

# THE TERRY COUNTY HERALD.

VOL. 3.

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, FEBRUARY 14, 1908.

No. 51.

## Greatest Timber Cut:

More lumber was cut in the United States last year than in other year in its history. The enormous amount of 37,550,736 board feet was produced, and the mill value of this was \$621,151,388. In addition, there were produced 11,858,260,000 shingles, valued at \$24,155,555, and 3,812,807,000 laths, valued at \$11,490,570. On the whole, it is safe to say that present annual lumber cut in the United States approximates 40 billion feet, and that the total mill value of the lumber, lath and shingles each year produced is not less than \$700,000,000. These figures give some idea of how vast is the lumber industry and how great is the demand for its products.

A glance at the kind of lumber produced shows very clearly the passing of white pine and oak, one the greatest soft and the other the greatest hardwood which the forest has ever grown. Since 1899 the cut of white pine has fallen off more than 40 per cent, while that of white oak has fallen off more than 36 per cent. Today yellow pine leads all other woods in amount cut, while Douglas fir—and this will be a surprise to many—comes second. Since 1899 the cut of Douglas fir has increased 136 per cent. Louisiana is the foremost yellow pine State, with Texas, Mississippi and Arkansas following in order. Washington produces far the greatest amount of Douglas fir.

A comparison of the lumber producing States shows that since 1899 there have been many changes in their relative rank. Washington, which in 1899, stood sixth, now leads, while Wisconsin, which eight years ago led all others, is now third. In the same period Oregon, Louisiana, Mississippi, Idaho, and California made great strides as lumber-producing States, though, on the other hand, the amount produced Michigan, Wisconsin, Minnesota, Georgia, Kentucky, Tennessee, Missouri, Indiana, and Ohio fell off anywhere from 29 to 54 per cent.

The highest-priced native woods are walnut, hickory and ash, the cheapest are larch and white fir. From the fact that since 1899 the average increase in the price of lumber has been 49 per cent, it will not be long before woods are few and far between.

Figures upon the lumber cut of the United States in 1906 are contained in Circular 122 of the Forest Service, which can be had upon application to the Forester, U. S. Department of Agriculture, Washington, D. C.

## Will Open to Settlement,

From a special from Hereford dated the 1st inst., it is learned that the entire western portion of Deaf Smith county has been sold to the Associated Land Company of Kansas City which intends cutting up the big ranches into farms and selling them to farmers from the north central states. About 100,000 acres were involved. The new company succeeds the Geo. G. Wright Company which accomplished a great deal of developing in the Panhandle and Hereford country.

## Big Ranch Deal.

J. B. Belcher this week closed deal whereby he becomes the owner of Harry Abney's twenty-three section ranch in Borden county. The entire stock of cattle and horses were included in the deal. This is one of the finest ranches in Western Texas and the cattle are in fine shape. Mr. Abney is now at the ranch having the cattle rounded up and we have been unable to learn just what he contemplates doing since he sold out. Mr. Belcher is certainly to be congratulated on securing such a fine proposition.—Big Springs Herald.

## The Bones of Quantrell:

In volume 8 of the transactions of Kansas State Historical Society, appears the following information: "Since May, 1888, this society has had possession of the two shin bones and of a lock of hair of William Clark Quantrell. They have not been entered among the accessions or exposed to the public gaze because of an obligation not to do so until after the death of the mother. Mrs. Quantrell died Monday, November 23, 1903, at an Odd Fellows' home in Springfield, O., aged 83 years. These relics of the famous guerilla were taken from his grave in Kentucky by W. W. Scott of Canal Dover, O., assisted by Mrs. Quantrell. The grave was opened to satisfy the mother of her son's death."—Ex.

## Federal Court at Amarillo.

A special from Washington of the 7th inst to the Dallas News says:

Senator Culeerson's bill to create a new division of the Northern Judicial District of Texas and to provide for terms of court at Amarillo now needs only the President's signature to make it a law.

As it passed the Senate the bill left it to the Judge to prescribe when the terms of court should be held at Amarillo. The House amended this section prescribing that the terms of court should begin the third Monday in April and the fourth Monday of Sept. each year. This change necessitated a reference of the bill to a conference committee. The conference committee agreed to the House's amendment, and both the Senate and House have adopted the conference report, so that only the President's approval is needed to assure the holding of Federal Court at Amarillo.

The United States is the only country in which the son of poorest mechanic or laboring man may become its ruler, and where the daughter of a farmer may become the wife of a president and the mother of Senators. It is the only country where all earthly honors are within reach of every one and where it depends upon the individual himself whether he will be a Senator or a street sweeper, a railroad president or a railroad section hand, a millionaire or a pauper, a banker or a bankrupt.—Cleburne Chronicle.

## Preparation of Land for Cotton.

In order to be certain of getting a good stand of cotton, the land should be prepared some time before planting, so that it may settle and become compact. A compact, firm condition enables enough water to be drawn up from the subsoil to sprout the seed, even in dry weather. A good plan is to list cotton land in the fall, winter or early spring with two furrows of a turn-plow. Then, just before the planting, the middles should be broken out. This gives firm soil to plant in, and a fresh clean bed for the young plants. Planting time marks the beginning of dry weather, when the farmer should be gin to work to save moisture. If prepared just before planting, without previous listing, the land should be rolled, dragged or harrowed, so as to make it firm. Often when the weather is dry, cotton seed lie in the ground from April to June on account of being planted on a loose, fresh bed. Did you ever notice in a very dry season that the cotton or wheat came up well near a turn row where the team had packed the ground, when it did not come up over the rest of the field?—A. & M. Bulletin.

**"That's the Truth."**

The farmer who grows a variety of crops is the one who least feels the effect of hard times, as he is the one who prospers most in good times. The successful farmer grows most of the staple crops suited to his soil. He raises a few hogs, cattle, horses or sheep, or all of these, besides having his table abundantly supplied with milk, butter, eggs, chickens, and garden and orchard products, all produced at home. Such a farmer never has been, and never will be, adversely effected by hard times.—Duncan Banner.

Every word of the above article is the truth. No man in any other line of business can lead a life of such absolute independence and comfort as the farmer. There is no place in all the country where conditions are more favorable for the farmer to have a home, surrounded by all these comforts and not to be effected by hard times than on the central Plains of Texas. The country is new and almost entirely undeveloped, but every condition exists here for the farmer to live a life independence, ease and comfort.

**Our School Interests.**

The Brownfield Public School is attracting the attention of people in different parts of the country. During the coming spring and summer quite a number of farmers in this and adjoining counties will purchase land here and build residences in order to get the benefit of a good school. Brownfield has the best school building in the central Plains country, and the school, under the superintendence of Prof. McConnell, is one of the best in the west. There is nothing else so attractive to people moving into the country as good schools. The editor of this paper has received more than forty letters during the past week from parties who want to know something about this country, and the first question asked in nearly every one of them is concerning the school interests. People don't seem to mind moving into a new country and undergoing the inconvenience to be encountered in its settlement, if they can have the advantages of good schools for their children. In sending out information in reply to all inquiries about the country, it is with a great deal of pride that we can speak in such high praise of the Brownfield school, and the school interest throughout our section of country.

Commissioners court was in session five days this week and transacted considerable business, a report of which will appear in next week's HERALD. We will state however that Terry county is out of debt and will be run this year on a cash basis, and that taxation has been reduced 10cts. on the hundred dollars.

**Crosby Co. Swept by Fire.**

A special from Emma to the Dallas News, dated Feb. 7th says: A prairie fire originatee today about 7 miles west of Emma. A strong northwest wind was blow-leg, which finally changed to the north. Hundreds of thousands of acres have burned, the largest suffers being the Littlefield Cattle Company, and Robertson & Scott.

Stock farmers living south and southwest of Emma have lost their entire crop of feedstuff.

At this time the fire is still burning and traveling at a rapid rate. Unless the wind subsides it is thought the fire will go south for over sixty miles.

**RECIPE FOR WHITEWASH.**

The following recipe for whitewash is said by those who tried it to be the best made;

Slack one half bushel of un-slacked lime with boiling water, keeping it covered during the process. Strain it and add a peck of salt dissolved in warm water. Add also three pounds of ground rice put in boiling water and boiled to a thin paste, one-half pound of powdered Spanish whiting, and a pound of clear glue dissolved in warm water. Mix all these well together, and let the mixture stand for several days. Keep the wash thus prepared in a kettle or portable furnace, and when used put on as soon as possible with painters or whitewash brushes. This whitewash has been found by experience to answer on wood, brick and stone nearly as well as oil paint and is much cheaper.

**Killed a Lobo.**

Mr. Roy Cox of the Kokernot & Kokernot ranch, ran down and caught a young lobo wolf last week between the O6 ranch and the Igo camp. This wolf was thought to be about one year old, and capable of doing much damage among ranch cattle. Mr. S. I. Johnson, the big hearted and appreciative manager of the Kokernot ranch, promptly wrote Mr. Cox a check for \$20 as a reward for the capture of the wolf.—Lubbock Avalanche.

Texas now has another source of wealth. It is in her mesquite timber. Much of it is now being shipped from Southern Texas to Eastern manufacturers. It is used for making furniture, and is said to be almost equal to walnut for this purpose. Our mesquite has never been appreciated at its full value. Several years ago an enterprising man in Southwest Texas made quite a fortune tapping these trees for their gum and selling it to gumarabic dealers. The mesquite tree tapped in mid-summer exudes large quantities of gum.—Coleman Democrat.

Last Saturday Sheriff Boles arrested Val Hollingsworth and S. N. Allen, charging them with selling whiskey in violation of the local option law. Considerable quantity of whiskey was taken from them and placed in the vault in the sheriff's office. Both Hollingsworth and Allen were locked up and are still in jail, in default of bond. Eight cases were filed against them and the bond placed at \$400 in each case. Their cases will come up in county court at its April term.—Big Springs Herald.

## Local & Personal

Happenings About People You Know.

Henry George sells land.

Subscribe for the HERALD.

Mr. Garrison, of Jones county, is now a citizen of Terry. We learn that he is just the kind of citizen we need—one that will till the soil.

Elder A. J. Knox of Brownfield will preach at the Walker school house next Sunday, and a special invitation is extended to all to attend.

S. N. Cole and A. H. Hopson, of Snyder, were in town Wednesday. They are prospecting for land and will probably locate in Terry or Yoakum counties.

A Sunday School was organized at the Harris School House last Sunday. The people of that community are taking great interest in educational and religious affairs.

J. F. Holden & Son have bought the butcher business of A. R. Stinnett. They propose to keep constantly on hand a supply of the best meats that the market affords.

The Democratic club organized at Gomez will hold its next meeting in Brownfield on next Monday night. There will be an interesting program and let everybody turn out.

F. M. Haynes, of Eschiti, Oklahoma, and R. E. Thornberry, Elman Missouri, were in town a few days the first of the week, prospecting for plains lands, and well pleased with the country, and will probably return in the early spring.

Rev. J. R. Miller, of Lynn county, has been called to the pastorate of the Brownfield Baptist Church. The new pastor is said to be one of the most thorough Bible scholars in West Texas and the church has no doubt made a wise selection of a pastor.

Among the first things most home seekers want to know about a new country, is its religious features. Orthodox denominations are well represented in Terry county, and every community in the county has one or more church organizations in it.

A great many people writing for information about the Plains country, ask if it is a timbered country, and if so, what kind of timber have we? If they would give the matter a little thought, they would know that it would not be called "the Plains country" if it was a timbered country. The only representative of timber on the Plains, is growths of scrubby mesquite, the roots of which make good fuel.

By looking at the HERALD'S directory, it will be seen that the fraternal orders are well represented in Brownfield. The membership of the Masonic order numbers more than 60; the Odd Fellows have a membership of 75; the Woodmen of the World have an organization numbering about 70 members, and the Eastern Star has a large membership. In addition to the orders already organized in Brownfield, the Royal Arch Masons will soon organize a Chapter here, with a membership of more than a dozen.

Perhaps no other newly organized county on the Plains is better supplied with school buildings and affords better schools than Terry. There are now twelve good school houses in the county, and will all have schools taught in them the coming year, and the public school fund will be ample to run eight months schools. This is a fine condition and will be a great attraction to people seeking homes among us.

A full page advertisement of the Big Springs Dry Goods Company will be found on the fourth page of the HERALD this week. By reading this advertisement it will be seen that some wonderful bargains are offered in the dry goods line, and it will pay any one visiting Big Springs while this removal sale is on to call and take advantage of the low price offered.

A 56-horse power automobile, of the Pope Toledo manufacture, was run into Brownfield last Wednesday from Amarillo, bringing in four traveling men, and made the trip from Lubbock here in one hour and fifteen minutes. The auto belongs to Ed Haas, of Amarillo, and was driven by Clarence Turkexkoff. The same machine, driven by the same driver, made a run from Amarillo to Plainview one day last week in two hours and thirty-five minutes.

Rev. T. J. Fouts, the Baptist Missionary for the Central Plains country, has resigned the work and moved to Waco where he has two sons in the Baylor University. There are several churches in eastern Texas anxious for Rev. Fouts to become their pastor and he will probably accept a call to one of them. He says that he likes the Plains country and expects to return here in the course of the next two or three years.

Mr. Tom Holley was badly hurt last Friday by being thrown from a buggy. He made a trip to the Mallet ranch for Messrs. Allmon & Coble and on his way back the team became frightened and ran away and he was thrown from the buggy, but held to the lines and was dragged a considerable distance before he turned the team loose, and was badly bruised and lacerated. After lying on the prairie for some time he managed to get to a line camp where he spent the night, and next morning the boys at the camp went out into the pasture and found the team, which had become detached from the buggy, but were uninjured. The buggy had been turned over and badly broken up, but Mr. Holly managed to get home in it.

Mr. Wm. Murry of Jones county is now in our midst and a citizen of Terry county, having bought S. W. Withers' place south of Gomez. Mr. Murray was president of the Farmers Union in Jones county and is an industrious farmer and a desirable citizen and we are glad to have him here.

The HERALD'S fees will be \$10 for announcing County Candidates and \$15 for District candidates, the same price charged in the last campaign. Each candidate who announces will get a good write up in the paper.

### Brownfield State Bank.

Work has commenced on the Brownfield State Bank's new building, and will be pushed until it is finished. This will be a building that will do credit to the town and speak in high terms for the enterprise shown by the management of the bank. This bank has proved itself one of the most solid financial institutions in west Texas. During the panic when other banks all over the Plains country, and in fact all over the State, were only paying their depositors \$10 a day on checks drawn on them, the Brownfield State Bank cashed its depositors' checks in full whenever presented. A bank that would do this under such trying circumstances, deserves the full confidence of the people living in this part of the country. When their money is deposited in it they have a guarantee that it is safe.

### To Our Subscribers.

The U. S. Postal law has gone into effect prohibiting publishers from sending their papers to delinquent subscribers for more than one year without same being paid, even if they should desire to do so. The new law will not permit a publisher to send his paper, if it be a daily, to a subscriber in arrears more than three months, semi-weekly, longer than nine months, and weeklies more than one year. This only applies to papers delivered to subscribers through the postoffice, but will include all the papers issued by the county press. Under this law we will have to ask our delinquent subscribers to come in and settle.

A Junior Epworth League was organized at the Methodist church Sunday February 9th, at 2 p. m. Mrs. Claude Criswell, Leader.

The following officers were elected to serve 6 months.

President  
Will Ed Harris.  
1st Vice President,  
Cathryn Powell.  
2nd Vice President,  
Newt Copeland.  
3rd Vice President,  
Maybel Nicks.  
4th Vice President,  
Deloris Hill.

## Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tun-  
nelton, W. Va., "I was going down by inches,  
from female disease, with great pain. After tak-  
ing Cardui, Oh! My! How I was benefited! I  
am not well yet, but am so much better that I will  
keep on taking Wine of Cardui till I am perfectly  
cured."

Despite the envious attacks of jealous enemies  
and rivals, Cardui still holds supreme position  
today [as in the past 70 years] for the relief and  
cure of female diseases. It stops pain, tones up  
the organs, regulates  
the functions, and aids  
in the replacement of  
a misplaced organ.

## Well Selected Dry Goods, Shoes, Hats, Caps, Gents Furnishing, Youths and Childrens Clothing

so cheap that you will ever believe us when we tell you we are going to do a thing. It was once said by the public that Dry Goods are higher in Big Springs than any other place in Texas. We are glad to say it has ceased to be a fact since we opened our business here. We have shown the public that we sell it for less. You will always find the Big Springs Dry Goods Co., selling more goods for less money than any other dry goods store on the T. & P. R. R. Don't forget the opening date of our Removal Sale, Feb. 15th. It is during this Extra Special sale we will put to shame any former price you ever heard of on Dry Goods; the only question is, in justice to yourself and family, can you dare to miss this great price slaughter sale; we will make you say from now on Big Springs is the cheapest place to buy dry goods you ever saw in your life; we resort to no schemes but do business on strictly up-to-date methods combined with simply the old fashioned honorable straight forward man to man way like our ancestors used to do when truth was cherished more than gold—when the people lose confidence in a Merchant it is because that Merchant is not a deserver of confidence—we have but one way of dealing and that is honest. Below we quote a few of the many thousand bargains to be had. Read this add carefully, note the prices quoted and wait for it. Bring this paper with you, make a list of what you want, it will help you purchase your bill. It will pay you to come miles to attend this Mammoth Removal Sale.
