**SANDSTORM THIS WILL END NEAR SAM'S RANCH—RUST**

Following is from an article appearing in the San Angelo Standard and a statement by a San Angelo weatherer, who tells of the storm that fell near Williams in 1883, killing a family and two burros, and itself forty feet into the air covering five acres of land just as well be looked and preparing for sandstorm period for November will be the most active, that is, the most will carry in its make-up will throw larger stones than former years. Ranch will be destroyed. This will begin to gather on the Rio Grande, in the country. As indicated forecast this sandstorm beat itself into mad down the Rio Grande it will pick up yellow gravel and send it up 100 feet over Mount down through the Dams into Pecos Valley, all gather gray matter. The speed limit will be the danger point. It is way out of the Pecos over the crest of the rising all the time in to the great Concho down Hackberry and Draw, hanging fire will mess around over days and nights. All will run to cover, humanity wishing head, making life not finishing up here, no consolation in its track, in the neighborhood Williams Rancho in 1883, where the Joe Mullin fell in 1883, covering, killing a Mexican three burros and sinking feet in the ground. A defunct meteor fried lava for months and people traveled hundreds to see it. Stillness over the entire country as to get right and that he had said during. Then we will pray we have been deseked, our case is agn't send your Son, if, for it is a man's C. H. RUST.

**CEMETERY CHURCH.**

Sunday, the 20th, every evening until later, a special services will be held in Cemetery Church, every 30. The Reverend son of Santa Anna teacher, and judging expressions of opinion who have heard of Goldthwaite a treat.

Evening at seven fifth of the series of John Bunyon's "Pilgrimage" will be given. relieved the financial connection with ed lectures, so that given to the public section. A cordial waits you.

**SPECIAL MEETING MILLS COUNTY DEVELOPMENT ASSOCIATION MON. NIGHT**

At the weekly dinner of the Mills County Development Association held on Thursday of this week, it was decided to call a special meeting of the members to the court house on Monday night at 7 p. m. Special business is on foot and all members and friends of the association are urged to be present.

**FLYING SQUAD WILL BE ON STREETS TODAY FOR SALVATION ARMY DRIVE**

There is a certain class of people in this world who are admitted by every one as being ideal gloom chasers. Their life is optimistic in every detail and for any one to be around them for a little time they cannot help but catch the spirit that radiates from them. Under this class it is generally conceded by the man on the streets, the Salvation Army lives and has its being. Many things have elapsed since William Booth the founder of the Army, started preaching the gospel of good cheer in the slum localities of London, England, but the outcome of his dreams; namely, the Salvation Army, is functioning for the same purpose of uplift that he spent his life on. The tambourine, which typifies the Salvation Army and was once such a familiar object in any corps, is now a thing of the past. Instead of depending upon the uncertain generosity of the public, the Salvation Army has borrowed a leaf out of Uncle Sam's pocketbook.

Instead of soliciting subscriptions as they did in former years, they now assess the counties that are willing to support them a certain sum and if the counties reach that figure they will be free from importuning for a number of years.

At the advisory board convention of the southwestern district of Texas recently held in Fort Worth, amongst other delegates from other counties Mills county's quota was fixed at \$500. Hence the purpose of this drive.

The man in the streets and his wife will be met on Saturday afternoon by a flying squad of high school pupils from the Goldthwaite High School and will be given the opportunity to donate what he wants to contribute to the general quota.

Let's all get together and help put this thing over so that we may think back on it as being a creditable performance of Mills county.

**CEMETERY ASSOCIATION.**

There will be a meeting of the Cemetery Association in the ladies rest room at the court house next Monday afternoon at 4:15.

MRS. E. B. ANDERSON, President.

**INSTITUTE AT MULLIN WAS A GREAT SUCCESS.**

The first meeting of the one-day county institute is a thing of the past. It will, no doubt, be recalled many times by those who were present. The mere recalling of the day, or the reference to any events which took place will no doubt arouse a spirit of satisfaction in those who were present.

Long before the appointed time for the opening, scores had arrived for the occasion. By 10 o'clock the auditorium of the high school building was filled to capacity. Almost every community in the county was represented, even the four corners of this great commonwealth.

The program was carried out as scheduled with very little change. It was a source of great inspiration from the beginning. Every one seemed to cooperate and coordinate in making the day one of lasting good.

Dr. Brooks, of Howard Payne College, who gave a lecture on the two-fold nature of teaching, said that the peculiarity of the meeting made it somewhat of a novelty to him, inasmuch as it was not only a meeting of teachers but of patrons and pupils as well. He said that he saw no reason why the plan should not be a great success and that lasting good should be accomplished.

The hearty welcome and the royal entertainment which Mullin gave the teachers made them wish to come to Mullin again in such a capacity, but justice and the fact that other schools wish this novelty passed around, it was decided to give Star the privilege of entertaining next time, which will be December 3.

It is hoped that all teachers and hundreds of patrons and children will give this day to the better school movement. Come, even if you do not say anything—your presence will be an inspiration to others.

**GRAMMAR SCHOOL HONOR ROLL.**

The following are the names of pupils who made an average of 85 percent and over in the Grammar schools of Goldthwaite:

- First Grade:** Alta Mae Diviney, Ruby D. Featherston, Ellen Flucker.
- Second Grade:** James Newton Mullin, Virginia Littlepage, Jennie Adele Atkinson.
- Third Grade:** Leata Simpson, Beatrice Hendry, Herman Ross, Fay Hill.
- Fourth Grade:** Lena Mae Casbeer, Jessie Ward, Georgia Wilcox, George McClellan.
- Fifth Grade:** Ernest Linkenhoger, Earl Littlepage, Maggie Leonard, Ruby Lee Dickerson.
- Sixth Grade:** Rena Featherston.
- Seventh Grade:** Lois Keese, Ione McClellan, Beulah Baker, Joy Puckett.

**HORNSBY CASE NOT YET DECIDED BY THE COURT**

Among the cases argued in the Court of Criminal Appeals at Austin Wednesday of this week, was the case of George F. Hornsby from Bell county. Arguments were made by attorneys for the state and defense. No decision has as yet been announced by the court.

The case of J. N. Gunn, tried in Bell county immediately before the Hornsby case, was reversed and remanded by the court.

**HALLOWE'EN PARTY.**

From every part of the globe, in response to an invitation of the Parents and Teachers Club of Goldthwaite, came the Spooks, Witches, Goblins and "orful things" to the court house last Monday night. They came singly and in groups, all dressed in their full regalia, and a large crowd of good people from all over the county came out to meet and fraternize with them, believing it to be a good plan to be on friendly terms with these mischievous and sometimes vindictive people.

Refreshments of various kinds were served by the members of the club in the different rooms of the court house, and every one, including the guests who were on their best behavior, and in a good humor, had a hilarious time until about eight p. m., when all repaired to the Dixie Theatre, where they were entertained by a delightful program by the students of our school under the direction and training of the teachers and Mrs. J. A. Gillespie and Miss Sophia Martin. The Spooks, Witches, Goblins and "orful things" were so delighted with the reception they received and especially the children, that they aided and assisted them with the evening's entertainment by frequently appearing on the stage, and revealing to the audience many of the secret entertainments of their ancient and mysterious orders, to the great delight of the children and also the grown-ups.

The proceeds of the evening netted the club \$105.00 and will be expended in the purchase of much needed supplies for the school.

The members of the Club desire to thank Mr. Griffith, the proprietor of the Dixie Theatre, for the many courtesies shown, and Mrs. Gillespie and Miss Martin for the valuable assistance and encouragement given.

The writer, however, feels that the people of Goldthwaite are more than grateful to the Parents and Teachers Club and especially to Mrs. J. M. Campbell, its president, for her enthusiastic assistance for the splendid program, and for the interest they are taking in the public school and the advancement of the children of the city.

**WELL KNOWN SPEAKER IS COMING TO DISCUSS THE DAIRYMAN'S PROBLEMS**

Texas is a wonderful state. She is first among the states in the production of cotton; she is first in beef cattle; she is first in the raising of mules and third in horses. But she is fifth in dairy cattle and thirty-ninth in number of dairy cattle on the farm. This fact presents great opportunities. Let us make her a leader in dairying also.

The average number of dairy cattle to the farm in the United States is 3 2-3. In Texas it is only 2 2-3, less than the national average.

Dairy farmers are prosperous men. A dairy community is a prosperous community. The dairy cow pays a dividend every day. What she produces today is sold tomorrow. The spread between what the producer receives and what the consumer pays is probably less than that of any other farm product. Dairying not only enriches and builds up soils, but builds up intelligence in men. Its duties are such that your children will find time to acquire an education.

H. A. Clapp, of the extension service of the Texas Creamery Company has been secured to conduct, in co-operation with local committees, a big community meeting in Goldthwaite on November 10, at 8 p. m. At this meeting the various subjects of dairy farming will be discussed.

Mr. Clapp is a practical southern dairy farmer. He knows from actual experience how to produce dairy products at a profit. He knows how to ship such products. He can tell you how to cull out unprofitable cows, how to breed up your herd to a good productive average. He will judge your cows. He is coming to this county at the invitation of local people to aid us by practical experience in the solution of some of our problems. He was for some time with the extension service of the Texas A. & M. College and was a member of the States Relations Service of the United States Department of Agriculture and for two years president of the Texas Dairymen's Association. He has a real message to deliver in an interesting manner.

The meeting promises to be one of the season's events. Admission is absolutely free and everybody is invited and will be welcomed. Make arrangements now to attend this meeting and learn the way out.

**ALL-DAY POULTRY SCHOOL AT COURT HOUSE IN GOLDTHWAITE NOVEMBER 15**

F. W. Kazemeyer, extension poultry specialist, will hold a poultry school at the court house in Goldthwaite on Tuesday, November 15. The school will be open at nine o'clock and continue throughout the day. Lessons will be given on culling and hens will be handled by those present. Feeding for egg production will be treated at length. He will also give instructions on selection and care of breeding stock.

Everybody is cordially invited to bring lunch and spend the day. It is your good fortune to have the opportunity of hearing such a man as Mr. Kazemeyer. Don't miss it. He will be at the court house on the 16th. A number of our poultry raisers are planning to attend both schools.

**ARMISTICE DAY, NOVEMBER 11TH**

Our bank will observe Armistice Day in honor of America's great part in the great victory of the World War. President Harding will ask every person in the United States to pause a few moments on that Famous Day in honor of the great heroes, either living or dead, of the World War. Our World War commander, Marshall Foch, will be a guest of our Nation on that Memorable Day to help honor the living and the dead heroes of the World's Victorious Armies.

LET US ALL OBSERVE "ARMISTICE DAY" IN THE TRUE SPIRIT.

**LUCKY STRIKE**  
CIGARETTE

As he slept in the hay mow a troop of Mexican soldiers attacked the hacienda and Jack Hoxie volunteered to defend the home of the Mexican rancher who had given him shelter. After the battle, Jack Hoxie discovered a dead horse in an arroyo. He was amazed at the beauty of the saddle that was strapped to the dead pony and promptly salvaged it as a "souvenir of the little war" he says.

## JACK HOXIE HAS SILVER MOUNTED SADDLE ONCE OWNED BY BANDIT VILLA

A silver mounted Mexican saddle, once owned by Pancho Villa, the "border tiger," will be seen in every episode of "Thunderbolt Jack," the thrilling western serial starring Jack Hoxie, which will be exhibited at the Dixie Theatre beginning Monday, November 28. While punching cattle years ago down by the Rio Grande, Jack Hoxie crossed the border after a few "strays." He lost his way and was obliged to seek lodging at an abode many miles from home.

As he slept in the hay mow a troop of Mexican soldiers attacked the hacienda and Jack Hoxie volunteered to defend the home of the Mexican rancher who had given him shelter. After the battle, Jack Hoxie discovered a dead horse in an arroyo. He was amazed at the beauty of the saddle that was strapped to the dead pony and promptly salvaged it as a "souvenir of the little war" he says.

It was not until he had started production on "Thunderbolt Jack" that Mr. Hoxie found out that the saddle belonged to Villa. In one of the scenes in this serial, Jack's horse, "Inyo," threw him with such force that the pommel of the saddle was torn off, dislodging a neatly engraved silver plate underneath bearing Pancho Villa's name.

"When Villa gives up peacefully and is hung for wrecking Columbus, N. M. I'll donate the saddle to his heirs. Until then I'll keep it," says Jack.

### How Not to Take Cold.

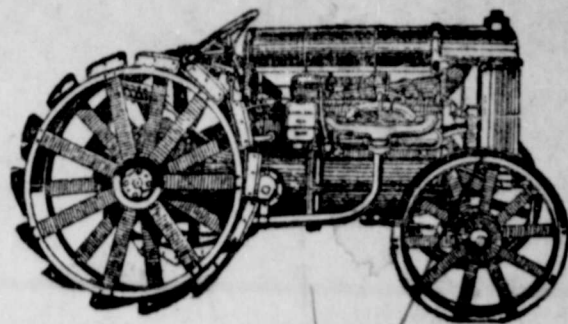

Some persons are subject to frequent colds, while others seldom, if ever, have a cold. You will find that the latter take good care of themselves. They take a shower or cold sponge bath every day in a warm room, avoid over-heated rooms, sleep with a window open or partly open, avoid excesses, overeating, becoming overheated and then chilled and getting the feet wet. Then, when they feel the first indication of a cold, they take Chamberlain's Cough Remedy without delay and it is soon over. Sold by Hudson Bros. Drug Store.—Adv.

Rusty nail wounds, festering sores, burns and scalds heal rapidly when Liquid Korozone is applied. It is both antiseptic and healing. Price, 30c, 60c, and \$1.20. Sold by R. E. Clements.—Adv.

Texaco Gasoline and oils are the best.—Weatherby Auto Company. If you expect us to stay with you, pay us.—Archer Grocery Co.

that has ever been made by any re-  
ligious body in America for the eradica-  
tion of disease, Southern Baptists,  
through their Home Mission Board,  
have undertaken the task of combat-  
ing tuberculosis in the 18 states com-  
prising the territory of the Southern  
Baptist Convention. The first step in  
this direction was the recent estab-  
lishment on a tract of 143 acres at El  
Paso, Texas, of the Southern Bap-  
tist Sanatorium, where \$500,000 from  
the 75 Million Campaign has been in-  
vested and where \$500,000 more will  
be placed by the end of the Campaign  
period. The institution is located at  
an altitude of 4,500 feet on the side of  
Mt. Franklin and commands an excel-  
lent view of the mountains of New  
Mexico, Western Texas and Old  
Mexico, whose border is only six miles  
distant. Dr. H. F. Vermillion is super-  
intendent.

Included in this plant at present are  
the administration building, the newly  
completed women's infirmary and  
men's infirmary, a heating and re-  
frigerating plant and the superintendent's  
quarters. Provided for in the  
building plans for the future are a  
medical and educational building,  
nurses' home, children's building,  
dormitories for convalescent patients,  
an occupational and vocational therapy  
building, chapel, laundry and minor  
structures.

150 People Die Daily.

Indicating the need of additional ef-  
fort looking to the elimination of tu-  
berculosis in the South, reliable fig-  
ures gathered by the public health  
agencies of the South and the Nation  
show that there are 150 deaths daily  
from tuberculosis in the 18 states  
comprising the territory of the South-  
ern Baptist Convention, making the  
annual death toll of the white plague  
in this section of the country alone

57,782. The death rate from tuber-  
culosis is 14.2% higher in the South  
than in the Nation as a whole. One  
reason for the exceedingly high death  
rate in the South is the great preva-  
lence of the plague among the negroes  
who are especially susceptible to tuber-  
culosis, the death rate among them  
being three and one-half times that  
among the whites. But inasmuch as  
the negroes will doubtless continue to  
be intimately associated with the  
whites in domestic and other work in  
the future, the whites will never be  
safe from infection until the negroes,  
as well as the whites, have been freed  
from the plague.

It has been estimated that the to-  
tal economic loss from the ravages  
of tuberculosis in the South is \$175,-  
000,000 a year, and in projecting their  
warfare against the plague the Bap-  
tists hope to greatly reduce this loss,  
as well as to save the life and promote  
the health and general efficiency of  
the whole people.

Would Educate the People.

In addition to providing treatment  
for persons who have already occa-

tracted tuberculosis, the sanatorium is  
carrying on an educational work that  
seeks to inform the public at large  
through the printed page, as to the  
danger of tuberculosis, how it can be  
avoided and how, once it is con-  
tracted, its progress can be arrested  
through proper sanitary measures at  
home. Other phases of the educa-  
tional program include the training  
of workers inside the sanatorium and  
occupational and vocational work for  
patients. The extension department  
is widely disseminating literature  
on how to combat tuberculosis. An en-  
dowment fund that is being created  
for the institution will make possible  
a much larger circulation of literature  
and will also enable the institution to  
take care of indigent patients.

The sanatorium is at present seek-  
ing to devise special plans whereby  
it can serve the negroes of the South  
in combating tuberculosis. It is felt  
that the negroes' inability to help  
themselves in the matter entitles them  
to this consideration and that this  
assistance should be given, further-  
more, as a means of self-protection on  
the part of the whites.

Other Phases of Baptist Work.

In addition to the Tuberculosis  
Sanatorium, Southern Baptists have a  
string of seventeen regular hospitals  
in operation and seven others under  
course of construction. This hospital  
property is valued at approximately  
\$7,000,000 and these institutions last  
year treated 40,000 patients many of  
them being charity cases. Southern Bap-  
tists also operate 19 orphanages in  
which approximately 5,000 orphan boys  
and girls are cared for, educated and  
trained for Christian citizenship.

**Theford's Black-Draught Highly  
Recommended by a Tennessee  
Grocer for Troubles Re-  
sulting from Torpid  
Liver.**

East Nashville, Tenn.—The effi-  
cacy of Theford's Black-Draught, the  
genuine, herb, liver medicine, is  
vouched for by Mr. W. H. Parsons, a  
grocer of this city. "It is without  
doubt the best liver medicine, and I  
don't believe I could get along without  
it. I take it for sour stomach, head-  
ache, bad liver, indigestion, and all  
other troubles that are the result of  
a torpid liver.

"I have known and used it for years,  
and can and do highly recommend it  
to every one. I won't go to bed with-  
out it in the house. It will do all it  
claims to do. I can't say enough for  
it."

Many other men and women through-  
out the country have found Black-  
Draught just as Mr. Parsons describes  
—valuable in regulating the liver to  
its normal functions, and in cleansing  
the bowels of impurities.

Theford's Black-Draught liver medi-  
cine is the original and only genuine.  
Accept no imitations or substitutes.  
Always ask for Theford's. E. S.

**350 DISASTER DEATH  
TOLL FOR ONE YEAR**

Red Cross Gives \$1,371,000 Re-  
lief When 65,000 Families  
Are Made Homeless.

Forty-three disasters, resulting in  
the death in the United States of 350  
persons and the taking of 2,500 cattle  
for emergency relief purposes on the  
expenditure of \$18,1600 by the  
American Red Cross during the fiscal  
year ending June 30, 1921, says a  
announcement based upon the final  
coming annual report of the Red Cross.  
These disasters caused property da-  
mage estimated at \$70,000,000, affected  
sixty-seven communities and rendered  
85,000 families homeless.

The year's disasters were of var-  
ing types, including several which pre-  
viously had never been thought of  
as falling within their classifica-  
tion. The Red Cross furnished  
relief in seventeen cases of man-made  
floods, seven tornados or ec-  
cisions, one devastating storm, three  
explosions, including the one in Wa-  
shington, one building accident, two  
epidemic diseases, the most serious be-  
ing that at Salina, Ohio, which af-  
fected 9 per cent of the population,  
one smallpox epidemic, in the republic  
of Haiti, one train wreck, the race riot  
at Tulsa, Okla.; the famine in China,  
and one relief in famine among the  
Indians of Alaska, the grasshopper  
plague in North Dakota and an earth-  
quake in Italy.

**Public Most Serious**  
By far the most severe of the dis-  
asters in the United States during the  
period covered by the Red Cross re-  
port was the Pueblo flood early in  
June, 1921. The rehabilitation prob-  
lem confronting the Red Cross in  
Pueblo was one of the most difficult  
in recent years. When the first news  
of the horror was dashed throughout  
the country, the American Red Cross  
National Headquarters responded with  
a grant of \$105,000 for relief work.  
Governor Shoup of Colorado, appre-  
ciating the long and successful experi-  
ence of the Red Cross in organizing  
disaster relief work, placed the en-  
tire responsibility for the administra-  
tion of relief in its hands.

In response to appeals from Pres-  
dent Harding, Governor Shoup and  
other governors of western states and  
through local chapters of the Red  
Cross and other community organiza-  
tions, public-spirited citizens brought  
the total contributed for Pueblo's re-  
habilitation to more than \$325,000.

The terrible havoc wrought by the  
flood waters is a matter of record.  
More than 2,300 homes were affected  
and 7,351 persons were left homeless.  
Estimates of \$500,000 as an absolute  
minimum for rehabilitation were made  
by Red Cross officials in charge of the  
relief work.

**CAMEL QUALITY**

We worked on Camels for years before we put them  
on the market. Years of testing—blending—experi-  
menting with the world's choicest tobaccos.

And now, EVERY DAY, all our skill, manufactur-  
ing experience and lifelong knowledge of fine tobaccos  
are concentrated on making Camel the best cigarette  
that can be produced.

There's nothing else like Camel QUALITY. And  
there's nothing else like Camels wonderful smoothness,  
fine tobacco flavor and FREEDOM FROM CIGA-  
RETTY AFTERTASTE.

That's why Camel popularity is growing faster than  
ever.

A better cigarette cannot be made.

We put the utmost quality into  
THIS ONE BRAND.

... were on the ...  
utes after the disaster occurred.  
race riot at Tulsa also was unique  
disaster relief annals in that outside  
of a small emergency relief fund cre-  
tributed by the Red Cross, the en-  
relief measures outside the city ex-  
sisted of the service of social wor-  
ers, nurses and a trained exerci-  
whose object was to assist local fore-  
in directing their own efforts.

In decided contrast with the pre-  
vious year, only one tornado assailed  
the proportions of a major disaster.  
This occurred on April 15, in the bor-  
der sections of Texas and Arkansas  
with the city of Texarkana as the  
center. The significant feature of the  
disaster relief work was the fact that  
it covered so much rural territory  
to make necessary a large number of  
relief workers.

The famine in China, necessitating  
relief expenditures totalling more than  
\$1,000,000 by the American Red Cross  
was by far the most serious of the  
foreign disasters in which the Red  
Cross gave aid.

**Builds Up Its Machinery**  
In connection with the adminis-  
tration of disaster relief measures, an  
increasing effectiveness on the part of  
the Red Cross to deal with emer-  
gencies was manifested during the past  
year. In 328 Chapters of the Ameri-  
can Red Cross there have been formed  
special committees to survey the re-  
sources of their respective communi-  
ties and to be prepared in case of  
disaster. In others of the 3,402 active  
Chapters, a network of communication  
has been formed through which instan-  
taneous relief may be dispatched to  
any part of the United States.

That its work in this field may be  
continued with ever greater effective-  
ness, the American Red Cross is ap-  
pealing for widespread renewal of  
membership during its Annual Roll  
Call, to be conducted this year from  
November 11 to 24.

**LIFE SAVING CORPS  
ENROLLMENT 10,000**

Growth of Red Cross Life Saving  
Corps throughout the country con-  
tinued unabated during the last fiscal  
year, a summary of the year's  
achievements by that Red Cross Ser-  
vice shows. There are now 160 Corps  
with a total membership of more than  
10,000 members, of which 1,276 are  
sufficiently skilled in the work to act  
as examiners. Among the outstanding  
achievements of the Red Cross in this  
field during the last year was the or-  
ganization at the United States Naval
