DECIDE ON A DEERING NOW

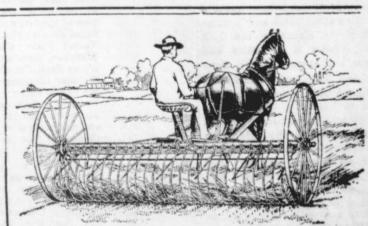

BUY A DEERING BINDER

The efficient "Deering" Reel alone is enough to decide many farmers to buy a Deering. It is controlled by one lever only, which is located most conveniently to the hand of the driver, who can easily and without leaving his seat instantly place the reel in every conceivable position necessary to harvest long, short, down or tangled grain. Deering Reels are strong, well built and cannot sage well built and cannot sag.

THE FOOT LIFT IN A DEERING MOWER

Is perfectly under the control of the operator at all times. It is easy to operate, quick to respond and never fails. A Deering Mover is sure to please you whether used on level ground, in groves, stumpy fields or on sloping banks. Let us talk it over with you.

MORE DEERING RAKES

Are being used in this vicinity every year, and the demand for them is constantly increasing. Rakes are furnished either for horse or hand dumping and every modern improve-ment is contained in their constructiod. A Deering Rake is so simple in construction that it simply can't get out of order, and is alwaysr eady for constant use.

There are few diseases that inflict ore torture than rheumatism and there is probably no disease for which such a varied and useless lot of rem edies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. People who have both chickens and neighbors must keep chickens in the back yard and not permit them to go on daily foraging expeditions to the neighborhood gardens. There has been some wheels ruined by

COLD TIRE SETTER

in this country out remember there has been hundreds of wheels ruined by the hot setter. It's the man and not the machine in either case. I set both ways and don't damage them. A man that can't thread a needle or drive a nail or do anything in fact, but mash his thumb and complains about that, can't do anything with such a machine as a cold tire setter. Don't have your wheels burned with a hot tire, then soaked with water and rained with a badly set tire when I do it right in a few minutes for less money and make good all damage to wheels. Come and see and let me show you. I guarantee perfect tire setting.
