His Coffin was out of Date

Isaac Coffman a few days ago sold a coffin he had made many years ago. He sold it, not because he felt he would have no use for it, but because his wife insisted it was out of date, says a Hatton Pa., dispatch to the Philadelphia North American.

Mr. Coffman is nearing his eightieth birthday. He explained to a friend that he constructed the coffin twenty years ago, at a time when when plans future had to be made. It was built of chestnut, because, as he put it:

"Many's the time I have sat beside a cherry blaze of chestnut logs and heard them crackle and burn merrily. It makes such a homelike blaze that I picked it in preference to other woods. It was my desire to make the coffin as cozy as possible, and I rejected all the frivolities which so many persons affect in the matter of coffins. In order to have it handy I kept in the garret. But my wife tells me that styles have changed, and since I have accumulated a little fortune she will not permit me to die unless I consent to get an up-to-date casket. To avoid trouble I agreed to sell the old one.

Fatal Wreck at Baird.

Passenger train No. 3 was wrecked at Baird on the first division out of Ft. Worth and 20 miles east of Abilene, Saturday night.

The wreck was caused by a head-on collision between what is known as a helper engine and the passenger train, the engineer of the former being killed, while the fireman of the latter was fatally injured, but still living at last report. C. J. Linney is the name of the dead engineer, but the name of the injured fireman could not be learned. Both men live at Big Springs. The passengers were badly shaken up but none of them were injured further than possible a few bruises. The engines of each train were badly demolished.

A new daily newspaper is now in Gainsville. It is the Daily Signal, and will be strictly a prohibition paper.

The Ten Commandments

The Ten Commandments as revised to fit the mail order catalogue house plan:

1st. You shall sell your farm products for cash whenever you can, but not us; we do not buy from you.

2nd You shall believe all our statements and buy all you need from us because we want to be good to you, although we are not personally acquainted with you.

3rd You shall send the money in advance to give us the chance to get the goods from the factory with your money; meanwhile you will have to wait patiently a few weeks because that is our business method.

4th You will have to apply to your nearest city to aid you in building good roads from the depot, so you may conveniently get the goods from the depot which you buy from us, for we do not build country roads,

5th You shall buy church bells and interior fixtures from us and forward the money in advance, for that is our business method, and you shall collect from the business men in your vicinity as much money as you can for the benefit of your churches. Although, we get more money from you than they do, still it is

against our business rules to donate money for building our churches.

6th You shall buy your goods from us and be your own mechanic, in order to drive the mechanics from your vicinity, for wish it so.

7th You shall induce your neighbor to buy everything from us, as we have room for more money---the less money there left in your community the sooner we can put you local merchant out of business and charge you any price we please.

8th You shall look often upon the beautiful pictures in our catalogue, so your wishes will increase, altho you are not in immediate need of the goods, otherwise you might have some money left to buy necessary goods from your local merchants.

9th You shall have the mechanics who repair the goods you buy from us book the bill so you can send the money for his labor to us for new goods otherwise he will not notice our influence.

10th You shall, in case of accident, sickness or need, apply to your local dealers for aid and credit, as we do not know you. —Ex.

Entered at the Post-Office of Brownfield, Texas, as second-class mail matter, according to the Act of Congress of March 3, 1879.

On Wednesday night there was organized a local lodge of Independent Order of Odd Fellows. The following officers were elected and installed. C. M. Smith, N, G. R. C. Welch, V. G., D. J. Thomas Sec. and Dr. W. J. Reeves Treas. The meeting was called to order by District Deputy Grand Master promptly at 7:30 o'clock and after institution and election of officers nine new members were initiated into its mysteries and the various other degrees were conferred. Seminole should be proud of this new lodge as the I. O. O. F. stands near the head of the class in secret organizations and is doing a great work for the relief of suffering humanity. The personal of the officers of the new lodge bespeak for it a successful career and its membership is taken from among our best citizens. Their regular meeting night is Monday of each week.—Seminole Sentinel.

Will be no Forfeitures

J. T. Robinson chief clerk in the General Land Office at Austin, and who is a candidate for

Land Commissioner in the coming general election, was in Dallas last night enroute from Lubbock, where he went with important papers bearing upon a case in court there involving certain land matters.

According to Mr. Robinson, the present financial situation is being reflected to some extent in the matter of the payment of interest on State school lands. He said: "The present financial disturbance is giving some of the purchasers of school land some uneasiness just now on account of their interest being due on the first of the present month, and and some of the banks in the west having decided to follow the course that is being pursued by institutions further east.

"As these banks refuse to allow depositors to withdraw their money in large sums, the purchasers of school land cannot remit their interest to the State Treasurer, and by this failure to so remit the land becomes subject to forfeiture.

However the purchasers need have no uneasiness, because the Land Office will declare no forfeitures for non-payment of interest until the State Treasurer shall have issued receipts on all remittances, checked up all delinquent accounts and reported them to the Land Office. This cannot be done until sometime next spring. Interest remitted within the next few months will be in time."—Dallas News.

The Financial Situation.

For the first time in the history of cotton growing and manufacture there is no market for the fleecy staple. The Eastern banks have refused to forward money to the banks in the West and South and as a result

there is no money in the South to handle the cotton. An effort has been made by the farmers to hold cotton for a better price, but most of them marketed as fast as rapidly as it was gathered and the holding has had no effect on the price. Now that everybody is forced to hold is very likely to advance the price, when it does open up again. It might be to the advantage of the cotton raiser if there could be no market for the next sixty days. The spinners are pretty well supplied now, and the present situation is having no effect on them. However they must have cotton later on and will pay the price. Let every farmer rest easy and not be at all alarmed. In fact there is no use in any one becoming alarmed. A panic can be avoided if the people will just remain cool and let developments come. When the wheels start again business will be on a legitimate basis.—Knox City,

The Herald is just in receipt of a big shipment of Letter Heads Bill heads, Envelopes, dodgers, business and visiting cards blotters, ets., and are now prepared todo all kinds of job work.

\$250, the world's record price, was paid for one ear of corn this month at Chicago. At that rate a bushel would bring about \$15,000. It was purchased by the man who grew it who won \$7,535 at the show.—Seminole Sentinel.

Heavy Gold Imports.

New York, Nov. 2.—Engagements of gold for import to the United States, necessitated by the recent period of money stringency in this country, is approaching the \$30,000,000 mark. The announcement was made to-day that the National City bank had engaged a total of \$1,000,000 in United States gold coin in Havana for import, that N. W. Harris & Co. of Boston had engaged \$100,000 gold and that George H. McFadden & Brother of Boston had \$500,000 in gold now enroute to the United States from Europe on the steamer Lusitania. These sums run the total engagements up to this time to \$28,150,000.

Lazard Freres to-day engaged an additional \$500,000 gold in Europe for import. This brings the total thus far engaged to \$29,150,000. It is said to-day that \$500,000 now enroute to this country for George H. McFadden & Brother of Boston will be sent South to help the situation there.—Ft. Worth Record.

Light to relieve Pain.

Experiments are being made with intense light at a cancer hospital in New York to alleviate pain.

The patient is subjected to what is known as the lucidescent light of the ordinary electric light of 500-candle power focused by parabolic reflectors on two spots. The light is turned upon the seat of pain for fifteen or twenty minutes at a time, much care being taken to prevent any burning of the patient's flesh. This is repeated two or three times at intervals of three or four hours, and in many instances the pain is greatly reduced or altogether stopped. Some dentists are also using the light with excellent results.
