamson county school land situated in Sutton county at \$3 per acre, payable yearly in advance.

J. R. Faubion, a prominent Williamson county farmer living near Liberty Hill, has sold his farm to John W. Parker of this city and his growing crop of cotton to the Texas Cattle Co.

Ernest Torg, a German farmer living near Taylor, has just received new machinery for a cotton gin to be located south of Taylor. The machinery is of 56 horse power and will have a capacity of turning out forty bales daily.

Mr. Joe Kritzer, a well-known stockman of this city, has been appointed receiver of the Kansas City stock yards, with headquarters in the Indian Territory.

Through his attorney, R. L. Penn, Esq., of this city, John Kritzer has filed suit in the district court at Georgetown against the St. Louis, Iron Mountain and Southern Railway Company for \$225 as damages for a failure to properly deliver a shipment of beef to the stock yards in St. Louis.

Professor Hyer of the faculty of the Southwest Texas State University, town, has accepted an invitation to deliver an address before the medical fraternity at Waco upon the subject of "The Use of the X-ray in Veterinary Applications to Surgery."

CHRISTIAN ENDEAVOR CONVENTION. San Antonio, Texas, June 9th to 11th.

The citizens of the Hutto school district, adjoining Taylor, will hold an election on Saturday, May 30, to determine whether or not to build a \$7000 school building.

Since the Galveston Maritime association would only take the shipping reference to the uniform bale of cotton, nearly all the press boxes of gins in this section of Williamson county are being used to press cotton.

Taylor, Tex., May 26.—Fred Tege, a farmer living on Possum creek, ten miles south of Taylor, was in the city yesterday with some very fine specimens of his growing corn and cotton crops.

THE INTERNATIONAL ROUTE. The international and great Northern railroad is the shortest and best route between Texas and Mexico and the principal cities of the North, East and South.

ORCHARD AND GARDEN. Mr. J. M. Howell of Dallas has introduced a new blackberry variety, "Trinity Early," which is worthy of attention.

REMEDIES FOR CUT WORMS. At this season of the year cut worms do more or less damage to nearly all crops, especially to tomatoes, cabbage and corn.

FOR TRADE. One 32-inch separator, one Osborne binder in good working condition, near Sherman, La.; also twenty-five high grade Jersey cows, good milkers, in the herd of Gould county, who was badly cut by some unknown parties several weeks ago.

SUMMER EXCURSIONS. Effective June 1st, the M. K. & T. will make one summer excursion ticket to all prominent points.

SAN ANTONIO.

Branch Office of Texas Stock and Farm Journal, Garza Building, 216 Main Plaza, Jerome Harris, Manager.

H. B. Strubling, from Muscogee, I. T., accompanied Wm. Haisell on his visit to Corpus Christi and the coast country.

F. H. Pruitt, a stockman from near Fort Davis, was in the city during the past week on business, and expected to go as far as Fort Worth before his return.

A. Parr, a prominent cattleman from Corpus Christi, paid a visit to the "Alamo" city during the past week and reports everything in a prosperous condition.

John B. Armstrong from Cameron county and who owns a ranch in that section spent several days with us the past week, and reports his section as quite dry at present.

Ed Costello, who owns a ranch in Encinal county, recently purchased from C. G. Hugo at Dilley 1,000 head of steers, two and three, and will move them to his ranch immediately.

Jerry Barbee, the genial livestock agent of the Cotton Belt railway, was in the city this week and reports a good business in stock over his line. Ask Jerry what he saw while in San Antonio.

W. E. Haisell, from Vinita, I. T., was in the city several days the past week on his way to Corpus Christi. Says his visit was a matter of pleasure only, as he did not wish to buy any cattle at this time.

H. C. Story, a prominent cattleman and feeder from San Marcos, was in the city this week and reports a good business in stock over his line. Ask Jerry what he saw while in San Antonio.

J. D. Eldridge, from Pearsall, who is a prominent shipper and feeder from that section spent several days in the city during the past week, and brings a good report of crops and cattle in his county.

Wilbur F. Crawford, a banker and stockman from Cameron, Milam county, was in the city the past week and reports a good business in stock in a prosperous condition.

John S. Todd, the manager of the Lumberton ranch in Neuces county, was in the city the past week and stopping at the Mengler hotel. Mr. Todd reports his ranch still dry but that his cattle are doing well.

T. H. Mathis of Rockport and who owns a good ranch and a fine herd of cattle near Mathias, was with us the past week and reports the sale of some yearling steers and heifers at \$11 for steers and \$10 for heifers.

J. M. Doby, who resides at Lagarto, in Live Oak county, spent several days in the city the past week and reports his section as having had good rains recently. Says he will commence shipping his fat cattle this week.

Ike T. Pryor of Columbus, ex-president of the Texas Livestock association, was in the city this week. Mr. Pryor is interested in cattle, both in Texas and Colorado counties, and is one of our enterprising and progressive stockmen.

The many friends of Ira M. Johnson will regret to learn that he died at the lunatic asylum near San Antonio the past week and his remains shipped to Manor, Tex., for burial. He was formerly a very prominent cattle shipper in this section.

S. J. Whitsett of Campbellton, who owns a ranch and farm in Atascosa county, was in the city accompanied by his family. He reports the crop prospects in his section as better than for years past, and that his stock were all in fine condition.

J. H. Prensall, who recently sold his interest in the cattle business in Dimmit county, was with us this week and reports that he has leased from the New York and Texas land company some pastures and will embark again in the cattle business west.

J. W. McInnes of Twibog was a visitor to the "Alamo" city during the past week and reports the sale of nearly all his beef cattle to T. M. Buckley of Encinal, at \$22 per head. He had a very fine lot of steers and but for the low market would have brought more money.

W. S. Hall, from Pleasanton, was in the city this week and reports that he is making preparations to ship this week from San Antonio a train load of very fine beef cattle, that he has fed on prickly pear this season, that he has a few 400 fat steers, for which he paid \$13 per head.

M. J. Baker, a prominent cattleman from Castro, has been in attendance upon the United States Commission Juror the past week, but found sufficient time to run down to Floresville, where he purchased and shipped from John Lyndall, 109 505-510, a few fat steers, for which he paid \$12 per head.

W. T. Way, who represents the Stray-Hutton-Evans Commission Company in Southern Texas, made a trip this week west on the Southern Pacific railway and also saw the same road, and reports grass, and the condition of the range generally in the very best condition.

Ike West, one of the members of the firm of Bennett & West, who owns a large ranch in Jackson county, and also one near Spofford, returned this week after receiving from Ed Lassater a thousand head of heifer yearlings for the Jackson county ranch and a thousand steer yearlings for the ranch near Spofford.

J. S. McKinnon, who owns an extensive ranch and farm in Atascosa county, stopped off in San Antonio on his return from St. Louis, where he had been with a shipment of his cattle. He reports the market not very good, but adds that the prospects on his farm for a good crop at this season was never better, and that he has some 1,100 acres in cultivation.

Thomas Dewees of San Antonio, who owns a large ranch near Wilson county, was so unfortunate as to have his dwelling house burned the past week, resulting in a loss of some fifteen thousand dollars, with only seventeen thousand five hundred dollars insurance. Mr. Dewees lost all of his furniture, some family relics which he prized very highly.

A. Y. Allee, who recently sold to Mr. Strubling from San Antonio a lot of cattle to go to the Territory, returned this week from a visit to his brother, Alton Allee, the present sheriff of Gould county, who was badly cut by some unknown parties several weeks ago. He reports his brother as improving from his wounds, and that he has hopes now for his speedy recovery. Mr. Allee has made a good sheriff and has many friends here who sympathize with him in his misfortune.
