Important to Ginners.

The state commissioner of agriculture has sent out a circular concerning the provisions of the new law governing ginners. The following requirements are made: "Before engaging in the business of public ginners, each ginner shall obtain from the county clerk of the county in which the gin is located a certificate (free of charge) showing that he has taken the oath prescribed by this law. The oath provides that the ginner shall make correct reports to the commissioners of agriculture. The county clerks are to send to the commissioner of agriculture the certificate number, name and postoffice address of each ginner that qualifies. The commissioner of agriculture shall send to each ginner blanks and envelopes for the official cotton report. The ginners shall make their reports between the 1st and 3rd of each month. On the 8th of each month the commissioner of agriculture shall open and compile these reports in the presence of three witnesses, appointed by the governor for this particular purpose. The result shall be published at eleven o'clock a. m. on the 9th of each month. The law places a severe penalty upon all ginners who fail to comply with its provisions.

W. M. Keith Dead.

For the second time within a few hours the people of the Star community were called upon to mourn the death of one of the county's best men and one of the leading men of that community. Mr. W. M. Keith died at his home at Star Thursday night, after a long illness. Mr. Keith was one of the county's best teachers a few years ago, but abandoned that profession on account of his health and engaged in farming. He had been in delicate health for a long time and the announcement of his death was not a surprise to those who knew of his condition. He was a good and true man and all who knew him were grieved when they learned that he was dead.

Editor Eagle:

The Baptist revival has just closed. It was the greatest revival Buffalo has ever known. Rev. H. P. Wilsford assisted the pastor, Rev. L. J. Vann. Brother Wilsford did most of the preaching and told so plainly of God's love and the awfulness of sin that sinners were made to cry for mercy. There were 23 conversions and 21 additions to the Baptist church. Sunday evening the largest crowd that has assembled for a long time went down to the river, where the pastor baptized 16 converts.

W. J. Philen and family of Brownwood came down and camped on the grounds to attend the meeting.

A number of people from Cold Springs and Elkins attended church Sunday.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above though simple gratitude and I shall always speak a good word for this remedy.—SAM H. GWIN, Concord, Ga. For sale by R. B. Clements Druggist Goldthwaite and Mullen Texas.

LIFE'S JOURNEY.

Is Burdensome to Many in Goldthwaite.

Life's journey is a heavy burden With a constantly aching back, With urinary disorders, diabetes, With any kidney ailment. Doan's Kidney Pills relieve and cure. Isom Evans, farmer, living nine miles west of Goldthwaite, Texas, at Pecan Bayou says: "Both myself and wife have used Doan's Kidney Pills with excellent results. I have suffered off and on for several years with a constant misery in my back, and at times it was so bad that I could scarcely get around. Seeing Doan's Kidney Pills advertised at R. E. Clements' drug store I procured a box. I had not used over half of it when the pain disappeared and the secretions, which had been too frequent, became regular. Feeling how they had benefited me my wife started using them. The bearing down pain across the small of the back from which she suffered soon disappeared. We cannot recommend Doan's Kidney Pills too highly." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Letter to C. G. Hallmark.

Goldthwaite, Texas. Dear Sir: We should like to set your boys and girls at work on this question in arithmetic and casuistry.

A farmer is fattening three hogs in three small pens; they have equal room and straw and care, and are fed in these three ways: First hog on a certain proportion of milk and cooked corn meal; second hog on the same, half water; third hog on the same, half water and sawdust. How long will it take, how much will they weigh, how much will they cost, and what'll the profit be on the three?

And a similar question in pigmentry. That same farmer is going to paint three barns same size; and he says to three painters: "What'll you take to paint that barn?"

First painter scratches his head a few minutes and says: "I'll do it for \$50."

Second painter: "\$75."

Third painter: "\$97.48."

Will they each get a barn to paint, or one get two, or one all three, or nobody any; and what'll they make on the job?

That's about how painting goes some times. But there is a way to reckon; \$5 a gallon. The difficulty is in knowing how many gallons to buy. There's a way out of that.

Buy the least-gallons paint, Devco. No matter how much one buys, he returns what's left; costs nothing. Yours truly, F. W. Devos & Co. P. B. J. D. Urquhart sells our paint

Colonel Hiram P. Bell, the last surviving member of the Confederate congress and noted throughout Georgia for his statesmanship and legal ability, died last Friday, aged 80 years. He was a grandson of Francis Bell, a commissioned officer of the continental army.

The Louisiana State Crop Pest Commission reports the finding of an ant in Rapides Parish that destroys the boll weevil and eats the larvae. This interesting discovery was made by C. R. Jones, an entomologist of the United States Government, who is in Central Louisiana making a study of boll weevil. "I find one condition of affairs existing here which I did not find in Texas, and for which I can not account," writes Expert Jones from Rapides Parish, which is on Red River, "and that is that I often find one side of a field badly infected with weevils, while the other half of the same field is not infected one particle. I have found this strange phenomenon in different portions of Rapides Parish."

Senator Dubois of Idaho in an address at Aurora, Ill., spoke of the probability of the spreading of Mormon political power to all parts of the United States. He urged his hearers to use their influence with congressmen to prevent a continuance of polygamous marriages, which, he said, were still made among Mormons. He declared Mormons absolutely control Utah now politically, and in Idaho or Wyoming a United States senator, governor or congressman can not be elected against the wishes of the Mormon church. He said they had the balance of power in Oregon, and were beginning to be very powerful in Nevada, and unless checked will become the balance power in the United States senate,

Chautauqua, N. Y.

Aug. 16, 1907.

Editor Eagle:

I'm leaving here tomorrow, so wish to write you a few words before taking my departure.

The Chautauqua assembly is the mother of all other institutions of its kind, and truly, maternity is becoming to it. There have been about 15,000 people here most of the time since I came and there is never any disorder; yet, in the language of one of the professors, "We all live in such dangerous proximity that our thoughts are in danger of being communicated from one skull to another without undergoing the process of being formed into phrases." The few policemen that are here seem to lead a very uneventful life, public opinion is the governing power,

This is a very safe and pleasant place for old people and children, so both take this advantage and come in large numbers. It is inspiring to me to see men and women past 80 years of age attending all the lectures and some graduating from the institution, having completed the four years reading course.

I want to suggest to my friends there, especially those in the country, who have a good deal of time for themselves, that they try this course. It seems to me a very happy way to guide ones reading and to force one to read more. It is planned by scholars, and is not only well selected but well proportioned on the various important lines. It costs five dollars for the four books and the magazine for one year. A whole family can use the books, but each one extra who wants credit for the work and the privilege of graduating at the end of four years will pay one dollar extra. The first \$5 giving the privilege of only one registration. When you've finished your work, if you can't come here, they'll send your diploma to you. Don't think this is a money making scheme, for it is not, they want only to pay expenses, the compensation comes from having opened wider the doors of learning; thus having served humanity. I intend to do this reading and to pass the "Golden Gate" of graduation four years from now. Any one wishing further particulars, address Sec. Chautauqua Assembly, Chautauqua, New York.

How I wish that you might have been here on "Old First Night" that was the memorial of the finding of the assembly, just thirty-four years ago. I think the part that would have pleased you most was the tribute to Dixie. Various speeches were made, finally a Southern man made a talk and referred to our union, also to the disappearance of Mason & Dixon's line. He was warmly applauded, then the band played Dixie, and everybody—ten thousand people or more—waved white handkerchiefs and clapped and yelled. You can't imagine how beautiful 10,000 white handkerchiefs waving in the air, can be; until you see them waved in salute to Dixie in the state of New York.

There is some educational entertainment every evening, such as a fine lecture, a musical, a cantata by the children, pictures, readings, etc. There is a fine band concert on the lake front often at 7 o'clock p. m. The plan is to close the day with something enjoyable to the majority.

The days are strenuous. Lectures all day from early morn. They get the best talent of

America, and all important questions of the day must meet these master minds broadside. There are no pet theories to be protected, questions are shot at from every view point. One week, since I came, the main theme was "Social Unrest." The lectures for the week listed: One bank president, one railroad secretary, several college men, several preachers of different denominations, one noted settlement worker, and two Socialist agitators. I mention this list to prove my last statement.

Beside the public lectures, one can get private lectures on most any school or college subject, also manual training, serving, cooking, music and fancy work. Then, too, there are various sports, as bathing, rowing, sailing, base ball, etc. So you see no one need go away without having found something to his taste; unless perchance it be the giddy girl. There are few men here save the workers, but oh, there's so much to enjoy and to gain.

Chautauqua is very well located on a beautiful navigable lake, fifteen hundred feet above the sea level. The assembly is set in a fine grove of trees, and all the improvement is toward the classic. The main auditorium is modeled after the Roman amphitheater, and one of the halls after the Parthenon. In fact, every thing invites culture.

The climate is fine; most of the days we need a coat, and often have a fire in the morning. This place furnishes a comfortable retreat for many Texas people from our summer heat. Dallas and Belton have the largest representation this year.

No part of my lovely summer has been more delightful to me than my stay at Chautauqua, and certainly no three weeks ever meant more toward my mental academy.

I'm sorry that I could not have more time to give to this article, thus giving you clearer information; but it seems impossible to do half that I want to do. Some time I'll try to write you of my visit to Ellis Island, New York City, the emigrant landing, when they come to this country. Very sincerely,
MYRA PRATER.

Notice.

We, the undersigned owners of wagon yards in Goldthwaite, give notice to our patrons and the public generally that on and after Sept. 1 we will not give free yard fees in day time. On and after the above date our schedule of prices will be as follows:

NIGHT FEES.

One wagon and team..... 25c
One buggy and horse..... 15c
One saddle horse..... 15c

DAY FEES.

One or two horse teams..... 05c
Three or four horse teams..... 10c
Tying or hitching room..... 05c

We are forced to revise our prices for several reasons. The fees we have been charging were made before we had gone to the expense of building sheds and fixing up generally for the comfort of our patrons, and all this costs a great deal of money. Labor is higher than it was then, and taxes have been raised in both city and state; feed is higher and our profits are too small to pay the expense of running the yards without more recompense.

Hoping our patrons and friends will appreciate our untiring efforts to accommodate them, and with fair and courteous treatment we extend to all a hearty welcome and invite your patronage. Very respectfully,
M. MCGIRK,
B. A. HARRIS,
W. H. LANE.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of that human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by R. E. Clements' Druglist. 50.

Goldthwaite Public School.

The public school is to open Oct. 1, and for the first month the two lower rooms will only hold a half day session each. The addition to the building is to be completed by Nov. 1, and as soon as this is done there will be room for all the grades in the building and the primary grades can then have full time.

The change can be made and the district enlarged if a majority of the voters in the territory to be taken in petition the board to make the change. The voters and tax payers in the district as it is now formed have no voice in the matter, but if those to be taken in wish the change to be made it can be done. Of course the tax payers in the present district will be glad to have all the additional territory that can be added and those not now in the district who patronize the school can not get advantage of the full term of the Goldthwaite school unless the change is made.

T. J. Hamilton Dead.

Mr. T. J. Hamilton died at his home in Star Thursday afternoon after a long illness. He was one of the leading men of the county and had large property interests in the Star neighborhood. For several years he was engaged in merchandising at that place, but a few months ago he disposed of his mercantile interests and devoted his attention to his gin and farming interests. He was a board-minded and liberal hearted man and had the esteem and confidence of all who knew him. The announcement of his death was received with sadness in Goldthwaite, where he was well known and highly esteemed.

Laying Corner Stone.

The laying of the corner stone of the Baptist church at Mullin will take place next Wednesday, the Masonic lodge having charge of the ceremonies. Rev. A. E. Baton is to deliver an address and District Deputy Smith of San Saba is to be present. A program for the entertainment of the public has been prepared and the Eagle editor hopes to be among those who attend the services.

"Regular as the Sun"

is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by R. E. Clements druggist. 25c

Commissioners Court.

Court adjourned last Saturday, after having been in session all of the week. Following proceedings were had after the Eagle was put to press last week:

The county treasurer was instructed to take up court house bond No. 14 of the denomination of \$1000.

The change asked for in the Goldthwaite and Hamilton road was refused.

The county judge was authorized to buy a car load of coal for fuel for the court house.

The tax rate fixed at the May term was changed, the general fund being reduced from 20 to 15 cents, while the levy for the court house fund was made 10 cents instead of 15 cents.

There was no change in the Goldthwaite and San Saba road.

A Second Bale.

The second bale of this season's cotton reached Goldthwaite Monday afternoon shortly after the first bale was received. This bale was brought in by J. D. Armstrong, of Antelope Gap, was ginned by Walter Fairman and sold to Geeslin Mercantile company for \$13.60 per 100. This bale weighed 512.

In this connection the Eagle suggest that hereafter there be some stipulations as to the size of the bale that secures the premium and to this point the attention of the commercial club is directed. Under the present conditions a bale weighing 30 pounds would be entitled to the premium, whereas, a farmer who waits until he gets enough cotton to make a full bale stands a mighty good chance to miss the premium. No less than 450 pounds should be accepted as a bale and the matter should be settled and well advertised.

Cake Sale.

The cake sale last Saturday afternoon and night by Mrs. Kennerly's Sunday school class was a very decided success in point of social enjoyment as well as in a financial way. There was a good attendance and the receipts were \$23, which was fully up to the expectations of Mrs. Kennerly and the young ladies who assisted in the sale. This gives the class about \$50 in the treasury, which will be used for the benefit of the Methodist church.

An associated Press dispatch says: The Germans are threaten with a revival of the insurrection in their South African territory.
