BROWNFIELD MERCANTILE

PATRIOTIC OLD CONFEDERATE

We noticed a delivery jitney all flag bedecked on the streets Monday afternoon, and soon found the cause. Grandpa H. M. Bridges, and son, Wiley, had returned 300 pounds of perfectly good and legitimate Belle of Wichita flour to the store from which it was purchased last spring, before the wheatless days inaugurated by the Food Administration was put on.

In order to attract attention, and to encourage others to do a like patriotic act, the car was decorated with the Stars and Stripes and the Confederate Stars and Bars. A photo of the car was made, and Hon. Joe J. McGowan made a short but appropriate address in front of the Merc. lauding the gentlemen who were patriotic enough to give up that which they had legally purchased at that time,

in order to help the Stars and Stripes go over the top, and help the hungry every where.

The old Stars and Bars represents the old flag Grandpa loves even yet, and which he fought to preserve, but lost. The other is a flag he loves too, and would fight to preserve from the autocrats of Europe, and we venture to say, that Grandpa would eat corn pone as he did in the days of 60's the rest of his life, before he would let Old Glory be trampled on by the Hun hordes of Europe. Don't talk to us about a divided allegiance in the south. The South put up as game fight as the world ever witnessed for their old flag, but lost through starvation. They took their defeat like the true soldiers that they were, thought even the kind hearted General Grant could not protect them from the hatred of the Carpetbagging Scalawags. But now if you don't believe the South means business

in this war just try a little slack talk before some of them about our flag or Uncle Sam

LATTER: Just before noon Wed., the subject of the above died suddenly at his home in the northern part of Brownfield. Thus passed a patriot, a soldier and a Christian gentleman.

FEDERAL LAND LOANS

The Federal Land Bank in Houston, to date, has loaned the enormous sum of \$6,100,000.00 to Texas farmers. Some of the loans in this immediate vicinity are:

Brownfield	\$31,995
Crosbyton	23,300
Littlefield	25,350
Plainview	39,275
Slaton	35,560
Snyder	101,590

Lence Price and wife, of the Needmore community, are taking in the Baptist meeting here, this week.

A MILITARY ROAD

The distance from Saint Louis to the Mexican border is about 1,600 miles and at twenty miles per hour the distance can be made in four days. With our road from Saint Louis to Oklahoma City up to Standard and completed from the latter city to the Mexican, the road desired will be ready.

Three Roads Routed

We have placed in competition two roads from Oklahoma City to Lawton and one via Chandler. One of these roads is via Union Minco, Pocasset, Verdon, Anadarko and Fletcher. Another via New Castle, Tuttle, Amber, Chickasha, Cement and Fletcher. The other from Chandler via Meeker, Tecumseh, Norman, Blanchard and Chickasha or Anadarko.

Fort Sill to Fort Bliss

From Lawton to El Paso, three routes have been routed, either of which will answer and are

now competing for the road to be established and adopted.

One is the southern route from Lawton via Rondlette, Barkeburnett, Wichata Falls, Seymour, Bomarton, Gore, Munday, Haskell, Stamford, Anson, Abilene, Merkel, Sweetwater, Colorado City, Big Springs, Stanton, Midland, Odessa, Monahan Barstow, Pecos, Toyah, Van Horn, Serra Blanca to El Paso.

Another, the northern route called by its friends, The Science Route' from Lawton via Snyder, Altus, Hollis, Childress, Lockney, Plainview, Littlefield, Texas, Kenna, Roswell, White Mountain Inn, Tularosa and Alamogordo, New Mexico, to El Paso.

The other known as the Central route called by its promoters the Air Lane Route, leaves the northern route at Childress and goes via Roaring Springs, Crosbyton, Ralls, Lubbock, Brownfield, Texas, Lovington and Carlsbad New Mexico to El Paso.

Either will be known as the Ozark Trail when completed or designated.

CITATION

The State of Texas, To the Sheriff or any Constable of Terry County Greeting: You are Hereby commanded to summon the Ohio Valley Buggy Company, a corporation and the unknown stock-holders of the Ohio Valley Buggy Co. a defunct corporation by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear to at the next regular term of the district court of Terry County, to be holden at the Court House thereof, in Brownfield, on the fifth Monday in April A. D. 1918, the same being the 29th day of April A. D. 1918, then and there to answer a petition filed in said Court on the 28th day of February A. D. 1918 in a suit, numbered on docket of said Court wherein H. G. Wood is Plaintiff, and the Ohio Valley Buggy Company, a corporation, and the unknown stockholders of the Ohio Valley Buggy Company, defunct corporation, are Defendants, and said petition alleging, that heretofore to wit, on the 1st day of January 1918, the plaintiff was lawfully seized and possessed of the following described lot, tract or parcel of land lying and being situated in the county of Terry and the State of Texas, known as all of the S.E. one fourth of Survey No. 88, in Block No. 4x, Cert. No. 194 issued to the D. S. E. Ry Co, holding and claiming the same in fee simple, and that the defendants unlawfully entered said premises and ejected plaintiff there from and unlawfully withholds from him the possession thereof to his damage in the sum of one thousand dollars, and plaintiff prays for title and possession of the said land and premises and for general and special relief.

Plaintiff alleges specially that he and those under whom he claims has had and held said land and premises using and enjoying the same for more than ten years before the defendants cause of action accrued, if any they have, and for more than ten years before the filing of this suit, and that he has title to said land and premises by virtue of the ten years statutes of limitation.

Plaintiff also alleges specially that on the 27th day of August 1909, one Felix R. Jones, made executed and delivered to C. M. McKensie a certain deed of trust against the above described land and premises as a trustee for the defendants, and for the purpose of securing the payment of twelve notes executed by Felix R. Jones and payable to the order of the Ohio Valley Buggy Co., and aggregating the sum of Five Thousand Seven Hundred Sixty Eight Dollars, one fourth of said notes maturing on January 1st, 1910, one fourth of notes maturing February 1st, 1910 one fourth of notes maturing March 1st, 1910, and one fourth of notes maturing April 1st, 1910.

That each and all of said notes have been paid, but that the defendants failed to execute a proper release of the lien against said land created by said deed of trust, or that said release was lost and never placed of record.

That if plaintiff be mistaken as to the payment of said notes, then in the alternative he alleges that said notes are all long since barred by the statute of limitation, that the lien created by said deed of trust is also barred by the statute of limitation; but that said notes and said deed of trust creates a cloud against the title to said land and premises and he prays that said cloud be removed and his title quieted, etc.

Herein fall not but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness J. C. Green, Clerk of the District Court of Terry County.

Given under my hand and the Seal of said Court, at the office in Brownfield on this 28th day of February A. D. 1918.

J. C. GREEN,

Clerk District Court, Terry County.

SOME MORE AMERICAN EFFICIENCY

Acting on orders from the German Government, the officers and the crews of the German ships interned in American waters inflicted such damage upon the machinery of the vessels as they deemed absolutely certain to keep the ships out of service for two years. By that time the Germans thought the war would be over.

But American efficiency and American invention effected the necessary repairs in from six to eight months and at a cost of \$273,000, the Germans had figured the cost of repairs at \$2,600,000 and the necessary time 24 months.

WANTS TO LICK KAISER BILL

Through the McLean News, we learn that A. G. Richardson formerly publisher of that paper, and cashier of the American National Bank at McLean, has made application for a job with the Government forces in France and hopes to soon get sent over in time to be "in the finish of the Kaiser."

Mr. Richardson is over the draft age, but declares that Mrs. R. made such a successful news paper woman that he is confident that she can get along with out him until the war is over. Their son, Roy, who published the Currier, at Channing for a time, has enlisted in the Engineering Corps.

We trust that Mr. Richardson will realize his ambition and will come back with the Kaiser's scalp.—Panhandle Plainsman.

Tom Taylor was here this week from N. M., trading.

DIED

Grandpa H. M. Bridges died suddenly, at his home in the north part of town, Wed., just before noon. After falling, the family physician was unable to reach him before he expired.

A great wave of sadness has been spread over the entire Co. A full writeup of his life will be printed next week.

Mrs. Smith, of Littlefield, the daughter of Mr. and Mrs. J. M. Shields, of this city, is visiting them.

WATCHES: Largest assortment, greatest value, best prices; 61 to select from. \$1.25 to \$34.50 Come and see. J. L. Randal.

Miss Idahlia Hunter is now a regular typo in the Herald office, vice Mrs. Mumford Smith, who is taking a much needed rest.

Attys. Roscoe Wilson and P. Spencer, were here this week on business.

MERCHANTS: The agent of the Magnolia Petroleum Co., trades with you. Why do you buy your oils and gas out of town???

M. V. Brownfield left Wed. for Gray county, to look after his ranch interests up there.

John Kindrick and wife, of Plains, and two young ladies, passed through this week on their way home, after a visit to relatives in Colorado City.

FOR the famous American Black Coal, see Stinson Coal and Grain Co.

G. P. Wirts, who recently bought and located his family on the Gore place one mile north of town, came in this week and got on the mailing list. Mr. Wirtz has every appearance of a good citizen, and no doubt will be a substantial addition to our town and country. He says he always takes his county paper, and that is good evidence of a boosting citizen alright.

Wait-Think-Reason

When you go to buy your Oils and Gasolene, do you stop to think what the Magnolia Petroleum Co., has done for Brownfield and Terry County? They have spent near \$12000 in your town and County in erecting tanks and warehouses for your convenience, and to enable them to keep the stuff on hand so you can get it any old time you want it. They charge no more for their stuff; They have just as good and better stuff as anywhere you go. Where should you trade? Stop and think for just a moment, and then drive or phone to Magnolia Petroleum Co., I am always there.

NEED BIG HERDS

Europe's Meat Supply Must Come From America.

Warring Nations Have Depleted Live Stock at Enormous Rate, Even Killing Dairy Cattle For Food.

American stock breeders are being asked to conserve their flocks and herds in order to meet Europe's tremendous demands for meats during the war and probably for many years afterward.

The United States food administration reports that American stock raisers have shown a disposition to co-operate with the government in increasing the nation's supply of live stock.

Germany today is probably better supplied with live stock than any other European nation. When the German armies made their big advance into France and then retreated virtually all the cattle in the invaded territory—approximately 1,800,000 head—were driven behind the German lines.

But in England—where 2,400,000 acres of pasture lands have been turned into grain fields—the cattle herds are decreasing rapidly. One of the reasons apparently is the declining maximum price scale adopted by the English as follows: For September, \$17.76 per 100 pounds; October, \$17.28; November and December, \$16.08; January, \$14.40. The effect of these prices was to drive beef animals on the market as soon as possible.

Walter Gracey, Brownfield Texas.

In France the number of cattle as well as the quality have shown an enormous decline during the war. Where France had 14,807,060 head of cattle in 1913, she now has only 12,341,900, a decrease of 16.6 per cent. And France is today producing only one gallon of milk compared to two and one-half gallons before the war.

Denmark and Holland have been forced to sacrifice dairy herds for beef because of the lack of necessary feed.

Close study of the European meat situation has convinced the Food Administration that the future problem of America lies largely in the production of meat producing animals and dairy products rather than in the production of cereals for export when the war will have ceased.

LESSONS OF THRIFT.

W. F. Doughty, State Superintendent of Public Instruction, has promised that 1,000,000 of the 1,200,000 school children in Texas will be told about War Savings Stamps and the lesson of thrift impressed upon

them. Superintendent Doughty has made many speeches throughout the state on War Savings work and through him there has been distributed to the 39,000 school teachers of Texas an outline of the three weeks' campaign that is now being carried on in the schools, and it is expected that this will be the foundation of a regular course of study in the new ideas of goods and service, and the necessity for economy for the purpose of winning the war.

APPROPRIATE BIRTHDAY GIFTS.

The most appropriate birthday gifts this year are thrift stamps and war savings stamps. The practice of giving the little money saving bonds has already sprung up in Texas. Such a gift has deep significance and it may be the means of starting the one who receives it on the road to thrift and wealth, especially children. Louis Lipsitz, State Director of the National War Savings Committee, points out.

THRIFT STAMP PARAGRAPHS

Save two-bits and give old Wilhelm a case of fits. It's not so much what you say, but how your thrift card looks. Every War Saving Society should report its organization to

the State Director at Dallas. Has your Secretary done that? Has our country gotten credit for its organization?

Three Buffalo nickles and one thin dime will help to break the Hindenburg line.

It's bonds are bondage. Make your choice. Buy War Saving Stamps.

Lend to Uncle Sam now or give in tribute to Bill the butcher later on. The question is up to you.

Time to do your bit has past. Nothing but the best is good enough now. Get a War Saving Stamp right a way.

In Canada they give until it hurts and then they give until it quits hurting. All we are asked to do is to lend an excellent rate of interest. Buy War Saving Stamps.

Is this one of the counties of which the State Director of War Savings at Dallas has no record of War Savings Society formed? If our societies have not reported their organization to the State Director they should do so at once.

What's your classification: Helper or hinderer? War Saving Stamps are the answer.

There is only room in America today for Americans. Are you investing in War Savings Stamps? Americans are.

Hush, little Thrift Stamp, don't you cry.

You'll be a War Bond by and by.

UNCLE Sammy cut us down to 12 pounds of flour and our sugar is short, but when you fill your car with Magnolia Gasolene, you forget it.

Our hustling blacksmith, Jim Jackson, got on the Herald reading list this week.

THE GREAT WAR HAS MADE CIGARETTES A NECESSITY.

"Our boys must have their smokes. Send them cigarettes!" This is a familiar appeal now to all of us.

Among those most in demand is the now famous "toasted" cigarette—LUCKY STRIKE. Thousands of this favorite brand have been shipped to France. There is something homelike and friendly to the boys in the sight of the familiar green packages with the red circle.

This homelike, appetizing quality of the LUCKY STRIKE cigarette is largely due to the fact that the Burley tobacco used in making it has been toasted. "It's toasted" was the "slogan" that made a great success of LUCKY STRIKE in less than a year. Now the American Tobacco Co. is making 15 million LUCKY STRIKE Cigarettes a day.

A good part of this immense production is making its way across the water to cheer our boys.

Swift & Company's 1918 Year Book

It shows that Swift & Company sells the meat from a steer for *less money* than the live steer cost!

Proceeds from the sale of the hide, fat, and other by-products covered all expense of dressing, refrigeration, freight, selling expense and the profit of \$1.29 per steer as shown by Swift & Company's 1917 figures as follows:

Average price paid for live cattle per steer	\$84.45	
Average price received for meat	68.97	
Average price received for by-products	24.09	
Total received	93.06	
This leaves for expenses and profit	8.61	
Of which the profit per steer was	1.29	

There are many other interesting and instructive facts and figures in the Year Book.

We want to send our 1918 Year Book, to anyone, anywhere — free for the asking. Address Swift & Company, Union Stock Yards, Chicago.

M. H. WOLFE FOR HOBBY

Dallas, Texas, March 28—Referring to the various candidates for the office of Governor of Tex. M. H. Wolfe, Chairman of the Statewide Prohibition Committee said to day:

"Any man who runs againt Hobby for Govenor, under the present stressful conditions and in view of of the recent constructive legislation, is committng political suicide.

"He is creating confusion and promoting bitterness among the people and arraying one class against another without just cause or righteous motive.

"Personal revenge and selfish greed and political ambition have no place in public office while the blood of millions flows to purchase liberty and freedom.

"The political graveyard is white with the tombstones of the men who have took the risk of violating the fundamental principles of right against wrong and have paid the penalty at the hand of an outraged public sentiment. That's all, thank you."

RUSSIAN DEVELOPMENTS WORRY EDITOR OF GERMAN NEWSPAPER

Translations of editorial comment in the German press, made public by the Committee on the Public Information include the following from the Berliner Tageblatt:

"The terms of the ultimatum to Russia will please even the most unrelenting advocates of violence. It would be interesting to hear Hertling, who accepted Wilson's second principle that people are not to be bartered about from sovereign to sovereign, explain just what difference exist between the political methods of the past and those of to day. It may be conceded that to-day the German Reichstag is informed of coming changes but not until the matter has been settled without it. We all hope this policy will bring peace and prosperity, but we cannot conceal our anxiety at the birth of these new States."

Mr. Rix of Big Springs and Lubbock, was he this week, delivering New Edison Phonographs and records to customers. He delived a Labratory model, \$265 machine, each to Mr. and Mrs. Arthur Sawyer, and to Cleve Williams for his theatre, and exchanged a \$160. machine to Mr. and Mrs. Stricklin for their Model 80 that has been discontinued.

PINTO BEANS

The railroads are boosting pinto beans as a West and North west Texas food crop, cooperating with the United States food administration which started a movement in that direction lately by taking over more than 600 car loads of pintos for the eastern markets, paying the growers eight cents a pound. Heretofore pinto beans have been a drug on the market, except in Texas and other Southwestern where they grow, for want of an introduction. Now the pinto can be found on the menu of every well-managed eastern restaurant.

H. M. Bainer of Topeka, industrial and agricultural agent of the Santa Fe, recently "loaned" to the food administration, has prepared a bulletin about growing and handling pinto beans, which will be distributed free through the local banks. Following are the good points of the pinto beans, brought out in the bulletin.

- They are bringing good prices
- They are as good as any other bean.
- They are an excellent non-perishable cash crop.
- They are a safe dry land crop.
- They are a profitable irrigated crop.
- They do well as a sod crop.

They are a good rotation crop. They are profitable for wheat land that has failed.

The straw is good for live stock.

The bean division of the food administration at Denver has arranged to sell pinto bean seed to growers at cost—\$8.80 per hundred plus freight charges. It is suggested by the food administration that growers place their orders for seed through the county agricultural agent. The seed will be shipped from storage houses located in various parts of the bean area, but orders must be placed through the Denver headquarters.

There are two highly important points for one to consider before having a car overhauled; the first is to be sure the mechanics who are going to do the work are expert enough to locate the defects and properly repair them, and the second point is, can you actually trust them to give you an honest accounting of the work done. We have the facilities to do the work, and ask you to give us a rigid investigation.

R. H. Kemp, president and general manager of the R. H. Kemp Lumber Co., died at his home at Carlsbad, Texas, just before midnight Friday, and will be buried at Roswell one day this week. Mr Kemp was regarded as one of the biggest lumber men in the west, and was a booster and builder, and the country will miss his council and encouragement. Milton Brown and family the local manager of their yard, left Tuesday for Roswell, to attend the funeral.

CORN WILL WIN DEMOCRACY'S WAR

America's Greatest Cereal Crop Is Now Moving to Market.

MAINSTAY IN NATION'S CRISIS. Surplus Wheat of the United States Has Been Sent to Famine Threatened Europe.

America's great corn crop, exceeding 3,000,000,000 bushels, will save the world's food situation, officials of the United States food administration believe.

Corn is the nation's best food cereal, housewives are beginning to realize. It contains all the elements needed to keep the body in a state of health and when used according to the scores of tried recipes, especially when combined with an added portion of oil or fat, will sustain life indefinitely. Indian warriors in colonial days lived on parched corn alone for many days at a time, and at Valley Forge parched corn was at times the sole ration of the Continental soldiers.

Owing to transportation difficulties caused by the war the corn crop moved more slowly to market this year than ever before. Now, however, the cereal is reaching the millers and consumers. In the meantime the nation's surplus wheat has been sent to Europe.

Today there are approximately 30 bushels of corn for every American. This quantity is greater by five bushels than in former years.

Corn has become the nation's mainstay in the crisis of war.

Just as this cereal saved the first American colonists from famine on many occasions, just as it served as a staple food during the War of the Revolution and during the Civil War, King Corn has again come to the front in the nation's battle with autocracy.

Corn meal is finding greatly increased use in the making of ordinary white bread. Hundreds of housewives and

many of the larger bakers are mixing 20 per cent. corn meal with wheat flour to make leavened bread. This kind of a mixture is worked and baked in the same recipes and with the same methods that apply to straight wheat bread.

Corn bread—using corn meal entirely—is gaining a greater popularity than ever before. Housewives are coming to realize that every pound of wheat saved in America means a pound of wheat released for shipment to the nations with which America is associated in the war.

There are a score of corn products that today possess unusual importance for Americans. Corn syrup for sweetening corn cakes and buckwheat cakes and for use in the kitchen instead of granulated sugar is one of the leading products made from corn.

Corn oil, excellent for frying and for every other purpose filled by salad oils, is appearing on the market in large quantities. It comes from the germ of the corn.

MADE-IN-GERMANY LIES CIRCULATED IN CANADA

Canada is also having trouble with Made-in-Germany lies calculated to hinder Canadian food conservation according to an official statement received from the Canadian food controller by the United States food administration.

The stories bothering Canada are of the same general character as those the United States food administrator recently denounced in this country, such as the ridiculous salt and blueing famine fakes and the report that the government would seize housewives' stocks of home canned goods.

The Canadian food controller estimates that when the people listen to and pass on such stories, each one has the power of destruction that lies in a battalion of soldiers.

"Stories without even a vestige of foundation have been scattered broadcast," said the Canadian statement. "Nor have they come to life casually. They have started simultaneously in different parts of the country and in each instance have been calculated to arouse public indignation.

"They are insidious, subtle, persistent. Bit by bit they dissipate public trust, the great essential in the work of food control.

"It lies with every individual to forbear from criticism; to refrain from passing on the vagrant and harmful story, and thus the more effectively to co-operate in work which is going to mean more than the majority of people yet realize."

THE UNITED STATES FOOD ADMINISTRATION SAYS:

There is no royal road to food conservation. We can only accomplish this by the voluntary action of our whole people, each element in proportion to its means. It is a matter of equality of burden; a matter of minute saving and substitution at every point in the 20,000,000 kitchens, on the 20,000,000 dinner tables, and in the 2,000,000 manufacturing, wholesale and retail establishments of the country.

SHERMAN PEOPLE THRIFTY.

Sherman people are religiously practicing the thrift lessons urged by the government. Not only are they putting something aside every day for war bond purchasing, but they have decided to invest the interest from their Liberty bonds in war savings stamps. Sherman people have a yearly revenue of over \$40,000 from their Liberty bonds. By converting this money into the "baby bonds," they are making the interest earn interest.

GERMAN KULTUR NOT A NEW THING.

"Every village they have passed through has been a victim of what is only organized pillage. Every city has been practically sacked, ransacked on system; its citizens plundered, its civil officials terrorized, imprisoned, outraged or killed. The civil populations have been, contrary to the usage of modern warfare, forced to serve the invading armies, brutally put to death, reduced to wholesome starvation, and desolation. Vast tracts of the richest, and most industrious districts of Europe have been deliberately stripped and plunged into famine, solely in order that the invaders might make war cheaply. Irregular troops contrary to all the practice of war, have been systematically murdered, and civil populations indiscriminately massacred, solely to spread terror. A regular system of ingenious terrorism has been directed against civilians, as horrible as anything in the history of civil and religious wars. Large and populous cities have been, not once, but 29, 30, 40, times bombarded, and burnt and the women, and children in them wantonly slaughtered, with the sole object of inflicting suffering. All this has been not in license or passion, but by the calculating ferocity of scientific soldiers."

The above was not written, though it might have been, yesterday, last week, last month, or last year. It appeared in the English Fortnightly Review February, 1871, shortly before the surrender of Paris. Fredrick Harrison, the writer, is still alive. Its statements were true then, are true now. Julius Caesar in his Commentaries narrates events which shows that even before the time of Christ the Germans demonstrated the possession of all of the rudiments of their modern "kultur." It is no new thing; and hundreds of thousands of men will have died in vain in this war if this sinister thing is not absolutely and utterly exterminated forever by the forces of civilization arrayed against it.

WEATHER REPORT 1917.

We have been asked several times lately what the official rain fall of 1917 amounted to, but as we had lost some of the data we had to await the annual summary from the Texas Section of the U. S. Weather Bureau, which came in last week, and gave the Brownfield Station 6 inches of rainfall, which included the melted snow also. This compared to usual rainfall, will showed a great departure from normal, and why there was nothing raised, comparatively speaking, last year.

The precipitation by months was: Jan. 0.35; Feb. 0.18; March 0.15; April 0.00; May 0.53; June 0.25; July, last days of 1.45; Aug. 1.59; Sept 1.22; Oct. 0.00; Nov. 0.07; Dec. Trace.

The precipitation for 1914 was 29.19; 1915, 24.82; 1916, 18.30 in.

"WAR TIME SPIRIT"

A panicky man is a curse to his community, whereas, a sane, practical, and courageous one is a decided blessing. Which one are you going to be in BROWNFIELD? Some people think that all money now should be hoarded, because it is time of war; that the old home will do; that repairs and unkeep can wait until after the war is over. YOU'RE WRONG, BROTHER, DEAD WRONG. Remember, "A stitch in time saves nine." It is the money that is spent, not the money that is hoarded, that is going to make prosperity in this land. There is no cause for blues, no excuse for Pessimism. Think Optimism, Big Rains, Prosperity, and Happiness if you want to help "WIN THE WAR." Let us figure on your requirements.

BROWNFIELD PEOPLE SHOULD EAT PIE DAILY

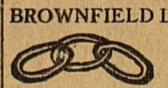

Pie is wholesome, combining both fruit and grain. Those who have trouble digesting pie should take ONE SPOONFUL simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This flushes the ENTIRE bowel tract, removes foul matter which poisoned your stomach for months and relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. Leaves stomach in condition to digest ANYTHING.

GOMEZ DOTS

By West Wind.

Ben Whitley and his wife left Monday for their home at Magdalena N. M. They are both well satisfied in their new home. Ben is head clerk in one of the largest stores there and could not stay away from his job, is the reason his visit here was so short.

George McWhorter was in from his home in New Mexico last week, and carried Robert Griffith back with him for a short visit.

Miss Naomi Simms who was so seriously sick with pneumonia is improving nicely, and we hope she will soon be able to get up.

Mrs. Dalton Reed was visiting in town last Tuesday afternoon.

Mr. Mashburn came in Tuesday and Mrs. Mashburn accompanied him and attended the Red Cross meeting. No matter what their home duties may be nor how bad the sand storms blow, when Tuesday comes those Red Cross women are at the hall at work.

Mr. McCoy, who came out from Lubbock several days ago returned Monday, and Miss Gladys Flemming went with him for a short visit there.

Mr. Rutledge from Yoakum county, has moved to the old Seitz homestead one mile north-east of Gomez.

Alvin Duke, and little son Bert, came in for a visit last week and stayed over until Sunday, before returning to their home in N. M. Mrs. Duke and little Lila are still here.

S. J. Miller, made a business trip to Brownfield, Texas.

Walter Gainer passed through Tuesday afternoon, enroute to Brownfield. He carried a load of towsacks and will carry freight back.

Raymond Simms took the scholastic census here last week. There is over one hundred enrolled, and quite a lot of families who left their homes here last year on account of the crop failure, will when it rains. So we feel assured of as large a school next year as we have had this year.

In the school meet held at Brownfield last Friday and Saturday, Gomez only made eleven entries, the Friday's sand storm was so bad many pupils did not try to go. Also one auto

load who did start, got stuck in the sand bed one mile east of here and failed to get to Brownfield. However the Gomez pupils won 8 out of the 11 entries and we feel sure would have won more if some others had not failed to get there.

The severe sandstorms of the past two weeks have killed most of the plum and peach crop, but the apples, Grapes and cherries have not bloomed yet and we hope they will not be hurt. Grass is coming fine even if the spring rains have not come yet.

All the young folks and children of Gomez and vicinity went out to Mr. Brumps last Sunday afternoon to an Easter egg hunt. They report a real nice time.

The young folks enjoyed a forty-two party and other games at Miss Mattie Randolph's last Thursday night. All report a pleasant time.

Last week completed seven years time that we have been reporting for the the Herald, in that time we failed to report only five weeks, owing to sickness three of the failures were were last year.

(We seriously doubt if your record has ever been excelled by a country newspaper correspondent, West Wind and we heartily congratulate you.—Ed.)

PROMINENT MEN ARE TO VISIT BROWNFIELD

The following message was received at the Herald office Wednesday morning, and is self-explanatory:

"The Herald, Brownfield, Tex. F. I. Townsend, Department Warehouse and Marketing, and L. L. Johnson, of the Santa Fe lines, will be in Lubbock Monday April 8th at 1:30; at Brownfield, April, 9th, at 1:30; at Littlefield Wednesday, April 10th, at 1:30, for meeting of County Commissioners, Council of Defense and farmers to explain Drouth Relief Bill and to aid them in securing the assistance provided under this law. The Governor is sending these men in the hope that the relief may be secured in time to be of service. Kindly give all publicity possible and arrange place for meeting.

B. F. Johnson"
This meeting will be held in the District Court room at the time designated, and it is the desire of the above gentlemen, who are well able to entertain any

crowd, to meet all farmers in the trade territory of Brownfield, who lives in Texas, and the business men of Brownfield will assist every way in making the meeting a success.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came. I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

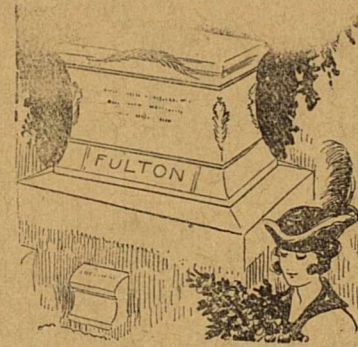

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists. NC-132
