Joe Taff made a business visit to San Saba the first of the week.

I am still running my job wagon. Phone orders to W. E. Pardue's grain store.—Jim Hopson.

Elder J. S. Hall of Ratler was a pleasant caller at the Eagle office one day this week.

Mrs. W. C. Dew and Miss Nina Burks visited relatives in Brownwood the first of the week.

Cotton is brought to this market every day and the money put in circulation thereby helps wonderfully.

O. B. Caldwell was here from Lometa the first of the week visiting his sister, Mrs. Will H. Trent, and meeting with his friends.

Mrs. W. H. Thompson of Brenham was here the first of the week visiting relatives, while en route home for a visit to Brownwood.

Harvesting of crops appears to be the paramount idea among the farmers and business men of every section of Texas and, in fact, of the entire south, and there is sure to be beneficial results from it.

The Eagle always appreciates the acts of friends who report local items, either orally, by communication or by phone. It shows that such friends are interested in the paper and want to help us to make it interesting to all the people.

Prof. A. H. Daniel, superintendent of Mullin school, was a visitor to this city the first of the week. He reported the school improving so much that another teacher had to be added.

Miss Helen, daughter of Judge S. ... has been elected to a position in the Mullin school and entered upon her duties this week. She is a graduate of Goldthwaite school and was a student in Howard college since here graduation here. She is a young lady of splendid ability and qualifications and the school board of Mullin can feel sure of having made a wise selection and one that will be of much benefit to their school.

### SCHEDULES OF TRAINS

The Santa Fe through train from New Orleans to San Francisco is to be put into service Sunday and will pass through Goldthwaite Sunday evening. The inauguration of this service will slightly change the schedule of the other passenger trains on this route. While the through trains will only stop at the larger towns and will not be of benefit in short trips, they will be of advantage in relieving the traffic on the trains doing local service and will also expedite long journeys. The trains will stop at Goldthwaite, Temple, Lampasas, Brownwood and other large towns, and the trains coming from San Francisco will pass the one from New Orleans at Brownwood at 8 o'clock at night. These through trains will carry no mail, for the present, at least. Following is a schedule of all passenger trains on this road:

California Special going west, leaves Temple at 3:40 p. m., arriving at Goldthwaite at 6:46 p. m. Going east will arrive at Goldthwaite at 9:32 p. m.

Local trains, west bound, arrive at Goldthwaite, 8:12 a. m. and 7:51 p. m.

Local trains going east will arrive at Goldthwaite 8:58 a. m., and 8:47 p. m.

Capt. I. T. Moorland, W. H. Levrett, Geo. Simpson, R. W. Geeslin, Lige Roberts and J. S. Beck were among those who attended the state meeting of the Farmers Union at Fort Worth this week.

Dick Brinson and family have moved to the Milton Clipe residence, near the college.

A. C. Hewgley of Lampasas visited Dr. Lowrie's family in this city the first of the week.

Miss Isophine Toler of Lorraine has been in the city this week visiting her friend Mrs. S. A. Lowrie.

Miss Myrtle Lane returned to her home in Dallas Tuesday, after a visit to her cousin, J. S. Sealy, and family.

Miss Ethel Evans, who is a student in Howard Payne college in Brownwood, spent from Friday until Tuesday visiting her sister, Mrs. S. A. Lowrie, and family in this city.

Cecil Brown, son of Mr. Walter Brown, was awarded the fine gold watch given the corn club boys by L. E. Miller, the jeweler, for the best yield from corn. This is a prize that the young man may well be proud of and was won in a contest with a large number of intelligent and industrious young men. Mr. Miller's liberality in this matter is certainly to be commended.

Waste is one of the many causes of poverty. Self-indulgence is its parent. It is practically safe to say that every workingman and woman in the United States could save something every week if he or she wanted to do so earnestly enough. A dime a day, 70 cents per week, for thirty years with compound interest amounts to \$5,572. Not a large sum, but with a little farm paid for, this man is independent. The first step is the opening of a bank account. When \$50 or \$100 is accumulated it is said bonds can be bought by the banks for these small sums that will pay interest. For safety the bonds should be registered, and the interest coupon deposited in the bank to build up another hundred, turning interest and savings into bonds. Wasn't it Ben Franklin who said: "Money makes money; but the money that money makes (interest) makes more money?"—Brady Standard.

### CITY COUNCIL

#### An Important Meeting and City Improvement Proposed

The city council held its regular monthly meeting Monday night with all members present.

The mayor appointed Aldermen Rudd, Street and Hubbert to adjust taxes with Mrs. Graves, Miss Lara Yarborough, C. W. Lindsey and L. E. Patterson, it having been ascertained that property on which they have been paying taxes since the incorporation of the city is not in the city limits.

Aldermen Walters, Street and Hubbert were appointed to select and purchase a rock crusher, cement mixer, engine and other necessary machinery for street work.

The council appropriated \$5 per month for the pay of a night watchman for the city.

L. E. Miller & Son were granted permission to dig a cesspool in the alley at the rear of their drug store.

Accounts for current expenses were allowed.

#### CHRISTIAN ENDEAVOR SOCIETY ENTERTAINED

The Christian Endeavor Society of the Goldthwaite Presbyterian church was entertained by its president, Mr. M. N. Brinson, on Friday night, January 29th at the home of Mr. J. A. Hamilton.

Practically every member of the Endeavor was present, and most of them brought visitors and Mrs. Hamilton's hospitable home was soon well filled. Various games were played, among them being a guessing contest that was very interesting, "Going to Sea", and others. Most of the members of the Goldthwaite Band were present and greatly added to the enjoyment by furnishing music for the occasion. A plate course of chocolate with whipped cream and cake was served.

Miss Mable Townsend of Lampasas was an out of town visitor.

GUEST.

Miss Rita Kirkpatrick of Brownwood visited her aunt, Mrs. Godard Wagner, in this city the first of the week.

J. W. Hopson and family have moved from the Hines place to the Billie McLeod residence in the eastern part of the city.

J. F. Beck of Shelbyville came in Sunday for a visit to his brother, J. S. Beck, and family. He found his brother preparing to go to Fort Worth to attend the state meeting of the Farmers Union, so he accompanied him on the trip and they are expected to return today.

Rev. Clark, pastor of the Methodist church at Mullin, was here last Sunday night on his way home from the Workers Conference at Center City and filled the pulpit in the Methodist church at the evening service, preaching a strong and much appreciated sermon to a large congregation.

The annual meeting of the stockholders of the Brown Telegraph and Telephone Co. was held in this city last Saturday and a number of the shareholders were present. Officers of the company were re-elected with the exception of J. H. Wilson being made vice president in place of B. F. Geeslin, resigned.

W. W. Westerman was here from Ratler the first of the week. While en route to this city his mules became frightened and broke the wagon tongue and ran a short distance, but very little damage was done, while Mr. Westerman was in a very dangerous position and it was almost a miracle that he was not hurt.

W. H. Walton is suffering this week as a result of having chopped a considerable portion of his thumb on the left hand off while cutting kindling. Bill's friends regret the accident but sympathy will have no part in the proceedings when he is arraigned tomorrow before the time honored order of Son's of Rest of which organization he has always been a leading member.—Lometa Reporter.

E. J. Isehour left for his home in San Antonio last Saturday night, after a visit to relatives and friends in this county. He is well pleased with the Alamo city and he and his family have fine health there.

The statement has been made and frequently published in Brownwood that Mr. and Mrs. Will H. Trent contemplate moving to Brownwood and the Eagle is pleased to be able to announce that the report is erroneous and that they have no such intention. Mr. Trent has been connected with the business interests of the town so long that his removal would be a matter of serious consequence. He is mayor of the city and holds other positions of honor and trust and his place would be indeed hard to fill, while Mrs. Trent's connection with church work and social circles makes her absolutely essential to the city's well being. It is indeed a pleasure as well as a relief for their friends to know that they will not move from Goldthwaite.

## BAPTIST FIFTH SUNDAY MEETING

The Fifth Sunday Meeting of Mills County Baptist Association was held with the Big Valley church, beginning Thursday night of last week. Owing to the cold and threatening rain only a few were present Friday but those who came were greatly helped by the spiritual messages of the day. It soon became manifest that the ones present were determined to bring about a better condition of affairs in Mills county.

On Saturday and Sunday congregations were good and the spirit fine.

Rev. L. L. Hays was elected missionary and an advisory committee consisting of G. W. Jackson, C. H. Miles and the writer was appointed to help in planning the work.

Since the meeting Bro. Hays has notified the committee of his acceptance and he will begin work about the 15th of the present month. Brother Hays is well known throughout the county and that he will have the co-operation of all the churches is not questioned. The future has bright prospects for the work and it is desired that this year shall be one of great evangelistic efforts throughout the Association.

Quite a good number of churches were represented and the Big Valley people as usual did the entertaining part after a fashion creditable to themselves.

We were glad to see the faces of two new pastors among us, Rev. King of Big Valley and Rev. White of Rock Springs. Both of these brethren brought helpful and inspiring messages to us, which added much to the success of the meeting.

The next Fifth Sunday meeting will be held in May with the church at Star.

We return to our fields of labor, grateful for the blessings of the past and inspired to put forth greater efforts for the glory of Christ in the future. J. C. NEWMAN.

He and the other members of the bereaved family have the sincere sympathy of all who know of the death of the most estimable lady.

The Workers Conference was held with the Methodist church at Center City last Friday, Saturday and Sunday. There was a big crowd and a very pleasant and profitable meeting. Those from a distance were hospitably entertained by the Center City people, regardless of denominations, and there was dinner on the grounds Saturday and Sunday. The Eagle hoped some who were in attendance would write an account of the meeting for publication, but in this we were disappointed. The next meeting will be held with the Goldthwaite Methodist church the fifth Sunday in May.

The city officials are entitled to the commendation of all the people for their progressive and careful management of the city's affairs and the means they are using to advance the city's every interest. Goldthwaite is one of the cleanest towns to be found and the improvements contemplated on the streets and walks will add greatly to its appearance, while the tax rate is perhaps as low as any town in Texas.

The interior of D. H. Trent & Son's building on the north side of the square is being painted and otherwise improved and they expect to move their office there as soon as the workmen have it prepared. They will install new furniture and a large safe for their books and papers and will have a comfortable and well located place of business.

## LODGE RESOLUTIONS

Hugh Carrol was born Jan. 5th, 1841, in Clay county, Indiana, moved with his parents to Iowa when a small boy and served throughout the Civil War in a regiment from that state. After the war he settled in Arkansas, but soon came to Texas and made his home in Mills county in 1876 and opened a farm near Goldthwaite.

He was made a Mason in Mullin's Creek Lodge No. 476, and was a charter member of Center City Lodge No. 558.

In 1889 he became a charter member of Goldthwaite Lodge and remained a faithful brother till the time of his death, which occurred Jan. 1st, 1915.

Whereas, it has pleased Almighty God to remove from among us our beloved brother, Hugh Carrol.

Be it resolved, that in the death of Brother Carrol the Fraternity has lost one of the truest and best members, and the city a law abiding and useful citizen.

Resolved, that a page in our minutes be devoted to his memory and that a copy of this be presented his family.

Meals are now being served in some of the Paris restaurants at 2 cents.

A tornado swept over a part of Harrison county Sunday, doing great damage to property, but no lives were lost.

A number of towns in north and east Texas report damage from a storm last Saturday night. No lives were lost according to the reports.

It is feared by many that the European war will reach much greater proportions within the year and some of the reports from nations not now engaged in war appear to bear out the belief. Every day there are claims that various European nations are preparing for action and some of them seem to be "rearing" to go to war.

More factions have arisen in Mexico and the fight among the people there has many angles. In that blood drenched country of semi-civilized people every man is a law unto himself and there is no pretense at government. Indeed, Mexico will never have an established government until some outside power takes charge of the affairs of that country.

Another murder has been recorded in Dallas. That city was falling behind in its average with Fort Worth and Houston in the matter of homicides and a waiter in a restaurant was the party in this case who helped to keep his town's average up. The waiter shot and killed a man who was "joshing" him, according to the testimony of one of the witnesses.

Representative Heflin in a speech on the floor of congress the other day made prediction that cotton would sell at 20c a pound next fall, but failed to give the basis of his prediction. It is to be hoped that such utterances will have no halting influence upon the wise movement toward diversification, which seems to be rather general throughout the south. There are many and good reasons upon which may be based belief that next year's cotton crop will bring an equitable return for the energy and money invested in its production, the chief reason being the tendency toward an increased acreage in food crops. Prophets of the Heflin type should not turn the campaigners from the large educational and organizational work which they are furthering. Upon the success of their efforts may depend fulfillment of the Heflin prediction.—Dallas Journal.

A resolution has already been offered in the Texas legislature to submit to the voters of Texas a constitutional amendment enfranchising women. The Signal favors the adoption of this resolution. Let Texas voters say whether the ballot shall be given the women. Furthermore while not at this time an advocate of woman suffrage, we have never opposed enfranchising women and never will. We are more than willing to grant suffrage to the women if they want it, but a little slow to require suffrage of them if they shrink from the responsibility. Of course we see some troubles ahead under equal suffrage, but these will be mastered in time. The average family will have double the number of poll taxes to pay, but there is a clause in our election law which says no person must pay the poll tax of another. The law also provides that no person can loan another person money to pay polltax. This ought to shield the men even against the rifling of their pockets by their wives for poll tax money. Of course the ever-troublesome question of "nothing to wear" will keep many women from the polls, but, as stated above, in the fullness of time all these knotty problems will be solved. If necessary to get out a full female vote a law can be passed requiring all women to wear kimonos and last-years hats to the polling places.—Honey Grove Signal.

## THE DEAR OLD SMILING BILLIE

Editor Eagle:

Though slumbering, yet not dead, and what would be more calculated to arouse the slumberer than to be called dear, as was Smiling Billie by Mamma's Dish Washer in last week's Eagle? Why the sun came out, the clouds dispersed, all nature seemed like one grand strain of music as the words in the Eagle from the pen of Dish Washer fell on the ears of Smiling Billie, aroused him from his conscious state and he began to pull himself together to inquire where am I? And what has happened? The names of Joan of Arc, Jaunita, Blue Eyes, Billy's Cousin, and Dear Old Smiling Billie all brought to mind that somewhere back in ages past I was one of the Eagle's correspondents and by being called Old Smiling Billie, possibly the years have come and gone much faster than my sleeping days keep number of. I am not objecting to being remembered, if it is as I go down the decrepit declivity of time, for its better to be remembered than not at all, and then with the word, Old, preceded by that soul thrilling, heart bursting, "dear" is enough to make poor Billie open his eyes and wonder at the happenings in creation. It carries me back on billows of waves in thoughtful meditation to younger days when the ready pen of Joan of Arc, Uncle John and others filled the old Eagle brimful of happenings the thoughts of which so entangle my feet in the webbs of the past that I can but confess that I am getting old and sometimes real clumsy. Dear Old Uncle John and Dear Old Aunt Joan of Arc, what have you to say through the Eagle by way of encouragement to those, who like yourselves have so long trodden the slippery paths of life?

I am sure the editor will not object to his octogenarian correspondents holding a little talking meetings through the columns of his paper. It seems there are others whose names I fail to grasp who have been very remiss in their duties as correspondents, whom Smiling Billie would love to awaken from their slumbers and touch a live coal to their lips, thinkability to their thoughts and glib to their fingers that they may no longer pursue the even tenor of their way, but turn while it is called today and tell us how goes it with them and their once happy thriving communities.

Now, Mr. editor, I suppose, presume, guess or hope I have said enough on this line, so I will turn your thoughts to a trip I took through, or over the country in an airship. Being a wanderer and unknown I was taken up at a point somewhere on the mountain and didn't recognize any place until I came over Lee Chancellor near Democrat and I do not know but what I would have passed it without noticing it had I not recognized Lee, who had heard the noise of the machine and looked up and decided at once it was a messenger from the skies and that he had better beat a hasty retreat toward home to get his house in order. The next man that tells you that Lee is too fat to run just ask Luther McCormick, who was going lickity brindle in an opposite direction looking back only when Lee hit a barbed wire fence and yelled for help. We would have gone back and tried to quell the fears of these good men, but the machine became unmanageable and the first I knew I was passing over Uncle Joe Fletcher's, who heard the racket up in the air above him, started for home but was determined he would not be deprived of all his earthly possessions, grabbed a hive of bees under each arm, made for the house crying to his wife to ring up George and tell him something awful was happening. Before he could hardly realize something wonderful was in the air we were out of hearing and chasing Ed Jenkins across the fields, making the run of his life to get home and tell his folks that he saw the D-1, the prince of the power of the air coming toward him making over a mile a minute and if he hadn't outrun him he believed he would have caught him out there in the field. If there is any one man in Texas who can out run Lee Chancellor, fence or no fence, it is that running Ed Jenkins.

We didn't have to run much out of our way to run by and see if we could catch a glimpse of Jno. Driskill and Henry Montgomery, and it was a sure enough glimpse unless some new words of late years have struck the dictionary that more fully

describes flight, fleeciness, downright getting there Eli. We will still say it was only a glimpse for rheumatic rings nor anything else stayed in their place unless it was after these gentlemen, torn and bleeding seemed to be taking shelter in what appeared to having once been a rock quarry. If they have not gotten home their friends had better look out for them, as some of these snake dynamiters might blow up that cliff.

The disregard of a Cold has often brought many a regret. The fact of Sneezing, Coughing, or a Fever should be warning enough that your system needs immediate attention. It contains no opium or other narcotic, and may be given to a child as confidently as to an adult. For sale by all Dealers. (adv.)

## FARM DEMONSTRATION WORK

Rules Governing and Information Pertaining to the Boys' Club Work of Texas

This work in Texas is conducted by the U. S. department of agriculture, bureau of plant industry, farmers' co-operative demonstration work, co-operatively with the A. & M. college of Texas. College Station, Texas, is the state headquarters of the farmers' co-operative demonstration work. The Boys' Club work of Texas consists of two main divisions: (a) Agricultural Club division, consisting of corn, cotton, milo, kafir, feterita, and peanut clubs; (b) Animal Husbandry Club division, consisting of baby beef and hog clubs.

In counties where demonstration work is conducted, the county demonstration agent has direct supervision of all club work. County school superintendents, school teachers, and public spirited citizens desiring to organize or assist in the organization of any of the above mentioned clubs, or desiring more information concerning same, should direct their requests to the county demonstration agent of their county.

This department does not offer prizes to club members. The only prize that is insured to club members is the products they produce and the increased knowledge of practical farming gotten by practical experience and reading agricultural literature. Practically all county, district, and state fair associations offer prizes as encouragement to the club members in their work. Club members are advised to compete in all contests in which they are eligible.

Though not a requirement, yet it is suggested and advised that in communities where there are at least ten club members, they should organize themselves into a local club, adopt constitution and by-laws, elect officers, and meet at intervals for the purpose of discussing special subjects pertaining to their work. Each community organization should have an advisory board consisting of their teacher and two public spirited citizens who are community leaders. The duties of the advisory board should be to meet with the club, render assistance, and give advice when necessary. In case there were two or more clubs in a county it is advisable for all members to have an annual or semi-annual county meeting. The county organization should have officers and a county advisory board of three similar to the community organization. The county advisory board should consist of the county demonstration agent, county school superintendent, and one active leading citizen. Suggestive constitution and by-laws will be furnished upon request.

### Agricultural Clubs

1. All boys and girls between the ages of ten and eighteen on Jan. 1, 1915, are eligible for membership. (Girls may enter any of these contests.)

2. In order to become a member it is necessary to make application on a regular prepared form which will be furnished by the demonstration agent upon request.

3. Members must agree to grow an acre of one or more of the following crops: Corn, cotton, milo, alfalfa, feterita and peanuts.

4. Each member must plant and cultivate his own crop. A small boy or girl may hire help to break land.

5. All must submit samples of their products to be exhibited at county or state fairs upon request of the agent.

6. All members must keep an accurate daily record of their work and make a report at the close of the season on a regular form furnished by the department through the county agent.

Rules 7, 8, 9, relate to quality and character of exhibits which will be published later.

10. In the estimation of the cost of production, uniform charges must be used as follows:

- (a) rent of land per acre \$5.00.
- (b) per hour of work for each member 10c.
- (c) per hour of work for each horse used 5c.
- (d) per two-horse load of stable manure \$2.00
- (e) Commercial fertilizer actual cost.

Rules 11, 12, 13, and 14 will appear later.

## CITATION

THE STATE OF TEXAS  
To the Sheriff or any Constable of Mills County—Greeting:

You are hereby commanded to summon the unknown heirs of Nancy Howard, by making publication of this Citation once in each week for eight successive weeks, previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 27th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 27th Judicial District, to appear at the next regular term of the District Court of Mills county, to be holden at the Court House thereof, in Goldthwaite, Texas, on the first Monday in May, A. D. 1915, the same being the third day of May, A. D. 1915, then and there to answer a petition filed in said Court on the 11th day of December, A. D. 1914, in a suit, numbered on the docket of said Court No. 1411, wherein R. J. Edmondson is the Plaintiff, and the unknown heirs of Nancy Howard are the defendants and the said petition alleging that Plaintiff, R. J. Edmondson, resides in Mills County, Texas, and that defendants, the unknown heirs of Nancy Howard, are each and all persons whose names and places of residence are unknown and for cause of action said petition alleges:

That Plaintiff is the owner in fee simple of the following described land lying and being situated in Mills County, Texas, being the Nancy Howard Survey No. 5, certificate No. 486, designated by abstract No. 329, containing 160 acres, a brief abstract of which is shown in Volume 9 at page No. 315 of the assessor's abstract books of and for Mills County, Texas, and said land is described by metes and bounds as follows, to-wit: Beginning at the North east corner of the Willaba Boatright Survey;

Thence North 950 varas to a stone mound;

Thence West 950 varas to a stone mound;

Thence South 950 varas to a stone mound in Willaba Boatright's North line;

Thence East 950 varas to the place of beginning.

Plaintiff alleges that for more than ten years next preceding the filing of this suit he has been the owner and rightful possessor of said entire tract of land; that during said entire time, claiming to have a good and perfect right and title thereto, he has had and held and at all times claimed peaceable and adverse possession to said entire survey of land, and still has and holds such peaceable and adverse possession of said survey of land, and for more than ten years next preceding the filing to this suit has had peaceable and adverse possession by an actual enclosure of said entire survey of land, using, occupying and enjoying same for the period of more than ten years and still has and holds said land under said enclosure, and still is claiming and does claim title and right of possession in and to said land and has so held and claimed during said entire time.

Wherefore plaintiff prays that defendants be cited to answer herein and show, if any, their interest or interests in the subject matter of this suit; that plaintiff have judgment for title and possession of said land; that defendants be divested of all title in or to said land; and that such title be fully vested in plaintiff, and that all cloud be removed from plaintiff's title, thereto, and for general and special relief, in law and in equity.

And said petition is endorsed as follows, to-wit: "This suit is to try title as well as for trespass and damages."

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Goldthwaite, this, the 18th day of December, A. D. 1914. C. D. LANE, Clerk District Court, Mills County. By J. B. Brinson, Deputy.

—If you intend to buy land be sure and demand an abstract of the title, so you may know its condition, as otherwise you may get a bad title.—E. B. ANDERSON, Abstractor.

Dr. Rankin was one of the leading men of the state and as a writer, thinker and speaker he had few equals. ## YOUNG MAN SHOT

### A Misunderstanding Comes Near Resulting Seriously.

A young man giving his name as Volney Brantley was shot in the hand by a member of a sheriff's posse at Warren crossing on the river Wednesday morning at an early hour. The young man and his cousin, Will Boon, came here from West McLennan county, last week and were camping near Warren crossing and picking cotton in that neighborhood.

A horse was stolen from Steve Jones at Lometa Sunday night and a sheriff's posse was in pursuit of the thief who they trailed to a point near San Saba, where he inquired about two young men traveling in a wagon. The officers located Brantley and Boon's camp and suspecting they might be the young men sought by the horse thief the camp was surrounded Tuesday night and a watch kept, but the man did not appear. Wednesday morning the officers approached the camp before it was good light and made inquiry of the boys as to the number in the camp and what they were doing at that place. Brantley was in the wagon and believing he and his companion were in danger from outlaws grabbed his gun and attempted to inject a cartridge in it when a member of the posse shot him through the left hand to prevent him making fight on the posse. The wounded man was placed in an automobile and brought to Goldthwaite, where his injury was given attention by a physician and a charge of assault with intent to murder was preferred against him. He was given an examining trial before Judge Dalton Thursday afternoon and was discharged from custody, it being shown by the evidence that he had no intention other than to protect himself and his companion from an attack by what he believed to be outlaws.

The boys knew nothing of the horse thief and had no connection with him in any way. The thief was trailed as far as Rochelle, McCullough county, where he traded the stolen animal for another horse and continued on his westward journey. Sheriff Mace of Lampasas was hot on the trail yesterday and confidently expected to overtake him in a few hours.

Want to buy a car load of second hand furniture.—J. T. Weems.

## FORMER CITIZEN DEAD

James L. Power, age 67, died at Post, Texas, Jan. 26. He had been merchandising there since the founding of the town. Mr. Power and his brother Jake came over from Lavaca county to Williams Ranch in 1875, and there opened a general merchandise store. As most merchants in that day, they handled cattle, and their business operations extended over adjoining counties. Like the average pioneers they did not make a success of their calling; but they greatly assisted the early settlers who were at that time trying to establish homes here.

Jim Power, after leaving Mills county, lived at Gatesville and Wynnewood, Okla., before moving to Post. He married Miss Mattie Squires, daughter of D. W. Squires of Coryell county, who, with two sons survives him. He was a striking figure, standing over six feet four, big of frame, and with a beaming countenance that made a friend of every one he met.

He was laid to rest with Masonic honors, having been a member of that order for forty years.

## SAFE BLOWERS AT BROWNWOOD

An unsuccessful attempt was made Wednesday night to blow open the safe of the Frisco passenger station, containing about \$260. The burglar's work was very thoroughly done, but failed to open the safe, and he fled, leaving behind a stick of dynamite and a hammer and chisel. Entrance to the ticket office was effected through a window on the northwest side, from which a small piece was cut, enabling the burglar to unfasten the window and raise it easily. Entrance was first effected into the waiting room in a similar manner, but the burglar found the ticket office locked and had to abandon that route.

Unlike the recent diamond robbery the burglar of last night left a clue which may become valuable. Lying on the floor near the safe was a stick of dynamite, wrapped in the paper of a Santa Anna firm. Inquiry has been made as to the identity of the purchaser of the goods, and unless this piece of paper was used as a blind the officers may obtain a valuable clue. Another clue that would be valuable if local officers could use it is a set of finger prints on each of the windows on which the burglar worked.—Brownwood Bulletin

It is understood that the remainder of the stock, after a big sale here, will be removed to Goldthwaite.—Brownwood Bulletin.

If you are buying land require the seller to furnish you an abstract of his title, so you may know you are getting a good title. If you contemplate selling your land, have an abstract thereto prepared first, so you will know what kind of title you can make to it, as the purchaser is almost sure to want to know. I have the only complete set of abstracts of the land titles of Mills county and will make your abstracts for a reasonable charge and will help you cure your titles if defective.—E. B. Anderson.

John Rockefeller, a "typographical tourist" and distant relative of the oil magnate by the same name, was here this week and worked one day in the Eagle office. "Rockey" is one of the few old time traveling printers still engaged in the business. He has been known to the editor of this paper for more than a quarter of a century, but has been engaged in the printing business many years longer, during which time he has crossed the continent twenty-seven times and has worked in every state and territory in the Union, including Alaska. When he was here this week he was on a return trip from San Francisco and other points on the Pacific slope.

### CITATION

The State of Texas.

To the Sheriff or any Constable of Mills County—Greeting:

Oath having been made as required by law, you are hereby commanded to summon Ritson Morris, Francis B. Foster, Henry Mundel and C. C. Hudson, and the unknown heirs, legal representatives, legatees and devisees of Ritson Morris, Francis B. Foster, Henry Mundel and C. C. Hudson, all deceased, and each of them, by making publication of this citation once in each week for eight successive weeks previous to the return day hereof in some newspaper published in Mills County, to appear at the next regular term of the District Court of Mills County, to be holden at the Court House thereof on the 3rd day of May, A. D. 1915, the same being the first Monday in May, 1915, then and there to answer a petition filed in said Court on the 7th day of January, A. D. 1915, in a suit numbered on the docket of said Court No. 1414, wherein J. E. Boyd is plaintiff and the above named parties are defendants, said petition alleging that heretofore, to wit: on or about the 1st day of January, 1915, the plaintiff was, and now is lawfully seized and possessed of the tracts of land hereinafter described, lying and being situated in Mills County, Texas, and known and described as follows, to wit:

First: The Ritson Morris 630.432 square vara survey in Mills County, Texas, formerly Brown County, Texas known as survey No. 19, located by virtue of Certificate No. 35-125, and patented to him by Patent No. 135, Vol. 23, dated October 8, 1879.

Second: The Canutillo Colony Ditch Company 140 1.10 acre, survey in Mills County, Texas, formerly in Brown County, Texas, known as survey No. 18, located by Scrip No. 22,208, and patented to Francis B. Foster, assignee, by Patent No. 25, Vol. 22, dated Nov. 24, 1879.

Third: The Henry Mundel 208 acre survey in Mills County, Texas, located by virtue of Headright Certificate No. 235, and patented to him by Patent No. 481, Vol. 46, dated December 10, 1894, and said three tracts of land more fully described in plaintiff's petition filed in said suit by metes and bounds; that on the day and year last aforesaid, the defendants unlawfully entered upon the said premises, and ejected the plaintiff therefrom, and unlawfully withhold from the plaintiff the possession thereof to his damage in the sum of \$1,000.00, and for further cause of action herein the plaintiff alleges that he and those whose estate he has, claiming to have good and perfect title to the above described tracts of land, now have, and have had peaceably the land claimed, and open, notorious and adverse possession of the same, cultivating, using and enjoying the same, and by actual enclosure for a period of more than ten years after the defendants' cause of action accrued, and next before the commencement of this suit.

Plaintiff further says that the exact nature, extent and character of defendants claim to the above described lands is unknown to him, except that the said surveys were patented to the defendants, Ritson Morris, Francis B. Foster and Henry Mundel respectively.

Plaintiff prays for judgment for title and possession of the above described lands, and that his title there to be established and quieted as to the claim of the defendants, etc.

Herein fail not, but have before the said Court on the first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Witness, C. D. Lane, clerk of the District Court in and for Mills County, Texas.

Take stock in the business where you are employed, you won't have to buy in to do this, but take stock in interest, loyalty and energy. ### ENTRE NOUS CLUB

Thursday, Jan. 21, the Entre Nous club spent a delightful evening with Miss Edna Lowrie.

As the first contest, the baby pictures of the guests were numbered and placed on the walls. A breakfast cap was given Mrs. Carroll Lowrie for guessing all of them. In the flower contest following, Mrs. John C. Hicks received some pretty crocheted work as prize.

A dainty desert and cake were served as refreshments.

The club is very glad to receive Mrs. Frank Rahl again as a member, after her long absence out of town.

Those present were Misses Florence Stringer, Lillie Martin, Ruth Forester, Eva Smith and Mesdames John C. Hicks, Claude Saylor, C. M. Burch, Carroll Lowrie and John S. Sealy.

Mrs. John C. Hicks and Miss Lillie Martin will entertain both the members of the club and their husbands or escorts during February at Miss Martin's home. REPORTER.

### A GREAT DAY AHEAD

Rev. and Mrs. D. I. Haralson are arranging to entertain the members of Jeff Davis camp and a few of their other friends with a dinner at their home in Nabors Creek community next Thursday, Feb. 11, celebrating Brother Haralson's seventy-sixth birthday. All of the old soldiers and their wives are invited and those who have not received a personal invitation can take this announcement as a personal and pressing invitation for the Eagle is authorized by Brother Haralson to extend it. Those who attended this celebration last year will not need to be urged to attend this time and those who do not accept the invitation will have good cause to regret it.

While the editor of this paper is not an old soldier and has not the honor to be a member of Jeff Davis camp, he does have the honor of the friendship of Rev. and Mrs. Haralson and is proud to be among those bidden to be in their home next Thursday.

#### DEATH'S WORK

Carl S. Wilson, subject of this sketch, son of J. H. and Margaret Wilson, was born in Mills county on a farm between Mullin and Zephyr, Feb. 8, 1889, and died at the home of his parents Jan. 12, 1915, aged 25 years, 11 months and 4 days. Carl's friends were his acquaintances, as his peaceable, quiet life endeared him to all he met. About five years ago he made a profession of religion and joined the M. E. church, South, at Mullin. The church vows taken by him at the altar of the church were sacred to him and he tried by precept and example to prove to the world that he knew his Lord. Though young in the cause, when asked if he would accept the superintendency of the Sunday school at Mullin, said, "he would do the best he could" and when elected filled the place faithfully and creditably until he resigned to accept the position as cashier of the new bank at Swinson, Texas.

He was true to every trust committed to him, both in church and business, and his clean life was above reproach, so we can say that a truly great young man has fallen. What greater heritage could he have left to his family, the church and his friends. His family being convinced his disease was an incurable one, wisely had him told of same. He said he was surprised it was that bad, but he had no fears as to the future. In just a few days the end came, which brought sorrow to all. Why such a promising young life so much needed here should be taken we can't understand but we will know some where, sometime, hence we bow in humble submission to our Father's will. The funeral services were conducted in the church by his pastor, Rev. Lee Clark, Rev. G. W. Templin and Rev. Van. The very large attentive audience was evidence of the esteem in which he was held by those among whom he had lived.

The W. O. W. order took charge of the remains and with their impressive ceremonies consigned them to the grave to await the coming of the King.

Weep not, dear ones. Such a life here means eternal happiness hereafter. We think we are safe in saying, live as he lived and you will meet where parting will be no more.

May God's richest blessings be with the bereaved and may some one of the boys take up the work Carl has laid down, that when they are called hence as much may be said of them as has been truthfully said of him.

#### A WORD OF APPRECIATION

The article by Mr. Wood in a recent issue of the Eagle on "Diversified Farming" and the reported work and plans of the Commercial Club makes more than one forlorn cotton farmer look up with new hope. It is like a drowning man clutching at a straw, but we hope the Commercial club will develop that straw into a barque of safety; hope their plans will be perfected in time for the farmers to adopt them with this year's work. It certainly is the best thing that has been offered to Mills county farmers, and will be the saving of the people if they will co-operate with the Commercial Club in its efforts to reduce the high cost of living and the cotton acreage. It is earnestly hoped that every Mills county landlord will take a hand with the Club, and thus help the unfortunate renter who has to plant what the landlord says plant. There are some, however, who will cling to the old idea that Mills county land will grow nothing but cotton, but a year or two of diversified farming and marketing through the Commercial club will forever put that fallacy to flight.

There is a problem in these plans which every community will have to solve for itself more or less. When the county goes in for diversification it will take something more than "pick sacks" and cotton frames to market the crop. Every community will raise foodstuffs that cannot be hauled even so far as Goldthwaite without more or less deterioration. Besides Goldthwaite hasn't a canning plant. Then it's up to the communities to do something for themselves. We've got to learn to make a profit on what we raise as well as finding a market.

Every farmer and every farmer's wife and daughter should plan for something to exhibit and market. I believe, Mr. Editor, that I haven't mentioned before that the farm women and girls are watching with keen interest the work of the Commercial club. It's a fact. That's why I said something about the women. This co-operative plan of marketing will be a boon to the women as well as the men if the farmers of each community will co-operate with each other to make a perfect marketing system. This plan of diversifying and marketing should make of every man a thinking man as well as a working man. It isn't necessary for the women to depend on the men altogether to do things. The men have plenty of big things to attend to in the raising of cattle, mules, hogs, and general crop work.

From observation I find that most women like most men like to make some money of their own. That is the spirit of independence inherent in the human race. And now, since big and diversified things are being planned for Mills county people, and as a good number of the people are women, they naturally feel that there is something in the Commercial club plans for them, too. And since the men are going to have so much to do, and will likely overlook the minor profits of the farm and garden, it might be well for the women of each community to club together to form plans for the saving of these minor profits, which are not such minor profits after all.

And when the club is organized, why not go in for a canning outfit to be established somewhere in the central portion of the neighborhood? And who will run it? Why, what's the matter with the girls? It would only be fun for four or five of them to band together and run a plant for the neighborhood. Not for an accommodation of course. Some plan of payment could be decided on. Probably they would take a certain percentage of the canned goods to be sold through the Commercial Club later on. This plan would make it easy for every woman, girl and boy to save what they raised on the farm and garden. They wouldn't be ashamed to drive the old stogy mare to the canning plant; they could deliver their vegetables and get back in time to get dinner for the men; they could make the round trip before a suspected rain caught them; and they wouldn't have to "dike up." Every community of women in Mills county should establish a canning club of its own, to be operated by the community girls, thereby profiting and showing our appreciation for the efforts of the Mills County Commercial Club. And I will just add that if the boys of each neighborhood will establish a syrup making factory, everybody will be sweeter minded. I am sure that everyone who

read Mr. Wood's article wanted a sop of his good molasses.

And that's just what the Commercial Club is trying to do. Trying to encourage the production and marketing of good home raised and home made eatables. Doubtless they are going to persuade all the merchants of Mills county to handle our canned goods. It certainly is a great thing and quite a consolation to be self supporting, and is a recommendation to any man, county, state or nation. And Mills county will never be that as long as she raises a straight crop of cotton, diversifying with an occasional crop of oats; she will never be that so long as each individual plans for himself, so to speak.

There must be co-operation, order and method to accomplish anything. But let the individuals of a community plan together; let the several communities of a county plan together; let the communities and the Commercial clubs co-operate and see what happens. When one county, state or nation acts as a unit something is brought to pass.

Then let the people of Mills county band together. Diversify by raising plenty of hogs, field products and all kinds of eatables; let the women install their canneries and restock their poultry yards. Then when the harvest days roll round we'll have something to eat whether we sell our cotton or not. And that's what we haven't got now, that is a great many of us. About all we have is a strap of our "pack sack" frizzled knee pads and a "black listed" name. Certainly not very lovely things to possess. Surely it is time to turn a new leaf and "pepper" ourselves instead of the Yankees for not raising enough to eat at home. Then doubly "pepper and salt" ourselves for not following the example of the Yankees in the sav-

ing of what we do raise. There's where they put one over us. They build their barns and sheds for their stock, feedstuffs and machinery. A pound of flesh saved on the stock by protection from cold rains, winds and sleets is feedstuff saved in the barn and hay mow. Feedstuff well housed is money saved because feedstuff left exposed to the weather loses in quantity and quality. Rotten, musty and soured food has been the death of many valuable animals. Farm machinery well housed and cared for will last ten and twelve years, where that left in the fence corner or leaning against a tree will probably last five. Talk about thrift! What good will it do to diversify if our people don't learn to take care as well? More is in the saving than the making anyway. Then let the people of Mills county diversify and house carefully what they raise and have in all manner of possessions and Hard Times will stalk no more over our thresholds.

## COMMERCIAL CLUB

Matters of Interest Were Discussed and Some Important Business Transacted

The Goldthwaite Commercial club held its regular meeting in the court house Tuesday night, with a fairly good attendance and considerable interest in the club's work was manifested.

The committee to confer with the city council relative to assistance in paying the salary of the night watchman reported that the council agreed to pay the watchman \$5 per month.

A report was made that the city council had decided to purchase improved road machinery and prepare for much street and side-walk improvement and the club adopted a resolution heartily endorsing the action of the council.

The waterworks committee asked for further time to make a report on the cost and feasibility of installing a system of city water works. The importance of waterworks for fire protection and street sprinkling was discussed at length and the committee was given until the third Tuesday night in this month to make a complete report and a general invitation was extended the citizens of the town to meet with the club at that time to discuss the subject.

## MULLIN

From the Enterprise:  
Prof. A. H. Daniel spent Saturday in Brownwood.

Mrs. D. D. Martin of Goldthwaite spent Saturday and Sunday visiting relatives here.

S. H. Allen and family of Goldthwaite were in the city for a few hours Tuesday afternoon. The purpose of their visit was to secure a boarding place for their daughter who is to begin teaching in the Mullin school.

The little son of Mr. and Mrs. Bascom Templin that was so severely burned two weeks ago, was carried to Temple last Friday night for treatment. The latest reports from there are inclined to be encouraging, as the little fellow seems to be improving.

The stock of general merchandise formerly owned by Kemp Bros. sold at public auction last Monday and was purchased by Walker Smith Grocery Co., for \$1160. They are boxing them up for shipment to Brooksmith to be added to another stock they have there already.

B. P. Bell, who for several months has been conducting a grocery store here, has sold out to D. J. Lockett, who will continue the business in the future. We understand, however, that Mr. Bell will retain an interest in the business for a short time before finally turning it over to Mr. Lockett.

## FARM TERRACING

To Those Interested in the Terracing of their Farm.

Some time ago I made a statement in your paper that we hoped to procure the services of terracing expert for a short time and requested that those who were interested would notify me. So far I have received some 20 or 25 responses and regret that more farmers of this country do not seem to appreciate the great value of this opportunity and its work.

I am just informed that Mr. J. C. Olson, terracing expert from A. & M. college, will be with me on Monday and Tuesday of next week. We hope to hold a field meeting at Mr. J. S. Sealy's farm, at which time Mr. Olson will explain fully the process of terracing, and will outline the complete terracing of this farm as a demonstration for the benefit of those who are present. We shall expect to reach this farm by 10 o'clock a. m. Monday and insist that those who are interested will be present at that time. The work of this farm may hold us all day or longer, but when we are through with this farm it will be our purpose to visit other farms, and so continue until our time is fully spent.

Now I am especially anxious that the farmers of Mills county will see this work and have planned it accordingly. If you are interested be present.

Yours truly,  
O. H. ROBBINS, Special Agent.  
N. B.—The Sealy farm is about two miles north of Goldthwaite.

## PICKENS SPRINGS NEWS.

Editor Eagle:  
Seeing my letter in the Eagles columns last week gave me courage to write again. How many like poetry?

When I was but a wee little tot A plan to get out of dish washing I began to "plot"

The first mischievous thought that entered my mind

Was a good hiding place to find. So "Mother's Dish Washer" (I) the brat,

Entangled her foot in a trap set for a rat.

My select place was in the smoke house

Forgetting the trap mother set for the mouse.

Thinking my plans all over "again" I opened the door and entered in

But to my surprise as I closed the door

Something pulled me to the floor.

And then to tell my fearful feeling I haven't language to express

So will just have to let the reader guess.

I lay there yelling, knowing nothing else to do

Until mother came to my rescue. My eyes were swollen and my! what a skinned nose

And I suffered the effect of three broken toes.

She freed me from the trap and pitying me some too

Asked "What in the world I was trying to do."?

I didn't tell her now you may guess why

My plans were defeated and I continued to cry.

On entering the house mother tied up my toes

Wiped my swollen eyes and put some salve on my nose

Telling me then her very first thought Was "I broke the record of the largest rat caught."

So now when mother's orders are to the smoke house I go just as shy.

As a mouse, for let me explain it is wise to be shy providing a rat trap is any where nigh.

But I always stop at the door and look in "You bet"

To investigate and see where mother's rat trap is set.

May I ask why Uncle John our good writer of Ebony has forsaken us? While we enjoy the writing of No. 7 & 8, but would like to hear from Uncle John also

However, come ahead Rajn Bow of Live Oak aided by No. 7 & 8 of Ebony. Dish Washer aided by you two shall do our share in the trial to help entertain our welcome guest, the (dear) Eagle but lets not encourage Billy Buck for fear of his lengthy letters taking up our columns, but sure enough I would like for Billy to tell us how he is getting along since the war began. There are six reasons against the one-crop system. The soil is robbed of its fertility; weather conditions never continually favorable for a single crop; insects may cause the entire loss of a single crop; the single crop, harvested at one time comes at a time when the price is not favorable for selling; farm animals must be fed for entire year in order to work for the few months in the crop; and the single crop is always made on credit and when it is gathered it does not belong to the farmer who raises it.—Temple Telegram.

#### TRUTH TRIUMPHS

Goldthwaite Citizens Testify for the Publics Benefit.

A truthful statement of a Goldthwaite citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Goldthwaite citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?

C. W. Lindsey, officer, Goldthwaite says: "Doan's Kidney Pills were first recommended to me by a friend, and as I had been bothered with kidney trouble for ten years, I got a box at Clements' drug store. They did me a great deal of good. My back stopped paining me and I had less trouble from the kidney secretions. I always praise Doan's Kidney Pills when I have the opportunity in return for the benefit I had."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lindsey had. Foster-Milburn Co., Props., Buffalo, N. Y. (adv.)

#### WANTS SETTLEMENT

I am now preparing to make a change in my business affairs and it is important that those who owe me make settlement at once. It is desired that full payment be made on all accounts, but those who find it impossible to pay in full can certainly make satisfactory arrangements. J. H. LOGAN, M. D.

#### IT REALLY DOES RELIEVE RHEUMATISM

Everybody who is afflicted with Rheumatism in any form should by all means keep a bottle of Sloan's Liniment on hand. Your money back if not satisfied, but it does give almost instant relief. Buy a bottle to-day. (adv.)
