Sayings of Bryan.

From the Commoner.

Secretary Taft can look over the financial situation and prove an alibi.

By the way, during the "free silver scare" was there any trouble about cashing a good check at any bank west of Manhattan?

Perhaps the reason President

Roosevelt moved his camp from Stamboul, La., is because it occurred to him that Dr. Long lives in Stamford, Conn. Too stam much similarity.

George Washington is in a fair way to again become popular as the model to be hold up to the sons of the rich. Some nosey individual has unearthed a presentment against George charging him with having dodged his taxes and undervalued his belongings.

EVERYBODY COME

Run Over by Wagon.

A ten year old son of Mr. West got his leg broke by getting it caught in the wagon wheel last Friday eve near Gomez. Dr. Ellis was called and dressed the wounds, and at last reports he was doing well.

Mr. West has bought land in Block K and was moving with his family to settle thereon, when the accident occurred.

Attorney General Davidson has filed suit against the West Publishing Co., to oust it from the State, and for injunction preventing it doing business in Texas.

Gov. Haskel of Oklahoma took the oath of office at the earliest possible moment, in order to prevent an oil and gas company from doing business in the new state.

Auto Line to Lamesa.

A Mr. Hanna of Waco, who recently bought a 120 acre tract of land nine miles north of here, was in town this week and is figuring on establishing an auto line between this point and Lamesa. In the event he does this, and the probabilities are that he will, it would be a great convenience to the traveling public as well as a big paying line as there will be a demand for considerable traveling open up soon —Stanton Reporter.

In a coal mine in Pennsylvania a miner is buried 800 feet below the surface, awaiting certain death which will surely come from starvation. Sex Peculiarities

A man will run as hard as he can to cross the track in front of a train, then he will stop and watch the whole train go by, and will go into a barber shop and be in the biggest kind of a hurry ever was, and when he has been shaved will talk to the next man for an hour and think he is a wise guy, possibly he is.

But a woman in a street car will open her satchel, take out her purse and give the conductor a dime, then she will close the satchel, lock both ends, the conductor will give her her change, then she will open her satchel, take out the purse, open it and put in the nickel, then she close the purse, put it in the satchel and lock both ends, then she will feel for the buckle on the back of her belt, and say "Put me off at 33rd street," and no one could convince her that man was more practical.

Notice of Bids

Two policemen were injured, and five men arrested on account of a riot among striking street car employes in Louisville Ky., last week. The strikers held a mass meeting at which several heated speeches were made, one of which was made by a discharged conductor's wife, and which so stirred the meeting that they adjourned and marched out with above results. They were quelled by police reserves.

A correspondent in Italy ad-
those who send letters to friends in

To Extinguish Burning Oil.
Burning oil cannot be extinguished
by water. The water only serves to
spread the flames. The right thing to
do is to throw down flour, sand, or
earth. Thus the area of the con-
flagration is limited and the fire
extinguished.
