AN IDLE DOLLAR IS KAISER'S ALLY

WAR SAVINGS STAMPS ARE TWOFOLD—TEACH THRIFT AND HELP NATION TO SUPPLY HER NEEDS.

Mr. Frank Vanderlip, Chairman of the War Savings Committee, said in his Dallas address: "There are just three things you can do with a dollar: you can hoard it; you can spend it; or you can invest it. Now a hoarded dollar is a slacker dollar and it is not doing anything, but a dollar that is spent foolishly is the dollar that means you are competing with the Government for labor and material—it is a traitor dollar; it is the ally of Germany. There is nothing the Kaiser would like better than to see us going on with pleasure as usual; with comfort and luxury as usual; he would see us go on, demanding the things that prosperity has led us to demand. We must wake up to the fact that the nation cannot afford to permit us to do the things that we have been able to do. We hear a lot of talk about a united nation, but we must have a united nation, united to the point of sacrifice, trained to self discipline and to see that democracy does not mean a Government in which we play no part. We are beginning to understand that we have a personal responsibility, every man, every woman, and every child, to help win the war. Now what are these War Savings Stamps? You have seen them in the windows; you have read something about them. They are little things; they cost a quarter, or 50c, and we expect to raise \$2,000,000,000 from them—the greatest financial transaction ever carried through in this country. Now what is back of it? One thing is that we are going to teach thrift to the whole nation and to a nation that needs it terribly. We are going to have 30,000,000 stockholders in the United States. If we are really to teach thrift, really build up character so that it will stand self-discipline, make men and women and boys and girls ready to forego the thing of the moment that they may desire so that they may have something of greater value in the future, stimulate industry, encourage those old homely virtues, the virtues by which is to be measured the strength of the nation, then I believe we shall have gone a long way toward compensating us for the money cost of the war."

For this won't be printed but one issue: The United States Food Administration says we are selling ice too high. There is but one way for us to reduce the price, and that is by increasing our sales. Now, beginning Monday 29th, we will sell ice for 20 days at 1 cent per lb in quantities less than 100 lbs; quantities over 100 lbs at 75c per cwt, and if my sales increase so that we can afford to sell this way, we will continue to do so; if not, the price will go back to 1c and 1 and 1-2c per lb or close down the ice business, and by being forced to make these prices, we cannot under any circumstances make but one delivery each day. Your order must be in by 10 a. m., and no order delivered in the afternoon at all. Remember this, and don't ask us to send you any ice after 10 a. m. So if you good people want to keep ice in Brownfield, and get the service, fall in line and buy ice, and don't forget the hour.

ENTENTE AND TEUTONIC RESOURCES.

The Entente Allies—excluding Russia and including only those British dominions which are self governing and only the United States proper—have 11,000,000 square miles of territory, 303,000,000 people, and \$495,000,000,000 of national wealth.

The Central Powers have 1,250,000 square miles of territory, 147,000,000 people, and \$134,000,000,000 of national wealth.

The entente owe an aggregate debt of \$69,000,000,000, which is about 14 per cent of their total assets. The Central powers owe \$87,000,000,000, or 28 per cent of their national wealth.

ONE HUNDRED DOLLAR PRIZE FOR THE BEST ESSAY ON THRIFT.

Louis Linitz, State Director, War Savings Committee, will give on April 15th 1919, a War Savings Certificate of \$100.00 for the best essay on Thrift written by any child in school in Texas. Mr. Linitz says: "In nearly every county, the County Chairmen of War Savings are giving prizes for the best essay written by any school child in Texas, and the essays which receive the county prize will compete for the state prize. I am extremely anxious that the 1,200,000 school children learn the basic lesson of thrift and economy. If this can be accomplished, it means the solution of the present economic difficulties of our nation. If thrift is studied and practiced, the great demand for goods and service for running the war will be easily met, so I expect that school children will study thrift and practice it. The County Chairmen will give their prize, select the best essay in the county and send it to me in a letter by April 1st and of the prize essays from each of the 258 counties, I will have a committee to select the best one, which will receive the \$100 prize. I suggest that these essays be not longer than 500 words—that the age of the child be indicated; that they be written in ink, on one side of the paper, by the child competing, with a signed statement that the child received no help in composing the essay, that is, I want it to be the result of the original thought of the child after he or she has studied thoroughly the literature that is obtainable everywhere on the general subject of thrift."

Von Hindenburg's Aunt Good American

Von Hindenburg, the German leader, has an aunt in Rochester N. Y. Mrs. von Saucken, is 96 years old, and has lived in America 59 years. Her sister, who is a lady in waiting at the German court, married von Hindenburg's father. Mrs. von Saucken's husband, who was a lieutenant in the Prussian army, resigned, came to America and soon became a citizen of this country. The tragic side of the story is that that the grandson of Mrs. von Saucken, Private Louis C. Whitman, who was a member of the American marines fighting on the western front, was killed in action June 1st, and his grand mother wears a service pin bearing two stars.

Volunteer to fly Across The Atlantic.

American airmen are clamoring for a chance to fly across the Atlantic. Forty aviators in training at Mineola, Long Island, have presented to their commanding officer a petition that they shall be selected to fly the first fleet of American-built machines that shall be sent across the ocean by air route. The Handley-Page machine, which will probably be selected for this trip if such a trip shall be made, has a wing spread of 100 feet, and is propelled by two liberty motors of 400 horse power each.

PATRIOTISM WITHOUT HESITATION

If our soldier boys deliberated as long over doing their duty as some of our people at home hesitate over doing theirs, the victory would be doubtful.

It is a sort of financial cowardice to hesitate to put your money in the United States Government securities, and to deliberate over the wisdom and patriotism of the investment is to hesitate in supporting our soldiers.

SOME CAMOUFLAGE

A little fun manages to creep into war activities. The following letter written in all seriousness has just been received by the recruiting section of the Southern Department, Army Y. M. C. A., from a town in Texas:

"Dear Sir: I have been reading about the Camouflage Department and I would like to have some information about the duties of a musician in that line. I am a violinist. I am 19 years old.

"I will await your early reply and oblige.

"Respectfully (Signed) Miss—
The inquiry was referred to the wise heads of the headquarters for interpretation. The only logical solution was the following

Miss Nineteen Years Old will go off to one side of the German lines and play her violin feelingly. The tender hearted Huns, hearing the music(?), will think it some animals in distress and will rush over to render assistance. With the way clear, the Allied armies will march directly to Berlin, and the war will be over—all because of the camouflage music.

Simple, isn't it? The idea will be sent to the War Department.

CONSTITUTIONAL AMENDMENT

SPECIAL TAX FOR MAINTENANCE OF PUBLIC SCHOOLS AND FURNISHING FREE TEXT BOOKS.

House Joint Resolution No. 27.
Proposing an amendment to Art. 7 of the Constitution of the State of Texas by changing Sec. 3, providing for a thirty-five cent tax levy for the maintenance of the public schools of Texas, and providing free text books in public schools of the State of Texas, and making an appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 3, Article 7, of the Constitution, be so changed as to read as follows (creating a new section 3):
Sec. 3. One-fourth of the revenue derived from the State occupation taxes and a poll tax of one (\$1.00) dollar on every male inhabitant of this State, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and, in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed thirty-five cents on the one hundred (\$100.00) dollar valuation, as, with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of this State for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; provided, however, that should the limit of taxation herein named be insufficient, the deficit may be met by appropriation from the general funds of the State, and the Legislature may also provide for the formation of school districts by general or special law without the local notice required in other cases of special legislation; and all such school districts, whether created by general or special law, may embrace parts of two or more counties. And the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts, and for the management and control of the public school or schools of such district, whether such districts are composed of territory wholly within a county or in parts of two or more counties. And the Legislature may authorize an additional ad valorem tax to be levied and collected within all school

districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and the erection and equipment of school building therein; provided, that a majority of the qualified property tax-paying voters of the district, voting at an election to be held for that purpose, shall vote such tax, not to exceed in any one year fifty cents on the one hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1918, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment to the Constitution of the State of Texas providing for the levy of a special school tax for the maintenance of the public schools of the State and to provide free text books in the public schools of the State of Texas," and all those opposed shall write or have printed on their ballots the words, "Against the amendment to the Constitution of the State of Texas providing for the levy of a special school tax for the maintenance of the public schools of the State, and to provide free text books in the public schools of the State of Texas."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.

Sec. 4. That the sum of two thousand (\$2,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

Thanks to the German press, the people of that nation are lead to believe that America only has a handful of men over in France and we are not in the way of a great German victory. So long as they continue to believe that, the easier they will be to lick. Eat 'em up Sammies. We believe there are more than a million fighting Americans in France, and the German soldiers believe there are twice that many.—Lubbock Avalanche.

It is just like Jim Ferguson to expect the women to vote for him after he has tried his best to keep the right of suffrage from them, and treated them with scorn, when they visited him in his office on a mission of humanity. The women of Texas should rise up in their might and resent such treatment. He should be MADE TO RESPECT THE WOMEN, if he has not enough manhood left to do so without being forced to.—Lubbock Avalanche.

GERMAN-AMERICAN ALLIANCE MADE PLANS TO CONTROL TEXAS; WAS "INTERESTED" IN JAS. E. FERGUSON!

*Texans were first surprised and then amazed at the manner in which the trend of events in the State fitted into the plans of the German-American Alliance, as disclosed by the inquiry held in Washington in February and March of this year by the Judiciary committee of the United States Senate.

Under keen questioning, officials of the Alliance admitted it was formed years ago with a public enunciation of principles and a different and deeply hidden scheme for Germanizing America. It has sought to control our common schools and universities; it bragged of a great political victory in Pennsylvania, where of 207 representatives who were up for election, only 39 who had the endorsement of the legislative committee failed of election. (Page 36). More interested in itself and * * * the German element than in the United States as a nation (page 23), it sought to control the education of our children and the sources of information, the newspapers, the Bolo Pasha incident serving as a particularly illuminating case.

"We have a weapon we can use to good effect, namely, our ballot," said Ex-Congressman Bartholdt; "in these days, so dark for Germanism, we must use our ballots for our Germanism." (Page 34) "Just as our brothers over there, so here we must fight the enemies of Germanism." (Page 26).

The presiding genius and chief spokesman for the Alliance was Dr. C. J. Hexamer, of whom the Kaiser said, when decorating him with the Order of the Red Eagle of the Fourth Class in 1908: "If ever a man was worthy of decoration at my hands it was Herr Dr. Hexamer, who may justly be termed to be, by my grace, the acting ruler of all the Germans in the United States."

ACTIVITIES ARE DISCLOSED.

Not until 1918 were the activities of the pro-German alliance in Texas disclosed. Then before the Senate Committee, Joseph Keller, vice-president of the national alliance, president of the Indiana branch and president of the Indianapolis school board, said: "Yes, sir: I remember that WE ALL WERE VERY MUCH INTERESTED IN THE ELECTION OF GOVERNOR FERGUSON OF TEXAS IN 1914." (Page 287, Hearings of Senate Committee on the National German-American Alliance). "Counsel wrote me regarding the outlook down there and I informed Mr. Andreae." Mr. Keller then added, "In 1914 * * * two men went down to Texas." (Page 288)

Percy Andreae was president of a German organization which distributed \$650,000 in behalf of certain liquor interests. (Page 206).

Senator Wolcott asked Mr. Keller: "Throughout the whole time * * * your activities consisted in * * * carrying on this propaganda over * * * Texas, Ohio * * * and Missouri?" Mr. Keller: "That is right. Yes, sir." Senator Wolcott: "It also consisted in * * * actually seeking votes for certain candidates?" Mr. Keller: "Yes. But * * * I was not particularly known." (Page 288).

"The * * * Alliances devote themselves to * * * German-Americans controlling schools * * * to the establishment of German departments in Public Libraries." (Page 22).

KEEP TEXAS FREE FROM THE DESPOILER

APPOINTS GERMAN-AMERICAN

Mr. Ferguson accomplished the removal of E. W. Winkler, State Librarian, and installed in his place a German-American, C. Klaerner, who speaks English with difficulty. Klaerner was investigated by a committee of the Legislature. He had invested an unprecedented proportion of the State Library funds in German periodicals and books favorable to Germany. His removal was advised by the committee. He did not wait action on the report, but agreed to resign.

"Our attention must be directed also to the Universities." (Page 674). According to the Austin American, Mr. Ferguson had barely taken the governor's chair before he began, in January, 1915, his attacks on certain professors. He next undertook to fill the presidency of the University, at that time vacant.

"According to friends of Governor James E. Ferguson, his choice for president of the University is Dr. L. M. Keasbey, professor of institutional history."—Austin American, Sept. 15, 1915.

"L. M. Keasbey, of the University of Texas, spoke before the People's Council of America, at Chicago."—New York Times, July 1, 1917.

PACIFISTS WERE MADE MAD.

"Pacifists of the People's Council of America, Number 2 West 13th Street, New York, were greatly incensed today when they learned that Prof. L. M. Keasbey had been

dropped from the faculty of the University of Texas for the best interests of the University. Keasbey has been a member of the organization committee of the People's Council and has been active in spreading its propaganda, calling for a repeal of draft laws and peace on the Russian basis. He finished his collegiate education at the Kaiser Wilhelm University, Strassburg, in 1892."—The Dallas Morning News, July 21, 1917.

Between July 1 and 20, Keasbey was asked to explain his actions to the Board of Regents; he declined to say anything, refused comment or explanation, and was thereupon dropped from the faculty of the University.

Despite all these facts the Ferguson Forum, Jan. 28, 1918, said: "Lindley M. Keasbey, who was removed as a professor from the University of Texas, by the Board of Regents, now is holding a high position as associate editor of Pearson's Magazine, published for nearly half a century in New York. He is also secretary of the magazine publishing company. Dr. Keasbey is a scholar of high attainments and a gentleman of most splendid quality. He was out of harmony with other members of the faculty because he stooped not to some

petty political methods practiced on University Hill. That his excellent qualifications met with quick recognition is evidenced by the position he now occupies in the literary circles of the country."

"Pearson's Magazine is against the British and against the French and pro-German in every possible way," said W. F. Hall, professor of Princeton University.

EDITING PRO-GERMAN PAPER

"Prof. L. M. Keasbey, at one time prominently mentioned as the choice of Governor Ferguson for the presidency of the University of Texas, is now editor of the International Monthly, organ of the German interests in the United States.

"The announcement of this appointment is made by George Sylvester Vierick as follows: 'Multifarious activities make it impossible for me to give the International the attention it deserves. I gladly relinquish the blue pencil and the stylus to the vital and generous personality of its new editor, Prof. Lindley M. Keasbey. The torch that passes out of my hands will flame as brightly in his. Wherever my advice or co-operation may be needed they will be loyally given.

"The International Monthly is the successor of Fatherland and Vierick's Weekly. Fatherland was first suppressed, and then Vierick's Weekly met the same fate."—Houston Chronicle, June 13, 1918.

Experiences of the University of Texas and the University of Cincinnati have been similar. "Intimidation is practiced to a great extent by the German-American Alliance. When it was discovered that Charles W. Dabney, president of the University of Cincinnati, had written a kinsman to stand by President Wilson . . . the Alliance wrote the board of trustees: 'Hence the German American Alliance of Cincinnati demands most energetically that either Dr. Charles W. Dabney desist in future from all similar agitatory acts, or he . . . be compelled to do so by proper authorities.'

WOULD CONTROL UNIVERSITY.

Making his first bid for control of the University, James E. Ferguson wrote Fred W. Cook, Chairman of the Board of Regents, on June 11, 1916: "I thought it would not be best to exercise . . . the veto, but approved the appropriation and will content myself with calling your attention to certain matters which I think should have your serious consideration." (University of Texas Bulletin No. 59, page 154).

The battle raged many days, Mr. Ferguson making demands and the University defending itself as best it could. It was not, however, until the University became one of the chief training stations for young men entering the aviation section of the United States Army that the crisis was finally reached and Mr. Ferguson actually vetoed the University appropriation. As more than 7,000 men have been trained as officers for special army service at the University of Texas, the veto, had it been allowed to stand and result in closing the University, would have been worth more than a German Army Corps to the Kaiser.

FERGUSON OPPOSED DRAFT

The Draft Law is America's instrument for creating a war-winning army. Attacks on it have resulted in Anna Goldman and Alexander Berkman being given prison sentences. Yet on April 9, 1917, the Austin American said Governor Ferguson wired every member of Congress from Texas urging the defeat of the draft law.

The Austin American of April 10 contained an interview from Ferguson opposing the draft law. That same evening he made an address in Dallas, at the Coliseum, opposing the draft act and praising the volunteer scheme. His speech was so out of harmony with the desires of the meeting that then and there a ringing resolution approving the draft law was overwhelmingly adopted despite the governor's speech.—(Dallas News, April 11, 1917).

Two days later Mr. Ferguson deposited \$25,000 in currency in the American National bank, at Austin. On April 13, he deposited another \$25,000 in currency to the credit of the Houston Exchange National Bank. (Pages 104-105, Impeachment record).

Concerning this money Mr. Ferguson said, ". . . if it means that the price of the governor's office is that I must unload (disclose) . . . the private accommodations extended to me; if that is the price . . . I must suffer and pay it." (Page 648 Impeachment Record).

At Mount Pleasant, referring to these loans he said he "wrote in blood that he wouldn't tell any one about it." (Dallas News, April 7, 1918).

There is a little reading going on between the members of the young people's Sunday school class that has become rather interesting. There are about 35 members, and two of them choose up; and the side that reads the most chapters of the Bible are entitled to an ice cream supper which is to be paid by the defeated side. The contest will close next Sunday and all are waiting anxiously for the outcome. There are several that have already read the Bible through and have started over again.

I thought I would give a little "write up" on Governor Hobby this week, but I do not see how any law abiding citizen could possibly afford to vote for that (delected) Ferguson.

Rain! Rain! Let it slosh! It looks like we might get a good one. It is cloudy all around and raining in the middle.

There was an ice cream supper at Mr. John Day's Friday night. There was certainly a large crowd and everyone seemed to have a fine time.

Mr. Rutledge of Gomez and Mr. Bean preached sermons Sunday afternoon.

Four tenths of an inch of rain fell here Monday, which will be beneficial to grass, and hold up the crops till more comes.

In addition to the other four men who left Tuesday morning for Camp Travis, Bryant W. Whitaker decided that he wanted to go too, and was permitted to do so by the local board.

gratifications. These docks and piers and wharves are strategic points of great importance and value, and it is intolerable that they should remain in enemy hands, or that they should ever revert to German ownership. German commerce has been shown to have so indissolubly bound up with, and so much a part of militarism, that it is just and right that it should suffer all the penalties of war.

"WILLIAMS AGAINST JIM"

Hobby Headquarters,
Austin, Texas.

Gentlemen:

In reply to your circular letter which I have just received and fully read, I want to say that I am most heartily in favor of the election of Mr. Hobby for more reasons than one.

If I knew nothing at all about Mr. Hobby, I would vote for him in preference to Jim Ferguson, because I know Ferguson so well. I was raised in Bell county and with the exception of a very few years I have lived in the County ever since that time. The records of Bell county will bear me out when I say that Jim Ferguson is anything but a friend to us old farmers. He made Loans to the farmers of Bell county and demanded such exorbitant sums of interest that he was for years known as "80 per cent Jim." When it came to a question of charging interest for money he loaned the farmers Jim Ferguson did not have any conscience, or either laid it aside during the transaction.

If the farming class of people knew Jim like I do he would not get enough votes among the farmers to fool time counting

them.

I live just a few miles from Marble Falls and know a lot more still, why we farmers cannot afford to support Jim Ferguson. If there is anything else that I can do to further the campaign of Mr. Hobby or any one else in preference to "80 per cent Jim," command me, for I am 100 per cent American and want to vote for some one who will be loyal to my country.

Yours very truly,
H. T. Williams.

THE GERMAN DOCKS

The taking over by the United States of the title and possession of the docks, piers, wharves, and other shipping property on the Hudson River, owned by the German steamship companies, the North German Lloyd and the Hamburg corporations, is greeted with universal approval by the America people. The property is to be retained by the Government and not turned back to its former owners at the close of the war.

FROM A TEXAS RANGER

Lufkin, Texas, July 19, 1918.
 Hon. W. J. Crawford,
 Austin, Texas.

My dear Sir:—

Several of us have just returned from capturing the deserters and slackers in San Augustine county.

I hope you will not be surprised when I state that all the deserters and their relatives and supporters are for Ferguson. This is one demonstration of the results of Ferguson's opposition to the draft, and his Pro-German ideas. It indicates that all people who are opposed to law and order and the war have come to believe that Ferguson is their friend in the matter, and they are following him unanimously.

There are some of Texas' best citizens supporting Ferguson, but I wish these good men who are blindly following him, could all realize that every Pro-German and law violator are for Ferguson. This certainly has a significant meaning. You may publish this letter if you so desire.

Your sincere friend,
 (Sgd) Chester B. Collins.

Changed His Mind.

Magistrate (severely)—Horse-whipping is the only suitable punishment for you and your kind. The idea of a man of your size beating a poor, weak woman like that.

Prisoner—But your worship, she was irritating me.

Magistrate—How does she irritate you?

Prisoner—Why, she keeps on saying, "Hit me, beat me, I dare you to hit me; just hit me once, and I'll have you hauled up before that bald-headed old reprobate beak and see what he'll do with you."

Magistrate—(chokingly) Discharged.—Pittsburg Chronicle-Telegraph.

Hon. F. W. Kelley, of Post City, addressed a good crowd of voters Saturday afternoon, in the interest of the candidacy of W. P. Hobby. His address was well received by the crowd and the Hobby forces were well pleased with his efforts.

AN OLD SETTLER GONE

A. V. Taylor was in town one day this week and informed us that he had just gotten a letter from G. H. Royster, of Brandenburg, Texas, to the effect that his Uncle G. W. Wilkins had passed away the 12th inst. Mr. Wilkins (Uncle Geo.) as he was called lived several years in Terry county; in fact he was one of the early settlers, and was highly respected by all who knew him. He was a man that strictly attended to his own business, and expected the other man to do the same. Uncle George made many trips over these plains during the early seventies, and not only chased buffalo but chased and was chased by the Comanche Indians, and many times we have enaged him in conversation to get his varied experiences. If he had been so mind, he could have written a real interesting bit of history about these plains in early days, and all the old timers of Terry will regret to learn that he has gone to a just reward and peace.

Loans To Our Allies

The United States has now loaned to our allies \$6,091,590,000. The advances average about \$100,000,000 a month.

These loans to our allies are analogous to lending weapons to friends who are aiding you in the defense of your own home. The money is being used to defeat our enemy, to maintain armies fighting side by side with our soldiers, and fleets patrolling the same oceans with our sailors.

Aliens

There are enemy aliens and there are native aliens. The American who does not do his part toward winning the war, who neither fights nor works nor lends for victory is as much an alien to America's purposes and America's cause as the rankest Prussian interned in this country.

This is a war of peoples as well as of nations, and each individual has a place and a duty.

MIDLAND & NORTHWESTERN NEARING SEMINOLE

Within a very few days Seminole will be connected with the outside world with a railroad as the Midland & Northwestern Railway Company now have their track layed to the draw 5 1-2 miles southeast of town.

They are putting in the necessary side tracks there to take care of material and have already moved the Mexican laborers to that point.

Steel continues to arrive and President O'Donnell states that they will push construction on to Seminole in a few days. He also states that there being no sand between the draw and town that for the convenience of all they would bring freight up to the draw where it can be handled on wagons and trucks until they reach town.

Civil engineer Ramsey expects to make his headquarters in Seminole until the line is completed.—Seminole Sentinel.

Was too Smart

A stranger in Cleveland was looking for a direction the other morning. He looked about him and then beconed an Italian who was working in a trench nearby.

"Hey tony!" he called, "how do I get to the city hall?"

The workman countered his question with another.

"How you know my name es Toney?" he grinned.

"Guessed it."

"I guess you pretta smart guesser, eh?"

"Oh! I'm there with the guessing stuff, Toney."

"Alla right, you guessa da way to da ceety hall."

And he went on swinging the pick.—Cleveland Plain Dealer.

Elder R. T. Harris, of Tahoka, Texas, will preach at the Church of Christ Sunday morning and night.
