Senator Tom Connally Wins Tax Bill Fight

Washington, D. C.—Senator Tom Connally, during the passage of the tax bill, again fought for and triumphed in the elimination from the bill of provisions depriving married

couples in the eight community property states, of which Texas is one, of the right to file separate income returns.

Being the lone Senator from a community property State on the Finance Committee, the Texas Senator was out-voted in committee; however Connally carried his fight to the Senate where he was able to muster sufficient votes to force the Finance Committee Chairman to strike the provision from the bill. This action will save the tax-payers of Texas millions of dollars each year. Senator Connally in his service in both the House and Senate, has been an ardent supporter of State's rights under the community property law.

In his individual report on the tax bill the Texas Senator said "Under the community property system, marriage creates a universal

KIWANIS CLUB ENJOYS PROGRAM

—Clay County Leader.

The Henrietta Kiwanis Club was honored yesterday in having the Wichita Falls Kiwanis Club visit them. When Wichita Falls comes to Henrietta, they always come strong. This time they came stronger than usual—because they brought twenty-nine members with them.

The members of both clubs indulged in informal conversation 'til the dinner bell was sounded, at which time they came into the dining room and enjoyed the noon meal.

Along with the members of the Wichita Club came an excellent program. Floyd Randall, of Wichita, introduced two of the Kiwanis Club's past Governor's namely, Dr. Ralph Peterson and J. L. Jackson, Jr., after which he introduced the Wichita Club's official family. The officers of the club are: Floyd Randall, President; Lee Gardner, 1st. vice-pres.; Perry Davis, 2nd vice-pres.; C. C. Parfet, Treas.; and Allen Bryce, Secretary. Lee Gardner then introduced the group from Wichita.

After introductions were over, Mr. Pat Morrison, the main speaker for the occasion, was presented to the club. He made a very inspirational talk, it being based upon "our obligations and dedication of ourselves to the Defense of our Nation." He also stressed Unity throughout his talk.

Those attending from Wichita were: Floyd Randall, Lee Gardner, Perry Davis, C. C. Parfet, Allen Bryce, Dr. Ralph Peterson, J. L. Jackson, Jr., Dr. Felix Collard, Eli Morgan, Dr. O. W. Wilson, Oscar Burdin, Dr. C. Hamilton, Clarence Peden, Jim Terrill, G. R. McNeill, Fred Lane, John League, Horace Smith, W. A. Morrow, A. C. Unsell, M. D. Stephens, V. H. Thomas, W.

Is Asking Aid For Chinese Children

—Clay County Leader.

L. A. WOODS

L. A. Woods, State Superintendent of Education, has been appointed Chairman of the United China Relief Committee for Texas schools. He will work with State Chairman Nathan Adams and Governor Coke Stevenson, vice chairman, in the drive to raise \$200,000 in Texas to aid sixty million unfortunate and suffering war victims in China. Money given by Texas school children will be used to aid the children of China, millions of whom are homeless, destitute and starving as the result of Japanese invasion. Chairman L. A. Woods urges that every school in Texas make a collection for United China Relief without delay and forward the money to Nathan Adams, president of the First National Bank in Dallas. The money will be sent overseas to aid the little Chinese children who are so badly in need of help. Every student and every teacher is asked to subscribe to this humane cause.

Byers Girl Crowned Queen of Reunion

The selection and crowning of the Queen of the Pioneers' Reunion was Miss Gloria Grundy, of Byers, was the most beautiful as well as exciting event of the Pioneer's Reunion.

The event took place in the tent of the Gainesville Circus Friday evening at 7:30. A large crowd was gathered to make the choice who was to be Queen. The duchesses, with their escorts came to the center of the tent alternately from each side. The loveliness of the pastel colors of the girls' semi-formal gowns was heightened by the slender graceful beauty of the girls themselves, a picture which will not soon be forgotten.

The Duchess who received the most applause was selected Queen, this being Miss Grundy. She was truly exquisite in an off-the-shoulder dress of pink marquisette, her blond hair softly falling across her shoulders.

When the audience had made their choice little Misses Randy Haggood and Jeannine Douthitt came to the throne as the crown bearer and flower girl; and with the crowning of the queen and a presentation of the corsage, the group dispersed to their reserved seats to be honored guests for the circus.

Coach Dees Reports the Team Is Ready to Go

—Clay County Leader.

The 1941 group of the Henrietta Bearcats are rounding into form, to give a good account of themselves in the race for District 11A honors by engaging the Alvord Bulldogs tonight, at 7:30 at Haggood Field.

The squad although consisting of only twenty-three members is showing plenty of fight and spirit. With the maximum of luck the Bearcats should be able to hold their own.

Reoccurrence of an old shoulder injury may rob the Bearcats of the service of veteran fullback E. F. Thomas however it looks as if a new-comer, Jackie Hoeffner is going to be able to hold down the full back job without any apologies to anyone.

The loss of Wayne White was a serious blow to the Bearcats (who is working in Houston, and will not return to school), but the guards are being well manned by Billy Davis, James Maddox, Valton Chappell, and Kirby Talley.

Taking care of the Tackles, are veterans Jug Meeks, Willie Moser, and R. J. Blackburn.

The ends showing most promise at starting positions are Clifford Stator, and Billie Collier with Billy Bunting and Douglas, Kidd pushing them on.

At Center, Douglas Wells seems to have a slight edge on Dan Campbell at the present.

In the backfield Joe Dick Moore is slated for the Quarterback position, with Jim Ansley, Wayne Glasgow and Charles Geist on the wing-backs. Lloyd Quisenberry, James Boger and Billy Stokley Reserve Backs ready to go at a moments notice.

Agriculture Secretary Wickard announced the 1942 farm program, calling for all-time record production—especially of hogs, eggs, evaporated milk, dry skim milk, cheese and chickens—to improve nutrition in this country and to aid other nations.

Railroad Labor Board

In his speech recently Mr. Roosevelt gave orders for our ships loaded with cargoes bound for England, Iceland, China, or in fact anywhere we might want to travel, to shoot on sight any German or Italian submarine or destroyer which looks like it might want to attack us.

Secretary Knox announced at the National American Legion Convention at Milwaukee "the order has been given down the line to shoot on sight any German or Italian or Japanese destroyer or submarine destroyer that might be in the way of our path to safely carrying the supplies to England, Iceland, China and Russia." Thus we are getting a little nearer actual fighting with the enemy as the hours go by.

Two Highjackers Caught at Burk

A young boy from Montague county was highjacked yesterday as he was hitchhiking between Jolly and Wichita Falls. The boy was picked up by two men who got \$5.00 from him and let him go.

The call was broadcast to the sheriff to be on the lookout for the highjackers.

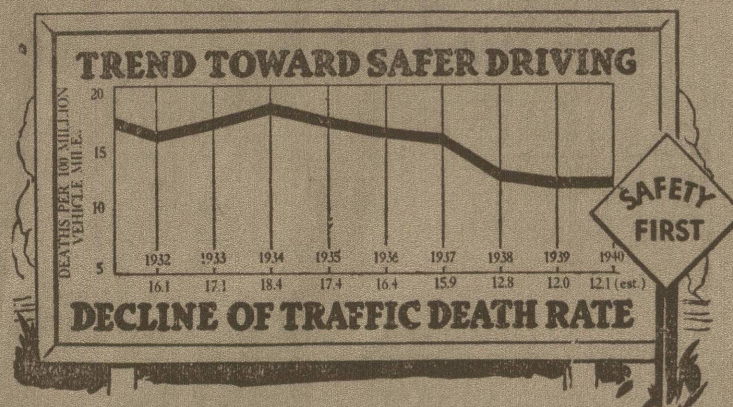

The highway patrol caught the two men outside of Burk, where the boy identified them.

Public Safety Record Better Since 1933, Analysis Reveals

Mr. and Mrs. America can be proud of a marked improvement since 1933 in social trends affecting public safety.

Reductions in the rate of automobile traffic fatalities, in deaths from alcoholism and in incidence of crime stand out among the improvements in the period since Prohibition was repealed. Basic statistical reports recently issued by governmental and other authoritative agencies provide the figures for analysis.

The 1941 edition of "Accident Facts," just published by the National Safety Council, shows that the highway fatality rate was 12.1 deaths per 100,000,000 vehicle miles in 1940. This contrasted with 19.0 in 1925, the first year for which the statistics were compiled. The average motor vehicle death rate for the prohibition years from 1925 to 1932 was 17.49 per 100,000,000 vehicle miles, while since the end of Prohibition, the average rate has declined to 15.26, and for the last three years it has averaged 12.3.

The death rate from alcoholism has been halved since 1928, when the high mark of 4.0 per 100,000 population was recorded. In 1933 and 1939, the latest years for which these Census Bureau figures are available, the rate was 2 per 100,000—the lowest since 1921. The death rate from alcoholism for the

first seven years of repeal (1933-1939) averaged 2.5, as against an average of 3.5 for the last seven years of Prohibition.

A third major phase of social trends—the incidence of criminal offenses—also shows an improvement since Prohibition ended. In 1932, the first year for which the Federal Bureau of Investigation published compilations of municipal crime rates, there was a combined rate of 1,645 offenses per 100,000 population. The rates are for offenses "known to the police" in the following categories: murder, manslaughter, rape, robbery, aggravated assault, burglary, larceny and auto theft.

The rate for 1940 was 1,566, a decrease of about 5 per cent since 1932. Indications are that 1941 will show a still better record, as the rate for the first six months was about 752 as against 776 for the corresponding period in 1940. The 1941 figures are from 2,034 cities with a population of 64,095,186.

The crime and accident reports above quoted lend emphasis to the recent statement of Gov. Herbert H. Lehman of New York, who said:

"The repeal of Prohibition greatly added to public respect for law and order, reduced racketeering and gangsterism, and brought substantial economic gains to industry and labor."

Dist. Safety Meeting W. F.—Sept. 23rd

The opening of school brings an extra responsibility to our citizens. It means that you must help protect the children who will be crossing streets in residential areas and near schools.

Many parents—particularly those enrolling children in the primary grades for the first time—are suffering fears for the physical safety of the youngsters; and the automo-

Accidents are the fifth most important cause of death in the United States, says the Texas Safety Association who report the 1940 accidental death toll of 96,000. In our present war time economy, the luxury of waste cannot be tolerated, yet peaceful America in 1939 paid a bill of destruction comparable to that of war-torn Europe.

Therefore, the Business and Professional Women's Club of Wichita Falls feels that an answer to this problem of safety lies in the awareness of government, civilian and executive alike. Everyone is invited to

area amounted to approximately \$345,000.

Drive slowly and carefully when passing a school. Help save the lives of the children.

Help U. S. Defense On Our Highways

The rallying cry issued by the Texas Safety Association in its role as state coordinator in the nationwide campaign against accidents by President Roosevelt is "Help Defense!—Stop Accidents!"

By proclamation the President called on every American citizen to devote maximum effort to a "concerted campaign against accidents which are wasting the manpower and resources so sorely needed for national defense."

The statewide campaign against accidents on the highways, on the farms, in industry, and at home will be waged by more than 30 organizations cooperating with the Texas Safety Association.

"The importance of helping defense by stopping accidents cannot be overemphasized," said George Clark, managing director.

"For example, the traffic toll for the Labor Day weekend holiday is expected to take the lives of 27 Texans, permanently disabled 71, and injured 900 others. The economic loss for the three day celebration will mount to more than one million dollars!"

"The prediction is based on the accident trend of this year and the accident rate for the same holiday period last year.

"Translated in terms of the defense program, four bombers could be built with the economic loss of the Labor Day holiday alone.

STATE HEALTH NEWS

The axiom, "You can lead a horse to water but you can not make him drink", perhaps has no more striking parallel in human conduct than man's indifference or refusal to use the protective methods and preventive procedures that medical science has developed during the last forty years. Indeed, the lack of personal cooperation is the weak link in an otherwise strong chain against not only some of the infectious and influences that impair health or destroy life in middle-aged and older groups but against a number of the communicable childhood diseases, in which latter class diphtheria is an example", states Dr. Geo. W. Cox, State Health Officer.

"Toxoid immunization is available in Texas practically to all children, either through the family physician or at clinics arranged by physicians for those who are unable to pay the usual fee for this service.

fering fears for the physical safety of the youngsters; and the automobile continues to be the most serious menace to the safety of American children. Therefore, the Parent-Teachers Council urges that every individual attend the regional safety council Tuesday, Sept. 23rd at Wichita Falls. An entire section will be devoted to home and school safety.

Local representatives of eight surrounding counties will meet with members of more than thirty statewide organizations such as the Texas Safety Association, the State Highway Department, the Department of Public Safety, the Texas Press Association, and the American Legion to help the citizens of the Wichita Falls area with their local safety problems.

problem of safety lies in the awareness of government, civilian and executive alike. Everyone is invited to attend the regional Safety Conference Tuesday, Sept. 23 at Wichita Falls and participate in eight surrounding counties of more than thirty statewide organizations for the public's assumption of leadership and civic responsibility toward their local safety problems.

For the first six months in 1940 there were eight traffic deaths in the rural areas alone in Wichita Archer, Baylor, Clay, Jack, Montague, Wilbarger and Young counties, and up to June 30, 1941, there have been 15 people killed in automobile accidents in this area. For the half of 1941, the economic losses from automobile accidents in this

at times arranged by physicians for those who are unable to pay the usual fee for this service.

"While the number of Texas children who have the benefit of this protection is large, evidently there are many who because of parental misconception or unconcern, have not been made invulnerable to an attack of diphtheria through this simple and practical procedure.

"Perhaps the decided drop shown in the diphtheria illnesses and death rates during the last thirty-five years has developed an unwarranted sense of security on the part of too trusting parents. Nevertheless, whatever the cause, the fact remains that diphtheria manages to continue a steady massacre of young lives with ample weapons to prevent it; and these to be had only for the asking.

Invented by members of Lone Star Gas paint crew this boatswain's chair enables them to paint pipeline suspension bridge rods in less time than they used to require. It was designed primarily for the safety of the painter.

GAS MEN invent CHAIR TO PAINT BRIDGE

Every Lone Star Gas System Employee understands that his first duty is to maintain the dependability of Lone Star Service . . . for dependability is the prime factor in establishing the value to you of your gas service.

In performing his duty, whether at a desk analyzing maintenance costs or in the field overhauling a piece of machinery, a Lone Star Gas Man meets problems which are a test of his skill, a challenge to his ingenuity. For instance, in keeping pipeline suspension bridges in ship-shape condition,

painting the suspender rods has been a problem. Now the job is easy and done twice as fast because of a boatswain's chair invented by the paint crew which permits the painter to move from rod to rod in complete safety.

This is only one example of how a Lone Star Gas Man goes about the important job of maintaining Lone Star dependability. In improvising special tools for special jobs he increases the organization and operating efficiency which are reflected in Lone Star's low rates.
